The Graduate School

Introduction

Volume 61, March 2020

This catalog supersedes Volume 60, of the Southern Illinois University Carbondale Bulletin.

Graduate School Phone: 618-536-7791

Web: gradschool.siu.edu/

This publication provides information about Southern Illinois University Carbondale. Primary attention is given to its academic programs, rules and regulations, and procedures. Students will be subject to the published requirements in effect when they are admitted to the Graduate School. Students beginning graduate work during the period of time from the start of summer session 2020 through spring semester 2021 are subject to the academic requirements of the Graduate School as specified in this publication. These requirements may be superseded by future publications of the Graduate Catalog. If the requirements are subsequently changed, students may elect either to meet the requirements in force in their particular degree programs immediately prior to the change, or to meet the new requirements. If they elect the former option they shall be guaranteed a minimum period of time from the date that the program requirements were changed within which minimum period they will be permitted to complete the old degree requirements.

This minimum period shall be determined by the department or other degree-program unit, subject to the following two constraints. First, the minimum period prescribed by the department may not exceed the standard Graduate School limitation that credit applied toward fulfillment of requirements for the master's degree must have been earned within a six-year period preceding the completion of the degree, and that doctoral students must complete degree requirements within five years after admission to candidacy. Second, the minimum period shall encompass no less than two years for master's degree students and three years for doctoral students, with the exception that students in the last stage of their degree work when requirements change (a master's student who has completed all requirements except the thesis or research report and the final examination or a doctoral student who has been admitted to Ph.D. candidacy) shall not be subject to the new requirements but may complete their degrees within the standard Graduate School limitations stated above. Students who elect to follow old requirements, but do not complete their work within the minimum period prescribed by the department, shall, unless they were in the last stage of their degree work when requirements changed, be subject to requirements in force at the time they complete their degrees, and shall be subject to the standard Graduate School limitations described above. The University reserves the right to change information contained herein on matters other than curricular requirements without notice when circumstances warrant such action.

Affirmative Action Policy

It is the policy of Southern Illinois University Carbondale to provide equal employment and educational opportunities for all qualified persons without regard to race, color, religion, sex, national origin, age, disability, status as a protected veteran, sexual orientation, gender identity, pregnancy, or marital status. The University is committed to the principles of equal employment opportunity and affirmative action

and will continue to conduct all personnel actions in accordance with the letter and spirit of applicable state and federal statutes and regulations, including Executive Order 11246 as amended. Personnel actions include, but are not limited to, recruitment, hiring, position assignments, compensation, training, promotion, tenure consideration and award, retention, layoff, termination, and benefits.

The University recognizes that the barriers of race, color, religion, sex, national origin, age, disability, status as a protected veteran, sexual orientation, gender identity, pregnancy, or marital status of some individuals have resulted in their denial of full participation in all societal functions and is, therefore, committed to taking affirmative steps aimed at overcoming such historical patterns of discrimination in our society. The University's affirmative action program identifies special actions intended to bring such groups into full participation in all aspects of University life. Through its affirmative action program, Southern Illinois University Carbondale is committed to:

1. increased numbers of minorities, females, individuals with disabilities, and protected veterans in all aspects of SIUC employment with special procedures applicable to those positions determined to be underutilized for minorities, females, individuals with disabilities, and protected veterans;
2. cultural and educational diversity in the curriculum and environment of the University;
3. removal of barriers to, minorities, women, protected veterans and individuals with disabilities, and
4. support of the principles of equal opportunity and affirmative action in an effort to redress the consequences of past societal discrimination and to maintain a positive non-discriminatory educational environment.

The responsibility for coordinating and monitoring compliance with the University's equal employment opportunity/affirmative action policies is assigned to the University Affirmative Action Officer. Implementing and assuring compliance with these policies is the responsibility of the Associate Chancellor for Institutional Diversity and each vice chancellor. In addition, each dean, director, or other staff member involved in the recruitment and hiring process must ensure compliance with the spirit as well as letter of the policies and procedures. Many involved in the staff selection process assume that others are responsible for the success of the affirmative action program. It is a basic assumption of SIUCarbondale's Affirmative Action Office that all administrative levels and especially deans, directors, chairs, faculty and all hiring administrators are responsible for fostering and enhancing institutional diversity.

The initiating hiring officer has the primary responsibility for maintaining the integrity of these affirmative action policies and procedures and is ultimately accountable for attaining diversity within his or her staff.

The University's ADA, §504, Title IX and Sexual Harassment coordinator is Associate Chancellor for Institutional Diversity, 110 Anthony Hall, Mail Code 4341, Southern Illinois University Carbondale, 1265 Lincoln Drive, Carbondale, IL 62901. Phone: 618/453-1186.

Southern Illinois University

Mission Statement

SIU embraces a unique tradition of access and opportunity, inclusive excellence, innovation in research and creativity, and outstanding teaching focused on nurturing student success. As a nationally ranked public research university and regional economic catalyst, we create and exchange knowledge to shape future leaders, improve our communities, and transform lives.

Southern Illinois University has entered its second hundred years of teaching, research, and service. At the outset of the 1970's, Southern Illinois University became a single state system with two universities: Southern Illinois University Carbondale and Southern Illinois University Edwardsville. Southern Illinois University Carbondale also has a medical school campus in Springfield.

Southern Illinois University Carbondale (SIUCarbondale) first operated as a two-year normal school, but in 1904 became a four-year, degree-granting institution. In 1943, SIUCarbondale was transformed from a teacher-training institution into a university, thus giving official recognition to the area's demand for diversified training and service. Graduate work was instituted in 1943, with the first doctoral degrees granted in 1959. There has been diversification and expansion of graduate programs across the University through the Colleges of Agricultural Sciences, Applied Sciences and Arts, Business, Education and Human Services, Engineering, the Graduate School, School of Law, Liberal Arts, Mass Communication and Media Arts, Science, and the School of Medicine. Combined, these colleges presently offer over 110 graduate degree programs.

In keeping with the state's master plan, and with a commitment to enhance its Carnegie Doctoral/ Research-Extensive University status, the University's objective is to provide a comprehensive educational program meeting as many individual student needs as possible. While providing excellent instruction in a broad range of traditional programs, it also helps individual students design special programs when their interests are directed toward more individualized curricula. The University comprises a faculty and the facilities to offer general and professional training ranging from two-year associate degrees to doctoral programs, as well as certificate and non-degree programs meeting the needs of persons not interested in degree education.

Enrollment

In fall semester 2019, of a total enrollment of 11,695, SIU had 2,634 registered graduate students (*1,855 master's, 779 doctoral*).

Location

Carbondale is approximately 100 miles southeast of St. Louis, Missouri. Immediately south of Carbondale begins some of the most rugged and picturesque terrain in Illinois. Sixty miles to the south is the historic confluence of the Ohio and Mississippi rivers, the two forming the border of the southern tip of Little Egypt, the fourteen southernmost counties in Illinois. Within ten miles of the campus are located two state parks and four recreational lakes and much of the area is a part of the 263,000 acre Shawnee National Forest.

Campus

The Carbondale campus, comprising more than 3,290 acres, has developed a 981 acre portion with woods and a lake as a site for its academic buildings and residence halls. The buildings are located in wooded tracts along two circular shaped campus drives, named for Lincoln and Douglas.

The Graduate School

The primary concerns of the Graduate School are graduate instruction and research. The Graduate School, therefore, plays an essential role in the development of instructional and research programs, in the acquisition of funds, and in the procurement of facilities necessary to encourage and support research by members of its scholarly community. Through faculty, staff, and students, the Graduate School makes its contribution to the public welfare of the region, state, nation, and international community.

The Graduate School offers master's degrees in over eighty programs and doctoral degrees in over thirty programs. Graduate students pursue advanced study and research under the leadership of a graduate faculty of over 900 members. In addition, the Schools of Law and Medicine provide graduate students with additional opportunities in instruction and research. The Graduate School administers programs in the Colleges of Agricultural Sciences, Applied Sciences and Arts, Business, Education and Human Services, Engineering, the Graduate School, School of Law, Liberal Arts, Mass Communication and Media Arts, Science, and the School of Medicine.

Within these colleges and schools are departments whose distinguished faculty offer inspired teaching, conduct innovative research, and facilitate student services from admission to placement. The University has an excellent library and has a very good computing facility. For further information, see Academic Resources in the Academic Policies, Requirements, and Procedures tab on the Graduate Catalog homepage. In addition to the excellent research conducted in the colleges and schools, SIU operates a number of research and service centers, most of which have been established with the aid of outside funding. These centers also are described under Academic Resources.

Board of Trustees and Officers of Administration

Board of Trustees of Southern Illinois University

J. Phil Gilbert, Chair, Carbondale
Ed Hightower, Vice-Chair, Edwardsville
Roger Tedrick, Secretary, Mount Vernon
Edgar Curtis, Springfield
Brione Lockett (Student Trustee), Carbondale
Mackenzie Rogers (Student Trustee), Edwardsville
Subhash Sharma, Carbondale
Amy Sholar, Alton
John Simmons, Alton

Misty Whittington, Executive Secretary of the Board of Trustees

Luke Crater, General Counsel

Duane Stucky, Board Treasurer

Officers of Administration, Southern Illinois University

Daniel Mahony, President

Jim Allen, Vice President for Academic Affairs

Duane Stucky, Senior Vice President for Financial and Administrative Affairs

John Charles, Executive Director for Governmental and Public Affairs

Deans of Colleges and Schools

William Banz, College of Agricultural Sciences, Agriculture Building

Andy Ju An Wang, College of Applied Sciences and Arts, Applied Sciences and Arts Building

Terry Clark, College of Business, Rehn Hall

Matthew Keefer, College of Education and Human Services, Wham Education Building

John J. Warwick, College of Engineering, Engineering Building

Stephen Shih, Graduate School, Student Services Building

Camille Davidson, School of Law, Lesar Law Building

Andrew Balkansky, College of Liberal Arts, Faner Hall

John Pollitz, Library Affairs, Morris Library

Deborah Tudor, College of Mass Communication and Media Arts, Communications Building

Jerry Kruse, School of Medicine, Wheeler Hall

Scott Ishman, College of Science, Neckers Building

Graduate Degrees Offered

Graduate Degrees Offered

The Graduate School offers the Master's, Master of Fine Arts, Doctor of Philosophy, and Doctor of Education degrees. In several of the programs listed below, one or more concentrations are available.

Master's Degrees

Master's degrees are available in the approved programs listed below:

ABBREVIATIONS

Master of Accountancy, M.Acc.

Master of Architecture, M.ARCH.

Master of Arts, M.A.

Master of Arts in Teaching, M.A.T.

Master of Business Administration, M.B.A.

Master of Engineering, M.E.

Master of Fine Arts, M.F.A.

Master of Health Administration, M.H.A.

Master of Health Informatics, M.H.I.

Master of Music, M.M.

Master of Public Administration, M.P.A.

Master of Public Health, M.P.H.

Master of Science, M.S.

Master of Science in Education, M.S.Ed.

Master of Science in Physician Assistant, M.S.P.A.

Master of Social Work, M.S.W.

Professional Science Masters, P.S.M.

Accountancy	M.Acc.
-------------	--------

Advanced Energy and Fuels Management	P.S.M.
--------------------------------------	--------

Agribusiness Economics	M.S.
------------------------	------

Animal Science	M.S.

Theater	M.F.A.
Workforce Education and Development	M.S.Ed.
Zoology	M.S., P.S.M.

Note:

See Mass Communication and Media Arts for Cinema and Photography, Interactive Multimedia Journalism, and Telecommunications.

See Kinesiology for Physical Education.

See Molecular, Cellular, and Systemic Physiology for Physiology.

Doctoral Degrees

Doctor of Philosophy (Ph.D.) degrees are available in the fields listed below along with the approved concentrations:

Agricultural Sciences

Anthropology

Applied Physics

Business Administration

Chemistry

Communication Studies

Computer Science

Criminology and Criminal Justice

Economics

Education

- Counselor Education
- Curriculum and Instruction
- Health Education
- Quantitative Methods
- Special Education
- Workforce Education and Development

Electrical and Computer Engineering

Engineering Science

English

Environmental Resources and Policy

- Climatology

- Earth and Environmental Processes
- Ecology
- Energy and Mineral Resources
- Environmental Policy and Administration
- Forestry, Agricultural, and Rural Land Resources
- Geographic Information Systems, Remote Sensing and Environmental Modeling
- Water Resources

Geosciences

Historical Studies

Mass Communication and Media Arts

Mathematics

Molecular Biology, Microbiology, and Biochemistry

Student Responsibility

Student Responsibility

Students are responsible for knowing degree requirements and enrolling in courses that will enable them to complete their degree programs. It is also their responsibility to know the University regulations for the standard of work required to continue in the Graduate School. For information, consult both the general and specific degree requirements enclosed in this publication. Additional details about requirements and procedures are available from your graduate advisor or the Graduate School.

Human Subjects

Before the start of any research involving human subjects, the research project must be reviewed by the SIU Human Subjects Committee (an Institutional Review Board). If your master's or doctoral project will involve human subjects (including, but not limited to, administering questionnaires, conducting interviews, or accessing confidential databases), you must submit an application to the committee prior to the start

of the research. Call 618/453-4533 for information or visit their website at ospa.siu.edu/compliance/human-subjects/. When you submit your master's thesis/research paper or doctoral dissertation to the Graduate School, you must include documentation from the HSC that the project has been reviewed and the outcome of that review. The committee cannot retroactively approve research that has already begun or been completed. If the correct documentation is not included, your master's research paper/thesis or doctoral dissertation cannot be accepted by the Graduate School.

Animal Care

The SIU Institutional Animal Care and Use Committee (IACUC) was formed to establish and enforce ethical, humane guidelines for the use of live animals in research at the University. The committee reviews all protocols involving the use of vertebrate animals for training, research, and testing to assure compliance with humane standards and federal regulations. Researchers with projects involving animals must submit a completed Animal Use Protocol form for the committee's review. Graduate students may not be listed as the principal investigator on an IACUC protocol. Approval of the protocol is required before the animals can be used for training, research, or testing purposes. The Laboratory Animal Program is accredited by the Association for Assessment and Accreditation of Laboratory Animal Care International. For more information, contact the Institutional Animal Care and Use Committee at 618/453-4533 or the Laboratory Animal Program at 618/536-2346 or visit the website at iacuc.siu.edu.

Other Research Compliances Applicable to Research Include:

- Hazardous Materials and research utilizing Controlled Substances
- Recombinant or Synthetic Nucleic Acids, Dual Use Research of Concern, and Select Agents
- Radiological Safety
- Stem Cell Research
- Responsible Conduct of Research

Students should discuss these compliances with their advisor. Additional information is available at ospa.siu.edu/compliance. Contact the Center for Environmental Health and Safety at 618/453-7180 or the Office of Sponsored Projects Administration at 618/453-4540.

Student Rights and Responsibilities

The Office of Student Rights and Responsibilities (SRR) serves as a resource for the University community in understanding and applying the Student Conduct Code. The office strives to enhance a sense of community, accountability and responsibility. This is accomplished through educational outreach, one-on-one interactions with students and the enforcement of educationally based sanctions to address violations of the Student Conduct Code and other University policies. SRR works to balance the individual needs of each student with the needs of the academic community to find positive outcomes for all involved parties. If you have questions about the Student Conduct Code, your rights as a student, or if you believe a student has violated the Student Conduct Code or another policy, please call our office at 618/536-2338 or visit us online at srr.siu.edu. All students are responsible for knowing and following the Student Conduct Code which is available on the SRR website.

Degree Requirements

Degree Requirements

The following section describes Graduate School regulations unique to the master's and the doctoral degrees. For Graduate School procedures and regulations applicable to all graduate students, regardless of degree program, the student should consult the tab titled "General Regulations and Procedures". For information about specific degree programs, the student should consult the departmental degree program description.

Master's Degree Program

Requirements and admission policies for applicants to a master's degree program are elaborated in the following paragraphs.

Admission

In order to be admitted to a degree program, an applicant must meet Graduate School admission requirements and be approved by the department or degree program concerned.

The Graduate School requires an applicant hold a bachelor's degree from an accredited institution or have completed all undergraduate degree requirements prior to the beginning of classes for the term for which admission is sought and have completed all undergraduate degree requirements.. The applicant must have earned a grade point average (GPA) of 2.70 or better (A = 4.00) on approximately the last 60 semester hours of undergraduate coursework. Applicants to master's degree level study may be considered for admission with a transcript missing the last semester of bachelor's work.

An applicant who is a U.S. citizen or permanent resident and whose GPA is below 2.70 may be admitted as a nondeclared student and may later apply to a degree program when 9 or more graduate semester hours of graded graduate work at SIU have been completed. A minimum GPA of 3.00 is required in courses for which grades of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, F have been assigned. Please note that some U.S. citizens and permanent residents may be required to meet the Graduate School's English language requirement.

Any applicant who has completed 9 or more semester hours of graded graduate work at an accredited U.S. educational institution, and who has a GPA of 3.00 or better on all graduate work, may be exempted from the 2.7 undergraduate grade point average requirement.

Any student with fewer than 9 hours of graduate work may be admitted to the Graduate School on the basis of undergraduate GPA only.

General Requirements

Graduate credit earned in graduate courses for which the student has received grades of A+, A, A-, B+, B, B-, C+, C, C-, or S, and only such credit, is acceptable for master's degree programs. At least 21 semester hours of graduate credit with grades of A+, A, A-, B+, B, B-, C+ C, or C- must be earned in courses graded A through F. For accelerated master's programs, these 21 hours can include the 9 hours of undergraduate course work that are being counted toward the Master's degree. An overall grade point average of at least 3.00 in all graduate work is required before the degree can be awarded.

All graduate applications are required to have a decision made by the 10th day of the semester for which application was made. If a decision is not made by the 10th day of the semester for which application was made, applications will be withdrawn. The Graduate School requires a minimum of 30 semester hours of acceptable graduate credit for the master's degree. Since certain degree programs require more than 30 hours, the student should consult the description of the appropriate program for specific requirements. No more than half of the credit applied toward fulfillment of the master's degree requirements may be earned at other universities and transferred to SIU.

At least nine hours of credit must be earned after admission to the degree program.

In addition, at least 50% of degree hours must be earned in courses numbered 500 or above, and completed at SIU.

Students are not allowed admission into and cannot take courses in two different academic levels at the same time, unless admitted into an approved concurrent degree program.

Candidates for a master's degree are required to pass a comprehensive examination covering all of their graduate work, including the thesis. This examination may be written or oral, or both, as determined by the student's advisory committee.

Time Limits

A student has six calendar years to complete the degree. This time is calculated from initial enrollment to completion of all degree requirements including any document that must be approved by the Graduate School. This time limit includes courses taken either at SIU or elsewhere. All students must remain registered until completion of their degrees. [Additional information is available here.](#)

Thesis

Each candidate for a master's degree shall write a thesis except where a graduate program has been approved to provide some other arrangement, such as a research paper. The thesis shall be supervised by a committee of at least three members of the graduate faculty and may be counted for not more than six nor less than three semester hours of credit. Only members of the committee may vote or make recommendations concerning acceptance of the thesis and final examination. A student will be recommended for the degree only if the members of the committee, with at most one exception not to include the committee chair, judge both the thesis and the performance at the final oral examination to be satisfactory. In cases where a committee of more than three has been approved, the requirement of not more than one negative vote will still apply.

All students admitted in a graduate program must continuously enroll except for summer. The enrollment can be in classes or in [Continuing Enrollment 601](#).

An electronic pdf version of the approved thesis must be presented to the Graduate School by the stated deadline date. There is a library fee, and if copyright is desired, an additional fee is required.

For non-thesis programs, a research paper should show evidence of the student's knowledge of research techniques and should be based on a special project or specific courses as may be recommended by the advisory committee. An electronic copy of the research paper must be filed in the Graduate School by submission at Open SIU by the stated deadline date. Departments with a non-paper option for a master's degree will have other requirements.

Double Major for a Master's Degree

A student may earn a double major for a master's degree if such a program of graduate study is commensurate with the student's vocational and professional goals.

A student interested in pursuing a double major for a master's degree must submit to the graduate dean the program of study endorsed by the chairperson of both of the cooperating units. The forms for submitting a double major program of study are available in the Graduate School Admissions Office, 1263 Lincoln Drive, Room 310 or online at gradschool.siu.edu/_common/documents/DoubleMajor.pdf.

Requirements for a Double Major for a Master's Degree:

1. The student must have been admitted to one master's degree program.
2. Each unit in which the student wishes to earn a major must have an approved master's degree program.
3. The chair of each unit must endorse the proposed program.
4. The proposed program must specify the title of the degree which is to be awarded.
5. The proposed program must be approved by the graduate dean.
6. At least 18 semester hours must be earned for each major, and one-half of the required coursework for each major must be in courses numbered 500 or above.
7. The minimum number of hours required for the double major must total 60 percent of the sum of the total required for the two majors individually.
8. The thesis may be counted for not more than a combined total of six nor less than three semester hours of credit.

Second Master's Degree

A student may earn a second master's degree if the second degree is offered by an academic unit different from that of the first master's degree. None of the hours used towards any previous degree will be allowed to count as a part of the total number of hours toward a second master's, and all regulations shall apply to the second master's degree exactly as they would if this were a first master's degree.

Concurrent Master's Degrees Program

A concurrent master's degrees program permits students to be enrolled at the same time in two academic departments, which have an approved concurrent degrees arrangement with each other, and earn two master's degrees.

Academic departments, upon approval of the Graduate Council, may establish a concurrent degrees program. Concurrent master's degrees programs will only be approved if they can be shown to enhance graduate students' educational experiences and professional opportunities. Furthermore, concurrent degrees programs must meet the following requirements:

1. Students must obtain admission to both academic departments and must be formally admitted to the concurrent degrees program prior to completion of the master's degree requirements for either of the participating academic departments.
2. Students are required to complete all core requirements of each master's program.
3. Students are required to earn no less than 80 percent of the total number of semester hours required in the master's degree programs of each of the participating academic units. A total of nine hours may be shared.

Concurrent Master's Degrees Programs

- Agribusiness Economics and Business Administration (M.S./M.B.A.)
- Mass Communication and Media Arts and Business Administration (M.A./M.B.A.)
- Health Education (MPH/PhD)

Concurrent Master's and Law Degrees Programs

- Accountancy and Law (J.D./M.Acc.)
- Business Administration and Law (J.D./M.B.A.)
- Educational Administration and Law (J.D./M.S.Ed.)
- Electrical & Computer Engineering and Law (J.D./M.S.)
- Higher Education and Law (J.D./M.S.Ed.)
- Public Administration and Law (J.D./M.P.A.)
- Social Work and Law (J.D./M.S.W.)

Concurrent Master's and Medical Degree Program

- Master's of Public Health and Medical Degree (M.P.H./M.D.)

Summary of Master's Degree Requirements

- At least 30 hours of graduate credit, or the minimum number of hours required by the specific degree program.
- Grade point average of at least 3.00.
- At least 50% of degree hours must be earned in courses numbered 500 or above, which must be completed at SIU.
- At least nine hours after admission to the degree program.
- At least 21 hours of graduate coursework graded A+, A, A-, B+, B, B-, C+, C, or C-.
- At least one-half of the required number of hours earned at SIU.
- Courses to be applied to the degree taken within six years of conferring the degree.
- Transfer credit taken at another institution or as a nondeclared student approved by the dean of the Graduate School.
- Electronic submission of an approved thesis (pdf version) or an approved research paper (pdf version) (not applicable for M.B.A., M.Acc., or M.S.W. programs, and non-paper options).
- Comprehensive or oral examination.
- Submission of departmental clearance form.
- Registration in 601 Continuing Enrollment, as required.

Doctoral Degree Program

Admission

Admission to a doctoral program in the Graduate School normally requires a master's degree or its equivalent, a grade point average in graduate work of at least 3.00, and acceptance by the academic unit offering the doctoral program. Faculty of a degree program-unit may add its own grade point average requirements (above the Graduate School minima) for admission to that particular program. Applicants to doctoral level study may be considered for admission with a transcript missing the last semester of master's work. Current SIU Master's students must be cleared for graduation before Matriculation into a doctoral program will be allowed.

Direct Entry into a Doctoral Program

Direct entry is possible into previously approved doctoral programs upon recommendation of the department and acceptance by the Graduate School. Applicants with exceptional research potential or outstanding academic preparation may have the option to enter a doctoral program after completion of a bachelor's degree only. No previous course work at the graduate level is allowed. Students admitted via direct entry will not receive a master's degree. The program must be approved for direct entry and the student must have at least a 3.00 GPA on approximately the last two years of undergraduate course work.

Accelerated Entry into a Doctoral Program – for SIU Graduate Students

Students currently enrolled in a master's program at SIU may be considered for accelerated entry into previously approved doctoral programs, upon the recommendation of the department and acceptance by the Graduate School. At least one semester of course work must have been completed in a master's program at SIU, and a minimum grade point average of at least 3.00 must have been earned in all graduate course work (this includes graduate course work completed at other institutions). Once approved for accelerated entry, students will not receive a master's degree. Course work completed in a master's degree program cannot be counted toward residency requirements for a doctoral program. All requests for accelerated entry must be processed by the Graduate School by the 10th day of the semester for which the student wishes to be accelerated.

Accelerated Entry into a Doctoral Program – for Non-SIU Graduate Students

Students enrolled in a master's program at a U.S. educational institution other than SIU may also be considered for accelerated entry into previously approved doctoral programs, upon the recommendation of the department and acceptance by the Graduate School. At least one semester of course work must have been completed in a master's program at another institution, and a minimum grade point average of at least 3.00 must have been earned in all graduate course work. Once approved for accelerated entry, students will not receive a master's degree.

All requests for accelerated entry must be processed by the Graduate School by the 10th day of the semester for which the student wishes to be accelerated.

General Requirements

The doctoral degree is awarded for high accomplishment in a particular discipline or a recognized interdisciplinary area, as measured by the student's ability to pass the preliminary examination for admission to candidacy, meet the research tool requirement of the program, perform a piece of original research, present the results in proper form in a dissertation, and defend the dissertation before a faculty committee. Except for the hours required to meet residency and required 24 hours of dissertation, there is no Graduate School requirement that a certain number of semester hours be taken for the doctorate although some degree programs do require a certain number of semester hours. Graduate

work completed at another institution may be eligible for transfer to the student's doctoral program, subject to Graduate School regulations regarding transfer of credit and acceptance by the student's major department. Transfer credit cannot be applied toward residency.

No doctoral level residence-credit program may be established off campus, although coursework involved in a doctoral program may be taken at an off-campus residence center provided that the full, normal requirement of residence on campus at SIU is met under the usual Graduate School standards for doctoral programs. However, established cooperative programs with SIU Carbondale and SIU Edwardsville permit students to be enrolled in courses and earn credits either at SIU Carbondale or SIU Edwardsville.

Preliminary Examination

The student will generally prepare for this examination through independent study and coursework, as advised by the faculty of the doctoral program. The examination is given to determine the breadth and depth of the student's knowledge within the discipline. The particular form and content of the examination are determined by the faculty of each of the doctoral programs. The student will be permitted to take the preliminary examination at the discretion of the department, after having completed two years of full-time study or its equivalent beyond the baccalaureate.

Research Tool Requirement

The doctorate at SIU is a research-oriented degree. The research tool requirement is intended to be an integral part of the student's program. Since research materials, problems, and techniques vary from discipline to discipline, the details of the research tool requirement are determined by the faculty of each of the doctoral programs.

Residency

The residency requirement for the doctorate must be fulfilled after admission to the doctoral program and before formal admission to doctoral candidacy. The residency requirement is satisfied by completion of 24 semester hours of graduate credit on campus as a doctoral student within a period not to exceed four calendar years. No more than six hours of deferred dissertation credit may be applied toward fulfillment of the 24 semester hours residency requirement. No doctoral student should be permitted to sign up for more than six hours of dissertation until candidacy has been achieved. Any dissertation hours registered for above the six permitted prior to candidacy will not be counted toward completion of the doctoral degree. Credit earned in concentrated courses or workshops may apply toward fulfillment of the residency requirements if the student is concurrently registered for a course spanning the full term. No more than six semester hours of short course or workshop credit may be applied to the 24 semester hours residency requirement.

Admission to Candidacy

Admission to candidacy is granted by the dean of the Graduate School upon recommendation of the faculty responsible for the student's program, after the student has fulfilled the residency requirement for the doctoral degree, passed the preliminary examination, and met the research tool requirement of the program. The doctoral degree may not be conferred less than six months after admission to candidacy, except upon approval of the dean of the Graduate School. The candidate must fulfill all requirements for the degree within a five-year period after admission to candidacy. If completion of requirements is delayed beyond five years, a student may be required to take another preliminary examination and be admitted to candidacy a second time. All candidates must remain registered until completion of their degree. See section "Continuing Enrollment Requirement".

Dissertation

After being admitted to candidacy, the student must complete a dissertation showing that the student is capable of independent research or other creative effort. A successful dissertation usually represents the most extensive and intensive scholarly work the student has performed to date. Completing the dissertation will lead the student up to the cutting edge of research (however defined by the discipline) conducted at that time in his or her field of research. A dissertation must address a significant question and demonstrate that its author can interpret findings and formulate conclusions that are the result of independent thinking and sustained evaluation of source materials. These findings must be expressed in clear and grammatical language that is well organized into cogent and coherent argument. A dissertation that contains the student's published or in press manuscripts, or excerpts from these manuscripts, shall, in the preface, describe these materials and their contribution to the dissertation. In the case of multi-authored manuscripts, the student's contribution to each such manuscript must be clearly delineated in the preface and attested in a separate statement by the chair of the dissertation committee addressed to the Graduate School. The dissertation shall be supervised by a faculty committee which has been approved by the dean of the Graduate School. This committee shall consist of five or more graduate

faculty members, at least one of whom shall be from a graduate program outside the student's academic unit. The student's academic unit shall be understood to mean the department (or equivalent units) and any member outside the department is eligible to serve as the outside member providing that the department and the graduate dean agree.

While working on the dissertation, the student must register for the course numbered 600. The student is to devote at least one academic year of full-time work to complete the dissertation and will register for 24 semester hours of dissertation credit, for example, 12 hours for each of two terms.

Students who have registered for 24 semester hours of dissertation credit and have not completed the doctoral dissertation are subject to the continuing enrollment requirement described within the tab titled "General Regulations and Procedures".

Publication of the doctoral dissertation to insure its availability to the scholarly community is considered an integral part of the process of doctoral education. Students must submit their dissertations electronically (pdf) to ProQuest for publishing. An abstract of the dissertation will be published in Dissertation Abstracts International.

The student must submit electronically a pdf version of the dissertation acceptable to the Graduate School, along with an abstract. There is a library fee for binding. If copyright is desired, an additional fee will be required. The Survey of Earned Doctorates is completed and submitted online.

The abstract will be published in the current Dissertation Abstracts International and the dissertation will be cited in American Doctoral Dissertations and Comprehensive Dissertation Index. A copy of the dissertation will be placed in the Library of Congress archives. This service assures the student that the dissertation will be available to other researchers at no further personal expense to the student.

If the student elects to use the copyright service, copyright will be obtained in the student's name. Publication rights, other than for reproduction in microform or from microform, are the student's to assign to any publisher at any time. In addition, arrangements can sometimes be made for University Microfilms to publish a small edition of the dissertation.

Final Examination/Oral Defense

There will be a final oral examination administered by the student's doctoral dissertation committee. The examination will cover the subject of the dissertation and other matters related to the discipline. Any member of the graduate faculty may attend the final oral examination and may participate in questioning and discussion, subject to reasonable limitations imposed by the chairperson of the committee, but only members of the committee may vote or make recommendations concerning acceptance of the dissertation and final examination. A student will be recommended for the degree only if the members of the committee, with at most one exception, judge both the dissertation and the performance at the final oral examination to be satisfactory. In cases where a committee of more than five members has been approved, the requirement of not more than one negative vote will still apply.

Interdisciplinary Doctor of Philosophy Programs

These guidelines provide for interdisciplinary doctoral programs for a limited number of students whose educational requirements can be met by existing resources, but not exclusively by any one of the University's constituent units. Interdisciplinary doctoral programs will be instituted in response to the particular academic interest of individual students, not as programs of a permanent nature. The procedures and criteria given below govern the authorization and control of interdisciplinary doctoral programs:

1. After admission to an established doctoral program at SIU and upon the recommendation of the chairperson or adviser of that program, a student may apply for an interdisciplinary doctoral program to the dean of the Graduate School.
2. The dean of the Graduate School will apply the following criteria in deciding whether a program committee should be established to consider the proposed interdisciplinary doctoral program.
 - a. The requisite staff must be available.
 - b. The library holdings must be adequate without unreasonable additions.
 - c. The program must lie within the recognized disciplines or fields of study, at least one of which offers the doctoral program.
3. If the dean of the Graduate School is satisfied that the proposed program satisfies these criteria, the dean shall form a special program committee of five members, at least three of whom shall be from units offering the doctorate.
4. If the committee approves the proposed program, a plan of study shall be developed that includes the following elements:

- a. Fields or areas of study
 - b. Required courses
 - c. Languages or other research tool requirements
 - d. Dissertation subject
 - e. Preliminary examination
5. The program as approved by the committee and accepted for principal sponsorship by a unit with an approved doctoral program shall be submitted to the dean of the Graduate School. Upon final approval the student's program shall have the same binding effect upon the Graduate School as programs printed in the graduate catalog. The degree earned shall carry the title of the doctoral unit that has assumed principal sponsorship. The commencement program shall give specific indication that the degree is interdisciplinary and include a listing of those units that are substantively involved in addition to the principal sponsoring unit, as determined by the graduate dean.
 6. When the committee has certified all the required performances, including the results of examinations, the committee shall be dissolved.

Concurrent Doctoral and Law Degrees Programs

Political Science and Law (J.D./Ph.D.)

Cooperative Doctoral Degree Programs between SIU Carbondale and SIU Edwardsville

A cooperative doctoral program between SIU Carbondale and SIU Edwardsville permits classified graduate students to be enrolled in certain designated courses at either SIU Carbondale or SIU Edwardsville and earn credit in partial fulfillment of the doctoral degree requirements at SIU Carbondale. The following SIU Carbondale doctoral programs have approved cooperative agreements with SIU Edwardsville:

- Educational Administration Ph.D.
- Engineering Science Ph.D.
- Historical Studies Ph.D.
- Computer Science Ph.D.
- Environmental Resources and Policy Ph.D

Summary of Doctoral Degree Requirements

- Achievement of a grade point average of at least 3.00.
- Completion of any specific courses required by the doctoral program.
- Fulfillment of the residency requirement.
- Completion of the research tool required by the doctoral program.
- Passing of the preliminary examination.
- Admission to candidacy
- Completion of an approved dissertation with 24 hours of dissertation credit.
- Oral defense of dissertation.
- Electronic submission of dissertation (pdf version) to the Graduate School.
- Completion of Survey of Earned Doctorates.
- Degree conferred not less than six months nor more than five years after admission to candidacy.
- Submission of departmental clearance form.
- Registration in 601 Continuing Enrollment, as required.

General Regulations and Procedures

This section includes Graduate School procedures and regulations applicable to all graduate students regardless of degree classification. Requirements unique to the master's and doctoral degrees are stated in the section titled [Degree Requirements](#). For information about specific degree programs, the student should consult the appropriate degree program description. Requirements unique to the non-degree classifications are stated in the section in this page titled "[Nondeclared Students—Non-Degree](#)".

Application for Graduate Study

Information regarding graduate degree programs offered at SIU can be found on the [Graduate School home page](#). Under the Admissions section, see the link "[Academic Degree Programs](#)"; there is basic information relating to each program – areas of interest, graduate tests required, terms for which that program admits students, application deadlines, and departmental contact information.

Applying to a Degree Program

The online application for admission to the Graduate School can be found on the [Graduate School home page](#). This application is required for admission to all programs and allows the student to upload most of their application materials and submit them electronically. Check your own department's home page for a list of required materials.

Some items, such as official transcripts, portfolios and official test scores, may need to be mailed directly to the department. See the Degree Programs section on the home page under "Departmental Contact Information" for where such materials should be mailed for each department.

Items routinely uploaded are: unofficial copies of test scores such as the GRE, GMAT, MAT and TOEFL / IELTS, unofficial copies of transcripts, Statements of Purpose, any other materials required by your particular department; Financial Statements/ Bank Statements for international applicants, as well as copies of passport pages for applicants and any dependents. Contact information for persons being asked to provide letters of recommendation may be entered, and then recommendations may be submitted online by those persons.

In addition, some departments may also have a departmental application form, which may be linked to the Graduate School online application.

Application Fee

The Graduate School requires a non-refundable application fee of \$65 which must be submitted with the Application for Admission to Graduate Study. If you are applying to more than one program, a fee must be paid to each program. McNair and Fulbright Scholars should submit proof of participation in that program directly to the Graduate School in order to be considered for an application fee waiver. The application fee is subject to change without notice.

Transcripts

Students are required to submit official transcripts from all schools attended during their undergraduate study and also for all graduate work completed. Any student wishing to be considered for Graduate School fellowships must submit to the department an official transcript for every course taken as an undergraduate and/or graduate student.

All transcripts submitted for admission to a degree program must be sent directly to the department to which a student is applying. See departmental contact information for a complete mailing address.

Students applying for nondeclared admission are only required to send one official transcript showing either a bachelor's, master's or Ph.D. earned. They should be sent directly to Graduate School Admissions - Nondeclared, 1263 Lincoln Drive, Room 310, Mail Code 4716, SIU, Carbondale, IL 62901. Any transcripts submitted in person must be received by the student directly from the institution attended, and must be submitted to the Graduate School in a sealed envelope.

Transcripts submitted will not be returned nor forwarded to other institutions.

In accordance with the Family Education Rights and Privacy Act of 1974, no non-Southern Illinois University person, firm, or agency may have access to an applicant's or a student's credentials without written consent of the individual concerned. Graduate students shall be permitted to examine their own records upon request. Such requests should be made by the student to the Dean of the Graduate School.

Test Scores

The Graduate School does not require any graduate tests for admission. (However, if you intend to apply for a fellowship, you will need a standardized test to qualify.) Individual departments may require, at their discretion, the GMAT, GRE, MAT, or other appropriate standardized tests for admission. Students should check the website of the department to which you are applying or contact the department directly for more information. Information is also listed on the Graduate School home page under "Degree Program Information", but should be verified by the department.

Deadlines

While the Graduate School does not have an application deadline, many departments do. The deadlines may be as early as December 1st for the following fall semester. Please check the department to find out what application deadlines they may have. These deadline dates are also listed under "Degree Program Information" on the Graduate School home page, but should be verified with the department. Regardless of any deadlines, applicants should submit materials to the department as far in advance as possible, to have the best chance to be considered for admission and funding.

Requirements

The admission requirements of the Graduate School and the department must both be met before the student is admitted to a degree program, and both the Graduate School and the department may specify

admission conditions. Most departments require additional materials such as letters of recommendation; these should be forwarded directly to the department or submitted online by the recommender. The student will be informed by the Graduate School of the resultant admission status after this process has been completed.

Terms of Admission

Please note that some departments may not admit students for all semesters. Some allow admissions for fall semester only, some for summer only, and some for fall and spring terms only. For more information, students should check with the department to which they are applying or also check the [Graduate School home page](#) for "Degree Program Information".

Updating Admission for Future Terms

All admissions are for the specific term indicated. Should a student wish to change their admission to a future term, they must contact the Director of Graduate Studies in the department to which they are applying. The petition to change can only be granted within one calendar year of the initial admission term and only with the agreement of the department and the Graduate School. Official transcripts will be required for any course work completed since the original application. After one year, the student must submit a new application and new application materials. International students may be required to submit a new TOEFL score and/or update financial documents in order to defer admission to a later term.

Admission of Faculty Members

No one who holds a faculty appointment at any of the academic ranks—lecturer, instructor, assistant professor, associate professor, and professor—shall be admitted to a graduate degree program at any level, or be eligible to register for courses to be taken for graduate credit, in the graduate degree program in which the faculty member holds the appointment. If a faculty member has been admitted to a graduate degree program in some unit other than the one in which such appointment exists, no member of the faculty of the unit in which the appointment is held may be a member of that colleague's thesis committee, graduate program committee, dissertation committee, or any other examining committee. (See also faculty appointments in the section titled Financial Assistance.)

Admission of International Students

This school is authorized under federal law to enroll nonimmigrant international students. A student from abroad is subject to all requirements for admission established by the Graduate School. For other information concerning international students, applicants should contact the Graduate School Admissions Office, 1263 Lincoln Drive, Room 310.

To allow ample time for visa and other departure procedures, the applicant should have an application and all supporting documents on file with the University no less than six months prior to the proposed entry date. Some departmental deadlines may require an even earlier application.

Prior to admission to a degree program, the applicant will be required to certify that personally adequate financial resources will be available to undertake and continue in a program of study.

International students must be enrolled in a program leading to a graduate degree. They cannot be admitted as nondeclared students.

Test of English as a Foreign Language (TOEFL)

All applicants whose native or first language is not English must take the TOEFL test no more than 24 months prior to the term for which the applicant is seeking admission. A minimum TOEFL score of 550 (paper); 80 (internet) is required for Graduate School admission; higher scores may be required for admission into specific degree programs. The IELTS exam is also acceptable (an overall band score of 6.5). The English language requirement may also be met by the iTep Academic Plus Exam (5.0) or the Cambridge English Exam (C1).

Exemptions to the TOEFL requirement are: (1) an applicant who has recently completed a bachelor's degree (completion of at least 60 semester hours of graded coursework) at an accredited institution in the United States with continuous residence in the United States prior to application at SIU; (2) an applicant who was awarded a master's degree at an accredited institution in the United States, and who has been in residence in the United States continuously prior to application to SIU (not out of the country for more than one calendar year).

Official TOEFL scores will be sent only to the Graduate School Admissions Office. A photocopy of the student's examinee score report should be uploaded with other materials in the online application.

Conditional Admission of International Students

Conditional admission of international students will be considered on an individual basis. The student must apply to a program which requires only the Graduate School minimum TOEFL score of 80 on the

TOEFL exam. Departments which require a higher TOEFL may not use this option; for those programs, the required score must be submitted in advance before an application will be considered. Please note that some programs will not allow this option.

Before this option can be considered, the student must submit all required application materials to the department, including a recent TOEFL, however low. Departments may confer with the Graduate School Admissions Office with regards to using this admissions option. The student must be acceptable for admission based on all other academic criteria, with the possible exception of a graduate test score such as the GRE or MAT. Graduate admissions will coordinate with the CESL Office to arrange for the student's enrollment in CESL classes, and will issue a Training Language I-20, along with a conditional admission letter guaranteeing the student admission to the graduate degree program following successful completion of all required English language courses, submission of the required TOEFL score and all other required documents.

Academic Requirements

If a foreign-born applicant has recently completed a bachelor's degree program at an accredited institution in the United States of America (minimum of 60 hours of graded coursework; proficiency credit, pass/fail or satisfactory/unsatisfactory grades are not counted), the applicant may be given the same consideration for admission to a graduate degree program as a United States citizen who has continuous residence in the U.S. prior to application to SIU, in regard to both academic requirements and the use of English as a foreign language.

Applicants who have completed the equivalent of a four year bachelor's degree at a recognized institution in any other country must have an academic record equivalent to a 2.70 grade point average (A = 4.00) on their last two years of study for admission to a master's degree program. A minimum GPA of 3.00 is required on all graduate work completed regardless of whether or not a degree is completed.

The determination of the applicant's grade point average shall be the responsibility of the Graduate School.

Applicants for doctoral programs must meet the regular academic requirements for admission to a doctoral program.

Qualification for Assistantship with Teaching Duties

Every non-native English speaker assigned a graduate assistantship with teaching duties must pass an examination of oral English skill before undertaking classroom duties.

There are two parts to the exam: an interview and a teaching sample. The procedures for this exam are described below. The exam is given by a two person committee: one department representative and one representative from the Graduate School, the Center for Teaching Excellence, or other appropriate designated reviewer.

The interview begins by asking the student general information. The interview covers reasons for choosing Southern Illinois University, the student's chosen field of study and major emphasis, plans for graduation and the future, and also information about the nature of the projected teaching assignment.

For the teaching sample, the student gives a 10 to 15 minute teaching presentation on a topic related to his/her assistantship duties. The interviewers act as potential students in the relevant setting, asking the kinds of questions likely to be posed by students in such a setting.

Upon completion of the oral exam, the interviewers rate the student independently on three sets of scales:

1. comprehension (how well the student understood what was asked);
2. speaking/fluency (how grammatically and fluently the student spoke);
3. pronunciation/accent (is the accent a barrier to communication).

The result of the oral interview is a consensus of all three interviewers, arrived at immediately upon comparison of the ratings.

There are three outcomes for the exam:

1. Pass, which allows the student to serve as a teaching assistant without restriction.
2. Conditional assignment, which limits the student's potential assignments. Limits are specifically tailored to the student's performance level, e.g., (for example: grading only, help sessions, laboratories under close supervision, one-on-one tutoring sessions, or to relatively advanced classes within the major subject).

3. Failure

Students who fail, or are given a conditional assignment, may be re-tested the next semester or when potential teaching assignments change.

The Graduate School sends letters detailing the results of the examination to the student's academic department, and a copy is placed in each student's graduate assistant file.

Registration

Only those students who have been officially admitted by the Graduate School will be permitted to register.

Some degree programs require their students to have a Registration User Number (RUN) before registration. Please consult the designated major department about advisement. Nondeclared, non-degree students are technically self-advised and may begin registration for the admitted semester after the registration period begins.

The Schedule of Classes for a particular semester is available online at registrar.siu.edu/schedclass.

Students are strongly encouraged to complete their registration before the beginning of classes. After the first week of classes, registration or program changes involving adding a course must have the written approval of the instructor of each course as well as the approval of the Graduate School and cannot be done through SalukiNet. A student must submit a Course Request Form signed by the instructor(s) to the Registration Office in Student Services Building Room 324 to register. A \$15 late fee is charged if not already registered.

Students should consult the [SIU Schedule of Classes](#) for each semester to find deadlines and dates for registration.

Registration Methods

During the advance registration period (see [registration calendar](#) for dates in the SIU Schedule of Classes Information) graduate students may register by several methods described below. Nondeclared students may use any of the methods. Degree-seeking students may be required by their departments to have a RUN number.

Web Registration

Nondeclared students and degree-seeking students will register online via SalukiNet at salukinet.siu.edu. To begin the registration process, a student needs a network ID and a password. To claim your Dawg Tag go to netid.siu.edu. If a student is not yet admitted to the Graduate School or does not have department approval to register or there is some other problem, the student is ineligible to register.

Registration at the Graduate School

The Graduate Registration Office is located in Student Services Building Room 324. After the first week of classes, all students must register in person from 8 a.m. to 4:30 p.m., Monday through Friday. After the first week of classes, students are required to have the instructor's and the graduate dean's permission to add courses and must come to the office to process a registration or add. The Graduate School Course Request Form is at http://gradschool.siu.edu/_common/documents/course-request.pdf. Drops are to be processed online through week 10 for full semester classes or drop deadlines for shorter classes. The drop deadline for full semester classes is week two to be eligible for a full refund.

Late Registration

A late registration fee of \$15 shall be assessed to all students taking on-campus classes who register the first day of classes or later. This fee shall be non-refundable and cannot be waived, except when it is clearly shown that the late registration was caused by faculty or administrative action. Off-campus classes and registration in 599, 600, and 601 shall be exempt from such fee.

Other Types of Registration in Graduate Courses

The following discussion concerns students who are either nondeclared for various reasons or are undergraduates wanting to take graduate-level courses.

Nondeclared Students—Non-Degree

A person may apply for admission to the Graduate School as a nondeclared student when the applicant does not seek a graduate degree or has applied too late to be admitted to a degree program for the term for which admission is sought, or does not meet the minimum GPA requirements for admission to a graduate degree program at this time.

Students applying for admission as a nondeclared graduate student who hope to obtain admission in a particular department at a later date, should meet with the Director of Graduate Studies in that department before registering for courses and seek information as to what courses they may take which would be counted towards degree requirements if they are admitted to the program later. Once the student is enrolled in the department, the department must petition the Graduate School that graduate courses completed while a student was nondeclared be counted toward fulfillment of degree requirements. The student will be subject to the rules and regulations of the Graduate School and the department concerned including the completion of at least nine hours after being admitted to a master's degree program from nondeclared status.

Please note that nondeclared graduate students are not eligible for Graduate School fellowships or tuition waiver scholarships. Contact the Assistantship Office for details. Loans may be available for one 12 month period only, beginning when the student first enrolls in the nondeclared category and ending 12 months later. To determine eligibility, contact the Financial Aid Office.

Regular Nondeclared

A person who seeks admission as a regular nondeclared graduate student must have been awarded a bachelor's or higher degree. A student admitted as a regular nondeclared student may enroll in graduate courses as long as the student meets retention standards of the Graduate School. Please note that funding is not available after one year after date of admission.

Temporary Nondeclared (classes taught off-site or web-based programs only)

A student may register as a temporary nondeclared student for one semester only with departmental approval. If the student wishes to enroll in graduate courses after this time period, the student must apply for and be admitted either to a degree program or to regular nondeclared status. Complete admission materials must be submitted before subsequent registrations will be allowed.

Undergraduate Student Registration in Graduate Courses

Graduate Credit

An undergraduate student who wishes to register for a graduate course (400- or 500-level course) for graduate credit must file the standard application for admission to the Graduate School and submit a request for graduate credit. Forms are available at <https://gradschool.siu.edu/about-us/forms.php> under 'Registration Forms'. If the student is academically eligible for admission to a degree program, the student will be allowed to register as an undergraduate for graduate courses for graduate credit when within 12 semester hours of completing requirements for the bachelor's degree. Permission of the instructor teaching the course must be obtained, and for 500-level courses, the permission of the Chair of the department offering the course.

An undergraduate student who meets these qualifications will be allowed to take graduate courses for graduate credit for one semester. If, at the end of the term, the student has not received the bachelor's degree, permission to enroll in graduate courses for graduate credit will be withdrawn until after the bachelor's degree has been conferred. Graduate credit cannot be granted once a semester is complete.

All requests for graduate credit as an undergraduate must be processed by the Graduate School by the 10th day of the semester for which the student wishes to register.

Undergraduate Credit

The Graduate School has the responsibility of approving the registration of undergraduate students in 500-level courses for undergraduate credit. Undergraduate students should only be encouraged to take 500-level courses if they are properly qualified. In dealing with these requests the following procedures must be followed.

The student must:

1. Have a GPA of 3.0 or higher.
2. Receive approval from the chair of the department offering the course.
3. Receive approval from the instructor of the course.
4. Submit a registration form signed by the undergraduate academic advisor.

The two forms required for this request are available at <https://gradschool.siu.edu/about-us/forms.php> under Registration Forms.

Forms need to be submitted to the Graduate Registration Office in the Student Services Building Room 324.

School of Law Courses

A graduate student may enroll for graduate credit in designated law courses if the student has permission of the dean of the School of Law and the dean of the Graduate School. Registration must be processed through the Graduate School and the grades will be reported on the Graduate School letter grade system (A+, A, A-, B+, B, B-, C+, C, C-, etc.).

A law student may register for law credit in graduate courses with approval of the dean of the School of Law and the graduate dean. Registration must be processed on School of Law forms and the grades will be reported on the Graduate School letter grade system.

A law student may not register for graduate courses for graduate credit unless the student has been admitted to the Graduate School in an approved concurrent program.

Residence-Center Credit

Credit earned at approved graduate residence centers will be entered on a student's record as on-campus credit earned at SIU.

Students enrolled for credit in approved residence-center master's degree programs or in specific residence credit courses must have been officially admitted (either in a degree program or nondeclared) to the Graduate School at SIU. For information about specific programs and courses, the student should consult the appropriate department.

Graduate Student Course Loads

Financial Aid Awards

For financial aid awarding purposes, the following defines the number of semester hours for full-and half-time:

Financial Aid Awards - Semester Hours

Status	16-week Semester	8-Week Session
Full-time	12	6
Half-time	6	3

Graduate students enrolled in fewer than six hours for fall and spring semesters or three hours for summer session are not eligible to obtain student loans.

Enrollment Certification

The following semester hours of credit are to be used to certify full-time and half-time attendance of graduate students.

Enrollment Certification - Semester Hours

Status	16-week Semester	8-Week Session
Full-time	9 or more hours*	3 or more hours
Half-time	6 hours	Less than 3 hours
Less than half-time	Less than 6 hours	

*Students who hold at least a quarter-time (25% FTE) graduate assistantship are considered as full-time if they have a minimum of 8 semester hours.

Minimum and Maximum Course Loads

Maximum coursework for graduate students is 16 hours each semester; 9 hours is considered a normal load. The minimum and maximum loads for graduate students under various types of financial support are summarized below, a graduate student must enroll in graduate-level course(s) (typically a 400- and 500-level course; certain 400-level courses are not available for graduate credit.) Please consult the Graduate Catalog for available 400-level graduate courses. Audit work will not qualify to meet the minimum load. An exception to the 16 credit hour maximum load may be possible only with advanced written permission of the graduate dean.

Graduate students with a Graduate Assistantship must enroll in a minimum of eight graduate credit hours during the fall/spring to receive a full tuition waiver. During the summer, a minimum of three graduate credit hours are required to receive a tuition waiver for up to 9 hours. Students with a Graduate

Fellowship or SIU Scholarship must enroll in a minimum of nine graduate credit hours during fall/spring and three during summer.

Grad Assistantship - Minimum Hours

Type of Financial Support	16-Week Semester		8-Week Session	
	Max	Min	Max	Min
No financial support	16		9	
Graduate Assistantships				
1/2 time appointments	16	8	9	3
1/4 time appointments	16	8	9	3
Full-time University employees	6		6	
Graduate Fellowships	16	9	9	3
Full Veteran's Benefits	16	9	9	3
SIU Scholarships	16	9	9	3

All University employees who wish to use the employee tuition fee waiver (faculty and staff) and are classified as graduate students are only permitted to register for six hours. To request permission to take over six hours, a memo from their hiring department approving the extra hours must be submitted to the Graduate School Records Office. If graduate students' enrollments fail to meet the minimum hours required by their type of financial support, the financial support will be terminated.

Continuing Enrollment (601)

Registration in 601 (one hour per semester) is required of all degree-seeking graduate students, whether in residence or not, who are not otherwise enrolled for fall or spring semester. Concurrent registration in any other course is not permitted.

Students registering for 601 are assessed only in-state tuition for the credit hour associated with the registration. Since student fees are not assessed for 601, the students are not eligible for the benefits of any other programs such as Recreation Center use, Health Service and Student Medical Benefits, Students' Attorney Program assistance, etc. Students needing the above benefits that require fees may instead register for additional research, thesis, or dissertation hours.

All students in a graduate program, but not enrolled in classes by the Friday of the first week of the fall or spring semester, will be registered in 601 by the Graduate School and charged tuition for one hour of 601. This hour will be dropped if the student subsequently enrolls in a class that semester or is granted a leave of absence by their graduate program by the 8th week of the semester. Each program has its own policy of whether and when to grant leaves of absence. Students on leave are not required to enroll in 601 for the period of leave, but a leave of absence does not affect the time-to-degree requirements. The requirement of 601 enrollment ends when a student passes the six years to complete a master's degree, without completing the degree, the five years of doctoral candidacy, or officially withdraws from a program prior to completion of the degree, or graduates. Students who are granted extensions to these time limits would be covered by this revised 601 policy. Summer sessions are exempt from the continuous enrollment requirement.

601 Credit hours are not eligible to be used toward meeting coursework degree requirements.

Transfer Credit

All graduate credits earned by a student in good standing at an accredited university, which have not been applied toward fulfillment of requirements for another degree, are eligible for transfer to that student's degree program, subject to general limitations of Graduate School regulations, residency requirements for doctoral degree programs, and acceptance by the student's major department. All

transfer credits are subject to final review by the graduate dean. No transfer credit will be given for work bearing a grade below B or graded “satisfactory” without express permission of the graduate dean in response to written petition from the student’s department. Credit towards a degree may be earned by online and off-campus courses at another accredited university. In the case of a master’s degree, the student must earn at least half of the credit applied toward fulfillment of degree requirements in courses offered by SIU. Grades for coursework transferred to SIU from an outside university will not be calculated in the cumulative SIU grade point average.

The department recommending the graduate degree shall administer all required general and final examinations, and a member of the graduate faculty at SIU shall direct the student’s master’s thesis, required research paper, or doctoral dissertation.

Graduate Grading System

Graduate Grading System

Grade	Definition
A	Excellent. 4.00 grade points
A-	Excellent. 3.667 grade points
B+	Good. 3.33 grade points
B	Good. 3.00 grade points
B-	Conditional, not fully satisfactory 2.667 grade points
C+	Conditional, not fully satisfactory 2.333 grade points
C	Conditional, not fully satisfactory 2.00 grade points
C-	Conditional, not fully satisfactory 1.667 grade points
D+	Poor, not satisfactory 1.333 grade points
D	Poor, not satisfactory 1.00 grade point
F	Failure. 0 grade points
S	Satisfactory. Used for thesis and dissertation credit and certain designated and approved 500-level research, internship, and practicum courses. Is not counted in calculating grade-point average.
U	Unsatisfactory. Used for thesis and dissertation credit and certain designated and approved 500-level research, internship, and practicum courses. Is not counted in calculating grade-point average.
W	Authorized withdrawal made through a program change. Work may not be completed. Refer to grade explanation below.
INC	Incomplete. Has permission of the instructor to be completed within a period of time designated by the instructor. Refer to grade explanation below.
DEF	Deferred. Used only for certain designated and approved 500-level courses of an individual continuing nature such as research, thesis, or dissertation. Refer to grade explanation below.
AU	Audit. No grade or credit earned. Refer to grade explanation below.
NR	Grade not recorded. A student’s degree may not be posted to the transcript if a grade of NR exists on the transcript.
WU	Unauthorized withdrawal at instructor’s discretion for student in good standing in class who stopped attending class during first 60% of the semester. This grade cannot be made up.

Grading System Explanation

Only courses for which the grades of A+, A, A-, B+, B, B-, C+, C, C-, or S have been received are acceptable in fulfillment of graduate degree requirements. The letter grades A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, and F are included in computing the grade-point averages for academic retention. If a graduate student repeats a course with the permission of the graduate dean, only the most recent (last) grade will be counted in the grade-point average. Graduate students will not receive graduate credit for Pass/Fail grades. They may not receive a grade of Pass/Fail in a 400-level course graded Pass/Fail on an elective basis.

400-level courses

Most 400-level courses may be taken for graduate credit. The Graduate Catalog will indicate those 400-level courses which may be taken for graduate credit. No grades of Pass/Fail may be given for a 400-level course for graduate credit. The instructor in a 400-level course which can be taken for graduate credit has the discretion to decide whether to require additional work for graduate credit.

Withdrawal

Except for the WU grade, a W indicates authorized withdrawal from a course prior to the date indicated in the Schedule of Classes for the term in which the course was taken. The student's record will reflect the courses from which the student had withdrawn with the symbol W and the week of withdrawal. Program changes to drop a course during the first two weeks of classes result in no entry being made on the student's record (consult the section titled "Withdrawal from Courses and from the University" for additional information on withdrawal procedures and deadlines).

Incomplete

An INC grade should be assigned when, for reasons beyond their control, students engaged in passing work are unable to complete all class assignments. INC is not included in grade-point computation. An INC must be changed to a completed grade within one year from the close of the term in which the course was taken or graduation, whichever comes first. Should the student fail to complete the course within the time period designated, that is, one year from the close of the term in which the course was taken or graduation, whichever comes first, the Incomplete will be converted to a grade of F and the grade will be computed in the student's grade-point average.

To complete the work from the original registration, a student should not register for the course again, but should complete the work for the original registration if the original registration is within the normal time limits established for the degree.

A contract for an INC grade must be established between the instructor and student at the time the INC grade is assigned.

An extension may be granted if the request for the extension is made within the first year and approved by the Dean of the Graduate School and the Provost.

Deferred

When the work is completed in a course for which DEF has been assigned, the grade is changed to a letter grade by the instructor, except in the case of theses and dissertations. When a thesis or dissertation has been submitted to the Graduate School as approved, the grade is automatically changed to S. If a thesis or dissertation is found unacceptable and the student is dismissed from the program, the grade of U is automatically assigned upon receipt by the Graduate School of the action dismissing the student.

Audit

A student registering for a course on an audit basis receives no letter grade and no credit hours. The student's registration must indicate audit registration and the same fees are paid as when registering for credit. During the first two weeks of a regular semester, a student registered for a course for credit may change to audit status or vice versa through the official program change process. Thereafter, the change may not be made.

Changing of Grades

At the completion of a course, the final grade assigned to a student is the responsibility of the instructor of the course. Grades given at the end of the course are final and may not be changed by additional work or by submitting additional materials; however, clerical errors in recording grades can be corrected. To correct a clerical error, the assigned instructors should submit a grade change card together with an explanation and justification of the grade change for the approval or disapproval of the department chair, the appropriate college dean, and the dean of the Graduate School. In cases of theses and dissertations, for which DEF grades are given, the Graduate School changes the DEF grades upon presentation and acceptance of the thesis and dissertation and receipt of the departmental approval papers. In courses for which INC and DEF grades have been given, the assigned instructor has the responsibility of determining

the final grade to be assigned and notifying the Registrar's Office of the final grade by means of the grade change card.

Withdrawal from Courses and from the Semester

Dropping Courses

Students officially registered for courses must withdraw formally. They must process an official withdrawal form. Outlined below are the procedures to be followed by graduate students when withdrawing from courses.

Deadlines for Dropping from a Course(s)

Course Deadlines

If Classes Meet for*	Deadline for Withdrawal to Receive Full Refund	Deadline to Withdraw
13-16 weeks	2nd week	10th week
9-12 weeks	2nd week	8th week
8 weeks	2nd week	5th week
7 weeks	1st week	4th week
4-6 weeks	1st week	3rd week
2-3 weeks	1st day	1st week
Less than 2 weeks	1st day	2nd day

*Students must drop a course or withdraw from the University by these deadlines to receive an account credit equal to a full refund of tuition and fees. Students who drop courses after the full refund deadline but remain enrolled in the University will not receive any refund. Student who withdraw from the University after the full refund period will receive an account credit up to week four (see chart below).

Students officially withdraw from courses through the program change process. This process starts with the academic adviser and is completed at the Registration Center. Graduate students may drop from a course through the tenth week of the fall and spring semesters. Drop deadlines for shorter sessions are correspondingly earlier (see schedule above). Official withdrawals during the first through the tenth week of classes will result in the course listed on the student's record with the symbol W and the week of withdrawal. No drop from a course will be authorized after the tenth week of classes. It is the student's responsibility to insure that the drop process is officially completed.

Withdrawal from the University

A complete withdrawal from the University may be authorized by the graduate dean through the Friday of week 10 of classes. Students who withdraw from all classes will have a statement of withdrawal from the University entered on their records. Students who find it necessary to withdraw from the University after school has started and who are on campus should contact the Graduate School in person to initiate the withdrawal process. If they are unable to come to campus, they may email (gradregistration@siu.edu) the Graduate School asking that it process a withdrawal.

Students receiving a withdrawal from a full semester length course within the first two weeks will, under normal circumstances, receive a refund of all tuition and fees paid by the student. If the student has attended classes during the full refund period a portion of the financial assistance funds will be returned to the original source(s).

Students who withdraw after the full refund deadline will receive an account credit equal to the appropriate refund of tuition and fees. An administrative fee will be assessed to all students who withdraw from the University and receive a refund beyond the full refund period. The amount of the fee will be a fixed charge of \$100.

Refund Schedule for Withdrawals from the University (Effective Fall 2009)

SIU Refund Policy

This chart is based on refunding for full semester length course.

Percentage of Refund

Refund Percentage

Week	Tuition	Fees
Week One	100%	100%
Week Two	100%	100%
Week Three	50%	100%
Week Four	50%	0%
Week Five and after	0%	0%

No tuition refund will be given after week four; no refund of fees will be given after week three. Student fees are charged as a condition of enrollment.

Special consideration is extended to individuals who leave school for extended military service (six months or longer). These students may choose to withdraw completely and have the withdrawal backdated to show no enrollment. If withdrawing during the third through tenth weeks of school, these students may receive WMS grades in all classes, with the appropriate refund. When the withdrawal occurs after the tenth week, students will receive both grades and credit hours for the courses in which they are passing. In all instances, a copy of the military orders or a letter from the commanding officer is required for verification of impending military service. To be eligible for these benefits, students must remain in school to within ten days of their military reporting date.

Students in military service with the State of Illinois pursuant to the orders of the Governor have the right to receive a full monetary credit or refund for funds paid to any Illinois public university, college or community college if the person is placed into a period of military service with the State of Illinois in the event of state emergencies pursuant to the orders of the Governor and is unable to attend the university or college for a period of seven or more days. Students may elect to receive course credit for all of their courses rather than a refund.

All students seeking a withdrawal must contact the Graduate School in person or by Email. The effective date of the withdrawal, if granted, will be the student's last date of class attendance, provided the student completes the requirements for the withdrawal. Incomplete applications for withdrawal will be denied. Any student who fails to comply with the withdrawal procedures will receive grades for the semester and must satisfy the financial obligations for the semester.

Students who have a graduate assistantship and resign from their contract will not be automatically withdrawn from their courses. Students must complete the withdrawal process.

Retention

Any graduate student whose cumulative grade point average falls below 3.00 will be placed on academic probation. Faculty of a degree program-unit may determine its own grade point average requirements (above the grade point minimum for retention in their particular program.) All 400- and 500-level courses taken after a student is admitted to the Graduate School are considered graduate level, unless the course is specifically designated, "Not for Graduate Credit", for all students. Grade point averages for doctoral students are based on graduate credit work completed at SIU after admission to the doctoral program. Grade point averages for master's degree students and nondeclared graduate students are based on all graduate credit work completed at SIU.

Any graduate student on academic probation whose grade point average remains below 3.0 for two consecutive semesters in which she or he is enrolled, excluding summer sessions, will be permanently suspended from the Graduate School, unless the department and the collegiate dean petition the graduate dean for an exception.

Graduate students who have a grade (or grades) converted from an INC to an F due to the INC grade policy which results in a retroactive change in GPA below 3.0 for the semester the course was taken, and any subsequent semesters, will be placed on Retroactive Academic Probation. The term Retroactive Academic Probation will appear on the students' transcripts to show that they were not in good standing in the Graduate School during the semester(s) effected.

Graduation

Graduation ceremonies are held each year at the end of each spring semester and fall semester. Degree candidates must apply for graduation with the Graduate School typically by the fourth Friday after the semester begins. Late graduation applications for extenuating circumstances beyond the student's control

will be considered through the end of the eighth week of fall and spring semesters. No applications will be considered beyond the eighth week of fall and spring semesters and the fourth week of the summer term. Graduation application forms are available in the Graduate School and may be obtained by downloading from the Graduate School web page: gradschool.siu.edu.

Candidates who do not meet graduation requirements will automatically be rolled to the next graduation term (May-to-August, August-to-December, December-to-May) with no additional fee, not to exceed one term. Candidates who fail to meet the degree requirements by the deadline for that graduation term will be removed from the pending graduation list. It will then be the student's responsibility to submit a new Graduation Application form by the deadline for the term in which they now plan to graduate. The new application will result in the assessment of another Graduation Application fee. Commencement ceremonies are held only in May and December. August graduates should consult the graduation application for commencement information.

Any financial obligations with the University must be cleared by the Bursar's Office before the release of diplomas and official transcripts. Diplomas are mailed to the address on the graduation application form within four to ten weeks after the end of the term.

A \$50 graduation fee is established for all persons receiving degrees. The fee is payable at the time of application or the fee will be charged to the student's account. Late applications will be assessed a \$75 Graduate Application fee. The fee does not cover the rental fee for the cap, gown, and hood, or the cost of the invitations. These items are ordered through the University Bookstore in the Student Center and questions regarding them should be referred to the University Bookstore. Doctoral and Master's students are required to pay a library fee. Theses and dissertations are submitted electronically (pdf) to UMI ETD Administrator. Research papers should be electronically submitted to OpenSIUC.

Submission of research papers, theses, and dissertations are due in the Graduate School office by the published deadline date. Contact the Graduate School for dates. Doctoral students must also submit the survey form of earned doctorates at the time the dissertation is submitted.

The Graduate School Guidelines for the Preparation of Dissertations, Theses and Research Papers is available at the Graduate School website (gradschool.siu.edu). Since each program has chosen a manual style that must be used in conjunction with the Graduate School guidelines, the student should contact the department for additional departmental information.

Although attendance at commencement is not compulsory, students who wish to graduate in absentia must notify the Graduate School in advance. This information is needed for seating arrangements and for mailing purposes.

Posthumous Degrees

A graduate degree may be awarded posthumously if the student has substantially completed the work for the degree. This determination shall be the responsibility of the graduate dean in consultation with the administrative officers and faculty of the degree program in which the student had been enrolled.

Release of Student Information and Issuance of Transcripts

The University follows a policy for release of student information in compliance with federal regulations. More specific information may be obtained from the Registrar's Office or from the Graduate School.

A transcript of the student's official educational record is issued by the Registrar's Office under the following conditions: a transcript is sent, issued, or released only upon a student's request or explicit permission, except that such permission is not required when the University faculty and administrative officials or other educational institutions request transcripts for official purposes.

In addition, requests will be honored from a philanthropic organization financially supporting a student and from a recognized research organization conducting educational research provided the confidentiality of the transcript is protected. A transcript will be issued directly to a student upon request. The transcript will have the statement, Issued to the Student, stamped on its face. Transcripts will be sent to recipients other than the student as requested in writing by the student. A transcript fee of \$5 will be payable in advance for every transcript the student requests. A transcript will not be sent, issued, or released if a student owes money to the University as verified by the Bursar's office upon request. The transcript will have the statement, Issued to the Student, stamped on its face. Transcripts will be sent to recipients other than the student as requested in writing by the student. A transcript fee of \$5 will be payable in advance for every transcript the student requests. A transcript will not be sent, issued, or released if a student owes money to the University as verified by the Bursar's office.

Policy

SIU recognizes that many of its students use a name other than their legal name. As long as the use of a preferred name is not for the purpose of misrepresentation, the university acknowledges that a preferred name should be used whenever possible in the course of university business and education. Therefore, the university will permit any student who wishes to choose to identify themselves within the university's student information systems with a preferred name in addition to their legal name. Some records, such as paychecks, financial aid, or the official transcript, that require use of a legal name, will not change to preferred name. However, whenever possible, preferred name will be used **except in the following areas where the use of the legal name is necessitated by university business or legal requirement.**

Legal Name Used:

- Student Accounts (Bursar)
- Financial Aid
- Responses to enrollment or degree inquiries such as verification requests
- Official Transcript
- College of Education Teacher Certification Records (US Dept. of Education)

A preferred name is a first name (i.e., given name) that may be chosen to be used instead of legal first name. You may specify a preferred name within SalukiNet which will then replace your first (given) name in your directory profile and other records identified earlier. However, you must request that your preferred name once established also to be reflected on your Student ID card, SIU e-mail address, and on your diploma when you are ready to graduate.

Preferred First Name Used:

- Class Roster
- Grade Reports
- Advisor/Advisee Lists
- Unofficial Transcripts
- Directory Listing (unless FERPA exclusion)
- SIU Student ID Card (legal name discreetly presented on back)
- Diploma
- SIU email account

SIU is committed to maintaining an environment where inquiry and growth are supported by a shared sense of responsibility and respect toward one another and with this understanding in mind the university maintains the right to decline a preferred name when it is recognized to be offensive to the institution or inflammatory to the student body. Authority to terminate or deny the use of a preferred name resides with the Dean of Students who maintains and has oversight for the Student Conduct Code.

Financial Assistance

Financial Assistance

Financial assistance is available to qualified students in all fields of study in the form of (1) graduate assistantships where one serves as a classroom teacher or assistant, as a research assistant, or as an administrative assistant, (2) fellowships or traineeships, (3) scholarships, and (4) loans. There are basic regulations that relate to these awards. Students should make application for the graduate assistantships, fellowships, or traineeships through the department to which they have been admitted. Information and application forms for the tuition scholarship program may be obtained from the [Graduate School website](#).

Students should be sure that their applications for admission are complete, including the submission of required transcripts to the Graduate School to assure consideration for an award.

Graduate assistant appointments, graduate fellowships, and most traineeships include a full tuition scholarship when students have worked the minimum weeks required (13 fall/spring and 6 summer), but fees must be paid by the student. If a department has not established its own financial aid time limits, the following Graduate School time limits will apply; a student may receive no more than two calendar years of graduate-student support while a master's level student; a student may receive no more than four calendar years of graduate-student support while a doctoral-level student; students directly admitted

into a doctoral program from their bachelor's degree can receive up to five calendar years of graduate student support. The maximum number of years of graduate-student support for students seeking any combination of graduate degrees is six calendar years of graduate student support unless a specific exception based on the student's programmatic needs is granted by the graduate dean. These time limits apply to assistantships, fellowships, traineeships, and other similar awards and appointments administered by the University, regardless of source of funds. Students who are awarded graduate assistantships, fellowships, or traineeships, but who have not furnished official proof of their most recent degree to the Graduate School shall be considered to be on term appointment for one semester only. No one will be appointed to a second term until an official transcript indicating receipt of the degree is received in the Graduate School.

Acceptance of an offer of financial aid (such as a fellowship, traineeship, or assistantship) for the next academic year by an actual or prospective graduate student completes an agreement which both student and Graduate School expect to honor. In those instances in which the student accepts the offer before April 15 and subsequently desires to withdraw, the student may submit in writing a resignation of the appointment at any time through April 15. However, an acceptance given or left in force after April 15 commits the student not to accept another offer from another institution without first obtaining a written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer.

Graduate Assistantships

Graduate assistantships (GAs) are available in a variety of places across campus, from academic departments and research centers to administrative and service units. This type of appointment comprises the largest number of awards offered by the University. A graduate assistant must be a registered student in a degree program.

For these appointments, students should inquire directly to the chair of the department to which they have been admitted or to the appointing officer of a research center or administrative or service unit. Information about the criteria used to select GAs and to assign their responsibilities may be obtained by contacting the chair of the department, the administrator of a research or service unit, or the Graduate School.

The average GA appointment is 50% appointment (20 hours per week) and lasts for one academic year (9 months). There are also some 25% appointments requiring 10 hours per week. A student may hold two simultaneous quarter time (25%) appointments on campus without special approval. GA appointments may be either on an academic-pay basis or a fiscal pay basis.

During the fall and spring semesters, appointments of at least 25% qualify for a full tuition scholarship. GAs on a graduate assistantship contract during the summer semester qualify for a 9-hour tuition scholarship. The graduate assistantship appointment must be for at least 75% of the academic semesters (13 out of 17 weeks for the fall and spring semesters and six out of eight weeks for the summer semesters). If a student is appointed for less than a full academic term on a fiscal pay basis, the appointment will not carry a tuition scholarship. A GA holding an appointment for the full length of fall and spring semesters consecutively will be eligible for a nine hour non-working tuition scholarship for the summer session immediately following.

Salary schedules for graduate assistantships vary from unit to unit. The current graduate assistantship salary schedule [can be viewed here](#). Generally, doctoral students are paid higher rates than master's students. Information about the specific conditions of the appointment should be directed to the department or unit making the appointment.

In the best interests of both the University and students, academic departments should monitor outside employment and intervene in those cases where outside employment results in problems. To this end, it is within the rights and responsibilities of a department: 1) to require that graduate assistants holding outside employment notify their department so that their performance can be monitored; 2) to make the relinquishing of outside employment a precondition for the continued enrollment of, and/ or availability of assistantships to, students whose academic or assistantship performance has been rated Unsatisfactory; and 3) to cancel or not renew the assistantship contracts of those students whose assistantship performance is rated Unsatisfactory and who also hold and do not discontinue outside employment. Graduate students can appeal departmental decisions regarding outside employment

and academic/assistantship status through the University's standard routes of appeal or the grievance procedure in the GA United contract.

Dissertation Research Assistantship Awards

Dissertation research assistantship awards are designed for superior students who are in the dissertation preparation stage of their graduate education. Selection is based on a competition primarily considering the student's academic research and quality of the dissertation prospectus. The recipient of a dissertation research assistantship must be officially admitted to candidacy by the beginning of the award. Failure to be admitted to candidacy by the beginning of the award will result in the award's revocation. The award is for a maximum of 11 months and provides a monthly salary and a full tuition scholarship.

There is a service requirement, with the specific duties to be assigned by the chairperson of the department. The student must be enrolled for six graduate credit hours. The student holding such an award is expected to resign the award at the time the dissertation is submitted to the Graduate School if this comes prior to three weeks before the end of the time period for the award. Contact academic departments for application materials.

Graduate Internships

The graduate internship provides an educational experience for students at either the master's or doctoral level who wish or are required as a part of their program of studies to devote their primary effort toward applied activities in an academic program or a community-based agency or business under the direct supervision of a qualified representative of the host agency or business. Such internship activities may be unpaid or paid. Paid internships are externally sponsored and include the following categories: (a) paid through the University as graduate assistants; (b) paid by an agency or business as an employee; or (c) paid by an agency or business as a consultant. Requests for information should be directed to one's department.

Traineeships

Individual departments often are able to provide traineeships. Information about these awards should be directed to the department to which one has been admitted or is seeking admission.

Graduate Fellowships

The Graduate School offers a number of graduate fellowships. The number varies depending on the funds available for these awards each year. All awards of this type are highly competitive based upon scholarship, scores on standardized tests, and potential for success in graduate study.

Master's Fellowship Program

The Master's Fellowship is a one-time award at the master's degree level that is designed for those nominees who show the greatest promise for scholarly and professional achievement in their respective disciplines. The fellowship will be awarded for three semesters, fall, spring, and summer, for a total of eleven (11) months. The Master's Fellowship pays a monthly stipend (excluding Summer Intersession May 16 thru June 15) and provides a full tuition scholarship for fall, spring, and summer. Master's students are not allowed to hold more than two calendar years (24 months) of financial support of all types. Fellows may not hold jobs outside the University, since the purpose of the fellowship is to provide students with an opportunity to devote full time to their graduate studies and research rather than work part time at a job and part time at studies. Fellowship recipients will be assigned a ten-hour per week research assignment that will provide professional development opportunities for the student and be of value to the department. Fellowship recipients must remain on campus as fulfillment of their award, except with permission by the graduate dean.

Applications for these awards should be made by early January preceding the academic year for which the award is desired. Students should check with their academic departments for exact dates. Application forms and information about the awards may be obtained by contacting the department to which one has been admitted or is seeking admission or on the [Graduate School website](#).

Doctoral Fellowship Program

The Doctoral Fellowship is designed for those nominees who show the greatest promise for scholarly and professional achievement in their respective disciplines at the doctoral level. It is renewable for another

year contingent upon eligibility. Fellowships will be awarded for three semesters, fall, spring, and summer for a total of eleven (11) months. The Doctoral Fellowship pays a monthly stipend (excluding Summer Intersession May 16 thru June 15) and provides a full tuition scholarship for fall, spring, and summer. Doctoral students have a limit of four calendar years (48 months) of financial support of all types. Doctoral students are also limited to two years of financial support of any combination of doctoral fellowship or dissertation research assistantship. Morris fellow holders are ineligible to apply for a Doctoral Fellowship award. Fellows may not hold jobs outside the University, since the purpose of the fellowship is to provide students with an opportunity to devote full time to their graduate studies and research rather than work part time at a job and part time at studies. Fellowship recipients will be assigned a ten-hour per week research assignment that will provide professional development opportunities for the student and be of value to the department. Fellowship recipients must remain on campus as fulfillment of their award except with permission by the graduate dean.

Applications for these awards should be made by early January preceding the academic year for which the award is desired. Students should check with their academic departments for exact dates. Application forms and information about the awards may be obtained by contacting the department to which one has been admitted or is seeking admission or on the [Graduate School website](#).

Delyte and Dorothy Morris Doctoral Fellowship Program

The Delyte and Dorothy Morris doctoral fellowships have been established by Southern Illinois University to honor a distinguished former president and his wife. During Dr. Morris' tenure as president (1949-71), the University grew to be a comprehensive research institution and established doctoral programs in 22 fields, now more than 30 fields.

The Morris Doctoral Fellowship is designed for those nominees who are new to Southern Illinois University (SIU). This fellowship is intended for applicants who possess exceptional credentials as indicated by high scholastic standing, excellent scores on standardized tests, outstanding recommendations, and evidence of significant potential for research and publication.

The Morris Doctoral Fellowship is a five-year financial support package. The Graduate School provides a 12 month 50% research fellowship award for the first three years and the department provides a 12 month 50% graduate assistantship for the last two years. The Morris Fellowship pays a monthly stipend amount that is above the Doctoral Fellowship stipend rate, with an annual \$1,000 book/travel allowance for the first three years. A tuition scholarship will be awarded for fall, spring, and summer semesters for the term of the award. Fellows may not hold jobs outside the University, since the purpose of the fellowship is to provide students with an opportunity to devote full time to their graduate studies and research rather than work part time at a job and part time at studies. Fellowship recipients will be assigned a ten-hour per week research assignment that will provide professional development opportunities for the student and be of value to the department. Fellowship recipients must remain on campus as fulfillment of their award except with permission by the graduate dean.

Applications for these awards should be made by early January preceding the academic year for which the award is desired. Students should check with their academic departments for exact dates. Application forms and information about the awards may be obtained by contacting the department to which one has been admitted or is seeking admission or on the [Graduate School website](#).

Graduate Dean's Fellowship Program

The Graduate Dean's Fellowship is designed for traditionally underrepresented individuals who have overcome social, cultural, or economic conditions that have adversely affected their educational progress. Awards will be given to students who are qualified by the usual indicators of promise for success in graduate study.

The Graduate Dean's Fellowship is a two-year award, and it is given to fully admitted students. In Year One, the award is for a maximum of 11 months (fall, spring and summer) and provides a monthly salary and a full tuition scholarship. The student must enroll for a minimum of nine graduate credit hours for fall and spring semesters and three graduate hours for summer. The recipient will be assigned a ten hour per week research assignment that will provide professional development opportunities and will be of value to the department.

Year Two, the recipient will be on a nine month (fall and spring) 50% assistantship appointment with the department. The student is required to enroll for a minimum of nine graduate credit hours for fall and spring semesters, or optional summer enrollment of three graduate credit hours. A full tuition scholarship is awarded for fall, spring, and summer for both years. Recipients are responsible for fees. While on fellowship the award recipient will not hold any other employment inside or outside the University.

Application requests for this award should be directed to the Graduate School or to the department. Application deadline is preceding the academic year for which the award is desired.

Proactive Recruitment of Multicultural Professionals for Tomorrow (PROMPT) Fellowship/Assistantship Program

The PROMPT Program (Proactive Recruitment of Multicultural Professionals for Tomorrow) is an initiative developed by the SIU Graduate School to increase the number of individuals receiving advanced degrees in the United States from families which have traditionally not had access to the opportunities of higher education and who, through his or her life and/or cultural experiences, have unique and potentially positive contributions to make to the program, the discipline, and in the larger academic community. The Graduate School, in alliance with participating academic departments, will provide financial assistance packages to competitive, fully admitted students to pursue advanced study at SIU through an assistantship appointment. The PROMPT Fellowship/Assistantship offers a two-year assistantship appointment with a monthly stipend and a full tuition scholarship. The student must commit 20 hours per week in teaching or research activities in the academic department during fall and spring semesters for both years. Recipients are responsible for fees. Application requests for this award should be directed to the Graduate School or to the department. Application deadline is preceding the academic year for which the award is desired.

Tuition Scholarships

Domestic Students

A limited number of tuition scholarships are awarded each semester to graduate students. This scholarship is a scholastic award. The number of Tuition Waiver Scholarships allocated to each college at SIU will depend on the percentage of graduate student enrollment they contribute. After the number of scholarships per college is calculated, current GPA in program of study, if two semesters within the program have been completed, will be the determining factor for who receives the award. Otherwise, the decision will be based on GPA from most recent previous degree program. The award is for remission of tuition only; fees must be paid by the student. The award provides a full tuition scholarship and a tuition scholarship for up to nine (9) hours in the summer. This scholarship award will be posted to the student's Bursar account.

To be eligible, the student must be an active student, admitted to the Graduate School, and be in good academic standing in a graduate program at SIUC, and the student may not hold another University appointment which provides a tuition waiver scholarship (i.e. graduate assistantship, fellowship). Eligible applicants must have a minimum GPA of 3.0. Applicants need at least two full semesters of grades on their official or unofficial current transcript or the GPA will be based upon the previous completed degree. Tuition waiver scholarship recipients must enroll for a minimum of 9 graduate credit hours for fall or spring semesters (3 graduate credit hours in summer). Students may receive a tuition waiver scholarship for a maximum of three semesters during their enrollment at the University. Applicants must reapply each semester. *Note: Some programs (such as PA, Law, any web based/online programs etc.) are not eligible. Please check with your program for eligibility.

Deadline dates are as follows: April 15 for summer session, July 15 for fall semester, and November 15 for spring semester.

International Students

As an international student, you will need to contact the Center for International Education about applying for this scholarship. A limited number of tuition scholarships are available to international students who have completed at least one full year at SIUC. These awards are granted on a competitive basis, and the limited number means that many qualified students are unable to secure them. Applications are generally available at the end of each spring semester at Center for International Education, 425 Clock Tower Drive, Woody Hall. Guidelines are provided with the applications.

Financial Aid Office

Other forms of financial assistance including part-time employment on and off campus, cooperative work-study programs, summer employment, and student loan funds are available on the [Financial Aid office website](#).

External Support for Graduate Study

Fellowships, grants-in-aid, scholarships, and other similar awards for the support of graduate students are available from many sources outside the University. Students are encouraged to apply for such

awards. Information concerning appropriate external sources of support may be obtained from the Office of Sponsored Projects Administration or from department chairs or directors of graduate studies of the student's major department.

Faculty Appointments

No student in a graduate degree program shall be appointed to any full-time faculty position in the department (or equivalent unit) while enrolled in the unit as a student, with the sole exception that a student who has already been admitted to candidacy for the doctoral degree may be granted a term appointment as an instructor in the unit while so enrolled. Such a term appointment shall not be renewable beyond a period of one year.

Satisfactory Progress Policy for Graduate Students

Purpose

The Federal Government, the States, and Southern Illinois University (SIU) have invested large sums of money in order to provide financially needy students the opportunity to obtain a post-secondary education. Financial aid recipients are responsible for using the funds provided in an acceptable manner. Therefore, a student who wishes to benefit from the receipt of financial aid funds must maintain "satisfactory progress" as defined in this policy.

Authority

The U.S. Department of Education Student Financial Aid regulations (34 CFR 668) require that institutions of higher education establish and maintain reasonable standards to measure whether students applying for financial aid are making satisfactory academic progress toward degree completion. A student who does not meet these standards is not eligible to receive federally-funded financial aid. In most instances, SIU shall make these standards applicable to all state and institutional aid programs for the purpose of maintaining a consistent and reasonable financial aid policy. However, nothing in this policy shall be construed as a reduction of external requirements by other federal, state, public, or private agencies when they award or control financial aid. **Non declared graduate students are only eligible to be considered for a Federal Direct Stafford Loan during one twelve-month period while preparing for admission into a graduate degree program.**

Satisfactory Progress Standards

SIU requires that a student be making "satisfactory progress" toward a degree if he or she wishes to receive financial aid funds. A graduate student is making "satisfactory progress" toward a degree if successfully meeting each of three academic standards:

1. **Minimum SIU Percentage of the Cumulative Attempted Credit Hours that must be Completed:** A graduate student is expected to have completed a minimum of 67% of the cumulative attempted credit hours at SIU.
2. **Maximum Credit Hours Attempted:** A graduate student enrolled in a program leading to a master's degree is expected to complete the degree before accumulating seventy five (75) credit hours attempted, including both SIU and accepted transfer credit hours. A graduate student enrolled in a program leading to a Master's of Fine Arts Degree is expected to complete the degree before accumulating ninety (90) credit hours attempted, including both SIU and accepted transfer credit hours. A graduate student enrolled in a program leading to a Doctoral Degree is expected to complete the degree before accumulating one hundred (100) credit hours attempted, including both SIU and accepted transfer credit hours.
3. **Minimum Grade Point Average:** A graduate student must maintain a cumulative grade point average of 3.0 at the end of each spring semester and be in compliance with the University's policy concerning academic standing, grades, and grade point average as defined under the topic "Retention" and all other provisions in the current Graduate Catalog. A graduate student who is academically suspended from the Graduate School is not making satisfactory progress.

The academic records of all aid recipients will be reviewed annually at the end of the spring semester to determine continued aid eligibility. A graduate student who does not meet any one of the three standards set forth above is not maintaining "satisfactory progress" toward a degree and will be determined ineligible for financial aid.

Notification of Status

It shall be the responsibility of the Graduate School to publish this policy and to notify by letter any graduate student who is no longer eligible to receive financial aid funds. Said notice shall be addressed to the student's most current permanent address on file with the University. IT SHALL BE THE RESPONSIBILITY OF THE STUDENT TO INFORM THE UNIVERSITY OF A CORRECT PERMANENT ADDRESS AT ALL TIMES.

Reinstatement

Students will have their eligibility to receive financial aid reinstated after having reached the level of satisfactory progress required of them by this policy. They may achieve this status by receiving passing grades for courses previously incomplete or incorrectly recorded as withdrawals or failing grades and/or earning sufficiently more than the required percentage of completed hours.

Appeals

Any student shall have the opportunity to appeal, in writing, to explain "mitigating circumstances". The appeal should be sent to the Graduate School, with endorsement of the student's academic program, within 30 days of the notice of termination. The Graduate School will review the "mitigating circumstances" documented in the appeal and provide a written decision within 20 days after the receipt of the appeal. The Graduate School will provide written notification to the Financial Aid Office concerning all graduate students who have been granted an exception for mitigating circumstances.

Definitions

Attempted credit hours shall be defined as the total SIU hours for which the student has been enrolled.

Maximum credit hours attempted shall be defined as the total SIU hours for which the student has been enrolled at SIU and the total accepted transfer credit hours.

Credit hours completed shall be defined as the total number of academic credit hours which a student has completed. Failing grades, incompletes, withdrawals, audits, and remedial courses that do not count toward a degree shall not be considered as credit hours completed. Deferred grades count as credit hours completed.

Eligible students shall be defined as those students who are admitted to the Graduate School and to a specific degree program. All other students are not eligible for financial aid except for non declared graduate students who are only eligible to be considered for a Federal Direct Stafford Loan during one twelve-month period while preparing for admission into a graduate degree program.

Mitigating circumstances are the reasons that explain why the student has not met the Satisfactory Progress standards and can include medical reasons, family crisis, personal problems, or other circumstances which adversely affected student performance.

Graduate shall be defined as a student who is seeking a master's or a doctorate degree.

Tuition and Fees

Tuition and fees are established by the Board of Trustees and are subject to change whenever conditions necessitate. All assessments are on a per hour basis. Current tuition and fees can be found [here](#).

The fees, which have been established by the Board of Trustees, are payable by all students unless they are specifically exempted by the Board of Trustees. All fees are considered to be institutional in nature and require payment regardless of whether or not the student receives direct benefits or is in a location which permits access to such benefits.

New High Achiever Tuition Rate for new graduate students

Starting with Fall 2016 semester, non-resident new first-time graduate students who demonstrate high academic achievement on the GRE, GMAT, or MAT graduate school entrance exams will pay an alternative tuition rate of 1.0 times the current in-state tuition rate. More information is available [here](#).

Student fees include:

- **Student to Student (STS) Grant Program Fee.** Funds a student grant program. The fee is payable by undergraduate students only; those who do not wish to participate in the program may seek a refund of the fee by submitting a request, in writing, to the Registrar's Office within ten days of the date of payment of fees.
- **Student Attorney Fee.** Supports the budget of the Students' Attorney Program.
- **Student Center Fee.** Provides funds for the operation of the Student Center.
- **Student Activity Fee.** Provides funding for student organizations and activities on campus.

- **Student Recreation Fee.** Provides funds for operation of the Student Recreation Center and associated programs.
- **Athletic Fund.** Provides partial funding for the University intercollegiate athletic program.
- **Campus Recreation Fee.** Funds recreational facilities and programs external to the Student Recreation Center
- **Student Medical Benefit Primary Care and Extended Care (insurance) Fees.** Provides funding for comprehensive student health programs including emergency service; hospitalization; specialty, primary, emergency dental; counseling services; and prevention program. A student who pays these fees is entitled to full medical benefits at the Student Health Programs. Students who have comparable insurance coverage may be eligible for a refund of the Student Medical Benefit Extended Care (insurance) fee. A refund must be applied for within the first two weeks of each fall and spring semester and within the first week of the summer session by contacting the Student Health Center Insurance Department.
- **Revenue Bond Fee.** Replaces funds which were previously obtained from tuition payments and used to underwrite the funded debt operations of the Student Center and University Housing.
- **Mass Transit Fee.** Provides funding for bus transportation to on-campus and certain Carbondale locations.
- **Information Technology Fee.** Provides funding for maintenance and improvements to the Information Technology network as well as funding for a new student information system.
- **Student Media Fee.** Provides funding for the operation of The Daily Egyptian newspaper.
- **Student Services Building Fee.** Provides funding for the Student Services Building.
- **Facilities Maintenance Fee.** Provides funding to partially cover the costs of utilities and the maintenance and improvement costs to the University facilities.
- **Green Fee.** Provides funding for on-campus renewable energy, energy efficiency, and sustainability projects and research.

Additional Fee Information

1. Students should refer to the [Registrar's website](#) for specific fee information.
2. Graduate, medical, and law students are not required to pay the Student-to-Student Grant Program Fee.
3. Students taking courses off-campus, at approved residence centers, or online pay tuition and different fees as noted [here](#).
4. Graduate students registering for Continuing Enrollment, course 601, pay only tuition for credit associated with that course registration. Refer to the section titled [Continuing Enrollment Requirement](#) for the regulations governing this fee.
5. In addition to the above fees, there is a graduation fee of \$50 (\$75 for late graduation applications) and a Library. If copyright is desired, an additional fee is required.
6. Other charges which students may incur are those for departmental field trips, library fines, and excess breakage. Also, students taking a course involving use of materials, as distinct from equipment, will ordinarily pay for such materials.
7. Students registering for courses on an audit basis pay the same tuition and fees as though they were registering for the courses for credit.
8. Out-of-state students will find the official University regulations governing determination of residency status for assessment of tuition later on this page.
9. Incoming students whose permanent home address is in Arkansas, Indiana, Iowa, Kentucky, Missouri, Tennessee, or Wisconsin will pay an alternate tuition rate equivalent to the in-state rate.
10. An identification card fee of \$10 will be charged to all first time SIU students who register for on-campus credit. This is a one-time charge. Replacement ID cards will incur a \$20 fee. For additional information contact the Student Center ID Card Office.
11. A \$150 nonrefundable Matriculation Fee will be assessed to all new, international graduate students taking on-campus classes to cover the costs associated with their orientation to campus.
12. New High Achiever Tuition Rate for new graduate students: Starting with the Fall 2016 semester, non resident new first-time graduate students who demonstrate high academic achievement on the GRE, GMAT, or MAT graduate school entrance exams will pay an alternate tuition rate of 1.0 times the current in-state graduate tuition rate. More information is available [here](#).

Payment and Refunding of Tuition and Fees

Tuition and fees are payable each semester during the academic year. Students who register in advance receive a Statement of Account in the mail and may pay either by mail or in person at the Bursar's office,

by the deadline date, in accordance with instructions accompanying the statement. Students who register at the start of a semester must pay tuition and fees according to the schedule which is in effect at that time. More detailed information is available on the [Registrar's website](#).

Students who process a program change which places them in a different tuition and fee category than the one for which they originally registered will be billed additional tuition and fees when appropriate. If the change places them in a smaller tuition and fee category and if they have processed the program change within the first two weeks of the semester, they will receive an automatic credit to their account.

A credit for tuition and fees will be made to student accounts for students who officially withdraw from school by the withdrawal deadlines. They will receive a refund check in approximately four weeks after the withdrawal has been received by the Registrar's Office. No credit for tuition and fees is made for withdrawal occurring after the deadlines, except as described in the next paragraph.

Special consideration is extended to individuals who leave school for extended military service (six months or longer). Students will be refunded full tuition and fees paid if they enter military service during the first five weeks of school. If students withdraw during the sixth through tenth weeks of school, they will be refunded half of the paid tuition and fees, and they will receive one-half credit without letter grades for the courses in which they were receiving a passing grade at the time of withdrawal. When the withdrawal occurs after the tenth week, students will receive no refund, but will receive both grades and credit hours for the courses in which they are passing. In all instances, a copy of the military orders or a letter from the commanding officer is required for verification of impending military service. To be eligible for these benefits students must remain in school to within ten days of their military reporting date.

Determination of Residency Status

For the purpose of these regulations an adult is considered to be a student eighteen years of age or over; a minor student is a student under eighteen years of age. In all cases where records establish that the person does not meet the requirements for resident status as defined in these regulations the nonresident status shall be assigned.

Determination of residence status of each applicant for admission to the University is made at the time of admission. A student may petition for change to Illinois residency by contacting the Graduate Registration office to obtain the necessary forms and information. A student may be reclassified at any time by the University upon the basis of additional or changed information. However, if the University has erroneously classified the student as a Resident, the change in tuition shall be applicable beginning with the term following the reclassification; if the University has erroneously classified the student as a nonresident, the change in tuition shall be applicable to the term in which the reclassification occurs, provided the student has filed a written request for review in accordance with these regulations. If the University has classified a student as a Resident based on false or falsified documents, the reclassification to nonresident status shall be retroactive to the first term during which residency status was based on the false or falsified documents.

Adult Student. An adult, to be considered a resident, must have been a bona fide resident of the state for a period of at least six consecutive months immediately preceding the beginning of any term for which the individual registers at the University, and must continue to maintain a bona fide residency in the state, except that an adult student whose parents (or one of them if only one parent is living or the parents are separated or divorced) have established and are maintaining a bona fide residence in the state and who resides with them (or the one residing in the state) or elsewhere in the state will be regarded as a resident student.

Minor Student. The residence of a minor shall be considered to be, and to change with and follow:

1. That of the parents, if they are living together, or the living parent, if one is deceased; or
2. If the parents are separated or divorced, that of the parent to whom the custody of the person has been awarded by court decree or order, or in the absence of court decree or order, that of the parent with which the person has continuously resided for a period of at least six consecutive months immediately preceding registration at the University; or
3. That of the adoptive parents, if the person has been legally adopted and, in the event the adoptive parents become divorced or separated, that of the adoptive parent whose residence would govern under the foregoing rules if that parent had been a natural parent; or
4. That of the legally appointed guardian of the person; or
5. That of the natural guardian, such as a grandparent, adult brother or adult sister, adult uncle or aunt, or other adult relative with whom the person has resided and by whom the student has been

supported for a period of at least six consecutive months immediately preceding registration at the University for any term, if the person's parents are dead or have abandoned said person and if no legal guardian of the person has been appointed and qualified.

Parent or Guardian. No parent or legal or natural guardian will be considered a resident of the State unless said person (a) maintains a bona fide and permanent place of abode within the state, and (b) lives, except when temporarily absent from the state with no intention of changing the legal residence to some other state or country, within the state.

Emancipated Minor. If a minor has been emancipated, is completely self-supporting, and actually resides in the state, the minor shall be considered to be a resident even though the parents or guardian may reside outside the state. An emancipated minor who is completely self-supporting shall be considered to actually reside in the State of Illinois if a dwelling place has been maintained within the state uninterrupted for a period of at least six consecutive months immediately preceding term registration at the University. Marriage or active military service shall be regarded as effecting the emancipation of minors, whether male or female, for the purposes of this regulation. An emancipated minor whose parents (or one of them if only one parent is living or the parents are separated or divorced) have established and are maintaining a bona fide residence in the state and who resides with them (or the one residing in the state) or elsewhere in the state will be regarded as a resident student.

Married Student. A nonresident student, whether male or female, or a minor or adult, or a citizen or noncitizen of the United States, who is married to a resident of the state, may be classified as a resident so long as the individual continues to reside in the state; however, a spouse through which a student claims residency must demonstrate residency in compliance with the requirements applicable to students seeking resident status. For example, a noncitizen student who holds a visa which on its face precludes an intent to reside in the United States is not entitled to instate residency through his/her marital status.

Persons without United States Citizenship. A person who is not a citizen of the United States of America who meets and complies with all of the other applicable requirements of these regulations may establish residence status unless the person holds a visa which on its face precludes an intent to reside in the United States.

Armed Forces Personnel. If a person is on active military duty in one of the Armed Forces of the United States and is stationed in Illinois, then the Board shall deem that person and any of his or her dependents Illinois residents for tuition purposes.

If a person is on active military duty in one of the Armed Forces of the United States and is stationed out-of state, but he or she was stationed in this state for at least three years immediately prior to being reassigned out-of-state, then the Board shall deem that person and any of his or her dependents Illinois residents for tuition purposes, as long as that person or his or her dependent: (i) applies for admission to the University within 18 months of the person on active military duty being reassigned or (ii) remains continuously enrolled at the University.

A person who is separated from active military service will be considered a resident of Illinois immediately upon separation providing the person: (a) was a resident of the state at the time of enlistment in the military service, (b) became treated as a resident while in the military by attending school at Southern Illinois University while stationed within the state, or (c) has resided within the state for a period of six months after separation.

State and Federal Penitentiary. A person who is incarcerated in a state or federal place of detention within the State of Illinois will be treated as a resident for tuition assessment purposes as long as said person remains in that place of detention. If bona fide residence is established in Illinois upon release from detention, the duration of residence shall be deemed to include the prior period of detention.

Minor Children of Parents Transferred Outside the United States. The minor children of persons who have resided in the State for at least six consecutive months immediately prior to a transfer by their employers to some location outside the United States shall be considered residents. However, this shall apply only when the minor children of such parents enroll in the University within five years from the time their parents are transferred by their employer to some location outside the United States.

Dependents of University Employees. For the purposes of tuition assessment, all faculty and staff (including civil service employees), as well as their spouses and dependent children, shall be considered as resident students.

Dependents of Graduate Assistants and Fellows. The nonresident portion of tuition is waived for the spouses and dependent children of fellows, assistants, and trainees who are appointed as fellows, assistants, and trainees to the fullest extent permitted by their appointment.

Definition of Terminology. To the extent that the terms bona fide residence, independent, dependent, and emancipation are not defined in these regulations, definitions shall be determined by according due consideration to all of the facts pertinent and material to the question and to the applicable laws and court decisions of the State of Illinois.

A bona fide residence is a domicile of an individual which is the true, fixed, and permanent home and place of habitation. It is the place to which, whenever absent, the individual has the intention of returning. Criteria to determine this intention include, but are not limited to, year around residence, voter registration, place of filing tax returns (home state indicated on federal tax return for purposes of revenue sharing), property ownership, driver's license, car registration, vacations, and employment.

Procedure for Review of Residency Status or Tuition Assessment. A student who takes exception to the residency status assigned or tuition assessed shall pay the tuition assessed but may file a claim in writing to the appropriate official for a reconsideration of residency status and an adjustment of the tuition assessed. The written claim must be filed within 30 school days from the date of assessment of tuition or the date designated in the official University calendar as that upon which instruction begins for the academic period for which the tuition is payable, whichever is later, or the student loses all rights to a change of status and adjustment of the tuition assessed for the term in question. If dissatisfied with the ruling in response to the written claim made within said period, the student may appeal the ruling to the chancellor or his/her designee by filing with the appropriate official within twenty days of the notice of the ruling a written request.

Applying for Illinois Residency. In order to qualify for in-state tuition at SIU a student must be a citizen or permanent resident of the U.S. and must be a bona fide resident of the state of Illinois for the six month period immediately preceding the start of the semester they wish to be classified as an Illinois resident. In order to qualify for in-state tuition you would need to be at least 18 years old at the time classes begin and move into Illinois and remain living in Illinois for six months prior to applying. You must also change your driver's license to an Illinois driver's license; register to vote in Illinois and, if, you are the sole owner of a vehicle you will be driving in Illinois, you must have it registered in Illinois. You will need to complete an application for Illinois residency and include with the completed application any appropriate documentation as requested. Have the application notarized before you submit OR have your application notarized in our office (requires two picture IDs) and submit copies of the documents listed below in order to be considered for in-state residency for tuition purposes.

The documents below are required and must be changed six months prior to the semester residency is being requested.

1. A copy of your Illinois driver's license or, if you do not drive, a copy of an Illinois ID Card.
2. A copy of proof you have registered to vote in Illinois. Permanent residents do not need this.
3. If you drive a vehicle in the state of Illinois you must submit a copy of your vehicle registration, which is the card that your license plate sticker comes on. If you are the sole owner of the vehicle, it must be registered in Illinois.
4. Proof you have lived in Illinois for the six consecutive months immediately preceding the start of the semester.

This may consist of one item per month of any of the following documents.

- Bank statement with your name and Illinois address and date showing.
- Pay check if you are employed in Illinois with your name and Illinois address and date showing.
- Rent receipts with your name and Illinois address and date showing.
- Utility bills in your name with your Illinois address and date showing.
- A copy of your Lease with your name and the effective dates listed.
- If none of the above then: Three notarized letters from Illinois residents attesting to your residency in Illinois for the six months before the semester begins.

The deadline to submit the Illinois Residency application and all documentation is the end of the first month of the semester. Submit all documentation to Graduate School Registration, Student Services Building Room 324, 1263 Lincoln Drive, Mail Code 4716, Carbondale, Illinois 62901; FAX: 618/453-4562.

University Employees

All full-time University employees who wish to use the employee tuition and fee waiver (faculty and staff) who are classified as graduate students must seek approval of the Graduate School to enroll in more than six semester hours of courses.

Faculty and Staff

Employees who are seeking a waiver of tuition must apply for the waiver each term by completing an Application for Tuition Waiver form. A form may be obtained from Human Resources, Woody Hall, or from the Graduate Registration Office, Student Services Building 324. The form must be completed each term and returned to Human Resources, Woody Hall. The waiver benefit does not limit the number of credit hours that may be taken. The amount of the waiver will be credited to the student's account after the employment status has been verified and the application form has been processed.

Employees can phone the Graduate Registration Office at 618/453-2969 for any questions regarding the registration process. Questions regarding the tuition waiver should be directed to Human Resources at 618/453-6696.

Academic Grievances

Graduate Student Academic Grievance Policy

Graduate students at SIU shall have the right to appeal for redress of grievance through established channels under the conditions stated below. Access to these channels is restricted to complaints by graduate students alleging that some member of the university community has caused the student to suffer some specific harm related to a matter within the authority of the dean of the Graduate School (i.e. matters pertaining to academic progress of a student). Grievances which have been brought to a hearing under another campus grievance procedure shall not be brought to a hearing under this procedure.

With respect to student's complaints alleging capricious grading, the following guidelines shall apply: Instructors are expected to evaluate student work according to sound academic standards. Equal demands should be required of all students in a class, and grades should be assigned without departing substantially from announced procedures. It is the instructor's prerogative to assign grades in accordance with his/her academic/professional judgement, and the student assumes the burden of proof in the appeals process. Grounds for appeals include:

1. the application of non-academic criteria in the grading process, as listed in the University's nondiscrimination and affirmative action statements: race, color, sex, national origin, religion, age, sexual orientation, marital status, or handicap;
2. the assignment of a course grade by criteria not directly reflective of performance relative to course requirements;
3. the assignment of a course grade by standards different from those which were applied by the instructor to other students in the course.

Graduate Student Academic Grievance Procedures

The steps for dealing with a graduate student academic grievance are detailed below and may include:

1. an attempt at an informal resolution;
2. a hearing before an academic grievance committee of a department/school;
3. a decision by the department chair/school director;
4. an appeal to the Graduate School's Student Appeals Committee;
5. a hearing before the Graduate School's Student Grievance Committee; and
6. a decision by the dean of the Graduate School.

Cases involving academic dishonesty will be handled according to the Student Conduct Code. Separate grievance procedures exist for cases covered by the University Policy on Sexual Harassment, the Policy Accommodating Religious Observances of Students, the Policy on the Release of Student Information and Access to Student Records at Southern Illinois University, the Policy on Immunization of Enrolled Students, the Policy on the Determination of Residency Status, and the University's response to comply with Americans with Disabilities Act. These procedures are published in the Undergraduate Catalog.

Graduate students employed as student workers are covered by a student worker grievance procedure, which is administered by the Financial Aid office.

Informal Resolution

A graduate student seeking redress through grievance must first attempt to resolve the matter informally by contacting the party against whom redress is sought (respondent). If the dispute is not resolved at this stage, the student should contact the respondent's departmental chair/school director or another appropriate mediator, such as the university ombudsman, if any, who shall attempt to resolve the dispute.

Departmental/School Grievance Procedure - Academic Grievance Committee

In the event that the dispute is not resolved informally, a graduate student may ask for and receive a hearing before a departmental/school academic grievance committee. Such a grievance shall be governed by the procedures established by the academic unit in which the complaint arose. In the event an academic unit has not established such procedures, the procedures outlined below shall govern the grievance.

Filing a Grievance

A graduate student desiring a hearing before a grievance committee of an academic department/school must submit a written request to the chair/director of the department/school no later than twenty-one (21) working days* after the beginning of the semester following the incident in question, excluding summer term. A student may request an extension of the deadline in writing by petitioning the department chair/school director. In the event that informal proceedings are continuing toward resolution, such a request shall normally be granted. The request for a hearing must state the following:

1. Name of the grievant.
2. Program in which the grievant is enrolled.
3. Name of the grievant's major adviser.
4. Name and title of the person(s) against whom the grievance is being filed.
5. Current address and phone number of the grievant.
6. Statement of the grievance, including descriptions of the incident(s) involved, date(s) of occurrence, what remedy is being sought, as well as any supporting documents.

*Working days shall mean those days during which the University is in session, excluding weekends or legal holidays.

Department/School Action on Grievance

Upon receiving a written request for a hearing regarding an academic grievance, the department chair/school director shall send the respondent a copy within five (5) working days, who shall provide the chair/director with a written response within ten (10) working days. The chair/director shall then forward the grievance and response to the department/school graduate academic grievance committee within five (5) working days.

A department/school graduate academic grievance committee shall be advisory to the department chair/school director and shall submit its findings to the department chair/school director. The committee shall consist of three members. The department chair/school director may designate an existing department/school committee to serve in such a capacity (subject to the qualifications listed herein), or may appoint an ad-hoc grievance committee. The members of the committee shall be appointed wherever possible from the department/school in which the grievance arose. Of those three members, two shall be appointed from the senior graduate faculty and one shall be appointed from the graduate student body upon consultation with the leadership of the department/school graduate student organization. A department/school graduate student grievance committee shall meet and elect its chair from among its graduate faculty membership. Any faculty member involved in the dispute shall not be appointed to the grievance committee.

The department chair/school director shall notify the parties of the identity of the individuals who have been selected to serve on the grievance committee. The participation of any committee member may be challenged for cause. If the department chair/school director determines that the challenge is valid, she/he shall name a substitute.

The committee chair shall request of both parties copies of any documents and a list of witnesses they wish to introduce. These should be submitted without delay. The committee chair shall convene a hearing

within fifteen (15) working days of receipt of the substantiating documents. These documents shall be available to both parties at least five (5) working days prior to the hearing.

The hearing shall be conducted by the committee according to the hearing procedures which are [outlined below](#).

In the absence of compelling circumstance, the committee shall make its recommendation on the grievance to the department chair/school director within ten (10) working days after the conclusion of the hearing.

The department chair/school director shall decide to accept or reject the committee's recommendations and render a decision on the grievance promptly. The decision and the reasons for it shall be submitted to the parties, the committee members, and the collegiate dean at the same time.

The department chair/school director shall advise the parties of their right to appeal to the dean of the Graduate School. Hearings of appeals shall not be automatically granted. Dissatisfaction with the decision shall not be sufficient grounds for appeal. The appellant must demonstrate that the decision at the department/school level was in error.

If the Department procedures and this Policy/Procedure conflict, the Department procedure will govern the notification.

Appeals of Department/School Decisions to the Graduate School

Filing an Appeal

If a graduate student wishes to appeal a decision of the department/school she/he must file a written appeal, on the form designated by the University, with the dean or designee of the Graduate School within twenty-one (21) working days of receipt of the department/school decision. Once timely filed, the processing of all grievances filed under this Policy/Procedure shall be stopped between May 15 and August 15. The appeal must state the following:

1. Name of the appellant.
2. Program in which the appellant is enrolled.
3. Name of the appellant's major adviser.
4. Name and title of the person(s) against whom the original grievance was filed.
5. Current address and phone number of the appellant.
6. Copies of the original statement of grievance, the response by the person against whom it was filed, supporting documents, as well as a statement of what remedy is being sought.
7. Summary of grievance proceedings held at the department level and the decision(s) rendered at that time.
8. Statement of why the previous decision may be in error.

Graduate School Student Appeals Committee

The dean shall promptly forward the material to the coordinator of the Student Appeals Committee of the Graduate School (SAC). The Vice-Chair of the Graduate council shall be the Coordinator of the SAC who will select three members of the Graduate Council (two faculty members, one student) to form the SAC.

The SAC coordinator shall solicit a reply to the appeal from the respondent, who shall have ten (10) working days from the coordinator's request to provide a written response. The coordinator shall then promptly forward all materials to the SAC members and shall convene the committee at the earliest opportunity. The coordinator is welcome to attend the beginning of the SAC meeting, but once the SAC begins deliberations, the coordinator cannot be present.

The SAC shall decide by simple majority whether a hearing should be held. The SAC shall determine whether there is sufficient evidence provided by the appellant and not sufficiently rebutted by the respondent to indicate that the decision might have been made in error. If so, a hearing should be held.

The SAC shall designate one of its members to inform the coordinator of the SAC's decision within three (3) working days of the decision. If a hearing is not granted, the coordinator shall forward all materials to the dean of the Graduate School and inform both parties of the reasons for the denial. The grievant shall have no further appeals.

Graduate School Student Grievance Committee

If the SAC grants the appellant's hearing request, then a Student Grievance Committee of the Graduate School shall be convened. The SAC coordinator shall request from the Graduate Council a list of

graduate faculty members and from the Graduate and Professional Student Council a list of graduate students available to serve as members of the Student Grievance Committee. These persons may not be members of the same college as the parties to the grievance. It is permissible for these persons to have previously served on the SAC in the same matter. The coordinator shall appoint three graduate faculty members and two graduate students and so notify the parties to the grievance. Committee members may be challenged for cause and, if the coordinator determines the challenge to be valid, she/he shall name substitute(s) from the lists. The committee shall select its own chair.

Upon formation of the Student Grievance Committee, the SAC coordinator shall forward all materials to the committee chair. The chair shall convene a hearing within twenty-one (21) working days of the formation of the Student Grievance Committee.

The hearing shall be conducted by the committee according to the procedures [listed below](#), with the exception that new evidence and witness testimony may be introduced only at the discretion of the committee. The hearing at this level shall be limited to the issues raised to the academic grievance committee of the department/school and/or to the Student Appeals Committee of the Graduate School. New evidence shall not normally be permitted.

The committee shall make its recommendation on the appeal to the dean of the Graduate School within ten (10) working days after the conclusion of the hearing. The dean of the Graduate School shall decide to accept or reject the committee's recommendations and render a decision on the grievance promptly. The decision and the reasons for it shall be submitted to the parties, the Student Grievance Committee members, and the department chair/school director.

All records of the appeal and hearing shall be deposited with the Graduate School upon completion of the Student Grievance Committee's work.

Hearing Procedures

1. The principal parties to the grievance shall have the right to be accompanied by an advisor of their choice. The advisors may speak on behalf of their clients only with the approval of the committee. At the sole discretion of the committee, the committee may allow a party to appear via appropriate electronic means.
2. All hearings shall be open unless either of the parties requests that the hearings be closed. If the hearing is closed, only the parties, their advisor, and the committee shall be present during the taking of evidence. Witnesses for either party shall be present only while giving testimony if the hearing is closed.
3. All hearings shall be audio or video recorded, except that the deliberations of the committee members, after completion of the witnesses testimony and/or party presentations, shall not be recorded. The recording shall be deposited in the Graduate School or department/school, as applicable, at the conclusion of the hearing.
4. Witnesses:
 - a. In the hearing of the academic grievance committee within a department/school, each party may call witnesses to present evidence. Each party shall have the right to examine any witness called by the opposing party. If a witness is unable to attend in person then the committee, in its sole discretion, may allow the witness to appear before the committee via appropriate electronic means and/or to submit written statements. If the presence of a witness is required to ensure fairness to all parties, the hearing may be continued until such witness is able to attend the hearing.
 - b. In the hearing of the Graduate School's Student Grievance Committee, witnesses shall not typically be permitted and may be presented only at the discretion of the committee. If witnesses are allowed, the provisions of paragraph 4.a above shall apply.
5. Each party may make an opening and closing statement.
6. The committee shall decide all matters, procedural and substantive, by simple majority vote.
7. Decisions by the committee shall be based upon a preponderance of the evidence (i.e., the evidence taken as a whole makes a party's claim more likely than not).

Graduate School Procedures for Charges of Academic Dishonesty Leading to Possible Rescission of Degree

Introduction

Charges against a former student relating to acts of academic dishonesty in the submission of graduate degree requirements shall be handled to the extent feasible under the SIU Student Conduct Code procedures applicable to charges relating to academic dishonesty. The dean of the Graduate School has the responsibility for the formal resolution of charges involving academic dishonesty in Graduate School programs. Since the Student Conduct Code procedures are not in all respects applicable to charges involving an individual no longer enrolled in the University, the following supplemental procedures will be followed for adjudicating such charges.

Notification of Charges

Charges against a former student involving allegations of academic dishonesty in the completion of graduate degree requirements shall be initiated by the dean of the Graduate School by letter to the individual, sent certified mail/return receipt requested, stating the specific charges, and the date, time, and place for the hearing, and enclosing a copy of the Student Conduct Code and these procedures. The charge letter shall be mailed no fewer than twenty (20) business days in advance of the date of the hearing.

Hearing Agent

Charges shall be heard by a five-member hearing committee, the members of which shall be appointed from those colleges/schools having graduate programs. Of the five members, three shall be appointed from the graduate faculty and two shall be appointed from the graduate student body. The dean will seek nominations for a committee hearing a case from the Graduate and Professional Student Council for the graduate student members, and from the Graduate Council for the graduate faculty members. The committee will be demographically representative of the University insofar as possible. The academic unit from which the charge arose will not have a member appointed to the hearing committee. Once a hearing committee is constituted it shall meet and elect its own chair from among its graduate faculty membership. The individual charged shall have the right to challenge membership of the hearing committee as provided in the Student Conduct Code.

Hearing Procedures

Hearings shall be conducted in accordance with the formal disciplinary procedures set forth in the Student Conduct Code. In addition, the following procedures shall govern the conduct of the hearing:

1. The individual charged shall have the right to be accompanied by an adviser of his/her choice. An adviser will be permitted to advise the individual in the hearing, and to speak on behalf of the individual and cross-examine witnesses with the consent of the hearing committee.
2. The dean of the Graduate School and the individual charged shall provide to the hearing committee a list of witnesses to be called and copies of any documents which they seek to introduce into evidence at the hearing. The committee chair will furnish copies of these to the other party. Such witness list and documents shall be provided to the hearing committee not less than ten (10) business days prior to the date scheduled for the hearing, and to the parties not less than five (5) business days before the date of the scheduled hearing.
3. All hearings shall be closed unless the individual charged requests that it be open. If the hearing is closed, only the parties, their adviser, and the committee members shall be present during the taking of evidence. Witnesses for either party shall be present only while giving testimony.
4. All hearings shall be tape-recorded. The tape-recording will be submitted along with the entire case record and the committee's findings and recommendations to the dean of the Graduate School following conclusion of the hearing.
5. Each party may make an opening statement before the presentation of any evidence and a closing argument following the conclusion of all evidence.
6. The charges against the individual and witnesses testifying in support thereof shall be presented first. The individual charged shall have the right to respond to the charges and present witnesses and evidence on his/her own behalf.
7. Each party shall have the right to ask questions of any witness called by the other party. Members of the committee may also question witnesses.
8. Written statements in lieu of personal testimony may be used only with permission of the committee and only in the event a witness is physically unable to attend the hearing. The opposing party shall be given notice at least three (3) days prior to the commencement of the hearing of the fact that an individual will not be physically present to give testimony and so that objection may be made to the use of written statements. If the committee determines that the actual presence of the witness is required to insure fairness to all parties, the hearing may be continued until such witness is physically able to attend the hearing.

9. The hearing committee will decide all matters, procedural and substantive, by simple majority vote.
10. In the absence of compelling circumstances, the committee shall make findings and recommendations on the charges to the dean of the Graduate School within fifteen (15) business days after the conclusion of the hearing. The dean of the Graduate School shall render a decision, absent compelling circumstances, within ten (10) business days after receipt of the committee's findings and recommendations. The decision and the reasons therefore shall be submitted to the individual charged by certified mail, return receipt requested, and to the committee chair. If the dean determines that additional evidence is necessary to decide the matter(s), the dean may remand the matter to the committee for the taking of further evidence, and in doing so, may limit the issues on which additional evidence may be taken. When a matter is remanded to the committee, the committee shall follow the procedures set forth above.

Sanctions

Sanctions which may be imposed include the completion of any additional academic requirements deemed necessary for continued holding of the degree, or, if it is found that the degree was improperly awarded because of academic dishonesty on the part of the former student in the submission of degree requirements, a recommendation that the degree be rescinded. A recommendation that a degree be rescinded will be made to the chancellor through the vice chancellor for academic affairs and provost, and will require final action by the Board of Trustees of Southern Illinois University.

Appeal

If the individual is not satisfied with the decision of the dean, a written argument stating the reasons for such dissatisfaction may be submitted to the vice president for academic affairs and provost within ten (10) business days after the date that delivery of the decision was tendered by the U.S. Postal Service to the individual. Such written argument shall be attached to the dean's decision and remain therewith throughout the remainder of the process.

Sexual Harassment Policy

(The following policy was approved by the SIU Board of Trustees on May 7, 2009.)

1. Sexual Harassment Policy Statement

Southern Illinois University is committed to a policy of providing equal employment and educational opportunities. In particular, Southern Illinois University is committed to maintaining a community in which students, faculty, and staff can work and learn together in an atmosphere free of all forms of discrimination, including sexual harassment. Sexual harassment violates the dignity of the individual and the integrity of the University as an institution of higher learning, and thus, sexual harassment in any form will not be tolerated at Southern Illinois University. This policy applies to all employees, students, contractors, and visitors of Southern Illinois University.

This policy prohibits sexual harassment, retaliation related to sexual harassment claims, knowingly reporting false sexual harassment complaints, and knowingly providing false information during the investigation of a sexual harassment complaint. All University employees are responsible for taking reasonable and necessary action to prevent sexual harassment, and all members of the University community are expected to contribute to an environment free of sexual harassment, and are encouraged to report promptly (pursuant to campus procedures) any conduct that could be in violation of this policy. Each SIU campus shall adopt specific procedures for reporting, investigating and resolving harassment claims.

This policy shall not abridge any individual's speech and due process rights under the First and Fourteenth Amendments; nor shall it abridge principles or rights of academic freedom or the University's educational mission. Prohibited sexual harassment and discrimination are not expression protected as a matter of academic freedom.

2. Definitions of Sexual Harassment

Sexual Harassment in Employment means any unwelcome sexual advances, requests for sexual favors, or any conduct of a sexual nature, when:

- a. Submissions to or toleration of such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment (this is a type of quid pro quo – meaning "this for that" – sexual harassment); or
- b. Submission to or rejection of such conduct by an individual is used as a basis (or threatened to be used as a basis) for employment decisions or assessments affecting such individual (this is a type of quid pro quo – meaning "this for that" – sexual harassment); or

c. Such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment (this is a type of hostile environment sexual harassment).

Sexual Harassment in Higher Education means any unwelcome sexual advances, requests for sexual favors, or any conduct of a sexual nature, when:

- a. Submissions to or toleration of such conduct is made, either explicitly or implicitly, a term or condition affecting the student's participation in or benefit from any of the academic educational, extra-curricular, athletic, or other programs of the University (this is a type of quid pro quo – meaning "this for that" – sexual harassment); or
- b. Such conduct has the purpose or effect of substantially interfering with a student's academic performance or creating an intimidating, hostile, or offensive academic environment (this is a type of hostile environment sexual harassment).

Hostile environment sexual harassment occurs when unwelcome conduct of a sexual nature is so severe, persistent, or pervasive that it affects an employee's work performance, limits a student's ability to participate in or benefit from a University program or activity, or creates an intimidating, threatening or abusive working or academic environment. Sexual harassment generally includes something beyond the mere expression or display of views, words, symbols, images, or thoughts that some persons find offensive.

Totality of the Circumstances

In determining whether alleged conduct constitutes sexual harassment, the record as a whole and the totality of the circumstances will be considered. Circumstances may include the frequency of the conduct; its severity; whether it was physically threatening or humiliating, or a mere offensive utterance; and whether it unreasonably interfered with the alleged victim's work performance or ability to participate in or benefit from the University's programs. The objective severity of the conduct will be judged from the perspective of a reasonable person in the position of the alleged victim and not on the intent of the person engaging in the conduct.

Examples of behavior that may be considered sexual harassment include, but are not limited to:

- a. Physical sexual assault or coerced sexual intercourse;
- b. Unwelcome physical contact, such as touching of a person's body, hair or clothing, or hugging, patting or pinching;
- c. Direct or implied threats that submission to sexual advances will or could be a condition of employment, work status, promotion, performance evaluation, grades, letters of recommendation, or other work or educational benefits (quid pro quo);
- d. Severe or persistent unwelcome verbal, physical, or other expressive conduct that is offensive or humiliating in a sexual way. Such conduct may include comments of a sexual nature and/or sexually explicit statements, questions, jokes, anecdotes, gestures, or facial expressions that would offend or humiliate a reasonable person in the circumstances of the individual experiencing this conduct. Conduct need not be in person but can be any form of communication including but not limited to written, telephone, or electronic communication such as electronic mail and/or comments sent via the Internet.
- e. Exhibition or use of sexually explicit materials in the workplace or learning environment that have no relationship to the curriculum or research or the mission of the University and substantially interfere with an employee's work performance or a student's ability to benefit from University programs. Such materials may be in the form of music, documents, objects, photographs, film, or electronically generated materials.
- f. Any unwanted, inappropriate behavior that is targeted to a person or person(s) because of their gender or sexual orientation, for example repeatedly telling women (or men) that they are not capable of doing a certain kind of work.
- g. Amorous or sexual relationships between a faculty member and a student under his or her academic supervision or between a supervisor and an employee under his or her supervision, where the direct power differential compromises the subordinate's free choice. (Even consenting relationships may lead to an actual or perceived conflict of interest or other unethical conduct. See policies on consenting relationships.)

Retaliation is defined as any act of reprisal, including negative or otherwise unwarranted treatment, related to the reporting of, or participation in a complaint of sexual harassment. Retaliation may include, but is not limited to:

- a. Taking negative tangible employment actions against a person;
- b. Taking actions that substantially interfere with or have a chilling effect on the employee's or student's ability to participate fully in and benefit from the work or educational environment;
- c. Failing to provide assistance or instruction that would otherwise be provided;

- d. Failing to fairly and/or objectively evaluate an employee's or student's performance;
- e. Failing to record an appropriately earned grade for a student; or
- f. Otherwise sabotaging an employee's or student's performance or evaluation.

It is a violation of this policy to engage in any retaliatory acts against an employee or student who reports an alleged incident of sexual harassment, or any employee or student who testifies, assists, or participates in a proceeding, investigation, or hearing relating to an allegation or complaint of sexual harassment.

3. **Duty to File in Good Faith/False Reports**

Any person who reports alleged sexual harassment or provides information during the investigation of a complaint is presumed to have participated in the investigatory process in good faith. It is a violation of this policy for persons to knowingly make a false sexual harassment complaint or knowingly provide false information during the investigation of a complaint.

4. **Implementing Procedures**

This Sexual Harassment Policy is to be implemented throughout the University, and procedures consistent with this policy for such implementation are to be established on each campus. The President is authorized to delegate to each Chancellor the authority to develop procedures for the implementation of this Sexual Harassment Policy.

Attribution

Sexual harassment policies are governed by state and federal laws and statutes. As such, policies at many institutions can look very similar to that proposed by SIU. This policy was developed in accordance with the Illinois Human Rights Act (775 ILCS 5/2 and 775 ILCS 5/5 and 775 ILCS 5/5a); the Equal Employment Opportunity Commission Regulations (29 C.F.R. § 1604.11); and guidance issued by the United States Department of Education Office of Civil Rights. Additionally, policies from several other universities were reviewed including: University of Massachusetts Amherst, University of Michigan, University of North Carolina at Chapel Hill, Michigan State University, University of North Carolina at Greensboro, University of Maine, Indiana University, Indiana University - Purdue University at Indianapolis, Purdue University, University of Southern Indiana - Evansville, New York University, University of Illinois, University of Massachusetts - Boston, City University of New York, Northwestern University, Illinois State University, University of Colorado System, Youngstown State University, Princeton University, Michigan State University, and University of Florida - Gainesville.

Where to Get Information Regarding SIU's Sexual Harassment Policy

Complaint Resolution Officer

Kay Doan, Title IX Coordinator
[Office of Equity and Compliance](#)
618-453-4807

In an emergency situation that involves possible criminal sexual misconduct or in the event of criminal sexual assault please notify Campus Police at 618/453-3771 or dial 911 (both lines are TTY/ TDD accessible.) If it is not an emergency, please report to safe.siu.edu.

Academic Resources

Library Affairs

Morris Library is named after the late Delyte W. Morris, University President from 1948 to 1970. Students, faculty, and staff of the University benefit from unlimited access to millions of dollars of research materials carefully selected and maintained by professional library faculty and staff through lib.siu.edu. The catalog, I-Share@Morris Library, is the gateway to identify and request items held in Morris Library, as well as from over 100 other academic libraries in Illinois. Items requested from other libraries arrive within a few days through I-Share or Interlibrary Loan. Online resources include academic journals, e-books (now over 249,000 in number), full-text databases, and freely-available resources. The building houses nearly three and a half million volumes, three and a half million microforms, and 49,990 currently received periodicals and serials. The physical collections also include government documents, maps, films, DVDs, and sound recordings. Morris Library is a selective U.S. Federal Depository Library and an Illinois State Depository. With the exception of materials in the Special Collections Research Center, library materials are arranged on open shelves for convenient browsing.

Over 300 computers distributed throughout the building provide access to the catalog and to all of the online resources while patrons are in the Morris Library building. Throughout the building, patrons find wireless access, study tables with integrated power outlets, comfortable seating, and group study rooms of various sizes and configurations. Students may reserve group study rooms online. The basement and 5th floors are reserved for silent study. Other frequently-used services available in the building include copiers, scanners, printers, Debit Dawg machine, fax machine, vending machines, and free electronic device charging stations.

Morris Library has been transformed into a spectacular center of academic, social, and aesthetic activity for the University and local community during the last decade. In addition to abundant natural light, a variety of seating arrangements cater to every patron's study preference. Visitors enjoy intellectual, historical, cultural, and artistic events in the 200-seat Guyon Auditorium, Hall of Presidents and Chancellors, and two Rotundas. Art and exhibits adorn many areas of the building with receptions and lectures announced frequently.

Delyte's Cafe serves coffee and other beverages as well as yogurt, soup, sandwiches, salads, baked goods, and snacks from early morning into the evening. During the academic year, the building is open to all, Sundays from 1 p.m. - Midnight, Mondays - Thursdays 7:30 a.m. - Midnight, Fridays 7:30 a.m. - 9 p.m. and Saturday 10 a.m. - 6 p.m.

Library services provided in Morris Library include:

- The Information Desk invites patrons to ask questions, obtain assistance with academic, professional, and personal research, and get technology help (SalukiTech). The Information Desk and the ["Ask a Librarian"](#) service are staffed by library faculty and staff who are eager to help students, faculty, staff, and others in fulfilling their research needs. Consultations, instructional sessions, online tutorials, videos, and guides are provided free of charge on a continuous basis.
- Disability Support Services features software, hardware, and assistance for those who need adaptive technologies.
- Circulation Services checks out library materials, course reserves, interlibrary loan items, laptops, adaptors, and other devices.
- Instructional Materials Center (IMC) contains a collection of PreK-12 materials designed to provide students, teachers, and school administrators both on-campus and in southern Illinois with sample teaching materials that can be used in the classroom or in evaluating curricular materials.
- Geospatial Resources includes the Map Library and Geographic Information Services (GIS). The Map Library houses more than a quarter of a million maps and nearly 100,000 aerial photographs. GIS assists patrons in locating existing digital maps or in creating customized maps.

The Special Collections Research Center (SCRC) is located off the Hall of Presidents and Chancellors. SCRC houses unique materials such as rare books, manuscript collections, and the University archives. It contains significant research collections in American Philosophy, First Amendment Freedoms, American and British twentieth century literature and theatre, a Political Papers archive, and the history of southern Illinois.

In addition to comprehensive library services, the Morris Library building is home to Math Central (classrooms and lab), Learning Support Services (Tutoring Center, Testing Services), Center for Teaching Excellence, the University Honors Program, the Writing Center, and Saluki Tech (walkup technology support and personal device configuration).

Information Technology

The Office of Information Technology (OIT) supports the University mission by providing students, faculty, and staff with reliable access to the technology that they need to succeed. OIT Technology Services supports a wide range of technology resources including email and network ID set up; phone, email, and walk-in support via SalukiTech; on-campus device repair; desktop support; student printing services for convenient printing across campus; and site-licensed software for departmental and personal use. Technology Services also operates five general access Computer Learning Centers (CLC labs) with computers running Windows, Mac, and UNIX operating systems. These computer classrooms are available for instruction that requires the use of technology.

Research Computing supports SIU researchers and graduate students doing research with access to the University's 34.7 Teraflop supercomputer. Free access to this advanced computing cluster is requested through OIT. OIT Networking supports campus Wi-Fi and ethernet access in the student residence halls.

Networking also provides network-based information resources, as well as Internet2 connectivity, to all main campus buildings. SIU's network is connected through three independent Internet Service Providers (ISP).

Client Relations and Communications, a new unit in OIT, provides outreach to the campus from OIT and keeps the campus informed about OIT services and initiatives. The CR also takes in information from constituents and shares campus needs and desires with OIT. Networking supports campus telephone services and all network infrastructure on campus. OIT Enterprise Applications controls records management services, administrative information systems, student information systems, and all major implementations on campus. One of the most valuable tools Enterprise Applications offers is [SalukiNet](#). This portal connects students to their SIU personal records: admissions, housing, financial aid, grades, transcripts, account information, student payroll, and more. A second tool of great interest to students is Degree Works-- a software program that allows students to review requirements for their majors to keep themselves on track to complete their degrees on time. OIT Systems is the backbone of University computing. Systems houses critical, enterprisewide technology, including all of the computers needed to run the business of the University. Systems maintains redundant systems on and off campus to ensure that OIT can back up and restore information in the event of a catastrophic system failure. OIT's Project Management Office works with campus constituents to assess, plan, organize, and push technology-heavy projects forward. Detailed information about OIT services can be found [on our website](#).

Research and Service Centers

Advanced Coal and Energy Research Center

The Advanced Coal and Energy Research Center (ACERC) is a facilitator of leading edge energy research teaching and service on the SIU Carbondale campus.

ACERC, through the Energy Boost program funded in 2015, supports energy-related research grants, scholarships, educational programs, and graduate assistantships on the Carbondale campus. Students in SIU's Mechanical Engineering and Energy Processes (MEEP) department can earn a minor or a specialization in Energy, and non-MEEP students can earn a minor in Energy. ACERC also supports SIU's Professional Science Master's in Advanced Energy and Fuels Management program.

ACERC provides scholarships for eligible students in these programs. ACERC provides seed grants for faculty research, student grants for undergraduate research projects, and funding for the real-world application of cutting edge energy concepts. Ever at the forefront of efforts for safer, cleaner, and more efficient energy, SIU researchers are making discoveries in areas such as energy storage, ultra-low emission energy systems, energy public policy, carbon dioxide utilization, environmental restoration, biofuels, advanced energy materials, and energy systems management. Faculty and students from fields including engineering and technology, physical sciences, social sciences, business, education, law, and agriculture have contributed to the University's international reputation in advanced energy research and scholarship.

More information can be found by exploring energy.siu.edu, emailing acerc@siu.edu, or by calling 618/536 5521.

Center for Alzheimer's Disease and Related Disorders

The School of Medicine's center in Springfield has research projects that cover a wide range of basic science and clinical studies relating to normal aging, memory impairment, Alzheimer's disease, Parkinson's disease, tremor, and functional MRI. The Center also maintains a brain bank of human brain tissue. The web address is: siumed.edu/alz.

Center for Archaeological Investigations

The [Center for Archaeological Investigations](#) engages in research in the American Midwest and Southeast, and Mexico. Funding is provided by state and federal agencies, and private institutions. The Center also conducts archaeological research for firms and government agencies that are required to comply with environmental and antiquities laws. The Center supports an annual field school with the Department of Anthropology and provides thesis/dissertation data and research opportunities for students. It also curates large collections of archaeological materials, representing more than 60 years of research in the American Midwest and Southwest.

Center for Autism Spectrum Disorders

The [Center for Autism Spectrum Disorders](#) (CASD) is a research, training, and service program within the Rehabilitation Institute and a partner in the Autism Program of Illinois. The CASD provides interdisciplinary training for students enrolled in various programs at SIU, including Communication

Disorders and Sciences, Behavior Analysis and Therapy, and Psychology. The CASD also collaborates with several area service providers, such as local special education districts, Early Intervention agencies, as well as state agencies, to help them provide best practice treatment. Diagnostic and treatment planning assessments are conducted to determine the presence of ASD and functional objectives in therapy. CASD faculty and students are engaged in cutting edge research in areas related to ASD, such as Acceptance and Commitment Therapy and Relational Frame Theory in both early learners and adolescents and adults. Additionally, the researchers focus on staff training, and early identification.

Center for Delta Studies

The [Center for Delta Studies](#) builds linkages among scholars in the SIU system, universities in the region encompassed by the Delta Regional Authority, and between researchers and the larger public. Its mission is to promote groundbreaking research that will contribute innovative solutions to the enduring problems of poverty and the associated human and ecological struggles that are endemic to the Delta region.

Center for Ecology

The purpose of the [Center for Ecology](#) is to provide an umbrella for ecological research, teaching, and training at SIU. More than 50 faculty members and numerous students and staff from several departments in the Colleges of Agricultural Sciences, Engineering, Science, and Liberal Arts participate in this interdisciplinary program. Independent, cooperative, and collaborative research conducted by Center faculty takes advantage of the exceptional range of natural resources of the region across a variety of ecosystems in Illinois, throughout the United States, and around the world. The Center offers a variety of resources and opportunities for graduate and undergraduate students at SIU and beyond, including internships, a state of the art analytical laboratory, an annual student research symposium, and the 1,400 acre Middle Mississippi River Wetland Field Station. Doctoral students pursuing ecological studies at SIU can earn a Specialization in Ecology, which appears on the transcript, through the Center.

Center for Environmental Health and Safety

[This center](#) is responsible for the facilitating and monitoring of campus-wide compliance to policies, guidelines, and regulations with respect to environmental and occupational health and safety, specifically those of the University, Environmental Protection Agency, Illinois Emergency Management Agency, Division of Nuclear Safety, Occupational Safety and Health Administration, National Institutes of Health, Office of the Illinois State Fire Marshal, and other federal and state agencies as applicable.

Illinois Soybean Center

Established in 1997, the [Illinois Soybean Center](#) focuses on developing information and technologies that enhance soybean production in Illinois and the North Central region, increase soybean utilization by the global community, contribute to the base of scientific knowledge, and educate human capital in the various attributes and applications of soybean. SIU faculty members in the College of Agricultural Sciences collaborate with those in the College of Science and the School of Medicine, along with university colleagues throughout the nation, to implement interdisciplinary research, education, and outreach programs on soybeans. The Center addresses issues related to all aspects of soybean production, utilization and policy, including breeding and genetics, biotechnology, crop protection, human nutrition and food, animal nutrition, marketing, and consumer acceptance.

Center for Workforce Development

The [Center for Workforce Development](#) was established to create a research, education, and training group that provides students and faculty with the opportunity to collaborate on research and development, education and training, and information and product dissemination. The objectives of the Center emphasize:

1. Research and Development—addressing the broad array of issues affecting the nature of the workforce and workplace settings.
2. Education and Training—addressing development and delivery of customized workforce education and training programs/courses in collaboration with agencies and organizations in the public and private sectors.
3. Information and Product Dissemination—addressing the need for dissemination of curriculum and instructional resources useful for promoting work-related education and training.

The Center for Workforce Development will serve as a broker in the exchange and sharing of information and higher education resources associated with the nature of the workplace and workforce. Further, the Center will act as a catalyst in bringing together leaders from business, research, education, and government to interact and work together to formulate public policy associated with workforce development.

The Nurse Aide Testing Project

The Nurse Aide Testing Project is a collaborative, multi-faceted research, education, and innovation project that utilizes the latest technologies to provide training, certification testing, curriculum development, and content delivery to a variety of programs across the SIU campus, the state of Illinois, and the United States. The project was initiated to create and administer the certification exam for Nursing Assistants for the state of Illinois and continues to certify tens of thousands of individuals annually for employment eligibility. This project has seen significant growth over the years, and now it has grown to encompass several other fields of research to include gamification to better engage students, a motion capture laboratory for training development, online course development, specialized video techniques to enhance content delivery, and online training development. The project also includes a Workforce Education Research and Developmental Laboratory whose mission is to enhance the current and future effectiveness of organizations by maximizing the value of human capital through innovative training techniques and staff development.

Center for Fisheries, Aquaculture, and Aquatic Sciences

Graduate research in fisheries, aquaculture, and aquatic ecology is conducted through the [Center for Fisheries, Aquaculture, and Aquatic Sciences](#). Graduate study in fisheries, culminating in the Master of Science or Doctor of Philosophy degree, is offered in the Department of Zoology. In addition to a wide variety of support courses, nine fisheries courses are taught. Research activities include studies in fish management, aquatic conservation, genomics, aquatic toxicology, and aquaculture. Emphases include warmwater, coolwater, and coldwater fishes native to Illinois. There are also opportunities to work with exotic species of fishes and shellfishes, both freshwater and marine. Some of the areas of research stressed are trophic ecology, water quality, large river ecology, aquaculture, conservation biology, invasive species, nutrition, fish physiology, fish genetics, utilization of nursery areas, ecology of larval fishes, age and growth studies, stable isotopes, population dynamics, and aquatic toxicology. Facilities in the Center for Fisheries, Aquaculture, and Aquatic Sciences include offices, well equipped laboratories, a computing faculty, vessels for work on rivers and lakes, aquarium rooms, culture ponds, a greenhouse for hydroponic and recirculating water system studies, the new state of the art Aquatic Research Laboratory and [Saluki Aquarium](#), an 8,300 square-foot wet-laboratory building and a 90-pond research/demonstration facility.

The Materials Technology Center (MTC)

The [Materials Technology Center](#) was established in 1983 as a result of a high-technology thrust by the state of Illinois. Charged with stimulating materials-related research on the campus of SIU, the center accomplishes this mission through initiating interdisciplinary research in the Colleges of Engineering and Science, disseminating results to researchers in academia, industry, and national laboratories, and organizing Materials seminars and discussion groups. The center encourages research in new areas by administering a competitive grant program that funds start-up projects for faculty entering new areas of materials research and provides technical, administrative, and financial support to start-up and established research programs.

A historical strength of the center has been research in the area of carbon-carbon composites, but the center has expanded its leadership and expertise in carbon science to include studies in areas such as carbon nanotubes and development of carbon material precursors. New areas of emphasis include Materials for Energy Storage Technology, Materials Design by Iterative Computation, Synthesis and Characterization, and Materials for Sensors and Biosensors. Other research programs include catalysis, magnetic materials, materials for alternative and traditional energy, polymers, chemical vapor deposition and infiltration, and plasma induced deposition techniques. Under the guidance of established experts, students associated with MTC receive hands-on training and valuable experience. The total program of the center offers an opportunity for students at all levels of experience to train in the fields of Materials Science and Engineering.

Meyers Institute for Interdisciplinary Research in Organic and Medicinal Chemistry

The [Meyers Institute](#), founded in 2000 through an endowment provided by Dr. Cal Y. Meyers, Distinguished Professor Emeritus, advances knowledge in fundamental and applied organic and medicinal chemistry. Institute personnel include members of the College of Science, College of Agricultural Sciences, and School of Medicine, among others. In conjunction mainly with the Department of Chemistry and Biochemistry, undergraduate and graduate students and postdoctoral fellows are afforded stipends to participate in advanced research projects. As part of its activities, the Institute hosts bi-annual symposia.

Paul Simon Public Policy Institute

The [Paul Simon Public Policy Institute](#) (also called the Paul Simon Institute) is a resource for SIU students, the campus community, the region, and the State of Illinois. The Institute's mission focuses on fostering ethical conduct in government, opportunity and fair treatment for people in America and throughout the world, and promoting responsible citizenship for all Americans--but particularly for young Americans. The Institute executes its mission by: Conducting nationally known public opinion polls (The Simon Institute Poll™ and The Southern Illinois Poll™) to inform decision makers and citizens; Publishing analysis of public policy issues in its occasional papers (The Simon Review); Providing and supervising paid internships, graduate assistantships and fellowships for undergraduate and graduate students in Carbondale, Springfield and elsewhere; hosting noted leaders in public policy, politics, journalism, and other fields to campus for speeches, conferences, and hosting leadership and civic education opportunities for high school students.

The Institute's popular "Pizza and Politics" programs are geared to both undergraduate and graduate students of all majors to interact with Institute guests. Other Institute undergraduate opportunities include the Vince Demuzio Internship program where juniors and seniors learn about public service during paid internships in local governmental offices. Undergraduate students can learn about public service while working paid internships in Springfield state government offices through the Gene Callahan Internship and the Alexander Lane Internship. The Institute has also sponsored learning opportunities for students in Washington D.C. and Pittsburgh, PA.

Paul Simon established the Public Policy Institute in 1997 upon his retirement from more than 40 years in elected office. Simon was a state Representative, state Senator, and Illinois Lieutenant Governor before being elected to five terms in the U.S. House of Representatives beginning in 1974 and then serving two terms as U.S. Senator. Additionally, he was a candidate for the Democratic nomination for President of the United States in 1988 and a political mentor to many, including President Barack Obama. He remains one of Illinois' most revered political leaders and enjoyed broad bipartisan support from voters most of his career.

After Sen. Simon's passing in 2003, Mike Lawrence, who had been press secretary and senior adviser to Illinois Governor Jim Edgar in the 1990s and who served as the Institute's associate director since its inception, was named director. He retired in 2008. David Yepsen, a political columnist at the Des Moines Register for more than 30 years, was named director in 2009. He retired in 2016. Jak Tichenor was named interim director on November 1, 2016. Jak is a veteran broadcast journalist who spent the majority of his reporting career at WSIU Public Television in Carbondale. Tichenor is the executive producer and host of the statewide Illinois Lawmakers series on the Illinois General Assembly for Illinois Public Television and has served as Statehouse Correspondent for the series since 1991.

Fermentation Science Institute

Established in 2014, the [Fermentation Science Institute](#) is a campus resource that supports educational, research, and outreach activities involving various aspects of fermentation. Topics include the production and analysis of alcoholic beverages and fermented foods, as well as the production of fuels, pharmaceuticals, and biomaterials. As an interdisciplinary initiative involving various departments from multiple colleges, the Institute coordinates and supports collaborative research projects and outreach programs providing advanced educational and training opportunities. The Institute also houses and manages the Bachelor of Science degree in Fermentation Science (see undergraduate catalog). Located in newly renovated space in the McLafferty Annex, the Institute provides state-of-the-art teaching and research facilities and operates a fee-for service laboratory providing third-party testing of wine, beer, and distilled spirits.

Safety Center

The Safety Center was established in 1960 and is affiliated with the Department of Public Health and Recreation Professions. The Center's research activities, carried out by faculty, staff, and graduate students, focus on injury control and prevention, as well as traffic safety. The Center also offers training programs in motorcycle rider safety, emergency/evasive driving/protective services, and child and occupant safety protection. It provides consulting services to businesses, agencies, and the general public. The Center hosts meetings, courses, seminars, and conferences on a wide range of injury prevention and health promotion topics. The Center's programming and research activity can be viewed at the [Department's website](#).

STEM Education Research Center

The [STEM Education Research Center](#) (SERC), a research and public service unit of Science Technology, Engineering, and Mathematics (STEM), was created by SIU with the approval of the Illinois Board of Higher Education on July 1, 2014. The SERC at SIU seeks to organize and sustain a community of faculty and staff from across the university to collaboratively prepare the next generation

of STEM educators, researchers, and professionals. The SERC seeks to advance STEM literacy and address critical issues in STEM education at local, state, and national levels through interdisciplinary and integrative strategies in research, education, and service. The SERC supports existing programs and develops new grant initiatives to provide professional development for PreK-12 educators, advance research on STEM education, and enhance the undergraduate STEM experience.

At the national level, there is a clarion call for an increase in college graduates in STEM programs to address the critical need in the very industries that will be at the center of the continuing transformation of the world economy. National reports indicate the danger of the U.S. economy losing ground internationally unless our educational system becomes more effective at producing students interested in and capable of the rigors of the educational programs in the STEM disciplines. In addition, once these students enter university-level STEM programs, they must be greeted with effective state-of-the-art STEM content and pedagogy.

At the state and local level, one of the key components of an increase in the effectiveness of STEM education is the implementation of the Common Core State Standards (corestandards.org) and the Next Generation Science Standards (NGSS; nextgenscience.org) at the state level. While adopting these national standards is voluntary at the state level, Illinois has agreed to implement the Common Core and is an active lead state partner in the NGSS efforts. The implications of these decisions are just beginning to emerge and will completely transform the content and pedagogy employed in K-12 classrooms across the state. In addition, new highstakes assessments have been prepared that have replaced the Prairie State Exam at the high school level. As the state research university in the Southern Illinois region, SIU has an obligation to provide as much support as possible during this important transition period to our local school districts.

The structure and programs of the STEM Education Research Center (SERC) correspond to the primary areas of interest: K-12 STEM education, undergraduate STEM education, and graduate STEM education. As indicated above, K-12 STEM education is in a period of rapid transformation. One area of emphasis of the Center will be coordination of the existing programs already implemented at SIU.

Cooperative Wildlife Research Laboratory

Since its founding in 1950, the [Cooperative Wildlife Research Laboratory](#) (CWRL) has achieved a distinguished record training graduate students in basic and applied principles of vertebrate ecology and wildlife biology. It is a comprehensive program that is recognized among the premier wildlife research units in the nation. Independent, cooperative, and collaborative research supported by industry, foundations, and state and federal agencies lead to better understanding and management of natural resources. Areas of acknowledged laboratory expertise include the biology and ecology of a variety of terrestrial wildlife species; landuse impact on wildlife resources; wildlife and environmental toxicology; waterfowl/wetland ecology; thermal ecology; and the epizootiology of zoonotic and other diseases in wildlife. The CWRL has pioneered in the reclamation and enhancement of mined lands for the benefit of various resources; current efforts provide unique research and training opportunities. More than 30 projects directed by laboratory staff currently afford broad and varied research opportunities to graduate fellows and research assistants, as well as undergraduate students. These activities exceed \$1,000,000 each year in contracts and grants, resulting in significant contribution to academic needs of students and staff and requests for service by state, federal, and private agencies.

Research Support Facilities

The services of several centralized research support facilities are available to faculty, staff, and students at minimal cost. [IMAGE](#) (Integrated Microscopy and Graphics Expertise) provides training, technical service, and research in electron, atomic-force, and light microscopy. It also offers technical assistance to those in need of scientific photography or computer-graphics illustration as part of their research. The [Mass Spectrometry Facility](#) (housed within the Chemistry Department but available to researchers across campus) has a variety of instruments, and offers qualitative and quantitative analysis services. The [Laboratory Animal Program](#), a fully accredited facility, is directed by a veterinarian with specialty training in laboratory animal medicine to ensure proper and humane care of research animals. The Aquatic Research Laboratory and Saluki Aquarium is used to raise both marine and freshwater animals for ecology, aquaculture, and conservation research and student training.

Office of Sponsored Projects Administration

The Office of Sponsored Projects Administration (OSPA) facilitates research and sponsored project activities on campus, which includes offering a number of services for faculty, staff, and students who wish to submit grant applications to funding agencies. Graduate students seeking funding for their research projects (dissertation support, research fellowships, travel grants, etc.) should start with [OSPA's website](#), which offers access to a searchable grants database (Grant Forward), includes links to several funding agencies, and provides other grant-related material.

Many of the necessary forms and data required to complete grant proposals are easily available on the website. OSPA staff are available for assistance in proposal preparation and submission. OSPA also works with faculty and student researchers throughout the award process including negotiating grant/contract award agreements, accessing the funding, and fiscal reporting.

One of OSPA's responsibilities is to ensure that research conducted at SIU complies with all applicable federal and funding-agency regulations. Funded or unfunded research that will involve any of the following must have institutional approval before the research project begins: human subjects (including administering questionnaires, conducting interviews, or accessing confidential databases), live vertebrate animals, and hazardous or regulated agents including but not limited to radiological materials, controlled chemicals, or biological materials such as recombinant nucleic acids. Students should contact OSPA 618/453-4540 or their graduate advisor for guidance.

Accreditations

The Graduate School, as a part of SIU, is fully accredited by the [Higher Learning Commission](#).

Associations

Consortium for Advanced Radiation Sources

The University is a member of the Consortium for Advanced Radiation Sources (CARS), a research consortium composed of Northern Illinois University, the University of Illinois at Chicago, the University of Chicago, Southern Illinois University Carbondale, and the Australian Nuclear Science and Technology Organization. Membership with CARS provides access to the facilities being developed at the Advanced Photon Source sited in Illinois and facilities at other federal laboratories.

Council of Graduate Schools of the United States and Canada

The University is a regular member of the [Council of Graduate Schools](#) (CGS) of the United States and Canada. CGS was established to provide graduate schools with both a comprehensive and widely representative organization through which they can counsel and act together.

Council on Research Policy and Graduate Education (CRPGE) in the Association of Public and Land-Grant Universities (APLU)

The Graduate School is an active member of this major research and graduate educational council of the largest association of public research universities in the United States. Website: aplu.org.

Oak Ridge Associated Universities

Since 1980, students and faculty of Southern Illinois University Carbondale have benefited from its membership in [Oak Ridge Associated Universities](#) (ORAU). ORAU is a consortium of 98 colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help their students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship, and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education (ORISE), the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of

opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, geological sciences, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the numbers of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs.

ORAU's Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU's members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs as well as services to chief research officers.

The Science Coalition

[The Science Coalition](#) is a nonprofit, nonpartisan organization of more than 50 of the nation's leading public and private research universities. It is dedicated to sustaining the federal government's investment in basic scientific research as a means to stimulate the economy, spur innovation and drive America's global competitiveness.

Facilities and Services

Career and Development Center

The Career Development Center offers a wide variety of services to both undergraduate and graduate students as well as alumni. From helping students research careers in their field of study to helping them connect with potential employers, the Career Development Center is here to assist students and alumni with their career and professional development needs. Services include career research, resume critiques, curriculum vitae critiques, cover letter critiques, interview preparation, mock interviews, alumni mentor program, salary negotiation, job search assistance, and on-campus interviews. They are located in the Student Services Building, Suite 110. Appointments can be scheduled by calling 618/453-2391.

University Housing

Many SIU Carbondale graduate students live on campus. Our on-campus apartments and residence halls offer professional, live-in staff; convenient locations; 24-hour emergency maintenance; air conditioning and laundry facilities. Amenities vary.

Apartments

Evergreen Terrace Apartments offers two- and three-bedroom apartments. Internet and cable included. Programs and activities for adults and children are available. ELIGIBILITY: SIU Carbondale students with up to four children, married students, domestic partner students, and single graduate and undergraduate students.

Wall & Grand Apartments offer two-and four-bedroom fully furnished, all-inclusive apartments. Each apartment houses four students and includes all utilities, cable and wireless Internet, a complete kitchen and washer/dryer in each unit. Accessible and co-ed apartments are available. ELIGIBILITY: Single SIU Carbondale sophomore, junior, senior and graduate students of any age and freshmen age 21 and older.

Elizabeth Apartments offer furnished efficiency apartments. ELIGIBILITY: SIU Carbondale single graduate students.

Residence Halls

Single students may live in on-campus residence halls. The traditional residence hall contract includes a dining plan, all utilities, air-conditioning, wireless internet and cable television.

Contracts

Contract and application information is available online at housing.siu.edu. Direct questions to the University Housing Contracts Office at 618/453-2301 or housing@siu.edu.

Parking On Campus

Graduate students parking a motor vehicle on campus must display a valid and appropriate parking permit obtained from the [Parking Division](#). The Parking Division of the Department of Public Safety assists students with parking on campus by issuing a parking decal or a temporary parking permit for individuals with short term parking needs. Parking regulations are enforced twenty-four hours a day, seven days a week and can be reviewed at our website. Applications for parking privileges can be completed online. The type of decal an applicant is eligible to receive and the date of purchase determines decal cost. Graduate students with an assistantship do not qualify for faculty/staff decals.

The Parking Division office is open 7:30 a.m - 4:30 p.m. Monday through Friday. After hours, please contact the SIU Police Department for parking guidance at 618/453-3771.

Center for International Education

The office of the director for Center for International Education (CIE) is responsible for developing and supporting faculty, staff, and students in international education. The office administers International Development, Study Abroad, International Student Support, and International Undergraduate Admissions.

Primary goals include increasing the numbers of externally funded grants and contracts in the international arena for SIU; increasing international enrollment, serving international students, and providing international opportunities for faculty and students. Units of CIE are located at 425 Clock Tower Drive in the northwest section of Woody Hall facing the clock tower.

International Development

The [Office of International Development](#) provides University-wide leadership, coordination, and support for a variety of international activities. These activities include research and dissemination of information on external funding opportunities, development and administration of grants and contracts, maintenance of an international projects database, administration of international linkage agreements, coordination of Women and International Development activities, sponsorship of international forums, administrative support for international alumni, international student recruitment, and assistance with international visitors and protocol. A major focus of office activity is to assist faculty with grant proposals, training contracts, and related activities of an international nature.

The Office of International Development is located at 425 Clock Tower Drive in the northwest section of Woody Hall facing the clock tower 618/453-7674.

International Student Support

The [International Student Support](#) division provides comprehensive programs and services for international students and scholars from prearrival correspondence to post-graduate concerns. These programs and services include processing of undergraduate admission applications, serving as liaison with foreign governments and sponsoring agencies, and other needs. This office has been designated by the U.S. Citizenship and Immigration Services (USCIS) as having the official responsibility for interpretation and adherence to USCIS laws and regulations as they apply to non-immigrant students and faculty. Also designated responsible officers administer proper compliance with the Exchange Visitor Program for the University. Assistance with USCIS regulations, forms, and procedures is provided to all non-immigrants related to University and broader community affairs.

Integral educative services include orientation programs, arrival and housing assistance, personal counseling and referral, a Handbook for International Students and Faculty, a newsletter (The International Dateline), advisement of international student associations, and a re-entry workshop for international students returning home.

Special programs which promote an international dimension of cross-cultural exchange to the broader community are provided. An annual International Festival and various national day celebrations are held. The Community Programs subdivision in cooperation with the International Friends Club coordinates a Host Family Program, International Speakers' Bureau, English in Action, Language Exchange, American and International Cooking Exchange, an International Spouses Group, and a Loan Closet.

The International Student Support division is located at 425 Clock Tower Drive in the northwest section of Woody Hall facing the clock tower 618/453-5774.

Study Abroad Programs

[Study Abroad Programs](#) coordinates overseas services for domestic and international students, including international grant programs, exchanges, and faculty-led Global Seminars. It is the central referral point for information on the student Fulbright program and on the Boren Award and Gilman Award. Graduate students may also participate in inter-university international exchange programs and in travel/study programs offered during the summer and intercession periods under the auspices of this division.

Study Abroad Programs is located at 425 Clock Tower Drive in the northwest section of Woody Hall facing the clock tower 618/453-7670.

Economic and Regional Development

The University established the [Office of Economic and Regional Development](#) (OERD) in 1986 as a means to improve the quality of life and economic climate in southern Illinois. OERD's mission is to establish and support an environment to foster innovation, commercialize University discoveries, and advance entrepreneurship and economic development within SIU and throughout the region. Located in SIU Research Park south of campus across from Saluki Football Stadium, OERD administers the Illinois Small Business Development Center at SIU, Illinois Manufacturing Excellence Center, The Small Business Incubator Programs including the Saluki Innovation Lab and Saluki Ventures, The Center for Innovation, The Center for Delta Studies, Business Innovation and Research, and SIU Research Park. Additionally, the department manages several other regional projects and training programs to support entrepreneurs, inventors, and regional community partners. Space may also be leased within the Research Park for new business start-up or existing business expansion.

Student Health Services

[Student Health Services](#) is AAAHC accredited and is one of the largest and most comprehensive health centers in the nation. It serves as a medical facility and health information resource for a richly diverse campus community, supporting students in the achievement of their academic goals and personal development through the creation of a healthy campus. The Student Health Center is open Monday – Friday from 8:00 a.m. to 4:30 p.m. Our services include:

Health Insurance Benefits

SIUC offers a student health insurance plan to provide off campus healthcare coverage such as emergency care, hospitalization, surgery, and other specialty healthcare services. This ACA compliant plan is designed specifically for SIU students and features a national provider network, low deductibles, low copays and low out of pocket costs to students. Students with comparable health coverage may waive the fee by the posted deadline. Domestic students must complete the online waiver form and international students must call or visit the Student Health Services insurance department. Students still have access to the Student Health Center even if they waive the Student Health Insurance Plan because students pay the Student Health Fee as part of their tuition.

Immunization Compliance

All students enrolled in more than 5 credit hours on campus are required by Illinois Law (Public Act 85-1315) to provide proof of vaccinations for tetanus, diphtheria, pertussis, measles, mumps, rubella, and meningitis. All International students are required to complete a mandatory Tuberculosis (TB) screening. This (TB) screening must be done at the Student Health Center. Records must be in English. Elective immunizations such as Hepatitis, Flu, and travel vaccinations are recommended and available but not required. You may obtain your immunization records from you physician, local health department, high school, or previous university. You may email records to immunizations@siu.edu, fax 618/453-4452, or mail to Student Health Center. For specific immunization requirements visit go to the [Immunizations website](#) or call 618/453-4326. Immunization records must be on file at SHC before the tenth day of class to avoid a registration hold.

Saluki Health Portal

From the Student Health Services' website, students can access the [Saluki Health Portal](#) with their SIU Network ID and password. In the secure portal, students have many options including: make, view, and cancel appointments; send secure messages to the e-nurse; complete required forms and request a prescription refill.

Medical Clinic

Medical problems may interfere with your ability to succeed academically. Our Medical Clinic offers diagnostic services including lab and x-ray, treatment and follow-up care. The Medical Clinic is known for delivering exceptional and responsive care. In most instances, students with an urgent medical need may be seen the same day they call for an appointment. Students may schedule an appointment during regular business hours by accessing the Saluki Health Portal from their personal device or computer, 24 hours a day, seven days a week.

Counseling and Psychological Services (CAPS)

College is a time of change, transition, and growth. At times, students find it useful to seek the assistance of a caring professional. Each year 1 out of 10 SIU Carbondale students seek services at CAPS. Counseling and Psychological Services provides crisis walk-in counseling, group, individual, and couples counseling to SIU Carbondale students. Our staff of professional psychologists and counselors is trained to help you discover ways to cope more effectively with problems in day-to-day living. The staff has a commitment to meet the needs of individuals from diverse backgrounds, including differences of culture, race, gender, sexual orientation, ability, and religion/spirituality. CAPS is located in the Student Health Center on the second floor, Room 253. For more information call 618/453-5371 or visit their website www.shc.siu.edu/counseling.

Psychiatry

Students can experience psychiatric difficulties which interfere with their academic and personal lives. The Psychiatric Clinic is staffed with a psychiatrist and psychiatric Physician's Assistant who work closely with the psychologists and mental health professionals at Counseling and Psychological Services. Services include psychiatric evaluation and medication management. Call 618/453-4346 for an appointment.

Wellness and Health Promotion Services (WHPS)

WHPS provides current and accurate health information about important lifestyle decisions. Our professional staff provides resources and programs in sexual health, stress management, suicide prevention, alcohol and other drug use, and other areas of wellness that impact student success. For more information, call 618/536-4441.

Pharmacy

We have a full service pharmacy. You may fill prescriptions at our pharmacy from any licensed provider. In addition to prescriptions, the pharmacy has a selection of over-the-counter items available for purchase. You may purchase all pharmacy items with normal payment methods or by charging it to your Bursar account or Debit Dawg. Private insurance and Medicaid cards are not accepted. For pharmacy information, call 618/453- 4417.

Optical

Marion Eye Centers and Optical has a satellite office located on the first floor of the Student Health Center building. This is a private business not affiliated with Student Health Services. To make an appointment, call 618/549-0615.

Sports Medicine

The Orthopaedic Institute of Southern Illinois has a therapy center located on the first floor of the Student Health Center building. This is a private business not affiliated with Student Health Services. To make an appointment, call 618/453-1292.

After Hours Emergency

For after-hours emergencies, call 911 or go to the emergency room. Your Student Medical Insurance will not cover non-emergent ER visits.

After Hours Non-Emergency

Non-emergency after hours care is available at SIH Medical Group Prompt Care 618/549-5361 or Shawnee Health Services, Same Day at 618/519-9200.

Disability Support Services

The [Office of Disability Support Services](#) (DSS) is committed to assuring that students with disabilities receive equal, effective, and meaningful access to all campus programs, resources, and services. We recognize that diversity of abilities is a source of excellence, enrichment, and strength for all members of the university community. Our staff coordinates and provides support services to students with disabilities and works closely with faculty and staff in an advisory capacity. We provide disability education awareness to help insure equal access within courses, physical structures, and in the online

environment. Students can contact the office to arrange an initial appointment with a staff member or inquire about available resources and services.

Center for English as a Second Language

The [Center for English as a Second Language](#) (CESL) is a unit in the College of Liberal Arts and is affiliated with the Department of Linguistics. CESL's teaching staff is composed of Non-Tenure Track University faculty. The intensive English language program at CESL is open to prospective University undergraduate and graduate students, professionals, and others wanting to study English intensively.

Students planning to go on to graduate level study who complete all of CESL's other intensive English levels may enroll in CESL's Graduate Student English course, which is specifically designed to prepare those students for graduate studies. Activities and focuses include library use, summarizing and critiquing articles from professional journals, oral presentations, readings, essay exams, seminar-style discussions, and the preparation of reports and graduate level papers in students' fields of study. Communication practice focuses on building and improving interpersonal interactions, presentation, listening, and pronunciation skills.

The CESL office is in Faner 3242, 618/453-2265.

Policy Accommodating Religious Observances of Students

Admissions/Registration

The University's admissions process provides ample opportunity for admission and registration activities without conflicting with religious holidays and observances. However, students may receive another appointment when an appointment for admission counseling, or an appointment for academic advisement, or an appointment for registration for classes falls on a date or at a time that would conflict with the student's observances of major religious holidays. The individual student must notify in writing the appropriate admissions officer or academic adviser of the conflict with the student's observance of the religious holiday. That notification shall be made immediately after the student's receipt of the appointment or at least five work days prior to the appointment time, whichever is later.

Class Attendance

Students absent from classes because of observances of major religious holidays will be excused. Students must notify the instructor at least three regular class periods in advance of an absence from class for a religious holiday and must take the responsibility for making up work missed.

Examinations

Instructors are requested not to schedule class examinations on dates that would conflict with major religious holidays. In the event an examination must be scheduled on a date that conflicts with a student's required observance of a religious holiday, the student should be given reasonable opportunity to make up the examination. It is the student's responsibility to notify the instructor of the class when the examination will be missed. That notification must occur at least three regular class meeting periods in advance of the absence or at the time the announcement of the examination is made, whichever is later.

Grievance Procedure

A student who believes that he or she has been unreasonably denied an educational benefit due to his or her religious belief or practices may petition in writing as follows:

Cases involving class attendance or class examinations that are unresolved at the class instructor level may be appealed by the student by filing a petition in writing, within thirty (30) calendar days of the incident being appealed, to the chair or coordinator of the department or program in which the course is offered. In the event the case is not resolved to the student's satisfaction at the department/program level within five (5) working days after the chair's receipt of the petition, the student may petition in writing to the dean of the school or college to which that teaching department or program reports. The student's petition to the school or college level must be filed with the dean within five (5) working days of the decision at the department level. Should the case not be resolved to the student's satisfaction at the school or college level within five (5) working days of the petition filing at that level, the student may petition the Provost. If the student is still not satisfied at that level within the five (5) working day time period, he or she may petition to the Chancellor within another five (5) working days. Decisions of the Chancellor may be appealed to the President, and to the Board of Trustees if necessary, in accordance with Bylaws of the Board of Trustees.

In cases involving admissions, the grievance process should follow the time frames described above, with the initial petition being filed with the Graduate School Dean, which is the only filing point prior to the Provost.

Post-Baccalaureate Certificate Programs

Programs

The purpose of a post-baccalaureate certificate is to enhance the marketability of students, confirm special skills or knowledge acquired by students, and provide educational opportunities and continuing education to otherwise unserved segments of the community through short-term graduate programs. The certificate program is designed to provide a certification of specialization to individuals who already possess a bachelor's degree. While a certificate does not lead to a degree, one-half of the certificate hours, up to a maximum of 15 hours, can be counted toward a graduate degree program. All students must be admitted to the Graduate School and make formal application to the particular certificate program.

Certificate programs have been approved for the following:

Certificate in Analytics for Managers

Managers increasingly are expected to consider large amounts of data to make faster and better decisions. Analytics is a technical tool that can be used to process all these data to find solutions. This certificate allows practicing executives, managers, and those on the managerial track, to understand their organization in terms of analytics, to make the best use of their organization's analytics function, and to apply analytical models back into their organization. This is not a deeply technical program because few managers will need the highly technical skills of data scientists. But, rather, this is a program that will introduce managers to the latest advances in analytics and artificial intelligence so they can make more efficient and effective data-based decisions. Students must complete 18 hours of coursework in

- Foundation of Analytics,
- Information Systems,
- Data Science,
- Artificial Intelligence, Visualization,
- the Analytics Capstone course.

Telephone: 618/453-3023

Certificate in Anatomy

The purpose of the anatomy certificate is to allow undergraduate and graduate students to become proficient in anatomy teaching. This will allow them to compete more effectively for jobs in this field. Students are eligible for the anatomy certificate if they are in an existing anatomically based undergraduate, masters, or Ph.D program (e.g. Physiology, Biological Sciences, Anthropology, or Zoology), however, other programs will be evaluated on a case-by-case basis. Additional prerequisites, such as embryology, basic vertebrate anatomy, etc. are preferred but other courses may qualify. Students lacking such prerequisites will be encouraged to obtain them prior to admission into the anatomy certificate program. The Director of the Certificate in Anatomy Program will review all applications. In addition to coursework in anatomy, students in the anatomy certificate program will obtain experience teaching gross anatomy to undergraduates and/or graduates at the PHSL 301 and PHSL 401 A/B level. Minimum of 17-18 graduate credit hours are required for fulfillment of the certificate requirements. They are:

- Advanced Human Anatomy, (PHSL 401A, B, 10 hours),
- Vertebrate Histology, (ZOOL 409, four hours)
- Either Neuroanatomy (3 hours) from the PHSL or PSYC departments or Vertebrate Anatomy Lab, (ZOOL 418 , three hours).

The option to enroll in Teaching Methods and Strategies (PHSL 412, 2 hours) will be provided. Where appropriate, these courses may also count for credit toward the master's or Ph.D. degree. The Director of the Certificate of Anatomy Program and the student's advisory committee will make recommendations for other coursework and oversee the student's progress. Students supported by graduate assistantships will have the same teaching obligations as all other departmentally supported students. Undergraduate students will be compensated for teaching assistant work at an hourly wage.

For more information, contact:

Director of the Certificate of Anatomy Program
 Department of Physiology, School of Medicine
 Southern Illinois University
 Carbondale, IL 62901-6512

Certificate in Art History

The Certificate in Art History will enable students to develop a broad knowledge of the history of art, become familiar with the discipline's methodology, and acquire skills necessary for teaching art history. It is open to students who have completed a bachelor's degree. The student must be currently enrolled in a graduate degree program at SIUC or an individual holding a bachelor's degree and admitted to the Graduate School (non-declared). Students enrolled in the MFA program offered through the School of Art and Design may enroll concurrently in the certificate program and apply part of their MFA art history coursework towards both degrees. The program requires students to complete 18 credit hours of graduate level art history coursework, including a teaching practicum.

Certificate in Civil Society, Communication, and Media Practices

The Certificate in Civil Society, Communication, and Media Practices offers students a critical, historical, and theoretical understanding of the significance of communication and media within the broader context of contemporary practices engaged in organizing public and social change. Students will learn to analyze these media practices in their various forms and contexts, from the local to the global, and the complex relationships they navigate with political and social movements, governments, and more mainstream forms, such as entertainment. Our curriculum emphasizes theory and practice and introduces students to a variety of media practices, including research methodologies based in the media arts. The certificate prepares graduates for leading, evaluating, and collaborating in communication efforts aimed at social change. Graduate students will have a broad understanding of the civic potential of media and be prepared to communicate with, promote, and participate in grassroots communities in the age of social media.

Certificate in Clinical Leadership

The Certificate in Clinical Leadership is open to post-bachelor level students who hold a license in a clinical specialty. It is designed to provide the knowledge and skills specialized for roles in clinical leadership and/or as a preparatory certificate for graduate education. Courses in the certificate are specific to patient care environments and will include, but not be limited to: strategic planning, operations, human resource planning, health information, and evidence based managerial decision making specific to patient care environments. Students must complete 18 semester hours of graduate level study, all at SIUC, with a C or above in all required courses which includes:

- MHA 510, 3 - Effective Health Care Operations (same as MHI 531).
- MHA 531, 3 - Human Resources in Healthcare (same as MHI 531).
- MHA 536, 3 - Strategic Leadership in Healthcare (same as MHI 536).
- MHA 566, 3 - Managing Health Information (same as MHI 566).
- MHA 580, 3 - Managerial Epidemiology and Evidence Based Management (same as MHI 580).
- MHA 585, 3 - Financial Issues in Healthcare (Same as MHI 585).

Students earning a grade lower than a C may retake individual courses only once. If a grade of C or higher is not received on the second attempt of an individual course, the student is removed from the certificate program due to academic performance.

Allied Health Specialist
phone: 618-453-7287
email: broomr@siu.edu

Certificate in College Teaching

This certificate is open to any graduate student enrolled in or has completed at least a master's degree. The purpose is to provide individuals with a pedagogical foundation that will help to prepare them to teach adult learners in a variety of postsecondary contexts. The requirements for the certificate include 15 credits of coursework plus a three-credit internship.

Certificate in Cybersecurity

The post-baccalaureate Certificate in Cybersecurity enables students to focus on advanced cybersecurity knowledge, skills, and abilities. This certificate allows students to build knowledge in many aspects

of security from the perspective of computer networking including wireless communications, system administration, and policy and risk management. This certificate focuses on the hands-on, organizational, and applied aspects of cybersecurity. The certificate program requires students to complete 18 credit hours of graduate level coursework.

Certificate for Dual Credit Teaching in Mathematics

This certificate allows an Illinois high school mathematics teacher with a master's degree (in any field) to teach certain courses for college credit to high school students. An undergraduate degree in mathematics, mathematics education, or a related field is required for admission. The program requires 18 credit hours of graduate level mathematics courses. Many courses are available online. For more information:

Website: math.siu.edu/graduate/dual-credit-new.pdf

Email: mathgradinfo@siu.edu

Certificate in Earth Science

The Certificate in Earth Science is open to post baccalaureate students with degrees in earth science, geology, or related fields. It is intended to expand the knowledge, skills, and specialized training in geological topics. The coursework will include eighteen (18) graduate credit hours in Geology. While there are no specific courses required, the courses taken will be determined by the student and the departmental Coordinating Committee. For the concentrations in Geospatial Analysis and Environmental Geology, please refer to the recommended course lists above for the Non-Thesis Master's Program.

Students must maintain a B average in graduate courses. Maximum time allowed to complete the requirements for the certificate is five years.

For more information, contact:

Certificate in Geographic Information Science (GIS)

Certificate in Geographic Information Science (GIS)

The GIS Certificate enables students to focus on advanced geospatial techniques and analytical skills. This certificate meets the needs of the expanding job opportunities for Master's and Ph.D. students. This certificate ensures that the students understand advanced mapping technologies; know how to combine individual models and functions in ArcGIS to carry out a complicated spatial analysis task; master advanced digital image processing and analysis technologies; and obtain competence in designing, developing, and managing spatial databases. Further, they will demonstrate an understanding of GIS's

relationships with remote sensing, global positioning system, (GPS), mathematics, statistics, and other sciences and obtain capacity in integrating multi-disciplinary methods for problem-solving. Finally, they will be competent in planning, developing, and implementing a complex GIS project. Students must be admitted to an SIU graduate program or the SIU non-declared graduate program and maintain a 3.0 GPA in the certification courses. The program requires students to complete 18 credit hours of graduate level coursework from the following:

- GEOG 502(3) – Geographic Information Systems
- GEOG 504(3) – Spatial Analysis
- EOG 506(3) – Intro to Remote Sensing
- GEOG 508(3) – Advanced Remote Sensing
- GEOG 520(3) – Advanced GIS Studies
- GEOG 528(3) – GIS Portfolio/GIS Capstone Project

Certificate in Gerontology

The Certificate in Gerontology is open to post-bachelor level students who are interested in the area of gerontology. It is designed to provide knowledge, skills, and specialized training in programs and services for older persons. The certificate includes core courses on aging in the following areas: social work, rehabilitation, health, exercise and education. Courses within the certification program will include, but not be limited to: policy and program issues, psychosocial issues and health and fitness issues. The coursework also includes a practicum in an agency suitable to the individual's interest OR research project. Students must complete 18 semester hours of study including a minimum of three hours of practicum/research, to earn the certificate.

Certificate in Healthcare Informatics

The Certificate in Healthcare Informatics is open to post-bachelor level students holding a degree in healthcare management/administration (or closely related field) and/or a bachelor's level degree and license in a clinical specialty. It is designed to provide the knowledge and skills as germane to healthcare informatics in patient care environments. Well suited as a graduate preparatory certificate, courses are specific to the collection, analysis, and interoperability of data in patient care environments for the purposes of improving operations, patient care delivery, and supporting regulatory expectations specific to the field of healthcare. Students must complete 18 semester hours of graduate level study, all at SIUC, with a C or above in all required courses which includes:

- MHI 510, 3 - Effective Healthcare Operations. (Same as MHA 510)
- MHI 515, 3 - Systems Analysis, Design, and Database Management in Healthcare
- MHI 525, 3 - Health Informatics Applications and Project Management
- MHI 566, 3 - Managing Health Information (same as MHA 566)

- MHI 581, 3 - Health Information Exchange
- MHI 584, 3 - Consumer Informatics

Students earning a grade lower than a C may retake individual courses only once. If a grade of C or higher is not received on the second attempt of an individual course, the student is removed from the certificate program due to academic performance.

Certificate in Magnetic Resonance Imaging

The Post Baccalaureate Certificate in Magnetic Resonance Imaging (MRI) is housed in the Radiologic Sciences Program within the School of Allied Health. This certificate will allow MRI technologists to obtain didactic and clinical experiences in advanced areas of MRI. The program requires 18 credit hours of coursework. This includes at least one 3 credit hour didactic course selected from RAD 444, 454, and 464. Elective courses include RAD 474, 484, and 494. Students enrolled in the certificate in MRI Program will be able to develop a course of study which is tailored to meet their specific needs.

 P: 618-453-7211
 Email: Health.Sciences@siu.edu

Certificate in Quantitative Methods

The Certificate in Quantitative Methods (QM) is designed to provide advanced training in quantitative methods for graduate students majoring in other programs. This certificate requires a minimum of 24 graduate credit hours. A total of nine credits of QM courses may also count for credit toward a graduate degree program, as appropriately and jointly determined (as needed) by the QM Graduate Certificate Program faculty, the office of the Dean of S.O.E., the Graduate School, the office of the Provost, and any particular graduate program advisory committee associated for a student. Further, students currently enrolled in the Quantitative Methods Concentration, however, are not eligible to earn this certificate. The certificate requires 18 credit hours in core courses: QUAN 506- Inferential Statistics (4), QUAN 507- Multiple Regression (4), QUAN 508- Experimental Design (4), QUAN 531- Principles of Measurement (3), and QUAN 533- Survey Research Methods (3) and a minimum of six credit hours in QUAN 580A-I- Selected Topics (2-4).

 Carbondale, IL 62901-4618
 Telephone: 618/453-2311
 Email: quanmethod@siu.edu

Certificate in Special Education

The Graduate Certificate in Special Education requires a baccalaureate degree in elementary education, secondary education, or a related field such as social work or psychology; current State of Illinois Professional Educator License (PEL) with endorsement in a teaching area; undergraduate grade point average of 2.75 or higher on a 4.0 scale; a minimum of two letters of recommendation; a letter of application; and a departmental application form. The following courses are required:

SPED 411, SPED 417, SPED 418, SPED 419, SPED 420, SPED 423, and one elective, for a total of 21 credit hours.

Program completers who have a passing score on the LBS (155) test will be eligible for the Illinois State Board of Education endorsement for the Learning Behavior Specialist I (LBS I) in:

- K-Grade 3 (for educators who already hold an early childhood self-contained general education endorsement)
- Grade 1-6 (for educators who already hold an elementary education endorsement)
- Grade 6-12 (for educators who already hold a secondary education endorsement)

Certificate in Substance Use Disorders and Behavioral Addictions

The Post-Baccalaureate Certificate in Substance Use Disorders and Behavioral Addictions housed in the Rehabilitation Counseling and Administration Program in the Rehabilitation Institute, is open to undergraduate and graduate students interested in developing proficiency in specialized counseling skills for work in treatment and other settings as a substance use disorders and behavioral addictions counselor. Students must complete 15 credits of required coursework in addition to an academic discipline-based 500 hour internship (eight credits). Didactic courses include REHB 461, 471, 458/558, 466/566, and one approved elective.

Email: Health.Sciences@siu.edu

Certificate in Sustainability

The Certificate in Sustainability enables students to expand their knowledge and understanding of the long-term sustainable use of the earth's resources, including water, land use and food systems, climate change, urban sustainability, and "green" energy. This certificate meets the needs of the expanding job opportunities in environmental sustainability. Students must be admitted to an SIU graduate program or the SIU non-declared graduate program and must maintain a 3.0 GPA in the certification courses. The program requires students to complete 18 credit hours of graduate level coursework, as follows:

- GEOG 521(3) – Urban Sustainability; GEOG 524(3) – Sustainable Development;
- GEOG 536(3) – Natural Hazards;
- GEOG 539(3) – Global Climate Change;

- GEOG 570(3) – Contemporary Issues in Environmental Studies;
- Plus either GEOG 502(3) – Geographic Information Systems or GEOG 512(3) – Applied Geographic Statistics.

Certificate in Women, Gender, and Sexuality Studies

The purpose of the Certificate in Women, Gender and Sexuality Studies is to meet the demand for formal recognition of graduate level credentials in WGSS, and to enhance and broaden the perspectives of graduate students from various related fields. The program requires 18 hours of coursework. Nine hours must be at the 500-level, which includes WGSS 590. Nine hours must be taken outside the student's major discipline. The student must be currently enrolled in a graduate degree program at SIU or an individual holding a bachelor's degree and admitted to the Graduate School (non-declared).

College of Agricultural Sciences

The College of Agricultural Sciences offers the following majors with specializations leading to the Bachelor of Science degree.

Major (B.S. degree)	Specialization
Agribusiness Economics ¹	<ul style="list-style-type: none"> • Curriculum individually designed to fit student
Agricultural Systems Education ¹	<ul style="list-style-type: none"> • Ag Education • Ag Communications • Ag Production Management • Ag Systems Technology Management • General Agriculture • Food & Process Engineering Technology
Animal Science ¹	<ul style="list-style-type: none"> • Animal Production • Equine Science • Pre-Veterinary Medicine • Science
Crop, Soil and Environmental Management ¹	<ul style="list-style-type: none"> • Crop Production & Management • Soil Science
Horticulture ¹	<ul style="list-style-type: none"> • Production Horticulture • Landscape Horticulture • Turf Management
Human Nutrition and Dietetics	<ul style="list-style-type: none"> • Didactic Program in Dietetics • Nutrition for Wellness
Hospitality and Tourism Administration	
Forestry	<ul style="list-style-type: none"> • Forest Resources Management • Forest Recreation & Park Management • Wildlife Habitat Management & Conservation • Urban Forest Management • Forest Hydrology

¹ Minor Available

It is recommended that high school students who are planning to pursue one of the above majors include the following in their high school program: four years of English, three years of mathematics (algebra, geometry, advanced mathematics); three years of science (biology, chemistry, physics); three years of social studies; and two years of art, music, vocational education (may include agriculture), or foreign languages. For prospective agriculture majors or human nutrition and dietetics majors, high school classes in agriculture or family and consumer sciences education respectively are beneficial but are not specifically required.

For transfer students wishing to pursue a major in one of the agricultural, human nutrition and dietetics, or forestry areas, courses taken prior to entering the University should include physical and biological sciences, social sciences, and humanities. In addition, courses in speech and appropriate sequences in English composition and college algebra should be included as well as a general botany course. A potential transfer student who has already identified a major for the bachelor's degree may select with greater precision the courses, which will be transferred by consulting the curriculum for that major.

A student planning to take preprofessional courses in veterinary science should register in the College of Agricultural Science's four-year curriculum in Animal Science (Science and Pre-Veterinary specialization). Qualified candidates for the Capstone Option are accepted into Agribusiness Economics, Animal Science, Agricultural Systems and Education, Crop, Soil and Environmental Management, Horticulture, and Hospitality and Tourism. [View the Capstone Option.](#)

Typical employment opportunities for Agribusiness Economics graduates include positions in credit and financial management, professional grain farm merchandising. A graduate from the management, sales, and Agricultural Systems and Education major can be employed in the farm machinery or implement industry, as a high school agricultural educator, as a news editor, or in agricultural sales or service. Animal Science majors seeking employment can investigate positions in livestock management or sales, and governmental positions such as meat inspectors, as well as veterinary school. Human Nutrition and Dietetics majors will find numerous opportunities as registered dietitians or in the hospitality and tourism industry. The major employer of Forestry graduates is the federal or state government, but they also work as private forestry consultants, in urban forestry, in private industry, or not-for-profit organizations. The Crop, Soil and Environmental Management graduate with a concentration in agronomy will find opportunities in industry such as agricultural chemical sales, in production agriculture, or with a governmental agency such as the Soil Conservation Service. Horticulture graduates can seek employment in nursery management, golf course and turf management, in the florist or interior plant maintenance industry, or with landscape design firms.

The Agriculture Building houses the offices, classrooms, and laboratories for the agriculture and forestry programs. The Human Nutrition and Dietetics and Hospitality and Tourism programs have offices, classrooms, and laboratories in Quigley Hall. Other research and teaching facilities include over one-third acre in greenhouses plus 2,000 acres of farm and timberland.

The College of Agricultural Sciences assesses College of Agricultural Sciences undergraduate majors a technology fee of \$4.58 per credit hour. The fee is charged Fall and Spring semesters.

College of Applied Sciences and Arts

Career and technically oriented academic programs in the College of Applied Sciences and Arts can lead to one of fourteen Bachelor of Science degrees and three Associate in Applied Science degrees. These programs provide career paths for first-time students or transfer students from SIU Carbondale or other institutions.

Requirements for Bachelor of Science and Associate in Applied Science degrees as well as additional information for each major offered can be found by [searching our program listing](#). Schools and programs within the College are:

Technical Resource Management	Baccalaureate

Students with educational and/or occupational backgrounds or with career objectives in the fields of architecture, automotive technology, aviation, electronics, fashion design and merchandising, public safety, health care, information systems, information technology or interior design are encouraged to apply for admission to these career-specific programs. Students also may choose to apply for admission to Technical Resource Management which is a baccalaureate degree program designed especially for technically oriented students seeking career enhancement where no other specific Bachelor of Science degree in the colleges is available. Requirements for degree programs and information for each of these majors, minors, specializations, and options can be found by [searching our program listing](#).

New and transfer students eligible for admission to the Bachelor of Science programs must meet University entrance requirements and program requirements for admission to the major. Students may be admitted to the college's off-campus and online academic program offerings if requirements state in the Undergraduate Catalog have been met. Students must complete all course work with a 2.0 average C or better on a 4.0-point scale to qualify for completion. Additionally, students must fulfill all academic

program and SIU requirements including the University Core Curriculum, total hour, residence, and GPA requirements to qualify for completion.

The Capstone Option is available in some majors to qualified students. Capstone reduces the University Core Curriculum from 39 to 30 semester hours. Qualifications and a list of participating programs can be found on the [Capstone option page](#).

Programs within the College of Applied Sciences and Arts have several articulation agreements with community colleges located across the nation. Please contact the specific academic program for details.

Students interested in the College's online or off-campus programs should contact the specific academic program for details.

Additional information on the College of Applied Sciences and Arts programs and course offerings is available on the college's website at asa.siu.edu or by calling (618) 536-6682 or emailing casa@siu.edu.

College of Business

The College of Business aims to prepare students to perform successfully in business and other organizations such as government and other not-for-profit organizations functioning within a changing social, economic, and political environment. Study provides the student with fundamental principles and practices of organizational behavior and allows the mastering of knowledge and skills for effective management. The curriculum provides a broad base for understanding business while simultaneously allowing in-depth study within an area of concentration and exposure to current information technology. Students find business, governmental units, and other public institutions desire the professional education they receive in the college. The advanced curriculum and related programs provide students not only with a meaningful education but also with a means of relating that education to organizations and commerce.

The College of Business offers the following majors leading to the Bachelor of Science degree:

- Accounting (online and residential delivery methods available)
- Business and Administration (online program)
- Business Economics
- Finance
- Management
- Marketing

All programs offered in the College of Business are accredited by AACSB International, The Association to Advance Collegiate Schools of Business International, 777 South Harbour Island Boulevard, Suite 750, Tampa, FL, 33602-5730.

The College of Business offices are located in Henry J. Rehn Hall; and classes are conducted in various buildings throughout the campus.

Pre-College Preparation

High school and preparatory school students are urged to follow a program which includes at least four units of English and four units of mathematics, with a substantial portion of the remainder of their study programs devoted to such academic subject areas as humanities, the sciences, and social studies.

Transferred Credits in Business Courses

Subject to the policy of the AACSB International regarding acceptance of transferred credits, the college accepts college-level credit earned in business and economics courses from accredited two- or four-year institutions of higher education and counts such credit toward the 120 semester hours required for graduation. However, if such courses are offered at the lower division (freshman and sophomore level) at the institution where completed, only those courses shown below will be treated as equivalencies to college-or departmental-required courses.

Students may seek upper division transfer equivalency reviews. Courses being sought for transfer equivalencies are evaluated by the department chair and/or faculty of the subject area for individual articulations. Only courses from AACSB accredited institution will be accepted for upper division articulation.

Subject	Hours
Principles of Accounting	6
Economic principles	6
Business economics statistics	3
Legal and social environment of business	3

Subject: Business career transitions

Hours: 2

Students also have the opportunity of validating additional coursework and nothing in the above statement abridges student's right to satisfy graduation requirements by proficiency (or competency) examinations through the SIU Testing Center. Such examinations are treated as a student right by the college and are available for most courses.

Admission Policy

The College of Business admission policy shall be the same as that of the University. All qualified new students are admitted to the College of Business with a specific departmental major classification, undecided business, or as an unclassified student.

Reentering and Southern Illinois University Students. Students who are currently enrolled or were previously enrolled at the University in a major outside the College of Business may request admission to a Business program. These students will be considered for admission to the College of Business provided that they are in good standing with the University. Students with academic issues may be required to participate in an academic support program as a condition of readmission. Students may be asked to submit additional information to the College for consideration for admission. All materials must be received at least one week in advance of the start of the semester to be considered.

Business and Administration online degree-completion program. The Bachelor of Science degree program with a major in Business and Administration (BNAD) is an online degree completion program intended for those students residing outside the Carbondale community or who have work and/or family commitments that make traditional campus attendance impractical. The following should be met for admission to this program:

Students enrolled in the online Business & Administration (BNAD) program are not allowed to concurrently take residential courses on campus that count toward this or another degree without Associate Dean approval. Students enrolled in a residential degree program at SIU are not allowed to take courses in the online Business & Administration program, except in the specific case in which a student's graduation would be delayed because of a University-imposed time conflict between two required courses and when no other residential course option is available to fulfill that requirement – in these cases, or director of undergraduate online programs review and Associate Dean approval is required for all exceptions. Program courses are designated by 940 section numbers.

Students enrolled in the online BNAD program can choose to switch enrollment from the online program to being fully enrolled in an on-campus degree program, assuming all requirements are met, but the student may only switch between programs once. Likewise, students enrolled in the residential on-campus degree program can switch to be fully enrolled in the online BNAD program, but may only switch between programs once. A student who changes enrollment between the online BNAD degree program and a residential program once may not be allowed to return to their original degree program in a future semester. BNAD is not offered as a residential program. See degree for Admission information.

International Students. International students must meet admission requirements comparable to those of native students. While admission credentials such as ACT and class rank are generally not submitted by international students, applicants do submit credentials which reflect their achievement in some subject areas similar to those of the United States students. Beginning international freshmen as well as transfer students will have their applications and documents reviewed in a manner similar to domestic students for admission to the College of Business by the Center for International Education.

Grade Point Average Calculation. In calculating a student's grade point average for admission purposes for continuing, new, and reentering students, the admission office will follow the SIU grading policy and procedures for all collegiate (not remedial) work attempted at SIU and other collegiate institutions.

Grade Point Average Requirement

Graduation from the College of Business requires achievement of a 2.0 grade point average in all business-prefix (ACCT, BUS, ECON, FIN, MGMT, MKTG) courses taken at Southern Illinois University Carbondale. ACCT 210, ECON 113 and 302I, and MGMT 170 are not calculated into the business-prefix grade point average. In addition, students must earn a minimum grade of C (a grade of C- is not sufficient) in each of the courses taken to satisfy the requirements for their major (Accounting, Business and Administration, Business Economics, Finance, Management, or Marketing), and students must earn a minimum 2.0 grade point average for those major courses. Students may re-enroll in a 100 or 200 level business course pursuant to the University course repeat policy. All 300 and 400 level business courses may be repeated for a grade only once without department approval. Students may not repeat Business prefix courses (ACCT, BUS, ECON, FIN, MGMT, or MKTG) in which they have previously earned a grade of C or better unless required by the seven year rule for Accounting and Finance majors (see Accounting and Finance major sections for more information on the seven year rule).

A minor from the College of Business requires students to earn a minimum grade of C in each of the courses taken to satisfy the requirements for their minor, and students must earn a minimum 2.0 grade point average for those minor courses. At least 9 hours of minor courses must be taken at SIU.

Pass/Fail Policy of the College

Business majors may not register on a Pass/Fail basis for courses used to satisfy requirements in the College of Business unless the course is designated Mandatory Pass/Fail. Exception to this policy is based on extenuating circumstances as approved by the Dean.

Course Sequencing

It is of the utmost importance that required courses be sequenced properly. Sequencing guides are available from the college's academic advisement center and are published in the College of Business' Student Handbook. Courses on the 300 to 400 levels are restricted to juniors and seniors.

The Capstone Option for Transfer Students

The Capstone Option is available to students who have earned an Associate in Applied Science (AAS) or equivalent certification in an approved business area degree and who have a cumulative 2.0/4.0 GPA on all accredited coursework prior to the completion of the AAS, as calculated by SIU. The Capstone Option reduces the University Core Curriculum requirements from 39 to 30 hours, therefore reducing the time to degree completion. See the [Capstone Option page](#) for more information on this option. Students who apply for Capstone will work with the College of Business Advisement Office for approval of the Capstone Option and will complete a personal contract for a degree completion plan.

Differential Tuition

The College of Business assesses College of Business majors a differential tuition surcharge of 15% of applicable tuition for declared College of Business majors. The College of Business has a "minor program fee" for other than College of Business majors that is equal to 15% of 15 credit hours of applicable tuition for declared College of Business minors. This fee is billed in the semester the student declares the minor. All College of Business upper level classes (300 and 400), including on-line classes, will be "restricted access" classes. Students identified as not being in a major or minor in the College of Business must get permission from an academic advisor in the College of Business. Without proper College of Business permission, student may be dropped from registered courses. Non-College of Business students are limited to six hours of 300- and 400-level business courses before being required to declare a minor, excluding the following majors: Computer Science (BA degree); Foreign Language & International Trade; Health Care Management; and Music (business specialization); and the following minor: Environmental Sciences. Majors which require more than six credit hours of business courses are required to declare a business minor. These majors may include, but are not limited to: Agriculture Economics, Chemistry (business specialization), Early Childhood Education (child and family services specialization); Fashion Design & Merchandising; Hospitality & Tourism; Journalism; Kinesiology; Plant & Soil Science (business specialization); and Recreation.

Business GPA Forgiveness Policy

The College of Business has adopted a policy for students whose only graduation problem concerns the 2.0 grade point average in all business prefix (ACCT, BUS, ECON, FIN, MGMT, MKTG) courses taken at the University. This is referred to as the Business grade point average (BUS GPA). Such students may petition to have a maximum of twelve semester hours of C-, D, or F Grade(s) earned outside of the Professional Business Core and outside the major excluded from calculation of the BUS GPA. It should be noted that the College of Business Forgiveness Policy is offered as a means of computing the BUS GPA for graduation purposes only and may not be used for any other purpose. Only students with a University grade point average (SIU GPA) of 2.0 or above are eligible to petition to have the College of Business Forgiveness Policy applied for the purpose of BUSGPA calculation.

University Core Curriculum Courses Prescribed for Business Majors

Students in the College of Business must complete the University Core Curriculum requirements. The following courses are required and will count toward partial fulfillment of these:

Psychology 102 or Sociology 108 (to satisfy UCC Social Science requirement)

Economics 241 (to satisfy UCC Social Science requirement)

English 101, 102 (to satisfy English Foundation for UCC)

Mathematics 139 (to satisfy UCC Math requirement)

Communication Studies 101 (to satisfy Speech Foundation for UCC)

Professional Business Core

The professional business core, required of all College of Business students, is comprised of the following courses:

Courses	Semester Hours
Accounting 220, 230	6
Business 101, 202	4
MGMT 202 ⁵	3
Management 304, 318, 345, 481	12
Economics 241 ¹ , 240	(3) ¹ +3
Finance 208 ⁴ , 270 ² , 330	9
Marketing 304	3
Mathematics 139 ¹ and 140 ³	(3) ¹ +4
300-400 level CoB prefix elective course (ACCT, FIN, MGMT, MKTG)	3
Total	47

Professional Business Core (online BNAD program)

The professional business core, required of all College of Business students admitted to the online Business and Administration degree program, is comprised of the following courses:

Courses	Semester Hours
Accounting 220, 230	6
Finance 208 ⁴	3
Economics 241 ¹ , 240	(3) ¹ +3
Mathematics 139 ¹ and 140 ³	(3) ¹ +4
Total	16

¹See University Core Curriculum courses prescribed for business majors.

²The combination of Finance 280 and 380 may be substituted for 270 and is highly recommended for Accounting majors.

³Mathematics 150 may be substituted for 140.

⁴Also listed as Accounting 208 or Management 208.

⁵May substitute ENGL 291 or ENGL 290.

College of Education and Human Services

Departments: Curriculum and Instruction; Educational Administration and Higher Education; Counseling, Quantitative Methods, and Special Education; Health Education and Recreation; Kinesiology; Rehabilitation Institute; School of Social Work; Workforce Education and Development.

The College hosts graduate and undergraduate programs in which students can prepare for careers in teaching, counseling, and administration in a range of levels, from private and public preschool to university level. All programs carrying licensure throughout the university emanate through the Office of Teacher Education within the College. Those majoring in teaching fields take a sequence of professional education courses and four semesters of clinical field experiences and student teaching in public schools through the College of Education and Human Services. Subject-matter courses to prepare our graduates to be highly qualified in their majors, specializations, and endorsements are taken by elementary, secondary, and K-12 majors through the College of Liberal Arts, College of Science, College of Education and Human Services, and College of Agricultural Sciences. Methods courses are taken in those colleges or in the College of Education and Human Services, depending on one's major. Graduates of the College of Education and Human Services receive a Bachelor of Science degree.

The College of Education and Human Services offers the following programs¹ leading to the Bachelor of Science degree:

Programs with Educator Licensure:

- Agriculture Education¹
- Business Marketing & Computer Education² (des.req.)
- Early Childhood
- Elementary Education
- English
- Language Arts¹
- Family & Consumer Sciences² (des.req.)
- French
- German
- Spanish
- Health Careers² (des.req.)
- History Education¹
- Learning Behavior Specialist (LBS1/Special Education)
- Mathematics Education¹
- Music Education¹
- Physical Education
- Sciences – Biology¹
- Social Science Education
- Technology Education² (des.req.)
- Visual Arts

Programs in Human Services

- Curriculum and Instruction
 - # Child & Family Services
- Health Education
 - # Public Health
- Kinesiology
 - # Exercise Science

- # Sport Administration
- Recreation
 - # Leisure Services Management
 - # Outdoor Recreation Leadership and Management
 - # Therapeutic Recreation
- Rehabilitation Institute
 - # Behavior Analysis and Therapy
 - # Communication Disorders & Sciences
 - # Rehabilitation Services
- School of Social Work
- Workforce Education and Development
 - # Organizational Training & Development³
 - # Career and Technical Education¹

¹ In addition to programs offered almost entirely within the College of Education and Human Services, certain programs are offered in cooperation with the College of Liberal Arts (e.g. English, foreign language, music), or with the College of Agricultural Sciences and the College of Science (e.g., math, science with a designation in biology).

² Workforce Education and Development (WED) is the academic major. A designation in the content area is required.

³ Specialty Areas available.

The College of Education and Human Services is a multipurpose college in which students can prepare for professional careers in teaching and human service.

Those who wish to become principals or superintendents in the public schools or teachers or administrators at the college or university level may take graduate work in the Department of Educational Administration and Higher Education.

The College of Education and Human Services is the oldest unit of the University, which was originally chartered as Southern Illinois Normal University almost 150 years ago. The college is housed in the Wham Education Building, Rehn Hall, Pulliam Hall, Quigley Hall, and Davies Hall.

College of Engineering

Engineering is the profession in which a knowledge of the mathematical and natural sciences gained by study, experience and practice is applied with judgment to develop ways to utilize economically the materials and forces of nature for the benefit of people.

Vision. The College of Engineering at Southern Illinois University Carbondale will excel in engineering and technology education and research through the quality of its faculty, graduates, students, staff, facilities, and programs. The College of Engineering at Southern Illinois University Carbondale will be the engineering and technology programs of choice where parents want to send their children, where students want to learn, where employers seek engineers and technologists, where industry and government find technological innovations, and where underrepresented and underserved populations are encouraged and supported to obtain a quality education.

The College will respond to the needs of its constituencies. Our constituencies include: students, parents, employers, alumni, faculty, public communities, and the sponsors of our funded research. We will listen to all of our constituencies and will be responsive to their needs consistent with the University mission. The College administration will regularly and constantly seek the input of the faculty to determine the direction of the College.

Mission. To provide world-class programs in engineering and technology education, research, and service so as to enhance the economic and social well being of the citizens of Illinois, the nation, and the world.

In order to accomplish our mission we will:

- Provide a world-class education for our students by continually assessing and improving our educational programs
- Support and expand the undergraduate technology program to military bases in the nation and industrial sites in Illinois

- Perform state-of-the-art research that will improve the nation's strategic engineering and environmental technologies
- Build productive and mutually beneficial partnerships with our external constituencies
- Continuously improve the critical student and faculty support processes that are key to the College's mission
- Develop partnerships with industries to improve the economy of Southern Illinois

The College's strategic and educational objective, consistent with the vision and mission statements, are to prepare students

- To communicate clearly and concisely in written and oral formats with audiences ranging from technical to lay persons
- To be effective engineering and technology practitioners, with the ability to employ modern techniques, skills, and engineering tools, emphasizing computer capability and the access and use of information resources
- To be cognizant of current societal issues as well as technology issues so that they can function as effective partners with citizen groups; industries; local, state, federal, and international governing bodies; and other interest groups, in formulating policies and plans to address the contemporary and emerging problems
- To translate scientific, mathematical, and engineering theories into practical solutions of engineering problems through classroom presentations, laboratory and other experimentation, data analysis, employment opportunities such as those offered by cooperative education, internships, association with research projects, and other out of class experiences
- To function as interdisciplinary team members and/or team leaders in addressing multi-faceted engineering and social problems having ethical, public health, environmental, political, economic, international and/or other dimensions
- To recognize engineering problems, have the skills to develop strategies for solving such problems, be competent to carry out relevant design processes, recognize the need for considering alternative approaches to problem-solving, and to understand the realities of what society will and will not accept as feasible solutions
- To be responsible practitioners, having full understanding of the ethical and professional dimensions of good engineering and technology practice and the need for life-long learning

The college has four Engineering Departments and one Technology Department. The four Engineering Departments are:

1. Civil and Environmental Engineering
2. Electrical and Computer Engineering
3. Mechanical Engineering and Energy Processes
4. Mining and Mineral Resources Engineering

These departments offer undergraduate and graduate degree programs ranging from Bachelor of Science to Doctor of Philosophy. The undergraduate engineering programs in civil engineering, computer engineering, electrical engineering, mechanical engineering, and mining engineering are accredited by the Engineering Accreditation Commission of ABET, www.abet.org.

Undergraduates who major in civil engineering have the option for a specialization in environmental engineering. Students can also earn a dual degree in electrical and computer engineering.

Detailed descriptions of these programs, including educational objectives, guides are presented within the [program majors](#).

The Department of Technology offers the following undergraduate programs leading to the Bachelor of Science degree:

- Electrical Engineering Technology
- Industrial Management and Applied Engineering - Quality Management Specialization

Detailed descriptions of these programs including, educational objectives, curricula, areas of specialization and suggested curricular guides are presented within the [program majors](#).

The electrical engineering technology program is accredited by the Engineering Technology Accreditation Commission of ABET, www.abet.org. The industrial management and applied engineering program is accredited by the Association of Technology, Management, and Applied Engineering (ATMAE).

Civil and Environmental Engineering. Civil and Environmental Engineers are responsible for the design, construction, maintenance, and management of the infrastructure consisting of highways, bridges, dams, water and wastewater systems, power generating stations, pollution control systems, airports, skyscrapers, and other industrial and commercial buildings. Design and management decisions consider a wide range of factors, including earthquakes, hurricanes, progressive collapse and environmental impact.

The civil engineering program leading to the Bachelor of Science degree in Civil Engineering is designed to provide the student with the broad educational background essential to be a successful entry level Civil Engineer in practice and to meet the technological challenges of the 21st century. The program also provides additional coursework to the student who prefers to obtain a Civil Engineering degree with emphasis on Environmental Engineering. The technical electives in the senior year permit greater breadth and additional depth in the areas of structural engineering, geotechnical engineering, hydraulic engineering, and environmental engineering.

The graduates from this program are eligible to become registered professional engineers (PE) after satisfying the state registration board's requirements. In addition, the program offers the coursework required for admission to the Structural Engineer License (SE) examination.

Electrical and Computer Engineering. The Department of Electrical and Computer Engineering offers Bachelor of Science degrees in Electrical Engineering and Computer Engineering. The Department offers the option for a dual degree in Electrical and in Computer Engineering.

The electrical engineering curriculum provides students with the opportunity to choose among advanced courses in the theory and applications of circuits, systems, control, signal processing, communications, digital systems, power systems, electronics, gaseous electronics, optics, electrooptics, electromagnetics, antennas and propagation. The computer engineering curriculum provides emphasis on problem solving and design experiences through understanding of the fundamentals of both the hardware and software aspects of computer engineering.

Employment opportunities for electrical and computer engineers exist within a wide range of organizations, such as computer, semiconductor, aviation, electronics, microelectronics, broadcasting, telecommunications, defense, automotive, manufacturing and electric power companies, state and federal agencies and laboratories. Employment opportunities cover the spectrum of engineering activities, ranging from research and development, to systems analysis, automation, manufacturing, customer service and support, marketing and sales.

Mechanical Engineering. Mechanical engineering is one of the most broadly based of the traditional engineering disciplines. Mechanical engineers design and develop a wide variety of systems for conversion, transmission, and utilization of energy; for material processing and handling and packaging; for transportation; for environmental control; and for many other purposes for the benefit of humanity. Therefore, the curriculum contains a broad foundation in mathematics and the basics of engineering sciences, followed by more concentrated study in energy and machine systems. Mechanical engineers may be found in a variety of assignments including planning and design, research and development, supervision of installation and operation of complex systems, and management.

Mining and Mineral Resources Engineering. Mining engineers engage in planning, design, development, and management of surface and underground mining operations for extraction of the earth's mineral deposits. The mining engineering program prepares graduates to meet the challenges of the mining industry with emphasis on the coal and aggregate industries. Coursework in the program includes such areas as surface and underground mining systems, mine ventilation, ground control and rock mechanics, mineral and coal processing, material handling systems, mineral economics, mine health and safety engineering, operations research, and computer-aided mine design.

After completing the program, the graduate may work in an engineering or management position for mining industries, equipment manufacturers, research organizations, or government agencies. The coursework also provides strong preparation for further study at the graduate level.

Electrical Engineering Technology. Electrical engineering technology is that part of the technological field in which engineering knowledge and scientific methods are combined with hands-on technical skills to support engineering activities. It lies in the occupational spectrum between that of the technician and the engineer with specific responsibilities depending upon the nature of the training and requirements of the

job but lying more closely to engineering. Graduates are prepared to deal with technical and production problems, and to apply their knowledge to such activities as development, design, construction, maintenance, and operational problems.

Industrial Management and Applied Engineering. Industrial management and applied engineering is a management-oriented technical profession that is built upon a sound knowledge and understanding of materials, processes, technical management, and human relations; and a proficiency level in the physical sciences, mathematics, and technical skills to permit the graduate to capably resolve technical-managerial and production problems. Graduates of this program are prepared for positions in processes, safety, quality control, supervision, robotics, methods analysis, and computer-aided manufacturing.

Freshman Seminar. Entering freshman enrolled in the College of Engineering are required to attend our Freshman seminar. This seminar consists of six one-hour lectures offered in the fall semester. The first lecture introduces key college personnel and

our support services, while also providing an overview of the engineering profession and our outstanding Registered Student Organizations (RSOs). The five remaining lectures focus on our engineering and engineering technology majors. These presentations provide guidance on careers and the curriculum offered in each program of study.

Admittance to the College

SIUC engineering students are an exceptional and committed group. Success in the engineering programs demands academic dedication, personal discipline, and sufficient preparation at the high-school level. Admission to the College of Engineering is selective and competitive and it is based on an individual review of each application. Emphasis is placed on the ACT/SAT composite and math sub-scores, science and math course work, and math placement. All engineering students placing below Calculus will be required to enroll in ENGR 111. Students can apply to a specific departmental major or as an undeclared engineering major. For more information please contact the College of Engineering at (618) 453-4321.

Admittance to the Pre-Engineering Program

The pre-engineering program is designed for students who apply to our college with the potential to be successful, but who do not meet admission requirements for the College of Engineering. The pre-engineering advisors will develop an individualized program of study aligned with the curricular guides of programs offered in the College of Engineering with the goal of preparing these students to enter a major in engineering. All students must achieve satisfactory math placement, as determined by the college of engineering, before being formally admitted to one of the engineering majors, listed below:

- Civil Engineering
- Civil Engineering with a Specialization in Environmental Engineering
- Computer Engineering
- Electrical Engineering
- Electrical Engineering Technology
- Industrial Management and Applied Engineering
- Mechanical Engineering
- Mining Engineering

The curriculum guides for these degree programs can be found in the program sections of the catalog. The engineering advisors will consider math placement when developing the individualized program of study. In addition, pre-engineering students are required to enroll in ENGR 111.

As with students admitted to the College of Engineering, pre-engineering students will be required to live in the Engineering Living Learning-Community. In addition, pre-engineering students will be invited to participate in the many different learning and social activities of the College of Engineering. The maximum time limit for the pre-engineering program is 45 credit hours at SIUC.

Course Sequence

It is important that required courses in the program be taken in the proper sequence. Sequence guidelines are available from the college advisement office and the departmental offices. Courses on the 300- and 400-levels are reserved for juniors and seniors.

Transfer Students

Students enrolled in community colleges who plan to transfer to the College of Engineering at Southern Illinois University Carbondale should take courses that provide backgrounds in mathematics, physical sciences, social sciences, and humanities. Students may transfer at any time, but there are advantages

in having completed a baccalaureate-oriented associate- degree program. Community college students may contact the Engineering Advisement Office for course recommendations applicable to majors in the College of Engineering.

All transfer credit from an accredited institution that is deemed acceptable at the University, both two-year and four- year, will be used in fulfillment of program requirements. Equivalencies for courses will be determined by the departmental chair, advisement office, or office of the dean, College of Engineering.

Students who are attending a public Illinois community college and contemplating application to the College of Engineering should obtain program information that has been prepared for their particular community college.

All degrees offered by the College of Engineering participate in the [SIU Capstone Option](#). The Capstone Option reduces the University Core Curriculum requirements from 39 to 30 hours, therefore reducing the time to degree completion. Students interested in the Capstone Option should contact the College of Engineering Advisement Office to develop a personal coursework pathway to degree completion.

Location Administrative offices of the college are located in the Engineering Building, 1230 Lincoln Drive.

College of Liberal Arts

Departments: Africana Studies; Anthropology; Art and Design; Communication Studies; Criminology and Criminal Justice; Economics; English; Geography and Environmental Resources; History; Languages, Cultures and International Trade; Linguistics; Music; Philosophy; Political Science; Psychology; Sociology; Theater.

The College of Liberal Arts offers the following majors leading to the Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music or Bachelor of Science degrees. Minors are possible in most of these areas. For exceptions, refer to footnotes.

- Africana Studies
- American Studies¹
- Ancient Greek¹
- Anthropology
- Art
- Asian Studies¹
- Chinese¹
- Classical Civilization¹
- Classics²
- Criminology and Criminal Justice
- Design
- East Asian Studies²
- Economics
- English
- Foreign Languages and International Trade²
- French²
- Geography and Environmental Resources
- German²
- GIS1
- Global Studies¹
- History
- International Studies²
- Japanese¹
- Latin¹
- Latino and Latin American Studies¹
- Linguistics
- Mathematics
- Museum Studies¹

- Music
- Native American Studies¹
- Paralegal Studies
- Peace Studies¹
- Philosophy
- Political Science
- Psychology
- Sociology
- Spanish²
- Speech Communication (see Communication Studies)
- Sustainability¹
- Theater
- University Studies
- Women, Gender, and Sexuality Studies

¹ Minor Only.

² Available as a specialization within the Languages, Cultures and International Studies major offered by the Department of Languages, Cultures and International Trade.

The College of Liberal Arts provides instruction in basic subject matter courses for the University Core Curriculum; majors in twenty-four subject areas; graduate programs for students pursuing Master's and Ph.D. degrees; and preprofessional curricula for specialized schools such as law, and courses offered through the Division of Continuing Education. The Bachelor of Arts, the Bachelor of Fine Arts, the Bachelor of Music, or the Bachelor of Science degree is granted to students who fulfill requirements for graduation from the College of Liberal Arts. The courses of study outlined by the departments determine the degree awarded. Students in the College of Liberal Arts may also prepare directly for teaching at the secondary level by including in their studies certain professional courses offered by the College of Education and Human Services.

Through the diversified offerings of the College of Liberal Arts, students develop the ability to seek and weigh evidence and to think critically and independently; they gain a fundamental understanding of the ever changing social, political, and physical environment, and a deeper understanding of people, cultures, art, and literature.

Academic Requirements

To receive a degree from the College of Liberal Arts, students must fulfill the following:

1. University requirements including those relating to University Core Curriculum, residency, total hours completed, and grade point average.
2. College of Liberal Arts academic requirements:
 - a. Writing: (i) one English Composition course at 200-level or higher (ENGL 290, LING 290, ENGL 291, ENGL 390, ENGL 391, ENGL 392; creative writing courses may not be used to fulfill this requirement) and one approved writing-intensive course designated by the major department as fulfilling the Writing-Across-the-Curriculum (WAC) requirement; or (ii) two approved writing-intensive courses designated by the major department as fulfilling the Writing-Across-the-Curriculum (WAC) requirement.
 - b. Foreign Language: A minimum of one year (two courses) or higher of one foreign language, satisfaction by coursework or exam. Students may not use the same language course to fulfill requirements in both the University Core Curriculum and the College of Liberal Arts. International students who have met the Office of International Admissions competency requirement may satisfy this requirement with their native language by providing a secondary school certificate from their native country. (Bachelor of Fine Arts degree students in Art, Bachelor of Fine Arts degree students in Musical Theater, Bachelor of Music degree students, Bachelor of Arts degree students in Music Business Specialization, and Bachelor of Science degree students in University Studies do not have to fulfill the foreign language requirement.)
 - c. International Coursework: Successful completion of 2 courses providing a global or comparative perspective on the world, and selected from the 30+ courses from ~12 disciplines listed in Section A of the Global Studies Minor [<http://cola.siu.edu/academics/undergraduate/>]

global-studies/] (or comparable list of the International Studies major/minor). Some courses may be used to fulfill the international coursework requirement as well as a University Core Curriculum requirement. (Bachelor of Fine Arts degree students in Art, Bachelor of Fine Arts degree students in Musical Theater, Bachelor of Music degree students and Bachelor of Arts degree students in Music Business Specialization do not have to fulfill the International coursework requirement, though they are strongly encouraged to take Core Curriculum courses that would also meet the requirement.)

3. Completion of an approved major in the College of Liberal Arts.
4. Completion of a minimum of 39 hours of course work at the 300- or 400-level.

Liberal arts major requirements provide for a number of elective courses, giving students maximum flexibility in planning their overall program of study at the University. To assist students in planning their programs, the college maintains an academic advisement office in Faner Hall 1229, as well as faculty advisors in each department. Students are urged to consult these academic advisors on how they can best use their electives to fulfill their intellectual interests and to prepare for particular career opportunities. A carefully planned minor or second major field can lead to additional career opportunities for the liberal arts major. Students who are planning to attend graduate school or one of the professional schools such as law or medicine should consult with their advisors on how best to plan their undergraduate curriculum.

Instructional Support Equipment Fee

The School of Art and Design assesses all undergraduate art and design majors an instructional support equipment fee of \$10.00 per credit hour; a maximum of 12 credit hours will be charged each for fall and spring semesters and six for summer.

Writing-Across-the-Curriculum Courses

Anthropology 480; Art and Design 308, 318, 358, 368, 389, 400C, 401C, 402C, 403C, 404C, 405C, 414C, 438, 452, 489B, 489D; Communication Studies: Speech Communication 262, 310, 326, 381, 401, 411, 471, 476, 481; Criminology and Criminal Justice 316, 492; Economics 308; English 301, 365, 471; Geography and Environmental Resources 304; History 359, 392 and 499, 406B, 410, 412A, 412B, 413, 417, 418, 420, 426, 427, 429, 442, 447, 455, 464, 467A, 467B; Languages, Cultures, and International Trade: Chinese 370, 435; Classics 415, 416, 491, 496; French 320B, 410; German 320B, 410; Japanese 410, 435; Spanish 320B, 410; Linguistics 406; Music 357 sequence, 471; Paralegal Studies 300A, 300B; Philosophy 304, 305A, 305B, 405; Political Science 405, 406, 416, 420, 435, 455, 459, 480; Psychology 211, 311; Sociology 312, 497, 498; and Theater 311A.

Pre-Law

The College of Liberal Arts has a pre-law designation to identify and assist students interested in pursuing a career in the law and/or enrolling in law school. Students planning to apply to law school can select any major course of study and, because their undergraduate grades are important in the law school application process, they are encouraged to select a major in which they can perform very well.

Applying to Law School

Students who plan on applying to law school will need to take the Law School Admission Test (LSAT) sometime during their junior or senior year. The LSAT is administered by a company called Law Services and is offered at SIU. A practice LSAT is offered by SIU Testing Services and the SIU Division of Continuing Education offers a LSAT preparatory course. Students who perform exceptionally on the LSAT may be subject to certain conditions, enroll, and be admitted into the SIU School of Law as a junior. More information about the LSAT and the law school application process can be obtained from advisors in the College of Liberal Arts (CoLA) Advisement Office (Faner 1229), from Law Service at <<http://www.lsac.org>>, or from the SIU School of Law, Office of Admissions and Student Affairs at <<http://www.law.siu.edu>>.

Student Organizations

Students interested in a career in the law and/or enrolling in Law School can join the Pre-Law Association, a registered student organization that schedules speakers and events related to a legal career. Students are encouraged to visit the Pre-Law Association website at <<http://www.prelaw.rso.siu.edu>>. In conjunction with the Pre-Law Association, the Department of Political Science sponsors an annual moot court competition for pre-law students that are held in conjunction with the Model Illinois Government simulation.

Suggested Courses

Students interested in pursuing a legal career should recognize that certain courses available in the College of Liberal Arts might be helpful in preparing either for the LSAT, the study of law, and/or a career in the law.

For example, the Paralegal Studies program is one course of pre-law study in which a student takes a variety of legal courses including legal writing and research, civil procedure and torts. Students in the Political Science program can declare a pre-law specialization within their major, which includes courses in administrative law, civil liberties and constitutional law.

Any course, however, that develops or improves a student's analytical reasoning, reading comprehension, logical reasoning, or writing skills will be beneficial for the LSAT, the study of law, and/or a career in the law. Development or improvement of oral communication skills, which are currently not tested on the LSAT but are very important for the study of law or a legal career, is also strongly recommended.

A list of courses that offer the opportunity to improve or develop these skills appears below. This is not an exhaustive list. With some exceptions, students do not need to be enrolled in a particular major to take any or all of these courses. Students who are not in a CoLA program, therefore, are strongly advised to take one or more of these courses to supplement their studies. For more information about these courses, contact an academic advisor in the CoLA Advisement Office. Anthropology 202, 298, 370, 410A and 410E; Criminology and Criminal Justice 203, 310, 320, 374 and 408; Economics 240, 241, 340 and 341; English 290, 291, 300, 391 and 491; History 330A, 400, 450B, 467A,B, and 490; Linguistics 104, 200, 201 and 415; Philosophy 105, 309I, 310, 320, 344 and 441; Political Science 332I, 334, 435, 436, and 437; Psychology 211, 223, 301, 304, 311, 431 and 420; Sociology 308, 312, 372, 424, and 473; Speech Communication 221, 310, 325, 326, 411, 421 and 463.

University Studies Degree Program

In the University Studies Program, students pursue either a Bachelor of Arts or Bachelor of Science degree through an individually designed, broad-based curriculum rather than a traditional specialization. The program accommodates multidisciplinary and non-traditional approaches to education and to related careers. To determine eligibility for the University Studies Program as well as to explore specific possibilities, students should consult the website at <http://cola.siu.edu/academics/undergraduate/university-studies-degree/index.html>.

College of Mass Communication and Media Arts

Departments: Cinema and Photography; Radio, Television, & Digital Media

Schools: Journalism

The College of Mass Communication and Media Arts (MCMA) offers the Bachelor of Arts degree in Cinema and Photography and Radio, Television, & Digital Media. The Bachelor of Science degree is awarded in the School of Journalism. The College also offers four graduate programs, for information on these please see the SIU Graduate Catalog.

Admission to the University is handled through the Office of Undergraduate Admissions, but those students who desire more specific information about a major should make an appointment with the academic advisor of that department or school.

Academic advisors in the College advises prospective students about major requirements, curriculum, extracurricular activities, careers, and opportunities. Transfer students may also discuss transfer credit and placement in courses at Southern Illinois University Carbondale.

Faculty of the college engage in research and creative activities concerning mass communication and media arts. They also provide consulting service and other community services to schools, newspapers, radio and television stations, museums, businesses, and government. They hold professional memberships and serve as officers in various local, state, national, and international organizations in mass communication and media arts. The College plans a number of special events each year, including lectures by noted artists and media professionals, photography exhibits, and film showings.

Opportunities for practical learning in real world settings include student employment at the Daily Egyptian, a student-run newspaper with a circulation of 27,000, a PBS television station, an NPR radio station, the Saluki Advertising Agency, and the Big Muddy Film Festival, all housed in the College. The River Region Evening Edition, a live newscast aired on PBS, is produced entirely by students under the supervision of a faculty member. Students can participate in internships in media centers across the country, such as Hollywood, Chicago, Nashville, as well as locally.

Administrative offices of the College are located in the Communications Building, which includes the broadcasting facilities, film, video, and multimedia production facilities, the New Media Center, the Daily Egyptian, and the River Region Evening Edition.

College of Science

Departments: Chemistry and Biochemistry; Computer Science; Geology; Mathematics; Microbiology; Physics; Plant Biology; Zoology

The College of Science offers majors leading to the Bachelor of Arts and/or Bachelor of Science degrees in the following fields of study:

Biological Sciences

Chemistry

Computer Science

Geology

Mathematics

Microbiology

Physics

Physiology

Plant Biology

Zoology

Included in the curriculum of each department are foundation courses that provide an introduction to the subject matter of that discipline while fulfilling the University Core Curriculum requirements of Southern Illinois University Carbondale. These courses enable students to develop an understanding and appreciation of the impact of science on our daily lives. Introductory and advanced courses are provided to prepare students for professional employment or entrance into professional and graduate schools. Graduate training is also provided by each of the science departments leading to the M.S. or Ph.D. degree. Research interests of the faculty are extremely diverse.

Students in the College of Science may prepare for teaching at the secondary level by fulfilling the additional requirements of the College of Education and Human Services.

The Bachelor of Arts or the Bachelor of Science degree is granted to students who fulfill the University requirements for graduation, the College of Science requirements as given below, and the requirements of the departments in which the students declare their majors.

Regularly enrolled students must declare a College of Science major by the beginning of their sophomore year. Transfer students must declare a College of Science major by the beginning of their second semester following transfer. Students planning post-baccalaureate work in a professional field may designate their intention by declaring a preprofessional area as a secondary concentration, e.g., pre-medicine.

Each department has specific requirements for students to major in the selected field of interest. The College of Science has some minimum general requirements listed below.

ACADEMIC REQUIREMENTS

None of these general academic requirements may be satisfied by taking the required courses on a Pass/Fail grading basis.

Biological Sciences. Six semester hours in courses offered by the biological sciences departments in the college, with the proviso that this requirement cannot be satisfied in whole or in part by the University Core Curriculum courses, but may be substituted for the latter in meeting the University Core Curriculum requirements.

Mathematics. The mathematics requirement can be met: (a) by passing Mathematics 108 and 109, or 111 or its equivalent, or Mathematics 141 or 150 or equivalent, or (b) by proficiency credit.

Physical Sciences. Six semester hours in courses offered by the physical science departments of the college, with the proviso that this requirement cannot be satisfied in whole or in part by University Core courses, but may be substituted for the latter in meeting the University Core Curriculum requirements.

Supportive Skills. Two courses, totaling at least six credit hours must be completed as supportive skills. Supportive skills courses are courses in communication or computation skills that have been approved by the major program and must be chosen from the following subject areas: (a) foreign language; (b) English composition or technical writing; (c) statistics; or (d) computer science. Because departments have different supportive skills requirements, students should consult individual program descriptions for approved courses for each major.

PRE-HEALTH PROFESSIONAL PROGRAMS

SIU admits students with majors in pre-chiropractic, pre-dentistry, pre-medicine, pre-occupational therapy, pre-optometry, pre-physician assistant, pre-physical therapy, pre-podiatry, and pre-veterinary. These are not degree programs, but indicate the students' plans upon completion of the baccalaureate degree. Therefore, students are also required to declare a degree-oriented major. They will complete their degree requirements and fulfill additional professional school requirements with the guidance of a Health Care Professions Advisor (located in the College of Science). Students who choose to pursue these careers must be dedicated and have good academic ability in both the sciences and humanities.

International students should be aware that acceptance at American public professional schools is difficult. As a general rule, no financial aid is available for non-citizens. A small number of international students are accepted at private schools, which are costly.

Students pursuing a career in veterinary medicine have the option of registering in the College of Science or the College of Agricultural Sciences. Typically, students are either Zoology (Science) or Animal Science (Agriculture) majors. Pre-veterinary requirements can be met through either college.

SIU Carbondale has a collaborative nursing program with SIUE on the Carbondale campus; students desiring to obtain their Bachelor of Science in nursing must complete one year of pre-nursing (E-track), then apply to the three-year program. All four years are offered in Carbondale; however, students are awarded a nursing degree through SIUE. SIU Carbondale also has a traditional pre-nursing program for students who plan to apply to other schools of nursing besides SIU. Pre-pharmacy students may apply to pharmacy schools at SIUE and other locations after two to three years of rigorous prerequisite course work.

For a listing of SIU Carbondale Pre-Health program curricula requirements, see the corresponding link to the specific programs at the Health Professions Information Office page at: http://www.science.siu.edu/advisement/health_advisement/index.html.

The College of Science Repeat Policy limits the number of times that an undergraduate student may repeat a MAJOR course for the purpose of raising a grade. Students earning less than a "C" in a major course, may repeat said course one time only. As there may be reasonable exceptions to the policy, students who wish to request Dean's permission to repeat beyond one time may do so by filling out a College of Science Repeat Petition obtained from the College of Science Advisement Office.

School of Law

The Southern Illinois University School of Law has established a positive, individualized learning environment that allows students to develop the skills necessary to compete in today's legal market. The low student/faculty ratio (13- to- 1) illustrates the School's commitment to personal education. Students

receive the very best in instruction from faculty drawn from distinguished practice and academic settings. The curriculum balances traditional legal education with practical skills training to produce an attorney who understands the law and how to apply it in real-world situations.

The Juris Doctor (JD) degree program is a three-year, full-time day program. The school also offers a Two-Year Honors scheduling option for eligible students. Students must indicate their interest in this option at the time of their application to law school.

In the first year, students take fundamental law courses as well as Lawyering Skills classes that combine legal research and writing, interviewing, counseling, negotiation and oral advocacy. All first-year students take a Professionalism and the Law class. The School has been recognized by the Illinois Supreme Court and the American Bar Association for its leadership in the development of professionalism programs. SIU is one of the few law schools in the country that guarantee its JD students an opportunity to participate in a legal clinic or field placement experience. Students have a variety of experiential learning and extracurricular opportunities including legal clinics, in which they assist actual clients under the supervision of licensed attorneys; externships; moot court; pro bono activities; study abroad; writing and editing for the Southern Illinois University Law Journal or the Journal of Legal Medicine; and more than twenty student organizations.

Professionals who have expertise in the intersection of information systems and the law staff the Law Library and teach in the Lawyering Skills program.

The School offers specializations in Intellectual Property, Health Law and Policy, International and Comparative Law, Business and Transactional Law, Litigation and Dispute Resolution, and Public Interest Law. Students who complete the requirements for these specializations earn a transcript notation and certificate that will allow them to demonstrate to potential employers their genuine interest and growing expertise in the field.

The School also offers interdisciplinary opportunities including seven joint degree programs in Accountancy (MACC), Social Work (MSW), Public Administration (MPA), Educational Administration (M.S.Ed), Business Administration (MBA), Electrical Computer Engineering (ECE), Political Science (Ph.D.) and Medicine (MD). The School's joint JD/MD program, offered in conjunction with the SIU School of Medicine, is one of only a few concurrent law/medicine programs available in the country.

The relationship between the schools of law and medicine offers law students unique opportunities for collaborative learning through the Center for Health Law and Policy.

The School is an accredited provider of continuing legal education programming for Illinois attorneys. Interested students can contact the Office of Admissions by email at lawadmit@siu.edu, by phone at 800/739-9187, or by mail at SIU School of Law, 1150 Douglas Drive, Carbondale, Illinois 62901. Students are also encouraged to visit the School of Law's website at law.siu.edu.

With advance notice, students and parents can request a tour, a meeting with law school staff, and an opportunity to sit in on a current law school class (when class is in session).

The School of Law is fully accredited by the American Bar Association and is a member of the Association of American Law Schools.

School of Medicine

Southern Illinois University School of Medicine was established in 1970 after the Illinois General Assembly passed a bill calling for a second state medical school to be established in downstate Illinois. The School graduated an advanced standing class in 1975 and its charter class of all Illinois students in 1976. Currently, 72 students are admitted each year. Today, the School encompasses a complete sequence of medical education beginning with the M.D. degree and progressing through residency training and on to continuing medical education for practicing physicians.

The medical education curriculum has brought the school national attention. Since students are not evaluated in competition with their peers, they are stimulated to cooperate with one another, a situation that more closely resembles what takes place in the actual practice of medicine. Problem-based learning concepts, including active learning situations with virtual and simulated patients, are used to help students work toward clinical competency throughout the four-year curriculum. The first year of the four-year M.D. degree is taught on the Carbondale campus where students concentrate on the basic sciences. The remaining three years are taught in Springfield where students study clinical medicine along with medical humanities and various electives.

The instructional program in Carbondale is based in Lindegren Hall and Memorial Hospital. In Springfield, it is based in the Medical Instructional Facility, the SIU Clinics, Memorial Medical Center, St. John's Hospital and other locations.

The school offers an M.D.-J.D. dual degree program in conjunction with the SIU School of Law and an M.D.-MPH degree with the SIU College of Education and Human Services. The school also oversees a Physician Assistant program in Carbondale.

The School's Medical/Dental Education Preparatory Program (MEDPREP) in Carbondale is designed to assist underrepresented populations and others with educationally disadvantaged backgrounds to prepare for success in medical and dental schools.

The School's residency programs include dermatology, emergency medicine, family medicine, internal medicine, medicine/psychiatry, neurology, neurosurgery, obstetrics and gynecology, pediatrics, psychiatry, radiology and six surgical specialties. There are twelve fellowships for advanced clinical work.

The School's continuing medical education program provides an extensive schedule of accredited conferences and symposia for physicians and other health-care professionals in central and southern Illinois. Programs are held in Springfield, Carbondale and throughout the School's service area.

The School also offers graduate programs for master's and doctoral degrees in physiology, pharmacology and molecular biology, microbiology and biochemistry, and a teaching certificate of anatomy. The faculty in Carbondale's and Springfield's basic science departments divide their time between teaching responsibilities and research. Both clinical investigators and basic scientists collaborate on a wide-range of medical and scientific projects; they work in the various basic science laboratories on both campuses and in the clinical facilities located in the affiliated hospitals in Springfield.

Interfaced with its various educational and research programs is the provision of patient care through the various clinical departments and specialized clinics of the School and the practice of its physician faculty.

Preference for admission is given to applicants from central and southern Illinois and other underserved (inner-city, rural) portions of the state. Inquiries regarding admissions and requests for a catalog from the School of Medicine should be addressed to the Director of Admissions, Southern Illinois University School of Medicine, P.O. Box 19624, Springfield, Illinois 62794-9624. More information can be found at www.siumed.edu.

Programs

Accountancy

The objective of the Master of Accountancy (M.Acc) degree program is to provide an opportunity for students to achieve greater breadth and depth in the study of accountancy than is possible in the baccalaureate program. As preparation for entry into a dynamic profession the curriculum fosters clear, logical, and analytical thought processes, effective oral and written communications, and life-long learning skills. Graduates pursue careers as professional accountants in public practice, industry, financial institutions, government, and other not-for-profit organizations.

Admission

Applicants for admission to the program are required to:

1. Complete all requirements for admission to graduate study as specified by the Graduate School.
2. Complete the Graduate Management Admissions Test (GMAT) unless the applicant qualifies for a waiver of the GMAT as provided below; and
3. Pay a nonrefundable \$65 application fee by credit card when submitting the application for Admission to Graduate Study in Accountancy.

Information regarding the GMAT is available through the GMAT website: www.mba.com/exams/gmat. The results of the test must be mailed directly to the Director of the M.Acc. Program.

The GMAT requirement is waived for applicants with an overall grade point average of 2.7 or higher (on a 4.0 scale) in an undergraduate major in accountancy at a 4-year undergraduate AACSB-accredited institution. Applicants whose grade point average is below 3.0 will be conditionally admitted under this waiver and must obtain a *B* or better in all 12 credit hours of coursework in their first semester to remain in the program.

If the GMAT is required, admission to the program is based on a composite of: (1) undergraduate grade point average times 200, and (2) GMAT overall score. These two factors are added together to arrive at a

composite score. For example, an undergraduate grade point average of 3.2 with a GMAT of 550 would yield a composite score of 1190.

Differential Tuition and Technology Fee

Starting Fall 2008, the College of Business has implemented a differential tuition surcharge of 15 percent of applicable tuition for new College of Business majors. The differential tuition surcharge will be assessed at the in-state tuition rate and will be capped at 15 credit hours per semester. If students are charged the differential tuition surcharge, the technology fee (see item below) will not be assessed.

The College of Business assesses College of Business majors a technology fee of \$6 per credit hour for Fall and Spring semesters up to twelve semester hours and Summer up to six semester hours. The technology fee is being phased out and will be subsumed under the differential tuition surcharge. Consequently, students will be charged either the technology fee or the differential tuition surcharge but not both.

Degree Requirements

The Master of Accountancy degree program includes two concentrations from which to choose: 1. Taxation, 2. Audit/Information Systems, and 3. General. Degree requirements are dependent upon the specialization chosen.

Taxation Concentration:

The taxation concentration is designed to provide in-depth exposure to the basic areas of taxation and to develop competence in the practical application of rules of taxation in the context of business and personal decision-making. Students must complete 30 hours of graduate-level course work.

Taxation Core Courses (18 hours)*

Six (6) of the following courses must be completed:

- ACCT 541 (3) Federal Income Tax Concepts
- ACCT 542 (3) Tax Research and Procedure
- ACCT 543 (3) Corporate Taxation
- ACCT 544 (3) Partnership Taxation
- ACCT 545 (3) State and Local Taxation
- ACCT 546 (3) Estate and Gift Taxation
- ACCT 547 (3) Tax Accounting Principles
- ACCT 548 (3) International Taxation

Electives (12 hours)

- ACCT 514 (3) Ethics of Business
- ACCT 561 (3) Accounting Analytics
- ACCT 571 (3) Governmental & Not for Profit Accounting
- ACCT 575 (3) CPA Review
- ACCT 595 (3) Internship
- Any 500-level ACCT course not previously taken
- Any 400-level ACCT course not previously taken

Elective will be selected in consultation with the Director of the Master of Accountancy Program.

*Substitutions will be determined in consultation with the Director of the Master of Accountancy program when necessary.

Auditing & Accounting Information Systems Concentration:

The Auditing & Accounting Information Systems concentration is designed for those interested in pursuing careers in assurance. The primary objective is to develop conceptual and technical abilities, research competence, and communication and human relation skills.

The program of study is designed to provide in-depth exposure to the basic areas of auditing and accounting information systems and to develop competencies in the practical application of these areas of expertise. Students must complete 30 hours of graduate-level coursework.

Auditing & Accounting Information Systems Core Courses (18 hours)*

Six (6) of the following courses must be completed: ACCT 512c (3) Interpreting Data

- ACCT 532 (3) Advanced Managerial Accounting
- ACCT 560 (3) Information Technology Risk and Controls
- ACCT 561 (3) Accounting Analytics
- ACCT 562 (3) Governance, Risk, and Control
- ACCT 563 (3) Advanced Auditing
- ACCT 565 (3) Advanced Accounting Information Systems
- ACCT 567 (3) Fraud Examination
- ACCT 568 (3) Forensic Accounting

Elective (12 hours)

- ACCT 514 (3) Ethics of Business
- ACCT 571 (3) Governmental & Not for Profit Accounting
- ACCT 575 (3) CPA Review
- ACCT 595 (3) Internship
- Any 500-level ACCT course not previously taken
- Any 400-level ACCT course not previously taken

Elective will be selected in consultation with the Director of the Master of Accountancy Program.

*Substitutions will be determined in consultation with the Director of the Master of Accountancy program when necessary.

General Concentration:

The General concentration is designed for those interested in pursuing careers that cover all areas of accounting. This concentration is designed to provide a mix of taxation, auditing, and accounting information systems topics. Students must complete 30 hours of graduate-level coursework.

General Core Courses (up to 30 hours)*

- ACCT 514 (3) Ethics of Business
- ACCT 542 (3) Tax Research and Procedure
- ACCT 543 (3) Corporate Taxation
- ACCT 545 (3) State and Local Taxation
- ACCT 561 (3) Accounting Analytics
- ACCT 562 (3) Governance, Risk, and Control
- ACCT 563 (3) Advanced Auditing
- ACCT 567 (3) Fraud Examination
- ACCT 568 (3) Forensic Accounting
- ACCT 571 (3) Governmental & Not for Profit Accounting

Electives (up to 6 hours)

- ACCT 575 (3) CPA Review
- ACCT 595 (3) Internship

Elective will be selected in consultation with the Director of the Master of Accountancy program.

* Substitutions will be determined in consultation with the Director of the Master of Accountancy program when necessary.

Foundation Requirements

A student who does not have an undergraduate business degree will be required to complete the following (or equivalent):

- ACCT 220 Accounting I-Financial
- ACCT 230 Accounting II-Managerial
- FIN 270 The Legal and Social Environment of Business, or
FIN 280 & FIN 380 Business Law I (FIN 280); Business Law II (FIN 380)
- FIN 330 Introduction to Finance

- MGMT 304 Introduction to Management
- MKTG 304 Marketing Management

A student not having an accountancy degree will be required to complete the following (required to be completed prior to enrollment in any graduate course for which the course is a prerequisite):

- ACCT 321 Intermediate Accounting I
- ACCT 322 Intermediate Accounting II
- ACCT 331 Cost Accounting
- ACCT 341 Introduction to Taxation
- ACCT 360 Accounting Operation Systems
- ACCT 460 Auditing

Note: The student may request that undergraduate courses taken at universities other than Southern Illinois University (SIU), or that other undergraduate courses taken at SIU be evaluated as possible substitutes that would meet the above requirements.

The full-time student who qualifies for the minimum program in terms of course work requirements normally may expect to complete the Master of Accountancy degree in one calendar year (two semesters and one summer session).

In order to meet the graduate requirements, the students must obtain a 3.0 grade point average (4.0 = A) and obtain a *B* or better in eighty percent of all graduate-level courses taken after admission to the M.Acc. program.

Double Major Policy

Any graduate student wishing to pursue a double major for a master's degree that includes business administration must satisfy the following requirements in addition to any requirements stated in the Graduate Catalog:

- The individual must satisfy all requirements for admission to the relevant master's program in business (M.B.A or M.Acc.).
- The individual must satisfy all foundation requirements of the relevant master's program in business.
- The individual must complete all core classes, secondary core (M.Acc.) courses, and elective course requirements for the relevant master's program in business.
- No more than six hours of coursework outside the College of Business may be counted toward elective requirements in the relevant master's program in business.

Concurrent J.D. and M.Acc. Program

A student who has been admitted separately to the School of Law and to the M.Acc. program may apply for permission to study concurrently for both the Juris Doctor and Master of Accountancy degrees. This permission must be requested from both the School of Law and the School of Accountancy, ordinarily prior to entry into the second-year curriculum of the School of Law.

During the first academic year of concurrent work on the two degrees, the student enrolls only in the first-year law curriculum. In any subsequent academic term, the student may enroll for courses either in the School of Law or in the Master of Accountancy program. A student registered for both law and graduate courses in the same term must enroll for a minimum of 10 hours in law, and 12 semester hours in total, in order to meet A.B.A. residence requirements and the academic requirements of the School of Law.

Completion of the concurrent program requires that the student successfully complete 90 semester hours of law courses and 30 semester hours of courses that meet M.Acc. requirements. However, up to nine semester hours of M.Acc. courses may be applied to the 90-hour J.D. requirement and up to nine hours of Law School courses may be applied to the 30-hour M.Acc. requirement. School of Law courses counting for graduate credit toward the Master of Accountancy degree must be approved by the Director of the Master of Accountancy program. Further, no more than six of the 30 semester credit hours may be taken in courses at the 400-level for graduate credit.

Accountancy Courses

ACCT411 - Enterprise Ntwrks & Commun 411-3 Enterprise Networks and Communication. (Same as MGMT 411) Application of data communications and network technologies for improving business. Coverage includes, but is not limited to: introduction to the principles of data transmission technology, various communication architectures and protocols, basic network design principles, internet and intranet technologies, data security issues and elements of network management. Prerequisite: C or better in MGMT 345.

ACCT421 - Advanced Accounting 421-3 Advanced Accounting. Accounting principles and procedures relating to specialized topics in financial accounting and business combinations, resulting in consolidated financial statements, and financial accounting for partnerships. Prerequisite: a grade of C or better in ACCT 322. Restrictions: Accounting majors or minors, junior standing or higher.

ACCT431 - Advanced Cost Accounting 431-3 Advanced Cost Accounting. Managerial decision making; profit planning and control through relevant costing, return on investment and transfer pricing, determination of cost behavior patterns, analysis of variances, capital budgeting, inventory models, probabilities, statistical methods, and operations research. Prerequisite: ACCT 331 with grade of C or better. Restrictions: Accounting majors or minors, junior standing or higher.

ACCT441 - Advanced Tax 441-3 Advanced Tax. Study of income tax problems which arise from sole proprietorship, partnership, limited liability company, corporation, estate, and trust. Student does research in source materials in arriving at solutions of complicated problems. Prerequisite: ACCT 341 with grade of C or better. Restrictions: Accounting majors or minors; junior standing or higher.

ACCT460 - Auditing 460-3 Auditing. Provides an overview of processes for planning and executing a risk-based audit; explains the procedures auditors use to evaluate internal controls; describes the tests auditors conduct to substantiate financial statement accounts. Prerequisite: a grade of C or better in ACCT 322. Restrictions: Accounting majors, minors, junior standing.

ACCT465 - Internal Auditing 465-3 Internal Auditing. The course covers internal audit from a broad perspective to include information technology, business processes, and accounting systems. Topics include internal auditing standards, risk assessment, governance, ethics, audit technique, and emerging issues. It covers the design of business processes and the implementation of key control concepts and will use a case study approach that addresses tactical, strategic, systems, and operational areas. Restrictions: Accounting majors or minors.

ACCT468 - Forensic Accounting 468-3 Forensic Accounting. Coverage of forensic accounting processes and tools used in the detection and prevention of fraud against the company. Topics include skimming, cash larceny, check tampering, billing schemes and others. The course will include the use of computer aids in forensic investigation. Restrictions: Accounting majors and minors.

ACCT512A - Seminar: Theor Frameworks 512A-3 to 15 (3 per topic) Accounting Research Methods Seminar-Theoretical Frameworks. Describes and explains methods for examining research questions about professional judgment in accounting. May be repeated for credit but sections (a) through (d) can be taken only once.

ACCT512B - Seminar: Research Design 512B-3 to 15 (3 per topic) Accounting Research Methods Seminar-Research Design. Describes and explains methods for examining research questions about professional judgment in accounting. May be repeated for credit but sections (a) through (d) can be taken only once.

ACCT512C - Seminar: Interpreting Data 512C-3 to 15 (3 per topic) Accounting Research Methods Seminar-Interpreting Data. Describes and explains methods for examining research questions about professional judgment in accounting. May be repeated for credit but sections (a) through (d) can be taken only once.

ACCT512D - Seminar: Alt Research Methods 512D-3 to 15 (3 per topic) Accounting Research Methods Seminar-Alternative Research Methods. Describes and explains methods for examining research

questions about professional judgment in accounting. May be repeated for credit but sections (a) through (d) can be taken only once.

ACCT512E - Seminar: Special Topics 512E-3 to 15 (3 per topic) Accounting Research Methods Seminar-Special Topics. Describes and explains methods for examining research questions about professional judgment in accounting. May be repeated for credit but sections (a) through (d) can be taken only once.

ACCT514 - Ethics of Business 514-3 Ethics of Business. (Same as BA 514) Philosophical implications of contemporary issues in business ethics. Restricted to enrollment in M. Acc. or consent of department.

ACCT521 - Emerging Issues in Acct 521-3 Emerging Issues in Accountancy. Identifies developing areas in financial accounting and forces students to research the issues, to think critically, evaluate alternatives and communicate conclusions in oral and written form. International accounting, not-for-profit, standard setting and regulation, and other developing issues are addressed. The Journal of Accountancy, other professional journals, and guest speakers. Prerequisite: ACCT 321, ACCT 322.

ACCT532 - Adv Management Accounting 532-3 Advanced Management Accounting. Management planning and control decisions and design and evaluation of management accounting systems requiring formal models and application of vigorous analytic reasoning. Integration and synthesis of techniques such as regression analysis, linear programming, decision theory and behavioral science for important decisions of the form. Information economics. Contemporary research directories. Restricted to enrollment in M.Acc. or M.B.A. program.

ACCT541 - Tax Concepts 541-3 Tax Concepts. Provides the student with an understanding of the nature of the federal tax law and an appreciation of the law's impact upon business decisions both for individuals and companies. Prerequisite: ACCT 441 with C or better.

ACCT542 - Tax Research & Procedure 542-3 Tax Research and Procedure. Provides the student with a working knowledge of the tax practitioner's methodology applied to the solution of both routine and complex tax problems. Prerequisite: ACCT 441 with C or better.

ACCT543 - Corporate Taxation 543-3 Corporate Taxation. (Same as LAW 514) Provides students with in-depth exposure to federal income taxation of corporations and shareholders. Areas explored are corporate formations, distributions, redemptions, liquidations, corporate income tax, accumulated earnings tax, personal holding company tax, and affiliated corporations. Prerequisite: ACCT 441 with C or better.

ACCT544 - Partnership Taxation 544-3 Partnership Taxation. (Same as LAW 515) Provides students with in-depth exposure to federal income taxation of partnerships, partners and related LLCs and owners. Areas explored are the definition of a partnership, acquisition of an interest, basis of interest, tax accounting for partnership, subchapter S, or LLC operation, distributions, termination, sale or exchange of interest, collapsible partnerships, death or retirement and tax shelters. Prerequisite: ACCT 441 with C or better.

ACCT545 - State and Local Taxation 545-3 State and Local Taxation. This course will focus on the legislative and judicial evolution of the present tax systems. Basic concepts of state and local taxation, such as jurisdiction, commerce clause restrictions, uniformity, apportionment and taxation of e-commerce, will be examined. One of the primary objectives of this class is to ensure that students are familiar with the myriad of U.S. Supreme Court decisions delineating the taxing authority of state and local government entities in relation to the commerce, due process, equal protection and supremacy clauses of the U.S. Constitution. Students will also learn to interpret and analyze complex court decisions. Restricted to enrollment in the M.Acc. or M.B.A. program.

ACCT546 - Estate & Gift Taxation 546-3 Estate and Gift Taxation. Provide basic principles of federal estate and gift taxation. Prerequisite: ACCT 441 with C or better.

ACCT547 - Tax Accounting 547-3 Tax Accounting Principles. Provides linkage of accounting skills with tax knowledge through identification of significant differences between tax and financial accounting and selection of tax accounting principles having a significant impact on cash flows. Tax accounting problems for industrial, wholesale and retail companies. Prerequisite: ACCT 441 with C or better.

ACCT548 - International Taxation 548-3 International and Interstate Taxation. Examination of tax issues when taxable events or transactions cross international or state borders. Use of transfer pricing for international taxation purposes. Specific international taxation problems of foreign persons, U.S. citizens living abroad, U.S. shareholders of foreign corporations and problems related to multinational corporations. Also will examine issues of nexus and other principles guiding state taxation of persons and businesses involved in interstate commerce. Prerequisite: ACCT 441 with C or better.

ACCT560 - IT Risk and Controls 560-3 Information Technology Risk and Controls. Explains how organizations govern their investment in IT through strategic alignment, risk assessment, and performance measurement. Describes processes for evaluating and monitoring the effectiveness of IT general controls related to processing operations, system security, and change management. Prerequisite: ACCT 360. Restriction: enrollment as a graduate student.

ACCT561 - Accounting Analytics 561-3 Analytics for Accounting Data. This course focuses on how managers and auditors can use information technology to (a) identify trends in business process performance, and (b) evaluate the veracity of financial information by analyzing patterns that manifest in accounting data. Restricted to enrollment in the M.Acc. or M.B.A program or with instructor approval.

ACCT562 - Governance, Risk & Control 562-3 Governance, Risk, and Control. Explains how management identifies and evaluates conditions that increase the risk of failing to achieve business objectives, and how organizations design and implement procedures to control business risk. Describes practices the board of directors rely on to govern enterprise risk management processes by monitoring and assessing the effectiveness of the organization's response to risk.

ACCT563 - Advanced Auditing 563-3 Advanced Auditing. Explains how auditors evaluate business risk, fraud risk, inherent risk, and control risk to assess the risk of misstatement in accounts while planning an audit engagement. Examines analytical procedures, the code of professional conduct, auditor reporting requirements, and auditor legal liability. Prerequisite: ACCT 460. Restriction: enrollment as a graduate student.

ACCT564 - Enterprise Systems 564-3 Enterprise Systems. Enterprise Systems (ERP systems) and technologies have become prevalent in many companies. This course will examine the technical overview of Enterprise Systems and their impact on organizations. The concepts, fundamentals and framework of the advanced systems will be explored to better understand the integration of Enterprise Systems in an organization. A better understanding of Enterprise Systems and its affect on an organization will be gained. Restricted to enrollment in the M.Acc. or M.B.A. programs.

ACCT565 - Advanced AIS 565-3 Advanced Accounting Information Systems. Advanced study in the systems that are used in companies especially database. Students will not be successful as auditors or internal accountants without database skills. The course would include advanced design issues, advanced query and data analysis skills (for internal and external purposes), db controls, db technology, etc. Prerequisite: ACCT 360.

ACCT566 - Accounting Research 566-3 Accounting Research. This course will provide research skills that are critical in Accounting. Students will identify a research topic, develop the research questions, conduct the research, and prepare a research document. The student will be exposed to how research is conducted and will develop the necessary skills to perform accounting research.

ACCT567 - Fraud Examination 567-3 Fraud Examination. Fraud examination will cover the principles and methodology of fraud detection and deterrence. The course includes such topics as skimming, cash larceny, check tampering, register disbursement schemes, billing schemes, payroll and expense reimbursement schemes, non-cash misappropriations, corruption, accounting principles and fraud, fraudulent financial statements, and interviewing witnesses.

ACCT568 - Forensic Accounting 568-3 Forensic and Investigative Accounting. Coverage includes: (1) investigative techniques and forensic accounting processes and tools used in the detection and prevention of fraud against a business entity; (2) definitions and descriptions of various fraudulent schemes; (3) litigation services provided by accountants including expert testimony; (4) methods of calculating losses and damages; and (5) basics of the use of computer aids in forensic investigation.

ACCT569 - Seminar-Audit/Systems 569-3 Seminar - Selected Audit/Systems Topics. Provides students with in-depth exposure to audit and/or accounting systems as it relates to selected topics. Topics will vary from semester depending upon instructor and topics of current interest to the accounting discipline.

ACCT571 - Govt & Non Profit Accounting 571-3 Governmental and Not for Profit Needs. Financial and managerial accounting concepts peculiar to the planning and administration of public and quasi-public organizations such as governmental units, institutions, and charitable organizations. Also includes the study of governmental auditing standards. Prerequisite: Accounting 321 with a grade of C or better.

ACCT575 - MAcc Capstone-CPA Review 575-1 to 3 MAcc Capstone-CPA Review. Capstone course covering financial accounting and reporting, IFRS, governmental accounting, not-for-profit accounting, auditing and attestation, business law, taxation, and business environment and concepts. Emphasis will be reinforcing the knowledge and critical thinking skills necessary for problem solving and communication in the accounting profession.

ACCT591 - Independent Study 591-1 to 6 Independent Study. Directed independent study in selected areas of accountancy. Restricted to enrollment in M.Acc. Program.

ACCT595 - Internship 595-3 Internship. Supervised work experience in professional accounting. Prerequisite: outstanding record in accounting and recommendation of the department committee on internship. Graded S/U only.

ACCT599 - Thesis 599-3 to 6 Thesis. Restricted to enrollment in M.Acc. Program.

ACCT601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Advanced Energy and Fuels Management

The Professional Science Master's (PSM) in Advanced Energy and Fuels Management is a 36-hour post-graduate degree that combines graduate-level technical training in energy resources and technology with opportunities for the development of workplace skills. This intensive program is designed to prepare graduates for leadership positions in the energy industry. The program includes nine (9) business-related credit hours, nine (9) science/technology-related credit hours, three (3) credit hours in energy policy

studies, nine (9) credit hours of graduate-level electives, and a six (6) credit hour capstone internship completed with an industrial partner.

Program Description

In the energy sector, increasing global energy demand coupled with a need to reduce the sector's environmental impact are driving unprecedented change. Industry leaders are discovering new ways to create energy from both alternative and traditional resources. At the same time, firms in the energy sector are developing and employing new technologies to reduce the environmental impact of existing energy resources, as well as to improve the manner in which energy and fuels are extracted, refined, generated, stored, and distributed. Rapid growth and change in the energy sector has created a strong demand for personnel in management and leadership roles who are trained in both the technical aspects of the energy industry and who also possess workplace skills. The overarching academic objective of the Professional Science Master's (PSM) in Advanced Energy and Fuels Management is to satisfy this need by providing high-quality professional training that ensures graduates have acquired the diverse skill set sought and demanded by industry.

The proposed course of study achieves this objective by providing core technical training in energy resources, energy production technology and energy policy issues coupled with business training in project and personnel management, business leadership skills and fiscal management. In addition to these core requirements, students participating in this program will have the opportunity to take nine (9) credit hours of electives to allow them to gain additional specialized graduate-level training related to their own specific interests and career goals.

The PSM program consists of a 36-hour curriculum structured in accord with the PSM model originally developed by the Sloan Foundation. The program is designed to be completed in one academic year (based on full-time study), with additional course work to be completed in the preceding summer semester and the capstone internship to be completed in the final summer semester. This intensive program is designed to minimize the time student's need to be away from full-time employment while also maintaining academic rigor.

This program provides the diverse skill set demanded by industry. It includes business, science/technology, and policy elements, broken down as follows:

- 9 Business-related credit hours
- 9 Science/Technology-related credit hours
- 3 Credit hours of energy policy studies
- 9 Credit hours of electives
- A capstone 6-credit hour internship in industry completed over the summer semester following completion of other requirements

The program is composed of the following courses. All specified courses are required (core) curriculum elements. A list of electives is included, but this list is not all inclusive.

Fall Semester (12 hours)

- ME 568 (3) Alternative Energy and Fuel Resources
- ME 446 (3) Energy Management
- IMAE 450 (3) Project Management
- BA 510 (3) Managerial Accounting & Control Concepts

Spring Semester (12 hours)

- GEOG 522 (3) Environmental and Energy Economics
- BA 540 (3) Managerial & Organizational Behavior
- Elective (3 hrs)
- Elective (3 hrs)

Summer Session (6 hours)

- AEFM 585 (6) Internship in Advanced Energy and Fuels Management

This internship requires the student to complete a specified project for the employer supporting the internship, the nature of which will be approved by PSM faculty in consultation with the employer prior to

the initiation of the project. The intern is required to submit both a written and oral project report, to both the employer and PSM faculty.

Fall Semester (6 hours)

- Elective (3 hrs)
- PHYS 450 (3 hrs)

Program Admission and Graduate Requirements

An admission committee, composed of the program director and members of the faculty advisory board, will oversee admission of candidates to the program. Preferred candidates are individuals who hold a baccalaureate degree in natural sciences, physical sciences or engineering. Candidates not holding an appropriate baccalaureate degree may be required to complete necessary prerequisite courses prior to admission to the program. Catalog course descriptions for elective courses indicate the nature of any prerequisites or consent of instructor. Academic exceptions may be granted in specific circumstances for individuals with extensive professional experience or other background that, in the opinion of the admissions committee, qualifies the candidate for admission.

- SIU's graduate school admission requirements are available at: gradschool.siu.edu/apply/.
- Graduation requirements are successful completion of all course work and the capstone internship, with an overall GPA \geq 3.0.
- SIU's graduate school graduation requirements are available at: gradschool.siu.edu/current-students/graduation.php.

Africana Studies

There is no approved graduate program in Africana Studies. Four-hundred-level courses may be taken for graduate credit unless otherwise indicated in the course description.

Africana Studies Courses

AFR410H - African Expressive Culture 410H-3 African Expressive Culture. (Same as ANTH 410H)

This course examines aspects of African expressive culture including the visual arts, music, dance, orature, cinema, drama, and ceremony from an anthropological perspective. Particular attention is given to analysis of African expressive culture in social context and the role of the arts in the practice of politics, religion, medicine, and other aspects of African life. Many of the expressive genres examined deal with historical representation and political resistance. Therefore, this course provides insights into African history and politics through the creation of African artists.

AFR416 - Black Feminist Thought 416-3 Black Feminist Thought as Theory and Praxis. (Same as CMST 416 and WGSS 416) Explore the roots, contemporary manifestations, and current embodiments of Black feminist thought. Explore the works of Black women to engage in critical thinking and thoughtful dialogue that positions the valuable knowledge, experiences and perspectives of women of color at the center of inquiry while simultaneously discovering spaces for multicultural alliances.

AFR420 - Themes in Africana Drama 420-3 Themes in Africana Drama. (Same as THEA 460) Explores significant themes in African and African American drama, with special attention to performance styles and cultural issues.

AFR447 - Comm Race and Ethnicity 447-3 Communicating Race and Ethnicity. (Same as CMST 447)

Via intercultural theories and methods, this course explores histories, relationships, interactions and recent events by positioning racial and ethnic perspectives at the center of inquiry. The course critically examines the complexities of race, racism and ethnicity by focusing on how people communicate across racial and ethnic differences in different contexts.

AFR452A - Uppity Women's Blues 452A-3 Traditions of Uppity Women's Blues. (Same as MUS 452A, WGSS 452A) Examines the tradition of "uppity" women's blues from the so-called "classic" blues singers of the 19th century (Gertrude "Ma" Rainey, Bessie Smith, Ida Cox, etc.) to the contemporary blues of Saffire, Denise LaSalle and others. Explores ways blues women challenge conventions of gender and sexuality, racism, sexism, classism, and homophobia. Restricted to junior/senior/graduate music major or consent of instructor.

AFR452B - Blues-BW Piano Styles 452B-3 Blues and Boogie Woogie Piano Styles. (Same as MUS 452B) Traces the history, culture, and stylistic developments of blues and boogie woogie piano. Explores socio-cultural contexts and examines key players, pieces, and musical styles. Restricted to junior/senior/graduate music major or consent of instructor.

AFR458 - Bantu Diasporas 458-3 Bantu Diasporas in Africa & the Atlantic World. (Same as HIST 458)

This course examines the origins and development of Bantu language and culture groups in Africa and the Atlantic World from the first dispersal of Bantu-speaking people thousands of years ago through the end of slavery in the Americas. Additionally, the course explores the multiple methods and disciplines used to construct histories of Bantu language and culture groups.

AFR460 - Slavery & The Old South 460-3 Slavery and The Old South. (Same as HIST 460) This course examines slavery and southern distinctiveness from the colonial period to 1861. Discussion topics include the plantation system, race relations, women and slavery, and southern nationalism.

AFR461 - Black Ams on Western Frontier 461-3 Black Americans on the Western Frontier. (Same as HIST 461) This course examines the history of African Americans in the American West. Taking both

a chronological and thematic approach, it begins with a discussion of early black explores in the age of encounter, and ends with a focus on black western towns established in the United States by the 1880's.

AFR465 - Govt & Politics Sub-Sahara Afr 465-3 Governments and Politics of Sub-Saharan Africa. An examination of the impact of western colonial rule on the societies and politics of Africa, the method by which these colonial areas became sovereign states in the post-World War II era, the role of domestic political institutions, African political thought and behavior, and the development of foreign policies regarding relations with other African states, continental and international organizations, and international organizations, and non-African states.

AFR472 - Psychology of Race and Racism 472-3 Psychology of Race and Racism. (Same as PSYC 470) A review of the history and evolution of the construct of race as a psychological phenomenon. The persuasiveness of race in every sphere of life will be studied, from a multidisciplinary perspective.

AFR473 - Comparative Slavery 473-3 Comparative Slavery. (Same as HIST 473) A comparative study of slavery from antiquity to its abolition in the 19th century with the differing socio-cultural, political and economic contexts; organized chronologically, regionally, and thematically.

AFR475 - Education & Black America 475-3 Education and Black America. This course uses the best scholarship of cultural anthropology and social studies to look at the history of education in the African American community; how public education affects African American families; how school shape cultural change and how racial, ethnic peer group, and gender issues help determine curriculum issues. For graduate credit.

AFR478 - Southern Africa, 1650-1994 478-3 Southern Africa, 1650-1994. (Same as HIST 478) An examination of Southern African history with emphasis on South Africa from 1652 to 1994. Topics to be covered include conflicts and wars, migrations and state formations, the economics of minerals, industrialization and the Anglo-Boer War, intertwined histories of race relations, the politics of exclusion and apartheid, and the making of modern South Africa.

AFR491 - Indep Reads Africana Studies 491-3 to 6 Independent Readings in Africana Studies. Special topics, focused on research needs of students who are regularly enrolled in upper-division courses, especially graduate students doing research in Africana related topics in other departments and programs. May be repeated for up to six credit hours. Special approval needed from the director of the AFR program.

AFR494 - Methodology Seminar 494-3 Methodology Seminar in Africana Studies. This course provides the theoretical framework for research in the field of Africana Studies. Students will investigate the foundations of the field of Black Studies, from the arguments of Maulana Karenga and Molefi Asante, to the challenges of scholars such as Manning Marable, James Turner and other recent scholars. Students will pursue individual research projects appropriate to various academic disciplines which constitute the field of Africana Studies. May be taken for graduate credit.

AFR495 - African Cultural Continuities 495-3 to 9 African Cultural Continuities: Study Abroad. Study abroad 4-6 week program is designed to introduce similarities in culture (food, dance, music, family traditions, religion) of people in Ghana and in the cultures of people in the African diaspora. Class begins on the SIUC campus and will relocate to Elmina and Cape Coast, Ghana, during the first year of a three-year sequence. Other years will locate in areas of the West Indies, Caribbean & Central America. May be taken for graduate credit. Special approval needed from the instructor.

AFR496 - Slave Narratives 496-3 Slave Narratives. Using compilations of the 19th and early 20th century body of work known as "Slave Narratives", students will organize research projects that discover selected major themes of Africana Studies. The course will be useful to students from various academic disciplines (such as Psychology; Music; Sociology; History; Philosophy; Education; Literature; and Theology, among others) as they place Slave Narratives in the center of Africana and American Studies scholarship. May be taken for graduate credit.

AFR497 - Civil Rights Movement 497-3 The U.S. Civil Rights Movement. (Same as HIST 487) This course provides an overview of the history of the Civil Rights Movement while engaging major debates in the field of Black Freedom Studies. Central themes will include the impact of the Cold War, the roles of women, and the relationship of civil rights to black power. We will also discuss the difference between

popular memory and historical scholarship as well as the meaning of such discussions for contemporary issues of racial and economic justice.

AFR499 - Special Tpcs Africana Studies 499-3 to 9 (3 per topic) Special Topics in Africana Studies. Topics vary and are announced in advance. May be repeated as the topic varies. No prerequisites.

AFR499A - Hist African Amer Philosophy 499A-3 History of African American Philosophy. (Same as PHIL 451) A survey of major thinkers and themes in the history of African American Philosophy from colonial times to the 20th century.

AFR499B - Philosophy of Race 499B-3 Philosophy of Race. (Same as PHIL 455) A survey of critical examination of a range of theories on the nature and meaning of "race", the intersection of race with class and gender, and the promotion of racial progress. Such theories include racial realism and idealism, racial biologism, cultural race theory, social constructivist theory, integrationism, separatism, racial eliminativism, cosmopolotianism, and especially critical race theory.

AFR499C - Topics Africana Philosophy 499C-1 to 6 Topics in Africana Philosophy. (Same as PHIL 459) A seminar on varying topics, themes, and figures in African, African American, and/or Caribbean Philosophy, e.g., "W.E.B. Du Bois and His Contemporaries," "Pan Africanism," "Philosophies of Liberation," "Black Feminism," " Contemporary African Philosophy," "Philosophies of the Caribbean."

Africana Studies Faculty

Brown, Joseph A., Professor, Ph.D., Yale University, 1984; 1997.

Chipasula, Frank M., Professor, Ph.D., Black American Studies, English, Brown University, 1987; 2005.

Gadzekpo, Leo K., Associate Professor and *Interim Chair*, Ph.D., M.F.A., American Cultural Studies, Bowling Green University, 1997; 1998.

Agribusiness Economics

The School of Agricultural Sciences offers a Master of Science degree in Agribusiness Economics. A program of concurrent study leading to the award of two master's degrees, the Master of Business Administration and Master of Science in Agribusiness Economics can be undertaken. An interdisciplinary degree at the Master of Science level may be achieved by completing requirements as a double degree major.

Graduate students with a minimum undergraduate grade point average of 2.7 (4.0 scale) and demonstrated competence in economics, statistics, mathematics, and agricultural economics are admitted unconditionally to the ABE Master of Science degree programs. Students with insufficient background may be admitted contingent upon demonstration of satisfactory completion of undergraduate courses in deficient areas.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Agribusiness Economics. Applicants must pay this fee by credit card, (inquiries should be directed to the Agribusiness Economics program, Ag Building, Room 226, Mail Code 4410, 1205 Lincoln Drive, Southern Illinois University Carbondale, Carbondale, IL 62901-4410).

Agribusiness Economics Concentration

Through selected coursework and research students may focus in resource and environmental economics, economic and rural development, agribusiness management and finance, agricultural marketing and prices, farm production management, or international trade and agricultural policy.

The Master of Science in Agribusiness Economics with a concentration in agribusiness economics is awarded upon completion of required coursework with a minimum graduate grade point average of 3.0 (4.0 scale) in either of two options; a thesis or a non-thesis (research paper) option. For both options at least fifteen hours must be at the 500 level.

The thesis option requires satisfactory completion of thirty hours of graduate credit. This includes nine hours in structured agribusiness economics courses; ABE 500, ABE 571, and ABE 572. Fifteen hours of elective graduate credit are selected based upon recommendation from the agribusiness faculty member directing the student's thesis work. A research component including six hours of ABE 599 and an oral examination is required. This option is preferred for individuals with Ph.D. aspirations at SIU or other institutions.

The non-thesis option requires satisfactory completion of 30 hours of graduate credit. This includes nine hours in structured agribusiness economics courses; ABE 500, ABE 571, and ABE 572. Twenty-one hours of elective graduate credit are selected based upon recommendation from the agribusiness faculty member acting as the student's research paper advisor. Six of these hours must be at the 500 level, including a research component of three hours of ABE 593 and an oral presentation of the student's research paper. This option is preferred for individuals seeking a career in the public sector or with private industry. With proper course selection and timely research component development a student could complete the non-thesis option in one year's time.

Agricultural Services Concentration

The agricultural services concentration is designed to permit individuals who are professionals in private industry or public service to earn a Master of Science degree in Agribusiness Economics while remaining fully employed in the agricultural sector.

Other individuals may be admitted after request and consideration by the ABE graduate committee and approval of the graduate director.

The agricultural services concentration requires satisfactory completion of thirty hours of graduate credit. 15 hours must be at the 500 level and 15 hours must be in Agribusiness Economics or related disciplines, of which three hours must be ABE 593, where a student-initiated research paper or special project will be completed under the direction of a faculty advisor.

Accelerated (4 year+1) Joint B.S. - M.S. Degree

The "4 year +1" program allows motivated and high achieving students to complete a program leading to an undergraduate Bachelor of Science degree and a Master of Science degree in Agribusiness Economics in five years. As early as sophomore year, junior year for transfer students, a student working with a faculty advisor will develop a program of study consistent with the student's interest and goals. To complete this five-year plan 141 credit hours is required. Nine credit hours are double counted toward an undergraduate and a Master's degree. 21 hours are taken after undergraduate graduation.

The option requires satisfactory completion of nine hours in structured agribusiness economics courses: ABE 500, ABE 571 (or ABE 471 if taken at the undergraduate level), and ABE 572 (or ABE 472). 21 hours of elective graduate credit, which may include ABE credit hours at the 400-level taken as an undergraduate, are selected based upon recommendation of a faculty advisor. Six of these hours must be at the 500-level. As with the traditional ABE Master's program, ABE 593, Individual Research, is required as students complete a research project during the fifth year of study. It is expected that working with a faculty advisor the student will begin development of the research project during the undergraduate senior year. A service component, ABE 591, taken during the fifth year, entails working in an unpaid research assistantship capacity, or upon petition to the graduate director, an unpaid research assistant.

This option is preferred for individuals that recognize the value in an advanced degree as the degree may lead to higher entry positions in their chosen career path, more responsibilities, and greater life-long earning potential. An associate benefit of the "4 year +1" program to students that have advanced degree aspirations is the ability to save money by completing their studies quicker.

M.B.A./M.S. in Agribusiness Economics Concurrent Degree Program

The School of Agricultural Sciences and the College of Business offer a concurrent degree program leading to both the Master of Business Administration and the Master of Science in Agribusiness Economics. The separate M.B.A. degree requires completion of 32 semester hours of coursework;

the M.S. with a major in ABE requires the completion of 30 semester hours (thesis option) or 30 hours (non-thesis option). In the concurrent M.B.A./M.S. degree program, the College of Business accepts six semester hours of ABE approved coursework, and ABE accepts six semester hours of College of Business approved coursework. The end result is that the concurrent degree requires completion of 26 semester hours of College of Business approved courses and 24 semester hours of ABE approved courses (thesis option) or 30 semester hours of ABE approved courses including a minimum of six semester hours of ABE courses at the 400 level (non-thesis option), or a decrease of 12 semester hours from pursuing both degrees separately.

The ABE M.S. as a part of this option requires satisfactory completion of ABE 500, ABE 571, ABE 572, and additional elective hours. A research component of a thesis (thesis option) or research paper (non-thesis option) as specified for the agribusiness economics concentration must be completed for award of the ABE M.S. degree.

Students interested in enrolling in the concurrent M.B.A./ABE M.S. degree program must apply to and be accepted by both the graduate programs in the ABE Department and the College of Business. The student then may request permission to pursue the concurrent degree. Students enrolled in either the M.B.A. or ABE M.S. may subsequently seek permission to pursue the concurrent degree. Admission to the concurrent degree must be completed at least one semester before the last semester of registration at SIU. The student must complete the requirements of the concurrent degree program to receive both the M.B.A. and ABE M.S. If the student elects, after acceptance into the concurrent degree program, to pursue either, but not both, the M.B.A. or ABE M.S., all requirements of the individual degree program must be satisfied.

Agribusiness Economics Courses

ABE401 - Agricultural Law 401-3 Agricultural Law. Relations of common-law principles and statutory law to land tenure, farm tenancy, farm labor, farm management, taxation, and other problems involving agriculture. Restricted to junior standing or consent of instructor.

ABE402 - Problems in Agribusiness Econ 402-1 to 6 Problems in Agribusiness Economics. Designed to improve the techniques of agribusiness economics workers through discussion, assignment, and special workshops on problems related to their field. Emphasis will be placed on new innovative and currently developed techniques for the field. Special approval needed from the chair.

ABE405 - Mgmt of Ethanol Facilities 405-3 Management of Ethanol Production Facilities. This course is offered in cooperation with the National Corn-to-Ethanol Laboratory and provides a comprehensive introduction to the management and operation of an ethanol facility as well as overview of today's biofuels industry. Topics include: ethanol industry trends and bio-fuels future, corn-to-ethanol production processes, operations control and management, products and co-products, and environmental topics.

ABE419 - Entrepreneurship Agribusiness 419-3 Entrepreneurship in Agribusiness. Students will understand the importance of entrepreneurs to the food, agriculture, and rural economies; learn characteristics common to successful entrepreneurs; prepare a business plan; use information resources to support a business plan; and become proficient in developing professional reports using information technology software. Prerequisite: ABE 350 or 351 or 360.

ABE440 - Natural Environ Res Econ Plcy 440-3 Natural and Environmental Resource Economics and Policy. Students will study the application of socioeconomic principles to problems related to natural and environmental resources. The course covers the policy context within which policies related to natural and environmental resources are developed and implemented as well as the range of policy tools available for addressing environmental/natural resource problems. The institutional setting for dealing with natural and environmental resources is presented along with the role of property rights and entitlements. Contemporary resource problems are used as examples. Prerequisite: six hours of agribusiness economics, economics, or geography; graduate status; or consent of instructor.

ABE442 - Energy Econ and Policy 442-3 Energy Economics and Policy. Economics principles and methods are used to examine economic and policy issues relevant to energy production and use. Topics include: key aspects of energy supply, demand, markets, and regulation; environmental externalities of

fuel production and use; the relationships among energy use, economic growth and the environment; alternative energy sources. Prerequisite: 6 hours of agribusiness or general economics, geography, or consent of instructor.

ABE444 - Agricultural Development 444-3 Agricultural Development. (Same as ABE 544) Students are introduced to economic growth and development theory at an intermediate level. Topics include trends in development in North America and study of theories. The economic theories covered address how growth occurs in developed economies including classical and neoclassical, central place and endogenous growth theories among others. Prerequisite: 6 hours of agribusiness or general economics, geography, or consent of instructor.

ABE445 - Methods Regional Econ Analysis 445-3 Methods of Regional Economic Analysis. (Same as ABE 545) Students are introduced to regional economic methods at an intermediate level. Students will learn concepts and tools commonly used in regional and community economic analysis. Students will learn to use regional input-output analysis and more technical regional economic models designed to capture spatial economic variables. Prerequisite: ABE 444 or consent of instructor.

ABE450 - Advanced Farm Management 450-3 Advanced Farm Management. Application of production economic principles and modern decision-making techniques to farm management problems. The importance of information, sources of agricultural risk and management of risk in farm planning will be integrated. Prerequisite: ABE 350 or equivalent and University Core Curriculum mathematics required.

ABE451 - Appraisal of Rural Property 451-3 Appraisal of Rural Property. Principles and practices of rural and farm appraisal. Applications of sales comparison, income capitalization and cost approaches for estimating market value. Consequences of environmental liabilities and regulations on appraisal practices. Understanding of special valuation methods for buildings, insurance, assessments, loans and condemnations. Prerequisite: ABE 350 or consent of instructor. Field trips not to exceed \$10.

ABE452 - Advanced Financial Management 452-3 Advanced Financial Management in Agriculture. Advanced topics on small agricultural business management accounting practices and financial management are taught to gain knowledge on advanced financial record keeping and financial business management. Financial statements are analyzed with an emphasis on managerial accounting. This is a three credit-hour course taught on a 50-minute lecture format on three days each week. In addition, students would learn advanced record keeping in Quickbooks, an accounting software installed in the labs. Prerequisite: ABE 351 with a grade of C or better.

ABE453 - Agribusiness Planning Technqs 453-3 Agribusiness Planning Techniques. Application of mathematical programming to agribusiness and farm planning, including enterprise selection, resource allocation, least cost ration formulation, decision making under risk and uncertainty, transportation and location problems. Emphasis placed on modeling problems and interpretation of results. Restricted to junior standing or consent of instructor.

ABE460 - Ag Price Analysis & Forecstng 460-3 Agricultural Price Analysis and Forecasting. The focus is on the measurement and interpretation of factors affecting agricultural prices. Methods to analyze the seasonal, cyclical, and trend components of commodity prices are presented. Formal forecasting techniques, including an introduction to statistical and regression methods, are used and explained. Emphasis is placed on the presentation, communication, and evaluation of forecasts in a business environment. Students are given an opportunity to perform applied price analysis and present the results. Prerequisite: ABE 318, 362 or equivalent.

ABE461 - Agribusiness Management 461-3 Agriculture Business Management. Examination of agribusiness firm management with emphasis on the management and control of financial resources and the interrelationship between the agribusiness firm and human resource management. Other topics in agribusiness will include effective communication in the management process, business ethics, and workable credit programs for customers. Prerequisite: ABE 351 and 360 or equivalent.

ABE462 - Advncd Agriculture Marketing 462-3 Advanced Agricultural Marketing. Advanced treatment of marketing issues from both theoretical and practical decision-making perspectives. Marketing margins, intertemporal, and spatial price relationships are reviewed in detail. Historical and current grain and livestock price series are utilized in decision-making exercises. Prerequisite: ABE 362 or equivalent.

ABE463 - Managerial Strategies Agbus 463-3 Managerial Strategies for Agribusiness. Application of Industrial Organization and Strategic Management (Competitive Strategy) principles to address economic and managerial issues related to agriculture and food industries. Particular emphasis on applying those principles to explain structural changes taking place in the agriculture and food supply chain in the United States. Prerequisite: ABE 204, 350 or 360, ECON 240.

ABE471 - Resource Allocation 471-3 Resource Allocation in the Agribusiness Firm. An examination of resource allocation in the agribusiness firm. Production decisions, agricultural product price analysis and decision making models are considered. Student cannot receive credit for ABE 471 if credit has been received for ABE 571. Prerequisite: six hours of agricultural economics or economics. Special approval needed from the instructor.

ABE472 - Problems and Policies 472-3 Problems and Policies of the Agricultural Sector. An analytical survey of agricultural policy issues including agricultural price and income stabilization; international trade, capital and credit, the structure of agriculture and the quality of life in rural areas. Student cannot receive credit for ABE 472 if credit has been received for ABE 572. Prerequisite: six hours of agricultural economics or economics or instructor approval.

ABE500 - Research Methodology 500-3 Agribusiness Economics Research Methodology. Research methodology as used in agriculture, including research problem definition, hypothesis formation, research design specification and development of research proposals. Both survey methodology and applied techniques, i.e. multiple regression and time series models, for developing and evaluating agricultural economic models are investigated.

ABE502 - Environmental Decision Making 502-3 Environmental Decision Making. (Same as ERP 502) The objective of the course is twofold. The first part of the class will be devoted to case studies of environmental decision making which use a variety of approaches to environmental policy. Topics to be covered include market-based environmental management versus regulatory approaches, climate change, conservation and floodplain management policy. The second part of the class will focus on the challenges of interdisciplinary communication and collaboration, methodological research issues and the role of integrated modeling. We will consider different issues such as qualitative and quantitative evidence, validation, and the role of values and objectivity in the scientific process.

ABE544 - Agricultural Development 544-3 Agricultural Development. (Same as ABE 444) Students are introduced to economic growth and development theory at an intermediate level. Topics include trends in development in North America and study of theories. The economic theories covered address how growth occurs in developed economies including classical and neoclassical, central place and endogenous growth theories among others. Prerequisites: 6 hours of agribusiness or general economics, geography, or consent of instructor.

ABE545 - Methods Regional Econ Analysis 545-3 Methods of Regional Economic Analysis. (Same as ABE 445) Students are introduced to regional economic methods at an intermediate level. Students will learn concepts and tools commonly used in regional and community economic analysis. Students will learn to use regional input-output analysis and more technical regional economic models designed to capture spatial economic variables. Prerequisite: ABE 444 or consent of instructor.

ABE553 - Advanced Financial Mgmt 553-3 Advanced Financial Management in Agriculture. Advanced topics on small agricultural business management accounting practices and financial management are taught to gain knowledge on advanced financial record keeping and financial business management. Financial statements are analyzed with an emphasis on managerial accounting. This is a three credit-hour course taught on a 50-minute lecture format on three days each week. In addition, students would learn advanced record keeping in Quickbooks, an accounting software installed in the labs. Prerequisite: ABE 351 with a grade of C or better.

ABE571 - Resource Allocation 571-3 Resource Allocation in the Agribusiness Firm. An examination of resource allocation in the agribusiness firm. Production decisions, agricultural product price analysis and decision making models are considered. Student cannot receive credit for ABE 571 if credit has been received for ABE 471. Prerequisite: six hours of agricultural economics or economics. Special approval needed from the instructor.

ABE572 - Problems and Policies 572-3 Problems and Policies of the Agricultural Sector. An analytical survey of agricultural policy issues including agricultural price and income stabilization; international trade, capital and credit, the structure of agriculture and the quality of life in rural areas. Student cannot receive credit for ABE 572 if credit has been received for ABE 472. Prerequisite: six hours of agricultural economics or economics. Special approval needed from the instructor.

ABE581 - Seminar-Agribusiness 581-1 to 4 Seminar in Agribusiness Economics. Seminar on current research and issues in agribusiness economics on topics such as farm management, farm policy, agricultural marketing, farm finance, agricultural prices and international agriculture.

ABE585 - Practicum/Internship 585-1 to 6 Practicum/Internship. Supervised work experience at the graduate level with a public or private agency or firm through which a graduate student can acquire practical professional training to complement their academic course work and research.

ABE588 - International Grad Studies 588-1 to 8 International Graduate Studies. University residential graduate study program abroad. Prior approval by the department is required both for the nature of program and the number of semester hours of credit.

ABE590 - Readings 590-1 to 4 Readings. Readings in specialized topics under the direction of an approved graduate faculty member. Graded S/U only.

ABE591 - Experiential Learning 591-3 Experiential Learning. A research/teaching experiential learning course designed to allow the student to gain practical research development, classroom management and/or mentoring experience under the guidance of an assigned faculty member. A typical experience may include such activities as assisting a faculty member with class project design and management, assisting in research proposal development, or participating as a mentor in the College of Agricultural Sciences 121 (Ideas to Investigation) initiative.

ABE593 - Individual Research 593-3 Individual Research. Directed research in selected topics under the supervision of an approved graduate faculty member. Graded S/U only.

ABE599 - Thesis 599-1 to 6 Thesis. Work in the research for and presentation of a thesis under the supervision of an approved faculty member. Graded S/U only.

ABE601 - Continuing Enrollment 601-1 (per semester) Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Eberle, Phillip R., Associate Professor, *Emeritus*, Ph.D., Iowa State University, 1983; 1983.

Harris, Kim S., Associate Professor, *Emeritus*, Ph.D., University of Illinois, 1985; 1984.

Herr, William M., Professor, *Emeritus*, Ph.D., Cornell University, 1954; 1957.

Kraft, Steven E., Professor, *Emeritus*, Ph.D., Cornell University, 1976; 1980.

Moon, Wanki, Professor, Ph.D., University of Florida, 1995; 2000.

Rendleman, C. Matthew, Professor, Ph.D., Purdue University, 1989; 1994.

Sanders, Dwight R., Professor, Ph.D., University of Illinois, 1999; 2000.

Agricultural Sciences

The School of Agricultural Sciences offers a graduate program leading to the Doctor of Philosophy degree. This degree is designed to provide students with an interdisciplinary doctoral education in the physical, biological and social sciences that enhances, regulates and sustains agriculture, food and forestry producers, industries and agencies. This degree will prepare Ph.D. graduates to teach and conduct research and outreach at universities and community colleges, and for careers in the corporate, private and government sectors.

Admission

All applications to the program must include a Graduate School on-line Application available at gradschool.siu.edu, a statement of interest, college transcripts, three letters of recommendation, GRE scores including verbal and quantitative, and may include a financial assistance form. In addition, this Program requires a non-refundable \$65 application fee. Criteria for admission include: an official transcript, letters of recommendation, grade point average (must meet the SIU Graduate School minimum 3.25 GPA in graduate work), and GRE scores. The Graduate Committee of the School of Agricultural Sciences must approve admission to the Ph.D. in Agricultural Sciences program. Ph.D. students will be selected on a national and international competitive basis.

Students may be admitted to the doctoral program with a Bachelor's, a Master of Science or a Master of Arts degree in Agriculture, a discipline within the SIU College of Agricultural Sciences, or a closely related field (such as Biology, Botany, Natural Science, Rural Sociology, Economics, or Environmental Science). Upon nomination of the master's committee and upon approval by the College of Agricultural Sciences doctoral program committee, exceptional M.S. students may be allowed accelerated entry to the Ph.D.

Students admitted under direct or accelerated entry to the Ph.D. program are subject to all existing requirements for the doctoral degree; the admission/advisory committee for the student may add extra requirements based on the student's background.

Doctor of Philosophy Degree Program

Each doctoral student in the School of Agricultural Sciences must successfully complete a common core of research methodology courses, including a two-semester sequence of graduate level statistics courses for four to five credit hours each, followed by a three to four credit hour graduate level experimental design course. Students also will be required to take a three-credit course in Research and Teaching Communications, two semesters of graduate seminar, and 24 hours of dissertation credits. There will be an additional minimum of 20 hours of structured courses appropriate for each student's area of emphasis. The student's graduate advisory committee must approve these courses. Emphasis areas include: Agricultural Economics, Agricultural Systems Technology, Agricultural Education, Animal Science, Crop Science and Environmental Management, Food and Nutrition, Forestry, and Horticulture.

All Ph.D. students in the program will be required to teach or assist in teaching at least two courses within the College of Agricultural Sciences while in the program. This requirement is regardless of the form of stipend of the student, i.e. if a student is on a research assistantship throughout their tenure in the program, they will still be required to teach or assist in teaching courses.

There is no minimal credit-hour requirement beyond the core, the area of emphasis, and the Graduate School's residency and dissertation requirements. A student in consultation with their major professor will prepare a program of study, including courses in the student's area of emphasis, by the end of the second semester of residency. This plan of study, when approved by the student's advisory committee, will be filed with the Director of Graduate Studies for the School.

Ph.D. Candidacy

By the end of the second semester in residence, students must have chosen an area of emphasis and formed a graduate advisory committee to approve their coursework and oversee their dissertation research. The graduate advisory committee will consist of at least five graduate faculty members, with the majority from within the School of Agricultural Sciences and no more than three members from one

department. The committee chair will be the student's major professor and must be a member of the School of Agricultural Sciences faculty.

To be admitted to candidacy, the student must have completed the Graduate School's 24-credit hour residency requirement within four calendar years, plus the core and emphasis area coursework that was approved by their graduate advisory committee. This should take the student three to four semesters, depending on whether they had any graduate-level research methodology courses during their Master's degree. At this time, they will take both written and oral preliminary examinations designed and administered by the student's graduate advisory committee. These exams will each have two parts. One will focus on the student's knowledge of the research methodology core and the second part will focus on the student's chosen area of emphasis. If the preliminary examinations are not passed, a student must wait a minimum of three months for the second and final attempt to pass the exam.

After passing the written and oral preliminary exams and with an approved dissertation proposal, the student will be admitted to candidacy. The Graduate School requires that Ph.D. students fulfill all degree requirements within five years of admission to candidacy or they may have to retake their preliminary exams.

Dissertation and Dissertation Examination

By the beginning of the fifth semester of residence, the students will present to their graduate committee a dissertation research proposal. The student's committee must approve the proposal by the end of their fifth semester of residence. At this time, students must present their dissertation proposal verbally in the form of a graduate seminar. All faculty members in the College of Agricultural Sciences, the student's graduate advisory committee, all other graduate students in the College, and appropriate individuals from industry groups in southern Illinois will be invited to these seminars. Following the seminar, the student will meet with their graduate advisory committee and will be asked to defend the substance and methods of the proposed research.

The student's graduate advisory committee will monitor the student's progress on the dissertation. When the dissertation is completed to the satisfaction of the graduate advisory committee, the committee will administer a final oral exam that will focus on defense of the dissertation. When the dissertation and final oral exam are successfully completed, the student will be recommended to the Graduate School for the doctoral degree.

Agricultural Sciences Courses

AGSC550 - Research Teaching Comm 550-3 Research and Teaching Communications. This course is designed to teach graduate students how to communicate successfully their proposed and completed research and to teach college-level courses in the Agricultural Sciences.

AGSC581 - Seminar 581-1-4 (1,1,1) Seminar. Oral presentations by individual graduate students. Each Ph.D. student in Agricultural Sciences is required to present their proposed dissertation research project as a seminar and the findings of their dissertation as a seminar. All Agricultural Science Ph.D. students must register for at least two credits of seminar.

AGSC582A - Colloquium-Biological Sciences 582A-1-3 Colloquium in Agricultural Science-Biological Sciences. Recent developments in Agricultural Sciences will be discussed in a classroom setting.

AGSC582B - Colloquium-Social Sciences 582B-1-3 Colloquium in Agricultural Science-Social Sciences. Recent developments in Agricultural Sciences will be discussed in a classroom setting.

AGSC582C - Colloquium-Physical Sciences 582C-1-3 Colloquium in Agricultural Science-Physical Sciences. Recent developments in Agricultural Sciences will be discussed in a classroom setting.

AGSC590 - Readings 590-1-4 Graduate Readings in Agricultural Science. Journal articles, chapters and books relevant to a Ph.D. student's research will be read and discussed with their major professor.

AGSC591 - Individual Research 591-1-4 Individual Research in Agricultural Science. Directed research in approved specialized topic areas in Agricultural Sciences.

AGSC592 - Special Problems 592-1-4 Special Problems in Agricultural Science. Directed study of specialized areas of Agricultural Science, depending on the program of the student.

AGSC595 - Instruction in Ag Sciences 595-1 to 6 Instruction in Agricultural Sciences. Acquaints the student with different teaching environments and styles. Students will be expected to participate in instruction of agricultural sciences courses. Special approved needed by the instructor.

AGSC600 - Dissertation 600-1-36 (1 to 12 per semester) Dissertation. This course is to be taken during the research and writing of the dissertation. A minimum of 24 hours must be earned for the Doctor of Philosophy degree.

AGSC601 - Continuing Enrollment 601-1 Continuing Enrollment. For those Doctoral students who have not finished their degree programs and who are in the process of working on their dissertation. The student must have completed a minimum of 24 hours of dissertation research before being eligible to register for this course. Concurrent enrollment in any course is not permitted.

Animal Science

The School of Agricultural Sciences offers programs of study leading to the Master of Science degree in Animal Science. Programs may be designed either as thesis or non-thesis in the various disciplines of nutrition, reproductive physiology, biotechnology and/or growth and development with emphasis on beef cattle, dairy cattle, horses, swine, fish or humans. Other animal or cell culture systems are sometimes used as research models.

Admission to programs administered by the School of Agricultural Sciences must be approved by the Graduate Programs Committee. Application forms are available online at gradschool.siu.edu/applygrad. Applicants must have the registrar of each college previously attended send official transcripts directly to the Department of Animal Science, Food and Nutrition.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Animal Science, Food and Nutrition. Applicants pay this fee by credit card.

Requirements

Minimum requirements for students entering the master's degree program are:

1. a bachelor's degree in Animal Science, Dairy Science, Biological Sciences, or related field
2. a minimum 3.0 cumulative undergraduate G.P.A. (A = 4.0)
3. 300 cumulative score; 3.0 analytical writing score on the Graduate Record Exam (GRE)
4. Statement of Research Interests
5. three letters of recommendation (at least two from undergraduate professors)
6. TOEFL exam for international students. Students can be admitted with a G.P.A. under 3.0 or for a GRE deficiency on a conditional basis and must enroll in a minimum of seven hours of structured courses at the 400-500 level during their first semester and achieve a *B* or better in each course or be dropped from the program. Undergraduate courses cannot be given graduate credit.

Minimum requirements for the master's degree may be fulfilled by satisfactory completion of 35 semester hours of graduate credit, with a minimum of 20 hours inside animal science, at least eight hours outside the College of Agriculture Sciences, and a minimum of 50% of coursework must be 500-level graduate courses. A maximum of two animal production related courses (ANS 409, ANS 430, ANS 465, ANS 485) may be counted for graduate credit in the thesis option. Additional University requirements are stated in the SIU Graduate Catalog. Specific required course work includes:

1. Two semesters of ANS 581 (Seminar)
2. Two semesters of graduate-level statistics
3. A minimum of one semester of upper-level biochemistry
4. Six credit hours of ANS 595

Each student, whether in the thesis or non-thesis option, will be mentored by a member of the Animal Science, faculty designated as the major professor. The major professor will serve as the research mentor and academic advisor. A graduate advisory committee will be selected with consultation of the major professor. The committee will consist of no fewer than three graduate faculty members. Two members of the committee must be from the Animal Science faculty, and one of the members of the committee must be from outside the program. The major professor will chair the student's graduate committee.

All candidates in the thesis option are required to conduct original research. All candidates in the non-thesis option cannot take ANS 599 (Thesis) for graduate credit. All students are encouraged to participate in research within the department to provide a broader experience. Each master's degree candidate must pass a comprehensive oral examination covering all graduate work including the thesis or research paper.

Information concerning admission policies, requisites for graduation, and availability of financial assistance for graduate study in animal science may be obtained from the [Department of Animal Science, Food and Nutrition](#), Southern Illinois University Carbondale, Carbondale, IL 62901-4417 or 618-453-2329.

Animal Science Courses

ANS409 - Equine Science 409-4 Equine Science. Designed for students interested in the more scientific aspects of equine physiology and management. The class will take a more advanced look at anatomy and physiology of the systems of the equine and consider how they relate to selection, use and management. Lecture and laboratory. Prerequisite: ANS 219 and 331. Fee: \$50.

ANS415 - Advanced Animal Nutrition 415-4 Advanced Animal Nutrition. Advanced principles and practices associated with digestion, absorption, and metabolism of nutrients as related to domestic monogastrics, ruminants and horses. Prerequisite: ANS 215 and 315.

ANS419 - Stable Management 419-4 Stable Management. Designed for the advanced equine student planning a career in the horse field. Mastery of in-depth management techniques on an applied basis is emphasized. Farm, animal and personnel management are practiced. Extensive out-of-class practice time is expected. Prerequisite: ANS 409 with a grade of C or better. Lab fee: \$90.

ANS420 - Companion Animal Behavior 420-3 Companion Animal Behavior-Animals at Work. This course focuses on the behavior of dogs and horses and will incorporate hands-on training techniques as well as pack/herd observation. Students will understand the difference between classical and operant conditioning, negative and positive reinforcement and will have the opportunity to observe social behavior, reproductive behavior, eating behaviors as well as dominant and submissive behaviors. Key features of the course include a study of the work that dogs and horses perform for man as well as a history of how those working relationships developed. All students with a passion for animals are encouraged to enroll. Lab fee: \$50.

ANS421 - International Animal Production 421-2 International Animal Production. A study of world animal production practices with emphasis on the developing countries. Adaptability of animals to environmental extremes and management practices employed to improve productivity. Prerequisite: ANS 121. Restricted to junior standing.

ANS422 - Nutrition Mgmt Zoo Animals 422-4 Nutritional Management of Zoo Animals. The class will provide students with the most recent information on nutrients requirements and feeding of zoo animals. Students will also learn about zoo animals digestive system and physiology, feeding behavior, nutrition disorders and diseases. Field trips to local zoos. Prerequisite: ANS 215 and ANS 315 with grades of C or better.

ANS425 - Nutrition Biochemistry 425-3 Biochemical Aspects in Nutrition. (Same as HND 425) The interrelationship of cell physiology, metabolism and nutrition as related to energy and nutrient utilization, including host needs and biochemical disorders and diseases requiring specific nutritional considerations. Prerequisite: ANS 215 or HND 320, CHEM 140B, PHSL 201 and 208.

ANS426 - Comparative Endocrinology 426-3 Comparative Endocrinology. (Same as PHSL 426, ZOOL 426) Comparison of mechanisms influencing hormone release, hormone biosynthesis, and the effects of hormones on target tissues, including mechanisms of transport, receptor kinetics, and signal transduction. Prerequisites: ANS 331 or ZOOL 220 or PHSL 310 with a minimum grade of C. Laboratory/Field Trip fee: \$15.

ANS428 - Nutritional Mgmt Zoo Animals 428-4 Nutritional Management of Zoo Animals. The class will provide students with the most recent information on nutrient requirements and feeding of zoo animals. Students will also learn about zoo animals' digestive system, feeding behavior, physiology, nutrition disorders, and diseases. Prerequisites: ANS 215 and ANS 315 with grades of C or better.

ANS429 - Equine Enterprise Mgmt 429-2 Equine Enterprise Management. Study of the diverse horse industry and business management practices involved with the operation of a successful horse enterprise. Analysis of a commercial horse operation will be explored through an in-depth, self-directed farm project. Field trips and guest speakers will inform students for the farm project. An on-campus horse event will be planned and executed as a class project. Prerequisites: ANS 409, ABE 350 or 351. Field trip fee: \$40.

ANS430 - Dairy Cattle Management 430-4 Dairy Cattle Management. Application of the principles of breeding, physiology, and economics to management of a profitable dairy herd. Breeds of dairy cattle, housing, milking practices, and quality milk production. Prerequisite: ANS 315. Lab/Field trip fee: \$50.

ANS431 - Reproductive Physiology 431-4 Reproductive Physiology. Comparative anatomy and physiology of the male and female reproductive system of domestic animals; hormones; reproductive cycles; mating behavior; gestation and parturition; sperm physiology; collection and processing of semen; artificial insemination, pregnancy tests; diseases. Course includes a weekly lab. Prerequisite: ANS 121, ANS 331. Laboratory fee: \$50.

ANS433 - Intro to Ag Biotechnology 433-3 to 7 Introduction to Agricultural Biotechnology. (Same as AGSE 433, CSEM 433, HORT 433, PLB 433, PSAS 433) This course will cover the basic principles of plant and animal biotechnology using current examples; gene mapping in breeding, transgenic approaches to improve crop plants and transgenic approaches to improve animals will be considered. Technology transfer from laboratory to marketplace will be considered. An understanding of gene mapping, cloning, transfer, and expression will be derived. Restricted to senior standing.

ANS434 - Physiology of Lactation 434-2 Physiology of Lactation. Anatomy and physiology of milk secretion; endocrine control; milk precursors and synthesis; milk composition; physiology and mechanics of milking; lactation-related disorders and diseases; transgenic milk. Prerequisite: ANS 331.

ANS435 - Ag Molecular Biotech Seminar 435-1 to 4 Agricultural Molecular Biotechnology Seminar. (Same as CSEM 435) Molecular biology is rapidly making important contributions to agricultural science through biotechnology. An appreciation of the techniques of molecular biology and their application to plant improvement is important to all in agriculture and biology. The relationships between plant molecular biology and the biotechnology industry will be discussed. Presentations on particular research problems will be made. Graded P/F only.

ANS445 - Companion Anim Clin Nutr 445-4 Companion Animal Clinical Nutrition. Nutrition and feeding management of canine and feline during obesity, cancer, diabetes, urolithiasis, dental disease, dermatological disease, hepatic and gastrointestinal disorders, mobility and muscular disorders, heart diseases, and critical care. Prerequisite: ANS 215 with a grade of C or better.

ANS455 - Animal Nutrient Management 455-2 Animal Nutrient Management. Scope and problems associated with animal nutrient management; current regulations and laws on environmental protection. Principles covering waste management technology and current livestock nutrient management systems are presented. Field trips will be scheduled. Restricted to junior standing.

ANS465 - Swine Management 465-4 Swine Management. Swine production systems and management techniques including breeding and selection, reproduction, nutrition, herd health and disease prevention, housing and waste management, marketing, production costs, and enterprise analysis. Field trip. Prerequisite: ANS 315 or consent of instructor. Lab fee: \$50.

ANS477 - Aquaculture 477-3 Aquaculture. (Same as ZOO 477) Production of food, game and bait fishes. Design of facilities, chemical and biological variables, spawning techniques, diseases and nutrition. Two lectures per week and one four-hour laboratory on alternate weeks. Prerequisites: BIOL 200A or BIOL 211 or ZOO 118 or ANS 121 with grade of C or better.

ANS485 - Beef Cattle Management 485-4 Beef Cattle Management. Beef cattle production systems and management, breeding and selection, reproduction, nutrition, and herd health with emphasis on the most economical and efficient systems. Prerequisite: ANS 315, ANS 332 or concurrent enrollment. Lab/Field trip fee: \$50.

ANS495 - ANS Instruction 495-1 to 6 Instruction in the Animal Sciences. Acquaints the students with different teaching environments and styles. Students will be expected to participate in instructing animal science courses. Restricted to junior standing. Special approval needed from the instructor. Not for graduate thesis option credit.

ANS500 - Research Method Agri Sci 500-3 Research Methods in Agricultural Science. Experimental design and biometry as applied to biological and allied fields. Restricted to graduate students.

ANS506 - Instr Method in Agri Sci 506-3 Instrumentation Methods in Agricultural Science. Basic methods and techniques of analytical instrumentation used in human and animal nutrition are taught in the lectures with applications of instruments carried out in the laboratories. Special approval needed from the instructor. Lab fee: \$100.

ANS515 - Energy Protein Utilization 515-3 Energy and Protein Utilization. (Same as FN 515) Energy and protein utilization including digestion, absorption and metabolism as related to mammalian physiology. Prerequisite: CHEM 339 or 340.

ANS516 - Minerals and Vitamins 516-3 Minerals and Vitamins. (Same as FN 516) Basic and applied principles of mineral and vitamin metabolism. Emphasis on metabolic functions, reaction mechanisms and interrelationships Prerequisite: CHEM 339 or 340.

ANS525 - Ruminant Nutrition 525-3 Ruminant Nutrition. Physiology of rumen, action and microbiology of rumen digestion and utilization of carbohydrates, lipids and nitrogenous substances in ruminant animals. Absorption and assimilation of nutrients by the ruminant animals. Feeding standards for maintenance, growth, reproduction and lactation. Two lectures per week. Prerequisite: ANS 415 or consent of instructor.

ANS531A - Adv Animal Physiology 531A-1 to 6 (2,2,2) Advanced Animal Physiology. Advanced Physiological concepts as they relate to mammalian systems-subjects covered are: advanced reproductive physiology. Prerequisite: ANS 331 or PHSL 201.

ANS531B - Adv Animal Physiology 531B-1 to 6 (2,2,2) Advanced Animal Physiology. Advanced Physiological concepts as they relate to mammalian systems-subjects covered are: developmental physiology. Prerequisite: ANS 331 or PHSL 201.

ANS531C - Adv Animal Physiology 531C-1 to 6 (2,2,2) Advanced Animal Physiology. Advanced Physiological concepts as they relate to mammalian systems-subjects covered are: endocrine physiology. Prerequisite: ANS 331 or PHSL 201.

ANS563 - Fundamentals of Poultry 563-1 Fundamentals of Poultry. Fundamental principles of poultry production (broiler, turkey and egg production) including poultry physiology, breeding, incubation, housing, nutrition, disease control, management and marketing.

ANS564 - Aquaculture Techniques 564-1 to 2 Aquaculture Techniques. (Same as ZOO 564) Practical experience in aquaculture techniques. Course consists of modules which require student participation in hands-on experience, (e.g., spawning, induction of spawning, production of fry, operation and grading, diagnosis and treatment of parasites and diseases, and transporting of fish). One credit for completion of two modules. Register any semester, one year to complete elected number of modules. Written report and examination required for each module. Cost incurred by student varies with modules selected. Prerequisite: ANS 477 or ZOO 477 or consent of instructor.

ANS565 - Advanced Ruminant Nutrition 565-3 Advanced Ruminant Nutrition. Principles of nutrients metabolism and utilization by ruminant animals in relation to maintenance, growth, reproduction and lactation. Prerequisite: ANS 415 or consent of instructor.

ANS570 - Advanced Aquaculture 570-3 Advanced Aquaculture. (Same as ZOO 570) Special topics in aquaculture and practical methods for the production of coldwater, coolwater, warmwater, and tropical aquatic species. Prerequisite: ANS 477 or ZOO 477 or equivalent with a grade of C or better.

ANS571 - Fish Reproduction & Breeding 571-3 Fish Reproduction and Breeding. (Same as ZOO 571) Principles of finfish reproductive strategies, reproductive physiology and captive breeding. The role of genetics and the use of biotechnology and various techniques in breeding programs will also be emphasized. The purpose of this course is to develop an understanding of fish reproduction and breeding techniques and to gain an appreciation of the complexity involved in managing a hatchery breeding program. Two lectures a week and one four-hour lab alternate weeks. Prerequisite: ANS 477 or ZOO 477 or equivalent with a grade of C.

ANS581 - Seminar 581-1 to 2 (1,1) Seminar. Problems relating to various phases of animal industries. Maximum of one hour per semester.

ANS588 - International Grad Study 588-1 to 8 International Graduate Studies. University residential graduate study program abroad. Prior approval by the department is required both for the nature of the program and the number of credit hours.

ANS590 - Readings in Animal Science 590-1 to 3 Readings in Animal Science. Reading in specialized fields under direction of approved graduate specialists.

ANS592 - Global Research in Agriculture 592-1 to 3 Global Research in Agriculture. Research interest in animals unique to certain regions of the world is a growing field to graduate students interested in world sustainable agricultural practices. This class is designed for students interested in taking research based information and skills from Southern Illinois University and applying it to projects with animals native to certain regions of the world to improve productivity and sustainability. This course provides graduate students interested in global and sustainable research the opportunity to conduct their research and training on regional animals not traditionally found in North America (eg. camels, water buffalo, kangaroo,... etc). Course fee up to \$5,000 per credit hour.

ANS593 - Individual Research 593-1 to 3 Individual Research. Investigation of a problem in animal science under the supervision of an approved graduate specialist.

ANS595 - ANS Instruction 595-1 to 4 Instruction in Animal Sciences. Acquaints the students with different teaching environments and styles. Students will be expected to aid faculty in the instruction of animal science courses.

ANS599 - Thesis 599-1 to 6 Thesis. Credit is given for a Master's thesis when it is accepted and approved by the thesis committee. Not for non-thesis option credit.

ANS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Anthropology

The Department of Anthropology offers graduate programs leading to the Master of Arts and Doctor of Philosophy degrees. Provided the student has been admitted to the Graduate School and meets its requirements, acceptance and continuation in the graduate program are at the discretion of the Department of Anthropology.

The philosophy of the Department of Anthropology is to produce students with broad backgrounds in the major subfields of anthropology and expertise in particular specialty areas. Within this philosophy, and subject to the requirements discussed below, the department offers a flexible program which will serve students with diverse needs and goals.

Admission

The applicant to the anthropology program must send a completed application for admission to graduate study and official copies of all transcripts directly to the department, and must meet all Graduate School requirements for entry. Applicants whose native language is not English must achieve a TOEFL of 600 paper score, 250 computer score, 100 on the Internet-based test, or higher in order to gain admittance in the program. The Graduate Record Exam (GRE) is required for all U.S. applicants. Preference will be given to applicants who score in percentiles above 40. Although not required to take the GRE prior to admittance, all foreign students are strongly encouraged to take the exam prior to entering the graduate program and are required to take the exam before the end of their first year in the program.

Applicants who wish to be considered for University Graduate School fellowships must have all application materials completed by December 15. Applicants who wish to be considered for admission into the graduate program in the fall semester of the next academic year and who wish to be considered for departmental graduate assistantships must have all application materials completed by March 1. Applications not received or completed prior to March 1 will be considered only in exceptional cases, as determined by the Director of Graduate Studies in consultation with other members of the Graduate Studies Committee.

In addition, the applicant must send a completed departmental application for admission and financial aid form, personal data sheet, statement of academic and professional goals, and arrange for three letters of recommendation to be sent to the Director of Graduate Studies of the Department of Anthropology. All necessary forms will be provided to applicants by the department. No special program of previous work is required. Applicants with academic degrees in fields other than anthropology are encouraged to apply.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Anthropology. Applicants must pay this fee by credit card.

Master's Degree Program

In addition to the master's degree requirements specified in the Graduate Catalog, the following departmental requirements apply to all M.A. degree candidates:

1. Each student must complete three core courses: ANTH 500E, the core course in their subfield, and a course determined in consultation with the chair of the MA committee. It is preferred that these courses be completed during the first year; no more than one core course can be deferred into the second year, and ANTH 500E must be completed during the first Fall semester in the program. At

the end of the student's first year of study, the faculty will evaluate each student's performance in the completed core courses along with the rest of the student's record and arrive at a decision on the student's continuation in the program. This decision will take into account the overall evidence of the student's abilities, potentials, and interests.

2. Each student must complete one or more regular graduate-level courses or seminars in each of two subdisciplines of the student's choice (from among archaeological, linguistic, physical, sociocultural anthropology) beyond the core courses.
3. A further nine hours of course work will be assigned by the student's committee after consultation with the student. These nine hours may include up to four hours of graduate credit to meet tool requirements, and may not include more than three hours of independent study or thesis. No more than three hours of credit in ANTH 501, ANTH 590, ANTH 597, and ANTH 599 (thesis) may be applied toward the Graduate School requirements of 30 hours of graduate course credit and 15 hours of 500-level credit. The department requires two additional seminars (500-level course) beyond the core courses and the thesis hours.
4. Each student must demonstrate a reading competence in a relevant language foreign to the student. Students entering the program may petition to have previously taken courses accepted for credit as equivalent to core courses in cases where the equivalence can be documented.

M.A. Degree Committee, Thesis, Research Paper

Each student in the M.A. degree program will consult with the Director of Graduate Studies and relevant faculty members to select a three-person faculty committee, which will assume major responsibility for the student's advisement. At least two members of this committee, including the chair, must be from the Department of Anthropology, and the third member may be selected from outside the department. At least the chair should be chosen by the end of the first year, and the entire committee by the end of the third term.

Under the direction of the M.A. degree committee, the student will complete a thesis and register for at least three hours of ANTH 599 while doing so. A student may submit a published paper, or one accepted for publication in an approved professional journal, instead of a thesis, or may be authorized by the department to substitute a research paper for the thesis. Passing of a comprehensive examination on the student's entire program is a Graduate School requirement. One paper copy of the thesis, research paper, or article must be deposited with the department before the degree is granted.

An option is available, at the discretion of the departmental faculty, to allow exceptional M.A. students accelerated entry in the doctoral program at the end of their first year of M.A. study. For these students, the following are sufficient for the M.A. degree in Anthropology:

1. completion of 30 hours of coursework, including 21 hours at the 500 level (which can include up to nine hours of ANTH 598 - Research); and
2. a research paper (normally one prepared for a class in the student's subdiscipline) approved by the student's advisor and the Director of Graduate Studies, and submitted to the Graduate School.

No additional stipulations on the nature of the coursework (beyond the core courses) nor a language requirement are imposed.

The Department of Anthropology may offer direct postbaccalaureate degree entry to the doctoral program under exceptional circumstances, when a student's past work is determined to be of sufficient scope and excellence as to merit equivalence to an M.A. research degree. Students admitted under this option are subject to all existing requirements for the doctoral degree; the admissions/advisory committee for the student may add extra requirements based on the student's background.

Doctor of Philosophy Degree Program

Applicants to the Ph.D. degree program must complete the equivalent of the master's degree and apply directly to the Graduate School for admission as a doctoral student. Three letters in support of the application must be forwarded to the Director of Graduate Studies in the Department of Anthropology. Students must also supply a statement of goals for their programs and subsequent professional careers. The department will offer an accelerated entry option to students who have been admitted at the M.A. level and who are judged by the faculty of the department to be prepared to begin research at the doctoral level. Such students must complete at least one term in the M.A. degree program before being

admitted at the Ph.D. level, and must then meet all retention and exit requirements for the regular doctoral option. The students need not submit the application materials required of regular applicants to the Ph.D. degree program outlined above.

Students are required to demonstrate breadth of competence in the four sub-disciplines of Anthropology. Retention beyond the first year will be determined by an evaluation of course work for the first year and the maintenance of a minimum GPA of 3.2. Students will then form a faculty committee in consultation with the Director of Graduate Studies and relevant members of the faculty. The committee must include at least five members of the graduate faculty, at least three of whom (including the chair) must be from within the department, and at least one from outside: the normal case will be four from within and one additional.

The requirements for the Ph.D. degree include the following:

1. Additional course work in anthropology and other fields within the student's interests. Of the 24 hours of credit required to establish residency, nine must be in 500-level anthropology courses other than ANTH 500A, ANTH 500B, ANTH 500C, ANTH 500D, ANTH 500E, ANTH 501, ANTH 585, and ANTH 597. The Ph.D. committee is expected to help formulate a study program that will usually involve at least one additional academic year of full-time course work beyond the M.A. degree.
2. Research tool requirements. These vary and will be determined between the students and the committee. In all cases, a certified reading knowledge of at least one foreign language will be required and at least one other tool. Other possible tools could include, for example, computer science, statistics, a second foreign language, or a combination of these or others.
3. Administration by the committee of a special examination with both written and oral components covering topical and geographical specialties (the preliminary or candidacy exam). The student may not take the examination until two years of full-time post-baccalaureate study have been completed and SIU residency attained. The student should take this examination by the end of three years of full-time Ph.D. level work. In evaluating the examination, the committee may pass the student, pass with conditions, fail the student but allow retaking of part or all of the examination at a later time or fail the student and recommend dismissal from the program. If a student fails the examination and the committee allows reexamination, it must occur within one year of the first examination and only one retake is allowed.
4. Dissertation prospectus approved by student's committee and formally presented to the department.
5. Formal experience in teaching.

Ph.D. Candidacy

After completion of the above requirements, the department will recommend a student to the Graduate School for candidacy. The candidate will design dissertation research in consultation with the committee and will undertake the research necessary to acquire the materials for the dissertation. Candidates must register for 24 hours of credit under ANTH 600.

When a final draft of the dissertation has been accepted by the Ph.D. committee, an oral defense of the dissertation and all supporting work will be held in accordance with Graduate School requirements. After a successful dissertation defense and completion of final revisions of the text, the student must submit the dissertation to the Graduate School in accordance with its guidelines, and a paper copy to the Department of Anthropology.

Anthropology Courses

ANTH404 - Art & Technology in Anth 404-3 Art and Technology in Anthropology. An introduction to the basic ways in which people utilize the natural resources of their habitat to meet various needs, such as food, shelter, transportation, and artistic expression. The nature of art, its locus in culture, and its integration into technical society will be considered.

ANTH405 - How To Do Anth Research 405-3 How to Do Anthropological Research. This course is designed to teach students the skills needed to consume the professional literature of anthropology intelligently. The subjects covered include: the importance of research questions or hypotheses, the

logic of deducing test implications, literature search, sampling, measurement issues, data reduction and graphing, and simple inferential statistics.

ANTH410A - Practicing Anthropology 410A-3 Practicing Anthropology. This course is designed to get students acquainted with the notion of development and the challenges that the practice of anthropology faces when directed towards development and social change in both developing and developed countries. Prerequisite: ANTH 240D recommended for undergraduates.

ANTH410D - Ethnomusicology 410D-3 Ethnomusicology: Theory and Method. This seminar examines the social, cultural, experiential, evolutionary, and historical dimensions of music. It is designed for students for whom music is a topical interest, who need to gain foundational knowledge about the theory and methods of ethnomusicology. We will review the history of ethnomusicology, major theoretical debates, and current issues.

ANTH410E - Anthropology of Law 410E-3 Anthropology of Law. Anthropological thought on imperative norms, morality, social control, conflict resolution and justice in the context of particular societies, preliterate and civilized. Law of selected societies is compared to illustrate important varieties. Prerequisite: ANTH 240D recommended for undergraduates.

ANTH410F - Anthropology of Religion 410F-3 Anthropology of Religion. A comparative study of (religious) belief systems, with emphasis upon those of non-literate societies. Examination of basic premises and elements of these belief systems, normally excluded from discussions of Great Religions. Prerequisite: ANTH 240D recommended for undergraduates.

ANTH410G - Urban Anthropology 410G-3 Urban Anthropology. Contemporary cities are dynamic places where populations that differ in terms of class, race, and ethnicity establish particular relationships with geographic space and architectural structures. This class is designed to teach students how to experience and analyze urban spaces from an anthropological perspective, and how to apply anthropological theory and methods in urban planning.

ANTH410H - African Expressive Culture 410H-3 African Expressive Culture. (Same as AFR 410H) This course examines aspects of African expressive culture including the visual arts, music, dance, orature, cinema, drama and ceremony from an anthropological perspective. Particular attention is given to analysis of African expressive culture in social context and the role of the arts in the practice of politics, religion, medicine and other aspects of African life. Many of the expressive genres examined deal with historical representation and political resistance. Therefore, this course provides insights into African history and politics through the creative representations of African artists.

ANTH410I - Identities 410I-3 Identities: Global Studies in Culture and Power. This course surveys recent studies of sociocultural identities based on ethnicity, class, race, gender, nationality, age, language, and other criteria, as aspects of broader struggles over power and meaning. Topics to be addressed are critical analyses of identity politics in the Americas, Europe, Middle East, Asia, and other regions; historical approaches to studying identities; and ethnographic studies of transnational and diasporic communities.

ANTH410K - Ecological Anthropology 410K-3 Ecological Anthropology. An examination of the relationship of past and present human populations in the context of their natural and social environments.

ANTH410L - Transcending Gender 410L-3 Transcending Gender. (Same as WGSS 410) How do humans become male and female in different societies? Can men become women and women become men? What other gender possibilities exist? Is male dominance universal? What are the sources of male and female power and resistance? Do women have a separate culture? What are the relationships between gender, militarism and war? These and other questions will be examined in cross-cultural perspective.

ANTH410M - Healing and Culture 410M-3 Healing and Culture. This course examines systems of healing and medicine from an anthropological perspective. The theory and practice of medicine in different cultures, including Western biomedicine, are considered. Particular attention is given to the ways

in which medical knowledge gains legitimacy in different social contexts and the problems which arise in culturally heterogeneous arenas when different medical paradigms contend for legitimization.

ANTH410N - Anth of Popular Culture 410N-3 Anthropology of Popular Culture. An examination of recent approaches to popular culture, material culture and consumption in anthropology. Special topical focus will include sports, television and movies, food and shopping. The course will be organized around several fieldwork projects in the Carbondale community. Prerequisite: ANTH 240D recommended for undergraduates.

ANTH410O - Colonialism & Post-Colonialism 410O-3 Colonialism and Post-Colonialism. This course is designed to familiarize students with the experience of colonialism and the political, social, cultural implications of it. The analysis will not be limited to the study of the colonial period, but it will examine the complexities of contemporary post-colonial societies and cultures.

ANTH410P - Ethics and Research 410P-3 Ethics and Research. This course examines the risks that any anthropological research poses, both in fieldwork and writing, as well as questions and dilemmas that any social scientist should be aware of before getting involved in any research practice. Prerequisite: ANTH 240D recommended for undergraduates.

ANTH410Q - Food, Symbol and Society 410Q-3 Food, Symbol and Society. In this course we will explore all aspects of the social uses and symbolic meanings we attach to food and eating. How do we use food to make friends, to make enemies, and to make ourselves? What is changing in our food consumption patterns? What are some of the politics and the ethics involved in producing and marketing food? What is the significance of eating out? How do we analyze the smell and taste of food cross-culturally?

ANTH410R - Anth of Science & Technology 410R-3 Anthropology of Science and Technology. Technologies and scientific knowledge are commonly thought of as being universally applicable and as representations of truths about the operations of the world that are independent of culture. Anthropological studies, however, suggest that the efficacy of scientific knowledge and technologies is specific to the localities in which they are produced. This course introduces students to the primary concerns of the anthropology of science.

ANTH410S - Ethnographic Methods 410S-3 Ethnographic Research Methods. This course familiarizes students with the methods used by socio-cultural anthropologists to conduct ethnographies. Ethnographies are rich and detailed studies of people, communities, and practices that help us understand the varying ways human beings engage their environments, structure the societies and spaces they live in, communicate with one another, make meaning, shape themselves in culturally distinct ways, and make technologies and material culture. To create ethnographic knowledge, ethnographers use a diverse tool kit including participant observation, ethnographic interviews, spatial analysis, archival research, and life histories, to name just a few. This class introduces students to these methods and also exposes them to the ethical, logistical, and theoretical complications of conducting ethnographic research.

ANTH410T - Anarchy/Egalitarianism 410T-3 Anarchy, Power and Egalitarianism: Anthropological Perspectives. This class considers anthropological evidence for and approaches to issues of power and rulership in relation to egalitarian or anarchist societies, that is, societies without arches (Greek for leaders/laws). We will look at how much societies function, what kinds of history and mythology they produce, how their exchange systems are elaborated, and why they have remained "under the radar" of the modern system of state societies. What can egalitarian/anarchist societies tell us about dominant assumptions about the nature of power and governance? How have ideas about "direct democracy" shaped new social and cultural practices? What is the relationship between these projects and movements and the larger societies in which they exist?

ANTH410U - Sustainability/Disasters 410U-3 Sustainability and Disasters. This course familiarizes students with anthropological knowledge on sustainability and disasters. Students will learn about the theoretical perspectives anthropologists use to understand the ways people define and enact sustainability and the social practices that lead to environmental degradation and catastrophes. The class also provides an introduction to classic anthropological studies on the two focal subjects, the methods social scientists use to generate scholarly knowledge about human-environment relationships, and the job opportunities available in this field for practicing anthropologists.

ANTH410V - Visual Anthropology 410V-3 Visual Anthropology. This seminar introduces students to the theories and methods of visual anthropology. Topics will vary semester-to-semester, ranging from methodologies used for ethnographic research of visual cultures, to critical analysis of photography and film/video as methodologies for ethnographic exposition.

ANTH412 - Visual Anthro Methods 412-3 Visual Anthropology as a Research Methodology. The new digital technologies provide exciting new ways to conduct anthropological research and present research findings. They also raise technical, methodological, and ethical questions for researchers. This course examines these issues through readings and analysis of examples of use of these media - digital video, still photography, and web authoring - in the field and in presentation to a scholarly and larger public.

ANTH415 - Sociolinguistics 415-3 Sociolinguistics. (Same as LING 415) History, methodology and future prospects in the study of social dialectology, linguistic geography, multilingualism, languages in contact, pidgin and creole languages, and language planning.

ANTH416 - Spanish in the U.S.A. 416-3 Spanish in the U.S.A. (Same as LING 416) This course offers a survey of the historical, social, political, linguistic and educational issues surrounding the Spanish language in the United States. Topics to be addressed include Spanish language use and bilingualism, language maintenance and shift, education of Latino populations, Hispanic diversity, and Latino literature.

ANTH417 - Language Contact 417-3 Language Contact. (Same as LING 417) This course will introduce students to the social conditions under which language contact occurs and the cultural and linguistic consequences of such contact. Primary topics will be language maintenance and shift, ideologies and attitudes regarding bilingualism, and language development and change, using data from a variety of languages and cultures. Designed to provide a comprehensive background for research on bi- or multilingual settings. Prerequisite: one of the following: ANTH 240B, LING 200, LING 300, ANTH 500B or LING 505.

ANTH420 - Mayan Texts 420-3 Mayan Texts. Detailed examination of Mayan texts written in Mayan languages in their cultural contexts. Texts may range from pre-Columbian hieroglyphic texts, colonial Mayan texts, to modern texts.

ANTH421 - Descriptive Phonetic Phonology 421-3 Descriptive Phonetics and Phonology. The course introduces students to the study of phonetics and phonology from an anthropological and descriptive perspective. The course is interested in how are sounds produced and how do they then become meaningful in languages? Special attention is paid to metrical phonology.

ANTH424 - Native American Verbal Art 424-3 Native American Verbal Art. (Same as ENGL 424) This class examines the oral traditions (story-telling, poetry, song, chant, etc.) of Native American Peoples. This class focuses on the way that Native American verbal art has been presented/represented by outsiders as well as on the formal features and forms of Native American verbal art. Attention is paid to the place and structure of verbal art in Native societies. This class focuses on the broad spectrum of verbal art in North America.

ANTH426 - Gender, Culture, Language 426-3 Gender, Culture and Language. (Same as WGSS 426 and LING 426) This course is designed for students who have had some exposure to gender studies. It will focus on readings in language and gender in the fields of anthropological- and socio-linguistics. Issues to be addressed are the differences between language use by men/boys and women/girls, how these differences are embedded in other cultural practices, and the various methodologies and theories that have been used to study gendered language use.

ANTH428A - Language Culture Americas 428A-3 Languages and Cultures of the Americas-North America. (Same as ANTH 328A) This course studies the myriad of indigenous languages of the Americas. Focus is both descriptive and anthropological. Languages are considered with respect to their grammatical and discursive structures, historical relations, and their place within the sociocultural milieu of speakers. Areal focus is North America.

ANTH428B - Language Culture Americas 428B-3 Languages and Cultures of the Americas-Mesoamerica. (Same as ANTH 328B) This course studies the myriad of indigenous languages of the Americas. Focus is both descriptive and anthropological. Languages are considered with respect to their

grammatical and discursive structures, historical relations, and their place within the sociocultural milieu of speakers. Areal focus is Mesoamerica.

ANTH428C - Language Culture Americas 428C-3 Languages and Cultures of the Americas-South America. (Same as ANTH 328C) This course studies the myriad of indigenous languages of the Americas. Focus is both descriptive and anthropological. Languages are considered with respect to their grammatical and discursive structures, historical relations, and their place within the sociocultural milieu of speakers. Areal focus is South America.

ANTH430A - Archaeology of North America 430A-3 Archaeology of North America. Detailed study of the early cultures of North America. Emphasis on the evolutionary cultural development of North America.

ANTH430B - Archaeology of Meso-America 430B-3 Archaeology of Meso-America. Detailed study of the early cultures of Meso-America with emphasis on the evolutionary cultural development of Meso-America.

ANTH430D - Art & Arch Mediterranean 430D-3-9 (3 per topic) Art and Archaeology of the Ancient Mediterranean. (Same as AD 310A, AD 310B, AD 310C, CLAS 310A, CLAS 310B, CLAS 310C, CLAS 310HA, CLAS 310HB, CLAS 310HC) An introduction to art historical, archaeological, and historical approaches to the physical remains of the ancient Mediterranean. Emphasis normally on Greece or Rome. Can be repeated if offered on different topics. Occasionally offered overseas. No prerequisites.

ANTH430E - Archaeology of Ancient Egypt 430E-3 Archaeology of Ancient Egypt. Detailed study of the early culture of ancient Egypt with emphasis on the evolutionary cultural development of Egypt. No prerequisites. ANTH 430E cannot be used to satisfy both undergraduate Core Curriculum and graduate school degree requirements.

ANTH430F - Archaeology of S America 430F-3 Archaeology of South America. Survey of the prehistory and ethnohistory of South America, including the peopling of the South American continent, the development of early cultures, the rise and fall of Andean empires, and the impact of Spanish contact and conquest.

ANTH434 - Advanced Origins Civilization 434-3 Advanced Origins of Civilization. A survey of the major developments of the human past, culminating in the rise of cities and states. Areal coverage varies, but generally includes the ancient Near East, Mesoamerica, Andean South America, South Asia (India and Pakistan), and China. Graduate standing required.

ANTH440A - Fossil Evidence Hum Evol 440A-3 The Fossil Evidence for Human Evolution. An advanced consideration of the fossil evidence for human evolution and evaluation of the various theories regarding the course of human evolution.

ANTH440B - Race & Human Variation 440B-3 Race and Human Variation. A consideration of the range, meaning and significance of contemporary human biological variation, including evolutionary and adaptive implications and the utility of the race concept.

ANTH440C - Context Human Evolution 440C-3 Context of Human Evolution. This course will provide an ecological, behavioral, geological, geographic, and theoretical context from which to understand the evolutionary history of modern humans. The course is designed to complement ANTH 440A.

ANTH441A - Ceramics Lab 441A-3 Laboratory Analysis in Archaeology: Ceramics. Being durable, abundant, and full of information about food, social customs, styles, and even ideology, pottery provides a wealth of information about past societies. This course covers the major aspects of pottery analysis, including studies of raw materials, production techniques, function, and exchange. The course is partly lecture, partly lab-based.

ANTH441B - Archaeometry 441B-3 Laboratory Analysis in Archaeology: Archaeometry. This course surveys technical methods of the physical and natural sciences in archaeological analysis. Rather than focusing on a specific set of materials (as is done in the other courses in the ANTH 441 series), this course covers a broad spectrum of technical studies, including chronometry as well as the analysis of ceramics, metals, textiles, and ecofacts.

ANTH441C - Lithics Lab 441C-3 Laboratory Analysis in Archaeology: Lithics. This course provides an introduction to lithic analysis in archaeology. Students will be introduced to technological and functional analyses, typological studies, use-wear analysis, debitage analysis, and related subjects. The focus will be on chipped stone, but ground stone will also be considered. The overall goal is to show how lithic analysis can address broader anthropological questions.

ANTH442 - Working with Anth Collections 442-1 to 12 Working with Anthropological Collections. This course gives students hands-on experience in the management, curation, and basic analysis of anthropological collections. Students will work with archaeological or museum artifacts and may gain experience in archival methods, collections rehabilitation, curation databases, and working with the public among other topics. May be taken independently or as a follow-up to ANTH 450, 495, 496, 497, 596, or 597. \$30 lab fee covers cost of expendable laboratory supplies necessary to complete course work and projects.

ANTH444 - Human Genetics & Demography 444-3 Human Genetics and Demography. A course in human genetics with an emphasis on population genetics and demography of modern and ancient human populations.

ANTH450A - Museum Studies-Learning 450A-3 Museum Studies - Learning in Museums. (Same as AD 450A) A detailed study of museum in the context of their use of exhibitions as an educational medium. Covers the evolution of the museum as a learning environment and the application of learning theory and principles in modern museums. Emphasis is placed on practicum experiences involving the design of learning experiences and educational programs in the museum setting.

ANTH450B - Museum Studies-Mthdlyg/Display 450B-3 Museum Studies - Methodology and Display. A detailed study of museums in the context of their use of exhibitions as an educational medium. Focus on the history of museum exhibitions and instruction in the fundamentals of educational exhibit design and curatorial research. Emphasis is placed on practicum experiences involving the design of educational exhibits and curatorial research. Laboratory/field trip fee: \$20.

ANTH450C - Museum Studies-Conservation 450C-3 Museum Studies: Conservation of Anthropological Collections. A study of the principles and methods used in the conservation of ethnographic and archaeological materials. The course examines strategies employed in the preservation of research collections, including preventative care, treatment, research, and documentation. Emphasis is placed on material identification, object use-life, and the chemistry of organic and inorganic materials relative to conservation practices.

ANTH455A - Dental Anthropology 455A-3 Dental Anthropology. Developmental origins of vertebrate teeth, anatomy and occlusal function, taxonomic and dietary aspects of the Primate dentition, detecting hominid origins; modern human odontology: genetics, pathology, forensic analysis. Much laboratory activity with materials.

ANTH455B - Special Topics Bioanth 455B-3 Special Topics in Biological Anthropology. (May be repeated once for a maximum of 6 hours.) This course will cover special topics in Biological (Physical) Anthropology. Topics will vary between offerings and may include special or current issues in forensic research, human variation, genetics and evolution, primate behavior, ecology, conservation, or human evolution.

ANTH455C - Primate Behavior & Ecology 455C-3 Primate Behavior and Ecology. Advanced study of the behavior and ecology of living nonhuman primates. The course will cover the geographic distribution and basic ecological features of nonhuman primates and the relationships between resource distribution, social organization, mating system and behavior which will help to reconstruct the evolution of nonhuman and human primate sociality.

ANTH455D - Quantitative Methods 455D-3 Quantitative Methods. Classic inferential statistics as well as resampling approaches and pattern recognition philosophy: chi square, t test, ANOVA, correlation and regression, nonparametric versus parametric methods, multiple regression, all involving diverse anthropological data examples. This course in combination with Ed Psych 506 or other approved substitute satisfies a doctoral tool requirement. Does not count as a bioanthropology elective toward the M.A. degree.

ANTH455E - Biomedical Anthropology 455E-3 Biomedical Anthropology. Biological disorders and maladaptation in the human species. Major themes include epidemiological methods, the modern Epidemiological Transition to "Western" disease patterns, other transitions resulting from "discordant adaptation," diet, the relation to sociomedical anthropology, and the evolution of human disease (including osteological paleopathology) from Paleolithic to industrialized contexts.

ANTH455F - Nutritional Anthropology 455F-3 Nutritional Anthropology. The anthropological investigation of diet and nutrition in past and present human populations. This course investigates the diets of our human ancestors, human food revolutions, methods used to evaluate diet and nutrition in past human populations, and contemporary issues in food production and distribution.

ANTH455G - Primate Biology & Evolution 455G-3 Primate Biology and Evolution. Advanced study of primate biology, evolution, and systematics, with special emphasis on primate functional anatomy and dentition. The course will cover the taxonomy of primates, the evolution of the primate radiation and primate origins, and biological features which elucidate primate relationships and help to reconstruct behavior and ecology of extinct primates.

ANTH455H - Osteology 455H-3 Osteology. This lab-based course is for the advanced student interested in the analysis of the human skeleton. An intensive study of human skeletal anatomy, the methods used in the identification and analysis of skeletal remains in archaeological contexts, and osteological evidence for disease, diet, and trauma in past populations.

ANTH455I - Primate Comp Funct Anatomy 455I-3 Comparative and Functional Primate Anatomy. Advanced study of the functional anatomy of primates with a strong emphasis on primate osteology. The course will compare biology of living primates, including humans, to elucidate adaptations in anatomy of nonhuman primates and to better understand the origins and specific anatomical adaptations in the human lineage.

ANTH456 - Forensic Taphonomy 456-3 Forensic Taphonomy. Critical to the successful forensic anthropological analysis of human remains is an understanding of the events and processes that affect decomposition of biological tissues. This course is designed to teach students about a variety of process affecting decomposition of human tissues, including (but, not limited to) animal scavenging, insect activity, environmental conditions, personal characteristics of the deceased and human vectors (dismemberment, burning, burial, etc.). Prerequisite: ANTH 231 OR ANTH 455H.

ANTH460 - Individual Study in Anthro 460-1 to 12 Individual Study in Anthropology. Guided research on anthropological problems. The academic work may be done on campus or in conjunction with approved off-campus (normally field research) activities. Special approval needed from the instructor.

ANTH470A - People & Cultures Africa 470A-3 People and Cultures-Africa. (Same as ANTH 310A) A survey of the prehistory, cultural history, and modern cultures of peoples in Africa.

ANTH470D - People & Cultures Europe 470D-3 People and Cultures-Europe. (Same as ANTH 310D) A survey of the prehistory, cultural history, and modern cultures of peoples in Europe.

ANTH470E - Peoples & Cultures S Amer 470E-3 People and Cultures-South America. (Same as ANTH 310E) A survey of the prehistory, cultural history, and modern cultures of peoples in South America.

ANTH470G - Peoples & Culture N Amer 470G-3 People and Cultures-North America. (Same as ANTH 310G) A survey of the prehistory, cultural history, and modern cultures of peoples in North America.

ANTH470I - People & Cultures Mesoamerica 470I-3 People and Cultures-Mesoamerica. (Same as ANTH 310I) A survey of the prehistory, cultural history, and modern cultures of peoples in Mesoamerica.

ANTH470K - People & Cultures Southwest 470K-3 People and Cultures-Native Peoples-Southwest. (Same as ANTH 310K) A survey of the prehistory, cultural history, and modern cultures of the Native Peoples of the American Southwest.

ANTH484 - Internship: Curation Arch Colls 484-1 to 9 Internship: Curation of Archaeological Collections. This internship is intended to introduce students to the management of archaeological collections through hands-on work with materials, typically those housed at the Center for Archaeological Investigations' curation facility. Students will be exposed to a variety of issues that affect local, state, and

national curation facilities such as conservation, preservation, accessibility, accountability, and ethical concerns. Internship projects range from collections documentation and research to object digitalization and other special curation projects. Special approval needed from the instructor to register.

ANTH485 - Special Topics in Anthro 485-3 to 9 Special Topics in Anthropology. Selected advanced topics in anthropology. Topics vary and are announced in advance. May be repeated as the topic varies. Special approval needed from the instructor.

ANTH490 - Field Mthds Analysis Ling Anth 490-3 Field Methods and Analysis in Linguistic Anthropology. Includes theoretical background and a project in the linguistic aspects of culture. Prerequisite: ANTH 240B or consent of instructor.

ANTH495 - Ethnographic Field School 495-3 to 8 Ethnographic Field School. Apprentice training in the field in ethnographic theory and method. Students will be expected to devote full time to the field school. Special approval needed from the instructor.

ANTH496 - Field School in Archaeology 496-1 to 12 Field School in Archaeology. Apprentice training in the field in archaeological method and theory. Students will be expected to be in full-time residence at the field school headquarters off campus. Special approval needed from the instructor. Students will be charged a \$50 fee for supplies.

ANTH497 - Bioarchaeology Field School 497-3 to 6 Field School in Bioarchaeology. This course offers training in archaeological field techniques related to the excavation and analysis of human skeletal remains. Students are expected to be in full-time residence at the field school site, which may involve international travel. Offered during the summer. Special approval needed from the instructor.

ANTH500A - Theory/Method in Biol Anth 500A-3 Theory and Method in Biological Anthropology. Current topics in biological evolution and variation, including the theoretical and methodological background to each. Topics will be drawn from the four major areas of physical anthropology: genetics and evolutionary theory, primate studies, human fossil record and human variation. Special approval needed from the instructor.

ANTH500B - Theory/Method in Ling Anth 500B-3 Theory and Method in Linguistic Anthropology. Overview to enable students to identify, describe and understand the theories, methods and goals of linguistic anthropology. Emphasis is placed on the relationships of language to culture and cognition from an anthropological perspective. Topics include language origins, descriptive linguistics, language and cognition, synchronic and diachronic variation, language use in cultural context, discourse and pragmatics, writing systems and literacy. Special approval needed from the instructor.

ANTH500C - Theory/Method in Archaeology 500C-3 Theory and Method in Archaeology. Overview of the currents and controversies in anthropological archaeology in their historical and theoretical context. Topics include history of archaeological theory, explanation in archaeology, limitations of the archaeological record and archaeological approaches to the study of cultural variation. Special approval needed from the instructor.

ANTH500D - Theory/Methods Sociocult Anth 500D-3 Theory and Methods in Sociocultural Anthropology. This course is designed to enable students to identify, define and critically understand the major theories and methods of contemporary sociocultural anthropology. The course is organized into three general parts, reflecting broad areas of theoretical inquiry which have expanded most rapidly in anthropology since 1960: (1) ecological, economic and other materialist approaches; (2) cognitive, symbolic and other interpretive approaches; and (3) recent and ongoing research strategies, including critical and historical approaches. Special approval needed from the instructor.

ANTH500E - History of Anthropol Theory 500E-3 History of Anthropological Theory. Covers history of pre-20th century social theory and a survey of 20th century theories in socio-cultural anthropology. Topics include: Enlightenment social theory, social evolutionism, racial formalism and the Boasian critique, relativism and functionalism; cultural materialism, cultural ecology, neo-evolutionism, ecological anthropology, structuralism, ethnoscience, interpretive anthropology, practice theory, post-modernism, and gender theory. Special approval needed from the instructor.

ANTH501 - Practicum Educ Anthropology 501-(3-6, 3 per semester) Practicum in Educational Anthropology. This practicum provides anthropology PhD students actual classroom experience in a lower division anthropology course. Students will be involved in the teaching of designated courses. Faculty will meet with practicum members on a regular basis, critique their lectures, and together with them work out problems and plan future directions of the course. Graded S/U only. Restricted to anthropology doctoral students only.

ANTH510 - Sem Arch North America 510-3 to 9 (3 per topic) Seminar Archaeology of North America. Seminar studying issues concerning the prehistoric and historic inhabitants of North America north of Mexico. From year to year, the precise areal and topical coverage will vary, as will the instructors. Students should consult department about subjects to be offered.

ANTH511 - Sem Meso-American Arch 511-2 to 9 (2 to 3 per topic) Seminar in Meso-American Archaeology. From year to year, the areal and topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be covered.

ANTH513 - Seminar in Archaeology 513-3 to 9 (3 per topic) Seminar in Archaeology. Seminars in varying topics in archaeology. Students should consult department about subjects to be covered.

ANTH514 - Sem S American Arch 514-3 to 9 (3 per topic) Seminar in South American Archaeology. Seminar will focus upon archaeological investigations of specific cultures, regions, time periods or cultural processes in South America. From year to year the areal and topical coverage of the course will vary, as may the instructor. Students should consult the department about subjects to be covered. Prerequisite: ANTH 430F, 500C, 500D or 500E or consent of instructor.

ANTH515A - Seminar Sociocultural Anth 515A-3 to 9 (3 per topic) Seminar in Sociocultural Anthropology. Advanced seminar on theoretical perspectives in the social sciences and humanities. Topical focus will vary from year-to-year. Course may be taken again as topics vary. Extensive readings are drawn from a wide range of sources.

ANTH515B - Seminar Sociocultural 515B-3 to 9 Seminar in Sociocultural Anthropology. Intensive analysis of a limited set of monographs organized around a theoretical problem or set of problems.

ANTH516 - Sem Complex Societies 516-3 to 9 (3 per topic) Seminar in the Archaeology of Complex Societies. Seminar reviews selective literatures dealing with theoretical and methodological issues in archaeological investigation of pre-industrial, regional complex societies. From year to year the topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be offered. Prerequisite: ANTH 500C, 500D or 500E; or consent of the instructor.

ANTH520 - Seminar New World Ethnol 520-2 to 6 (2 to 3 per topic) Seminar in New World Ethnology. From year to year, the areal and topical coverage of this course will vary, as will instructors. Students should consult the department about subjects to be covered.

ANTH521 - Seminar Ethno Latin Amer 521-2 to 6 (2 to 3 per topic) Seminar in Ethnology of Latin America. From year to year, the areal and topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be covered.

ANTH522 - Seminar Anth of Oceania 522-2 to 6 (2 to 3 per topic) Seminar in the Anthropology of Oceania. From year to year, the areal and topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be covered.

ANTH523 - Seminar Anth of Africa 523-2 to 6 (2 to 3 per topic) Seminar in Anthropology of Africa. From year to year, the areal and topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be covered.

ANTH525 - Theorizing the Body 525-3 Theorizing the Body. (Same as WGSS 525) This seminar explores a broad range of theoretical readings centering on the human body. Once the province of medical science and certain schools of philosophy, recent research in the social sciences and the humanities position "the body" as a primary site of socialization, gendering, social control.

ANTH527 - Seminar in Gender 527-3-9 Seminar in Gender. An advanced seminar in anthropological approaches to gender. Theoretical and topical approaches will vary from semester to semester. In

any given semester topics may include: power, agency, ethnographies of gender, the construction of masculinity/femininity, gender diversity, gender and the state, gender and everyday. Prerequisite: ANTH 500D or consent of instructor.

ANTH528 - Culture and Materiality 528-3 Seminar in Culture and Materiality. An advanced seminar in anthropological approaches to culture and materiality. Theoretical and topical approaches will vary depending on the instructor and semester. In any given semester topics may include: Human and non-human agency, the social and the technological, science studies, production and consumption, human-environment relations, the role of the senses in culture, and knowledge, skill and practice. Prerequisite: ANTH 500D or consent of the instructor.

ANTH530 - Seminar in Paleoanthro 530-3 to 9 (3 per topic) Seminar in Paleoanthropology. Topics will be drawn from any dealing with the fossil and/or contextual evidence for human evolution (e.g., The Place of Neandertals in Human Evolution; Taphonomy and Paleoecology; Origins of Bipedalism). From semester to semester, the topical coverage will vary, as will the instructor. Students should consult the department about subjects to be covered.

ANTH531 - Bioarchaeology 531-3 to 9 Seminar in Bioarchaeology. Seminars will focus on theoretical and methodological issues relating to the excavation and analysis of human skeletal remains. From semester to semester, The topical coverage will vary, as will the instructor. Students should consult the department about subjects to be covered.

ANTH532 - Seminar Hum Biol Variat 532-3 to 9 (3 per topic) Seminar in Human Biological Variation. Topics will be drawn from any of the areas of biological variation among humans (e.g., Comparative Epidemiology, Human Sociobiology, Demography and Paleodemography, or Multivariate Pattern Recognition). From semester to semester, the topical coverage will vary, as will the instructor. Students should consult the department about subjects to be covered.

ANTH534 - Seminar Evolution Theory 534-3 to 9 (3 per topic) Seminar in Evolutionary Theory. Seminars will be constructed around various theoretical and/or substantive issues in current biological evolutionary theory (e.g., Issues in Paleobiology, Evolution At and Above the Species Level or Phylogenetic Systematics). From semester to semester, the topical coverage will vary, as will the instructor. Students should consult the department about subjects to be covered.

ANTH536 - Seminar Primate Behav/Ecology 536-3 to 9 (3 per topic) Seminar in Primate Behavior and Ecology. Topics will vary among theoretical and substantive issues in primate behavior and ecology (e.g., Primate Social Structure, Socioecology, Diet, Locomotion and Foraging Strategies, or Reproductive Strategies in Primates). From semester to semester, the topical coverage will vary, as will the instructor. Students should consult the department about subjects to be covered.

ANTH538 - Seminar Primate Evolution 538-3 to 9 (3 per topic) Seminar in Primate Evolution. Topics will vary among substantive (taxonomic), theoretical, and contextual issues in primate evolution (e.g., Catarrhine Evolution, Anthropoid Origins, Molecular vs. Fossil Evidence for Hominoid Phylogeny or The Role of Body Size and Allometry in Primate Evolution). From semester to semester, the topical coverage will vary, as will instructor.

ANTH544 - Discourse Analysis 544-3 Discourse Analysis. (Same as LING 544) Survey of major approaches to the analysis of spoken or written discourse including speech act theory, pragmatics, interactional sociolinguistics, ethnography of communication, conversation analysis, variation analysis and critical discourse analysis.

ANTH545 - Seminar in Linguistics 545-2 to 6 (2 to 3 per topic) Seminar in Anthropological Linguistics. From year to year, the areal and topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be covered.

ANTH546 - Language, Gender, Sexuality 546-3 Language, Gender and Sexuality: Anthropological Approaches. (Same as LING 545, WGSS 546) This course examines the study of language in society with a particular focus on how linguistic practices are part of the construction of gender and sexual identities, ideologies, social categories and discourses. Anthropological theories applied to the study of language, gender and sexuality will be covered along with a variety of methodological approaches.

ANTH548 - Linguistic Anth of Education 548-3 The Linguistic Anthropology of Education. (Same as LING 548) This course examines the role of language in education through a critical anthropological lens, examining educational institutions across cultures and times. Topics to be covered include the teaching of literacy, language policies and ideologies in education, the linguistic construction of identities in school settings (including national, ethnic, gender, sexuality, age, religious and social class identities) and modes of intervention to improve educational endeavors. Ethnographic studies of education in a variety of national, cultural and linguistic contexts will be covered, as well as other discourse analysis approaches to the study of educational processes and institutions. The course is designed to bring together a wide range of material of interest to graduate students in anthropology, linguistics, education and other related fields.

ANTH551 - Pragmatics 551-3 Pragmatics. (Same as LING 551) An investigation of language use in context; this incorporates both social and psychological aspects of language use. Topics to be covered in this course include speech acts; implicature; conversation analysis; and the acquisition of communicative competence by both first and second language learners. Prerequisite: ANTH 500B or LING 505.

ANTH554 - Evolution Seminar 554-1 to 4 (1 per semester) Evolution Seminar. (Same as MBMB 554, PLB 554) Advanced topics in evolutionary biology including genetics & development, evolutionary ecology, phylogeny, paleontology, biogeography, population genetics, molecular ecology, speciation, molecular evolution, and macroevolution. Topics will vary each semester. Seminar format with group discussions and student presentations. Graded S/U. Special approval needed from the instructor.

ANTH555 - Curation Biol Collection 555-3 Curation of Biological Collections. (Same as ZOO 555) An overview of the organization and operation of modern collections involving animal, plant, and microbial specimens. Topics include specimen preparation and curation, collection databases, specimen-collection laws, and field-collection techniques. Special approval needed from the instructor.

ANTH556 - Phylogenetics 556-3 Phylogenetics. (Same as MBMB 556, PLB 556, and ZOO 556) An advanced introduction to modern methods of phylogenetic inference, emphasizing both theoretical background concepts and numerical approaches to data analysis. Topics include properties of morphological and molecular characters, models of character evolution, tree estimation procedures, and tree-based testing of evolutionary hypotheses. Special approval needed from the instructor.

ANTH560 - Seminar Comp Social Orgz 560-2 to 6 (2 to 3 per topic) Seminar in Comparative Social Organization. From year to year, the areal and topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be covered.

ANTH567 - Seminar Theory & Method 567-2 to 6 (2 to 3 per topic) Seminar in Anthropological Theory and Method. From year to year, the areal and topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be covered.

ANTH568 - Sem Analyt Methods Arch 568-3 to 12 (3 per topic) Seminar in Analytical Methods in Archaeology. Seminar in definition, measurement and description of data in relation to archaeological research problems. From year to year, the topical coverage of this course will vary, as will the instructors. Students should consult the department about subjects to be offered. Special approval needed from the instructor.

ANTH576 - Seminar Reserch Design 576-2 to 6 (2 to 3 per topic) Seminar in Anthropological Research Design. Supervised training in the preparation of anthropological research designs. Requirements will include completed research proposals involving the relation of data to theory and results in the general sub-areas of archaeological, physical, social and linguistic anthropology. Coverage will vary. Students should consult the department.

ANTH580 - Topics in Evolution 580-1 Current Topics in Evolution. (Same as MBMB 580, ZOO 580) The Evolution Discussion Group meets weekly throughout the year to discuss current evolutionary literature and the research of participants. All students and faculty with an interest in evolutionary biology are welcomed to participate.

ANTH581 - Seminar in Anthropology 581-2 to 6 (2 to 3 per topic) Seminar in Anthropology. From year to year, the areal and topical coverage of this course will vary, as will the instructor. Students should consult the department about subjects to be covered.

ANTH585 - Readings in Anthropology 585-1 to 12 (1 to 3 per semester) Readings in Anthropology. Guided readings to cover special topics and fill gaps in the student's specialized anthropological background in preparation for PH.D. candidacy examination, to be arranged with department. Graded S/U. Restricted to doctoral students only. Special approval needed from the instructor.

ANTH590 - Internship 590-3 Internship. This provides a supervised experience in a professional setting, generally entailing supervisory, editorial, and/or administrative duties. Special approval needed from the instructor.

ANTH595 - Field Methods Ethnology 595-3-6 Field Methods in Ethnology. Anthropological methods of inquiry and documentation of cultures and habitat together with appropriate instruction in the technique of field work such as photography and sound recording. Special approval needed from the instructor.

ANTH596 - Adv Field Methods in Arch 596-6 to 18 Advanced Field Methods in Archaeology. Advanced, hands-on training in the field of archaeological method and theory. Graduate students will have extended training in supervisory and documentation tasks and roles, in addition to other field training. Students will be expected to be in residence at the field school headquarters off campus for the entire field season. Prerequisite: ANTH 496 or consent of instructor.

ANTH597 - Fieldwork in Anthropology 597-1 to 12 Fieldwork in Anthropology. To be arranged with department. Graded S/U only.

ANTH598 - Accelerated Thesis 598-1 to 9 Accelerated Thesis. This course is restricted to students to be accelerated from the M.A. to the Ph.D. program (at the discretion of the faculty). Its purpose is to allow the student, under the guidance of his/her major advisor, to complete the research paper and other requirements of an M.A. degree. Graded S/U only. Special approval needed from the department and departmental offer of accelerated entry to Ph.D. program in Anthropology.

ANTH599 - Thesis 599-1 to 6 Thesis. Special approval needed from the instructor.

ANTH600 - Dissertation 600-1 to 32 (1 to 12 per semester) Dissertation. Special approval needed from the instructor.

ANTH601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

ANTH699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Anthropology Faculty

Adams, Jane H., Professor, *Emerita*, Ph.D., University of Illinois-Urbana, 1987; 1987.

Balkansky, Andrew K., Professor and *Interim Dean of the College of Liberal Arts*, Ph.D., University of Wisconsin, 1997; 2003. Archeology, settlement patterns, social evolution, urbanism; Mexico, Central America.

Barrios, Robert E., Professor, Ph.D., University of Florida, 2004; 2006. Public anthropology, medical anthropology, anthropology of disasters, science and technology studies, postcolonial studies, Mesoamerican ethnography.

Butler, Brian M., Adjunct Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1977; 1977. Archaeology, cultural resource management, prehistoric subsistence and settlement systems; southeastern and midwestern US.

Ciubrinskas, Vytis, Adjunct Assistant Professor, Ph.D., Vilnius University, 1993.

Corruccini, Robert S., Professor, *Distinguished Scholar, Emeritus*, Ph.D., University of California, Berkeley, 1975; 1978.

Dabbs, Gretchen, Professor, Ph.D., University of Arkansas, 2009; 2010. Bioarchaeology, Forensic Anthropology, Taphonomy; Middle East and North America.

Ford, Susan M., Professor, *Emerita*, Ph.D., University of Pittsburgh, 1980; 1979. Physical anthropology, primate paleontology and systematics (especially New World monkeys and early anthropoids), evolutionary theory, functional and comparative anatomy; South America.

Fuller, Janet M., Professor, *Emerita*, Ph.D., University of South Carolina, 1997.

Gumerman, George J., Professor, *Distinguished Scholar, Emeritus*, Ph.D., University of Arizona, 1968; 1973.

Handler, Jerome S., Professor, *Distinguished Scholar, Emeritus*, Ph.D., Brandeis University, 1965; 1962.

Hill, Jonathan D., Professor, Ph.D., Indiana University, 1983; 1986. Ethnology, ecology, history, ethnomusicology, structural semantic analysis; Amazon.

Hofling, C. Andrew, Professor, *Emeritus*, Ph.D., Washington University, 1982; 1996. Linguistics; discourse analysis, Maya; Mesoamerica.

Maring, Ester G., Assistant Professor, *Emerita*, Ph.D., Indiana University, 1969; 1965.

McCall, John, Associate Professor, Ph.D., Indiana University, 1992; 1995. Sociocultural anthropology, social theory, epistemology, history, ritual studies, medical anthropology, expressive culture; Africa.

Muller, Jon D., Professor, *Emeritus*, Ph.D., Harvard University, 1967; 1966.

Reichard, Ulrich, Associate Professor, Ph.D., Goettingen University, 1995; 2006. Primate evolution, behavior, socioecology and cognition; human origins and human evolution; Asian primates.

Rice, Don, Professor, *Emeritus*, Ph.D., Pennsylvania State University, 1976; 1991.

Rice, Prudence M., Professor, *Distinguished Scholar, Emerita*, Ph.D., Pennsylvania State University, 1976; 1991.

Shimada, Izumi, Professor, *Distinguished Scholar*, Ph.D., University of Arizona, 1976; 1994. Archaeology, complex societies, technology and craft production, urban and ceremonial centers, experimental archaeology; Andes.

Sutton, David, Professor, Ph.D., University of Chicago, 1995; 1999. Anthropological theory/ethnographic inquiry, social anthropology, cultural analysis.

Wagner, Mark, Adjunct Associate Professor, Ph.D., Southern Illinois University, Carbondale, 2010; 2011. Staff Archaeologist.

Welch, Paul D., Associate Professor and *Interim Chair*, Ph.D., University of Michigan, 1986, 2001. Archaeology, politics and economics in midrange societies, eastern U.S., quantitative methods.

Architecture

The Master of Architecture degree is a first professional degree intended for individuals who have completed a pre-professional undergraduate degree in architecture or architectural studies and requires a minimum of 42 semester hours that can be completed over a 15 month period including a summer, fall, spring and summer semester sequence.

The core of the architecture program is the design studio. In the Graduate program students are exposed to concentrations in community and regional design, technology, theory and building design. Students are required to take advanced courses in research methods, programming and professional practice. Students receive a rigorous and demanding education that will prepare them for a variety of architectural intern positions.

The focus of the program will develop through the:

- Traditional program strength in technological innovation and practice connected to architectural theory.

- Service and discovery related to the regional and global culture and environment as a unique model and framework for the study of architecture.
- Investigation of the work and legacy of R. Buckminster Fuller at Southern Illinois University as it impacts twenty-first century architecture.

The entire undergraduate and graduate curriculum is designed to fulfill National Architectural Accrediting Board (NAAB) requirements and conditions for a professional degree in architecture. The Master of Architecture degree is fully accredited by the National Architectural Accrediting Board (NAAB) and meets educational requirements for licensure in Illinois and other states as well as National Council of Architectural Registration Boards (NCARB) certification requirements.

- *In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.*
- *Master's degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.*
- *The NAAB grants candidacy status to new programs that have developed viable plans for achieving initial accreditation. Candidacy status indicates that a program should be accredited within 6 years of achieving candidacy, if its plan is properly implemented.*

Vision and Mission

The SIU architecture graduate program invites students to unleash their potential and join in the exploration, development, and creation of architecture in the heartland of America. It is our vision to be an architectural program of excellence built upon the cultural and environmental heritage of the Southern Illinois region that provides a superior education and produces the highest quality architectural scholarship and research to serve our global communities.

Through our cultural heritage, environmental context and the tradition of integrating emerging technology and innovative practice, the mission of the architecture faculty and students is to explore, create, and develop architecture as a synthesis of design excellence, artistic expression, technology and community involvement.

Goals

- Our graduates are lifelong learners, leading citizens and professionals in communities throughout the world.
- We provide for the development of individual creativity through the expression of human, social and environmental values.
- We serve our communities through problem solving and creative efforts in the addressing of regional issues.
- We seek to fulfill the vision expressed by Ernest Boyer and Lee Mitgang in *Building Community* to:
- Produce architecture that enhances the quality of life of our communities, serves the needs of clients, uplifts the human spirit, preserves the environment, provides social justice and expands aesthetic frontiers.
- Pursue the scholarship of discovery, integration, application and teaching.
- Provide a curriculum that is liberal, flexible and integrated both within the discipline of architecture and in connections with other disciplines in the design-build process.

Application Requirements and Procedures

A complete application consists of:

1. The Master of Architecture application form
2. Graduate School application

3. Application fee of \$65
4. Portfolio
 - Examples of work should include design studio work, professional presentation drawings, and any related expressions that demonstrate the applicant's design and communication abilities. Professional work should include a statement from the employer stating the role of the applicant in the process and product of the work.
 - Preferred sizes: (8 ½" x 11") or (11" x 17"). Use a PDF file.
 - Maximum number of pages: 25
 - Covers and binding: simple and easy to read
 - Portfolios cannot be returned to the applicant.
5. Three letters of recommendation
6. Official transcripts from all institutions attended
7. Statement of purpose expressing academic and professional career goals and plans

International applicants also need to supply TOEFL (Test of English as a Foreign Language) scores that satisfy the Graduate School requirements and Certification of Finances for Admission to the Graduate College.

Graduate Record Examination (GRE) is not required for the Master of Architecture Program. However, many scholarship and fellowship opportunities do require the GRE. Applicants are encouraged to submit test scores.

Application materials are reviewed by the faculty of the School of Architecture. Each submission is evaluated individually and the decisions are based upon the quality of the portfolio, the strength of the academic record, the letters of recommendation, professional experience and the commitment and clarity expressed in the letter of intent.

Curriculum Guide

The curriculum has been created to provide a superior architectural education and satisfy NAAB "Student Performance Requirements". The graduate curriculum consists of 42 semester credit hours which must be completed prior to awarding of the Master of Architecture degree. This whole curriculum can be taken on either format: in-house or on-line, both containing the same curriculum and 4-semester length.

All applications will be reviewed to ascertain fulfillment of the educational criteria of the SIU undergraduate program and accreditation standards. Any deficiencies will be defined upon acceptance into the program as well as the necessary course requirements to eliminate those deficiencies. Those requirements must be fulfilled prior to completion of the Master of Architecture degree. Based on student undergraduate credentials, multiple curricular paths are defined to address these requirements.

Path A - 15-Month Curriculum (For candidates with a 4-year pre-professional degree in architecture)

Summer I Semester

- ARC 550 Regional Architecture Studio 6
- TOTAL 6**

Fall Semester

- ARC 500-3 Research Methods and Programming 3
- ARC 541-3 Arch. Systems & the Environment 3
- ARC 551-6 Comprehensive Architecture Design Studio 6
- ARC 591-3 Architectural Professional Practice I 3

TOTAL 15

Spring Semester

ARC 532-3 Global Traditions in Architecture 3
ARC 552-6 Graduate Architectural Design Thesis I 6
ARC 592-3 Architectural Professional Practice II 3
Elective 3
TOTAL 15

Summer II Semester

ARC 554-6 Design/Thesis II 6 –or-
ARC 593-6 Architectural Research Paper 6 –or-
ARC 599-6 Thesis 6
TOTAL 6

Path B - 27-Month Curriculum

(For candidates with a 4-year degree in interior design or an allied area of practice)

Fall I Semester

ARC 341-4 Building Technology II 4
ARC 361-3 Architectural Structures I 3
ARC 381-2 Environmental Design I 2
ARC 451-6 Design V - Urban Design 6
TOTAL 15

Spring 1 Semester

ARC 342-4 Building Technology III 4
ARC 361-3 Architectural Structures II 3
ARC 452-6 Design VI - Integration 6
ARC 462-3 Architectural Structures III 3
TOTAL 15

Summer I Semester

ARC 500 Regional Architecture Studio 6
TOTAL 6

Fall II Semester

ARC 554-6 Design/Thesis II 6 –or-
ARC 593-6 Architectural Research Paper 6 –or-
ARC 599-6 Thesis 6

Integrated Path to Architectural Licensure (IPAL) Option

The Integrated Path to Architectural Licensure program is offered in an online format as an option for students. This Program consists of 43 graduate credits total. In addition to 39 hours of the 42-credit graduate program shown above, four courses are completed: ARC 594, ARC 595, ARC 596, and ARC 597. The elective shown in the 42-credit graduate program is replaced by one of these courses. All four courses are completed to fulfill the IPAL option.

To be admitted to the IPAL option, applicants must have documented work experience of at least 2000 hours on their National Council of Architectural Registration Boards Council Record, also known as the Architectural Experience Program (formerly known as the Intern Development Program). Applicants must

also be working in a firm that is willing to partner with the applicant and the School of Architecture to document IPAL requirements for the applicant during their time in the program. Applicants should verify that their state of first licensure permits taking the Architecture Registration Exam before completing the professional degree.

Students may complete one of the four IPAL courses as their elective provided their total educational record fulfills National Architectural Accrediting Board requirements for a professional degree.

Architecture Courses

ARC481 - Environmental Design II 481-3 Environmental Design II: Energy and Systems. (Same as ID 481) The study of the influence of energy, human comfort, climate, context, heating, cooling and water on the design of buildings and sites. The design of passive and active environmental systems and strategies for sustainability. Restricted to major in Interior Design or Architectural Studies; Junior standing with permission.

ARC482 - Environmental Design III 482-3 Environmental Design III: Lighting and Acoustics. (Same as ID 482) This course provides a comprehensive overview of the study of the influences of energy, human comfort, climate, and context, luminous and sonic environment with emphasis on energy-conscious design. Restricted to major; Junior standing with permission.

ARC500 - Arch Res Methods & Programming 500-3 Research Methods and Programming. The foundational study of research methods and programming that serve architectural studies. This course investigates the co-application of multiple methodologies for the development of research topics and architectural programs. The conclusion of the course is the definition of an individual thesis project to be completed in the Graduate Program. Restricted to enrollment in M. Arch. program.

ARC502 - Architecture Seminar 502-3 Architecture Seminar. Study of current trends and topics in architecture. Assigned readings and investigations are completed on approved topics chosen by the student. Students have the option of completing in situ study during the course.

ARC510 - Construction Safety Mgmt 510-3 Construction Management and Operations: Construction Safety Management. Introduce principles of safety and health in the construction industry and their relationship to Construction Management and Operations (COMO). Include identification of safety and health hazards, risk reduction measures, personal protection, and safety attitudes and training. Explore Occupational Safety and Health Regulations for Construction.

ARC511 - Time, Value & Risk Mgmt 511-3 Construction Management and Operations: Time, Value and Risk Management. Overview of management issues and scheduling for a project. Explain importance of time and risk management in construction and construction business. Study how fundamentals of scheduling, liability, and value are interrelated and explore impacts on project, scope, and budget. Apply constructability, sustainability, return on investment strategies, quality management terms and definitions throughout project phases.

ARC512 - Construction Project Mgmt 512-4 Construction Management and Operations: Construction Project Management. This is a two-part course beginning with an overview of the project management process followed by a more in-depth examination of the activities needed to successfully initiate, plan, schedule, and control the time, schedule, scope, and cost factors of a project. The second part of the course conducts a more focused and in-depth application to the CM process and services.

ARC513 - Budget & Cost Management 513-3 Construction Management and Operations: Budget and Cost Management. Provide overview of various estimating tools and methods for managing budgets, project estimates, and costs during program, construction and facilities management phases. Identify roles and responsibilities for controlling and monitoring project cost. Identify and develop methods for creating valid project estimates and budgets. Explore Integrated Project Delivery (IPD) for budget and cost management.

ARC531 - Seminar: Arch History 531-3 Seminar: Architectural History. A seminar devoted to the teaching, investigation and discussion of the history of architecture. Students have the opportunity

to investigate historical precedents and the context within which these ideas have developed. The connection to the contemporary architectural setting and current concepts will be developed and discussed.

ARC532 - Global Traditions 532-3 Global Traditions in Architecture. Seminar to discuss architecture beyond the tradition of Western civilization. Focus is upon the architecture of Asia, the Middle East and North America. Primitive, pre-industrial vernacular as well as cultural specific high style architecture is included. The course format is: lectures, assigned reading, class discussion and individual research reports.

ARC541 - Arch Systems & Environment 541-3 Architectural Systems and the Environment. Provides an overview of building technology and systems and the role of building systems performance in providing architectural and human environments and their subsequent impact upon the natural environment. The course builds upon the philosophical ideas of sustainable design and resource consumption tools. Concurrent enrollment in ARC 551 is required. Restricted to enrollment in M. Arch program.

ARC550 - Regional Arch Studio 550-6 Regional Architecture Studio. Architectural design studio focused upon regional architecture and planning. The studio addresses regional architectural issues building upon the local culture and design traditions. Restricted to enrollment in the M. Arch. program. Studio fee: \$72.

ARC551 - Comp Arch Design Studio 551-6 Comprehensive Architecture Design Studio. Arch. design studio focused upon comprehensive design of a large-scale urban building as fulfillment of the total integration of architectural systems and design criteria. This course serves as the culmination of the fulfillment of student performance criteria through the integration of all major building and urban systems while addressing the current human, social, and environmental issues. Prerequisite: ARC 550. Co-requisite: ARC 541. Restricted to enrollment in M. Arch program. Studio fee: \$72.

ARC552 - Grad Arch Des Thesis I 552-6 Graduate Architectural Design Thesis I. Initial development of individual design thesis project in a studio setting. The studio will consist of design project or an individual student thesis project as developed in ARC 500-3. Approval of thesis project by graduate faculty is required. Prerequisite: ARC 500 and 551. Restricted to enrollment in M. Arch. program. Studio fee: \$72.

ARC554 - Grad Arch Des/Thesis II 554-6 Graduate Architectural Design/Thesis II. A continuation of ARC 552 in the conclusion, presentation and final approval of the individual design/thesis project in a studio setting. This course is taken by students who wish to graduate through the department. Prerequisite: ARC 552. Studio fee: \$72.

ARC555 - Urban Design & Community 555-6 Urban Design & Community. (Same as ARC 451) Study of urban design and community as cultural and spatial development of human settlement patterns. All previous design course experience will be brought to bear on the architectural projects within the context of urban and community criteria. Restricted to major. Studio fee: \$72.

ARC556 - Design VI: Integration 556-6 Design VI: Integration. (Same as ARC 452) This comprehensive design studio focuses the knowledge and skills developed in all previous courses on a single project. The course emphasizes the design integration of the building's structural and environmental systems. Restricted to major in architectural studies. Studio fee: \$72.

ARC557 - Graduate Vertical Design 557-6 to 12 Graduate Vertical Architectural Design. This course is designed as a fast-paced, flexible leveling design studio for individual candidates from architectural related degree programs who need to meet additional student performance criteria for graduate school entry. As an integrative studio, it further builds on individual capacities, progresses communication and design skills, while addressing complexities of modern architectural programs and design methodologies required to prepare students for advanced architectural expectations. The course engages rigorous research, analysis and synthesis within an urban building context, while emphasizing the integration of environmental and architectural systems into a comprehensive design. Documentation in appropriate technologies, emphasizing advanced critical thinking, communication skills, and multi-dimensional problem-solving capacities, are required and will be formally presented for review. \$12 Studio fee.

ARC562 - Analysis & Lateral Forces 562-3 Analysis & Lateral Forces. (Same as ARC 462) Continuing study of framing materials and systems for buildings using advanced concepts of structural analysis. Included are earthquake resistant structures, wind resistant design, composite beams, plastic theory,

statically indeterminate structures, long spans, moment distribution, multi-story structures, and other related topics. Restricted to major.

ARC570 - Architectural Visualization 570-3 Architectural Visualization. This course is designed to give the student a fundamental understanding of the practices of 3D architectural modeling and visualization. Themes emphasized are: 3D modeling; still frame rendering; animation production; image editing and post production. Restricted to enrollment in M. Arch. program.

ARC581 - Special Projects 581-1 to 12 Special Projects. Investigation of individual problems in architecture under the supervision of a faculty member. Restricted to M. Arch. majors. Special approval needed from the instructor.

ARC582 - Special Readings 582-1 to 6 Special Readings in Architecture. Assigned readings in an area of architecture under the supervision of a faculty member. Restricted to M. Arch. majors. Special approval needed from the instructor.

ARC583 - Environmental Design II 583-3 Environmental Design II: Energy and Systems. The study of the influence of energy, human comfort, climate, context, heating, cooling and water on the design of buildings and sites. The design of passive and active environmental systems and strategies for sustainability. Restricted to major.

ARC584 - Env Des III: Light & Acoustics 584-3 Environmental Design III: Lighting and Acoustics. This course provides a comprehensive overview of the study of the influences of energy, human comfort, climate, and context, luminous and sonic environment with emphasis on energy-conscious design. Restricted to major.

ARC591 - Professional Practice I 591-3 Architectural Professional Practice I. Introduction to the organization, management, and practice of architecture as a business and profession. Emphasis is placed on the range of services provided, professional ethics, business management, marketing, contracts and negotiations, design cost analysis/controls, and other aspects of professional practice. Restricted to enrollment in M. Arch. program.

ARC592 - Arch Professional Practice II 592-3 Architectural Professional Practice II. The development of the study and discussion of architectural professional practice issues including leadership, legal responsibilities, ethics and professional judgment. Restricted to enrollment in M. Arch. program.

ARC593 - Arch Research Paper 593-6 Architectural Research Paper. This course is for students who wish to perform individual research in architecture on an approved topic. Prerequisite: ARC 552. Restricted to enrollment in M. Arch. program.

ARC594 - Programming & Analysis 594-1 Programming & Analysis. The purpose of this course is to discuss the programming and analysis of a new architectural project. Included in the review of these topics will be related discussions with regard to project type, client needs, site and context. As part of the learning process, students will be expected to participate in class discussion as well as complete projects which are designed to develop critical thinking, speaking, and writing skills. Prerequisite: ARC 592 with a grade of B- or better.

ARC595 - Project Planning 595-1 Project Planning + Design. The course discusses the preliminary design of a building & the site of a new architectural project. Included in the review of these topics will be related discussions with regard to project type, client needs, site and context. As part of the learning process, students will be expected to participate in class discussion as well as complete projects which are designed to develop critical thinking, speaking, writing skills, and architectural design skills. Prerequisite: ARC 594 with a minimum grade of B-.

ARC596 - Project Development + Docs 596-1 Project Development + Documentation. The purpose of this course is to review the integration & detailing of a new architectural project. Included in the review of these topics will be related discussions with regard to building systems, assemblies, code, and cost. As part of the learning process, students will be expected to participate in class discussion as well as complete projects which are designed to develop critical thinking, speaking, writing, and architectural design skills.

ARC597 - Construction + Evaluation 597-1 Construction + Evaluation. The purpose of this course is to review the construction and evaluation of a new architectural project. Included in the review of these topics will be related discussions with regard to construction and post-occupancy evaluation. As part of the learning process, students will be expected to participate in class discussion as well as complete projects which are designed to develop critical thinking, speaking, and writing skills. Prerequisite: ARC 596 with a minimum grade of B-.

ARC599 - Thesis 599-6 Thesis. Graded S/U or DEF only. Prerequisite: ARC 552. Restricted to enrollment in M. Arch. program.

ARC601 - Continuing Enrollment 601-1 Continuing Enrollment. For graduate students who have not finished their degree program and who are in the process of working on their thesis, research paper, or capstone project course (ARC 554). Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Architecture Faculty

Anz, Craig K., Associate Professor and Director of the School of Architecture, M.Arch., MS ArchSt, Ph.D., Texas A&M, 1991; 2009

Brazley, Michael D., Associate Professor, B.Arch., Ph.D., University of Louisville, 1978; 2002.

Cho, Siwon, Associate Professor, Ph.D., Virginia Tech, 2008; 2009.

Davey, Jon, Professor, M.S., Ph.D., Southern Illinois University Carbondale, 1987; 2011.

Dobbins, John, Associate Professor, M. Arch., M. B. A., University of Illinois, 1986.

González-Torres, Rolando, Associate Professor and Head Master of Architecture program, M.L.A., M.A.Ed., Ph.D., Universidad Politécnica de Cataluña, 2008; 2014.

Kidd, Laura K., Associate Professor, Ph.D., Iowa State University, 1994; 1996.

LaGarce, Melinda, Associate Professor, *Emerita*, M.F.A., Texas Technology University, 1972; 1989.

Lee, Seung-Hee, Professor, Ph.D., The Ohio State University, 1998; 2012.

McDonald, Shannon Sanders, Associate Professor, M.F.A., M. Arch., Yale University, 1992; 2011.

Morthland, Laura, Associate Professor, M.I.Arc., M.F.A., University of Oregon, 2003; 2006.

Smith, Peter B., Associate Professor, B.S., M. Arch., University of Illinois, 1975; 1980.

Swenson, Robert, Associate Professor, Emeritus, B.S., M.Arch, Yale University, 1965; 1969

Wessel, Stewart P., Professor, B.S., M.F.A., University of North Texas, 1992; 1996.

White, David, Associate Professor, Emeritus, M.F.A., Southern Illinois University Carbondale, 1991.

Workman, Jane, Professor, *Emerita*, Ph.D., Purdue University, 1982; 1989.

Art and Design

In all of its graduate studio programs, the School of Art and Design strives to maintain a vital, creative environment in which emerging artists with strong motivation may develop, through intensive studio practice and appropriate scholarly support, a clear, mature, and professional focus to their creative life. The core of any program is the in-depth studio practice of individual studio disciplines and frequent, sustained contact with working professional faculty and fellow students. This work is supported and extended through formal studio course work, studies in the history of art, and through access to the many resources and opportunities inherent in a large multipurpose university.

M.F.A. Degree Program Description

The School of Art and Design offers graduate studies leading to the Master of Fine Arts degree in Art. The student is expected to select an area of emphasis among the following: 2D (Drawing, Painting and

Printmaking) Ceramics, Design, Glass, Metals (Blacksmithing and Small Metals), or Sculpture. A program will be planned in consultation with the major professor in that area. Graduates are qualified to enter professional practice as artists or the field of higher education.

Admission

An undergraduate degree in art or art education, or the equivalent in coursework or experience if the undergraduate degree is in another discipline, is required for admission into the Master of Fine Arts degree program. The student must also submit transcripts of all previous undergraduate work, present a portfolio of digital images and submit letters of recommendation.

Any exception to these requirements must be approved by the faculty in the studio arts and by the Director of the School of Art and Design.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Art and Design. Applicants must pay this fee by credit card.

Instructional Support Equipment Fee

The School of Art and Design assesses all graduate art majors an instructional support equipment fee of \$10 per credit hour; a maximum of 12 credit hours will be charged each for fall and spring semesters and 6 for summer.

Master of Fine Arts Degree (M.F.A.)

A minimum of 60 semester credit hours is required for the Master of Fine Arts degree in Art. All hours that are to count toward graduation must have the approval of the student's major adviser in the studio area of emphasis. Students may emphasize the following areas in studio: drawing, painting, printmaking, sculpture, ceramics, glass, metalsmithing/blacksmithing, and design. The length of time required to complete a 60 semester-hour program is usually five–six semesters or three academic years. Most graduate students are in residence for at least four-six semesters. Programs of residency must have the approval of the student's major adviser. Required hours are distributed as follows: 27 hours in the primary studio emphasis, 9 hours in art history or related subjects, six hours in thesis or terminal project work, and 18 hours of elective study of which twelve hours must be in studio disciplines. The remaining hours may be elected from any area within the School of Art and Design or in the University at large.

In addition to the completion of coursework, all candidates for the M.F.A. degree must, during the last semester of academic work, present a graduate exhibition, present a terminal project or a written thesis, and pass an oral examination. The terminal project is a creative activity presented in lieu of the written thesis, and in practice, the graduate exhibition is considered to satisfy the terminal project requirement.

Graduate education in the studio areas of emphasis is expensive, and because of the individual nature of creative work, it is virtually impossible to predict the exact cost for each student. The School of Art and Design provides the faculty and the studio and shop facilities that are necessary to the programs offered, but all other costs, especially materials, that are considered necessary to the successful completion of a graduate program are borne by the student.

M.F.A. Design Concentration

The Master of Fine Arts with a concentration in Design prepares students in the fundamentals of design research, project management, and client-based interdisciplinary design collaborations. This program will afford MFA candidates with opportunities to work collaboratively with undergraduate art and design students, design faculty, and corporate sponsors in applying two and three dimensional design process theory, methods, tools, and skills in a team setting aimed at using design as an innovation change agent. This partnering will contribute to the candidates' ability to cross boundaries of disciplines to be smarter and more creative thinkers that can result in entrepreneurial opportunities and a range of creative positions within industry. The thesis experience will include an interdisciplinary component, industry collaborator, plus development of a business plan.

Successful MFA candidates will have a range of career path options including, but not limited to: entrepreneurial brand/product development; product/graphic/brand design consulting; teaching at the higher education level; product-service brand management; consulting design team/project management; company design team management; design innovation management; plus hybrid's of these roles. Employment opportunities may also be linked to companies sponsoring thesis projects.

A minimum of 60 semester credit hours is required for this Master of Fine Arts degree concentration. Required hours are distributed as follows; 21 hours in primary studio emphasis, nine credit hours in art history or related subjects, nine hours in studio electives, nine hours in interdisciplinary electives, plus 12 credit hours in thesis, apportioned over two semesters.

Graduate Certificate in Art History

The certificate program in Art History will enable students to develop a broad knowledge of the history of art, become familiar with the discipline's methodology, and acquire training in teaching art history. Graduate students will be able to pursue the certificate program either independently or concurrently with an MFA.

Students enrolled in the certificate program must maintain a GPA of no less than 3.0 in all coursework counting towards the certificate. Maximum time allowed to complete all requirements for the certificate is six years from the date of admission to the program.

Admission

Any student who has completed a bachelor's degree is eligible to apply for admission to the certificate program. Students enrolled in the MFA program may enroll concurrently in the certificate program. They must apply for admission to the program before completing the "major part" of certificate work (50 percent of credit hours, or nine hours of art history coursework). Students seeking admission to the certificate program will be required to complete an application form and submit transcripts verifying completion of the bachelor's degree. An application fee of \$20 will be assessed to cover administrative costs.

Program Requirements

Students enrolled in the certificate program will be required to complete 18 credit hours of graduate level art history coursework. Of these, 3 credit hours will consist of AD 537, Teaching Practicum. No independent study (AD 507 Readings in Art History) courses will count towards the certificate coursework requirements. Of the 18 art history credit hours required by the certificate program, nine can count towards requirements of another graduate degree.

Eligible elective courses:

- AD 450A Museum Studies-Learning in Museums
- AD 497 A-D Research Seminar in Art History
- AD 517 Methods and Theory of the History of Art and Visual Culture
- AD 597 A-D Graduate Seminar in Art History
- CP 460 Survey of Film History
- CP 470 A-I Advanced Topics in Cinema Studies
- MCMA 550 History of Media Arts and Culture
- MCMA 551 Theory of the Media Arts

At any time during their enrollment in the certificate program, students will be able to petition the art history faculty to take a comprehensive qualifying exam. The exam will be administered at the end of the Fall and Spring semesters on an "as needed" basis. The test will assess the students' knowledge of art history (pre-history to present), pertinent terms and concepts, and general historical context. It will consist of three parts: slide identification, slide comparison, and a short essay section. A student will have to obtain a passing score on the exam in order to qualify for the Art History Certificate.

M.A. in Art History and Visual Culture

***Enrollments in Art History and Visual Culture (MA) have been suspended indefinitely.**

The MA in Art History and Visual Culture is an interdisciplinary program training students in the historical analysis of art and visual culture as well as career-enhancing competencies as teachers, scholars, museum professionals and visual resources curators. Courses explore issues in the production, reception, and theory of art from antiquity to postmodernity.

The degree is housed in the Art History Program of the School of Art and Design. Students are also encouraged to take courses in complementary disciplines such as Anthropology, Cinema Studies, English, History, History and Theory of Photography, and other related fields. Students are required to take 30 credit hours, with a minimum of 15 credits earned at the 500 level: 18 hours that will constitute the core requirement (a required course in methods and theory; and five distribution electives, to include courses in pre-1800, post-1800, and design history/theory); nine hours that will constitute the free electives; and three–six hours applied to a Master's thesis or a comprehensive examination (the student's choice).

Students are also required to pass a language examination in the reading of a German, a Romance language, or an approved substitute.

Requirements:

1. AD 517: Methods and Theory of the History of Art and Visual Culture (must be passed with a grade of an *A* or a *B*).
2. Core Courses (15 hours): Students may choose from the following courses to fulfill the Core distribution:
 - CP 470E Topics in the History of Photography
 - ANTH 410H African Expressive Culture
 - ANTH 410N Anthropology of Popular Culture
 - CP 415 Contemporary Photographic Criticism and Practice
 - AD 450A Museum Studies- Learning in Museums
 - CP 460 Survey of Film History
 - CP 470A Advanced Topics in Cinema Studies
 - AD 497 A-D Research Seminar in Art History
 - ANTH 515A Seminar in Sociocultural Anthropology
 - MCMA 550 History of Media Arts and Culture
 - MCMA 551 Theory of the Media Arts
 - MCMA 552 Seminar: Topics in the History and Theory of Media Arts
 - AD 597 A-D Graduate Seminar in Art History
3. Electives (9 credit hours): Depending on their area of interest, students may choose graduate course offerings from the above courses and from 500-level course offerings in departments including, but not limited to, Anthropology, Art and Design, Cinema and Photography and the college wide graduate programs in Mass Communication and Media Arts and Media Theory and Research in the College of Mass Communication & Media Arts, English, Foreign Languages, History, Philosophy, and Communication Studies, with prior approval from the Art History Graduate Advisor.
4. Master's Thesis or Qualifying Exam (3 credit hours): In their final semester, students must complete either AD 599: Thesis or AD 596: Master's Qualifying Exam with a grade of an *A* or a *B*.

Art and Design Courses

AD400D - Advanced 2D Studio Drawing 400D-3 to 30 Advanced 2D Studio - Drawing. Individual problem solving emphasizing technique and conceptual synthesis. Prerequisite: C or better in 6 hours of AD 400B. Advisor approval required for graduate students. Studio fee: \$8 per credit hour. Expenses may exceed \$100 per course.

AD401D - Advanced 2D Studio Painting 401D-3 to 30 Advanced 2D Studio - Painting. Individual problem solving emphasizing technique and conceptual synthesis. Prerequisite: C or better in 6 hours of AD 401B. Special approval needed from advisor for graduate students. Studio fee: \$4 per credit hour. Expenses may exceed \$100 per course.

AD402D - Advanced Printmaking I 402D-3 to 30 Advanced Printmaking I. Independent study in printmaking. Prerequisite: 6 hours of C or better in AD 402B. Special approval needed from advisor for graduate students. Studio fee: \$20 per credit hour enrolled. Incidental expenses may exceed \$50 for each section.

AD403D - Advanced Sculpture I 403D-3 to 30 Advanced Sculpture I. Independent study in sculpture. Prerequisite: 6 hours of C or better in AD 403B. Special approval needed from advisor for graduate students. Incidental expenses will be incurred. Studio fee: \$20 per credit hour.

AD404D - Advanced Ceramics I 404D-3 to 30 Advanced Ceramics I. Independent study in ceramics. Prerequisite: 6 hours of C or better in AD 404B. Special approval needed from advisor for graduate students. Studio fee: \$40 per credit hour enrolled.

AD405D - Advanced Metalsmithing I 405D-3 to 30 Advanced Metalsmithing I. Independent study in metalsmithing. Prerequisite: 6 hours of C or better in AD 405B. Special approval needed from advisor for graduate students. Studio fee: \$20 per credit hour enrolled. Incidental expenses may exceed \$75 for each section and may be slightly higher for blacksmithing.

AD414D - Advanced Glass I 414D-3 to 30 Advanced Glass I. Students will focus on studio practice and develop a mature body of work. With faculty guidance, students will identify concepts for an intensive level of visual research based on individual interests and commitments. Undergraduate students in this course will focus on creating a body of work for their senior thesis exhibition. Preparation for professional practices and graduation requirements, including individual portfolio presentation, slide portfolio, artist's statement, and senior thesis exhibition. This course is offered to graduate students who are interested in advanced and/or interdisciplinary research using glass. Prerequisite: C or better in 6 hours of AD 414B. Studio fee: \$80 per credit hour enrolled.

AD423 - ID Research & Prof Practice 423-6 Industrial Design Research and Professional Practice. This studio course develops the student's ability to conduct in-depth design research and to explore new needs and trends relating design to society. Additionally, students explore professional practice issues of designer/client, specific design business practices, and ethics. Graduate students will contextualize and execute multifaceted, research-driven problems, requirements include: creation/incorporation of design briefs and professional proposals with outcome solutions to include written research documentation. Undergraduates are restricted to senior standing or consent of instructor, with prerequisite: C or better in AD 363, 383. Satisfies the College of Liberal Arts Writing-Across-the-Curriculum requirement. Studio Fee: \$50.

AD424 - Ceramic Design 424-3 Ceramic Design. Ceramic Design focuses on three-dimensional design principles concerning form, surface, and function. The objective of this course is to serve as an introduction to the basic fundamentals of design through working with the ceramic medium. A series of demonstrations will provide basic exposure to technical aspects related to prototyping, plaster mold-making, slip-casting, glazing, and firing. The ideas and activities presented here are meant to develop facility in visualization, organization, and creative problem solving; to gain a greater appreciation for the broad visual culture we call art. Material fee: \$65.

AD432 - 3D Modeling & Visualization 432-3 3D Modeling and Visualization. Studio art course focusing on 3D software for modeling, rendering, and visualizing objects and environments. Projects include various 3D modeling methods and rendering techniques for 2D and 3D output for print, screen, and rapid prototyping equipment. Studio fee: \$85.

AD433 - Working with Wood 433-3 Understanding & Working with Wood. An exploration of wood as material through the use of hand tools and woodworking machines. Applications include utilitarian as well as art objects. Repeatable for a maximum of 6 hours toward degree. Studio fee: \$25.

AD442 - Moving Image Art 442-3 Moving Image Art. Time-based media art course covering topics and skills in 2D animation, motion graphics, video editing, compositing, and visual effects. Studio fee: \$20.

AD450A - Museum Studies-Learning 450A-3 Museum Studies-Learning in Museums. (Same as ANTH 450A) A detailed study of museums in the context of their use of exhibitions as an educational medium. Covers the evolution of the museum as a learning environment and the application of learning theory and principles in modern museums. Emphasis is placed on practicum experiences involving the design of learning experiences and educational programs in the museum setting.

AD451 - CAD & S.A.M. Lab 451-3 CAD & S.A.M. Lab. This course instructs participants how to use software and hardware required for rapid prototyping and the fabrication equipment currently available in the S.A.M. Lab (Subtractive Additive Maker Lab). Students will learn 2D and 3D modeling, with the objective to create physical outcomes.

AD452 - Graphic Design II 452-3 to 6 Graphic Design II. Multifaceted problems with emphasis on continuity of design in more than one medium or format. Client-based projects, environmental graphics and identity issues in design. Professional proposals and portfolio preparation. Graduate student requirements include multifaceted problems incorporating design briefs/professional proposals with outcome solutions to include written research documentation; no text requirements. Satisfies the College of Liberal Arts Writing-Across-the-Curriculum requirement. Undergraduate prerequisites: C or better in AD 322, 337, and 352. Studio fee: \$30.

AD460A - Lighting for Photography 460A-3 Lighting for Photography. Basic concepts and essential principles of lighting techniques will be thoroughly explained and investigated. Fundamental challenges in lighting arrangements and aesthetic considerations of both studio and location applications will be explored. Students will use a required text and provide photographic materials. Prerequisite: AD 360C with a grade of C or better or concurrent enrollment. Special approved needed from the department. Lab fee: \$60.

AD460B - Applied Photography 1 460B-3 Applied Photography 1. An introduction to professional photographic camera and lighting technique, applied theory and business responsibilities. Students will explore a range of commercial, editorial, industrial and fine art topics that will include architecture, portrait, product and fashion. Self-promotional elements: Web portfolios, publications of all types and gallery exhibitions will be introduced. Prerequisite: AD 360C with grade of C or better or concurrent enrollment and pass faculty portfolio review or consent of the instructor. Lab fee: \$60.

AD460C - Applied Photography 2 460C-3 Applied Photography 2. A second, advanced phase of applied photographic investigation based on the introduction outlined in AD 460B. Students pursue their selected area(s) of photographic specialization and create a complete portfolio. Students will receive critical feedback from professionals during off-campus trips to photographic facilities in St. Louis and Chicago. Prerequisite: AD 460B with a grade of C or better or concurrent enrollment. Lab fee: \$60.

AD460D - Contemp Photo Criticism 460D-3 Contemporary Photographic Criticism and Practice. Through screenings, readings, writings, field trips, and practical exercises, students will gain a broad-based knowledge of critical approaches to contemporary photography. Prerequisite: AD 360D with a grade of C or better. Screening fee: \$30.

AD460E - Experimental Photography 460E-3 Experimental Photographic Techniques. Experimental approaches to the creation of photographic images. Specific course content may include experimental techniques utilizing the camera, the darkroom, and wide range of media. Techniques may include Ortholitho printing, Wet-Plate Collodion photography, Modern Dryplate photography, Van Dyke Printing, Cyanotype + Digital Negative, and etc. Prerequisite: AD 360C with a C or better or concurrent enrollment and pass portfolio review. Lab fee: \$60.

AD460F - Topics in Photography 460F-3 to 6 Topics in Photography. A topics course in photography. Sample topics: the Business of Photography, Environmental Portrait, Image and Text. May be repeated if topics differ. No more than twelve (12) credit hours of AD 460F may be counted in the undergraduate Cinema and Photography degree. Prerequisite: AD 360A with a grade of C or better or consent of the department. Lab fee: \$60.

AD460G - Intermed Topics in Photo 460G-3 to 6. Intermediate Topics in Photography. An advanced topics course in photography. Sample topics: Expanded Range Photography, Advanced Digital Printing, Mobile Photography. May be repeated if topics differ. No more than twelve (12) credit hours of AD 460G may be counted in undergraduate Cinema and Photography degree. Prerequisite: AD 360C with a grade of C or better or consent of instructor. Lab fee: \$60.

AD460H - Adv Topics in Photography 460H-3 to 6 Advanced Topics in Photography. An advanced topics course in photography. Sample topics: Medium Format Photography, Zone System, Large Format Photography. May be repeated if topics differ. No more than twelve (12) credit hours of 460H Advanced Topics courses may be counted in the undergraduate Cinema and Photography degree. Lab fee: \$60.

AD472 - Graphic Design III 472-3 to 6 Graphic Design III. Special study in current communication design topics. Selected topics will vary with emphasis on studio problems and concept development. Applied problems in advanced digital technologies may include interaction/motion and/or web design. Portfolio preparation. Graduate student requirements: Prepare and present a paper on a specific digital technology, interaction, motion, or web design topic of their choosing. Prerequisites: C or better in AD 322, 337, and 352. Studio fee: \$30.

AD497A - Ancient or Medieval Art 497A-3 to 6 Research Seminar in Art History-Ancient or Medieval Art. A close examination of the history of art and visual culture from Ancient or Medieval periods and regions. In addition to reading and discussion on a specific topic, this class also focuses on the methods and process of conducting a research project. May be repeated for credit as topics will vary. Prerequisites: AD 207A; graduate status; or permission of instructor. Satisfies the College of Liberal Arts Writing-Across-the-Curriculum requirement.

AD497B - Early Modern Art 1400-1800 497B-3 to 6 Research Seminar in Art History-Early Modern Art (1400-1800). A close examination of the history of art and visual culture from Early Modern (1400-1800) periods and regions. In addition to reading and discussion on a specific topic, this class also focuses on the methods and process of conducting a research project. May be repeated for credit as topics will vary. Prerequisites: AD 207B and AD 207C; graduate status; or permission of instructor. Satisfies the College of Liberal Arts Writing-Across-the-Curriculum requirement.

AD497C - Modern/Contemporary Art 497C-3 to 6 Research Seminar in Art History-Modern and Contemporary Art. A close examination of the history of art and visual culture from Modern and Contemporary periods and regions. In addition to reading and discussion on a specific topic, this class also focuses on the methods and process of conducting a research project. May be repeated for credit as topics will vary. Prerequisites: AD 207C and either one of AD 207A or AD 207B; graduate status; or permission of instructor. Satisfies the College of Liberal Arts Writing-Across-the-Curriculum requirement.

AD497D - Selected Topics-Art History 497D-3 to 6 Research Seminar in Art History-Selected Topics. A close examination of the history of art and visual culture from selected periods and regions. In addition to reading and discussion on a specific topic, this class also focuses on the methods and process of conducting a research project. May be repeated for credit as topics will vary. Prerequisites: Two from either AD 207A, AD 207B, or AD 207C; graduate status; or permission of instructor. Satisfies the College of Liberal Arts Writing-Across-the-Curriculum requirement.

AD499 - Individual Problems 499-1 to 21 Individual Problems. Art studio course directed toward individual research in the student's major field. Emphasis is placed upon the history, materials, processes, and ideas that form the content and experience of the student's major field. Designed to adapt to students' individual needs in problem research. Restricted to senior standing in the School of Art and Design. Prerequisite: an overall 3.0 GPA. Special approval needed from the instructor.

AD500 - Advanced Drawing II 500-3 to 21 Advanced Drawing II. A studio directed toward individual research in the student's major field. Emphasis is placed upon the historical materials, processes and ideas that form the content and experience of the student's major field. Special approval needed from the advisor. Studio fee: \$25.

AD501 - Advanced Painting II 501-3 to 21 Advanced Painting II. Art studio course directed toward individual research in the student's major field. Emphasis is placed upon the history, materials, processes

and ideas that form the content and experience of the student's major field. Special approval needed from the advisor.

AD502 - Advanced Printmaking II 502-3 to 21 Advanced Printmaking II. Advanced studio course in printmaking directed toward individual research in the student's choice of print media. Emphasis is on the processes, which lead to the formation of personal content. Special approval needed from the advisor. Studio fee: \$20 per credit hour enrolled.

AD503 - Advanced Sculpture II 503-3 to 21 Advanced Sculpture II. Advanced studio course based upon focused individual research in the student's chosen media. Students develop a personal aesthetic in relation to the field of sculpture through technical accomplishment, intensive output, and engagement in rigorous critique. Special approval needed from the advisor. Incidental expenses may exceed \$100. Studio fee: \$20 per credit hour.

AD504 - Advanced Ceramics II 504-3 to 21 Advanced Ceramics II. Art studio course directed toward individual research in the student's major field. Coursework is designed to assist the student's discovery of ceramic form and content as applied to personal artistic expression. Emphasis upon the development of creative studio research techniques and seminar-type experiences exploring historical and contemporary issues as they relate to ceramic art. Special approval needed from the advisor. Studio fee: \$55 per credit hour enrolled. Incidental expenses may exceed \$50.

AD505 - Advanced Metals II 505-3 to 21 Advanced Metalsmithing II. Art studio course directed toward individual research in the student's major field. Emphasis is placed upon the history, materials, processes and ideas that form the content and experience of the student's major field. Special approval needed from the advisor. Studio fee: \$20 per credit hour enrolled.

AD507 - Readings in Art History 507-3 to 6 (3,3) Readings in Art History and Visual Culture. Independent study on topics in the history of art and visual culture developed in consultation with art history faculty. Typical projects include directed readings and research projects. Requires permission of the instructor.

AD510 - Integrated Design Practice 510-3 Integrated Design Practice. This course prepares students with design research theory and methodology to tackle critical social issues of our times. It will introduce basic methods in design research and methodology, both in qualitative and quantitative methods. It also serves as a platform for scholarly inquiry into design in the disciplines of graphic design, industrial/product design, advertising/art direction, fashion design, and interior architecture and in other aesthetic, spatial and technological practices. Students develop conceptual skills, aesthetic awareness, and technical mastery in individual and collaborative studio projects.

AD514 - Glass II 514-3 to 21 Advanced Glass II. An advanced glass course intended to increase the student's knowledge of the potential of glass as a medium of creative expression and to refine studio skills associated with the material. Coursework will include the investigation of historical and contemporary solutions to aesthetic problems related to the medium. Special approval needed from the advisor. Studio fee: \$80 per credit hour enrolled.

AD517 - Art/Visual Culture Methods 517-3 Methods and Theory of the History of Art and Visual Culture. This course introduces graduate students to the history of the disciplines of art history and visual culture, examining the assumptions and methods that have guided definitions, analyses, and critiques of art and visual culture. This course is required of students in the MA program in art history and visual culture.

AD521 - Advanced Design II 521-3 Advanced Design II. Multifaceted problems with emphasis on continuity of design in more than one medium or format. Advanced multifaceted problems incorporating design briefs and/or professional proposals intended to increase a student's knowledge of the theory and practice of branding, identity systems and design process and methodologies. Coursework will include the development of a body of work including research with outcome solutions based on individual or client-based requirements.

AD530 - Advanced Digital Design I 530-3 Advanced Digital Design I. Advanced design course intended to increase a student's knowledge of the theory and practical knowledge of digital design technologies and digital design problems. Coursework will include documentation of design process, user research,

and exploration of concepts and topics related to interaction design, interactive design, and time-based graphic design.

AD531 - Advanced Digital Design II 531-3 Advanced Digital Design II. A computer laboratory course focused on advanced utilization of two- and three-dimensional design processes, drawing and modeling software, and the application of such in the design profession. Course content covers advanced modeling techniques, surface modeling, power surface subdivision surface modeling, NURBS modeling, generative design, design for manufacturing assembly, disassembly and rapid prototyping, product planning, simulation, graphics and renderings, creation of tables used with assembly drawings and bill of materials.

AD537 - Art Hist Teaching Practicum 537-3 Teaching Practicum in Art History. Introduces students to pedagogical methods relevant to teaching art history. Students enrolled in the practicum will serve under the close supervision of the art history faculty as discussion leaders for one section of AD 101 or the AD 207 sequence. Practicum students will attend the AD 207 lectures and participate in a weekly teaching workshop, which will address topics such as the development of course syllabi and assignments, grading criteria, classroom policies, and teaching strategies. Prerequisite: Art History Certificate program and/or special approval from the instructor required.

AD572A - Advanced Design I 572A-3 to 6 Advanced Design I. Problems in promotional design applications including campaigns, packaging and advertising graphics. Emphasis is placed on professional realities, problem solving, and further development of creative design abilities. Multifaceted problems that incorporate design briefs and professional proposals with outcome solutions to include written research documentation and finished concept creation.

AD572B - Advanced Design I 572B-3 to 6 Advanced Design I. Problems in physical game applications including game ideation methods, game construction, playtesting, packaging, sales and promotional campaigns, and advertising graphics. Emphasis is on professional realities, problem solving, and further development of creative design abilities. Multifaceted problems that incorporate design briefs and professional proposals with outcome solutions to include written research documentation and finished concept creation.

AD583 - Practicum in Industrial Design 583-3 Practicum in Industrial Design. Advanced and comprehensive product design projects focusing on innovation and user needs. Projects may include corporate sponsors and/or interdisciplinary teams. Students will integrate research and 2D and 3D process documentation with additional focus on human factors and product interface. Undergraduates: Course parallels work in AD 363 and must be taken concurrently. Prerequisites: C or better in AD 313 and AD 323. Concurrent enrollment in AD 363. Graduates: Prepare and present a paper on a specific innovation, user needs, interdisciplinary teams, or collaboration topic of their choosing. Graduate students will serve as design directors for the client-based projects conducted by the undergraduate students in the class. Studio Fee: \$60.

AD596 - Qualifying Exam 596-3 Exam in Art History and Visual Culture. A comprehensive exam on the history, methods, and theory of the history of art and visual culture. Special written approval needed from the primary and secondary advisors.

AD597A - Sem Art Hist-Medieval Art 597A-3 to 12 (3 per topic) Graduate Seminar in Art History-Medieval Art. A close examination of the history of art and visual culture from various periods and regions. Topics will vary, and include (A) Medieval Art. Each section may be repeated for credit as topics vary.

AD597B - Sem Art Hist-Early Modern Art 597B-3 to 12 (3 per topic) Graduate Seminar in Art History-Early Modern Art. A close examination of the history of art and visual culture from various periods and regions. Topics will vary, and include (B) Early Modern Art. Each section may be repeated for credit as topics vary.

AD597C - Sem in Art Hist-Modern Art 597C-3 to 12 (3 per topic) Graduate Seminar in Art History-Modern and Contemporary Art. A close examination of the history of art and visual culture from various periods and regions. Topics will vary, and include (C) Modern and Contemporary Art. Each section may be repeated for credit as topics vary.

AD597D - Sem in Art History-Selected 597D-3 to 12 (3 per topic) Graduate Seminar in Art History-Selected Topics. A close examination of the history of art and visual culture from various periods and

regions. Topics will vary, and include (D) Selected Topics. Each section may be repeated for credit as topics vary.

AD599 - Thesis 599-3 to 6 Thesis. A thesis course that is directed toward individual research in the student's major field. Emphasis is placed upon the development of each student's approach to his/her professional practice within the context of the appropriate studio, art history/visual culture, or design field requirement set.

AD601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Art and Design Faculty

Abdul-Musawwir, Najjar, Professor, M.F.A., Southern Illinois University Carbondale, 1997, Painting.

Abrahamson, Roy E., Associate Professor, *Emeritus*, Ed.D., Columbia University, 1965; 1965, Art Education.

Addington, Aldon M., Associate Professor, *Emeritus*, M.F.A., Cranbrook Academy of Art, 1966; 1967, Sculpture.

Allen, Mont, Assistant Professor, Ph.D., University of California, Berkeley, 2014; 2014, Art History.

Archer, Richard, Assistant Professor, *Emeritus*, M.S., Governor's State University, 1979; 1986, Design.

Belletire, Steven P., Professor, *Emeritus*, B.F.A., University of Illinois, Champaign, 1971; 1997, Industrial Design.

Bernstein, Lawrence A., Associate Professor, *Emeritus*, M.F.A., Cranbrook Academy of Art, 1953; 1962, Drawing and Painting.

Bickel, Barbara, Associate Professor, *Emerita*, Ph.D., The University of British Columbia, 2008; Art Education.

Boysen, Bill H., Professor, *Emeritus*, M.F.A., University of Wisconsin, 1966; 1966, Glass.

Briggs, Larry S., Associate Professor, *Emeritus*, B.F.A., University of Oklahoma, 1956; 1985, Visual Communication.

Busch, Larry, Associate Professor, *Emeritus*, M.S., Southern Illinois University Carbondale, 1970; 1970, Design.

Chalmers, Pattie, Professor, M.F.A., University of Minnesota, 2001; 2006, Ceramics.

Deller, Harris, Professor, *Emeritus*, M.F.A., Cranbrook Academy of Art, 1973; 1975, Ceramics.

Feldman, Joel B., Professor, *Emeritus*, M.F.A., Indiana University, 1967; 1973, Printmaking.

Fredrickson, Laurel, Assistant Professor, Ph.D., Duke University, 2007; 2014, Art History.

Gradle, Sally A., Associate Professor, *Emerita*, Ed.D., University of Illinois, Urbana-Champaign, 2004; 2005, Art Education.

Greenfield, Sylvia R., Professor, *Emerita*, M.F.A., University of Colorado, 1967; 1968, Drawing and Painting.

Huang, Tao, Assistant Professor, Ph.D., Virginia Tech, 2007; 2015, Industrial Design and Communication Design.

Janssen, Travis, Associate Professor, MFA, Arizona State University, Tempe, 2007; 2014, Printmaking.

Kim, Sun Kyoung, Associate Professor, M.F.A., University of Illinois, 2007; 2008, Metalsmithing.

Lee, Jiyong, Professor, M.F.A., Rochester Institute of Technology, 2001; 2005, Glass.

Lintault, M. Joan, Professor, *Emerita*, M.F.A., Southern Illinois University Carbondale, 1962; 1973, Fibers.

Lopez, Alex, Associate Professor, M.F.A., Alfred University, 1998; 2006, 3-D foundations/sculpture.

Lopez, Robert Anthony, Associate Professor and *Interim Director*, M.F.A., University of Illinois, Urbana-Champaign, 2000; 2009, Industrial Design and Communication Design.

Mavigliano, George J., Associate Professor, *Emeritus*, M.A., Northern Illinois University, 1967; 1970, Art History.

Mawdsley, Richard W., Professor, *Emeritus*, M.F.A., University of Kansas, 1969; 1978, Metals.

Monteith, Jerry, Professor, M.F.A., Cranbrook Academy of Art, 1978; 1990, Sculpture.

Onken, Michael O., Associate Professor, *Emeritus*, M.A., Northern Illinois University, 1966; 1968, Drawing and Painting.

Palmer, Erin L., Associate Professor, M.F.A., Yale University, 1993, Drawing and Painting.

Paulson, Robert L., Professor, *Emeritus*, M.F.A., University of Wisconsin, 1967; 1967, Drawing and Painting.

Pease, Mark, Associate Professor, M.F.A., University of Pennsylvania, 2003; 2009, Digital Art.

Scott, Aaron, Associate Professor, M.F.A., Purdue University, 2008; 2009, Industrial Design and Communication Design.

Shang, Xuhong, Professor, M.F.A., Tyler School of Art, Temple University, 1992; 2008, Painting.

Shay, Edward H., Professor, *Emeritus*, M.F.A., University of Illinois, 1971, Drawing, Painting, and Printmaking.

Smith, Richard E., Professor, M.F.A., Southern Illinois University Carbondale, 1992; 1998, Blacksmithing.

Sullivan, James E., Associate Professor, *Emeritus*, M.A., University of California, Los Angeles, 1965; 1969, Art History.

Walsh, Thomas J., Professor, *Emeritus*, M.F.A., University of Michigan, 1962; 1967, Sculpture.

Youngblood, Michael, Associate Professor, *Emeritus*, Ph.D., University of Oregon, 1975; 1979, Art Education.

Zivkovich, Kay M. Pick, Professor, *Emerita*, M.F.A., Southern Illinois University Carbondale, 1973; 1989, Communication design.

Behavior Analysis and Therapy

The master's degree program in behavior analysis and therapy is a 45-semester hour program. Candidates have the option of a research paper or a thesis. Candidates concentrating primarily on preparation for entry into the helping profession ordinarily opt to complete a research paper in their area of concentration. The thesis option typically requires a thesis of an experimental nature, a survey, or other form of research in which empirical data are collected and analyzed. Candidates must demonstrate their skills in formulating researchable questions or hypotheses, in identifying and/or manipulating relevant variables, and in the analysis and reporting of the results.

Behavior Analysis and Therapy

The behavior analysis and therapy program is devoted to the empirically-based development and application of learning principles to a wide variety of human needs. Training is offered in behavioral practice, research and theory as it applies to problems such as child abuse and neglect, developmental disabilities, chronic medical conditions, and traumatic head injury.

Degree Requirements

In fulfilling the 45 semester-hour requirement, the student must complete the required courses or their equivalent, at least two elective courses from those listed below, at least one 3-hour practicum, an internship, and either a research paper or thesis.

Required Courses

- BAT 503 Basic Behavior Analysis
- BAT 508 Complex Behavior Analysis
- BAT 509A Behavior Analysis Research Designs: Single-Subject Experimental Designs
- BAT 509B Behavior Analysis Research Designs: Group Experimental Designs
- BAT 512 Legal and Ethical Issues in Behavior Analysis
- BAT 535 Behavioral Observation Methods
- BAT 574 Staff Training and Development
- BAT 594B Practicum in Behavior Analysis and Therapy

Elective Courses

- BAT 515 Behavioral Applications to Medical Problems
- BAT 543 Child Behavior
- BAT 545 Behavior Analysis in Developmental Disabilities
- BAT 557A Self-Regulation of Behavior: Self-control
- BAT 557B Self-Regulation of Behavior: Biofeedback
- BAT 563 Behavioral Analysis: Community Applications
- BAT 584 Seminar in Behavior Analysis and Therapy
- BAT 589 Professional Seminar in Rehabilitation

Internship

The student must complete satisfactorily nine hours of REHB 595A, REHB 595B (Internship in Rehabilitation) under the supervision of a behavior analysis and therapy faculty member. The internship is typically begun following two semesters of course work.

Research Paper or Thesis

The student must complete satisfactorily three to six hours of REHB 593 (Research in Rehabilitation) or REHB 599 (Thesis) under the direction of a chairperson. The chairperson is a member of the behavior analysis and therapy faculty selected by mutual agreement between the student and the faculty member.

For the research paper, an additional graduate faculty member may be selected by mutual agreement between the student and the chairperson to serve as a reader. This is not required.

For the thesis, a second faculty member of the behavior analysis and therapy program will be selected by mutual agreement between the student and the chairperson to serve as thesis committee member. The committee will review the thesis prior to its initiation, as a prospectus, and after its completion, in an oral defense. At the oral defense, a third graduate faculty member, selected by mutual agreement between all parties, will be added to the committee to serve as a reader.

Behavior Analysis and Therapy Courses

BAT406 - Applied Behavior Analysis II 406-3 Applied Behavior Analysis II. This course is an advanced survey of basic and applied research related to the principles and procedures in behavior analysis. As the second part of the ABA courses, this course serves to extend student's understanding of the principles of respondent and operant conditioning through exposure to basic research and demonstrations of interventions across diverse populations and settings. Prerequisite: REHB 312 with a minimum grade of C.

BAT430 - Behavior Therapy 430-3 Behavior Therapy. This course will trace the history of behavior therapy from early days where aversive and punishment procedures were instated to modern day positive-based interventions. Various therapeutic approaches will be covered including behavioral relaxation training, functional analytic psychotherapy, acceptance therapy and positive/mindful therapies. Prerequisite: BAT 312, BAT 406 with minimum grades of C.

BAT433 - Appl Beh Analysis Peds Populn 433-3 Applied Behavior Analysis with Pediatric Populations. This course provides students with knowledge related to the application of behavior analytic approaches to assessment and treatment of many childhood behavior problems. Topics covered will include assessment and treatment of problem behavior exhibited in school and home settings displayed by typically-functioning individuals, as well as individuals with a variety of developmental disorders. Prerequisite: BAT 312, BAT 406.

BAT440 - Ethics in BAT 440-3 Ethics in Behavior Analysis & Therapy. This course focuses on ethical conduct within the field of behavior analysis, and emphasizes problem-solving strategies to assist practitioners in resolving ethical dilemmas that may come about in the delivery of behavioral services. The course will provide an interpretation of the Behavior Analyst Certification Board guidelines for ethical conduct.

BAT441 - Assessment & Measurement 441-3 Assessment & Measurement. This course will provide an overview of behavioral observation methods, including approaches for monitoring and recording behavior over the course of behavior analytic services. Issues of reliability and validity will also be examined. Prerequisite: BAT 312.

BAT445H - Autism/Intellect Disabilities 445H-3 Autism and Intellectual Disabilities. This class introduces students to the variety of intellectual disabilities found within our society. Topics will range from how genetic mutations can result in life long disabilities, as well as how unknown factors produce disorders such as autism. Students will learn about diagnoses, assessment and treatment for a variety of disorders and how to manage such disabilities throughout the lifespan.

BAT452 - Behavior Analytic Appr to ISP 452-3 Behavior Analytic Approaches to Individualized Service Planning. This course provides students with the skills to develop and evaluate service plans for individuals receiving community education, rehabilitation, and other services from a behavior analytic perspective. Topics covered include person-centered assessment, functional community based training, individualized assessment, and written treatment plans. Prerequisite: BAT 312; BAT 406 with minimum grades of C.

BAT474 - Performance Management 474-3 Performance Management. This course focuses on the application of behavior analysis within organizations. Using the principles of behavioral science, students will learn how to manage employee behavior, develop organizational goals and objectives, track performance of work teams, and provide objective measures of compensation. Topics will include program evaluation, motivation, performance reviews, and emerging trends in organizational design. Prerequisite: BAT 312; BAT 406 with minimum grades of C.

BAT493 - Single-Case Research Methods 493-3 Single-Case Research Methodology. This course will provide students with the skills necessary to act as critical consumers of intervention research. It will also provide students with the analytical skills necessary to apply the logic of single-case research methodology to their work with the consumer. Emphasized will be the critique and interpretation of published research, as well as the writing competencies required for a student to successfully prepare a research paper. Prerequisite: BAT 312 and simultaneous enrollment in or prior completion of BAT 406.

BAT495 - Practicum 495-3 Practicum. Application of behavioral analytic principles to clinical settings, cooperatively guided by Behavior Analysis and Therapy program faculty and human service agency staff. Prerequisite: BAT 312, BAT 406, BAT 440 with minimum grades of C.

BAT503 - Basic Behavior Analysis 503-3 Basic Behavior Analysis. Philosophy, terminology, and basic methodology of experimental and applied behavior analysis. Focuses on a variety of operant and respondent conditioning procedures for shaping new behaviors and modifying established behaviors. Special approval needed from the instructor.

BAT505 - Behavioral Gerontology 505-3 Behavioral Gerontology. This course examines the application of behavioral principles to problems associated with aging such as deficits in the activities of daily living and social skills, wandering, aggression, incontinence, depression and anxiety, and dementia among others. Environmental redesign and alternative performance strategies will also be addressed. Behavioral training and supervision of staff members who work with older individuals is also presented. Special approval needed from the instructor.

BAT507 - Behavior Consult & Management 507-3 Behavior Consultation and Management. Focus on the behavior analysis techniques needed for use in organizational and consultation settings. The fundamentals for developing effective consulting relationships are presented. Skills for becoming a behavior analytic consultant in clinical settings such as schools, developmental disability facilities, and managed care environments are presented. Additional behavior analytic consultant skills will be taught for effective practice of organizational behavior management in business and industry settings. Prerequisite: BAT 503.

BAT508 - Complex Behavior Analysis 508-3 Complex Behavior Analysis. Experimental analysis of procedures that result in acquisition, maintenance, and attenuation of complex individual and social behavior. Special approval needed from the instructor.

BAT509A - Single Subj Exp Designs 509A-3 Behavior Analysis Research Designs-Single Subject Experimental Designs. Focuses on behavior analysis research design and methodology. Three semester hours will be granted for each unit. Special approval needed from the instructor.

BAT509B - Group Experimental Designs 509B-3 Behavior Analysis Research Designs-Group Experimental Designs. Focuses on behavior analysis research design and methodology. Three semester hours will be granted for each unit. Special approval needed from the instructor.

BAT511 - Functional Analysis-Autism 511-3 Functional Analysis and Interventions-Autism. This course will survey research on the assessment and treatment of challenging behavior for individuals with autism. Defining characteristic, procedural variations, and strengths and limitations of the three general approaches to functional assessment will be reviewed. In addition, emphasis will be placed on strategies for using functional assessment information in the design of interventions to reduce challenging behavior. Prerequisite: BAT 503 or consent of instructor.

BAT512 - Legal and Ethical Issues 512-3 Legal and Ethical Issues in Behavior Analysis. Focuses on federal and state legislation, litigation, policies, guidelines, and other forms of legal and ethical control of the professional practice of behavior analysis and therapy. Implications for research and service will be discussed. Special approval needed from the instructor.

BAT515 - Apps to Medical Problems 515-3 Behavioral Applications to Medical Problems. Examines the use of behavior change procedures and applied behavior analysis in the treatment and rehabilitation of medically related problems such as obesity, alcoholism, headaches, hypertension and cerebral palsy; also, compliance to medical regimens, e.g., diabetes, dental hygiene, exercise; and promotes the utilization of health facilities and community health programs. Issues in training medical personnel to disseminate behavior change programs are also covered. Prerequisite: BAT 503 or consent of instructor.

BAT535 - Behavioral Observation Methods 535-3 Behavioral Observation Methods. Behavioral targeting, observational recording techniques, and issues of validity and reliability of measurement relevant to rehabilitation will be examined. Prerequisite: previous or concurrent enrollment in either BAT 452 or BAT 503 or consent of instructor.

BAT543 - Child Behavior 543-3 Child Behavior. A systematic analysis of child behavior. Included is an examination of popular books on child rearing. Emphasizes approaches for remediation of behavior disorders. Special approval needed from the instructor.

BAT545 - Behavior in Dev Disabilities 545-3 Behavior Analysis in Developmental Disabilities. Consideration of behavioral principles as applied in the development of responsive behavior in persons with developmental disabilities. Special approval needed from the instructor.

BAT557A - Self Regulation: Self-Control 557A-3 Self-Regulation of Behavior: Self-Control. The course provides a thorough review of self-control techniques and their application to habit disorders such as smoking, eating, exercise, time-management and nervous habits. Special approval needed from the instructor.

BAT557B - Self-Regulation: Biofeedback 557B-3 Self-Regulation of Behavior: Biofeedback. The course provides a comprehensive review of experimental and clinical studies of biofeedback. It concentrates on stress related disorders and provides supervised laboratory experience. Special approval needed from the instructor.

BAT563 - Community Applications 563-3 Behavioral Analysis: Community Applications. All aspects of behavior analysis applications in the community are examined including historical development, the "state of the art", practical issues and obstacles to conducting behavioral analysis/community research; future trends and directions. Prerequisite: BAT 503 or consent of instructor.

BAT567 - Behavioral Theories-Addiction 567-3 Behavioral Theories of Addiction. Focus on the behavior analysis techniques needed for use in the diagnosis and treatment of various addictions. The fundamentals of scientific behavioral research in addiction are presented along with current effective treatment strategies that promote behavior change. Skills will be developed for becoming a behavior analytic addiction researcher or treatment provider in clinical settings serving persons with gambling and other addictions.

BAT574 - Staff Training & Development 574-3 Staff Training and Development. This course prepares the student to design, implement, and supervise an institutional program to train staff in methods of direct service to the institution's clients. Each student will actually design and submit a program through simulation. Lecture/workshop format.

BAT575 - Applications of BA 575-3 Practical Applications of Behavior Analysis. This course teaches students to identify, employ, and evaluate behavior analytic procedures in applied settings. Additional skills emphasized are those which enable students to communicate effectively with others involved in treatment planning and implementation. Lecture/workshop format.

BAT584 - Seminar in BAT 584-1 to 6 (1 to 3 per semester) Seminar in Behavior Analysis and Therapy. Special topics and new developments in modifying human behavior. Special approval needed from the instructor.

BAT591 - Independent Projects in BAT 591-1 to 18 Independent Projects in Behavior Analysis and Therapy. Systematic readings and development of individual projects in pertinent behavior analysis areas. No more than six hours may be counted toward the Master's degree. Special approval needed from the instructor.

BAT593 - Research in BAT 593-1 to 18 Research in Behavior Analysis and Therapy. Systematic investigation of factors and procedures relevant to behavior analysis. No more than six hours may be counted toward the Master's degree. Special approval needed from the instructor.

BAT594 - Practicum in BAT 594-1 to 12 Practicum in Behavior Analysis and Therapy. Supervised experiences in behavior analysis and therapy. Application of behavioral analysis/methods in human treatment and in management. Restricted to admission to the specific degree program.

BAT595 - Internship in BAT 595-1 to 12 Internship in Behavior Analysis and Therapy. Extended practice in Behavior Analysis settings cooperatively guided and supervised by agency staff and university faculty. Graded S/U only. Prerequisite: BAT 594 with a grade of B or better. Special approval needed from the department.

BAT599 - Thesis 599-1 to 6 Thesis. Special approval needed from the instructor.

BAT601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Upton, Thomas, Professor, Ph.D., The University of Iowa, 2000; 2000. Rehabilitation counseling, advances in rehabilitation, persons with brain injury, disability attitudes, and postsecondary educational accommodations.

Vieceli, Louis, Associate Professor, *Emeritus*, M.S.Ed., Southern Illinois University Carbondale, 1959; 1958.

Wright, W. Russell, Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1974; 1971.

Biological Sciences

The biological sciences program provides broad interdisciplinary graduate training in biology leading to the Master of Science degree. This interdisciplinary program utilizes the faculty, facilities, and courses of Microbiology, Physiology, Plant Biology, and Zoology. The program is designed for those students who

desire a broad-based curriculum rather than an in-depth program of study in only one of the biological sciences.

Requirements for Admission

All applicants must submit an application to the biological sciences program. Applicants must meet the minimal requirements of the Graduate School before being considered for admission to Biological Sciences. A completed application includes the program application form, three letters of recommendation, and transcripts of all previous college credit.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Biological Sciences. Applicants must pay this fee by credit card.

In addition to Graduate School admission requirements, applicants must hold a bachelor's degree in a life science discipline. Specific options and concentrations may have additional prerequisites, as noted below.

Application forms are available online at gradschool.siu.edu/applygrad.

MEDPREP Concentration (Non-Thesis)

Admission requirements: Each student must apply and be accepted to the MEDPREP program in the SIU School of Medicine.

Advisement: Students are advised by MEDPREP faculty in the SIU School of Medicine. Advisement arrangements are made immediately after admission.

Graduation requirements include a minimum of 47 semester hours of 400- or 500-level courses with the following provisions:

1. A minimum of 20 semester hours of formal course work in the biological sciences and 12 hours of formal coursework in MEDPREP.
2. At least 50% of the required total semester hours must be at the 500-level.
3. A minimum of 12 semester hours of course work in MEDPREP (six of those hours to be completed during the summer prior to matriculation into the Biological Science program.)
4. An overall 3.0 grade point average ($A= 4.0$) must be maintained with no course in which the grade is lower than a C counting toward the degree requirements.

Non-Thesis Option

Admission requirements: 37 semester hours of undergraduate courses distributed among any four of the biological science areas (plant biology, microbiology, physiology, and zoology); organic chemistry with laboratory; physics; statistics. Applicants deficient in these background areas may be admitted, but any deficiency must be successfully completed before the third semester of registration in the program.

Advisement: No later than the end of the first semester of registration in the program, the student must arrange with a faculty member in one of the four biological science departments to serve as the research adviser. Following selection and approval of the adviser, an advisory committee is to be recommended to the director of the Biological Sciences Program for approval by the dean of the Graduate School. This committee shall consist of at least three members, each from a different biological science department, with the research advisor serving as chair. A program of course work must be approved by the advisory committee and filed with the director no later than the eighth week of the second semester of registration in the program. Any deviation from the course work program during the student's tenure must be approved by the advisory committee and filed with the director. A proposal for the research paper must be approved by the advisory committee and filed with the director no later than the end of the second semester of registration.

Graduation requirements include a total of 40 semester hours of 400- or 500-level courses with the following provisions:

1. A minimum of 26 semester hours of formal graded courses in the biological sciences required with no less

than eight semester hours including one 400- or 500-level laboratory course in each of three of the biological sciences departments.

2. At least 50% of the required total semester hours must be at the 500 level.
3. At least one semester of seminar in each of three of the biological science departments must be attended for credit.
4. An overall 3.0 grade point average ($A = 4.0$) must be maintained with no course in which the grade is less than a C counting toward the degree requirements.
5. A research paper is required demonstrating the ability to collect and analyze data and to report interpreted results in a scientific manner. A library research problem is acceptable, but must include an original contribution of analysis and interpretation. No less than three nor more than six semester hours of "Research" may be counted for credit in meeting requirements. (Only those courses listed as "Individual Research", "Introduction to Research", etc. may be taken for credit. "Thesis Research" may not be used for this requirement.)
6. A final oral examination is required, consisting of two parts:
 - a public presentation of the research paper
 - a closed session of inquiry by the student's Research and Advisory Committee.

Thesis Option

Admission requirements: 37 semester hours of undergraduate courses distributed among any four of the biological science areas (plant biology, microbiology, physiology and zoology): organic chemistry with laboratory; physics; statistics. Applicants deficient in these background areas may be admitted, but any deficiency must be successfully completed before the third semester of the registration program.

Advisement: No later than the end of the first semester of registration on the program, the student must arrange with a faculty member in one of the four biological science departments to serve as the research adviser. Following selection and approval of the adviser, an advisory committee is to be recommended to the director of the Biological Sciences Program for approval by the dean of the Graduate School. This committee shall consist of at least three members, each from a different biological science department, with the research advisor serving as chair. A program of course work must be approved by the advisory committee and filed with the director no later than the eighth week of the second semester of registration in the program. Any deviation from the course work program during the student's tenure must be approved by the advisory committee and filed with the director. A research proposal for the thesis must be approved by the advisory committee and filed with the director no later than the end of the second semester of registration.

Graduation requirements include a total of 30 semester hours of 400- or 500-level courses with the following provisions:

1. A minimum of 21 semester hours of formal graded courses in the biological sciences is required with no less than six semester hours coming from each of four of the biological science departments.
2. At least 50% of the required total semester hours must be at the 500 level.
3. At least one semester of seminar in two of the four biological science departments must be attended for credit.
4. An overall 3.0 grade point average ($A = 4.0$) must be maintained with no course in which the grade is less than a C counting toward the degree requirements.
5. A thesis embodying original research is required and may be counted for not less than three nor more than six semester hours of credit.
6. A final oral examination is required consisting of a public presentation of the thesis research and a closed session of inquiry by the student's research and advisory committee.

Biological Sciences Courses

BIOL409 - Developmental Biology 409-3 Developmental Biology. Basic principles and processes of embryonic development including contemporary research on molecular, cellular and genetic mechanisms

of differentiation and morphogenesis; selected plants and invertebrate and vertebrate animals will be considered. Prerequisite: BIOL 305 with a grade of C or better.

BIOL450 - Biomedical Genetics 450-3 Biomedical Genetics. The basic principles of human genetics, from detailed treatment of DNA structure and function to an overview of the human genome and cancer genetics will be covered with emphasis on implications to medical practice. Other major topics include genetic variation, patterns of inheritance, the human genome, genetic screening and risk assessment, and treatment of genetic disorders. Prerequisite: BIOL 305 with a grade of C or better.

BIOL500 - Contemporary Biology Teachers 500-3 Contemporary Biology for Teachers. An introduction to fundamental biological concepts. Emphasis is placed on exploring plant and animal model systems using contemporary methodologies. Examples of biological processes will be covered from genomics to ecosystems. Prepares teachers to introduce biological principles and innovative approaches to understanding biological systems in the classroom. Prerequisite: SCI 210A & B or equivalent.

BIOL601 - Continuing Enrollment 601-1 Continuing Enrollment. For students who have not finished their degree programs and who are in the process of working on their dissertations, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any course is not permissible. Graded S/U. Prerequisite: minimum hours as stated above.

Biological Sciences Faculty

Information to come.

Biomedical Engineering

***Enrollments in Biomedical Engineering (MEng) have been suspended indefinitely.**

Academic Objectives

The program, consistent with the mission and priorities of the University, is designed to achieve the following academic objectives:

- To provide high quality education in the field of biomedical engineering and to prepare the graduates for successful and rewarding employment as engineers or for continuing their education through the doctoral level.
- To provide the students with the training necessary to successfully apply the fundamental concepts and methods of biomedical engineering to selected areas of employment or research and development.
- To enhance the research environment and productivity of the Department for the benefit of the students.

Admission Requirements

Individuals holding a Bachelor's degree or equivalent in engineering, science, or related field may apply. Qualified applicants with Bachelor's degree in other areas may be able to enroll in the program with additional preparation (approved by the Director on a case-by-case basis).

Admission to the M.S. program is based on the following factors: grade point average of 3.0 or higher on a scale of 4.0 on approximately the last 60 semester hours of undergraduate coursework, class ranking, and faculty recommendation letters.

GRE scores are not required for admission. However, out-of-state or international students whose GRE Verbal score or Quantitative score percentile is 80% or higher will have the advantage of paying in-state graduate tuition rate. Also, GRE scores, especially Quantitative, may be considered for fellowships/

assistantships/scholarships. The minimum TOEFL score requirement for international applicants is 550 (paper based) or 80 (computer based). The application fee for all applicants, and any other documentation specifically required for international students will be in accordance to the requirements of the Graduate School.

Curriculum

The Master of Science (M.S.) program has two tracks: i) The non-thesis track is coursework-oriented; ii) The thesis track is research oriented and is designed for students who want to pursue research or a Ph.D. degree. The degree (non-thesis/thesis) can be completed in 3-4 semesters.

Non-thesis option: total of 30 semester hours of graduate level credit. At least 6 courses must be selected from the core BME courses. ECE 592 and ECE 580 (seminar) will not count towards the degree.

The remaining courses can be selected from the ECE 500-level courses.

Thesis option: total of 30 semester hours of graduate level credit. At least 6 courses must be selected from the BME courses in the core. Six hours of thesis (ECE 599) are required. ECE 580 (seminar) will not count towards the degree.

For both non-thesis and thesis tracks, with the approval of the department, a maximum of 3 online/distance education hours offered by the ECE department, and a maximum of 6 hours from academic units outside the ECE could be applied towards the degree. For cross-listed courses, students must register for the 500-level equivalent.

Biomedical Engineering Core

BME 417-3 Neuroengineering

BME 418-3 Biomedical Electronics and Biosensors

BME 435-3 Computational Methods in Biomedical Engineering

BME 485-3 Cellular and Molecular Biomechanics

BME 521-3 Neuromodulation

BME 531-3 Biophotonics

BME 532-3 Modern Biomedical Imaging

BME 536-3 Biomedical Signal Analysis

BME 538-3 Introduction to Medical Instrumentation

BME 539-3 Tissue Mechanics

BME 541-3 Diagnostic Ultrasound

BME 592-1 to 3 Special Investigations in Electrical Engineering (thesis option only; requires approval from the unit)

Retention

Any student whose cumulative grade point average falls below 3.00 on courses that count towards the degree will be placed on departmental academic probation. Any graduate student on academic probation whose grade point average remains below 3.0 on courses that count towards the degree for two consecutive semesters in which she or he is enrolled, excluding summer sessions, will be permanently suspended from the program, unless the department grants an exception.

Biomedical Engineering Courses

BME417 - Neuroengineering 417-3 Neuroengineering. Applying engineering techniques to study brain function. Topics include: cerebral cortex; sensory, motor, and association areas; neurons and glial cells; pathways and synapses; information processing in visual, auditory, and somatosensory cortices; analyses of brain recordings; brain-computer interfacing, multisensory integration models; context effect models; memory encoding and retrieval models. Restricted to Senior or Graduate Standing.

BME418 - Bioelectronics & Biosensors 418-3 Bioelectronics and Biosensors. The sources of electrical signals in biological systems. Methods and types of sensors for sensing bioelectrical signals, including

amperometric, potentiometric, piezo-electric, impedance, and FET based biosensors. Microfluidics and Photometric biosensors. Interface between biosensors and electronics for sensor signal condition and data acquisition. Precision electronics for biosensor signal acquisition, including potentiostat, current, charge, capacitance and impedance sensing circuit, lock-in amplifier. Prerequisite: BME 337 with a C or better or Graduate standing.

BME435 - Computation Methods BME 435-3 Computational Methods in Biomedical Engineering. Algorithmic and statistical foundations of biomedical engineering and bioinformatics. Maps, sequences, and genomes. Protein sequence analysis, sequence alignment, microarray data, gene expression analysis, gene selection. Bioinformatics programming in R. Prerequisite: ECE 222 with a grade of C or better.

BME481 - Design/Implement Vision System 481-3 Design and Implementation of Vision System. (Same as ME 481) This course provides an introduction to a vision system and instrumentation with engineering applications including optical microscopy. A vision system is an essential tool in most of the application, and optical microscopy is a powerful scientific tool to study microscale worlds. Topics covered in basic geometrical optics, Optoelectronic devices, basic electronics for illumination system, optical microscopy, actuators in the microscope, fundamentals of fluorescence microscopy, and advanced imaging techniques. Prerequisites: ENGR 296 or ME 222 or consent of instructor.

BME485 - Cell & Molecular Biomechanics 485-3 Cellular and Molecular Biomechanics. (Same as ME 485) Mechanics of living cells at the micron/nanoscale level. Molecular forces, bond dynamics, force-induced protein conformational changes. Structural basis of living cells, contractile forces, mechanics of biomembranes, nucleus, cytoskeletal filaments- actin, microtubule, intermediate filaments. Active and passive rheology, microrheological properties of cytoskeleton. Active cellular processes such as cell adhesion, cell spreading, control of cell shape, and cell migration. Discussion on experimental techniques including single-molecule approaches to understanding key cellular processes. Discussion of theoretical models that predict cellular processes and limitations. Introduction to mechanobiology. Restricted to senior or graduate standing.

BME501 - Statistics for Biomed Engrs 501-3 Statistics for Biomedical Engineers. Theoretical introduction to the basic principles of statistical modeling and estimation focusing on biomedical engineering applications such as genetics and genetic-related disorders. Prerequisite: PHSL 410A or consent of instructor.

BME521 - Neuromodulation 521-3 Neuromodulation. Principles and practice of neuromodulation. Topics include: introduction to electrophysiology; cellular and neuronal patch-clamp techniques; spinal cord stimulation; deep brain stimulation; neuromodulation for pain. Restricted to Graduate standing.

BME531 - Biophotonics 531-3 Biophotonics. Fundamental principles of optics and photonics, biology, and medicine; imaging, spectroscopy, and optical biosensors. This course is designed for graduate students as well as senior-level undergraduate students in related disciplines who are interested in the interdisciplinary field of biophotonics. This course provides the fundamentals of light and its interaction with matter, optical imaging, lasers, and tissue optical properties. This course also provides the diagnostic applications of biophotonics, which includes biomedical imaging, microscopy techniques, and optical biosensors. Prerequisites: ECE 375, PHYS 320 or 328, with grades of C or better, or consent of instructor.

BME532 - Intro to Biomedical Imaging 532-3 Introduction to Biomedical Imaging. (Same as ECE 467 and ECE 567) Biomedical imaging. X-ray imaging. Computed tomography (CT). Ultrasound. Magnetic resonance imaging (MRI). Image quality. Image reconstruction. Prerequisite: MATH 305 with a grade of C or better or consent of instructor. Lab fee: \$30 to help defray cost of software licenses and equipment.

BME533 - Speech Processing 533-3 Speech Processing. (Same as ECE 474, ECE 533) Fundamentals of speech production system, signal analysis of speech, speech coding, linear prediction analysis, speech synthesizing, and speech recognition algorithms. Prerequisite: MATH 250, ECE 355 with grades of C or better, or consent of instructor.

BME534 - Bio Sensors & Measurements 534-3 Biomedical Sensors & Measurements. Design and evaluation of sensors with application in biomedical engineering. Instrumentation and Techniques for

measurements related to biomedical applications. Prerequisite: PHSL 410A, CHEM 444, or consent of instructor.

BME535 - Info Process Biomedical Engr 535-3 Information Processing in Biomedical Engineering. Methods for evaluating different approaches in signal processing systems for biomedical applications; provides familiarity with the variety of exciting software and hardware systems. Prerequisite: PHSL 410A, CHEM 444, or consent of instructor.

BME536 - Biomedical Signal Analysis 536-3 Biomedical Signal Analysis. (Same as ECE 498, ECE 534) The nature of biomedical signals. Electricity in living tissue. Biomedical signal processing and modeling. Modeling and simulation of biomedical systems. Prerequisite: MATH 250, ECE 355, with grades of C or better, or consent of instructor. Project-based fee: \$20 to help defray cost of software licenses.

BME537 - Emb Micro System Design 537-3 Embedded Microprocessor System Design. Design, analysis, and evaluation of microprocessor-based systems for biomedical implementation. Prerequisite: ECE 424 or consent of instructor.

BME538 - Medical Instrumentation 538-3 Medical Instrumentation: Application and Design. (Same as ECE 438 and ECE 538) This course introduces the students to the field of medical instrumentation. Medical instrumentation is the application of advanced engineering technology to problems in biology and medicine. The course will focus on fundamentals of instrumentation systems, sensors, amplifiers, and signal precondition. In addition, the course also includes design and applications of medical instrumentation, biopotential measurement, biosensor, biomedical signal processing, and other related topics. Prerequisite: MATH 305 with a grade of C or better, or consent of instructor. Lab fee: \$45 to help defray cost of software licenses and equipment.

BME539 - Biomechanics I 539-3 Biomechanics I. Introduction to mechanical behavior of biological tissues and systems, influence of material properties on the structure and function of organisms, methods for the analysis of both rigid body and deformational mechanics with application to include biological tissues such as bone, muscle, and connective tissues. Prerequisite: ME 470 or consent of instructor.

BME540 - Tissue Engineering 540-3 Tissue Engineering. Fundamentals of tissue engineering will be discussed. Developing biomaterials for artificial scaffolds and cell populations within the scaffolds will be discussed. Stem cells for cell-based therapy will be highlighted. Design of various organ-on-chips will be covered. Advances in in vitro tumor models will be discussed. Ethical considerations will be emphasized. Restricted to senior or graduate standing.

BME541 - Diagnostic Ultrasound 541-3 Diagnostic Ultrasound. (Same as ECE 494 and ECE 539) Diagnostic ultrasound is an ultrasound-based biomedical imaging technique used to visualize muscles, tissue, and many internal organs, to capture their size, structure and any pathological lesions. This course is an introduction to the principles and applications of biomedical ultrasound. This course will focus on fundamentals of acoustic theory, principles of ultrasonic detection and imaging, design and use of currently available tools for performance evaluation of diagnostic devices, and biological effects of ultrasound. Prerequisite: MATH 250 with a grade of C or consent of instructor. Project-based fee: \$30 to help defray cost of software licenses and equipment.

BME542 - Biomaterials 542-3 Biomaterials. This course addresses the bulk and surface properties of biomaterials used for medical applications. Artificial Organs and Tissues and Tissue Engineering are included. Analytical techniques pertinent to biomaterial evaluation, and testing. Prerequisite: ME 410 or consent of instructor.

BME577 - Bioprocess Engineering 577-3 Bioprocess Engineering. (Same as ME 577) The course objective is to introduce bioprocessing concepts to ME and BME students. This will introduce the idea of designing a system to achieve a biological reaction objective. It will have content in pharmaceutical production, production of enzymes and other bioproducts, research involving cell culture reactors, pharmacokinetics and other bioprocessing. Special approval needed from the instructor.

BME592 - Biomedical Capstone Design 592-3 to 6 Biomedical Capstone Design. Individual advanced project, with heavy emphasis on design, selected by the student and approved by his advisor. The project must be strongly related to biomedical engineering. This project normally will be equivalent to three credit

hours. However with the approval of the BME program coordinator, the project could be equivalent to a maximum of six credit hours. Special approval needed from the instructor.

BME593 - Advanced Topics in BME 593-1 to 3 Advanced Topics in Biomedical Engineering. Lectures on advanced topics of special interest to students in various areas of biomedical engineering. This course number is used to test new experimental courses in Biomedical Engineering. Special approval needed from the instructor.

BME596 - Principles of Biomedical Engr 596-3 Principles of Biomedical Engineering. (Same as ECE 460, ECE 596) Principles of biomechanics, biomaterials, electrophysiology, modeling, instrumentation, biosignal processing, medical imaging, and biomedical optics. Professional moral and ethical issues in biomedical research and development. Prerequisite: MATH 250 with a C or better or consent of instructor.

BME599 - Thesis 599-1 to 6 Thesis. Students are eligible to register for thesis when they have approval of the instructor who will act as thesis advisor. Prerequisite: Consent of thesis advisor.

BME601 - Continuing Enrollment 601-1 Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of their thesis or capstone design course. The student must have completed all other course requirements to be eligible to register in this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only. Prerequisites: Completion of course work except BME 592 or 599.

Biomedical Engineering Faculty

Electrical and Computer Engineering (ECE) Faculty:

Chen, Ying (Ada), Associate Professor, Ph.D., Duke, 2007; 2007. Biomedical imaging, image reconstruction, digital tomosynthesis, image quality analysis, signal and image processing, simulation and computing.

Chilman, Bae, Assistant Professor, Ph.D., Pennsylvania State University, 2009; 2019. Bioelectrical engineering, neuroscience, mechanobiology.

Kagaris, Dimitrios, Professor, Ph.D., Dartmouth College, 1994; 1995. VLSI design automation, digital circuit testing, communication networks.

Komae, Arash, Assistant Professor, Ph.D., University of Maryland, College Park, 2008, 2015. Applications of control in biomedical engineering.

Lu, Chao, Associate Professor, Ph.D., Purdue University, 2012; 2015. Bioelectricity, bioelectronics.

Qin, Jun, Associate Professor, Ph.D. Duke University, 2008; 2012. Device development, instrumentation and sensors, medical data acquisition and analysis, medical acoustics, therapeutic ultrasound, haptics.

Sayeh, Mohammad R., Professor, Ph.D., Oklahoma State University, 1985; 1986. Biophotonics.

Wang, Haibo, Professor and Director, University of Arizona, 2002; 2002. Bioelectricity, bioelectronics, biosensors.

Mechanical Engineering and Energy Processes (MEEP) Faculty:

Chowdhury, Farhan, Assistant Professor, Ph.D., University of Illinois at Urbana-Champaign, 2011; 2015. Mechanobiology, single-molecule cell mechanics, biomaterials.

Business Administration

Master of Business Administration

The M.B.A. program is oriented toward preparing students for managerial positions in business and government. The program emphasizes the ability to comprehend internal and external social, legal, political, and economic forces as they affect the decision-making process within a business organization.

The programs have been structured so as to serve both holders of baccalaureate degrees in business administration and those who hold degrees in other disciplines. The M.B.A. program is accredited by the AACSB International.

Admission Requirements

Prospective degree candidates are expected to demonstrate a readiness for graduate study and an aptitude for successful performance in graduate level work in business administration. Admission to the program is based on the applicant's undergraduate record, a satisfactory score on the Graduate Management Admission Test, and other evidence pertaining to ability to perform well in graduate work in business administration. Special circumstances and work experience may be considered if presented. More specifically, the applicant must:

1. Meet all admission requirements set forth by the Graduate School. These requirements are outlined elsewhere in the catalog.
2. Complete the Graduate Management Admission Test and have the results of the test mailed directly to Graduate Programs, College of Business.

For the online M.B.A. program, the GMAT or GRE exam requirement is waived if the applicant has five or more years of professional experience following completion of a baccalaureate degree, or if he/she has previously completed a master's program at an accredited university.

For the residential M.B.A. program, the GMAT or GRE exam requirement is waived if the applicant has a business degree from an AACSB accredited university and a 3.5 or higher GPA on their last 60 credits of study, or if he/she has previously completed a master's program at an accredited university. Information regarding this test is available by logging on to the website for: Graduate Management Admission Test. The website address is: mba.com.

To apply, one needs to complete and submit a Graduate School application and an M.B.A. program application. Application instructions are available online at: business.siu.edu/academics/mba. The application process begins at the SIU Graduate School: gradschool.siu.edu/apply/. Transcripts should be sent to Graduate Programs, College of Business, Southern Illinois University Carbondale, Carbondale, IL 62901-4625, 618-453-3030. Email: gradprograms@business.siu.edu.

This program requires a nonrefundable \$65 application fee that must be paid electronically with the online application for Admission to Graduate Study in the M.B.A. program in Business and Administration.

Application Deadlines

Applications are only accepted for entry in summer semesters for the Online M.B.A. programs, and for entry in fall semesters for the residential M.B.A. programs.

The College of Business Associate Dean of Graduate Studies may approve acceptance of residential M.B.A. applications for review by the admissions committee on a case-by-case basis for entry to spring and summer semesters as courses and seats become available.

Business Administration Graduate Deadlines

Application	Fall	Spring	Summer
Assistantship Applicants	March 15	Sept. 15*	February 15*
Fellowship Applications	Nov. 15 of previous year (Fall awards only)		
Other U.S. Applicants	June 15	Nov. 15*	April 1*
Other International Applicants*	April 15	Sept. 15*	February 15*

*When admissions opened by Associate Dean of Graduate Studies

Double Major Policy

Any graduate student wishing to pursue a double major for a master's degree that includes business administration must satisfy the following requirements in addition to any requirements stated in the Graduate Catalog:

- The individual must satisfy all requirements for admission to the relevant master's program in business (M.B.A. or M.Acc.).
- The individual must satisfy all foundation requirements of the relevant master's program in business.
- The individual must complete all core courses, secondary core (M.Acc.) courses, and elective course requirements for the relevant master's program in business.
- No more than six hours of coursework outside the College of Business may be counted toward elective requirements in the relevant master's program in business except where explicitly stated otherwise in the following sections.

Non-Business Graduate Students

- Non-business graduate students will be limited to six hours of 500-level BA prefix courses. These courses require the consent of the instructor and the department, and all course prerequisites must be met.
- Non-business graduate students who are put on academic probation will NOT be allowed to continue in 500-level BA prefix courses.
- Non-business graduate students will be allowed to register for BA level foundation courses (i.e., BA 410, BA 426, BA 430, and BA 450).

Degree Requirements

A minimum of 33 semester hours of coursework is required. Students must earn a 3.0 grade point average (4.0 = A). Candidates who receive permission to write a thesis must complete a minimum of 30 semester hours of coursework plus an acceptable thesis, for which six semester hours of credit are assigned.

Foundation Areas

As an accredited member of the AACSB, the College of Business requires that students either currently have or swiftly obtain the requisite understanding of the common body of knowledge in business and administration. Current and prospective students can demonstrate their knowledge of these Foundation Areas through successful completion of the relevant Foundation Workshops offered by the College of Business, proficiency examinations, or appropriate coursework at the level of C or higher. For a list of current SIU courses that fulfill these Foundation Areas, please contact the M.B.A. admissions coordinator.

Admitted or prospective students should provide course syllabi for other courses they wish to have evaluated as fulfilling the Foundation Area requirements. These should be provided no later than 2 weeks prior to their final advisement appointment before registering. The M.B.A. admissions coordinator may consider course catalogs from the relevant years at their discretion if syllabi are not available. All Foundation Courses must have been successfully completed at a grade of C or higher to be considered. Transcripts may not be substituted for syllabi/catalog descriptions.

Accounting, Finance, and Economics Foundation Area. (Required). Students should have a basic understanding of these three vital areas of business. A basic understanding of the concepts and functionality of financial accounting, finance, and macro- and micro- economics as they apply to a business setting is necessary to competently and effectively participate in the M.B.A. program at a graduate level.

Business Analytics I. (Required). Globally, organizations have placed increasingly heavy emphasis on metrics and analytics in making sound business decisions. The M.B.A. program reflects this ever-increasing need throughout the coursework. Therefore, it is necessary that students understand basic statistics and analytics to participate in the program competently.

Business Analytics II. (Optional). Those seeking a deeper understanding of business analytics through taking graduate courses in this topic area must begin with greater knowledge than the typical student must otherwise. To that end, this Foundation Area emphasizes knowledge in more advanced statistical techniques as well as their methods of application.

Advisement

The M.B.A. degree program coursework to be taken beyond the foundation courses is determined on an individual basis in conference with the M.B.A. advisor. All core and elective requirements must be met. For up-to-date information regarding the core and elective courses of the M.B.A. program, contact: Graduate Programs, College of Business, Rehn Hall, Room 133, Southern Illinois University, Carbondale, IL 62901-4625.

Students may choose to take all of their electives in a particular area such as finance or marketing in fulfilling their electives, or, alternatively, take electives across areas. Students may request approval to take one or more substantive electives outside of business which would provide training unavailable through business courses and would facilitate the student meeting career goals.

Transfer Credit

Within limits imposed by the policies of the Graduate School, an incoming student may receive transfer credit for up to six semester hours of equivalent coursework if the courses were taken at an AACSB International accredited graduate school.

A graduate student who has six hours or less of coursework remaining in their program may petition the Master's Programs Committee for permission to complete up to six hours of equivalent coursework at another AACSB International accredited graduate school. The determination of equivalency is to be made by the director of the Master of Business Administration degree programs.

Coursework from other than AACSB International accredited graduate schools must be approved by the Master's Programs Committee.

Academic Retention

In addition to the retention policies of the Graduate School, a student may earn no more than five hours of C or lower in graduate courses taken beyond the foundation requirements. Exceeding five hours will result in suspension from the program.

A student who has three outstanding recorded grades of INC or DEF remaining on the grade record at the end of any semester or session, for any reason, will be deemed to be not making normal progress and will be placed on probationary status. If the student has three outstanding grades of INC or DEF remaining on record at the end of the next semester or session, the student will be suspended from the program. The definitions of INC and DEF may be found in the Graduate Catalog.

A student who is to receive a grade of INC in a course is to meet with the instructor to work out a time and conditions for completion of the course within policy guidelines. Typically, a Notification of Incomplete Grade Agreement form is completed and the student is provided with a copy.

Master's students holding graduate assistant positions supported by the College of Business are required to maintain a 3.0 graduate grade point average or automatically lose his/her graduate assistant position. A complete copy of the "Policies and Procedures for the Master's Programs" may be obtained from the Graduate Programs Office, College of Business.

Satisfactory progress in the M.B.A. program

Upon admission to the M.B.A. program, students have 6 years to complete the degree, however this requires that students stay actively enrolled in classes, request a leave of absence, or register for 1 credit hour each semester for continuing enrollment to remain active in their program. In all three scenarios, the time counts towards the required 6 years to completion.

Students who request a leave of absence may do so for a period not to exceed one year. At the end of that year students must return from leave and be actively registered in classes or request a continuation of the leave to be extended. Failure to do so will result in immediate dismissal from the program due to

unsatisfactory progress. It is the responsibility of the student to be aware of the policies and due dates of their program.

Residential M.B.A. Program

Residential M.B.A. Core

- BA 510 Managerial Accounting and Control Concepts
 - BA 522 Operations and Supply Chain Management
 - BA 530 Financial Management
 - BA 540 Managerial and Organizational Behavior
 - BA 550 Marketing Management
 - BA 58* International Business Core Requirement
 - BA 598 Business Policies
-
- Students with undergraduate degrees in finance must replace BA 530 with a 500-level Finance Course.
 - Students with undergraduate degrees in accountancy must replace BA 510 with a 500-level ACCT prefix course.
 - International Business Core Requirement of the M.B.A. program may be satisfied by taking BA 580, BA 581, BA 582, or BA 588A, BA 588B; by engaging in an international (off-shore) internship or by an approved program offered by a partner institution.
 - BA 580, BA 581, and BA 582 may only be used for either fulfillment of the M.B.A International Business Core Requirement or an elective concentration course, but not both. If two or more of these three courses are taken, each can fulfill one of these requirements.

Residential M.B.A. Finance Concentration

Students seeking the M.B.A. concentration in the Finance area will take a total of three 3-hour elective courses in the Finance concentration area plus one from any approved M.B.A. electives list.

- BA 532 Financial Institutions and Markets
- BA 533 Investment Concepts
- BA 536 Financial Analysis and Security Valuation
- BA 582 International Finance

Residential M.B.A. Marketing Concentration

Students seeking the M.B.A. concentration in the Marketing area will take a total of three 3-hour elective courses in the Marketing concentration area plus one from any approved M.B.A. electives list.

- BA 505 Brand Management
- BA 551 Product Strategy and Management
- BA 558 Promotional Strategy and Management
- BA 581 Global Marketing

General M.B.A. (G.M.B.A.) Concentration

Students seeking the General M.B.A. track will take a total of four 3-hour elective courses.

- BA 505 Brand Management
- BA 514 Ethics of Business
- BA 532 Financial Institutions and Markets
- BA 533 Investment Concepts
- BA 536 Financial Analysis & Security Valuation
- BA 537 Intellectual Property & Commercialization
- BA 548E Project Management
- BA 551 Product Strategy and Management

- BA 558 Promotional Strategy and Management
- BA 560 Management of Information Systems
- BA 561 Database Design and Applications
- BA 581 Global Marketing
- BA 582 International Finance

Computer Science Concurrent Residential M.B.A./B.A.

The College of Business in conjunction with the College of Science offers a five-year integrated M.B.A./B.A. (Computer Science) Program. Selected students will be admitted to this program directly after high school. These students should take the undergraduate foundation requirements for M.B.A. as their electives while completing their B.A. degree. Their admission to the M.B.A. is guaranteed as long as they maintain a 3.0 GPA in the B.A. in Computer Science. However, they will be required to take the GMAT test prior to admission to the M.B.A. Program.

Juris Doctor Concurrent Residential M.B.A./J.D.

The College of Business and the School of Law, together, offer the M.B.A./J.D. concurrent degree program. The J.D. degree alone requires completion of 90 semester hours of coursework and the M.B.A. degree alone requires completion of 33 semester hours of coursework; however, in the M.B.A./J.D. concurrent degree program the School of Law accepts nine semester hours of business coursework toward meeting the J.D. semester hour requirement and the College of Business accepts nine semester hours of law toward meeting the M.B.A. semester hour requirement. The end result is that the concurrent degree program actually entails completion of 81 semester hours of law courses and 24 semester hours of business courses, with an 18 semester hours savings over pursuing both degrees separately.

A student interested in enrolling in the M.B.A./J.D. concurrent degree program must apply both to the graduate program in law (which involves a law school application) and to the graduate program in business (which involves a Graduate School application and an M.B.A. program application) and be accepted by each program. The student may then request permission to pursue the concurrent degree program. This request must be made both to the College of Business and the School of Law and should be made prior to commencing the second-year law curriculum.

During the first academic year the student enrolls only in the first-year law curriculum. In any subsequent academic term, the student may enroll for courses either in the School of Law or in the Master of Business Administration program. A student registered for both law and graduate business courses in the same term must enroll for a minimum of 10 hours in law, and 12 semester hours in total, in order to meet A.B.A. residence requirements and the academic requirements of the School of Law.

Professional Media and Media Management Concurrent Residential M.B.A./M.S.

The College of Business and the College of Mass Communication and Media Arts (MCMA) together offer a concurrent degree program leading to a Master of Business Administration and a Master of Science in Professional Media and Media Management.

Separately, the M.B.A. in the College of Business requires completion of 33 semester hours of coursework, and the MCMA M.S. in Professional Media and Media Management requires 30 semester hours of coursework. The concurrent degree program entails completion of 21 semester hours of MCMA-approved courses and 24 credit hours of CoB-approved courses, for a total of 45 hours. CoB accepts nine hours of MCMA approved coursework and MCMA accepts nine hours of CoB approved coursework. This is a savings of 18 semester hours over pursuing both degrees separately. The 24 hours of required CoB M.B.A. courses includes all seven core classes (BA 510, BA 522, BA 530, BA 540, BA 550, BA 598, and an International Requirement) and one BA elective course.

Students wishing to be admitted to the concurrent program must apply and be accepted into the M.B.A. program in the College of Business, as well as apply and be accepted into the MCMA M.S. program in the College of Mass Communication and Media Arts. This initiates the process to pursue the concurrent

degrees. Applicants for the concurrent degree program must also earn a satisfactory score on the GMAT or GRE to be admitted to the M.B.A. program. Completion of the CoB M.B.A. Foundation Areas is also required.

Agribusiness Economics Concurrent Residential M.B.A./M.S.

The College of Business and the Department of Agribusiness Economics (ABE) in the College of Agricultural Sciences (COA) together offer an M.B.A./M.S., a concurrent degree program leading to both the Master of Business Administration and the Master of Science with a major in agribusiness economics.

The M.B.A. degree requires completion of 33 semester hours of coursework; the M.S. with a major in ABE requires the completion of 30 semester hours of coursework. In the concurrent M.B.A./M.S. degree program, the College of Business accepts six semester hours of ABE approved coursework, and ABE accepts six semester hours of College of Business approved coursework. The end result is that the concurrent degree program entails completion of 27 semester hours of College of Business approved courses and 24 semester hours of ABE approved courses, for a total of 51 hours. This is a savings of 12 semester hours over pursuing both degrees separately outside of the M.B.A./M.S. concurrent degree program.

Students interested in enrolling in the M.B.A./M.S. concurrent degree program must apply to both the graduate program in the College of Business and the graduate program in ABE. The student must be accepted by both programs. This initiates the process to pursue the concurrent degrees.

Students enrolled only in the M.B.A. in the College of Business or the M.S. in agribusiness economics may request admission into the other program and approval to pursue the concurrent degree program. Admission to the concurrent degree program must be done at least one semester before the last semester of registration at SIU.

Online M.B.A. Program

(42 credit hours, 23 months)

The AACSB-Accredited Online M.B.A. program is designed for those students who are working professionals and need an advanced degree. The students must be admitted to the Graduate School and complete an application to the College of Business Online Master Program available through the Online Master's Degree website at onlinegrad.business.siu.edu. Once admitted students will be provided an online advisor to guide them through the program. This is a cohort-based program and students are required to complete all courses specified over a 24-month period. Students are awarded the M.B.A. degree upon satisfactory completion of all requirements, including the same G.P.A. and Foundation Area requirements of the residential M.B.A. program. The program is 100 percent online delivery. Descriptions of the individual courses below may be found in the Course Description section.

For program schedule, visit the College of Business Online Master's Degree Programs website at: onlinegrad.business.siu.edu/about/.

General Concentration Online M.B.A. Program

Students in the Online M.B.A General Concentration will take the following Business Administration graduate courses:

- BA 505 Brand Management (3)
- BA 506 Fundamentals of Business & Communication for M.B.A. Professionals (2)
- BA 507 Critical Issues for Business Leaders (2)
- BA 508 Seminar on Career Effectiveness (2)
- BA 509 Advanced Seminar in Leadership Development (2)
- BA 510 Managerial Accounting and Control Concepts (3)
- BA 511 Entrepreneurship Theory & Practice (2)
- BA 514 Ethics of Business (3)
- BA 522 Operations and Supply Chain Management (3)

- BA 530 Financial Management (3)
- BA 531 Advanced Financial Management (3)
- BA 540 Managerial and Organizational Behavior (3)
- BA 550 Marketing Management (3)
- BA 560 Management of Information Systems (3)
- BA 580 International Dimensions of Business and Management or International Immersion course (2)
- BA 598 Business Politics (3)

Agribusiness Economics Concentration Online M.B.A.

The online M.B.A. concentration in Agribusiness Economics is designed to develop advanced business management expertise with a specialized focus on the food and agribusiness sector. This degree will prepare students for the unique management challenges in industry firms and government agencies dealing with agriculture, food production and renewable natural resources, including banking and finance, insurance, farm and operations management, market and policy analysis, agricultural products sales and service, grain merchandising, economic policy, and food marketing, just to name a few.

Students in the online M.B.A. Concentration in Agribusiness Economics will take the following Business Administration and Agribusiness Economics graduate courses:

- BA 506 Fundamentals of Business & Communication for M.B.A. Professionals (2)
- BA 507 Critical Issues for Business Leaders (2)
- BA 509 Advanced Seminar in Leadership Development (2)
- BA 510 Managerial Accounting and Control Concepts (3)
- BA 511 Entrepreneurship Theory and Practice (2)
- BA 522 Operations and Supply Chain Management (3)
- BA 530 Financial Management (3)
- BA 540 Managerial and Organizational Behavior (3)
- BA 550 Marketing Management (3)
- BA 560 Management of Information Systems (3)
- BA 580 International Dimensions of Business and Management (2)
- BA 598 Business Policies (3)
- ABE 500 Agribusiness Economics Research Methodology (3)
- ABE 544 Agricultural Development (3)
- ABE 571 Resource Allocation in the Agribusiness Firm (3)
- ABE 572 Problems and Policies in the Agricultural Sector (3)

Analytics for Managers Concentration Online M.B.A.

The online M.B.A. concentration in Analytics for Managers will prepare students to take advantage of big data and data analytics in order to make effective strategic business decisions. Managers who know analytics are needed in virtually every business sector, including healthcare, marketing, manufacturing, engineering, logistics, retail, hospitality, and financial services to name a few. This concentration focuses on skills managers need to lead organizations using the most recent developments in analytics, artificial intelligence, and data visualization. Students will obtain this knowledge along with a solid M.B.A. foundation.

Students in the online M.B.A. concentration in Analytics for Managers will take the following Business Administration graduate courses:

- BA 506 Fundamentals of Business & Communication for M.B.A. Professionals (2)
- BA 507 Critical Issues for Business Leaders (2)
- BA 508 Seminar on Career Effectiveness (2)
- BA 509 Advanced Seminar in Leadership Development (2)
- BA 510 Managerial Accounting and Control (3)
- BA 511 Entrepreneurship Theory and Practice (2)
- BA 522 Operations and Supply Chain Management (3)
- BA 525 Data Science and Analytics for Managers (3)
- BA 526 Advanced Analytics and AI for Managers (3)
- BA 527 Advanced Analytics and Visualization for Managers (3)

- BA 528 M.B.A. and Analytics Capstone (3)
- BA 530 Financial Management (3)
- BA 540 Managerial and Organizational Behavior (3)
- BA 550 Marketing Management (3)
- BA 580 International Business (2)
- BA 598 Business Policies (3)

Doctor of Philosophy

The Doctor of Philosophy in business administration degree program is designed to prepare individuals for faculty research and teaching positions in academic institutions and for high-level administrative or staff positions in business, government, and other organizations. Candidates for the Doctor of Philosophy in business administration degree must demonstrate in-depth knowledge of business and administration and high potential to undertake significant research.

Admission Requirements

To be eligible for admission, students must have completed a master's degree or its equivalent. A grade point average in all graduate level work of 3.5 (A = 4.0) is preferred, but not less than 3.0 is permitted for admission.

In certain instances admission to the Doctor of Philosophy in business administration degree program directly from the baccalaureate degree is permitted. To be considered for this admission route, students must have demonstrated promise of success in the Doctor of Philosophy in business administration degree program through outstanding achievement at the undergraduate level (minimum grade point average of 3.5 on a 4.0 scale) and superior performance in both the verbal and quantitative components of the Graduate Management Admission Test (minimum GMAT score of 600).

Applicants with exceptional research potential or outstanding academic preparation may have the option to enter the Doctor of Philosophy in business administration degree program after at least one semester as an M.B.A./M.Acc. student at SIU.

To apply to the Doctor of Philosophy in business administration degree program, each applicant is required to take the Graduate Management Admission Test (of the Educational Testing Service) and have an official report of these scores sent to SIU. The applicant needs to complete and submit a Graduate School application and a Doctor of Philosophy in business administration degree program application. The application process is entirely online and is located at gradschool.siu.edu/apply. Official transcripts can be sent to: Graduate Programs, College of Business, Southern Illinois University Carbondale, Carbondale, IL 62901-4625. Email: gradprograms@business.siu.edu.

This program requires a nonrefundable \$65 application fee that must be paid electronically with the online application for Admission to Graduate Study in the Doctor of Philosophy program in Business and Administration.

Degree Requirements

Students in the program must complete course work in certain foundation areas. A student who has completed successfully the requirements for the M.B.A. degree from an AACSB International accredited graduate business program will have met the foundation requirements. A student with a M.Acc. degree from an AACSB International accredited program will be expected to take some courses outside the accounting area, to be determined by the student's advisory committee. All other students will either complete the following courses or demonstrate proficiency based on prior academic work:

- BA 410-3 Financial Accounting Concepts
- BA 426-3 Managerial Economics
- MATH 140-4 Short Course in Calculus
- QUAN 506-4 Inferential Statistics
- and 5 courses from any three of the following 4 areas:
 - # BA 430, BA 510, BA 530
 - # BA 450, BA 550, BA 598

- # BA 540, BA 598
- # BA 560

In addition, the student must demonstrate proficiency in computer programming.

The student must complete a prescribed program of doctoral coursework beyond the foundation work. A minimum of 60 semester hours is required: 12–18 hours in the major field; six–12 hours in a support field; six–12 hours of research tools; and 24 hours of dissertation credit. Additional hours may be required as prescribed by the student's program advisory committee (PAC). Students on CoB assistantships must teach at least three-six hours during their program with the appropriate student/teacher evaluations. The assistantship student's PAC determines whether sufficient proficiency has been attained before being admitted to candidacy, and an evaluation listing must be inserted into the student's permanent file and signed by the Ph.D. Director.

It is expected that all doctoral coursework will be completed at SIU. In exceptional cases, the PAC may consider petitions to accept credit, not to exceed six hours, for doctoral coursework done at other institutions.

In addition to the retention policy of the Graduate School, for the Doctor of Philosophy in business administration degree program five credit hours of *C* or three credits of *D* or *F* in any graduate level course will result in automatic dismissal from the Doctor of Philosophy in business administration degree program without any rights of appeal.

Advisement

For each student a program advisory committee (PAC) is constituted and approved according to procedures described in the Doctor of Philosophy in business administration degree program policies and procedures document of the College of Business. The PAC is responsible for developing and approving a program of study for the student which meets all requirements of the Graduate School and the Doctor of Philosophy in business administration degree program. The specific program is designed in terms of the individual student's career objectives.

Comprehensive Examinations

The comprehensive examination is designed to determine the breadth and depth of the student's knowledge within the discipline. A minimum of two years of study (48 semester hours) beyond the baccalaureate must be completed before the student is permitted to sit for the comprehensive examination, and the student must be in the last semester of all scheduled coursework.

The comprehensive examination has a written and oral portion. After successful completion of the written segment, the student will sit for the oral portion of the comprehensive examination. Students who pass the oral portion will be recommended for candidacy when the residency and research tool requirements have been met. Students who fail the comprehensive examination, or any part thereof, may petition to retake the examination or any part thereof.

Specific conditions may be stipulated before the student can sit for the examination a second time. Those who fail the comprehensive examination a second time will be dismissed from the program.

Dissertation

Upon admission to candidacy, a dissertation committee is constituted and approved according to procedures described in the Doctor of Philosophy in business administration degree program policies and procedures document of the college. The student will prepare a written proposal and submit it to the dissertation committee and make an oral presentation of the dissertation proposal. On acceptance of the written and oral presentation of the dissertation proposal by the dissertation committee, the student will proceed with further work on the dissertation topic. The dissertation committee will monitor the student's progress in completing the dissertation. A final oral examination will be administered by the dissertation committee and will cover the subject of the dissertation and other matters related to the discipline. Upon successful completion of the final oral examination, the candidate will be recommended for the Doctor of Philosophy in business administration degree.

Certificate in Analytics for Managers

Managers increasingly are expected to consider large amounts of data to make faster and better decisions. Analytics is a technical tool that can be used to process all these data to find solutions. This graduate certificate allows practicing executives, managers, and those on the managerial track, to understand their organization in terms of analytics, to make the best use of their organization's analytics function, and to apply analytical models back into their organization. This is not a deeply technical program because few managers will need the highly technical skills of data scientists. But, rather, this is a program that will introduce managers to the latest advances in analytics and artificial intelligence so they can make more efficient and effective data-based decisions.

Students must complete 18 hours of coursework in Foundation of Analytics, Information Systems, Data Science, Artificial Intelligence, Visualization, and the Analytics Capstone course.

Other Graduate Degrees Offered by the College of Business

The college also offers the Master of Accountancy (M.Acc.) degree. In addition, jointly with the School of Law the College of Business offers the J.D./M.Acc. concurrent degree program. The reader is referred to the accountancy section of this catalog for details regarding the M.Acc. and J.D./M.Acc. programs. Additional information regarding the M.Acc. degree program may be obtained by contacting the School of Accountancy in the College of Business. Email: modom@business.siu.edu.

Recurring Tuition and Fees

The College of Business has implemented various fees to accommodate our heightened degrees of service for our student body. A student's status type will determine which apply.

College of Business Technology Fee

Assessed for all College of Business graduate programs at \$6 per credit hour for Fall and Spring semesters (up to 12 hours), and Summer semesters (up to 6 hours).

Differential Tuition Surcharge

In Fall 2008, the College of Business implemented a differential tuition surcharge of 15 percent of applicable tuition for graduate College of Business majors. The differential tuition surcharge will be assessed at the in-state tuition rate and will be capped at 15 credit hours per semester.

Online Program Tuition

In Fall 2009, the College of Business implemented a flat tuition rate of \$854 per credit hour for students in the online M.B.A. programs. This tuition covers the cost of textbooks and software that are required by the online program and courses. Further, students under this tuition rate are not charged for the out-of-state tuition differential, the College of Business Technology Fee, the CoB Differential Tuition Surcharge, university imposed credit-hour based fees, or university imposed semester-based fees that would otherwise apply to residential or off-campus students at SIU.

Additional Information: M.B.A. or PhD

Additional information regarding the M.B.A. degree program or Doctor of Philosophy in Business Administration degree program may be obtained by contacting Graduate Programs, College of

Business Administration Courses

BA410 - Finance Accounting Concepts 410-3 Financial Accounting Concepts. Basic concepts, principles, and techniques used in the generation of accounting data for financial statement preparation and interpretation. Asset, liability, equity valuations and income determination is stressed. Restricted to enrollment in M.B.A. program or consent of department.

BA430 - Business Finance 430-3 Business Finance. An introductory course combining both a description of the structure of business financing and an analysis of functional finance from a managerial viewpoint. Prerequisites: Business Analytics I and ACCT 220, or equivalents. Restricted to enrollment in M.B.A. program or consent of department.

BA450 - Intro Marketing Concepts 450-3 Introduction to Marketing Concepts. An overview of the role of marketing within an economic system and of the major marketing activities and decisions within an organization. Emphasis is on developing an understanding of the marketing process. Restricted to enrollment in M.B.A. program or consent of department.

BA470 - Legal & Social Environment 470-3 Legal and Social Environment. An overview of the legal, social, and ethical dimensions which influence business with particular attention to the role of law as a control factor of society in the business world. Restricted to enrollment in M.B.A. program or consent of department.

BA503 - Management of Change 503-3 Management of Change. The methods and processes of planned change are examined. Special emphasis is placed on the design and implementation of continuous improvement systems and related issues of managing constant change. Change models are viewed in the context of international competitiveness and a dynamic global environment. Restricted to enrollment in College of Business graduate program or consent of department.

BA505 - Brand Management 505-3 Brand Management. This course will focus on important issues facing brand managers who are managing existing brands. The focus will be at the level of the brand and the discussions will pertain to issues involved in the development and implementation of brand strategies. The course will provide students with a conceptual framework to examine brand equity and use it as the basis for managing categories of brands, brand extensions, and dealing with the threats of generic brands. There will be an emphasis on bringing together the different elements of a brand strategy. Prerequisite: BA 550. Restricted to enrollment in College of Business graduate program or consent of department.

BA506 - Fundamentals of Business 506-2 Fundamentals of Business & Communication for M.B.A. Professionals. This course will prepare M.B.A. Professionals for the demands of the program. The course is divided into four parts to provide students the necessary foundational skills and knowledge. (1) Introduces students to the program and helps them re-familiarize with academic communication styles. (2) Introduces students to data analytics, and satisfies the Business Analytics I foundation requirement. (3) Covers the fundamental accounting and finance topics, and satisfies the Accounting/Finance/Economics foundation requirement. (4) Introduces students to topics in their preselected concentration and satisfies the particular workshop required for that concentration. Restricted to enrollment in an Online MBA program or consent of department.

BA507 - Critical Issues Business 507-2 Critical Issues for Business Leaders. This course is designed to provide masters students with a forum to further explore topics on critical issues for business leaders. The two major themes for the course are to enhance the ability to think clearly and decisively, and to build leadership and team performance. The process shall involve reading provocative articles and engaging in experiential exercises the culmination of which provides for a practical portfolio. Restricted to enrollment in an Online MBA program or consent of department.

BA508 - Career Effectiveness 508-2 Seminar on Career Effectiveness. This course is designed to provide masters students with a forum to further explore topics on career effectiveness. This course primarily emphasizes self-development and the attainment of tools to advance a student's professional career. The two major themes for the course are to maximize personal job performance/career success, and to engage in effective interaction with others. The process shall involve reading provocative articles and engaging in experiential exercises, the culmination of which provides for a practical knowledge of select issues related to personal brand management. Restricted to enrollment in an Online MBA program or consent of department.

BA509 - Leadership Development 509-2 Advanced Seminar in Leadership Development. This course focuses on leadership processes. In particular, this course will emphasize self-development and the skills necessary to lead. This course will also build upon the conceptual foundations provided from leadership topics covered in previous courses, structuring opportunities for finding practical application of theoretical concepts. Restricted to enrollment in an Online MBA program or consent of department.

BA510 - Managerial Acct & Control 510-3 Managerial Accounting and Control Concepts. Basic cost concepts, measures, methods and systems of internal accounting useful for managerial planning, implementation, control and performance evaluation. Includes cost analysis relevant for non-routine decision-making. Prerequisites: Accounting, Finance, and Economics Foundation Area, or ACCT 220, or equivalent. Not available to students who were undergraduate accounting majors. Restricted to enrollment in College of Business graduate program or consent of department.

BA511 - Entrepreneurship Th & Prac 511-2 Entrepreneurship Theory & Practice. This course is designed to provide master's students with an introduction to entrepreneurship, its theory, and practical applications. During this course, students will be exposed to a number of activities related to starting and operating a business. The goal of this course is to provide students with the basic tools for business creation. The culmination of the course will be the completion of a business plan. Restricted to enrollment in an Online MBA program or consent of department.

BA512 - Supply Chain Cost Accounting 512-3 Supply Chain Cost Accounting. Basic cost concepts, measures, methods, and systems of cost accounting useful for the planning, implementation, control, and performance of supply chains. Includes cost analysis relevant for non-routine decision making. Restricted to enrollment in MS Supply Chain Management and Engineering.

BA513 - Acct Concepts Bus Organiz 513-3 Accounting Concepts in Business Organizations. Accounting theory and practice as it applies to business and other organizations. Emphasis is on current problem areas in accounting and on research methods being used to resolve these problems. Restricted to Doctoral student in Business Administration or consent of department. Enrollment in College of Business graduate program or consent of department.

BA514 - Ethics of Business 514-3 Ethics of Business. (Same as ACCT 514) Philosophical implications of contemporary issues in business ethics. Restricted to enrollment in College of Business graduate program or consent of department.

BA522 - Ops & Supply Chain Mgmt 522-3 Operations and Supply Chain Management. The study of the development of competitive strategy for the operations and supply chain function, frameworks and tools used to implement operations and supply chain strategy, and how the operations and supply chain function contributes to an organization's competitive capabilities in the global marketplace. Prerequisite: Business Analytics I Foundation Area or equivalent. Restricted to enrollment in the College of Business graduate program or consent of department.

BA523 - Strategic Data Mining 523-3 Strategic Data Mining. Concepts and techniques for strategic knowledge discovery in structured and unstructured data from pre-processing and transformation to model validation and post-processing. Real-world examples and cases to put data mining in context and to illustrate how the application of data mining can lead to better strategic data-based decision making. Restricted to enrollment in College of Business graduate program or consent of the department.

BA524 - Analytics for Managers 524-3 Foundations of Analytics for Managers. This course provides an introduction of data science and analytics from a real-world perspective through interviews with technical staff, managers, and executives. In addition, the course teaches the statistical foundations needed for

data science and analytics. Restricted to enrollment in College of Business graduate program or consent of the department.

BA525 - Data Science for Managers 525-3 Data Science and Analytics for Managers. Provides a broad overview of basic concepts, principles, and recent innovations in Data Science. Data Science is the study of the extraction of knowledge from data. Data Science includes good domain knowledge, data modeling, database, statistics, and AI to produce effective solutions, predictions, and insights. This course will give a practical introduction to business analytics using databases, data warehouses, structured, and unstructured data from a cross-section of industries. Restricted to enrollment in College of Business graduate program or consent of the department.

BA526 - Analytics & AI for Managers 526-3 Advanced Analytics and Artificial Intelligence for Managers. The goal of Artificial Intelligence (AI) is to have a machine that can perform the cognitive functions of the human mind such as learning and thinking. This course is an introduction to artificial intelligence and how it can be combined with data analytics to create a powerful tool for better decision making. Prerequisite: BA 525 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA527 - Analytics Visualization 527-3 Advanced Analytics and Visualization for Managers. This course will introduce students to the field of data visualization. Data visualization is the science of stripping data down to its most important structures and then using the best techniques to take advantage of human perception for effective communication, decision making, and persuasion. Students will learn how to present data in the most efficient, effective, and aesthetic for decision making. Prerequisite: BA 525 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA528 - M.B.A. Analytics Capstone 528-3 M.B.A. Analytics Capstone. This is the capstone course in data analytics. Students will apply techniques learned in analytics, data science, artificial intelligence, and visualization in a variety of real world scenarios. Emphasis is on creative, abstract, and integrative thinking in executing a program in data analytics and managing the data analytics function. Prerequisite: BA 525, BA 526, and BA 527 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA529A - Accounting Analytics 529A-3 Accounting Analytics. Use of analytics and accounting concepts and techniques. How structured and unstructured accounting data are obtained, validated, processes, and used in making descriptive and predictive models. The use of accounting analytics for better data-based accounting decision making. Restricted to enrollment in College of Business graduate program or consent of department.

BA529B - Financial Analytics 529B-3 Financial Analytics. Use of analytics and finance concepts and techniques. How structured and unstructured financial data are obtained, validated, processed, and used in making descriptive and predictive models. The use of financial analytics for better data-based financial decision making. Restricted to enrollment in College of Business graduate program or consent of department.

BA529C - Marketing Analytics 529C-3 Marketing Analytic. Use of analytics and marketing concepts and techniques. How structured and unstructured marketing data are obtained, validated, processed, and used in making descriptive and predictive models. The use of marketing analytics for better data-based marketing decision making. Restricted to enrollment in College of Business graduate program or consent of department.

BA529D - Management Analytics 529D-3 Management Analytics. Use of analytics and management concepts and techniques. How structured and unstructured management data are obtained, validated, processes, and used in making descriptive and predictive models. The use of management analytics for better data-based managerial decision making. Restricted to enrollment in College of Business graduate program or consent of department.

BA530 - Financial Management 530-3 Financial Management. Provide a broad overview of basic concepts, principles, and recent innovations in financial management. Topics covered will include risk and return, valuation, capital budgeting, capital structure and cost of capital, dividend policy, financial planning, international financial management and corporate restructuring. Prerequisite: Accounting, Finance, and Economics Foundation Area or equivalent. Not available for students who have credit for

FIN 361 or were undergraduate finance majors. Restricted to enrollment in College of Business graduate program or consent of the department.

BA531 - Advanced Financial Management 531-3 Advanced Financial Management. An evaluation of selected financial policies connected with the acquisition and disposition of funds by the firm. An emphasis is placed on quantitative solutions to these problems. Prerequisite: BA 530, or FIN 361, or SIU undergraduate Finance major. Restricted to enrollment in College of Business graduate program or consent of department.

BA532 - Financial Insts & Market 532-3 Financial Institutions and Markets. The principal financial institutions and markets will be studied in relation to their contribution to the efficient operation of the individual enterprise and the total company. Prerequisite: BA 530, or FIN 361, with a C or better or equivalent. Not available to students with credit for FIN 449 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA533 - Investments Concepts 533-3 Investment Concepts. A study of fixed return and variable return securities, investment services, industry and issue analysis, empirical studies of groups and individual stock price movements. Prerequisite: BA 530, or FIN 361, with a C or better, or equivalent. Not available for students with credit for FIN 433 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA536 - Security Valuation 536-3 Financial Analysis and Security Valuation. (Same as FIN 469) Study of financial problems facing corporations, their causes and solutions. Emphasis given to the impact of these financial problems on how the market values securities. Topics include liquidity and leverage analysis, analysis of profitability, and other financial analysis tools. Not available for students with credit for FIN 469. Prerequisite: BA 530 or BA 531. Restricted to enrollment in M.B.A. program or consent of department.

BA537 - Intel Property & Commercial 537-3 Intellectual Property and Commercialization. (Same as ENGR 522, LAW 633) Course teaches substance & practice of commercializing products of scientific & technical research. Provides a basic understanding of intellectual property laws in commercialization context & how those laws are applied in various fields of technology. Will learn how to value intangible assets, taking into account their commercial potential & legal status. Course will consider the legal & business issues surrounding marketing of products of research. Will prepare & negotiate license agreements. Will analyze legal & business issues surrounding whether & how to enforce intellectual property rights. Content & methods of course delivery & evaluation has been approved for provision by distance education.

BA539A - Corporate Fin Seminar I 539A-3 Doctoral Seminar in Theoretical and Empirical Corporate Finance-I. A series of doctoral seminars on theoretical and empirical issues in finance. Sections (A) through (D) may be taken only once. BA 539A covers a subset of topics on Theoretical and Empirical Corporate Finance, including methodology used in corporate finance research. Restricted to enrollment in College of Business graduate program or consent of department.

BA539B - Corporate Fin Seminar II 539B-3 Doctoral Seminar in Theoretical and Empirical Corporate Finance-II. A series of doctoral seminars on theoretical and empirical issues in finance. Sections (A) through (D) may be taken only once. BA 539B covers the remaining set of topics on Theoretical and Empirical Corporate Finance, including methodology used in corporate finance research. Restricted to enrollment in College of Business graduate program or consent of department.

BA539C - Investment Seminar I 539C-3 Doctoral Seminar in Theoretical and Empirical Asset Pricing and Investment-I. A series of doctoral seminars on theoretical and empirical issues in finance. Sections (A) through (D) may be taken only once. BA 539C covers a subset of topics on Theoretical and Empirical Asset Pricing and Investment, including methodology used in asset pricing and investment research. Restricted to enrollment in College of Business graduate program or consent of department.

BA539D - Investment Seminar II 539D-3 Doctoral Seminar in Theoretical and Empirical Asset Pricing and Investment II. A series of doctoral seminars on theoretical and empirical issues in finance. Sections (A) through (D) may be taken only once. BA 539D covers the remaining set of topics on Theoretical and

Empirical Asset Pricing and Investment, including methodology used in asset pricing and investment research. Restricted to enrollment in College of Business graduate program or consent of department.

BA540 - Managrl/Organztl Behavior 540-3 Managerial and Organizational Behavior. Case analyses of human problems in the business organization. Application of findings of behavioral science research to organization problems. Development of direction and leadership skills. Restricted to enrollment in College of Business graduate program or consent of department.

BA541 - Analytic Methods 541-3 Analytic Methods for Supply Chain Management. An introduction to mathematical model building in supply chains and the solution techniques commonly used to solve such models. In addition, this course includes statistical methods for decision making. Topical coverage includes decision theory, hypothesis testing, regression, spreadsheet modeling, mathematical programming, queuing models, and simulation. Restricted to enrollment in MS Supply Chain Management and Engineering.

BA543 - Personnel Management 543-3 Personnel Management. An overview of the field of personnel administration, based on a review of the relevant literature and on practice in simulations of problems typically encountered in the field. Prerequisite: BA 440 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA544 - Planning and Inventory 544-3 Advanced Production Planning and Inventory Management. An in-depth study of analytical models and techniques for production planning, scheduling, and inventory management. Restricted to enrollment in MS Supply Chain Management and Engineering.

BA545A - Sem:Found Orgnzatn Study 545A-3 to 21 (3,3,3,3,3,3,3) Seminar in Organization Studies. A series of advanced seminars in organization studies. Sections (A)-(G) can be taken only once. Foundations in Organization Studies. Restricted to enrollment in College of Business graduate program or consent of department.

BA545B - Sem:Adv in Orgztnl Behavior 545B-3 to 21 (3,3,3,3,3,3,3) Seminar in Organization Studies. A series of advanced seminars in organization studies. Sections (A)-(G) can be taken only once. Advances in Organizational Behavior. Restricted to enrollment in College of Business graduate program or consent of department.

BA545C - Sem:Advn Orgnzatn Theory 545C-3 to 21 (3,3,3,3,3,3,3) Seminar in Organization Studies. A series of advanced seminars in organization studies. Sections (A)-(G) can be taken only once. Advances in Organization Theory. Restricted to enrollment in College of Business graduate program or consent of department.

BA545D - Sem: Advn Strategic Mgmt 545D-3 to 21 (3,3,3,3,3,3,3) Seminar in Organization Studies. A series of advanced seminars in organization studies. Sections (A)-(G) can be taken only once. Advances in Strategic Management. Restricted to enrollment in College of Business graduate program or consent of department.

BA545E - Sem:Spcl Topics Orgnz Behvr 545E-3 to 21 (3,3,3,3,3,3,3) Seminar in Organization Studies. A series of advanced seminars in organization studies. Sections (A)-(G) can be taken only once. Special Topics in Organizational Behavior. Restricted to enrollment in College of Business graduate program or consent of department.

BA545F - Sem:Specl Topics Orgnz Theory 545F-3 to 21 (3,3,3,3,3,3,3) Seminar in Organization Studies. A series of advanced seminars in organization studies. Sections (A)-(G) can be taken only once. Special Topics in Organization Theory. Restricted to enrollment in College of Business graduate program or consent of department.

BA545G - Sem: Spcl Topics Strategic Mgmt 545G-3 to 21 (3,3,3,3,3,3,3) Seminar in Organization Studies. A series of advanced seminars in organization studies. Sections (A)-(G) can be taken only once. Special Topics in Strategic Management. Restricted to enrollment in College of Business graduate program or consent of department.

BA546 - Leadership & Managerial Behavr 546-3 Leadership and Managerial Behavior. This course will concentrate on leader and manager behavior at middle and upper organizational levels. Emphasis will be placed on leader and manager effectiveness and the factors that impact effectiveness. Prerequisite:

BA 540 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA547A - Sem:Fndtns Prod/Operations Mgt 547A-3 to 15 (3,3,3,3 to 6) Seminar in Production/Operations Management-Foundations in Production/Operations Management. Series of advanced seminars in Production/Operations Management. Sections (A) through (C) may be taken only once. Restricted to enrollment in College of Business graduate program or consent of department.

BA547B - Sem Prod/Operations Mgmt 547B-3 to 15 (3,3,3,3 to 6) Seminar in Production/Operations Management. Series of advanced seminars in Production/Operations Management. Sections (A) through (C) may be taken only once. Service Operations Management. Restricted to enrollment in College of Business graduate program or consent of department.

BA547C - Sem: Prod/Operations Mgmt 547C-3 to 15 (3,3,3,3 to 6) Seminar in Production/Operations Management. Series of advanced seminars in Production/Operations Management. Sections (A) through (C) may be taken only once. Production/Operations Management and Information Systems. Restricted to enrollment in College of Business graduate program or consent of department.

BA547D - Sem:Prod/Operations Mgmt 547D-3 to 15 (3,3,3,3 to 6) Seminar in Production/Operations Management. Series of advanced seminars in Production/Operations Management. Special Topics in Production/Operations Management. Restricted to enrollment in College of Business graduate program or consent of department.

BA548A - Seminar in Mgmt Info Sys 548A-3 to 18 (3,3,3,3,3 to 6) Seminar in Management Information Systems. A series of advanced seminars on Management Information Systems (MIS). Sections (A) through (D) may be taken only once. Advances in Management Information Systems. Restricted to enrollment in College of Business graduate program or consent of department.

BA548B - Seminar in Mgmt Info Sys 548B-3 to 18 (3,3,3,3,3 to 6) Seminar in Management Information Systems. A series of advanced seminars on Management Information Systems (MIS). Sections (A) through (D) may be taken only once. Decision Support and Information Systems. Prerequisite: (A). Restricted to enrollment in College of Business graduate program or consent of department.

BA548C - Seminar in Mgmt Info Sys 548C-3 to 18 (3,3,3,3,3 to 6) Seminar in Management Information Systems. A series of advanced seminars on Management Information Systems (MIS). Sections (A) through (D) may be taken only once. Section (E) may be repeated as topics vary. Quantitative and Computer Methods for Decision Support and Information Systems. Restricted to enrollment in College of Business graduate program or consent of department.

BA548D - Seminar in Mgmt Info Sys 548D-3 to 18 (3,3,3,3,3 to 6) Seminar in Management Information Systems. A series of advanced seminars on Management Information Systems (MIS). Sections (A) through (D) may be taken only once. Section (E) may be repeated as topics vary. Strategic Management of Information. Restricted to enrollment in College of Business graduate program or consent of department.

BA548E - Project Management 548E-3 Project Management. Organizations have become increasingly complex and their success is generally dependent on how well individuals can function as a group. It is important that you understand the activities that are necessary to participate in or manage a successful project; these topics include project selection, project scheduling, project budgeting, project monitoring and controlling a project, and closing a project. Restricted to enrollment in College of Business graduate program or consent of department.

BA550 - Marketing Management 550-3 Marketing Management. A managerial approach to the study of marketing. Emphasis is on the nature and scope of the marketing manager's responsibilities and on marketing decision-making. Restricted to enrollment in College of Business graduate program or consent of department.

BA551 - Product Strategy & Mgt 551-3 Product Strategy and Management. Designed to treat product management and its relationships with business policies and procedures; the development of multiproduct strategies, means of developing such strategies and the problems and methods of

commercialization. Prerequisite: BA 550 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA552 - Research Method for Mktg 552-3 Research Methodology for Marketing. The study of theory, method and procedure for quantitative and qualitative analysis of primary and secondary marketing data. Emphasis is placed on application of specific research tools to the process of formulating and testing research hypotheses. Restricted to enrollment in College of Business graduate program or consent of department.

BA553 - Markets and Negotiation 553-3 Supply Markets and Negotiation. This course is designed to address markets and negotiations for managing the purchasing function in supply chains. Restricted to enrollment in MS Supply Chain Management and Engineering.

BA555 - Sem: Consumer Behavior 555-3 Seminar in Consumer Behavior. Emphasis on the theories and research relating behavioral science to the discipline of marketing. Development of sophisticated comprehension of the consumption process is undertaken. Restricted to enrollment in College of Business graduate program or consent of department.

BA556 - Seminar in Mktg Strategy 556-3 Seminar in Marketing Strategy. Long run market opportunities are identified and evaluated. Methods of implementation and execution affecting the relationship of strategic marketing planning to the allocation decisions of top management are emphasized. The orientation is toward theoretical development to provide a base for continuing research in the field. Restricted to enrollment in College of Business graduate program or consent of department.

BA557 - Seminar in Mktg Theory 557-3 Seminar in Marketing Theory. The philosophical bases underlying the development of theory in marketing. The process of development of marketing ideas through research is emphasized. Restricted to enrollment in College of Business graduate program or consent of department.

BA558 - Promotion Strategy & Mgt 558-3 Promotional Strategy and Management. The study of the elements of the promotional mix including advertising, personal selling, sales promotion and publicity and how they apply in the profit and not-for-profit sectors of the market place. Prerequisite: BA 550 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA560 - Mgmt of Information Systems 560-3 Management of Information Systems. A survey of information system design, analysis and operations. Topics include systems concepts, systems analysis and design, database management, software and hardware concepts, decision support systems, expert systems, distributed processing and telecommunications and information systems planning. Applications of information technology will be emphasized. Restricted to enrollment in College of Business graduate program or consent of department.

BA561 - Database Design & Apps 561-3 Database Design and Applications. Database planning, design and implementation; application of data modeling techniques-entity-relationship diagrams, hierarchical, network, relational and object-oriented data modeling; physical design and data administration; Distributed and Expert Database Systems. Restricted to enrollment in College of Business graduate program or consent of department.

BA562 - Information Systems & Design 562-3 Information Systems and Design. Principles and concepts; strategic systems planning; tools and techniques for analysis and design; construction and quality management; reusability; methodology evaluation; full life cycle CASE tools. Restricted to enrollment in College of Business graduate program or consent of department.

BA565 - Managing Information 565-3 Managing Supply Chain Information. Information system design, analysis and operations. Topics include systems concepts, systems analysis and design, database management, software and hardware concepts, decision support systems, expert systems, distributed processing, and telecommunications and information systems planning. SAP applications in supply chain management will be emphasized. Restricted to enrollment in MS in Supply Chain Management and Engineering.

BA570A - Prof Development Dimensions 570A-1 Professional Development Dimensions. To aid the professional development of M.B.A. students by providing a variety of experiences to address attitudes,

values and ethical standards. Executive guest speakers, roundtable discussion, simulations and role-playing will be used. To be taken as one hour. Additional charges of approximately \$20 may be assessed for field trips. Restricted to enrollment in College of Business graduate program or consent of department.

BA570B - Prof Development Dimensions 570B-1 Professional Development Dimensions. To aid the professional development of M.B.A. students by providing a variety of experiences to address attitudes, values and ethical standards. Executive guest speakers, roundtable discussion, simulations and role-playing will be used. To be taken as one hour. Additional charges of approximately \$20 may be assessed for field trips. Restricted to enrollment in College of Business graduate program or consent of department.

BA571 - Teach & Research Essentials 571-1 Teaching and Research Essentials for Doctoral Candidates. This course is designed to prepare doctoral candidates within the College of Business for entry level (Assistant Professor) positions. Teaching strategies, classroom management, development of courses as well as research and publication strategies are discussed. Restricted to doctoral status in the College of Business. This course must be taken the second semester of the student's course work.

BA573 - Plan Systems & Strategic Decns 573-3 Planning Systems and Strategic Decisions. A critical review of theory and research on the structure, content and process of strategic decisions. The design and implementation of planning systems also is emphasized. Restricted to enrollment in College of Business graduate program or consent of department.

BA574 - Adv Research Methods Admin 574-3 Advanced Research Methods in Business Administration. A capstone research course in business that exposes the student to a full range of research experiences. Emphasis is on integrating learning and creative thinking in the execution of the research process. Restricted to enrollment in College of Business graduate program or consent of department.

BA574B - Adv Research Methods II 574B-3 Advanced Research Methods II. This course is a practicum in advanced research methods. It will focus on analysis of data, interpretation of results and synthesis of conclusions based on a clear understanding of the objectives of research, the characteristics of data and techniques for manipulating data. Restricted to enrollment in College of Business graduate program or consent of department.

BA575 - Sem Multivariate Stats 575-3 Seminar in Multivariate Statistics. This seminar in multivariate statistics will give doctoral students in Business a theoretical and practical knowledge of multivariate methods such as cluster analysis, multiple regression, discriminant analysis, canonical analysis, etc., for the purpose of equipping them for dissertation work, and subsequent research for publication in the top academic business journals. Restricted to enrollment in College of Business graduate program or consent of department.

BA580 - International Business 580-2 to 3 International Dimensions of Business and Management. International business and activities are examined in the international environment. The course will focus on concepts and issues of international business and will analyze the marketing, financial, accounting, managerial, logistical and production functions of international operations. Emphasis is on integrating, learning and creative thinking through lecture and case analysis. Foundational M.B.A. coursework should be completed. Restricted to enrollment in College of Business graduate program or consent of department.

BA581 - Global Marketing 581-3 Global Marketing. The basic elements of marketing management are identified in the setting of a global business environment. Emphasis is given to variables in the international markets that effect strategic business planning such as cultural, ethical, political and economic influences. The course focuses on current trends in the marketing practices of organization. Prerequisite: BA 550 or equivalent. Restricted to enrollment in College of Business graduate program or consent of department.

BA582 - International Finance 582-3 International Finance. Discussion of international monetary system, parity conditions, foreign exchange markets and financial markets. Special focus on financial management of the multinational firm, including risk assessment, hedging, capital budgeting, and performance evaluation and control. Not available for students with credit for FIN 464. Prerequisite: BA 530. Restricted to enrollment in College of Business graduate program, or consent of department.

BA583 - Global Operations Mgmt 583-3 Global Operations Management. A study of issues and problems related to managing global operations and current practices. Topics include international operations comparisons, international operations improvement and competitive leverage, issues critical to global operations, international cross-functional coordination, coordinating international material flow, coordinating international process and product design, among others. Prerequisite: BA 580. Restricted to enrollment in College of Business graduate program or consent of department.

BA584 - Global Business Strategies 584-3 Global Business Strategies. To examine decision-making in international business via a broad study of the opportunities and problems encountered when business operations cross national boundaries; to impart current knowledge regarding the theory and practice of functional aspects of global marketing, international finance and global operations management; to focus on the multinational nature of international managerial decisions. Prerequisite: BA 580. Restricted to enrollment in College of Business graduate program or consent of department.

BA588A - Study Abroad-Business 588A-3 Study Abroad-Business. Provides graduate credit for study abroad at accredited and approved foreign institutions. To be taken as first study abroad program. Restricted to enrollment in M.B.A. program or consent of department.

BA588B - Study Abroad-Business 588B-1 to 3 Study Abroad-Business. Provides graduate credit for study abroad at accredited and approved foreign institutions. To be taken as second study abroad program. Prerequisite: All Foundation Area degree requirements. Restricted to enrollment in M.B.A. program or consent of department.

BA591 - Independent Study 591-1 to 15 (3 per semester per 700 number) Independent Study. Directed independent study in selected areas of business administration. May be repeated as topics vary. Restricted to enrollment in College of Business graduate program. Departmental approval required.

BA595 - Internship/Work Experience 595-1 to 6 Internship/Work Experience. Current practical experience in a business or other work directly related to course work in a College of Business program and to the student's educational objectives might be used as a basis for granting credit to the college. Credit is given when specific program credit cannot be granted and is usable for elective credit only. Credit is sought by petition and must be approved by the COB dean before registration. Graded S/U or DEF only. Restricted to enrollment in College of Business graduate program or consent of department.

BA598 - Business Policies 598-3 Business Policies. Study of the development and evaluation of business strategies and policies as they relate to the overall performance of the firm within its environment. Knowledge of the functional areas of administration, available business data and analytical tools will be utilized in solving comprehensive business cases and simulation games. Restricted to enrollment in College of Business graduate program or consent of department.

BA599 - Thesis 599-3 to 6 Thesis. Restricted to enrollment in M.B.A. program or consent of department, consent of instructor.

BA600 - Dissertation 600-1 to 24 (1 to 16 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree in Business Administration. Restricted to advancement to candidacy for Doctor of Philosophy Degree in Business Administration.

BA601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students in business who have not finished their degree programs and who have one or more INCs or DEFs on their records and/or are in the process of completing their degree requirements. The student must have previously enrolled in a minimum of 36 hours of course work that meets M.B.A. program core and elective requirement or have completed a minimum of 24 hours of BA 600 before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

BA699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Business Administration Faculty

Graduate Faculty in Finance:

Beardsley, Xiaoxin Wang, Associate Professor and *Interim Chair*, Ph.D., Pennsylvania State University, 2003; 2003. Market microstructure and investments.

Marlo, Timothy M., Clinical Assistant Professor, Ph.D., Southern Illinois University Carbondale, 2016; 2016. Investment.

Peterson, Mark A., Professor and *Associate Dean*, Ph.D., Pennsylvania State University, 1996; 1997. Investments.

Van Alfen, Tyson D., Ph.D., University of Kentucky, 2019; 2019. Corporate finance.

Graduate Faculty in Management:

Carter, Min, Associate Professor, Ph.D., Auburn University, 2009; 2015. Leadership.

Dai, Ye, Associate Professor, Ph.D., University of Texas at Austin, 2012; 2012.

DeYong, Gregory D., Assistant Professor, Ph.D., Indiana University, 2010; 2013. Operations management, decision technologies.

Goodale, John., Associate Professor, Ph.D., University of Utah, 1996; 2009. Operations management.

Karau, Steven J., Professor, Ph.D., Purdue University, 1993; 1998. Organizational behavior, human resource management.

Mykytyn, Peter P., Jr., Professor, Ph.D., Arizona State University, Tempe, 1985; 2001. Management information systems.

Nelson, H. James, Associate Professor, Ph.D., The University of Colorado, 1999.

Nelson, Kay M., Professor, Ph.D., University of Texas at Austin, 1995; 2005. Management information systems.

Nelson, Reed, Professor, *Emeritus*, Ph.D., Cornell University, 1983; 1991.

Graduate Faculty in Marketing:

Adjei, Mavis, Associate Professor, University of Mississippi, Ph.D., 2006; 2006. Marketing relationships, customer retention.

Anaza, Nwamaka A., Associate Professor, Ph.D., Purdue University, 2010; 2015.

Clark, Terry, Professor and *Dean*, Ph.D., Texas A&M University, 1987; 1999. Marketing strategy, global marketing, global business strategy.

Kamran Disfani, Omid, Ph.D., University of Missouri, 2019; 2019, Marketing Strategy, Analytics.

Fraedrich, John, Professor, Ph.D., Texas A&M University, 1988; 1987. Business ethics, ethical decision.

Chemistry & Biochemistry

Programs leading to the Doctor of Philosophy and Master of Science degrees may be undertaken in the general areas of analytical, biochemistry, inorganic, materials, organic, and physical chemistry. The doctoral degree in chemistry is a research degree. To be awarded this degree, the student must demonstrate, to the satisfaction of the graduate committee, the ability to conduct original and independent research within some area of chemistry and must make an original contribution to the science. The master's degree also requires a research project, but with less emphasis on originality and independence.

Admission

Each student must have a baccalaureate degree in one of the sciences, mathematics, or engineering to be considered for admission to an advanced degree program.

An undergraduate major in chemistry, with the following courses, is desirable:

1. One year of organic chemistry (lecture and laboratory).
2. One year of calculus-based physical chemistry (lecture and laboratory).
3. One year of analytical chemistry including instrumental analysis.

Students with deficiencies in any area may be admitted, but such deficiencies may restrict the research areas available to the student and lead to requirements for additional courses during graduate study.

Prospective students are encouraged to contact faculty in areas of the students' research interest.

Applicants are strongly encouraged to submit Graduate Record Examination (GRE) general and chemistry test scores.

Foreign students whose native language is not English will be required to obtain at least 550 paper score, 220 computer score, on the Test for English as a Foreign Language (TOEFL).

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Chemistry and Biochemistry. Applicants must pay this fee by credit card.

Placement Examinations

During the week before the beginning of classes, each admitted student is given written examinations (ACS standard or equivalent examination) in the five divisions of chemistry: analytical, inorganic, organic, physical, and biochemistry. Every student is required to take at least three exams. The results of these examinations are used to advise the student regarding any deficiencies to be corrected, and to place the student in appropriate courses as determined by a Graduate Student Advisory Committee. Therefore, we strongly encourage and expect all beginning students to review the appropriate undergraduate material before taking these examinations. Failure to pass the exams will generally require that the student take some remedial coursework.

Introduction to Research Techniques

All graduate students must register for CHEM 592, Introduction to Research, during the first fall semester in residence.

Minimum Registration

All students admitted to the department will register for a minimum of nine credit hours every semester in residence except during the first semester, summer sessions, and while registered for CHEM 601 only. In the first semester, the students must register for a minimum of six credit-hours, and in every summer session, a minimum of three credit-hours. Registration for less than this requirement is not considered satisfactory progress toward a degree.

Formal Course Work Requirement

Each student must complete the courses specified by the student's graduate committee in the program of the study. Generally, these will include the courses specified by the student's major division. The minimum course requirement for students in the master's and doctoral programs includes at least 21 credit hours of 500-level lecture-style courses and follows a "2+2+3" format, in which all students must take for credit at least two courses (six semester hours) within the student's major field and at least two courses (six semester hours) from outside the major field. In addition, students must take three lecture-style courses at the 500-level, which must be approved by the Student's Graduate Committee. These three courses may be within the student's major division or may be from outside the major field or outside the Department. Select 400-level lecture-style courses offered by the Chemistry Department (see Departmental Requirements and Regulations) are eligible, including CHEM 451A, CHEM 451B, CHEM 456, CHEM 468, and CHEM 479. Eligible courses taken while in the master's program in the chemistry department at SIU may be applied to these departmental courses requirements.

For a student working in a cross-divisional area, the committee will design an appropriate program of study in consultation with the Graduate Advisor and the faculty of the divisions involved. Students must receive credit for graded presentations recorded as CHEM 593A-C. Masters and doctoral students are required to receive credit for CHEM 593A, which is a literature presentation that is organized through

the student's divisional journal club. In addition, doctoral students must receive credit for CHEM 593B and CHEM 593C, which are received for graded presentations associated with the presentation of an independent research proposal and a presentation of the student's dissertation research, respectively.

All students must take one hour of CHEM 597, Professional Training, and one hour of CHEM 595A-E, Journal Club, each semester in residence.

Research Director and Graduate Committee Selection

Each student must select a research director and graduate committee preferably during the first semester, but no later than the end of the second semester in residence. The student must obtain a selection form provided by the graduate adviser and must interview at least four faculty members before selecting a research director and graduate committee. For a master's candidate, the committee shall consist of the research director (chair), at least one member of the major division other than the research director, and at least one member outside the major division. For a Ph.D. candidate, the committee is identical except that at least one member outside the department is included. The chair of the Department of Chemistry and Biochemistry, if not otherwise appointed, is an ex-officio member of every graduate committee. A division may increase this requirement.

Graduate Committee Functions. The functions of the graduate committee are listed below:

1. To plan and approve the student's program of study.
2. To review the student's progress in courses and suggest and approve changes in the program of study.
3. To evaluate the student's progress in research and to make appropriate recommendations.
4. To determine whether a student may continue toward a degree. If continuation is denied, the committee must notify in writing the department chair of the reasons for this denial.
5. To read and evaluate the student's thesis or dissertation.
6. To conduct required oral examinations.

As soon as possible after being appointed, the committee will meet to plan the student's program. At this time the progress and program form is completed and filed with the graduate adviser. The committee may require preparation of a master's thesis even if directly pursuing a Ph.D. degree has been previously approved by the faculty.

Research Tools

The department requires no specific research tools. A student's graduate committee, taking into account the student's background and the needs of the research area, may require that the student acquire one or more research tools (e.g., foreign language, computer programming, statistics, etc.). It is the student's responsibility to see that any research tool requirement is completed before scheduling the preliminary oral examination.

Assistantship Support

Continuation of assistantship support is contingent upon the student making satisfactory progress toward a degree. In addition, continuation of teaching assistantship support depends upon satisfactory performance of assigned duties. The Graduate School has established time limits for financial support.

First Year Evaluation

The faculty, meeting as a committee of the whole, will review the progress of all graduate students at the end of their first year in residence.

For students in the doctoral program the faculty can:

1. recommend continuation in the doctoral program.
2. recommend transfer to a terminal master's degree program.
3. request that the Graduate School terminate the student from the program (giving cause).

For students in the master's program the faculty can:

1. recommend petitioning the Graduate School to allow entry to the doctoral program (accelerated entry option). Such petition can be made any time after one semester in residence.
2. recommend continuation in the master's program with the option to petition the Graduate School to grant a master's degree equivalency. When granted, this allows the student to apply for entrance to the doctoral program without writing and defending a thesis.
3. recommend continuation in the master's program with option to petition to enter the doctoral program after completion of a master's thesis.
4. recommend continuation in a terminal master's program.
5. request that the Graduate School terminate the student from the program (giving cause).

Preliminary Examination for the Ph.D. Degree

Each student in the doctoral program must pass a preliminary examination before being advanced to candidacy. The first portion of the preliminary examination is given in the form of cumulative exams with 10 examinations scheduled each calendar year. The student must pass four examinations in no more than 10 consecutive trials. Students must begin cumulative examinations at the start of their second calendar year or immediately on admission to the doctoral program if one calendar year has already been completed in the master's program. After the student completes the cumulative examinations, the preparation and defense of an original research proposal will serve as the oral portion of the preliminary examination.

Research

A research project is required of all graduate students. A student in the doctoral program must earn at least 32 credit hours in research and dissertation (CHEM 598 and CHEM 600). A minimum of 24 hours must be dissertation credit (CHEM 600). The results of the research must be presented in the form of a dissertation acceptable to both the student's committee and to the Graduate School.

Dissertation

After being admitted to candidacy, the student must register for 24 semester hours of CHEM 600 and complete a dissertation acceptable to both the student's Graduate Committee and to the Graduate School before graduation. Students who have registered for the 24 semester hours of dissertation credit and have not completed the doctoral dissertation are subject to the continuing extended enrollment requirement described in the next section.

Extended Registration

A student who has completed all doctoral degree requirements with the exception of writing a dissertation, and who is in the process of writing a dissertation, must register for CHEM 601 (one to 12 credit hours per semester) until the dissertation is completed and defended.

Final Oral Examination

A student in the doctoral program must schedule and pass a final oral examination (defense of dissertation). The student will present a departmental seminar for credit (CHEM 593C) based on the results of the research.

After questions from the general audience, the student's graduate committee will conduct an oral examination of the student. The grade for CHEM 593C is based on the seminar presentation and is independent of the oral examination. Copies of the dissertation must be presented to members of the student's graduate committee at least one week before the seminar and the examination.

Chemistry & Biochemistry Courses

CHEM411 - Advanced Inorganic Chemistry 411-3 Advanced Inorganic Chemistry. Inorganic chemistry covering bonding and structure, polyatomic systems, coordination compounds, and the chemistry of

elements. Three lectures per week. Prerequisites: CHEM 311, 360, and 361 with grades of C or better. Suggested MATH 221.

CHEM431 - Environmental Chemistry 431-3 Environmental Chemistry. Chemical principles applied to the environment and environmental problems. Chemical kinetics, thermodynamic and equilibrium concepts as they relate to the atmosphere, water and soil will be discussed to include current problems of pollutants, pollutant evaluation and pollutant remediation. Discussion of methods for the chemical analysis of environmental samples will also be included. Prerequisite: C or better in CHEM 330 and 340.

CHEM434 - Instrumental Analysis 434-2 to 4 Instrumental Analytical Chemistry. Theory and practice of instrumental measurements, including emission and absorption spectroscopic, capillary electrophoretic and chromatographic methods. Two lectures and two three-hour laboratories per week for four credits. Enrollment for two credit hours is restricted to graduate students in the Department of Chemistry and Biochemistry who are advised to take instrumental analysis. Prerequisite: C or better in CHEM 330. Offered fall semester only. Laboratory fee: \$60.

CHEM439 - Forensic Chemistry 439-3 Forensic Chemistry. A one-semester course in the analysis of forensics samples. Topics include sample collection and preservation, chain of custody, data validation and reports, and analytical methods which may include (as time permits) chromatography, mass spectroscopy, fluorescence and absorbance spectroscopy, fingerprint identification, and scanning electron and light microscopy. One lecture and one six-hour laboratory meeting per week. Prerequisite: C or better in CHEM 330 and 434. Offered spring semester only. Lab fee: \$60.

CHEM442 - Organic Chemistry II 442-3 Organic Chemistry II. This is a continuation of 340 emphasizing topics that were not covered in the first semester. Topics will include the chemistry of aromatic compounds, dienes and other carbon-carbon bond forming reactions. Advanced topics such as polymers and biomolecules may also be covered. Three lectures per week. Prerequisite: C or better in CHEM 340, 341; concurrent enrollment in 443 is recommended. Offered spring semester only.

CHEM444 - Intermediate Organic Chem 444-3 Intermediate Organic Chemistry. A transitional course between introductory and graduate level chemistry. The chemistry of carbon compounds based upon a mechanistic approach will be discussed. Three lectures per week. Prerequisite: C or better in CHEM 340 and 442. Offered fall semester only.

CHEM451A - Biochemistry 451A-3 Biochemistry. (Same as BCHM 451A and MBMB 451A) First half of the 451 A,B two semester course. Must be taken in A,B sequence. Three lectures per week. Introduction to biomolecules, biochemical techniques, expression of genetic information, basic thermodynamics, ligand binding, aqueous solutions, protein structure, spectroscopy. Prerequisites: CHEM 340 and CHEM 342 or 442, or equivalents.

CHEM451B - Biochemistry 451B-3 Biochemistry. (Same as MBMB 451B and BCHM 451B) Second half of 451A,B two semester course. Must be taken in A,B sequence. Basic kinetics, enzyme kinetics, enzyme inhibitors, regulation of enzymes, oxidation-reduction, high energy bonds, transport across membranes, intermediary metabolism, hormonal control of metabolism. Prerequisites: MBMB 451A or BCHM 451A or CHEM 451A or equivalent.

CHEM456 - Biophysical Chemistry 456-3 Biophysical Chemistry. (Same as MBMB 456 and BCHM 456) A one-semester course in Biophysical Chemistry intended for biochemists and molecular biologists. Emphasis will be on solution thermodynamics, kinetics and spectroscopy applied to biological systems. Prerequisites: CHEM 340 and CHEM 342 or 442, MATH 141 or 150, MBMB 451A or BCHM 451A or CHEM 451A, or equivalents.

CHEM460 - Quantum Mechanics 460-3 Quantum Mechanics and Spectroscopy. An introduction to quantum mechanics and spectroscopy. Prerequisite: MATH 250; C or better in CHEM 360. MATH 221 or 305 is recommended as prerequisite or concurrent enrollment. Offered spring semester only.

CHEM468 - Application Symmetry to Chem 468-3 Application of Symmetry to Chemistry. The concepts of symmetry elements, groups and character tables will be taught. Symmetry will be applied to molecules in order to simplify and characterize their wave functions and vibrational frequencies. Prerequisite: C or better in CHEM 460. Offered spring semester in odd years only.

CHEM479 - Materials Chemistry 479-3 Principles of Materials Chemistry. Introduction to fundamental concepts of materials chemistry. Synthesis, characterization, processing and applications of different materials including solids, polymers, ceramics and molecularly designed materials. Prerequisite: CHEM 360, 411 or concurrent enrollment. Offered fall semester in odd years only.

CHEM489 - Special Topics in Chemistry 489-1 to 3 Special Topics in Chemistry. Special approval needed from the instructor and chair.

CHEM506 - Chemistry Topics for Teachers 506-3 Chemistry Topics for Teachers. This graduate-level chemistry course covers topics, methods and activities that target the needs of elementary and middle school science teachers. The course consists of a combination of lectures and laboratory experiments. The specific subjects covered during the course change, depending on the needs of the current students. This course may only be taken as part of an approved major. Special approval needed from the instructor.

CHEM511A - Advanced Inorganic Chem I 511A-3 Advanced Inorganic Chemistry. Principles of group theory and their application to molecular structure, ligand field theory and its application and magnetic properties of matter. Prerequisite: CHEM 360, CHEM 460, and CHEM 411.

CHEM511B - Advanced Inorganic Chem II 511B-3 Advanced Inorganic Chemistry. Energetics, kinetics and mechanisms of inorganic systems. Prerequisite: CHEM 360, CHEM 411 and CHEM 460.

CHEM519 - Advanced Topics Inorganic Chem 519-3 Advanced Topics in Inorganic Chemistry. Metal ions in biological processes and other selected topics to be announced by the department. Maximum credit nine semester hours. Special approval needed from the instructor.

CHEM531 - Intro Analytical Separations 531-3 Introduction to Analytical Separations. An introduction to the basic principles underlying separation science, with emphasis on all major chromatographies, gel and capillary electrophoresis, isoelectric focusing, field-flow fractionation, rate and isopynic sedimentation, filtration, reverse osmosis and related methods. Prerequisite: MATH 250.

CHEM532 - Analytical Chem Instrumentatn 532-3 Analytical Chemistry Instrumentation. Introduction to analog and digital electronics and the computer control of system components. The course will focus on chemical instrumental and the use of filters, amplifiers and digital signal processing to improve sensitivity and detection limits. Two lectures and one three-hour laboratory per week. Prerequisite: CHEM 434.

CHEM533 - Analytical Spectroscopy 533-3 Analytical Spectroscopy. Fundamental and experimental aspects of electronic and vibrational spectrometry, with a particular emphasis on the spectroscopic analysis of atomic and molecular species. Various sources of electromagnetic radiation, detectors, optical components and the optimization of experimental methods are covered in detail. Common spectroscopic techniques are covered in detail and a portion of the course covers newly emerging techniques and developments. Prerequisite: CHEM 434.

CHEM534 - Electrochemistry 534-3 Electrochemistry. Fundamentals and applications of electrochemical methods, with emphasis on the thermodynamics and kinetics of electron transfer, electrode double-layer structures, as well as varied voltammetric techniques.

CHEM535 - Advanced Analytical Chem 535-3 Advanced Analytical Chemistry. Course surveys various statistical, data-manipulative, and numerical methods as applied to analytical chemistry, including probability distributions, methods of maximum likelihood, linear and nonlinear least squares, correlation coefficients, chi-square, F and T distributions, Pearson statistics, analysis of variance, convolution, deconvolution, cross-correlation, autocorrelation, data acquisition, Nyquist theorem, aliasing, digitization errors, digital filtering, Monte Carlo methods, and finite-difference equations. Prerequisite: CHEM 434.

CHEM536 - Principles Mass Spectrometry 536-3 Principles of Mass Spectrometry. This course is an introduction to mass spectrometry with a focus on pharmaceutical and biological applications. Topics that will be covered include instrument design, ionization techniques, tandem mass spectrometry, chromatography/mass spectrometry and mass spectral interpretation. Prerequisite: CHEM 434.

CHEM537 - Fluorescence Spectroscopy 537-3 Fluorescence Spectroscopy. Fundamental and experimental aspects of analytical methods based on the various phenomena of luminescence. General principles of luminescence are covered in detail, as well as analytical techniques based on fluorescence quenching, energy transfer, polarization, and time resolved methods. Aspects of source

of electromagnetic radiation, detectors, and electronic/optical components are discussed specifically as they pertain to fluorescence spectroscopy. Newly emerging fluorescence based techniques are also discussed. Prerequisite: CHEM 434 and CHEM 533 (or consent of the instructor).

CHEM538 - Nano Probing/Imaging 538-3 Nanoscale Probing and Imaging. This course covers basic principles of scanning probe microscopy and spectroscopy including STM, AFM, ACM and NSOM, and the broad applications in nanoscale probing and imaging. Topics include surface characterization and manipulation, nanolithography, nanomaterials, self-assembly, molecular electronics, optoelectronics, nanoscale electron transfer, single-molecular spectroscopy, protein structures, enzyme dynamics, and living cell imaging. Prerequisite: CHEM 330, CHEM 434, CHEM 360, and CHEM 460.

CHEM539 - Adv Topics in Analytical Chem 539-3 Advanced Topics in Analytical Chemistry. Selected topics of interest to practicing analytical chemists such as microanalytical chemistry, functional-group chemical determinations, absorption spectroscopy and electroanalytical chemistry. Maximum credit nine semester hours. Prerequisite: CHEM 434 with a minimum grade of C.

CHEM541 - Structure and Reactivity 541-3 Organic Structure and Reactivity. Structure and reactivity of organic compounds: steric, electronic, kinetic and thermodynamic aspects and their relation to reactive intermediates.

CHEM542 - Mechanistic Organic Chem 542-3 Mechanistic Organic Chemistry. Reaction mechanisms in organic chemistry. Electrocyclic and sigmatropic reactions, cycloadditions, free radicals, photochemistry and organometallic catalysis. Spectroscopic methods.

CHEM543 - Synthetic Organic Chem 543-3 Synthetic Organic Chemistry. Organic synthesis: classical and modern methods.

CHEM549 - Adv Topics in Organic Chem 549-3 Advanced Topics in Organic Chemistry. Specialized topics in organic chemistry. The topic to be covered is announced by the department. Maximum credit nine semester hours. Prerequisite: CHEM 542.

CHEM552 - Structure and Function 552-3 Biomolecular Structure and Function. This course will cover the structural basis of biomolecules with an emphasis on the chemical and physical aspects involved in the architecture of proteins and nucleic acids. The study of the physical properties of biomolecular interactions and assembly of biomolecules into macromolecular complexes will be covered. Interpretation of data from atomic resolution techniques will be discussed. Prerequisites: CHEM 350 or CHEM 451A/B or equivalent.

CHEM559 - Adv Topics in Biological Chem 559-3 Advanced Topics in Biological Chemistry. Specialized topics in biological chemistry. The topic to be covered is announced by the department. Maximum credit nine semester hours. Prerequisite: C or better in CHEM 350 or CHEM 451A,B or equivalent.

CHEM560 - Intro to Quantum Chemistry 560-3 Introduction to Quantum Chemistry. Basic principles and applications of quantum mechanics to chemistry. Topics include operator and vector algebra, classical mechanics, angular momentum, approximate methods, hydrogen-like atoms and molecular electronic structure. Three lectures per week. Prerequisite: CHEM 360 and CHEM 460.

CHEM561 - Molecular Orbital Theory 561-3 Molecular Orbital Theory. An introduction to molecular orbital theory. Applications and limitations of various methods. Three lectures per week. Prerequisite: CHEM 360 and CHEM 460.

CHEM562 - Adv Molecular Spectroscopy 562-3 Advanced Molecular Spectroscopy. Theory of rotational and vibrational spectroscopy, electronic spectroscopy of molecules. Three lectures per week. Prerequisite: CHEM 468 or consent of instructor.

CHEM563 - Comput Chem Materials Sci 563-3 Computational Chemical and Materials Sciences. An introduction to commercial molecular modeling softwares and to performing designed research projects related to chemical and materials sciences. Three lectures per week. Prerequisite: CHEM 360 and CHEM 460 (1 year of undergraduate Physical Chemistry) or consent of instructor.

CHEM564 - Statistical Thermodynamics 564-3 Statistical Thermodynamics. Principles of statistical mechanics and applications to equilibrium and nonequilibrium systems. Topics include ideal gases, monatomic crystals, lattice statistics, the cluster method, correlation functions, Brownian motion, the Boltzmann equation and the Kubo-Green technique. Three lectures per week.

CHEM569 - Adv Topics in Physical Chem 569-3 Advanced Topics in Physical Chemistry. Topic to be announced by the department. Maximum credit nine semester hours. Special approval needed from the instructor.

CHEM575 - Material Characterization 575-3 Methods of Materials Characterization. An introduction to the structural, morphological, spectroscopic, and thermal characterization techniques commonly used in materials chemistry. Special approval needed from the instructor.

CHEM579 - Topics Advanced Materials 579-3 Topics in Advanced Materials. Design and applications of advanced materials. Special topics will focus on contemporary research areas of interest as determined by the instructor. Special approval needed from the instructor.

CHEM592 - Introduction to Research 592-1 Introduction to Research. Introduction to the techniques and methods of chemical research including good laboratory practice, research ethics, record keeping, publication, patents and currently active research in this department. Graded S/U only.

CHEM593A - Graded Seminar 593A-1 Graded Seminar-Literature Seminar. Seminar presentations on advanced topics given in partial fulfillment of the requirements for the MS and PhD degrees in Chemistry.

CHEM593B - Graded Seminar 593B-1 Graded Seminar-Independent Proposal Presentation. Seminar presentations on advanced topics given in partial fulfillment of the requirements for the MS and PhD degrees in Chemistry.

CHEM593C - Graded Seminar 593C-1 Graded Seminar-Research Seminar. Seminar presentations on advanced topics given in partial fulfillment of the requirements for the MS and PhD degrees in Chemistry.

CHEM594A - Spec Readings-Analytical 594A-2 to 3 Special Readings in Chemistry. Assigned library work in any of these fields of chemistry with individual instruction by a staff member. Analytical. Maximum credit three hours.

CHEM594B - Spec Readings-Biochemistry 594B-2 to 3 Special Readings in Chemistry. Assigned library work in any of these fields of chemistry with individual instruction by a staff member. Biochemistry. Maximum credit three hours.

CHEM594C - Spec Readings-Inorganic 594C-2 to 3 Special Readings in Chemistry. Assigned library work in any of these fields of chemistry with individual instruction by a staff member. Inorganic. Maximum credit three hours.

CHEM594D - Spec Readings-Organic 594D-2 to 3 Special Readings in Chemistry. Assigned library work in any of these fields of chemistry with individual instruction by a staff member. Organic. Maximum credit three hours.

CHEM594E - Spec Readings-Physical 594E-2 to 3 Special Readings in Chemistry. Assigned library work in any of these fields of chemistry with individual instruction by a staff member. Physical. Maximum credit three hours.

CHEM594F - Spec Readings-Hist Chem 594F-2 to 3 Special Readings in Chemistry. Assigned library work in any of these fields of chemistry with individual instruction by a staff member. History Chemistry. Maximum credit three hours.

CHEM595A - Adv Seminar-Analytical 595A-1 Advanced Seminar in Chemistry. Advanced level talks presented by graduate students. Analytical.

CHEM595B - Adv Seminar Chemistry-Biochem 595B-1 Advanced Seminar in Chemistry-Biochemistry. Advanced level talks presented by graduate students.

CHEM595C - Adv Sem-Inorganic 595C-1 Advanced Seminar in Chemistry. Advanced level talks presented by graduate students. Inorganic.

CHEM595D - Adv Sem-Organic 595D-1 Advanced Seminar in Chemistry. Advanced level talks presented by graduate students. Organic.

CHEM595E - Adv Sem-Physical Chem 595E-1 Advanced Seminar in Chemistry. Advanced level talks presented by graduate students. Physical chemistry.

CHEM596 - Master's Degree Research 596-1 to 6 (1 to 3 per semester) Master's Degree Research. Graded research for Master's Degree only. Maximum 6 credit hours. Prerequisite: Completion of at least 9 hours of graded graduate course work in the program. Restricted to admission to Master's program in Chemistry and Biochemistry. Special approval needed from student's graduate advisory committee.

CHEM597 - Professional Training 597-1 to 15 Professional Training. Experience in teaching of chemistry, instrument operation and special research projects. One hour required each semester in residence. Graded S/U only. Restricted to graduate standing.

CHEM598 - Research 598-1 to 50 (1 to 12 per semester) Research. Maximum credit 50 hours, except by permission of the student's graduate advisory committee. Graded S/U only. Special approval needed from the chair.

CHEM599 - Thesis 599-1 to 6 Thesis. Maximum credit six hours. Special approval needed from the chair.

CHEM600 - Dissertation 600-1 to 30 (1 to 12 per semester) Dissertation-Doctoral. Requirement for Ph.D. degree, 24 hours. Maximum credit 30 hours, except by permission of the student's graduate advisory committee. Prerequisite: CHEM 598.

CHEM601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

CHEM699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Wang, Lichang, Professor and *Chair*, Ph.D., University of Copenhagen, 1993; 2001. Physical, theoretical/computational chemistry, transition metal nanoparticles, organic photoelectronic materials, polymers, and biomolecules.

Civil and Environmental Engineering

The Department of Civil and Environmental Engineering offers a Master of Science (M.S.) degree in Civil Engineering and a Master of Engineering degree (M.E.) in Civil Engineering.

Master of Science Degree in Civil Engineering

Graduate work leading to the Master of Science degree in civil engineering is offered by the Department of Civil and Environmental Engineering. The program provides advanced study in the areas of structural engineering, environmental engineering, geotechnical engineering, and hydraulic and water resources engineering.

Admission

The Department of Civil and Environmental Engineering requires that applicants to the master's program hold a bachelor's degree in civil or environmental engineering (or equivalent), or have completed all undergraduate degree requirements prior to registration, with minimum grade point average (GPA) of 3.0 ($A = 4.0$) for the last 60 hours of undergraduate work. Students having a GPA between 2.7 and 3.0 will be considered on a case-by-case basis. A student whose undergraduate training is deficient may be required to take additional coursework without graduate credit. All applicants are required to submit GRE scores in support of their applications for admission (minimum scores: 146 Verbal, 147 Quantitative, 3.5

Analytical Writing). The GRE scores must be less than five years old at the time of registration. Minimum requirements for GRE verbal and analytical writing may be waived if the student's TOEFL score is greater than 570 (test center), 230 (computer based) or 82 (Internet based), or IELTS score of 7.0 or higher, and he/she possesses good communication skills.

Students apply on-line at gradschool.siu.edu/apply. A nonrefundable \$65 application fee is required and must be paid by credit card. Applications cannot be processed until the fee is paid.

Requirements

A graduate student in the Department of Civil and Environmental Engineering is required to develop a program of study with a graduate adviser and establish a graduate committee of at least three members before the end of his/her first semester in the graduate program. Each student majoring in civil engineering may, with the approval of the graduate committee, also take graduate level courses in other branches of engineering or in areas of science and business, such as physics, geology, chemistry, mathematics, life science, administrative sciences, or computer science.

A minimum of 30 semester hours of acceptable graduate credit is required, including a minimum of three semester hours of CE 599, Thesis. Of this total, eighteen semester hours must be earned in the Department of Civil and Environmental Engineering. Furthermore, at least 50% of all semester hours must be 500-level and completed at Southern Illinois University Carbondale. Each candidate is also required to pass a comprehensive oral examination covering all of the student's graduate work, including a thesis.

Each student will select a minimum of three engineering graduate faculty members to serve as a graduate committee, subject to the approval of the Chair of the Civil and Environmental Engineering Department. The committee will:

1. approve the student's program of study;
2. approve the student's thesis topic;
3. approve the completed thesis;
4. administer and approve the comprehensive oral examination.

Teaching or research assistantships and fellowships are available for qualified applicants. Additional information about the program, courses, assistantships, and fellowships may be obtained from the College of Engineering or the Department of Civil and Environmental Engineering.

Master of Engineering Degree in Civil Engineering

The Master of Engineering degree (ME) in Civil Engineering is a non-thesis, course only, professional degree designed to provide advanced technical knowledge for professional practice. The program provides advanced study in the areas of structural engineering, environmental engineering, geotechnical engineering, and hydraulic and water resources engineering.

Admission

The Department of Civil and Environmental Engineering requires that applicants to the master's program hold a bachelor's degree in civil or environmental engineering (or equivalent), or have completed all undergraduate degree requirements prior to registration, with minimum grade point average (GPA) of 3.0 (A = 4.0) for the last 60 hours of undergraduate work. Students having a GPA between 2.7 and 3.0 will be considered on a case-by-case basis. The GRE is not required for students applying to the ME degree program.

Students apply on-line at gradschool.siu.edu/apply. A nonrefundable \$65 application fee is required and must be paid by credit card. Applications cannot be processed until the fee is paid.

Requirements

For graduation, the ME student is required to complete 30 semester hours of graduate level courses. Of this, 18 semester hours must be earned in the Civil Engineering department. Furthermore, at least 15 semester hours must be 500-level and completed at Southern Illinois University Carbondale. Students

are required to take CE 593, Civil Engineering Project. However, this requirement is waived if a student takes an additional 500-level course, i.e., a total of 18 semester hours of 500-level courses. Students may, with the approval of the Department Chair, also take graduate level courses in other branches of engineering or in areas of science and business, such as physics, geology, chemistry, mathematics, life science, administrative sciences, or computer science.

The ME program permits students to complete an advanced degree in three semesters (12 credit hours Fall, 12 credit hours Spring, six credit hours Summer). This is a non-research degree; teaching or research assistantships are not available for students pursuing this degree, nor would this be a suitable track to pursue a Ph.D.

Civil and Environmental Engineering Courses

CE410 - Hazardous Waste Engineering 410-3 Hazardous Waste Engineering. (Same as CE 510) Analysis of hazardous waste generation, storage, shipping, treatment, and disposal. Source reduction methods. Government regulations. Remedial action. Prerequisite: CE 310.

CE412 - Contaminant Transport 412-3 Contaminant Fate, Transport and Remediation in Groundwater. Mathematics of flow and mass transport in the saturated and vadose zones; retardation and attenuation of dissolved solutes; flow of nonaqueous phase liquids; review of groundwater remediation technologies; review of flow and transport models. Prerequisite: CE 310 and 320, or consent of instructor for non CE majors.

CE413 - Collection Systems Design 413-3 Collection Systems Design. Design of waste water and storm water collection systems including installation of buried pipes. Determination of design loads and flows, system layout and pipe size. Prerequisite: CE 310 and ENGR 370A.

CE416 - Surface Water Quality 416-3 Surface Water Quality Modeling. Quantification of physical, biological, and chemical processes occurring in natural freshwater ecosystems. Mathematical analysis of the effects due to conservative and non-conservative pollutant loadings to lakes and rivers. Detailed study of dissolved oxygen mass balance modeling and eutrophication. Prerequisite: CE 310; concurrent enrollment allowed in CE 418 or GEOL 416 or GEOL 418.

CE418 - Water & Wastewater Treatment 418-3 Water and Wastewater Treatment. A study of the theory and design of water and wastewater treatment systems, including physical, chemical, and biological processes. Topics include sedimentation, biological treatment, hardness removal, filtration, chlorination and residuals management. Prerequisite: CE 310, ENGR 370A and completion of/concurrent enrollment in ENGR 351.

CE419 - Advanced Water Wastewtr Trtrmt 419-3 Advanced Water and Wastewater Treatment. Advanced concepts in the analysis and design of water and wastewater treatment plants. Topics include advanced physical, chemical, and biological processes. Emphasis is on the treatment and disposal of sludges, design of facilities, advanced treatment principles, and toxics removal. Prerequisite: CE 418.

CE421 - Foundation Design 421-3 Foundation Design. Application of soil mechanics to the design of the foundations of structures; subsurface exploration; bearing capacity and settlement analysis of shallow foundations; lateral earth pressures and design of retaining walls; capacity and settlement of pile foundations for vertical axial loads. Prerequisite: CE 320.

CE422 - Environmental Geotechnology 422-3 Environmental Geotechnology. Geotechnical aspects of land disposal of solid waste and remediation, solute transport in saturated soils, waste characterization and soil-waste interaction, engineering properties of municipal wastes, construction quality control of liners, slope stability and settlement considerations, use of geosynthetics and geotextiles, cap design, gas generation, migration and management. Prerequisite: CE 310, 320.

CE423 - Geotechnical Engr Prof Practic 423-3 Geotechnical Engineering in Professional Practice. Application of principles of geotechnical engineering in a real-world setting; planning, managing and executing geotechnical projects; developing proposals and geotechnical project reports; interpreting and

using recommendations developed by geotechnical engineers; total quality management, professional liability and risk management. Prerequisite: CE 320, 421 or concurrent enrollment or consent of instructor.

CE426 - Seepage and Slope Stability 426-3 Seepage and Slope Stability Analysis. (Same as CE 526) Seepage through soils; numerical and physical modeling of two-dimensional flow; basic mechanism of slope stability analysis; analytical methods in analyzing slopes; slope stabilization. Prerequisite: CE 320.

CE431 - Pavement Design 431-3 Pavement Design. Design of highway pavements including subgrades, subbases, and bases; soil stabilization; stresses in pavements; design of flexible and rigid pavements; cost analysis and pavement selection; and pavement evaluation and rehabilitation. Prerequisite: CE 320 and 330.

CE432 - CADD for Civil Engineers 432-3 Computer Aided Design and Drawing (CADD) for Civil Engineers. A study of civil engineering drawings and their relationship to engineering design in the CADD environment. Emphasis is on the skills associated with developing and understanding technical drawings, including construction plans and related documents, for engineering design. Computer based design and drawing techniques and related software. Includes 3 hours lab per week. Prerequisite: Completion of or concurrent enrollment in CE 263.

CE440 - Static Indeterminate Structure 440-3 Statically Indeterminate Structures. Analysis of trusses, beams, and frames. Approximate methods. Method of consistent deformations. Three-moment theorem. Slope deflection. Moment distribution. Column analogy. Plastic analysis. Matrix methods. Prerequisite: CE 340.

CE441 - Matrix Methods Structural Analysis 441-3 Matrix Methods of Structural Analysis. Flexibility method and stiffness method applied to framed structures. Introduction to finite elements. Prerequisite: CE 340.

CE442 - Structural Steel Design 442-3 Structural Steel Design. An introduction to structural steel design with an emphasis on buildings. Design of structural members and typical welded and bolted connections in accordance with the specifications of the Steel Construction Manual of the American Institute of Steel Construction (AISC). Design project and report required. Prerequisite: CE 340.

CE444 - Reinforced Concrete Design 444-3 Reinforced Concrete Design. Behavior and strength design of reinforced concrete beams, slabs, compression members, and footings. Prerequisite: CE 340.

CE445 - Earthquake Engineering 445-3 Fundamental Theory of Earthquake Engineering. The nature and mechanics of earthquakes. Plate tectonics, types of faulting, recording and measuring ground motion. Analysis of free and forced vibration of a single degree of freedom system. Steady state and transient response. Impulse response function. Dynamic amplification and resonance. Response to ground motion. Response spectrum analysis. Prerequisite: CE 320, 340, or consent of instructor.

CE446 - Prestressed Concrete Design 446-3 Prestressed Concrete Design. Fundamental concepts of analysis and design. Materials. Flexure, shear, and torsions. Deflections. Prestress losses. Composite beams. Indeterminate structures. Slabs. Bridges. Prerequisite: CE 444 or concurrent enrollment or consent of the instructor.

CE447 - Seismic Design of Structures 447-3 Seismic Design of Structures. Basic seismology, earthquake characteristics and effects of earthquakes on structures, vibration and diaphragm theories, seismic provisions of the International Building Code, general structural design and seismic resistant concrete and steel structures. Prerequisite: CE 442 or CE 444, concurrent enrollment or consent of instructor.

CE448 - Structural Design Hwy Bridges 448-3 Structural Design of Highway Bridges. Structural design of highway bridges in accordance with the specifications of the American Association of State Highway and Transportation Officials (AASHTO); superstructure includes concrete decks, steel girders, prestressed and post-tensioned concrete girders; substructure includes abutments, wingwalls, piers, and footings. Prerequisite: CE 442 or 444 or concurrent enrollment, or consent of instructor.

CE471 - Groundwater Hydrology 471-3 Groundwater Hydrology. Analysis of groundwater flow and the transport of pollution by subsurface flow; applications to the design of production wells and remediation of

polluted areas; finite difference methods for subsurface analyses. Prerequisite: ENGR 370A or consent of instructor.

CE472 - Open Channel Hydraulics 472-3 Open Channel Hydraulics. Open channel flow, energy and momentum, design of channels, gradually varied flow computations, practical problems, spatially varied flow, rapidly varied flow, unsteady flow, flood routing, method of characteristics. Prerequisite: CE 474 or consent of instructor.

CE473 - Hydrologic Analysis & Design 473-3 Hydrologic Analysis and Design. Hydrological cycle, stream-flow analysis, hydrograph generation, frequency analysis, flood routing, watershed analysis, urban hydrology, flood plain analysis. Application of hydrology to the design of small dams, spillways, drainage systems. Prerequisite: ENGR 370A.

CE474 - Water Resources Engineering 474-3 Water Resources Engineering. Hydrological Cycle, Flow Estimation, Study of pipe flow, network systems, pump selection, open channel flow, uniform flow, critical flow, gradually varied flow, rapidly varied flow, Introduction to HEC-RAS, design of transitions, water surface profiles. Prerequisite: ENGR 370A.

CE486 - Nondestructive Eval Engr Matls 486-3 Nondestructive Evaluation of Engineering Materials. (Same as ME 486) Overview of common nondestructive evaluation (NDE) techniques, such as visual inspection, eddy current, X-ray, and ultrasonics, to measure physical characteristics of and to detect defects in engineering materials. Laboratory experiments include contact ultrasonic, magnetic particle, liquid penetrant, and infrared thermography methods of testing. Prerequisites: CE 320 and CE 330 with grades of C or better.

CE500 - Seminar 500-1 to 4 Seminar. Collective and/or individual study of selected issues and problems relating to various areas of civil engineering. Restricted to graduate standing.

CE510 - Hazardous Waste Engineering 510-3 Hazardous Waste Engineering. (Same as CE 410) Analysis of hazardous waste generation, storage, shipping, treatment, and disposal. Source reduction methods. Government regulations. Remedial action. Design projects and presentation required. Prerequisite: Graduate standing in the program or consent of instructor.

CE511 - Nanotechnology 511-3 Nanotechnology and Subsurface Remediation. Conventional and emerging nanotechnology-based remediation technologies for subsurface environment; review of current soil and groundwater remediation technologies; sediment remediation, nano-synthesis, characterization and nanotechnology-driven remediation technologies and materials. Special approval needed from the instructor.

CE512 - Contaminant Transport 512-3 Contaminant Fate, Transport and Remediation in Groundwater. (Same as CE 412) Mathematics of flow and mass transport in the saturated and vadose zones; retardation and attenuation of dissolved solutes; flow of nonaqueous phase liquids; review of groundwater remediation technologies; review of flow and transport models; modeling project. Special approval needed from the instructor.

CE514 - Environmental Engr Chemistry 514-3 Environmental Engineering Chemistry. Fundamentals as well as frontiers in aquatic chemistry, environmental organic chemistry, and environmental biochemistry. Topics include thermodynamics and kinetics of redox reactions, linear free energy relations, abiotic organic compound transformations, stoichiometry, energetics and kinetics of microbial reactions, biochemical basis of the transformation of key organic and inorganic pollutants in the environment. Prerequisite: CE 418 or consent of instructor.

CE516 - Surface Water Quality 516-3 Surface Water Quality Modeling (Same as CE 416). Quantification of physical, biological, and chemical processes occurring in natural freshwater ecosystems. Mathematical analysis of the effects due to conservative and non-conservative pollutant loadings to lakes and rivers. Detailed study of dissolved oxygen mass balance modeling and eutrophication. Design projects and presentation required. Restricted to graduate standing in the program or consent of instructor.

CE517 - Industrial Waste Trtmt 517-3 Industrial Waste Treatment. Theories and methods of treating industrial wastes. Case studies of major industrial waste problems and their solutions. Prerequisite: CE 418.

CE518 - Adv Biol Treatment Processes 518-3 Advanced Biological Treatment Processes. The biochemical and microbial aspects of converting substrate to bacterial cell mass or products and its use in various phases of industry (both fermentation and wastewater treatment). Design of activated sludge and trickling filter plants from lab data obtained on explicit wastes from both industry and municipalities. Prerequisite: CE 418.

CE519 - Sustainability 519-3 Triple E Sustainability - Environment Energy and Economy. Principles, goals, and practical applications of sustainable development; major theories and issues related to sustainability in the areas of environmental resource use, energy production, and process life cycle analysis; identify and design sustainable approaches on common areas of interest to the society, such as buildings, transportation, food, industry processes, and ecology. Special approval needed from the instructor.

CE520 - Advanced Soil Mechanics 520-3 Advanced Soil Mechanics. Advanced theories in soil mechanics, stress distribution in soils, seepage, consolidation, shear strength, settlement analysis and stability of slopes. Prerequisite: CE 320, ENGR 350A,B, CE 421 or concurrent enrollment.

CE521 - Soil Improvement 521-3 Soil Improvement. Methods of soil stabilization, compaction, dynamic compaction, chemical treatment, compaction piling, stone columns, dewatering, soil reinforcement with stirrups, geomembranes and geogrids, ground freezing, stabilization of industrial wastes. Prerequisite: CE 320, CE 421.

CE522 - Adv Foundation Engineering 522-3 Advanced Foundation Engineering. Case histories of foundation failure, bearing capacity theories, shallow foundations, deep foundations, piles under vertical and horizontal loads, pier foundations, foundations for difficult soil conditions, soil improvement. Prerequisite: CE 421.

CE523 - Soil Dynamics 523-3 Soil Dynamics. Problems in dynamic loading of soils, dynamic soil properties, liquefaction, dynamic earth pressure, foundations for earthquake and other dynamic loads. Prerequisite: CE 320 and CE 421.

CE524 - Advanced Soil Testing 524-3 Advanced Soil Testing. Review of basic laboratory tests on soils, hands-on training for performing advanced laboratory tests on soils such as: triaxial compression, flexible wall permeability, one-dimensional consolidation, and California bearing ratio, understanding ASTM standards, sample preparation, data reduction and interpretation, and development of detailed laboratory test reports. Prerequisite: CE 421, or consent of instructor.

CE525 - Foundations for Dynamic Loads 525-3 Foundations for Dynamic Loads. Dynamic loads due to natural and man-made phenomena, damage to humans and the environment, property loss, analytical models for response analysis of foundation-soil systems for steady state, seismic and impact loads, design criteria, determination of soil properties, stiffness and damping of foundation-soil systems, design of shallow and deep foundations for various types of dynamic loads, computer applications, case histories of damage. Prerequisite: CE 421 and CE 445 or consent of instructor.

CE526 - Seepage and Slope Stability 526-3 Seepage and Slope Stability Analysis. (Same as CE 426) Seepage through soils; numerical and physical modeling of two-dimensional flow; basic mechanism of slope stability analysis; analytical methods in analyzing slopes; slope stabilization. Additional project and presentation required for students taking this course instead of CE 426. Prerequisite: CE 320 or consent of instructor.

CE530 - Adv Materials Testing 530-3 Advances in Materials and Testing. An introduction to advances in concrete technology; High strength concrete; Light-weight concrete; Cement and polymer composites; and Non-destructive testing. Fundamental concepts, manufacture, performance, testing, design methodology and applications. Prerequisite: CE 330 or equivalent or consent of instructor.

CE540 - Structural Dynamics 540-3 Structural Dynamics. Analysis of the dynamic response of multidegree-of-freedom framed structures. Structural idealizations. Matrix formulation. Lagrange's equations. Response calculation by mode-superposition and direct integration methods. Analysis for earthquakes. Prerequisite: CE 340 or consent of instructor.

CE542 - Nonlinear Struct Analysis 542-3 Nonlinear Structural Analysis. Analysis of the nonlinear response of framed structures subjected to static and dynamic loads. Structural idealizations. Response calculation by incremental and iterative techniques. Instability phenomena of snap-through and bifurcation. Post-buckling behavior. Approximate formulations. Detection of instability under dynamic loads. Prerequisite: CE 441 or CE 551 or consent of instructor.

CE544 - Adv Des:Reinforced Concrete 544-3 Advanced Design of Reinforced Concrete. Deep beams, shear friction. Slab, beam, girder systems. Monolithic joints. Retaining walls. Deflections. Length effects on columns. Two-way floor systems. Yield line theory. Torsion. Seismic design. Prerequisite: CE 444.

CE545 - Advanced Steel Design 545-3 Advanced Steel Design. Economical use of high strength steel; behavior and design bolted and welded building connections, plate girders and composite steel-concrete beams; brittle fracture and fatigue; and low-rise and industrial-type buildings. Prerequisite: CE 442.

CE551 - Intro to Finite Elements 551-3 Introduction to Finite Elements in Engineering Applications. (Same as CE 451 and ME 565) An introduction to finite element techniques and computer methods in finite element applications. Theory and structure of algorithms for one-dimensional and multi-dimensional problems. Applications in solid mechanics, structural analysis, groundwater and fluid flow, and heat transfer, projects and presentations. Prerequisite: ENGR 351 or consent of instructor.

CE552 - Theory of Elasticity 552-3 Theory of Elasticity. Stress and strain equations of elasticity; equilibrium equations; compatibility equations; stress functions; applications of elasticity in solving engineering problems in two and three dimensions. Prerequisite: ENGR 350A,B and MATH 305.

CE553 - Theory of Plasticity 553-3 Theory of Plasticity. (Same as ME 513) Criteria for onset of yielding, isotropic and kinematic strain hardening; flow rules for plastic strains; elastic plastic bending and torsion, slip line field theory; plane stress problems; limit analysis. Prerequisite: ENGR 350A,B and MATH 305 or consent of instructor.

CE554 - Experimental Mechanics 554-3 Experimental Mechanics. An introduction of various experimental techniques that are commonly used to determine properties such as deformation, straining, surface contour, etc. The topics to be covered include the principles of strain gage technology, theory of photoelasticity, piezoelectric accelerometer, laser based interferometry, image processing and analysis, and reverse mechanics. The specific areas of practical application for each type of experimentation will be discussed. Prerequisite: ENGR 350A,B.

CE556 - Laminate Composites 556-3 Theory of Laminate Composite Structures. Orthotropic and Anisotropic Materials, Laminated Plate Theory, Ritz Method, Galerkin's Method, bending, buckling and vibration of laminated structures. Prerequisite: ENGR 350A,B and MATH 251.

CE557 - Advanced Mechanics-Materials 557-3 Advanced Mechanics of Materials. (Same as ME 566) Advanced topics in mechanics of materials including: elasticity equations; torsion of non-circular sections; generalized bending including curved beams and elastic foundations; shear centers; failure criteria including yielding, fracture and fatigue; axisymmetric problems including both thick and thin walled bodies; contact stresses; and stress concentration. Prerequisite: ENGR 350A,B.

CE558 - Reliability in Engr Apps 558-3 Reliability in Engineering Applications. An overview of principles and methods for quantifying the uncertainty in planning, design, testing and operation of engineering systems. Topics include probability theory, random variables, multivariate distributions, regression and correlation analyses, Monte Carlo simulations, and Bayesian approaches. Concepts are illustrated with examples from various areas of engineering, with particular emphasis on civil engineering applications. Prerequisite: ENGR 351 or consent of instructor.

CE570 - Sedimentation Engineering 570-3 Sedimentation Engineering. Introduction to the transport of granular sediment by moving fluids; analysis of regional degradation, aggradation and local scour in alluvial channels; investigation of sediment sources, yield and control. Prerequisite: CE 474 or consent of instructor.

CE571 - Water Resources Engr & Mgmt 571-3 Water Resources Systems Engineering and Management. Philosophy of water resources planning; economic, social and engineering interactions

related to water quantity; quantitative optimal planning methodologies for the design and operation of hydrosystems; guest lecturers; projects/case studies. Prerequisite: CE 474 or consent of instructor.

CE572 - Advanced Hydraulic Design 572-3 Advanced Hydraulic Design. Design and analysis of stormwater control and conveyance systems, dams, spillways, outlet works, stilling basins, culverts and other complex hydraulic systems. Prerequisite: CE 474 or consent of instructor.

CE573 - Modeling of Hydrosystems 573-3 Modeling of Hydrosystems. Hydraulic and hydrologic modeling; theory and application of common surface and subsurface flow models such as HEC-RAS, HEC-6, FLDWAV, DAMBRK, MODFLOW and MODPATH. Prerequisite: CE 474 or consent of instructor.

CE592A - Spec Invest-Structural Engr 592A-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Structural Engineering. Restricted to graduate standing. Special approval needed from the instructor.

CE592B - Spec Invest-Hydraulic Engr 592B-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Hydraulic Engineering. Restricted to graduate standing. Special approval needed from the instructor.

CE592C - Spec Invest-Environmental Engr 592C-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Environmental Engineering. Restricted to graduate standing. Special approval needed from the instructor.

CE592D - Spec Invest-Geotech Engr 592D-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Geotechnical Engineering. Restricted to graduate standing. Special approval needed from the instructor.

CE592E - Spec Invest-Fluid Flow 592E-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Fluid Flow Analysis. Restricted to graduate standing. Special approval needed from the instructor.

CE592F - Spec Invest-Computat Mechanics 592F-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Computational Mechanics. Restricted to graduate standing. Special approval needed from the instructor.

CE592G - Spec Invest-Composite Material 592G-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Composite Materials. Restricted to graduate standing. Special approval needed from the instructor.

CE592H - Spec Invest-Stress Analysis 592H-1 to 5 Special Investigations in Civil Engineering. Advanced Civil Engineering Topics and/or problems in Stress Analysis. Restricted to graduate standing. Special approval needed from the instructor.

CE593 - C E Project 593-3 Civil Engineering Project. Advanced project on topics such as case studies, engineering design, testing and analysis methods, computer modeling, or any other topic focusing on engineering practice. Detailed project report is required. Restricted to graduate standing. Special approval needed from the instructor.

CE599 - Thesis 599-1 to 6 Thesis.

CE601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Civil and Environmental Engineering Faculty

Bravo, Rolando, Associate Professor, *Emeritus*, Ph.D., University of Houston, 1990; 1991. Surface and subsurface hydrology, hydraulics and fluid mechanics.

Butson, Gary J., Associate Professor, *Emeritus*, Ph.D., University of Illinois at Urbana-Champaign, 1981; 1992. Mechanics of materials, vibrations, solid mechanics.

Chevalier, Lizette R., Professor and *Associate Provost for Academic Programs*, Ph.D., Michigan State University, 1994; 1995. Environmental restoration of groundwater aquifers, experimental investigation of immiscible flow, and numerical modeling of subsurface transport.

Cook, Echol E., Professor, *Emeritus*, Ph.D., Oklahoma State University, 1970; 1971.

DeVantier, Bruce A., Associate Professor, *Emeritus*, Ph.D., University of California-Davis, 1983; 1983. Water quality modeling, sediment transport, turbulence modeling, finite element methods.

Evers, James L., Associate Professor, *Emeritus*, Ph.D., University of Alabama, 1969; 1969.

Fakhraei, Habibollah, Assistant Professor, Ph.D., Syracuse University, 2016; 2019. Environmental engineering, environmental modeling, biogeochemistry, aquatic chemistry, water quality modeling, air pollution effects, GIS, geostatistical analysis, hydrology, numerical optimization.

Hsiao, J. Kent, Professor, Ph.D., University of Utah — Salt Lake City, 2000; 2001. Structural earthquake engineering, structural reliability, structural design of buildings and bridges using steel, reinforced or prestressed concrete, masonry, and wood.

Kalra, Ajay, Assistant Professor, Ph.D., University of Nevada, 2011; 2015. Hydraulics and Water Resources Engineering, hydro-climatology, urban sustainability, water-energy-climate nexus, probabilistic forecasting and downscaling, surface water and groundwater interactions.

Kassimali, Aslam, Professor and *Distinguished Teacher*, Ph.D., University of Missouri, 1976; 1980. Structural engineering, nonlinear structural analysis, structural dynamics and stability.

Kolay, Prabir, Associate Professor, Ph. D., Indian Institute of Technology, IIT BoM.B.A.y, 2001; 2010. Geotechnical Engineering, Soil Stabilization, utilization of recycled concrete aggregate (RCA) and coal ash, unsaturated soil, thermal properties of soil, and numerical modeling.

Kumar, Sanjeev, Professor, *Distinguished Teacher, Chair, and Interim Associate Dean*. Ph.D., University of MissouriRolla, 1996; 1998. Dynamic soil-structure interaction, piles under lateral loads, settlement prediction of landfills, hydraulic conductivity of clay barriers, seismic analysis and design of landfills, ground motion amplification in soils, liquefaction of silts and sands and machine foundations.

Liu, Jia, Assistant Professor, Ph.D., University of Houston, 2014; 2015. Environmental Engineering, renewable energy production, microbial fuel cell, water/wastewater treatment and groundwater/soil remediation, material development for energy safety and environmental pollution detection.

Puri, Vijay K., Professor, Ph.D., University of Missouri-Rolla, 1984; 1986. Geotechnical engineering, soil dynamics, machine foundations, liquefaction of soils.

Ray, Bill T., Associate Professor, *Emeritus*, Ph.D., University of Missouri-Rolla, 1984; 1985.

Rubayi, Najim, Professor, *Emeritus*, Ph.D., University of Wisconsin, 1966; 1966.

Sami, Sedat, Professor, *Emeritus*, Ph.D., University of Iowa, 1966; 1966.

Tezcan, Jale, Professor, Ph.D., Rice University, 2005; 2005. Non-linear structural behavior, neural networks In system Identification and structural control, rehabilitation, and retrofitting of structures damaged by earthquakes.

Warwick, John J., Professor and *Dean*, Ph.D., The Pennsylvania State University, 1983; 2011. Numerical modeling of the transport and fate of contaminants in surface water systems, impacts of nutrients on stream algal growth, transport of sediment and associated mercury in fluvial systems, and simulating the effects of non-point source pollutants on instream water quality.

Yen, Max Shing-Chung, Professor, *Emeritus*, Ph.D., Virginia Polytechnic Institute, 1984; 1984.

Communication Disorders and Sciences

The Communication Disorders and Sciences program offers graduate work leading to the Master of Science degree. The program in communication disorders and sciences is designed to develop competence in the assessment and treatment of persons with communication disorders.

The master's degree programs in communication disorders and sciences is 63-66 semester hours. Candidates have the option of a research paper or a thesis. Candidates concentrating primarily on preparation for entry into the helping profession ordinarily opt to complete a research paper in their area of concentration. The thesis option typically requires a thesis of an experimental nature, a survey, or other form of research in which empirical data are collected and analyzed. Candidates must demonstrate their skills in formulating researchable questions or hypotheses, in identifying and/or manipulating relevant variables, and in the analysis and reporting of the results.

Coursework is planned to meet the academic and professional requirements for state and national certification, which are required for professional employment. These requirements comprise a minimum of 75 semester hours of course work, at least 30 semester hours of which must be at the graduate level. The M.S. degree program in speech-language pathology will culminate in eligibility for the Certificate of Clinical Competence of the American Speech-Language-Hearing Association and state licensure. ASHA certification is required for work in agencies, hospitals, medical centers, and higher education. Students may take additional course work to qualify them for the program maintains many active research facilities which provide laboratories and specialized equipment for the study of both the normal and impaired functions of the speech, language, and hearing processes.

Academic Standing

The graduate student whose overall graduate grade point average (GGPA) falls below 3.0 shall be placed on academic probation by the Graduate School. Students are restricted from clinical experiences while on academic probation. The time limit for being removed from probationary status shall be maximum of two consecutive regular semesters. If at this time the student's overall GGPA is not at least 3.0, the student's enrollment will be terminated. In addition, students whose semester GGPA falls below 3.0 for two consecutive regular semesters, will be terminated from the program. Grades of "C" or below are considered failing grades in the CDS graduate program.

Master's Degree Program Leading to Certification in Speech Pathology

The master's degree requires a minimum of 30 semester hours of acceptable graduate credit (3.0 average), at least 15 semester hours of which are at the 500 level. The program for the M.S. degree is a five semester course of study of approximately 63 to 71 semester hours. Specific course requirements and total number of hours are generally determined by advisement after consultation with the graduate student. The master's degree also requires that each student either successfully pass a comprehensive examination or successfully complete an approved thesis. Students must select one of the following plans:

Thesis Program: Certification In Speech Pathology

Required Core Courses (30 hours)

- **Speech – 12**
 - # CDS 505-3 Phonological Development & Disorders
 - # CDS 510-3 Stuttering: Behavior Assessment and Therapy
 - # CDS 512-3 Voice Disorders
 - # CDS 541-3 Neurogenic Disorders of Communication II
- **Language – 9**
 - # CDS 507-3 Language Disorders
 - # CDS 517-3 Seminar: Language Disorders Birth to Three
 - # CDS 540-3 Neurogenic Disorders of Communication I
- **Speech or Language – 6**
 - # CDS 485-3 Special Topics (Counseling)
 - # CDS 485-3 Special Topics (Medical Speech)
- **Speech, Language or Hearing – 3**
 - # CDS 485-3 Special Topics (Advanced Aural Rehabilitation)
 - # Optional Electives: CDS 408, CDS 450, CDS 460, CDS 533, CDS 544, CDS 550, CDS 590, CDS 596

Required Clinical Courses: 29-32 hours

***varies depending on selection of CDS 598 or CDS 597**

- CDS 594-3 (A), CDS 594-3 (B), CDS 594-2 (C)
- CDS 598-9 Internship Communication Disorders
- CDS 598-9 Internship Communication Disorders (or CDS 597-12 Public School Practicum)
- CDS 591-1, CDS 591-1, CDS 591-1

Required Research Tools: 6 hours

- CDS 500-3 Research Design in Speech Pathology & Audiology
- 3 hours statistics or research design

Thesis: 3 hours

- 3 hours from CDS 599

Total: 68-71 hours

***varies due to student selection of CDS 598 or CDS 597**

Comprehensive Examination Program: Certification In Speech Pathology

Required Core Courses: 30 hours

- **Speech – 12**
 - # CDS 505-3 Phonological Development & Disorders
 - # CDS 510-3 Stuttering: Behavior Assessment and Therapy
 - # CDS 512-3 Voice Disorders
 - # CDS 541-3 Neurogenic Disorders of Communication II
- **Language – 9**
 - # CDS 507-3 Language Disorders
 - # CDS 517-3 Seminar: Language Disorders Birth to Three
 - # CDS 540-3 Neurogenics Disorders of Communication I
- **Speech or Language – 6**
 - # CDS 485-3 Special Topics (Counseling)
 - # CDS 485-3 Special Topics (Medical Speech)
- **Speech, Language, or Hearing–3**
 - # CDS 485-3 (Advanced Aural Rehabilitation)
 - # Optional Electives: CDS 408, CDS 450, CDS 460, CDS 533, CDS 544, CDS 550, CDS 590, CDS 596

Required Clinical Courses: 29-32 hours*

***varies depending on selection of CDS 598 or CDS 597**

- CDS 594-3 (A), CDS 594-3 (B), CDS 594-2 (C)
- CDS 598-9 Internship Communication Disorders
- CDS 598-9 Internship Communication Disorders (or CDS 597-12 Public School Practicum)
- CDS 595-1, CDS 595-1, CDS 595-1

Required Research Tools: 3 hours

- CDS 500-3 Research Design in Speech Pathology & Audiology

Comprehensive Exam: 1 hour

- 1 hour from CDS 593

Total: 63-66 hours

***varies due to student selection of CDS 598 or CDS 597**

Students may petition the faculty for a master's degree which does not include the clinical courses and does not culminate in eligibility or certification in speech pathology (minimum of 34 required hours).

Communication Disorders and Sciences Courses

CDS408 - Craniofacial Anomalies 408-3 Communicative Disorders: Craniofacial Anomalies. Development of cleft palate and related anomalies that cause communication disorders. Assessment and intervention of the communication disorders related to these impairments. Prerequisite: Coursework on the normal structure and function of the speech and hearing mechanism.

CDS410 - Multicultural Aspects:CDS 410-3 Multicultural Aspects of Communication Disorders. Students will explore different cultures and communication within these cultures. Emphasis will be placed on the relationship between cultural differences and communication disorders. Review of speech and language disorders in multicultural populations, as well as assessment and intervention strategies for use with this diverse group will be provided. Prerequisite: CDS 302, 303 or consent of instructor.

CDS420 - Intro Audiological Dsrdrs/Eval 420-3 Introduction to Audiological Disorders and Evaluation. Bases of professional field of audiology (orientation, anatomy, and physiology of the auditory system), major disease processes influencing hearing and their manifestations, measurement of hearing loss. Prerequisite: CDS 301 and 314.

CDS422 - Comm Probs-Hearing Impaired 422-3 Communication Problems of the Hearing Impaired. Objectives and techniques for the teaching of lip reading, speech conservation, and auditory training. Prerequisite: CDS 302, 303, and 420 or equivalents. Special approval needed from the instructor.

CDS450 - Neuroanatomical Basis Hum Comm 450-3 Neuroanatomical Basis of Human Communication. Examination of the central nervous system (brain and spinal cord) as it relates to normal and disordered human communication. Presentation of basic neuroanatomy, common neuropathologies relevant to communication disorders, and strategies in neurogenic problem solving. Prerequisite: CDS 314 or consent of instructor.

CDS460 - Augmentv/Alterntve Comm Syst 460-3 Augmentative and Alternative Communication Systems. An introduction to alternative and augmentative communication systems for non-vocal clients. Discussions include: use of aided and unaided augmentative systems, assessment procedures and training. Prerequisite: CDS 301 or consent of instructor.

CDS485 - Special Topics in CDS 485-1 to 9 (1 to 3 per 700 section number) Special Topics in Communication Disorders and Sciences. Topical presentations of current information on special interests of the faculty not otherwise covered in the curriculum. Designed to promote better understanding of recent developments related to disorders of verbal communication. Open to advanced undergraduate and graduate students. Special approval needed from the instructor.

CDS491 - Individual Study 491-1 to 9 (1 to 3 per semester) Individual Study. Activities involved shall be investigative, creative, or clinical in character. Must be arranged in advance with the instructor, with consent of the chair. Special approval needed from the chair.

CDS492 - Diagnostic Procedures:CDS 492-3 Diagnostic Procedures in Communication Disorders. A course devoted to discussion of the role of the speech and hearing clinician as a differential diagnostician. Special emphasis is placed on correlating information obtained from the oral-peripheral examination, articulation and language evaluation, audiometric and case history information in constructing the initial evaluation report. Special approval needed from the instructor.

CDS493 - Basic Clinical Practice 493-3 Basic Clinical Practice. Current information regarding diagnostic, treatment and documentation procedures in speech-language pathology will be presented through active observation in the clinical environment and classroom instruction. Special approval needed from the instructor.

CDS500 - Research Design in CDS 500-3 Research Design in Speech Pathology and Audiology. Evaluation of the strategies and procedural tactics of behavioral research.

CDS505 - Phonological Development 505-3 Phonological Development and Disorders. An introductory discussion of the important linguistic, physiological and acoustic variables which affect language production at the segmental and supra-segmental level of language; and an historical examination of the growth and development of distinctive feature systems from 1920 to the present. Concentration upon the mathematical, logical, physiological and acoustic assumptions of the various matrices, which have been developed. Prerequisite: CDS 302 or equivalent. Special approval needed from the instructor.

CDS507 - Language Disorders 507-3 Language Disorders. Discussion of the application of current theoretical implications and research findings to the syntactically impaired. This course emphasizes diagnostic and therapeutic models applicable to language disorders. Opportunities for research and clinical experience with young children displaying developmental language problems will be provided. Required for Master's students. Prerequisite: CDS 303 or consent of instructor.

CDS510 - Stuttering 510-3 Stuttering: Behavior Assessment and Therapy. Explores the assumptions underlying diagnosis and assessment. Procedures specific to the differential assessment of fluency failures are examined, evaluated and related to therapeutic strategies and the tactics of behavior change. Special approval needed from the instructor.

CDS512 - Voice Disorders 512-3 Voice Disorders. An intensive study of the variables of air stream modulation resulting from impaired structures and function of head and neck.

CDS517 - Comm Impair Birth-3 517-3 Seminar: Language Disorders Birth to Three. In this course we will identify a typical physical growth, cognitive and motor functions and other areas of development that affect communication in children ages 0 to three years. It will also infuse cultural awareness, and provide information on working with families, peer professionals, processes of teaming, referral and collaboration. Prerequisite: CDS 303 or equivalent or consent of instructor.

CDS518 - Prob Comm/Process Aging 518-3 Problems of Communication and the Process of Aging. Review problems of communication related to the aging process and examine relevant diagnostic and therapeutic techniques.

CDS519 - Medical SLP & AAC 519-3 Medical Speech-Language Pathology and Augmentative Communication. Disorders of communication that often occur in medical settings, including those related to traumatic brain injury and laryngectomy. Also focuses on persons with severe communication impairment and augmentative/alternative communication as a broad category of intervention procedures for this client population.

CDS533 - Sem: Speech & Audio Percep 533-3 to 6 (3,3) Seminar: Speech and Auditory Perception. Special problems in hearing and communication science. Students may choose from a wide range of topics: speech acoustic, kinesthetic and vibrotactile perception, voiceprint identification, synthetic and compressed speech, digital speech, electro stimulation of hearing, and neurophysiological basis for perception. One or more topics are pursued in depth. The seminar may be repeated for a total of six hours with different content. Special approval needed from the instructor.

CDS540 - Neurogen Disorder Comm I 540-3 Neurogenic Disorders of Communication I. Focus on aphasia and neurolinguistic science. A clinically oriented presentation of the aphasias, and related CNS language disturbances, will be integrated with an introduction to the broader field of neurolinguistics. Clinical aspects will focus on assessment of rehabilitation approaches in aphasia and related disorders. Other topics include cortical language representation, hemispheric functions (general), and review of basic neurolinguistic literature. Prerequisite: CDS 450 or consent of instructor.

CDS541 - Neurogenics II 541-3 Neurogenic Disorders of Communication II. Focus on the role of the pyramidal and extrapyramidal motor systems in speech production and speech disorders related to abnormalities in these motor systems. Discussion of the neurological basis and clinical management of the dysarthrias and verbal apraxia. Prerequisite: CDS 540 or consent of instructor.

CDS544 - ComptrTech:PhonDsordChld 544-1 to 6 Seminar: Computer Techniques for Phonological Disorders in Children. A laboratory based examination of the distinctive features used by children in

the normal and abnormal acquisition of phonology. Discussions and practical projects are developed to further the student's understanding of current assumptions concerning the acoustical aspects of abnormal phonation and speech sound production. Group projects are developed using computer based speech sound digitizing equipment. Course credit is based upon the time involved and the complexity of the topic. Digital software and laboratory examination topics are varied to meet individual student needs. May be repeated as topics vary to a total of 6 hours.

CDS550 - Pro Training Seminar 550-1 to 15 Professional Training Seminar. A special seminar that provides doctoral students the opportunity to prepare and present papers on various aspects of speech-language pathology and audiology. Liberal discussion will follow each paper. All doctoral students are required to enroll for one credit each semester until admitted to candidacy. Graded S/U only. Only four credit hours are counted toward the Ph.D. degree.

CDS590 - Readings 590-1 to 4 (1 to 2, 1 to 2) Readings in Speech-Language Pathology and Audiology. Supervised and directed readings in specific areas of speech pathology and in audiology. Maximum of two hours counted toward Master's degree. Special approval needed from the chair.

CDS593 - Research Problems 593-1 to 3 Research Problems in Speech-Language Pathology and Audiology. Individual work upon selected problems for research. Special approval needed from the chair.

CDS594 - Adv Clinic: Prac Therapy 594-1 to 18 (1 to 3 per semester) Advanced Clinical Practice Therapy/SLP. Active, supervised participation in the clinical process with emphasis on individualized assessment, treatment, counseling and documentation procedures. Overview of clinical practice in various settings, federal legislation and standards of ethical practice. Special approval needed from the instructor.

CDS595 - Clinic Seminar 595-1 Clinic Seminar. Taken concurrently with CDS 594. Topics differ each semester and are related to clinical practice, including those necessary for successful completion of advanced clinical practicum, internship/student-teaching, clinical fellowship and professional credentialing. Fulfills the reading instruction requirement for the Illinois Professional Educator License for speech-language pathologists. Partially fulfills the requirements for ASHA certification.

CDS596 - Adv Clinic: Hear Diagnostics 596-1 Advanced Clinical Practice: Hearing Diagnostics. Advanced clinical practice in hearing diagnostics. Emphasis will be placed on diagnostic techniques used in the preparation of basic and advanced audiological reports. Graded S/U only. Special approval needed from the instructor.

CDS597 - Public School Practicum 597-12 Public School Practicum. Public School internship provides the student with clinical experience under the supervision of a school-based certified speech-language pathologist. The student should receive experience with the disorders of fluency, articulation, voice, organics, language and hearing. The student should also gain administrative experience. Prerequisite: 150 to 200 clock hours. Special approval needed from the instructor. Lab fee: \$100.

CDS598 - Intern Comm Disorders 598-6 to 18 Internship Communication Disorders. Internship in a selected medical center, hospital clinic, community agency, or private clinic. The internship provides the student with an intensive, professional, clinical experience under supervision of qualified and certified resident staff members. Special approval needed from the instructor.

CDS599 - Thesis 599-1 to 6 Thesis.

CDS600 - Dissertation 600-1 to 32 (1 to 16 per semester) Dissertation.

CDS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

CDS699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Communication Disorders and Sciences Faculty

Austin, Gary F., Professor, *Emeritus*, Ph.D., Northwestern University, 1973; 1984.

Beck, Richard J., Associate Professor, *Emeritus*, Ph.D., University of Wisconsin, 1987; 1990. Chronic pain, substance abuse, workers' compensation, and cross-cultural counseling.

Benshoff, John J., Professor, *Emeritus*, Ph.D., University of Northern Colorado, 1987; 1988. Rehabilitation Counseling.

Blache, Stephen E., Professor, *Emeritus*, Ph.D., The Ohio University - Athens, 1970; 1971.

Bordieri, James E., Professor, *Emeritus*, Ph.D., Illinois Institute of Technology, 1980; 1986. Vocational evaluation, rehabilitation administration, job placement, rehabilitation management.

Boyer, Valerie, Associate Professor, Ph.D., SIUC, 2006; 2009. Child Language, animal-assisted therapy.

Bryson, Seymour L., Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1972; 1969.

Crimando, William, Professor, Ph.D., Michigan State University, 1980; 1980. Job development and placement, computers in rehabilitation, adjustment services, staff training and development.

Cuvo, Anthony J., Professor, *Emeritus*, Ph.D., University of Connecticut, 1973; 1973.

Davis, Paula K., Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1989; 1995.

Dixon, Mark, Professor, Ph.D., University of Nevada-Reno, 1998; 2000. Behavior analysis, behavior therapy and medicine, gambling, brain injury.

Falvo, Donna, Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1978; 1974.

Flowers, Carl, Professor and *Director*, Rh.D., Southern Illinois University Carbondale, 1993; 2002.

Franca, Maria Claudia, Associate Professor, Ph.D., Southern Illinois University Carbondale, 2006; 2008. Voice science and multicultural issues related to communication disorders and sciences.

Greene, Brandon, Professor, *Emeritus*, Ph.D., Florida State University, 1979; 1979. Behavior analysis in consumer affairs; parent and staff training.

Jowett Hirst, Erica S., Assistant Professor, Ph.D., University of Kansas, 2014; 2015. Behavioral psychology, preference for skill-acquisition procedures, parent training.

Koch, D. Shane, Professor, Rh.D., Southern Illinois University, 1999; 2005. Rehabilitation counseling, alcohol, drugs, and disability.

Lehr, Robert P., Jr., Professor, *Emeritus*, Ph.D., Baylor University, 1971; 1973.

Nichols, Jane L., Assistant Professor, Ph.D., Michigan State University, 2007; 2012. Rehabilitation Counseling, challenges in communication, decision making, and addictive behaviors.

Poppen, Roger L., Professor, *Emeritus*, Ph.D., Stanford University, 1968; 1970.

Redner, Ryan N., Assistant Professor, Ph.D., Western Michigan University, 2012; 2015. Tobacco regulatory science, treatment of smoking, application of behavioral economics.

Rehfeldt, Ruth Anne, Professor, Ph.D., University of Nevada-Reno, 1998; 2000. Autism, language acquisition and enhancement, supported employment, applied behavior analysis.

Rubin, Stanford E., Professor, *Emeritus*, Ed.D., University of Illinois, 1968; 1980.

Schultz, Martin C., Professor, *Emeritus*, Ph.D., University of Iowa, 1955; 1986.

Simpson, Kenneth O., Associate Professor, *Emeritus*, Ph.D., University of Nebraska-Lincoln, 1995; 1994. Alternative/augmentative communication, motor speech disorders.

Taylor, Darrell, Associate Professor, *Emeritus*, Ph.D., University of South Florida, 1992; 1992. Vocational evaluation and work adjustment, cognate rehabilitation counseling.

Upton, Thomas, Professor, Ph.D., The University of Iowa, 2000; 2000. Rehabilitation counseling, advances in rehabilitation, persons with brain injury, disability attitudes, and postsecondary educational accommodations.

Vieceli, Louis, Associate Professor, *Emeritus*, M.S.Ed., Southern Illinois University Carbondale, 1959; 1958.

Wright, W. Russell, Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1974; 1971.

Communication Studies

The Department of Communication Studies has a healthy diversity of outlooks and approaches. Our diversity is complemented by an exceptionally supportive interpersonal climate. We are committed as colleagues to effective teaching and productive scholarship. We believe that our students share these commitments, and we are most eager to recruit students who want to study in such an environment.

Our facilities include a superior laboratory for performance studies, the Marion Kleinau Theatre, collaborative project room, Speaker's Center, library, and research carrels all housed in the department. We offer graduate assistants the opportunity for independent teaching experiences as well as the usual support duties as teaching and research assistants.

Financial Assistance

There are several forms of financial assistance available to graduate students in the Department of Communication Studies. First, there are graduate fellowships awarded on the basis of superior scholarship, which require a 10-hour per week research assignment. Second, there are several special fellowships offered from the Graduate School annually to students who show promise of success in graduate studies even though their academic records have been only average because of economic or social disadvantages. These special fellowships also have a ten-hour per week research assignment. Third, there are graduate assistantships available which require up to 20 hours per week of service in teaching or research. Finally, there are dissertation research awards for students in their final year of work toward the Ph.D. degree.

The stipends for the above awards are competitive. All the appointments, fellowships and assistantships also include a waiver of tuition (both in-state and out-of-state) for the student, although the student is responsible for student fees. Students who hold assistantship appointments for two consecutive semesters also receive a tuition waiver for the following summer session.

Additional information may be obtained by contacting: Director of Graduate Studies, Department of Communication Studies, Mail Code 6605, 1100 Lincoln Drive, Southern Illinois University Carbondale, Carbondale, Illinois 62901. Applications for fall semester assistantships should be received by January 15.

The Department of Communication Studies offers two graduate programs of instruction and research in the discipline of human communication leading respectively to the Master of Arts, and Doctor of Philosophy degrees.

Curriculum

The graduate faculty of the department offer course work in rhetoric and society; gender, sexuality and relational communication; intercultural communication pedagogy; and performance studies.

Admissions

Applicants must meet the minimum requirements of the Graduate School and should have completed a minimum of 24 quarter or 16 semester credit hours in communication studies or related subjects. A program for remedying deficiencies in background can be arranged by the department's Graduate Committee.

Inquiries regarding admission to graduate studies in communication studies should be directed to the director of graduate studies of the Department of Communication Studies. The GRE Aptitude Test is required as a condition for admission. Except for persons from English-speaking countries, international students are required by the department to have a TOEFL score of 600 (paper score) or 250 (computer score), or higher for admission. Each applicant should apply online and upload three letters of recommendation from former instructors. Official transcripts should be mailed directly to the department. In addition, applicants for the Ph.D. degree program may furnish a research paper as evidence of research and writing ability.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Communication Studies. Applicants must pay this fee by credit card.

Acceptance for graduate study in Communication Studies is determined by the graduate committee of the Department of Communication Studies. Students who are awarded graduate assistantships to provide assistance in the instruction of the department are required to take CMST 539.

Research Style

Each student is required to write a research report, thesis, or dissertation as a requirement of the program. In all cases the writing must conform to the latest edition of The MLA Style Manual or the APA Publication Manual. In all cases the writing must conform to the current edition of the Graduate School Guidelines for the Preparation of Research Reports, Theses, and Dissertations.

Master's Degree Program

A minimum of 30 semester credit hours is required for the M.A. degree. At least 50% of all hours must be at the 500 level. A student who completes only the minimum of 30 hours of work may devote no more than nine hours to work outside the Department of Communication Studies. All students are required to take CMST 501, Introduction to Communication Research.

The individual student selects or is assigned a faculty adviser no later than the beginning of the second semester. The faculty adviser and the student will plan the program of study.

During the last half of the second semester of course work, the student's progress shall be reviewed by the advisory committee to determine continuation, change, or termination of the program. The committee for each student shall be responsible for assembling the necessary information (grades, recommendations, progress in curriculum areas, etc.) for consideration in reaching the above decision.

The requirements for the master's degree may be met by either of the following plans chosen by the student in consultation with the adviser:

Plan 1: Thesis

Each student must complete a minimum of 30 semester credit hours, with no more than six hours or fewer than three hours of thesis credit in CMST 599 counted toward the 30 hour minimum. In addition, the student must register for at least one semester hour of credit in CMST 599 during any academic term in which the services of any faculty member are utilized in the supervision of or consultation concerning the thesis. If the student's reliance upon faculty assistance justifies, the director may require an appropriately greater number of semester hours in CMST 599. The thesis is submitted to a committee of three members of the graduate faculty, at least two of whom must be from the Department of Communication Studies. The committee must approve the prospectus and will administer an oral examination over the thesis. Students are required to submit their thesis to the Graduate School, one copy to the Department of Communication Studies, and one copy to the thesis director.

Plan 2: Research Report

Each student must complete a minimum of 30 semester credit hours, with no more than three hours or fewer than one hour of research report credit in CMST 595 counted toward the 30 hours minimum. A research report is submitted as evidence of research competence. An advisory committee consisting of the student's adviser and one other member of the graduate faculty in the Department of Communication Studies selected by the student and the adviser, will administer an oral examination over the research report before it is submitted to the Graduate School. One copy of the research report is submitted to the Graduate School, one copy to the Department of Communication Studies, and one copy to the adviser.

A student must have a graduate grade point average of 3.00 in order to be eligible for the master's degree.

Doctor of Philosophy Degree

A student must take 51 semester credit hours of course work beyond the master's degree, nine hours of which are methodology courses. A minimum of 36 of those 51 hours must be taken within the department.

In addition, 24 semester credit hours of dissertation work are required for the Ph.D. degree. Course work outside the department must be germane to one of the departmental curriculum areas for purposes of examination and dissertation research. Throughout the program of study, the student must maintain a 3.00 grade point average in all work taken. If the grade point average drops below the minimum, the student is placed on academic warning for the following two semesters.

During the last half of the second semester of course work, the student's progress shall be reviewed by the advisory committee to determine continuation, change, or termination of the program. The advisory committee for each student shall be responsible for assembling the necessary information (grades, recommendations, progress in curriculum areas, etc.) for consideration in reaching the above decision.

Advisory Committee

A three-person advisory committee shall be established no later than the beginning of the second semester of graduate study to plan the program of study with each student. The chair of the committee shall act as the primary adviser and sign the graduate course request form. This advisory committee is responsible for certifying to the graduate director that the student has met all departmental requirements for admission to candidacy and has passed the Ph.D. preliminary examination.

The advisory committee and the student will plan the program of study. All students are required to take CMST 501, Introduction to Communication Research and CMST 510, Rhetorical Theory. Students selecting theater as a curriculum area must take 18 hours of communication studies courses including CMST 501 and CMST 510; and THEA 501.

Attendance is required at pro-seminars as part of professional development. Graduate students are encouraged to present their scholarly work.

Preliminary Examination

The student must pass a preliminary examination on his/her program of study. The preparation and administration of the examination are determined by the advisory committee in consultation with the student. The examination is taken at the end of the course work, and no later than one year after completing course work. Delays could lead to dismissal from the program. The advisory committee is disbanded after student passes the preliminary examination.

Dissertation

Each student must register for at least 24 semester hours of dissertation credit in CMST 600 or THEA 600. In addition, the student must register for at least one semester hour of credit in CMST 600 or CMST 601 or THEA 600 or THEA 601 during any academic term in which the services of any faculty member are utilized in the supervision of or consultation concerning the dissertation. If the student's reliance upon faculty assistance justifies, he/she may be required by the dissertation adviser to register for an appropriately greater number of semester hours.

The dissertation director shall, upon consultation with the student, be responsible for setting up a dissertation committee, supervising the dissertation, and administering the final oral examination. The dissertation committee shall approve the dissertation prospectus and pass upon the completed dissertation and oral examination. Students are required to submit an electronic copy of the dissertation to the Graduate School, one paper copy to the Department of Communication Studies, and one paper copy to the dissertation director.

Communication Studies Courses

CMST401 - Comm Theories & Models 401-3 Communication Theories and Models. An advanced examination of the purposes and processes of constructing and using theories and models in communication research. Students critically analyze existing communication theories from both social scientific and interpretive paradigms in order to explicate and evaluate their implicit and explicit assumptions about human being, knowledge, and value. For graduate students and advanced

undergraduates. Satisfies the CoLA Writing-Across-the-Curriculum requirement for communication studies majors. Prerequisite: CMST 230 or graduate standing.

CMST411 - Rhetorical Criticism 411-3 Rhetorical Criticism. Designed to develop the student's ability to criticize public discourse, including speeches, written works and the mass media. Satisfies the CoLA Writing-Across-the-Curriculum requirement for communication studies majors.

CMST412 - Environmental Rhetoric 412-3 Environmental Rhetoric. An exploration of rhetorical structures and strategies in environmental policy, activism and public discourse. This course traces the significant contributions rhetoric and public debate have made in the struggle to protect environments from excessive industrial and commercial exploitation. A lecture, reading and discussion course.

CMST413 - Visual Rhetoric 413-3 Visual Rhetoric. An exploration of visual messages in public discourse and persuasive communication. This course offers tools for doing rhetorical criticism of visual messages, identifying similarities and differences between the analysis and production of verbal and visual persuasion. A lecture, readings, and discussion course.

CMST415 - Gender Sexuality & Comm 415-6 (3,3) Topics in Gender, Sexuality and Communication. (Same as WGSS 415) An exploration of advanced theories and research in gender and sexuality from communication perspectives. Course may be repeated when topics vary.

CMST416 - Black Feminist Thought 416-3 Black Feminist Thought as Theory and Praxis. (Same as AFR 416 and WGSS 416) Explore the roots, contemporary manifestations, and current embodiments of Black feminist thought. Explore the works of Black women to engage in critical thinking and thoughtful dialogue that positions the valuable knowledge, experiences and perspectives of women of color at the center of inquiry while simultaneously discovering spaces for multicultural alliances. Prerequisite: CMST 3011 or CMST 341 or consent of instructor or graduate standing.

CMST421 - Studies in Public Address 421-3 to 9 (3,3,3) Studies in Public Address. Critical studies of speakers and issues relevant to social and political movements dominant in national and international affairs. A lecture, reading and discussion course. Students may repeat enrollment to a total of nine hours.

CMST435 - Topics in Performance Studies 435-3 to 6 (3,3) Topics in Performance Studies. An exploration of advanced theories and techniques in performance studies. Topics vary and are announced in advance. Students may repeat enrollment in the course, since the topics change. Lecture, discussion, class projects.

CMST440 - Language Culture Comm 440-3 Language, Culture, and Communication. Study of language in use in social interactions in various cultural and communicative contexts. Topics include components of language, language change and diversity, speech acts, conversational structure, dialects, gender and language, bilingual and multilingual cultures, child language acquisition, and language use in institutional contexts. Prerequisite: CMST 3011 or CMST 341, or consent of instructor or graduate standing.

CMST441 - Advanced Intercultural Comm 441-3 Advanced Intercultural Communication: Theory and Practice. Advanced study of intercultural communication in domestic and global intercultural contexts. Course incorporates intercultural communication research with specific focus on application theory in professional contexts and in service of public advocacy and/or social justice. Prerequisite: CMST 3011 (or CMST 341) or consent of instructor or graduate standing.

CMST442 - Psych of Human Communication 442-3 Psychology of Human Communication. Nature, development, and functions of verbal and nonverbal behavior; application of psychology theories and research to the communication process in individuals and groups. Emphasis on the systemic nature of communicative behavior.

CMST443 - Language in Comm Research 443-3 Approaches to Language in Communication Research. Study of theories of language, its use, and consequences, with particular attention to general semantics, semiotics, and poststructuralism and their influence on communication research and criticism.

CMST445 - Performance in Everyday Life 445-3 Performance in Everyday Life. This course analyzes performance in everyday life in a variety of social, cultural, and historical contexts. The class explores genres such as conversations and personal narratives, folklore and oral traditions, festivals and celebrations, ceremonies and rituals, media events and politics. Topics of reading, discussion,

and original research may range from performative elements in language and social interaction to performances of selfhood, identity, and personality.

CMST446 - Soc: Language Discourse & Sign 446-3 Sociology of Language Discourse and Signs. Introduction to sociological semiotics, especially structuralism and post-structuralism. Reference to French theorists such as Barthes, Baudrillard, Bourdieu, Certeau, Deleuze and Guattari, Greimas, Group Mu, Lacan, Lyotard, and Perelman. Emphasis on the practice of discourse, language, and signs as a model for research in the human science of communicology.

CMST447 - Comm Race and Ethnicity 447-3 Communicating Race and Ethnicity. (Same as AFR 447) Via intercultural theories and methods, this course explores histories, relationships, interactions and recent events by positioning racial and ethnic perspectives at the center of inquiry. The course critically examines the complexities of race, racism and ethnicity by focusing on how people communicate across racial and ethnic differences in different contexts. Prerequisite: CMST 301I or CMST 341, or consent of instructor or graduate standing.

CMST448 - Intercultural Training 448-3 Intercultural Training. Introduction to communication theories and practices informing the training of individuals and groups anticipating extensive interactions with persons from differing cultural communities. The course provides content and learning opportunities aimed toward the design, development, and evaluation of effective, ethical culture-specific and culture-general intercultural training programs. Prerequisite: CMST 341 or CMST 301I or consent of instructor or graduate standing.

CMST451 - Political Communication 451-3 Political Communication. (Same as POLS 418) A critical review of theory and research which relate to the influence of communication variables on political values, attitudes, and behavior. Satisfies the CoLA Writing-Across-the-Curriculum requirement for communication studies majors.

CMST460 - Small Group: Theory & Research 460-3 Small Group Communication: Theory and Research. A critical examination of small group theory and research in communication studies. Emphasis is given to the development of principles of effective communication and decision-making in the small, task-oriented groups. Prerequisite: CMST 261 or consent of instructor or graduate standing.

CMST461 - Interpersonal Comm Encounter 461-3 Interpersonal Communication as Encounter. Interpersonal communication is studied as human encounter that participates in the development of human identity. Students explore the philosophical and theoretical approaches to human communication by developing concrete projects that examine the rule of relationships in the construction and alteration of values and priorities.

CMST463 - Communication & Conflict 463-3 Communication and Conflict. Study of sources, patterns, and outcomes of conflict in relationships within interpersonal, familial, organizational, managerial, or intercultural relationships. Emphasis on interactive, systems-level analysis of naturally occurring conflict episodes. Practice in managing conflicts, reframing, negotiation, and mediation.

CMST464 - Compassionate Communication 464-3 Compassionate Communication. Study and practical training in Nonviolent Communication and similar approaches to more effective inter- and intrapersonal communication. Using real-life experiences from political encounters and interpersonal conflicts to inner dialogue, this class offers a way to deepen peaceful connection and understanding with ourselves and others through honesty, empathy, and being "fully present" in the moment. Special approval needed from the instructor.

CMST465 - Philosophy of Communication 465-3 Philosophy of Communication. An introduction to philosophical approaches to the study of communicative interaction. Topics include the relation of meaning and conceptual structures to bodily experience and the interpretative nature of communicative interaction.

CMST471 - Studies in Genre & Performance 471-3 to 6 (3,3) Studies in Genre and Performance. Topical study of the role genre plays in analyzing, scripting, and performing literature and other textual forms. Students may repeat enrollment in the course since topics change. Prerequisites: CMST 201, 370, 371, or consent of instructor or graduate standing.

CMST472 - Media and Performance 472-3 to 6 (3,3) Media and Performance. Study and practice of mixed performance methods such as live performance with digital, projected or other media. Reading, discussion, and performance projects.

CMST473 - Performance Ethnography 473-3 Performance Ethnography. An exploration of culture, ritual, narrative, community and personal identity as performance. Readings, field work and assignments focus on performance ethnography, communicative dimensions of performance and performance epistemology. Prerequisite: six hours of performance studies or consent of instructor or graduate standing.

CMST474 - Adaptation and Staging 474-3 Adaptation and Staging. Theory and practice of staging texts with emphasis on adaptation, scripting, and directing. Prerequisite: CMST 201 or consent of instructor or graduate standing.

CMST475 - Group Performance 475-3 Group Performance. Contemporary performance practices as critical and persuasive tools. Develops skills in reading, writing, analyzing and performing a broad range of texts to acquaint students with methods for composing performance. Prerequisites: CMST 201, 370, 371, or consent of instructor or graduate standing.

CMST476 - Performance Composition 476-3 Performance Composition. Study of theoretical and practical issues in solo performance staging with special emphasis on textual production, scripting, social context, and performance practice. Advanced study in individual performance as a method of textual study as well as theory and practice in solo performance as an aesthetic event and rhetorical act. Prerequisites: CMST 201, 370, 371, or consent of instructor, or graduate standing.

CMST480 - Bus/Org Com Case Studies 480-3 Case Studies in Business and Organizational Communication. Exploration of the communicative constitution of organizations, including the role that artifacts and stakeholder attitudes play in the production of meaning and interpretation of organizational events and practices. Students analyze organizational communication principles through case studies and individual research. Prerequisites: CMST 280 or CMST 380, or consent of instructor, or graduate standing.

CMST481 - PR Cases & Campaigns 481-3 Public Relations Cases and Campaigns. Advanced course in public relations case analysis and campaign planning. Students critique public relations campaigns created by various profit, nonprofit and agency organizations. Students also design and implement public relations campaigns from problem identification through evaluation stages. Satisfies the CoLA Writing-Across-the Curriculum requirement for communication studies majors. Prerequisite: CMST 381 and 382 with a grade of C or better or consent of instructor.

CMST483 - Adv Business & Org Comm 483-3 Advanced Business and Organizational Communication. Study of communication practices in business, professional, and organization settings and the effects of communication strategies on interpersonal and organizational relationships within and outside of the organization. Considers the relevance of communication training and development on management operations, organizational culture, employee morale, networks, superior subordinate relations, production, and organizational climates. Individual research into selected aspects of organizational communication and talent development. Prerequisite: CMST 280 or CMST 380, or consent of instructor, or graduate standing.

CMST484 - Social Media & Digital Comm 484-3 Social Media and Digital Communication. Advanced application of contemporary theories in communication studies, particularly those related to principles of rhetoric and persuasion, in digitally mediated environments. Course topics cover the generation, management, and consumption of digital communication within social media and other Web platforms. Includes writing content strategy plans and study of tools used to curate, analyze, and interpret digital documents and information.

CMST486 - Special Topics in PR 486-3 to 6 (3,3) Special Topics in Public Relations. An exploration of selected, current topics in public relations. Topics vary and are announced in advance. Students may repeat up to 6 hours as topic varies.

CMST490A - Comm Practicum-Pedagogy 490A-1 to 6 Communication Practicum-Communication Pedagogy. A supervised experience using communication skills. Emphasis on the development of

performance skills in communication pedagogy. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST490B - Comm Practicum-Debate 490B-1 to 6 Communication Practicum-Debate. A supervised experience using communication skills. Emphasis on the development of performance skills in debate. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST490C - Comm Practicum-Intercultl Comm 490C-1 to 6 Communication Practicum-Intercultural Communication. A supervised experience using communication skills. Emphasis on the development of performance skills in intercultural communication. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST490D - Comm Practicum-Interpersonal 490D-1 to 6 Communication Practicum-Interpersonal Communication. A supervised experience using communication skills. Emphasis on the development of performance skills in interpersonal communication. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST490E - Comm Practicum-Organizational 490E-1 to 6 Communication Practicum-Organizational Communication. A supervised experience using communication skills. Emphasis on the development of performance skills in organizational communication. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST490F - Comm Practicum-Perf Studies 490F-1 to 6 Communication Practicum-Performance Studies. A supervised experience using communication skills. Emphasis on the development of performance skills in performance studies. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST490G - Comm Practicum-Persuasive Comm 490G-1 to 6 Communication Practicum-Persuasive Communication. A supervised experience using communication skills. Emphasis on the development of performance skills in persuasive communication. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST490H - Comm Practicum-Public Relation 490H-1 to 6 Communication Practicum-Public Relations. A supervised experience using communication skills. Emphasis on the development of performance skills in public relations. May be repeated for credit. Undergraduates limited to a total of six hours from 390, 490, and 491 and graduate students to three to be counted toward degree requirements. Prerequisite: twelve hours of communication studies. Special approval needed from the instructor.

CMST492 - Workshop in Performance Stdies 492-2 to 8 Workshop in Performance Studies. Summer offering concentrating in specialized areas of performance studies. Prerequisite: CMST 201 and CMST 370 or consent of instructor or graduate standing.

CMST493 - Special Topics in Communicatn 493-3 to 9 (3,3,3) Special Topics in Communication. An exploration of selected current topics in communication arts and studies. Topics vary and are announced in advance; both students and faculty suggest ideas. Students may repeat enrollment in the course, as the topic varies.

CMST501 - Intro Communication Research 501-3 Introduction to Communication Research. Survey of research methods utilized in the discipline of communication studies. Discussion of these methods as they apply to the various subject matter typologies. Introduction to basic conventions of research investigation and reporting.

CMST503 - Communicology 503-3 Communicology as a Human Science. Introduction to the human science approach (phenomenology) to theory construction in human communication. Examination of the modality conditions for evidence (actuality, possibility, necessity, sufficiency) and the corresponding logics (assert, problematic, apodictic, thematic) for qualitative research. Focus on the Abduction models of human communication and practice used by theorists such as Gregory Bateson, Paul Waltzlawick, Roman Jakobson, Charles S. Pierce, Maurice Merleau-Ponty and Michel Foucault.

CMST504 - Phil/Critical-Cultural Comm 504-3 to 6 Seminar: Continental Philosophy in Critical-Cultural Communication Research Methods. Analysis and application of theoretical approaches to communication research methods that draw on continental philosophy, such as phenomenology, semiology, deconstruction, and/or psychoanalysis. Focus on qualitative aspects of these approaches and their utility for critical-cultural investigation of communication as rhetorical, pedagogical, relational, cultural, and/or performative. May be repeated (up to six hours) with change of topic area. Topics announced prior to each offering. Prerequisite: CMST 501 or consent of instructor.

CMST506 - Ethnography of Communication 506-3 Ethnography of Communication. Survey of research literature and methods in the ethnography of communication, emphasizing description of communicative practices situated in particular cultural contexts. Course includes such topics as theoretical assumptions and genres of ethnographic writing.

CMST507 - Ethnographic Fieldwork 507-3 Ethnographic Fieldwork. Advanced study of culturally distinctive patterns of communicative conduct in particular social settings, groups and/or communities. Emphasizes fieldwork methods (e.g., participant-observation, ethnographic fieldnotes, ethnographic interviews) and practice in the collection of data from which cultural patterns of communication can be formulated, including the analysis and interpretation of such data. This course is based in the perspective of ethnography of communication.

CMST508 - Autoethnography 508-3 Autoethnography. Survey of research literature and methods in autoethnography with particular emphasis on the communicative self as a way of studying and speaking about culture. Calling upon the evocative and self-reflexive, strategies for field work and scholarly representation are explored.

CMST509 - Interp/Critical Methods 509-3 Interpretive/Critical Methodologies. Survey of methodological approaches that facilitate analysis of ways discourses constitute, perpetuate, and maintain particular meanings. Objective is to identify, explicate, and practice procedures for conducting interpretive/critical communication research. Prerequisite: CMST 501 or consent of instructor.

CMST510 - Sem: Rhetoric Theory & Society 510-3 Seminar: Rhetoric Theory and Society. A survey of selected theories of rhetoric. Emphasis on major contributors of historical or contemporary importance.

CMST513 - Studies in Rhetoric 513-3 to 9 (3,3,3) Studies in Rhetoric. An exploration of selected topics in the field of rhetoric. May be repeated with change of topic area. Topics announced prior to each offering. May be repeated up to nine hours.

CMST515 - Studies Gender Sexuality Comm 515-3 to 9 (3,3,3) Studies in Gender, Sexuality, and Communication. (Same as WGSS 515) How communicative activity creates and sustains human beings as gendered. Emphasis on gaining familiarity with contemporary research on gendering from a particular perspective (e.g., ethnography, performance, phenomenology, quantitative methods, rhetorical criticism). May be repeated when perspective varies. Perspective announced prior to each offering.

CMST526 - Sem-Studies in Persuasion 526-3 Seminar: Studies in Persuasion. The study of persuasion in social-political contexts. Exploration of contemporary research and selected theories in persuasion. Examination of philosophical-ethical questions related to persuasion. Readings, research and discussions.

CMST531 - Seminar: Comm Pedagogy 531-3 to 9 Seminar: Communication Pedagogy. Advanced study of selected problems in communication pedagogy. Analysis of research problems and methodologies in communication pedagogy research. Topics may vary from year to year. May be repeated only if topic differs each time repeated.

CMST533 - Critical Comm Pedagogy 533-3 Critical Communication Pedagogy. Advanced study of communication pedagogy research from a critical perspective. Foundations of critical communication pedagogy examined with special attention to current research trends, paradigmatic debates, and issues of culture and power.

CMST535 - Teaching as Performance 535-3 Teaching as Performance. Survey of theoretical, methodological and instructional approaches to education that foreground performative ways of teaching and learning. The course provides content and learning opportunities aimed toward the development of critical, embodied and socially transformative pedagogies. Prerequisite: six hours of credit in either Communication Pedagogy or Performance Studies or consent of instructor.

CMST537 - Comm Pedagogy & Culture 537-3 Communication Pedagogy and Culture. Advanced study of communication pedagogy research from a critical/cultural perspective. Survey of research in communication pedagogy that examines culture, including such topics as intercultural/multicultural education, cultural studies and communication, as well as feminist/queer pedagogies.

CMST539 - Comm Studies University Level 539-3 Communication Studies at University Level. Analysis and practice of instructional methods. Focus on the development of instructional philosophy and skills with specific applications to teaching the introductory communication studies course.

CMST540 - Language, Culture & Semiology 540-3 Seminar: Language, Culture, and Semiology. Examination of communication problems and research focusing on the relation among cultural values, communication behaviors in the speech community, and social exchange. Emphasis on the semantics and pragmatics of intercultural communication and social semiotic systems. Prerequisite: CMST 440 or CMST 441 or consent of instructor.

CMST541 - Studies Intercultural Comm 541-3 to 9 (3,3,3) Studies in Intercultural Communication. Advanced study of selected topics in intercultural communication. May be repeated for a total of nine hours when topics vary. Special approval needed from the instructor.

CMST542 - Intercultural Approaches 542-3 Paradigmatic Approaches to Intercultural Communication. This course provides a survey of intercultural communication studies, paying close attention to the historical development of the field. Students will engage with multiple paradigmatic approaches to intercultural communication research; mainly functionalist, interpretive, and critical. Students can also expect to reflect on how we can connect intercultural communication research to everyday practice.

CMST543 - Identity, Culture & Comm 543-3 Identity, Culture, and Communication. A theoretical exploration of identity performance across and in/between cultures. Draws mainly upon cultural studies, postcolonial theory, literary theory, critical globalization theory, and intercultural communication theory to provide a multidisciplinary understanding of how identity politics are negotiated in cultural contexts.

CMST545 - Sem-Semiology & Semiotic Comm 545-3 Seminar: Semiology and Semiotic Communication. Advanced study of sign, signal, and symbol systems in the phenomenology of communication. Systematic analysis of the metatheory relationship between expression and perception as manifest in verbal and nonverbal communication systems. Emphasis on semiology as a communication theory in the human sciences. Some consideration of related theories such as structuralism, interspecies communication, human/machine communication and general systems theory. Prerequisite: CMST 440 or CMST 441 or consent of instructor.

CMST546 - Conversatn Analysis:Pragmatics 546-3 Conversation Analysis: Pragmatics. (Same as LING 546) Study of the pragmatics of everyday conversation: sequential organization, topical coherence, speech act rules and functions, contextual frames, and background understandings. Emphasis on observational research methods and analysis of original data. Special approval needed from the instructor.

CMST547 - Conv Analysis:Ethnomethodology 547-3 Conversation Analysis: Ethnomethodology. Descriptive study of sequential organization of interaction. Students read research literature and learn methods for transcription and analysis in the conversation analytic tradition. Topics include openings and closings, adjacency pair organization, turn taking, overlap, assessments, pre-sequences, repair, topic, nonvocal activities, response, laughter, storytelling, argument, play and institutional contexts. Special approval needed from the instructor.

CMST551 - Sem: Continental Phil in Comm 551-3 to 6 (3,3) Seminar: Continental Philosophy in Communication Studies. Critical examination of emerging and enduring themes in communication theory and praxis developed as a human science by such continental theorists as Arendt, Barthes, Cixous, Benjamin, Foucault, Habermas, Kristeva, and/or Merleau-Ponty, as well as those such as Butler and Ronell and others influenced by this tradition. Focus on elements of their work that deal specifically with approaches to communication. May be repeated (up to six hours) with change of topic area. Topics announced prior to each offering. Prerequisite: CMST 501 or consent of instructor.

CMST561 - Studies Small Group Comm 561-3 to 6 (3,3) Studies in Small Group Communication. Studies of group action, interaction and leadership designed to apply small group theory and communication theory. Emphasis on the nature of group communication as exemplified in the laboratory model or the discussion/conference model. Students may repeat enrollment to a total of six hours.

CMST562 - Phil of Human Communication 562-3 to 9 (3,3,3) Philosophy of Human Communication. (Same as PHIL 562) Study of selected topics in the philosophical study of communication. May be repeated with change in topic area. Topics announced prior to each offering.

CMST563 - Studies Interpersonal Comm 563-3 Studies in Interpersonal Communication. An investigation of recent theories and empirical research concerning interpersonal communication. Emphasis will be placed on analyses of relational development, maintenance and change in the contexts of working relations, friendships and families. Both analytic and quantitative perspectives on interactional processes will be considered.

CMST564 - Family Communication 564-3 Family Communication. Survey of theories, research methods, and empirical studies of communication in family contexts. Emphasis is on describing functional family processes, including parent-child communication and sibling communication across the lifespan, and influences of various types of family structures on the social interactions that occur in families.

CMST570 - Performance Methodologies 570-3 Performance Methodologies. The examination of performance methodologies for exploring human communication. Particular attention is given to generating and reporting performance knowledge. Prerequisite: nine hours of 400 level performance studies courses or consent of instructor.

CMST571 - Performance History 571-3 History and Criticism in Performance Studies. A study of social and critical trends in performance studies with emphasis on their historical development. Prerequisite: nine hours of performance studies or consent of instructor.

CMST572 - Performance Theory & Criticism 572-3 Theory and Criticism in Performance Studies. A study of the theoretical trends in performance studies and literary criticism. Prerequisite: nine hours of performance studies or consent of instructor.

CMST573 - Performance Criticism 573-3 Performance Criticism. An examination of the theoretical and practical issues surrounding the evaluation of artistic performances for interpretation, rhetoric, theatre, journalism, film and television students interested in developing their critical skills. Special approval needed from the instructor.

CMST574 - Studies in Performance 574-3 to 6 (3,3) Studies in Performance. An exploration of selected current topics in the field of performance studies. May be repeated for a total of six hours. Prerequisite: twelve hours of performance studies courses or consent of instructor.

CMST576 - Performance Art 576-3 Performance Art. The study and creation of postmodern performance. Particular attention is given to performance artists in the theatrical tradition. Prerequisite: nine hours of performance studies or consent of instructor.

CMST580 - Issues in Organizational Comm 580-3 to 9 (3,3,3) Issues in Organizational Communication. Advanced study and applications related to specific issues in organizational communication. Topics announced prior to each offering. Special approval needed from the instructor.

CMST593 - Research Probs in Comm 593-1 to 3 Research Problems in Communication. Independent research study with a theoretical focus under the tutorial supervision of a member of the graduate faculty. Special approval needed from the instructor and departmental adviser.

CMST595 - Research Report 595-1 to 3 Research Report. One to three hours required of all non-thesis students writing a research paper. Graded S/U or DEF only.

CMST598 - Pro Sem in Human Comm 598-0 Proseminar in Human Communication. An open forum offered each semester for the systematic discussion of contemporary research in the field of communication arts and studies. Specific content is determined by participating faculty and students. Topics will usually be related to current faculty research or dissertations in progress in the department. Graded S/U only.

CMST599 - Thesis 599-1 to 6 Thesis. Minimum of three hours to be counted toward a Master's degree.

CMST600 - Dissertation 600-1 to 36 (1 to 12 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree.

CMST601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

CMST699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Communication Studies Faculty

Auxier, Randall E., Professor, Ph.D., Emory University, 1992; 2000. Symbol theory and semiotics, Philosophy of communication, history of rhetoric and philosophy, popular culture.

Bardhan, Nilanjana, Professor, Ph.D., University of Ohio, 1998; 1998. Intercultural communication and public relations.

Crow, Bryan, Associate Professor, *Emeritus*, Ph.D., University of Iowa, 1982; 1981. Interpersonal communication, conversation analysis, media studies.

Daughton, Suzanne, Associate Professor, *Emerita*, Ph.D., University of Texas-Austin, 1991; 1990. Rhetorical theory and criticism.

Engstrom, Craig L., Associate Professor, Ph.D., Southern Illinois University Carbondale, 2010; 2015. Organizational communication, institutional theory, rhetoric, training and development, social media.

Gingrich-Philbrook, Craig, Professor, Ph.D., Southern Illinois University, 1994; 1998. Performance studies, queer theory, continental philosophy, performance art.

Gray, Jonathan M., Associate Professor, Ph.D., Louisiana State University, 1999; 1999. Rhetorical theory and criticism, popular culture, communication pedagogy, folklore, cultural studies, and performance.

Hinchcliff-Pelias, Mary, Associate Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1982; 1983.

Houston, William Josh, Senior Lecturer, M.A. Western Illinois University, 1998. Public relations, sports PR, PR ethics.

Kleinau, Marion L., Professor, *Emerita*, Ph.D., University of Wisconsin, 1961; 1959.

Kleinau, Marvin D., Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1977; 1963.

Langsdorf, Lenore, Professor, *Emerita*, Ph.D., State University of New York at Stonybrook, 1977; 1990.

Lanigan, Richard L., Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1969; 1974.

Pace, Thomas J., Professor, *Emeritus*, Ph.D., University of Denver, 1957; 1965.

Pelias, Ronald J., Professor, *Emeritus*, Ph.D., University of Illinois, 1979; 1981. Performance studies, performance methods, autoethnography.

Pensoneau-Conway, Sandra L., Associate Professor, Ph.D. Southern Illinois University Carbondale, 2006; 2012. Critical communication pedagogy, intercultural communication, qualitative methods, communication and identity.

Pineau, Elyse, Associate Professor, *Emerita*, Ph.D., Northwestern University, 1990; 1990. Women's autobiography and personal narratives in performance.

Smith, William D., Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1964; 1961.

Stucky, Nathan, Professor, *Emeritus*, Ph.D., University of Texas-Austin, 1988; 1990. Performance studies, performance pedagogy, conversation analysis, performance ethnography.

Walker, Rebecca, Associate Professor, Ph.D., Louisiana State University, 2011; 2012. Performance and culture, performance and technology, performance and art, history of performance studies, rhetoric and pop culture, visual rhetoric, culture jamming, tourism and performance.

Young, Justin, Assistant Professor of Practice, M.S. Murray State University, 2003. Public relations, new media, film, video games.

Computer Science

The School of Computing offers a graduate program leading to the Master of Science and Doctor of Philosophy degree in computer science. For admission procedures to these degree programs refer to the [Graduate School](#) or [School of Computing](#) websites.

A nonrefundable \$65 application fee must be submitted with the Graduate School's online application for Admissions to Graduate Study in Computer Science. Applicants must pay this fee by credit card.

Decisions concerning the admission of students to and retention of students in the graduate program will be made by the School of Computing faculty subject to the requirements of the Graduate School.

Master of Science Degree in Computer Science

Admission

The evaluation of applicants for admission is based primarily on the student's academic record with particular attention being given to past performance in relevant undergraduate coursework. Applicants are expected to have a substantial background in undergraduate computer science courses covering high level and assembly language programming, data structures, computer organization, logic design as well as discrete mathematics, calculus, and linear algebra. The applicant is expected to have completed coursework in the above subject areas prior to admission. Normally, a GPA of at least 3.0/4.0 is required by the School of Computing.

Requirements

A student who has been admitted to the graduate program in Computer Science can meet the requirements for the Master of Science degree by completing 30 hours of graduate credit subject to the following constraints:

1. Students must take six hours of Computer Science coursework from the approved courses for each of the following three categories:

- Computer Science Theory: CS 408, CS 434, CS 437, CS 438, CS 447, CS 449, CS 451, CS 455, CS 480, CS 510, CS 533, CS 534, CS 553, CS 555, CS 586
 - Software Development/Engineering: CS 407, CS 412, CS 420, CS 435, CS 485, CS 487, CS 520, CS 585
 - Computing Systems Technologies: CS 401, CS 404, CS 406, CS 410, CS 413, CS 415, CS 416, CS 430, CS 431, CS 436, CS 440, CS 441, CS 514, CS 530, CS 534, CS 536, CS 540 (This requirement accounts for at least 18 hours of the required 30 hours of total graduate credit.
1. • Additional courses may be allowed as appropriate, subject to Graduate Program Director approval.
 2. In addition, at least 50% of the hours of graduate work must be at the 500-level.
 3. If a student believes they need to take a course from another academic unit at the University in order to gain specific knowledge for their thesis or project work, they must request approval from the Graduate Program Director prior to registering for such a course. The request must include an explanation of why the course is necessary for their program. Approval will be granted only if the justification is deemed adequate. No more than three hours of credit toward the 30 hour requirement will be given, and such courses must be at the 400- or 500-level only.
 4. Students are required to choose either a thesis or non-thesis program:
 - **Thesis Option:** A student must complete six credit hours of CS 599, Thesis, in 3-credit hour segments taken for two semesters and 24 credit hours of lecture courses. The student is eligible to take the course CS 598 (must be in industry only). This CS 598 course will be considered equivalent to three credit hours of thesis (subject to the approval of the supervising faculty).
 - **Non-Thesis Option:** A student must take 27 credit hours of lecture courses. In addition, the student will take CS 598, Graduate Project, under the supervision of a faculty member.

Doctor of Philosophy Degree in Computer Science

Admission

Subject to meeting the admission requirements of the Graduate School, admission requirements for the Ph.D. in computer science consist of:

1. A master's degree in computer science or a related field with a minimum GPA of 3.25/4.0.
2. Graduate Record Examination (GRE) general test scores. It is recommended that results from the GRE subject area in computer science or a related area be included.
3. In exceptional cases, high achieving students with only bachelor degrees will be admitted to the program. Each student, in addition to the Ph.D. program course requirements, must complete at least 15 semester hours of approved computer science courses including CS 401, CS 420, CS 455, and two 500-level lecture courses, with a minimum accumulated GPA of 3.25/4.0 in those courses. If a specific course, or its equivalent, is already part of the student's academic background, an alternate course will be submitted.

Each applicant is reviewed and evaluated on an individual basis. The evaluation of applicants for admission is based primarily on the student's academic record and area of research interest. Application materials should include evidence of scholarly ability and/or achievement (e.g. awards, scholarships, work experience, recommendation letters, and published research papers). Only those who best meet the research goals and objectives of the doctoral program will be selected for admission.

Requirements

The student must fulfill the requirements for the Qualifying Examination within three years of enrollment in the doctoral program. The Qualifying Examination is organized and administered by the student's academic advisor. The faculty prepares a written test based on at least two areas of concentration related to the student's intended dissertation area. Questions will be drawn from regularly scheduled 400- and 500-level graduate courses at SIU. The grade for the exam will be on a Pass or Fail basis for each subject area. If a student fails to pass any subject area of the written examination, a second chance is

given for the failed topic test. Students who fail the Qualifying Examination after two attempts will be dismissed from the Ph.D. program.

To fulfill the course requirements of the Ph.D. program, the student must complete at least 24 credit hours of 400/500-level courses and 24 credit hours of CS 600, Dissertation research, all of which are subject to the following constraints:

1. The coursework must include two one-credit hour seminar courses, six credit hours from an approved list of computer science 400/500-level courses, and six elective credit hours of CS 500-level courses.
2. The student must file a request with the School of Computing to appoint a dissertation committee to supervise the remaining doctoral work. This committee will consist of five graduate faculty members, one or two of whom will be from a graduate program outside the School of Computing, one preferably from outside this University. The student's dissertation advisor will serve as the chair of this committee.
3. Each student should complete a course of study as determined by the student's dissertation committee.
4. The course of study must include a minimum of six credit hours of 400/500-level courses from academic departments other than computer science. These courses must be selected from a list approved by the School of Computing.
5. Having passed the qualifying exams and after completion of most of the course requirements, a student will begin working on a dissertation proposal. The next step will be a Preliminary Examination consisting of an oral test on the student's proposed research topic. The student will pass the Preliminary Examination only if the members of the committee, with at most one exception, judge the performance of the student's oral examination to be satisfactory. In the event the student's performance is unsatisfactory, the committee will reschedule the exam for a later time. A student who fails the reexamination will be dismissed from the Ph.D. program.
6. A student will be officially admitted to candidacy for the Ph.D. degree after passing the Preliminary Exam and upon completion of all coursework. The student must then complete 24 credit hours of dissertation credit, restricted to nine hours per semester. When the research is complete and the dissertation is written, a final oral examination will take place to determine if the research conducted is worthy of the Ph.D. degree. The dissertation must conform to high literary and scholastic standards and comply with all the relevant requirements of the Graduate School. The dissertation must represent original research of good quality. From the dissertation, the candidate should publish (or have accepted for publication) a minimum of two articles in peer-reviewed journals. The candidate must be listed as the primary author of at least one of these journal articles.
7. Each candidate must pass a final oral exam over the candidate's dissertation, conducted by the candidate's dissertation committee. The dissertation will be accepted provided the dissertation advisor and at least three of the other four members of the committee so agree
8. Degree requirements, graduation, and time limits are subject to the general guidelines of the Graduate School.

Computer Science Courses

CS401 - Computer Architecture 401-3 Computer Architecture. Review of logical circuit design. Hardware description languages. Algorithms for high-speed addition, multiplication and division. Pipelined arithmetic. Implementation and control issues using PLA's and microprogramming control. Cache and main memory design. Input/Output. Introduction to interconnection networks and multiprocessor organization. Prerequisite: CS 320 with a grade of C or better or graduate standing.

CS404 - Autonomous Mobile Robots 404-3 Autonomous Mobile Robots. This course is a comprehensive introduction to modern robotics with an emphasis on autonomous mobile robotics. Fundamentals of sensors and actuators as well as algorithms for top level control are discussed. Multi-robotics and human-robot interaction issues are explored. A group project is an integral part of this course. Prerequisite: CS 330 with a grade of C or better or graduate standing. CS fee: \$125.

CS406 - Basic Linux System Admin 406-3 Basic Linux System Administration. This course will be an introduction to the administration of Linux systems, with emphasis on security for networked systems.

Topics to be covered include: installation and configuration of Linux distributions, typical maintenance activities, and security measures for networked systems. Students will have access to lab machines for hands on practice. Prerequisite: CS 306 with a grade of C or better or graduate standing.

CS407 - Adv Linux/UNIX Programming 407-3 Advanced Linux/UNIX Programming. This course builds on the knowledge gained in CS 306, to prepare students to do advanced development on Linux/UNIX platforms. The topics studied are critical for achieving high performance in large-scale, high-load networked software systems. These topics include development techniques such as profiling, concurrent programming and synchronization, network programming for high-load servers, advanced I/O alternatives, and IPC such as shared memory. The course will involve the study of code from Open Source projects like Apache and Nginx. The focus will be on the C language, but other languages will also be considered. Students must complete a significant network software project. Prerequisites: CS 306 and CS 335, with grades of C or better, or graduate standing with C language and Linux system programming experience.

CS408 - Applied Cryptography 408-3 Applied Cryptography. This course is a comprehensive introduction to modern cryptography, with an emphasis on the application and implementation of various techniques for achieving message confidentiality, integrity, authentication and non-repudiation. Applications to Internet security and electronic commerce will be discussed. All background mathematics will be covered in the course. Prerequisite: CS 330 with a grade of C or better and MATH 221 or graduate standing.

CS409 - Ethical Hacking 409-3 Ethical Hacking. This course will explore the various means that an intruder has available to gain access to computer resources. We will investigate weaknesses by discussing the theoretical background, and whenever possible, actually performing the attack. We will then discuss methods to prevent/reduce the vulnerabilities. This course is targeted specifically for Certified Ethical Hacking (CEH) exam candidates, matching the CEH exam objectives with the effective and popular Cert Guide method of study. Prerequisite: CS 202 or graduate standing.

CS410 - Computer Security 410-3 Computer Security. A broad overview of the principles, mechanisms, and implementations of computer security. Topics include cryptography, access control, software security and malicious code, trusted systems, network security and electronic commerce, audit and monitoring, risk management and disaster recovery, military security and information warfare, physical security, privacy and copyrights, and legal issues. Prerequisite: CS 306 with a grade of C or better or graduate standing.

CS412 - Programming Distributed Apps 412-3 Programming Distributed Applications. This course uses advanced features of the Java programming language to develop networked, distributed, and web-based applications. Topics covered include, but are not limited to, sockets, datagrams, the Java security model, threads, multi-tier architectures, Java RMI, Java database connectivity, and Java-based mobile agents. Prerequisite: CS 306 with a grade of C or better or graduate standing.

CS413 - Digital Forensics 413-3 Digital Forensics. Cybersecurity has become a ubiquitous concern well beyond finding solutions to post-mortem threat analysis. The course provides a broad overview of security objectives and will cover fundamentals in confidentiality, integrity, and availability. Lectures will offer a broad range of topics on digital forensics. Students will be trained for an investigation mindset. Contemporary tools and techniques for digital forensics and investigations are reviewed. Security for stationary and mobile platforms are foci of current course in both forensic and active modes. There will be multiple hands-on homework and laboratories as well as a practical project as an integral part of this course. Prerequisite: CS 410 or graduate standing.

CS415 - Network Forensics 415-3 Network Forensics. With the proliferation of wireless networks, security is at odds with privacy and integrity. The course provides a broad overview of security strategies for wireless networks. Topics will range from intrusion detection and network security protocols to collaborative computing. Contemporary tools and techniques for wireless network security are reviewed. A hands-on project will be an integral part of this course. Prerequisite: CS 410 or graduate standing.

CS416 - Compiler Construction 416-3 Compiler Construction. Introduction to compiler construction. Design of a simple complete compiler, including lexical analysis, syntactical analysis, type checking, and code generation. Prerequisite: CS 306 and 311 each with a grade of C or better or graduate standing.

CS420 - Distributed Systems 420-3 Distributed Systems. A top-down approach addressing the issues to be resolved in the design of distributed systems. Concepts and existing approaches are described using a variety of methods including case studies, abstract models, algorithms and implementation exercises. Prerequisite: CS 335 or graduate standing.

CS425 - Prin Virtual & Cloud Computing 425-3 Principles of Virtualization and Cloud Computing. Cloud Computing (CC) represents a recent major strategic shift in computing and Information Technology. This course explores fundamental principles, foundational technologies, architecture, design, and business values of CC. Understanding will be reinforced through multiple angles including: analysis of real world case studies, hands-on projects and in-depth study of research developments. Prerequisites: CS 330 with a grade of C or better or graduate standing.

CS430 - Database Systems 430-3 Database Systems. The course concentrates on the relational model, database design, and database programming. Topics include relational model, relational algebra, SQL, constraints and integrity, transaction support, concurrency control, database design, normalization, backup, recovery, and security. A comprehensive product-like project is an integral part of the course. Prerequisite: CS 330 with a grade of C or better or graduate standing.

CS431 - Cyber-Physical Systems 431-3 Cyber-Physical Systems. The goal of this course is to introduce and develop an understanding of the computing and communication for Internet of Things as a subset of Cyber-Physical systems. Connectivity among devices in our daily lives such as WiFi-enabled thermostats, smarts grids, and driverless cars is ushering in an era of sociality that transcends human social networks to machine to machine networks. Prerequisites: CS 306 with a grade of C or better or graduate standing.

CS434 - Learning From Data 434-3 Learning From Data. An introduction to classical machine learning theory and practical techniques. Topics to be covered include computational learning theory (VC theory), linear classification and regression models, SVMs and kernel methods, decision trees, the bias-variance tradeoff, overfitting, and regularization. Prerequisites: CS 330 with a grade of C or better or graduate standing.

CS435 - Software Engineering 435-3 Software Engineering. Principles, practices and methodology for development of large software systems. Object-oriented principles, design notations, design patterns and coping with changing requirements in the software process. Experiences with modern development tools and methodologies. A team project is an integral part of this course. Prerequisite: CS 330 with a grade of C or better or graduate standing; CS 306 with a grade of C or better recommended.

CS436 - Artificial Intelligence I 436-3 Artificial Intelligence I. Search and heuristics, problem reduction. Predicate calculus, automated theorem proving. Knowledge representation. Applications of artificial intelligence. Parallel processing in artificial intelligence. Prerequisite: CS 311 and 330 each with a grade of C or better or graduate standing.

CS437 - Machine Learn & Soft Computing 437-3 Machine Learning and Soft Computing. An introduction to the field of machine learning and soft computing. It covers rule-based expert systems, fuzzy expert systems, artificial neural networks, evolutionary computation, and hybrid systems. Students will develop rule-based expert systems, design a fuzzy system, explore artificial neural networks, and implement genetic algorithms. Prerequisite: CS 330 with a grade of C or better or graduate standing.

CS438 - Bioinformatics Algorithms 438-3 Bioinformatics Algorithms. This course is an introductory course on bioinformatics algorithms and the computational ideas that have driven them. The course includes discussions of different techniques that can be used to solve a large number of practical problems in biology. Prerequisite: CS 330 with a grade of C or better or graduate standing.

CS440 - Computer Networks 440-3 Computer Networks. Design and analysis of computer communication networks. Topics to be covered include queuing systems, data transmission, data link protocols, topological design, routing, flow control, security and privacy, and network performance evaluation. Prerequisite: CS 330 with a grade of C or better or graduate standing; CS 306 recommended.

CS441 - Mobile & Wireless Computing 441-3 Mobile and Wireless Computing. Concepts of mobile and wireless systems are presented. These concepts include, but are not limited to, Routing and Medium Access for Mobile Ad hoc and Wireless Sensor Networks, Mobile IP, Wireless LAN and IEEE 802.11.

Hands-on group lab experience is an integral component in the course. Prerequisite: CS 330 with a grade of C or better, or graduate standing or consent of the instructor.

CS447 - Introduction to Graph Theory 447-3 Introduction to Graph Theory. (Same as MATH 447) Graph theory is an area of mathematics which is fundamental to future problems such as computer security, parallel processing, the structure of the World Wide Web, traffic flow and scheduling problems. It also plays an increasingly important role within computer science. Topics include: trees, coverings, planarity, colorability, digraphs, depth-first and breadth-first searches. Prerequisite: MATH 349 with C or better.

CS449 - Intro to Combinatorics 449-3 Introduction to Combinatorics. (Same as MATH 449) This course will introduce the student to various basic topics in combinatorics that are widely used throughout applicable mathematics. Possible topics include: elementary counting techniques, pigeonhole principle, multinomial principle, inclusion and exclusion, recurrence relations, generating functions, partitions, designs, graphs, finite geometry, codes and cryptography. Prerequisite: MATH 349 with C or better.

CS451 - Theory of Computing 451-3 Theory of Computing. The fundamental concepts of the theory of computation including finite state acceptors, formal grammars, Turing machines, and recursive functions. The relationship between grammars and machines with emphasis on regular expressions and context-free languages. Prerequisite: CS 311 and 330 each with a grade of C or better or graduate standing.

CS455 - Adv Alg Design & Analysis 455-3 Advanced Algorithm Design and Analysis. An in-depth treatment of the design, analysis and complexity of algorithms with an emphasis on problem analysis and design techniques. Prerequisites: CS 330 with a grade of C or better or graduate standing.

CS471 - Optimization Techniques 471-3 Optimization Techniques. (Same as MATH 471) Introduction to algorithms for finding extreme values of nonlinear multivariable functions with or without constraints. Topics include: convex sets and functions; the arithmetic-geometric mean inequality; Taylor's theorem for multivariable functions; positive definite, negative definite, and indefinite matrices; iterative methods for unconstrained optimization. Prerequisite: MATH 221 and MATH 250 with C or better.

CS472 - Linear Programming 472-3 Linear Programming. (Same as MATH 472) Introduction to finding extreme values of linear functionals subject to linear constraints. Topics include: recognition, formulation, and solution of real problems via the simplex algorithm; development of the simplex algorithm; artificial variables; the dual problem and duality theorem; complementary slackness; sensitivity analysis; and selected applications of linear programming. Prerequisite: MATH 221 with C or better.

CS475 - Numerical Analysis I 475-3 Numerical Analysis I. (Same as MATH 475) Introduction to theory & techniques for computation with digital computers. Topics include: solution of nonlinear equations; interpolation & approximation; solution of systems of linear equations; numerical integration. Students will use MATLAB to study the numerical performance of the algorithms introduced in the course. Prerequisites: MATH 221 and MATH 250 with C or better.

CS476 - Numerical Analysis II 476-3 Numerical Analysis II. (Same as MATH 476) Continuation of CS 475. Topics include: solution of ordinary differential equations; computation of eigenvalues and eigenvectors; and solution of partial differential equations. Students will use MATLAB to study the numerical performance of the algorithms introduced in the course. Prerequisites: MATH 305 and MATH 475 with C or better.

CS480 - Computational Statistics II 480-3 Computational Statistics II. This course utilizes computational and graphical approaches to solve statistical problems. A comprehensive coverage on modern and classical methods of statistical computing will be given. Case studies in various disciplines such as science, engineering and education will be discussed. Various topics such as numerical integration and simulation, optimization and maximum likelihood estimation, density estimation and smoothing as well as re-sampling will be presented. Students will be able to create graphical and numerical display based on their data analysis results using R programming language. Prerequisite: MATH 250 and CS 306 or CS 330 with a grade of C or better or graduate standing.

CS484 - User Interface Dsgn & Devlpmnt 484-3 User Interface Design and Development. Problems and processes in the design of highly usable systems. Understanding stakeholders, requirements, tasks, prototyping, evaluation, guidelines and design process and heuristics. Interactive software concepts and

implementation considerations. A group project is an integral part of this course. Prerequisite: CS 306 with a grade of C or better or graduate standing.

CS485 - Computer Graphics 485-3 Computer Graphics. Principles and techniques of computer graphics. Interactive graphics software development using a modern graphics standard. Topics include: primitives, transforms, clipping, modeling, viewing, rendering, texture, animation and ray tracing. A group project is an integral part of this course. Prerequisite: CS 306 with a grade of C or better or graduate standing; MATH 150 and 221 are recommended.

CS487 - Software Game Development 487-3 Software Aspects of Game Development. This course focuses on software implementation and development aspects of game production including: software process, system architecture, frameworks, entity management and interaction design, game design, production and business issues as well as technical foundations in graphics modeling and rendering, collision detection, physics, artificial intelligence, and multiplayer techniques. Prerequisite: CS 330 with a grade of C or better or graduate standing.

CS491 - Special Topics 491-1 to 6 (1 to 3 per topic) Special Topics. Selected advanced topics from the various fields of computer science.

CS492 - Special Problems 492-1 to 6 (1 to 3 per semester) Special Problems. Individual projects involving independent work. Special approval needed from the instructor.

CS493 - Seminar 493-1 to 4 Seminar. Supervised study. Preparation and presentation of reports. Special approval needed from the instructor.

CS501 - Adv Computer Architecture 501-3 Advanced Computer Architecture. Hardware and software elements of multiprocessors, multicomputers, pipeline and array machines, data flow architecture and other state-of-the-art architectures. Design principles related to machine structures, interconnection networks, control software and hardware, data storage and access. Prerequisite: CS 401.

CS503 - Fault Tolerant Compt Systems 503-3 Fault-Tolerant Computing Systems. An introduction to different aspects of fault-tolerance in computing systems. Redundancy techniques with an emphasis on information redundancy, software fault-tolerance, coding techniques, algorithm-based fault-tolerance, fault-tolerant interconnection network architecture, DFT techniques, and quantitative evaluation methods. Prerequisite: CS 401.

CS510 - Wireless and Network Security 510-3 Wireless and Network Security. Advanced security concepts of distributed systems and wireless networks are presented. Topics include IEEE 802.11 security, Wireless Encryption and Authentication, Key Management in Networks, Distributed Denial of Service Attacks, Routing Security, Intrusion Detection and Mobile Code Security. Prerequisite: CS 410 with a grade of C or better or consent of the instructor.

CS511 - Forml Spec Progrmmng Lang 511-3 Formal Specification of Programming Languages. A survey of modeling techniques and Meta languages for the formal specification of the syntax and semantics of high-level programming languages. Prerequisite: CS 311.

CS512 - Declarative Programming 512-3 Declarative Programming. An advanced level course on nonprocedural programming with emphasis on logic programming, pure functional programming, and the characteristics of the declarative style common to these two paradigms. Topics include logic programming, functional programming, implementation consideration for each along with current research topics in the areas. Prerequisite: CS 311.

CS514 - Advanced Operating Systems 514-3 Advanced Operating Systems. Rigorous treatment of advanced topics in operating systems. Multiprocessors and distributed operating systems. Highly concurrent machines. Performance analysis of memory management and scheduling algorithms. Recovery techniques in distributed computation. Security in operating systems. Prerequisite: CS 335 with a grade of C or better.

CS516 - Advanced Compilers 516-3 Advanced Compilers. A continuation of 416 including advanced topics in lexical and syntax analysis, error recovery, semantic analysis, code optimization and compiler compilers. Prerequisite: CS 416.

CS520 - Adv Topic Parallel Distrib Comp 520-3 Advanced Topics in Parallel & Distributed Computing. An advanced treatment of parallel and distributed computing; review of hardware and software considerations for parallel computation; development and analysis of parallel algorithms (with particular attention to the communication and synchronization costs associated with parallel algorithms); effect of granularity on performance; a comparison of the parallel and distributed programming paradigms including a detailed study of the central features of each approach; software systems for distributed computing including exposure to one or more distributed programming environments; the direction of parallel computing as suggested by recent, high level parallel languages; parallelizing serial programs; parallelizing compilers; future directions of parallel and distributed computing systems. The course will include a student project. Prerequisite: CS 420.

CS525 - Security Issues Cloud Comp 525-3 Security Issues in Cloud Computing. This course offers a survey of security and privacy issues in Cloud Computing systems along with an overview of current best practices and available technologies. Threat model as well as practical applications of secure Cloud Computing are explored. Prerequisite: CS 410 or graduate standing.

CS530 - Advanced Database Systems 530-3 Advanced Database Systems. A detailed treatment of advanced topics in data base systems including, but not limited or restricted to, relational database theory, query optimization, recovery techniques, concurrency control, distributed database systems, security and integrity and database machines. Prerequisite: CS 430.

CS531 - Security Cyber-Phys Systems 531-3 Security in Cyber-Physical Systems. The course covers introductory topics in cyber-physical systems security. The goal is to expose students to fundamental security primitives specific to cyber-physical systems and to apply them to a broad range of current and future security challenges. Various tools and techniques used by hackers to compromise computer systems or otherwise interfere with normal operations are explored using tools that are unique to interacting with cyber-physical systems. Restricted to graduate standing or consent of the instructor.

CS532 - Topics in Information Systems 532-3 to 6 Topics in Information Systems. A detailed study of two or three topics relevant to information systems. Topics may include but are not limited to sorting, searching, information retrieval and automatic text processing, database security and encryption, distributed databases and data communication. Prerequisite: CS 430. Special approval needed from the instructor.

CS533 - Data Mining/Big Data Analysis 533-3 Data Mining and Big Data Analysis. This course provides a series of comprehensive and in-depth lectures on the core techniques in data mining and knowledge discovery; addresses the unique issues of big data; and discusses potential applications of data mining particularly on big data analysis. Major topics include: data preparation, association mining, classification (and prediction), clustering, characteristics and challenges of big data, and strategies of big data mining and analysis. Prerequisites: CS 330 and CS 430 with grades of C or better or consent of instructor.

CS534 - Big Data Management/Analytics 534-3 Big Data Management and Analytics. This course provides comprehensive and in-depth discussions of big data management and analytics. Main subjects include computation and programming models, management and analytics algorithms, and platforms/frameworks especially designed for big data. The objective of this course is to equip students with the ability to understand, use, and build big data management and analytics systems or tools. Prerequisites: CS 430 with a grade of C or better or graduate standing.

CS536 - Artificial Intelligence II 536-3 Artificial Intelligence II. Theorem proving, the Resolution Principle, strategies, and achievements. Program verification. Natural language processing. Other selected topics. Prerequisite: CS 436.

CS537 - Adv Topics in Expert Systems 537-3 Advanced Topics in Expert Systems. This course is designed to provide students with advanced topics in expert systems theory. Topics covered include: knowledge representation, methods of inference, reasoning under uncertainty, and inexact reasoning (fuzzy logic). A practical introduction to expert systems programming serves to reinforce and clarify the theoretical concepts. Prerequisite: CS 330 or consent of instructor.

CS538 - Game Theory in Networks 538-3 Game Theory in Networks. Game theoretic concepts apply whenever actions of several players are interdependent. This course will provide an introduction to classic game theory and strategic thinking including dominance, Nash equilibrium, and stability. Social choice,

social learning, and online mechanism design are then discussed. We will examine how game theoretic concepts can be used in developing reasoning strategies, i.e., algorithms. Application of game theoretic framework to telecommunication and human networks is an integral part of this course. Restricted to graduate standing or consent of instructor.

CS539 - Agents & Multiagent Systems 539-3 Agents and Multiagent Systems. This is an advanced treatment of fundamental concepts in the design of intelligent autonomous agents and agent systems. Classic agent theories, architectures, algorithms, and languages are discussed. An agent-based project is an integral part of this course. Restricted to graduate standing or consent of instructor.

CS540 - Adv Comp Networks 540-3 Advanced Computer Networks. Topics include routing protocols used in internet; data compression techniques; telecommunication systems - its services, architecture and protocols; high speed networks; routing protocols in mobile ad-hoc networks; and a detailed performance analysis of different window flow control and congestion control mechanisms using queuing theory. Prerequisite: CS 440 with a grade of C or better, or consent of the instructor.

CS553 - Formal Languages & Automata 553-3 Formal Languages and Automata. The Chomsky hierarchy of formal grammars and the corresponding classes of automata. Turing machines and basic concepts of computability. Recursive and recursively enumerable languages. Closure properties. Undecidable problems about Turing machines and context-free languages. Deterministic context-free languages and the construction of LR parsers. Prerequisite: CS 451.

CS555 - Computability & Complexity 555-3 Computability and Complexity. Turing machines and other models of computation. Computable functions. Church's thesis. Solvable and unsolvable problems. Introduction to complexity theory including the classes P and NP. Polynomial time approximation algorithms for NP-complete problems. Prerequisite: CS 451.

CS572 - Adv Topics in Num Analysis 572-1 to 12 Advanced Topics in Numerical Analysis. (Same as MATH 572) Selected advanced topics in Numerical Analysis chosen from such areas as: approximation theory; spline theory; special functions; wavelets; numerical solution of initial value problems; numerical solution of boundary value problems; numerical linear algebra; numerical methods of optimization; and functional analytic methods. Special approval needed from the instructor.

CS585 - Adv Top in Computer Graphics 585-3 Advanced Topics in Computer Graphics. Study of computer graphics for realistic image synthesis. Object modeling and associated data structures. Advanced rendering techniques such as raytracing and radiosity. Efficiency considerations. Image composition and compression. Current advances and research problems in realistic computer graphics. Prerequisite: CS 485.

CS586 - Pattern Recognition 586-3 Pattern Recognition. An introduction to the area of pattern recognition and data science. This course will cover basic and advanced theories, algorithms, and practical solutions of statistical pattern recognition. It covers bayesian learning, parametric and non-parametric learning, data clustering, component analysis, boosting techniques, sequential data, reinforcement learning, and deep learning with neural networks.

CS590 - Readings 590-1 to 6 Readings. Supervised readings in selected subjects. Graded S/U only. Special approval needed from the instructor.

CS591 - Special Topics 591-1 to 9 (1 to 3 per topic) Special Topics. Selected advanced topics from the various fields of computer science. Repeatable on different topics toward degree credit.

CS593 - Seminar 593-1 to 4 Seminar. Preparation and presentation of reports. Graded S/U only. Special approval needed from the instructor.

CS598 - Graduate Project 598-3 to 9 Graduate Project. A practical exercise in the design, implementation, documentation and deployment of a project. A project may be completed through internship, work/study, or a supervised project. For Ph.D. students only, an internship could include face-to-face or online teaching.

CS599 - Thesis 599-3 to 9 Thesis. Special approval needed from the instructor.

CS600 - Doctoral Dissertation 600-1 to 24 (1 to 9 per semester) Doctoral Dissertation. Dissertation research. Hours and credit to be arranged by the student's academic advisor. Graded S/U only. Restricted to admission to Ph.D. in computer science program.

CS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or graduate project. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis or graduate project hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Counselor Education

The School of Education offers graduate studies leading to a (i) M.S. Ed in Counselor Education and (ii) Ph.D. in Education with a concentration in counselor education. The purposes of these graduate

programs are to prepare professional counselors to engage in the practice and research in their program areas of interest.

For the Ph.D. degree, individualized courses of study are linked to the teaching and research capabilities of the faculty. Sufficient latitude is provided so that students in concert with their adviser and committee plan programs that capitalize on student interests and faculty capabilities. (*Enrollment is currently suspended in the Ph.D. program*)

Master of Science in Education

Academic experiences leading to the Master of Science in Education degree are provided through a concentration in counselor education in clinical mental health counseling. Graduates are prepared to pursue advanced graduate studies or assume roles as professional counselors in schools, colleges, and other agencies or both.

Admission and Retention

Students seeking admission to master's degree studies must apply to and meet requirements for admission to the Graduate School and be approved by the program. Scores from the Graduate Record Examination (GRE), an undergraduate grade point average of 2.7 (A = 4.0), letters of recommendation, and evidence of successful experience or commitment to the profession are required for admission. Each application is considered on an individual basis. Professional qualifications, graduate courses taken, and student goals are also considered.

The adviser, along with the faculty of the program area, is responsible for reviewing student progress each semester. Students are required to maintain a 3.0 grade point average and to be progressing toward their professional goals within the guidelines formulated in the advisement process. Failure to make progress or violations of program, college, or Graduate School regulations may result in dismissal from the program.

In the event a student is believed to be in violation of ethical or professional behavior that is a serious threat to client welfare, faculty or the clinical supervisor may prohibit the student from seeing clients prior to the review procedure. This 10 step process is articulated in the Master's Handbook. All persons involved with the student's practicum or internship will be immediately informed of the decision. In the event a serious form of unprofessional behavior has occurred, remediation may not be an option. If the faculty believe formal actions are immediately needed, the review procedure moves directly to a formal hearing with the student. Lack of participation in this hearing by the student shall result in removal of the student from the program.

Specific information about programs and how to apply may be obtained by calling 618/536-7763 or writing to: Coordinator, Counselor Education, Mail Code 4618, Southern Illinois University, Carbondale, IL 62901.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Counselor Education. Applicants must pay this fee by credit card.

Program Requirements

The master's degree focus is in Clinical Mental Health Counseling. Clinical Mental Health is a 61 semester credit hour program.

Central to any program is a unified curriculum rather than a collection of courses. The curriculum areas include: Professional Identity, Social and Cultural Diversity, Human Growth and Development, the Helping Relationship, Group Work, Assessment, Research and Evaluation, and Clinical Instruction. In addition, students are required to complete a thesis or six credit hours of approved research course work. Specific courses are dependent on area of emphasis and career goals.

Doctor of Philosophy Degree in Education

***Enrollment in Education Concentration (Ph.D.) has been suspended.**

Advanced studies leading to a Ph.D. degree are offered by the School of Education. The Ph.D. program in Counselor Education and Supervision is a concentration area for the degree Ph.D. in Education. Individualized programs of study, based on a core foundation, are required for each candidate. Students, along with their doctoral committee plan programs related to student background and interests, the professional requirements of the program, and the professional competencies of the faculty.

Application

Students must apply to the Coordinator of Counselor Education, School of Education, Southern Illinois University, Mail Code 4618, Carbondale, IL 62901. Phone: 618-536-7763. Specific questions about programs and how to apply should be directed to the address identified above or by phone.

A non-refundable application fee of \$65 must be submitted with the application. Attach your check or money order, payable to Southern Illinois University, to the top of the application form. Do not send cash. Only checks or money orders payable to United States banks will be accepted.

Admission and Retention

Applications are reviewed by the program faculty and recommendations forwarded to the School of Education and the Graduate School. Test scores from the Graduate Record Examination are required. A personal interview with a candidate is required. Admission to the program is dependent on: (1) the applicant's grades in their master's program, (2) GRE scores, (3) prior course work, (4) letters of recommendation, and (5) availability of qualified faculty to supervise the applicant's doctoral work. Applicants are expected to have prior course work from or equivalent to a CACREP accredited master's degree program in counseling. Applicant's who do not have a qualifying master's degree will have their graduate transcripts reviewed to determine what courses will be required before they can begin the doctoral curriculum. In some cases completing a master's degree in counselor education may be required.

Student's academic and professional performances are assessed throughout their time in the program. The faculty regularly communicate with one another regarding individual student performance, as part of best practices in instruction, professional development and gate-keeping. As counselor educators in training, students are expected to conduct themselves in a manner that is congruent with the role of a professional counselor educator. This includes presentation of self on and off campus, all forms of communication, including in person and electronic, on-line presence, and overall comportment.

The faculty also conduct a formal annual review of all students, at minimum at the one-year point in students' course of study. In addition to a review of a student's compliance with the policies set forth by the College of Graduate School, students are assessed on five criteria: cumulative graduate GPA; personal and social maturity; interpersonal relations; written and oral communication skills; and professional and ethical conduct. Students must obtain a minimum average rating of satisfactory three in each of the assessment areas. Satisfactory student performance at the one-year review must be supported by two-thirds of the graduate faculty for program continuation. Following the annual review, students receive a letter informing them of the results of their assessment. Students receiving less than satisfactory scores in any area will be given the opportunity to develop a remediation plan with their advisor except in situations requiring more immediate action, such as removal from client and/or student contact and/or the program.

If at any point in a student's program, a serious form of unprofessional behavior has occurred, remediation may not be an option. Students can be removed from the program for unethical or unprofessional behavior, regardless of academic standing. If a student is believed to be in violation of ethical or professional behavior that threatens client and/or student welfare, the student will be prohibited from seeing clients and/or working with students. All persons involved with the student's practicum or internship will be immediately informed of the decision.

A detailed, 11-step student remediation plan is articulated in the Doctoral Program Handbook.

The performance of each doctoral candidate is reviewed each semester. Maintenance of 3.0 grade point average and compliance with policies of the program, department, the college, and Graduate School are also required.

Core Requirements

The required program of study consists of a minimum of 86 semester hours beyond the master's degree and includes a 12-hour professional core in the School of Education, a 44-hour Counselor Education program core (minimum counseling classes 17 + research classes 15 + clinical hours 12 = 44 credit hours), six hours of electives and a minimum of 24 hours of dissertation credit. Course work taken in other departments or institutions prior to admittance may be accepted as part of the program of study at the discretion of the student's doctoral committee and upon approval of the Dean of the School of Education and the Graduate School.

Research, Teaching, and Practicum Experience

Students are required to complete a minimum of six credit hours of advanced practicum in three areas: COUN 594 (1-6) individual, group, and either marital, couple and family or career. Each student develops an internship plan that is consistent with his or her career goals. The internship plan does not include dissertation work. Students may request approval of an internship plan after completing all practica and the course on supervision. Program faculty must approve the plan before beginning the internship; however, a request to amend the plan may be submitted in writing to the program chair during internship.

Preliminary Examinations

All Ph.D. candidates must pass a preliminary examination over their doctoral course work before formal admission to candidacy. The doctoral committee with the concurrence of the department is responsible for the development and evaluation of the preliminary examination.

Doctoral Committees

Students are assigned a doctoral adviser upon admission to the program. Before the end of the first year of doctoral study a doctoral committee is constituted. At this time a new chair may be chosen to head the committee which assists and evaluates students in their program. The committee also is responsible for an oral examination over the completed dissertation and student's general knowledge of the professional field.

Counselor Education Courses

COUN412 - Human Behavior & Mental Health 412-3 Human Behavior and Mental Health. This course is designed to provide an overview of the factors and conditions in life that tend to affect mental health and the community resources available to address mental health needs. Social, political, economic and professional resources will be examined as they relate to the development, implementation and coordination of mental health services and systems. Restricted to junior or senior standing.

COUN430 - Conflict Resoltn Edu Envirns 430-3 Conflict Resolution Skills for Education Environments. The purpose of the course is to help educators and others to develop the understanding and skills necessary to promote peaceable means for resolving conflict with and among children and adolescents in an educational environment. The course will focus on participants developing personal techniques and approaches to assist children and adolescents to develop age-appropriate conflict resolution skills.

COUN481 - Seminar 481-1 to 12 Seminar. Conducted by staff members and distinguished guest lecturers on pertinent topics. Special approval needed from the instructor and department.

COUN491 - Spec Res Prob-Indiv Stdy 491-1 to 6 Special Research Problem-Individual Study. For majors. Formulating, investigating, and reporting on a problem in the area of applied psychology. Restricted to advanced standing. Special approval needed from the department.

COUN493 - Introduction to Helping Skills 493-3 Introduction to Helping Skills. (Same as PSYC 441) This course provides an introduction to the interviewing skills used in the helping professions. Helping skills are studied and practiced through simulated counseling sessions. This course does not meet the

program requirements for a Master's degree in Counselor Education. Restricted to graduate or senior standing.

COUN500 - Interviewing and Skills 500-3 Essential Interviewing and Counseling Skills for the Professional Helper. (Same as REHB 501) This course provides the foundation for counselors and other professionals-in-training for understanding the counseling process in a multicultural society including an orientation to wellness, the development of professional characteristics and behaviors that influence the helping process, and a mastery of the essential interviewing and counseling skills. Restricted to Graduate Standing only. Concurrent enrollment allowed in COUN 541.

COUN501 - Clinical Mental Health 501-3 Introduction to Clinical Mental Health Counseling. This course provides an overview of the history, foundations, practices and ethical and legal issues relevant to clinical mental health counseling. This course is a required course for clinical mental health and marriage, couple and family counseling and does address specific skill attainment in areas of documentation, report writing and program evaluation skills. A grade of B or better required.

COUN502 - Intro to School Counseling 502-3 Introduction to School Counseling. This course provides an overview of the history, foundations, practices, and ethical and legal issues relevant to school counseling as well as an overview of the structure, organization, and operation of the educational system in P-12 schools. This course offers specific skill attainment in areas of documentation in the school setting, classroom guidance, report writing and program evaluation skills. A grade of B or better required.

COUN503 - Intro to MCFC 503-3 Introduction to Marriage, Couple, and Family Counseling. This course provides an overview of the history, foundations, practices, and ethical and legal issues relevant to marriage, couple, and family counseling. This course is a required course for clinical mental health and marriage, couple and family counseling and does address specific skill attainment for working with couples and families. A grade of B or better required. Prerequisite: COUN 541 with a grade of B or better.

COUN505 - Identity and Ethics 505-3 Professional Counselor Identity and Ethics. Professional counseling requires a foundational understanding of the history of the profession, the various counseling speciality areas, the ethical standards of practice, use of ethical decision making models, legal, social and political issues and understanding needs of consumers through the lens of diversity and advocacy. This course is required for all counseling specialties seeking CACREP accredited degrees.

COUN511 - Adult Learning Theories 511-3 Theories and Practices of Adult Learning. Critical review of empirical, methodological and theoretical developments in the experimental study of instructional variables as related to student behavior. This course is required for counselor education doctoral students and recommended for all doctoral students seeking knowledge about adult learning.

COUN512 - Life-Span Development 512-3 Life-Span Development. Investigates physical, intellectual, and social development throughout the life span. This course provides information regarding learner characteristics and transitions. Focus is on applications for education, counseling, and related services. Students will develop competency in application of human development theory and current research to clients and the counseling profession. Prerequisite: COUN 541.

COUN521 - Consult Schl & Organz Systems 521-3 Consultation of Schools and Organizational Systems. Surveys the theories and available research on several approaches to consultation with families, schools and other organizational systems. Systemic approaches to consultation are emphasized. Includes coursework in methods of reading and reading in the content area. Grade of C or better required.

COUN537 - Counsel Child-Theo/Tech 537-3 Counseling Children: Theory, Techniques, and Practice. The foundations and techniques of individual and group counseling with particular emphasis on theories, operational approaches, tools and related procedures. Prerequisite: COUN 500 with a grade of B or better, or concurrent enrollment.

COUN540 - Issues & Trends in Counseling 540-3 Issues and Trends in Counseling. Students will examine current problems, issues, and trends with an emphasis on strategies for solving the problems; clarifying the issues and placing them in proper perspective; examining possible ramification of the trends.

COUN541 - Theories of Counseling 541-3 Theories of Counseling. (Same as REHB 551) This course presents an overview of current theories of counseling with a special focus on the philosophical assumptions, key concepts, techniques and practical applications of each approach. Each of the theories will be examined critically such that the student can begin to formulate an integrated personal theory of counseling. Prerequisite: COUN 500 with a grade of B or better or concurrent enrollment.

COUN542 - Career Development 542-3 Career Development Procedures and Practices. (Same as REHB 521) For pupil personnel workers, teachers, and administrators to give an orientation to theoretical, economic, and informational aspects of career guidance and to provide experience with using career information in counseling and decision making. Obtaining occupational and information materials for use in guidance and teaching.

COUN543 - Group Theory & Practice 543-3 Group Theory and Practice. (Same as REHB 585B) Focuses on the theory, functions, and techniques of group procedures appropriately applied to decision making, problem solving and resolution of conflict. Major emphasis is given to the dynamics of group behavior, the social-psychological interaction of small groups and their applications to group counseling. Dual emphasis is placed upon interpersonal self-understanding and the familiarity with group procedures. Prerequisite: COUN 500 with a grade of B or better.

COUN544 - Appraisal in Counseling 544-3 Appraisal in Counseling. (Same as REHB 530) Principles and procedures for gathering appraisal and assessment information about people. Theoretical basis for describing and comparing individuals as well as assessing developmental stages and types will be covered. Particular emphasis will be the validity and reliability of data collection methods, interpretation of this information to individuals and procedures for selection of instruments.

COUN545 - Cross Cultural Factors 545-3 Cross Cultural Factors Affecting Counseling. (Same as REHB 519) Designed to cover special problems of different cultural groups in the counseling process. The influence of culture upon values, beliefs, interests and feelings will be explored as they relate to the rights of the client. Prerequisites: COUN 500 and COUN 541, each with a grade of B or better.

COUN546 - Crisis and Counseling 546-3 Crisis and Counseling. This course is designed to give the counselor a theoretical and practical background in crisis preparation and intervention in a variety of settings. Students will examine relevant research and theory on crisis and resilience, reflect on their personal crisis experiences and begin to develop fundamental crisis intervention skills. This course is both applicable and practical in presentation.

COUN547 - Research and Evaluation 547-3 Research and Evaluation in Counseling. (Same as REHB 593A) This course provides knowledge of the field of counseling research and specific methods for conducting and critically reading research as well as applications of needs assessment and program evaluation including using computers for data analysis and legal and ethical considerations in research and evaluation. Restricted to advanced standing in counselor education program or rehabilitation counseling program.

COUN548A - School Counseling Practicum 548A-3 School Counseling Practicum. A combined seminar, laboratory, and field experience representing the central focus of the program in school counseling. Enables the student to practice the role of the counselor under close supervision. Graded S/U only. Prerequisite: COUN 500, COUN 541, each with a grade of B or better. Restricted to admission to the counseling program.

COUN548B - Counseling Practicum 548B-3 Counseling Practicum. Practice of individual and group counseling skills with different populations in varied settings. The professional settings depends on the student's interest area. Individual and group supervision are provided. Use of video-recorder is required. Graded S/U only. Prerequisite: COUN 500, COUN 541, each with a grade of B or better. Concurrent enrollment in COUN 543 required. Restricted to admission to counseling program.

COUN548C - Advanced Group Counseling 548C-3 Advanced Group Counseling. Supervision in the creation and maintenance of small group process for the purpose of career development. Application of theoretical models is stressed concurrently with entry level skills in the facilitation of small groups and career counseling. Prerequisites: COUN 500, COUN 541, COUN 542, COUN 543, COUN 548A, COUN 548B. Restricted to admission to counseling program.

COUN548E - Marriage/Couple/Family Practcm 548E-3 Practicum in Marriage, Couple, and Family Counseling. Supervised on-campus counseling experience with couples and families. Supervision will be individual as well as within the context of a therapy team. Graded S/U only. Prerequisite: COUN 500, COUN 503, COUN 548A or B, each with a grade of B or better, concurrent enrollment in COUN 560. Special approval needed from the instructor.

COUN549 - Diag/Treat Mental Disorders 549-3 Diagnosis and Treatment of Mental Disorders. This course provides counselors and other human service workers with an overview of the current edition of the DSM and is designed to acquaint future counselors or students in other helping professions with an understanding of the etiology, prevention, and treatment of mental and emotional disorders. The course will address differential diagnosis and associated disorders of the primary diagnoses in the multi-axial system. Prerequisite: COUN 500, 501 or 502 or 503, or consent of instructor.

COUN551 - Supervision of Practicum 551-3 The Supervision of Practicum. Doctoral students will: become familiar with models of counseling supervision; practice supervision with Master's students; and be acquainted with the research in the counselor training and supervision. Individual and group supervision are provided. Tape recording of supervision sessions is required.

COUN560 - Seminar: Couple and Family 560-1 to 3 Seminar in Couple and Family Counseling. Seminar will focus on current clinical and research topics in the field of couple and family counseling and the general issues that emerge from the couple and family counseling practicum. Prerequisite: COUN 548A or B, COUN 503, concurrent enrollment in COUN 548E. Special approval needed from the instructor.

COUN568A - Seminar Coun-Prof Orient 568A-3 Topical Seminar in Counseling-Professional Orientation. A series of advanced seminars in counseling. Sections A through C are to be taken only once. Section D may be repeated as topics vary. Students may take up to 12 credits only for 568. Restricted to admission to Ph.D. program.

COUN568B - Seminar in Counseling-Theory 568B-3 Topical Seminar in Counseling-Advanced Theory. A series of advanced seminars in counseling. Sections A through C are to be taken only once. Section D may be repeated as topics vary. Students may take up to 12 credits only for 568. Restricted to admission to Ph.D. program.

COUN568C - Seminar in Counsel-Research 568C-3 Topical Seminar in Counseling-Conducting Research. A series of advanced seminars in counseling. Sections A through C are to be taken only once. Section D may be repeated as topics vary. Students may take up to 12 credits only for 568. Restricted to admission to Ph.D. program.

COUN568D - Seminar in Counseling 568D-3 Topical Seminar in Counseling-Selected Topics. A series of advanced seminars in counseling. Sections A through C are to be taken only once. Section D may be repeated as topics vary. Students may take up to 12 credits only for 568. Restricted to admission to Ph.D. program.

COUN576 - Research Issues-Counselor Educ 576-4 Research Issues in Counselor Education. Introduction to research methods and current research issues in the areas of human learning and development, statistics and measurement, counselor education and special education. The course will focus on what is currently known about selected major research issues in each of the above areas and what these findings imply for educational practice. Restricted to admission to doctoral program.

COUN590 - Sex, Violence & Trauma 590-3 Special Topics in Family Counseling: Sexuality, Violence, and Trauma. This course is designed to prepare counselors-in-training to work effectively with couples and families who may be dealing with issues related to sexuality, violence, and trauma, and to address relevant professional, legal, and ethical issues surrounding clinical work in these areas. Human sexuality includes physiological, psychological, developmental, social, and relational issues as they relate to the conceptualization and treatment of clinical issues in couples counseling. Family violence issues include physical, emotional, and sexual abuse of children, elders, and intimate partners. In addition, the course provides an overview of theories and application of crisis intervention strategies for individuals and family members experiencing a crisis or trauma. Prerequisite: COUN 503.

COUN591 - Internship in Counseling 591-1 to 3 Internship in Counseling. A total of 6 credits (in a minimum two semesters) of supervised internship at an approved site, for 600 clock hours (including 240 hours direct client service in individual, group, and/or family counseling). Internship provides advanced students opportunity to perform a variety of activities expected of a regular employed professional counselor, under supervision of on-site and faculty supervisors. Graded S/U. Prerequisites: COUN 548A or B and COUN 548C.

COUN592 - Independent Study & Investigation 592-1 to 8 (1 to 6 per semester) Independent Study and Investigation. For advanced graduate students. Topics of interest to the individual student are studied under supervision of a department staff member. Special approval needed from the department.

COUN593 - Individual Research 593-1 to 4 Individual Research. For advanced graduate students in Counselor Education. Formulating, investigating and reporting of research problems in the area of Counselor Education. Special approval needed from the department.

COUN594 - Advanced Practicum 594-1 to 6 Advanced Practicum. Primarily for advanced Master's or doctoral students who want to continue developing their counseling skills. Counseling settings are individually arranged, however, they typically follow the 494 practicum experience. Graded S/U only.

COUN595 - Intern: Psych of Teaching 595-1 to 8 Internship in the Psychology of Teaching. Full- or half-time teaching practice in the management of classroom behavior, and the design, delivery, and evaluation of instruction. Interns will be supervised by University staff. Graded S/U only. Special approval needed from the department.

COUN597 - Doctoral Internship Counseling 597-6 Doctoral Internship in Counseling. This experience is designed to prepare students for leadership positions in the education and supervision of counselors. It should be consistent with program's doctoral internship guidelines, as well as specific student goals. Internship occurs at the end of the student's doctoral program and is coordinated by the student's program chair. An internship plan is to be developed by the student with guidance from the program chair, and may include the following counselor education and supervision activities: advanced counseling practice, supervision, teaching, professional service, and research. Prerequisite: COUN 551, COUN 594. Special approval needed from the program.

COUN599 - Thesis 599-1 to 6 Thesis. Special approval needed from the department.

COUN600 - Dissertation 600-1 to 32 (1 to 16 per semester) Dissertation.

COUN601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

COUN699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Counselor Education Faculty

Asner-Self, Kimberly K., Associate Professor, Ed.D., George Washington University, 1999; 1999.

Criminology and Criminal Justice

The Criminology and Criminal Justice program, which enjoys a national and international reputation for quality research and education, offers the Master of Arts degree and a Doctor of Philosophy degree in Criminology and Criminal Justice. The program focuses on analyzing criminal justice, social justice, and crime prevention problems and solutions. The program prepares its graduates with the analytic capabilities and problem-solving skills that enable them to succeed in professional careers in criminal justice and related agencies, in policy analysis and research, or in continued graduate or professional education in preparation for an academic career. The focus of the curriculum is theoretically driven, empirically-based criminal justice and crime prevention that takes a problem-solving approach.

Supplementing the academic program, there are opportunities for graduate students to work with faculty members who are conducting research. In addition, students may take Supervised Field Experience credit to blend practical experience with classroom education.

Admission to the Criminology and Criminal Justice Program

The Criminology and Criminal Justice program and Graduate School applications form one combined application that should be submitted electronically. Students will be accepted for graduate study in Criminology and Criminal Justice only upon approval by the program as well as the Graduate School.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Criminology and Criminal Justice. Applicants must pay this fee by credit card.

A more detailed description of the graduate program, as well as information about graduate assistantships and fellowships, may be obtained by contacting: Graduate Secretary, School of Justice and Public Safety, Criminology and Criminal Justice, Faner Hall – Mail Code 4504, Southern Illinois University Carbondale, 1000 Faner Drive, Carbondale, IL 62901.

Master's Degree Requirements

Admission

Full admission to the graduate program requires a grade point average of at least 2.70 or better (*A* = 4.00) on approximately the last 60 hours of undergraduate coursework and acceptance by the faculty. Scores on the Graduate Record Examination (aptitude portion only) are also required. International applicants should consult the Graduate School web page for additional requirements, including satisfying the English language requirement.

Students who do not have an undergraduate degree in criminology or criminal justice should have a minimum of 12 units in sociology, psychology, political science, or other social sciences. In cases where these criteria are lacking, additional selected undergraduate courses may be required for acceptance in this program.

Required Core Courses

All candidates for the Master of Arts degree in Criminology and Criminal Justice are required to complete four core courses.

- CCJ 500-3 Foundations of Criminal Justice
- CCJ 504-3 Criminological Theory
- CCJ 510A-3 Research in Criminology and Criminal Justice: Methods and Concepts
- CCJ 510B-3 Data Analysis and Interpretation

Thesis Option

A total of 30 semester hours is required for the thesis track of the Master of Arts degree in Criminology and Criminal Justice. A thesis is required. Students may take a total of six thesis semester hours (CCJ 599-1 to 6); however, only three hours are counted towards the degree requirements. An oral defense of

the student's thesis is required. Students may take up to six credits of 400-level coursework for graduate credit in accordance with graduate school regulations.

Non-Thesis Option

A total of 33 credit hours is required for the Non-Thesis Master of Arts degree in Criminology and Criminal Justice. A research paper that exceeds the expectations in terms of rigor and quality of the graduate level term paper is required. Students may take up to six credits of 400-level coursework for graduate credit in accordance with graduate school regulations. Students may take up to three credits of non-thesis semester hours (CCJ 598 1 to 3) to work on their research paper.

Accelerated Master's Degree

The accelerated master's program allows motivated and high achieving students to complete a program leading to an undergraduate Bachelor of Arts degree and Master of Arts degree with a major in Criminology & Criminal Justice in five years. Students must have completed CCJ 316 and CCJ 317 prior to their senior year. Nine credit hours are double counted toward an undergraduate and a master's degree. The option requires satisfactory completion of twelve hours in core criminology & criminal justice courses: CCJ 500, CCJ 504, CCJ 510A, and CCJ 510B. The thesis or the non-thesis project is required for degree completion. A student who chooses the thesis option must complete 18 elective credits and can take up to six thesis semester hours (CCJ 599-1 to 6). However, only three hours are counted toward the degree requirements. With the thesis option, an oral defense of the student's thesis is required. A student who chooses to complete the non-thesis option must complete 21 elective credits and can take up to three credits of non-thesis semester hours (CCJ 598-1 to 3) to work on their research paper.

Doctoral Degree Requirements

Admission

Admission to the doctoral program requires a grade point average of at least 3.0 or better ($A = 4.00$) in all prior graduate coursework and the last 60 credit hours of undergraduate study. Applicants must submit scores on the Graduate Record Examination (GRE). Students with an M.A. degree in criminal justice or a related social science at the time of matriculation must still submit GRE scores. International applicants should consult the Graduate School web page for additional requirements, including satisfying the English language requirement.

Students are expected to have completed a master's degree in criminology and criminal justice, or students who do not have a master's degree in CCJ should have a minimum of 12 graduate units in sociology, psychology, political science, or other social science discipline.

Advisement

Initial advisement will be given by the program's Director of Graduate Studies. As soon as possible, the student, in consultation with the Director of Graduate Studies, will request an appropriate member of the program's graduate faculty to serve as the student's academic adviser. It is the student's responsibility to develop, in consultation with his/her advisor, a plan of study leading to timely completion of coursework, the comprehensive examination(s), and a dissertation. This plan of study will be filed in the student's permanent file. Change of advisor should be filed with the program's Director of Graduate Studies.

Program of Study

Students admitted to the CCJ doctoral program are to have completed a master's degree. Completion of the CCJ PhD program requires completion of seven required courses, plus four seminars. The Graduate School requires that a minimum of 24 hours be taken in residency at SIU (courses on campus at SIU and as a doctoral student) after admission to the program and prior to candidacy. Only six credit hours of dissertation may be counted toward the 24 hours in residence. Students may only take up to six dissertation hours prior to candidacy (other hours taken prior to candidacy will not count toward the degree). Students must take a total of 24 dissertation hours. Students who receive an M.A. from SIU's

CCJ program may have already satisfied the core and most of the toolkit seminar requirements; however, they must still meet the 24-hour residency requirement.

Core Courses

Doctoral students must complete three core courses that include:

- CCJ 500 Foundations of Criminal Justice (3)
- CCJ 504 Criminological Theory (3)
- CCJ 505 The Nature of Crime (3)

Required Research Tools

The Ph.D. in Criminology and Criminal Justice is a research degree; students must learn the tools and methods of quantitative and/or qualitative research. Students must take four research tools courses that include:

- CCJ 510A or POLS 500A or SOC 512 Research Methods - can be waived if already taken (3)
- CCJ 510B or SOC 526A Data Analyses and Interpretation - Students with prior graduate statistical courses may test to try to opt out of this requirement (3)
- CCJ 510C Advanced Multivariate Statistics or SOC 526B (3)
- An additional research toolkit course approved by the student's advisor (3)

Guided Electives

The guided electives should be chosen in consultation with the student's advisor and committee to meet the career interests of the student. Students must take a minimum of four graduate seminars based on interests and preparation for the comprehensive examination(s). Only six credits at the 400-level will be accepted in the combined degree program of M.A. and Ph.D. Students also may take up to 12 directed study credits for individualized instruction from faculty members on content not available in substantive courses (e.g., a specialized technique of analysis). Students are encouraged to consider the wide array of course offerings at SIU.

Comprehensive Examinations

Comprehensive exam(s) are required to advance to candidacy. The faculty will define the timing, scope, and format of the examination system. A final copy of all examinations must be deposited with the graduate secretary. In the event of a revision or retake, only one revision or retake is permitted per exam. An oral defense of the revision or retake may be required at the faculty's discretion.

Dissertation (24 hours)

Each candidate for the Ph.D. degree must write a dissertation showing high attainment in independent, original scholarship and creative effort. A total of 24 semester hours is required. A maximum of 6 hours of dissertation credit taken prior to passing comprehensive examination(s) will count. The student must successfully defend orally his or her prospectus, giving the faculty two weeks to review the written prospectus before an oral defense, which shall be open to the public. A student may not hold a dissertation prospectus meeting before successful completion of the comprehensive examination(s).

A dissertation must be written under the direction and approval of a five-member committee of faculty possessing doctorates, one of whom must be from outside the Criminology and Criminal Justice Program. The student must successfully defend orally his or her final draft of the dissertation, giving the faculty two weeks to review the dissertation before an oral defense, which shall be open to the public. The faculty are not required to meet for a prospectus or dissertation defense during holidays or summer months. The success of a final oral examination devoted primarily to a defense of the dissertation and open to the public will complete the requirements for the Doctor of Philosophy degree. A final copy of the dissertation must be filed with the program and Graduate School.

Residency Requirement (24 hours)

The residency requirement for the doctorate must be fulfilled after admission to the doctoral program and before formal admission to doctoral candidacy, which occurs with successful completion of the comprehensive examination(s). The residency requirement is satisfied by completion of 24 semester hours of graduate credit on campus as a doctoral student within a period not to exceed four calendar years.

Criminology and Criminal Justice Courses

CCJ408 - Criminal Procedure 408-3 Criminal Procedure. An introduction to the procedural aspects of criminal law pertaining to police powers in connection with the laws of arrest, search and seizure, the exclusionary rule, civil liberties, eaves-dropping, confessions, and related decision-making factors. Prerequisite: CCJ 201 and CCJ 290 or consent of instructor.

CCJ410 - Policing Communities 410-3 Policing Communities. A study of the theories underlying modern police reform, how these theories have altered practice, the challenges of implementing and sustaining police reform, and the outcomes of such efforts. Prerequisites: CCJ 201, CCJ 290, and (CCJ 316 or PSYC 211), or consent of instructor.

CCJ411 - Assessment & Prediction 411-3 Risk Assessment and Prediction in Criminal Justice. An examination of the theories, application, and research relevant to the assessment and prediction of negative events and threats in the criminal justice system. The principles guiding the identification, classification, evaluation, and potential interventions of high risk individuals and groups will be covered. The course also reviews the evidence of effectiveness associated with classification and assessment tools. Prerequisites: CCJ 201, CCJ 290, and (CCJ 316 or PSYC 211), or consent of instructor.

CCJ415 - Prevention: Crime & Delinquency 415-3 Prevention of Crime and Delinquency. Multidisciplinary analysis of the functions, goals, and effectiveness of measures to forestall delinquency and crime. Etiology of delinquent behaviors as related to community institutions such as police, courts, corrections, mental health clinics, schools, churches, and citizen groups. Prerequisite: CCJ 201, CCJ 290 and (CCJ 316 or PSYC 211), or consent of instructor.

CCJ418 - Criminal Violence 418-3 Criminal Violence. An examination of historical, comparative, cultural and structural aspects of homicide, robbery, rape and assault. Explores patterns, trends and key correlates. Prerequisite: CCJ 201, CCJ 290 and (CCJ 316 or PSYC 211), or consent of instructor.

CCJ460 - Women, Crime and Justice 460-3 Women, Crime, and Justice. (Same as SOC 461 and WGSS 476) A study of women as offenders, as victims, and as workers in the criminal justice system.

CCJ461 - White-Collar Crime 461-3 White-Collar Crime. An examination of the physical and financial harm caused by wayward corporations and business employees from both theoretical and empirical perspectives. Emphasis is placed on ethics, theory, legal decision-making and the regulatory monitoring and control of illegal corporate activity.

CCJ462 - Victims of Crime 462-3 Victims of Crime. (Same as SOC 462) An examination of the extent and nature of victimization, theories about the causes of victimization, the effects of crime on victims and services available to deal with those effects, victims' experiences in the criminal justice system, the victims' rights movement, and alternative ways of defining and responding to victimization.

CCJ473 - Juvenile Delinquency 473-3 Juvenile Delinquency. (Same as SOC 473) An in-depth study of theories of delinquency, analytical skills useful in studying delinquent offenders, systematic assessment of efforts at prevention, and control and rehabilitation in light of theoretical perspectives. Prerequisite: CCJ 201, CCJ 290 and (CCJ 316 or PSYC 211), or consent of instructor.

CCJ480 - Effect Correct Practices 480-3 Effective Correctional Practices. (Same as PSYC 480) Exploration and evaluation of correctional intervention strategies developed for the sentencing of adjudicated persons. Particular emphasis on examining empirical research literature on effective

correctional practices, including programs currently implemented in institutional setting, alternatives to institutional corrections, and community based programs. Prerequisites: CCJ 201, CCJ 290, and (CCJ 316 or PSYC 211), or consent of instructor.

CCJ492 - Contemporary Issues in CCJ 492-3 Contemporary Issues in Criminology and Criminal Justice. A forum, geared toward seniors majoring in Criminology and Criminal Justice, that focuses on criminal justice issues of concern to students and faculty. May re-enroll for a maximum of 6 credits. (Maximum 3 semester hours per term) Satisfies the CoLA Writing-Across-the-Curriculum requirement. Prerequisite: CCJ 201, CCJ 290, (CCJ 316 or PSYC 211), or consent of instructor. Past topics include: Crime and Place, Consequences of Mass Incarceration, Myth-busting in Criminology and Criminal Justice, and Race and Crime.

CCJ500 - Foundations of CJ 500-3 Foundations of Criminal Justice. An exploration of the nature and scope of the criminal justice process. Criminal justice operations and behavior are assessed in context of the major theoretical, historical, normative and organizational influences found in the field.

CCJ504 - Criminological Theory 504-3 Criminological Theory. Multidisciplinary study of biogenic, psychogenic and sociogenic explanations for criminal behavior relevant to policy-making and practice in criminal justice. Special approval needed from the instructor.

CCJ505 - The Nature of Crime 505-3 The Nature of Crime. This course examines the extent, distribution, and correlates of criminal offending and patterns of crime. It emphasizes the review and application of recent empirical research to the development of theories on crime causation, as well as public policy and crime prevention programs.

CCJ510A - Research in CCJ 510A-3 Research in Criminology & Criminal Justice: Methods & Concepts. Principles and methods of scientific inquiry are examined. Special emphasis is applied to research design and data collection issues.

CCJ510B - Data Analysis & Interpretation 510B-3 Data Analysis & Interpretation. Data management, univariate, bivariate, and multivariate analyses, and specialized concerns with criminal justice data are emphasized.

CCJ510C - Adv Multivariate Stats 510C-3 Advanced Multivariate Statistics. This course provides the foundations of multivariate analyses, including assumptions about data distributions and regression diagnostics. Students will be introduced to various multivariate methods such as time series, structural equation modeling, regression with limited dependent variables, and hierarchical linear modeling. Prior graduate instruction in correlation and linear regression is essential. Prerequisite: CCJ 510B or equivalent.

CCJ517 - Advanced Topics 517-3 to 6 Advanced Topics in Quantitative Research. This course provides detailed coverage of quantitative analytic procedures used in criminology and criminal justice. Specific topics covered will vary (students should consult instructor). Sample topics: advanced ordinary least squares, time series analysis, structural equation modeling, and analysis of limited dependent variables. Prior knowledge of correlation and regression is essential. Prerequisite: CCJ 510A and B.

CCJ518 - Qualitative Research Methods 518-3 Qualitative Research Methods. An introduction to qualitative research techniques (i.e., interviewing, ethnography, in situ observation, case studies). Provides students with an epistemological foundation for understanding the nature and purpose of these methods. Opportunities for practicing the techniques are provided. Prerequisite: CCJ 510A.

CCJ519 - Independent Study 519-1 to 12 Independent Study. Readings or independent research supervised by a faculty member in a selected area of criminal justice or criminology. May be repeated. Only 12 credits may be counted toward any post-baccalaureate studies in CCJ. Special approval needed from a faculty sponsor.

CCJ520 - Readings in CCJ 520-1 to 3 Readings in Criminology and Criminal Justice. In-depth advanced readings in areas not covered in other graduate criminology and criminal justice courses. The student must submit a statement describing the topic and relevant reading materials to the faculty member sponsoring the student's readings. May re-enroll for a maximum of nine credits. (Maximum 3 semester hours per term).

CCJ540 - Seminar Crime Prevention 540-3 Seminar in Theory and Practice of Crime Prevention. Recent crime prevention initiatives are examined, with emphasis on the following issues: historical development of the initiatives, their grounding in theories of crime and human behavior, their effectiveness, their unintended consequences, and the values they serve. Special approval needed from the instructor.

CCJ550 - Sem Juvnlle Justice & Delnquncy 550-3 Seminar in Juvenile Justice and Delinquency. An exploration of contemporary problems and policy issues in juvenile justice and juvenile delinquency. Special approval needed from the instructor.

CCJ562 - Law and Social Control 562-3 Law and Social Control. An in-depth examination of the major social science perspectives on law and extra-legal social control. Topics covered may include: theory, social change, law making, informal social control and international law.

CCJ571 - Seminar Punish & Correct 571-3 Seminar in Punishment and Corrections. Examines the theory and philosophy of punishment and the practice of corrections in the United States. Attention is given to the implications of competing penal philosophies, their viability and application in the correctional system. Special approval needed from the instructor.

CCJ576 - Policy Analysis in CCJ 576-3 Policy Analysis in Criminology and Criminal Justice. Examination of the public policy process in criminology and criminal justice, and the role of policy analysis in the development, planning, and implementation of new and revised policies and programs.

CCJ584 - Admin & Mgmt in CJ 584-3 Administration and Management in Criminal Justice. Focuses on the development and history of administrative theory and its impact on management techniques involving administration of justice bureaucracies.

CCJ587 - Seminar in Policing 587-3 Seminar in Policing. Multidisciplinary study of the philosophical premises, theoretical implications and functions of contemporary policing. Special approval needed from the instructor.

CCJ592 - Advanced Seminar in CCJ 592-3 to 6 (3,3) Advanced Seminar in Criminology and Criminal Justice. Seminars of varied content for advanced students. May be repeated with different topics up to a maximum of six credits. Special approval needed from the instructor.

CCJ595 - Supervised Field Experience 595-1 to 6 Supervised Field Experience. Experience in law enforcement agencies, juvenile courts, probation and parole departments, correctional institutions, delinquency control programs and public or voluntary agencies. Orientation sessions precede placement. Student must submit internship application during the first thirty days of the preceding spring or fall semester. Graded S/U only. Only three credit hours may count toward post-baccalaureate studies in CCJ. Special approval needed from the instructor.

CCJ598 - Non-Thesis Option 598-3 Non-Thesis Option. Graded S/U or DEF only. Special approval needed from the academic coordinator.

CCJ599 - Thesis 599-1 to 6 Thesis. Graded S/U or DEF only. Special approval needed from the academic coordinator.

CCJ600 - Doctoral Dissertation 600-1 to 24 (1 to 12 per semester) Doctoral Dissertation. Hours and credit to be arranged by director of graduate studies. Graded S/U or DEF only. Maximum of 24 hours used toward degree.

CCJ601 - Continuing Enrollment 601-1 (per semester) Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Criminology and Criminal Justice Faculty

Bubolz, Bryan F., Assistant Professor, Ph.D., University of Nebraska at Omaha, 2014; 2015. Street gangs; juvenile delinquency; extremist movements and domestic terrorism; desistance; violence; criminological theory.

Cho, Sujung, Assistant Professor, Ph.D., University of Cincinnati, 2015; 2017. Juvenile delinquency, bullying/peer victimization. cross-national and comparative criminology, advanced statistical methodology.

Ferdinand, Theodore N., Professor, *Emeritus*, Ph.D., University of Michigan, 1961; 1985.

Garofalo, James, Professor, *Emeritus*, Ph.D., State University of New York, Albany, 1978; 1992.

Giblin, Matthew J., Professor, Ph.D., Indiana University, 2004; 2005. Policing, organizational theory, criminological theory.

Hibdon, Julie, Associate Professor, Ph.D., George Mason University, 2011; 2012. Crime and place, environmental criminology, policing.

Hickert, Audrey, Assistant Professor, Ph.D., University at Albany (SUNY), 2019; 2019. Corrections, reentry, life-course criminology, desistance, advanced statistical methodology, designs for causal inference.

Hillyard, Daniel, Associate Professor, J.D., Ph.D., University of California, Irvine, 1999; 2002. Law and social change, law and social control, law and morality.

Kochel, Tammy, Professor, Ph.D., George Mason University, 2009; 2009. Policing, legitimacy, crime, prevention, neighborhood ecology and collective efficacy.

Kroner, Daryl G., Professor, Ph.D., Carleton University, 1999; 2008. Offender assessment, violent and criminal risk, correctional intervention, mentally ill offenders, criminal desistance.

LeBeau, James L., Professor, *Emeritus*, Ph.D., Michigan State University, 1978; 1985.

McDermott, M. Joan, Associate Professor, *Emerita*, Ph.D., State University of New York, Albany, 1979; 1992.

Mullins, Christopher W., Professor, Ph.D., University of Missouri-St. Louis, 2004; 2008. Gender and crime, masculinities, criminological theory, violations of international criminal law, international criminal courts.

Narag, Raymund, Assistant Professor, Ph.D., Michigan State University, 2012; 2013. Youth violence, correctional administration, qualitative research, international and comparative criminology and criminal justice.

Pleggenkuhle, Breanne, Associate Professor, Ph.D., University of Missouri - St. Louis, 2012; 2012. Corrections, prisoner reentry, gender, policy.

Curriculum and Instruction

The School of Education offers two graduate degree programs in Curriculum and Instruction: the Master of Science in Education (M.S.Ed.), and the Doctor of Philosophy in Education (Ph.D.). Those pursuing the M.S.Ed. must select either one of the program areas in Curriculum and Instruction or the concentration in Learning Systems Design and Technology. Those pursuing the Ph.D. must select from one of the following program areas: curriculum, instruction, and assessment; human development and family studies; language, literacies, and culture; STEM education; or teacher leadership.

The School of Education also offers State of Illinois endorsements as reading teachers, and K-12 reading specialists. Endorsement opportunities are available to M.S.Ed. and Ph.D. candidates as part of their specialty area preparation; Endorsements in specific secondary level courses (e.g., chemistry, physics, and psychology) are also available. All such endorsements are arranged through the state and may require additional course work as well as a state-level transcript analysis.

Admission

Applicants for graduate programs must submit admission forms for both the Graduate School and the Department of Curriculum and Instruction. General requirements for admission to graduate programs are within the [Admission Policies, Requirements, and Procedures](#) tab. In all cases, a selection and review committee screens applicants on the basis of prior undergraduate and graduate work, grade point average, as well as standardized test scores, work experience, and letters of recommendation as needed. The committee may recommend admission for candidates with specific academic deficiencies if, in its opinion, a candidate's application materials demonstrate unusual professional promise.

Application materials may be obtained by addressing a request to: Coordinator of Graduate Studies, in Curriculum and Instruction, Mail Code 4610, Southern Illinois University, 625 Wham Drive, Carbondale, IL 62901. Specific information may be obtained by calling 618-536-2441 or by emailing currinst@siu.edu. All programs require a nonrefundable \$65 application fee that must be submitted with the application for Admission to Graduate Study in Curriculum and Instruction. Applicants must pay this fee by credit card.

Master of Science in Education Degree

The Master of Science in Education degree in Curriculum and Instruction requires the completion of a minimum of 32 or 36 hours of course work, depending on the research requirement selected. At least 15 of the required semester hours must be at the 500 level and taken at SIU. The student must also meet Curriculum and Instruction core course requirements, research requirements, and program area requirements. No more than six semester hours of credit earned at another institution may be accepted toward this degree. It is recommended that transfer courses be from institutions accredited by national organizations (i.e., CAEP, NCATE, or TEAC). All transfer credits must be approved by the coordinator of graduate studies.

Each candidate's program is planned in consultation with a faculty adviser from the specialty area selected by the student, with consideration for the student's interests, experience, and specialty area. Nondeclared graduate students are advised to consult with the department chair concerning admission to the master's program.

Admission and Retention

Admission to the master's program requires a 2.7 GPA for the last 60 hours of the bachelor's degree as well as the recommendation of the program area faculty. A TOEFL score of at least 550 (220 computerized score) is also required for international students and must be no more than two years old. Students must maintain an overall 3.0 graduate GPA to be retained in the master's program. The progress of each student is reviewed periodically. Students who do not make satisfactory progress, or who violate the regulations of the department, college, or university, may be dropped from the program.

Program Requirements

The Master of Science in Education degree in Curriculum and Instruction requires a nine-semester hour professional core, curriculum and instruction cohort courses (12 to 15 semester hours) and five elective courses in a focus area. The professional core consists of CI 500, Research Methods in Education; CI 503, Introduction to the Curriculum; and CI 504, Systematic Approaches to Instruction. All professional core courses must be completed with a grade of C or better, and an overall grade point average of 3.0 must be obtained for the professional core. The focus area program consists of either 13 semester hours of coursework including a thesis or 15 semester hours of coursework. The minimum number of required semester hours is 32 for students completing a thesis or 36 for students completing the coursework only option.

The Master of Science in Education degree in Curriculum and Instruction with a concentration in Learning Systems Design and Technology (LSDT) prepares professionals who use research-based practice to create effective learning and performance support systems utilizing communications technology in educational institutions at all levels as well as non-school, government and business settings. Competencies developed include those employed in online, distance or e-learning, learning within virtual or simulated environments such as games and simulation, content management systems, and traditional classroom environments. A core of seven courses (21 semester hours) is required; students consult with

their advisors to select additional, elective courses. **At least 15 semester hours must be at the 500-level and taken at SIU.** All professional core courses must be completed with a grade of C or better, and an overall grade point average of 3.0 must be obtained for the professional core. Opportunities for practicum, internship, and either a research paper or thesis are available. The minimum number of required semester hours is 32 for students completing a thesis or 36 for students completing the coursework only option.

LSD&T Required Courses (21 Credit Hours)

- CI 541 Foundations of Instructional Design & Technology
- CI 504 Systematic Approaches to Instruction
- CI 558 Instructional Development Studio I
- CI 557 Task Analysis and Systematic Design of Instruction
- CI 540 Learning Models for Instructional Design
- CI 553 Consulting in Learning Systems Design & Technology or CI 484 Interactive Multimedia for Learning
- CI 500 Introduction to Research Methods in Education

LSD&T Elective Courses (15 Credit Hours)

- CI 556 Virtual and Simulated Learning
- CI 562 Social and Informal Learning
- CI 581 Digital Video Production
- CI 591 Web Resources for Teachers
- CI 588 Design and Delivery of e-Learning
- CI 563 Instructional and Human Performance Technology
- CI 596 Interactive Multimedia for Learning
- CI 498N Workshop in Educational Technology
- CI 551 Assessment and Learning Using Virtual Environments
- CI 555 Instructional Message Design
- CI 587 Evaluating Learning and Instructional Programs
- CI 560 Content and Learning Management Systems for e-Learning
- CI 559 Advanced Instructional Development Studio II
- CI 585N Topical Seminar in Educational Technology
- CI 595N Internship: Educational Technology

Doctor of Philosophy in Education Degree

The Doctor of Philosophy in Education degree with a concentration in Curriculum and Instruction is designed for teachers and other educational personnel who seek to improve their performance in general and specialized areas in either the public schools or the private sector. This program is designed for students who desire positions requiring advanced preparation at the highest level with emphasis on theories of curriculum and instruction and in-depth preparation in research. For example, this program is oriented toward students who aspire to positions with institutions of higher education, state departments of education in the United States, ministries of education in foreign countries, educational sections of human service agencies, business and industry, and public schools.

Admission

In addition to the application for admission to the Graduate School, the applicant must also complete the departmental application for admission to the concentration and the related program area. A selection and review committee screens the applicant on the basis of prior graduate work, grade point average, standardized test scores (Graduate Record Examination), research ability, work experience, and letters of recommendation. A TOEFL score of at least 550 is required for international students and must be no more than two years old. The GRE score must be no more than five years old. The selection committee recommends admission of the student only if the program area has a faculty member who is qualified to direct dissertations and who agrees to serve as chair of the student's doctoral committee.

The admissions committee may possibly recommend a student for admission who shows some deviation from departmental standards if, in the committee's opinion, the student shows unusual professional promise.

Retention

Any prospective doctoral candidate with a grade point average of less than 3.25 and 20 semester hours of doctoral work will not be allowed to continue in the program and will not be re-admitted at a later date. Students must accumulate an overall grade point average of 3.50 for all doctoral work to qualify to take the preliminary examination.

Prior to the completion of 30 semester hours of course work, students meet with their major professors to determine whether or not to continue as doctoral students. Such matters as grade point average, progress in the program, course completion, motivation, general academic scholarship, and skills in writing and research are considered. A report is then made to the doctoral committee and the department chair. Students who are not making satisfactory progress or who violate the regulations of the department, college, or university, may be dropped from the program.

Program Requirements

The concentration in Curriculum and Instruction has requirements at the school and program level. A minimum of 72 semester hours beyond the master's degree is required. The School of Education professional core of at least six semester hours consists of EDUC 510, Introduction to Doctoral Studies in Education, and either EDUC 511, Doctoral Seminar in Philosophical and Cultural Foundations of Education, or EDUC 512, Doctoral Seminar in Behavioral and Cognitive Foundations of Education.

The Curriculum and Instruction requirements include a core of nine semester hours; at least 24 semester hours in the selected program area; research tools totaling at least nine semester hours; and a minimum of 24 semester hours of dissertation. An internship of two to eight semester hours is highly recommended. Courses comprising program area hours other than the core courses are determined by the student and the doctoral committee. No more than six semester hours of credit earned at another institution may be accepted toward this degree. It is recommended that transfer courses be from institutions accredited by national organizations (i.e., CAEP, NCATE, or TEAC). All transfer credits must be approved by the coordinator of the student's program area. The professional core of courses in the Curriculum and Instruction concentration includes: CI 582, Advanced Research Methods in Education; CI 583, Instructional Theory, Principles, and Practices; and CI 584, Curriculum Theory, Foundations, and Principles. All professional core courses must be completed with a grade of C or better, and an overall grade point average of 3.0 must be obtained for the professional core.

Research Requirements

The Ph.D. in Education is a research-oriented degree. Each doctoral student in education must successfully complete three semester hours of Introduction to Qualitative Research (EAHE 587) and three semester hours of Introduction to Quantitative Research in Education (EDUC 505). In addition, each student must complete a minimum of one other three-credit course on research methods (also referred to as "research tool"). Students with previous coursework in introductory research methods can petition to replace these introductory courses with higher-level research methodology coursework. A list of approved research tool courses for the Ph.D. in Education degree is available in the *Ph.D. Policies and Procedures Manual of the College of Education and Human Services*.

Preliminary Examination

The preparation and direction of the preliminary examination are the responsibility of the program area faculty and the student's doctoral committee. Concepts related to curriculum, instruction, and research/evaluation will be integrated into the preliminary examination. Additional oral and written examinations may be required by the student's doctoral committee.

The examination is offered at least 2 times a year: during the fifth week of the term, as decided by the program area. A student may take the examination no more than 3 times.

Prospectus, Dissertation, and Final Oral Examination

Students may not register for more than 6 dissertation hours until they have been advanced to candidacy. Having been admitted to candidacy, students submit prospectuses to their doctoral committees for approval. The dissertation must show high attainment in an independent, original, scholarly, and creative effort. A student's dissertation will be circulated to members of the doctoral committee at least two weeks in advance of the proposed defense.

The Department of Curriculum and Instruction requires an oral examination conducted by the doctoral committee. Oral examinations are open to all interested observers. Notice of the time and place of the examination and the abstract of the dissertation are circulated throughout the department and the College.

Certificate in Gerontology

The Curriculum and Instruction program offers courses that satisfy the requirements in the Certificate in Gerontology interdisciplinary program. For more information on the Certificate program, please see the [Post-Baccalaureate Certificate Programs](#) tab.

Curriculum and Instruction Courses

CI401 - Games & Simulations 401-6 (3,3) Designing Digital Games and Simulations. This course focuses on the design and development of simulated environments (such as digital games and virtual worlds) and how they may be used for the delivery of online learning and instruction. The production process will focus on the use of suitable technologies and game development toolkits to create immediately usable prototypes for learning showcases.

CI402 - Study of Cultural Diversity 402-3 The Study of Cultural Diversity in Education and Family Services. The student examines origins, characteristics of behavior, learning patterns, family constellations, and lifestyles of the diverse cultural groups in our community, state, and nation. Students will identify their own cultural background and biases; recognize diversity resulting from ethnic origin, gender, age, or disability; and experience ways of learning about cultures other than their own that promote constructive communication and integration into all aspects of schooling, teaching, and family services.

CI405A - Infant & Toddler Development 405A-3 Infant and Toddler Development. This course is designed to be an overview of theoretical and research-based understandings of infant development. Principles of development as well as dynamics of human behavior and relations will be explored. A topical approach is taken to allow the understanding of how broad concepts of development apply to infant development. Application of developmental knowledge involved for working with infants and toddlers. Students are required to have concurrent enrollment in CI 405B. Prerequisites: C or better in EDUC 214, CI 217, CI 318A and CI 318B.

CI405B - Infant & Toddler Practicum 405B-1 Infant and Toddler Practicum. This practicum will prepare students to conceptualize and implement optimal learning environments for infants and toddlers. Participation is one half day per week (fall and spring) or two half days per week (summer). Students are required to have concurrent enrollment in CI 405A. Prerequisites: C or better in EDUC 214, CI 217, CI 318A, and CI 318B.

CI407C - Diagnostic Tch Stry Lang Arts 407C-3 Diagnostic Teaching Strategies for Classroom Teachers-Language Arts. Diagnostic instruments and teaching techniques with an emphasis on understanding and teaching students underachieving. Prerequisite: CI 423 or consent of instructor.

CI407E - Diagnostic Teach Strategy-Math 407E-3 Diagnostic Teaching Strategies for Classroom Teachers-Mathematics. Diagnostic instruments and teaching techniques with an emphasis on understanding and teaching students underachieving. Prerequisite: CI 322 or consent of instructor.

CI407F - Diagnostic Tch Stratgy-Reading 407F-3 Diagnostic Teaching Strategies for Classroom Teachers-Reading. Diagnostic instruments and teaching techniques with an emphasis on understanding and teaching students who are underachieving. Prerequisite: CI 432 and CI 433 with grades of C or better or consent of instructor.

CI408 - Issue Early Intervention 408-3 Current Issues in Early Intervention. This course will examine developmental ecology of early intervention and the dynamic processes by which children and their environments interact. A comprehensive overview of the knowledge base and critical assessment and implementation strategies of early childhood intervention along with intervention models and appropriate practice will be covered. Prerequisites: CI 237, SPED 405 or consent of instructor.

CI409 - Curr & Assess in the Arts 409-1 to 3 Curriculum Planning and Assessment in the Arts. A graduate-level course designed to explore curriculum development for the visual and performing arts (e.g., drama, painting, drawing) and assessment strategies for the elementary and middle school level.

CI410 - Creative Writing-Public School 410-2 Creative Writing in the Public School. Techniques of encouraging creative writings in the schools.

CI412C - Early Chld Educ-Language Arts 412C-3 Improvement of Instruction in Early Childhood Education (Preschool-Grade 3)-Language Arts. Examines recent findings, current practices, and materials used in early childhood education. Prerequisite: specialized methods course for the field of study selected by the student.

CI412D - Early Childhood Educ-Science 412D-3 Improvement of Instruction in Early Childhood Education (Preschool-Grade 3)-Science. Examines recent findings, current practices, and materials used in early childhood education. Prerequisite: specialized methods course for the field of study selected by the student.

CI412E - Early Childhood Educ - Math 412E-3 Improvement of Instruction in Early Childhood Education (Preschool-Grade 3)-Mathematics. Examines recent findings, current practices, and materials used in early childhood education. Prerequisite: specialized methods course for the field of study selected by the student.

CI412F - Early Childhood Educ-Reading 412F-3 Improvement of Instruction in Early Childhood Education (Preschool-Grade 3)-Reading. Examines recent findings, current practices, and materials used in early childhood education. Prerequisite: specialized methods course for the field of study selected by the student.

CI412G - Early Chld Educ-Social Studies 412G-3 Improvement of Instruction in Early Childhood Education (Preschool-Grade 3)-Social Studies. Examines recent findings, current practices, and materials used in early childhood education. Prerequisite: specialized methods course for the field of study selected by the student.

CI415 - Teaching Middle School Math 415-3 Teaching Middle School Mathematics [Grades 4-8]. Examines current approaches to middle school mathematics and the use of meaningful instructional materials, quantitative literacy, and technologies for problem solving. Students will share experiences and design activities for classroom use. Prerequisite: CI 322 and an overall GPA of at least 2.75, or consent of instructor.

CI417 - Admin Early Chldh & Fam Pgrms 417-3 Administration of Early Childhood and Family Programs. This course introduces students to the planning, organizing and daily management of programs serving young children and their families. Topics will include funding/budgeting, staffing, programming, and evaluation. Prerequisite: CI 318.

CI419 - Child Fam Comm Engagement 419-3 Child, Family, and Community Engagement. This course is designed to provide students with the knowledge and skills needed to work successfully with families and caregivers in individual and community settings. The focus will be on strengthening relationships within and between home, school and community settings. Family engagement in early childhood programs and elementary schools will be stressed. Co-requisite: EDUC 319.

CI421 - Family Lit Programs Pol Prac 421-3 Family Literacy Programs, Policies, and Practices. This course offers an in-depth look at family literacy programs, policies, and practices. The course

adopts a sociocultural underpinning to explore how family literacy can contribute to the literacy growth of families and re-center parents as their children's first teachers. Topics include family diversity and funds of knowledge, the basic components of family literacy programs, opportunities for literacy learning, professional development and program improvement, and advocacy. Participants will gain an understanding of family literacy in historical, educational, social, and political contexts.

CI422 - Teach Reading in Elem School 422-3 Teaching Reading in the Elementary School. Examination of the reading process with emphasis on the factors and conditions that affect reading. Emphasis also on the formulation of a philosophy of reading and its implications in relation to methods, materials, organizational procedures, and evaluation techniques. Enrollment restricted to consent of department.

CI423 - Tch Elem School Eng Lang Arts 423-3 Teaching Elementary School English Language Arts. This course covers the oral and written communication processes with emphasis on the English language arts in the elementary school. Focus on the fundamentals of academic and social language of all users of English. Effective planning, delivery, and assessment of literacy lessons align with the Illinois Common Core learning standards for writing, speaking and listening, and reading and that accommodate all learners in the elementary classroom, including English Language Learners (ELL) and students with Individualized Education Programs (IEP). Prerequisite: Communication Studies 101 or equivalent, C or better in CI 321 and CI 435, or consent of instructor. Note: Elementary Education majors must take CI 422 concurrently with this class.

CI426 - Teach ELEM Science P-4 426-3 An Introduction to Teaching Elementary School Science (PreK-4th Grade). Content and methods of elementary school science, grades P-4. Emphasis on materials and strategies for effective science education. One or more field trips. Prerequisites: SCI 210A, and SCI 210B. Restricted to students already admitted to the Teacher Education Program.

CI427 - Science for Teachers 4-8 427-3 Science Process and Concepts for Teachers (4th-8th Grade). Specifically designed to develop those cognitive processes and concepts needed by elementary and middle level teachers in the teaching of modern science programs. Prerequisite: CI 426, SCI 210A, and SCI 210B.

CI428 - Inqry Skls:Tchg Jr Sr HS Sci 428-3 Inquiry Skills for Teaching Junior and Senior High School Science. The major focus will be the application of inquiry skills as used in all areas of science instruction at the junior and senior high school levels; students will be expected to demonstrate mastery of basic and integrated science process skills through conducting and reporting results of science investigations.

CI429 - Instr Methods Primary Child 429-3 Instructional Methods for the Primary Child: Social Studies and Science. Emphasis on creating optimum learning environments, planning for instruction, models of teaching, integrated learning and appropriate instructional methods in science and social sciences, grades 1-3. Concurrent enrollment in CI 430 required. Prerequisites: CI 318A,B, CI 324, or consent of instructor.

CI430 - Instr Strat Primary Child Math 430-3 Instructional Strategies for the Primary Child: Mathematics. Emphasis on creating optimum learning environments, integrated learning and appropriate instructional methods in the content area of mathematics, grades 1-3. Concurrent enrollment in CI 429 required. Prerequisite: CI 318A,B, CI 324, with grades of C or better, or consent of instructor.

CI431 - Lit Foundations & Instr Models 431-3 Literacy Foundations and Instructional Models. This course provides teacher candidates with the theoretical knowledge necessary to critically examine various models of literacy instruction. It introduces the reading process, including the relationship between reading, writing, listening, and speaking; the importance of differentiating instruction for all learners; and how to select appropriate literature for use in early childhood, elementary, and middle level classrooms. Co-requisites: EDUC 301 and EDUC 313. Restricted to students already admitted to the Teacher Education Program.

CI432 - Lit Dev & Assess PreK-4 432-3 Literacy Development and Assessment (PreK-4th Grade). This course explores the variables that affect literacy development at the P-4 level. Teacher candidates will learn to employ all four strands of the English/language arts (reading, writing, speaking, and listening) to teach literacy concepts and strategies across the curriculum to accommodate all learners in culturally responsive classrooms. Emphasis will be placed on an understanding of the reading and writing process; the content of literacy instruction; and scientifically based literacy research, methods, and materials used

in balanced reading instruction and assessment. Prerequisite: CI 431. Co-requisite: EDUC 302 and EDUC 319.

CI433 - Inst & Assess Adol Lit 433-3 Instruction and Assessment of Adolescent Literacy. This course explores the variables that affect literacy development at the middle level (4th-8th grade). Emphasis will be placed on an understanding of the reading and writing process; the content of literacy instruction; and scientifically based literacy research, methods, and materials used in balanced literacy instruction and assessment. There is a focus on language and literacy demands within the content areas, needs of culturally and linguistically diverse adolescent learners, and the identification of adolescents who have literacy challenges. Prerequisite: CI 432. Co-requisite: EDUC 303 and EDUC 308.

CI434 - Diag Lit Assess & Intervention 434-3 Diagnostic Literacy Assessment and Intervention. This course surveys the principles and practices of literacy assessment. Teacher candidates examine diagnostic approaches and instructional strategies that teachers employ when working with individuals who struggle with learning to read and write. There is an emphasis on the causes of reading and writing difficulties and the contribution of factors such as cultural differences, linguistic variation, student motivation, various disabilities, and instructional approaches. It focuses on diagnostic techniques and the use of dynamic assessment to inform the design, monitoring, and evaluation of literacy instruction. Prerequisite: CI 432. Co-requisites: EDUC 303 and EDUC 308.

CI435 - Lit & Info Text Child & Adlsts 435-3 Literature and Informational Texts for Children and Early Adolescents. Students will engage with studies of various types of literature and informational texts as well as text exemplars from the common core initiative; analysis of literary qualities; selection of literature for various developmental needs of children in preschool, elementary school, and middle level settings; and research-based presentations of books and other media for use in various school settings. Prerequisite: C or better in English 101 and 102, and overall GPA of 2.75; or consent of instructor. Restriction: Admittance to the Teacher Education Program. Lab fee: \$10.

CI462 - Middle & Jr High Sch Programs 462-3 Middle and Junior High School Programs. Focuses on the development of middle and junior high school curriculum and the identification of instructional activities for early adolescents. Emphasis is placed on development of literacy strategies, developmentally appropriate teaching strategies, interdisciplinary unit planning, teaming, and technologies and materials appropriate for teaching early adolescents, ages 10-14. Prerequisite: EDUC 313 or consent of instructor.

CI463 - Soc/Emotn Needs of Giftd Child 463-3 Meeting the Social and Emotional Needs of Gifted Children. Deals with strategies for meeting the social and emotional needs of gifted children in the classroom. In particular, this course focuses on low-incidence gifted students, including underachievers, minorities and females. The course will not only cover particular curriculum and instruction strategies designed for this population and will emphasize strategies for teachers to be more facilitative in assisting these students to accept and realize their potential. Prerequisite: CI 467 or consent of instructor.

CI466 - Docmnt Accomplished Teaching 466-3 Documenting Accomplished Teaching. This course will help teachers understand and gain requisite skills for participation in the National Board for Professional Teaching Standards (NBPTS) certification process. As part of learning to understand and document NBPTS standards, teachers will describe, analyze and reflect on drafts of written commentaries, videotapes of small and large group lessons, and student work.

CI467 - Methods & Materials Educ Giftd 467-3 Methods and Materials in the Education of the Gifted. Content focused on the most appropriate instructional strategies and materials to be utilized with the gifted. Time spent practicing teaching models, designing materials and developing teaching units. Emphasis placed on techniques for individualizing instruction for the gifted and talented students.

CI468 - Science Methods Mid & Sr HS 468-3 Science Methods for Middle and Senior High Schools. A performance-based approach to instructional skills common to teaching natural science at the middle and senior high school levels. Three class hours and one micro teaching laboratory hour per week.

CI469 - Tch Social Science in Sec Schl 469-3 Teaching Social Sciences in the Secondary School [6-12]. Emphasis is placed on the analysis and evaluation of the social sciences with focus on instructional strategies and curricular designs in the teaching of history, geography, political science,

economics, and sociology, as well as content reading for the social sciences. Prerequisite: EDUC 313 or consent of instructor.

CI473 - Teaching in Middle Level Schls 473-3 Teaching in Middle Level Schools. Acquaints students with issues of teaching young adolescents and the role of teachers in connecting schools with community resources. Information from current area specialists and exemplary practitioners extend appropriate teaching strategies and supplement background knowledge on special topics related to social, emotional and physical development related to the curriculum. Prerequisite: CI 462, EDUC 313, or consent of instructor. Lab fee: \$10.

CI493 - Writing: Research & Publicatn 493-3 Writing for Research and Publication. The course covers the current American Psychological Association (APA) guidelines (required by the Curriculum and Instruction department for all writing, including theses and dissertations) for reporting and writing reports, annotated bibliographies, and reviews of literature. Participants will read, critique, write, and present four short (5-10 pages each) scholarly research results and/or scholarly reviews of literature. The course will emphasize professional vocabulary, format, and writing style. Participants will write final, detailed and thorough literature reviews using APA format and style in their fields of study. This course has been recommended by the CI Graduate Faculty for all CI graduate students, especially those who are early in their programs. Instructor approval required for undergraduates.

CI496 - Field Study Abroad 496-2 to 6 (2 to 4 per semester) Field Study Abroad. Orientation and study before travel, readings, reports, and planned travel. Includes visits to cultural and educational institutions. Maximum credit hours in any term are 4.

CI498B - Workshops-Supervision 498B-1 to 15 (1 to 3 per topic) Workshops in Education-Supervision for Instructional Improvement. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498C - Workshops-Language Arts 498C-1 to 15 (1 to 3 per topic) Workshops in Education-Language Arts. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498D - Workshops - Science 498D-1 to 15 (1 to 3 per topic) Workshops in Education-Science. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498E - Workshops - Mathematics 498E-1 to 15 (1 to 3 per topic) Workshops in Education-Mathematics. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498F - Workshops - Reading 498F-1 to 15 (1 to 3 per topic) Workshops in Education-Reading. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498G - Workshops-Social Studies 498G-1 to 15 (1 to 3 per topic) Workshops in Education-Social Studies. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498H - Workshops-Early Childhood Educ 498H-1 to 15 (1 to 3 per topic) Workshops in Education-Early Childhood Education. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498I - Workshops-Elementary Educ 498I-1 to 15 (1 to 3 per topic) Workshops in Education-Elementary Education. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498J - Workshops-Middle School 498J-1 to 15 (1 to 3 per topic) Workshops in Education-The Middle School. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498K - Workshops-Secondary Educ 498K-1 to 15 (1 to 3 per topic) Workshops in Education-Secondary Education. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498M - Workshops-Instruction 498M-1 to 15 (1 to 3 per topic) Workshops in Education-Instruction. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498N - Workshops-Education Technology 498N-1 to 15 (1 to 3 per topic) Workshops in Education-Educational Technology. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498O - Workshops-Environmental Educ 498O-1 to 15 (1 to 3 per topic) Workshops in Education-Environmental Education. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498P - Workshops-Children's Lit 498P-1 to 15 (1 to 3 per topic) Workshops in Education-Children's Literature. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498Q - Workshops-Family Studies 498Q-1 to 15 (1 to 3 per topic) Workshops in Education-Family Studies. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498S - Workshops-Gifted & Talented Ed 498S-1 to 15 (1 to 3 per topic) Workshops in Education-Gifted and Talented Education. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI498T - Workshops-Teacher Education 498T-1 to 15 (1 to 3 per topic) Workshops in Education-Teacher Education. Critical evaluation of innovative programs and practices. Acquaints teachers within a single school system or in a closely associated cluster of school systems with the philosophical and psychological considerations and methods of implementation of new programs and practices. Maximum of six hours toward a master's degree. Special approval needed from the instructor.

CI500 - Intro Research Methods in Educ 500-3 Introduction to Research Methods in Education. The student will evaluate and synthesize research, demonstrate a basic understanding of research concepts and principles, and compare and contrast specific methods for conducting research.

CI501 - Literacy Leadership Ed Profnl 501-3 Literacy Leadership for Education Professionals. The course prepares education professionals to become literacy leaders and agents of change in school and community settings. CI 501 focuses on the historical perspectives of literacy instruction, research, and scholarship; pedagogical models; evaluation of curriculum, materials, and programs, and the knowledge to design, implement, lead, and evaluate effective professional development programs. Restricted to consent of instructor.

CI502 - Child Maltreatment 502-3 Child Maltreatment. Examines the many facets of child maltreatment including the impact on the child's development, the family dynamics and the communities' role. Emphasis is on current research in the field, as well as the roles and responsibilities of various professionals who work with children and their families.

CI503 - Intro to the Curriculum 503-3 Introduction to the Curriculum. Deals with the nature, purposes and functions of curriculum planning and development; curriculum design and organization; curriculum implementation and maintenance; and curriculum evaluation as each component relates to the total curriculum.

CI504 - System Approach to Instruction 504-3 Systematic Approaches to Instruction. Gives graduate students an opportunity to investigate, discuss and apply systematic approaches to instruction. Special emphasis is given to that element of the instructional system, that allows for the integration of instructional media into the process.

CI505 - Infant/Toddler Development 505-3 Infant/Toddler Development. This course is designed to be an overview of theoretical and research-based understandings of infant development. Principles of development as well as dynamics of human behavior and relations will be explored. A topical approach is taken to allow the understanding of how broad concepts of development apply to infant development.

CI506 - Prof Svcs Diverse Family Struct 506-3 Professional Services for Diverse Family Structures. Case analysis of different family structures through seminar teams. Each team will be responsible for analysis of the interaction of the family structure and the economic, nutritional, and socializing activities carried out within the family-household. Role and sources of assistance through current programs will be included. Special approval needed from the instructor.

CI507 - Impact Public Policy Fam Life 507-3 The Impact of Public Policy on Family Life. This course focuses on an analysis of policies that impact the lives of children and families and includes an overview of the legislative process at the local, state, and national levels. The course emphasizes practical ways in which we can become proactive and effective advocates for children and their families.

CI508 - Syst Observatn & Analy Instr 508-3 Systematic Observation and Analysis of Instruction. Students will learn to use conferencing techniques and to construct and use valid and reliable systematic observation instruments to provide the basis for analysis and feedback about classroom instruction.

CI509 - Found of Environment Educ 509-3 Foundations of Environmental Education. Designed specifically to provide teachers, administrators and curriculum specialists with the knowledge and skills necessary to implement environmental education strategies in both elementary and middle schools. Includes work in ecological foundations, programs currently in use, unit designs, methods and research. One or two field trips may be required.

CI512 - Lit Instruction Elem Middl Sch 512-3 Literacy Instruction and Assessment in Elementary and Middle School. Examines literacy as a developmental process. The course introduces students to best practices for instruction and assessment in elementary and middle level classrooms. Attention

given to language and literacy demands in the content area as well as cultural and linguistic diversity in elementary and middle level classrooms. Restricted to admission to program or consent of instructor.

CI513 - Emergent Literacy 513-3 Emergent Literacy. A study of early literacy. Explores the foundations of family literacy as the basis for continued development of reading and writing in kindergarten and the primary grades.

CI514 - Advanced Human Development 514-3 Advanced Human Development. A graduate-level course designed to explore the theories that guide understanding about human development and learning. Overall goal is to understand how theories guide our understanding of development and learning and apply them to different contexts and development over the life-span. Students will learn how to take an analytical approach to their study of individuals and to translate this analysis into work with children and adults.

CI515 - Adv Remediation in Math 515-3 Advanced Remediation in Mathematics. Strategies for the design of prescribed systematic instruction for correcting identified mathematics difficulties. Experience in designing and preparing materials for corrective purposes. Prerequisite: CI 407E or consent of instructor.

CI516 - Teach Math in Elemen School 516-3 Teaching Mathematics in the Elementary School. Master's degree level course, which acquaints the student with approaches to teaching, development of curriculum materials and authoritative positions on the mathematics of grades K-8. Emphasis on teaching aids, problem solving and recent developments at this level.

CI517 - Early Child: Org & Admin 517-3 Early Childhood Programs: Organization and Administration. Presents an overview of the organization and administration of programs for children ages three to eight with experiences in planning for operating and administering such programs. Prerequisite: CI 518 or consent of instructor.

CI518 - Critical Issues in EC 518-3 Critical Issues in Early Childhood. A survey of current problems and practices in early childhood education for children from three to eight years of age, with emphasis on reading in current research literature. Special approval needed from the instructor.

CI520 - Action Research in EC 520-3 Action Research in Early Childhood. (Same as CI 544) Major trends and current issues in research as they relate to child development and early childhood programs will be explored. Special emphasis will be placed on the relationship of research to professional preparation and practice. Restricted to early childhood students who have taken all core courses for completion of the master's degree. Letter grade/DEF.

CI521 - Adv Diag Teaching Reading 521-4 Advanced Diagnostic Teaching of Reading. Emphasizes diagnostic teaching strategies that teachers and reading specialists employ when dealing with under achievement in reading. Students use informal and formal tests, observation and trial lessons to select instructional materials and activities appropriate to different reading/writing problems. Each student tutors persons while being supervised in the Clinical Center. Prerequisite: CI 512 or CI 513 or CI 561, CI 407F. Special approval needed from the instructor.

CI522 - Technology in Math & Science 522-3 Integration of Technology in Mathematics and Science Teaching. Integrating technology in Math and Science teaching. Technology may include calculators, computer software, computer-based laboratories, data collection devices, interactive manipulatives, and other internet resources. Special approval needed from the instructor.

CI523 - Contemporary Language Arts 523-3 Contemporary Language Arts. This course is designed to support candidates in developing an orientation to language arts instruction in elementary and middle level classrooms. Students will examine the theories, methods, materials, and instructional procedures for a developmental language arts program that emphasizes integration of all language arts areas. Prerequisites: CI 512, CI 561 with grades of C or better or consent of instructor.

CI524 - Methods ELED MS SOC SC 524-3 Methods and Assessments for Elementary and Middle School Social Science Curriculum. A study of theory and practices of teaching and assessment practices for developing curricula in the elementary and middle school social sciences. Particular attention to be given to trends and issues in social sciences. Various social science models will be examined and

evaluated for practical use. Students must demonstrate competencies and skills related to disciplinary literacies for the social sciences.

CI525 - Integrate Technology Math Educ 525-3 Integration of Technology into Mathematics Education [PreK-8]. Technology use in mathematics teaching and learning, such as handheld calculators/computers; hands-on experience in teaching with easily learned tools for teaching/learning mental computation, computation, algebra, geometry, probability, statistics and use of software - e.g., Shapemakers, Geometer's Sketchpad, Excel, graphing calculators, computer-based laboratories, data collection devices, interactive websites and other internet resources.

CI526 - Teaching ELEM Sci Ed 526-3 Teaching Methods and Assessments in Elementary School Science Education. Framed by research and theory addressing trends and issues in elementary school science, students will design and implement instruction. Various methods such as inquiry and place-based education for teaching and assessing students will be emphasized.

CI527 - Advanced Family Studies 527-3 Advanced Family Studies. Examination of the major theoretical approaches and current research in family development. Review the nature and value of theory to the study of the family and evaluate the use of theory in empirical research. Implications for policy.

CI528 - Method Tch Math Presch & (K-3) 528-3 Methods for Teaching Mathematics in the Preschool and Early Childhood Grades (Pre K-3). Acquaints the student with the learning characteristics of children and teaching methods at grades pre K-3. Emphasis on concrete manipulative teaching aids, learning readiness and diagnosis of learning difficulties.

CI529 - Modern Appr Tch Sec Sch Math 529-3 Modern Approaches to Teaching Secondary School Mathematics. (Same as MATH 511) Topics will include problem solving, applications of mathematics and teaching proofs in secondary school mathematics. Practical classroom use of materials will also be emphasized. Special approval needed from the instructor.

CI530 - Teaching Problem Solving 530-3 Teaching Problem Solving in School Mathematics. Designed to acquaint teachers with problem solving processes, assessment practices, and how to integrate problem solving into their teaching. Emphasis is placed on teaching the process of problem solving and assessment. Restricted to graduate standing or consent of adviser.

CI531 - Curr Elem & Mid Level Schools 531-3 Curriculum for Elementary & Middle Level Schools. Designed to assist teachers and administrators in making curricular decisions for elementary and middle level schools based on knowledge of educational foundations, standards, learning experiences, research, materials and methods, instructional programming and evaluation.

CI533 - Instructional Leadership 533-3 Instructional Leadership. A study of research and related literature concerning the roles and responsibilities of various instructional leaders in public and private schools, professional development centers, state departments of education and college or university settings. Leadership styles and behaviors, especially as they apply to the academic circumstances and environments in specific case studies, are examined.

CI534 - Organiztn of Elementary School 534-3 Organization of the Elementary School. An analysis of types of elementary school organizations with special attention to influence of school organization upon the educational program. Application of research findings to selection and use of materials of instruction. Special consideration to classroom teachers' professional problems.

CI535 - Reading Lang Arts Research Sem 535-3 Reading and Language Arts Research Seminar. Students survey current research in Reading and Language studies and present a research paper to the seminar participants. Prerequisite: CI 500, nine hours coursework in reading and language arts. Special approval needed from the instructor.

CI536 - PartnershipMentor New Profesnl 536-3 Partnerships and Mentoring the New Professional. A study of the theories, practices and research of Professional Development Schools and other collaborative teacher education and school reform initiatives with special attention given to the issues of collaboration and cooperation, team building and consensus building, honoring diversity and change, and educators as problem solvers.

CI537 - Issues in Math Education 537-3 Current Issues in Mathematics Education. This course provides graduate students with opportunities to study, discuss, and critically analyze issues and research in mathematics education. Students will become familiar with the major problems and issues facing mathematics educators at all school levels. Examination of recent mathematics education literature will be included as students gain an overall perspective on the discipline of mathematics education.

CI538 - Research in Math Education 538-3 Research in Mathematics Education. This course provides graduate students with opportunities to study, discuss, and make critical analyses of recent mathematics education literature and issues in the USA and other countries. Students will gain a better perspective on NCTM Standards and their relationship to research as they develop a detailed lesson plan in mathematics and conduct both a literature review and a data analysis report in mathematics education. Prerequisite: CI 537.

CI539 - Math Science Leadership 539-3 Leadership in Mathematics and Science. An exploration of current literature in math and science leadership and the application of principles and skills necessary for mentoring instructional development in math and science. Special approval needed from the instructor.

CI540 - Learning Models for Inst 540-3 Learning Models for Instructional Design. Surveys models of learning as they apply to the fields of Instructional Design and Instructional Technology. Models ranging from behaviorism to constructivism are covered along with theories concerning cognitive development and motivation. Theories are applied to analyzing instructional situations.

CI541 - Foundations of IDT 541-3 Foundations of Instructional Design and Technology. This course provides students with an overview of the issues related to instructional (systems) design and technology. Historical perspectives, current practice, emerging trends, and future development in the field. Appropriate use of digital technologies (procedures) for learning and training will be discussed.

CI542 - Content Area Literacy 542-3 Content Area and Disciplinary Literacy Instruction in Elementary and Middle School. Course provides an exploration of the relationship between developmental literacy, content area, and disciplinary instruction. Presents an integrated approach for providing strategies to support students' literacy development while taking into account the language and literacy demands of discipline-specific learning. Exploration of various means for valuing and encouraging new literacy practices. Offers an examination of adaptations for culturally and linguistically diverse as well as exceptional learners. Prerequisites: CI 512, CI 513, or consent of instructor.

CI543 - Fund Teaching Learning 543-5 Fundamentals of Teaching and Learning. First course in the Master of Arts in Teaching (M.A.T.) program sequence. Its focus is on development of a specific set of planning skills secondary level teachers need to appropriately design, implement, manage, and assess student learning. The course is offered annually during spring intersession only. Special approval needed from the instructor.

CI544 - Action Research Methods 544-3 Action Research Methods. (Same as CI 520) The focus of the course is on learning about action research, learning to develop and use various data collection tools, developing an action research question, learning about and using various data analysis tools, developing a report, and presenting a research report to an audience of colleagues and peers. Prerequisite: CI 543 (required for MAT students) or consent of instructor. Letter grade/DEF.

CI545 - Tch Literacy Diverse Students 545-3 Literacy Instruction for Culturally and Linguistically Diverse Students. This course introduces students to issues related to first- and second-language development, language variation, cultural diversity, second-language instruction, English as a Second Language (ESL) and bilingual education, and culturally and linguistically responsive instruction. These topics will be explored in terms of student learning and teaching and prepare students to teach English language learners (ELLs), dialect speakers, and students from diverse cultural and linguistic backgrounds. The course will serve as an examination of contemporary language acquisition theory; overview of ELL reading research; exploration of methods for motivating and sheltering instruction for ELLs; and investigation of the impact of federal policies on the types of experiences ELLs are afforded. The course is required for students working toward the reading specialist endorsement.

CI546 - Family & Community Literacies 546-3 Family and Community Literacies and Involvement. This course provides students with the knowledge and skills needed to work successfully with families and parent groups in individual, group, school and community settings. A socio-cultural perspective

is evident as the focus will be on acknowledging and valuing the multiple literacies within families and communities, and strengthening adult-child relationships and parent-staff relationships in home, school, and community settings. An awareness of strategies in developing positive and supportive relationships with families of children, including the social, cultural, educational, health, economic, and political dimensions of community and family life, philosophical basis for family participation, family-centered services, and strategies for working with socially, culturally, and linguistically diverse families will be included. Prerequisite: CI 545.

CI547 - Adult Literacy 547-3 Instructional Strategies and Curriculum Development for Adult Literacy and Education. This course focuses on understanding adult learners and related practices in diverse adult educational and community contexts. It provides a philosophical, historical, and practical framework for adult literacy learning to include a critical analysis of policies, programs, practices and assumptions about adult learners that undergird the field of adult education. The course is taught through a sociocultural lens with an emphasis on instructional practices that are relevant to the lives and literacies of adult learners.

CI548 - Sci Ed Research Investigate 548-3 Science Education Research Investigations. This course involves the study of special problems and related research associated with practical educational situations in science education or related fields. The main objective is to provide doctoral students with opportunities to develop research skills in science education by conducting research projects on science education topics. Designed to help students learn the basics of research but not a research methods course.

CI549 - New Literacies & Technologies 549-3 New Literacies & Emerging Technologies in a Participatory Culture. This course explores the changing landscape of reading and writing as emerging technologies place new demands, challenges, and opportunities before readers and writers. Drawing from a socio-cultural perspective, this course aims to deepen students' understandings of the reading and writing processes with written, hyper, and multi-modal texts as well as strategies for supporting students' development in these processes. Particular emphasis will be on acknowledging and valuing the multiple literacies evident within families, communities, and contemporary society, and strengthening understanding of how best to support learners as they enact new literacy practices that rely upon emerging technologies. Techniques for incorporating new technologies into teaching, as well as the legal and ethical challenges for both teachers and students, will be examined. Prerequisite: CI 512, CI 513, or CI 561.

CI550 - Language Development 550-3 Language Development in Young Children. Language and communicative development of young children is the focus of this course. Students will learn about both typical and atypical language development in the areas of phonology, syntax, morphology, semantics, and pragmatics. The relationship between language and other areas of development will be explored as will ways to support language development in young children. Students will observe, record, analyze samples of young children's communication.

CI551 - Assess Virtual Environments 551-3 Assessment and Learning Using Virtual Environments. This course covers the foundations and trends in the research literature regarding the use of game, simulated and virtual environments for online learning and assessments. Issues and implications of these environments for instructional delivery, decision-making analysis of users and performance assessment methodologies are included.

CI552 - Found Readings Ed & Soc Sci 552-3 Foundational Readings in Education and the Social Sciences. The seminar course focuses on foundational readings in education and the social sciences. Students in the course identify, read, and discuss seminal readings that are frequently referenced in current scholarship and which have withstood argumentation and scholarly critique. Course experiences consists of intensive reading, discussions, and related inquiry projects.

CI553 - Consulting in LSDT 553-3 Consulting in Learning Systems Design and Technology. This course applies current research and technology to the solution of instructional problems in higher education and corporate training environments. The student is guided through the systematic process of identifying instructional and performance problems, specifying learning objectives, analyzing tasks and learners, organizing resources, specifying methods and media, and assessing outcomes. Special approval needed from the instructor.

CI555 - Instructional Message Design 555-3 Instructional Message Design. Emphasizes the use of cognitive theory and research-based principles for creating effective instructional text, pictures, and graphics. Topics include principles of perception, memory, concept, procedure, and principle learning, mental models, problem-solving, motivation and attitude change. A review of research issues in the study of instructional media and message design is included.

CI557 - Task Analysis and ID 557-3 Task Analysis and Systematic Design of Instruction. Builds competence in applying the most current task and content analysis techniques used to make explicit the components of complex human performances and knowledge. Includes learning hierarchy analysis, information processing analysis, path analysis, job task analysis, skills analysis, fault tree analysis, concept analysis, knowledge engineering, matrix analysis, and pattern noting. Prerequisite: CI 504 or consent of instructor.

CI558 - Instruct Development Studio 558-3 Instructional Development Studio. The "Studio" environment provides students with the opportunity to learn and use authoring systems, languages and product development tools to design, develop, and produce online resources for learning and instruction. Participants will showcase learning artifacts created using a variety of commercial productivity tools and creativity suites. Prerequisite: CI 541.

CI559 - Adv Instruct Dev Studio 559-3 Advanced Instructional Development Studio. The advanced instructional development studio environment provides students who have taken the basic development studio course with further opportunities to design, develop, and produce online learning courses for learning, training, and instruction. Participants will showcase learning artifacts created using a variety of commercial authoring tools and creativity suites. Prerequisite: CI 558.

CI560 - Content & Learning Mgm Sys 560-3 Content and Learning Management Systems for e-Learning. The course covers the design and development of Content and Learning Management Systems (CMS/LMS) for the management and online delivery of learning resources in education, business and other training settings. Emphasis will be placed on the rapid development and management of e-Learning systems using CMS/LMS development tools and Web 2.0 technologies.

CI561 - Literacy Inst for Sec & Adult 561-3 Disciplinary and Content Area Literacy Instruction for Secondary and Adult Education. This course is for secondary teachers and others who desire strategies to help students learn from texts. Special emphasis is on how to help students improve their ability to comprehend, study, and use texts and other print materials encountered in secondary schools and the workplace. This course focuses on theory, research, and methods to enable student engagement with texts, particularly content texts. Emphasis is on strategies for teaching vocabulary, comprehension, reasoning, and organization in specialty subject areas at the high school level, and fundamentally promotes differentiated instruction for diverse populations and the incorporation of technology.

CI562 - Social & Informal Learning 562-3 Social and Informal Learning. Covers games, simulations, role-playing, discussion forums, and social networking as informal modes of learning in both education and training contexts. Both face-to-face and online aspects of social and informal learning are considered.

CI563 - Inst & Human Performance 563-3 Instructional and Human Performance Technology. For those persons interested in the role that learning systems and instructional design and technology play in the field of human performance technology. Emphasis is upon performance problem identification, the distinction between skill/knowledge deficits and other performance problems, and the rationale for instructional solutions as well as electronic performance support systems, feedback and incentives, certification and other HP technologies.

CI564 - Curr Developmnt Gifted Students 564-3 Curriculum Development for Gifted Students. Explorations of the knowledge and decision-making required to develop curriculum for gifted students, including philosophy, goals and objectives; designing and sequencing activities; curriculum models for gifted students; evaluation and modification of curriculum. Emphasis is placed on the development of curriculum to be used in schools for gifted students.

CI566 - Instruct Strats for Prob Solve 566-3 Instructional Strategies for Problem Solving. The focus is on developing those teaching strategies, which will foster and enhance problem solving skills and

heuristic thinking. Representative of these teaching skills would be inductive and deductive approaches, discovery and inquiry techniques, and questioning strategies.

CI567 - Children's Lit Seminar 567-3 Seminar in Children's Literature. The focus of this course is the role of literature in literacy development. Emphasis on methods that support children as they learn to read using literature as a medium of instruction and interpretation that enriches and extends the curriculum. Prerequisite: CI 512, CI 513, CI 561, other foundational course, or consent of instructor.

CI568 - Multicultural Lit Child/Adol 568-3 Literature for Children and Young Adults in a Multicultural Society. This course is designed to guide educators in the development of a framework from which they examine the impact of cultural, linguistic, and ethnic diversity in literature. As such, emphasis is placed on the development of a critical lens that embraces culturally sustaining practices for groups that have been traditionally underrepresented and inauthentically portrayed in texts. Entails introspection, examinations of bias, power, and privilege, and evaluation of texts. Prerequisite: CI 512 or CI 513 or CI 561, or consent of instructor.

CI570 - NonFiction Adolescent-Adult 570-3 Teaching and Learning NonFiction Sources for Adolescent and Adult Learners. This graduate-level course will help students develop instructional materials and curricular designs using non-fiction resources for classrooms at the secondary level and beyond. Students will also have an opportunity to gather, analyze, corroborate, and synthesize student data for the purposes of planning instruction with an emphasis on informational sources such as written documents, images, and multimedia. Integrating technology for differentiating instruction, assessment, and content reading for the disciplines (with a specific focus on the social sciences) will also be emphasized.

CI571 - Secondary School Curric 571-3 Secondary School Curriculum. An introductory course designed to explore the nature and development of the curriculum at the secondary school level. Historical perspective and foundations of curriculum are examined. Functional applications to the public secondary schools are emphasized.

CI572 - Instruct/Assess w/Sources 572-3 Instruction and Assessment with Primary Sources. In this course, students will have opportunities to create classroom assessments with artifacts and informational sources, analyze pupil data to inform instruction, learn ways to differentiate instruction to support critical thinking skills, develop local history and place-based curriculum, and participate in local field-based learning.

CI573 - Perspectives on Future & Schls 573-3 Perspectives on the Future and Its Schools. Deals with the future development of education and social trends, which will influence that development. Emphasis is placed upon alternative models of education and their social bases.

CI574 - Advanced Teaching Methods 574-1 to 3 Advanced Teaching Methods. This course focuses on advanced instructional models and strategies designed to improve professional practice and student achievement. Teachers analyze teaching models and methods to examine the connections between theory and practice, vary instructional methods, and explore common applications of the models. Course goals center on developing instruction that enables teachers to differentiate instruction to meet the needs of diverse learners and engage students in learning content. The course is appropriate for teachers at all levels of education.

CI575 - Critic Issues Instruct Supervsn 575-3 Critical Issues in Instructional Supervision. Students will examine the history, nature and evolution of supervision for instructional improvement. Students will be introduced to concepts, theory and research findings from many fields of study that have implications for today's supervisory process. Supervisory assumptions and practices will be examined in light of current knowledge of teaching effectiveness.

CI576 - Critic Issues in Teacher Educ 576-3 Critical Issues in Teacher Education. Students will examine critical issues, problems, and trends in teacher education. Emphasis is placed on strategies for clarifying the issues, solving the problems and examining the possible impact of the trends.

CI577 - Sem in Int'l Math Education 577-3 Seminar in International Mathematics in Education. Deals with goals, contents, teaching methods, teacher training, curriculum development and research literature

on mathematics education at the international level. Restricted to graduate standing or consent of adviser.

CI578 - Adv Study of Math Educ 578-3 Advanced Study of Mathematics Education. Study of the practical and theoretical development of mathematics curricula and instruction, and viewing mathematics curricula and instruction from philosophical and psychological perspectives. Restricted to advanced graduate study or consent of adviser.

CI579 - Young Adult Literature 579-3 Classic and Contemporary Literature for Young Adults. This course includes an examination of landmark and contemporary literature for young adults. Students will critically evaluate young adult literature and the implications for classroom use. Emphasis will be placed on the use of young adult literature within the framework of current standards. Prerequisites: CI 512 or CI 513 or CI 561, another foundational literacy course, or consent of instructor.

CI580 - Current Trends in Education 580-3 Current Trends in Education. Trends, issues, problems in education related to the student, program, school organization, staff, material and media, the school building, and the process of innovation and change.

CI581 - Digital Video Production 581-3 Digital Video Production. Video has become an essential aspect of teaching, training, and communications. This course is an intensive workshop that provides a thorough understanding of video formats, video production, and video editing techniques. No previous experience with video production is required. Lab fee: \$20.

CI582 - Adv Research Methods in Educ 582-3 Advanced Research Methods in Education. The study and application of advanced skills used in planning, executing, reporting, and utilizing educational research. Students must have an approved Program of Study on file prior to enrolling. Prerequisite: EAHE 587 and EDUC 505.

CI583 - Inst Theory, Prin & Pract 583-3 Instructional Theory, Principles, and Practices. Presentation of conceptual formulations and skills concerning instructional theory and principles; foundations of instruction; instructional systems and models; delivery processes (logistics), systems, and maintenance of quality control; and evaluation of teachers and students.

CI584 - Curr Theory, Found & Prins 584-3 Curriculum Theory, Foundations, and Principles. The course will emphasize the study of the perspectives on curriculum theory that have guided the development of curriculum practice in the United States. Students will critically examine these perspectives and utilize them to develop and defend positions on contemporary curriculum issues.

CI585A - Topical Seminar-Curriculum 585A-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Curriculum. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585B - Topical Sem-Suprvsn Inst Imp 585B-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Supervision for instructional improvement. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585C - Topical Sem-Language Arts 585C-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Language arts. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585D - Topical Sem - Science 585D-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Science. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585E - Topical Sem-Mathematics 585E-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical

educational situations. Problems available for critiquing and analyzing are the following: Mathematics. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585F - Topical Sem - Reading 585F-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Reading. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585G - Topical Sem-Social Studies 585G-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Social studies. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585H - Topic Sem-Early Child Educ 585H-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Early Childhood education. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585I - Topical Sem-Elem Educ 585I-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Elementary education. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585J - Topic Sem-Middle School 585J-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: The Middle school. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585K - Topical Sem-Secondary Educ 585K-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Secondary education. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585M - Topical Sem-Instruction 585M-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Instruction. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585N - Topical Sem-Educatn Technlgy 585N-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Educational technology. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585O - Topical Sem-Environmntl Educ 585O-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Environmental education. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585P - Topical Sem-Children's Lit 585P-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Children's literature. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585Q - Topical Sem-Family Studies 585Q-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Family studies. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585S - Topic Sem-Gifted & Talented Ed 585S-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Gifted and talented education. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI585T - Topic Sem-Teacher Educ 585T-1 to 15 (1 to 3 per semester) Topical Seminar. A graduate level seminar that involves the study of special problems and related research associated with practical educational situations. Problems available for critiquing and analyzing are the following: Teacher education. Maximum of six hours toward a Master's degree. Special approval needed from the instructor.

CI586 - Curriculum Design & Devlpmnt 586-3 Curriculum Design and Development. Presentations concerning educational planning and curricular decision-making relating to curriculum: aims, goals, and objectives; nature of knowledge, disciplines, and subjects; curriculum structures: sequence and scope; substantive structural models; content and activity selection, product analysis and production; evaluation; and curriculum modification and change.

CI587 - Eval Learning & Inst Programs 587-3 Evaluating Learning and Instructional Programs. The course emphasizes both the evaluation of individual learner performance and program evaluation in the interest of assessing curriculum and instruction effectiveness. The rationales and assumptions supporting criterion-referenced assessment are contrasted with those of norm-referenced assessment. Both qualitative and quantitative data collection strategies are included. Attention is also given to the construction of evaluation reports.

CI588 - Design of e-Learning 588-3 Design and Delivery of e-Learning. Investigates e-learning in both higher education and corporate training contexts. The course draws upon the tradition of distance education in covering the design, delivery, and evaluation of online and blended learning in higher education. The course also draws upon the tradition of computer-based training (CBT) in covering the design, delivery, and evaluation of web-delivered training in corporations and organizations.

CI589 - Director of Curr & Instr 589-3 The Work of the Director of Curriculum and Instruction. The role of the director of curriculum and instruction is the focus of this course. Such topics as the background, current status, and tasks and functions of the position are examined. Additionally, such broad areas of the director's role as needs assessment, program planning and evaluation, and in-service education planning are covered. Prerequisite: CI 586 or CI 587 or consent of instructor.

CI590A - Readings-Curriculum 590A-1 to 15 (1 to 3 per topic) Independent Readings-Curriculum. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590B - Readings-Supervision 590B-1 to 15 (1 to 3 per topic) Independent Readings-Supervision for Instructional Improvement. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590C - Readings-Language Arts 590C-1 to 15 (1 to 3 per topic) Independent Readings-Language Arts. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590D - Readings-Science 590D-1 to 15 (1 to 3 per topic) Independent Readings-Science. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590E - Readings-Mathematics 590E-1 to 15 (1 to 3 per topic) Independent Readings-Mathematics. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590F - Independent Readings: Reading 590F-1 to 15 (1 to 3 per topic) Independent Readings-Reading. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590G - Readings-Social Studies 590G-1 to 15 (1 to 3 per topic) Independent Readings-Social Studies. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590H - Readings-Early Child Ed 590H-1 to 15 (1 to 3 per topic) Independent Readings-Early Childhood. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590I - Readings-Elementary Education 590I-1 to 15 (1 to 3 per topic) Independent Readings-Elementary Education. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590J - Readings-Middle School 590J-1 to 15 (1 to 3 per topic) Independent Readings-Middle School. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590K - Readings-Secondary Education 590K-1 to 15 (1 to 3 per topic) Independent Readings-Secondary Education. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590M - Readings-Instruction 590M-1 to 15 (1 to 3 per topic) Independent Readings-Instruction. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590N - Readings-Education Technology 590N-1 to 15 (1 to 3 per topic) Independent Readings-Educational Technology. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590O - Reading-Environment Educ 590O-1 to 15 (1 to 3 per topic) Independent Readings-Environmental Education. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590P - Readings-Children's Lit 590P-1 to 15 (1 to 3 per topic) Independent Readings-Children's Literature. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590Q - Readings-Family Studies 590Q-1 to 15 (1 to 3 per topic) Independent Readings-Family Studies. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590S - Readings-Gifted & Talented Edu 590S-1 to 15 (1 to 3 per topic) Independent Readings-Gifted and Talented Education. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI590T - Readings - Teacher Education 590T-1 to 15 (1 to 3 per topic) Independent Readings-Teacher Education. Directed readings in literature and research. Maximum of four hours toward a Master's degree. Special approval needed from the instructor.

CI591 - Web Resources for Teachers 591-3 Web Resources for Teachers. Investigates use of the Internet in classroom instruction and for professional development. Focus is on the "4 Cs" of Internet use by teachers: Communication, Content, Collaboration, and Community.

CI592 - Mixed Methods in Educ Research 592-3 Mixed Methods in Educational Research. An examination of how to combine qualitative and quantitative research methods and to defend such studies with reference to the tenets of the underlying constructivist and post-positivistic research paradigms. The objective of the course is for students to design and defend a mixed methods educational research study. Prerequisite: EAHE 587 and EDUC 505 or consent of instructor.

CI593A - Research-Curriculum 593A-1 to 15 (1 to 3 per topic) Individual Research in Education-Curriculum. The selection, investigation and writing of a research topic under the personal supervision of

a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593B - Research-Supervision 593B-1 to 15 (1 to 3 per topic) Individual Research in Education-Supervision for Instructional Improvement. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593C - Research-Language Arts 593C-1 to 15 (1 to 3 per topic) Individual Research in Education-Language Arts. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593D - Research-Science 593D-1 to 15 (1 to 3 per topic) Individual Research in Education-Science. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593E - Research-Mathematics 593E-1 to 15 (1 to 3 per topic) Individual Research in Education-Mathematics. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593F - Research - Reading 593F-1 to 15 (1 to 3 per topic) Individual Research in Education-Reading. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593G - Research-Social Studies 593G-1 to 15 (1 to 3 per topic) Individual Research in Education-Social Studies. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593H - Research-Early Childhood Ed 593H-1 to 15 (1 to 3 per topic) Individual Research in Education-Early Childhood. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593I - Research-Elementary Education 593I-1 to 15 (1 to 3 per topic) Individual Research in Education-Elementary Education. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593J - Research-Middle School 593J-1 to 15 (1 to 3 per topic) Individual Research in Education-Middle School. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593K - Research-Secondary Education 593K-1 to 15 (1 to 3 per topic) Individual Research in Education-Secondary Education. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593M - Research-Instruction 593M-1 to 15 (1 to 3 per topic) Individual Research in Education-Instruction. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593N - Research-Education Technology 593N-1 to 15 (1 to 3 per topic) Individual Research in Education-Educational Technology. The selection, investigation and writing of a research topic under the

personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593O - Research-Environment Education 593O-1 to 15 (1 to 3 per topic) Individual Research in Education-Environmental Education. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593P - Research-Children's Lit 593P-1 to 15 (1 to 3 per topic) Individual Research in Education-Children's Literature. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593Q - Research-Family Studies 593Q-1 to 15 (1 to 3 per topic) Individual Research in Education-Family Studies. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593S - Research-Gifted & Talented Ed 593S-1 to 15 (1 to 3 per topic) Individual Research in Education-Gifted and Talented Education. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI593T - Research-Teacher Education 593T-1 to 15 (1 to 3 per topic) Individual Research in Education-Teacher Education. The selection, investigation and writing of a research topic under the personal supervision of a member of the departmental graduate staff. Maximum of three hours counted toward a Master's degree. Special approval needed from the instructor.

CI594A - Practicum-Curriculum 594A-(2 to 9 per topic) Practicum-Curriculum. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594B - Practicum-Supervision 594B-(2 to 9 per topic) Practicum-Supervision for Instructional Improvement. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594C - Practicum-Language Arts 594C-(2 to 9 per topic) Practicum-Language Arts. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594D - Practicum-Science 594D-(2 to 9 per topic) Practicum-Science. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594E - Practicum-Mathematics 594E-(2 to 9 per topic) Practicum-Mathematics. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special

problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594F - Practicum-Reading 594F-(2 to 9 per topic) Practicum-Reading. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594G - Practicum-Social Studies 594G-(2 to 9 per topic) Practicum-Social Studies. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594H - Practicum-Early Childhood Ed 594H-(2 to 9 per topic) Practicum-Early Childhood. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594I - Practicum-Elementary Ed 594I-(2 to 9 per topic) Practicum-Elementary Education. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594J - Practicum-Middle School 594J-(2 to 9 per topic) Practicum-Middle School. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594K - Practicum-Secondary Educ 594K-(2 to 9 per topic) Practicum-Secondary Education. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594M - Practicum-Instruction 594M-(2 to 9 per topic) Practicum-Instruction. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594N - Practicum-Education Technology 594N-(2 to 9 per topic) Practicum-Educational Technology. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594O - Practicum-Environmental Ed 594O-(2 to 9 per topic) Practicum-Environmental Education. For Master's degree students: professional consultation, teaching demonstration, practical application

of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594P - Practicum-Children's Lit 594P-(2 to 9 per topic) Practicum-Children's Literature. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594Q - Practicum-Family Studies 594Q-(2 to 9 per topic) Practicum-Family Studies. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594S - Practicum-Gifted & Talented Ed 594S-(2 to 9 per topic) Practicum-Gifted and Talented Education. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI594T - Practicum-Teacher Educ 594T-(2 to 9 per topic) Practicum-Teacher Education. For Master's degree students: professional consultation, teaching demonstration, practical application of advanced theory, work with clinical cases, or program development implementation, and evaluation in school systems, community colleges, or universities. In addition, may involve reading and research directed to special problems involved in on-site situations. A maximum of nine hours credit may be applied toward a Master's degree. Special approval needed from the instructor.

CI595A - Internship-Curriculum 595A-(2 to 8 per topic) Internship-Curriculum. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595B - Internship-Supervision 595B-(2 to 8 per topic) Internship-Supervision for Instructional Improvement. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595C - Internship-Language Arts 595C-(2 to 8 per topic) Internship-Language Arts. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595D - Internship-Science 595D-(2 to 8 per topic) Internship-Science. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595E - Internship-Mathematics 595E-(2 to 8 per topic) Internship-Mathematics. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar

will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595F - Internship-Reading 595F-(2 to 8 per topic) Internship-Reading. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595G - Internship-Social Studies 595G-(2 to 8 per topic) Internship-Social Studies. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595H - Internship-Early Childhood 595H-(2 to 8 per topic) Internship-Early Childhood. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595I - Internship-Elementary Educ 595I-(2 to 8 per topic) Internship-Elementary Education. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595J - Internship-Middle School 595J-(2 to 8 per topic) Internship-Middle School. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595K - Internship-Secondary Education 595K-(2 to 8 per topic) Internship-Secondary Education. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595M - Internship-Instruction 595M-(2 to 8 per topic) Internship-Instruction. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595N - Internship-Educational Tech 595N-(2 to 8 per topic) Internship-Educational Technology. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595O - Internship-Environmental Ed 595O-(2 to 8 per topic) Internship-Environmental Education. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595P - Internship-Children's Lit 595P-(2 to 8 per topic) Internship-Children's Literature. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar

will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595Q - Internship-Family Studies 595Q-(2 to 8 per topic) Internship-Family Studies. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595S - Internship-Gifted/Talented Edu 595S-(2 to 8 per topic) Internship-Gifted and Talented Education. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI595T - Internship-Teacher Educ 595T-(2 to 8 per topic) Internship-Teacher Education. Culminating experience for Ph.D. or specialist degree students. Students engage in specialized service areas either in their own or a cooperating school or school system or university. Weekly on-campus or on-site seminar will be held with the intern supervisor. A maximum of eight hours credit may be applied toward a Ph.D. or specialist degree. Special approval needed from the instructor.

CI596 - Interactive Multimedia 596-3 Interactive Multimedia for Learning. An introduction to the evaluation, design, and development of interactive instructional multimedia programs. The instructional methods of Tutorial, Drill, Simulation, and Educational Games are covered. Projects include designing, developing, and use-testing an interactive instructional multimedia program.

CI597 - PBL for STEM Educators 597-1 to 3 Problem-Based Learning for STEM Educators. This course surveys the history and development of Problem-Based Learning (PBL) and its applications in Science, Technology, Engineering, and Mathematics (STEM) education and place-based education. Participants will discuss PBL principles and pedagogy and critique or create PBL modules with respect to national and state STEM education standards in support of K-12 classroom implementation, adaptation, assessment, and iterative design of PBL instruction or intervention.

CI598 - Family Lit Prog Pol & Practice 598-3 Family Literacy Programs, Policies, and Practices. This course offers an in-depth look at family literacy programs, policies, and practices. The course adopts a sociocultural underpinning to explore how family literacy can contribute to the literacy growth of families and re-center parents as their children's first teachers. Topics include family diversity and funds of knowledge, the basic components of family literacy programs, opportunities for literacy learning, professional development and program improvement, and advocacy. Participants will gain an understanding of family literacy in historical, educational, social, and political contexts.

CI599 - Thesis 599-1 to 6 Thesis. Minimum of three hours to be counted toward a Master's degree. Restricted to admission to Master's degree program.

CI600 - Dissertation 600-1 to 32 (1 to 16 per semester) Dissertation. Minimum of 24 hours for the Doctor of Philosophy degree.

CI601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

CI699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Cybersecurity and Cyber Systems

Admission

Applicants with a bachelors degree in Computer Science, Engineering, Physics, Mathematics, Information Systems or equivalent degrees will be admitted directly as long as their GPA satisfies Graduate School requirements. The M.S. degree requires 30 credit hours. Students can select among the concentrations in cybersecurity or in cyber systems. For applicants lacking the required specific background, we offer conditional admission status until completing prerequisite courses.

Admission to the M.S. program is based on the following factors: grade point average of 2.75 or higher on a scale of 4.0 on approximately the last 60 semester hours of undergraduate coursework, class ranking, and faculty recommendation letters. Although GRE scores are not required for admission, they are important to qualify for the High Achievers Tuition Rate. See also tuition.siu.edu/highachievers2.html. The minimum TOEFL score requirement for international applicants is 550 (paper-based) or 80 (computer-based).

The program requires a nonrefundable \$65 application fee that must be submitted with the application for admissions to the M.S. program in Cybersecurity and Cyber Systems. Students must apply online and pay this fee by credit card. Please address any correspondence to "Master of Science Program in Cybersecurity and Cyber Systems," 1230 Lincoln Drive, Southern Illinois University Carbondale, Carbondale, Illinois 62901, Mailcode 6603 or Mailcode 4511. Inquiries can be addressed to cyberms@siu.edu. For telephone inquiries please call 618-536-2364 or 618-536-2327, and refer to the Master of Cybersecurity and Cyber Systems Program. The facsimile numbers are 618-453-7972 and 618-453-6044.

Retention

Any student whose cumulative grade point average falls below 3.0 on courses that count towards the degree will be placed on departmental academic probation. Any graduate student on academic probation whose grade point average remains below 3.0 on courses that count towards the degree for two consecutive semesters in which she or he is enrolled will be permanently suspended from the program, unless the department grants an exception.

Curriculum

The degree requires 3 courses from 3 key areas that will ascertain understanding of fundamentals and help build a solid foundation for the remainder of the program. These courses are listed below.

1. **Fundamentals in computer security.** This requirement will be completed by either CS 410 or ECE 434. Only one of these courses will count towards the degree.
2. **Fundamentals in systems programming.** This requirement will be completed by either CS 407 or ECE 536. Only one of these courses will count towards the degree.
3. **Fundamentals in network systems.** This requirement will be completed by either CS 440 or ECE 553. Only one of these courses will count towards the degree.

A student should then seek a concentration either in cybersecurity or in cyber systems by selecting at least 5 elective courses in cybersecurity or in cyber systems. The lists of these courses are given below.

A maximum of six credit hours from academic units outside the Department of Electrical and Computer Engineering or the Department of Computer Science could be applied towards the degree.

In cybersecurity concentration, students must complete 4 courses in cybersecurity and 1 course in cyber systems. In cyber systems concentration, students must complete 4 courses in cyber systems and 1 course in cybersecurity. A fundamental area may be satisfied by a course that was taken prior to admission or a documented record of accomplishment in the subject matter content. In this case, the student must select an additional elective course either in cybersecurity or in cyber systems for each satisfied fundamental area. Students must take at least two CS/ECE five hundred level courses not cross listed to a four hundred level course. Students must take at least three ECE and at least three CS courses. Only three credit hours of ECE 592 or CS 598 can count towards the degree.

MS Thesis option: 6 credit hours of thesis in ECE or CS (ECE 599 or CS 599) may substitute for 6 credit hours in a concentration area.

List of cybersecurity courses for the MS degree: CS 408, CS 409, CS 413, CS 415, ECE 418, ECE 517, ECE 518, ECE 519, CS 525, CS 531.

List of cyber system courses for the MS degree: ECE 417, ECE 419, CS 425, ECE 431, CS 441, ECE 475, ECE 512, ECE 528, ECE 536, CS 540, ECE 541.

Cybersecurity and Cyber Systems Courses

Cybersecurity and Cyber Systems Faculty

Ahmed, Khaled, Assistant Professor, Ph.D., Tokyo Institute of Technology, 2004; 2019. High-performance computing, distributed and parallel computing, peer-to-peer computing, big data, machine learning, and image processing.

Carver, Norman F., III, Associate Professor, Ph.D., University of Massachusetts, 1990; 1995. Multi-agent systems, sensor interpretation, machine learning.

Che, Dunren, Professor, Ph.D., Beijing University of Aeronautics and Astronautics, Beijing China, 1994; 2001. Database, data mining, cloud computing, big data management and analytics.

Danhof, K. J., Professor, *Emeritus*, Ph.D., Purdue University, 1969; 1969.

Gupta, Bidyut, Professor, Ph.D., University of Calcutta, 1986; 1988. Distributed systems, fault-tolerant computing, mobile communication, routing algorithms, peer-to-peer networks.

Hexmoor, Henry, Associate Professor, Ph.D., University of Buffalo, 1996; 2006. Artificial intelligence, Multi-agent systems, cognitive science, mobile robotics, knowledge representation and reasoning.

Hou, Wen-Chi, Professor, *Emeritus*, Ph.D., Case Western Reserve University, 1989; 1989. Statistical databases, query optimization, data stream processing, spatial data structures, XML databases, big data.

Hoxha, Bardh, Assistant Professor, Ph.D., Arizona State University, 2017. Formal Methods, Testing and Verification of Cyber-Physical Systems, Motion Planning for Autonomous Vehicles, and Human-Robot Interaction.

Huang, Chun-Hsi, Professor and *School Director*, Ph.D., State University of New York at Buffalo, 2001; 2019. Extreme-scale computing and data analytics, computational biology, security and applied algorithmics.

Huang, Xiaolan, Assistant Professor, Ph.D., Southern Illinois University, 2017; 2019. Bioinformatics, data mining, machine learning, network architecture, data communication and security.

Mark, Abraham M., Professor, *Emeritus*, Ph.D., Cornell University, 1947; 1950.

McGlenn, Robert J., Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1976; 1981.

Mogharreban, Namdar, Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1989; 1999.

Phillips, Nicholas C.K., Associate Professor, *Emeritus*, Ph.D., University of Natal, 1967; 1988.

Rekabdar, Banafsheh, Assistant Professor, Ph.D., University of Nevada, 2017. Artificial Intelligence, Machine learning, Deep learning, Data mining, big data analytics, Robotics.

Sinha, Koushik, Assistant Professor, Ph.D., Jadavpur University, 2007; 2015. Mobile and wireless sensor networks, cloud computing and social computing, resource allocation and task scheduling.

Wainer, Michael S., Associate Professor, *Emeritus*, Ph.D., University of Alabama at Birmingham, 1987; 1988.

Wright, William. E., Professor, *Emeritus*, D.Sc., Washington University, 1972; 1970.

Economics

The School of Analytics, Finance, and Economics offers graduate programs that lead to both master's and doctoral degrees. The master's degree is designed to be a 12-16 month program in which the student takes courses in theory as well as an applied specialization. The doctoral program is built around a core of courses in microeconomics, macroeconomics and econometrics, and allows the student to specialize in two fields. The coursework towards the doctoral degree is expected to take three years and the writing of a dissertation one year.

Admission

The overall scholastic record and potential of the applicant for admission is more important than prior preparation in specific areas of economics. While undergraduate specialization in economics is desirable, the program is open to students whose undergraduate specialization has been in other fields. However, if a student has not taken intermediate level microeconomics, macroeconomics, and statistics, remedial work may be required before the student can take the required courses for the graduate degree.

Application is done online: gradschool.siu.edu/apply/. Additional information about the graduate programs in economics is available online at cola.siu.edu/economics.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for admission to graduate study in economics. Applicants must pay this fee by credit card.

All applicants should take the aptitude portion of the Graduate Record Examination. Information on testing dates and locations may be obtained at ets.org or by writing to Educational Testing Service, Princeton, New Jersey 08540. Scores should be sent to Southern Illinois University Carbondale marked "Attention: School of Analytics, Finance, and Economics." All exam scores must be received before admission.

Evaluations of applicants by the department are based on information from the application form, GRE scores, transcripts, and other information.

Applicants not admitted to the graduate programs in economics who meet the Graduate School requirements may register for remedial courses as nondeclared students. Such persons may be considered for admission to the program at a later date, based on their performance in such remedial courses. This option is not available to international students.

Foreign applicants whose native language is not English must take the Test of English as a Foreign Language (TOEFL) or another equivalent test. The graduate programs in economics require that the applicant achieve a 550 paper score or a 220 computer score or an 80 Internet-based score or above for admission to the graduate program. The TOEFL must be taken no more than 24 months prior to the date for which admission is sought. For information concerning TOEFL testing dates and locations, visit ets.org or write to Educational Testing Service, Princeton, New Jersey 08540.

Entry into Ph.D. Program

A student with a master's degree must meet Graduate School admission requirements with a graduate grade point average of 3.25 (A = 4.0) or better. A student with a bachelor's degree must meet Graduate School admission requirements with an undergraduate grade point average of 2.7 or better. After meeting these requirements the bachelor's degree student will be initially admitted as a master's student. Upon

passing the qualifying exam, taken after the first year of graduate study, the student will be given entry into the doctoral program. Application for entry to the Ph.D. program should be made at the Graduate School website, gradschool.siu.edu.

Entry into the Master's Degree Program

The master's degree program is intended to serve as a terminal degree. A student with a bachelor's degree must meet Graduate School admissions requirements with a grade point average of 2.7. Application for entry to the master's degree program should be made at the Graduate School website, gradschool.siu.edu.

Bachelor's and Accelerated Master's Track

Undergraduate economics majors at SIU can enter an accelerated master's program in which specific courses will satisfy requirements in both degrees allowing for completion of the master's degree after bachelor's degree, but at a shorter accelerated pace. To enter this program, students apply through the economics program during their junior year and must have at least a 3.25 GPA in all coursework. Before the end of their senior year, students in this program take ECON 465 (Mathematical Economics) and ECON 463 (Applied Econometrics), one other 400-level Economics course, and MATH 150 (Calculus I).

Nine credits from these 400-level ECON courses can be applied to both the bachelor's degree and the master's degree. Because the master's requires 30 hours of coursework, students in the accelerated master's program only need 21 hours after their senior year thereby making it possible and likely to complete the master's degree in only one year.

Please see the Director of Graduate Studies in the Economics Department for more information.

Requirements for the Master's Degree

The master's degree prepares students for positions in government and business and for teaching at the junior college level. The general requirements for the Master's degree may be conveniently classified under two broad headings, course and hour requirements and research requirements.

Course and Hour Requirements

Those students who plan to receive the Master's degree as a terminal degree are required to have the following courses:

- ECON 465* Mathematical Economics I
- ECON 463* Applied Econometrics
- ECON 540A Microeconomic Theory I
- ECON 541A Macroeconomic Theory I

*For graduate credit

Each master's student must take at least one graduate director-approved, two-course specialization. In addition, each master's student must accumulate a minimum total of 30 graduate-level semester hours approved by the director of graduate studies. Each master's student must take at least one graduate director approved, two-course specialization. In addition, each master's student must accumulate a minimum total of 30 graduate-level semester hours approved by the director of graduate studies. Of this minimum, 21 hours must be in Economics courses, excluding ECON 408, 440, 441, 443, 507, and 590, and 50% must be in 500-level courses.

Any student who earns six semester hours of C or below in Economics courses taken for graduate credit is subject to dismissal from the graduate program in economics. A minimum grade point average of 3.0 (A = 4.0) in 400- and 500-level economics courses is required excluding ECON 408, ECON 440, ECON 441, ECON 501 and ECON 502. Only 400- and 500-level courses may count toward the master's degree. Graduate students in economics cannot take ECON 408, ECON 440, ECON 441, or ECON 443 for credit toward a graduate degree in economics.

Research Requirements

A **Master of Arts** degree will be awarded upon completion of a research paper and the course and hour requirements. The research paper is counted as three semester hours of credit as ECON 598. For electronic submission requirements, please go to gradschool.siu.edu/current-students/thesis-dissertation-researchpaper/etd-overview.php. Here you will find detailed information concerning the electronic submission requirements. One copy is to be submitted to the Department of Economics prior to graduation. Under this option, the student must take an additional graduatelevel course for three semester hours.

A **Master of Science** degree will be awarded upon completion of a master's thesis and the course and hour requirements. The thesis shall be supervised by a committee of at least three members of the graduate faculty and will be counted for six semester hours of credit as ECON 599. (Thus the thesis constitutes six of the required 30 semester hours). The student is required to submit the thesis electronically to the Graduate School. For electronic submission requirements, please go to gradschool.siu.edu/current-students/thesis-dissertation-researchpaper/etd-overview.php. Here you will find detailed information concerning the electronic submission requirements. One copy of the thesis is to be submitted to the Department of Economics prior to graduation.

Requirements for the Doctor of Philosophy Degree

The Ph.D. degree prepares students for teaching and research positions in the academic world, for positions such as senior economist in private industry and consulting firms, and for government positions requiring advanced economic training.

Course Requirements and Qualifying Exam

In the student's first year (Fall/Spring) of graduate work he/she will be required to take the following courses:

- ECON 465 Mathematical Economics I
- ECON 540A Microeconomic Theory I
- ECON 540B Microeconomic Theory II
- ECON 541A Macroeconomic Theory I
- ECON 541B Macroeconomic Theory II
- ECON 567A Econometrics I

At the end of the first year (June) the student will take qualifying examinations over microeconomic theory and macroeconomic theory. A student will be allowed at most two attempts at passing each qualifying exam.

Fields of Specialization

A student is required to take two specialized fields in economics. In addition, the student is required to pass a written examination (after completion of the appropriate course work for credit) in one specialized field at the end of the second year. The Department of Economics offers the following fields of specialization: economic development, international economics, monetary theory and policy, applied microeconomics, advanced economic theory, and finance. A student will be allowed to take a field exam at most two times.

Other Required Courses

Students are required to pass the following courses:

- ECON 540C Microeconomic Theory III
- ECON 541C Macroeconomic Theory III
- ECON 567B Econometrics II
- ECON 567C Econometrics III

Dissertation

Upon successful completion of the coursework and passing of the qualifying and field examinations, a student will then be admitted to candidacy for the Ph.D. degree. This will normally occur after the third year of work. Following this, the candidate, in consultation with his/her dissertation chairperson, will form a dissertation committee and develop a proposal. After the proposal is approved, the student must complete a dissertation based on original research and successfully defend the dissertation before the faculty.

The student is required to submit their dissertation electronically to the Graduate School. For electronic submission of dissertations, please go to gradschool.siu.edu/thesisdissertation-researchpaper/etd-guidelines. Here the student will find frequently asked questions as well as information from UMI (University Microfilm International) regarding electronic submission requirements. One copy of the dissertation is to be submitted to the Department of Economics prior to graduation.

Economics Courses

ECON416 - Financial Economics 416-3 Financial Economics. Study the role of money within the financial system, and the role of the financial system itself in providing risk-sharing, liquidity and information services. An examination of the bond market, interest rates and the concepts of risk, liquidity, information costs, taxation and investment maturity. A detailed examination of financial markets, e.g., the markets for stocks, foreign exchange, and market for financial derivatives. Finally, a more detailed account of why and how financial institutions and instruments evolve. This course includes a research project in which students formulate a research question, review literature related to the question, gather relevant data, and provide a research conclusion using tools learned in this and other courses. The student will communicate their research findings via a written paper and, if possible, via an oral presentation. Prerequisite: ECON 315 or 341 or consent of instructor.

ECON419 - Latin American Econ Developmt 419-3 Latin American Economic Development. Special attention to contemporary policy issues and alternative strategies for development. Among the topics included are inflation and financial reform, international trade and economic integration, foreign investment, and agrarian reform. Prerequisite: ECON 322, or 340, or 341, or consent of instructor.

ECON429 - International Trade & Finance 429-3 International Trade and Finance. Analysis of the pattern and volume of world trade and capital flows; effects of trade and payments on the domestic economy; problems and methods of adjusting to change in the balance of payments. This course includes a research project in which students formulate a research question, review literature related to the question, gather relevant data, and provide a research conclusion using tools learned in this and other courses. The student will communicate their research findings via a written paper and, if possible, via an oral presentation. Prerequisite: ECON 340 and 341 or consent of instructor.

ECON431 - Public Finance II 431-3 Public Finance II. State and local. Analysis of the economic effects, problems, and alternative solutions concerning state and local government expenditures, revenues, and debt. Prerequisite: ECON 330 or 340 or 341 or consent of instructor.

ECON440 - Price Output & Allocatn Theory 440-3 Price, Output, and Allocation Theories. A systematic survey of theories of product prices, wage rates, rates of production and resource utilization under conditions of competition, monopolistic competition, oligopoly and monopoly markets. Emphasis is on developing analytical tools useful in the social sciences. Not open to students who have had Economics 340. Prerequisite: ECON 240 or consent of instructor.

ECON441 - Contemporary Macroecon Theory 441-3 Contemporary Macroeconomic Theory. An examination in the causes of inflation, unemployment, and fluctuations in aggregate economic activity, factors affecting consumption and investment, and the sources of economic growth. Emphasis is on understanding contemporary United States macroeconomic problems and the options for fiscal, monetary and income policies facing the United States government. Not open to students who have had 341. Prerequisite: ECON 241 or consent of instructor.

ECON450 - History of Economic Thought 450-3 History of Economic Thought. An analytical study of the development of economic ideas, with special reference to historical and societal context, central thrust, and impact. Such benchmark figures as Smith, Marx, Marshall, Veblen, and Keynes are highlighted and major schools of economic thought are identified. Prerequisite: ECON 240 and 241; or 113; or consent of instructor.

ECON463 - Intro to Applied Econometrics 463-3 Introduction to Applied Econometrics. Applications of statistical tools to specific economic problems. Numerous examples will be examined in order to achieve this goal. Emphasis will be given to model misspecification, non-classical estimation techniques, data analysis, and simultaneous equations. This course includes a research project in which students formulate a research question, review literature related to the question, gather relevant data, and provide a research conclusion using tools learned in this and other courses. The student will communicate their research findings via a written paper and, if possible, via an oral presentation. Prerequisite: ECON 308 or equivalent or consent of instructor.

ECON465 - Mathematical Economics I 465-4 Mathematical Economics I. A systematic survey of the fundamental mathematical tools for economic analysis. Topics include functions and their properties, including derivatives and integrals. The focus is on calculus techniques for optimization and comparative statics analysis. Prerequisite: ECON 340 or 440, and MATH 140 or consent of instructor.

ECON474 - Econ Strategies for Business 474-3 Economic Strategies for Business. This course will be concerned with broad principles of microeconomics that underlie all business decision-making. The main topics discussed may include the firm's costs, pricing and research and development decisions under different market structures, price discrimination, strategies of different business practices, information, advertising, decision-making over time, and decision-making under symmetric information. Prerequisite: ECON 240 or its equivalent or consent of instructor.

ECON479 - Problems in Bus & Econ 479-3 Problems in Business and Economics. Application of economic theory and tools of analysis to practical business problems. Cost and demand functions, and forecasting are analyzed from a policy standpoint. Prerequisite: ECON 240, 308 or consent of instructor.

ECON500 - Economics Seminar 500-3 to 24 (3 per topic) Economics Seminar. A study of a common, general topic in the field of economics with individual reports on special topics. Special approval needed from the instructor.

ECON501 - Economics Readings 501-1 to 21 Economics Readings. Readings from books and periodicals in economics. Master's degree students limited to a total of six hours. Special approval needed from the instructor and chair.

ECON502 - Readings: Resource Econ 502-1 to 4 Readings in Resource Economics. (See FOR 590).

ECON507 - Practicum: Undergrad Teaching 507-1 to 4 (1,1,1,1) Practicum in Undergraduate Teaching. Emphasizes teaching methods, source materials, and preparation of classroom materials. All teaching assistants must enroll. One hour of credit per semester. Graded S/U only.

ECON510 - Res: Design, Methodolgy, Presnt 510-2 Research in Economics: Design, Methodology and Presentation. Systematic approach to economic research. Includes research planning and design, exploration of the various sources of data and most frequently used methodology. The last part of the course is concentrated on techniques for communicating the results of research. Special approval needed from the instructor.

ECON511 - Adv Math Economics 511-3 Advanced Mathematical Economics. A continuation of topics in 465 with more emphasis on proofs. Topics include economic applications of integration, differential equations and real analysis. Prerequisite: ECON 465 or consent of instructor.

ECON517 - Monetary Economics I 517-3 Monetary Economics I. A graduate-level introduction to the field of monetary economics. Students will focus on the core theoretical models to describe and explain the role of money in modern economies. The course emphasizes empirical methods in macroeconomics and reviews current empirical research and evidence on the channels through which money influences economic activity. Students will relate monetary variables to the rates of interest,

inflation and unemployment, to deficits and the national debt, and to savings, investment, and output. Prerequisite: ECON 541A or B and 463 or equivalent.

ECON518 - Monetary Economics II 518-3 Monetary Economics II. An advanced graduate-level course in monetary economics. Students will use contemporary macroeconomic models to analyze monetary policy. The course emphasizes macroeconomic theory and the role of underlying frictions in monetary economies. Students will focus on recent developments and controversies in monetary theory and policy as well as on optimal monetary policy under discretion or commitment, monetary policy operating procedures, and the interaction of monetary and fiscal policy. Prerequisite: ECON 541B and 517.

ECON520A - Econ Devlpmt Theory & Policy 520A-Economic Development Theory and Policy. The two parts deal with the macroeconomic and microeconomic aspects of development economics, respectively. 520A topics include theories of development, structural change, income inequality, natural resources, open economy shocks, and the political economy of development.

ECON520B - Econ Devel Theory & Policy 520B-3 Economic Development Theory and Policy. The two parts deal with the macroeconomic and microeconomic aspects of development economics, respectively. 520B topics include theories and case studies of famine and famine prevention, gender and development, economics of child labor, and informal credit markets and microfinance. Prerequisite: ECON 465 and ECON 540A or their equivalent or consent of instructor.

ECON530 - Foreign Trade 530-3 Foreign Trade. This course covers the determinants of the pattern of trade and possible gains from trade, under both perfect and imperfect competition. It also examines trade policy issues such as optimal tariffs and the relative merits of alternative trade policies. A number of specific topics are also covered, for example: foreign direct investment, trade and the environment, and fair trade. Prerequisite: ECON 465 and ECON 540A or their equivalent or consent of instructor.

ECON531 - International Finance 531-3 International Finance. Application of theory to current international economic transactions. Emphasis is placed on topics at the frontier of research in international macroeconomics, with empirical studies. Prerequisite: ECON 465 and ECON 541A or consent of instructor.

ECON533 - Public Fin Theory & Practice 533-3 Public Finance Theory and Practice. Historical development of public finance theories with analysis of their policy implications. Prerequisite: ECON 330 or consent of instructor.

ECON534 - Economics of Taxation 534-3 Economics of Taxation. This course examines from a theoretical and applied point-of-view, various economic aspects of taxation. Other government revenue sources may also be analyzed such as inter-governmental grants and debt. Emphasis is on application of microeconomic theory to problems in taxation. Usual topics include: equity in taxation, shifting and incidence of taxes, excess burden of taxes, other economic effects of taxes, tax reform, debt. Prerequisite: ECON 330 and ECON 340, or ECON 440, or consent of instructor.

ECON540A - Microeconomic Theory I 540A-3 Microeconomic Theory I. The course provides the basic theoretical knowledge necessary for microeconomic research in business and government. Prerequisite: ECON 340 or ECON 440 or consent of instructor AND MATH 150 or its equivalent or consent from the Director of Graduate Studies in the Economics Department.

ECON540B - Microeconomic Theory II 540B-3 Microeconomic Theory II. A contemporary course in partial equilibrium analysis. Topics include the theory of the firm, market structure and the theory of the consumer. The course frequently takes an axiomatic approach; consequently there are many formal statements and proofs of theorems. Prerequisite: ECON 465 and ECON 540A or consent of instructor.

ECON540C - Microeconomic Theory III 540C-3 Microeconomic Theory III. A contemporary course in game theory as applied to economics. Topics include static games of complete and incomplete information with applications to Cournot oligopoly, tragedy of the commons, and auctions; as well as dynamic games of complete and incomplete information with applications to Stackelberg oligopoly, sequential bargaining, imperfect international competition, and job market signaling. Prerequisites: ECON 540A and ECON 540B or consent of instructor.

ECON541A - Macroeconomic Theory I 541A-3 Macroeconomic Theory I. The rigorous development of general equilibrium macroeconomic models to analyze the determination of national income in the context of Classical, Keynesian, Neoclassical and Monetarist economic systems. Also included is the study of key sectoral demand functions. Prerequisite: ECON 340 or ECON 440 or consent of instructor AND MATH 150 or its equivalent or consent from the Director of Graduate Studies in the Economics Department.

ECON541B - Macroeconomic Theory II 541B-3 Macroeconomic Theory II. Continuation of 541A. Analyzes the ideas of New Classical and New Keynesians on the determination of national income. Focuses on the impact of rational expectations and the natural rate hypotheses on the effectiveness of macroeconomic policy. Also included are recent developments in the area of business cycles. Prerequisite: ECON 541A.

ECON541C - Macroeconomic Theory III 541C-3 Macroeconomic Theory III. Recent developments and major issues in contemporary macroeconomic theory. Focuses on incorporating uncertainty, stochastic tools and dynamic analysis into macroeconomic theory. Prerequisite: ECON 541B.

ECON542A - Industrial Organization I 542A-3 Industrial Organization I. A study of the variety of forms of competition among firms. Topics include theories of the firm, oligopoly theory, theories of entry, product differentiation and innovation. Prerequisite: ECON 440 and ECON 441.

ECON542B - Industrial Organization II 542B-3 Industrial Organization II. A survey of government policy toward industry. Topics include antitrust: mergers, concentration and unfair trade practices, regulation of public utilities, peak load pricing, product, safety and environmental regulation. Prerequisite: ECON 440 and ECON 441.

ECON545 - Resource Economics 545-3 Resource Economics. A survey of theoretical and institutional aspects of energy production, distribution, consumption and regulation. Topics covered include cartel theory, history of energy use, theory of resource exhaustion, models of energy demand and supply, past and current policy issues, and environmental protection. Prerequisite: ECON 440 or consent of instructor.

ECON546 - Workshop: Resource Econ 546-3 Workshop in Resource Economics. A research seminar on topics related to energy production, distribution, consumption and regulation. Meetings will be divided among presentations of research of (a) faculty, (b) students, and (c) outside speakers, offered every semester. Maximum of three hours toward Master's degree in economics. Prerequisite: ECON 545.

ECON552 - Seminar: Economic Thought 552-3 Seminar in Economic Thought. An exploration of the basic philosophic assumptions which underlie the various types of economic thought with special emphasis upon the historical development of the premises of modern day economic theories.

ECON566 - Mathematical Econ II 566-3 Mathematical Economics II. Linear economic models. Linear programming. Input-output analysis and general equilibrium models Prerequisite: ECON 340 or ECON 440 or ECON 465 or consent of instructor.

ECON567A - Econometrics I 567A-3 Econometrics I. This is a course in modern mathematical statistics applied to economics and allied fields. Students will use calculus and linear algebra to apply probability and statistical models to data, via parameter estimation and hypothesis testing. Key topics include probability models, features of probability distributions, sampling distributions, estimation via maximum likelihood, inference via likelihood ratio, score and Wald tests; and asymptotic theory. Applications center on the simple linear regression model and its variants, and students will apply models to data using econometric software. Prerequisite: ECON 465 or consent of instructor.

ECON567B - Econometrics II 567B-3 Econometrics II. Further topics in the theory and application of single equation econometric models including model specification, data problems, large sample results, non-spherical disturbances, heteroscedasticity and autocorrelation. Topics in time series analysis include unit root tests and ARIMA model building. Prerequisite: ECON 465 and ECON 567A or consent of instructor.

ECON567C - Econometrics III 567C-3 Econometrics III. Topics covered are systems of regression equations; models for panel data; simultaneous equations models; time series models; VAR; causality, cointegration, error correction model among others; and estimation and inference in models with discrete

and limited dependent variables, i.e., Probit and Logit models, censored regression models and Tobit analysis. Prerequisite: ECON 567B or consent of instructor.

ECON570 - Seminar: Contmpory Microecon 570-3 Seminar in Contemporary Microeconomic Theory. An investigation of recent developments and current controversies in economic theory with emphasis on microeconomic problems. Prerequisite: ECON 540B.

ECON571 - Seminar: Contempory Macroecon 571-3 Seminar in Contemporary Macroeconomic Theory. An investigation of recent developments and current controversies in economic theory with emphasis on macroeconomic problems. Prerequisite: ECON 541B or consent of instructor.

ECON575A - Econometric Theory I 575A-3 Econometric Theory I. Topics include: probability theory; asymptotic theory; linear regression; likelihood ratio, Lagrange multiplier, and Wald tests; stochastic processes; ARIMA models; unit root tests, cointegration, spurious regression, and spurious trend; ARCH models; VAR models; and other topics to be determined by the instructor. Prerequisite: ECON 567B or consent of instructor.

ECON575B - Econometric Theory II 575B-3 Econometric Theory II. Topics include: density estimation methods, nonparametric regression, stochastic frontiers, nonlinear regression models, nonlinear time series models, information matrix tests, generalized method of moments, non-nested hypothesis testing, Bayesian methods, bootstrapping, and other topics to be determined by the instructor. Prerequisite: ECON 575A or consent of instructor.

ECON580A - Performance Measurement 580A-3 Performance Measurement. Analysis of measurement of efficiency and productivity using frontier techniques. Focuses on theoretical and empirical specification of production frontiers and the evaluation of performance relative to those frontiers. Duality theory is exploited to investigate performance in various economic environments. Prerequisite: ECON 540A and ECON 465, or consent of instructor.

ECON580B - Welfare Measurement 580B-3 Welfare Measurement. A study of the theory and methods of constructing economic measures of price, quantity and other welfare indicators. Prerequisite: ECON 540A, ECON 540B and ECON 465 or consent of instructor.

ECON590 - Seminar: Contemporary Econ 590-1 to 8 (1 per semester) Seminar in Contemporary Economics. Presentation and discussion of current research in economics. One hour credit per semester. Graded S/U only.

ECON598 - Research Paper 598-1 to 3 Research Paper. Preparation of a research paper for a Master's degree. Special approval needed from the instructor.

ECON599 - Thesis 599-1 to 6 Thesis. Minimum of four hours to be counted toward a Master's degree. Graded S/U only.

ECON600 - Doctoral Dissertation 600-1 to 36 (1 to 16 per semester) Doctoral Dissertation. Hours and credit to be arranged by director of graduate studies. Graded S/U only.

ECON601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

ECON699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted

Economics Faculty

Becsi, Zsolt, Associate Professor, Ph.D., University of Wisconsin-Madison, 1991; 2003. Public finance, macroeconomics.

Dai, Chifeng, Associate Professor, Ph.D., University of Florida, 2003; 2005. Industrial organization, public economics, law and economics, and applied econometrics.

Watts, Alison, Professor, Ph.D., Duke University, 1993; 2001. Microeconomics, game theory, industrial organization, law and economics.

Educational Administration

The School of Education Administration offer a Master of Science in Education Administration. The program also provides courses and instructional personnel for doctoral students who wish to concentrate in educational administration at the doctoral level. All degrees are CAEP approved. Interested applicants should direct inquiries to the admissions clerk of the department.

The Educational Administration and Higher Education program works cooperatively with Curriculum and Instruction, Counseling, Quantitative Methods, Special Education, and Workforce Education and Development programs in administering the State of Illinois General Administrative Certificate for persons seeking positions as principals or directors of special education or vocational education. A master's degree and two years of public school teaching (or its equivalent), are required for the certificate. Students must make application for the administrative certification program through the department.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Educational Administration. Applicants must pay this fee by credit card.

Academic Standing

Each student pursuing a degree, certificate, or endorsement offered by the Department of Educational Administration and Higher Education (EAHE) program must establish and maintain adequate academic standing in order to complete the selected program. To be sure, the Academic Standing expectations in the Department are in addition to the Satisfactory Progress Standards established by the Graduate School. (Refer to the Financial Assistance section of the Graduate Catalog for more information.) In an effort to promote and support program completion, EAHE defines Academic Standing as follows:

Adequate

Student actively engages in at least one of the following based on the structure of his/her academic program:

- Takes classes annually that count toward program completion (not including continuing enrollment credit)
- Completes internship(s)
- Participates in preliminary examinations
- Conducts research as illustrated by the scheduling of a prospectus or defense
- Fulfills other requirements in his/her academic program
- Maintains regular contact with his/her faculty advisor (at least once per semester)

Results: Student will continue to work on completing his/her academic program.

Inadequate

Without attaining a formal leave of absence (requested one semester at a time with a maximum of two semesters during a degree program) from the Department and the Graduate School, the student neglects to do at least one of the following based on the structure of his/her academic program:

- Take classes annually that count toward program completion (not including continuing enrollment credit)
- Complete internship(s)
- Participate in preliminary examinations
- Conduct research as illustrated by the scheduling of a prospectus or defense
- Fulfill other requirements in his/her academic program

Additionally, the student does not maintain contact with or respond to communication from his/her faculty advisor, program director, and/or department chair.

Results: The program will alert the student on what they need to do to attain Adequate Academic Standing. The student will receive time to meet these requirements based on the availability of course offerings, examinations, or other missing requirements. Following the satisfaction of the missing requirements, the program will reassess academic standing of the student.

Delinquent

Over a sustained period without attaining a formal leave of absence from the Department and the Graduate School, the student repeatedly fails to do at least one of the following based on the structure of his/her academic program:

- Take classes annually that count toward program completion (not including continuing enrollment credit)
- Complete internship(s)
- Participate in preliminary examinations
- Conduct research as illustrated by the scheduling of a prospectus or defense
- Fulfill other requirements in his/her academic program

OR

The student does not maintain contact with or respond to communication from his/her faculty advisor, program director, and/or department chair over a sustained period.

OR

The student fails to complete all of the program requirements within the specified time limit.

Results: The Department will alert the student to his/her academic deficiencies and provide an opportunity for the student to author a written appeal to this status within a specified time limit. This appeal should include the steps that the student intends to take to address academic deficiencies. The Department will respond upon receipt of the student's written appeal.

If the Department elects to approve the student's written appeal, the student will receive a specified period of time to fulfill the conditions of the appeal. Successful completion of these conditions will lead to a reassessment of the academic standing of that student.

A student who fails to provide or satisfy the conditions of a written appeal may be subject to dismissal from his/her academic program and the Graduate School.

As specified by the Graduate School, it is the responsibility of each student to keep the University and the Department apprised of his/her up-to-date contact information. (Refer to the Financial Assistance section of the Graduate Catalog for more information.)

Program Expectations and Time Limits

Once enrolled, the Department expects each student to make continuous academic progress toward completing his/her specified program. Please refer to the information below to learn more about the expectations for your specific program.

Master's Degrees, Certificates, and Endorsements

Upon admission to pursue a master's degree, certificate, and/or endorsement offered by EAHE, the Department will expect students to maintain adequate academic standing. To maintain this status, each student must enroll in, complete, and pass courses, internships, exams, and other requirements that lead to the completion of his/her specified academic program. As specified by the Graduate School, each student will have six calendar years, from the date of initial enrollment, to complete all of the requirements for his/her specified academic program. (Refer to the Degree Requirements section of the Graduate Catalog for more information.)

EAHE Graduate Credit From Post-Master's Courses

The programs within Educational Administration and Higher Education at the School of Education will accept selected post-master's degree credits earned by students prior to acceptance into the Ph.D. program. Credit will not be accepted for Independent Readings, independent Studies, or Internship courses. EAHE will accept up to the maximum of credits allowed by the Graduate School at SIU.

Rationale - We need to do this to establish consistency for all of the students. Previously, some students had the opportunity to utilize these courses, while others did not.

Doctoral Program

The program will expect students to maintain adequate academic standing for the duration of their enrollment in the Doctoral Program. To establish and maintain this status, each doctoral student must enroll in, complete, and pass courses, internships, program of study, exams, research elements, and other requirements that lead to the completion of their degree. All requirements completed prior to advancing to candidacy will remain valid for 10 calendar years. If a student does not advance to candidacy within the 10-year period, the student may face additional academic requirements or dismissal from the Doctoral Program. As specified by the Graduate School, each doctoral student will have five calendar years to complete the remaining elements of his/her degree program after advancing to candidacy. (Refer to the Degree Requirements section of the graduate Catalog for more information.) If a student does not complete his/her doctoral degree within five calendar years after advancing to candidacy, the student may face additional academic requirements or dismissal from the Doctoral Program.

Written Appeals

Any student enrolled in a program offered by EAHE may author a written appeal regarding his/her academic standing. Written appeals should include the following:

- Your name (according to University records), DAWG tag #, and current contact information (postal address, phone, and email).
- An outline detailing why the Department should allow you to remain an active student in your specified program.

- A description of the difficulties or any extraordinary circumstances that have inhibited your progress toward completing your degree, certificate, or endorsement.
- A specific timeline of strategies and plans that you will use to make satisfactory progress toward program completion from this point forward. Note: if the faculty members choose to reinstate you as a student, we will regard this timeline and expressed strategies as a contract. Failure to make progress under these conditions will be cause for immediate dismissal from the specified academic program without the opportunity for any further appeals.
- Identification of and established communication with a current EAHE faculty member who has agreed to serve as your adviser and will assist you in completing your program.

Upon receipt of notification that the program deems the student's academic standing to be either Inadequate or Delinquent, the student will have 45 calendar days to provide a written appeal to the program. If a student chooses not to author a written appeal regarding their academic standing, then the original determination issued by the program will remain and the program will inform the Graduate School of the student's status, which may result in dismissal from the specified program and the Graduate School. Students who disagree with the final decision issued by the program must refer to the Graduate Student Academic Grievance Policy established by the Graduate School. (Refer to the Academic Grievances Policy/Procedures section of the Graduate Catalog for more information.)

Master of Science in Education Degree

The Master of Science in Education degree in educational administration is a cohort program, with admissions once a year. This program leads to an Illinois Principal Endorsement. Contact the department for application deadline and cohort start date information. The program includes a 36-semester hour core consisting of:

- EAHE 501 Vision and Planning for School Improvement
- EAHE 503 Building Collaborative Structures and Systems of Professional Practice
- EAHE 504 School Leadership through Personnel Administration and Evaluation
- EAHE 509 School Community Relations and District Policy
- EAHE 511 Leading Curriculum and Assessment
- EAHE 519 School Law and Educational Policy
- EAHE 521 Leadership for Equity - Special Populations
- EAHE 523 Effective Management and Operations: Finance, Facilities, Technology & Grants
- EAHE 538 Education, Policy, and Social Forces
- EAHE 548 Developing Professionals and the Inquiry of Professional Practice
- EAHE 595 Principal Internship (6 credit hours)

Master of Science in Education Degree / J.D. in Law

A concurrent degree in educational administration and law is designed to enhance students' knowledge of the increasingly litigious areas of education law. Specifically, the program is designed to educate practitioners in law and educational administration to effectively utilize the problem-solving strategies and techniques of both disciplines. Students prepared in this program will develop an understanding of the ethics, language, research, history, and processes of both professions. Individuals so trained will be uniquely prepared for careers that combine both legal and educational needs, such as K-12 administration, public policy leadership roles, and student or employee advocacy. In addition, strengthening the academic training of lawyers and school administrators will enhance the quality of research performed in both disciplines, as well as enhance the quality of publications in both fields of study. Students with this joint degree will be uniquely prepared to address the myriad of problems in our society that present complex legal and educational issues. Students who complete this program will have enhanced educational and professional opportunities both inside and outside academia. Students must meet the requirements of admission and be admitted separately to the Educational Administration program and the School of Law. Students currently enrolled in the educational administration or law programs must have a minimum GPA before they may enroll in the concurrent program. The minimum GPA for education administration is 3.0 and for law is 2.5. Educational Administration students interested in this program should consult with the Educational Administration Graduate Program Director.

Doctor of Philosophy Degree in Education

The Educational Administration and Higher Education program participates in the doctoral program in education with an approved concentration in educational administration. See the description of the Ph.D. degree in education. The program also administers a cooperative doctoral program with SIU Edwardsville.

Inquiries regarding application to their programs should be directed to the admissions clerk of the Department of Educational Administration and Higher Education program.

Doctor of Education Degree in Educational Administration

The program will offer a set of general administrative courses to all students enrolled in the EdD Program.

Current and prospective students should contact program faculty members for information on courses, sequences, and other requirements.

Educational Administration Courses

EAHE402 - Prin Stu Person Grp Work 402-1 to 3 Principles of Student Personnel Group Work. Acquaints the student with group work possibilities and functions in higher education.

EAHE470 - College Student Sexuality 470-3 College Student Sexuality. (Same as WGSS 470) Seminar designed to provide students with a strong grounding in the field of college student sexuality and sexual identity, covering the lived experiences of U.S. college students, the construction of sexualized collegiate identities through U.S. history, and how institutions of higher education have attempted to regulate, control, and (intentionally as well as inadvertently) effect college student sexuality.

EAHE500 - Educ Research Methods 500-3 Educational Research Methods. Introduction to educational research and the variant methodologies used in conducting studies within institutional settings. Both quantitative and qualitative approaches will be examined.

EAHE501 - Vision/Planning Sch Improve 501-3 Vision and Planning for School Improvement. In this graduate level course, school professionals will be introduced to the role and functions of the school principal as defined in federal, state, and local statutes. It will also address the variations of that role based on school level (Pre-K, elementary, middle, and high school). Professionals will be able to define and conceptualize what it means to be an instructional leader and the notion of distributed leadership. Professionals will gain an understanding of the needs of all students (ELL/bilingual; special needs, other). Professionals will understand how literacy and numeracy instruction impacts student learning and how student performance data informs the school vision and plans for school improvement.

EAHE502 - Admin Ldrshp & Practice 502-3 Administrative Leadership and Practice. This course provides an introduction to key concepts, issues, and proficiencies relevant to doctoral study. This course concentrates on fostering skills and competencies that help educators develop into practitioner-scholars. Topic areas will include cultivating systemic knowledge and perspectives; identifying and reviewing existing literature; critically examining educational programs, policies, and structures; connecting research and theory to administrative practice; and recognizing and working to address the needs of students, faculty, staff, board members, policymakers, and other stakeholders.

EAHE503 - Collaborative Structures 503-3 Building Collaborative Structures and Systems of Professional Practice. In this graduate level course, school professionals will focus on structures that allow engagement between educators on issues of practice (i.e., professional learning communities, communities of practice) as a means for leaders to support the development of organizational goals, group and individual student, parent involvement, professional teaching/learning, and school success. School professionals will learn to track cohort data to determine the successes of groups and subgroups as a means to determine whether or not school culture is unified and cohesive. School professionals will apply theory to practice as they engage in decision-making activities involving school-wide change

processes and monitoring effective instruction, expanding upon their awareness of the 2013 Illinois Professional Teaching Standards that foster a culture of student learning.

EAHE504 - Personnel Admin/Evaluation 504-3 School Leadership Through Personnel Administration and Evaluation. In this graduate level course, school professionals will acquire knowledge and skills to become qualified evaluators of licensed teachers. School professionals will learn to collaborate using observation and conversation to provide feedback to change teaching practices. Techniques to collect, analyze, and accurately document objective data will be learned and practiced with the goal to acquire the skills to rate the professional/instructional performance of teachers and other licensed school personnel. Restrictions: Admitted to a PK-12 graduate program in COEHS.

EAHE505 - Adm & Superv Middle School 505-3 The Administration and Supervision of the Middle School. Reviews the philosophy of the middle school concept and emphasizes the role of the principal in the areas of management, supervision of human resources, program development, the direction of students and the concern for ethical standards of operation.

EAHE506 - Adm&Superv Sec School 506-3 The Administration and Supervision of the Secondary School. Deals with problems met specifically by the high school principal. Emphasizes the principal's role in relation to guidance, curriculum, schedule-making, extra-curricular activities, public relations, budgeting of time, etc.

EAHE508 - Student Development Theory 508-3 Student Development Theory. A study of the major theories of human development as applied to college students with implications for the student affairs specialist. Restricted to students admitted to master's degree or certificate in higher education, or consent of instructor.

EAHE509 - School-Community Relations 509-3 School Community Relations and District Policy. In this graduate level course, school professionals will learn to achieve the school's vision and obtain support for school improvement through effectively communicating and collaborating with the central office, faculty and staff, school families, and community members. School professionals will define community in terms of diversity, develop plans to build a cohesive school community, connect research with the professional context, engage in effective decision-making practices, and communicate results to constituents using appropriate written and verbal formats.

EAHE510 - Higher Ed in the U.S. 510-3 Higher Education in the United States. An overview of American higher education in historical and sociological perspectives: its development, scope, characteristics, issues, problems, trends and criticism. Restricted to students admitted to master's degree or certificate in higher education, or consent of instructor.

EAHE511 - Curriculum & Assessment 511-3 Leading Curriculum and Assessment. In this graduate level course, school professionals will learn to promote a shared vision of the elements of school and curriculum that make higher achievement possible, setting high expectations for all students to learn high-level content. Through this course, the school professional establishes effective curriculum delivery systems and utilizes leadership and facilitation skills to effectively manage curricular change. Additionally, the school professional promotes the success for all students by using data to initiate and continue improvement in school and classroom practices and increased student achievement. The school professional will accomplish these course goals by acquiring an understanding of the use of rigorous formative, interim, and summative assessments.

EAHE513 - Org & Admin in Higher Ed 513-3 Organization and Administration in Higher Education. Theories and practices in governance of various types of higher education institutions with attention to problems of formal and informal structures, personnel policies, decision making, institutional self-study and societal-governmental relations. Restricted to students admitted to master's degree or certificate in higher education, or consent of instructor.

EAHE514 - Case Studies in Higher Educ 514-3 Case Studies in Higher Education. This course is designed to allow graduate students studying to be administrators in higher education practice at analyzing problems and issues in postsecondary education, as well as problems and issues facing college students. Extended, semester-long case studies are utilized. Prerequisite: EAHE 508 or consent of instructor.

EAHE515 - Student Affairs Admin 515-3 Student Affairs Administration. Study of organization, functions, and under girding principles and policies of student development and the related student personnel services and programs in contemporary colleges and universities including community colleges. Restricted to students admitted to master's degree or certificate in higher education or consent of instructor.

EAHE516 - College Students/Culture 516-3 College Students and College Culture. Study of the nature of students, the impact of the college on student development, and the nature of the college as a unique social institution. Study of student subcultures and the interaction between students, institutions, and communities. Restricted to students admitted to master's degree or certificate in higher education, or consent of instructor.

EAHE517 - Legal Framework of Education 517-3 The Legal Framework of Education. A study of administrative, judicial, statutory and constitutional laws which have application in American public schools.

EAHE518 - College Teaching 518-3 College Teaching. Emphasis is given to teaching and learning styles, the teaching-learning process, specific methods of teaching, strategies to improve teaching, resources available to the classroom teacher, and methods of evaluating teaching. Other topics will include: models of effective teaching behavior, academic freedom and due process. Course also open to teaching assistants from other departments.

EAHE519 - School Law & Educ Policy 519-3 School Law and Educational Policy. In this graduate level course, school principal candidates will become acquainted with fundamental legal issues that impact P-12 schools. The candidates will acquire knowledge to understand, respond to, and influence the larger political, legal, social, economic, and cultural context while making ethical decisions, promoting democratic values and building equitable and just learning communities.

EAHE520 - Curr Issues in Educ Admin 520-1 to 6 Current Issues in Educational Administration. An examination of current issues that affect the various administrative levels in educational systems. The issue(s) selected receives intensive treatment and review. This class is offered specifically for those seeking the superintendent's endorsement.

EAHE521 - Leadership for Equity-SP 521-3 Leadership for Equity: Special Populations. In this graduate level course, school professionals will learn the role of educational leadership in promoting and supporting educational equity as a critical dimension of democracy, social justice, and related legal aspects. They will consider the moral/ethical, contextual, communal, dialogic, and transformative dimensions of school leadership that support the development of an equitable school environment, with particular emphasis on special programming for students with disabilities, economically disadvantaged, homeless, gifted, early childhood, English-language learners, and racial/ethnic minority students.

EAHE523 - Effective School Management 523-3 Effective Management and Operations: Finance, Facilities, Technology & Grants. In this graduate level course, school professionals will acquire skills for successful school management of finances, facilities, technology and grants. The course covers vital aspects of managing fiscal, human, and material resources that facilitate student learning, safety and support curriculum and instruction. Restricted to admission to a PK-12 graduate program in COEHS.

EAHE524 - Curriculum Design/Policy 524-3 Curriculum Design and Policy. A study of assumptions, materials, methods and evaluation in the designs of various curricula in colleges and universities, with attention to curriculum resources and policy.

EAHE525 - Equity Diversity Higher Ed 525-3 Equity and Diversity in Higher Education. This course is designed to educate students in two ways: by broadening understanding and deepening readings into diverse higher education populations and issues, and by applying those understandings and readings to their practices as postsecondary administrators and educators.

EAHE526 - The Community College 526-3 The Community College. A study of the characteristics and functions of the community or junior college in American higher education. Course content aids the student in developing a general understanding of the philosophy, objectives, organization, and operations of this significant institution.

EAHE528 - Finance in Higher Education 528-3 Finance in Higher Education. A study of financing higher education in American society and related economic aspects. Emphasis is given to sources of funds and management of financing in colleges and universities including budgeting, control, accountability and current trends. Restricted to students admitted to master's degree or certificate in higher education, or consent of instructor.

EAHE530 - Historical Research: Educ 530-3 Historical Research in Education. Seminar designed to explore the literature, methods and possibilities of historical research in education.

EAHE532 - Acct & Budgeting in Schools 532-3 Accounting and Budgeting in School Operations. This course provides candidates with a foundation in accounting and budgeting as relates to K-12 school operations and management. Topics covered will include budgeting, payroll administration, bonded indebtedness, accounting for receipts and expenditures, extracurricular funding, analysis of statements, financial issues related to auxiliary enterprises, and other principles of accounting as related to school operations. This course is specifically for candidates seeking to complete the Chief School Business Official Endorsement.

EAHE534 - School Fiscal Mgmt & Planning 534-3 School Fiscal Management and Planning. This course provides candidates with a foundation in accounting and budgeting as relates to K-12 school operations and management. Applications addressed in this course will include: data processing systems to school fund accounting, payroll, inventories, curriculum, personnel, registration procedures, budget, textbook accounting, and other business office functions. This course is specifically for candidates seeking to complete the Chief School Business Official Endorsement. Prerequisite: EAHE 532 or consent of the instructor.

EAHE535A - Sem I: Studt Org/Act Adv 535A-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Student organization and activities advising.

EAHE535B - Sem I: Law & Higher Education 535B-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Law and higher education.

EAHE535C - Sem I: Student Fin Assist 535C-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Student financial assistance.

EAHE535D - Sem I: Admissions & Records 535D-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Admissions and records.

EAHE535E - Sem I: Acad & Faculty Admin 535E-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Academic and faculty administration.

EAHE535F - Sem I: Cur Iss/Student Affairs 535F-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Current issues in student affairs.

EAHE535G - Sem I: Housing Administration 535G-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Housing administration.

EAHE535H - Sem I: Non-Trad Students 535H-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Non-traditional students.

EAHE535I - Sem: Gender in Higher Ed 535I-1 to 14 (1 to 3 each) Higher Education Seminar I. (Same as WGSS 535) A series of seminars for specialized study of areas of administrative practice and policy. Gender in higher education.

EAHE535J - Sem I: Student Union Admin 535J-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Student union administration.

EAHE535K - Sem I: Special Topics 535K-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Special topics.

EAHE535S - Sem I: Selected Topics 535S-1 to 14 (1 to 3 each) Higher Education Seminar I. A series of seminars for specialized study of areas of administrative practice and policy. Special Topics.

EAHE536 - Hist of Education in U.S. 536-3 History of Education in the United States. An historical study of the problems of American education.

EAHE537 - The Adult Learner 537-3 The Adult Learner. The focus of study will be adult learners, their motivations, learning styles, needs, goals, life stages, life cycles and developmental patterns. Implications for adult learning will be sought.

EAHE538 - Educ Policy & Social Forces 538-3 Education, Policy, and Social Forces. In this graduate level course, students will examine the foundations of educational policy and practice. Students will develop the ability to critically analyze historical and contemporary issues in American education by exploring the social, political, economic, and cultural context of education. Students will be able to evaluate educational policies and practices in light of various assumptions, ideals, and values about public education. This knowledge will enable educators to understand the broader social and political forces that shape their educational community (i.e., students, faculty, and staff) and their roles as educational leaders.

EAHE542 - Contrast Philosophies Educ 542-3 Contrasting Philosophies of Education. An examination of current educational problems and trends in the light of contrasting philosophies of education.

EAHE543 - Collective Bargaining 543-3 Collective Bargaining. An investigation of theory as related to collective bargaining and professional negotiations. Course will emphasize various approaches to collective bargaining and the roles included in those processes. Course will also use cases and simulations to illustrate examples of collective bargaining processes.

EAHE544 - Education and Culture 544-3 Education and Culture. A study of the concept of culture and its relation to the process of education.

EAHE545A - Hghr Educ Sem II-CC Admin 545A-1 to 16 (A through J, 1 to 3 each) Higher Education Seminar II-Community College Administration. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545B - Sem II:Fed Init in Hi Ed 545B-1 to 16 (1 to 3 each) Higher Education Seminar II-Federal Initiatives in Higher Education. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545C - Sem II: Inst Policy Res 545C-1 to 16 (1 to 3 each) Higher Education Seminar II-Institutional Policy Research. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545D - Sem II:Curr Issues Hi Ed 545D-1 to 16 (1 to 3 each) Higher Education Seminar II-Current Issues in Higher Education. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545E - Sem II: Higher Ed Admin 545E-1 to 16 (1 to 3) Higher Education Seminar II-Higher Education Administration. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545F - Sem II: Inst Finance & Admin 545F-1 to 16 (1 to 3) Higher Education Seminar II-Institutional Finance and Administration. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545G - Sem II: History of Higher Ed 545G-1 to 16 (1 to 3) Higher Education Seminar II-History of Higher Education. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545H - Sem II: Sociology Hi Ed 545H-1 to 16 (1 to 3) Higher Education Seminar II-Sociology of Higher Education. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545J - Sem II: Adult & Continuing Ed 545J-1 to 16 (1 to 3) Higher Education Seminar II-Adult and Continuing Education. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE545S - Sem II: Selected Topics 545S-1 to 16 (1-8 each) Higher Education Seminar II-Selected Topics. A series of seminars for scholarly inquiry into significant aspects of higher education.

EAHE546 - Co-Curricular Assessment 546-3 Co-Curricular Assessment. The purpose of this class is to develop an understanding of assessment practices as applied to the out-of-class experiences of college students. Throughout this course, students will become familiar with concepts and approaches used to assess various areas within student affairs.

EAHE547 - Eval Educational Research 547-3 Evaluating Educational Research. The goal of this course is to develop student skills as consumers of research in education. Standards and practices in multiple traditions of educational research are reviewed in order to help students critically read, assess, and evaluate research. Restricted to master's degree and certificate in higher education, or consent of instructor.

EAHE548 - Inquiry of Prof Practice 548-3 Developing Professionals and the Inquiry of Professional Practice. In this graduate level course, school professionals learn to critically read, evaluate and apply educational research so that they can engage their school systems in continuous inquiry to positively affect student achievement. School professionals will develop an action research project proposal designed to appropriately address a building-level issue. Students will learn to lead action research through the development of sound research design.

EAHE550 - School Business Admin 550-3 School Business Administration. A study of the principles and practices governing management of business affairs of a public school system. Included are such topics as revenues, expenditures, accounting, auditing, reporting and applications of electronic data processing as a management tool. Practical experience is given in using the Illinois financial accounting manual as well as other managerial procedures. Detailed study is made of the role of the school business administrator in the local school district.

EAHE551 - Policy & Politics in Ed 551-3 Policy and Politics in American Education Systems. An examination of the political setting of educational administration and a general study of public policy in the American educational system. This course is open to students in certification and doctoral programs only. In addition to educational leadership related to the politics and policy of education, emphasis is given to innovative and contemporary practices of school administration. This course will also cover policy analysis as a tool for examining and evaluating existing and proposed policies.

EAHE553 - Plan Processes & Policy Dev 553-3 Planning Processes and Policy Development. Surveys issues involved with accountability in education. Explores in some detail various planning models. Examines concepts and strategies in public policy development.

EAHE555 - Leadership & Change 555-3 Leadership and Change in Education Organizations. An advanced seminar devoted to the study of leadership and change in the administration of complex education organizations. Particular emphasis is placed on organizations as social units that pursue specific goals, which they are structured to serve. Leadership and change are examined in terms of how they can influence organizational goals, organizational structure and organizations and the social environment.

EAHE556 - Sch Supt & Board of Educ 556-3 The School Superintendent and Board of Education. Focuses on superintendent-school board relationships. It investigates the administrative team's role and functions as they relate to leadership in educational policy making.

EAHE557 - Program Dev & Evaluation 557-3 Program Development and Evaluation. This course is designed to enable an administrator to develop, implement, and evaluate a school or agency program

from inception through final assessment. An emphasis will be placed upon formal and informal means of formative and summative processes utilizing evaluation diagnostics and instrumentation. Formalized accreditation standards and guidelines will also be examined.

EAHE558 - Personnel Eval and Admin 558-3 Personnel Evaluation and Administration. This course will provide the administrator with the concepts, strategies and assessment measures to evaluate and manage personnel in both simple and complex organizational settings.

EAHE564 - Sem Ethics Soc Justice in Educ 564-3 Seminar in Ethics and Social Justice in Education. The goals of this course are to provide educational leaders with a framework for understanding the dynamics of oppression, to offer tools for ethical decision making, and to increase awareness and responsibility toward social justice issues in education.

EAHE567 - Assessment & Evaluation 567-3 Assessment and Evaluation. This course will concentrate on the development, implementation, and analysis of assessment and evaluation strategies. Course participants will gain hands-on experience by examining the components, design, influence, and outcomes of an educational program, curriculum, or academic unit. Students will learn and practice using assessment and evaluative strategies to improve administrative practice, affect student outcomes, and conduct academic research. Prerequisite: EAHE 557 with a C or better.

EAHE569 - School Operations Law 569-3 School Operations and the Law. This course presents information pertinent to understanding, interpreting, and applying appropriate law as a central office school administrator. A major emphasis concentrates on understanding basic principles of law in order to apply them at a school district-level. An emphasis focuses on interpreting current legislation for application purposes as a school administrator. Prerequisite: EAHE 519 or equivalent.

EAHE575 - Women in Higher Education 575-3 Women in Higher Education. (Same as WGSS 575) The goal of this course is to provide an overview of women in higher education. Topics that will be considered are: feminism's impact of women in higher education; the division of labor for women (including faculty and professional staff positions); historical and sociological perspectives of access to higher education including curriculum and pedagogy.

EAHE576 - College Men/Masculinities 576-3 College Men and Masculinities. (Same as WGSS 576) This course is a readings-based seminar covering concepts of masculinity as demonstrated by collegiate men in the United States. The readings in this course cover cultural as well as identity elements of what being a "college man" means (and how that definition has changed over time and contexts). The readings consist of historical, contemporary and theoretical scholarship concerning collegiate masculinity.

EAHE586 - Research to Practice 586-3 Research to Practice. This course provides an overview of how research can be applied in practice within educational settings and policy arenas related to education. The research reviewed in this course will focus on an approach to inquiry that strives to improve performance, functions, and outcomes. Students will learn how to use research as a tool to examine elements of their own practice as educators with particular attention to improving student achievement, professional development and performance, administrative leadership, and the overall function of schools, colleges, and universities as organizations.

EAHE587 - Intro to Qualitative Research 587-3 Introduction to Qualitative Research. This course introduces students to qualitative research in education. The course examines the foundations, design, methods and analysis of qualitative research. Course readings include both philosophical texts about the foundations and purposes of qualitative inquiry, and methodological readings about the hands-on application of research techniques.

EAHE588 - General Graduate Seminar 588-3 to 6 General Graduate Seminar. Selected topics or problems related to administration and leadership in education.

EAHE589 - Doctoral Research Seminar 589-1 to 3 Doctoral Research Seminar. Limited to doctoral students formulating and preparing research designs for investigation and implementation. Graded S/U only. Special approval needed from the instructor.

EAHE590A - Readings: Administration 590A-1 to 6 Readings. Advanced reading in one of the following areas-Administration. Special approval needed from the instructor. Graded S/U only.

EAHE590B - Readings: Buildings 590B-1 to 6 Readings. Advanced reading in one of the following areas-Buildings. Special approval needed from the instructor. Graded S/U only.

EAHE590C - Readings: Superv Curriculum 590C-1 to 6 Readings. Advanced reading in one of the following areas-Supervision of curriculum. Special approval needed from the instructor. Graded S/U only.

EAHE590D - Readings: Finance 590D-1 to 6 Readings. Advanced reading in one of the following areas-Finance. Special approval needed from the instructor. Graded S/U only.

EAHE590E - Readings: School Law 590E-1 to 6 Readings. Advanced reading in one of the following areas-School law. Special approval needed from the instructor. Graded S/U only.

EAHE590F - Readings: Supervision 590F-1 to 6 Readings. Advanced reading in one of the following areas-Supervision. Special approval needed from the instructor. Graded S/U only.

EAHE590G - Readings: Comparative Ed 590G-1 to 6 Readings. Advanced reading in one of the following areas-Comparative education. Special approval needed from the instructor. Graded S/U only.

EAHE590H - Readings: History of Ed 590H-1 to 6 Readings. Advanced reading in one of the following areas-History of education. Special approval needed from the instructor. Graded S/U only.

EAHE590I - Readings: Philosophy Ed 590I-1 to 6 Readings. Advanced reading in one of the following areas-Philosophy of education. Special approval needed from the instructor. Graded S/U only.

EAHE590J - Readings: Sociology Educ 590J-1 to 6 Readings. Advanced reading in one of the following areas-Sociology of education. Special approval needed from the instructor. Graded S/U only.

EAHE590K - Readings: Adult/Community Ed 590K-1 to 6 Readings. Advanced reading in one of the following areas-Adult and community education. Special approval needed from the instructor. Graded S/U only.

EAHE590L - Readings: Higher Education 590L-1 to 6 Readings. Advanced reading in one of the following areas-Higher education. Special approval needed from the instructor. Graded S/U only.

EAHE591 - Individual Study 591-1 to 6 Individual Study. Individual inquiry into selected problems or special topics in higher education under supervision of a graduate faculty member. Graded S/U only. Special approval needed from the instructor.

EAHE593A - Ind Res: Administration 593A-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in administration. Graded S/U only. Special approval needed from the instructor.

EAHE593B - Ind Res: Buildings 593B-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in buildings. Graded S/U only. Special approval needed from the instructor.

EAHE593C - Indiv Res: Superv/Curriculum 593C-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in supervision of curriculum. Graded S/U only. Special approval needed from the instructor.

EAHE593D - Indiv Research: Finance 593D-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in finance. Graded S/U only. Special approval needed from the instructor.

EAHE593E - Indiv Research: School Law 593E-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the

personal supervision of a graduate faculty member in school law. Graded S/U only. Special approval needed from the instructor.

EAHE593F - Indiv Res: Supervision 593F-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in supervision. Graded S/U only. Special approval needed from the instructor.

EAHE593G - Indiv Res: Comparative Ed 593G-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in comparative education. Graded S/U only. Special approval needed from the instructor.

EAHE593H - Ind Res: History of Education 593H-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in history of education. Graded S/U only. Special approval needed from the instructor.

EAHE593I - Ind Res: Philosophy Educ 593I-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in philosophy of education. Graded S/U only. Special approval needed from the instructor.

EAHE593J - Ind Res: Sociology Educ 593J-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in sociology of education. Graded S/U only. Special approval needed from the instructor.

EAHE593K - Ind Res: Adult/Community Educ 593K-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in adult and community education. Graded S/U only. Special approval needed from the instructor.

EAHE593L - Ind Res: Higher Education 593L-1 to 3 per topic Individual Research. Maximum of six hours toward master's degree. Selection, investigation and writing of a research assignment under the personal supervision of a graduate faculty member in higher education. Graded S/U only. Special approval needed from the instructor.

EAHE594 - Advanced Qualitative Research 594-3 Advanced Qualitative Research. This course is a doctoral-level seminar in qualitative research. The course builds on EAHE 587, "Introduction to Qualitative Research," by focusing on the design and implementation of an independent qualitative research project. As such, this course emphasizes research design, conceptualization and analysis. Course readings review some of the foundations of qualitative inquiry, and include texts that focus on research design and modes of qualitative analysis. Prerequisite: EAHE 587.

EAHE595 - Principal Internship 595-2 to 6 Principal Internship. The School Principal Internship is a sustained, continuous, structured, and supervised learning opportunity for practicing principals (interns) to observe firsthand the role and function of the school principal. The internship takes place within 12 months during which students complete a total of 6 credit hours.

EAHE596 - School Mgmt Internship 596-1 to 6 School Business Management Internship. An internship conducted in a K-12 school setting for fulfillment of the state of Illinois' School Business Management Endorsement. Special approval needed from student's adviser or designee. Students must complete a total of 6 credit hours of internship to qualify for the state endorsement.

EAHE597 - Superintendent Internship 597-1 to 6 Superintendent Internship. An internship conducted in a central administrative setting for fulfillment of the state of Illinois' Level III Administrative Certificate. Special approval needed from student's adviser.

EAHE598 - Higher Education Internship 598-1 to 6 Higher Education Internship. The internship provides an opportunity for practical experience related to college level teaching or administration. Each student must obtain prior approval from his/her advisor before registering for or starting an internship.

Additionally, each student must pass all of the assigned internship requirements in order to receive a pass for the course. Special approval needed from the advisor.

EAHE599 - Thesis 599-1 to 6 Thesis.

EAHE600 - Dissertation 600-1 to 36 (1 to 12 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree.

EAHE601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

EAHE699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Educational Administration Faculty

Colwell, William Bradley, Professor, Ph.D. and J.D., University of Illinois at Urbana-Champaign, 1996. Education law and policy, collective bargaining.

Dilley, Patrick, Professor, Ph.D., University of Southern California, 2000; 2001. History of higher education, gender studies, and qualitative research.

Dively, John, Clinical Assistant Professor, *Emeritus*, Ed.D., Illinois State University, 1995, J.D., Southern Illinois University, 1985; 2014.

Donahoo, Saran, Professor and *Chair*, Ph.D., University of Illinois at Urbana-Champaign, 2004; 2004.

Eaton, William E., Professor, *Emeritus*, Ph.D., Washington University, 1971; 1971.

Goldman, Samuel, Professor, *Emeritus*, Ph.D., University of Chicago, 1961; 1980.

Green, Judith A., Associate Professor, *Emerita*, Ph.D., Purdue University, 1990; 2005. School leadership.

Kelly, Gary, Clinical Assistant Professor, Southern Illinois University, 2006; 2018. School and instructional leadership.

Electrical and Computer Engineering

Graduate Programs and Research Areas

The Department of Electrical and Computer Engineering offers programs of study and research leading to i) the Master of Engineering (M.Eng.) degree in Electrical and Computer Engineering, ii) the Master of Science (M.S.) degree (thesis/non-thesis) in Electrical and Computer Engineering, and iii) the Doctor of Philosophy (Ph.D.) degree in Electrical and Computer Engineering.

The Department provides a rich environment for educational and professional advancement in the following areas:

1. **Electrical Systems:** Autonomous Vehicles, Control Systems, Robotics, Electric Energy & Renewables, Power Systems, Electric Vehicles, Medical Instruments, Optics & Photonics, Antennas
2. **Microelectronics:** Electronic Design Automation, Emerging Nanoscale and Quantum Technologies, VLSI Circuits, Integrated Systems, Medical Electronics, Sensors
3. **Signals and Communications:** Image processing, Signal Processing, Telecommunications, Communication Networks
4. **Hardware and Firmware:** Computer Architectures, Embedded Systems, Network Systems, Robotics, Programmable Logic Controllers

5. **Systems Software:** Cloud Computing, Digital Design Automation, Multi-Core Programming, High-Performance Scientific Computing, Operating Systems, Software Engineering, Systems Programming.

The ECE programs of study provide a balance between formal classroom instruction and research, and are tailored to the individual student's academic and professional goals. Graduates of the program enjoy excellent employment opportunities and are highly recruited worldwide in industry, government, and academia.

Courses (ECE)

Graduate work in the Department of Electrical and Computer Engineering is offered towards: i) the Master of Engineering (M.Eng.) degree in Electrical and Computer Engineering, ii) the Master of Science (M.S.) degree (thesis/non-thesis) in Electrical and Computer Engineering, and iii) the Doctor of Philosophy (Ph.D.) degree in Electrical and Computer Engineering. Safety glasses are required for some of the courses in this department. Note that only 3 credit hours from each eligible 400-level course (listed in the graduate catalog) will be counted towards the graduate degree. Also, for cross-listed courses, graduate students must register for the 500-level equivalent.

Accelerated Master's Program

Objectives

The Accelerated Master's Program is designed for high-achieving students who are currently enrolled in the undergraduate ECE program at SIU. The program will allow students to earn both Bachelor's degree and Master's degree within 5 years by completing 147 credit hours (instead of 156 credit hours if pursuing Bachelor's and Master's studies separately).

Admission

Interested students will consult their undergraduate Academic Advisor to learn more about the program and how to apply. Students who have earned or are in the process of earning 60 or more credit hours with a minimum GPA of 3.0/4.0 overall could apply. Two recommendation letters from SIU faculty members are needed. The GRE or equivalent test requirement is waived for the accelerated Master's program.

Apply as early as the beginning of the first semester of junior year for acceptance into the program. Work with the undergraduate Academic Advisor (and a potential graduate faculty advisor, if needed) to develop a program of study identifying 9 credit hours that may be counted towards both the Bachelor's degree and the Master's degree.

Students are considered as undergraduates until all requirements for the Bachelor's degree have been fulfilled. For the Master's degree, they will have the option to select either the M.S. (thesis/non-thesis) or the M.Eng. track.

Curriculum

Junior/Senior Year - Complete up to 9 graduate-level credit hours during the junior/senior year taken from the ECE Department (excluding ECE 492 and ECE 592). At most 9 graduate-level credit hours will be counted towards both the Bachelor's and the Master's degree requirements. Graduate Year - Complete the remaining Master's coursework within one year of full-time graduate study.

Retention

Any graduate student whose cumulative grade point average falls below 3.0 on courses that count towards the Master's degree will be placed on departmental academic probation.

Master of Engineering (M.Eng.) in Electrical and Computer Engineering

Objectives

The program is designed to allow a graduate student to earn non-thesis Master of Engineering (M.Eng.) degree in 2-3 semesters (with the possibility of completing within one year). The M.Eng. program is coursework-oriented and is inclined towards professional development, allowing more flexibility in taking online/distance education hours.

Admission

The M.Eng. program is designed for individuals holding a Bachelor's degree in electrical or computer engineering or related field. Qualified applicants with Bachelor's degree in other areas of engineering and science may be able to enroll in the programs with additional preparation (approved by the Department on a case-by-case basis).

Admission to the M.Eng. program is based on the following factors: grade point average of 2.75 or higher on a scale of 4.0 on approximately the last 60 semester hours of undergraduate coursework, class ranking, and faculty recommendation letters. GRE scores are not required for admission. However, out-of-state or international students whose GRE Verbal score or Quantitative score percentile is 80% or higher will have the advantage of paying in-state graduate tuition rate. The minimum TOEFL score requirement for international applicants is 550 (paper based) or 80 (computer based). The program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Electrical and Computer Engineering. Applicants must pay this fee by credit card.

Please address any correspondence to "Master of Engineering Program," Department of Electrical and Computer Engineering, Southern Illinois University Carbondale, Carbondale, Illinois 62901-6603. For telephone inquiries please call 618-536-2364, and refer to the Master of Engineering Program. The Electrical and Computer Engineering facsimile number is 618-453-7972, and the email address is ecedept@siu.edu. The Electrical and Computer Engineering home page address is engineering.siu.edu/elec.

Curriculum

The program requires a total of 30 semester hours of graduate-level credit. ECE 592 and ECE 580 (seminar) will not count towards the degree. With the approval of the Department, online/distance education hours offered by the University could be applied towards the degree. Also, with the approval of the Department, a maximum of 6 hours from academic units outside the ECE Department, could be applied towards the degree. These courses may include topics such as business fundamentals, entrepreneurship, management and leadership.

A student pursuing the M.Eng. degree could switch to the M.S. program upon the recommendation of ECE faculty, provided all requirements of the M.S. degree are met.

Retention

Any student whose cumulative grade point average falls below 3.0 on courses that count towards the degree will be placed on departmental academic probation. Any graduate student on academic probation whose grade point average remains below 3.0 on courses that count towards the degree for two consecutive semesters in which she or he is enrolled will be permanently suspended from the program, unless the department grants an exception.

Master of Science (M.S.) in Electrical and Computer Engineering

Objectives

The Master of Science (M.S.) program has two tracks: i) The non-thesis track is coursework-oriented; ii) The thesis track is research-oriented and is designed for students who want to pursue research or a Ph.D. degree. The degree (non-thesis/thesis) can be completed in 3-4 semesters.

Admission

Individuals holding a Bachelor's degree in electrical or computer engineering or related field may apply. Qualified applicants with Bachelor's degree in other areas of engineering and science may be able to enroll in the program with additional preparation (approved by the Department on a case-by-case basis).

Admission to the M.S. program is based on the following factors: grade point average of 3.0 or higher on a scale of 4.0 on approximately the last 60 semester hours of undergraduate coursework, class ranking, and faculty recommendation letters. GRE scores are not required for admission. However, out-of-state or international students whose GRE Verbal score or Quantitative score percentile is 80% or higher will have the advantage of paying in-state graduate tuition rate. Also, GRE scores, especially Quantitative, may be considered for fellowships/assistantships/scholarships. The Department admission requirements of this program are higher than the minimum requirements of the Graduate School. The minimum TOEFL score requirement for international applicants is 550 (paper based) or 80 (computer based). The program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Electrical and Computer Engineering. Applicants must pay this fee by credit card.

Please address any correspondence to "Master of Science Program," Department of Electrical and Computer Engineering, Southern Illinois University Carbondale, Carbondale, Illinois 62901-6603. For telephone inquiries please call 618-536-2364, and refer to the Master of Science Program. The Electrical and Computer Engineering facsimile number is 618-453-7972, and the email address is ecedept@siu.edu. The Electrical and Computer Engineering home page address is engineering.siu.edu/elec.

Curriculum

The program requires a total of 30 semester hours of graduate-level credit. For the non-thesis track, at least 6 credit hours must be in ECE 500-level courses that are not cross-listed to ECE 400-level courses. ECE 592 and ECE 580 (seminar) will not count towards the degree. For the thesis track, six hours of thesis (ECE 599) are required. A maximum of three hours of ECE 592 could be counted towards the degree requirements. ECE 580 (seminar) will not count towards the degree. Students in this track will develop a program of study in consultation with their thesis advisor/committee. For both non-thesis and thesis tracks, with the approval of the Department, a maximum of 3 online/distance education hours offered by the ECE Department, and a maximum of 6 hours from academic units outside the ECE Department, could be applied towards the degree. Also, note that, for cross-listed courses, graduate students must register for the 500-level equivalent.

Retention

Any student whose cumulative grade point average falls below 3.00 on courses that count towards the degree will be placed on departmental academic probation. Any graduate student on academic probation whose grade point average remains below 3.0 on courses that count towards the degree for two consecutive semesters in which she or he is enrolled, excluding summer sessions, will be permanently suspended from the program, unless the department grants an exception.

Doctor of Philosophy (Ph.D.) in Electrical and Computer Engineering

Objectives

The program is designed to achieve the following academic objectives:

1. to fulfill the obligation of the ECE Department to provide high quality education through the doctoral level as is mandated by the mission statement of the University;
2. to provide the students with the training necessary to successfully apply the fundamental concepts and methods of electrical and computer engineering to specific areas of research and development;
3. to provide the graduates with the ability to independently organize and conduct research in electrical and computer engineering;
4. to provide the graduates with the ability to concisely disseminate existing and new knowledge and to accurately present their research plans in writing.

Program Structure

The program offers the following areas of concentration: Biomedical, Communications, Computers, Control, Electronics, Electromagnetics, Very Large-Scale Integration (VLSI), Networks, Optics, Power Systems, and Signal Processing.

Admission

Individuals holding a Master's degree in electrical or computer engineering or related field with a GPA of 3.25/4.0 or higher may apply. Applications for admission must include the following: a statement of research interest, transcripts, official GRE scores, three reference letters and TOEFL/ IELTS score (where appropriate), as required by the Graduate School.

For direct and accelerated entry into the Ph.D. program, a Bachelor of Science degree in Electrical or Computer Engineering or a related field with a GPA of 3.20/4.0 or higher is required. Applications for admission must include the following: a statement of research interest, transcripts, official GRE scores, three reference letters and TOEFL score, as required by the Graduate School.

Advisement

The student must select a committee consisting of three members within the semester of admission. One member will serve as the student's advisor and also chair the committee. The committee will assist the student in selecting six 500-level ECE courses that define the core and in developing a plan of study. The advisor committee members must be voting ECE faculty members and must meet the requirements of the Graduate school.

Retention

Any graduate student whose cumulative grade point average falls below 3.25 on courses that count towards the degree will be placed on departmental academic probation. Any graduate student on academic probation whose grade point average remains below 3.25 on courses that count towards the degree for two consecutive semesters in which she or he is enrolled, excluding summer sessions, will be permanently suspended from the program, unless the department grants an exception.

Curriculum

For applicants with a Master's degree, the curriculum consists of 50 hours of credit beyond the Master's degree, of which 26 credit hours must be at the 500/400 level and 24 are dissertation hours. 12 hours of ECE 500-level courses that are not cross-listed to 400-level courses, of which 9 hours must be taken from the selected core, 3 hours of mathematics or science or other engineering, and 2 hours of ECE seminar are required. A maximum of 3 hours of ECE 592 and 2 hours of ECE seminar could be counted towards the degree requirements. A maximum of 6 hours from academic units outside the ECE Department could be counted towards the degree requirements. The courses from academic units outside the ECE

Department must be approved by the student's Committee and the Department. With the approval of the Department, a maximum of 3 online/distance education hours offered by the ECE Department could be applied towards the degree. Core courses successfully completed for the M.S. degree can be used to fulfill the core requirements, but additional courses must be taken to satisfy the requirement of 12 hours of 500-level ECE courses beyond the M.S. degree. Also, note that, for cross-listed courses, graduate students must register for the 500-level equivalent.

For direct and accelerated entry into the Ph.D. program, the curriculum consists of 80 hours of credit beyond the B.S. degree, of which 56 credit hours must be at the 500/400 level and 24 are dissertation hours. 24 hours of ECE 500-level courses that are not cross-listed to 400-level courses, of which 9 hours must be taken from the selected core, 3 hours of mathematics or science or other engineering, and 2 hours of ECE seminar are required. A maximum of 9 hours of ECE 592 and 2 hours of ECE seminar could be counted towards the degree requirements. A maximum of 9 hours from academic units outside the ECE Department could be counted towards the degree requirements. The courses from academic units outside the ECE Department must be approved by the student's Committee and the Department. With the approval of the Department, a maximum of 3 online/distance education hours offered by the ECE Department could be applied towards the degree. Also, note that, for cross-listed courses, graduate students must register for the 500-level equivalent.

The objective of the core is to provide the candidate with the foundation necessary to engage successfully in the selected research area. Thus, the core design fulfills the research tool requirement specified in the Graduate School guidelines.

Qualifying Examinations

Upon completion of the core courses, the student may take the qualifying examination, which has two components: written exam and oral exam. Prior to taking the exam, the student must form an examining committee comprised of three voting ECE faculty members or two voting ECE faculty members and the ECE chair. The written examination covers at least three major areas of ECE and consists of questions from each member of the examining committee. The oral exam, conducted by the student's examining committee, is held within two weeks of the written exam. The student should score at least 75 percent in each area tested and must satisfactorily answer the questions in the oral exam. If not successful, the committee may allow the student to repeat the whole or part of the examination. The qualifying examination, in whole or in part, cannot be taken more than two times. The written exam, which is administered by the ECE Graduate Affairs Committee, is offered in the second week of February and the second week of September.

Candidacy

Admission to candidacy requires: (a) successful completion of the qualifying examination (which satisfies the research tool requirement of the Graduate School) and (b) successful completion of 24 hours of credit (which satisfies the residency requirement of the Graduate School).

Dissertation Committee

Following the admission to candidacy, the Department Chair in consultation with the student's advisor (dissertation supervisor) appoints the dissertation committee, which shall consist of five faculty members with at least one (but not more than two) outside the ECE Department. The student's dissertation supervisor shall be one of the five members and shall chair this committee. The dissertation supervisor must have Direct Dissertation status. A non-ECE faculty member with Direct Dissertation status may serve as a co-Supervisor along with a co-Supervisor who is a regular ECE faculty member with Direct Dissertation status.

Dissertation Proposal

Following the admission to candidacy and upon completion of all the coursework, the candidate will prepare and submit a formal written dissertation proposal, defining the proposed research and the proposed line of inquiry. The candidate subsequently must make an oral presentation of the dissertation proposal to the members of the dissertation committee in an open forum. A public announcement of this event must be made at least five days in advance.

Comprehensive Oral Examination

In the framework of the oral presentation of the dissertation proposal, the candidate is expected to address and respond to any question (by the members of the committee) related to material covered by all the courses taken during his doctoral studies or to the background necessary for the specific area of the proposed research. In addition, the candidate is expected to defend the research methodology and the proposed line of inquiry.

Dissertation

The Dissertation must be prepared in accordance to the “Guidelines for Dissertations, Theses and Research Papers” of the Graduate School. Dissertation approval is based on successful defense of the research performed in terms of originality, relevance and presentation (written and oral). This requires approval by at least 80 percent of the members of the dissertation committee.

Dissertation Defense

Upon completion of the dissertation, which must demonstrate the ability of the candidate to conduct independent research, the committee will administer the final oral examination. The objective of the final oral examination, conducted in an open forum, will be the defense of the dissertation. Upon satisfactory completion of the dissertation and the final oral examination the committee will recommend the candidate for the doctoral degree.

Technical writing and oral presentation skills are important particularly for a possible academic career. During the course of study, the student will be provided with opportunities to develop these skills (by attending technical writing classes and seminars). It is desirable to assign some teaching assistant duties to the candidate to gain some teaching experiences. The dissertation committee shall evaluate the candidate’s skills both in technical writing and oral presentation.

Graduation

The student must complete the curriculum with a minimum grade point average of 3.25 on courses that count towards degree. For entry with an M.S. degree, a dissertation approved by the committee must be completed within five years after entry.

For direct and accelerated entry, a dissertation approved by the committee must be completed within six years after entry.

The Department has established a timetable for advisement, qualifying examination, candidacy, dissertation committee formation, dissertation proposal, oral examination, and dissertation defense.

Electrical and Computer Engineering Courses

ECE417 - Systems Model Verification 417-3 Systems Modeling and Verification. Principles of Model-Based Systems Engineering. Data modeling and rule modeling. Functional architecture. Behavioral models and executable models. Verification requirements. Requirements analysis. System test and evaluation. Process validation and verification. SysML graphical modeling language. Prerequisites: ECE 315 and ECE 327 with grade of C or better.

ECE418 - Hardware Security 418-3 Hardware Security. Introduction to hardware security. Hardware attacks. Trust and countermeasures on the electronic supply chain. Hardware IP piracy and reverse engineering. Attacks: Side channel, test-oriented, physical, PCB. Hardware security primitives. Hardware obfuscation. PCB authentication. Prerequisite: ECE 327 with a C or better.

ECE419 - Computer Systems Reliability 419-3 Computer Systems Reliability. Combinatorial aspects of system reliability. Parallel, standby, n-modular redundancy. Common cause failures. Information coding techniques. Reliability optimization and apportionment. Fault-tolerant computer design techniques. Prerequisites: ECE 315 and ECE 327 with grade of C or better.

ECE425 - VLSI Design & Test Automation 425-4 VLSI Design and Test Automation. (Same as ECE 520) Principles of the automated synthesis, verification, testing and layout of Very Large Scale Integrated (VLSI) circuits concentrating on the CMOS technology. Resource allocation and scheduling in high-level synthesis. Automation of the logic synthesis for combinational and sequential logic. The physical design automation cycle and CMOS technology considerations. Fault modeling and testing. Timing analysis. Laboratory experience using commercial tools for synthesis and layout. Prerequisite: ECE 329. Lab fee: \$30 to help defray cost of software licenses and equipment.

ECE429 - Computer Systems Architecture 429-3 Computer Systems Architecture. (Same as ECE 529) Principles of performance evaluation, processor microarchitecture, instruction-level parallelism, static and dynamic pipeline considerations. Superscalar processors. Multiprocessor systems. Memory hierarchy design, cache design. Mutual exclusion and synchronization mechanisms. Prerequisite: ECE 329 with a grade of C or better.

ECE434 - Computer Systems Security 434-3 Computer Systems Security. Principles of computer systems security. Vulnerabilities, attacks and defenses, cryptographic primitives, authentication, digital signature, access control. Software systems security: buffer overflow, virus, SQL injection. Networking security: denial of service attack, firewall and IDS, Wi-fi security. Hardware systems security: secure processing and secure co-processor. Cloud, edge and IoT security. Prerequisite: ECE 315 with a C or better and consent of instructor.

ECE458 - Digital Image Processing I 458-3 Digital Image Processing I. (Same as ECE 558) Basic concepts, scope and examples of digital image processing, digital image fundamentals, image sampling and quantization, an image model, relationship between pixels, enhancement in the spatial domain, enhancement in the frequency domain, image segmentation, basics of color image processing. Prerequisite: ECE 355 or consent of instructor.

ECE459 - MEMS and Micro-Engineering 459-3 MEMS and Micro-Engineering. Introduction to micro-electro-mechanical systems (MEMS), manufacturing techniques, microsensors, microactuators, microelectronics and micro-controllers. Lecture and laboratory. Prerequisite: ECE 315 and ECE 356.

ECE468B - Digital Signal Processing 468B-3 Digital Signal Processing. Discrete-time signals and systems: z-transform; discrete Fourier transform, fast Fourier transform algorithms; digital filter design; digital filter realizations. Lecture and laboratory. Restricted to graduate standing. Lab fee: \$20 to help defray cost of software licenses.

ECE472 - Antennas I 472-4 Antennas I. (Same as ECE 575) Analysis, design, fabrication, measurement and CAD applied to basic antenna types. Fundamental parameters. Friis transmission equation. Impedance and pattern measurements. Resonant microstrip and wire antennas. Arrays and line sources. Lecture and Laboratory. Prerequisite: ECE 375. Lab fee: \$120 to help defray cost of software licenses.

ECE475 - Digital Health Cyber Systems 475-3 Digital Health Cyber Systems. Introduction to cyber systems in digital health, fundamentals of medical informatics, electronic health, biometric recognition and security, cybersecurity for medical devices and digital technology integration, cybersecurity for healthcare facilities, ethics and federal regulations. Prerequisite: MATH 251 or consent of instructor.

ECE477 - Fields and Waves I 477-3 Fields and Waves I. Transmission lines for communications. Guided wave principles and resonators. Applications in electronics, optoelectronics and photonics. Principles of radiation. Solution techniques for Laplace's equation and one-dimensional wave equation. Prerequisite: ECE 375.

ECE479 - Microwave Engineering I 479-4 Microwave Engineering I. (Same as ECE 562) Electromagnetic theory, analysis, design, fabrication, measurement and CAD applied to passive networks at microwave frequencies. Topics include: Transmission lines, Waveguides, Impedance matching, Tuning, Resonators, Scattering parameters, the Smith Chart. Lecture and Laboratory. Prerequisite: ECE 375. Lab fee: \$100 to help defray cost of software licenses.

ECE486 - Clean Electric Energy 486-3 Clean Electric Energy. History and future of energy resources and their use as a component of electrical systems. Fossil fuels and renewable energy sources. Environmental and economical impacts of various energy sources. Electric energy generating plants and

distributed generation. Design of hybrid renewable energy systems. Prerequisite: ECE 385 with a grade of C or better.

ECE487 - Power Systems Analysis 487-3 Power Systems Analysis. Modeling and analysis of electric power systems. Topics covered: ac power, generators, power transformers, transmission line parameters and steady state operation, computation of power flows. The course uses power system analysis software. Lecture. Prerequisite: ECE 385 with a minimum grade of C.

ECE511 - Emb Sys HW/SW Codesign 511-3 Hardware/Software Co-design of Embedded Systems. This course will present state-of-the-art concepts and techniques for the design of embedded systems consisting of hardware and software components. Discussed topics include operating system structure, cross-compilation configurations, embedded system design, hardware/software co-design, embedded system specification and modeling, optimization algorithm for hardware/software co-design, system-level architectures for embedded systems etc. Restricted to graduate standing.

ECE512 - Wireless Networks 512-3 Wireless Networks. (Same as ECE 412) Compared to infrastructure based wireless communication systems, ad hoc wireless networks present several unique advantages. Thus, it has been widely studied as an important wireless communication paradigm. This graduate level course first introduces several widely adopted wireless communication technologies and then presents the concept, structure, and principles of ad hoc wireless networks. The course also introduces the details of several popular ad hoc wireless networks including mobile ad hoc networks, delay tolerant networks, wireless sensor networks, and connected vehicle networks. Novel applications in those networks will also be introduced. The course work will include paper and literature review, presentations, assignments, and a project that will enable students to be familiar with ad hoc wireless networks. NS2 will be used for student project in this course. Students can gain experience on NS2. Project-based fee: \$10 to help defray cost of equipment.

ECE513 - Digital VLSI Design 513-3 Digital VLSI Design. (Same as ECE 423) Principles of the design and layout of Very Large Scale Integrated (VLSI) circuits concentrating on the CMOS technology. MOS transistor theory and the CMOS technology. Characterization and performance estimation of CMOS gates, CMOS gate and circuit design. Layout and simulation using CAD tools. CMOS design of datapath subsystems. Design of finite state machines. Examples of CMOS system designs. Laboratory experience in CMOS VLSI design. Restricted to enrollment in ECE program. Project-based fee: \$35 to help defray cost of software licenses and equipment.

ECE514 - Design of Embedded Systems 514-3 Design of Embedded Systems. (Same as ECE 424) Introduction of modern embedded system application, platform architecture and software development. Principles of embedded processor architecture, operating systems and networking connectivity. Design and optimize in terms of system power, security and performance. Rapid prototyping using Intel-Atom based platform. Lecture and laboratory. Project-based fee: \$10 to help defray cost of equipment.

ECE515 - Three Dimension Integrtn Sys 515-3 Three Dimensional Integration Systems. This course introduces the design of three dimensional VLSI integration systems, including through-silicon-via (TSV) process, characterization and modeling, 3D IC systems design, mixed signal simulation, data management, testing, process, variation, thermal and reliability challenges, as well as review of 3D system design examples. Laboratory experience in design tools (Cadence Virtuoso and Liberate, AMS simulator). Prerequisite: ECE 345 and ECE 423 with a grade of C or better. Restricted to enrollment in ECE program.

ECE516 - Implement VLSI Sys 516-3 Implementation of VLSI Systems with HDL. (Same as ECE 426) This course is dedicated for advanced Digital VLSI architecture and system implementation for high performance and low power digital signal processing applications. Application-specific processors and architectures to support real time processing of signal processing systems will be studied. Hands-on experience of using state-of-the-art CAD tools on designing such kind of VLSI architecture and systems. Upon completion of this course, students will entail large HDL-based implementation of a complete VLSI system. Prerequisite: ECE 327 with a grade of C or better. Project-based fee: \$35 to help defray cost of software licenses and equipment.

ECE517 - Modern Cryptography 517-3 Modern Cryptography. Probability and basic number theory, block ciphers and key-recovery security, pseudorandom functions, symmetric encryption, hash functions, message authentication codes, authenticated encryption, asymmetric encryption, digital Signatures,

key distribution, lattice-based cryptography, identity-based encryption, zero-knowledge techniques, introduction to quantum cryptography.

ECE518 - Adv Hardware Security 518-3 Advanced Hardware Security and Trust. Cryptographic systems and hardware. Advances in physically unclonable functions. Random number generators. Watermarking. Hardware metering. Side channel attacks including fault injection and power analysis. Types of hardware Trojan attacks (forms and sizes). Detection of hardware Trojans. Hardware tampering and obfuscation. Countermeasures against hardware attacks and hardware authentication. Counterfeit circuits: detection and avoidance. Trust issues in FPGAs. JTAG security and trust. SoC security requirements and secure design. Prerequisite: ECE 418 or graduate standing.

ECE519 - Advanced Computer Security 519-3 Advanced Computer Security. Systems Security: Programming, Exploitation, Shellcode, Countermeasures. Network Security: Network Protocol Security, DDoS attack, Web Security and Intrusion Detection Systems. State-of-the-art research topics in computer security: Security and Privacy issues for IoT, human factors and economic and policy issues.

ECE520 - VLSI Design & Test 520-3 VLSI Design and Test Automation. (Same as ECE 425) Principles of the automated synthesis, verification, testing and layout of Very Large Scale Integrated (VLSI) circuits concentrating on the CMOS technology. Resource allocation and scheduling in high-level synthesis. Automation of the logic synthesis for combinational and sequential logic. The physical design automation cycle and CMOS technology considerations. Fault modeling and testing. Timing analysis. Laboratory experience using commercial tools for synthesis and layout. Prerequisite: ECE 329 with a C or better or consent of instructor. Restricted to enrollment in ECE program. Project-based fee: \$30 to help defray cost of software licenses and equipment.

ECE521 - Fault Tolerant Comp Design 521-3 Fault-Tolerant Computer Design. Concepts of error detection, location and correction in digital systems. Codes for error detection and correction. Models and simulations of faults. Design of tests for combinatorial and sequential circuits. Testability. Design of digital systems with testability. Prerequisite: ECE 423, ECE 425 or consent of instructor. Restricted to enrollment in ECE program.

ECE522 - VLSI Circuit Testing 522-3 VLSI Circuit Testing. Theoretical and practical aspects of production testing of VLSI circuits. Relations between physical defects and fault models. Procedures for generating test inputs. Design modifications for test application and theory of built-in self-test. Prerequisite: ECE 425 or ECE 520 with a minimum grade of C or consent of instructor. Restricted to enrollment in ECE program. Project-based fee: \$25 to help defray cost of software licenses.

ECE523 - Low Power VLSI Design 523-3 Low Power VLSI Design. Source of power dissipation, technology impact on power dissipation, low power circuit techniques, energy recovery, synthesis of low power circuits, low power components. Prerequisite: ECE 423 or ECE 513 with a minimum grade of C or consent of instructor. Restricted to enrollment in ECE program. Project-based fee: \$35 to help defray cost of software licenses and equipment.

ECE524 - Synth/Verif Digital Circuits 524-3 Synthesis and Verification of Digital Circuits. Binary decision diagrams, finite state machines and finite automata. Design automation concepts in logic level synthesis, optimization and verification for combinational as well as sequential logic. Technology mapping. Prerequisite: ECE 425 or ECE 520 with a minimum grade of C or consent of instructor. Restricted to enrollment in ECE program. Project-based fee: \$35 to help defray cost of software licenses and equipment.

ECE525 - Adv Physical Design Automation 525-3 Advances in Physical Design Automation. Advances in the automation of VLSI layouts with emphasis on recent developments in deep submicron, FPGA and MCM technologies. Floor planning, placement, routing objectives in high performance designs using deep submicron technology. Timing analysis in the presence of crosstalk. FPGA architectures and design with dynamically reconfigurable FPGAs. Physical design automation for MCMs. Prerequisite: ECE 425 or ECE 520 with a minimum grade of C or consent of instructor. Restricted to enrollment in ECE program. Project-based fee: \$35 to help defray cost of software licenses and equipment.

ECE526 - Network Process Syst Design 526-3 Network Processing Systems Design. Protocol processing, packet processing algorithms, classification and forwarding, queuing theory, switching fabrics,

network processors, network systems design tradeoffs. Prerequisite: ECE 422 and ECE 429 or consent of the instructor. Restricted to enrollment in ECE program.

ECE527 - Integ Interconnection Networks 527-3 Integrated Interconnection Networks. Importance of interconnection networks and networks-on-chip (NOCs). Specifications and constraints. Topology, routing, flow control, deadlock, livelock, arbitration, allocation, performance analysis, simulation. Restricted to enrollment in ECE program.

ECE528 - Programmable ASIC Design 528-3 Programmable ASIC Design. (Same as ECE 428) Principle and practice of designing and implementing Application-Specific Integrated Circuits (ASIC). Field Programmable Gate Arrays (FPGA). Timing analysis, timing closure and managing difference clock domains in ASIC design. Complex arithmetic circuits. Digital signal processing (DSP) circuits. FPGA microprocessors. Project-based fee: \$50 to help defray cost of equipment and consumable items.

ECE529 - Computer Systems Architecture 529-3 Computer Systems Architecture. (Same as ECE 429) Principles of performance evaluation, processor microarchitecture, instruction-level parallelism, static and dynamic pipeline considerations. Superscalar processors. Multiprocessor systems. Memory hierarchy design, cache design. Mutual exclusion and synchronization mechanisms. Restricted to enrollment in ECE program.

ECE530 - Engineering Data Acquisition 530-3 Engineering Data Acquisition. (Same as ENGR 530) Theory of data acquisition and measurement systems. Criteria for selection of data acquisition hardware and software, instruments, sensors and other components of scientific and engineering experimentation. Methods for sampled data acquisition, signal conditioning, interpretation, analysis and error estimation. Restricted to enrollment in ECE program. Project-based fee: \$60 to help defray cost of software licenses and equipment.

ECE531 - Mixed-Signal VLSI Design 531-3 Mixed-Signal VLSI Design. Analysis and design of mixed-signal integrated circuits. Digital to analog converter (DAC). Analog to digital converter (ADC). Sigma-delta data converters. Performance analysis of signal chains containing both analog and digital signal processing functions. Prerequisite: ECE 446 with a minimum grade of C. Restricted enrollment in ECE program. Project-based fee: \$60 to help defray cost of software licenses and equipment.

ECE532 - Parallel Programming 532-3 Programming Parallel Processors. (Same as ECE 432) Multi-core architecture, threads, thread execution models, thread priority and scheduling, concurrency, multi-threaded programming models, synchronization, performance measurement and local balance, software tools for multi-threaded programming. Restricted to ECE students or consent of advisor. Project-based fee: \$20 to help defray cost of equipment.

ECE533 - Speech Processing 533-3 Speech Processing. (Same as BME 533, ECE 474) Fundamentals of speech production system, signal analysis of speech, speech coding, linear prediction analysis, speech synthesizing, and speech recognition algorithms. Prerequisite: MATH 250, ECE 355 with grades of C or better or consent of instructor.

ECE534 - Biomedical Signal Analysis 534-3 Biomedical Signal Analysis. (Same as ECE 498, BME 536) The nature of biomedical signals. Electricity in living tissue. Biomedical signal processing and modeling. Modeling and simulation of biomedical systems. Prerequisite: MATH 250, ECE 355 with a grade of C or better or consent of instructor. Project-based fee: \$20 to help defray cost of software licenses.

ECE535 - CMOS RF-IC Design 535-3 CMOS Radio-Frequency Integrated Circuit Design. (Same as ECE 440) Introduction of RF IC, passive RLC Networks, passive IC components, MOS Transistors, distributed systems, Smith Chart and S-Parameters, introduction to Band-width estimation, biasing and voltage reference, basic High Frequency Amplifiers, introduction to: noise in RF IC, Low Noise Amplifiers, Power Amplifiers, Phase-Locked Loops and Oscillators. Lecture and laboratory. Lab fee: \$35 to defray the cost of software licenses and equipment.

ECE536 - Embedded Systems 536-3 Embedded Systems Programming. Advanced software concepts and techniques to develop complex software projects on embedded systems. Concepts and techniques include system calls, structure of operating systems, advanced dynamic memory management, cross-compilation, scheduling techniques and resource management.

ECE537 - Integrated Photonics 537-3 Integrated Photonics. Fundamentals of electromagnetic theory, waveguides, photonic structures including photonic crystals and integrated micro-ring resonator, numerical simulations of photonic integrated circuits using the beam propagation method, finite-difference time-domain method, rate equations, and fabrication processes. Prerequisite: ECE 441 or consent of instructor. Restricted to enrollment in ECE program.

ECE538 - Medical Instrumentation 538-3 Medical Instrumentation: Application and Design. (Same as ECE 438 and BME 538) This course introduces basic concept of medical instrumentation, basic sensors and principles, amplifiers, biopotential, and applications to biopotential measurements. The course will focus on application and design of medical instrumentations. The course also will introduce biosensor, biomedical signal processing, and other related topics. Prerequisite: MATH 250 with a grade of C or better, or consent of instructor. Project-based fee: \$45 to help defray cost of software licenses and equipment.

ECE539 - Diagnostic Ultrasound 539-3 Diagnostic Ultrasound. (Same as ECE 494 and BME 541) Diagnostic ultrasound is an ultrasound-based biomedical imaging technique used to visualize muscles, tissue, and many internal organs, to capture their size, structure and any pathological lesions. This course is an introduction to the principles and applications of biomedical ultrasound. This course will focus on fundamentals of acoustic theory, principles of ultrasonic detection and imaging, design and use of currently available tools for performance evaluation of diagnostic devices, and biological effects of ultrasound. Prerequisite: MATH 250 with a grade of C or better, or consent of instructor. Project-based fee: \$30 to help defray cost of software licenses and equipment.

ECE540 - CMOS RF-IC Design II 540-3 CMOS Radio-Frequency Integrated Circuit Design II. High frequency amplifier design techniques, noise in RF IC and CMOS low noise amplifiers (LNA), mixers, oscillators, PLLs, frequency synthesizers, power amplifiers, an overview of wireless architectures. Prerequisite: ECE 440 or ECE 535 or equivalent. Lab fee: \$50 to defray the cost of software licenses and equipment.

ECE541 - Quantum Info Process Devices 541-3 Quantum Information Processing and Devices. Fundamentals of information theory: uncertainty and information, thermodynamics of information. Quantum information processing: essential quantum mechanics of states, measurements and Bell's theorem, operations, and their representations as matrices; quantum Shannon theory (von Neumann entropy); quantum entanglement. Quantum cryptography. Various quantum algorithms and computational complexity. Building blocks: qubits and qubit operations, quantum machines. Decoherence, quantum error correction, and fault tolerance. Physical realization and quantum devices: double quantum dot charge qubit, Rabi oscillations of an excitonic qubit, Quantum dot spin-qubits, Photonic quantum computing, Superconducting qubits. Prerequisite: Familiarity with electronic and photonic devices, information theory, theoretical computer science, or quantum mechanics will be beneficial.

ECE542 - Photonics I 542-3 Photonics I. (Same as ECE 441) Ray optics, wave optics, beam optics, polarization of light, statistical optics, photons and atoms. Prerequisite: ECE 375 with a grade of C or better. Project-based fee: \$50 to help defray cost of equipment and consumable items.

ECE543 - Adv Analog IC Design 543-3 Advanced Analog Integrated Circuit Design. Analysis and design of CMOS analog integrated circuits. Circuit noise analysis. Low-voltage high-performance operational amplifiers. Voltage and current reference circuits. Integrated analog filter circuits. Micropower circuits. Prerequisite: ECE 446 or ECE 546 with a minimum grade of C or consent of instructor. Restricted to enrollment in ECE program. Project-based fee: \$35 to help defray cost of software licenses and equipment.

ECE544 - Photonics II 544-3 Photonics II. (Same as ECE 448) Fourier optics, fiber optics, electro-optics, nonlinear optical media, acousto-optics, photonic switching, optical and interconnections and optical storage. Prerequisite: ECE 441 or consent of instructor. Project-based fee: \$80 to help defray cost of software licenses.

ECE545 - Adv Semiconductor Devices 545-3 Advanced Semiconductor Devices. Technology drivers: Moore, More-Moore, and More-than-Moore trends. Case Study: Integrated health monitoring systems, 3-D SoCs. Review of Solid-State Theory: electronic, magnetic, optical and thermal properties of semiconductors. Energy Related Devices: solid-state lighting, solar cells, thermoelectric devices, piezoelectric devices, energy storages and supercapacitors. Optoelectronic and Photonic Devices:

Imagers, LEDs, OLEDs, Lasers, LCDs, thin-film transistors (TFTs). Sensors and Detectors. Microwave and Terahertz Devices. Prerequisite: ECE 447 or ECE 423 or ECE 446 or PHYS 425 or PHYS 430 or instructor consent.

ECE546 - Analog Circuit Design 546-3 Analog Circuit Design. (Same as ECE 446) Analysis and design of electronic circuits, both discrete and integrated. Computer-aided circuit design and analysis. Design of amplifier and filter circuits. Circuit stability analysis and frequency compensation techniques. Restricted to enrollment in ECE program. Project-based fee: \$10 to help defray cost of equipment.

ECE547 - Semiconductor Devices 547-3 Semiconductor Devices. (Same as ECE 447) Semiconductor industry and Moore's law. Review of quantum mechanics of atoms. From atoms to crystals: energy bands, effective mass and density-of-states. Semiconductor statistics. Carrier transport phenomena. PN junctions. Schottky junctions. Bipolar junction transistors (BJTs). MOSFETs: capacitance-voltage and current-voltage characteristics, threshold voltage, scaling and short-channel effects, SPICE models. CMOS process integration. Basic optoelectronic devices: LEDs and solar cells. Lecture and laboratory. Prerequisite: ECE 345 or equivalent. Project-based fee: \$25 to help defray cost of software licenses.

ECE548 - Quantum Phenomena & Devices 548-3 Quantum Phenomena and Devices. Introduction: Classical Phenomena and Devices. Why Quantum Devices? Current Picture: Academia and Industry. Essential Statistical Mechanics. Essential Quantum Mechanics. Quantum Theory of Electrons: Quantization, Tunneling, Quantum Interference, Quantum Hall Effect, Scattering and Broadening, Dephasing and Shot Noise. Coulomb Blockade. Quantum Optics. Collective Phenomena and Spin. Relativistic Quantum Phenomena. Quantum Phase Transition. Quantum Computation. Prerequisite: ECE 447 or ECE 423 or ECE 446 or PHYS 425 or PHYS 430 with C or better or instructor consent.

ECE549 - Fiber Optic Communications 549-3 Fiber Optic Communications. Fundamentals of step index and graded index fiber waveguides using geometrical optics and Maxwell's equations. Other topics include design criteria, practical coupling techniques, discussion of optical sources and detectors used in light-wave communications, system examples, characterization and measurement techniques. Prerequisite: ECE 447 or ECE 448 or consent of instructor. Restricted to enrollment in ECE program.

ECE550 - Nanoscale VLSI Devices 550-3 Nanoscale VLSI Devices. Review of fundamental principles of semiconductor devices. NanoTransistor: Charge-based devices-MOSFETs, non-ideal, atomistic, and quantum effects in nanoscale MOSFETs, charge-coupled devices. Advanced MOSFETs: FinFETs, SOI, SiGe and III-Vs, carbon nanotubes, graphene and 2-D semiconductors, nanowires. High electron mobility transistors (HEMTs), HBTs, and power MOSFETs. Compact and SPICE models for MOS devices. VLSI interconnects, parasitic elements, 3-D integration and reliability issues. Non-charge based devices-tunnel FETs, spin-based devices. NanoMemory: EEPROM and Flash, phase change memory, memristors, magnetic and ferroelectric, spin-torque devices, DRAM and ZRAM cells. TCAD simulation of semiconductor devices. Prerequisite: ECE 447 or ECE 423 or ECE 446 or PHYS 425 or PHYS 430 with a C or better or instructor consent. Project-based fee: \$25 to help defray cost of software licenses.

ECE551 - Prob and Stochastic Processes 551-3 Probability and Stochastic Processes for Engineers. (Same as ENGR 521) Axioms of probability, random variables and vectors, joint distributions, correlation, conditional statistics, sequences of random variables, stochastic convergence, central limit theorem, stochastic processes, stationarity, ergodicity, spectral analysis, and Markov processes. Restricted to graduate student status. Restricted to enrollment in ECE program. Project-based fee: \$20 to help defray cost of software licenses.

ECE552 - Signal Detection & Estimation 552-3 Signal Detection and Estimation. Estimation theory: parameter estimation, minimum variance unbiased estimators, sufficient statistics, Cramer-Rao lower bound, best linear unbiased estimators, maximum likelihood estimators, least squares, Bayesian estimation, maximum a posteriori estimators, minimum mean square error estimators, linear minimum mean square error estimators, Wiener filtering. Detection theory: hypothesis testing, likelihood ratios, Neyman-Pearson detection, Bayesian hypothesis testing, matched filtering, multiple hypothesis testing, sequential detection, composite hypothesis testing, uniformly most powerful tests, generalized likelihood-ratio tests. Prerequisite: ECE 551 or consent of instructor. Restricted to enrollment in ECE program.

ECE553 - Comp Network Syst Arch 553-3 Computer Network System Architecture. (Same as ECE 422) Principles of Computer Networks. Protocols and system level implementations. Socket programming, router and switching fabric architecture, security and packet classification techniques, multimedia

networking and QoS. Restricted to enrollment in ECE program. Project-based fee: \$10 to help defray cost of equipment.

ECE554 - Broadband Wireless Comm 554-3 Broadband Wireless Communications. This course covers fundamentals of broadband wireless communications. Topics include concepts of space-time propagation, probabilistic modeling of space-time channel and signal models, multi-antenna (MIMO) systems, space-time coding, spatial diversity, spatial multiplexing, space-time receivers, orthogonal frequency division multiplexing (OFDM), MIMO OFDM, multi-user MIMO, performance analysis and trade-offs in MIMO channels, concepts of spread spectrum systems, frequency hopping, and direct sequence systems. Restricted to enrollment in ECE program or consent of instructor.

ECE555 - Intro to Info Theory 555-3 Introduction to Information Theory and Channel Coding. (Same as ECE 476) Entropy and Mutual Information. Channel Capacity. Gaussian Channel. Linear Block Codes. Convolutional Codes. Advance Channel Coding Techniques. Restricted to enrollment in ECE program.

ECE556 - Digital Communications 556-3 Digital Communications. Digital communication signals and systems characterization. Deterministic receiver design. Probabilistic receiver design. Error control coding. Communication over band limited channels. Prerequisite: ECE 551 or consent of the instructor. Restricted to enrollment in ECE program.

ECE557 - Computational Electronics 557-3 Computational Electronics. Elements of computational science/engineering. High-performance clusters and software tools for HPCs. Essential numerical methods. Fundamental physics and modeling of charge transport in semiconductor VLSI devices. Numerical solution of Poisson equation. Numerical solution of carrier continuity equations and terminal currents in semiconductor devices. Numerical solution of the Schrodinger equation. Electronic bandstructure calculations using the tight-banding formalism. Introduction to NEGF formalism. Commercial and non-commercial semiconductor device modeling tools. Prerequisite: ECE 447 or PHYS 425 with grades of C or better or instructor consent. Project-based fee: \$25 to help defray cost of software licenses.

ECE558 - Digital Image Processing I 558-3 Digital Image Processing I. (Same as ECE 458) Basic concepts, scope and examples of digital image processing, digital image fundamentals, image sampling and quantization, an image model, relationship between pixels, enhancement in the spatial domain, enhancement in the frequency domain, image segmentation, basics of color image processing. Special approval needed from the instructor. Restricted to enrollment in ECE program.

ECE560 - VLSI Characterization 560-3 VLSI Material and Device Characterization. Materials for modern VLSI: semiconductor crystals, tubular and monolayer materials, organic materials, heterostructures, wafers and notations. Nanoscale fabrication processes: IC production flow, selective doping, nanolithography, etching, contacts and interconnects, spontaneous formation and ordering of nanostructures, fabrication of MEMS/NEMS systems, IC assembly and packaging. VLSI device characterization: electrical CV and IV profiling, defect characterization using DLTS, carrier mobility and lifetime measurements, optical microscopy and spectroscopy, particle beam and X-ray techniques. Reliability of devices and ICs: harsh environments, hot carriers, NBTI, electromigration, electrostatic discharge, IC power dissipation and cooling. Prerequisite: ECE 447 or ECE 423 or PHYS 425 with a grade of C or better or instructor consent.

ECE561 - Mechatronics/Embedded Control 561-3 Mechatronics and Embedded Control. (Same as ECE 456) Components of mechatronics systems, mathematical modeling, system identification, numerical tools for design and analysis, single-loop controller design, embedded systems, data acquisition and signal conditioning, sensors, actuators, networked control. This course includes lab session. Lab fee: \$35 to help defray the cost of software licenses.

ECE562 - Microwave Engineering I 562-3 Microwave Engineering I. (Same as ECE 479) Electromagnetic theory, analysis, design, fabrication, measurement and CAD applied to passive networks at microwave frequencies. Topics include: Transmission lines, Waveguides, Impedance matching, Tuning, Resonators, Scattering parameters, the Smith Chart. Lecture and Laboratory. Prerequisite: ECE 375 or equivalent. Restricted to enrollment in ECE program. Project-based fee: \$100 to help defray cost of software licenses.

ECE564 - Optimal Control 564-3 Optimal Control. Optimization techniques for linear and nonlinear systems. Variational calculus. Dynamic programming. Pontryagin's maximum principle. Hamilton-Jacobi theory. Linear regulator. Bang Bang control, minimum time control, singular control. Discrete variational calculus. Combined estimation and control. Computational methods in optimal control. Prerequisite: ECE 456 or consent of instructor. Restricted to enrollment in ECE program.

ECE565 - Nonlinear Control Systems 565-3 Nonlinear Control Systems. Analysis and design of nonlinear dynamical systems. Topics include: nonlinear differential equations, stability, Lyapunov stability analysis, stability of perturbed systems, linearization, and central manifold theorem. Stabilization, feedback linearization, and controller design methods such as backstepping and sliding mode control.

ECE566 - Linear Systems Theory 566-3 Linear Systems Theory. Introduction to the structure and analysis of linear dynamical systems in time domain. Linear algebra review, solutions of linear differential equations, state-space representations, state transition matrix, and time varying systems. Introduction to fundamental mathematics of linear spaces and linear operator theory. Structural properties of linear systems such as controllability, observability, and stability. Design and synthesis of controllers and state observers for linear systems. Linear quadratic regulatory theory and Kalman filter.

ECE567 - Modern Biomedical Imaging 567-3 Modern Biomedical Imaging. (Same as ECE 467 and BME 532) Modern biomedical imaging. Diagnostic x-ray projection imaging. Tomographic imaging. Ultrasound imaging and therapy. Magnetic resonance imaging (MRI). Signal and noise characteristics. Image quality evaluation. Three-dimensional image reconstruction algorithms. Prerequisite: ECE 355 or consent of instructor. Restricted to enrollment in ECE program. Project-based fee: \$30 to help defray cost of software licenses and equipment.

ECE568 - Machine Learning 568-3 Introduction to Machine Learning for Engineering Applications. Introduction: Basic concepts, Model selection and feature selection, Performance metrics and validation techniques, Probability and statistics review. Supervised learning: Bayes decision theory, Naive Bayes classifier, Mahalanobis distance classifier, Minimum distance classifier, Maximum-likelihood parameter estimation, Nearest neighbor classifiers, Logistic regression, Hidden-Markov models, Support vector machines, Bagging, Boosting, Ensemble classifiers. Unsupervised Learning: Clustering: K-means, Hierarchical, Expectation-maximization. Dimensionality Reduction: Principal components analysis, transform techniques. Restricted to Senior or graduate standing.

ECE569 - Biomedical Instrumentation 569-3 Biomedical Instrumentation. (Same as BME 538) Basic concept of Medical instrumentation, basic sensors and principles, amplifiers, biopotential electrodes, blood pressure and sound, measurement of respiratory system, chemical biosensors, Cellular measurements, Nervous system measurements, magnetic resonance imaging. Prerequisites: PHSL 410A or CHEM 444 or consent of instructor. Restricted to enrollment in ECE program. Lab fee: \$45 to help defray cost of software licenses and equipment.

ECE570 - Communication Systems 570-3 Principles of Communication Systems. (Same as ECE 478) This course covers principles of communication systems. Topics include (1) representation of signals and systems, (2) amplitude modulation, (3) angle modulation, (4) probability theory and random processes for communication system designs, (5) transition from analog to digital and pulse code/delta modulation, (6) baseband digital transmission, (7) digital band-pass transmission techniques, (8) introduction to information theory and coding, (9) wireless channel modeling, (10) cellular systems and performance analysis. Lectures and laboratory projects. Prerequisites: ECE 315 and ECE 355 or consent of instructor. Restricted to enrollment in ECE program or consent of instructor.

ECE571 - Advanced Wireless Comm 571-3 Advanced Wireless Communication. This course covers advanced topics in wireless communications. Topics include wireless system architectures, wireless channel modeling, cellular systems and co-channel interference, advanced digital modulation and multiple-access techniques, massive MIMO, mm-wave communications, performance analysis, radio resource allocation and optimization, wireless physical layer security, enabling technologies for 5G. Restricted to enrollment in ECE program or consent of instructor. Project-based fee: \$20 to help defray cost of software licenses.

ECE572 - Neural Networks 572-3 Neural Networks. Anatomy and physiology of the cerebral cortex. Feed-forward Networks, Linear Associator, Multilayer Perceptrons. Feedback Networks, Hopfield Networks, ART. Applications to pattern recognition, robotics and speech processing. Optical and

electronic implementations. Prerequisite: MATH 305 or consent of instructor. Restricted to enrollment in ECE program.

ECE573 - Fields and Waves II 573-3 Field and Waves II. Time-harmonic electromagnetic fields in dielectric and lossy media, transmission lines, antennas and resonators. Techniques include duality, image theory, reciprocity and integral equations. Boundary value problems solved for several frequently encountered symmetries. Prerequisite: ECE 477. Restricted to enrollment in ECE program.

ECE574 - Nonlinear Optics 574-3 Nonlinear Optics. Coupled-mode-analysis applied to nonlinear wave interactions, harmonic generation, parametric amplification, backward wave amplifiers, backward oscillation in laser systems, phase conjugation and multiple-wave mixing systems, Pockel and Kerr effects, and electro-optical modulations in optical communication systems. Prerequisite: ECE 375 or consent of instructor. Restricted to enrollment in ECE program.

ECE575 - Antennas I 575-3 Antennas I. (Same as ECE 472) Analysis, design, fabrication, measurement and CAD applied to basic antenna types. Fundamental parameters. Friis transmission equation. Impedance and pattern measurements. Resonant microstrip and wire antennas. Arrays and line sources. Lecture and laboratory. Prerequisite: ECE 375 or equivalent. Restricted to enrollment in ECE program. Project-based fee: \$120 to help defray cost of software licenses.

ECE576 - Numeric Electromagnetics 576-3 Numerical Electromagnetics. Numerical solution of electromagnetic problems by methods that include finite element, integral equation, moment, spectral domain and finite difference. Examination of electromagnetic problems and their solutions in current literature. Prerequisite: ECE 573. Restricted to enrollment in ECE program.

ECE577 - Antennas II 577-3 Antennas II. Analysis, design and CAD of antennas. Numerical methods. Broadband, traveling-wave, frequency independent, electrically-small, aperture and microstrip antenna types. Prerequisite: ECE 472. Restricted to enrollment in ECE program.

ECE578 - DIP II 578-3 Digital Image Processing II. Full-color image processing, image noise and degradation models, image restoration, inverse filtering, Wiener filtering, geometric transformations, image compression models, error-free compression, lossy compression, compression standards, dilation and erosion, opening and closing operations, morphological filtering, boundary descriptors, regional descriptors, principal components, vision-based pattern recognition. Prerequisite: ECE 558. Restricted to enrollment in ECE program.

ECE579 - Microwave Engineering II 579-3 Microwave Engineering II. Analysis and design of passive and active devices at microwave frequencies. Topics include: power dividers, couplers, filters, ferrite devices, noise, noise effects in detectors, mixers, modulators, amplifier and oscillator design, and an introduction to microwave systems. Prerequisite: ECE 479. Restricted to enrollment in ECE program.

ECE580 - Seminar 580-1 Seminar. Study and formal presentation by students of selected research in electrical and computer engineering. Restricted to students in the graduate program in Electrical and Computer Engineering. Special approval needed from the instructor.

ECE581 - Wind & Solar Power Systems 581-3 Wind and Solar Energy Power Systems. (Same as ECE 481) The course introduces students to wind and solar energy power systems. Planning of wind generation; and operation of wind generators, mechanical and electrical design, power conditioning, control and protection. Planning, operation and design of electric solar plants; power conditioning, control and protection.

ECE582 - Power Converter Design 582-3 Power Converter Design and Control. (Same as ECE 482) This course covers all the steps required for designing an actual power converter or electric drive system. The power stage design considerations, gate drive circuits, isolated high voltage/current measuring circuits, and application of a Texas Instrument Digital Signal Processor (DSP) for implementing different control schemes are discussed in detail. A brief introduction about the digital control theory and implementation of digital controller transfer functions using the DSP are provided as well. Project-based fee: \$65 to help defray cost of software licenses and equipment.

ECE583 - Electric Drive Systems 583-3 Electric Drive Systems. (Same as ECE 483) Course content is roughly 1/3 power electronics, 1/3 applied control and 1/3 electric machinery and focuses on analysis,

simulation, and control design of electric drive based speed, torque, and position control systems. Advanced topics depending on the semester are taught. Project-based fee: \$65 to help defray cost of software licenses and equipment.

ECE584 - Electric and Hybrid Vehicles 584-3 Electric and Hybrid Vehicles. (Same as ECE 484) This course covers an entire range of topics related to analysis, design, control, and optimization of electric, hybrid, and plug-in hybrid power trains including automotive applications of adjustable speed motor drives, energy storage systems, and advanced power converters. Restricted to enrollment in ECE program or consent of the instructor. Lab fee: \$65 to help defray cost of software licenses and equipment.

ECE585 - Pwr Sys Stability & Control 585-3 Power Systems Stability and Control. Fundamentals of power system stability, synchronous machine modeling and simulation, transient and small signal stability, control and protection, power system stabilizers, voltage stability, voltage collapse, concepts and devices of flexible ac transmission, mid-term and long-term stability.

ECE586 - Power System Methods 586-3 Computational Methods in Power Systems. The course covers advanced methods for the computation and analysis of power systems. Topics: circuit graph theory and network matrices, computation of electromagnetic transients, computation of power flows and faults, computation of system stability, stochastic methods in power systems, load forecasting, state estimation, unit dispatch. The course uses power system software. Lecture. Restricted to enrollment in the ECE program.

ECE587 - Modern Power Systems Op 587-3 Modern Power Systems Operation. This course provides students with a comprehensive picture of the techniques used in modern power systems operation. The course introduces central "terminal" characteristics for thermal and hydroelectric power generation systems, along with new optimization techniques for tackling "real-world" power systems operating problems. The topics include: analysis of different bidding strategies in competitive electricity markets, prediction of load and price, analysis of power systems security, different methods of optimal power flow, analysis of power systems uncertainty and reliability, economic dispatch, and unit commitment analysis. Project-based fee: \$65 to help defray cost of software licenses and equipment.

ECE588 - Power System Engineering 588-3 Power System Engineering. (Same as ECE 488) The course covers topics involving the design and operation of a power system. Topics: symmetrical and unsymmetrical power system faults, power system protection design, transient stability of power generators, power system economic operation, power system control, transient operation of transmission lines. The course uses power system software. Lecture.

ECE589 - Electric Power Distribution 589-3 Electric Power Distribution. (Same as ECE 489) Design of primary and secondary distribution networks. Load characteristics. Voltage regulation. Metering techniques and systems. Protection of distribution systems. Special topics related to power distribution. Prerequisite: ECE 235.

ECE592 - Special Investigations 592-1 to 3 Special Investigations in Electrical Engineering. Individual advanced projects and problems selected by student or instructor. Restricted to graduate standing. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593A - Adv Topics ECE Antennas/Propag 593A-1-3 Advanced Topics in Electrical Engineering-Antennas and Propagation. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593B - Adv Topics ECE-ASIC Design 593B-1-3 Advanced Topics in Electrical Engineering-ASIC Design. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593C - Adv Topics ECE-Communications 593C-1-3 Advanced Topics in Electrical Engineering-Communications. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593D - Adv Topics ECE-Comp Architect 593D-1-3 Advanced Topics in Electrical Engineering-Computer Architecture. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593E - Adv Topics ECE-Control Systems 593E-1-3 Advanced Topics in Electrical Engineering-Control Systems. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593F - Adv Topics ECE-Design Automatn 593F-1-3 Advanced Topics in Electrical Engineering-Design Automation. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593G - Adv Topics ECE-Digital Design 593G-1-3 Advanced Topics in Electrical Engineering-Digital Design. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593H - Adv Topics-Digital Test/Verify 593H-1-3 Advanced Topics in Electrical Engineering-Digital Testing and Verification. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593I - Adv Topics ECE-Elec Flds/Waves 593I-1-3 Advanced Topics in Electrical Engineering-Electromagnetic Fields and Waves. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593J - Adv Topics ECE-Embedded System 593J-1-3 Advanced Topics in Electrical Engineering-Embedded Systems. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593K - Adv Topics ECE-Medical Imaging 593K-1-3 Advanced Topics in Electrical Engineering-Medical Imaging. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593L - Adv Topics ECE-Mix Signal Test 593L-1-3 Advanced Topics in Electrical Engineering-Mixed-Signal Testing and Design. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593M - Adv Topics ECE-Nanotechnology 593M-1-3 Advanced Topics in Electrical Engineering-Nanotechnology. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593N - Adv Topics ECE-Network Systems 593N-1-3 Advanced Topics in Electrical Engineering-Network Systems. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593O - Adv Topics ECE-Photonics 593O-1-3 Advanced Topics in Electrical Engineering-Photonics. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593P - Adv Topics ECE-Phys Des Automt 593P-1-3 Advanced Topics in Electrical Engineering-Physical Design Automation. Lectures on advanced topics of special interest to students in various areas

of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593Q - Adv Topics ECE-Pwr Elec Conv 593Q-1-3 Advanced Topics in Electrical Engineering-Power Electronic Converters and Drive Systems. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593R - Adv Topics ECE-Power Quality 593R-1-3 Advanced Topics in Electrical Engineering-Power Quality. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593S - Adv Topics ECE-Pwr Sys Con/Pro 593S-1-3 Advanced Topics in Electrical Engineering-Power System Control and Protection. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593T - Adv Topics ECE-Renewbl Energy 593T-1-3 Advanced Topics in Electrical Engineering-Renewable Energy. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593U - Adv Topics ECE-RF/M'Wave Syst 593U-1-3 Advanced Topics in Electrical Engineering-RF and Microwave Systems. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593V - Adv Topics ECE-Signal Process 593V-1-3 Advanced Topics in Electrical Engineering-Signal Processing. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593W - Adv Topics ECE-Software Engr 593W-1-3 Advanced Topics in Electrical Engineering-Software Engineering. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE593X - Adv Topics ECE-Wireless System 593X-1-3 Advanced Topics in Electrical Engineering-Wireless Systems. Lectures on advanced topics of special interest to students in various areas of Electrical & Computer Engineering. This course is designed to offer and test new experimental courses in ECE. Restricted to enrollment in ECE program. Special approval needed from the instructor.

ECE595 - Communication Skills 595-3 Communication Skills for Engineering Graduate Students. This course prepares graduate engineering students to communicate technical information to various audiences and for various purposes. Principles and strategies are applied to theses, dissertations, scholarly presentations, and other engineering documents such as lab reports, user manuals, business correspondences, job application materials, and engineering ethics. Research tools and software programs prepare students to deliver oral presentations on current engineering topics. Restricted to graduate standing. Does not count toward the hours required for graduation in the ECE program. Restricted to enrollment in ECE program.

ECE596 - Principles of BME 596-3 Principles of Biomedical Engineering. (Same as ECE 460, BME 596) Principles of biomechanics, biomaterials, electrophysiology, modeling, instrumentation, biosignal processing, medical imaging, and biomedical optics. Professional moral and ethical issues in biomedical research and development. Prerequisite: MATH 250 with a grade of C or better or consent of instructor.

ECE599 - Thesis 599-1 to 6 Thesis.

ECE600 - Doctoral Dissertation 600-1 to 24 (1 to 16 per semester) Doctoral Dissertation. Dissertation research. Hours and credit to be arranged by director of graduate studies. Graded S/U only. Restricted to Admission to PhD program in Electrical and Computer Engineering.

ECE601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Electrical and Computer Engineering Faculty

Ahmed, Shaikh S., Professor, Ph.D., Arizona, 2005; 2007. Nanotechnology, semiconductor devices and circuit design, simulation and characterization.

Anagnostopoulos, Iraklis, Assistant Professor, Ph.D., National Technical University of Athens, 2014; 2015. Many-core architectures, run-time resource management, embedded systems.

Aruma Baduge, Gayan, Assistant Professor, University of Alberta, 2013; 2016. Communications theory, wireless communications, massive MIMO systems, millimeter-wave communications, cooperative relay networks, wireless energy harvesting for IoTs, physical-layer security.

Asrari, Arash, Assistant Professor, Ph.D., University of Central Florida, 2015; 2017. Power systems operation and planning, power systems optimization, smart grid.

Botros, Nazeih M., Professor, *Emeritus*, Ph.D., University of Oklahoma, 1985; 1985. Digital hardware design, digital signal processing, digital instrumentation, neural networks, robot sensing, and bioengineering.

Chen, Kang, Assistant Professor, Ph.D., Clemson University, 2014; 2015. Software-defined networking (SDN), network function virtualization (NFV), vehicular networks, mobile opportunistic/ad hoc networks.

Chen, Ying (Ada), Associate Professor, Ph.D., Duke, 2007; 2007. Biomedical imaging, image reconstruction, digital tomosynthesis, image quality analysis, signal and image processing, simulation and computing.

Daneshdoost, Morteza, Professor, *Emeritus*, Ph.D., Drexel University, 1984; 1984. Electric power systems, linear systems and circuits, control systems optimization techniques, expert systems, computer graphics, MMI.

Galanos, Glafkos D., Professor, *Emeritus*, Ph.D., University of Manchester, England, 1970; 1987. Power systems, HVDC transmission, power electronics systems.

Gupta, Lalit, Professor, Ph.D., Southern Methodist University, 1986; 1986. Computer vision, pattern recognition, digital signal processing, neural networks.

Haniotakis, Themistoklis, Associate Professor, Ph.D., University of Athens, 2008; 2013. Digital VLSI design and test, RF IC design and test, low power VLSI design, and fault-tolerant systems.

Harackiewicz, Frances J., Professor, Ph.D., University of Massachusetts-Amherst, 1990; 1989. Electromagnetics, antenna theory and design, microwaves, microstrip phased arrays and anisotropic materials.

Hatziadoniu, Konstantine, Professor, Ph.D., West Virginia University, 1987; 1987. Power systems modeling, simulation and control, high voltage DC transmission, power electronics, power systems transient.

Kagaris, Dimitrios, Professor, Ph.D., Dartmouth College, 1994; 1995. VLSI design automation, digital circuit testing, communication networks.

Komae, Arash, Assistant Professor, Ph.D., University of Maryland, College Park, 2008; 2015. Control systems, microrobotics, signal processing, estimation theory.

Lu, Chao, Assistant Professor, Ph.D., Purdue University, 2012; 2015. VLSI system design, device-circuit co-design, 3D IC.

Osborne, William, Professor, *Emeritus*, Ph. D., New Mexico State University, 1970; 2005.

Pourboghrat, Farzad, Professor, *Emeritus*, Ph.D., University of Iowa, 1984; 1984. Optimal control, robust and adaptive control, dynamic neural networks, robotics, embedded control systems, sensor networks.

Qin, Jun, Associate Professor, Ph.D. Duke University, 2008; 2012. Sensors and instrumentation, data acquisition, medical devices, therapeutic ultrasound, haptics.

Sayeh, Mohammad R., Professor, Ph.D., Oklahoma State University, 1985; 1986. Neural networks, optical computing, image processing, stochastic modeling, quantum electronics.

Tragoudas, Spyros, Professor and *Chair*, Ph.D., University of Texas at Dallas, 1991; 1999. Design and test automation for VLSI, embedded systems, computer networks.

Viswanathan, Ramanarayanan, Professor, *Emeritus*, Ph.D., Southern Methodist University, 1983; 1983. Detection and estimation theory, spread spectrum communication, communication theory, signal processing.

Wang, Haibo, Professor, Ph.D., University of Arizona, 2002; 2002. Mixed-signal VLSI design and testing, digital VLSI, VLSI design automation.

Weng, Ning, Associate Professor, Ph.D., University of Massachusetts at Amherst, 2005; 2005. High performance routers, network processors, system-on-a-Chip, computer architectures.

Engineering

The College of Engineering offers graduate programs leading to the Master of Science degree in civil engineering, electrical engineering, mechanical engineering, mining engineering, and quality engineering and management and a Doctor of Philosophy degree in engineering science and electrical and computer engineering. To support these graduate programs, the college has well equipped laboratories and computer facilities that are housed in a modern engineering complex. Additional research opportunities and funding are provided through the Advanced Coal and Energy Research Center, the Materials Technology Center, and the Office of Sponsored Projects Administration.

Doctor of Philosophy in Engineering Science

The Doctor of Philosophy degree in engineering science is available for five concentrations in five engineering departments. The areas of concentration are as follows:

Areas of Concentration

Civil and Environmental Engineering. Course offerings and research activities include: water and wastewater treatments, hazardous and industrial waste treatment, geotechnical and geoenvironmental engineering, hydrologic and hydraulic engineering, sediment transport, water resources engineering, steel and concrete design, structural analysis, seismic design and analysis, and engineering materials.

Electrical and Computer Engineering. Course offerings and research activities include antennas, circuits and systems theory, electromagnetics, robust and adaptive control, robotics, embedded control, MEMS, nanoelectronics, energy conversion, power systems, power electronics, pattern recognition, image processing, biomedical engineering, neural networks, optical computing, stochastic modeling, wireless communications, detection and estimation theory, communication networks, mobile ad hoc networks, sensor networks, digital systems, programmable ASICs design, bioengineering, computer architecture, CMOS VLSI, fault tolerance, mixed signal testing and design, low power system design, hardware/software co-design, synthesis and verification of digital systems, physical design automation, and VLSI testing.

Industrial and Quality Engineering. Course offerings and research activities include: quality assurance, statistical process control, six sigma, lean enterprise, service quality, reliability analysis, quality function deployment, design of experiments, project management, human safety, risk management, management of information technology resources, energy management and conservation.

Mechanical Engineering and Energy Processes. Course offerings and research activities include: mechanics, mechanical systems, fractional calculus and their applications, fluid/thermal systems, material

and chemical systems, air pollution control, mass and heat transfer, coal conversion, electrochemical processes, catalysis, thermal science, thermal systems design, combustion, internal combustion engines, chemical and biochemical processes, dynamics and vibrations, mechanical systems control, computational modeling and simulations, composite materials and ceramics, tribology, and micro- and nano-technology, electro-hydrodynamics, computational multiphase flow and heat transfer, microfluidics, bio-fluidics, CFD, computations of phase change phenomena and capillary driven flows.

Mining and Mineral Resources Engineering. Course offerings and research activities in this area of concentration include: rock mechanics and ground control, geological engineering, mineral and coal processing, surface and underground mining systems performance optimization, mine design innovative mining systems, surface mine reclamation, in-situ mining, mine environment and ventilation, coal mine dust control, coal bed methane reservoir engineering, carbon dioxide sequestration, and coal combustion byproduct utilization and management.

Cooperative Ph.D. Program

The College of Engineering at SIU-Carbondale and SIU-Edwardsville have entered into a cooperative Ph.D. program in Engineering Science which enables students to do work on both campuses. Additional information may be obtained at <https://siue.edu/engineering/programs-departments/doctoral.shtml>.

Admission and Retention

Regular Admission. Admission to the doctoral program requires a master's degree in engineering or its equivalent. Applicants for the doctoral degree must meet Graduate School admission requirements and be approved by the college graduate studies committee. This program requires a \$65 application fee that must be submitted with the application for Admission to Graduate Study in Engineering Science.

In addition to Graduate School and other college requirements, the committee ordinarily requires a grade point average of 3.25 (4 point scale) in graduate level work. Applicants are required to submit GRE scores in support of their application for admission. Except for persons from English-speaking countries, international students are required to have a minimum TOEFL score of 550 (paper score) or 213 (computer score) or 80 (internet score) or an IELTS score of 6.5 or higher for admission.

Admission to the doctoral program also requires the identification of an initial graduate adviser for each student. For students seeking admission to the Cooperative Ph.D. Program, both an initial SIU-Edwardsville advisor along with an initial SIU-Carbondale co-advisor must be identified. This advisor will be responsible with the student for planning the student's course work. The college graduate studies committee will be kept informed of the student's program of study.

Retention is governed by the rules of the Graduate School. Students should avoid the accumulation of incomplete grades. No student with more than two incomplete grades can be awarded a graduate assistant appointment, and a student holding a graduate assistant appointment is subject to having the appointment terminated upon acquiring two or more incomplete grades.

Accelerated Entry. After at least two semesters in residence in an engineering M.S. program and after completing a minimum of 18 hours of approved coursework with a minimum GPA of 3.75, a student may request for an accelerated entry into the Ph.D. program. Such entry is permitted only to superior students who have exhibited evidence that they are prepared to begin the research activities of doctoral-level study. In addition, the student must have GRE scores that are at or above the 50th percentile for both verbal component and analytical essay component and 80th percentile for the quantitative component or a combined total percentile score of 180 or higher. In case of a domestic student, an undergraduate GPA of 3.5 or higher is also a requirement. For an international student, a TOEFL score of 550 (paper score) or an IBT score of 80 or an IELTS score of 6.5 is an additional requirement. In exceptional cases, to substitute for the abovementioned GRE and TOEFL score requirements, the student's current faculty advisor, with the approval of the department chair, may submit a letter of recommendation for his/her student's accelerated entry into the PhD program.

The student, having an accelerated entry into the Ph.D. program, may not write a M.S. Thesis. In addition, six credit hours of course work of 500-level completed prior to his/her entry into the Ph.D. program may be counted toward the Ph.D. course requirement. In the rare event that the student getting an accelerated entry into the Ph.D. program fails to pass the Ph.D. qualifying exam in two attempts, he/she will be allowed to complete a MS degree in his/her respective discipline.

Computer Science. Based on a memorandum of understanding signed between the College of Engineering and the College of Science, the Department of Computer Science can participate in the Engineering Science Ph.D. program. The College of Engineering Ph.D. Committee reviews the applications and approves admissions. One of the participating Computer Science faculty serves on the Committee. An M.S. in Computer Science will be considered as a degree equivalent to an M.S. in Engineering for admission purposes. The student's Ph.D. committee will determine any makeup work that may be required.

Curriculum

A minimum of 26 semester hours of course work, including two hours of seminar, and 24 semester hours of dissertation research is required. The course work must be completed in two areas: area of concentration and program core. A student must complete a minimum of 15 hours of course work relevant to an area of concentration. The course work in the area of concentration is intended to provide depth in the student's area of research. The program core consists of 11 hours of course work. A dissertation must be completed in the student's area of research interest with the approval of the dissertation committee.

Program Core

The program core consists of 11 hours of course work: six hours in math, three hours in engineering or science and two hours of seminar. The math courses to choose from are: all 400 and 500, except MATH 400, MATH 411, MATH 412, MATH 480, MATH 483, MATH 511, MATH 513A-I, and MATH 516A, AMTH 516B. The engineering courses to choose from are: ENGR 530 Engineering Data Acquisition: Theory and Practice, ENGR 540 Design of Engineering Experiments, ENGR 545 Advanced Numerical Methods in Engineering, ENGR 521 Probability and Stochastic Processes for Engineers. The science course could be any 400- or 500-level course in Computer Science, Physics, Chemistry or Geology, as approved by the student's advisor. The seminar course, ENGR 580, must be taken in two separate semesters, each time as one-hour course.

It is recommended that the seminar classes be taken after the initiation of doctoral research or after candidacy is granted. Guide for Core and Concentration Courses

- Only two 400-level courses (typically six hours) can be counted towards the minimum required 26 semester hours of course work.
- Special Investigation course can be taken under ENGR 590—Special Investigations in Engineering Science, and only three hours can be counted towards the minimum required 26 semester hours of course work.
- Transfer credit will normally be given for some of the graduate level courses suitable to the program upon review by the college Ph.D. Committee. Proficiency examinations may be authorized by the committee for areas in which questions of transfer credit arise. No credit will be given for industrial experience. A maximum of six hours of course work can be transferred in all cases due to residency requirement, which states that every student must complete at least 24 semester hours of approved course work at SIU prior to taking the candidacy examination. Of the 24 hours of dissertation research (ENGR 600) only six hours can be completed before candidacy.
- A student transferring credits from a master's program must have earned those credits over and above the required course work to obtain the M.S. degree in his/her institution. Credit cannot be transferred from master degrees obtained from international institutions.

Candidacy

A Ph.D. student must satisfy all Graduate School requirements to become a candidate. Acceptance to Ph.D. candidacy is contingent upon the completion of all courses, excluding the seminar, with *A* or *B* grades and successful completion of a written and an oral examination in the student's area of concentration.

The examination in the area of concentration is organized and administered by the student's academic advisor. The candidacy examination committee consists of at least three faculty chosen by the advisor in consultation with the student. The committee has to be approved by the program director before it conducts the examination. Normally, the examination can be conducted at any time during the year when classes are in session. In the written examination, the student is tested in at least two major topics of the area of concentration with an appropriate number of questions prepared by the members of the

student's candidacy committee. Each student has to score at least 70 percent in each major topic test in order to successfully complete the written part of the candidacy examination. If a student fails to pass any topic test of the written examination, a second chance is given for the failed topic test. If a student does not successfully complete the written examination after two attempts, he/she will not be accepted to candidacy in the engineering science Ph.D. program. A student is qualified to take the oral examination only after successfully completing the written examination.

The oral examination is conducted within two weeks of the successful completion of the written examination. In the oral examination, the student is tested again in the area of concentration by the candidacy committee members. If a student fails to pass the oral examination in the first attempt, a second chance is given. If a student does not successfully complete the oral examination after two attempts, he/she will not be accepted to candidacy in the engineering science Ph.D. program.

After the completion of the concentration examination, copies of the graded tests, along with signoff sheets for both the written and oral examinations are submitted to the director of the Ph.D. program.

Dissertation

A dissertation must be written under the direction or codirection of an engineering faculty member and approved by a dissertation committee consisting of a minimum of five members, one of whom must be from outside the College of Engineering. For students with a computer science background, the committee will be made up of at least six members, three cross-appointed Computer Science faculty members and three Engineering faculty members, with a chair from Computer Science and a co-chair from Engineering. For students enrolled in the cooperative Ph.D. program, the committee will be made up of at least six members, three SIUC faculty members and three SIUE faculty members, with a chair from SIUE and a co-chair from SIUC.

The dissertation adviser must be chosen by the end of the student's first academic year. The dissertation committee should be formed after successful completion of the candidacy examination. The members of this committee need not be the same as the members of the candidacy examination committee.

A dissertation research proposal must be approved by the dissertation committee. Candidates will be required to present an acceptable dissertation describing original research performed with minimal supervision.

Dissertation approval is based on a successful oral defense of the dissertation research and approval of the dissertation. This requires approval of at least 80 percent of the dissertation committee.

Graduation

1. All requirements of the Graduate School must be met.
2. A minimum of 26 hours of doctoral level course work must be completed with a minimum grade point average of 3.25.
3. An acceptable dissertation must be completed within five years after admission to candidacy or the student will be required to repeat the candidacy examinations.

Doctor of Philosophy in Electrical and Computer Engineering

See [Electrical Engineering](#).

Master of Science Programs

See [Civil Engineering](#), [Electrical Engineering](#), [Quality Engineering and Management](#), [Mechanical Engineering](#), or [Mining Engineering](#).

Engineering Courses

ENGR521 - Prob & Stochastic Processes 521-3 Probability and Stochastic Processes for Engineers. (Same as ECE 551) Axioms of probability, random variables and vectors, joint distributions, correlation,

conditional statistics, sequences of random variables, stochastic convergence, central limit theorem, stochastic processes, stationarity, ergodicity, spectral analysis, and Markov processes. Restricted to graduate student status. Project-based fee: \$20 to help defray cost of software licenses.

ENGR522 - Intel Prop & Commercial 522-3 Intellectual Property and Commercialization. (Same as BA 537, LAW 633) Course teaches substance & practice of commercializing products of scientific & technical research. Provides a basic understanding of intellectual property laws in commercialization context & how those laws are applied in various fields of technology. Will learn how to value intangible assets, taking into account their commercial potential & legal status. Course will consider the legal & business issues surrounding marketing of products of research. Will prepare & negotiate license agreements. Will analyze legal & business issues surrounding whether & how to enforce intellectual property rights. Content & methods of course delivery & evaluation has been approved for provision by distance education.

ENGR530 - Engineering Data Acquisition 530-3 Engineering Data Acquisition: Theory and Practice. (Same as ECE 530) Theory of data acquisition and measurement systems. Criteria for selection of data acquisition hardware and software, instruments, sensors and other components for scientific and engineering experimentation. Methods for sampled data acquisition, signal conditioning, interpretation, analysis, and error estimation. Lab fee: \$60 to help defray cost of software licenses and equipment.

ENGR540 - Design Engr Experiments 540-3 Design of Engineering Experiments. Planning of experiments for laboratory and field studies, factorial designs, factorial designs at two levels, fractional factorial designs, response surface methods, mixture designs. Prerequisite: MNGE 417, or MATH 483, or equivalent, or consent of instructor.

ENGR545 - Adv Numerical Methods 545-3 Advanced Numerical Methods in Engineering. Engineering applications of linear and nonlinear equations, eigenvalue problems, interpolation and approximating functions and sets of data, numerical solutions of ordinary and partial differential equations. Prerequisite: ENGR 222 or equivalent, ENGR 351 or equivalent, and MATH 305 or consent of instructor.

ENGR580 - Seminar 580-1 Seminar. Study and presentation of research topics from students' own specialty areas within engineering and science. Graded S/U only. Restricted to enrollment in the Ph.D. in engineering science program or consent of instructor.

ENGR590 - Spec Inves Engr Science 590-1 to 3 Special Investigations in Engineering Science. Investigation of individual advanced projects and problems selected by student or instructor. Restricted to admission into Ph.D. program in engineering science.

ENGR592 - Engineering Co-op 592-1 to 3 Engineering Cooperative Education. Supervised work experience in industry, government or in a professional organization. Work must be directly related to student's program of study. Student works with on-site supervisor and faculty advisor. Activity report is required from the student and performance report is required from the employer. Enrollment requires Chair's approval. Hours do not count toward degree requirements. Mandatory Pass/Fail. Restricted to graduate standing.

ENGR593 - Special Topics in Engineering 593-3 Special Topics in Engineering. Studies of various special topics in the area of engineering science. Special approval needed from the instructor.

ENGR600 - Doctoral Dissertation 600-1 to 24 (1 to 16 per semester) Doctoral Dissertation. Dissertation research. Hours and credit to be arranged by director of graduate studies. Graded S/U only. Restricted to admission to Ph.D. in engineering science program.

ENGR601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

ENGR699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Engineering Faculty

Civil and Environmental Engineering (CEE) Faculty:

Bravo, Rolando, Associate Professor, Ph.D., University of Houston, 1990; 1991. Surface and subsurface hydrology, hydraulics and fluid mechanics.

Chevalier, Lizette R., Professor, *Associate Provost for Academic Programs*, Ph.D., Michigan State University, 1994; 1995. Environmental restoration of groundwater aquifers, experimental investigation of immiscible flow, and numerical modeling of subsurface transport.

DeVantier, Bruce A., Associate Professor, Ph.D., University of California-Davis, 1983; 1983. Water quality modeling, sediment transport, turbulence modeling, finite element methods.

Hsiao, J. Kent, Professor, Ph.D., University of Utah— Salt Lake City, 2000; 2001. Structural earthquake engineering, structural reliability, structural design of buildings and bridges using steel, reinforced or prestressed concrete, masonry, and wood.

Kalra, Ajay, Assistant Professor, Ph.D., University of Nevada, 2011; 2015. Hydraulics and Water Resources Engineering, hydro-climatology, urban sustainability, water-energy-climate nexus, probabilistic forecasting and downscaling, surface water and groundwater interactions.

Kassimali, Aslam, Professor and *Distinguished Teacher*, Ph.D., University of Missouri, 1976; 1980. Structural engineering, nonlinear structural analysis, structural dynamics and stability.

Kolay, Prabir, Associate Professor, Ph. D., Indian Institute of Technology, IIT BoM.B.A.y, 2001; 2010. Geotechnical Engineering, Soil Stabilization, Unsaturated Soil, ANN Modeling.

Kumar, Sanjeev, Professor, *Distinguished Teacher and Chair*, Ph.D., University of Missouri-Rolla, 1996; 1998. Dynamic soilstructure interaction, piles under lateral loads, settlement prediction of landfills, hydraulic conductivity of clay barriers, seismic analysis and design of landfills, ground motion amplification in soils, liquefaction of silts and sands and machine foundations.

Liu Jia, Assistant Professor, Ph.D., University of Houston, 2014; 2015. Environmental Engineering, renewable energy production, microbial fuel cell, water/wastewater treatment and groundwater/soil remediation, material development for energy safety and environmental pollution detection.

Puri, Vijay K., Professor, Ph.D., University of Missouri-Rolla, 1984; 1986. Geotechnical engineering, soil dynamics, machine foundations, liquefaction of soils.

Tezcan, Jale, Professor, Ph.D., Rice University, 2005; 2005. Non-linear structural behavior, neural networks In system Identification and structural control, rehabilitation, and retrofitting of structures damaged by earthquakes.

Warwick, John J., Professor and *Dean of Engineering*, Ph.D., Penn State University, 1983; 2011. Environmental engineer, surface water hydrology, surface water quality simulation.

Electrical and Computer Engineering (ECE) Faculty:

Although ECE has its own PhD program, prospective students continue to have ECE concentration available if they want to pursue their PhD degree in Engineering Science.

Ahmed, Shaikh S., Professor, Ph.D., Arizona, 2005; 2007. Nanotechnology, semiconductor devices and circuit design, simulation and characterization.

Anagnostopoulos, Iraklis, Assistant Professor, Ph.D., National Technical University of Athens, Greece, 2014; 2015. Many-core embedded systems, run-time resource management, embedded systems architectures.

Aruma Baduge, Gayan L. A., Assistant Professor, Ph.D., University of Alberta, 2013; 2016. Wireless communication systems, communication theory, information theory, detection and estimation theory, probability and stochastic processes, and statistical signal processing.

Asrari, Arash, Assistant Professor, Ph.D., University of Central Florida, 2015; 2017. Power systems operation and planning, power systems optimization, smart grid.

Chen, Kang, Assistant Professor, Ph.D., Clemson, 2014; 2015. Computer networks, cloud computing, connected vehicle.

Chen, Ying (Ada), Associate Professor, Ph.D., Duke, 2007; 2007. Biomedical imaging, image reconstruction, digital tomosynthesis, image quality analysis, signal and image processing, simulation and computing.

Gupta, Lalit, Professor, Ph.D., Southern Methodist University, 1986; 1986. Computer vision, pattern recognition, digital signal processing, neural networks.

Haniotakis, Themistoklis, Associate Professor, Ph.D., University of Athens, 1998; 1998. Digital VLSI Design and Test, RF IC Design and Test, Low Power VLSI Design, Fault-tolerant Systems.

Harackiewicz, Frances J., Professor, Ph.D., University of Massachusetts-Amherst, 1990; 1989. Electromagnetics, antenna theory and design, microwaves, microstrip phased arrays and anisotropic materials.

Hatziadoniu, Konstantine, Professor, Ph.D., West Virginia University, 1987; 1987. Power systems modeling, simulation and control, high voltage DC transmission, power electronics, power systems transient.

Kagaris, Dimitrios, Professor, Ph.D., Dartmouth College, 1994; 1995. VLSI design automation, digital circuit testing, communication networks.

Komae, Arash, Assistant Professor, Ph.D., University of Maryland, College Park, 2008; 2015. Control systems, microrobotics, signal processing, estimation theory.

Lu, Chao, Assistant Professor, Ph. D., Purdue University, 2012. VLSI system, energy harvesting, H.265/HEVC video encoding, emerging device-circuit co-design and optimization, power management IC.

Montemagno, Carlo, Professor and *Chancellor*, Ph.D., University of Notre Dame, 1995; 2017. Biotechnology, nanotechnology.

Qin, Jun, Assistant Professor, Ph.D. Duke University, 2008. Medical device development, instrumentation and sensors, medical data acquisition and analysis, medical acoustics, therapeutic ultrasound, haptics.

Sayeh, Mohammad R., Professor, Ph.D., Oklahoma State University, 1985; 1986. Neural networks, optical computing, image processing, stochastic modeling, quantum electronics.

Tragoudas, Spyros, Professor and *Chair*, Ph.D., University of Texas at Dallas, 1991;1999. Design automation for VSLI, testing and verification of digital circuiting, computer networks.

Wang, Haibo, Professor, Ph.D., University of Arizona, 2002; 2002. Mixed-signal VLSI design and testing, digital VLSI, VLSI design automation.

Weng, Ning, Associate Professor, Ph.D., University of Massachusetts at Amherst, 2005; 2005. High performance routers, network processors, system-on-a-Chip, computer architectures.

Industrial and Quality Engineering (IQE) Faculty:

Crosby, Garth, Associate Professor, Ph.D., Florida International University, 2007; 2008. Wireless networks, wireless sensor networks, ad hoc networks, network security and trust modeling.

DeRuntz, Bruce, Professor, Ph.D., Southern Illinois University Carbondale, 2005; 1998. Technical leadership development.

Dunston, Julie K., Associate Professor and *Interim Chair*, Ph.D., Florida State University, 1995; 1995. Intelligent manufacturing; process modeling and control; quality improvement through integration of artificial intelligence and statistical methods.

Savage, Mandara, Associate Professor, Ph.D., Iowa State University, 1999; 1999. Machine tool dynamics, manufacturing systems and processes; lean manufacturing systems design.

Spezia, Carl J., Associate Professor, Ph.D., Southern Illinois University Carbondale, 2002; 2005. Power systems design, power systems protection, power market development, electric motor controls and applications; energy management and conservation; industrial automation.

Velasco, Tomas, Associate Professor, Ph.D., University of Arkansas, 1991; 1993. Quality assurance, reliability, six sigma and artificial intelligence applications in manufacturing environments.

Mechanical Engineering and Energy Processes (MEEP) Faculty:

Abrate, Serge, Professor, Ph.D. Purdue University, 1983; 1995. Impact, penetration, structural dynamics, composites.

Agrawal, Om, Professor, Ph.D., University of Illinois-Chicago, 1984; 1985. Computer-aided analysis and design of rigid/flexible multibody systems, numerical analysis, finite element methods, and continuum mechanics, CAD/Simulation of mechanical systems.

Chowdhury, Farhan H., Assistant Professor, Ph.D., University of Illinois at Urbana-Champaign, 2011; 2015. Cellular Biomechanics and Mechanobiology.

Chu, Tsuchin P., Professor, Ph.D., University of South Carolina, 1982; 1990. CAD/ CAM, imaging systems, mechanical vibrations, computer graphics, machine vision, optical methods in experimental mechanics and manufacturing, image processing.

Esmaeeli, Asghar, Professor, Ph.D., University of Michigan, 1995; 2000. CFD, two-phase heat transfer.

Farhang, Kambiz, Professor, Ph.D., Purdue University, 1989; 1990. CAD/CAM, controls, vibrations, kinematics, dynamics, control and stability of flexible and rigid-body mechanical, electromechanical, mechanical-drive systems; manufacturing processes and process control.

Filip, Peter, Professor, Ph.D., Technical University Ostrava, D.Sc., Academy of Sciences, Prague, Czech Republic, 1989. 1989; 1999. Materials science and engineering nanotechnology, friction science and applications, biomaterials, shape memory, alloys and advanced composite materials.

Kim, Dal Hyung, Assistant Professor, Ph.D., Drexel University, 2013; 2017. Robotics, brain imaging, microscope design, optimal control, microrobotics.

Koc, Rasit, Professor and *Chair*, Ph.D., University of Missouri-Rolla, 1989; 1994. Ceramic materials, powder processing, nonstoichiometry of oxides; sintering of oxide and non-oxide ceramics, methods preparing high purity oxides from organometallics, perovskites for use as high temperature electrodes, synthesizing submicron carbide, nitride and boride powders.

Mathias, James A., Associate Professor, Ph.D., Ohio State University, 2001; 2003. Nanotechnology, microchannels, heat transfer, thermodynamics, energy utilization.

Mondal, Kanchan, Professor, Ph.D., SIU, 2001; 2006. Electrochemistry, energy from coal, catalysis, reactor systems and design.

Nsofor, Emmanuel C., Professor, Ph.D., Mississippi State University, 1993; 1999. Experimental and computational flow and heat transfer, advanced energy systems, HVAC & R, energy storage, environmental engineering, thermodynamics and combustion.

Suni, Ian I., Professor and *Director of the Materials Technology Center*, Ph.D., Harvard University, 1992; 2013. Application of electrochemistry and electrochemical engineering to technology advancement in thin film growth and dissolution, including both photovoltaic thin films and ULSI materials; electrochemical biosensors, including the use of electrochemical impedance spectroscopy (EIS) for detecting antibody-antigen recognition; and nanotechnology, including the use of nanoporous template materials for alternative energy development and biosensing.

Wiltowski, Tomasz, Professor and *Director of the Advanced Coal and Energy Research Center*, Ph.D., Institute of Catalysis and Surface Chemistry, Cracow, Poland, 1982; 2003. Coal transformation and characterization, coal gasification, alternative energy sources, hydrogen production from coal, catalytic conversion of hydrocarbons and alcohols to hydrogen, fuel cells, nanomaterials synthesis and characterization.

Mining and Mineral Resources Engineering (MMRE) Faculty:

Harpalani, Satya, Professor, Ph.D., University of California, Berkeley, 1985; 2002. Mine ventilation, coal bed methane reservoir engineering, in situ mining, and carbon dioxide sequestration.

COLLEGE OF ENGINEERING—SIU Edwardsville Faculty participating in the Engineering Science Ph.D. Program (see below):

Graduate Faculty (SIU Edwardsville):

Benjankar, Rohan, Ph.D., Assistant Professor, University of Idaho, 2009.

Bouvier, Dennis J., Ph.D., Associate Professor, University of Louisiana at Lafayette, 1994.

Celik, Serdar, Ph.D., Associate Professor, Southern Illinois University Carbondale, 2007.

Chen, Xin, Ph.D., Assistant Professor, Purdue University, 2009.

Cho, Sohyung, Ph.D., Associate Professor, Pennsylvania State University, 2000.

Crk, Igor, Ph.D., Assistant Professor, University of Arizona in Tucson, 2010.

Cross, Brad, Ph.D., P.E., S.E., Professor, Johns Hopkins University, 1992.

Darabi, Jeff, Ph.D., Professor, University of Maryland, 2000.

Eneyo, Emmanuel S., Ph.D., Professor, Purdue University West Lafayette, Indiana, 1991.

Engel, George L., D.Sc., Professor, Washington University, 1990.

Ercal, Gunes, Ph.D., Assistant Professor, University of California, Los Angeles, 2008.

Fries, Ryan, Ph.D., P.E., Associate Professor, Clemson University, 2007.
Fujinoki, Hiroshi, Ph.D., Associate Professor, University of Southern Florida, 2001.
Gordon, Chris, Ph.D., Associate Professor, Carnegie Mellon University, 2006.
Gu, Keqin, Ph.D. Professor, Georgia Institute of Technology, 1988.
Huang, Jianwei, Ph.D., Assistant Professor, Syracuse University, 2010.
Karacal, Seref C., Ph.D., Professor and *Associate Dean*, Oklahoma State University, 1991.
Ko, Hoo Sang, Ph.D., Assistant Professor, Purdue University, 2010.
Kweon, Soondo, Ph.D., Assistant Professor, University of Illinois at Urbana-Champaign, 2009.
LeAnder, Robert W., Ph.D., Associate Professor, University of Illinois at Chicago, 2002.
Lee, Heungsoon F., Ph.D., Professor, University of Michigan, 1989.
Lozowski, Andy G., Ph.D., Associate Professor, University of Louisville, 1999.
Luo, Albert, Ph.D., Professor, University of ManitobaWinnipeg, 1996.
Mayer, Gary R., Ph.D., Assistant Professor, Arizona State University, 2009.
McKenney, Mark, Ph.D., Assistant Professor, University of Florida, 2008.
Molki, Majid, Ph.D., Professor, University of Minnesota, 1982.
Morgan, Susan, Ph.D., P.E., Professor, Clemson University, 1995.
Noble, Brad, D.Sc., Associate Professor, Washington University, 2000.
Onal, Sinan, Ph.D., Assistant Professor, University of South Florida, 2014.
Osouli, Abdolreza (Reza), Ph.D., Assistant Professor, University of Illinois at Urbana-Champaign, 2009.
Qi, Yan, Ph.D. Assistant Professor, Louisiana State University, 2010.
Umbaugh, Scott E., Ph.D., Professor, University of Missouri Rolla, 1989.
Wang, Fengxia, Ph.D., Assistant Professor, Purdue University, 2008.
Wang, Xin, Ph.D., Associate Professor, Marquette University, 2011.
Weinberg, Jerry B., Ph.D., Professor, Vanderbilt University, 1996.
Werner, Anne, Ph.D., Assistant Professor, University of Illinois at Urbana-Champaign, 2004.
White, William W., Ph.D., Professor, Ohio State University, 1989.
Yan, Terry, Ph.D., Professor, University of California at Davis, 1993.
York, Tim, Ph.D., Assistant Professor, Washington University, 2015.
Yu, Xudong W., Ph.D., Associate Professor, Vanderbilt University, 1994.
Zhou, Jianpeng (Jim), Ph.D., P.E., Associate Professor, University of British Columbia, 2003.

English

The Department of English offers programs leading to the Master of Arts and the Doctor of Philosophy degrees with a major in English and to the Master of Fine Arts in Creative Writing. Students enrolled in a program leading to the Master of Science in Education degree in secondary education or higher education may take courses in English to satisfy requirements for the teaching specialty. Students enrolled in the Ph.D. degree in education program may take courses in English for the elective portion of the program when permitted by the specific department participating in the degree.

Admission

Students seeking admission to the graduate program in English must first be admitted by the Graduate School before they can be admitted to the Department of English.

Students seeking admission to the M.A. and Ph.D. degree programs may submit scores for the general tests of the Graduate Record Examination. MFA applicants are strongly advised to submit these scores

as well. Information about admission may be obtained by calling 618-453-5321 or by writing: Director of Graduate Studies, Department of English, Southern Illinois University Carbondale, Carbondale, IL 62901-4503. Email: gradengl@siu.edu.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in English. Applicants must pay this fee by credit card.

Transfer Credit

Within limits imposed by the Graduate School, transfer credits will be accepted by the Department of English subject to the following restrictions:

The student must petition the Director of Graduate Studies giving the following information: the number and level of hours being submitted for credit, where and when the work was done, the grade received, and course descriptions and syllabi. As nearly as possible, the course to be transferred should be equated with a course offered by the SIU Department of English. An appropriate faculty member will recommend whether the transfer credits should be accepted and whether the course satisfies the course distribution requirements of the department. The Director of Graduate Studies will forward a recommendation to the proper authorities.

Retention

In the entire graduate program, the student may accumulate up to three hours of work below *B*, so long as a 3.0 M.A. or 3.25 Ph.D. average is maintained. If the student has accumulated more than three hours, but fewer than 10 hours, of grades below *B*, these must be replaced by an equal number of hours of *A* or *B* in addition to maintaining the required average. That is, the minimum number of semester hours of course work may be increased from 30 to a maximum of 36. A student who accumulates more than nine hours of *C* will be dropped from the program.

A student who is granted a deferred or incomplete grade must complete the work by the end of the next term in residence. Exception to this rule will be made only in a very special case and must be made through petition to the Graduate Studies Committee. A student who has accumulated more than six hours of such work will not be allowed to register for more course work until the total of deferred work is reduced to not more than three semester hours. Deferred or incomplete work will be regarded as finished when a student has submitted all examinations, papers, etc., to the instructor. Deferred or incomplete grades in ENGL 595, ENGL 600, and ENGL 601 are not included in the above regulations.

Course Work

Students may offer work from outside the department (in a single field or in two or more related fields) toward the Master of Arts, the Master of Fine Arts, or the Ph.D. degree provided that the work does not interfere with regular requirements of the Department of English and has relevance to their program.

Master of Arts Degree

The English Department offers three areas of concentration at the master's level: 1) Literature, 2) Rhetoric and Composition, and 3) English Studies. The Master of Arts degree in English with a concentration in Literature or Composition and Rhetoric requires satisfactory completion of 30 semester hours, of which at least 15 must be earned in 500-level courses at Southern Illinois University Carbondale.

All students must satisfy the following requirements:

1. **Core courses:**

Four literature courses: two from Group I, representing two different historical periods; and two from Group II, representing two different historical periods - 12 hours.

Group I:

- (a) Old and Middle English literatures
- (b) Renaissance and 17th Century English literature
- (c) Restoration and 18th Century English literature
- (d) 19th Century English literature

Group II:

- (a) American literature before 1900
 - (b) American literature since 1900
 - (c) Modern British literature
 - (d) Modern Continental literature
2. **Concentrations:** Satisfactory completion of one of the concentrations detailed below.
 3. **Foreign Language:** This requirement may be satisfied by completing, with an average not less than *B*, two years of college-level work in one foreign language or CLAS 488 or FR 488 or GER 488 or SPAN 488 or ENGL 402 plus ENGL 506 (Beowulf), or the equivalent. Equivalent work will be judged on an ad-hoc basis by the Director of Graduate Studies.
 4. **Research paper/thesis:** This requirement may be satisfied either by submitting to the Director of Graduate Studies two copies of a research paper which has received a grade of not less than *B* in a 500-level English course (a rhetoric/composition course for students in that concentration), or by taking ENGL 599 (three hours) and writing an acceptable thesis.
 5. **Final examination:** This requirement must be satisfied as specified below.

Literature Concentration

1. ENGL 401 or ENGL 402 or ENGL 403 - three hours
2. Two additional literature courses so that a student has covered three periods in Group I and three periods in Group II - six hours
3. Electives should include a literary criticism/theory course and may include ENGL 599 - six hours
4. Satisfactory completion of a written examination over four historical periods and a reading list. A student who fails the examination may take it a second time. A third examination may be allowed, but only by special permission of the Director of Graduate Studies. If the examination committee deems it useful an oral examination may be scheduled after the written examination to determine the grade for the examination. Any student choosing to take the MA qualifying examination must also file with the Graduate School a clean and properly formatted research paper which has earned the grade of *B* or better in a 500-level English course or a completed MA thesis.
5. Students may write an MA thesis, provided they submit an application (including thesis topic and title, signatures of committee members, and a letter of support from their thesis director) and it is approved by the Graduate Studies Committee.

Rhetoric & Composition Concentration

1. ENGL 401 - 3 hours
2. ENGL 596 - 3 hours
3. ENGL 597 - 3 hours
4. One of the following (3 hours): ENGL 501, ENGL 581, ENGL 490, ENGL 491, or an appropriate special topics course (this decision is to be made in consultation with the Area Head of Rhetoric & Composition).
5. ENGL 599 (3 hours)
6. Satisfactory completion of either: 1) a research portfolio and oral portfolio defense, or 2) a thesis and oral thesis defense. In either case, the student will follow specific guidelines established by the Rhetoric and Composition faculty.

English Studies Concentration

The Master of Arts degree in English with a concentration in English Studies requires satisfactory completion of 36 semester hours, of which at least 18 must be earned in 500-level courses at Southern Illinois University Carbondale.

All students in the English Studies concentration must satisfy the following requirements:

1. **Core Courses:**
At least one course from seven of the following areas:
 - (a) Language and Grammar Studies
 - (b) Old/Medieval English Literature
 - (c) Renaissance/17th Century British Literature
 - (d) Restoration/18th Century British Literature
 - (e) 19th Century British Literature
 - (f) Early American Literature
 - (g) Modern American Literature

- (h) Modern British Literature
 - (i) Modern Continental Literature
 - (j) Composition and Rhetoric
2. **Electives:** 15 credit-hours, which may be taken outside the English Department.
 3. **Final Examination:** None beyond required coursework.

Students in the English Studies concentration may request a graduate assistantship provided they receive all GA training required by the English Department. Priority, however, is given to students in the other two areas of concentration because those areas of concentration are designed to meet the specific needs of students preparing to teach at the college or university level.

Master of Fine Arts Degree

The Master of Fine Arts in Creative Writing requires satisfactory completion of 48 semester hours, of which at least 24 must be earned in 500-level courses at Southern Illinois University Carbondale.

All students must satisfy the following requirements:

1. **Core courses:**
ENGL 592 - 20 hours
ENGL 594 - 4 hours
2. **Recommended and elective courses:** As prescribed by the creative writing faculty - 15 hours
3. **Candidacy Review:** In the spring semester of a student's second year in the MFA program, all students undergo a formal candidacy review. By April 10, faculty in each subspecialty (fiction and poetry) will submit to the director of creative writing a synopsis of each student's progress to date, as well as a finalized thesis committee. In those instances where the faculty finds that a student has not demonstrated satisfactory creative or professional progress and/or cannot form a thesis committee, the student will meet with the Director of Graduate Studies and all faculty members in the student's subspecialty to determine the nature of the deficiency. The faculty may recommend to the Director of Graduate Studies at this meeting that the student be required to complete remediation, that the student be allowed to continue in the program without sanction, or that the student be removed from the program. In the last case, the creative writing faculty will then submit a written recommendation for removal from the program to the Director of Graduate Studies and the graduate studies committee. Within five working days of receiving this recommendation, the Director of Graduate Studies will request a written response from the affected student. The student will have five days to respond in writing. Within five days of receiving this response, the director will convene a meeting of the graduate studies committee. Should the graduate studies committee concur with the creative writing faculty's recommendation, the student will be removed from the program. This decision will then be subject to the Graduate School's academic grievance policy detailed herein.
4. **Thesis:** ENGL 599 - 6 hours
5. **Final oral examination:** Over thesis and coursework. The oral examination/thesis defense is open to the public.

Doctor of Philosophy Degree

Students must apply formally for admission to the Doctor of Philosophy degree program, including students who have earned a master's degree at SIU. Admission to the Ph.D. program is decided by the Graduate Studies Committee, which makes its decision according to the following criteria:

1. An M.A. degree in English or its equivalent
2. Appropriate grade-point average (normally, a 3.25 is the acceptable minimum)
3. Quality of the submitted writing sample and the compatibility of a student's proposed area of focus with faculty expertise

A full-time student holding a master's degree can complete the doctoral program in two years, though most prefer three. Students are considered Ph.D. candidates when they have: (1) completed the prescribed course of study, (2) satisfied the research-tool requirements, (3) passed preliminary

examinations, and (4) been recommended by the English graduate faculty. The Graduate School recognizes students as Ph.D. candidates after it receives notification that the students have passed preliminary examinations. Students must be admitted to candidacy at least six months prior to the final examination on the dissertation.

Accelerated Entry into the Ph.D. Degree Program

A student enrolled in the M.A. degree program may petition the Graduate Director after two semesters in residence for waiver of the requirement of the M.A. degree as prerequisite for admission to the doctoral program and for direct entry into the Ph.D. in accordance with the following conditions: first, the student must be an exceptional graduate student whose outstanding academic achievements must be supported by a wide range of conclusive evidence including, but not restricted to, the G.P.A., G.R.E. scores, M.A. degree research tool requirement, and evaluative letters from graduate instructors; second, the student must present one graduate research paper of outstanding quality, or a published article of appropriate quality, or the equivalent for the departmental files. The petition shall be presented to the Graduate Studies Committee for approval. If accelerated entry is granted, the student will proceed toward the Ph.D. degree in accordance with the established rules of the department and the Graduate School. Students admitted into the Ph.D. program under the accelerated entry option will have to fulfill all M.A. degree requirements as part of the Ph.D. degree work, but will not receive the M.A. degree.

Course of Study

The PhD degree in English requires, at minimum, 30 hours of coursework (of which at least 15 should be earned at the 500 level at Southern Illinois University Carbondale), and 24 credit hours of dissertation at Southern Illinois University Carbondale. Required courses are as follows:

1. A pro-seminar to be taken in the first year of doctoral study;
2. Two graduate courses in literary theory or rhetorical theory or cultural studies;
3. Any courses prescribed by a student's advisory committee to ensure appropriate knowledge of a major area and two minor areas, normally with at least one 500-level course completed for credit, with no grade lower than B, in each minor area.

Research Tool Requirements

A student may satisfy the research tool requirement by fulfilling one of the two options listed below. The choice of option and languages selected must be approved by the student's advisory committee.

1. Command of one language demonstrated by examination in the Foreign Language Department. International students may specify their native language as long as they demonstrate fluency in English as well, or
2. Reading knowledge of one foreign language demonstrated by a minimum three years course work (or its equivalent) at the college level in one language with a grade no lower than a "B." Students who take research courses in any language are required to take at least two more courses at the 300- or 400-level in the same language.

The department has expanded its Ph.D. program into interdisciplinary studies on a cooperative basis with departments that deal with one pertinent subject matter and which are interested in such interdisciplinary cooperation, e.g., the Departments of Philosophy, Foreign Languages and Literatures, History, Cinema and Photography, Speech, Theater, Sociology, etc. Permission for an interdisciplinary minor must be approved by the student's committee and the Graduate Studies Committee.

The Preliminary Exam Advisory Committee and the Program of Study Proposal

Following admission to the Ph.D. program, and before the completion of the second year (i.e., fourth semester) in doctoral residence, a Ph.D. student is required to form an academic advisory committee (hereafter referred to as the Preliminary Examination Committee) and to prepare a Program of Study Proposal. The Preliminary Examination Committee will consist of four members of the graduate faculty in English. The Chair of the Committee and one other member will normally represent the student's major area of interest; each of the remaining two members will normally represent one of the minor areas of interest. Within the limits of this distribution, the student may, usually upon consulting the Chair of

the Preliminary Examination Committee, change the particular membership of the committee at any point. Normally the Preliminary Examination Committee will comprise the nucleus of the Dissertation Committee. As soon as the Preliminary Examination Committee is formed, it becomes the responsibility of all its members to oversee the student's program and academic progress.

If a student has not formed a preliminary exam committee by April 15 of the fourth semester in the program, then the student will undergo the formal candidacy review process detailed herein. The director of graduate studies will first consult the student in question to determine the reason for the delay in constituting the preliminary exam committee. In those instances where the director finds that the delay is the result of a simple deadline mismanagement, she will take no action. In those instances where the director finds that a student has not demonstrated satisfactory scholarly or professional progress and/or cannot form a thesis committee, the student will meet with the director of graduate studies and all faculty members in the student's area ("area" means either historical period or conceptual focus) to determine the nature of the deficiency. After the meeting, the faculty in the student's area may recommend to the director of graduate studies that the student be required to complete remediation, that the student be allowed to continue in the program without sanction, that the student be granted an extra semester to complete the program of study, or that the student be removed from the program. The faculty in the student's major area will submit a written recommendation to the director of graduate studies. If the faculty recommend removal, this recommendation will go to the graduate studies committee. Within five working days of receiving this recommendation, the director of graduate studies will request a written response from the affected student. The student will have five days to respond in writing. Within five days of receiving this response, the director will convene a meeting of the graduate studies committee. Should the graduate studies committee concur with the faculty's recommendation, the student will be removed from the program. This decision will then be subject to the Graduate School's academic grievance policy.

Preliminary examinations

Students on a fellowship or a graduate assistantship will be expected to take preliminary examinations no later than two or three years, respectively, after receipt of their M.A. degree.

Preliminary examination covering three areas are prepared and graded by the student's advisory committee. A major examination may consist of one six-hour written exam or one take-home literature review essay. A minor area examination may consist of a three-hour written exam or a comparable take-home literature review essay. Regardless of format, all preliminary exams conclude with an oral defense.

The committee may require the student to complete further work or testing for any minor section receiving a "Low Pass" grade. The committee must require further work or testing for any entire examination that receives a "Low Pass" grade. A student who fails the preliminary examination may request to take it a second time.

English Courses

ENGL401 - Modern English Grammars 401-3 Modern English Grammars. Survey of the structure of English, with emphasis on phonetics and phonology, morphology, syntax, semantics, pragmatics, grammar instruction, stylistics and language variation. Specifically designed to meet the needs of prospective teachers of composition and language arts at the secondary and college levels.

ENGL402 - Old English Lang & Lit 402-3 Old English Language and Literature. Introduction to the language, literature and culture of Anglo-Saxon England, with emphasis on Old English heroic and elegiac poetry, exclusive of Beowulf.

ENGL404A - Medieval Allegory and Romance 404A-3 Medieval Allegory, History and Romance. Three popular Medieval genres as represented by major texts of the early through the late Middle Ages, exclusive of Chaucer, including works such as *Dream of the Rood*, *Sir Orfeo*, *Sir Gawain and the Green Knight*, *Piers Plowman*, *The Book of Margery Kempe* and selections from *Lawman's Brut* and *Malory's Le Morte Darthur*.

ENGL404B - Medieval Lyric, Ballad, Drama 404B-3 Medieval Lyric, Ballad and Drama. Lyric, ballad and drama from the early through the late Middle Ages, including translations of the Old English *Wife's*

Lament, Husband's Message, Wanderer, and Seafarer, as well as Middle English religious and love lyrics and the Robin Hood ballads, with special emphasis on the great plays of the fifteenth century and the rebirth of drama in the Western World.

ENGL405 - Middle English Lit: Chaucer 405-3 Middle English Literature: Chaucer. Major works including Troilus and Criseyde and selections from The Canterbury Tales.

ENGL412 - Non-drama Lit Renaissance 412-3 English Non-Dramatic Literature: The Renaissance. Topics vary, but usually lyric poets, especially 17th-century metaphysical poets such as Donne, Herbert and Marvell.

ENGL413 - Restoration & Early 18th Cent 413-3 English Non-Dramatic Literature: The Restoration and Earlier Eighteenth Century. Major works of Dryden, Pope, and Swift, and the non-dramatic specialties of Behn, Addison and Steele.

ENGL414 - Nondrama Lit Later 18th Cent 414-3 English Non-Dramatic Literature: The Later Eighteenth Century. Major poets from Thomson to Blake, and major prose writers, with emphasis on Johnson, Boswell and their circle.

ENGL421 - English Romantic Literature 421-3 English Romantic Literature. Wordsworth, Coleridge, Byron, Shelley, Keats, and other writers of the era.

ENGL422 - Victorian Poetry 422-3 Victorian Poetry. Tennyson, Browning, Arnold and other poets in England.

ENGL423 - Modern British Poetry 423-3 Modern British Poetry. Major modernists (Yeats, Eliot, Pound), with selected works of Auden, Owen, Thomas, Heaney and others.

ENGL424 - Native American Verbal Art 424-3 Native American Verbal Art. (Same as ANTH 424) This class examines the oral traditions (story-telling, poetry, song, chant, etc.) of Native American Peoples. This class focuses on the ways that Native American verbal art has presented/represented by outsiders as well as on formal features and forms of Native American verbal art. Attention is paid to the place and structure of verbal art in Native societies. This class focuses on the broad spectrum of verbal art in North America.

ENGL425 - Modern Continental Poetry 425-3 Modern Continental Poetry. Representative poems by major 20th century poets of France, Italy, Germany, Spain, Russia, and Greece.

ENGL426 - American Poetry to 1900 426-3 American Poetry to 1900. Trends and techniques in American poetry to 1900.

ENGL427 - American Poetry: 1900-Present 427-3 American Poetry from 1900 to the Present. The more important poets since 1900.

ENGL433 - Religion & Literature 433-3 Religion and Literature. Introduce students to the study of religious meaning as it is found in literature.

ENGL436 - Major American Writers 436-3 Major American Writers. Significant writers from the Puritans to the present. May be repeated only if topic varies, and with consent of the department.

ENGL437 - American Literature to 1800 437-3 American Literature to 1800. Representative works and authors from the period of exploration and settlement to the Federal period.

ENGL445 - Backgrounds of Western Lit 445-3 Cultural Backgrounds of Western Literature. (Same as CLAS 445) A study of ancient Greek and Roman literature, Dante's Divine Comedy, and Goethe's Faust, as to literary type and historical influence on later Western writers.

ENGL446 - Caribbean Literature 446-3 Caribbean Literature. Representative texts from drama, poetry, and fiction that have shaped black diaspora aesthetics in the Caribbean, with special reference to black literature of the North American continent.

ENGL447 - African Literature 447-3 African Literature. Selected works of poetry, drama, and fiction by modern African authors.

ENGL448B - Irish Literature 448B-3 Irish Literature. Major works, authors, genres, periods, or movements within Irish Literature. Topics will vary (i.e., Irish Women Writers, Joyce and Yeats, The King Tales, 19th Century Irish Writers, the Celtic Twilight, Contemporary Irish Poets, etc.), providing in-depth study in particular areas within the 16 centuries of Irish Literature.

ENGL451 - 18th Century English Fiction 451-3 Eighteenth Century English Fiction. The novel from Defoe to Austen, including works by Fielding, Richardson and others.

ENGL452 - 19th Century English Fiction 452-3 Nineteenth Century English Fiction. The Victorian novel from 1830, including works by the Brontes, Dickens, George Eliot, Thackeray and others.

ENGL453 - Modern British Fiction 453-3 Modern British Fiction. Major writers (including Conrad, Joyce, Woolf and Lawrence), with selected fiction from mid-century and later.

ENGL455 - Modern Continental Fiction 455-3 Modern Continental Fiction. Selected major works of Europe and authors such as Mann, Silone, Camus, Kafka, Malraux, Hesse.

ENGL458 - American Fiction to 1900 458-3 American Fiction to 1900. Trends and techniques in the American novel and short story.

ENGL459A - American Prose 1900-Mid-century 459A-3 American Prose from 1900 to Mid-Century: The Modern Age. Representative narratives from the turn of the century to the post-World War II period.

ENGL459B - American Prose Midcent-Present 459B-3 American Prose from Mid-Century to the Present: The Postmodern Age. Representative narratives from the post-World War II period to the present.

ENGL460 - Elizabethan/Jacobean Drama 460-3 Elizabethan and Jacobean Drama. Elizabethan drama excluding Shakespeare: such Elizabethan playwrights as Greene, Peele, Marlowe, Dekker; and Jacobean drama: such Jacobean and Caroline playwrights as Jonson, Webster, Marston, Middleton, Beaumont and Fletcher, Massinger, Ford, Shirley.

ENGL462 - English Restoration/18th C Drama 462-3 English Restoration and 18th Century Drama. After 1660, representative types of plays from Dryden to Sheridan.

ENGL464 - Modern British Drama 464-3 Modern British Drama. Major writers (including Shaw and Synge), with selected works of later dramatists such as Churchill and Bond.

ENGL465 - Modern Continental Drama 465-3 Modern Continental Drama. The continental drama of Europe since 1870; representative plays of Scandinavia, Russia, Germany, France, Italy, Spain and Portugal.

ENGL468 - American Drama 468-3 American Drama. The rise of drama, with emphasis on the 20th century.

ENGL469 - Contemporary Topics in Drama 469-3 Contemporary Topics in Drama. Varying topics on cross-national and cross-cultural 20th-century drama with focus on theoretical issues.

ENGL471 - Shakespeare I 471-3 Shakespeare: The Early Plays, Histories, and Comedies. Such plays as A Midsummer Night's Dream, The Merchant of Venice, The Taming of the Shrew, Henry IV Part I, Henry V and Much Ado about Nothing. Satisfies CoLA Writing-Across-the-Curriculum requirement for English majors.

ENGL472 - Shakespeare II 472-3 Shakespeare: The Major Tragedies, Dark Comedies, and Romances. Such plays as Hamlet, Macbeth, Othello, King Lear, Measure for Measure, The Winter's Tale and The Tempest.

ENGL473 - Milton 473-3 Milton. A reading of a selection of the minor poems, of Paradise Lost, Paradise Regained, Samson Agonistes, and the major treatises.

ENGL481 - Young Adult Literature 481-3 Young Adult Literature in a Multicultural Society. Introduction to the evaluation of literary materials for junior and senior high school, with emphasis on critical approaches and the multicultural features of schools and society. Restricted to enrollment in English degree program or consent of department.

ENGL485A - Teaching Writing & Lang Sec Sc 485A-3 Teaching Writing and Language in the Secondary School. Introduction to strategies for teaching English in the secondary school with emphasis on writing and language. Introduction to assessment of writing perception and skills. Assessment and tutoring of child from the community in writing. Ideally, course should be taken two semesters prior to student teaching. Restricted to: Admittance to Teacher Education Program through CoEHS.

ENGL485B - Teaching Reading & Lit Sec Sch 485B-3 Teaching Reading and Literature in the Secondary School. Introduction to strategies for teaching English in the secondary school with emphasis on critical reading skills and various genres of literature, including contemporary adolescent literature. Introduction to assessment of reading perception and skills. Assessment and tutoring of child from the community in reading. Ideally, course should be taken the semester prior to student teaching. Restricted to: Admittance to Teacher Education Program through CoEHS.

ENGL489 - One-to-One Teaching 489-3 One-to-One Teaching Practice and Theory. Perspectives on one-to-one teaching practices and collaborative theory in hands-on Writing Center experience. Prerequisites: Minimum grade of "B" in both ENGL 101 and ENGL 102 (or their equivalent). Special approval needed from the instructor.

ENGL490 - Expository Writing 490-3 Expository Writing. Advanced composition with emphasis on a variety of rhetorical strategies. Prerequisite: ENGL 290, 390 or equivalent.

ENGL491 - Technical Writing 491-3 Technical Writing. Introduction to technical communication across the curriculum; open to entire university community. Prerequisite: At least one of the following: ENGL 290, 291, 391, or equivalent.

ENGL493 - Special Topics: Lit/Lang 493-3 to 9 (3 per topic) Special Topics in Literature and Language. Topics vary and are announced in advance; both students and faculty suggest ideas. May be repeated as the topic varies.

ENGL493H - Special Topics Honors 493H-3 Special Topics in Literature and Language. (Same as ENGL 493) Topics vary and are announced in advance; both students and faculty suggest ideas. May be repeated as the topic varies. Prerequisites: ENGL 101 and 102 or ENGL 120H (undergraduates) with a grade of C or better.

ENGL494 - Cultural Analysis & Cinema 494-3 Cultural Analysis and Cinema. Cultural Studies exploring various and selected topics in European and American Cinema. A \$10 screening fee is required.

ENGL495 - Survey of Literary Criticism 495-3 A Survey of Literary Criticism. Introduction to the history of criticism and major recent schools of literary criticism and theory.

ENGL498 - Internship 498-3 to 9 Internships. For English majors only. Student may take up to nine semester hours to receive credit for internships that may be available at SIU Press, Special Collections, University Museum, Coal Center, Writing Center, Computer Lab and other faculty or unit-sponsored projects. Prerequisite: Written approval from department & academic unit and enrollment in English degree program or consent of department.

ENGL499 - Readings in Lit & Language 499-1 to 6 (1 to 3) Readings in Literature and Language. For English majors only. Prior written departmental approval required. May be repeated as the topic varies, up to the maximum of six semester hours. Restricted to enrollment in English degree program or consent of department.

ENGL500 - Proseminar 500-3 Proseminar. Research methodology involved in writing a critical or scholarly work on literary topics for doctoral students in literature. Restricted to enrollment in English graduate degree program.

ENGL501 - Research in Composition 501-3 Research in Composition. Seminar in qualitative and quantitative research methods in composition and its teaching. Restricted to enrollment in English graduate degree program or consent of department.

ENGL502 - Teach College Composition 502-3 Teaching College Composition. An introduction to methods and materials related to the teaching of basic compositional skills on the college level. This course is required of all graduate assistants who have no previous college teaching experience or no familiarity with basic research techniques.

ENGL503 - Professional Development 503-2 Professional Development. Theory and practice for teaching composition in teacher-centered, workshop, discussion, and computer courses (Fall). Scholarly publication, course development, professional trends (Spring). Restricted to enrollment in English graduate degree program.

ENGL504 - Prof Development CW 504-1 Professional Development in Creative Writing. Practicum in preparation and submission of creative work for publication, and in preparation for and application for writers' conferences, fellowships, and internships in creative writing. Restricted to and required for first-semester MFA candidates.

ENGL506 - Old & Middle English Studies 506-3 to 12 Old and Middle English Studies. Seminars on various topics from Old and Middle English literature. May be repeated only with different topics and the consent of the department. Restricted to enrollment in English graduate degree program or consent of department.

ENGL510 - Renaissance Studies 510-3 to 12 Renaissance Studies. Seminars in varying topics concerned with the literature of the 16th and 17th centuries and the drama of Shakespeare. May be repeated only with different topics and the consent of the department. Restricted to enrollment in an English degree program or consent of department.

ENGL516 - Restoration & 18th C Studies 516-3 to 12 Restoration and 18th Century Studies. Seminars in varying topics concerning the literature of the period. May be repeated only with different topics and the consent of the department. Restricted to enrollment in an English degree program or consent of department.

ENGL530 - 19th Century English Lit 530-3 to 12 19th Century English Literature. Seminars in various topics concerning the literature of the Romantic and Victorian periods. May be repeated only with different topics and the consent of the department. Restricted to enrollment in an English degree program or consent of department.

ENGL533 - American Lit Before 1900 533-3 to 12 American Literature Before 1900. Seminars in varying topics. May be repeated only with different topics and the consent of the department. Restricted to enrollment in English graduate degree program or consent of department.

ENGL539 - American Lit After 1900 539-3 to 12 American Literature After 1900. Seminars in varying topics. May be repeated only with different topics and the consent of the department. Restricted to enrollment in English graduate degree program or consent of department.

ENGL550 - Modern British Lit 550-3 to 12 Modern British Literature. Seminars in varying topics concerning Modern British literature. May be repeated only with different topics and the consent of the department. Restricted to enrollment in an English degree program or consent of department.

ENGL555 - Irish Studies 555-3 to 12 Irish Studies. Seminars on varying topics in Irish and Irish immigration studies; interdisciplinary/cultural studies approaches. May be repeated only with different topics and the consent of the department. Restricted to enrollment in English graduate degree program or consent of department.

ENGL579 - Studies in Modern Lit 579-3 to 12 (3 per topic) Studies in Modern Literature. May be repeated only if the topic varies, and with consent of department. Restricted to enrollment in an English degree program or consent of department.

ENGL581 - Problems: Teaching English 581-3 to 9 (3 per topic) Problems in Teaching English. May be repeated only if the topic varies, and with consent of department. Restricted to enrollment in an English degree program or consent of department.

ENGL582 - Issues in WPA 582-3 Issues in Writing Program Administration. Seminars in varying topics concerning writing program administration. May be repeated only with different topics and the consent of department.

ENGL583I - WPA Internship 583I-3 Internship in Writing Program Administration. An internship in WPA builds on four components: readings, activities or job tasks, written tasks, and a portfolio of artifacts and reflections representing the experience. These internships provide opportunities for interested students to implement practically what they are learning through research and reading.

ENGL588 - Comp Exam Readings 588-3 Comprehensive Exam Readings. Preparatory for MA comprehensive exam. May be taken once only; grade of S/U. Restricted to enrollment in English program or consent of department. Restricted to MA students in English.

ENGL589 - Readings in Lit & Lang 589-3 to 12 Readings in Literature and Language. For English graduate students only. Prior written departmental approval required. May be repeated as the topic varies. Restricted to enrollment in an English degree program or consent of department.

ENGL591 - Seminar Literary Nonfiction 591-3 to 9 Seminar in Literary Nonfiction. Critical reading and analysis of one of the major forms of literary nonfiction (biography, autobiography, popular science, the essay, literary journalism, and travel narratives). May be repeated only with different topics and the consent of the department. Special approval needed from the instructor.

ENGL592 - Creative Writing Seminar 592-4 Creative Writing Seminar. Advanced workshops offered in both fiction and poetry. Class content derives primarily from student's work. Genre announced in advance. May be repeated with consent of department. Restricted to enrollment in English MFA program or consent of department.

ENGL593 - Special Topics 593-3 to 12 Special Topics. Seminars in varying topics concerning language and literature. May be repeated only with different topics and the consent of the department. Restricted to enrollment in an English degree program or consent of department.

ENGL594 - Contemporary Literature 594-4-8 Contemporary Literature Seminar. Advanced seminars offered in both contemporary poetry and contemporary fiction. Taught by creative writers and designed for students concentrating in creative writing. Restricted to enrollment in English MFA program or consent of department. May be repeated for credit with different section numbers.

ENGL595 - Independent Readings 595-1 to 9 Independent Readings. Preparatory for preliminary examinations for doctoral students in English. May be taken once only, grade of S/U, according to the result of the preliminary examination.

ENGL596 - Language Studies 596-3 to 12 Language Studies. Seminars in varying topics concerning rhetoric, grammar and literacy. May be repeated only with different topics and the consent of the department. Restricted to enrollment in English graduate degree program or consent of department.

ENGL597 - Composition Theory 597-3 Composition Theory. Historical and analytical approaches to theories of discourse, theories of composing and theories of pedagogy. Prerequisite: ENGL 502 or equivalent.

ENGL598 - Literary Theory 598-3 to 12 Studies in Issues of Literary Theory. Seminars on various issues of literary theory. May be repeated only with different topics and the consent of the department. Restricted to enrollment in an English degree program or consent of department.

ENGL599 - Thesis 599-3 Thesis. For Masters' students who elect to write a thesis in lieu of one three hour graduate course. Prerequisite: successful completion of 15 hours of graduate work on the Master's degree. Special approval needed from the thesis director. Restricted to enrollment in an English degree program or consent of department.

ENGL600 - Dissertation 600-1 to 36 (1 to 16 per semester) Dissertation.

ENGL601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

ENGL699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Simeone, William E., Professor, *Emeritus*, Ph.D., University of Pennsylvania, 1950; 1950.
Williams, Tony, Professor, Ph.D., University of Manchester, 1973; 1984.

Environmental Resources and Policy

The Graduate School offers the Doctor of Philosophy degree in Environmental Resources and Policy. This degree provides students with an interdisciplinary education in natural resource and environmental processes with a perspective on public policy and social institutions that shape societal and individual reactions to environmental issues. The education will prepare students to work with multifaceted environmental problems and enable them to carry out interdisciplinary scientific research and be qualified for high-level administration positions in academia, government (e.g. U.S. Geological Survey, U.S. EPA, U.S. Forest Service, Illinois Dept. of Natural Resources, U.S. Department of Agriculture), and the private sector (e.g. environmental consulting firms, electric and water utilities, mining and solid waste firms). This will enable graduates to address the most compelling and daunting challenge in natural resource and environmental issues—identifying and solving problems that cross disciplinary boundaries.

The Environmental Resources and Policy Ph.D. is organized by the School of Earth Systems and Sustainability (Geography and Geology Programs). The Colleges of Sciences, Agriculture, and Engineering along with the School of Law cooperate in the program (Agribusiness Economics, Civil and Environmental Engineering, Forestry, Plant, Soil, and Agricultural systems, and Zoology).

Areas of Concentration

Climatology

Students who take the Climatology concentration will study the past, present, and future of Earth's atmospheric system that, in interaction with the land and the hydrosphere, generate long-term weather patterns—that is climate. Methods for investigating paleoclimates such as dendrochronology, ice and sediment cores, will be emphasized along with use of Atmospheric-Oceanic General Circulation Models for the investigation of future climate change.

Earth and Environmental Processes

Students who select this specialization combine elements of the modern, process-oriented geology curriculum (sedimentology, geomorphology, petrology, basin analysis, seismology, potential-field geophysics, organic and water geochemistry, tectonics, and paleo-environmental analysis) with allied disciplines to prepare for research into a broad range of environmental studies. This concentration emphasizes the geological process approach to analysis of such problems as flooding, earthquake hazards, land-use practices, aquifer degradation, and mine site remediation.

Ecology

Students who take the ecology concentration will work with faculty from the Center for Ecology. Ecology studies the complex relationships between organisms, populations, communities, ecosystems, biomes

and the biosphere, which are deeply affected by human decisions, actions and policies-actions and policies which are themselves influenced by the environment. ER&P-ecology students will focus on the ecosystem-society relationship, such as the provision and management of ecosystem services. As the human footprint widens, and active management of ecosystems becomes more policy-relevant, understanding these connections is a vital component of training the next generation of scientists.

Energy and Mineral Resources

Energy and mineral resources include hydrocarbons (oil, natural gas, coal, and their naturally-occurring and manufactured derivatives), and both metallic and non-metallic (industrial) mineral and rock deposits. This specialization comprises studies of the origins and physical occurrences of these resources, together with technologies and policies concerning their extraction and use.

Environmental Policy and Administration

Making and administering environmental policy has become an exceedingly complex arena where science interacts strongly with law and the political process. Students enrolled in this concentration will examine these interactions and complexities with a focus on the socioeconomic driving forces that generate resource use and attendant environmental problems, and the political and legal frameworks through which societies make and implement public policy in the environmental field.

Forestry, Agricultural, and Rural Land Resources

Many environmental problems, challenges and policies take place on rural landscapes where forestry and agricultural land uses are intermingled with non-farm rural residents and others. Many rural land uses contribute to environmental problems and the development of environmentally benign and sustainable methods of production are goals of environmental policy. Consequently, through this concentration, students will examine the interaction among environmental quality, production, and the process and institutions of public policy.

Geographic Information Systems, Remote Sensing and Environmental Modeling

Modern environmental sciences, management and planning rely on acquisition, analysis and integration of large data bases using remote sensing, digital image processing, geographic information systems and environmental modeling. The purpose of this concentration is to enable students to develop high skills in these areas and to apply them to one or more natural resource domains (e.g., hydrogeology, forest inventory, spatial decision support systems, environmental modeling).

Water Resources

As a critical flow resource, water is of central importance to society and, through hydrologic processes, is involved in many environmental issues from water shortages in populous arid regions to ground water quality concerns associated with agri-chemical use. Through this concentration, students will examine the interaction among hydrologic processes, environmental quality, water resource use, and the processes and institutions of the private sector and public policy that govern water resources.

Required Courses:

- ERP 502 Environmental Decision Making(3)
- ERP 598 Applied Environmental Resources and Policy (1 credit each year in residence)

One Methodology class listed below:

- SOC 512 Sociological Research Methods & Design (4)
- ECON 567A Econometrics I (3)
- QUAN 507 Multiple Regression (4)
- Quantitative Biophysical Science
- GEOL 513 Quantitative Methods in Earth Sciences (3)
- GEOG 512 Applied Geographic Statistics (3)

- ZOOL 557 Biostatistics (4)

One Science class listed below:

- FOR 508 Historical Ecology (2)
- FOR 531 Disturbance Ecology (2)
- GEOG 534 Water Resources Hydrology (3)
- GEOG 536 Natural Hazards (3)
- GEOG 540 Water Resource Management (3)
- GEOL 417 Isotope Geochemistry (3)
- GEOL 515 Instrumental Analysis (3)
- GEOL 517 Advanced Topics in Geochemistry (3)
- GEOL 524 Advanced Topics in Sedimentary Geology (3)
- PLB 443 Restoration Ecology (3)
- PLB 452 Plant Population Ecology (4)
- PLB 545 Ecosystem Ecology (3)
- PLB 445 Wetland Ecology and Management (4)
- ZOOL 445 Wetland Ecology and Management (4)
- ZOOL 411 Environmental Risk Assessment (3)
- ZOOL 521 Stream Ecology (3)

Admission and Retention

Students will be admitted to the program on the basis of academic merit, statement of interest, and the availability of a willing Ph.D. advisor. Ph.D. students will be selected on a national and international competitive basis. Admissions will not be rationed by concentration.

Students must have a Master's Degree or a J. D. Students with a Bachelor's Degree may be admitted conditional upon completion of a master's degree from one of the participating departments.

Admission and financial aid are competitive on the basis of Master's-level GPA, professional work experience, and GRE scores, as well as letters of recommendation. Applicants must have a Master's-level GPA of at least 3.25, and meet one of the following:

1. a combined verbal and quantitative GRE score of at least the 50th percentile.
2. three years of successful professional experience in the environmental/natural resources field.

Highly qualified applicants will be nominated for Doctoral Fellowships and Morris Fellowships.

Students must remain in good standing with a GPA of 3.0 or higher and be making good progress toward identification and completion of a dissertation project. Students in good standing who have qualified for assistantships will be offered funding for at least three nine-month academic years.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for admission to Graduate Study in Environmental Resources & Policy. Applicants must pay this fee by credit card.

Candidacy and Dissertation

By the end of their second semester in residence, students must have chosen a concentration and formed a graduate committee to oversee their dissertation research. The graduate committee may have a maximum of three of the five members from one department. Completion of research tools will be determined by committee. Written and oral preliminary examinations consist of two parts: one based on the program core material, and one on the student's chosen concentration. When the student has passed prelims and a dissertation proposal is accepted by the committee, students are admitted to candidacy. If prelims are not passed, they must wait a minimum of three months for the second and final attempt to pass the exam.

Candidates will be required to present an acceptable dissertation describing original research. Dissertation approval is based on a successful oral defense of the dissertation research and approval of the dissertation by the graduate committee. The dissertation research must also be presented in ERP 598.

Curriculum

Prerequisites: Students must have at least three of the seven courses listed below to be admitted and must have five upon completion of the program. It is anticipated that most students will fulfill many of the prerequisites through their previous work at the undergraduate and Master's level and will have working facility with micro-computers. For those students without adequate background, identified courses are required to provide students with the background necessary to successfully participate in the program.

Prerequisites for ERP

Prerequisites for all Concentrations	SIU Course if Unfulfilled
One course in statistics	QUAN 506 or more advanced
One course in calculus	MATH 150 or more advanced
One course in chemistry	CHEM 200 or more advanced
One course in earth science	GEOG 303I OR GEOL 478 or more advanced
One course in ecology	BIOL 307 or more
One course in resource economics	ABE 440, FOR 411, GEOG 422, or more advanced
One course in U.S. env. law or policy	GEOG 426, LAW 548, or more advanced

Core: 36 Credits (including 24 in ERP 600)

Concentration: 24 Credits Minimum

Total: 60 Credits

Core Curriculum for all Concentrations

Required Courses:

- ERP 500 Physical and Biological Environmental Systems (3)
- ERP 502 Environmental Decision Making (3)
- ERP 598 Applied Environmental Resources and Policy (1 credit each year in residence)

One Methodology class listed below:

- Qualitative Social Science
 - # SOC 512 Sociological Research Methods & Design (4)
- Quantitative Social Science
 - # ECON 567A Econometrics I (3)
 - # QUAN 507 Multiple Regression (4)
- Quantitative Biophysical Science
 - # GEOL 513 Quantitative Methods in Earth Sciences (3)
 - # GEOG 512 Applied Geographic Statistics (3)
 - # ZOOL 557 Biostatistics (4)

Curriculum for Concentrations

Each concentration will require mastery of one or more research tools. Specific courses and research tools will be determined by the student and the research supervisor in consultation with the student's faculty advisory committee. The multidisciplinary curriculum for each concentration is customized to meet the student's individual interests and career goals.

Climatology Concentration

The curriculum may include courses in Geography and Environmental Resources, Geology, Physics, Mathematics, and other areas relevant to the atmospheric processes.

Earth and Environmental Processes Concentration

The curriculum may include courses in geology, biological science, physical science areas other than geology, geography (GIS and cartography), environmental law, remote sensing, soil science, mining and civil engineering, computer science and statistics.

Ecology Concentration

The curriculum will include PLB 589A and other courses in Zoology, Plant Biology, Forestry, Geology, Geography and Environmental Resources, and other areas relevant to ecology.

Energy and Mineral Resources Concentration

The curriculum may include courses in geology, biological science, physical science areas other than geology, geography (GIS and cartography), environmental law, remote sensing, soil science, mining and civil engineering, computer science and statistics.

Environmental Policy and Administration Concentration

The curriculum may include courses in environmental law, political science, geography, forestry, agribusiness economics, economics, anthropology, zoology, and statistics. Emphasis is on the processes of public policy formulation and implementation.

Forestry, Agricultural, and Rural Land Resources Concentration

The curriculum may include courses in agribusiness economics, plant, soil, and agricultural systems, animal science, geography, remote sensing and GIS, human dimensions of natural resource management, plant biology, zoology, and statistics. Emphasis is on the processes of changing land uses of rural landscapes and the implications for the environment and adjacent land uses.

Geographic Information Systems, Remote Sensing and Environmental Modeling Concentration

Students may elect from several specializations within this concentration including Geoprocessing, Biometrics, Environmental Modeling, and Geological Modeling.

Water Resources Concentration

The curriculum should include courses in Water Policy and Planning and Hydrological Sciences.

Environmental Resources and Policy Courses

ERP500 - Physl Biol Enviro Syst 500-3 Physical and Biological Environmental Systems. Application of principles of systems analysis, including chaos and complex adaptive systems, to Earth biogeochemical cycles (e.g. energy, carbon, water, nutrients), inter-relations among them and disruptions to them. Topical focus will vary among: the analysis of how contaminants travel, especially through ground water, and become dispersed in the environment; the origin of soils and the movement of nutrients among plants, water and soils; the origin and distribution of natural resources such as metals and fossil fuels and of natural hazards such as flooding, earthquakes, landslides and volcanism; the global carbon cycle, especially its role in global climate change.

ERP502 - Environmental Decision Making 502-3 Environmental Decision Making. (Same as ABE 502) The objective of the course is twofold. The first part of the class will be devoted to case studies of environmental decision making which use a variety of approaches to environmental policy. Topics to be covered include market-based environmental management versus regulatory approaches, climate change, conservation and floodplain management policy. The second part of the class will focus on the challenges of interdisciplinary communication and collaboration, methodological research issues and the role of integrated modeling. We will consider different issues such as qualitative and quantitative evidence, validation, and the role of values and objectivity in the scientific process.

ERP590 - Readings in ER&P 590-1 to 8 Readings in Environmental Resources and Policy. Readings in a specialized topic under the direction of an approved graduate faculty member. Graded S/U only.

ERP598 - Applied Env Res Policy 598-1 Applied Environmental Resources and Policy. Invited speakers from federal, state, or local agencies; nongovernmental organizations; academic institutions; and Environmental Resources and Policy faculty will present case studies on the conduct of environmental research, the development of environmental laws and regulation, and the implementation of environmental policies. Additionally, students will present dissertation proposals and defend their dissertations. Taken for one credit each year in residence in the Environmental Resources and Policy program. Restricted to enrollment in the Environmental Resources and Policy program.

ERP599 - Individual Research 599-1 to 3 Individual Research in Environmental Resources and Policy. Individual investigation under faculty guidance in environmental resources and policy other than that

for the dissertation. Only three hours may be credited toward the degree. Restricted to admission to Environmental Resources and Policy Program.

ERP600 - Dissertation 600-1 to 24 (1 to 12 hours per semester) Dissertation. Research for and writing of the doctoral dissertation. Special approval needed from the instructor.

ERP601 - Continuing Enrollment 601-1 Continuing Enrollment. For those graduate students who have not finished their degree and who are in the process of working on their dissertation. The student must have completed a minimum of 24 hours of dissertation research before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Environmental Resources and Policy Faculty

Environmental Resources & Policy Faculty

Please see the departmental web pages (erp.siu.edu/faculty-staff/) for detailed information on the research activities of individual faculty members. Please also see the departmental entries in this catalog.

Agribusiness Economics:

Altman, Ira, Renewable Energy Industries, Organizational, Rural and Regional Economics

Moon, Wanki, Consumer Economics and Food Marketing

Rendleman, Matthew, Agricultural Policy

Sanders, Dwight, Futures and options, Risk Management, Price Analysis

Forestry:

Akamani, Kofi, Human Dimensions of Natural Resource Management

Carver, Andrew, Land Use Planning, GIS

Ruffner, Charles, Forest ecology

Schoonover, Jon, Watershed Management and Hydrology

Williard, Karl, Hydrological Modeling, Watershed Management

Zaczek, James, Ecology

Geography and Environmental Resources:

Duram, Leslie, Agricultural Conservation Policy, Public Lands Policy, Organic Agriculture

Li, Ruopu, GIS-based Land Use Modeling, Water Resources Planning and Management, Groundwater Modeling

Remo, Jonathan, ER&P Director, Hydrology, Water Resources Management, Fluvial Geomorphology, and Natural Hazards.

Schoof, Justin, Climatology

Wang, Guangxing, Remote Sensing, Spatial Statistics and GIS

Geology:

Anderson, Ken, Organic Geochemistry

Conder, James, Seismology, Plate Boundary Processes Geodynamics and Seismotectonics

Esling, Steven, Hydrogeology, Environmental Modeling

Harvey, Henson, Science Education, Geology, and Applied Geophysics

Hummer, Daniel, Mineralogy

Ishman, Scott, Marine Micropaleontology

Leticariu, Liliana, Stable Isotope Geochemistry/Aqueous Geochemistry/Radiation chemistry

Potter-McIntyre, Sally, Sedimentology

Plant, Soil and Agricultural Sciences:

Bond, Jason, Hematology and Plant Pathology

Meksem, Khalid, Agronomy and Soil

Taylor, Bradley, Fruit Production

Walters, Alan, Horticulture

A partial listing of other SIU faculty active in environmental research and teaching:

Gibson, David, *Plant Biology*, Plant Population and Community Ecology

McCubbin, Patricia, *School of Law*, Environmental Law, Advanced Environmental Litigation, Environmental Law for Business Transactions

Food and Nutrition

***Enrollments in Food and Nutrition, concentrations in Nutritional Sciences and Hospitality and Tourism Administration (M.S.), have been suspended indefinitely.**

The School of Human Sciences offers a Master of Science degree in Food and Nutrition with three concentration options: *community nutrition*, *hospitality and tourism administration*, and *nutritional sciences*. For program details not included in this description, prospective students may visit coas.siu.edu.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Food and Nutrition. Applicants may pay this fee by credit card if applying electronically. Applicants submitting a paper application must pay by personal check, cashier's check, or money order made out to SIU, and payable to a U.S. Bank.

Community Nutrition Concentration

The Master of Science Degree in Food and Nutrition with a concentration in community nutrition is coordinated with the Dietetic Internship Program. The curriculum is designed to provide advanced study in community nutrition and public health/nutrition policy and provide 1200 hours of supervised practice (dietetic internship). Students who successfully complete the master's degree coursework and the 1200 hours of dietetic internship must be verified by the program director to then be eligible to write the registration examination for dietitians. In addition to master's degree work, students complete an accredited dietetic internship that qualifies them to take the registration examination for dietitians. The Accreditation Council for Education in Nutrition and Dietetics (ACEND®) sets Standards of Education for entry-level dietetics education. ACEND® is the only accrediting agency for dietetics education programs recognized by the United States Department of Education (USDE). Continued recognition by the USDE since 1974 affirms that ACEND® is a reliable authority as to the quality of dietetics education program that it accredits. Programs accredited by ACEND® meet the education requirements established by Commission of Dietetic Registration (CDR). The Dietetic Internship program at SIU has been granted accreditation through 2020 by ACEND. In addition to admission requirements below, students need a Verification Statement for having completed a Didactic Program in Dietetics issued by a ACEND-accredited program director.

Admission

Applicants must meet the following criteria to be considered for admission to the program. Everyone, United States citizens and non-citizens alike, must complete a Didactic Program in Dietetics (DPD) accredited by ACEND. ACEND establishes and enforces "Eligibility Requirements and Accreditation Standards" for nutrition/dietetics education. It accredits education programs (including bachelor's and

graduate level *Didactic Programs in Dietetics*) that prepare students for careers as “Registered Dietitians”. More information about ACEND is available online at eatright.org/acend.

1. A baccalaureate degree from a regionally accredited college or university (completed within the last 10 years)
2. Completion of a Didactic Program in Dietetics (DPD) as accredited by the Accreditation Council for Education in Nutrition and Dietetics. Students should supply appropriate documentation (Verification Statement) from their DPD Directors that is to be submitted with their application.
3. DICAS. If you have completed a minimum of a bachelor’s degree at a US regionally accredited university or college and course work accredited by ACEND, you are eligible to participate in the Dietetic Internship Match. Applicants to SIU combined MS/DI program must submit their application through the Dietetic Internship Centralized Application System at <https://www.portal.dicas.org> (DICAS Portal).
4. D&D Matching. Applicants to Dietetic Internships (DI) must register for matching with D&D Digital to create/modify their prioritized list of dietetic internships for computerized matching at D&D Digital (<https://www.dnndigital.com>). There is a \$50 registration fee for matching that is due with prioritized program rankings. SIU’s Match Number is 438. SIU matches only during the spring. Students who match with SIU through the spring matching process are enrolled in SIU’s program in August (fall semester).
5. A grade point average of 3.0 or higher (where 4.0 = A) is required.
6. The Graduate Record Exam (GRE) is required for all applicants within the last 5 years.
7. A score of 300 or higher on combined verbal and quantitative portions of GRE is recommended.
8. Desire to complete a Master of Science Degree in Food and Nutrition with a concentration in community nutrition combined with a 7 and ½ month dietetic internship with community nutrition emphasis.
9. International Students who have had their education, training and credentials completed outside of the United States or have not completed a Didactic Program in Dietetics should refer to the following resource: The Academy of Nutrition and Dietetics
10. International students whose native language is not English are required to pass the TOEFL examination with a score of 550 or above. For questions related to education and credentialing requirements for international students, more information is available at International Admissions

Program Completion Requirements

Unless otherwise stated, policies of the University and Graduate School shall establish the minimum requirements for retention in and graduation from the program. This includes a minimum grade point average for graduation of 3.0 (4.0 point scale).

The *Community Nutrition* concentration requires 39-44 credit hours from the following: FN 540, FN 574, FN 585, ANS 500, FN 530, PH 583, PH 585, HED 593, or HED 583, QUAN 506, FN 581, PH 598, HND 495, FN 580A, FN 580B, FN 580C, FN 599 and/or electives. At least 50% of coursework must be at the 500 level. The thesis option requires a committee composed of at least two program faculty members and one faculty member from outside of department. The research paper option will require a committee composed of at least three faculty members and an additional three credits of elective coursework. The Master’s degree candidates in the thesis or research paper options must pass an oral examination conducted by their committee. The professional track option will require an additional six credits of elective coursework.

Hospitality and Tourism Administration Concentration

Students applying to the *hospitality and tourism administration* concentration are expected to have an undergraduate degree in hospitality and tourism, business, or closely related field. Students are also expected to have strong academic, analytical, and communication skills. Students applying to the *hospitality and tourism administration* concentration without a hospitality and tourism degree must pass a comprehensive exam or take three 400-level foundation courses related to their chosen career path.

Admission

Admission is competitive and requires a bachelor’s degree with a minimum 2.75 GPA, GRE, GMAT, or MAT, three letters of recommendation, and a personal statement. Selection for the program is

recommended by committee and Department Chair to the Graduate School Admissions Office for final evaluation and approval.

Program Completion Requirements

Unless otherwise stated, the policies of the University and of the Graduate School shall establish the minimum requirements for retention in the graduation from the program. This includes a minimum grade point average for graduation of 3.0 (4.0 point scale).

The *hospitality and tourism administration* concentration requires 31 credit hours from the following: FN 521A, FN 521B, FN 521C, QUAN 506, FN 531, FN 535, FN 561, and either FN 599 or FN 593. At least 50% of coursework must be at the 500 level. The graduate committee will assist with the selection of an additional six credit hours of graduate coursework appropriate for their field of study. This concentration requires a minimum of 36 credit hours to graduate. The graduate student's committee will be composed of at least two departmental faculty members and one faculty member from outside of department. Master's degree candidates must pass a comprehensive oral examination conducted by their committee, covering all graduate work including their thesis or research paper.

Nutritional Sciences Concentration

Students applying to the *nutritional sciences* concentration are expected to have an undergraduate degree in biological sciences, such as nutrition, physiology, zoology, or a related field. Students are also expected to have strong academic and analytical skills.

Admission

A grade point average of 3.0 or higher (4.0 = A) is recommended for program entrance. The Graduate Record Exam (GRE) is required for all applicants. Students should submit a statement of career goals and interest in completing the master's degree, as well as three letters of recommendation from former professors or employers.

Program Completion Requirements

Unless otherwise stated, the policies of the University and of the Graduate School shall establish the minimum requirements for retention in and graduation from the program. This includes a minimum grade point average for graduation of 3.0 (4.0 point scale). The *nutritional sciences* concentration requires 12 to 16 credit hours from the following: FN 581, QUAN 506, QUAN 508 or WED 561, FN 599, or FN 593. At least 50% of coursework must be at the 500 level. The graduate committee will assist with the selection of an additional 14 to 18 credit hours of graduate coursework appropriate for their concentration. This concentration requires a minimum of 32 credit hours to graduate. The graduate student's committee will be composed of at least two departmental faculty members and one faculty member from outside of department. Master's degree candidates must pass a comprehensive oral examination conducted by their committee, covering all graduate work including their thesis or research paper.

Food and Nutrition Courses

FN515 - Energy Protein Utilization 515-3 Energy and Protein Utilization. (Same as ANS 515) Energy and protein utilization including digestion, absorption, and metabolism as related to mammalian physiology. Prerequisite: course in organic chemistry.

FN516 - Minerals and Vitamins 516-3 Minerals and Vitamins. (Same as ANS 516) Basic and applied principles of mineral and vitamin metabolism. Emphasis on metabolic functions, reaction mechanisms and interrelationships. Prerequisite: course in organic chemistry.

FN520 - Advanced Nutrition 520-2 Advanced Nutrition.

FN521A - Readings-7-9 Year Lit Review 521A-3 to 9 (3 per topic) Readings in Hospitality and Tourism-7-9 Year Literature Review. Advanced seminar class and nine-year historical literature review of issues affecting the hospitality and tourism industry. Sections (A) through (C) may be taken only once each.

FN521B - Readings-4-6 Year Lit Review 521B-3 to 9 (3 per topic) Readings in Hospitality and Tourism-4-6 Year Literature Review. Advanced seminar class and nine-year historical literature review of issues affecting the hospitality and tourism industry. Sections (A) through (C) may be taken only once each.

FN521C - Readings-Current-3 Yr Lit Rvw 521C-3 to 9 (3 per topic) Readings in Hospitality and Tourism-Current to 3 Year Literature Review. Advanced seminar class and nine-year historical literature review of issues affecting the hospitality and tourism industry. Sections (A) through (C) may be taken only once each.

FN530 - Adv Nutr Assessment & Educ 530-3 Advanced Nutritional Assessment and Education. Community assessment methods, specifications or particular tools used and how these tools can be applied to particular conditions of concern in community nutrition. The methods of education for individuals and populations using dietary, biochemical, anthropometrics and physical assessment data will be taught. Restricted to major or consent of instructor.

FN531 - Hospitality ACCT 531-3 Hospitality Managerial Accounting. Theory and practice of managerial accounting techniques in the hospitality industry.

FN535 - Hospitality MKTG 535-3 Advanced Hospitality Marketing Management. Analysis of marketing processes within hospitality, tourism and related organizations. Focus is on design and implementation of marketing research and analysis, as well as creation of the strategic marketing plan.

FN540 - Nutrition Policy 540-3 Nutrition Policy, Programs and Services. The study of policies, programs and services concerned with prevention and treatment of nutrition problems in the population. Prerequisite: HND 480 with a grade of C or better. Restricted to Food and Nutrition majors or consent of instructor.

FN545 - Sustainable Tourism 545-3 Economics of Sustainable Tourism Development. Development of sustainable tourism destinations will be examined. Introduction to research methods involved in conducting economic impact studies, feasibility studies and conversion studies.

FN551 - Destination MGMT 551-3 Strategic Destination Management. Responsibilities of destination management organizations from an international perspective will be examined. Primary focus is destination product development and management. Destination competitiveness and marketing, specifically branding and positioning will also be discussed.

FN560 - Advanced Foods MGMT 560-3 Advanced Food Service Management. Course will provide opportunities in food service facility management to demonstrate leadership, financial management skills, food safety initiatives, contingency planning, and marketing techniques. Topics include sustainable food service practices, human resource management, culinary techniques, HACCP planning and theories. Graduate students will experience a supervisory role while managing undergraduate students at food service facilities.

FN561 - SVC Organization MGMT 561-3 Service Organization and Management. Covers topics such as motivation, group dynamics, leadership, organization structure, decision making, conflict resolution, and Organizational Development. Focus is on strategic leadership to prepare individuals and organizations to excel within a changing environmental landscape toward delivery of a quality service relationship.

FN565 - Convention Mgmt 565-3 Advanced Convention Management and Service. Strategic relationships between meeting planner, client, facility and suppliers will be examined. Focus will be on a practical approach to convention planning and management. Students will be required to participate in planning as well as attending regional meetings.

FN574 - Adv Medical Nutrition Therapy 574-3 Advanced Medical Nutrition Therapy. In-depth study of the application of nutrition to the management of disease states with emphasis on current treatment and complex metabolic abnormalities. Prerequisite: HND 470.

FN580A - Nutr Pract-Comm Clinicl Rotatn 580A-3 Nutrition Practicum in the Community-Clinical Rotation. Designed to provide practicum experiences in dietetics for students completing the Master's in Food and Nutrition. Restricted to Food and Nutrition majors or consent of instructor.

FN580B - Nutr Pract-Comm-Mgmt Rotatn 580B-3 Nutrition Practicum in the Community-Management Rotation. Designed to provide practicum experiences in dietetics for students completing the Master's in Food and Nutrition. Restricted to Food and Nutrition majors or consent of instructor.

FN580C - Nutr Pract-Comm Pblc Health Ro 580C-3 Nutrition Practicum in the Community-Public Health Nutrition Rotation. Designed to provide practicum experiences in dietetics for students completing the Master's in Food and Nutrition. Restricted to Food and Nutrition majors or consent of instructor.

FN581 - Graduate Seminar 581-1 to 2 (1,1) Graduate Seminar in Community Nutrition. A discussion of current topics and literature in community nutrition and community nutrition programs. Provides a forum for student and faculty presentation, and review of current research efforts. Encourages integration of the knowledge gained from the didactic and experiential learning prior to food service management, medical nutrition therapy, and community nutrition practicum experiences. Restricted to major or consent of instructor. Maximum of one hour per semester. Course fee: \$10.

FN585 - Adv Community Nutrition 585-3 Advanced Community Nutrition. A presentation and examination of issues and programs in food and nutrition programs. Elements including the organization and management of quality nutrition services for the prevention of disease and promotion of health will be identified and applied to community programs.

FN590 - Readings in Food & Nutrition 590-1 to 3 Readings in Food and Nutrition. Individual readings in food and nutrition under graduate faculty guidance. Special approval needed from the instructor.

FN592 - Global Research in Agriculture 592-1 to 3 Global Research in Agriculture. Research interest in animals unique to certain regions of the world is a growing field to graduate students interested in world sustainable agricultural practices. This class is designed for students interested in taking research based information and skills from Southern Illinois University and applying it to projects with animals native to certain regions of the world to improve productivity and sustainability. This course provides graduate students interested in global and sustainable research the opportunity to conduct their research and training on regional animals not traditionally found in North America (eg. camels, water buffalo, kangaroo,... etc).

FN593 - Individual Research 593-1 to 3 Individual Research. Investigation of a problem in food and nutrition under the supervision of an approved graduate faculty member. Graded S/U only.

FN599 - Thesis 599-1 to 6 Thesis. Credit is given for a Master's thesis when it is accepted and approved by the thesis committee. Graded S/U only.

FN601 - Continuing Enrollment 601-1 Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Food and Nutrition Faculty

Apgar, Gary A., Associate Professor, Ph.D., Virginia Polytechnic Institute, 1994; 1998. Monogastric nutrition, swine production.

Ashraf, Hea-Ran Lee, Professor, *Emerita*, Ph.D., Iowa State University, 1979; 1980.

Banz, William J., Professor and *Chair*, Ph.D., University of Tennessee, 1995; 1995. Human nutrition, nutritional physiology.

Davis, Jeremy., Assistant Professor, Ph.D., Iowa State, 2008; 2008. Molecular nutrition and physiology.

Endres, Jeannette M., Professor, *Emerita*, Ph.D., St. Louis University, 1972; 1975.

Gill, Lynn T., Instructor, M.S., Southern Illinois University Carbondale, 1996. Medical nutrition therapy.

Girard, T.C., Associate Professor, *Emerita*, M.S., University of Wisconsin-Stout, 1992; 1993.

Green, Brenda L., Instructor, R.D., M.S., Southern Illinois University Carbondale, 2000. Community Nutrition.

Jones, Karen L., Professor, Ph.D., Texas A&M, 1999; 1999. Animal biotechnology, genetics reproductive physiology.

Roth, Sara Long, Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1991; 1990. Medical nutrition therapy, nutrition education.

Smith, Sylvia F., Associate Professor, Ph.D., University of Tennessee 2007; 2007. Food Service Management, Culinary Tourism.

Welch, Patricia, Professor, *Emerita*, Ph.D., Southern Illinois University, 1982.

Forestry

The School of Agricultural Sciences offers advanced courses for the Master of Science degree with a major in forestry. In addition, curricula are available which permit graduate students with an interest in forestry to pursue their interest in Doctor of Philosophy degree programs in other units, including Agricultural Sciences.

Admission

In addition to requirements set forth by the Graduate School, the Master of Science in Forestry requirements are:

1. A minimum grade point average of 2.7 is required for admission ($A = 4.0$). A grade point average of 2.7 or higher is required for stipend eligibility when available.
2. The student is required to provide proof of proficiency in technical writing. Normally an expository essay is required to evaluate whether the student should have remedial grammar or writing courses.
3. Three letters of recommendation from former professors, employers, or other responsible individuals are required.
4. Each applicant must complete the statement of interest form. This form indicates the student's area of interest in forestry and the faculty member with whom the student desires to study. All correspondence should be directed to the program.
5. This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Forestry. Applicants must pay this fee by credit card.

Retention and Completion Requirements

Upon the graduate student's arrival on campus, an advisory committee of three-five members of the graduate faculty will be formed to guide the student's work. The same committee will be responsible for preparation and administration of thesis exams and also for the review and evaluation of the thesis. The advisory committee chair and at least one other member of the committee shall be members of the program. The other members may be selected from any academic unit including forestry.

Summary of Events

1. The deadlines for receipt of applications and official transcripts in the office of the Graduate School are: (a) the second Saturday in July for admission to the fall semester (b) the last Saturday in November for admission to the spring semester (c) the last Saturday in March for admission to the summer term.
2. Letters of recommendation should reach the Forestry program by the same dates as above.

3. Acceptance by the program and Graduate School should be announced one month or earlier than the desired matriculation date. A thorough review will be made by a screening committee of Forestry graduate faculty and the program adviser. Students rejected for admission will also be notified.
4. Registration for first semester's work after student's acceptance by the department.
5. Appointment of advisory committee chair, written plan for course work, and selection of tentative thesis areas all within first two months of residence.
6. Preparation of formal written thesis outline and preparation of research proposal by the eighth week of the second semester.
7. Completion of final, typed or reproduced review copies of thesis and submission of advisory committee at least three weeks in advance of oral defense of thesis.
8. Oral exam to be followed by completion of required approval forms. If thesis requires modifications, this should be accomplished immediately to reach the graduate dean's office in due time set by the Graduate School. One bound copy of the thesis will be provided for the department, one for the chair of the advisory committee in addition to the electronic copy required for the Graduate School and a copy for the author. Additional copies may be required for projects sponsored by outside agencies.

Master of Science Programs

The Forestry program offers Master of Science students the opportunity to tailor their program to address their interests and career aspirations. Individual programs of study and research are developed by students in consultations with their faculty advisor to ensure timeliness and feasibility.

Concentrations include: forest resource management, ecological restoration, fire science, recreation ecology, human dimensions of natural resource management, wildlife habitat management, watershed management, hydrology, and soil science. Interdisciplinary research is encouraged. Prospective students should review the description of departmental graduate courses described later in this document. Also, please visit the program's website for a current description of faculty interests and expertise.

Assistantships and Fellowships

Research assistantships are sponsored each year by the McIntire-Stennis Cooperative Forest Research Act and through several externally funded research projects. Teaching assistantships funded by the School of Agricultural Sciences are also available.

In addition to general awards made through the Graduate School, stipends for research studies are available from the U.S.D.A. Forest Service, the U.S. Department of Interior, other federal and state agencies, and private corporations.

Requirements

Since the normal minimum requirement for graduation is 32 semester hours, the completion of degree work for students holding assistantships should be accomplished within four semesters (including summer) which is also the normal maximum span for financial aid.

Per Graduate Program Guidelines for the Master of Science degree in Forestry at least 16 hours of the approved academic program must consist of 500 level courses; and, at least three of the 500 level courses must be formally structured.

The student must attain a grade of B or better for all courses specifically required in the student's academic program and which are offered by the Department of Forestry.

To gain teaching experience, graduate students are expected to assist in the classroom or laboratory for at least one academic semester (20 hours per week) during their tenure with the Department of Forestry. The remaining semesters will also involve either research or teaching at the rate of 20 hours a week.

Per Graduate Program Guidelines for the Maser of Science degree in Forestry, at least 16 hours of the approved academic program must consist of 500 level courses: and, at least three of the 500 level courses must be formally structured.

Staff

In addition to the faculty listed in the Graduate School Catalog, several adjunct professors also hold appointments with the Department of Forestry. These professors are assigned to various natural resource agencies and can serve on graduate guidance committees.

Research Facilities Land

SIU is well endowed with a number of different forest types and agricultural land which are available to the Forestry Program for teaching and research purposes. In particular, we are conducting or planning research and demonstration programs on forest plots and experimental fields of the 3000 acres of the University and its experimental farms. We also have access to wooded lands of the 600 acres of the Touch of Nature Environmental Center, 400 acres at the Pine Hills Field Research Station, and other forests.

Through various memoranda of understanding and special use permits we have use of forested lands and plots on the 43,000 acres of the Crab Orchard Wildlife Refuge, the 270,000 acres of the Shawnee National Forest, and the 4000 acres of the Trail of Tears State Forest, all of which are within an hour's drive of Carbondale. A number of research projects are also ongoing on private lands in southern Illinois. Graduate research has also been conducted throughout the country through agreements with the U.S. Forest Service Experiment Stations and the U.S. Department of Interior, as well as internationally.

Physical Facilities

A variety of laboratories are housed within the department, including those specializing in historical ecology and fire, GIS, human dimensions, and water quality. A research greenhouse operated at the Tree Improvement Center on the western side of the campus is in operation for research and graduate teaching. Greenhouses and growth chamber facilities in the agriculture greenhouses in conjunction with the other programs in the School of Agricultural Sciences are also available.

Forestry Courses

FOR401 - Fundmntls Environmental Educ 401-3 Fundamentals of Environmental Education. (Same as AGRI 401 and REC 401) A survey course designed to help education majors develop an understanding of environmental education principles and teaching both inside and outside the classroom. Prerequisite: ten hours of biological science or ten hours of recreation and/or education, or consent of instructor. Requires field trip transportation fee not to exceed \$25 per course registration.

FOR402 - Wildland Hydrology 402-3 Wildland Hydrology. Fundamentals of hydrology as related to forest and wildland water resources will be emphasized. Considerations will include the hydrologic cycle with emphasis on soil and groundwater regimes, evapotranspiration, surface and subsurface runoff, and the quantity and timing of water yield. Offered spring semester even years.

FOR403 - Agroforestry 403-3 Agroforestry. This course examines the deliberate integration of forestry and related land management practices within agricultural landscapes, primarily addressing wildlife habitat, water quality, crop yield, and animal production enhancement and sustainability. Emphasis is placed on systems successfully implemented in North America, particularly the Midwest, but international examples will also be discussed. Prerequisite: FOR 201 or coursework in forest ecology or consent of instructor.

FOR405 - Forest Wildlife 405-3 Forest Management for Wildlife. This course is designed to familiarize students with a scientific understanding of the theory and practice of forest management for wildlife. Students will gain knowledge of basic forestry management principles as they apply to wildlife; ecology and management of different types of forests for wildlife; and habitat requirements of forest birds, mammals, and herps and applicable forest management techniques.

FOR409 - International Forestry 409-3 International Forest Resources Decision-Making. Examines management planning decision-making for multiple-use forests around the world. Reviews concepts useful for analyzing flow-resource problems, emphasizing systems approaches, introduces use of modern quantitative and qualitative methods to evaluate resource use alternatives. Case studies from around the world. Prerequisite: FOR 411.

FOR411 - Forest Resources Economics 411-3 Forest Resources Economics. Application of micro and macro economics principles to forest timber and non-timber production: capital theory, benefit-cost analysis; and economics of conservation. Prerequisites: ABE 204 or ECON 240, FOR 310 and FOR 351, or consent of instructor.

FOR412 - Tree Improvement 412-2 Tree Improvement. Basic theories and techniques of obtaining genetically superior trees for forest regeneration. Restricted to senior standing.

FOR414 - Information Management 414-3 Information Management. The collection of physical, biological, and social variables in the field of forestry through sampling survey. The procedures of data manipulation and calculation and the presentation of graphs and tables.

FOR415 - Prescribed Burn Planning 415-2 Prescribed Burn Planning. FOR 415 provides a practical overview of planning, mapping, and execution of prescribed burns for ecological restoration efforts in woodland and prairie habitats or other wildland areas. Emphasis will be placed on writing burn prescriptions, laying out burn units, planning and executing burns, and long term monitoring efforts. This will be accomplished with weekly on-line reading assignments followed by Friday morning field trips to visit burn units, prepare control lines, record weather observations, and conduct fuel model assessments. Requires field trip transportation fees and supplemental course expenditures not to exceed \$45 per course registration. Offered during spring semesters. Prerequisite: FOR 315-Fire in Wildland Management. Consent of instructor.

FOR416 - Forest Resource Management 416-4 Forest Resource Management. The application of business procedures and technical forestry principles to manage forest properties. Emphasis on integrated resource management for tangible and intangible benefits. Prerequisite: FOR 351, completion of Forest Resource summer camp series or consent of instructor. Requires field trip transportation fee and supplemental expenditures not to exceed \$40 per course registration.

FOR417 - Forest Land-Use Planning 417-2 Forest Land-Use Planning. Principles of location theory as a basis for determining land use; supply of forest land; population pressure and demand; conservation principles; determination of forest land values; institutional factors influencing forest land-use; forest taxation; special taxes, and capital gains. Taught in alternate years. Prerequisite: FOR 411 or consent of instructor.

FOR418 - Marketing of Forest Products 418-2 Marketing of Forest Products. The role of marketing in the forest industries; review of economic principles; product policy, planning the product line, pricing, marketing channels, marketing programs, marketing organization, and marketing research as influences on the marketing of lumber, wood products, pulp, and paper. Taught in alternate years. Prerequisite: FOR 411 or consent of instructor.

FOR420 - Park Management 420-3 Park and Wildlands Management. The management of state and federal parks and recreation areas. A systems approach toward management and decision-making will be emphasized. Requires field trip transportation fees and supplemental expenditures not to exceed \$50 per course registration.

FOR421 - Recreation Land-Use Planning 421-3 Recreation Land-Use Planning. Principles and methods for land-use planning of park and recreation environments with emphasis on human dimensions of natural resource research. Focus on planning process and types of information to gather and organize. Application in group field projects. Prerequisite: FOR 220, 420, or consent of instructor. Requires field trip transportation fee not to exceed \$25 per course registration.

FOR422C - Forest Recreation Camp 422C-6 Park and Wildlands Management Camp. A study of park conditions, visitors, and management practices at selected county, state, and federal park systems in the U.S., including the federal wilderness preservation system. Prerequisite: FOR 220 or consent of instructor. Requires field trip transportation fees and supplemental expenditures not to exceed \$750 per

course registration. Summer camp fees and costs are outlined in the Forestry major - Forest Recreation and Park Management Specialization.

FOR423 - Environmental Interpretation 423-3 Environmental Interpretation. (Same as AGRI 423 and REC 423) Principles and techniques of natural and cultural interpretation. Two hours lecture, three hours laboratory. Prerequisite: ten hours biological science or ten hours of recreation. Requires field trip transportation fee not to exceed \$40 per course registration.

FOR425 - Habitat Mgmt Wild Game 425-3 Habitat Management for Wild Game. Introduction to the field of habitat management for wild game species in the Central Hardwood Forest Region of North America. Special emphasis will be placed on providing and manipulating the essential habitat requirements for trophy game including deer, turkey, and upland birds. A holistic approach to habitat management will be emphasized to identify how management of wild game habitat can satisfy other landowner goals and objectives. Restricted to junior level standing or above or permission of instructor.

FOR428 - Urban Forestry 428-2 Urban Forestry. An introduction to principles and practices useful in the management of trees and forests in populated settings. Emphasis is placed on the development of comprehensive management strategies consistent with the biological, physical, economic and social constraints of the urban environment. Restricted to junior or senior standing or permission of the instructor.

FOR429 - Watershed Mgmt Field Lab 429-2 Watershed Management Field Laboratory. A field intensive laboratory course focused on hydrological and biological methods used to manage watersheds and assess watershed health. Laboratory topics include stream gauging, soil water and ground water sampling, channel morphology, stream benthos measurements, and water quality analysis of stream and lake ecosystems. Requires field trip transportation fee not to exceed \$30 per course registration.

FOR430 - Wildland Watershed Mgmt 430-3 Wildland Watershed Management. Emphasis is placed on the principles, technical problems, procedures, alternatives, and consequences encountered in managing wildland watersheds for the production of quality water in harmony with other uses.

FOR431 - Regional Silviculture 431-3 Regional Silviculture. This course examines prevailing management practices within each of the major forested regions of the United States. The course is primarily intended for students interested in wildlife habitat, wood production, or restoration. Emphasis is placed on understanding how underlying soils, silvics, climate, biotic agents, social forces, and past uses drive forestry differentially across the country. Prerequisite/Co-Requisite: FOR 310, or consent of instructor.

FOR451 - Wildlife Habitat & Populations 451-3 Wildlife Habitat and Populations. This course is designed to familiarize students with a scientific understanding of major topics in wildlife ecology and management, with a special focus on Forestry majors and natural resource inventory techniques. Students will gain knowledge of the history of the field of wildlife management, primary wildlife management principles and practices, ecological theory pertinent to wildlife populations and habitat, and current important issues/problems regarding wildlife management and natural resource inventory.

FOR452 - Forest Soils 452-3 Forest Soils. Forest Soils is designed to give the student a more comprehensive in-depth study of the patterns and processes of soil formation and their relation to forest productivity. Upon completion of the course, student will be familiar with soil/plant interactions, water relationships, and forest soil management for sustainable productivity and environmental quality. This course provides a sound basis for learning basic soils concepts specifically related to forest ecosystems which are beneficial to Forestry majors and those majoring/minoring in Soil Science or related natural science disciplines. Prerequisite: FOR 352 or consent of instructor. Requires field trip transportation fee not to exceed \$25 per course registration.

FOR452L - Forest Soils Laboratory 452L-2 Forest Soils Laboratory. Companion laboratory for FOR 452. Emphasis is on methods to characterize and evaluate the chemical, physical, and biological properties of forest soils. Requires field trip transportation fee not to exceed \$25 per course registration. Offered spring semester, even years.

FOR453 - Environment Impact Assessment 453-2 Environmental Impact Assessment in Forestry. Methods of assessing the environmental impact of land-use systems on forest resources and assessing

the impact of forest management systems on environmental quality are presented. Case studies culminating in the preparation of environmental impact statements are emphasized. Restricted to senior standing in a natural resource major. Requires field trip transportation fee not to exceed \$25 per course registration.

FOR454A - Forest Ecology: Boreal 454A-2 Forest Ecology Field Studies-Boreal. A study of forest communities, soils, and site conditions. Course requires a field trip of about 10 days. Each trip is worth two semester credits; a maximum of 6 credits may be applied toward graduate credit. Restricted to senior standing in natural resources or biological sciences, courses in tree identification, forest ecology, and soils. Special approval needed from the instructor. Requires field trip transportation fee not to exceed \$300 per course registration.

FOR454B - For Ecology: Lake States 454B-2 Forest Ecology Field Studies-Lake States. A study of forest communities, soils, and site conditions. Course requires a field trip of about 10 days. Each trip is worth two semester credits; a maximum of 6 credits may be applied toward graduate credit. Restricted to senior standing in natural resources or biological sciences, courses in tree identification, forest ecology, and soils. Special approval needed from the instructor. Requires field trip transportation fee not to exceed \$300 per course registration.

FOR454C - For Ecology: S Appalachians 454C-2 to 8 Forest Ecology Field Studies-Southern Appalachians. A study of forest communities, soils, and site conditions. Course requires a field trip of about 10 days. Each trip is worth two semester credits; a maximum of 6 credits may be applied toward graduate credit. Restricted to senior standing in natural resources or biological sciences, courses in tree identification, forest ecology, and soils. Special approval needed from the instructor. Requires field trip transportation fee not to exceed \$300 per course registration.

FOR454D - For Ecology: Southern Pine 454D-2 to 8 Forest Ecology Field Studies-Southern Pine. A study of forest communities, soils, and site conditions. Course requires a field trip of about 10 days. Each trip is worth two semester credits; a maximum of 6 credits may be applied toward graduate credit. Restricted to senior standing in natural resources or biological sciences, courses in tree identification, forest ecology, and soils. Special approval needed from the instructor. Requires field trip transportation fee not to exceed \$300 per course registration.

FOR460 - Forest Industries 460-2 Forest Industries. Analysis of raw material requirements, the processes and the products of forest industries. The environmental impact of each forest industry will also be discussed.

FOR470 - Wilderness Management 470-2 Wilderness Management, Policy, and Ethics. Study of current management philosophy and practice in America's wilderness. Analysis of current wilderness policy and its historical evolution. Discussion of the evolution of the wilderness idea and the individuals that have influenced it. Weekend field trip required. Offered alternate (even) years. Restricted to senior standing. Required field trip transportation and materials fee not to exceed \$80 per course registration.

FOR480 - Natural Resource Conflict Mgt 480-3 Natural Resource Conflict Management. Examines the role and methods of stakeholders in influencing natural resource policies. Emphasis on applied methods, techniques and strategies for conflict resolution, especially collaborative decision making and persuasion theory. Restricted to junior standing or consent of instructor.

FOR486 - Invasive Plant Ecology & Mgmt 486-3 Invasive Plant Ecology and Management. (Same as CSEM 486, PSAS 486) Ecology and evolution of invasive plant species, with a focus on land management, including characteristics and biology, introduction and spread, population dynamics, community impacts and ecological interactions, and invasive plant evolution and adaptation, as well as management techniques and considerations, including biological, chemical, and mechanical control. Prerequisite: BIOL 307 or consent of instructor. Restricted to junior standing.

FOR494A - Practicum: For Env Assessment 494A-1 to 6 Practicum-Forest Environmental Assessment. Supervised practicum in a professional setting. Emphasis on administration, supervision, teaching and program leadership in community, school, park, forest, institution, and public or private agencies. Students should enroll according to their curriculum specialization. Special approval needed from the instructor.

FOR494B - Practicum: Outdoor Rec Res Mgt 494B-1 to 6 Practicum-Outdoor Recreation Resource Management. Supervised practicum in a professional setting. Emphasis on administration, supervision, teaching and program leadership in community, school, park, forest, institution, and public or private agencies. Students should enroll according to their curriculum specialization. Special approval needed from the instructor.

FOR494C - Practicum:For Resources Mgmt 494C-1 to 6 Practicum-Forest Resources Management. Supervised practicum in a professional setting. Emphasis on administration, supervision, teaching and program leadership in community, school, park, forest, institution, and public or private agencies. Students should enroll according to their curriculum specialization. Special approval needed from the instructor.

FOR500 - Principles of Research 500-2 Principles of Research. Research philosophy, approaches to research; theory, hypotheses inference, and predicting; problem identification, project development and organization; methods of data collection, analysis and presentation; drawing conclusions and organizing results.

FOR501 - Graduate Seminar 501-1 Graduate Seminar. Presentation and critiques of current research project of faculty, graduate student and selected resource persons.

FOR502 - Adv Watershed Hydro Mgmt 502-3 Advanced Watershed Hydrology and Management. A study of current issues relating to hydrology and the management of water resources in forested and mixed land-use watersheds. Readings, discussions and projects will focus on research and management topics in water quality and quantity at regional, national and international levels. Prerequisite: FOR 402 or FOR 430 or equivalent or consent of instructor.

FOR504 - Tree Physiology 504-2 Tree Physiology Concepts and Applications. A study of physiological concepts and attributes of trees that underlies growth, ontogeny, and reproduction in the context of genotype, environment, and their interaction. Physiological concepts will be presented and discussed in a framework that relates their influence on forest stand management applications and activities such as regeneration, tree planting, silvicultural activities in native forests and plantations, and stand response to disturbance, and the development and maintenance of old growth. Prerequisite: PLB 200 or FOR 331 or a plant physiology course.

FOR506 - Advanced Landscape Ecology 506-3 Advanced Landscape Ecology. (Same as FOR 406) (FOR 506-3 will have an additional lab requirement) Review and evaluation of current research and concepts in landscape ecology management. Principles of landscape ecology in the context of forested systems will be presented and discussed. Emphasis on how spatial heterogeneity and human activities influence landscape patterns. Prerequisite: G.I.S. course or consent of instructor.

FOR508 - Historical Ecology 508-2 Historical Ecology. Introduction to the basic concepts and foundations of historical ecology, a discipline which joins traditional ecology with an investigation of human landscape transformation. Emphasis is placed on the interdisciplinary approach to historical ecology with readings in pollen analysis, dendrochronology, land-use history, archival and historical sources, and traditional vegetation surveys and reconstructions. Offered alternate years. Prerequisite: 300 level plant ecology course or equivalent or consent of instructor. Field trip cost approximately \$35.

FOR510 - Adv Silviculture: Land Rehab 510-2 Advanced Silviculture: Landscape Rehabilitation. Current and emerging issues in silviculture and landscape-scale natural resource and agricultural sustainability are addressed at the individual manager/farmer or small community level. Case studies consider underlying physical and biological principles underlying successful rehabilitation practices across a wide range of social contexts and physical landscapes. Experimental methodologies and their application to management problems are critiqued. Water, grazing, food crop, wildlife/biodiversity conservation, and biofuels are emphasized with accommodations for students with related interests. This course is intended for students with undergraduate training or practical backgrounds in natural resource management or agriculture and who are seeking to integrate these disciplines toward developing actionable solutions. Special approved needed from the instructor.

FOR511 - Adv Forest Resource Econ 511-2 Advanced Forest Resources Economics. Application of microeconomic, macroeconomic and capital theory to forest resource problems; introductory econometric methods; long range supply and demand projections; international forest economics and policy problems

decision theory in forest resource management. Offered alternate years. Prerequisite: FOR 411 or equivalent or consent of instructor.

FOR512 - Tree Selection & Breeding 512-2 Tree Selection and Breeding. Quantitative methods of describing variation patterns of trees, testing genetic and environmental effects and interactions and evaluations of tree improvement program. Prerequisite: FOR 412 or consent of instructor.

FOR515 - Adv Urban Ecosystem Mgmt 515-3 Advanced Urban Ecosystem Management. An examination of concepts and processes associated with urban environments. Physical, chemical, and biological stresses associated with land use change and urban sprawl will be discussed and presented with a focus on water resources. Class discussion, readings, and projects will concentrate on current research in the urban environment. Restricted to graduate standing or consent of instructor.

FOR516 - Adv Forest Management 516-2 Advanced Forest Management. Case studies in forest land management, management planning, utilizing computer programming, CFI and TSI role in long range management planning. Offered alternate years-odd. Prerequisite: FOR 416, FOR 331 and summer camp or consent of instructor.

FOR520 - Adv Park Planning 520-2 Advanced Park Planning. Study of nature and functions of the recreation environmental planning process in theoretical and policy terms. Types of plans at local, regional and state levels. Evaluation of different types of planning approaches and their utility in particular situations. Offered alternate years. Prerequisite: FOR 421 or consent of instructor.

FOR521 - Recreation Behavior-Wildlands 521-2 Recreation Behavior in Wildlands Environments. Review of sociological and psychological theories relevant to outdoor recreation planning; management alternatives. Review of current behavior research in outdoor recreation. Application of behavioral concepts to recreation planning and administration. Offered alternate years.

FOR523 - Advanced Resource Interpretatn 523-2 Advanced Resource Interpretation. Survey of theories and methods relating to resource interpretation planning and practice resulting from research in communication, education and marketing. Examines case studies and existing issues current to the profession of interpretation. Stresses relationship between theory and application. Prerequisite: FOR 423 or consent of instructor. Offered alternate years.

FOR528 - Urban Tree Management 528-3 Urban Tree Management. Establishment and maintenance of trees as beneficial components of urban environments. Tree functionality is addressed from biological, social, and economic opportunities and constraints commonly associated with cities and towns. Management of trees and wooded areas within ecological urban landscapes is addressed from the perspective of multiple constituencies. This course is primarily intended to be taken as part of the ecological urban landscapes graduate program and is offered Online Only. May be taken as a substitute for FOR 428. Students who have achieved a passing grade in FOR 428 are not eligible to take this course.

FOR530 - Forest Site Evaluation 530-2 Forest Site Evaluation. A discussion of the factors affecting site quality and their use in present site evaluation methods. Lectures will draw upon recently published scientific literature as well as forest research data collected and analyzed for southern Illinois forests. Laboratories will include sampling of forest sites and stands with subsequent analysis of data using graphic and statistical techniques and a computer to develop site evaluation models. Prerequisite: BIOL 307 or consent of instructor. Cost: \$20.

FOR531 - Disturbance Ecology 531-2 Disturbance Ecology. Provide a historical overview and current perspective on major topics in forest ecology including natural disturbance, gap and patch dynamics, and relevant restoration ecology techniques. This is accomplished through a critical examination of the literature through reading, group discussions, and field trips. Two to three field trips will be organized during the semester to observe the effects of natural disturbance with an approximate total cost of \$25 per student. Offered alternate years. Prerequisite: 300 level plant ecology course (or equivalent) or consent of instructor.

FOR551 - Wildlife Habitat 551-3 Wildlife-Habitat Relationships. Theory and practice of analyses pertaining to the study of wildlife-habitat relationships. Understanding of common data collection techniques in wildlife and forestry science. Use of computers, statistical programs, and other forms of

data analysis. Ability to work on practical and applied problems in wildlife conservation. Special approval needed from the instructor.

FOR585 - Human Dimensions of NRM 585-3 Human Dimensions of Natural Resource Management. Multidisciplinary study of influences and constraints on human-renewable natural resource interactions. Readings, discussion and problem solving to enhance appreciation of human dimensions as an integral component of natural resource management. Emphasis on diverse perspectives on forest, fisheries, and wildlife; conceptual frameworks and research methodologies. Offered alternate (odd) years.

FOR588 - International Grad Studies 588-1 to 6 International Graduate Studies. University residential graduate program abroad. Prior approval by the department is required both for the nature of program and the number of hours of credit.

FOR590 - Readings:Forest Resources 590-1 to 4 Readings in Forest Resources. Intensive consideration is given to current practices and problems in forestry. Special approval needed from the instructor.

FOR591A - Dir Stdy Forest Res-Dendrology 591A 1 to 4 Directed Studies in Forest Resources-Dendrology. Intensive study of disciplines fundamental to forestry. Study of the identification of native and exotic trees. Special approval needed from the instructor.

FOR591B - Dir Stdy For Res-Autecology 591B 1 to 4 Directed Studies in Forest Resources-Forest Autecology. Intensive study of disciplines fundamental to forestry. Study of the physiology of individual tree species in relation to their environment. Special approval needed from the instructor.

FOR591C - Dir Stdy For Res-Comm Ecology 591C 1 to 4 Directed Studies in Forest Resources-Forest Community Ecology. Intensive study of disciplines fundamental to forestry. Study analysis and integration of tree growth, forest structure and classification in relation to climate/edaphic factors as an ecological basis for forest management. Special approval needed from the instructor.

FOR591D - Dir Stdy Forest Measurements 591D 1 to 4 Directed Studies in Forest Resources-Forest Measurements. Intensive study of disciplines fundamental to forestry. Study of measurement, statistical and data processing concepts; volume, growth, yield of forest products and methods of sampling forest resources. Special approval needed from the instructor.

FOR591E - Dir Stdy Forest Recreation 591E 1 to 4 Directed Studies in Forest Resources-Forest Recreation. Intensive study of disciplines fundamental to forestry. Study of principles and methods for land-use planning of park and recreation environments. Special approval needed from the instructor.

FOR591F - Dir Stdy For Res-Silviculture 591F 1 to 4 Directed Studies in Forest Resources-Silviculture. Intensive study of disciplines fundamental to forestry. Study of concepts and techniques utilized in the silvicultural treatment of forests. Special approval needed from the instructor.

FOR591G - Dir Stdy For Res-Wild Fire Mgt 591G 1 to 4 Directed Studies in Forest Resources-Wildland Fire Management. Intensive study of disciplines fundamental to forestry. Study of all aspects of fire as a phenomenon in wildland management. Special approval needed from the instructor.

FOR591H - Dir Stdy Forest Soils 591H-1 to 4 Directed Studies in Forest Resources-Forest Soils. Intensive study of disciplines fundamental to forestry. An introduction to the characterization and fundamental concepts of forest soils and their relationships to forest communities and forest management practices. Emphasis is on the chemical, biological, and physical properties of forest soils as related to forests and forest management.

FOR591I - Forest Mapping and GIS 591I-3 Directed Studies in Forest Resources-Mapping and GIS. Integrate the use of mapping, orthophotographs, and field information to evaluate resources in the development of land management plans. Topics covered range from orthophoto interpretation, to GIS database management, and vegetation mapping. Course includes classroom presentation, field trips, and laboratory exercises. \$50 Field trip fee.

FOR593 - Individual Research 593-1 to 4 Individual Research. Directed research in selected fields of forestry.

FOR599 - Thesis 599-1 to 6 Thesis. A Minimum of three and a maximum of six hours to be counted toward a Master's degree.

FOR601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Geography and Environmental Resources

The School of Earth Systems and Sustainability offers a program that leads to the Master of Science degree in Geography and Environmental Resources.

Geography and Environmental Resources is the study of how humans modify, impact, adapt to, monitor, and manage the natural environment they inhabit. Geography students study the dynamic relationship between nature and society in the field and the computer laboratory as well as in the traditional classroom. Students choose among three concentrations focusing on different aspects of geography and environmental resources: environmental sustainability, geographic information science (GIS), and climate and water resources.

Students take courses that give them a foundation in these dimensions of environmental resources through a core program, then develop a research focus. Students also develop the analytic and research skills appropriate to their research interest.

The graduate program stresses a problem-solving perspective, for which habits of critical analysis and dialogue are essential. Students take the initiative in designing and carrying out their programs with the guidance of an advisory committee and the departmental faculty. Geography maintains linkages with many other departments. Courses and faculty expertise in other departments complement those in geography, and students are encouraged to take advantage of this. Each student's progress is assessed at regular intervals by the faculty, and the student is notified of the faculty's assessment. The student is expected to show continued progress in carrying out the program of study, and in developing habits of scholarship and professionalism.

This program requires a \$65 nonrefundable application fee that must be submitted with the application for Admissions to Graduate Study in Geography and Environmental Resources. Applicants must pay this fee by credit card when completing the online application. Questions regarding the program can be directed to geog@siu.edu.

Students interested in Environmental Sustainability or Climate and Water Resources concentrations delivered through distance education should contact the Chair or Graduate Program Director to discuss opportunities for transfer credits and flexibility in course requirements. Requirements for the Doctor of Philosophy Degree (See Environmental Resources and Policy Ph.D. program.)

Requirements for the Master of Science Degree

Advisement

Students newly admitted to the master's degree program are advised by the graduate program director, with the assistance of departmental faculty. Students choose a permanent adviser at the end of the first semester in residence. The choice of permanent adviser and advisory committee is made in consultation with the graduate faculty, taking into consideration such matters as faculty expertise and faculty advisee loads.

Degree Requirements

To obtain the master's degree, the student shall:

1. Complete all degree requirements specified by the Graduate School, and explained under degree requirements, master's degree program in the *Graduate Catalog*. A total of 30 Graduate Credit Hours must be completed, with 50% of these hours at the 500 level or above.
2. Include as required courses the following: GEOG 500, Principles of Research, during the first fall semester in residence; GEOG 501, Seminar in Geography and Environmental Research, the following semester; GEOG 504, Spatial Analysis, or GEOG 512, Applied Geographic Statistics or equivalent, and one research seminar at the 500-level. GEOG 502, Geographic Information Systems is recommended depending on the student's background.
3. In consultation with an adviser, develop a program of study, identifying courses to be taken, research skills to be developed, deficiencies to be rectified. This shall be approved by the faculty. The program of study shall include a core of substantive courses in geography and environmental resources, as explained in the policy statement on core curriculum for master's degree students, available from the graduate program director. The program of study may include courses offered by other departments. The graduate faculty will meet to review and approve/disapprove the program of study of each master's degree student enrolled in GEOG 500. An approved program of study will be filed with the graduate program director and department chair as part of GEOG 500.
4. Develop a thesis or research paper proposal. The thesis or research paper proposal must be approved by the student's master's advisory committee before the student registers for GEOG 599, Thesis, or GEOG 593A-C, Research in Geography and Environmental Resources. A total of six semester hours of GEOG 599 may be awarded for a thesis at the discretion of the advisory committee upon final examination on the thesis (see #5 below). A total of three semester hours may be awarded for a research paper.
5. Submit a thesis or research paper to the advisory committee at least two weeks before the defense. A student who writes a thesis will be examined by the committee at a meeting that may be attended by other faculty and students. A research paper may be evaluated and approved by the advisory committee with or without public presentation.

Certificate in GIS

The Graduate GIS Certificate enables students to focus on advanced geospatial techniques and analytical skills. This certificate meets the needs of the expanding job opportunities for Masters' and Ph.D. students. Students must be admitted to an SIU graduate program or the SIU non-declared graduate

program and maintain a 3.0 GPA in the certification courses. This certificate ensures that the students understand advanced mapping technologies; know how to combine individual models and functions in ArcGIS to carry out a complicated spatial analysis task; master advanced digital image processing and analysis technologies; and obtain competence in designing, developing, and managing spatial databases. Further, they will demonstrate an understanding of GIS's relationships with remote sensing, global positioning system (GPS), mathematics, statistics, and other sciences and obtain capacity in integrating multi-disciplinary methods for problem-solving. Finally, they will be competent in planning, developing, and implementing a complex GIS project. The program requires students to complete 18 credit hours of graduate level coursework from the following:

- GEOG 502(3) Geographic Information Systems
- GEOG 504(3) Spatial Analysis
- GEOG 506(3) Intro to Remote Sensing
- GEOG 508(3) Advanced Remote Sensing
- GEOG 520(3) Advanced GIS Studies
- GEOG 528(3) GIS Portfolio/GIS Capstone Project

Certificate in Sustainability

The Graduate Certificate in Sustainability enables students to expand their knowledge and understanding of the long-term sustainable use of the earth's resources, including water, land use and food systems, climate change, urban sustainability, and "green" energy. This certificate meets the needs of the expanding job opportunities in environmental sustainability. Students must be admitted to an SIU graduate program or the SIU non-declared graduate program and maintain a 3.0 GPA in the certification courses. The program requires students to complete 18 credit hours of graduate level coursework, as follows:

- GEOG 521(3) Urban Sustainability
- GEOG 524(3) Sustainable Development
- GEOG 536(3) Natural Hazards
- GEOG 539(3) Global Climate Change
- GEOG 570(3) Contemporary Issues in Environmental Studies

Plus, one of the following:

- GEOG 502(3) Geographic Information Systems
- GEOG 512(3) Applied Geographic Statistics

Geography and Environmental Resources Courses

GEOG419 - Enterprise GIS Planning 419-3 Enterprise GIS Planning and Implementation. Students will gain both theoretical and practical understanding of the design process of enterprise GIS; be able to assess the scope of a system and address data and technology requirements of that system; become exposed to a host of the state-of-the-art tools and concepts in enterprise GIS; and learn skills for hardware, software and computer networking issues. Students are expected to have a basic working knowledge of ArcGIS and ArcIMS. Prerequisite: GEOG 401 or consent. Lab fee: \$20.

GEOG430 - Environmental Systems Analysis 430-3 Environmental Systems Analysis. Exploration of the major environmental systems relevant to planning. Topics include concepts of systems and system behavior; basics of systems analysis and modeling environmental systems; environmental fluxes of energy and materials (e.g., hydrologic cycle, carbon cycle, energy budgets, erosion and sediment transport, role of biosphere in organizing fluxes); environmental variability.

GEOG452 - Environment & Population 452-3 Environment and Population. Introduction to population geography. Emphasis is on the relationships between population trends, resource use patterns and environmental impacts. Topics include methods and data used to describe and predict populations,

theories of population and policy issues that relate to the interaction between population, quality of life and environmental quality. Prerequisite: GEOG 320 or consent of instructor.

GEOG454 - Environmental Movements 454-3 Conservation and Environmental Movements. Emphasizes the ways in which humans view and interact with the environment. Conservation literature and the works of influential environmentalists are studied. Specific theories and environmental movements which help to explain society's current perception and use of the environment are studied.

GEOG457 - American Environmental History 457-3 American Environmental History. (Same as HIST 457) An exploration of the attitudes toward and the interaction with the natural resource environment of North America by human settlers. Coverage from the Neolithic Revolution to the present.

GEOG458 - Applied GIS 458-3 Applied GIS. This course provides practical GIS applications and draws from special topics in data visualization and environmental applications. The topic on data visualization includes an overview of techniques for visualizing large-scale datasets and is inspired by concepts from information visualization. Topics in environmental applications consist of risk assessment, digital elevation model processing, and watershed delineation and hydrological modeling. Students taking this course will distinctively learn: (1) how to visualize geographic data; (2) how to use different environmental risk assessment methods; (3) how to assess, detect, and characterize environmental risks and potential threats; and (4) how to create meaningful visualization scenes to support environmental decision-making. Active learning experiences will be achieved through the use of classroom lectures, lab exercises, group tasks, and presentations. Prerequisite: GEOG 401 or GEOG 310I or consent of instructor. Lab fee: \$20.

GEOG471 - Environmental Impact Analysis 471-3 Environmental Impact Analysis. Techniques of assessing the impact of human activities on the environment, including weighting schemes, cost-benefit analysis, linear programming, ecological impact assessment. Emphasis is on placing NEPA and EIS writing in legal, economic, and environmental perspective.

GEOG481 - Coop Work Exp Geography 481-3 to 12 Cooperative Work Experience in Geography. Placement of advanced undergraduate or graduate student in private or public organization for one or more semesters in paid career-related position identified by student. Student gains professional experience, under faculty and on-site supervision. A report or professional poster on the work is required at the end of the semester. Three credit hours of either 480 or 481 may apply toward requirements for a Geography undergraduate major or graduate degree. Restricted to students majoring in Geography and Environmental Resources or minoring in Environmental Studies. Special approval needed from the department.

GEOG500 - Principles of Research 500-3 Principles of Research. This course teaches students the key components of graduate research: identify a research problem, determine research questions, structure a literature review, and develop research methods. Examples of geographic research are discussed and students work to identify independent research projects. The course culminates with students developing their own research proposals.

GEOG501 - Sem Geog & Env Research 501-3 Seminar in Geography and Environmental Research. Seminar approach to problems of completing background research design of project statements, identification of research methodology and completion of thesis/dissertation project statements. Restricted to graduate standing.

GEOG502 - Geographic Information Systems 502-3 Geographic Information Systems. This course will prepare students with comprehensive working knowledge and technical skills related to geographic information systems (GIS). It covers important topics in the context of GIScience, including coordinate systems and georeferencing, data structures (vectors and rasters), map principles and design, spatial analysis and modeling, GIS software, GPS, GIS data sources, and data uncertainty, which are critical to support the implementation of a GIS project. A series of GIS labs and a final class project will help equip students with necessary skills (e.g., mapping, spatial analysis, and geocoding) to fulfill the tasks of an entry-level GIS position. Recommended: GEOG 310I or CE 263. Lab fee: \$20.

GEOG504 - Spatial Analysis 504-3 Spatial Analysis. This spatial analysis course is an introduction to statistical methods for geographers. The course provides an overview of the application of spatial statistical theories, concepts and approaches in the general context of the emerging fields of geographic information system (GIS) and science (GISci). The main focus of this course is on how techniques for the

analysis of spatial data can effectively be applied in a GIS environment, with a particular emphasis on the study of spatial patterns, distribution, and associations. Prerequisite: GEOG 401 or GEOG 502, with grade of C or higher, or consent of instructor. Lab fee: \$20.

GEOG506 - Intro to Remote Sensing 506-3 Introduction to Remote Sensing. An introduction to the fundamentals of remote sensing as applied to environmental management. This course will examine the theoretical and practical aspects associated with the use and analysis of aerial photography and satellite imagery. These include how remote sensing data are acquired, displayed, analyzed and how information on our environment can be extracted from such data. Students will be introduced to manual interpretation and digital image processing techniques of remotely sensed imagery. Students will have the opportunity to gain hands-on experience using image processing software. Lab fee: \$30.

GEOG508 - Advanced Remote Sensing 508-3 Advanced Remote Sensing. Advanced techniques in the analysis of remotely sensed data. Emphasis is placed on digital image processing using state-of-the-art technology. Students will be expected to develop individual problem-driven projects that use the knowledge, tools, and techniques that are developed in this course. Prerequisite: GEOG 406 or GEOG 506, with grade of C or higher, or consent of instructor. Lab fee: \$30.

GEOG512 - Applied Statistics 512-3 Applied Geographic Statistics. Introduction to basic statistical methods and skills related to the application of statistics to problems in geography. Lectures are supplemented with practical exercises to stress the applied nature of statistics in environmental decision making. Topics covered include descriptive statistics, time series, probability, point and interval estimation, hypothesis testing, correlation and regression, analysis of variance, and spatial statistics.

GEOG516 - Cartographic Design 516-3 Cartographic Design. Introduction to the concepts and principles of map design and automated cartographic techniques used to promote the understanding of a map as a powerful communication model. Examines techniques for the representation, manipulation, display, and presentation of spatial data using computer mapping techniques and graphics software. Team based projects will address a geographic problem and produce a professional final map. Prerequisites: GEOG 401 or GEOG 502, with grade of C or higher, or consent of instructor. Lab fee: \$20.

GEOG517 - GIS Programming 517-3 GIS Programming and Customization. GIS programming trains students in customizing GIS applications and streamlining spatial analysis by assembling functions provided by the underlying GIS platforms. This course is an introduction to programming and scripting for intermediate GIS users who need to automate the geoprocessing of GIS datasets. This course focuses the most popular commercial platform, ArcGIS ModelBuilder and Python Scripting for ArcGIS. Through this course, students will understand the object-oriented programming principles, master the advanced skills of building a complex work flow for GIS analysis, and develop customized geoprocessing programs to edit, manipulate and analyze spatial data using ArcPy and Python. Prerequisite: GEOG 401 or GEOG 502, with grade of C or higher, or consent of instructor. Lab fee: \$20.

GEOG520 - Advanced GIS Studies 520-3 Advanced GIS Studies. This course focuses on advanced conceptual and technical issues underlying GIS, including GIS data modeling, geodatabase model and structure, analytical methods and procedures associated with geospatial modeling, and the latest developments in geospatial sciences. Laboratory assignments include the analysis of digital geographic information of physical and social phenomena, emphasizing the use of standard GIS software to illustrate techniques of geodatabase, map digitization, spatial data exploration, spatial analysis/modeling, and GIS-based decision support. Students have the opportunities of designing, implementing and presenting a GIS project that takes full advantage of the advanced GIS theories and techniques to solve spatial problems chosen by students. Prerequisite: GEOG 401 or GEOG 502, with grade of C or higher, or consent of instructor. Lab Fee: \$20.

GEOG521 - Urban Sustainability 521-3 Urban Sustainability. Sustainability of urban areas is viewed from a geographical perspective to focus on the complex relationships among environmental, sociocultural, economic, and political phenomena. Considerable time is devoted to identifying, analyzing and explaining selected urban problems and their sustainable solutions.

GEOG522 - Environ & Energy Economics 522-3 Environmental and Energy Economics. Economics of renewable and nonrenewable natural resources management and environmental policy. Topics covered include: static and dynamic efficiency, market efficiency and market failures (market power, externalities, and public goods), the economics of nonrenewable resource extraction, renewable resources

management (with a focus on forests and water), mechanism design choices and their implementation in the real world, and the role of the private and public sectors in research and development.

GEOG524 - Sustainable Development 524-3 Sustainable Development. Analysis of the human, economic, technological, environmental and political dimensions of sustainable development focusing on public and private sector institutions that manage renewable and non-renewable natural resources. Emphasis is sustainable development as applied to: (a) population, (b) energy and the atmosphere, and (c) agricultural impacts on soil and water resources.

GEOG526 - US Environmental Policy 526-3 US Environmental Policy. This course investigates the US system of environmental regulation: the background of social and environmental movements that influence US policy and the agencies involved in US environmental regulation. Emphasis is on US regulations and US participation in global environmental policies. Overall, the focus is on spatial variations in environmental regulations; or the geography of environmental quality.

GEOG528 - GIS Portfolio/Capstone Project 528-3 GIS Portfolio/GIS Capstone Project. Independent development and implementation of a major GIS project based on analysis of spatially referenced data sets to produce digital products and to solve real world problems. Data obtained from multiple sources, including downloads from online sources, field collected data, and published map data. A project portfolio and a poster approved by the instructor must be submitted for successful completion. Prerequisite: GEOG 401 or GEOG 502 and GEOG 406 or GEOG 506, with a grade of C or higher, or consent of instructor. Lab fee: \$20.

GEOG529 - Sem Geog Local/Organic Food 529-3 Seminar: Geography of Local and Organic Food. A discussion of geographic topics in local and organic food and farming. This includes: spatial distributions, landscapes, policy influences, organic agricultural productivity, food safety, consumer concerns, organic farmers' decision making, organic marketing, local food systems, and organic certification. Restricted to graduate standing.

GEOG531 - Climate Data and Analysis 531-3 Climate Data and Analysis. This course focuses on identifying, locating, and applying appropriate climate data sets (e.g., station observations, atmospheric reanalyses, and climate model output), techniques for obtaining and processing these data sets, and methods commonly used for applied climate analysis. Student-lead, applied research projects provide students with the opportunity to utilize a variety of data sets and analytical tools introduced during the semester. The curriculum is organized around current practical problems from a variety of disciplines and identifying and analyzing appropriate data sets to address them. Students will become familiar with a range of computational packages, including Excel, SPSS, and Matlab. Students should have a basic understanding of climatology and statistics prior to taking this class.

GEOG533 - Adv Field Methods Geography 533-3 Advanced Field Methods in Geography. Quality geographic research depends on obtaining reliable data through an informed research design. Exploring both social and environmental processes, students will actively participate in developing and conducting investigations. Using the SIU Carbondale campus and surrounding region as a laboratory, lab exercises will include human geography, geomorphology, climatology and biogeography. Analytical techniques will include statistics and mapping. Lab fee: \$20.

GEOG534 - Water Resources Hydrology 534-3 Water Resources Hydrology. This course covers the major components of the hydrologic cycle with emphasis on surface water and fluvial (stream) processes. Students will gain a detailed understanding of the major hydrologic processes and develop substantial experience in collecting, compiling, and analyzing hydrologic data for use in water resource analysis and management.

GEOG536 - Natural Hazards 536-3 Natural Hazards. This course introduces students to the geophysical and human dimension of natural hazards and focuses on five main areas: 1) characterization of natural hazards; 2) human dimensions of natural hazards; 3) natural hazard risk assessment; 4) natural hazard mitigation planning; and 5) the use of geospatial tools and models used in risk assessments and mitigation planning activities. Students will develop a fundamental understanding of both geophysical and human dimensions of natural hazards and an awareness of how natural hazards can develop into disasters.

GEOG539 - Seminar Global Climate Change 539-3 Seminar on Global Climate Change. This course examines the major environmental, social and policy issues relevant to global climate change, including natural and anthropogenic causes, environmental pollution, land use/land cover change, extinction and biodiversity issues, and potential climate change-related impacts on human health. Restricted to graduate standing.

GEOG540 - Water Resources Management 540-3 Water Resources Management. This interdisciplinary course is taught in a hybrid lecture/seminar style. Students review the physical science, biological science, and environmental policy which underpin water resource management. In addition, students explore human impacts on water resources and the role that water management plays in striking a sustainable balance between needs of humans and aquatic ecosystems.

GEOG554 - Conservation and Environ 554-3 Conservation and Environmental Movements. Emphasizes the ways in which humans view and interact with the environment. Conservation literature and the works of influential environmentalists are studied. Specific theories and environmental movements which help to explain society's current perception and use of the environment are studied.

GEOG556 - Geographic Visualization 556-3 Geographic Visualization. This course will provide an overview of geographic visualization with a concentration on theories, concepts and approaches of information visualization. Lectures and laboratory exercises will focus on the practical issues of exploratory data analysis (EDA), cartographic design process, web cartography, data quality and generalization, thematic mapping, map animation and multimedia applications. The course will provide students with a working knowledge of commercial software commonly used for graphic-based applications. Students are expected to utilize the hands-on experience gained from the lab exercises to further enhance their proficiency in graphic software. Two hours of seminar and classroom presentations, two hours of studio exercises each week. Lab fee: \$30.

GEOG570 - Contemp Issues Env Studies 570-3 Contemporary Issues in Environmental Studies. Background, current, and future issues linking social responses to scientifically relevant environmental issues. Students learn about the multiple geographic, social and ecological factors that influence environmental citizenship and participation. Topics include conservation/preservation, green jobs, environmental non-governmental organizations, policy influences, and environmental education. Lectures, guest lectures, and seminar style discussions. Students develop and demonstrate skills in problem solving, communication, and professionalism.

GEOG580 - Internship in Geography 580-2 to 6 Internship in Geography. Supervised field work in private or public organizations dealing with environmental management or GIS. A report or professional poster on the work is required at the end of the semester. Special approval needed from the department.

GEOG591 - Independent Studies 591-2 to 4 Independent Studies in Geography. Restricted to graduate standing.

GEOG593A - Research Environ Sustain 593A-2 to 24 (2 to 6 per semester) Research in Environmental Sustainability. Restricted to graduate standing.

GEOG593B - Research GIS 593B-2 to 24 (2 to 6 per semester) Research in Geographic Information Science. Prerequisite: GEOG 500 and GEOG 501. Restricted to graduate standing.

GEOG593C - Research Climate & Water 593C-2 to 24 (2 to 6 per semester) Research in Climate & Water Resources. Restricted to graduate standing.

GEOG596 - Field Course 596-2 to 4 Field Course. Restricted to graduate standing.

GEOG599 - Thesis 599-2 to 6 Thesis. Restricted to graduate standing.

GEOG601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their thesis or research paper. The student must have completed the minimum thesis or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF.

GEOG699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Geology

The School of Earth Systems and Sustainability offers programs leading to the Master of Science degree in Geology (thesis required), a Master of Arts degree in Earth Sciences (thesis not required), a Graduate Certificate in Earth Sciences, and a Doctor of Philosophy degree in Geosciences. Students may also pursue an interdisciplinary Ph.D. in Environmental Resource and Policy (see entry in this catalog).

All graduate programs require a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Geology. Applicants must pay this fee online by credit card.

Graduate Programs

The objectives of the graduate degree programs are to develop the student's competence in the basic fields of earth science and to provide for specialization dependent on student and faculty interest. Facilities and staff are available for studies involving environmental geology, geomorphology, hydrogeology, paleontology, micropaleontology, paleoecology, coal petrology, coal geology, Pleistocene geology, environmental geochemistry, molecular organic geochemistry, solid earth geophysics, environmental geophysics, applied geophysics, geographic information systems, remote sensing, surface and subsurface mapping, structural geology, stratigraphy, sedimentation, sedimentary petrology, sedimentary environments, ore deposits, petrology, mineralogy, crystallography, energy resources, and petroleum geology. Many of the faculty are actively conducting research in which statistical and computer techniques are applied to problem solving in the earth sciences. Interdisciplinary research with other departments is encouraged.

SIU Geology faculty and graduate students conduct internationally-recognized research all over the globe. In North America, there are current and recent research efforts in locations ranging from Alaska to Florida, from Nova Scotia to the Sonoran Desert. Farther afield, SIU Geology researchers are active in Antarctica, Asia, South America, South Africa, and Europe. The Southern Illinois region itself offers a wide variety of geological conditions ideal for individual study and research.

Students must be admitted unconditionally to the Graduate School before they can be officially admitted to the graduate program in geology. Admission to the graduate program in geology is based on an

evaluation of the preparation, ability, and promise of the applicant. Prerequisites for admission include: 1) receipt of GRE test scores sent directly to the Department of Geology; 2) completion of the online application; and 3) receipt of at least three letters of recommendation from professors, academic advisers, former employers, or others familiar with the applicant's academic performance, research, or other relevant work. The Department of Geology normally admits graduate students for entrance in the fall semester; however, applicants will be considered for spring admission.

A student admitted with course deficiencies may be required to complete or audit some undergraduate courses. First year teaching assistants are required to enroll in and complete GEOL 500. Other specific requirements will be determined by the student's advisory committee. Students are evaluated on an individual basis. Their programs are determined by their career goals and the results of informal interviews with individual faculty members.

Assistantships

Teaching assistantships are awarded and supervised by the Department of Geology. Research assistantships are usually available only from research grants of individual faculty members and are supervised by the faculty member in receipt of the sponsoring grant. Research assistantship awards require prior approval of the assistantship committees of the department. Students in the Geology Master of Science program, the Geosciences Ph.D. Program, and the Environmental Resources and Policy Ph.D. program are eligible to apply for teaching and research assistantships from the Department of Geology.

As a matter of policy, the Department of Geology does not ordinarily provide any student working on a master's degree financial support for more than two years, or four years for doctoral students. Requests for relaxation of this policy must be made in writing to the department chair.

Requirements for the Master of Science Degree (Thesis Option)

- A minimum of 50% of credit hours must be numbered 500 or above, and must be earned at SIU.
- Courses taken are determined by the student and an advisory committee. The student will not be allowed to apply more than eight hours of independent study or research courses toward the master's degree (exclusive of thesis credits).
- A student majoring in geology may select a minor field. The minimum course work should then include 20 hours of geology and 10 hours in the minor field.
- A thesis subject must be approved by the chair of the advisory committee at least 20 weeks before the date of graduation.
- A final oral examination, primarily concerned with defense of the thesis is administered as the last step before graduation. The student may be asked any questions the committee feels are relevant.
- In order to pass the final oral examination, students must receive a favorable majority vote from their thesis committee meeting in formal session. Should the student fail the final oral examination, the student, upon concurrence of a majority of the committee, may arrange a time for a re-examination not less than 30 nor more than 120 days after the first examination. Students who fail the final orals on their second attempt will be ineligible for the master's degree from the Department of Geology.
- Two copies of the approved thesis must be presented to the Graduate School at least three weeks prior to graduation, and a third copy must be presented to the Department of Geology.

Requirements for the Master of Arts Degree in Earth Sciences

The Master of Arts Degree in Earth Sciences is open to post baccalaureate students with degrees in earth science, geology, or related fields. Two fields of concentration are available: *Geospatial Analysis* and *Environmental Geology*. It is intended to expand the knowledge, skills, and specialized training in geological topics. The courses taken will be determined by interests of the individual student, but must be approved by the student's three-person program advisory committee. At least three (3) credits of GEOL 591, Individual Research in Geology must be taken.

Recommended Courses for the Geospatial Analysis Concentration:

- GEOL 420 (3) Petroleum Geology

- GEOL 428 (3) Paleocology and Environments of Deposition
- GEOL 435 (3) Solid-Earth Geophysics
- GEOL 466 (3) Tectonics
- GEOL 474 (3) Geomorphology
- GEOL 476 (3) Quaternary Geology
- GEOL 478 (3) Advanced Environmental Geology
- GEOL 481 (3) Sedimentary Basin Analysis
- GEOL 484 (3) Geologic Remote Sensing
- GEOL 526 (3) Advanced Topics in Applied Paleocology
- GEOL 535 (3) Advanced Topics in Geophysics
- GEOL 536 (3) Earthquake Seismology
- GEOL 538A (3) Gravity
- GEOL 538B (3) Magnetism
- GEOL 576 (3) Coastal Geomorphology and Sedimentology
- GEOL 577 (3) Advanced Topics in Surficial Geology
- GEOL 578 (3) Fluvial Geomorphology
- GEOL 579 (3) Soil Geomorphology
- GEOL 591 (3) Individual Research in Geology
- GEOG 420 (3) Advanced Geographic Information Systems Studies

Recommended Courses for the Environmental Geology Concentration:

- GEOL 417 (3) Isotope Geochemistry
- GEOL 420 (3) Petroleum Geology
- GEOL 421 (3) Organic Geochemistry
- GEOL 428 (3) Paleocology & Environments of Deposition
- GEOL 470 (3) Hydrogeology
- GEOL 471 (1) Hydrogeology Laboratory
- GEOL 474 (3) Geomorphology
- GEOL 476 (3) Quaternary Geology
- GEOL 478 (3) Advanced Environmental Geology
- GEOL 481 (3) Sedimentary Basin Analysis
- GEOL 484 (3) Geologic Remote Sensing
- GEOL 517 (3) Advanced Topics in Geochemistry
- GEOL 526 (3) Advanced Topics in Applied Paleocology
- GEOL 527 (3) Micropaleontology
- GEOL 576 (3) Coastal Geomorphology and Sedimentology
- GEOL 577 (3) Advanced Topics in Surficial Geology
- GEOL 578 (3) Fluvial Geomorphology
- GEOL 579 (3) Soil Geomorphology
- GEOL 591 (3) Individual Research in Geology
- GEOG 420 (3) Advanced Geographic Information Systems Studies

Graduate Certificate

The Certificate in Earth Science with an optional concentration in Geospatial Analysis or Environmental Geology is open to post baccalaureate students with degrees in earth science, geology, or related fields. It is intended to expand the knowledge, skills, and specialized training in geological topics. The course work will include eighteen (18) graduate credit hours in Geology. While there are no specific courses required, the courses taken will be determined by the student and the departmental Coordinating Committee. For the concentrations in Geospatial Analysis and Environmental Geology, please refer to the recommended course lists above for the Non-Thesis Master's program.

Students must maintain a *B* average in graduate courses and must follow the rules of the Certificate Policy established by the Graduate School. Maximum time allowed to complete the requirements for the certificate is five years.

Requirements for the Doctor of Philosophy Degree in Geosciences

The primary objective of the doctoral program in Geosciences is to develop a student capable of successfully conducting original research and the presentation of an acceptable dissertation describing the results, analysis, and implications of that research. To achieve this goal, the student must meet the criteria established by the University, the Graduate School, and the faculty participating in the doctoral program in Geosciences. The program of study will be flexible, to allow students to take courses offered by departments within the College of Science, and across campus. Each student is expected to take graduate level courses (excluding readings, independent studies, and internship) of at least 3 credits each from at least four different faculty members at SIU. The program requires a minimum of 48 semester hours, 24 of which may be 600-level dissertation credits.

Before the end of their second year in the program, students shall have:

1. established an advisory committee including their dissertation adviser and four additional members (any member of the graduate faculty in the University can serve on the committee, but at least one member must be from a department other than the Department of Geology);
2. demonstrated competence in at least one research tool (the student's advisory committee will determine the requirements and research tool competence); and
3. presented themselves to the advisory committee for a comprehensive written and oral examination.

The format of the comprehensive examinations shall be established by the faculty participating in the doctoral program in Geosciences. Students who fail the comprehensive examinations and wish to remain in the program may, with faculty consent, retake the examinations. Students who fail the second written-oral examination will be dropped from the program. After successful completion of the comprehensive exams, the student must prepare and defend a dissertation proposal. If a student successfully defends the dissertation proposal, he or she is admitted to candidacy for the Ph.D. degree. The comprehensive examinations and dissertation proposal defense are part of the formal assessment process.

As a candidate for the degree of Doctor of Philosophy in Geosciences, the student is expected to make normal progress toward the successful completion and presentation of original research. Ordinarily, the doctoral student should expect to spend a minimum of two years beyond the Master's degree, or its equivalent, in residence. Students will be required to present an acceptable dissertation describing original research performed with minimal supervision and deemed by the advisory committee to be of such quality as to merit publication in appropriate professional journals. A final oral examination will be held after completion of the doctoral dissertation. This examination will concentrate on the defense of the dissertation but is not restricted to the dissertation topic or area. The dissertation will be accepted provided the dissertation advisor and at least three of the other four members of the committee so agree.

Degree requirements, graduation, and time limits are subject to the general guidelines of the Graduate School.

Environmental Resources and Policy Doctoral Program

The central focus of the Environmental Resources and Policy Ph.D. is advanced interdisciplinary training and research on geological, physical, biological, and social processes responsible for natural resource and environmental problems facing contemporary society. Additionally, the ER&P Ph.D. focuses on assessing public policy alternatives to address those problems and create new opportunities.

Within the broad and flexible ER&P framework, a customized program is developed for each student, permitting him/her to conduct research in traditional and non-traditional earth science sub disciplines, under the direction of one or more Geology faculty members. The program is jointly guided by the Department of Geology, the Department of Geography and Environmental Resources, and the College of Agricultural Sciences (Departments of Agribusiness Economics; Forestry; and Plant, Soil, and Agricultural Systems), with support from the School of Law, the College of Engineering, other key faculty at SIU, and State of Illinois environmental agencies. Please see the Environmental Resources and Policy section of this catalog for detailed information and admission procedures.

Geology Courses

GEOL401 - Phys Earth for Teachers 401-3 Physical Nature of the Earth for Teachers. This is an on-line course that offers an overview of the materials that form the Earth and the dynamic processes that shape the Earth, including both surficial processes and plate tectonics. This course will cover content appropriate for science teachers preparing to teach Physical Geology as a Dual-Credit course in high schools. Topics include: components and processes that create rocks and the cycles that change one rock into another; how plate tectonics has shaped the Earth; surficial processes (weathering, landslides, movement of ice, water, and wind); hazardous processes (earthquakes, volcanoes, flooding); and resources such as water, soil, and mineral and energy sources. This course is designed to be taken in conjunction with GEOL 402, a 1-hr laboratory course. Only open to students in the Dual Credit Certificate for Teachers program.

GEOL402 - Phys Earth Lab Teachers 402-1 Physical Nature of the Earth Laboratory for Teachers. Through active learning activities, this course offers examination of the materials that form the Earth and the dynamic processes that shape the earth, including surficial processes and plate tectonics. This course will cover content appropriate for science teachers preparing to teach labs associated with Physical Geology as a Dual-Credit course in high schools. This is offered as a hybrid distance education (on-line) class and includes both at-home and in-class laboratory assignments. For the in-class components, students will come to SIUC's campus for 2 half days (Saturdays) as indicated in the schedule. This course is designed to be taken in conjunction with GEOL 401, a 3-hr online course in which the students learn about earth materials and earth processes in greater depths. Only open to students in the Dual Credit Certificate for Teachers program.

GEOL403 - Hist Geol Teacher Enhancement 403-3 Historical Geology Teacher Enhancement. GEOL 403 is an online course designed to train science teachers to teach Historical Geology as a Dual Credit course in high schools. This course covers the basic principles involved in the study of geology and the history of the Earth preserved in the rock record. We begin with the large-scale components of Earth systems and geologic time, and then learn about the evolution of life recorded in the fossil record from the earliest life through the present. This course covers not just WHAT we know, but how we know it. This course is designed to be taken in conjunction with GEOL 404, a 1-hr laboratory course. Only open to students in the Dual Credit Certificate for Teachers program.

GEOL404 - Hist Geol Teacher Enhance Lab 404-1 Historical Geology Teacher Enhancement Lab. GEOL 404 is the laboratory section that accompanies the online Historical Geology Teacher Enhancement. This laboratory course offers hands-on activities to complement the online lectures and will provide teachers with a structure to teach labs in their own Dual Credit high school courses. This course covers the basic principles involved in the study of geology and the history of the Earth preserved in the rock record. We study sedimentary rocks, and learn how to read the clues to past environments and life preserved within samples. This course is done partially at home, but requires a six hour in house lab session. Only open to students in the Dual Credit Certificate for Teachers program.

GEOL405 - Science Writing 405-2 Science Writing and Scientific Communication. Course will teach "survival skills" in scientific reading, writing, communicating, and publishing for new graduate students. Topics will include database search, analysis of journal articles, abstracts, figures, and tables, Powerpoint presentations, proposals, posters, thesis writing, and preparation of journal submissions. Enrollment is open to graduate students in the sciences and is by permission of the instructor.

GEOL411 - Volcanology 411-3 Volcanology. Study of volcanoes, their distribution, forms, composition, eruptive products and styles of potential hazards. Relationship of magmatic characteristic, eruptive style, and depositional products to the geologic framework is examined. Prerequisite: GEOL 315.

GEOL412 - Advanced Petrology 412-3 Advanced Petrology. In-depth study of the rock forming processes. The relations of rock forming processes to petrographic analysis will be emphasized. Laboratories will deal with hand-specimen and thin-section analysis from selected rock suites with genetic modeling of the resulting data. Prerequisite: GEOL 310, 315.

GEOL413 - Quantitative Methods-Geology 413-3 Quantitative Methods of Geology. An introduction to quantitative methods in a geological and earth sciences context. Topics introduced include sampling plans for geologic studies, non-parametric test of geological data, comparisons of geological samples,

analysis of sequential geological data. Laboratories will deal with numerical examples from all areas of geology. Restricted to advanced standing. Special approval needed from the instructor.

GEOL415 - Optical Mineralogy 415-3 Optical Mineralogy. The optical properties of minerals and the use of the petrographic microscope for identification of crystals by the immersion method and by thin section. Lecture, laboratory. Prerequisite: GEOL 310, PHYS 203B or 205B.

GEOL416 - Geochem Natural Waters 416-3 The Geochemistry of Natural Waters. The purpose of this class is to provide students with a strong theoretical background in aqueous geochemistry, environmental geochemistry, and groundwater geochemistry for application in a wide range of research topics. The approach combines conceptual knowledge with quantitative skills in a cyclic fashion to build independent understanding and chemical intuition. Prerequisites: GEOL 310, CHEM 200, 201, 210, 211 or consent of instructor. Lab fee: \$15.

GEOL417 - Isotope Geochemistry 417-3 Isotope Geochemistry. Isotope fractionation in natural systems containing D/H, carbon, oxygen, nitrogen, and sulfur. Application of stable isotope studies to environmental processes, paleoclimatology, and geothermometry. Stable and radioactive isotopes as tracers in hydrologic processes, ore deposits, sedimentology, and in crust-mantle differentiation processes. Prerequisite: GEOL 310, CHEM 200, 201, 210, 211, or equivalent.

GEOL418 - Low Temp Geochemistry 418-3 Low Temperature Geochemistry. The application of chemical principles to geologic processes that occur on and near the earth's surface. Lecture, laboratory. Prerequisite: GEOL 310, CHEM 200, 201, 210, 211 or equivalent.

GEOL419 - Ore Deposits 419-3 Ore Deposits. Overview of the occurrence, geology and origin of metalliferous mineral deposits. Geologic principles and research techniques important to the understanding of mineral deposits. Introduction to exploration and mining methods. Lectures, laboratories and field trips required. Prerequisite: GEOL 302, 315 or consent of instructor. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$60.

GEOL420 - Petroleum Geology 420-3 Petroleum Geology. The geological occurrences of petroleum including origin, migration and accumulation; a survey of exploration methods, and production problems and techniques. Laboratory study applies geological knowledge to the search for and production of petroleum and natural gas. Prerequisite: GEOL 221, 224.

GEOL421 - Organic Geochemistry 421-3 Organic Geochemistry. The nature, origin and fate of natural and artificial organic materials in rocks and sediments. Topics include characterization of fossil fuels using biological marker compounds, petroleum source rock evaluation, and organic pollutants in the environment. Prerequisite: GEOL 325 or consent of instructor.

GEOL423 - Geomicrobiology 423-3 Geomicrobiology. (Same as MICR 423 and MBMB 423) The course will focus on the role that microorganisms play in fundamental geological processes. Topics will include an outline of the present understanding of microbial involvement of weathering of rocks, formation and transformation of soils and sediments, and genesis and degradation of minerals. Elemental cycles will also be covered with emphasis on the interrelationships between the various geochemical cycles and the microbial trophic groups involved. Prerequisite: Microbiology 301 and Chemistry 210 and 211. Recommended: GEOL 220, 221 or 222.

GEOL425 - Invertebrate Paleo & Paleoecol 425-3 Invertebrate Paleontology and Paleoecology. (Same as ZOO 425) Concepts of paleontology and paleoecology. Emphasis on functional morphology, lifestyles and habitats of fossil invertebrates and algae. The nature and evolution of marine and coastal paleocommunities. The effects of extinction events on paleocommunities and biodiversity. Laboratory. Field trips required. Prerequisite: GEOL 325 or a biology course. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$199.

GEOL428 - Paleoecology & Envrns Depstn 428-3 Paleoecology and Environments of Deposition. Characteristics, distribution, and classification of recent and ancient environments. Criteria for recognizing ancient environments. Sedimentological and paleoecological approaches. Recognition of ancient environments and environmental associations. Laboratory. Field trips required. Prerequisite: GEOL 425,

325, or concurrent enrollment. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$199.

GEOL430 - Planetary Geology 430-3 Planetary Geology. Study of the solar system and planet formation, focusing on formation, differentiation and secondary processes. Geologic histories and geological processes of other planets are examined and compared with our understanding of the Earth. Prerequisite: GEOL 310.

GEOL431 - Catastrophes & Consequences 431-3 Catastrophes and Consequences. Much has been written in recent years about the impact of human civilization on the environment. There has been much less discussion of the impact of the environment on human civilization, but the fact is that gradual or rapid changes in the environment can profoundly affect human populations-in both direct and indirect ways. This is an interdisciplinary course that reviews both the short term/short range and long term/long range effects of natural perturbations of the environment on the development of civilization and the course of history. We will review historical case studies of the consequences of various kinds of natural disasters which resulted in major disruptions to the environment from local and regional phenomena to those that affected the entire planet. Examples include major volcanic eruptions, earthquakes and climate change.

GEOL435 - Solid Earth Geophysics 435-3 Solid Earth Geophysics. Earth's size, shape, mass, age, composition, and internal structure are reviewed in detail as understood from its volcanism, gravity, magnetic fields, seismicity, and motion of continents and ocean basins; plate tectonics. Prerequisite: MATH 150 or MATH 151 with a C or better.

GEOL436 - Applied Geophysics 436-3 Applied Geophysics. Theory and practice of geophysics applied to exploration for natural resources including oil, minerals, coal, groundwater, and for archaeology, environmental, and meteorite impact sites and earthquake zones. Methods include seismic reflection, refraction, and surface waves also gravity, magnetic, and electrical. Up to 3 one-day field trips may be conducted on weekends. Recommend: GEOL 220 or 222, PHYS 203A/B or PHYS 253A/B. Prerequisite: MATH 150. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$80.

GEOL437 - Field Course in Geophysics 437-3 Field Course in Geophysics. Use of geophysical equipment for collection, analysis and interpretation of seismic, gravity, magnetic, electrical, and other types of geophysical data. Field trips required. Prerequisite: GEOL 436 or consent. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$199.

GEOL440 - Adv Topics Geological Sciences 440-1 to 9 Advanced Topics in the Geological Sciences. Individual study or research or advanced studies in various topics. Restricted to advanced standing. Special approval needed from the instructor.

GEOL445 - Museum Studies in Geology 445-3 Museum Studies in Geology. History, nature and purpose of geology in museums, relationships of geology to other museum disciplines, application of geologic methods to museum functions, preparation and preservation of specimens; nature, acquisition and utilization of geologic collections in museums; role of research in museums.

GEOL450 - Intro to Field Geology 450-3 Introduction to Field Geology. Introduction to field techniques, principles of geologic mapping and map interpretation. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Prerequisite: GEOL 310 with a grade of C or better.

GEOL451 - Field Experience in Geology 451-1 to 12 Field Experience in Geology. Preparation for and participation in academically rigorous field trips guided by faculty members. Trips will be to areas of geological interest and will occur during official breaks within or between semesters. Expense will vary in proportion to the distance traveled and duration of trip and will be determined before each trip. A student may only take a specific trip once for credit. Special approval needed from the instructor.

GEOL466 - Tectonics 466-3 Tectonics. Fundamentals of geodynamics applied to plate tectonics: mantle composition and rheology, deformation of the lithosphere, structural characteristics of plate margins, stability of triple junctions, diachronous tectonics, and orogenesis will be examined in detail. One 3-day field trip is required. Expense will vary in proportion to distance traveled and locations visited and will be

determined before each semester. Field trip fee not to exceed \$150. Prerequisite: GEOL 302, MATH 150, or consent.

GEOL470 - Hydrogeology 470-3 Hydrogeology. Study of the distribution, origin, and movement of groundwater, and the properties of geologic materials that control groundwater flow and contaminant transport. Includes topics on the sustainable development of groundwater resources. Prerequisite: GEOL 220 or 222 with a C or better; or consent of instructor.

GEOL471 - Hydrogeology Laboratory 471-1 Hydrogeology Laboratory. Problem sets, laboratory experiments, and field exercises in hydrogeology. Includes projects on the sustainable development of groundwater resources. Field trips required. Prerequisite: GEOL 220 or 222 with a C or better; or consent of instructor. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$150.

GEOL474 - Geomorphology 474-3 Geomorphology. Study of erosional and depositional processes operating at the earth's surface and landforms resulting from these processes. Relationship of processes and landforms to the geologic framework is examined. Laboratory. Field trips required. Prerequisite: GEOL 220 or 222; 223. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$60.

GEOL476 - Quaternary Geology 476-3 Quaternary Geology. Methods used to identify, map, date and correlate Quaternary deposits and interpret Quaternary history. Covers glacial, fluvial, coastal, lacustrine and eolian chronologies, oxygen-isotope records from ocean sediments and continental ice cores, volcanic activity, and Quaternary climate change. Field trips required. Prerequisite: GEOL 220 or 222; 221, 223, 224; or consent of instructor; GEOL 474 recommended.

GEOL480 - Geology of Coal 480-3 Geology of Coal. Stratigraphy, sedimentation and structure of coal deposits; modern analogs; origin of splits and partings in coal seams; coal quality and rank; coal exploration and mining; methods of resource evaluation. Prerequisite: GEOL 220 or 222; 221, 223, and 224; or consent of instructor.

GEOL481 - Sedimentary Basin Analysis 481-3 Sedimentary Basin Analysis. The use of stratigraphy, structure, sedimentology and geophysics to determine the paleogeographic evolution of sedimentary basins. Topics include the study of the relationships between host strata and both primary and post-depositional non-renewable resources, plate tectonics and basin evolution and subsurface geologic methods. Special approval needed from the instructor. Lab fee: \$10.

GEOL482 - Organic Petrology 482-3 Organic Petrology. Petrology and geochemistry of coals and dispersed organics; emphasis on applications to the coal and oil industries; origin of coal and source rock constituents; geochemical and petrographic changes with increased maturation. Prerequisite: GEOL 220 or 222; 221, 223, and 224; or consent of instructor. Lab fee: \$50.

GEOL483 - Forensic Geology 483-3 Forensic Geology. An introduction to the use of geological materials and techniques in criminal investigation. Details from actual criminal cases will be used as examples in all the topics covered which include rock and mineral types, geological and topographic maps, fossils, sand, soils, spores and pollen, geological building materials, art fraud and gemstones. Techniques covered will include optical microscopy, scanning electron microscopy and x-ray diffraction. Lab fee: \$10.

GEOL484 - Geologic Remote Sensing 484-3 Geologic Remote Sensing. Applications of remote sensing using aerial photographs, multi-spectral imagery, hyperspectral imagery, thermal infrared imagery, and radar imagery, in structural geology, stratigraphy, geomorphology, oil and mineral exploration, geologic hazard analysis and planetary exploration. Prerequisite: GEOL 220 or consent of the instructor. Lab fee: \$25.

GEOL490 - Internship 490-1 to 3 Internship. Credit for supervised practical experience with an external geological agency or company; prior approval of the sponsoring agency and the department is required. Restricted to advanced standing.

GEOL500 - Teaching:Geol Grad Student 500-1 to 2 Teaching for Geology Graduate Students. To help teaching assistants develop skills in conducting laboratory work and leading discussions. One hour required for all teaching assistants in geology. Graded S/U only.

GEOL510 - Advanced Sedimentology 510-2 Advanced Sedimentology. Basic principles of field observation, field and laboratory sampling, and data analysis of clastic sedimentary rocks; introduction to laboratory techniques; introduction to statistical, physical and empirical models in sedimentary geology. Field trips required. Prerequisite: GEOL 325 or GEOL 474.

GEOL513 - Quantitative Methods Earth Sci 513-3 Quantitative Methods in the Earth Sciences. An introduction to quantitative methods in an Earth Sciences context. Topics include sampling plans for geologic studies, non-parametric tests of geological data, comparisons of geological samples, analysis of sequential geological data. Course will deal with numerical examples from different areas of geology. Special approval needed from the instructor.

GEOL515 - Instrumental Analysis 515-3 Instrumental Analysis in Geology. An introduction to modern methods of instrumental inorganic geochemical analysis that are particularly important in the geology sciences. This includes both operational theory and practical application of methods for the analysis of minerals, rocks and aqueous solutions. Lecture, laboratory. Prerequisite: GEOL 310, CHEM 210 or equivalent; GEOL 418 recommended.

GEOL517 - Adv Topics: Geochemistry 517-2 to 9 (2 to 6 per semester) Advanced Topics in Geochemistry. Specialized topics in geochemistry. Topics covered might include thermodynamic modeling of mineral-solution equilibria, the role of kinetics in mineral-solution reactions, experimental hydrothermal geochemistry or other topics to be announced by the department. Maximum credit nine semester hours. Prerequisite: GEOL 418 or consent of instructor.

GEOL518 - Clay Mineralogy 518-3 Clay Mineralogy. Study of the structure, chemistry, origin, and geologic importance of clay minerals. Industrial and other applications of clays. Lecture, laboratory. Prerequisite: GEOL 310 or consent.

GEOL520 - Adv Topic:Igm/Metam Petrology 520-2 to 9 (2 to 6 per semester) Advanced Topics in Igneous and Metamorphic Petrology. Petrologic principles and their relationships and other selected topics to be announced by the department. Special approval needed from the instructor.

GEOL522 - Sed Petro:Siliciclastics 522-3 Sedimentary Petrology-Siliciclastics. The petrography and petrology of siliciclastic rocks, emphasizing sandstone. Microscopic studies of composition and components of detrital clastic rocks, their origin, provenance, characteristics, diagenesis, cementation and lithification. Special approval needed from the instructor.

GEOL523 - Sed Petro: Carbonates 523-3 Sedimentary Petrology-Carbonates. The origin, classification, diagenesis, and geochemistry of carbonate rocks, with emphasis on petrographic analysis. Study of recent carbonate depositional environments. Laboratory required. Prerequisite: GEOL 325; GEOL 418 recommended.

GEOL524 - Adv Topics in Sed Geology 524-2 to 9 (2 to 6 per semester) Advanced Topics in Sedimentary Geology. Topics may include clastic depositional environments, carbonate depositional environments; diagenesis of sedimentary rocks, and other topics to be announced by the department. Up to 3 one- or two-day field trips may be required on the weekends. Special approval needed from the instructor.

GEOL525 - Adv Topics:Invert Paleon 525-2 to 6 (2 to 3 per semester) Advanced Topics in Invertebrate Paleontology. Lectures, readings, field and laboratory studies, including techniques and quantitative methods of study. Preparation for research in paleontology. Topics may include corals, bryozoans, brachiopods, mollusks, echinoderms, biostratigraphy, tempo and mode of invertebrate evolution and other topics to be announced by the department. Maximum credit six semester hours. Prerequisite: GEOL 425 or consent of instructor.

GEOL526 - Adv Topics:Appld Paleoecology 526-3 Advanced Topics in Applied Paleoecology. Lectures, field, and laboratory studies, including techniques and quantitative methods. Preparation for

research in paleoecology. Emphasis on using fossil marine invertebrates and trace fossils to interpret ancient sedimentary environments. Prerequisite: GEOL 428 or consent.

GEOL527 - MicroPaleontology 527-3 Micropaleontology. Structure, classification, paleoecology, stratigraphic distribution, and evolution of microfossils. Laboratory work in techniques of collection, preparation and study of microfossils. Identification and use of microfossils in solving stratigraphic and paleoenvironmental problems. Preparation for research in micropaleontology. Field trips required. Prerequisite: GEOL 425 or consent of instructor. Field trip fee: \$85.

GEOL535 - Adv Topics: Geophysics 535-1 to 9 (1 to 6 per semester) Advanced Topics in Geophysics. Specialized topics in geophysics. Examples include but are not limited to seismic stratigraphy, mid-continent seismicity, isostasy, data processing techniques. The topic to be covered is announced by the department. Maximum credit nine semester hours. Up to 3 one- or two-day field trips may be required on the weekends. Prerequisite: GEOL 435 or GEOL 436 or consent of instructor.

GEOL536 - Earthquake Seismology 536-3 Earthquake Seismology. Observational seismology. Topics include earthquake source mechanisms; propagation, reflection and refraction of elastic waves; ray theory; dispersion of surface waves; the effect of earth structure on the seismogram; and the seismograph. Research projects will be conducted using data from the SIU Geophysical Observatory. Up to 3 one- or two-day field trips may be required on the weekends. Prerequisite: GEOL 435 or GEOL 436, MATH 150 or consent of instructor.

GEOL537 - Applied Seismology 537-3 Applied Seismology. Study of the seismic reflection techniques, including theory and methods of collection and analysis of seismic reflection data, the seismic method, waveform analysis, and digital filtering with computer applications and seismic instrument characteristics. Up to 3 one- or two-day field trips may be required on weekends. Prerequisite: MATH 150 or consent.

GEOL550 - Adv Economic Geology 550-4 Advanced Economic Geology. In-depth examination of the geologic characteristics, classification and origin of metallic mineral deposits. Aspects of mineral exploration and mining techniques are also discussed. Laboratory exercises emphasize hand specimen and petrographic study of ore and host rock suites. Up to 3 one- or two-day field trips may be required on weekends.

GEOL555 - Adv Topics in Econ Geol 555-1 to 6 (1 to 3 per semester) Advanced Topics in Economic Geology. Advanced study in a specific area of economic geology to be determined by course participants. Course content may focus on a specific type of mineral deposit or such topical areas as field characteristics, mineral exploration techniques, stable isotope geochemistry, fluid inclusion studies and hydrothermal processes. Maximum six credit hours. Field trips may be required on up to 3 weekends and possibly over Spring vacation. Prerequisite: GEOL 550.

GEOL566 - Topics in Structural Geology 566-3 Advanced Topics in Structural Geology. Lectures, readings, and discussion of advanced aspects of rock deformation: dislocation theory and its applications to flow processes of rocks; experimental rock deformation; incremental and finite strain theory and analysis; and recent developments in structural geology. Special approval needed from the instructor.

GEOL570 - Adv Hydrogeology 570-3 Advanced Hydrogeology. A combination of lectures, seminars, and independent studies of advanced topics in hydrogeology, particularly geochemistry and the response of aquifers to stresses such as tides, recharge and saline intrusion. Prerequisite: GEOL 470.

GEOL577 - Adv Topics: Surficial Geology 577-2 to 9 (2 to 6 per semester) Advanced Topics in Surficial Geology. Studies of processes, landforms, and deposits in the surface or near surface geologic setting. Selected topics to be announced by the department. Maximum credit nine semester hours. Special approval needed from the instructor.

GEOL578 - Fluvial Geomorphology 578-3 Fluvial Geomorphology. Detailed study of fluvial processes and landforms within the context of major concepts in geology and geomorphology. Topics include drainage basins, hydro-climatology and surface water hydrology, channel processes, fluvial depositional systems, paleohydrology and changes in fluvial systems through time. Field trips required. Prerequisite: GEOL 474. Special approval needed from the instructor. Field trip fee: \$35.

GEOL582 - Adv Coal Petrology 582-1 to 6 (1 to 3 per semester) Advanced Coal Petrology. Microscopy, source materials, coalification, constitution, and classification of peats, lignites, bituminous coal, anthracite; applications to industrial problems. Prerequisite: GEOL 482. Lab fee: \$50.

GEOL584 - Adv Geol Remote Sensing 584-3 Advanced Geologic Remote Sensing. An advanced course covering the nature of electromagnetic radiation, the electromagnetic spectrum and the interaction between electromagnetic radiation and matter. Remote sensing systems will be presented and the fundamentals of digital image processing will be introduced from a theoretical and practical viewpoint. A series of case studies with applications ranging from mineral exploration to volcano monitoring will be covered. Field Trip fee: \$40.

GEOL585 - Earth/Space Sci for Teachers 585-3 Earth and Space Science for Teachers. Class designed to help teachers gain an understanding of some of the earth science concepts they need to teach today's standards-based curricula. Develops an understanding of earth materials, how the earth works, earth resources, the causes of natural disasters, and the exploration of the bodies of our solar system. Prerequisites: A general physical science course or equivalent. Special approval needed from the department.

GEOL588 - Global Energy Resources 588-3 Global Energy Resources. Ready access to energy is essential to sustaining modern societies. This course will discuss the nature of the resources that have been, are, or potentially could be used to provide energy in the US and around the globe, including fossil fuels, nuclear energy resources, bioenergy resources and emerging energy resources such as geothermal, wind, tidal, and solar energy.

GEOL591 - Individual Research 591-1 to 6 Individual Research in Geology. Investigations in geology other than those for theses or dissertations.

GEOL599 - Thesis 599-1 to 6 Thesis (1 to 8 hours per semester). Research for and writing of the master's thesis. Maximum of six hours to be counted toward a Master's degree.

GEOL600 - Dissertation 600-1 to 30 (1 to 16 per semester) Dissertation. Research for and writing of the doctoral dissertation. Special approval needed from the instructor.

GEOL601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

GEOL699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Geology Faculty

Anderson, Ken B., Professor, Ph.D., University of Melbourne, Australia, 1989; 2004. Organic geochemistry.

Conder, James, Professor, Ph.D., Brown University, 2001; 2008. Geodynamics, seismology.

Esling, Steven P., Associate Professor and *Chair*, Ph.D., University of Iowa, 1984; 1982. Hydrogeology, Quaternary stratigraphy, geomathematics.

Fifarek, Richard H., Associate Professor, *Emeritus*, Ph.D., Oregon State University, 1985; 1985.

Hummer, Daniel R., Assistant Professor, Ph.D., The Pennsylvania State University, 2010, 2016. Mineralogy, petrology, high temperature geochemistry.

Ishman, Scott E., Professor, Ph.D., The Ohio State University, 1990; 1999. Paleoecology, Cenozoic paleobiology, foraminifera.

Lefticariu, Liliana, Associate Professor, Ph.D., Northern Illinois University, 2004, 2007. Isotope geochemistry, environmental geochemistry.

Marzolf, John E., Associate Professor, *Emeritus*, Ph.D., The University of California, Los Angeles, 1970; 1982.

Potter-McIntyre, Sally, Associate Professor, Ph.D., University of Utah, 2013; 2013. Sedimentology and stratigraphy.

Rimmer, Sue, Professor, *Emerita*, Ph.D., Pennsylvania State University, 1985; 2009. Coal geology and petrology, source-rock geochemistry.

Sexton, John L., Professor, Ph.D., Indiana University, 1974; 1985. Geophysics, seismic reflection and refraction.

Gerontology

Certificate in Gerontology

The Graduate Certificate in Gerontology is open to post-bachelor level students who are interested in the area of gerontology. It is designed to provide knowledge, skills, and specialized training in programs and services for older persons. The certificate includes core courses on aging in the following areas: social work, rehabilitation, health, exercise and education. Courses within the certification program will include, but not be limited to: policy and program issues, psychosocial issues and health and fitness issues. Students must complete 15 semester hours of study including a minimum of three hours of capstone project, to earn the certificate.

For more information contact:

School of Human Sciences
Southern Illinois University
Mail Code 4310
Carbondale, IL 62901
Telephone: 618-453-3133
Email: siucgerontology@siu.edu

Gerontology Courses

GRON402 - Death Education 402-3 Death Education. (Same as PH 402) Designed to prepare educators to conduct learning experiences about death and dying in a variety of school, college, medical care, and community settings. Stress will be placed on developing brief, functional curricula and usable, imaginative, teaching-learning materials and on evaluating resource materials for use in educating at various levels of maturity.

GRON405 - Intro: Aging & Rehab 405-3 Introduction to Aging and Rehabilitation. (Same as REHB 405) Introduction to the field of aging. Including social, political, economic and legal issues pertinent to an aging society and rehabilitation.

GRON428 - Phys Act/Exercise-Older Adults 428-3 Physical Activity and Exercise for Older Adults. (Same as KIN 428) This course is designed to introduce the student to physical changes of the older person with reference to activity and exercise and to teach the student about rational activity and exercise programs for the older person with consideration of the care and prevention of typical injuries that may occur with such programs.

GRON440 - Health Issues in Aging 440-3 Health Issues in Aging. (Same as PH 440) Course content includes demographic trends; physiological changes associated with aging; health care and consumer challenges; cultural differences; psychological effects of aging; housing; long-term care; retirement; care giving; and formal, informal, and community-based support systems.

GRON440C - Therapeutic Recreation 440C-3 Therapeutic Recreation for Older Adults-Therapeutic Recreation for the Aged. Students will examine problems and characteristics of individuals with various disabilities. Emphasis is upon the role of therapeutic recreation with these specific populations in institutional and community settings. Prerequisites: REC 300, REC 301, REC 302, REC 304 or consent of instructor.

GRON446 - Psych Aspects of Aging 446-3 Psychosocial Aspects of Aging. (Same as REHB 446) Selected theories of psychosocial aspects of aging will be presented and the psychological and sociological processes of aging with the ensuing changes will be related to these conceptual frameworks. Included for discussion and related to field experience will be such concerns as stress reactions to retirement, physical disabilities, impact of reduced economic resources, and other personal-social changes in aging. Topics will address the knowledge base needed by students concerned with rehabilitation of aging clients in institutional, community and home settings. Therapeutic techniques to ameliorate these stresses will be an integral part of the course.

GRON500 - Seminar in Gerontology 500-1 to 3 Seminar in Gerontology. This course is designed to provide a multidisciplinary conceptual framework for the study of Gerontology and to assist Gerontology students to develop the skills and knowledge needed to understand major issues in theory, research, and practice. This course is designed to familiarize the student with the process of critical reading of Gerontological research from multiple disciplines to solve practical problems.

GRON505 - Behavioral Gerontology 505-3 Behavioral Gerontology. This course examines the application of behavioral principles to problems associated with aging such as deficits in the activities of daily living and social skills, wandering, aggression, incontinence, depression and anxiety, and dementia among others. Environmental redesign and alternative performance strategies will also be addressed. Behavioral training and supervision of staff members who work with older individuals is also presented. Special approval needed from the instructor.

GRON517 - Aging, Memory & Cognition 517-3 Aging, Memory and Cognition. (Same as PSYC 517) A detailed survey of current methodology, research and theory dealing with cognitive and memory processes in later adulthood. Topics covered include attention, memory, reasoning and problem solving, language processing and inference and age-associated pathologies affecting cognition and memory. Special approval needed from the instructor.

GRON555 - Capstone 555-3 to 6 Capstone in Gerontology. The capstone project in the Graduate Certificate in Gerontology is designed as a culminating experience directly related to the students' intended employment or area of interest. It will, therefore, normally be taken after the predominance of course work is completed. The capstone experience may be a research project, practicum, professional development project, or any project approved by the Gerontology Advisory Board and faculty associated with the area of Gerontology. Graded S/U only.

GRON559 - Aging and Mental Health 559-3 Aging and Mental Health. (Same as SOCW 559) Examination of the nature and etiology of mental health problems facing older Americans. Review of research reports to build a theoretical basis for mental disorders.

GRON575 - Policy & Program Issues Aging 575-3 Policy and Program Issues of Aging. (Same as SOCW 575) Examination of public policies that impact on the quality of life of the elderly. Major programs are identified and analyzed. Future policy issues are discussed.

Health Administration

The **Master of Health Administration (MHA)** program is a comprehensive program that prepares students for administration roles in healthcare organizations. Courses are accelerated and offered in eight week formats to expedite completion. To earn the MHA, students must successfully complete:

1. 39 credit hours of the core MHA courses including:

MHA 510, MHA 511, MHA 520, MHA 531, MHA 536, MHA 551, MHA 555, MHA 556, MHA 566, MHA 575, MHA 580, MHA 582, and MHA 585

2. MHA 593 - Individual Research/Residency - 6 credit hours. Culminates in either a final scholarly work outlined by the SIU Graduate School or a Residency in a health care setting approved by the University and Instructor.

To facilitate completion of the program, the course of instruction will consist of 45 semester hours. As part of the 45 semester hours, students will complete a graduate residency (also known as a graduate internship) or research paper. The graduate residency will focus on one of the areas of healthcare management whereas students can apply coursework to real-world settings. The graduate residency is a six credit hour experience where one credit hour is equivalent to 50 contact hours. A total of 300 contact hours is required for successful completion.

Course material covers topics specific to the healthcare field including, but not limited to, effective organizational operations, healthcare systems, health policy, healthcare supply chain and inventory management or controlled substances, strategic leadership for differing healthcare settings, health promotion, legal and ethical foundations, managerial epidemiology and evidence based management, and financial issues specific to the healthcare industry such as charge masters and relative value units, etc. Upon completion of the program, students are expected to be equipped to operate effectively in administrative roles in healthcare organizations. Special project assignments, case readings, presentations, and journal article reviews are an integral part of the curriculum. Delivery will be via synchronous and asynchronous methods.

All students graduating from the MHA program will be required to meet the qualifications of the Graduate School at SIU. Students will be required to complete a culminating scholarly work which includes a research paper if not completing the graduate residency/internship option.

Students earning less than a *B* twice in any individual MHA courses are dropped from the MHA program due to poor academic performance. Students dropped due to poor academic performance will not be allowed re-entry into the MHA program at a later date.

Note: Not all healthcare organizations or facilities may act as residency sites due to the ability to meet achievable objectives of the program and/or residency course, state-to-state licensure/permissions, and/or upper SIU administrative approvals.

A 2.7 GPA from the student's undergraduate program is required for admission to the MHA program. Students with a 2.5-2.7 undergraduate GPA may enter as a Non-Declared student, following Graduate School Policies, and will be allowed to take up to 9 credit hours of MHA courses. At the end of the 9 credit hours, the student must hold a 3.0 GPA to be then admitted to the MHA program. Students not meeting the 3.0 GPA at the end of the 9 credit hours will not be allowed to take any other MHA courses.

Students participating in a residency may be required to undergo a criminal background check and drug-screening. Students who do not satisfactorily pass the background check and/or drug screening may find it difficult to secure a residency in the field of health care and may be removed from the MHA program or administratively required to complete the individual research project included in MHA 593 instead.

Certificate in Clinical Leadership

The Certificate in Clinical Leadership is open to post-bachelor level students who hold a license in a clinical specialty. It is designed to provide the knowledge and skills specialized for roles in clinical leadership and/or as a preparatory certificate for graduate education. Courses in the certificate are specific to patient care environments and will include, but not be limited to: strategic planning, operations, human resource planning, health information, and evidence based managerial decision making specific to patient care environments. Students must complete 18 semester hours of graduate level study, all at SIU, with a *C* or above in all required courses which includes:

- MHA 510, 3 - Effective Health Care Operations (same as MHI 531)
- MHA 531, 3 - Human Resources in Healthcare (same as MHI 531)
- MHA 536, 3 - Strategic Leadership in Healthcare (same as MHI 536)
- MHA 566, 3 - Managing Health Information (same as MHI 566)
- MHA 580, 3 - Managerial Epidemiology and Evidence Based Management (same as MHI 580)

- MHA 585, 3 - Financial Issues in Healthcare (Same as MHI 585)

Students earning a grade lower than a C may retake individual courses only once. If a grade of C or higher is not received on the second attempt of an individual course, the student is removed from the certificate program due to academic performance.

email: broomr@siu.edu

Health Administration Courses

MHA510 - HC Operations 510-3 Effective Healthcare Operations. An investigation of the functions of HCOs compared to other business operations including logistics and supply chain control. Addresses excessive resource spending focusing on support systems and ineffective operational issues within constraints of highly regulated healthcare sector. eCommerce, hospital materials supply, inventory control of medical supplies/controlled substances, vendor collaboration, purchasing/receiving, and total value analysis explored with PERT/CPM, mathematical programming and quality controls. Restricted to School graduate majors.

MHA511 - Fundamentals HC Systems 511-3 Fundamentals of Health Care Systems. This course provides a multi-disciplinary analysis and is designed to provide students with information pertaining to the issues surrounding access to care, medical technology, and the complex financial structures of the healthcare system. Students will extensively examine aspects of the complex healthcare system such as managed care, Medicare, Medicaid, pharmaceuticals, health promotion and disease prevention, and the quality of care. Restricted to School graduate majors.

MHA520 - Healthcare Policy 520-3 Healthcare Policy. Explores the public policy interventions within the varying healthcare domains and defines the theoretical reasons for pursuing policy development in the presence of intense political, bureaucratic, and social environments within the healthcare industry. The effects, consequences, and social implications of policy decisions are evaluated through real-world case analysis of actual public health policies. Focus is placed on how policies impact patients and medical providers. Restricted to School graduate majors.

MHA531 - Human Resources in Health Care 531-3 Human Resources in Health Care. (Same as MHI 531) Describes the key human resource functions that play a significant role in the healthcare environment and focuses specifically on how those functions support management initiatives and Joint Commission accreditation and/or regulatory compliance. Extensive review of how the failure to systematically apply effective human resource strategies can result in organizational demise is conducted. Explores the dynamic legal and regulatory environment and carefully examines how legislative changes influence the healthcare organization overall focusing particularly on those functions that are linked to patient satisfaction and balanced scorecards and/or benchmarking of provider performance.

MHA536 - HC Leadership/Strategy 536-3 Strategic Leadership in Healthcare. This course provides students with an examination of nature, function, and techniques of administration and supervision in HCOs. Topics include the ever-changing healthcare environment and trends impacting leadership competencies. Specific healthcare factors that influence organizing managing of varying health systems such as hospitals vs. ambulatory care. Focus will be given on the professional bureaucracy that is complex given regulatory issues, political factors, and the era of the informed patient. Restricted to School graduate majors.

MHA551 - HC Legal/Ethics 551-3 Legal & Ethical Fundamentals in Healthcare. This course provides students with an analysis of the legal and ethical environment of the healthcare industry. Focused on the healthcare environment, the course closely examines the judicial process pertaining to torts, contracts, antitrust, corporate compliance, access to care, negligence, and professional liability. The nature of ethics

in the multi-cultural healthcare environment is examined with analysis of the moral issues in healthcare. Restricted to School graduate majors.

MHA555 - HC Promotion and Evaluation 555-3 Theories of Health Promotion and Evaluation. An exploration of the concepts, theories, and status of research in health promotion and disease prevention emphasizing varying methods used to modify the health-related behaviors of groups and individuals. This course examines methods of ascertaining health behaviors, the design and interpretation of behavioral intervention programs to modify behaviors, and current trends in the study of how lifestyle and preventive health practices the field of health care. Restricted to School graduate majors.

MHA556 - HC Research 556-3 Individual Research in Healthcare. This course requires students to complete a research project in the field of healthcare based upon student interest and instructor approval. Each project will have a written paper as a final product and this paper will be submitted for publication, as approved by the instructor, in one of the professional journals within the field of healthcare. Restricted to School graduate majors.

MHA566 - Managing Health Information 566-3 Managing Health Information. A detailed review of the components of an information system as utilized for the capture of health information. Focus is on EHR, HIPAA, and implementation of information systems in healthcare organizations. Classification systems, clinical terminology, and use of health information in terms of operational management and decision making will be explored. Emerging technologies related to the security of health information management are explored. Restricted to School graduate majors.

MHA575 - Current Events in HC 575-3 Current Events Seminar in Healthcare. A current issues seminar course for the field of healthcare where students identify and analyze legislative changes/mandates, healthcare reform, governmental oversight, etc. Students conduct presentations and may participate in discussions with healthcare professionals via a variety of potential classroom methods including, but not limited to, live video conferencing, podcasts, and/or discussion postings, etc. Restricted to School graduate majors.

MHA580 - Epidemiology and EBM 580-3 Managerial Epidemiology and Evidence Based Management. Epidemiological principles pertinent to the delivery, management, and marketing of healthcare services. Examines evidence- and population-based decisions which are critical to effective delivery of patient care. Utilizes evidence-based theories to prepare the students to identify management problems and develop related paths of focused inquiry. Restricted to School graduate majors.

MHA582 - Healthcare Economics 582-3 Healthcare Economics. Covers micro-economic theory focusing on patient demand for services and supply of services based on the complex regulatory environment in healthcare organizations. Students will learn to analyze health policies, as well as the behaviors of patients, insurers, and physicians in varying HCOs. Issues will be explored such as fee structuring; controversial policy issues, such as access to care and/or the medically under-insured or uninsured; the demand and mandate of health insurance; and the increased presence of governmental control that impacts healthcare economics. Restricted to School graduate majors and School advisor.

MHA585 - Financial Issues in Healthcare 585-3 Financial Issues in Healthcare. A macro-examination of the role of finance in healthcare. Emphasis is not on financial formulas, but rather on the application of financial information within the healthcare sector. Discussion of charge-masters, healthcare payment systems and sources of revenue, profit vs. duty, regulatory issues and profit maximization, provider payments and pricing in capitated-managed care markets, and IDS, etc. Case principles specifically related to the healthcare field are completed. Restricted to School graduate majors.

MHA593 - Adv Research/Residency 593-6 Advanced Research/Residency. Students choose research project or residency. Research option includes special project related to administration in the student's chosen field which meets Graduate School guidelines. Students selecting residency option must notify the academic advisor one year PRIOR to enrolling in MHA 593 to complete MOU process. Research option is the only available option if residency deadline missed. Residency sites are in healthcare facilities only and subject to approval of the instructor and University. 1 credit = 50 contact hours. 300 contact hours required. Hours/credit arranged individually. Restrictions may apply based on state-to-state rules. Restricted to School graduate majors and School advisor.

MHA601 - Continuing Enrollment 601-1 Continuing Enrollment. This course is required to satisfy the Graduate School's requirement of continuous enrollment and is intended for those students who are enrolled in the program but cannot take a core academic course during a given semester. Consent of SAH Academic Advisor.

Health Administration Faculty

Aydin, Serdar, Assistant Professor, Ph.D., University of South Carolina, 2018.

Collins, Sandra K., Professor, Ph.D., Southern Illinois University Carbondale, 2010.

Rados, Robert C., Assistant Professor, MPH, Ph.D., Southern Illinois University Carbondale, 2003.

Shaw, Thomas A., Associate Professor, Ph.D., Southern Illinois University Carbondale, 2005.

Health Informatics

The **Master of Health Informatics (MHI)** program is a comprehensive program that prepares students for professional roles in the field of health informatics within the healthcare organizations. To earn the MHI, students must complete:

1. 39 credit hours of the core MHI courses including:
MHI 510, MHI 511, MHI 515, MHI 525, MHI 531, MHI 536, MHI 551, MHI 566, MHI 580, MHI 581, MHI 583, MHI 584, and MHI 585
2. MHI 593 - Individual Research/Residency - 6 credit hours. Culminates in either a final scholarly work outlined by the SIU Graduate School or a Residency in a health care setting approved by the University and Instructor.

To complete the health informatics program, the course of instruction consists of 45 semester hours. As part of the 45 semester hours, students have the choice of selecting a research project or graduate residency/internship. If the graduate residency/internship is selected students must notify the program's residency/internship coordinator that they intend to complete the residency/internship 1 year prior to the semester they will enroll in the residency/internship. This length of time is necessary to allow for the proper authorizations to be obtained between the supervising site and the university. Students who do not notify the residency/internship coordinator that they intend to participate in the residency/internship by this deadline will only have the option of completing the research project. Residency/internship are completed only in healthcare facilities excluding veterinary and animal care facilities.

The Residency is a six-credit hour experience where one credit hour is equivalent to 50 contact hours for a total of 300 credit hours at the time of successful completion.

Course material covers topics specific to the healthcare field including, but not limited to, healthcare systems, knowledge management, personnel development and oversight, electronic health records, strategic leadership and marketing, legal and ethical foundations, health promotion and evaluation, systems design, modeling, database management, security, privacy, health information exchange, and health economics. Upon completion of the program, students are expected to be equipped to operate effectively in administrative roles in healthcare organizations. Special project assignments, case readings, presentations, and journal article reviews are an integral part of the curriculum.

A 2.7 GPA from the student's undergraduate program is required for admission to the MHI program. Students with a 2.5-2.7 undergraduate GPA may enter as a Non-Declared student, following Graduate School policies, and will be allowed to take up to 9 credit hours of MHI courses. At the end of the 9 credit hours, the student must hold a 3.0 GPA to be then admitted to the MHI program. Students not meeting the 3.0 GPA at the end of the 9 credit hours will not be allowed to take any other MHI courses.

All students graduating from the MHI program will be required to meet the qualifications of the Graduate School at SIU. Students will be required to complete a culminating scholarly work which includes a research paper if not completing the Residency option.

MHI students will initiate and complete the processes involved with residency/internship site and preceptor selection as well as applicable university approval processes. Students participating in a residency/internship may be required to undergo a criminal background check and drug screening. Students who do not satisfactorily pass the background check and/or drug screening may find it difficult to secure a residency/internship in the field of healthcare and would then be required to satisfactorily complete the graduate research project instead of the residency/internship. Residency/internship hours cannot begin until all approvals have been obtained from the faculty member overseeing the residency/internship processes, the internship site, and the university. The internship coordinator and/or university may decline any residency/internship site or preceptor selected by the student. Any contact hours students participate in prior to the residency/internship being appropriately approved cannot be counted toward the required 300 contact hours. Not all healthcare organizations or facilities may act as residency sites due to the ability to meet achievable objectives of the program and/or residency course, state to state licensure/permissions, and/or University approvals.

Students earning a failing grade for a residency/internship can repeat the MHI 593 Advanced Research/Residency course once, but they are required to choose and successfully complete the graduate project for the second time they are enrolled. If the graduate project is not successfully completed on the repeat enrollment, the student cannot enroll in MHI 593 a third time and will be removed from the MHI program due to academic performance. The residency/internship cannot be repeated.

Students earning less than a *B* twice in any individual MHI courses are dropped from the MHI program due to poor academic performance. Students dropped due to poor academic performance will not be allowed re-entry into the MHI program at a later date.

On-campus MHI courses are restricted to on-campus students in the graduate programs within the School. Online MHI courses are restricted online students in the graduate programs within the School. The MHI program strictly prohibits students from changing delivery formats unless there is a well-documented medical reason presented to the Program Director to do so.

Certificate in Healthcare Informatics

The Certificate in Healthcare Informatics is open to post-bachelor level students holding a degree in healthcare management/administration (or closely related field) and/or a bachelor's level degree and license in a clinical specialty. It is designed to provide the knowledge and skills as germane to healthcare informatics in patient care environments. Well suited as a graduate preparatory certificate, courses are specific to the collection, analysis, and interoperability of data in patient care environments for the purposes of improving operations, patient care delivery, and supporting regulatory expectations specific to the field of healthcare. Students must complete 18 semester hours of graduate level study, all at SIU, with a *C* or above in all required courses which includes:

- MHI 510, 3 - Effective Healthcare Operations (Same as MHA 510)
- MHI 515, 3 - Systems Analysis, Design, and Database Management in Healthcare
- MHI 525, 3 - Health Informatics Applications and Project Management
- MHI 566, 3 - Managing Health Information (Same as MHA 566)
- MHI 581, 3 - Health Information Exchange
- MHI 584, 3 - Consumer Informatics

Students earning a grade lower than a *C* may retake individual courses only once. If a grade of *C* or higher is not received on the second attempt of an individual course, the student is removed from the certificate program due to academic performance.

Health Informatics Courses

MHI510 - Effective Healthcare Operation 510-3 Effective Healthcare Operations. An investigation of the functions of HCOs compared to other business operations including logistics and supply chain control. Addresses excessive resource spending focusing on support systems and ineffective operational issues within constraints of highly regulated healthcare sector. eCommerce, hospital materials supply, inventory control of medical supplies/controlled substances, vendor collaboration, purchasing/receiving, and total value analysis explored with PERT/CPM, mathematical programming and quality controls. Restricted to School graduate majors.

MHI511 - Fundamentals HC Systems 511-3 Fundamentals of Health Care Systems. This course provides a multi-disciplinary analysis and is designed to provide students with information pertaining to the issues surrounding access to care, medical technology, and the complex financial structures of the healthcare system. Students will extensively examine aspects of the complex healthcare system such as managed care, Medicare, Medicaid, pharmaceuticals, health promotion and disease prevention, and the quality of care. Restricted to School graduate majors.

MHI515 - Systems Design/Analysis 515-3 Systems Analysis, Design, and Database Management in Health Care. Students explore methods for designing and managing health care organization databases and their use in computer based information systems. Focus is given on the impact that health care information systems have on administrative functions, data security and integrity, and business processes. Use of relational database management software, network hardware technologies, data modeling, clinical data warehousing and mining are explored, as well as, the tools necessary for successful system implementation and human computer interfaces. Restricted to School graduate majors.

MHI525 - HI Apps and PM 525-3 Health Informatics Applications and Project Management. Course designed to explore the history of health information. Students learn how to integrate the clinical, financial and administrative data needed to resolve managerial and patient care problems. Explores the strengths and limitations of health information systems and principles of computer science. Focus is given on project planning, project management tools. Students will develop a workflow project plan for a health informatics project and conduct biomed simulations. Restricted to School graduate majors.

MHI531 - HC Human Resources 531-3 Human Resources in Health Care. (Same as MHA 531) Describes the key human resource functions that play a significant role in the healthcare environment and focuses specifically on how those functions support management initiatives and Joint Commission accreditation and/or regulatory compliance. Extensive review of how the failure to systematically apply effective human resource strategies can result in organizational demise is conducted. Explore the dynamic legal and regulatory environment and carefully examines how legislative changes influence the healthcare organization overall focusing particularly on those functions that are linked to patient satisfaction and balanced scorecards and benchmarking of provider performance. Restricted to School graduate majors.

MHI536 - HC Leadership/Strategy 536-3 Strategic Leadership in Healthcare. This course provides students with an examination of nature, function, and techniques of administration and supervision in HCOs. Topics include the ever-changing healthcare environment and trends impacting leadership competencies. Specific healthcare factors that influence organizing managing of varying health systems such as hospitals vs. ambulatory care. Focus will be given on the professional bureaucracy that is complex given regulatory issues, political factors, and the era of the informed patient. Restricted to School graduate majors.

MHI551 - HC Legal/Ethics 551-3 Legal & Ethical Fundamentals in Healthcare. This course provides students with an analysis of the legal and ethical environment of the healthcare industry. Focused on the healthcare environment, the course closely examines the judicial process pertaining to torts, contracts, antitrust, corporate compliance, access to care, negligence, and professional liability. The nature of ethics in the multi-cultural healthcare environment is examined with analysis of the moral issues in healthcare. Restricted to School graduate majors.

MHI566 - Managing Health Information 566-3 Managing Health Information. A detailed review of the components of an information system as utilized for the capture of health information. Focus is on EHR, HIPAA, and implementation of information systems in healthcare organizations. Classification systems, clinical terminology, and use of health information in terms of operational management and decision

making will be explored. Emerging technologies related to the security of health information management are explored. Restricted to School graduate majors.

MHI580 - Epidemiology and EBM 580-3 Managerial Epidemiology and Evidence Based Management. Epidemiological principles pertinent to the delivery, management, and marketing of healthcare services. Examines evidence- and population-based decisions which are critical to effective delivery of patient care. Utilizes evidence-based theories to prepare the students to identify management problems and develop related paths of focused inquiry. Restricted to School graduate majors.

MHI581 - HI Interoperability 581-3 Health Information Interoperability. Addresses issues related to the exchange of clinical data across multiple healthcare environments. Special focus is placed on health IT standards, privacy and security issues specifically related to the protection of patient information. Provides an overview of health information system standards and the types of products available to facilitate the use of data exchanges. Students will work in virtual groups to discuss current trends and challenges, best practices for health information systems, and health information standards pertinent to the field of healthcare. Restricted to School graduate majors.

MHI583 - Methods Medical Informatics 583-3 Methods of Medical Informatics. Study of algorithms and programming languages for healthcare informatics purposes. Tailored for the use of non-professional programmers and specifically for the healthcare industry. Provides methods to utilize medical information contained in clinical and research datasets and explores the common computational tasks of medical informatics. Overview of access to data, assessment, nomenclatures, and programming scripts. Restricted to School graduate majors.

MHI584 - Consumer Informatics 584-3 Consumer Informatics. Course focusing on consumer driven healthcare and their greater access to health information. Explores the health care related information available by federal and state agencies and direct consumer-to-consumer communications. Focus is given to consumer perspectives of their own health and the overall evolution of the patient/physician relationship. Students will explore the impact of technology in patient treatment areas, personalized medicine, assessment methods and tools, as well as, the potential impact of future technology on the delivery of healthcare services. Restricted to School graduate majors.

MHI585 - HC Finance 585-3 Financial Issues in Healthcare. A macro-examination of the role of finance in healthcare. Emphasis is not on financial formulas, but rather on the application of financial information within the healthcare sector. Discussion of charge-masters, healthcare payment systems and sources of revenue, profit vs. duty, regulatory issues and profit maximization, provider payments and pricing in capitated-managed care markets, and IDS, etc. Case principles specifically related to the healthcare field are completed. Restricted to School graduate majors.

MHI593 - Adv Research/Residency 593-6 Advanced Research/Residency. Students choose research project or residency. Research option includes special project related to administration in the student's chosen field which meets Graduate School guidelines. Students selecting residency option must notify the academic advisor one year PRIOR to enrolling in MHA 593 to complete MOU process. Research option is the only available option if residency deadline missed. Residency sites are in healthcare facilities only and subject to approval of the instructor and University. 1 credit = 50 contact hours. 300 contact hours required. Hours/credit arranged individually. Restrictions may apply based on state-to-state rules. Restricted to School graduate majors and School advisor.

MHI601 - Continuing Enrollment 601-1 Continuing Enrollment. This course is required to satisfy the Graduate School's requirement of continuous enrollment and is intended for those students who are enrolled in the program but cannot take a core academic course during a given semester. Consent of SAH Academic Advisor.

Health Informatics Faculty

Aydin, Serdar, Assistant Professor, Ph.D., University of South Carolina, 2018.

Collins, Sandra K., Professor, Ph.D., Southern Illinois University Carbondale, 2010.

Rados, Robert C., Assistant Professor, MPH, Ph.D., Southern Illinois University Carbondale, 2003.

Higher Education

The Department of Educational Administration and Higher Education provides graduate study leading to the Master of Science in Education degree in higher education.

The graduate program in higher education offers students an opportunity to study and explore the concept of higher education as a field of study. The faculty of this program encourages and assists students in developing a lifetime commitment to the study of higher education. They also provide preservice and inservice preparation for persons who are teaching or serving as administrators or who expect to teach or serve as administrators in two-year and four-year colleges and universities, and related post-secondary educational institutions and agencies.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Higher Education. Applicants must pay this fee by credit card.

Master of Science in Education Degree

The Department of Educational Administration and Higher Education offers a program in higher education leading to the Master of Science in Education degree. The emphasis of this degree is to provide individuals with the background and skills important to accepting a wide range of teaching and administrative positions in higher education. Concentrations in community college teaching and college student personnel are offered.

Students applying for admission are encouraged to have some leadership experience prior to starting graduate study. Students who expect to complete a program to prepare them for teaching in a community college are expected to have an undergraduate major in a subject area commonly taught in a community college.

Community College Teaching (32 semester hours, minimum)

Students who wish to teach in a community college must complete at least 20 semester hours in their teaching specialty and at least 12 hours in specified courses in educational administration and higher education, for a minimum of at least 32 semester hours. Students in this program must secure prior to admission a subject matter adviser from the faculty of the subject area who will agree to help plan the student's academic program.

The common core of courses required of students in this program includes the following:

- EAHE 516-3 College Students and College Culture
- EAHE 518-3 College Teaching
- EAHE 524-3 Curriculum Design and Policy
- EAHE 526-3 The Community College

Students must also complete a minimum of 20 semester hours in their teaching specialty. Recommended courses beyond the minimum requirements are as follows, and must be taken unless waived by the program coordinator:

- EAHE 500-3 Educational Research Methods
- EAHE 598-2 to 6 Internship or
- EAHE 599-3 Thesis/Individual Research 593A-L

College Student Personnel (42 semester hours)

This program is designed to prepare new professionals to work as student affairs administrators and educators within institutions of higher education. Students must complete a minimum of 42 semester hours of courses designed to prepare them as higher education generalists. Through internships,

electives, and professional development seminars, students individualize their programs to acquire specialized emphasis in various student affairs units, including admission and recruitment, student development, student activities and programming, alumni relations, career planning, financial aid, orientation, placement, and residence life.

College Student Personnel Common Core (12 hours):

- EAHE 510-3 Higher Education in the United States
- EAHE 513-3 Org. and Administration in Higher Education
- EAHE 515-3 Student Affairs Administration
- EAHE 516-3 College Students and College Culture

Educational Research (3 hours):

- As selected with advisor.

Cognate (12-18 hours):

- Students will work with advisor to construct a cognate, which is compatible with their academic and professional interests. Possible cognates include, but are not limited to: Administration, Cultural Contexts, and Student Affairs.

Professional Development (3 to 9 hours):

- EAHE 591-1 to 6 Individual Study
- EAHE 598-3 to 6 Higher Education Internship

Capstone (3 hours):

- EAHE 547-3 Evaluating Educational Research
- EAHE 593L-3 Research Paper
- EAHE 599-3 Thesis

Electives (3 to 6 hours):

- As selected with advisor.

Waiver for Internship Requirement

Each student must complete or obtain a waiver for the required internship in addition to any paid assistantship that the student may secure. Internships must be in a setting different from the student's assistantship or professional work environment. Internship opportunities exist through most areas of Student Affairs on the SIU Carbondale campus; other locations or settings might be eligible; each student must obtain approval from his/her advisor before initiating any internship. Students with non-assistantship based, professional experience in higher education may seek a waiver of the internship requirement. All waivers must be in writing and require advisor approval. Students permitted to waive the internship requirement must complete an additional three units of independent study to satisfy the credit requirements needed to obtain the degree.

Research Requirements

Community College Teaching master's students shall demonstrate research competencies through writing an acceptable research paper or master's thesis (which involves original research); College Student Personnel concentration students also have an option, in lieu of a research paper or thesis, to complete EAHE 547, Evaluating Educational Research. Students who select the thesis option must have an approved prospectus on file at least six months in advance of the anticipated graduation date; they must enroll for three hours of EAHE 599 (Thesis); and they must have a committee of at least three faculty members. Students who elect to write a research paper must have a committee of two faculty members, and they must enroll in three hours of EAHE 593 (Research Paper). Students who choose the thesis or research paper option are required to complete successfully a final examination, which usually consists of a presentation and defense of the research paper or thesis; this exam may be written, oral, or both.

Master of Science in Education Degree/J.D.

This concurrent degree in higher education and law helps to provide students with an academic foundation in areas where the two fields intersect. Specifically, this joint program allows students to acquire knowledge and develop problem-solving skills applicable to both areas. Participants in this program will develop an understanding of legal matters, history, foundations, theories, policies, and processes that influence postsecondary institutions. Students completing this joint degree will attain unique qualifications preparing them for careers such as higher education administrators, postsecondary counsel, policymaking, student advocacy, and other areas where law and postsecondary institutions intersect. Prospective students must meet the admissions requirements and gain acceptance separately to Higher Education and the School of Law. Students concurrently enrolled in either degree program must attain a minimum GPA and grading scales. Students interested in Higher Education portion of this concurrent program should consult with the Director of the Higher Education Programs. Students will need to take a minimum of 21 hours of Higher Education courses and nine hours of electives through the School of Law as selected with the appropriate advisors.

College Teaching Certificate

The program will offer a postsecondary focused teaching certificate to any graduate student enrolled in or who has completed at least a master's degree. The program will operate within a cohort format as a way of streamlining course scheduling, promoting intergroup socialization and development, and supporting routine, consistent, and timely completion. To establish and maintain cohort delivery, the program will offer all students the following courses:

Higher Education Certificate

Course/Category	Required Semester Hours
Common Core	
EAHE 508 College Student Development Theory	3
EAHE 510 Higher Education in the United States	3
EAHE 518 College Teaching	3
EAHE 524 Curriculum Design and Policy	3
Organizational Core (choose one)	
EAHE 513 Organization and Administration in Higher Education	3
EAHE 526 The Community College	3
Capstone	
EAHE 598 Higher Education Internship	3
Total Credit Hours:	18

All of these courses are 500-level courses. Refer to Appendix A for a title and description of each course.

Admission

To gain admission to the program, prospective students must hold or be enrolled in a graduate degree program and maintain a minimum 3.0/4.0 GPA. Applications for admission must include the following: a completed departmental application, three letters of references attesting to the applicant's potential for success as a postsecondary instructor, and a teaching statement. Higher Education faculty members will review applications and select students for admission to the certificate program.

Higher Education Faculty

Colwell, William Bradley, Professor, Ph.D. and J.D., University of Illinois at Urbana-Champaign, 1996. Education law and policy, collective bargaining.

Dilley, Patrick, Professor, Ph.D., University of Southern California, 2000; 2001. History of higher education, gender studies, and qualitative research.

Donahoo, Saran, Professor and *Program Director*, Ph.D., University of Illinois at Urbana-Champaign, 2004; 2004. Higher education administration and educational administration.

History

The Department of History offers graduate programs leading to the Master of Arts and Doctor of Philosophy degrees.

Research Facilities

Morris Library on the campus is the fourth largest library in Illinois. Housed in a modern seven-story building, it contains more than two million volumes. Morris Library acquires current scholarly publications not only from United States but also from Latin America and European publishers. The long-term use of highly specialized materials is afforded by the affiliation of Morris Library with the Center for Research Libraries in Chicago.

The holdings in history and related areas amount to more than 500,000 volumes. To these must be added 20,000 reels of microfilm containing printed secondary works and 6,000 volumes of printed source material and 30,000 volumes of early American imprints prior to 1800 on microtext. Among the materials in the process of acquisition is a microtext edition of all newspapers published in the United States prior to 1820.

The library also possesses substantial holdings in the form of microfilm editions of presidential papers, dispatches and instructions of the state department since 1789, massive holdings in consular records, and the Adams family papers. The library has been a complete repository of United States government documents since 1954 and holds a large collection of earlier documents, including a virtually complete Congressional set.

Following the acquisition of the 7,000-volume library of Jose Morgrovejo Carrion of Ecuador in 1960, the library has systematically expanded its holdings in Latin American history, government, literature, and anthropology. The papers of Francisco Vásquez Gómez, Mexican political leader (1907–1919), Peruvian diplomat and business tycoon, Federic Barreda and Samuel Putnam, American expert on Latin American affairs, provide rich research opportunities. Extensive files of serial publications from Argentina, Bolivia, Paraguay, Uruguay, Cuba, and Mexico also contain diverse sources for investigation. Many of the above materials are unavailable elsewhere in the United States.

Holdings in European history include the standard documentary publications, as well as scholarly serials and journals. The materials to support research are strongest in modern German and English history.

Admission

Graduate work in history is offered at both the master's and the doctoral levels. Admission to programs administered by the Department of History must be approved by the department, with approval dependent upon the preparation, ability, and promise of the individual student.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in History. Applicants must pay this fee by credit card.

M.A.: for the Master of Arts degree major in history, applicants are expected to have an undergraduate GPA of 3.0. Applicants with GPAs of below 3.00 may be granted conditional admission. Applicants must also provide three letters of recommendation, and a personal statement in which the applicant expresses professional goals. Conditional admittances must earn a 3.00 GPA in graduate coursework in the first semester. The department reserves the right to terminate from the history program a student who does not establish and maintain a 3.00 GPA in history courses.

Ph.D.: for admission to the doctoral program, each applicant should submit to the department, in addition to the material required by the Graduate School, the following: three letters from former teachers, preferably at the graduate level; a letter in which the applicant expresses professional goals and a writing sample.

In rare instances, accelerated entry into the Ph.D. program is possible for exceptionally qualified M.A. students who have made an early commitment to doctoral study. Such students may petition after two semesters in the M.A. program for accelerated entry. The petitioner must demonstrate the ability to perform at the Ph.D. level. This includes a GPA of at least 3.7 (A = 4.0) in graduate history courses, exemplary letters from SIU professors, and the submission of a seminar paper or published article for evaluation by the Graduate Studies Committee. The student must have completed one colloquium or seminar, HIST 500, HIST 501 and the research tool required for the M.A. Upon approval, the History Department will recommend to the Graduate Dean direct admission to the Ph.D. program. Direct entry into the Ph.D. program from baccalaureate studies is possible for students of exceptional ability. This can be demonstrated through extensive undergraduate course work of superior quality, proficiency in research tools, previous research experience, and letters of recommendation. Students who have taken course work after the undergraduate degree may not petition for direct entry. Upon approval of the petition, the Department of History will recommend to the Graduate Dean direct admission into the Ph.D. program.

Assistantships and Fellowships

Fellowships and teaching assistantships are available to qualified graduate students. All carry stipends and remission of tuition. Application for these awards should be submitted by January 10 in order to be considered for the following academic year.

Additional information concerning rules governing the graduate program in history may be obtained by writing to the director of graduate studies, Department of History.

M.A. in History, Thesis Track

The thesis track should be selected by those students who plan to continue on for a doctoral degree in history, either at SIU or elsewhere. The thesis track provides students with the necessary historiographical and methodological skills to complete a significant, original research project, and to be prepared for the rigors of a Ph.D. program. The decision to opt for the thesis track ought to be made in consultation with the student's assigned advisor and/or the director of graduate studies during the first semester of the first year of the M.A. The thesis track M.A. consists of 33 credit hours of coursework (including six thesis hours), the completion of a research tool (usually proficiency in a foreign language), and the writing and oral defense of a thesis. A sample program of study for the thesis track is below:

M.A. in History, Thesis Track

Semester 1 Courses	Semester 2 Courses
HIST 500 (3 credits)	HIST 501 (4 credits)
Colloquium or Seminar (4 credits)	Colloquium or Seminar (4 credits)
Research Tool (3 credits)	Research Tool (3 credits)
Total credit hours: 10	Total credit hours: 11

Thesis track students should, in consultation with their advisor, select elective History courses, (400-level, or HIST 490 / HIST 590 independent readings courses) or courses outside the History program (400-level or higher) on topics or themes that will support or complement their thesis research and writing. A maximum of 10 credit hours of 400 level course work and/or coursework external to the History Department will count toward the required 33 hours. Thesis students are highly encouraged to complete their research tool in their first year.

M.A. in History, Thesis Track

Semester 1 Courses	Semester 2 Courses
HIST 599 (thesis - 3 credits)	HIST 599 (thesis - 3 credits)
Elective (3 credits)	Elective/Colloquium or Seminar (3-4 credits)
Elective/Colloquium or Seminar (3 credits)	

Semester 1 Courses	Semester 2 Courses
--------------------	--------------------

Total credit hours: 9

Total credit hours: 6-7

In consultation with their advisor, a thesis track M.A. student should begin the research for his/her thesis in the spring or summer of the first year in the program, ideally enrolling in a readings (HIST 490 / HIST 590) course with their advisor for an introductory survey of historiography and pertinent issues in their field of interest. Research and writing of the thesis continue in the fall, so that the thesis is ready for distribution to the thesis committee (three faculty, at least two of whom are full-time faculty in the History Department) in the early spring (prior to March 1) of Year 2. The defense of the thesis will be an oral defense, during which the examining faculty will consider the content, methodology, conclusions, style, and historiography of the work, and ask the student to place his/her work within the larger context of his/her program of study, including the historiography of the thesis's field and especially HIST 500 and HIST 501.

M.A. in History, Two Research Paper Track

The two paper track should be selected by students who envision careers as high school and community college educators, and those seeking to develop their interests in a historical field. The two paper track requires the completion of 36 credit hours of coursework and the completion of a research tool (usually proficiency in a foreign language, or a nonlanguage option). Rather than a thesis, the capstone activity of the two paper track is the completion of two research papers in conjunction with two seminar courses, and one field exam in the geographical/chronological area of the student's choice. The two paper track should provide students with a basic understanding of historiography and historical methods, give the student some experience in historical research and writing at the graduate level, and provide in-depth knowledge of the history and historiography of their selected area of interest. A sample program of study is below:

M.A. in History, Two Research Paper

Semester 1 Courses	Semester 2 Courses
HIST 500 (3 credits)	HIST 501 (4 credits)
Colloquium 1 or Seminar 1 (4 credits)	Colloquium 1 or Seminar 1 (4 credits)
Research Tool (3 credits)	Research Tool (3 credits)
Total credit hours: 10	Total credit hours: 11

Two paper track students should, in consultation with their advisor, select elective History courses, (400-level, or HIST 490 / HIST 590 independent readings courses, and 2 colloquium/seminar), or courses outside of the History program (400 level or higher) on topics or themes relevant to their interests. A maximum of 10 credit hours of 400 level course work and/or coursework external to the History Department will count toward the required 33 hours. Students are highly encouraged to complete their research tool in their first year.

M.A. in History, Two Research Paper

Semester 1 Courses	Semester 2 Courses
Colloquium 2 or Seminar 2 (4 credits)	Colloquium 2 or Seminar 2 (4 credits)
Elective (3 credits)	Elective (3 credits)
Elective (3 credits)	Elective (3 credits)
Total credit hours: 10	Total credit hours: 10

By the spring of their first year, two paper track students should have identified their field of study, and in conjunction with a faculty member who specializes in that field, begun to assemble a reading list of required works for the student's examination. Students must complete at least one course (500-level colloquium/seminar sequence, 400-level elective or HIST 490 / HIST 590 independent reading) with the faculty member who will oversee their exam field. Students should plan to take this exam either late in semester one or early in semester two of their second year in the program. The examining committee will consist of the field professor, and at least one of the professors who taught the students' two colloquium/seminar sequences. The oral defense will consist of discussion of the student's overall program of study, and include assessment of seminar papers and written responses to the field exam.

Accelerated M.A. Program in History

Students already on track to earn a bachelor's degree in History at SIU will be eligible to start the preliminary phase of the accelerated M.A. curriculum if they have earned a cumulative 3.20 GPA by the end of the Spring semester of their junior year and received departmental approval to take HIST 500 and HIST 501 during their senior year. Qualified students can initiate the approval process by submitting a written statement to the Chair of the History Department and the Director of Graduate Studies in History expressing their interest in the accelerated M.A. program and requesting permission to begin the curriculum. Approval to begin the accelerated M.A. curriculum does not guarantee admission to the graduate program, though it is required as a preliminary step toward completing the accelerated M.A. program. Students approved to begin the accelerated M.A. curriculum during their senior year must also apply to the two-year M.A. program and satisfy the usual deadlines and requirements for admission to the two-year M.A. program for the following academic year in order to be formally admitted into the accelerated M.A. program as a graduate student eligible to earn a Master's degree. Additionally, all requirements for completing the accelerated M.A. program are the same for completing the two-year M.A. program. Students who begin the accelerated M.A. curriculum while finishing the undergraduate curriculum must complete the undergraduate curriculum and graduate from SIU before entering the graduate program as graduate students.

Approval to begin the accelerated M.A. curriculum includes the completion of a memorandum of interest (MOI) that indicates the agreement of the student to complete HIST 500 (The Historian's Craft - 3 hours), HIST 501 (Recent Historiography - 4 hours), and HIST 490 (Special Readings in History - 2 hours with the anticipated graduate faculty advisor of the student to begin research for the thesis) during the senior year. Enrollment in HIST 500 and HIST 501 requires approval from the department and the Graduate School following the procedure indicated in the "Request for 500-Level Course by an Undergraduate" form. The 9 credit hours earned for these courses count toward the bachelor's degree when completed. The same 9 credit hours from HIST 500, HIST 501, and HIST 490 will count toward the M.A. degree once the student has been formally admitted to the graduate program following the completion of the B.A./B.S. in History. The MOI with the signatures of the student, the Chair of the History Department, and the Director of Graduate Studies in History will be sent to the Graduate School for approval.

Once admitted to the graduate program, students in the accelerated M.A. program complete the established requirements for either the thesis-track M.A. or non-thesis M.A., depending on which track the student pursues. Students following the thesis track are encouraged, but not required, to complete one colloquium and research seminar combination as part of their coursework. Students following the non-thesis track must complete two colloquium and research seminar combinations to produce the two required research papers. In addition to transferring 9 hours in HIST 500, HIST 501, and HIST 490 from their undergraduate studies, accelerated M.A. students must complete 24 graduate-level credit hours in two semesters to finish the degree in one additional year.

Accelerated MA Program

Semester 1 Courses	Semester 2 Courses
Colloquium 1 or Seminar 1 (4 credits)	Colloquium 1 or Seminar 1 (4 credits)
Colloquium 2 or Seminar 2 (4 credits) or HIST 599 (3 credits)	Colloquium 2 or Seminar 2 (4 credits) or HIST 599 (3 credits)
Electives/Research Tool (4-5 credits)	Electives/Research Tool (4-5 credits)

The Doctor of Philosophy Degree

A student seeking the Ph.D. degree in historical studies must pass preliminary examinations and submit a satisfactory dissertation based on independent and original research. In preparation for preliminary examinations, the doctoral student must complete at least 24 graduate credit hours. These hours must be completed during a period of not more than four calendar years. The courses and hours of credit necessary for a doctoral student to prepare for preliminary examinations will be determined by the student's advisory committee. All Ph.D. students must include in their 24 hours six 500 level courses (not including HIST 500, HIST 501, or HIST 597) with grades of *A* or *B*. The goal is to develop high competence in the selected fields in which the student will be examined. Students are responsible for preparing three fields in which they will be examined. Two of the three fields will be selected from the following list of general fields:

- United States to 1877
- United States since 1865
- Latin America, Colonial
- Latin America, National
- Europe, medieval
- Europe, early modern
- Europe, modern
- Britain, modern
- East Asia, modern
- Africa and African Diaspora
- Middle East

The third field is a focused field of study defined in consultation with the student's examination committee. Examples of focused fields are available on the history department website.

The student's advisory committee may require the student to take a diagnostic examination. All Ph.D. students must complete at least six hours of graded graduate work in a field outside North America and Western Europe.

Two research tools are required by the Graduate School. At least one research tool must be a foreign language. Information on requirements for two research tools may be found on the department website.

Students may undertake an internship program under the direction of their advisory committees. More specific information is available on file in the department office and on the website. After completing the course work, fulfilling the research tool requirements, passing the preliminary examinations, and presenting an acceptable dissertation prospectus, the student will be recommended for Ph.D. candidacy and will devote full time to the dissertation. Dissertation subjects must be chosen from either United States history, Latin American history, European history, African history, or history of Asia/the Middle East. The final oral examination will cover the field of the dissertation and related matters.

Cooperative Ph.D. Program

The Departments of History at SIU-Carbondale and SIU-Edwardsville have entered into a cooperative Ph.D. program in Historical Studies which enables students to do work on both campuses. Additional information may be obtained at siue.edu/academics/graduate/degrees-and-programs/historical-studies-phd/.

Graduate Certificate in Women, Gender and Sexuality Studies

The History department participates in a graduate certificate in Women, Gender and Sexuality Studies. History graduate students interested in pursuing a certificate in Women, Gender and Sexuality Studies (WGSS) should contact the WGSS director and/or cross-listed faculty for the required courses and guidelines. See the [Graduate Certificate Requirements](#) for more information. This certificate recognizes the important interdisciplinary nature of Women, Gender and Sexuality Studies and History.

History Courses

HIST401 - Atlantic History 401-3 Atlantic History. This course examines the origins and development of the Atlantic basin as an intercommunication zone for African, European and American societies from the mid-15th century through the early-19th century. Themes include transformation of environments, forced and voluntary migrations, emergence of distinct Atlantic culture communities, development of Atlantic economics and formulation and implementation of Atlantic revolutionary ideologies.

HIST403 - American Indians & US Empire 403-3 American Indians and U.S. Empire. Use historical analysis to investigate sovereignty issues involving American Indians and the United States. The course looks critically at the relationship between Native people and dominant U.S. society in terms of colonialism. Students will read academic scholarship and write papers on related cultural, economic,

political, and social topics. The course is designated as Writing Across the Curriculum (WAC).
Prerequisite: None, HIST 366 recommended.

HIST406A - Gender/Family/Sex Pre-Mod Eur 406A-3 Gender, Family and Sexuality in Pre-Modern Europe. (Same as WGSS 406A) A discussion of the history of the family, creation of gender roles and importance of sexuality from medieval times to the French Revolution.

HIST406B - Gender/Family/Sex in Mod Eur 406B-3 Gender, Family, and Sexuality in Modern Europe. (Same as WGSS 406B) A discussion of the history of family, creation of gender roles, and importance of sexuality from the French Revolution to the present. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST407 - History of Latinos in the US 407-3 History of Latinos in the United States. This course examines the history of Latino/a and Latin American peoples in the United States from the Colonial Era to the present. Themes to be addressed in the course include early imperialism and commercial expansion, the social construction of race, the formation of "borderland" communities, Latino immigration and assimilation, the centrality of work and labor within Latino history, and contemporary Latino culture and politics.

HIST408 - History of Mexico 408-3 History of Mexico. This course surveys the history of Mexico from the earliest human inhabitation to the present. It will present different interpretations of the major themes and developments in Mexican history. A goal is to understand Mexico from the perspective of the Mexicans rather than from the point of view of the United States. Themes to be included in the course include the diversity of pre-Columbian indigenous societies; Spanish conquest; colonialism and anti-colonialism; Mexican independence; the historiography of the Mexican Revolution; and the place of Mexico within the world-economic system.

HIST409 - Food and History 409-3 Food and History. Food is fundamentally about survival-it was for our ancestors millenia ago, and continues to be so, not only for the millions of undernourished worldwide, but for all of humanity as we confront the impact of obesity, globalization and environmental change. Because food is essential to our survival, its history is long, varied, and rich, and touches on themes including (but not limited to) politics and government; gender, race, and ethnicity; the family, religion and culture; health and the environment, and business, industry, and advertising. This class will explore these themes of global food history.

HIST410 - 19th Century Europe 410-3 Europe in the Long Nineteenth Century, 1789-1914. This course offers a topical examination of the history of Europe from the French Revolution to World War I, mainly focusing on the French Revolution, industrialization, nationalism and nation building, and imperialism. There will also be some focus on European intellectual and cultural transformations during this period. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST412A - Empire & Conflit Roman Republic 412A-3 Empire and Social Conflict in the Roman Republic. The social, political and cultural consequences of Roman expansion during the Republican period (c. 700-44 BCE). Focus on reading and analyzing primary sources. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST412B - Religion/Society Imperial Rome 412B-3 Religion and Society in Imperial Rome. Religious, social, and cultural conflict and change in the Roman Empire, first through third centuries. Focus on reading and analyzing primary sources. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST413 - Christ Power Socty Late Antqty 413-3 Christianization of Power and Society in Late Antiquity. An investigation into the political and social changes involved in the rise of Christian leadership in Western Europe following the fall of the Roman Empire. The course will focus on reading and analyzing primary sources from the fourth through the eighth centuries. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST415 - Tudor and Stuart Britain 415-3 Tudor and Stuart Britain. Course focuses on the political, cultural, and religious worlds of early modern Britain under two momentous, though short-lived dynasties,

the Tudors (1485-1603) and the Stuarts (1603-1714). Considerable attention will be paid to Henry VIII and the Henrican Reformation, the English Civil War, and the Glorious Revolution.

HIST417 - Ritual Revolt Early Mod Europe 417-3 Ritual and Revolt in Early Modern Europe. This course examines political practices on different levels of European society from the later middle ages through the Enlightenment: court ritual, popular revolts, patronage networks, representative assemblies and family politics are among the topics covered. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST417H - Ritual/Revolt Early Mod Europe 417H-3 Ritual and Revolt in Early Modern Europe. This course examines the social and political processes of ritual and revolt on different levels of European society from later middle ages to the French Revolution: court ritual, lifecycle rituals, religious rituals, popular protests, and revolution are among the topics covered. Honors students will select a topic to research during the course of the semester. Each student will lead the class in a discussion of his/her topic during the semester, and write a research proposal and annotated bibliography on that topic due at the end of the semester.

HIST418 - The Renaissance Exchange 418-3 The Renaissance Exchange. Course employs the traditional Renaissance themes of economic, political and cultural developments in Italy and Europe from 1300-1550 as the framework for detailed examination of European interactions - economic, ideological, religious - with Asia, the Middle East and the Americas. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST420 - Reformation 420-3 Reformation. Concentrates on the movement of religious reforms in the 16th Century. Emphasis on its roots in the past, particularly in earlier expressions of popular piety and to the wider social and political effects in the 16th and 17th centuries. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST421 - The French Revolution 421-3 The French Revolution. This course will consider the causes, events and outcomes of the French Revolution and Age of Napoleon (1789-1815) and situate the revolution in a global context. Themes to be considered include the influence of the American Revolution and the Enlightenment, democracy and human rights, forms of popular and female protest, revolutionary culture, French imperialism and the fight for freedom in Haiti and the legacies of the revolution.

HIST425A - 20th Cent Europe: 1914-1945 425A-3 Twentieth Century Europe 1914-1945. Political, social, cultural and economic development of the major European states during the present century.

HIST425B - 20th Cent Europe Since 1945 425B-3 Twentieth Century Europe Since 1945. Political, social, cultural and economic development of the major European states during the present century.

HIST426 - City Culture Europe 1870-1914 426-3 Cities and Culture in Europe 1870-1914. Cultural and social history focusing on four European cities (Paris, Berlin, Vienna, St. Petersburg) in the Fin-de-Siecle period (1870-1914). Fulfills the CoLA Writing-Across-the Curriculum (WAC) requirement.

HIST427 - World War I 427-3 World War I. The first World War (1914 - 1918) from a variety of perspectives, with emphasis on cultural, social and political. Seminar-type format with discussions of topics such as the war's causes, nature of trench warfare, the home front, and political and cultural impact of the war. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST429 - Political Violence Modrn World 429-3 Political Violence in the Modern World. This course will look at various forms of state and political violence in the 19th and 20th centuries. We will start with the "Reign of Terror" in the French Revolution, then look at the rise of terrorism in the later 19th century. The course will also cover state violence in the 20th century such as WWI, the Shoah, and the GULag. We will examine the "logic" and justification of both state and non-state political violence. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST437 - Lesbian and Gay History 437-3 Lesbian and Gay History in the Modern United States. (Same as WGSS 437) This course explores the social, political, and cultural history of lesbians, gay men, and other sexual and gender minorities in the United States from the turn of the twentieth century to the present. Themes to be taken up in the class include: the emergence of heterosexuality and homosexuality as distinct categories of identity; the intersection between sexual identity and identities

of race, class, gender, and ethnicity; the relationship between homosexuality and transgenderism; the movement for gay liberation; the creation of lesbian and gay urban and rural subcultures; representations of homosexuality in popular culture; anti-gay backlash; and AIDS.

HIST442 - Victorian Britain 442-3 Victorian Britain: Politics, Society, and Culture. An examination of British politics, society, and culture examining political transformations from the Glorious Revolution to the Great War, industrialization and the emergence of a class society, Ireland and the British Empire in British culture, and Victorian culture. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST444 - The Holocaust 444-3 The Holocaust. An introduction to Nazi German's systematic mass murder of Europe's Jews and other minorities. Using works of history, literature, and film, we will examine such topics as anti-Semitism, the behavior of "ordinary Germans" during the 30s and 40s, Jewish resistance, Holocaust denial and memory after the Holocaust.

HIST445 - Science & Criminals Latin Amer 445-3 Science, Crimes, and Criminals in Latin America. This course introduces students to theories, concepts, and the history of crimes, criminals, and scientists in Latin America. It will address the social construction of crime, criminals, and criminality to show the way in which different Latin American societies, and their respective histories viewed, described, defined, and reacted to "criminal" behavior.

HIST447 - Culture and the British Empire 447-3 Culture and the British Empire. This course will focus on the culture of modern British imperialism. It will examine the impact that the people and commodities of the empire as well as the practices of imperial rule had on modern British culture. The emphasis of the course will be on the implications of "imperial culture" in mediating gender, race, and class relations within the broader empire as well as contemporary Britain. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST448 - Gender/Family Modern US Hist 448-3 Gender and Family in Modern U.S. History. (Same as WGSS 448) This course explores the history of gender and the family in the United States from the late 19th century to the present. Themes to be explored include: the family and the state, motherhood, race and family life, and the role of the "family" in national politics.

HIST450A - Colonial America 450A-3 Colonial America. The evolution of American society from European settlement through the Age of Jefferson, with special emphasis on social and political institutions and thought.

HIST450B - American Revolution 450B-3 American Revolution. The evolution of American society from European settlement through the Age of Jefferson, with special emphasis on social and political institutions and thought.

HIST451 - Antebellum America 451-3 Antebellum America. The struggle to define the nation in the political, economic and social realms; the emergence of women's rights, slavery, sectional conflict from 1815 to 1860.

HIST452 - The Civil War & Reconstruction 452-3 The Civil War and Reconstruction. The study of the background to the Civil War, the Civil War, Reconstruction, and the Gilded Age.

HIST455 - American Conservatism 455-3 The Conservative View in American History. Readings in American conservative thought, from the eighteenth-century to the present day, including traditionalist, neoconservative and libertarian writers. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST457 - American Environmental History 457-3 American Environmental History. (Same as GEOG 457) An exploration of the attitudes toward and the interaction with the natural resource environment of North America by human settlers. Coverage from the Neolithic Revolution to the present.

HIST458 - Bantu Diasporas 458-3 Bantu Diasporas in Africa & the Atlantic World. (Same as AFR 458) This course examines the origins and development of Bantu language and culture groups in Africa and the Atlantic World from the first dispersal of Bantu-speaking people thousands of years ago through the end of slavery in the Americas. Additionally, the course explores the multiple methods and disciplines used to construct histories of Bantu language and culture groups.

HIST460 - Slavery & The Old South 460-3 Slavery and The Old South. (Same as AFR 460) This course examines slavery and southern distinctiveness from the colonial period to 1861. Discussion topics include the plantation system, race relations, women and slavery, and southern nationalism.

HIST461 - Black Ams on Western Frontier 461-3 Black Americans on the Western Frontier. (Same as AFR 461) This course examines the history of African Americans in the American West. Taking both a chronological and thematic approach, it begins with a discussion of early black explorers in the age of encounter, and ends with a focus on black western towns established in the United States by the 1880's.

HIST464 - American Capitalism 464-3 History of American Capitalism. This course examines the growth of the American economy, economic thought, the evolution of the firm, and the changing place of women and minorities in American business society. It also explores the intersection between business and other institutions in American life, including labor, law, literature, government, education and religion. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

HIST465 - History of Sexuality 465-3 History of Sexuality. (Same as WGSS 465) Comprehensive survey of sexuality from the early modern period to the present. Examines social trends, politics, and cultural debates over various forms of sexuality. Students will engage in discussion, research, and writing. Areas of emphasis vary by instructor.

HIST466A - Trans-Appalachian Frontier 466A-3 History of the American West-Trans-Appalachian Frontier. The American frontier and its impact on American society from the colonial period to the 20th century.

HIST466B - Trans-Mississippi Frontier 466B-3 History of the American West-Trans-Mississippi Frontier. The American frontier and its impact on American society from the colonial period to the 20th century.

HIST470 - Latin Amer-Continuity & Change 470-3 Continuity and Change in Latin America. An in-depth examination of major topics in the history of Latin America since pre-Columbian times, especially themes that have been prominent in recent scholarship. Lectures will be supplemented by outside readings and class discussion.

HIST471 - History of Modern Japan 471-3 History of Modern Japan. An examination of Japanese History from the early Tokugawa period to the present. Major topics include the creation of the Japanese bureaucracy, commercialization and industrialization, and cultural experimentation.

HIST473 - Comparative Slavery 473-3 Comparative Slavery. (Same as AFR 473) A comparative study of slavery from antiquity to its abolition in the 19th century with the differing socio-cultural, political and economic contexts; organized chronologically, regionally and thematically.

HIST478 - Southern Africa, 1650-1994 478-3 Southern Africa, 1650-1994. (Same as AFR 478) An examination of Southern African history with emphasis on South Africa from 1652 to 1994. Topics to be covered include conflicts and wars, migrations and state formations, the economics of minerals, industrialization and the Anglo-Boer War, intertwined histories of race relations, the politics of exclusion and apartheid, and the making of modern South Africa.

HIST480A - History of China 1350-1890 480A-3 History of China-Late Imperial China, 1350 to 1890. An in-depth examination of political, economic, social and cultural history of China from 1350 to 1890. Examines the imperial state, gentry and peasants, commercialization and social change in China from 1350 to 1890.

HIST480B - History of China 1890-Present 480B-3 History of China-Twentieth Century China, 1890 to the Present. An in-depth examination of political, economic, social and cultural history of China from 1890 to the present. Focuses on nation building, ideology and rural-urban culture in 20th Century China.

HIST481 - History African American Women 481-3 History of African American Women. This course examines the history of African American women. Topics include slavery and freedom, community building, leadership, education, politics, religion, and the establishment of African American women's organizations. Participation in the abolition, suffrage, feminist, gay and lesbian, civil rights and black

power movements are also topics of discussion. The course speaks to the resilience African American women showed despite the obstacles of race, class, and gender confronting them at every turn.

HIST485 - Revolutions Middle East 485-3 Revolutions in the Middle East. (Same as HIST 485H) This class examines aspects of revolutions and revolutionary attempts in the history of the modern Middle East. Recognizing revolution as a global phenomenon, it begins by considering a variety of historical and theoretical approaches to understanding revolutions. It asks questions such as what constitutes a revolution, what contexts and causes lead to revolutions, and what effects revolutions engender. It then examines revolutions in the modern Middle East more closely by focusing on several specific cases such as the Ottoman and Iranian constitutional revolutions, the secular revolutionary experiment in early twentieth-century Turkey, attempts at a socialist revolution in the Arab world, the Islamic Revolution in Iran, and the Arab Spring. Not open to freshmen.

HIST485H - Revolutions Middle East 485H-3 Revolutions in the Middle East. (Same as HIST 485) This class examines aspects of revolutions and revolutionary attempts in the history of the modern Middle East. Recognizing revolution as a global phenomenon, it begins by considering a variety of historical and theoretical approaches to understanding revolutions. It asks questions such as what constitutes a revolution, what contexts and causes lead to revolutions, and what effects revolutions engender. It then examines revolutions in the modern Middle East more closely by focusing on several specific cases such as the Ottoman and Iranian constitutional revolutions, the secular revolutionary experiment in early twentieth-century Turkey, attempts at a socialist revolution in the Arab world, the Islamic Revolution in Iran, and the Arab Spring. Honors students will complete an extra project for the course. Not open to freshmen.

HIST486 - Arab-Israeli Conflict 486-3 Arab-Israeli Conflict. This course focuses on the background to, and current dimensions of, the continuing conflict between Israel, the Palestinians and the rest of the Arab world. Beginning with origins of Zionism in the late nineteenth century, it examines, the foundation of Israel, Palestinian responses, and relations between Israel and its Arab neighbors.

HIST487 - Civil Rights Movement 487-3 The U.S. Civil Rights Movement. (Same as AFR 497) This course provides an overview of the history of the Civil Rights Movement while engaging major debates in the field of Black Freedom Studies. Central themes will include the impact of the Cold War, the roles of women, and the relationship of civil rights to black power. We will also discuss the difference between popular memory and historical scholarship as well as the meaning of such discussions for contemporary issues of racial and economic justice.

HIST488 - Islamic Political Movements 488-3 Islamic Political Movements. This course examines the use of Islamic ideals and rhetoric in social and political movements in the Middle East from the nineteenth century to the present. It focuses on political parties such as the Muslim Brotherhood in Egypt, the Welfare Party in Turkey, and Hamas in Palestine.

HIST489 - Women State Relign in Mid East 489-3 Women, State and Religion in the Middle East. (Same as WGSS 489) Following an introduction to the question of women in Islamic law and Islamic history, this course will examine the changing status and experiences of women in a number of Middle Eastern countries in the 20th century, focusing on Egypt, Iran, and Turkey. Major themes will include legal, social and political rights, participation in social and economic life, cultural and literary production, and recent secular and Islamist women's movements.

HIST490 - Special Readings in History 490-1 to 4 Special Readings in History. Supervised readings for students with sufficient background. Registration by special permission only.

HIST491 - Historiography 491-3 Historiography. Writings of historians from Herodotus to the present.

HIST493 - Topics in History 493-1 to 6 Topics in History. Topics vary with instructor. May be repeated for a maximum of six semester hours provided registrations cover different topics. Topics announced in advance.

HIST496A - Internship in History 496A-1-9 Internship in History. Supervised field work in public or private agencies or operation where history majors are frequently employed, such as archives and libraries, government offices, communications media, historic sites, and museums. Only three hours

may be applied to the major and six hours toward the M.A. degree. Special approval needed from the instructor.

HIST496B - Internship in Local History 496B-1-9 Internship in Local History. (Same as ARC 434) Field experience in research and preservation related to regionally and nationally recognized historic sites in southern Illinois. Special approval needed from the instructor.

HIST497 - Restoration & Archives 497-3 Historical Museums, Sites, Restorations and Archives. The development of museums from antiquity to the present, with emphasis on the United States. Additional topics include historical sites such as battlefields, historic buildings, restorations, monuments and archives. Also examines the purposes and functions of the museum and the tasks of professionals employed in museums or interpretative centers. Given in cooperation with the University Museum.

HIST498 - Oral History and Media 498-3 Oral History, Storytelling and Media. (Same as RTD 455) This course will develop an appreciation of the field of oral history, methodological concerns, and applications. Students will learn about the oral history process, including interview preparation and research, interview technique, the nature and character of evidence, transcribing, and legal and ethical concerns. Restricted to Junior or Senior standing.

HIST500 - The Historian's Craft 500-3 The Historian's Craft. Examination of historical methodology and recent trends in historiography. How historians conduct research and convey the results of it. Special treatment of selected topics of historiography. Required of M.A. degree students. Ph.D. degree students should consult graduate advisers.

HIST501 - Recent Historiography 501-4 Recent Historiography. Trends in historical writing and historical interpretation in the 20th Century. Required of M.A. degree students. Ph.D. degree students should consult graduate advisers.

HIST522 - Colloquium in European History 522-4-8 (4 per semester) Colloquium in European History. Group reading and discussion about major periods, subregions and themes in European history. May be repeated as instructors and topics vary.

HIST523 - Research Sem in European Hist 523-4 to 20 (4 per semester) Research Seminar in European History. Research and writing on selected topics in European history. Students will prepare a major paper. May be repeated as topics and instructors vary.

HIST551 - Colloquium Middle East History 551-4-8 (4 per semester) Colloquium in Middle East History. Group reading and discussion about major periods, subregions, and themes in the history of the Middle East and the Islamic world. May be repeated as topics vary.

HIST552 - Seminar Middle East History 552-4-8 (4 per semester) Research Seminar in Middle East History. Research and writing on selected topics in the history of the Middle East and the Islamic world. Students will prepare a major paper. May be repeated as topics vary.

HIST554 - Colloquium in U. S. History 554-4 to 8 (4 per semester) Colloquium in United States History. Group reading and discussion about major periods, subregions and themes in United States history. May be repeated as instructors and topics vary.

HIST555 - Research Seminar in U.S. Hist 555-4 to 20 (4 per semester) Research Seminar in United States History. Research and writing on selected topics in United States history. Students will prepare a major paper. May be repeated as topics and instructors vary.

HIST570 - Research Sem in Latin America 570-4 to 12 (4 per semester) Research Seminar in Latin American History. Research and writing on selected topics in Latin American history. Students will prepare a major paper. May be repeated as topics vary.

HIST571 - Colloquium in Latin Amer Hist 571-4-8 (4 per semester) Colloquium in Latin American History. Group reading and discussion about major periods, subregions and themes in Latin American history. May be repeated as instructors and topics vary.

HIST580 - Reserch Seminar in Asian Hist 580-4 to 12 (4 per semester) Research Seminar in Asian History. Research and writing on selected topics in Asian history. Students will prepare a major paper. May be repeated as topics vary.

HIST581 - Colloquium in Asian History 581-4-8 (4 per semester) Colloquium in Asian History. Group reading and discussion about major periods, subregions and themes in Asian history. May be repeated as instructors and topics vary.

HIST582 - Colloquium in World History 582-4-8 (4 per semester) Colloquium in World History. Group reading and discussion about major periods, subregions and themes in world history. May be repeated as instructors and topics vary.

HIST583 - Res Seminar World History 583-4 to 12 (4 per semester) Research Seminar in World History. Research and writing selected topics in World History. Students will prepare a major paper. May be repeated as topics vary.

HIST584 - Colloquium Comparative History 584-4-8 (4 per semester) Colloquium in Comparative History. Group reading and discussion relating to cross cultural or other comparative approaches in history. May be repeated as instructors and topics vary.

HIST585 - Research Sem in Comp Hist 585-4 to 8 (4,4) Research Seminar in Comparative History. Research on selected topics employing cross-cultural or other comparative approaches. Students will prepare a major paper. May be repeated as topics vary.

HIST586 - Colloquium in African History 586-4-8 (4 per semester) Colloquium in African History. Group reading and discussion about major periods, subregions and themes in African history. May be repeated as instructors and topics vary.

HIST587 - Research Seminar African Hist 587-4 to 12 (4 per semester) Research Seminar in African History. Research and writing on selected topics in African history. Students will prepare a major paper. May be repeated as topics vary.

HIST590 - Readings in History 590-1 to 8 (1 to 3 per semester) Readings in History. Individual readings. Registration by special permission only. Student must obtain the consent of the faculty member involved. M.A. degree students are limited to a maximum of 4 hours toward the 30-hour requirement. Graded S/U only. Registration by special permission only.

HIST596 - Tutorial in History 596-3 Tutorial in History. Research and writing in history in close consultation with an instructor to produce a major paper on a selected topic. This course may count toward graduation as a seminar and the paper will be placed on file in the Department of History. Students may take this course only once at the M.A. level and once at the Ph.D. level. Special approval needed from the director of graduate studies.

HIST597 - Practicum Teach College Hist 597-1 to 9 (1 to 3 per semester) Practicum in Teaching College-Level History. Students will learn how to lead discussion sections and/or to teach independent courses at the college level. M.A. or Ph.D. students assigned for the first time as a discussion leader must take this course. The course also is required for Ph.D. students who are teaching their own courses for the first time. Graded S/U only. Restricted to graduate students in history. Special approval needed from the director of graduate studies.

HIST598 - Graduate Internship History 598-1 to 9 Graduate Internship in History. Supervised field work in occupationally related fields in public history, teaching, university publishing, historical editing. Programs of field work will be designated by students in consultation with their advisory committees. Students at the Ph.D. level can take as many as 9 hours in the course of their studies. Graded S/U or DEF.

HIST599 - Thesis 599-1 to 6 Thesis. Minimum of three hours to be counted toward a Master's degree.

HIST600 - Dissertation 600-1 to 30 (1 to 16 per semester) Dissertation.

HIST601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their

dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

HIST699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Kinesiology

Master of Science in Education

Graduate courses in Kinesiology are offered toward the Master of Science in Education degree with a major in Kinesiology.

Two study tracks are available:

1. **Sport Studies** (with specializations in Sport Management, Social Psychology of Sport)
2. **Exercise Science** (with specializations in Biomechanics, Exercise Physiology, Motor Behavior)

Options for Sport Studies Program (37 Hours)

Requires a minimum of 31 semester hours of credit plus one of the following six-hour options:

- Thesis - KIN 599, 6 hours
- Research Project - KIN 592, 3 hours
Additional Class, 3 hours
- Professional Development Project - KIN 594, 3 hours
Additional Class, 3 hours
- Internship - KIN 555, 6 hours

The following are required courses in Sport Studies: KIN 501, KIN 504, KIN 513, KIN 550, or approved substitutes that are 500-level coursework.

Options for Exercise Science Program (37 Hours)

Requires a minimum of 31 semester hours of credit plus one of the following six-hour options:

- Thesis - KIN 599, 6 hours
- Research Project - KIN 592, 3 hours
- Additional Class, 3 hours

The following are required courses in Exercise Science: KIN 511, KIN 520, KIN 525, KIN 530, or approved substitutes that are 500-level coursework.

Criteria for Unconditional Admission

1. Admission to the Graduate School which requires a requires a 2.70/4.00 for the last 60 hours of coursework.
2. Three completed "Request for Recommendation" forms provided by the Graduate School.
3. A review of the application by the appropriate faculty and a willingness of a faculty member to serve as the program advisor for the applicant.
4. This program requires a nonrefundable \$65 application fee that must be submitted with the online application for Admission to Graduate Study in Kinesiology. Applicants must pay this fee by credit card.

A degree in Kinesiology is not required for admission into the graduate program. An individual program in Exercise Science or Sport Studies will be developed for the student. Completed applications are reviewed as they are received. Up to but not exceeding 12 hours of *B* grade or higher transfer credits will be considered by the department for application to the course work requirement and, for advisement purposes, should be considered during the first semester in the program.

Requirements

All students are required to take KIN 500 (Techniques of Research) and a graduate class in statistical procedures. Additional requirements for the degree are specific to the respective areas of either Exercise Science or Sport Studies. All students not doing a thesis or other culminating projects must pass a comprehensive examination which may be taken after the major portion of the course work has been completed. If the research project option is selected, submission of the completed Research Project must comply with the rules of the Graduate School. If the thesis option is selected submission of the thesis will be electronic and must comply with the rules of the Graduate School.

Graduate Assistantships

A limited number of graduate assistantships are available on a competitive basis to students in a degree program. The Graduate Teaching Assistantships are for instruction in the undergraduate program and are available to applicants who have appropriate qualifications relevant to the teaching area. Applications may be obtained from the Director of the School of Human Sciences and they are reviewed by a committee independently of the admissions process. In order to hold a graduate assistantship, a student must be registered as a full time student (eight hours, fall/spring; three hours, summer) during the semester of appointment.

Kinesiology Courses

KIN400 - Psychology of Injury 400-3 Psychology of Injury. This course will explore the theory and research related to the psychological aspects of injury and injury rehabilitation. The focus is on theory and application. Case studies will be used to explore assessment and intervention approaches relevant for different levels of athletic training, sports medicine and sport psychology professionals.

KIN402 - Exer Prog Cancer Survivors 402-2 Exercise Programming for Cancer Survivors and Caregivers (Strong Survivors Staff Training). The primary goal of this course is to give both graduate and undergraduate students the necessary tools to successfully prescribe and administer safe and effective exercise programs and assessments for cancer survivors and caregivers as a staff member for the Strong Survivors Exercise and Nutrition Program for Cancer Survivors and Caregivers. The course will also give students a baseline of knowledge that will help prepare them to sit for cancer exercise trainer certification exams. Special approval needed from the instructor.

KIN408 - Advanced Exercise Prescription 408-3 Advanced Exercise Prescription. Advanced exercise prescription provides an analysis of physical fitness as it relates to the total well-being of the individual. The course contains specific units on fitness parameters, hypokinetic disease, stress, current levels of physical fitness, but emphasizes the creation of training programs. The course contains exercise prescription for healthy, at risk, overweight and chronically ill populations. Prerequisite: KIN 382 and KIN 320.

KIN416 - Team Building 416-3 Introduction to Team Building. The purpose of this course is to acquaint students, teachers, coaches and administrators with the "team building model". The course will focus on icebreakers, trust and communication initiatives, problem solving skills and processing. The goal of this introductory course is for the participants to become familiar and acquire team building skills, to develop a workable team building model and initiate the plan in the classroom or workplace.

KIN420 - Advanced Exercise Physiology 420-3 Advanced Exercise Physiology. The general physiological effects of motor activity upon the structure and function of body organs; specific effect of exercise on the muscular system. Prerequisite: PHSL 201 and KIN 320.

KIN421 - Principles Skel Muscle Action 421-3 Principles of Skeletal Muscle Action. The neural, physiological and mechanical basis of skeletal muscle action and plasticity in relation to the expression of strength and power. Prerequisite: PHSL 201 and KIN 320.

KIN428 - Phys Act/Exercise-Older Adults 428-3 Physical Activity and Exercise for Older Adults. (Same as GRON 428) This course is designed to introduce the student to physical changes of the older person with reference to activity and exercise and to teach the student about rational activity and exercise programs for the older person with consideration of the care and prevention of typical injuries that may occur with such programs.

KIN493A - Individual Research: Dance 493A-2 to 4 Individual Research-Dance. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493B - Individual Research:Kinesiology 493B-2 to 4 Individual Research-Kinesiology. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493C - Individual Research:Measurement 493C-2 to 4 Individual Research-Measurement. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493D - Individual Research:Motor Development 493D-2 to 4 Individual Research-Motor Development. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493E - Individual Research:Physiology of Exercise 493E-2 to 4 Individual Research-Physiology of Exercise. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493F - Individual Research:History & Philosophy 493F-2 to 4 Individual Research-History and Philosophy. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493G - Indiv Research:Motor Learning 493G-2 to 4 Individual Research-Motor Learning. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493H - Ind Res:Psycho/Social Aspects 493H-2 to 4 Individual Research-Psycho-social Aspects. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN493I - Ind Res: Sport Management 493I-2 to 4 Individual Research-Sport Management. The selection, investigation, and writing of a research topic under supervision of an instructor. Written report required. Special approval needed from the instructor.

KIN494A - Practicum in Kinesiology 494A-1 Practicum in Kinesiology. Supervised practical experience at the appropriate level in selected kinesiology activities in conjunction with class work. Work may be in the complete administration of a tournament, field testing, individual or group work with special populations, administration of athletics or planning kinesiology facilities. Special approval needed from the instructor.

KIN494B - Practicum in Kinesiology 494B-1 Practicum in Kinesiology. Supervised practical experience at the appropriate level in selected kinesiology activities in conjunction with class work. Work may be in the complete administration of a tournament, field testing, individual or group work with special populations, administration of athletics or planning kinesiology facilities. Special approval needed from the instructor.

KIN500 - Techniques of Research 500-3 Techniques of Research. Study of research methods and critical analysis of research literature specifically applied to the areas of sport exercise and motor performance. Special approval needed from the instructor.

KIN501 - Foundtns Sport/Fitness Mgmt 501-3 Foundations of Sport and Fitness Management. An introduction to broad concepts and issues regarding the management of health clubs, corporate fitness programs; and various components of amateur and professional sport organizations. Students will investigate foundational aspects of sport and fitness management, examine requirements for operating successful programs, and gain insight into various career opportunities.

KIN502 - Interview Research 502-3 Methods of Interview Research. This course will familiarize students with the theory and techniques of interview research and demonstrate the application of this research method to practice. Students will engage in a group interview project focusing on a selected issue and an individual project utilizing interview research in their specialty area. No prerequisites required.

KIN503 - Seminar in Kinesiology 503-2 Seminar in Kinesiology. Making a systematic analysis of problems and issues encountered in the conduct of kinesiology. Selection of a problem or issue that is a concern to Kinesiology and suggestion of solutions.

KIN504 - Psych Aspects of Sport 504-3 Psychological Aspects of Sport. This course presents the theoretical and empirical foundations of sport psychology. Operating from a conceptual rather than an applied framework, this class develops an understanding of social psychological phenomena and processes related to participation in sport and physical activity (e.g., personality, anxiety, arousal, achievement motivation, social facilitation, aggression, pro-social behavior, group dynamics).

KIN505 - Topical Seminar Kinesiology 505-3 to 12 (3 per topic) Topical Seminar in Kinesiology. Students may concentrate on different topics each semester dependent upon both the interests of the students and the expertise of the graduate faculty. Special approval needed from the instructor.

KIN506 - Medical Aspects of Exercise 506-3 Medical Aspects of Exercise. This course is a presentation/discussion style course in which students will examine and discuss the principles of exercise testing and prescription for individuals from a wide variety of disease/disability backgrounds. Discussion will include issues of caution/contradiction for various forms of exercise, the role of exercise as a therapeutic modality and exercise as a means of preventive medicine. Prerequisite: KIN 420.

KIN507 - Organizational Behav in Sport 507-3 Organizational Behavior in Sport. This course provides students with an examination of fundamental theories and practices related to behavior of individual and groups in sport organizations. The focus will be on the practical application of the theories to the actions

of sport and physical activity managers. Special emphasis will be on: ethics in organizations, leadership, managerial decision making, motivation, organizational commitment, and managing a diverse work force.

KIN508 - Administration of Athletics 508-3 Administration of Athletics. Designed to present a broad view of the role, structure and governance of interscholastic and intercollegiate athletics programs. This course will enable students to develop and comprehend current knowledge, theories and practices in athletic management which operate within a framework of state and national governance policies and rules.

KIN510 - Motor Development 510-3 Motor Development. In-depth study of the development of gross motor skills from infancy through adolescence, the biological and environmental variables that affect motor development, and individual differences in attaining motor proficiency. In addition, selected current issues in motor development will be examined. No prerequisite.

KIN511 - Biomech Analysis Hum Mov 511-3 Biomechanical Analysis of Human Movement. Biomechanical concepts will be reviewed, as well as discussion concerning tissue mechanics, and the integration of the neural control of movement. Importance will be placed on application of mechanical principles when analyzing basic human movements. Includes completion of a topical research paper. Prerequisite: KIN 321 or equivalent.

KIN512 - Biomechanic:Human Motion 512-3 Biomechanics of Human Motion. Methods of data collecting and analyzing the biomechanics of human motion under normal and pathological conditions are covered. Students complete a biomechanical study for a one segment motion.

KIN513 - Social Aspects of Sport 513-3 Social Aspects of Sport and Physical Activity. This course presents the theoretical and empirical foundations of sport sociology. It is a survey course designed to introduce you to a variety of topics concerned with sociological aspects of sport and physical activity. A research-based approach is used to explore the relationship of sport to various social institutions, as well as the role of social processes in sport and physical activity contexts.

KIN514 - Res/Practice Appl Sport Psyc 514-3 Research and Practice in Applied Sport Psychology. This course examines current research and practice in applied sport psychology. Emphasis will be placed on moving from theory into practice on sport-specific individual differences, motivational approaches, and interventions.

KIN515 - Body Composition & Performance 515-3 Body Composition and Human Physical Performance. Physical dimensions of the human body as they influence motor performance and are modified by protracted physical exercise. Prerequisite: KIN 420 or equivalent.

KIN517 - Athletic Facility Design 517-3 Athletic and Kinesiology Facilities Design, Construction, and Maintenance. This course examines the principles and states of planning to manage an Athletic and Kinesiology facility. Basic principles of design, construction, maintenance and how to manage facilities based upon program characteristics.

KIN520 - Metabolic Analys: Hum Activity 520-3 Metabolic Analysis of Human Activity. Metabolic principles pertinent to human physical performance with emphasis on sport, exercise and occupational activity analysis. A detailed study of oxygen utilization, oxygen debt, mechanisms of oxygen transport as they relate to physiological homeostasis in localized and total body motor activity. Emphasis on the laboratory study of aerobic and anaerobic performance. Prerequisite: KIN 420 or equivalent.

KIN525 - Motor Learning 525-3 Motor Learning-Theories of Research. This course will provide a theory and research foundation for understanding motor skill acquisition and factors that influence the learning of motor skills. This foundation is important to develop research that will increase understanding of motor skill learning, and to design effective practice conditions that enhance learning. Various topics related to the cognitive and motor processes influencing motor skill learning will be discussed.

KIN530 - Exercise Psychology 530-3 Exercise Psychology. This course explores the theory and research related to the psychological and social aspects of exercise and how exercise may impact the individual's psychological health and behavior. The focus is on theory and application. It covers theories and models of exercise behavior, psychosocial outcomes of exercise, social factors in exercise behavior, and physical activity interventions.

KIN540 - Sport Promotions 540-3 Sport Promotions. This course provides the theoretical foundation of promotions specific to the sport industry. It will include professional applications to profit and non-profit sport organizations.

KIN550 - Legl Asp Spt Phys Act 550-3 Legal Aspects of Sport and Physical Activity. A course designed to acquaint student with legal research and the role that law plays in governing the kinesiology, sport and fitness industries. The student will actively research various theories of law and how they affect the nature of kinesiology, sport fitness activity, the participants and consumers. An additional focus will be on specific situations that give rise to injury and subsequent law suits.

KIN555 - Internship:Sport Mgmt 555-1 to 6 Internship in Sport Management. The internship is a culminating experience directly related to the student's intended employment or area of interest. It will, therefore, normally be taken after the predominance of course work is completed. The internship may be completed in any appropriate setting as judged by the faculty associated with the area of sport management. All conditions of placement, conduct and evaluation of the internship will be under the jurisdiction of the appropriate faculty. Graded S/U only. Special approval needed from the instructor.

KIN560 - Gender and Sport 560-3 Gender and Sport: Sociological and Psychological Perspectives. (Same as WGSS 560) This course explores psychological and sociological dimensions underlying the concept of gender and critically examines how gender relates to sport and physical activity. Students will be introduced to non-traditional as well as traditional research that addresses the issue of gender in various physical activity contexts.

KIN580 - Financial Aspects of Sport 580-3 Financial Aspects of Sport. The primary goal of this course is to provide students with a basic knowledge and understanding of the principles, processes, and strategies related to the financial aspects of sport organizations, which consist of professional sport franchises, college athletic departments, community recreation programs, etc. The focus will be on the many conventional and innovative revenue acquisition methods applicable to sport oriented organizations. In addition to the basic accounting concepts and budgeting techniques, this course will address current topics in the field of sport financing, including: tax support, municipal and corporate bonds, economic impact analysis, fundraising, licensing, ticket sales, concessions, and corporate sponsorships.

KIN590 - Readings in Kinesiology 590-1 to 4 Readings in Kinesiology. Supervised readings in selected subjects. Special approval needed from the instructor.

KIN592 - Research in Kinesiology 592-2 to 8 Research in Kinesiology. Plan, conduct, and report assigned research studies. Masters students may take up to three credit hours. Doctoral students must enroll for a minimum of six credit hours. Graded S/U only. Prerequisite: KIN 500 or equivalent. Special approval needed from the instructor.

KIN594 - Professional Developmnt Project 594-3 Professional Development Project. Supervised independent work leading to the production of a professional development project that can be utilized in the student's professional career. The exact nature of the project is to be determined by the student and the respective graduate advisor. An additional graduate faculty member in the student's area of study also must approve the project before the student begins work. Graded S/U only. Special approval needed from the instructor.

KIN599 - Thesis 599-1 to 6 Thesis. Graded S/U. Prerequisite: KIN 500 or equivalent.

KIN601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

KIN699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Kinesiology Faculty

Ackerman, Kenneth, Assistant Professor, *Emeritus*, M.A., Michigan State University, 1959; 1969.

Anton, Philip M., Associate Professor, Ph.D., University of Northern Colorado, 2006; 2007. Exercise Physiology.

Becque, M. Daniel, Associate Professor, Ph.D., University of Michigan, 1988; 1990. Exercise Physiology.

Blinde, Elaine M., Professor, *Emerita*, Ph.D., University of Illinois, 1987; 1987.

Brechtelsbauer, Kay, Assistant Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1980; 1965.

Good, Larry, Associate Professor, *Emeritus*, Ed.D., Temple University, 1968; 1967.

Knapp, Bobbi, Associate Professor, Ph.D., University of Iowa, 2008; 2009. Sport Studies.

Knowlton, Ronald, Professor, *Emeritus*, Ph.D., University of Illinois, 1961; 1961.

Olson, Michael, Associate Professor, Ph.D., Louisiana State University, 2006; 2006. Biomechanics.

Park, Meungguk, Associate Professor, Ph.D., The Ohio State University, 2005; 2005. Sport Management.

Partridge, Julie, Professor, Ph.D., University of Northern Colorado, 2003; 2004. Sport and Exercise Psychology.

Porter, Jared, Associate Professor, Ph.D., Louisiana State University, 2008; 2008. Motor Behavior.

Potter, Marjorie Bond, Professor, *Emerita*, Ph.D., University of Southern California, 1958; 1961.

Vogler, E. William, Professor, *Emeritus*, Ed.D., University of Utah, 1980; 2011. Physical Education Teacher Education.

Wallace, Juliane, Associate Professor, *Chair*, Ph.D., Iowa State University, 2004; 2004. Exercise Physiology.

West, Charlotte, Professor, *Emerita*, Ph.D., University of Wisconsin, 1969; 1957.

Wilson, Donna, Associate Professor, *Emerita*, M.F.A., University of Oklahoma, 1975; 1986. Dance.

Yoh, Taeho, Professor, Ph.D., Florida State University, 2001; 2001. Sport Management.

Languages, Literatures, and Cultures

The Department of Languages, Cultures, and International Trade offers a Master of Arts degree in Languages, Literatures, and Cultures with a specialization in either French or Spanish. The degree program includes courses in literature, linguistics, translation, pedagogy, and instructional technology, and allows for considerable breadth of study while offering a well-balanced degree plan.

Admission

A non-refundable application fee of \$65 must be paid with credit card when applying through Hobsons Radius. In addition to meeting requirements of the Graduate School, the applicant for admission should have a Bachelor's Degree with a major in the appropriate language of specialization or at least 18 semester hours (27 quarter hours) of relevant courses in the language at the junior-senior level. Students not meeting minimum requirements in coursework or in language proficiency may be given the option of taking additional coursework to make up the deficiency before being officially accepted to the program. These courses will not count towards fulfilling the degree requirements. Students who meet requirements for admission to the Graduate School but do not meet the departmental requirements may register as unclassified students for specific graduate courses in the department only with consent of the instructor and authorization from the Director of Graduate Studies.

General Requirements

Students must take 33 credit hours of coursework that must include:

- FL 436; FR 501 / SPAN 501; FR 570 / SPAN 570
- Four additional classes of literature/culture (for Spanish students, at least one of these courses must be in Latin American Literature, and at least one in Peninsular Literature). Spanish students are also required to take SPAN 511. A minimum of 18 credit hours must be taken at the 500 or 600 levels.
- Three hours of Independent Study will be given only under exceptional circumstances and will not duplicate available courses. The Director of Graduate Studies is responsible for authorizing such work in cooperation with the individual professor.

Comprehensive Examinations

The French comprehensive exams will be based on the courses taken. The Spanish comprehensive examinations will be based on the program reading list. While many of the works on the reading list will be covered in classes, others will not. Consequently, students are expected to exhibit a breadth of knowledge that goes beyond what is covered in their classes.

For more detailed information on the format of the exam, consult with the Director of Graduate Studies. Each year a faculty member from the MA program will be in charge of the preparation, organization, scheduling, and proctoring of examinations.

Repeat Policy

Re-takes for failed examinations may be scheduled for the following: November, April, or August. Students will be given an entirely new exam. If the student does not pass the second time, s/he will be required to take an additional nine credit hours in Peninsular and Latin American literature/culture before being allowed to retake the exam for the third and last time.

NOTE: Students pass or fail the entire exam, not a single question or area. Students receiving a Graduate Assistantship who do not pass the exam the first time are not guaranteed additional funding.

Traditional M.A.

This option allows students to complete the MA in two years without having to take courses in the summer and/or without having to pursue a BA in our department (although students may choose to do either or both). Students must be accepted into the program prior to commencing coursework towards the degree:

- **First Semester:** 3 courses
- **Second Semester:** 3 courses
- **Third Semester:** 3 courses
- **Fourth Semester:** 2 courses; Comprehensive Examinations

Five-year B.A./M.A.

This option allows students in the SIU Carbondale Spanish B.A. program to transfer nine credits of 400- or 500-level language courses over to the M.A. degree. Students enrolled in our B.A. program who have maintained a 3.25 grade point average in 300- and 400-level courses may apply to the five-year M.A. at the end of their junior year. If they are accepted, they continue on with their coursework for another year (including two summers) after graduating with the B.A.

- **First Summer Session:** 1 course
- **First Semester (Fall):** 3 courses
- **Second Semester (Spring):** 3 courses
- **Second Summer Session:** 1 course; Comprehensive Examinations

Or

- **First Summer Session:** 1 course
- **First Semester (Fall):** 3 courses
- **First Semester (Spring):** 3 courses; Comprehensive Examinations
- **Second Summer Session:** 1 course

Double Majors

Students may pursue a double major in Languages, Literatures, and Cultures together with an M.A. in another program. Consult “Double Major for a Master’s Degree” in the Degree Requirements section of this catalog for Graduate School requirements for double majors. In addition to meeting the Graduate School requirements, double majors must complete a minimum of 21 credit hours of coursework in the Department of Languages, Cultures, and International Trade, 18 of which must be in the language of study.

Curriculum Planning

Prior to registering, students are required to plan their curriculum with the Department’s Director of Graduate Studies who will advise the student in all matters pertaining to his/her M.A. Program.

Pertaining to Courses

At least 15 hours of course work must be earned in courses at the 500-level or above, and a minimum of 21 hours of coursework must be taken in the language of study (18 for double majors). No more than half the credit applied toward fulfillment of the degree requirements may be transferred from other universities. A student has three calendar years to complete the degree and must remain registered in (FR 601 / SPAN 601 (Continuing Enrollment)) until the degree is completed.

Grades and Grade-Point Average

Any graduate student whose grade point average falls below 3.0 will be placed on academic probation. Any graduate student on academic probation whose grade point average remains below 3.0 for two consecutive semesters in which she or he is enrolled, excluding summer sessions, will be permanently suspended from the Graduate School, unless the department and the collegiate dean petition the graduate dean for an exception.

French Courses offered:

- FR 410 (3) Selected Topics
- FR 490 (3) Advanced Independent Study
- FR 501 (3) Studies on a Selected Topic or Author
- FR 540 (3) Literature of the 18th Century
- FR 550 (3) Literature of the 19th Century
- FR 560 (3) Literature of the 20th Century
- FR 570 (3) The French and Their History
- FR 576 (3) Francophone Literature
- FR 580 (3) Masterpieces of French and Francophone Literatures

Spanish Courses offered:

- SPAN 414 (3) Translation Techniques
- SPAN 490 (3) Advanced Independent Study
- SPAN 501 (3) Studies of a Selected Topic or Author
- SPAN 511 (3) Linguistic Structure of Spanish
- SPAN 512 (3) History of the Spanish Language
- SPAN 520 (3) Literature of the Middle Ages
- SPAN 530 (3) The Golden Age: Drama
- SPAN 531 (3) Cervantes
- SPAN 532 (3) The Golden Age: Prose and Poetry
- SPAN 534 (3) Colonial Literature
- SPAN 550 (3) Neoclassicism and Romanticism in Spain
- SPAN 551 (3) Spanish-American Literature of the 19th Century
- SPAN 555 (3) Spanish Realism and Naturalism
- SPAN 560 (3) Modern Spanish Literature and Culture (1898 to Spanish Civil War)
- SPAN 561 (3) Spanish-American Literature of the 20th Century
- SPAN 565 (3) Post-War and Contemporary Spanish Literature and Culture

400-Level Courses in Spanish that can count towards the M.A.:

- SPAN 414 (3) Translation Techniques
- SPAN 420 (3) Studies in Literature of the Middle Ages
- SPAN 430 (3) The Golden Age: Drama
- SPAN 431 (3) Cervantes
- SPAN 432 (3) The Golden Age: Prose and Poetry
- SPAN 434 (3) Colonial Literature
- SPAN 450 (3) Neoclassicism and Romanticism
- SPAN 455 (3) Spanish Realism and Romanticism
- SPAN 451 (3) Studies in Latin American Literature of the 19th Century
- SPAN 465 (3) Post-War and Contemporary Spanish Literature and Culture
- SPAN 475 (3-6) Travel-Study in Latin America or Spain
- SPAN 490 (1-3) Advanced Independent Study

Foreign Language (FL) Courses:

- FL 436 (3) Methods in Teaching World Languages
- FL 437 (3) Introduction to Computer-Assisted Language Learning

Wu, Shu-Ling, Associate Professor, Ph.D., Cornell University, 2011; 2015.

Linguistics

The Department of Linguistics offers programs leading to the Master of Arts degree in Linguistics and the Master of Arts degree in Teaching English to Speakers of Other Languages (TESOL).

Overview of Graduate Programs

The M.A. program in Linguistics is designed to give students a broad training in most aspects of contemporary linguistics, including phonology, syntax, phonetics, semantics, historical linguistics, psycholinguistics, language acquisition, sociolinguistics, and field methods. In addition, students will pursue advanced study through further coursework and thesis research. Graduates of the linguistics program frequently go on to more advanced study and research in linguistics leading to the Ph.D. degree.

The M.A. program in TESOL is designed primarily for students who wish to pursue careers in the teaching of English to speakers of other languages either in the United States or abroad. The program combines both theory and practice. In addition to a core course in linguistics, students in the TESOL program are required to take courses in the theory and methods of language teaching, language assessment, and second language acquisition, and to teach in a supervised practicum in the teaching of oral and written English. Graduates of the TESOL program can go on to advanced study of language learning and teaching or related fields, in addition to pursuing a career in language instruction, instructional materials or test development, teacher training, program administration, or related areas.

For students who are interested in language study but are not committed to either graduate major, the department offers a number of interesting, non-specialist courses which may serve as electives in degree programs such as those offered by the Departments of Anthropology, Communication Disorders and Sciences, English, Languages, Cultures, and International Trade, Psychology, Communication Studies, and the College of Education and Human Services. A sequence of courses is also available for students wishing to pursue a double major combining linguistics or TESOL with other programs at the master's level.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admission to Graduate Study in Linguistics. Applicants must pay this fee by credit card. Applicants for admission should address inquiries to the Chair, Department of Linguistics, Southern Illinois University Carbondale, Carbondale, IL 62901-4517, USA.

Admission to the Degree Programs

Undergraduate GPA

Applicants for admission to either degree program, in addition to meeting the requirements for admission to the Graduate School, are expected to have undergraduate grade point averages of at least 3.0 (A = 4.0). Applicants with GPAs below 3.0 may be granted conditional admission. However, students admitted on a conditional basis must earn a graduate GPA of 3.0. Failure to do so will result in the student being dropped from the program.

Foreign Language Requirement

All students who are native speakers of English must have completed at least one semester of study of a foreign language within the preceding five years (excluding high school) and have achieved a grade of *B* or better. Those students who have achieved proficiency in a foreign language by means other than graded academic study must demonstrate that they have achieved a minimum level of novice-mid as defined in the proficiency guidelines published by the American Council on the Teaching of Foreign Languages. Students may also fulfill this requirement by taking one semester of a foreign language with a grade of *B* or better while they are enrolled in their M.A. program. In recognition of their experience in learning English, international students who have learned English as a second or foreign language are exempt from this requirement.

TOEFL and GRE

International student applicants who are not native speakers of English must achieve a score on the Test of English as a Foreign Language (TOEFL) of at least 577 (paper) or 90 (IBT), or 7.0 on the IELTS. Although submission of scores on the Graduate Record Examination (GRE) is not required for admission to the Graduate School nor to the department, applicants are advised that high GRE scores put them at a competitive advantage when applying for University fellowships or departmental assistantships.

Academic Retention

Academic Probation

As required by the Graduate School, any student whose GPA falls below 3.0 will be placed on academic probation. Any student who fails to return to good standing after one term on academic probation will not be eligible to hold a graduate assistantship. Any student who fails to return to good standing after two terms on academic probation will be dropped from the program. Any student who accumulates three or more incompletes will be put on academic probation and may return to good standing by reducing the number of incompletes to two or fewer.

Minimum Grades in Core Courses

As described below, both M.A. programs include a number of core courses which are required of all students. These courses must be passed with a grade of *B* or better. Students who receive a grade lower than *B* on a core course must take the course again. They will register officially for the course and will be granted a letter of permission to do so from the department. Both grades will be counted in calculating GPA. Students who need to repeat core courses may take other courses concurrently or sequentially for which the core courses are prerequisites.

Grade Point Average to Graduate

All graduate work must be completed with an overall GPA of 3.0.

Master of Arts Two-Year Degree in Linguistics

The Master of Arts in Linguistics requires 36 hours of coursework including a mix of required courses and restricted and non-restricted electives in all the major linguistic subfields. There are two options for completing the MA: a thesis option and a non-thesis option. Thesis writers are required to do advanced coursework in phonology or syntax and three to six hours of thesis writing; non-thesis writers have a little more flexibility in their advanced coursework and take more courses at that level in lieu of thesis writing credits.

Required Core Courses: All Candidates (9 semester hours)

All students must take the three LING courses in **Set A**:

- LING 505-3 The Professional Study of Linguistics
- LING 503-3 Phonological Theories
- LING 508-3 Syntactic Theory

Restricted Electives: all candidates (9 semester hours)

All students must take at least two of the LING courses in **Set B** for breadth of study.

- LING 415-3 Sociolinguistics
- LING 417-3 Language Contact
- LING 445-3 Psycholinguistics
- LING 402-3 Phonetics
- LING 500-3 Formal Semantics

All students must also take at least one writing-intensive LING course from **Set C**.

- LING 552-3 Field Methods in Linguistics
- LING 506-3 Historical Linguistics

Requirements specific to the two options (6 semester hours)

Additional coursework requirements diverge depending on whether students choose the thesis or non-thesis option for the MA.

The thesis option

Those students who wish to write theses must formally apply to the department by the beginning of the third semester. They must also take at least one of the advanced LING courses in **Set D**:

- LING 553-3 Advanced Phonology
- LING 558-3 Advanced Syntax

Thesis-writing students will also enroll in a minimum of three and a maximum of six hours of LING thesis writing.

- LING 599-3 to 6 Thesis writing course

The thesis is a written summary of a student's independent research conducted while enrolled in one of the department's M.A. programs. Every thesis is expected to include a clear statement of the topic, identification of the particular issues to be investigated, a literature review, an explanation of the procedures followed, and an analysis and discussion of research findings. Each student writing a thesis must have a thesis committee composed of at least three faculty members, one of whom serves as chair of the committee. Two of the three committee members must have their primary appointment in the Department of Linguistics. The thesis must be submitted to a public oral examination by the student's committee. Detailed information regarding the thesis may be found in *Thesis Policies and Guidelines*, copies of which are available from the department.

The non-thesis option

Students who do not write theses must take two additional LING courses from **Set C** and/or **Set D**.

Unrestricted electives

To complete the 36 hours required for the M.A. in Linguistics, students may choose electives from among courses offered within the department or relevant courses taught by faculty in the Departments of Anthropology, Communication Disorders and Sciences, Computer Science, English, Foreign Languages and International Trade, Philosophy, Psychology, Communication Studies, and the College of Education and Human Services (subject to departmental approval). Where appropriate, students are encouraged to take courses in quantitative and ethnographic research methods taught in the Departments of Counseling, Quantitative Methods, Special Education, and Anthropology. Students are also encouraged to attend the annual summer institutes sponsored by the Linguistic Society of America and TESOL. Credit may be allowed for coursework successfully completed in this way.

Master of Arts Degree in Teaching English to Speakers of Other Languages

The M.A. degree in TESOL blends linguistic science with the art of classroom practice. It prepares students both intellectually and experientially so that as professionals they are capable of making wise and informed choices among different language teaching approaches, methods, and techniques. In addition, students will understand how differences among individual students, teaching and learning situations, and social structures influence decisions they will be called upon to make as teachers or other language professionals. The TESOL master's program provides a firm and broad foundation in current theories of language and language learning and graduates will be prepared to take on careers as teacher educators and curriculum or assessment specialists as well as classroom teachers.

There are two options for completing the M.A. TESOL degree: a thesis option and a non-thesis option. In both cases 36 credits are required. Both options include five components: a group of core courses totaling 15 semester hours, a selection of language skills-related courses totaling 6 semester hours, a teaching specialty course (3 semester hours), free electives totaling 6 semester hours, and research training (6 semester hours)--either a thesis (thesis option) or additional course work from a selected group of focus courses with a substantial research component (non-thesis option).

Core Courses (15 semester hours)

All students in the MA TESOL program take the following five courses:

- LING 472-3 Assessment of ESL and Bilingual Students
- LING 505-3 The Professional Study of Linguistics
- LING 541-3 Second Language Acquisition
- LING 570-3 Methods and Materials of TESOL
- LING 583-3 TESOL Practicum

Language Skills (6 semester hours)

All students must take at least two of the following language skills-related courses:

- LING 531-3 Teaching Grammar and Writing in a Second Language
- LING 585-3 Teaching Listening and Speaking in a Second Language
- LING 587-3 Teaching Reading and Vocabulary in a Second Language

Teaching Specialties Courses (3 semester hours)

All students must take one of the following teaching specialties courses:

- LING 470-3 Theoretical Foundations of ESL and Bilingual Education
- LING 471-3 Bilingual Education Methods and Materials
- LING 573-3 Introduction to Computer-Assisted Language Learning
- LING 582-3 Course Design
- LING 586-3 English for Specific Purposes
- LING 5XX-3 Teaching Internship

Research Component (6 semester hours)

All students must take at least six semester hours from the following courses with a substantial research component:

- LING 415-3 Sociolinguistics
- LING 417-3 Language Contact
- LING 542-3 Advanced Seminar in Second Language Acquisition
- LING 543-3 Bilingualism
- LING 549-3 Research Methods in Linguistics and TESOL
- LING 584-3 Advanced Seminar in Grammar and Composition
- LING 589-3 Advanced Seminar in Reading and Vocabulary
- LING 590-3 Advanced Second Language Pronunciation
- LING 592-3 Advanced Computer-Assisted Language Learning
- LING 599-1 to 6 Thesis

Note that students pursuing the thesis option must enroll in a minimum of 3 and a maximum of 6 semester hours of LING 599 (Thesis).

Free Electives (6 semester hours)

Students can select from a number of elective courses offered each semester. These include additional courses from the categories listed above as well as other courses offered in the department. In addition, courses related to language, education, and/or research methods offered by other departments may be used to complete elective requirements, with approval from the student's faculty advisor. Students are also encouraged to attend summer institutes and other professional development programs offered by the TESOL International organization or the Linguistic Society of America. Credit may be approved for coursework successfully completed this way.

Accelerated B.A./M.A. in Linguistics

Students who begin as undergraduate majors in either linguistics or TESOL may pursue the 5-year M.A. in Linguistics, providing (i) they have maintained a 3.5 grade point average in 300 and 400-level courses, and (ii) their B.A. coursework includes the following:

LING courses required of all 5-year B.A./M.A. students (15 semester hours):

- LING 200 Language, Society, and the Mind
- LING 300 Introduction to Descriptive Linguistics
- LING 405 Introduction to Phonological Theories
- LING 408 Introduction to Syntactic Theory
- LING 406 Introduction to Historical Linguistics, or LING 452 Field Methods in Linguistics

Beyond these courses and the other requirements for their B.A. degrees is added a fifth year, consisting of advanced coursework and a 20-25 page research paper.

Fifth year (27 credit hours)

Fall (12 credit hours)

- LING 505 The Professional Study of Linguistics
- LING 558 Advanced Syntax
- LING 553 Advanced Phonology
- Elective not taken at the undergraduate level (400-level or above)

Spring (12 credit hours)

- LING 506 Historical Linguistics (if not taken as LING 406) or LING 552 Field Methods (which may be repeated for credit)
- 2 electives not taken at the undergraduate level (400-level; or above)
- LING 593 Research in Linguistics (3 credit hours)

Summer (3 credit hours)

- LING 593 Research in Linguistics (3 credit hours)

9 hours of 400-level coursework taken at the undergraduate level will also be counted towards the M.A. This enables students in the accelerated M.A. to meet the 36-hours of coursework required for a Linguistics M.A.

Linguistics Courses

LING402 - Phonetics 402-3 Phonetics. Theory and practice of articulatory phonetics.

LING403 - English Phonology 403-3 English Phonology. Study of English phonology, including phonetics, phonemics, and prosodics. Prerequisite: LING 300 or graduate status or consent of instructor.

LING404 - American Dialects 404-3 American Dialects. Regional variation and social stratification of American English. Phonological and syntactic differences among the major dialects of American English. Prerequisite: LING 300 or graduate status or consent of instructor.

LING405 - Intro to Phonological Theories 405-3 Introduction to Phonological Theories. A survey of various phonological theories from the 19th century up to the present, including theoretical issues arising therefrom and relationships among the theories. Limited data analysis within the perspectives of the different theories. Not open to those who have taken LING 503. Prerequisite: LING 300 or consent of instructor.

LING408 - Intro to Syntactic Theory 408-3 Introduction to Syntactic Theory. This course is an introduction to the major concepts and issues in generative grammar. Data from English and other languages will be examined and students will be provided with numerous opportunities to solve problems in syntax. Students will also be given an opportunity to carry out an individual project in syntax. Not open to those who have taken LING 508. Prerequisite: LING 300 or consent of instructor.

LING412 - Structure of Japanese 412-3 The Linguistic Structure of Japanese. (Same as JPN 410) Inductive approach to the analysis of various aspects (such as phonology, morphology, syntax) of Japanese grammar with emphasis on syntactic structures within any of the current theoretical frameworks such as pragmatics, functionalism and formal linguistics. May include contrastive analysis between Japanese and English, and close examination of theories of comparative-historical linguistics of Japanese

and Korean. This course satisfies the CoLA Writing-Across-the-Curriculum requirement. Prerequisite: one year of Japanese or one previous course in linguistics or consent of instructor.

LING415 - Sociolinguistics 415-3 Sociolinguistics. (Same as ANTH 415) History, methodology, and future prospects in the study of social dialectology, linguistic geography, multilingualism, languages in contact, pidgin and creole languages, and language planning. Prerequisite: LING 300 or Graduate status or consent of instructor.

LING416 - Spanish in the U.S.A. 416-3 Spanish in the U.S.A. (Same as ANTH 416) This course offers a survey of the historical, social, political, linguistic, and educational issues surrounding the Spanish language in the United States. Topics to be addressed include Spanish language use and bilingualism, language maintenance and shift, education of Latino populations, Hispanic diversity, and Latino literature.

LING417 - Language Contact 417-3 Language Contact. (Same as ANTH 417) This course will introduce students to the social conditions under which language contact occurs and the cultural and linguistic consequences of such contact. Primary topics will be language maintenance and shift, ideologies and attitudes regarding bilingualism, and language development and change, using data from a variety of languages and cultures. Designed to provide a comprehensive background for research on bi- or multilingual settings. Prerequisite: one of the following: ANTH 240B, LING 200, LING 300, ANTH 500B, or LING 505.

LING426 - Gender, Culture, & Language 426-3 Gender, Culture, and Language. (Same as WGSS 426 and ANTH 426) This course is designed for students who have had some exposure to gender studies. It will focus on readings in language and gender in the fields of anthropological- and socio-linguistics. Issues to be addressed are the differences between language use by men/boys and women/girls, how these differences are embedded in other cultural practices, and the various methodologies and theories that have been used to study gendered language use.

LING430 - Grammatical Structures 430-3 to 6 (3,3) Grammatical Structures. Detailed analysis of the structure of particular languages. May be repeated to a total of six hours credit with consent of department. Prerequisite: LING 300 or graduate status or consent of instructor.

LING431 - Teaching L2 Writing & Grammar 431-3 Teaching Writing and Grammar in a Second Language. An introduction to current theories of ESL/EFL composition and pedagogical grammar, as well as principles and techniques for teaching composition and grammar in a second language. Course will combine understanding of theory with evaluation of published materials and original development of high-quality teaching materials. Prerequisite: LING 353 or consent of instructor.

LING440 - Topics in Linguistics 440-3 to 9 (3 per topic) Topics in Linguistics. Selected topics in theoretical and applied linguistics. May be repeated to a total of nine hours credit under different topics. Not for graduate credit.

LING442 - Language Planning 442-3 Language Planning. Survey of the field of language planning: definitions and typologies, language problems, language treatment, attitudes and beliefs about language, relations between language planning processes and other kinds of social and economic planning, linguistic innovations and other processes of language change, implementation of language policies. Prerequisite: LING 300 or graduate status or consent of instructor.

LING445 - Psycholinguistics 445-3 Psycholinguistics. (Same as PSYC 445) A broad spectrum introduction to psycholinguistics. Topics to be covered include general methodology for the study of psycholinguistics, the nature of language, theories of human communication, language comprehension and production, first and second language acquisition, meaning and thought, natural animal communication systems, and language and the brain. Prerequisite: LING 300 or graduate status or consent of instructor.

LING450 - Language Families 450-3 to 6 (3,3) Language Families. A synchronic survey of particular language families or sub-families. May be repeated to a total of six hours credit with consent of department. Prerequisite: LING 300 or graduate status or consent of instructor.

LING452 - Field Methods in Linguistics 452-3 Field Methods in Linguistics. At a time when minority languages are dwindling and becoming extinct, language documentation is more important than ever.

This course has two pedagogical goals, related to the documentation of understudied languages. The first goal is to train students on the methods of eliciting and evaluating data to construct a detailed linguistic description and analysis of an unknown language, essentially from scratch, by working with a native speaker of the language. The second goal is for students to discover specific details of the structure of the language under investigation and document them for posterity. Satisfies the CoLA Writing-Across-the-Curriculum requirement. May be repeated for credit. Not open to those who have taken LING 552. Prerequisite: LING 300 and one of the following courses: LING 402, 403, 405, 408, with a minimum grade of C, or consent of instructor.

LING470 - Foundation ESL/Bilingual Ed 470-3 Theoretical Foundations of Teaching ESL and Bilingual Students. Provides a broad overview of the field of bilingual education, including related terminology; historical, political, social, theoretical, international, economic, cultural, and legal aspects of bilingual education; and educational program models for serving English language students. Satisfies the CoLA Writing-Across-the-Curriculum Requirement.

LING471 - Bilingual Ed Methods/Materials 471-3 Bilingual Education Methods and Materials. Methods and materials for: bilingual content, biliteracy, sheltered and multicultural instruction, and for ELLs with disabilities; techniques for advocacy for ELLs, writing funding proposals, and conducting program reviews and workshops. Includes materials reviews, lesson planning, and micro-teaching.

LING472 - Assess ESL/Bilingual Students 472-3 Assessment of ESL and Bilingual Students. This course covers theoretical and practical issues in the assessment, testing, measurement, and evaluation of second and foreign language learners. It covers the history and development of language testing practices; the relationship between assessment, instruction, and course design; principles of good assessment; the sociocultural context surrounding assessment; and traditional and alternative assessment that can be used for all language skills in diverse K-12 and adult learners. Students get hands-on practice critically evaluating assessments, creating their own assessments, and analyzing and interpreting assessment results.

LING473 - Intro Comp Assist Lang Learn 473-3 Introduction to Computer Assisted Language Learning. This hands-on course introduces essential concepts and skills for applying technology to language learning and instruction. Topics include online quizzes and activities, creating and editing multimedia objects for use in instructional materials, social networking, Web resources, evaluating commercial materials, digital storytelling, and hypermedia. New developments in CALL are introduced as the state of the art progresses. Not open to those who have taken LING 573.

LING480A - Less Common Lang-Elementary 480A-3 to 12 Less Commonly Taught Languages. Elementary course in less commonly taught languages. Languages vary. Section A corresponds to the first semester, section B of the same language is a continuation of section A. Must be taken in an A,B sequence when available. Sequence may be repeated with a different language. Students must earn a grade of C or better in LING 480A before beginning LING 480B.

LING480B - Less Common Lang-Intermediate 480B-3-12 Less Commonly Taught Languages. Elementary course in less commonly taught language. Languages vary. Section B is a continuation of section A. Must be taken in A, B sequence when available. Sequence may be repeated with a different language. Students must earn a grade of C or better in LING 480A before beginning LING 480B. Prerequisite: LING 480A.

LING485 - L2 Listen and Speak 485-3 Teaching Listening and Speaking in a Second Language. An introduction to current theories, principles, and techniques for teaching second language listening and speaking skills. Students will gain practical experience in developing meaningful listening and speaking activities/materials. Not open to those who have taken LING 585.

LING487 - L2 Reading & Vocabulary 487-3 Teaching Reading and Vocabulary in a Second Language. An introduction to current theories of reading and vocabulary learning, as well as principles and techniques for teaching reading and vocabulary in a second language. Course will combine understanding of theory with evaluation of published materials and original development of high-quality teaching materials. Prerequisite: LING 353 or consent of instructor.

LING490A - TESOL K-12 Internship 490A-3 TESOL K-12 Internship. The TESOL K-12 internship provides students with the opportunity to work with students of diverse linguistic backgrounds in a

classroom at a local school. Students will volunteer for a minimum of two hours per week (for one credit hour), up to eight hours per week (for three credit hours). Students wishing to fulfill the 100-clock-hours requirement for an ESL endorsement will need to register for three credit hours (volunteer at least eight hours per week). Students will complete weekly reports and monthly reflections, observe language educators, and design and teach language lessons. Prerequisite: LING 353 or LING 570 with a grade of C or better.

LING490B - TESOL International Internship 490B-3 TESOL International Internship. The TESOL K-international internship provides students with the opportunity to work in an international English as a foreign language (EFL) classroom. Students will complete weekly reports and monthly reflections, observe language educators, and design and teach language lessons. Students will also be observed and receive feedback from the teaching staff at the international placement institution. Students will leave the course with practical knowledge regarding classroom organization, management, instructional strategies, international education, and language program organization. Prerequisite: LING 353 or LING 570 with a C or better.

LING500 - Formal Semantics 500-3 Formal Semantics. (Same as PHIL 502) This course will introduce and develop formal mechanisms to encode meaning in natural language. We will deeply explore the topics of predication, definiteness, quantification, and semantic modeling. Mastery of these topics can be applied to many other semantic phenomena. By the end students will be able to: understand and evaluate scholarly literature in semantics; approach problems in natural language from the perspective of a formal semanticist; understand and describe the role of semantics in generative approaches to language; and produce novel work in semantics.

LING503 - Phonological Theories 503-3 Phonological Theories. An examination of the development of phonological theories from the 19th century up to the present. Relationships among various theories and insights into language structures that arise from them are considered. Data analysis within the perspectives of the different theories. Not open to those who have taken LING 405. Prerequisite: LING 505 or consent of instructor.

LING505 - Professional Study Linguistics 505-3 The Professional Study of Linguistics. Basic concepts and methods of general linguistics. Fundamentals of the nature, structure and functioning of language. Data analysis and problem solving. Introduction to professional standards and resources available for linguistic research. Course satisfies introduction to linguistics requirement.

LING506 - Historical Linguistics 506-3 Historical Linguistics. Theories and methods in the study of the history and prehistory of languages and language families. Prerequisite: LING 503, LING 505, and LING 508 or consent of instructor.

LING508 - Syntactic Theory 508-3 Syntactic Theory. An examination of the major concepts and issues in generative grammar. Data from diverse languages will be examined. Students will be presented with problems in syntax to solve. They will also carry out an individual project in syntactic analysis. Not open to those who have taken LING 408. Prerequisite: LING 505 or consent of instructor.

LING510 - History of Linguistics 510-3 History of Linguistics. The history of linguistic inquiry from classical times to the present. Prerequisite: one previous course in linguistics or consent of instructor.

LING531 - L2 Writing and Grammar 531-3 Teaching Writing and Grammar in a Second Language. An introduction to current theories of ESL/EFL composition and pedagogical grammar, as well as principles and techniques for teaching composition and grammar in a second language. Course will combine understanding of theory with evaluation of published materials and original development of high-quality teaching materials. Prerequisite: LING 485 or LING 585 with a B or better or consent of instructor.

LING540 - Studies in Applied Linguistics 540-3 to 6 (3 per topic) Studies in Applied Linguistics. Selected topics in applied linguistics. May be repeated as topics vary to a total of six hours of credit with consent of department. Prerequisite: LING 505 or consent of instructor.

LING541 - Second Language Acquisition 541-3 Introduction to Second Language Acquisition. (Same as PSYC 577) Introduction to key concepts and major theoretical and methodological issues in second language acquisition. Major developments in SLA in phonology, morphology, lexis, syntax, semantics and discourse and provides students with hands-on experience in describing and accounting for second

language data. Opportunity to design and implement a data-based SLA study in an area of interest to students. Prerequisite: LING 505 or consent of instructor.

LING542 - Adv Seminar Sec Lang Acqsn 542-3 Advanced Seminar in Second Language Acquisition. Research seminar in second language acquisition on selected topics such as universal grammar in SLA, language transfer, variation in SLA, second language learnability, etc. Prerequisite: LING 541 or consent of instructor.

LING543 - Bilingualism 543-3 Bilingualism. (Same as PSYC 578) A comprehensive introduction to the study of bilingualism. Course will examine the linguistic, psycholinguistic, sociolinguistic, and educational aspects of bilingualism, particularly as pertaining to the care and education of bilingual children. Prerequisite: LING 505 or consent of instructor.

LING544 - Discourse Analysis 544-3 Discourse Analysis. (Same as ANTH 544) Survey of major approaches to the analysis of spoken or written discourse including speech act theory, pragmatics, interactional sociolinguistics, ethnography of communication, conversation analysis, variation analysis, and critical discourse analysis. Prerequisite: LING 505 or consent of instructor.

LING545 - Language, Gender, Sexuality 545-3 Language, Gender and Sexuality: Anthropological Approaches. (Same as ANTH 546, WGSS 546) This course examines the study of language in society with a particular focus on how linguistic practices are part of the construction of gender and sexuality identities, ideologies, social categories and discourses. Anthropological theories applied to the study of language, gender and sexuality will be covered along with a variety of methodological approaches.

LING546 - Conversatn Analysis:Pragmatics 546-3 Conversation Analysis: Pragmatics. (Same as CMST 546) Study of the pragmatics of everyday conversation: sequential organization, topical coherence, speech act rules and functions, contextual frames, and background understandings. Emphasis on observational research methods and analysis of original data. Special approval needed from the instructor.

LING548 - Linguistic Anth of Education 548-3 The Linguistic Anthropology of Education. (Same as ANTH 548) This course examines the role of language in education through a critical anthropological lens, examining educational institutions across cultures and times. Topics to be covered include the teaching of literacy, language policies and ideologies in education, the linguistic construction of identities in school settings (including national, ethnic, gender, sexuality, age, religious, and social class identities) and modes of intervention to improve educational endeavors. Ethnographic studies of education in a variety of national, cultural, and linguistic contexts will be covered, as well as other discourse analysis approaches to the study of educational processes and institutions. The course is designed to bring together a wide range of material of interest to graduate students in anthropology, linguistics, education, and other related fields.

LING549 - Research Methods 549-3 Research Methods in Linguistics and TESOL. This course examines basic concepts and principles of quantitative and qualitative methods in Linguistics and TESOL. It prepares students to critically read and understand related research as well as design and carry out their own research projects. It includes analyses of research articles, writing literature reviews, making informed decisions about appropriate methodology and data analyses procedures. Prerequisite: LING 505 or consent of instructor.

LING550A - Sem-Syntax & Semantics 550A-3 to 6 Seminar in Theoretical Linguistics. Guided advanced research in syntax and semantics. May be taken only once. Special approval needed from the department.

LING550B - Seminar - Phonology 550B-3 to 6 Seminar in Theoretical Linguistics. Guided advanced research in phonology. May be taken only once each. Special approval needed from the department.

LING550C - Seminar-Sociolinguistics 550C-3 to 6 Seminar in Theoretical Linguistics. Guided advanced research in sociolinguistics. May be taken only once each. Special approval needed from the department.

LING550D - Seminar-Selected Topics 550D-3 to 6 Seminar in Theoretical Linguistics. Guided advanced research in selected topics. May be repeated as topics vary. Special approval needed from the department.

LING551 - Pragmatics 551-3 Pragmatics. (Same as ANTH 551) An investigation of language use in context; this incorporates both social and psychological aspects of language use. Topics to be covered in this course include speech acts; implicature; conversation analysis; and the acquisition of communicative competence by both first and second language learners. Prerequisite: LING 505 or consent of instructor.

LING552 - Field Methods in Linguistics 552-3 Field Methods in Linguistics. At a time when minority languages are dwindling and becoming extinct, language documentation is more important than ever. This course has two pedagogical goals, related to the documentation of understudied languages. The first goal is to train students on the methods of eliciting and evaluating data to construct a detailed linguistic description and analysis of an unknown language, essentially from scratch, by working with a native speaker of the language. The second goal is for students to discover specific details of the structure of the language under investigation and document them for posterity.

LING553 - Advanced Phonology 553-3 Advanced Phonology. Emphasis is on current work in phonology, its impact on phonological theory, and application of theory to data, and implications for current work. Prerequisite: LING 503 or consent of instructor.

LING558 - Advanced Syntax 558-3 Advanced Syntax. This course focuses on the study of current trends in generative grammar, building on Government and Binding and moving into Minimalism. Part of the class will be devoted to the study of original works on special topics. A major requirement of this class is a term project investigating the syntax of a language of the student's choosing. Prerequisite: LING 508 or consent of instructor.

LING570 - TESOL Methods/Materials 570-3 Methods and Materials in TESOL. Requirement for Illinois ESL/Bilingual Approval. Methods/materials to teach ESL/EFL in the United States (K-adult) and abroad. Promotes eclecticism through reflective practice; overview of methods from early grammar translation to cognitive and communicative, integrated skills, technology, and content-based approaches. Lecture, readings, discussion, demonstration, materials review, lesson planning, micro-teaching.

LING573 - Intro to CALL 573-3 Introduction to Computer-Assisted Language Learning. (Same as FL 437) This hands-on course introduces essential concepts and skills for applying technology to language learning and instruction. Topics include online quizzes and activities, creating and editing multimedia objects for use in instructional materials, social networking, Web resources, evaluating commercial materials, digital storytelling, and hypermedia. New developments in CALL are introduced as the state of the art progresses. Not open to those who have taken LING 473.

LING574 - CESL Teaching Methods 574-3 CESL Teaching Methods. Introduces new CESL teaching assistants to teaching methodologies and principles within the CESL context, following CESL's curriculum and classroom practices. Familiarizes students with pedagogical strategies, theories of language instruction, materials design, curriculum development, error correction and assessment, classroom management, reflective teaching, and professionalism. Required of first time CESL teaching assistants.

LING580 - Teaching English Abroad 580-3 to 6 Seminar in Special Topics in TESOL-Teaching English Abroad. Selected topics in special areas of teaching English to speakers of other languages. May be repeated as topics vary. Prerequisite: LING 570 or consent of instructor.

LING582 - Course Design for TESOL 582-3 Course Design for TESOL. A review of issues and procedures in the design and implementation of courses for teaching English to speakers of other languages. Particular attention is given to recent developments such as content-based instruction. All major course components such as setting of objectives, syllabus design, content specification, and evaluation are considered. In addition, resources available for addressing these issues will be discussed. Prerequisite: LING 570 or consent of instructor.

LING583 - TESOL Practicum 583-3 TESOL Practicum. Class observation and supervised teaching of English to speakers of other languages; meets concurrently with Linguistics 454: Observation and Practice in TESOL and Linguistics 100: Instruction in ESL. Prerequisite: LING 570 or consent of department.

LING584 - Advanced L2 Grammar/Comp 584-3 Advanced Seminar in Grammar and Composition. Course will focus on the advanced study of grammatical features in English and their applicability to the writing and composing process of ESL/EFL writers. Additionally, stylistic and rhetorical factors, including

cross-cultural rhetoric, will be considered, with the focus guided by student and instructor interests. Course will include reading the primary research literature, student development of a research project, and implications for supporting second language writers. Prerequisite: LING 431 or LING 531 with a B or better or consent of instructor.

LING585 - L2 Listen and Speak 585-3 Teaching Listening and Speaking in a Second Language. An introduction to current theories, principles, and techniques for teaching second language listening and speaking skills. Students will gain practical experience in developing meaningful listening and speaking activities/materials. Prerequisite: LING 570 or permission of instructor.

LING586 - English for Specific Purposes 586-3 English for Specific Purposes. A course designed to familiarize students with key components of English language courses designed for speakers of other languages with specific needs or in well-defined settings. Case studies and sample courses are reviewed and students develop individual projects related to a content area or course component of their choice, e.g., needs assessment, syllabus design, materials development, or teacher training. Prerequisite: LING 570 or consent of instructor.

LING587 - L2 Reading and Vocabulary 587-3 Teaching Reading and Vocabulary in a Second Language. An introduction to current theories of reading and vocabulary learning, as well as principles and techniques for teaching reading and vocabulary in a second language. Course will combine understanding of theory with evaluation of published materials and original development of high-quality teaching materials. Not open to those who have taken LING 487. Prerequisite: LING 570 with a B or better or consent of instructor.

LING588 - Intercultural Communication 588-3 Intercultural Communication. Advances knowledge and understanding of theory, practice, and research in intercultural communication, including the effects of cultural identities and cross-cultural experiences on language, perception and world view. Implications for language learning and teaching are also explored. Prerequisite: LING 505 or consent of instructor.

LING589 - Advanced Reading & Vocabulary 589-3 Advanced Seminar in Reading and Vocabulary. Course will focus on the advanced study of reading processes and lexical knowledge in first, second and additional languages. All levels of reading skills and lexical knowledge, from letter recognition to discourse processing, will be considered, with the focus guided by student and instructor interests. Course will include reading the primary research literature, student development of a research project, and implications for supporting second language readers. Prerequisite: LING 487 or LING 587 with a B or better or consent of instructor.

LING590 - Adv Sem Sec Lang Pronunciation 590-3 Advanced Seminar in Second Language Pronunciation. Course will focus on aspects of second language acquisition specific to second language phonology along with attention to the phonology of English. Course will be research focused with extensive reading in L2 pronunciation topics and student development of a research project. Prerequisite: LING 485 or LING 585 with a B or better or consent of instructor.

LING592 - Advanced CALL 592-3 Advanced Computer-Assisted Language Learning. (Same as FL 592) This hands-on course builds on LING 573 (Introduction to Computer-Assisted Language Learning) and covers language learning in virtual worlds, creating a presence on the Web, course management systems, developing apps for mobile devices, making instructional videos as well as hypermedia learning units. New developments in CALL are introduced as the state of the art progresses. Prerequisite: LING 573 with a grade of C or better, or consent of instructor.

LING593 - Research in Linguistics 593-1 to 4 Research in Linguistics. Individual research under graduate faculty guidance. Special approval needed from the instructor.

LING597 - Readings in Linguistics 597-1 to 8 Readings in Linguistics. Individual readings in linguistics under graduate faculty guidance. Special approval needed from the department.

LING599 - Thesis 599-1 to 6 Thesis. Minimum of three hours to be counted toward a Master's degree. Special approval needed from the department.

LING601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their

dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Linguistics Faculty

Angelis, Paul, Associate Professor, *Emeritus*, Ph.D., Georgetown University, 1968; 1981.

Baertsch, Karen S., Associate Professor, Ph.D., Indiana University, 2002. Phonology, phonetics, historical linguistics, dialects, Central Asian languages.

Brutten, Sheila, Associate Professor, *Emeritus*, M.A., Southern Illinois University Carbondale, 1965; 1968.

Carstens, Vicki M., Professor, Ph.D., UCLA, 1991. Theoretical syntax and morphology, African linguistics, field linguistics.

Dotson, John E., Professor, *Emeritus*, Ph.D., Johns Hopkins University, 1969.

Friedenberg, Joan, Professor *Emeritus*, Ph.D., University of Illinois at Urbana-Champaign, 1979; 1994.

Gilbert, Glenn G., Professor, *Emeritus*, Ph.D., Harvard University, 1963; 1970.

Halliday, Laura J., Clinical Professor, Ph.D., Southern Illinois University, 2005. TESOL theory and methods, ESL writing, pedagogical grammar.

Kim, Alan Hyun Oak, Professor, *Emeritus*, Ph.D., University of Southern California, 1985; 1988.

Lakshmanan, Usha, Professor, Ph.D., University of Michigan, 1989; 1990. First and second language acquisition, psycholinguistics, syntactic theory, Tamil syntax.

Martin, Katherine I., Assistant Professor, Ph.D., University of Pittsburgh, 2015. Second language acquisition, reading and literacy, vocabulary learning, morphological awareness, crosslinguistic transfer, English as a Second Language.

McCrocklin, Shannon, Assistant Professor, Ph.D., Iowa State University, 2014. Second language phonology and pronunciation.

Montavon, Mary V., Lecturer, *Emeritus*, Ph.D., University of Illinois, 2003.

Perkins, Kyle, Professor, *Emeritus*, Ph.D., University of Michigan, 1976; 1976.

Punske, Jeffrey, Assistant Professor, Ph.D., University of Arizona, 2012. Theoretical syntax, morphology, and semantics.

Rodríguez-Ordóñez, Itxaso, Assistant Professor, Ph.D., University of Illinois at Urbana-Champaign, 2016. Language contact, sociolinguistics, language acquisition, linguistic ideologies and identities, Basque linguistics.

Wu, Shu-Ling, Assistant Professor, Ph.D., University of Hawaii at M#noa, 2011. Second language acquisition, applied cognitive linguistics, Chinese linguistics & literature, L2/FL pedagogy.

Mass Communication and Media Arts

To support the graduate programs, the College of Mass Communication and Media Arts houses high-end multimedia computer labs and state-of-the-art design, video, audio, animation, and editing software. The college has a wide variety of cinema, photography, print media, radio-television and video production facilities. Students have access to the mainframe computer and the Internet.

For all MCMA graduate programs, applicants must hold a bachelor's degree from an accredited institution or have completed all undergraduate degree requirements prior to the beginning of the classes for the term for which admission is sought. Applicants may begin the admissions process when they need no more than 32 semester hours beyond the credit shown on their transcript at the time of application to complete all requirements for the bachelor's degree.

Applications

All requirements for admission to the Graduate School at Southern Illinois University Carbondale must be met.

Applicants must submit completed application forms, transcripts of all post-secondary studies, and a personal statement describing their objectives for study in the program to which they are applying, career goals and interests.

Applicants must arrange for three references to send letters of recommendation to the Associate Dean of Graduate Studies.

Students should contact the Associate Dean of Graduate Studies, College of Mass Communication and Media Arts, Mail Code 6606, Southern Illinois University Carbondale, Carbondale, IL 62901 to apply or to make other inquiries. This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Mass Communication and Media Arts (M.A., M.S., M.F.A., Ph.D.). Applicants must pay this fee by credit card.

Retention

In addition to the retention policies of the SIU Graduate School, each master's degree student must maintain an overall grade point average of 3.0 (A = 4) and each Ph.D. student must maintain an overall grade point average of 3.25 (A = 4). Upon falling below this average, students will be allowed only one academic term (other than summer) to bring their average up to the minimum; failing this, they will be dropped from the program and will not be allowed to re-apply.

All MCMA graduate students will undergo an end-of-the-year faculty review of their progress toward their degree that includes course progress and/or creative or scholarly work. After the review, students will be notified of any deficiencies to be resolved. Students failing to rectify those deficiencies by the end of the next semester (excluding summer) will be permanently suspended from the MCMA graduate program.

All MCMA graduate students who have completed their course work and the minimum number of credits required for projects, thesis or dissertation must enroll in MCMA 601, Continuing Research Enrollment, each semester until the completion of their degree programs. Exceptions to the continuing enrollment rule are allowed only for students who are required to be away from SIU full-time by the United States or the State of Illinois government.

Master of Arts Degree

Media Theory and Research

This degree offers a broad overview of mass communication and media arts and their processes and effects in the larger social system. Graduates gain both an appreciation of the field's strengths and an understanding of its obstacles in being a force for social development. Areas in which this specialty is used include: department-level leadership in the mass media industries, opinion research, commentary, critical theory, content analysis, and teaching. The degree may lead to doctoral studies.

Admission

Students whose preparation is lacking in certain areas may be required to take undergraduate courses that will not be counted towards the M.A. degree.

International Students must have a TOEFL of at least 550 (paper score) or 80 (internet score) or an IELTS score of 6.5 to be admitted. All applicants must take the Graduate Record Examination (GRE). Generally applicants must have a grade point average of at least 3.0 (A = 4) for their last two years of undergraduate work. Other factors will also be considered including professional and academic accomplishments, examples of professional work, awards and honors, graduate examination scores or evidence of scholarship such as research papers.

Retention

No course in which the grade is below C shall count toward the degree or fulfillment of any requirement, but the grade will be included in the grade point average. No more than three hours of C work in graduate courses will count toward the degree. The College of Mass Communication and Media Arts allows a maximum of three years from date of enrolling in the master's degree to completion of degree. The program generally takes two years to complete.

Curriculum

Candidates must complete a minimum of 30 credits including a minimum of 15 credits of core requirements, 12 credits in an emphasis area, and a 3-credit thesis.

Core:

- MCMA 500-3 Media as Social Institutions
- MCMA 504-3 Foundations of Mass Communication Theory
- MCMA 592-3 Master's Seminar

Two of the following in consultation with a faculty adviser:

- MCMA 531-3 Critical Research Methods in Media Arts
- MCMA 532-3 Quantitative Research Methods
- MCMA 534-3 Qualitative Research Methods

Emphasis Area:

A minimum of four courses (12 credits) selected in consultation with the student's faculty adviser to include at least one course from outside of the college and one course from within. Possible emphasis areas include, but are not limited to: advertising/strategic communication, communication for social change, film and criticism, international communication, law and policy, media economics, media effects, media history, media technologies, new media, political communication, and social issues.

Thesis:

- MCMA 599-3 Thesis

M.S./M.B.A. Concurrent Degree Program

Separately, the M.B.A. in the College of Business requires completion of 33 semester hours of coursework; the MCMA M.S. in Professional Media and Media Management requires 30 semester hours of coursework. The concurrent degree program entails completion of 21 semester hours of MCMA approved courses and 24 credit hours of COB-approved courses, for a total of 45 hours. This is a savings of 18 semester hours over pursuing both degrees separately as COB accepts nine semester hours of MCMA-approved coursework and MCMA accepts nine hours of COB-approved coursework. Students wishing to be admitted to the concurrent program must apply and be accepted to the MCMA M.S., as well as, apply and be accepted into the M.B.A program in the College of Business. This initiates the process to pursue the concurrent degrees.

Applicants for the concurrent degree program must also earn a satisfactory score on the GMAT or GRE to be admitted to the M.B.A program, as well as successfully complete the College of Business Foundation Workshops offered during the summer semester break, if they have not previously completed the 10 foundation business courses (or their equivalent) required for admission into the M.B.A program.

Graduate Certificate in Civil Society, Communication, and Media Practices

A new era of collective activism has expanded and reinvigorated the role of communication and media practices in shaping the space for and nature of public engagement. In this process, Civil Society Organizations (CSOs), Non-Profits (NPOs), NonGovernmental Organizations (NGOs),

local organizations, grassroots movements and media makers have entered public culture with renewed creativity, force, and necessity. This certificate offers students a critical, historical, and theoretical understanding of the significance of communication and media within the broader context of contemporary practices engaged in organizing public and social change. Students will learn to analyze these media practices in their various forms and contexts, from the local to the global, and the complex relationships they navigate with political and social movements, governments, and more mainstream forms, such as entertainment. Our curriculum emphasizes theory and practice and introduces students to a variety of media practices, including research methodologies based in the media arts. The certificate prepares graduates for leading, evaluating, and collaborating in communication efforts aimed at social change. Graduate students will have a broad understanding of the civic potential of media and be prepared to communicate with, promote, and participate in grassroots communities in the age of social media.

Admission

All requirements for admission to the Graduate School at Southern Illinois University Carbondale must be met. Applicants must submit the Application for Admission to Graduate Study forms and certified transcripts of all postsecondary studies. Applicants must also submit a resume outlining educational and professional experience, as well as a personal statement describing their objectives for study in the program, career goals and interests. Generally, applicants must have a grade point average of at least 3.0 (4.0=A) for their last two years of undergraduate work. International students whose native first language is not English, or those with fewer than 100 graded semester hours of college credit at a U.S. college or university, must take the TOEFL and score at least 600 (paper score), 250 (computer score), or 100 (internet score) to be admitted.

Curriculum

The minimum 18 credit hour certificate program requires that the student successfully complete the six courses listed below:

- MCMA 555-3 Communication and Media Management of Civil Society Organizations
- MCMA 568-3 Social Media Theory & Practice
- MCMA 561-3 Communication for Social Change
- MCMA 543-3 New Media Practice for Civil Society Organizations
- MCMA 537-3 Introduction to Communication Research
- MCMA 569-3 Alternative Media: Power & Resistance

Master of Science Degree

The M.S. in Professional Media and Media Management Studies provides students with a practical background in applied research and critique of the communications industries and trains students with varied professional interests to establish careers in communications industries. More specifically, this program aims to train intelligent, self-aware, flexible graduates who will go on to become leaders in the communications industries. The core curriculum is designed to expose students to a broad foundation in media studies. In consultation with their faculty advisor, students also select an emphasis area in which in-depth exploration of one facet of professional media management, studies, practice or technology is explored. Students finish their program of study with a Research Report, which may be accompanied by a project, on a topic of their choosing from within their emphasis area. The College of Mass Communication and Media Arts allows a maximum of three years from date of enrolling in the M.S. program for completion of the M.S. degree. This program generally takes two years to complete.

Program Admission

All requirements for admission to the Graduate School at Southern Illinois University Carbondale must be met. Applicants must submit the Application for Admission to Graduate Study forms, certified transcripts of all post-secondary studies, as well as three letters of recommendation from individuals who can evaluate potential for graduate studies. Applicants must also submit a resume outlining educational and professional experience, as well as a personal statement describing their objectives for study in the

program, career goals and interests. Applicants should include an example of work that demonstrates their competency, preferably professional work, although prior academic work is acceptable. Work samples might be in the form of print articles, video or audio tapes, DVDs, URLs or CDs. Applicants must clearly indicate their role(s) in any project submitted. Generally, applicants must have a grade point average of at least 3.0 (4.0 = A) for their last two years of undergraduate work. International students whose native or first language is not English, or those with fewer than 100 graded semester hours of college credit at a U.S. college or university, must take the TOEFL and score at least 550 (paper score) or 80 (internet score) or have an IELTS score of 6.5 to be admitted. Students whose preparation is deemed lacking in certain areas may be required to take undergraduate courses to attain competency. These will not be counted toward the M.S. degree.

Curriculum

Candidates must complete a minimum of 30 credits including six hours of core requirements, 21 credits in an emphasis area and a 3-credit Research Report.

Core (6 Credits):

- MCMA 500-3 Media as Social Institutions
- MCMA 592-3 Master's Seminar

Emphasis Area (21 Credits):

A minimum of seven courses selected in consultation with the faculty adviser. No more than six credits can be at the 400-level. Topics of study include: media management, strategic advertising communication, digital documentary production, public policy reporting, and new media production.

Research Report (3 credits):

- MCMA 589-3 Report/Project

Master of Fine Arts Degree

The Master of Fine Arts degree provides substantial advanced study for a small number of highly talented individuals. The program emphasizes the artistic development of the individual student and the creation of quality artistic works in photography, film, video, sound, new media, and interdisciplinary media. Degree requirements are 60 semester hours, including 51 hours at the 500-level. The program generally takes three years to complete.

While mastery of craft within Media Arts is a vital component of the M.F.A., the philosophy is that graduate study should expand the student's breadth as an artist and encourage interdisciplinary study. Available course work in production, criticism, theory, history, and combined media studies emphasizes the interwoven character of traditional and contemporary approaches and technologies in the 21st century.

Additional course work can be pursued through the School of Art and Design, the School of Music, and the Departments of Theater, English, Anthropology, Communication Studies, etc. A distinguished faculty of artists and scholars, excellent facilities, and a variety of curricular offerings allow students to individually tailor their programs of study.

Admission

All requirements for admission to the Graduate School at Southern Illinois University Carbondale must be met. Applicants must submit the Application for Admission to Graduate Study forms, certified transcripts of all postsecondary studies as well as three letters of recommendation from individuals who can evaluate their potential for graduate studies. Applicants must also submit a resume outlining educational and professional experience, as well as a personal statement describing their objectives for study in the program, career goals and interests.

Prospective students must present evidence of exceptional talent and/or potential in one or two media pursuits in the degree program. Applicants should include an example of work that demonstrates their competency. This evidence will ordinarily consist of a portfolio of photographs or digitally generated

art works, one or more films, videos, sound works, multimedia productions, web art projects, or other evidence of artistic potential. Applicants must clearly indicate their role(s) in any project submitted. An interview with faculty in the program is highly recommended, particularly for applicants with minimal course work in the field.

Acceptance into the program and continuing enrollment are at the discretion of the College of Mass Communication and Media Arts and the Graduate School. Generally, applicants must have a grade point average of at least 3.0 (4.0 = A) for their last two years of undergraduate work. International students whose native or first language is not English, or those with fewer than 100 graded semester hours of college credit at a U.S. college or university, must take the TOEFL and score at least 550 (paper score) or 80 (internet score) or have an IELTS score of 6.5 to be admitted. Students whose preparation is deemed lacking in certain areas may be required to take undergraduate courses to attain competency. These will not be counted toward the M.F.A. degree.

Retention

At the end of the first year in residence, each M.F.A. student will undergo a review by a committee of faculty. Possible outcomes of this review are Pass, Provisional Pass, and Fail. Failure of this review will result in termination from the program. Students who receive a Provisional Pass in this review will receive a letter outlining the areas in which they must improve and be assigned a faculty mentor for this process. Failure to demonstrate improvement will result in termination from the program.

Procedures

By the end of the third semester in residence, each M.F.A. student will be required to select, in consultation with the Associate Dean of Graduate Studies, a committee chair and a committee of two additional graduate faculty members. The faculty committee and the student develop a specific plan of study, considering the requirements of the Graduate School, the degree program, and the goals of the student.

The M.F.A. degree culminates in an intensive Creative Thesis that must be publicly presented. The exact nature of the project and presentation will be determined in consultation between the student and the committee. The committee chair supervises the thesis. An oral examination by the faculty committee will take place in conjunction with the public presentation of the thesis and will focus on an evaluation of the project. The M.F.A. electronic thesis document consists of a formal paper describing the Creative Thesis, its historical precedents, contemporary context, and theoretical underpinnings with embedded media files that document the public exhibition/screening. It must be filed with the SIU Graduate School. The University reserves the right to retain a portfolio or samples of each student's work.

Curriculum

The minimum 60 credit degree requires 27 credits of common requirements constituting a core, 27 credits of electives, and a six credit thesis.

Core (27 credits):

- MCMA 557-6 MFA Studio Arts Practice (3,3)
- MCMA 558-9 MFA Studio Critique (3,3,3)
- MCMA 550-3 History of Media Arts and Culture
- MCMA 551-3 Theory of the Media Arts
- MCMA 531-3 Critical Research Methods in Media Arts

And

- MCMA 552-3 Seminar: Topics in the History and Theory of Media Arts

Or

- MCMA 555-3 Topical Seminars

Thesis (6 credits):

- MCMA 599-6 Thesis (3,3 or 6)

Electives (27 credits):

Select 27 credits from either inside or outside of the college. No more than six credits can be taken at the 400-level and no more than 15 hours of M.F.A. Projects (3,3,3,3,3) can be taken. M.F.A. Projects cannot be repeated with the same professor.

Doctor of Philosophy Degree

The Ph.D. degree program engages students in an interdisciplinary study of global media communication. Concepts and methods drawn from various research traditions in the field are compared and contrasted, while specialization in particular areas and approaches is open to students.

Admission

Students applying for doctoral study must have a master's degree and a graduate GPA of at least 3.00. International students must have a TOEFL score of at least 550 (paper score) or 80 (internet score) or have an IELTS score of 6.5 to be admitted. All applicants must submit currently valid Graduate Record Examination (GRE) scores. Other factors will also be considered including professional and academic accomplishments, examples of professional work, awards and honors, evidence of scholarship such as research papers and published articles, and prior full-time teaching in the mass communication and media arts area. A visit to SIU and interview with faculty is recommended.

Students whose preparation is lacking in certain areas may be required to take undergraduate courses that will not be counted towards the Ph.D. degree.

An accelerated entry option to the Ph.D. program is offered in exceptional cases to students who have been admitted to the M.A. program. To be eligible, the student must: 1) possess a master's degree; 2) have qualified for admission to the MCMA Ph.D. program initially; 3) complete at least nine hours but no more than 18 hours in the M.A. degree; 4) have a minimum 3.25 GPA in the M.A. program with no incomplete or deferred grades. The student may petition the Associate Dean of Graduate Studies for the accelerated entry option during the semester in which the student will begin taking the ninth hour of graduate courses, but must petition before earning the 18th hour of course work in the M.A. program. If approved, the student is enrolled in the Ph.D. program the next semester. Up to 18 graduate credits earned in the M.A. program will count toward the Ph.D. degree if the accelerated entry option is approved by the MCMA Graduate Committee. Once the student is admitted to the Ph.D. program, all requirements of the Ph.D. program apply. Exceptions to any of these rules must be appealed to the MCMA Graduate Committee, which has final authority to approve or reject the petition.

Retention

No course in which the grade is below C shall count toward the degree nor fulfillment of any requirement, but the grade will be included in the grade point average. No more than three hours of C work in graduate courses will count toward the degree.

Procedures

Detailed policies for the Ph.D. degree are available from the MCMA Graduate Office, including such topics as graduate symposium, first year review, composition of graduate committees, comprehensive exam procedures, etc. However, some of the major steps through the program are:

1. During the third semester of enrollment, each Ph.D. student will prepare a total program plan for the degree and secure sponsorship by a faculty member who may become the dissertation committee chair. The plan should include a list of courses and tools, with some explanation and justification for their selection in relation to academic goals. The plan will be discussed and modified, when appropriate, before approval.
2. When the student has completed all course work (with all incomplete and deferred grades removed) other than the classes taken in the concurrent semester, the student must pass rigorous comprehensive written and oral examinations. The examination must be completed during the fall

semester of the third year in the program. Failure to successfully complete the exams by the end of the fall semester of the third year will result in dismissal from the program.

3. Upon successfully completing the comprehensive written and oral exams, the student advances to candidacy to complete and defend a dissertation based on scholarly research and independent thought that adds to the body of knowledge in the field.
4. Under the guidance of a dissertation committee chair, the student forms a dissertation committee and prepares a dissertation proposal consisting of the introduction, literature review, and methodology for the investigation proposed. An oral defense of proposal must be made before the committee and interested observers and approved within one year of reaching candidacy.
5. The dissertation defense will be before members of the dissertation committee and interested observers. Although others than committee members may be allowed to ask questions, the pass or fail decision on the oral defense will be made by committee members only. The College of Mass Communication and Media Arts allows a maximum of seven years from date of enrolling for completion of the doctoral degree. The program generally takes four years to complete.

Curriculum

The Ph.D. in mass communication and media arts requires a minimum of 60 credits including 12 credits of foundation courses, nine credits of research tools courses, 15 credits of electives, and a 24-credit dissertation. A minimum of 12 courses are required. 10 courses must be taken within MCMA.

All course work counting towards the degree must be at the 500-level. If the faculty advisor and student determines a 400-level course would be beneficial, the course can be taken as an independent study with specific extra work to make it equivalent to a 500-level course. A plan of study must be submitted and approved for such a course.

A maximum of two (2) independent study courses, for six credit hours total, can be counted toward degree (MCMA 596 and/or MCMA 591).

Foundation (12 credits):

- MCMA 504-3 Foundations of Media Communication Theory
- MCMA 505-3 Theoretical Issues in Media Advanced Communication
- MCMA 508-3 Conceptual Foundations of Research Strategy
- MCMA 595-3 Ph.D. Proseminar

Research Tools Courses (9 credits):

Nine credit hours of additional research tools courses must be taken, selected in consultation with the student's faculty advisor. A minimum of two (2) must be within MCMA.

Electives (15 credits):

Fifteen credit hours of additional courses must be taken, selected in consultation with the student's faculty advisor to build an emphasis.

Possible emphasis areas include but are not limited to Journalism/Mass Communication, Media Law & Policy, Media/Cultural Studies, Interdisciplinary.

Comprehensive and Oral Exams:

Dissertation (24 credits):

- MCMA 600-24 Dissertation (24 credits): Proposal and Defense.

Mass Communication and Media Arts Courses

MCMA497 - Special Interdisciplinary Study 497-1 to 6 Special Interdisciplinary Study. Designed to offer and test new and experimental courses and series of courses within the College of Mass Communication and Media Arts. Incorporation course fee: \$25.

MCMA500 - Media as Social Institutions 500-3 Media as Social Institutions. Provides an introduction to major issues involving media in contemporary societies. Multi-disciplinary in nature, the course introduces

major theoretical perspectives used in reviewing media productions and activities and the relationships among media organizations and practitioners and other institutions of society.

MCMA501 - Intellectual Property 501-3 Intellectual Property and the Law. Examines intellectual property in legal, economic, and cultural terms. Topics may include copyright, patents, trademarks, entertainment law, and infringement.

MCMA502 - Media Economics 502-3 Media Economics. Introduction to political economy of the media. Addresses core concepts, theories, and methods used to understand media as cultural industries.

MCMA503 - Media & Technology 503-3 Media and Technology. A survey of the major technological changes in mass media and their impacts on society and the media industries. On completion of the course students should have a basic understanding of the role of media technology in shaping communication patterns and their social outcomes.

MCMA504 - Foundations Media Theory 504-3 Foundations of Media Communication Theory. Principal theoretical approaches to media analysis, addressing empiricist, cinema studies, media studies and cultural studies research paradigms. Historical and cultural contexts of media theory construction. Focus on original texts.

MCMA505 - Advanced Media Theory 505-3 Advanced Theoretical Issues in Media Communication. Analysis and critique of advanced and recent theory and research trends in media studies, cultural studies, communication technology studies and mass communication research. Prerequisite: MCMA 504.

MCMA506 - Law and Policy Mass Comm 506-3 Law and Policy of Mass Communication. Focuses on free expression in journalism and entertainment across the media. Topics may include news gathering techniques, intellectual property, the Internet, and governmental regulation. The course pays special attention to the tension between what is legal and what is ethical.

MCMA507 - Media Management 507-3 Media Management. Analysis of a variety of media industries, including industry structures, and the industry processes of media development, production, and distribution. Attention to management of media companies across sectors as the industry adjusts to economic and technological change.

MCMA508 - Concept Found Research 508-3 Conceptual Foundations of Research Strategy. Analysis and evaluation of conceptual frameworks underlying empirical research strategies, positivist, textual and qualitative, commonly used in media and internet research. Issues in multi-method research strategies are reviewed. Ethical implications are debated.

MCMA509 - Media Ethics 509-3 Media Ethics. Overview of ethics philosophies and accountability tools for the mass media. Areas to be studied include journalism reviews, ethics codes, ombudsmen, media critics, news councils, and public/civic journalism. Covering issues in journalism, photojournalism, public relations, advertising, new media, and "infotainment."

MCMA511 - New Media Production 511-3 New Media Production. Investigate how the Internet works, explore relationships among design, technology, and user experience while developing web sites, information architectures, interface behaviors, and navigation systems. Topics include: HTML & XHTML authoring, Cascading Style Sheets, Javascript, open source software, and incorporating sound, video, and images into web pages. Issues of privacy, legal and ethical responsibilities for consumers and producers of web content.

MCMA512 - Web & Interaction Design 512-3 Web and Interaction Design. The Web is part of a larger environment that constantly evolves in relation to social and technological developments. Design principles, HTML5 authoring, cascading style sheets and web usability. Investigates the design of online experiences through lectures, discussions, workshops, and projects. Relationships are explored among design, technology, and user experience in the context of contemporary Internet cultures and develop skills in designing information architectures, interface behaviors, navigation systems, and typographic and image strategies for the Web. Prerequisite: New Media Production or an introductory web production course with permission of the instructor. Lab Fee: \$50.

MCMA513 - Civil Society Media Mgt 513-3 Media Management of Civil Society Organizations. Investigate the multiple roles, contributions, and approaches employed in developing communication

and media efforts of civil society organizations (NGOs, NFPs, NPOs), especially the role of the Communicator, or Media Officer. Students will be able to assess this as a professional option and be equipped with a conceptual and practical 'tool box' for succeeding in this role.

MCMA516 - NET.ART 516-3 NET.ART. History, theory, and practice of digital media as an online art form. Examine and produce works in linear and non-linear hypermedia narrative, network conceptualism, and generative software. Issues include identity, location, collaboration, surveillance, hacktivism, tactical media, immersion, game design, media synthesis. Lab fee: \$20.

MCMA530 - Historical Research Methods 530-3 Historical Research in the Mass Media. Covers a variety of approaches to historical research used by media scholars. Examines how scholars conceive of their object of study, use primary sources, and how they construct the basis of the narrative and analytic discussions of their topic. Focus on historiography and methodology, including data collection, analysis, organization and presentation. Students will use sources including but not limited to newspapers, archives, personal papers, manuscripts, and oral histories.

MCMA531 - Critical Res Method Media Arts 531-3 Critical Research Methods in Media Arts. This course introduces students to critical and interpretive research methods and techniques for the study of media arts and culture. It focuses on interdisciplinary approaches and covers a range of methods and theoretical perspectives that may include historiography, ideological and textural analysis, semiotics, psychoanalysis, critical ethnography and auto-ethnography, and/or other critical methods. Areas of emphasis may vary by instructor. This course may be repeated when the topic differs. Prerequisite: MCMA 551.

MCMA532 - Quantitative Research Methods 532-3 Quantitative Research Methods in Mass Communication. Identification of relevant research topics, critical evaluation of existing research literature, and development of a detailed research proposal. Emphasis on quantitative methods such as sampling, surveys, research design, experiments, content analysis, and introductory statistics.

MCMA534 - Qualitative Research Methods 534-3 Qualitative Research Methods. An introduction to the intellectual underpinnings, epistemology, and methodologies of qualitative research. The course focuses on critical and interpretive approaches to researching media industry structures, artifacts, audiences, and producers.

MCMA535 - Textual Analysis 535-3 Textual Analysis. This class examines methods of textual analysis in the media arts with references to their historical, theoretical, and practical contexts.

MCMA536 - Content Analysis 536-3 Media Content Analysis. Overview of methods and problems of systematically analyzing mass media messages with critique of published studies. Experience in conducting a content analysis project on a topic of current scholarly significance in mass communication and media arts. Prerequisite: MCMA 532.

MCMA537 - Intro Communication Research 537-3 Introduction to Communication Research. Reviews the basic knowledge of research and prepares students to understand, apply and interpret information, research and other published work. Covers elements of research, scales of measurement, sampling procedures, research process, qualitative and quantitative methods and writing research reports. Qualitative methods include case studies, focus groups and intensive interviews. Quantitative methods include surveys, experiments and content analysis. Introduction to use of elementary statistics and data analysis will give students a better understanding of empirical research. Objective is to prepare students for writing term papers, professional careers and the final critical inquiry research project.

MCMA538 - Discourse Analysis 538-3 Critical Analysis of Discourse. Critical Discourse Analysis is a theory-based methodology which takes as its unit of analysis the entire 'utterance' (e.g. news bulletin, newspaper article, Facebook posting, a hashtag). Its methods are closer to literary and rhetorical criticism than the quantitative word count of content analysis. This methodology allows the research to unveil ideological motivations in language use and in images, and can be applied to most forms of media texts including social media and video games.

MCMA539 - Legal & Govern Research 539-3 Legal and Governmental Research in the Mass Media. Research procedures used to find and analyze documents generated by executive, legislative, and judicial entities. Prerequisite: MCMA 506.

MCMA540 - Critical Documentary Practices 540-3 Critical Documentary Practices. Documentary is both a product of existing social conditions and a form of critical opposition to them. This course will emphasize independent video production from invention of the documentary idea to post-production. Emphasis on connections between critical theory and media production. Students will embrace the conceptual and hands-on process of researching, writing and producing independent documentary video, focusing on critical arts practice.

MCMA543 - Media Arts Studio Seminar 543-15 (1-3,1-3,1-3,1-3,1-3) Media Arts Studio Seminar. A forum for the pursuit of creative projects in the media arts. May be repeated as topic changes. Restricted to CMCMA MFA or PMMM major or consent of instructor or director of Graduate Studies in Mass Communication and Media Arts. Laboratory fee: \$50.

MCMA546 - Seminar Film Theory 546-6 (3,3) Seminar Film Theory. Advanced study of major currents in film theory and intensive consideration of particular topics in film theory. Discussion of early debates about aesthetics, perception and realism; linguistically modeled, structuralist, formalist and psychoanalytic theories; ideological, deconstructionist, feminism reception and other postmodern theoretical trends. Special topics might include: feminism and film, Freudian concepts for film, Marxism and film, film and language, formalist film theory, spectatorship, film and perception. Intensive weekly reading and discussion. Films are screened in relation to theoretical topics and assigned readings. Screening fee: \$20.

MCMA548 - MFA Projects 548-1 to 15 MFA (Master of Fine Arts) Projects. Supervised independent creative work in media arts, the exact nature of which is to be determined in consultation with the MFA faculty member. Consent of instructor. Equipment usage fee: \$50.

MCMA549 - Pro Documentary Practice 549-3 Professional Documentary Practice. Production students will work with experts from a variety of specializations across campus to produce short form documentaries for broadcast on WSIU. A comprehensive overview of producing successful programs for the industry taking the topic from scripting to filming to editing. Advanced video or audio production skills are required.

MCMA550 - History Media Arts & Culture 550-3 History of Media Arts & Culture. Introduces the history of the reproducible media arts, beginning with their prehistory in printmaking, and focusing on photography, cinema, radio, television, video, and other visual, audio, and digital media. Locates media technologies in the historical, material conditions of their emergence, consider how media interact with and make history, how media art forms and movements arise historically and how these relate to mass media. Screening fee: \$35.

MCMA551 - Theory of the Media Arts 551-3 Theory of the Media Arts. A survey of the major theoretical debates about the reproducible media arts with particular emphasis on the relationship between mass media, new media technologies, and art. Debates will be grounded in the study of aesthetic practices, technological innovations, political-economic settings, and overall historical context within which they emerged. Prerequisite: MCMA 550. Screening fee: \$35.

MCMA552 - History Theory Media Art 552-3 Seminar: Topics History and Theory of Media Arts. This course provides an in-depth study and discussion of selected topics in the history and theory of the media arts. Topics vary and will be announced in advance. This course may be repeated when the topic differs. Screening fee: \$35.

MCMA555 - Topical Seminars 555-(3,3,3,3,3) Topical Seminars. Seminars on subjects of current interest, with the topics determined through students and faculty request and interest.

MCMA557 - MFA Studio Arts Practice 557-6 (3,3) MFA (Master of Fine Arts) Studio Arts Practice. The first-year course for all incoming MFA (Master of Fine Arts) students in the college serves as an introduction to media creation strategies and concepts. The emphasis is on aesthetic and conceptual development as encountered within a variety of media arts. The course is team taught by a number of faculty in modules dedicated to various media forms- still image, time-based, spatial, and interactive.

Restricted to CMCMA MFA major or consent of instructor or associate dean of graduate studies in Mass Communication and Media Arts. Lab fee: \$75.

MCMA558 - MFA Studio Critique 558-9 (3,3,3) MFA (Master of Fine Arts) Studio Critique. This critique-based seminar course is offered each semester to all graduate students in the MFA program except those in their last semester of thesis work. The goal for this course is to create an interdisciplinary forum where students develop research skills, learn how to best articulate their artistic production, and critique their peers' works. Restricted to CMCMA MFA major or consent of instructor or associate dean of graduate studies in Mass Communication and Media Arts. Lab fee: \$75.

MCMA560 - Studies in Media History 560-3 Studies in Media History. Examine the histories and social effects across media including: books, newspapers, magazines, film, radio, television and the internet. This study will investigate the conceptual dimensions of communication history by examining social, economic, cultural, and political histories of the field.

MCMA561 - Communication Social Change 561-3 Communication for Social Change. Evolution of communication and social change theories and practices; contextual factors (including aid, trade and development policies); organizations influential in formulating and implementing policy; communication intervention strategies; evolving journalism practices.

MCMA562 - Significant Studies Mass Com Res 562-3 Significant Studies in Mass Communication Research. A review of a broad selection of early literature in communication research that has provided much of the conceptual basis for empirical studies during the past two decades.

MCMA563 - Globalization & Media 563-3 Globalization and the Media. Debates about globalization from historical, theoretical, and critical perspectives. The major uses of communication technologies in international economic, political and cultural processes. Topics include regional and global trends, trade regimes, global policy bodies and policy issues; global media influence.

MCMA564 - Political Economy of Media 564-3 Political Economy of Media. Addresses the intersections of politics, economics, and social structures that underpin media arts and industries at global and national levels. Emphasizes the relationship between theories and methods.

MCMA565 - Strategic Advertising 565-3 Strategic Advertising Communication. Problem solving through strategic advertising communications and functional marketing communication, including branding, advertising, PR, sales promotion and direct response in an integrated program. The focus is on strategy and planning, and students will concentrate on integrating targets, timing and message strategy.

MCMA566 - Brand Management 566-3 Brand Management Communication. A conceptual synthesis and practical application of business, research, media and creative principles used in the formulation for a branding/advertising campaign. It includes the development of a complete integrated marketing communications (IMC) campaign for a specific brand.

MCMA568 - Social Media Theory/Practice 568-3 Social Media Theory and Practice. Explores social media from various perspectives. Topics will cover history and development of social media, social advertising/marketing, citizen journalism, social media and health communication, and other issues related to social media such as privacy, gaming, interface design, identity, etc. Students will gain hands-on experience with social media.

MCMA569 - Alt Media Power & Resistance 569-3 Alternative Media: Power and Resistance. Explores "alternative media" as counter hegemonic practice. Course examines various forms of alternative media and different meanings ascribed to them. Case studies locally and around the world demonstrate the growing relevance of alternative media in contemporary societies and the complex relationships they navigate with political and social movements, governments, the private sector, and mainstream forms of media.

MCMA582 - Game Narratives 582-3 Game Narratives. Teaches students the core ideas and practices of game narratives. It covers: a) The conceptual fundamentals of theories of game narrative design; b) The technical and organizational process of creating a narrative game. This includes designing and implementing a narrative game using an appropriate software tool. While game narrative is at the center

of this course, the skills and knowledge acquired in this class are applicable to broad range of design-centric fields and contexts.

MCMA586 - Professional Media Projects 586-1 to 6 Professional Media Projects. Supervised independent media production work, the amount and exact nature of which is to be determined in consultation with MCMA faculty. More than one section may be taken in the same semester. Restricted to PMMM major or consent of instructor or director of Graduate Studies in MCMA. Lab fee: \$50.

MCMA589 - MS Report/Project 589-3 MS Report/Project. Research report or media project accompanied by abbreviated research report, directed by a minimum of one member of the graduate faculty in CMCMA. The research report, which is the synthesis of existing literature on a specific topic or the contextualization of an original media project, must be submitted to the Graduate School. Public presentation of the project required. Restricted to PMMM major.

MCMA591 - Readings 591-1 to 6 Readings. Supervised readings on subject matter not covered in regularly scheduled courses. Graduate students limited to three credits per semester. Consent of instructor.

MCMA592 - Master's Seminar 592-3 Master's Seminar. This course orients students to graduate level study in mass communication and media arts. Applied general research skills, literature reviews and proposal writing among other topics are covered. Students work on directed projects, culminating in a proposal for future research or media production. Restricted to CMCMA PMMM, MTR, or MFA major or consent of instructor or associate dean of graduate studies in Mass Communication and Media Arts.

MCMA594 - Practicum 594-3 Practicum. Study, observation and participation in activities related to the fields of Mass Communication and the Media Arts such as internships in related professional organizations. Restricted to CMCMA major.

MCMA595 - Ph.D. Proseminar 595-3 Ph.D. Proseminar. Provides PhD students in the College of Mass Communication and Media Arts a general orientation to the program. Forum for further discussion of topics and issues raised in visiting lectures scheduled through the college which students will be required to attend. Provides a framework for preparation for the annual MCMA research convention at which students will be required to present. Restricted to MCMA major or consent of instructor or associate dean of Graduate Studies in Mass Communication and Media Arts.

MCMA596 - Independent Study 596-1 to 6 (1 to 3 per semester) Independent Study. Supervised research or independent creative work, the area of study to be determined by the student in consultation with instructor. Consent of instructor.

MCMA599 - Thesis 599-1 to 6 Thesis. Thesis requirements may be satisfied only by a written thesis for an MA in Media Theory and Research and by a creative thesis for an MFA in Mass Communication and Media Arts. Minimum of three hours required for the MA in MTR degree and minimum of six hours required for MFA in MCMA. Graded S/U. Restricted to CMCMA MTR and MFA major. Only MFA thesis course carries a lab fee of \$75 per enrollment.

MCMA600 - Dissertation 600-1 to 32 (1-12 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree.

MCMA601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours dissertation research or the minimum thesis or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Mass Communication and Media Arts Faculty

The graduate faculty, consisting of members of the School of Journalism and the departments of Cinema and Photography, and Radio, Television, and Digital Media, offers graduate work leading to the following degrees: Master of Arts in Media Theory and Research, Master of Science in Professional Media and

Media Management, Master of Fine Arts, and the Doctor of Philosophy in Mass Communication and Media Arts.

Graduate Faculty in Cinema and Photography (CP):

Aguiayo, Angela, Associate Professor, Ph.D., University of Texas, Austin, 2005; 2008. Documentary theory and social change, critical/cultural studies, video production.

Bursell, Cade, Professor, M.F.A., San Francisco State University, 2002; 2003. Cinema Production queer cinema, experimental cinema.

Kapur, Jyotsna, Professor, Ph.D., Northwestern University, 1998; 1998. Feminist and Marxist analysis of media, globalization, children's film and consumer culture, documentary and ethnographic film, the German and Japanese new wave and Indian cinema.

Martinez, Antonio, Associate Professor, M.F.A., East Carolina University, 2005; 2006. Digital imaging, alternative printing processes, multimedia installation, class and racial identity.

Metz, Walter, Professor, Ph.D., University of Texas, Austin, 1996; 2009. Contemporary film and television criticism and theory, literature and film, science and film, post-war American culture.

Overturf, Daniel, Professor, M.F.A., Southern Illinois University Carbondale, 1983; 1991. Photography.

Phillips, Mike, Clinical Assistant Professor, Ph.D., The Graduate Center of the City University of New York, 2019; 2019. American and transnational popular culture, film genre, historical fiction, African American cinema, and intermediality.

Rowley, R. William, Associate Professor, M.F.A., University of Iowa, 1974; 2000. Foundational digital and analog film production and post-production techniques, experimental filmmaking, observational documentary, intermedial arts.

Spahr, Robert, Associate Professor, M.F.A., Parsons School of Design, New York City, 1991; 2009. Computational art using generative and procedural art processes, genetic algorithms, time-based media and live art.

Tudor, Deborah, Associate Professor and *Interim Dean*; Ph.D., Northwestern University, 1992; 2006. Culture and technology, globalization, neoliberalism, and cinema.

Zhou, Hong, Associate Professor, M.F.A., York University, Toronto Canada, 2000; 2008. Film and video production, cinematography, Chinese cinema, surrealist cinema.

Graduate Faculty in Journalism (JRNL):

Babcock, William A., Professor, Ph.D., Southern Illinois University Carbondale, 1979; 2008. Media ethics, public policy reporting.

Barrett, Anita J. (Stoner), Visiting Assistant Professor, M.F.A., Syracuse University, 1995; 2005. Web production and Content Management Systems, multimedia, revenue models for journalism.

Dolan, Mark, Associate Professor, M.A., Syracuse University, 1995; 2008. Visual and interactive communication, photojournalism.

Freivogel, William H., Professor, J.D., Washington University Law School, 2001; 2006. Journalism, media law, public affairs and policy.

Han, Dong, Associate Professor, Ph.D., University of Illinois, 2011; 2012. Intellectual property and media, medical history and political economy, international communication and communication technology.

Karan, Kavita, Professor, Ph.D., University of London, 1994; 2009. Political communication, advertising and market research, international communication, media and children, health communication.

Lescelius, Bridget, Instructor, M.B.A., Virginia Polytechnic, 1996.

McClurg, Scott, Professor and *Interim Director*, Ph.D., Washington University, 2000; 2001. Political participation, public opinion, electoral behavior, political geography, spatial statistics, and campaign dynamics.

Ryoo, Yuhosua, Assistant Professor, Ph.D., University of Texas at Austin, 2019; 2019. The intersection of digital advertising, medial psychology, and prosocial behavior. Individual, social, and situational factors of digital and social media.

Graduate Faculty in Radio, Television, and Digital Media (RTD):

Brooten, Lisa B., Associate Professor, Ph.D. Ohio University, 2003; 2002. Media and globalization, gender, alternative media, social movements, political communication, interpretive/critical research methods, ethnography.

Burns, David, Associate Professor, M.F.A., Parsons School of Design, 2001; 2005. 3D computer animation; media arts theory; technology, culture, and society; memory and post-memory.

Johnson, Jennifer, Assistant Professor of Practice, M.F.A., Southern Illinois University Carbondale, 2017. Music composition and performance. Audio documentaries, radio dramas, and sound art.

Kreider, Wago, Associate Professor and Acting Associate Dean and Interim Director of Graduate Studies, M.F.A., Rutgers University, 2002; 2006. Experimental and documentary media production, sound studies and production, cinematic histories, architectural and environmental studies.

Lewison, Sarah, Associate Professor, M.F.A., University of California, San Diego, 2001; 2007. Video art, social movements, environmental media, installation, live art and performance.

Motyl, Howard D., Associate Professor and *Interim Chair*, M.F.A., Northwestern University, 1990; 2007. Media production and screen writing, narrative, gay representation.

Needham, Jay, Professor, M.F.A., California Institute of the Arts, 1989; 2003. Video, film, digital audio production, and electro-acoustic music.

Padovani, Cinzia, Associate Professor, Ph.D. University of Colorado, 1999; 2005. Historical approaches to political economy, public service broad-casting, international communication, social movements and the media.

Perkins-Buzo, Reid, Assistant Professor, M.F.A., Northwestern University, 2004. Computer animation, game development, and trans media art.

Thompson, Jan, Professor, M.G.S., Roosevelt University, 1988; 2000. Video production, documentary, sports production.

Mathematics

The Department of Mathematics offers graduate degree programs leading to the Master of Arts or Master of Science degree in mathematics and the Doctor of Philosophy degree in mathematics. Students in the master's program can choose from a rich assortment of courses in both pure and applied mathematics and statistics. Each master's degree candidate works closely with a professor in writing a research paper in an area of interest to the student. A double major at the master's level between mathematics and a related discipline is also an option. At the doctoral level, a student may specialize in any one of a large number of fields such as algebra, applied mathematics, combinatorics, computational mathematics, control theory, differential equations, geometry, numerical analysis, probability, or statistics. Interdisciplinary programs are also available.

The department is committed to providing a challenging and rewarding experience for its graduate students. The department offers individual attention and mentoring, strives to establish a friendly, supportive environment, and assists students as much as possible to achieve their professional goals. Graduate students have 24 hour access to the departmental computer lab which has thirty state-of-the-art PCs, all with internet connections. For more computing needs, students can access the University Unix computer servers from the lab.

Students interested in the teaching of mathematics may select a minor concentration in education within the Master of Science program in mathematics. Minor work for graduate degrees in other fields, which allow for a minor, is also offered.

Acceptance for graduate study in mathematics and subsequent continuation in the graduate program are at the discretion of the Department of Mathematics, provided that the student has been admitted to the Graduate School and meets the retention standards of the Graduate School. All applicants for the graduate program are considered for teaching assistantships. In order to be considered for a fellowship, the applicant must take the GRE exam, and all applicants are strongly encouraged to take the GRE General Test.

Prospective students are encouraged to contact the Department of Mathematics at mathgradinfo@siu.edu or the web site at math.siu.edu for application forms or additional information.

In addition to the general rules, regulations, and requirements of the Graduate School, the following specific requirements pertain to the degrees available in mathematics.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Mathematics. Applicants must pay this fee by credit card.

Master of Science Degree in Mathematics

Students will be considered for acceptance into the M.S. degree program in mathematics if they have completed an undergraduate major in mathematics or a strong undergraduate minor in mathematics together with a major in a closely related discipline. Once accepted, the requirements are as follows:

1. The candidate must complete a total of at least 30 semester hours of graduate credit approved by the Director of Graduate Studies of which 15 hours must be at the 500 level, only three of which can be for MATH 595, MATH 598 or MATH 599, and at least 21 hours must be in courses (exclusive of MATH 411, MATH 412, MATH 511, MATH 512A-G and MATH 513A-I) offered by the department of Mathematics. A minor concentration may be taken outside of the department if approved by the Director of Graduate Studies during the student's first semester in the master's program.
2. The candidate's program must include: (a) MATH 452 and MATH 419 AND (b) at least one 400- or 500-level mathematics course from two of the following three areas: (1) algebra and analysis (excluding MATH 452 and MATH 419); (2) geometry and topology; (3) probability and statistics. These requirements may be met in whole or in part by means of equivalent courses taken here or elsewhere prior to acceptance for graduate study in the department. Students who do not receive a *B* or better in MATH 452 on the first attempt are required to repeat it. Students who do not receive a *B* or better in MATH 419 on the first attempt are required to repeat it.
3. The candidate must prepare a research paper or thesis (3 hours credit in MATH 598 or MATH 599) under the supervision of a research adviser and two other faculty members from the department. This committee will be appointed by the Director of Graduate Studies after consultation with all those involved.
4. The candidate must demonstrate competence with the research tool of computer programming. This research tool requirement will be met by passing with a grade of *B* or better in CS 202 or the equivalent, or by passing a suitable examination given by a faculty member from the Department of Mathematics who has been appointed by the Director of Graduate Studies.
5. The candidate must demonstrate satisfactory performance on a final oral examination covering the graduate course work and the research paper or thesis. This examination will be conducted by the three members of the candidate's committee and moderated by the research adviser. The student will pass the examination if the research adviser and at least one of the other two committee members so agree.

Master of Arts Degree in Mathematics

Students will be considered for acceptance into the M.A. degree program in mathematics if they have completed with distinction the equivalent of a strong undergraduate major in mathematics. Once accepted, the requirements are as follows:

1. The candidate must complete a total of 30 semester hours of graduate-level mathematics courses of which at least 15 must be at the 500 level.
2. The candidate must complete with a grade of *B* or better each of the courses MATH 419, MATH 421, MATH 430, MATH 452, MATH 455, and at least two of the courses MATH 501, MATH 519, MATH 530. This requirement may be met in whole or in part by means of equivalent courses taken elsewhere.
3. The candidate must demonstrate the ability to read mathematical literature in French, German, or Russian. This may be certified by passing with a grade of *B* or better the research tool course 488 offered by the Department of Foreign Languages and Literatures, by passing with a score of 465 or better an examination given by the Educational Testing Service of Princeton, NJ, or by passing a suitable examination given by a faculty member from the Department of Mathematics who has been approved by the Director of Graduate Studies.
4. The candidate must prepare a thesis (three hours credit in MATH 599) under the supervision of a thesis adviser and two other faculty members from the department. This committee will be appointed by the Director of Graduate Studies after consultation with all those involved.

The candidate must demonstrate satisfactory performance on a final oral examination covering the graduate course work and the thesis. This examination will be given by the three members of the candidate's committee and chaired by the thesis adviser. The student will pass the examination if the thesis adviser and at least one of the other two committee members so agree.

Doctor of Philosophy Degree

Students will be considered for acceptance into the doctoral program if they have completed with distinction a graduate program comparable to that required for a master's degree in mathematics, statistics, or computer science at SIU. Additional evidence of outstanding scholarly ability or achievement (e.g., a high score on the advanced section of the Graduate Record Examination or published research papers of high quality) will lend strength to the application. Normally students will have completed MATH 419, MATH 421, MATH 430, MATH 452, and MATH 455 or their equivalent before entering the doctoral program; those who have not must make up any deficiencies during their first year in the Ph.D. program. Once admitted, the requirements are as follows:

1. The candidate must pass the departmental qualifying examination within four regular semesters after admission. Qualifying examinations are given twice annually, in January and in August. The student will be allowed to take qualifying exams at most three times. A student who fails to pass the qualifying examination within the allotted time will be dropped from the doctoral program at the end of the semester. The qualifying exam consists of three parts, each covering a regularly scheduled 500-level MATH course exclusive of MATH 511, MATH 521A-G, MATH 513A-I, MATH 516A, MATH 516B, MATH 584, MATH 585 and MATH 586. The student will decide which courses to be tested on in consultation with the Director of Graduate Studies. Two of the three must be chosen from MATH 501, MATH 519, MATH 530 and MATH 580, and must include either MATH 501 or MATH 519. All three parts must be passed, but not necessarily all at once. One of the parts may be from a related field provided, if in judgement of the Graduate Programs Committee, it has mathematically rigorous content.
2. The candidate must demonstrate competence with a computer programming research tool. This requirement will be met by passing with a grade of *B* or better in CS 202 or its equivalent, or by passing a suitable examination given by a faculty member from the Department of Mathematics who has been appointed by the Director of Graduate Studies.
3. MATH 501 and MATH 519 or their equivalent with a *B* or better are required courses for all doctoral students. The candidate must complete a major area (12 hours) and two minor areas (six hours each). The course work in the major and minor areas must be at the 500-level and must be exclusive of the courses used to satisfy the qualifying examination. Normally the major and minor areas will be based on courses currently taught in the department. However, one of the minor areas may be taken outside the department, subject to the approval of the Director of Graduate Studies. With regard to the major and two minor areas, at least one of the three must be in an applied area. The final definition of "applied" will be determined by the dissertation adviser. The following courses cannot be used to satisfy requirements of the PhD program: MATH 400, MATH 401, MATH 402, MATH 403, MATH 404, MATH 411, MATH 412, MATH 511, MATH 512A-G, MATH 513A-I, and MATH 516A, MATH 516B.
4. The candidate must file a request with the Director of Graduate Studies to appoint a dissertation committee to supervise the remaining doctoral work. This committee shall consist of five members with the candidate's dissertation adviser as chair. At least one member of the committee must represent each of the minor areas, and the dissertation adviser and one other member will represent the major area. One member of the committee will be chosen from outside of the department. This committee will be appointed by the Director of Graduate Studies after consultation with the candidate, the proposed dissertation adviser, the department chair, and the other faculty members involved.
5. The candidate must pass a preliminary examination over the major area and one minor area chosen by the candidate. This examination will normally be given after satisfying the research tools requirement and within 18 months after passing the qualifying examination. The preliminary examination will consist of a written examination over the major area and an oral examination over the major area and the chosen minor area. This examination will be prepared, administered, and evaluated by the dissertation committee. Any member of the graduate faculty may attend the oral portion of the preliminary examination and (at the discretion of the committee chair) question the candidate. The candidate will pass the preliminary examination provided that four

members of the committee including the chair so agree. A report on the examination will be included with the candidate's official academic records. In the event that the candidate's performance is unsatisfactory, the committee as a whole shall decide on the time and content of an appropriate re-examination. A candidate who fails the re-examination will be dropped from the doctoral program. In unusual circumstances a candidate who has passed the preliminary examination may wish to change the major area or dissertation adviser. This will be allowed if the Director of Graduate Studies and department Chair so agree, in which case the dissertation committee will be reconstituted in an appropriate manner. The revised committee may then prescribe additional course work and require the candidate to retake the preliminary examination.

6. The candidate must be officially admitted to candidacy for the Ph.D. degree. This will be done after all of the above requirements have been met.
7. The candidate must complete a dissertation (representing at least 24 hours in MATH 600) under the supervision of the candidate's dissertation adviser. The dissertation adviser and the other four members of the dissertation committee will evaluate the quality of the completed work which must conform to high literary and scholastic standards and constitute an original and publishable contribution to mathematics. A final oral examination will be conducted by the dissertation committee. During this examination the candidate will first present the major results of the dissertation and then respond to questions. Any member of the University graduate faculty may attend and (at the discretion of the dissertation adviser) ask related questions. The dissertation will be accepted provided the dissertation adviser and at least three of the other four members of the committee so agree.

Ph.D. Tracks

Students can get a general mathematics Ph.D. or they can choose one of the four tracks listed below. Students should make their choice when they apply or during their first year in the Ph.D. program.

Track in Applied Mathematics: The entrance requirements are MATH 405, MATH 407, MATH 419, MATH 421, and MATH 452, or their equivalents. Students must take two of MATH 502, MATH 505, MATH 519, or MATH 507. For their Qualifying Exam they must take MATH 501 or MATH 519 and two of MATH 502, MATH 505, MATH 507, MATH 555, MATH 574, MATH 575, or MATH 580. They should then write their dissertation in the area of Applied Mathematics.

Track in Statistics: The entrance requirements are MATH 419, MATH 421, MATH 452, and MATH 483, or their equivalents. Students must take MATH 580 and MATH 581. For their Qualifying Exam they must take MATH 580 and at least one of MATH 501, MATH 519, or MATH 581, as well as one of MATH 584 or MATH 575 if needed. They should then write their dissertation in the area of Statistics.

Track in Computational Mathematics: The entrance requirements are MATH 419, MATH 421, MATH 452, MATH 449, and CS 451, or their equivalents. Students must take MATH 501, MATH 519, MATH 549, and MATH 574. For their Qualifying Exam they must take CS 555, one of MATH 501 or MATH 519, and one other 500-level MATH course (preferably MATH 549, MATH 574, or MATH 575). For their preliminary examination, computer science should be a minor area. They should then write their dissertation in the area of Computational Mathematics.

Track in Pure Mathematics: The entrance requirements are MATH 419, MATH 421, MATH 430, MATH 452, and MATH 455, or their equivalents. Students must take MATH 501, MATH 502, MATH 505, MATH 519, MATH 555, and MATH 574 and one of MATH 520, MATH 525, MATH 526, MATH 530, or MATH 549. For their Qualifying Exam they must take at least two of MATH 501, MATH 519, MATH 530, or MATH 555 and the remainder, if needed, from MATH 502, MATH 505, MATH 520, MATH 525, MATH 526, MATH 574, or MATH 549. They should then write their dissertation in the area of Pure Mathematics.

Direct Entry into the Ph.D. Program

A prospective student without a masters degree can request direct entry into the PhD program. They must meet the same coursework requirements and demonstrate that they have completed a research project in English. Students should be aware that this option reduces the amount of TA funding they can receive by 12 months.

Accelerated Entry into the Ph.D. Program

A current student in our masters program can request accelerated entry into the PhD program once they have completed one year. They must meet the same coursework requirements and demonstrate that they have completed a research project in English. Students should be aware that the option reduces the amount of TA funding they can receive by 12 months.

Graduate Assistantship

University policy allows 24 months of graduate assistantships for masters students, 48 months for PhD students with a masters degree, and 60 months for direct entry PhD students. See the [Admission Policies, Requirements, and Procedures](#) tab for more information on financial assistance.

Certificate for Dual Teaching in Mathematics

This certificate allows an Illinois high school mathematics teacher with a Master's degree (in any field) to teach certain courses for college credit to high school students. An undergraduate degree in Mathematics, Mathematics Education, or a related field is required for admission. The program requires 18 credit hours of graduate level Mathematics courses. Many courses are available online.

Mathematics Courses

MATH400 - Interest Thry Fin Derivatives 400-4 Interest Theory and Financial Derivatives. This course examines financial mathematics and actuarial models for investments including interest, annuities, stocks, bonds, and mutual funds. There is an introduction to financial derivatives, options, and futures. Preparation for Exam FM/2. Prerequisite: MATH 250 (Calculus II) with C or better.

MATH401 - Life Contingencies I 401-3 Life Contingencies I. This course examines actuarial models for life insurance. Life contingency models include life insurance liability calculations, annuities, and credit risk. Basic properties of survival models and Poisson processes are covered. This course and MATH 402 prepare students for Exam MLC/3L. Prerequisite: MATH 483 with C or better.

MATH402 - Life Contingencies II 402-3 Life Contingencies II. This is a second course in actuarial models for life insurance including multiple contingencies, multiple survivals and claim frequency models. Basic properties of Markov Chains are covered. This course and MATH 401 prepare students for Exam MLC/3L. Prerequisites: MATH 221 and MATH 401 with C or better.

MATH403 - Loss Models I 403-3 Loss Models I. This course examines loss models including severity models, ruin models, and estimating and fitting the models. This course and MATH 404 prepare students for Exam C/4. Prerequisite: MATH 483 with C or better.

MATH404 - Loss Models II 404-3 Loss Models II. This is a second course in loss models including estimation and fitting of severity and ruin models, and credibility theory. This course and MATH 403 prepare students for Exam C/4. Prerequisite: MATH 403 with C or better.

MATH405 - Intermediate Diff Equations 405-3 Intermediate Differential Equations. This course features the study of several sets of differential equations with the aid of computers. The equations are actual applications in biology, chemistry, economics, engineering, finance, medicine and physics. Where possible, problems will be chosen to match student's interests. Students from these areas are particularly welcome. Basic theory of differential equations is cited as needed. Prerequisite: MATH 305 with C or better.

MATH406 - Linear Analysis 406-3 Linear Analysis. Introduction to function spaces and operators used in quantum mechanics, partial differential equations, etc. Topics include: discrete and continuous models for the vibrating string, separation of variables, eigenfunction analysis, inner product spaces; operators on inner product spaces; the spectral theorem for Hermitian operators on finite dimensional spaces, the Courant-Fisher characterization. Prerequisite: MATH 221 and MATH 305 with C or better.

MATH407 - Partial Differential Equations 407-3 Partial Differential Equations. Solution methods for linear partial differential equations arising in engineering and science. Topics include: the heat equation, the wave equation, Laplace's equation, separation of variables, boundary and initial value problems, uniqueness via the energy methods, the maximum principle and characteristics. Solutions to the vibrating string and dissipation of heat in a bar will be discussed. Prerequisite: MATH 251 and MATH 305 with C or better.

MATH409 - Fourier Analysis 409-3 Fourier Analysis. Introduction to the theory, techniques and applications of Fourier analysis. Topics include: Fourier synthesis and analysis equations for periodic and aperiodic functions; convolution; the calculus of Fourier transforms, Fourier series of DFT's; operators and Fourier transforms; FFT and related algorithms; generalized functions such as Dirac's delta and others; selected applications. Prerequisite: MATH 221 and MATH 305 with C or better.

MATH411 - Math Topics for Teachers 411-1 to 6 Mathematical Topics for Teachers. Variety of short courses in mathematical ideas useful in curriculum enrichment in elementary and secondary mathematics. May be repeated as topics vary. Does not count toward a mathematics major.

MATH412 - Prob Solving Approach 412-3 Problem Solving Approaches to Basic Mathematical Skills. Content of basic skills at all levels of education and the development of these skills from elementary school through college; emphasis on problem solving and problem solving techniques; determination of student skills and proficiency level. Credit may not be applied toward degree requirements in mathematics. Prerequisite: MATH 321 or CI 321.

MATH417 - Applied Matrix Theory 417-3 Applied Matrix Theory. Selected applications of matrices to physics, chemistry and economics. This material is also useful for engineering and computer science. Topics include matrix representation of symmetry groups, non-negative matrices and the subsidy problem, location of eigenvalues. Prerequisite: MATH 221 with C or better.

MATH418 - Computer Algebra Systems 418-3 Computer Algebra Systems. This course presents modern computer algebra systems (CAS) as a research tool in mathematics. The use of a CAS in the preparation of reports, theses and dissertations will also be covered. Topics will include: solving differential equations with a CAS; plotting techniques with a CAS; symbolic packages for such areas as abstract algebra, number theory; and combinatorics; programming with a CAS; exporting results to TeX or word processing software; The AMS-LaTeX package. Restricted to graduate standing. Special approval needed from the instructor.

MATH419 - Intro Abstract Algebra II 419-3 Introduction to Abstract Algebra II. A detailed study of polynomial equations in one variable. Solvable groups and the Galois theory of field extensions are developed and applied to extensions of the quadratic formula, proving the impossibility of trisecting an angle with only a straight-edge and compass, and to the basic facts about finite fields as needed in coding theory and computer science. Prerequisite: MATH 319 with C or better.

MATH421 - Linear Algebra 421-3 Linear Algebra. The extension of basic linear algebra to arbitrary scalars. The theory and computation of Jordan forms of matrices (as needed e.g., for certain diffusion equations). Inner products, quadratic forms and Sylvester's Law of Inertia. Prerequisite: MATH 221 with C or better.

MATH425 - Intro to Number Theory 425-3 Introduction to Number Theory. Properties of integers, primes, divisibility, congruences, quadratic forms, diophantine equations, and other topics in number theory. Prerequisite: MATH 319 with C or better.

MATH430 - Intro to Topology 430-3 Introduction to Topology. Study of the real line and the plane, metric spaces, topological spaces, compactness, connectedness, continuity, products, quotients and fixed

point theorems. This course will be particularly useful to students who intend to study analysis or applied mathematics. Prerequisite: MATH 352 with C or better.

MATH433 - Classical & Modern Geometry 433-3 Classical and Modern Geometry. Introduction to the foundations of Euclidean and non-Euclidean geometries. Topics include synthetic approach (Euclidean geometry, axiomatic systems, constructions, proofs), symmetries (similarity, congruence and various transformations and their invariants), metric approach (distance), vector space approach (transformations and matrices, inner product), inversive geometry, projective geometry (art and math) and non-Euclidean geometries. Some applications in modern science, like Relativity Theory, may also be covered. Historical background and connections with other parts of mathematics, science and culture are important components of this course. Prerequisite: MATH 250 and MATH 302 with grades of C or better.

MATH435 - Elem Differential Geometry 435-3 Elementary Differential Geometry. Introduction to modern differential geometry through the study of curves in R^3 . Local curve theory with emphasis on the Serret-Frenet formulas; global curve theory including Fenchel's theorem; local surface theory motivated by curve theory; global surface theory including the Gauss-Bonnet theorem. Prerequisite: MATH 221 and MATH 251 with C or better.

MATH447 - Intro to Graph Theory 447-3 Introduction to Graph Theory. (Same as CS 447) Graph theory is an area of mathematics which is fundamental to future problems such as computer security, parallel processing, the structure of the World Wide Web, traffic flow and scheduling problems. It also plays an increasingly important role within computer science. Topics include: trees, coverings, planarity, colorability, digraphs, depth-first and breadth-first searches. Prerequisite: MATH 349 with C or better.

MATH449 - Intro to Combinatorics 449-3 Introduction to Combinatorics. (Same as CS 449) This course will introduce the student to various basic topics in combinatorics that are widely used throughout applicable mathematics. Possible topics include: elementary counting techniques, pigeonhole principle, multinomial principle, inclusion and exclusion, recurrence relations, generating functions, partitions, designs, graphs, finite geometry, codes and cryptography. Prerequisite: MATH 349 with C or better.

MATH450 - Methods of Advanced Calculus 450-3 Methods of Advanced Calculus. Multivariable calculus fundamental to continuum mechanics, differential geometry, electromagnetism, relativity, thermodynamics, etc. Includes: parametric curves and surfaces, inverse and implicit function theorems, contraction mapping and fixed point theorems, differentials, convergence of multivariate integrals, coordinate systems in space, Jacobians, surfaces, volumes and Green's, Gauss', and Stokes' theorems. Prerequisite: MATH 251 with C or better.

MATH452 - Introduction to Analysis 452-3 Introduction to Analysis. A rigorous development of one-variable calculus providing the tools necessary for understanding all other advanced courses in analysis. Topics include: sets, axioms for the real numbers, continuity, limits, differentiation, the Riemann integral, infinite sequences and series of functions. Additional topics may include areas such as Riemann-Stieltjes integration or the analysis of multivariable functions. Prerequisite: MATH 352 with C or better.

MATH455 - Complex Analysis 455-3 Complex Analysis with Applications. Analysis of differentiable functions of a single complex variable. Introduces mathematical techniques used to analyze problems in the sciences and engineering that are inherently two dimensional. Topics include: the complex plane, analytic functions, the Cauchy-Riemann equations, line integrals, the Cauchy integral formula, Taylor and Laurent series, the residue theorem, conformal mappings, applications. Prerequisite: MATH 251 with C or better.

MATH460 - Transformation Geometry 460-3 Transformation Geometry. Geometry viewed as the study of properties invariant under the action of a group. Topics include collineations, isometries, Frieze groups, Leonardo's Theorem, the classification of isometries of Euclidean and hyperbolic geometries. Recommended elective for secondary education majors in mathematics. Prerequisite: MATH 319 with C or better.

MATH471 - Optimization Techniques 471-3 Optimization Techniques. (Same as CS 471) Introduction to algorithms for finding extreme values of nonlinear multivariable functions with or without constraints. Topics include: convex sets and functions; the arithmetic-geometric mean inequality; Taylor's theorem for

multivariable functions; positive definite, negative definite, and indefinite matrices; iterative methods for unconstrained optimization. Prerequisite: MATH 221 and MATH 250 with C or better.

MATH472 - Linear Programming 472-3 Linear Programming. (Same as CS 472) Introduction to finding extreme values of linear functionals subject to linear constraints. Topics include: recognition, formulation, and solution of real problems via the simplex algorithm; development of the simplex algorithm; artificial variables; the dual problem and duality theorem; complementary slackness; sensitivity analysis; and selected applications of linear programming. Prerequisite: MATH 221 with C or better.

MATH473 - Reliability & Survival Models 473-3 Reliability and Survival Models. Introduction to statistical analysis of data on lifetime, including hazard functions and failure distributions; estimation and hypothesis testing in life testing experiments with complete as well as censored data. Prerequisite: MATH 480 or MATH 483 with C or better.

MATH474 - Time Series 474-3 Time Series. An introduction to time series: AR, MA and ARIMA models; estimation, time series models. Prerequisite: MATH 480 or MATH 483 with C or better.

MATH475 - Numerical Analysis I 475-3 Numerical Analysis I. (Same as CS 475) Introduction to theory & techniques for computation with digital computers. Topics include: solution of nonlinear equations; interpolation & approximation; solution of systems of linear equations; numerical integration. Students will use MATLAB to study the numerical performance of the algorithms introduced in the course. Prerequisites: MATH 221 and MATH 250 with C or better.

MATH476 - Numerical Analysis II 476-3 Numerical Analysis II. (Same as CS 476) Continuation of MATH 475. Topics include: solution of ordinary differential equations; computation of eigenvalues and eigenvectors; and solution of partial differential equations. Students will use MATLAB to study the numerical performance of the algorithms introduced in the course. Prerequisites: MATH 305 and MATH 475 with a C or better.

MATH480 - Prob Stoch Processes I 480-3 Probability, Stochastic Processes and Applications I. Introduction to the central topics of modern probability including elementary stochastic processes; random variables and their properties; sum of independent random variables and the Central Limit Theorem; random walks; discrete time finite state Markov chains; applications to random number generators and image and signal processing. Also generating functions, conditional probability, expectation, moments. Prerequisite: MATH 251 with C or better.

MATH481 - Prob Stoch Processes II 481-3 Probability, Stochastic Processes and Applications II. Continuation of MATH 480. Thorough introduction to Markov processes and Martingales, including the laws of large numbers, classification of states, recurrence, convergence to the stationary distribution in Markov chains, birth processes, Poisson processes, stopping times, and the Martingale convergence theorem. Important and current applications will be included. Prerequisite: MATH 480 with C or better.

MATH483 - Math Stats in Engr & Sci 483-4 Mathematical Statistics in Engineering and the Sciences. Develops the basic statistical techniques used in applied fields like engineering, and the physical and natural sciences. Principal topics include probability; random variables; expectations; moment generating functions; transformations of random variables; point and interval estimation; tests of hypotheses. Applications include one-way classification data and chi-square tests for cross classified data. Prerequisite: MATH 250 with C or better.

MATH484 - Applied Regression Analysis 484-3 Applied Regression Analysis and Experimental Design. Introduction to linear models and experimental design widely used in applied statistical work. Topics include linear models; analysis of variance; analysis of residuals; regression diagnostics; randomized blocks; Latin squares; factorial designs. Applications include response surface methodology and model building. Computations will require the use of a statistical package such as SAS. Prerequisite: MATH 221 and MATH 483 with C or better.

MATH485 - Applied Statistical Methods 485-3 Applied Statistical Methods. Introduction to sampling methods and categorical data analysis widely used in applied areas such as a social and biomedical sciences and business. Sampling methods topics include: simple random and stratified sampling; ratio

and regression estimators. Categorical data analysis topics include: contingency tables; loglinear models; logistic regression; model selection; use of a computer package. Prerequisite: MATH 483 with C or better.

MATH490 - Topics in Mathematics 490-3 Topics in Mathematics. Selected topics in mathematics chosen from such areas as: (a) Financial Mathematics, Mathematical Biology or Actuarial Mathematics; (b) Probability, Statistics or Stochastic Processes; (c) Mathematical topics not including Statistics, such as Operations Research, Cryptography and High Dimensional computing in Numerical Analysis, etc. May be repeated up to 3 times as topics vary. Special approval needed from the instructor.

MATH492 - Industrial Applied Math Clinic 492-3 Industrial and Applied Mathematics Clinic. Students will participate in a semester-long project to apply their mathematical knowledge to a problem supplied by a business, industrial, or community partner. Students will work in teams, and will engage in client contact, including a final report of their results to the client. Mathematical modeling, research, communication, and project management skills will be developed, along with core mathematical competency needed to solve the client problem. Prerequisites: MATH 221, MATH 483, and CS 202 with grades of C or better.

MATH495 - Special Topics in Math 495-1 to 6 Special Topics in Mathematics. Individual study or small group discussions in special areas of interest under the direction of a member of the faculty. Special approval needed from the chair and instructor.

MATH501 - Measure and Integration 501-3 Measure and Integration. This course is an introduction to measure theory and the Lebesgue integral. Its purpose is to develop many of the advanced mathematical tools that are necessary for the understanding of all other advanced courses in analysis. Topics will include: measures and measurable functions, Egoroff's theorem, the Lebesgue integral, Fatou's lemma, the monotone and dominated convergence theorems, functions of bounded variation and absolutely continuous functions, L_p -spaces, the Radon-Nikodym theorem, product measures, and Tonelli's and Fubini's theorems. Prerequisite: MATH 452.

MATH502 - Functional Analysis 502-3 Functional and Linear Analysis. This course is an introduction to infinite-dimensional spaces and their analysis. Topics include Hilbert and Banach spaces, separable and reflexive spaces, operators and their adjoints, and major theorems such as the Banach-Steinhaus, Open-Mapping, Closed Graph, Hahn-Banach, Riesz and matrix representation, Lax-Milgram, Arzela-Ascoli, Katos theorems. Spectral theory and applications to such areas as differential equations, Block iterations, quantum probability, fixed point theory or other areas are covered as time permits. Prerequisite: MATH 501 with a grade of B or better.

MATH505 - Ordinary Differentl Equations 505-3 Ordinary Differential Equations. Existence and uniqueness theorems; general properties of solutions; linear systems; geometric theory of nonlinear equations; stability; self-adjoin boundary value problems; oscillation theorems. Theory will be illustrated with computer simulation of several real-world problems. Prerequisite: MATH 452 and MATH 421 or consent of instructor.

MATH506 - Adv Topics Ord Diff Equats 506-1 to 12 Advanced Topics in Ordinary Differential Equations. Selected advanced topics in ordinary differential equations chosen from such areas as: stability, oscillations, functional differential equations, perturbations, boundary value problems. Special approval needed from the instructor.

MATH507 - Partial Differential Equations 507-3 Partial Differential Equations. This course introduces the student to the mathematical techniques that are used to analyze qualitative properties of solutions to partial differential equations that arise in engineering and the sciences. Topics studied will include: function spaces including Sobolev spaces; weak derivatives; the Sobolev and Poincare inequalities; existence, uniqueness, and continuous dependence for model equations. Prerequisite: MATH 407 and MATH 501.

MATH511 - Adv Topics in Teaching of Math 511-3 Advanced Topics in the Teaching of Mathematics. (Same as CI 529) Selected advanced topics in the teaching of mathematics chosen from such areas as: pedagogical theories; instructional strategies; applications of mathematics; problem solving. This course is counted by the Mathematics department only as part of an approved minor. Special approval needed from the instructor.

MATH512A - Elem: Abstract Algebra 512A-1 to 3 Topics in Mathematics for Teachers of Elementary, Middle School and Junior High Mathematics-Abstract Algebra. This course is counted by the Mathematics department only as part of an approved minor.

MATH512B - Elem: Geometry 512B-1 to 3 Topics in Mathematics for Teachers of Elementary, Middle School and Junior High Mathematics-Geometry. This course is counted by the Mathematics department only as part of an approved minor.

MATH512C - Elem: Probability & Stats 512C-1 to 3 Topics in Mathematics for Teachers of Elementary, Middle School and Junior High Mathematics-Probability and Statistics. This course is counted by the Mathematics department only as part of an approved minor.

MATH512D - Elem: Sets, Logic, Number Sys 512D-1 to 3 Topics in Mathematics for Teachers of Elementary, Middle School and Junior High Mathematics-Sets, Logic and Number Systems. This course is counted by the Mathematics department only as part of an approved minor.

MATH512E - Elem: Applications of Math 512E-1 to 3 Topics in Mathematics for Teachers of Elementary, Middle School and Junior High Mathematics-Applications of Mathematics. This course is counted by the Mathematics department only as part of an approved minor.

MATH512F - Elem: Algebra 512F-1 to 3 Topics in Mathematics for Teachers of Elementary, Middle School and Junior High Mathematics-Algebra. This course is counted by the Mathematics department only as part of an approved minor.

MATH512G - Elem: History of Math 512G-1 to 3 Topics in Mathematics for Teachers of Elementary, Middle School and Junior High Mathematics-History of Mathematics. This course is counted by the Mathematics department only as part of an approved minor.

MATH513A - Secondary Math: Abstract Algebra 513A-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics- Abstract Algebra. This course is counted by the Mathematics department only as part of an approved minor.

MATH513B - Secondary Math: Geometry 513B-1 to 27 Topics in Mathematics for Teachers of Secondary Mathematics- Geometry. This course is counted by the Mathematics department only as part of an approved minor.

MATH513C - Secondary Math: Probability & Stat 513C-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics-Probability and Statistics. This course is counted by the Mathematics department only as part of an approved minor.

MATH513D - Secondary Mth: Sets, Logic, Numbers 513D-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics-Sets, Logic and Number Systems. This course is counted by the Mathematics department only as part of an approved minor.

MATH513E - Secondary Mth: Applications Math 513E-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics-Applications of Mathematics. This course is counted by the Mathematics department only as part of an approved minor.

MATH513F - Secondary Math: Topics 513F-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics-Analysis. This course is counted by the Mathematics department only as part of an approved minor.

MATH513G - Secondary: Discrete Math 513G-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics- Discrete Mathematics. This course is counted by the Mathematics department only as part of an approved minor.

MATH513H - Secondary: Topology 513H-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics-Topology. This course is counted by the Mathematics department only as part of an approved minor.

MATH513I - Secndry:Computer Simulation 513I-1 to 3 Topics in Mathematics for Teachers of Secondary Mathematics-Computer Simulation. This course is counted by the Mathematics department only as part of an approved minor.

MATH516A - Stat Analy in Soc Sci I 516A-4 Statistical Analysis in the Social Sciences. Descriptive statistics; graphic display of data; concepts of probability; statistical estimation, and hypothesis testing. Applications to social science data. This course does not give credit toward a mathematics major. Prerequisite: one year of high school algebra or equivalent.

MATH516B - Stat Analy in Soc Sci II 516B-4 Statistical Analysis in the Social Sciences. Matrix algebra; general linear model; multivariate statistics, ordinal and nominal measures of associations and causal modeling. Applications to social science data. This course does not give credit toward a mathematics major. Prerequisite: one year of high school algebra or equivalent.

MATH519 - Algebraic Structures I 519-3 Algebraic Structures I. Introduction to the basic techniques in the classification of finite groups, including homomorphism theorems, classification of finitely generated abelian groups, Sylow's theorems and classification of small groups, divisibility theory in rings, especially polynomial rings. Prerequisite: MATH 419 or consent of instructor.

MATH520 - Algebraic Structures II 520-3 Algebraic Structures II. Free modules, torsion modules, tensor products of modules, finitely generated modules over principal ideal domains, application of abelian groups, algebraic geometry, homological algebra and group cohomology. Prerequisite: MATH 519.

MATH522 - Adv Topics-Alg & Num Theory 522-1 to 12 Advanced Topics in Algebra and Number Theory. Selected topics in modern algebra and number theory chosen from such areas as: group theory, commutative algebra, non-commutative algebra, field theory, representation theory, analytical number theory, algebraic number theory, additive number theory. Diophantine approximations, Dirichlet series and automorphic form. Special approval needed from the instructor.

MATH525 - Analytic Number Theory 525-3 Analytic Number Theory. Introduction to modern analytic techniques used in the study of quadratic forms, the distribution of prime numbers, Diophantine approximations and other topics of classical number theory. Prerequisites: MATH 425 and MATH 455 with grades of C or better.

MATH526 - Algebraic Number Theory 526-3 Algebraic Number Theory. Introduction to the modern algebraic techniques used in the study of number theory. Advanced Galois Theory, algebraic integers, prime factorization of ideals, Dirichlet unit theorem, ramification theory, local fields, and other topics. Prerequisites: MATH 425 and MATH 419 with grades of C or better.

MATH530 - Topology 530-3 Topology. This course covers the basics of point-set topology, Urysohn's lemma, Tychonoff's theorem, the Barie category theorem, manifolds and the fundamental group. Prerequisite: MATH 430 or MATH 452 with a C or better.

MATH531 - Algebraic Topology 531-3 Algebraic Topology. This course covers homotopy and homology groups, exact sequences, CW complexes, axioms of homology, and beginnings of cohomology. Prerequisite: MATH 530 with a C or better.

MATH532 - Topics in Geom & Topology 532-1 to 12 Topics in Geometry and Topology. Topics may include dynamical systems, topological groups, knot theory, complexity theory, uniform spaces and frames, differential and Riemannian geometry, voting theory and mathematical physics. Special approval needed from the instructor.

MATH535 - Differential Geometry 535-3 Differential Geometry. his course covers differential forms, curvature, connections, integration on manifolds and may include Riemannian geometry or Lie groups. Prerequisite: MATH 530 with a C or better.

MATH540 - Convex Analysis 540-3 Convex Analysis. The course develops the basic results on convex sets and functions which are extensively used in several areas of applied mathematics and in business and engineering. Both finite and infinite dimensional spaces will be discussed. Topics covered include separation theorems, extreme points and the Krein-Milman Theorem. For infinite dimensional

spaces elementary aspects of locally convex spaces will be covered. Applications include inequalities, constrained optimization and minimax theory. Prerequisite: MATH 452 or consent of instructor.

MATH549 - Combinatorial Theory 549-3 Combinatorial Theory. This course will introduce the student to various advanced topics in Combinatorial theory that are basic to modern methods in applicable mathematics. Possible topics include: Enumeration, Polya-Burnside theory, DeBruijn sequences, Graph theory, Cayley's Theorem, Ramsey's Theorem, Hall's Theorem, Design Theory, Distinct representatives, Latin squares and Finite geometries. Prerequisite: MATH 449 or consent of instructor.

MATH553 - Adv Topics Analys & Func Anlys 553-1 to 12 Advanced Topics in Analysis and Functional Analysis. Advanced topics in analysis and functional analysis from such areas as: harmonic analysis, approximation theory, integration theory, advanced complex variables, topological vector spaces, operator theory, Banach algebras, distribution theory. Special approval needed from the instructor.

MATH555 - Complex Analysis 555-3 Complex Analysis. We review the field of complex numbers, differentiability, series convergence and the Cauchy integral formula for functions of a single complex variable. We go on to study the properties analytic, entire, meromorphic, and harmonic functions. We develop rigorous proofs of the Maximum modulus theorem, the Riemann mapping theorem, the residue theorem, and the Weierstrass factorization theorem and related results. If time permits the gamma and Riemann zeta functions are presented. Prerequisite: MATH 455.

MATH559 - Adv Topics in Combinatorics 559-1 to 12 Advanced Topics in Combinatorics. Selected advanced topics in combinatorics chosen from such areas as: graph theory; combinatorial designs; enumeration; random graphs; finite geometry; coding theory; cryptography; combinatorial algorithms. Special approval needed from the instructor.

MATH560 - Mathematical Finance 560-3 Mathematical Finance. The theory of stochastic processes, including integration, martingales, Brownian motion, difference equations and Ito's lemma, is developed and applied to problems in mathematical finance, such as dynamic asset and option pricing, modeling of financial derivatives and interest rates. The binomial tree method of Cox-Ingersoll-Rubinstein, and the models of Vasicek, Dothan, and others are developed. Stochastic numerical methods and related statistical procedures as used in computational finance are covered if time permits. Since this is an interdisciplinary course, students should contact the instructor about prerequisite knowledge. Special approval needed from the instructor.

MATH566 - Continuum Mechanics 566-3 Continuum Mechanics. This course will provide a rigorous development of the mechanics of solids and fluids. Topics will include: elements of tensor analysis; kinematics; balance of mass, linear momentum and angular momentum; the concept of stress; constitutive equations for fluid and solid bodies; and invariance of constitutive equations under a change in observer. Applications of continuum mechanics to the solution of problems in materials science will be included as time permits. Prerequisite: MATH 450 or MATH 452.

MATH569 - Adv Topics in Applied Math 569-1 to 12 Advanced Topics in Applied Mathematics. Selected advanced topics in applied mathematics chosen from such areas as: continuum mechanics; electromagnetic theory; control theory; mathematical physics. Special approval needed from the instructor.

MATH570 - Adv Topics: Optimization 570-1 to 12 Advanced Topics in Optimization. Selected advanced topics in optimization and operations research chosen from such areas as: calculus of variations, optimal control theory, nonlinear programming, convex analysis, non-smooth analysis, new flows, advanced computer simulation, large scale linear programming. Special approval needed from the instructor.

MATH572 - Adv Topics in Numerical Anlys 572-1 to 12 Advanced Topics in Numerical Analysis. (Same as CS 572) Selected advanced topics in numerical analysis chosen from such areas as: approximation theory, spline theory; special functions; wavelets; numerical solution of initial value problems; numerical solution of boundary value problems; numerical linear algebra; numerical methods of optimization; and functional analytic methods. Special approval needed from the instructor.

MATH574 - Approximation Theory 574-3 Approximation Theory. A study of techniques for approximating functions by polynomials, trigonometric polynomials, polynomial splines, wavelets, etc. Topics include: existence, uniqueness and characterization of best approximations in normed

linear spaces; projection methods for good approximation; the Weierstrass, Muntz-Szasz, and Stone-Weierstrass theorems; degree of approximation and the Jackson theorems; construction of optimal min-max and least squares approximation using rational functions, splines, wavelets. Students will use MATLAB to study the quality of various approximations developed in the course. Prerequisite: MATH 452, MATH 475, and one of MATH 406, MATH 421.

MATH575 - Matrix Computations 575-3 Matrix Computations. A practical introduction to modern numerical linear algebra. Topics include: vector and matrix norms; Householder, Givens and Gauss transforms; factorization methods for solving systems of linear equations with roundoff error analysis; QR and SVD methods for solving linear least squares problems; the QR algorithm for computing the eigenvalues of a matrix. Students will use MATLAB to study the algorithms developed in the course. Prerequisite: MATH 475 and one of MATH 406, MATH 421.

MATH580 - Statistical Theory 580-3 Statistical Theory. The course gives a rigorous introduction to statistical inference. Topics covered include statistical models; sufficiency and completeness; Cramer-Rao bound; Rao-Blackwell theorem; best estimators; most powerful tests; likelihood ratio tests; elements of Bayes and minimax procedures. Prerequisite: MATH 483 or MATH 480.

MATH581 - Probability 581-3 Probability. A rigorous, measure-theoretic introduction to probability theory. Principal topics include general probability spaces, product spaces and product measures, random variables as measurable functions, distribution functions, conditional expectation, types of convergence, characteristic functions and the Central Limit theorem, tail events and 0-1 laws, the Borel-Cantelli lemma, and the weak and strong law of large numbers. Prerequisite or Corequisite: MATH 501, or consent of instructor.

MATH582 - Adv Topics in Probability 582-1 to 6 Advanced Topics in Probability. Selected advanced topics in probability chosen from such areas as: martingales, Markov processes, Brownian motion, infinitely divisible laws. Special approval needed from the instructor.

MATH583 - Advanced Topics in Stats 583-1 to 12 Advanced Topics in Statistics. Selected advanced topics in statistics chosen from such areas as: advanced linear models, advanced experimental design, multivariate statistical analysis, decision theory, advanced nonparametric theory. Special approval needed from the instructor.

MATH584 - Linear Models 584-3 Linear Models. This course examines the theory of linear models with applications to the analysis of variance and regression and to the design of experiments. Least squares estimation, and testing for full rank and less than full rank models are covered. Prerequisites: MATH 221 and MATH 484 with grades of C or better.

MATH585 - Multivariate Analysis 585-3 Multivariate Analysis. This course examines the multivariate normal and elliptically contoured distributions, estimators of multivariate location and dispersion, Hotelling's T^2 test, MANOVA, multivariate regression, principal component analysis, factor analysis, canonical correlation analysis, discriminant analysis, and clustering. Prerequisites: MATH 483 and MATH 221 with grades of C or better.

MATH586 - Statistical Learning 586-3 Statistical Computing and Learning. This course covers Statistical Computing and Learning, including supervised and unsupervised learning, statistical computations in software packages such as R and SAS, loops, approximation of distribution functions, computation of maximum likelihood estimations, random number generation, bootstrap, Monte Carlo, permutation tests, and Bayesian techniques. Prerequisites: MATH 483 and MATH 221 with grades of C or better.

MATH590 - Contemporary Math Research 590-1 to 6 Contemporary Mathematics Research. Lectures on various mathematical topics of current research interest by members of the department and by distinguished visitors. Special approval needed from the graduate adviser.

MATH595 - Individual Study 595-1 to 12 Individual Study. Individual study supervised by a member of the continuing faculty. Graded S/U only. Special approval needed from the instructor.

MATH598 - Research Paper 598-1 to 6 Master's Research Paper. Minimum of three hours to be counted toward the Master of Arts or Science in Mathematics degree. Graded S/U only. Special approval needed from the instructor.

MATH599 - Thesis 599-1 to 6 Master's Thesis. Minimum of three hours to be counted toward the Master of Arts or Science in Mathematics degree. Graded S/U only. Special approval needed from the instructor.

MATH600 - Dissertation 600-1 to 30 (1 to 16 per semester) PhD Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree in Mathematics. Special approval needed from the instructor.

MATH601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

MATH699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Mathematics Faculty

Ban, Dubravka, Professor, Ph.D., University of Zagreb, Croatia, 1998; 2002. Algebra, Representation theory, Automorphic L-functions.

Bhattacharya, Bhaskar, Professor and *Chair*, Ph.D., University of Iowa, 1993; 1993. Order restricted statistical inference, I-projections, linear models, multivariate analysis.

Neuman, Edward, Professor, *Emeritus*, Ph.D., University of Wroclaw, Poland, 1972; 1984.

Olive, David, Professor, Ph.D., University of Minnesota, 1998; 1999. Applied robust statistics, regression graphics, applied probability.

Paine, Thomas B., Assistant Professor, *Emeritus*, Ph.D., University of Oregon (Eugene), 1966; 1966.

Patula, William T., Professor, *Emeritus*, Ph.D., CarnegieMellon University, 1971; 1972.

Pedersen, Franklin D., Associate Professor, *Emeritus*, Ph.D., Tulane University, 1967; 1965.

Pericak-Spector, Kathleen A., Professor, *Emerita*, Ph.D., Carnegie-Mellon University, 1980; 1981. Hyperbolic partial differential equations, continuum mechanics, science education.

Redmond, Donald, Associate Professor, Ph.D., University of Illinois, 1976; 1979. Analytic number theory, elementary number theory, classical analysis, history of mathematics.

Samadi, S. Yaser, Assistant Professor, Ph.D., University of Georgia, 2014; 2014. Multivariate and Matrix Time Series Analysis.

Schurz, Henri U., Professor, Ph.D., Humboldt University (Berlin), 1997; 2001. Stochastic analysis, stochastic dynamical systems, mathematical finance.

Spector, Scott J., Professor, *Emeritus*, Ph.D., CarnegieMellon University, 1978; 1981.

Sullivan, Michael C., Professor, Ph.D., The University of Texas at Austin, 1992; 1996. Topological Dynamics.

Wallis, Walter D., Professor, *Emeritus*, Ph.D., University of Sydney, 1968; 1985.

Wright, Mary H., Professor, *Emerita*, Ph.D., McGill University, Montreal, Quebec, 1977; 1980. Rings and modules: structure of modules, prime ideals and localization over serial rings with Krull dimension.

Xiao, Mingqing, Professor, University of Illinois at Urbana-Champaign, 1997; 1999. Partial differential equations, dynamical systems, control theory and applications.

Xu, Dashun, Professor, Ph.D., Memorial University of Newfoundland, St. John's, Canada, 2004; 2006. Mathematical biology.

Xu, Jianhong, Professor, Ph.D., University of Illinois, 1997; 2005. Partial differential equations, control theory, optimization theory, dynamical systems, computational science.

Yucas, Joseph, Professor, Ph.D., *Emeritus*, Pennsylvania State University, 1978; 1980.

Zeman, Marvin, Professor, *Emeritus*, Ph.D., New York University, 1974; 1979.

Mathematics and Science Education

Purpose of the Program

This interdisciplinary M.S. degree program is designed to offer advanced training in mathematics and science education for elementary and middle school teachers. It is designed specifically for in-service teachers seeking additional content knowledge, pedagogical content knowledge, and leadership skills in mathematics and science education. This is a non-thesis, non-research paper program. Candidates are required to complete an Action Research project in lieu of a thesis or research paper. Upon completion of the program, candidates will be eligible for an endorsement in mathematics and science. Program faculty are drawn from various departments in the College of Science and the College of Education and Human Services.

Admission

Prospective graduate students should have an undergraduate degree in Elementary Education, or closely related field, and should already be certified elementary (K-5, 4-8 or K-8) teachers in Illinois. All application materials should be submitted to any one of the Program Co-directors. Students are required to submit official transcripts from all U.S. schools attended during their last two years of undergraduate study, and also for all graduate work completed. Transcripts are not required from institutions where the

student received no degree and was not enrolled for more than 12 semester hours of undergraduate credit, provided that the grades obtained at such institutions are recorded upon the transcript of the college which granted the student's degree. This program requires a nonrefundable \$65 application fee, which must be submitted with the application for admission to the program. Applicants must pay this fee by credit card. Applications for admission to the program will be reviewed by the Program co-directors. Upon recommendation of the co-directors, the application will be forwarded to the Graduate School for approval.

Requirements

Foundation Courses

- MATH 411-3 Mathematical Topics for Teachers
- SCI 503A-3 Science for Elementary School Teachers
- CI 522-3 Integration of Technology Mathematics and Science Teaching

Content Courses

- BIOL 500-3 Contemporary Biology for Teachers
- CHEM 506-3 Chemistry Topics for Teachers (3 credits).
- GEOL 585-3 Earth and Space Science for Teachers
- MATH 511-3 Advanced Topics in the Teaching of Mathematics
- PHYS 575-3 Special Topics in Physics

Educational, Pedagogical and Leadership Courses

- CI 593 (D) (for Science) OR CI 593 (E) (for Mathematics) Individual Research in Education (Action Research)(3 credits)
- CI 428-3 Inquiry Skills for Teaching Junior and Senior High School Science
- CI 530-3 Teaching Problem Solving in School Mathematics (Grades K-8)
- CI 539-3 Math Science Leadership

Retention and Graduation

Students in the MSMSEd program are expected to complete the program in two academic years and two summer terms. Courses offered during the academic year are offered in a flexible on-line or distance-learning format. Laboratory or field experiences may require an additional commitment of two-three Saturdays each semester. Summer courses are offered at various SIU service centers in Southern Illinois.

Approval for graduation requires completion of all required coursework and the Action Research project with a grade of C or better, and an overall GPA in the program of 3.0 or better.

Mathematics and Science Education Faculty

Bu, Lingguo, Associate Professor, Curriculum & Instruction, Ph.D., Florida State University, 2008. MSMSEd Co-director.

Henson, Harvey, *Assistant Dean*, College of Science, Ph.D., Southern Illinois University Carbondale, 2015, MSMSEd Codirector.

Wright, Mary H., Professor, Mathematics, Ph.D., McGill University, Montreal, Quebec, 1977. MSMSEd Co-director.

Mechanical Engineering

Admission

Students seeking admission to the graduate program in mechanical engineering must meet the admission standards set by the Graduate School and have a bachelor's degree in engineering or its equivalent. A student whose undergraduate training is deficient may be required to take coursework without graduate credit.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Mechanical Engineering. Applicants must pay this fee by credit card. The application form can be obtained from the Department.

Requirements

Each student majoring in mechanical engineering will develop a program of study with a graduate adviser and establish a graduate committee of at least three members at the earliest possible date. A student may, with the approval of a graduate faculty committee and the department chair, also take courses in other branches of engineering, or in areas of science and business, such as physics, geology, chemistry, mathematics, life science, administrative sciences, or computer science. A thesis committee of at least three members will approve the thesis and the comprehensive oral exam.

For a student who wishes to complete the requirements of the master's degree with a thesis, a minimum of thirty semester hours of acceptable graduate credit is required. Of this total, eighteen semester hours must be earned in the Department of Mechanical Engineering and Energy Processes. A minimum of 15 hours of coursework at the 500-level (excluding thesis) is required. Each candidate is also required to pass a comprehensive oral examination covering all of the student's graduate work including thesis.

If a student prefers the non-thesis option, a minimum of thirty-six semester hours of acceptable graduate credit is required. The student is expected to take at least twenty-one semester hours within the Department of Mechanical Engineering and Energy Processes including no more than three semester hours of the appropriate 592 course to be devoted to the preparation of a research paper. A minimum of 15 hours of coursework at the 500-level (excluding thesis) is required. In addition, each candidate is required to pass a written comprehensive examination. An oral presentation of the paper may be required.

Each non-thesis student will select a minimum of three engineering graduate faculty members to serve as a graduate committee, subject to the approval of the chair of the department. The committee must include at least one member from one of the other engineering departments and will:

1. approve the student's program of study,
2. approve the student's research paper topic,
3. approve the completed research paper, and
4. administer and approve the written comprehensive examination.

Teaching or research assistantships and fellowships are available for qualified applicants. Additional information about the program, courses, assistantships, and fellowships may be obtained from the College of Engineering or the Department of Mechanical Engineering and Energy Processes.

Master of Science in Mechanical Engineering

Graduate work leading to the Master of Science degree in mechanical engineering is offered by the College of Engineering. The program is designed to provide advanced study in air pollution control, mechanical system dynamics and vibration, acoustics and signal processing, mass and heat transfer, coal conversion, electrochemical processes, thermal science, thermal systems design, solar systems design, chemical and biochemical processes, mechanical systems, computer-aided design, composite materials and ceramics and tribology.

Accelerated Master's Program

Mechanical Engineering students with senior standing and a GPA of 3.5 will be permitted to take up to six hours of graduate credit in Fall and Spring semesters. Outstanding junior students will be allowed to take one course for graduate credit. By doing so, students then pursuing their MSME degrees after completing their BSME degrees will have these graduate credits transferred toward their MSME degree so that they may be able to finish the degree requirements in a year or so. Students must complete a no fee Graduate School application and submit it to the department chair for approval. Students will be allowed to complete up to 12 hours of graduate credit before receiving their BSME.

Mechanical Engineering Courses

ME400 - Engr Thermodynamics II 400-3 Engineering Thermodynamics II. Combined first and second law analysis; Exergy analysis; Analysis of power and refrigeration cycles. Detailed treatment of gas and vapor cycles including gas and steam cycles; Thermodynamics of combustion and reaction of mixtures; Introduction to thermodynamic property relations, chemical and phase equilibrium. Prerequisite: ME 300.

ME401 - Thermal Measurements Lab 401-1 Thermal Measurements Laboratory. Study of basic measurements used in the thermal sciences. Calibration techniques for temperature and pressure sensors. Thermal measurements under transient and steady-state conditions. Applications include conduction, convection and radiation experiments. Uncertainty analysis. The handling and reduction of data. Prerequisite: ME 302.

ME405 - Transportation Power Systems 405-3 Transportation Power Systems. Operation and performance characteristics of Otto, Diesel, Atkinson cycles. Methods of engine testing, types of fuels and their combustion, exhaust gas analysis. Types, selection, and analysis of jet engines. Analysis of fuel cell types, their performance and limitations. Operation of electric motors, capacitors, battery packs and their charging. Prerequisite: concurrent enrollment in or completion of ME 400, with a minimum grade of C or consent of instructor.

ME406 - Thermal Systems Design 406-3 Thermal Systems Design. Applications of the principles of engineering analysis to the design of thermal systems. Coordination of such systems as heat exchangers, air conditioners, cogeneration cooling towers, and furnaces. Emphasis is placed on application of basic principles of heat transfer and fluid mechanics. Prerequisite: ME 302.

ME408 - Energy Conversion Systems 408-3 Energy Conversion Systems. Principles of advanced energy conversion systems; nuclear power plants, combined cycles, magnetohydrodynamics, cogeneration (electricity and process steam), and heat pumps. Constraints on design and use of energy conversion systems; energy resources, environmental effects, and economics. Prerequisite: ME 400.

ME410 - Appl Chem Thermo & Kinetics 410-3 Applied Chemical Thermodynamics and Kinetics. Designed for students interested in chemical and environmental processes and materials science. Topics covered include application of the Second and Third Laws of Thermodynamics, solution theory, phase equilibria, sources and uses of thermodynamic data, classical reaction rate theory, kinetic mechanisms and the determination of rate-determining steps in chemical reactions. Prerequisite: CHEM 200, 201, ME 300 or consent of instructor.

ME415 - Engineering Acoustics 415-3 Engineering Acoustics. Principles of engineering acoustics and their applications to passive and active noise control techniques. Laboratory experience demonstrates techniques for control and reduction of noise. Prerequisite: ME 336.

ME416 - Air Pollution Control 416-3 Air Pollution Control. An overview of problems in air pollution likely to influence the Mechanical Engineer. Engineering control theory, procedure and equipment related to control of particulate, gaseous, and toxic air emissions. Restricted to senior standing and College of Engineering or consent of instructor.

ME421 - Pneumatic Hydraulic Engr 421-3 Pneumatic Hydraulic Engineering. Design principles of fluid power engineering. The behavior of fluids in a system. Analysis and design of hydraulic and pneumatics

machinery and systems using fluid as a medium for transmission of power and control of motion. Analysis of steady state and dynamic behavior. Critical operations and analysis.

ME422 - Appl Fluid Mechanics for ME 422-3 Applied Fluid Mechanics for Mechanical Engineers. Applications of fluid mechanics in internal and external flows. The mathematical basis for inviscid and viscous flows calculations is developed with application to pipe and duct flows; external flow about bodies; drag determination; turbomachinery; and reaction propulsion systems. Semester design project of a fluid mechanical system. Prerequisite: ME 300 and MATH 305; ENGR 370A or 370B concurrently.

ME423 - Compressible Flows 423-3 Compressible Flows. Foundation of high speed fluid mechanics and thermodynamics. One-dimensional flow, isentropic flow, shock waves and nozzle and diffuser flows. Flow in ducts with friction and heat transfer. Prandtl-Meyer flow. Compressibility effects in reaction propulsion systems. Semester design project. Prerequisite: ME 300; ENGR 370A or 370B concurrently.

ME435 - Des:Mass Transfer Processes 435-3 Design of Mass Transfer Processes. Design principles of mass transfer processes. The rate mechanism of molecular, convective and interphase mass diffusion. The design of selected industrial mass transport process operations such as absorption, humidification, water-cooling, drying and distillation. Prerequisite: ME 302.

ME440 - Design HVAC & Build Energy Sys 440-3 Design of HVAC and Building Energy Systems. Building energy design and simulation; HVAC systems, heating and cooling load analysis; Air conditioning processes; Principles of human thermal comfort. Prerequisite: ME 302. Restricted to graduate standing or consent of the instructor.

ME446 - Energy Management 446-3 Energy Management. Fundamentals and various levels of analysis for energy management of commercial buildings and industrial processes and buildings. Use of energy management systems and economic evaluations are required in course projects. Prerequisite: ME 302.

ME449 - Mechanics of Adv Materials 449-3 Mechanics of Advanced Materials. Mechanical behavior of composite materials, cellular materials, functionally graded materials. Constitutive equations for the linear and nonlinear ranges, failure theories, fracture mechanics. Application to the design of composite and sandwich structures, pressure vessels, shafts, armor under static loading, impact and blast loading. Prerequisite: ENGR 261; ENGR 350A or 350B concurrently.

ME451 - Advanced Dynamics 451-3 Advanced Dynamics. Three-dimensional kinematics and dynamics of particles and rigid bodies; Coordinates and reference frames; Rotations of rigid bodies; Euler angles; Newtonian mechanics; Work and energy; Generalized coordinates and degrees of freedom; Analytical mechanics with a focus on Lagrange's equations; Hamilton's principle for continuous elastic systems. Prerequisites: MATH 305 and ME 309 with a grade of C or better or graduate standing.

ME463 - Introduction to Ceramics 463-3 Introduction to Ceramics. Structure and physical properties, mechanical properties, processing and design of ceramics. Prerequisite: ME 312 or equivalent.

ME465 - Intro to Nanotechnology 465-3 Introduction to Nanotechnology. Survey of the rapidly developing fields of nanometer science and engineering. Impact on society; principles of self-assembly; production and properties of nano-materials; cell mechanism as a model for assemblers; nano-tools; and nano-systems are explored. Prerequisite: CHEM 210.

ME468 - Friction Science & Apps 468-3 Friction Science and Applications. Study of systems and materials used for friction applications with a focus on aerospace and ground transportation vehicles. Course covers theories and experimental methods regarding friction and wear, contact mechanics, friction materials, vibration and noise, thermal transport and thermo-elastic phenomena. The course approach uses a materials emphasis. Prerequisite: ME 312. Restricted to senior standing or consent of instructor.

ME470 - Mech System Vibrations 470-3 Mechanical System Vibrations. Linear vibration of mechanical systems; System modeling; Free and forced response of single degree of freedom systems; Lagrange's equations; Multi-degree of freedom systems; Modal analysis for response calculations; Vibration of continuous systems. Prerequisite: ENGR 261, ENGR 351, MATH 305.

ME472 - Materials Selection for Design 472-3 Materials Selection for Design. Interaction of material design process with material selection criteria. Comparison of materials properties, processes and fabrication. Project work includes design models, materials selection rationale, oral presentation of

projects, construction of mock-up models, and theoretical design problems in the area of the student's specialization, including materials selection considerations for biomaterials/biomedical applications.

Prerequisites: ME 312, ENGR 261; ME 222 or ENGR 222 or ENGR 296.

ME475 - Machine Design I 475-3 Machine Design I. Design of machines using bearings, belts, clutches, chains and brakes. Develops application of the theory of fatigue, power transmission and lubrication to the analysis and design of machine elements. Prerequisite: ENGR 351; ENGR 350A or 350B concurrently.

ME477 - Fund Comp Aid Des & Manf 477-3 Fundamentals of Computer-Aided Design and Manufacturing. Introduction to the concepts of computer-aided design and manufacturing (CAD/CAM). Subjects include computer graphics, geometric modeling, engineering analysis with FEM, design optimization, computer numerical controls, project planning, and computer integrated manufacturing. (CIM). Students are required to use computer packages for projects. Prerequisite: ME 475 or consent of instructor.

ME478 - FEA in CAD 478-3 Finite Element Analysis in CAD. Course to cover a multitude of topics in CAD/CAE with emphasis on finite element modeling and analysis. Overview of CAD/CAM/CAE; FEA software; FEA problems including trusses, beams, frames, thermal analysis, and fluid mechanics; design optimization; rapid prototyping. Students are required to use FEA software for homework assignments and a design project. Prerequisite: ME 302. Co-requisite: ME 475.

ME480 - Computational Fluid Dynamics 480-3 Computational Fluid Dynamics. Application of computational fluid dynamics techniques to the solution of problems in engineering heat transfer and fluid flow. Discretization techniques; stability analysis. Introduction to grid generation. Prerequisite: ENGR 351, ENGR 370A (or 370B concurrently); ME 302 or consent of instructor.

ME481 - Design/Implement Vision System 481-3 Design and Implementation of Vision System. (Same as BME 481) This course provides an introduction to a vision system and instrumentation with engineering applications including optical microscopy. A vision system is an essential tool in most of the application, and optical microscopy is a powerful scientific tool to study microscale worlds. Topics covered in basic geometrical optics, Optoelectronic devices, basic electronics for illumination system, optical microscopy, actuators in the microscope, fundamentals of fluorescence microscopy, and advanced imaging techniques. Prerequisites: ENGR 296 or ME 222 or consent of instructor.

ME485 - Cell & Molecular Biomechanics 485-3 Cellular and Molecular Biomechanics. (Same as BME 485) Mechanics of living cells at the micron/nanoscale level. Molecular forces, bond dynamics, force-induced protein conformational changes. Structural basis of living cells, contractile forces, mechanics of biomembranes, nucleus, cytoskeletal filaments- actin, microtubule, intermediate filaments. Active and passive rheology, microrheological properties of cytoskeleton. Active cellular processes such as cell adhesion, cell spreading, control of cell shape, and cell migration. Discussion on experimental techniques including single-molecule approaches to understanding key cellular processes. Discussion of theoretical models that predict cellular processes and limitations. Introduction to mechanobiology. Restricted to senior or graduate standing.

ME486 - Nondestructive Eval Engr Matls 486-3 Nondestructive Evaluation of Engineering Materials. (Same as CE 486) Overview of common nondestructive evaluation (NDE) techniques, such as visual inspection, eddy current, X-ray, and ultrasonics, to measure physical characteristics of and to detect defects in engineering materials. Laboratory experiments include contact ultrasonic, magnetic particle, liquid penetrant, and infrared thermography methods of testing. Prerequisite: ME 312 with a grade of C or better.

ME493 - Materials in Energy 493-3 Materials in Energy Applications. Materials are central to every energy technology. The course will provide information on high performance materials for alternative energy technologies and developing a fundamental understanding of their structure-property-performance relationships. It will include materials for fuel cells, lithium ion batteries, supercapacitors, photovoltaics, solar energy conversion, thermoelectrics, and hydrogen production and storage, catalysts for fuel conversion. Prerequisite: ME 312.

ME500 - Advanced Thermodynamics 500-3 Advanced Engineering Thermodynamics. This course creates computer programs to solve complex problems in thermodynamics relating to vapor power cycles,

gas power cycles, refrigeration cycles, and psychrometric evaluations. The course also covers advanced thermodynamic relations involving equations of state and chemical equilibrium. Prerequisite: ME 400 or equivalent or consent of instructor.

ME501 - Transport Phenomena 501-3 Transport Phenomena. Mechanism of heat, mass and momentum transport on both molecular and continuum basis. Estimation of transport properties. Generalized transport equations in one- or three-dimensional systems. Analogy of mass, heat and momentum transfer. Macroscopic balances, simultaneous mass and heat transfer. Prerequisite: ME 302.

ME502 - Conduction Heat Transfer 502-3 Conduction Heat Transfer. Engineering considerations involving the construction of mathematical and numerical models of conduction heat transfer and the interpretation of results of analyses. Prerequisite: ME 302.

ME503 - Convective Heat Transfer 503-3 Convective Heat Transfer. Laminar and turbulent forced convection heat transfer over surfaces and inside tubes, including non-circular cross sections. Developing flows. Laminar free convection. Emphasis throughout is on the analytical approach. Prerequisite: ME 302.

ME504 - X-Ray Diff & Elect Micro 504-3 X-Ray Diffraction and Electron Microscopy. X-ray physics. Geometry of crystals. Scattering of X-ray by atoms, crystals and noncrystalline matter. Kinematical theory of diffraction. Powder method, Laue method. Electron optics. Formation and analysis of diffraction patterns. Imaging techniques. Image contrast theories. Analysis of crystal defects. Advanced analytical electron microscopes. Special approval needed from the instructor.

ME505 - Vehicle Dynamics 505-3 Vehicle Dynamics. To provide an introductory coverage of dynamics of vehicle systems. The topics include mainly automotive systems but others such as aircraft and train systems may be discussed. Students will become familiar with issues related to tire behavior, vehicle suspension design, steering, vehicle and load transfer. Prerequisite: ENGR 261.

ME507 - Combustion Phenomena 507-3 Combustion Phenomena. Basic combustion phenomena-chemical rate processes-flame temperature, burning velocity, ignition energy, quenching distance and inflamability limits-laminar and turbulent flame propagation-aerodynamics of flame-gaseous detonations-two phase combustion phenomena-fluidized bed combustion. Prerequisite: ME 300.

ME508 - Nanoscale Heat Transfer 508-3 Nano/Microscale Energy and Heat Transfer. Review of limitations of macroscopic energy transport models; Energy transport and conversion mechanisms at the micro/nano/molecular scale; Energy transfer in nanostructured energy devices; Related topics on the transport of electrons, phonons and molecules; Molecular Dynamics simulation. Restricted to graduate standing or consent of the instructor.

ME509 - Radiation Heat Transfer 509-3 Thermal Radiation Heat Transfer. Review of radiation fundamentals. Prediction of radiative properties using classical electromagnetic theory. Properties of real materials. Governing equations between blackbody and graybody surfaces. Exchange of radiation between nondiffuse, nongray surfaces. Radiation in the presence of other energy transfer modes. Approximate and computer solution techniques. Prerequisite: ME 302.

ME525 - Small Particle Phenomena 525-3 Small Particle Phenomena. Small particle formation, behavior, properties, emission, collection, analysis and sampling. Includes atomization, combustion, transport of suspension and sols, filtration, light scattering and movement patterns of mono and polydisperse particles and use of a device to measure size, size distribution and one other physical property of an aerosol. Restricted to graduate standing.

ME531 - Reaction Engineering 531-3 Reaction Engineering and Rate Processes. Chemical kinetics of homogeneous and heterogeneous reactions, kinetic theories, mechanism and mathematical modeling. Reactor design. Design of multiple reactions; temperature and pressure effects. Nonisothermal and nonadiabatic processes. Non-ideal reactors. Prerequisite: ME 435.

ME535 - CAD of Mechanical Systems I 535-3 Computer Aided Analysis of Mechanical Systems I. Computer aided kinematic and dynamic analysis of planar mechanism: topics will include formulation of kinematic and dynamic equations of motion for planar systems. Automatic generations of kinematic constraint such as revolute joint, translation joint, etc. Numerical techniques for solution of nonlinear,

differential, and algebraic equations, application of these techniques to planar mechanism and robotic systems. Prerequisite: ME 309.

ME537 - Nonlinear Vibrations 537-3 Nonlinear Vibrations. Dynamic response and stability of nonlinear systems. Examples and sources of nonlinearity. Various techniques for studying dynamic behavior or nonlinear systems. Prerequisite: ME 470 or consent of instructor.

ME538 - Appld Optml Des/Cont Dyn 538-3 Applied Optimal Design and Control of Dynamic Systems. Unconstrained and Constrained Mechanical-System Optimization Problems; Variational Calculus; Continuous Optimal Control; The Maximum Principle and Hamilton-Jacobi Theory; Dynamic-Systems Optimum-Control Examples; Design Sensitivity Analysis; Numerical Methods for Dynamic-System Design and Control Problems; Application of the above techniques to Large Scale Dynamic Systems. Prerequisite: ME 470 or equivalent.

ME539 - Catalysis 539-3 Catalysis in Energy Processes. This course spans the full range from fundamentals of kinetics and heterogeneous catalysis via modern experimental and theoretical results of model studies to their equivalent large-scale energy processes. Several processes are discussed including hydrogen production, fuel cells, liquid fuel synthesis. Prerequisite: ME 410 or consent of instructor.

ME540 - Intro to Continuum Mechanics 540-3 Introduction to Continuum Mechanics. Tensor analysis applied to continuum mechanics: stress and strain and their invariance, equations of compatibility, constitutive equations - including linear stress-strain relations. Prerequisite: ENGR 350A, MATH 305. Restricted to graduate standing in engineering.

ME545 - Intelligent Control 545-3 Intelligent Control. Techniques to design and develop intelligent controllers for complex engineering systems. Specific techniques covered are fuzzy logic, expert systems, genetic algorithms, simulated annealing and any combinations of these. Prerequisite: ME 336 or consent of instructor.

ME549 - Wave Prpgtn, Impct & Explsns 549-3 Wave Propagation, Impact and Explosions. This course will deal with the dynamic response of materials and structures to dynamic events with particular emphasis on crashes, impacts and explosions. Prerequisite: ENGR 261 or consent of instructor.

ME550 - Contact Mechanics 550-3 Contact Mechanics. Course covers fundamentals of mechanics of elastic and inelastic solids in contact. Although the primary focus is on elastic contact, topics involving plastic flow, thermo-elastic effects and contact of rough surfaces are included in the content. Restricted to graduate standing.

ME551 - Advanced Vibration 551-3 Advanced Vibration. Analytical techniques for the vibration of discrete, continuous, and hybrid discrete-continuous systems; Vibration of conservative and nonconservative systems with focus on their representation in terms of linear operators; Properties of vibrating systems; Discretization methods for the analysis of continuous and nonlinear systems; Vibration and stability of gyroscopic systems. Prerequisite: ME 470 with a grade of C or better or graduate standing.

ME555 - Materials Processing 555-3 Materials Processing. Course to cover a multitude of topics in the processing of metals, ceramics and, to a lesser extent, polymers. Examples are: materials beneficiation, extraction, solidification, sintering and thin film deposition; topics for which the scientific basis for the processes is well established. Prerequisite: ME 312 and 410 or consent of instructor.

ME562 - Envr Degradation of Materials 562-3 Environmental Degradation of Materials. Course designed for majors in engineering and the physical sciences. Topics covered include general corrosion, oxidation, hydrogen embrittlement, stress corrosion cracking and fine particle erosion. Approach will draw on principles of chemistry and materials science. Prerequisite: CHEM 200 and CHEM 210, ME 312, or consent of instructor.

ME564 - Ceramic Materials Electronics 564-3 Ceramic Materials for Electronics. Ceramic materials contribute essential passive functions as components for a wide range of electronic applications related to sensors and energy converters. Ceramic material's electronic properties, electronic and ionic conduction in ceramic oxides; processing, properties and applications of ceramic materials for electronics, solid-oxide

fuel cells, properties, fabrication and performance will be covered in this course. Prerequisite: ME 312, 463 or consent of instructor.

ME565 - Finite Element Analysis 565-3 Finite Element Analysis. (Same as CE 551) Finite element analysis as a stress analysis or structural analysis tool. Derivation of element stiffness matrices by various means. Application to trusses, plane stress/strain and 3-D problems. Dynamic and material nonlinearity problems. Restricted to graduate standing in engineering or consent of instructor.

ME566 - Advanced Mechanics-Materials 566-3 Advanced Mechanics of Materials. (Same as CE 557) Advanced topics in mechanics of materials including: elasticity equations; torsion of non-circular sections; generalized bending including curved beams and elastic foundations; shear centers; failure criteria including yielding, fracture and fatigue; axisymmetric problems including both thick and thin walled bodies; contact stresses; and stress concentrations. Restricted to graduate standing in engineering or consent of instructor.

ME567 - Tribology 567-3 Tribology. Analysis and design of tribological components particularly bearings. A number of modern developments in the field and advanced topics will be presented. Restricted to graduate standing or consent of instructor.

ME568 - Alt Energy & Fuel Resources 568-3 Alternative Energy and Fuel Resources. The course covers the alternatives for energy resources and the impact of the human growth on the energy usage and its environmental consequences. The course describes the fossil fuel era, renewable energy resources, and hydrogen fuel era. The fundamentals of each of these fuel types, their conversion to usable energy and the potential of each of these fuels for the future is discussed. Prerequisite: ME 300 and 400, or instructor's consent.

ME569 - Non-Destructive Evaluation 569-3 Non-Destructive Evaluation. Course to cover a multitude of topics in non-destructive evaluation (NDE) techniques with emphasis on recent advancements in the field. Introduction to the field of NDE. Overview of common NDE techniques, such as visual inspection, eddy current, X-ray and ultrasonics. Recent development and research areas in NDE.

ME577 - Bioprocess Engineering 577-3 Bioprocess Engineering. (Same as BME 577) This course introduces the Mechanical and/or the Biomedical Engineer to the applications of bioprocesses to biotechnology, bacterial cell cultivation, animal cell cultivation, plant cell cultivation and medical applications bioprocessing. Attention will be given to a short survey of the working cells and reactors for cell growth, but will be an overview in nature. Restricted to graduate student standing.

ME580 - Seminar 580-1 Seminar. Presentations of topics in the broad areas of mechanical engineering such as thermal, mechanics, materials and acoustics. Restricted to enrollment in program leading to Master of Science of Mechanical Engineering.

ME581 - Microrobotics 581-3 Microrobotics. This course provides an introduction to Microrobotics which is a newly emerging robotics field. Since the micro/nano-scale technologies have been improved dramatically, the microrobot has been highlighted for applications in healthcare, biotechnology, etc. Topics covered: the forces and its effects on microrobots at the micron scale, the fabrication methods, control/sensing methods for microrobots, microrobots actuation methods, and locomotions in low Re number regime. In addition, the course will summarize and describe the near-future challenges in Microrobotics. Restricted to graduate standing.

ME582 - Experimental Research Tools 582-1 Experimental Research Tools. Topics important to engineering graduate students engaging in research. These topics include: laboratory safety, statistical data analysis, experimental design, library research and chemical hygiene. Restricted to graduate enrollment in Engineering.

ME583 - Technical Research Reporting 583-1 Technical Research Reporting. Analysis of technical and scientific writing: journal article, thesis, research paper. Guidelines and principles for writing engineering research literature and proposals. Term project involving thesis or research paper proposal to meet department requirements. Prerequisite: ME 582. Special approval needed from the instructor.

ME592 - Special Investigations in ENGR 592-1 to 4 Special Investigations in Engineering. Advanced topics in thermal and environmental engineering. Topics are selected by mutual agreement of the student

and instructor. Four hours maximum course credit. Special approval needed from the instructor and department chair.

ME593 - Spec Topics in Mech Engr 593-3 Special Topics in Mechanical Engineering. Studies of special topics in various areas in mechanical engineering. Such topics as coal refining, energy conversion, thermal systems, mechanics, robotics, CAD/CAM, TOM and engineering materials. Special approval needed from the instructor.

ME595 - Research Paper 595-3 Research Paper. Research paper on a topic approved by a faculty advisor and committee in Mechanical Engineering. This course is restricted to graduate students in the non-thesis option. Restricted to graduate standing in Mechanical Engineering. Special approval needed from the instructor or department.

ME599 - Thesis 599-1 to 6 Thesis. Six hours maximum course credit.

ME601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Mechanical Engineering Faculty

Abrate, Serge, Professor, Ph.D., Purdue University, 1983; 1995. Impact, penetration, structural dynamics, composites.

Agrawal, Om, Professor, *Emeritus*, Ph.D., University of Illinois-Chicago, 1984; 1985. Computer-aided analysis and design of rigid/flexible multibody systems, numerical analysis, finite element methods, and continuum mechanics, CAD/Simulation of mechanical systems, fractional derivatives and their applications.

Medical Dosimetry

Mission

The mission of the Medical Dosimetry Program offered by Southern Illinois University (SIU) is to provide a quality program integrating education, research and service in order to meet the needs of the profession and improve health care of the people and communities we serve

Track 1

Program Goals

1. Prepare the student to practice as a competent entry level professional Medical Dosimetrist by offering a comprehensive curriculum and quality didactic/clinical instruction.
2. Provide didactic and clinical experiences that lead to research in educational, professional, or health care issues relating to medical dosimetry.
3. Provide avenues to students for professional development and growth within the profession.
4. Provide avenues for students to develop and apply skills in effective communication necessary for successful medical dosimetry practice.
5. Provide avenues for students to develop and apply skills in critical thinking and problem-solving necessary for successful medical dosimetry practice.
6. Provide a clinical and didactic environment which leads to the development of clinical skills and competence appropriate to an entry level Medical Dosimetrist.

Program Description

The Medical Dosimetrist is a member of the Allied Health and Radiation Oncology Team.

Course material and practicum covers radiation physics, radiation protection, dose calculations, tumor localization, external beam treatment planning, brachytherapy, quality assurance, medical imaging/anatomy, clinical radiation oncology, and radiobiology. Clinical practicum includes external beam treatment planning, brachytherapy treatment, preparation and planning, chart reviews and dose calculations, record and verify system data entry, simulation (conventional and CT-simulation), treatment aid fabrication, treatment machine quality assurance, stereotactic treatment planning, gamma knife, IMRT planning and treatment. Special project assignments, conference attendance, written reports, chapter reviews, and labs are also part of the curriculum.

Accreditation

The Medical Dosimetry Program is accredited through the [Joint Review Committee on Education in Radiologic Technology](#) (JRCERT). The program at SIU was the third accredited program in the United States.

The program meets the formal education eligibility criteria for the national certification exam following graduation, as required by the [Medical Dosimetrist Certification Board](#).

General Description of a Medical Dosimetrist

The Certified Medical Dosimetrist (CMD) is a member of the radiation oncology (cancer treatment) team who has knowledge of the overall characteristics and clinical relevance of radiation oncology treatment machines and equipment, is cognizant of procedures commonly used in brachytherapy (treatment with radioactive sources at a close distance) and has the education and expertise necessary to generate radiation dose distributions and dose calculations in collaboration with the Medical Physicist and Radiation Oncologist.

Major Duties

- Design a treatment plan by means of computer and/or manual computation that will deliver a prescribed radiation dose and field placement technique in accordance with the Radiation Oncologist's prescription to a defined tumor volume.
- Consider dose-limiting structures in the design of treatment plans and document dose in accordance with the Radiation Oncologist's prescription.
- Coordinate treatment simulations and tumor localization on dedicated devices, including Computerized Tomography (CT), Magnetic Resonance Imaging (MRI), and Positron Emission Tomography (PET) when indicated, for radiation oncology treatment planning.
- Supervise, perform, or assist in the planning of the fabrication of compensation filters, custom shields, wedges, and other beam modifying devices.
- Supervise, perform, or assist in the planning of the production of moulds, casts, and other immobilization devices.
- Supervise therapy staff in the implementation of the treatment plan including: the correct use of immobilization devices, compensators, wedges, field arrangement, and other treatment variables.
- Perform calculations for the accurate delivery of the Radiation Oncologist's prescribed dose, document all pertinent information in the patient record, and verify the mathematical accuracy of all calculations using a system established by the Medical Physicist.
- Provide physics and technical support to the Medical Physicist, in radiation protection, qualitative machine calibrations, and quality assurance of the radiation oncology equipment.
- Supervise, perform, or assist in the application of specific methods of dosimetry including ion chamber, TLD, or film measurement as directed by the Medical Physicist.
- Assist in intracavitary and interstitial brachytherapy procedures and in the subsequent manual and/or computer calculation of the dose distributions of these treatments.
- Teach applied aspects of medical dosimetry to students and residents, as assigned.
- Participate in clinical research for the development and implementation of new techniques.
- Participate in continuing education in the area of current treatment planning techniques, and advances in medical dosimetry.

Eligibility for the Master of Science Program in Medical Dosimetry Track 1

Preferred candidates are individuals who have a baccalaureate degree and have been trained as a radiation therapist.

Consideration is given to applicants with a bachelor's degree in the physical or biological sciences without radiation therapy experience.

Number of Students

Due to clinical hour requirements and the number of clinical sites, approximately 20 students per year will be allowed at this time.

Application

Applications should be received by February 1st of the year one plans to attend the program. Class selection will occur in February/March.

For more information about admission policies, transfer credit, tuition and fees, refund policies, academic calendars, academic policies, graduation requirements, and student services, please see the [Admission Policies, Requirements, and Procedures](#) tab.

Class Location

The program offers education at various clinic sites and didactic education is delivered via distance learning. Live video conferencing equipment is used to allow students to interact with the instructors in real time.

Expenses

- Tuition: Current In-State Graduate Level Tuition and applicable Distance Education Fees.
- Textbooks and Lab Coat: Approximately \$500 - \$600.
- Living Expenses: Students must find housing on their own. This can vary greatly.
- A Computer, Scanner, and High Speed Internet will be required. Computer and bandwidth specifications will be shared once accepted into the program.

Curriculum

The total curriculum consists of 30 semester hours. Program length is 52 weeks and the students attend classes/clinical for 40 hours per week.

Didactic component is approximately 300 - 350 hours. Clinical component is approximately 1650 - 1700 hours. The student will have approximately 2000 hours of education per year and have 80 hours of vacation.

Fall Semester (Total: 12 hours)

- RAD 510-2 Simulation and Cross Sectional Anatomy in Medical Dosimetry
- RAD 515-4 Medical Dosimetry Clinical I
- RAD 520-3 The Physics of Medical Dosimetry I
- RAD 525-3 Seminars in Medical Dosimetry I

Spring Semester (Total: 12 hours)

- RAD 530-2 The Essentials of Medical Dosimetry
- RAD 535-4 Medical Dosimetry Clinical II
- RAD 540-3 The Physics of Medical Dosimetry II
- RAD 545-3 Seminar in Medical Dosimetry II

Summer Semester (Total: 7-13 hours)

- RAD 550-2 Medical Dosimetry Clinical III

- RAD 555-2 The Physics of Medical Dosimetry III
- RAD 560-2 Seminar in Medical Dosimetry III

Track 2

Program Goals

1. Provide didactic experiences that lead to research in educational, professional, or health care issues relating to medical dosimetry.
2. Provide avenues to students for professional development and growth within the profession.
3. Provide avenues for students to develop and apply skills in effective communication, analytical and critical thinking and problem-solving necessary for successful medical dosimetry practice.
4. Provide a didactic environment which leads to the development of managerial/educational skills appropriate to a Medical Dosimetrist.

Program Description

The Medical Dosimetrist is a member of the Allied Health and Radiation Oncology Team.

Course material covers radiation physics, radiation protection, dose calculations, tumor localization, external beam treatment planning, brachytherapy, quality assurance, medical imaging/anatomy, clinical radiation oncology, and radiobiology. Special project assignments, journal article reports, and chapter reviews as well as management and education courses are also part of the curriculum.

Accreditation

The Medical Dosimetry Program is approved by the Illinois Board of Higher Education (IBHE) and The Higher Learning Commission.

General Description of a Medical Dosimetrist

The Certified Medical Dosimetrist (CMD) is a member of the radiation oncology (cancer treatment) team who has knowledge of the overall characteristics and clinical relevance of radiation oncology treatment machines and equipment, is cognizant of procedures commonly used in brachytherapy (treatment with radioactive sources at a close distance) and has the education and expertise necessary to generate radiation dose distributions and dose calculations in collaboration with the Medical Physicist and Radiation Oncologist.

Major Duties

- Design a treatment plan by means of computer and/or manual computation that will deliver a prescribed radiation dose and field placement technique in accordance with the Radiation Oncologist's prescription to a defined tumor volume.
- Consider dose-limiting structures in the design of treatment plans and document dose in accordance with the Radiation Oncologist's prescription.

- Coordinate treatment simulations and tumor localization on dedicated devices, including Computerized Tomography (CT), Magnetic Resonance Imaging (MRI), and Positron Emission Tomography (PET) when indicated, for radiation oncology treatment planning.
- Supervise, perform, or assist in the planning of the fabrication of compensation filters, custom shields, wedges, and other beam modifying devices.
- Supervise, perform, or assist in the planning of the production of moulds, casts, and other immobilization devices.
- Supervise therapy staff in the implementation of the treatment plan including: the correct use of immobilization devices, compensators, wedges, field arrangement, and other treatment variables.
- Perform calculations for the accurate delivery of the Radiation Oncologist's prescribed dose, document all pertinent information in the patient record, and verify the mathematical accuracy of all calculations using a system established by the Medical Physicist.
- Provide physics and technical support to the Medical Physicist, in radiation protection, qualitative machine calibrations, and quality assurance of the radiation oncology equipment.
- Supervise, perform, or assist in the application of specific methods of dosimetry including ion chamber, TLD, or film measurement as directed by the Medical Physicist.
- Assist in intracavitary and interstitial brachytherapy procedures and in the subsequent manual and/or computer calculation of the dose distributions of these treatments.
- Teach applied aspects of medical dosimetry to students and residents, as assigned.
- Participate in clinical research for the development and implementation of new techniques.
- Participate in continuing education in the area of current treatment planning techniques, and advances in medical dosimetry.

Eligibility for the Master of Science Program in Medical Dosimetry Track 2

Applicants must be a Certified Medical Dosimetrist and be current with the Medical Dosimetry Certification Board (MDCB). These individuals must also have a baccalaureate degree from an accredited university. The baccalaureate degree and academic performance must meet the entrance requirements set forth by the Graduate School at SIU.

Individuals that have been approved by the MDCB to take their exam may apply to the program but CMD verification must be documented before any classes may be taken.

Number of Students

There is no limit to the number of students accepted for Track 2.

Application

Continuous enrollment is allowed for Track 2. This means you may start the program with any semester.

For more information about admission policies, transfer credit, tuition and fees, refund policies, academic calendars, academic policies, graduation requirements, and student services, please see the [Admission Policies, Requirements, and Procedures](#) tab.

Class Location

Track 2 is offered via distance learning.

Expenses

- Tuition: Current In-State Graduate Level Tuition and applicable Distance Education Fees.
- Living Expenses: Students must find housing on their own. This can vary greatly.
- A Computer, Scanner, and High Speed Internet will be required. Computer and bandwidth specifications will be shared once enrolled.

Curriculum

The total curriculum consists of 30 semester hours. Students may enroll only part time for this program.

Suggested Course Sequence for Track Two Students:

Fall Semester

- RAD 511-3 Fundamentals of Health Care Systems - Odd Years
- RAD 516-3 Cultural Foundations and Theories of Education - Odd Years
- RAD 520-3 The Physics of Medical Dosimetry I - Even Years
- RAD 525-3 Seminars in Medical Dosimetry I - Even Years

Spring Semester

- RAD 531-3 Human Resources in Health Care - Odd Years
- RAD 536-3 Strategic Leadership in Healthcare
- RAD 540-3 The Physics of Medical Dosimetry II - Even Years
- RAD 545-3 Seminar in Medical Dosimetry II - Even Years

Summer Semester

- RAD 551-3 Legal and Ethical Fundamentals of Health Care - Even Years
- RAD 556-3 Individual Research in Healthcare - Odd Years

Throughout the medical dosimetry program, a student must earn a "C" or better in all coursework to continue in the program. In RAD 555, a comprehensive exam is administered in which the student must earn a "B" or better to continue in the program. If a student is removed from the program for academic/performance reasons, they must re-apply for admission to the program.

Medical Dosimetry Courses

RAD444 - CNS Imaging in MRI 444-3 Central Nervous System Imaging in Magnetic Resonance Imaging. Lecture includes discussion of imaging applications of the central nervous system. Review of related anatomy and common pathologies. Special approval needed from the instructor.

RAD454 - Body Imaging in MRI 454-3 Body Imaging in Magnetic Resonance Imaging. Lecture includes discussion of the imaging applications of the gastrointestinal, genitourinary, hepatobiliary and musculoskeletal systems. Review of related anatomy and common pathologies. Special approval needed from the instructor.

RAD464 - Cardiac Imaging in MRI 464-3 Cardiovascular Imaging in Magnetic Resonance Imaging. Lecture includes discussion of the imaging applications of the heart and coronary arteries. Review of related anatomy and common pathologies. Special approval needed from the instructor.

RAD474 - Advanced MRI Internship 474-6 Advanced MRI Internship. During this clinical internship, the student will be assigned to a selected clinical education center for the entire semester. During this semester, while performing routine MRI procedures, the student will perform MRI procedures of the heart, body, and extremities. Special approval needed from the instructor.

RAD484 - Special Topics in MRI/MRA 484-3 Special Topics in MRI/MRA. Supervised readings of selected topics in MRI. Special approval needed from the instructor.

RAD494 - Independent Study in MRI 494-1 to 6 Independent Study in Magnetic Resonance Imaging. The selection and investigation of a topic related to MRI. Special approval needed from the instructor.

RAD510 - Sim/Cross Sectnl Anat/MD 510-2 Simulation and Cross Sectional Anatomy in Medical Dosimetry. This course covers the conventional and CT simulation techniques used in initiating radiation therapy for cancer patients. Identification of cross-sectional anatomy at different anatomical locations within the human body is also reviewed. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD515 - Medical Dosimetry Clinical I 515-4 Medical Dosimetry Clinical I. This is the first course of a three course sequence. During the three course sequence, students will complete eight clinical rotations including Brachytherapy, Simulation, Gamma Knife, Treatment Aids, IMRT, External Beam, Physics, Special Measurements and QA. The length of these rotations varies from one to eleven weeks. During this course students will perform two to four of these rotations depending on the rotation schedule. While in the clinical setting students will observe and work directly with a medical dosimetrist. Emphasis is given on learning and understanding the role and responsibilities of a medical dosimetrist in the clinical setting. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD516 - Cult Found/Theories of Educ 516-3 Cultural Foundations and Theories of Education. Seminar provides an examination of the historical, social, economic and psychological foundations of allied health education with emphasis given to the nature and role of education and training in preparing for the field of medical education. The objectives of this seminar will allow the student to explore the nature and theories of education, the behavioral aspects of education including the assumptions and practices which underlie education. Special approval needed from the instructor.

RAD520 - Physics/Medical Dosimetry I 520-3 The Physics of Medical Dosimetry I. This course covers the following topics: Radiologic Physics, production of x-rays, radiation treatment and simulation machines, interactions of ionizing radiation, radiation measurements, dose calculations, computerized treatment planning, dose calculation algorithms, electron beam characteristics, and brachytherapy physics and procedures. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD521 - Rad/Imaging Sciences I 521-3 Advance Practice of Radiologic/Imaging Sciences I. This course will include a review of the following topics: Radiation physics, radiation biology, anatomy, pharmacology, human diseases/pathology, advanced imaging methods, advanced imaging modalities, and patient care.

RAD525 - Seminars in MD I 525-3 Seminars in Medical Dosimetry I. (Same as RAD 526) This course consists of various seminars/literature reviews associated with radiation oncology. Topics include treatment techniques for various cancers, technological advances in cancer treatment, cancer treatment trends, and the role of a medical dosimetrist. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD526 - Seminar Rad/Imaging I 526-3 Seminar in Radiologic/Imaging Sciences I. (Same as RAD 525) This course consists of various seminar/literature reviews associated with the radiologic/imaging sciences. Topics include imaging techniques, technological advances in the radiologic/imaging sciences, patient care trends, and the role of an imaging professional. This course is twenty weeks in length.

RAD530 - Essentials of Medical Dosimetry 530-2 The Essentials of Medical Dosimetry. This course covers the various quality assurance procedures performed in a radiation oncology department. Also included are various statistics topics to educate the student in becoming a good consumer of medical dosimetry research literature. Professional development, billing/coding, HIPAA, and professional service

are also addressed. This course is twenty weeks in length. Prerequisite: A grade of C or better in RAD 510, RAD 515, RAD 520, and RAD 525.

RAD535 - Medical Dosimetry Clinical II 535-4 Medical Dosimetry Clinical II. This is the second of a three course sequence. During the three course sequence, students will complete eight clinical rotations including Brachytherapy, Simulation, Gamma Knife, Treatment Aids, IMRT, External Beam, Physics, Special Measurements and QA. The length of these rotations varies from one to eleven weeks. During this course students will perform two to four of these rotations depending on the rotation schedule. While in the clinical setting students will observe and work directly with a medical dosimetrist. Emphasis is given on learning and understanding the role and responsibilities of a medical dosimetrist in the clinical setting. This course is twenty weeks in length. Prerequisite: A grade of C or better in RAD 515.

RAD540 - Physics Medical Dosimetry II 540-3 The Physics of Medical Dosimetry II. This course covers the following topics: Imaging for radiation oncology, IMRT, stereotactic radiosurgery, special procedures, particle therapy, hyperthermia, and radiation safety. This course is twenty weeks in length.

RAD541 - Rad/Imaging Sciences II 541-3 Advance Practice of Radiologic/Imaging Sciences II. This course will continue to cover the same topics that were reviewed in RAD 521 but to a greater level of understanding. Topics include: Radiation physics, radiation biology, anatomy, pharmacology, human disease/pathology, advanced imaging methods, advanced imaging modalities, and patient care.

RAD545 - Seminars in MD II 545-3 Seminar in Medical Dosimetry II. (Same as RAD 546) This course consists of various seminars associated with radiation oncology. Topics include treatment techniques for various cancers, technological advances in cancer treatment, cancer treatment trends, and the role of a medical dosimetrist. This course is twenty weeks in length.

RAD546 - Seminar Rad/Imaging II 546-3 Seminar in Radiologic/Imaging Sciences II. (Same as RAD 545) This course consists of various seminar/literature reviews associated with the radiologic/imaging sciences. Topics include imaging techniques, technological advances in the radiologic/imaging sciences, patient care trends, and the role of an imaging professional. This course is twenty weeks in length.

RAD550 - Medical Dosimetry Clinical III 550-2 Medical Dosimetry Clinical III. This is the third course of a three course sequence. During the three course sequence, students will complete eight clinical rotations including Brachytherapy, Simulation, Gamma Knife, Treatment Aids, IMRT, External Beam, Physics, Special Measurements and QA. The length of these rotations varies from one to ten weeks. During this course students will perform one to two of these rotations depending on the rotation schedule. While in the clinical setting students will observe and work directly with a medical dosimetrist. Emphasis is given on learning and understanding the role and responsibilities of a medical dosimetrist in the clinical setting. his course is ten weeks in length. Prerequisite: A grade of "C" or better in RAD 535.

RAD555 - Physics Med Dosimetry III 555-2 The Physics of Medical Dosimetry III. This course covers the following topics: MU calculations, point dose calculations and radiation biology. This course is ten weeks in length. Prerequisite: A grade of C or better in RAD 540.

RAD556 - HC Research 556-3 Individual Research in Healthcare. This course requires students to complete a research project in the field of healthcare based upon student interest and instructor approval. Each project will have a written paper as a final product and this paper will be submitted for publication, as approved by the instructor, in one of the professional journals within the field of healthcare. Restricted to School graduate majors.

RAD560 - Sem in Medical Dosimetry III 560-2 Seminar in Medical Dosimetry III. This course consists of various seminars/literature reviews associated with radiation oncology. Topics include treatment techniques for various cancers, technological advances in cancer treatment, cancer treatment trends, and the role of a medical dosimetrist. This course is ten weeks in length. Prerequisite: A grade of C or better in RAD 545.

RAD565 - Independent Study 565-1 to 6 Independent Study. Directed independent study in selected areas of medical dosimetry studies. Special approval needed from the Program Director.

RAD593 - Advanced Research 593-6 Advanced Research. Students complete a research project including a special project related to administration in the student's chosen field which meets Graduate School guidelines. Restricted to School graduate majors and School advisor.

RAD601 - Continuing Enrollment 601-1 Continuing Enrollment. This course is required to satisfy the Graduate School's requirement of continuous enrollment and is intended for those students who are enrolled in the program but cannot take a core academic course during a given semester. Prerequisite: Consent of Program Director.

Medical Dosimetry Faculty

Collins, Kevin Scott, Professor, Ph.D., Southern Illinois University Carbondale, 2011.

Collins, Sandra K., Professor, Ph.D., Southern Illinois University Carbondale, 2003; 2000. Health care management.

McKinnies, Richard, Associate Professor, M.S., Southern Illinois University Carbondale, 2000, 2003.

Mobile, Katherine, Lecturer, M.S., University of Wisconsin-LaCrosse, 2011.

Other related dosimetry courses are taught by medical physicists on contract.

Mining Engineering

***Enrollments in Mining Engineering have been suspended indefinitely.**

Master of Science in Mining Engineering

Graduate work leading to the Master of Science degree in mining engineering is offered by the College of Engineering. The program is designed to provide advanced study in areas such as rock mechanics and ground control, mine design, mineral and coal processing, surface and underground mining systems performance optimization, innovative mining systems, surface mine reclamation, in-situ mining, mine environment and ventilation, coalbed methane reservoir engineering, carbon dioxide sequestration, dust control, and coal combustion byproduct utilization and management.

Admission

Students seeking admission to the graduate program in mining engineering must meet the admission standards set by the Graduate School and have a bachelor's degree in engineering or its equivalent. A student whose undergraduate training is deficient may be required to take coursework without graduate credit.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Mining Engineering. Applicants must pay this fee by credit card.

Requirements

A graduate student in mining engineering is required to develop a program of study with a graduate adviser and a graduate committee. Each student majoring in mining engineering may, with the approval of the graduate committee, also take courses in other branches of engineering or in areas of science and business. For a student who wishes to complete the requirements of the master's degree with a thesis, a minimum of thirty semester hours of acceptable graduate credit is required. Of this total, eighteen semester hours must be earned in the mining engineering department. Each candidate is also required to pass a comprehensive oral examination covering all of the student's graduate work including thesis. A minimum of 15 hours must be earned in courses numbered 500 or above.

If a student prefers the non-thesis option, a minimum of 36 semester hours of acceptable graduate credit is required. The student is expected to take at least 21 semester hours within mining engineering including no more than 3 semester hours of the appropriate 592 course to be devoted to the preparation

of a research paper. In addition, each candidate is required to pass a written comprehensive examination and an oral examination on the research paper.

If a student with a mining engineering background pursues a master's degree with double major, he or she will be required to take a minimum of 18 credits with thesis option and 22 credits with non-thesis option in mining engineering and 60 percent of the total credit requirements of the other department. For a student without a background in the related fields such as minerals engineering, geological engineering etc., the minimum credit requirement in the mining department will be 24 credits with thesis option and 28 credits with non-thesis option. Additional deficiency courses will be prescribed for students with a background in non-related fields.

Each student will select a minimum of three graduate faculty members to serve as a graduate committee, subject to the approval of the chair of the Department of MMRE. At least two of the committee members must be from the mining engineering department. The committee will:

1. approve the student's program of study,
2. approve the student's research topic,
3. approve the completed research paper or thesis, and
4. administer and approve the written, or oral, comprehensive examination.

Teaching or research assistantships and fellowships are available for qualified applicants. Assistantship and fellowship support is limited to two years in line with the Department's expectations of student's time to graduate. An extension of one semester is approved only under exceptional circumstances (eg: equipment failures). Additional information about the program, courses, assistantships, and fellowships may be obtained from the College of Engineering or the Department of Mining and Mineral Resources Engineering.

Mining Engineering Courses

ME400 - Engr Thermodynamics II 400-3 Engineering Thermodynamics II. Combined first and second law analysis: Exergy analysis; Analysis of power and refrigeration cycles. Detailed treatment of gas and vapor cycles including gas and steam cycles; Thermodynamics of combustion and reaction of mixtures; Introduction to thermodynamic property relations, chemical and phase equilibrium. Prerequisite: ME 300.

ME401 - Thermal Measurements Lab 401-1 Thermal Measurements Laboratory. Study of basic measurements used in the thermal sciences. Calibration techniques for temperature and pressure sensors. Thermal measurements under transient and steady-state conditions. Applications include conduction, convection and radiation experiments. Uncertainty analysis. The handling and reduction of data. Prerequisite: ME 302.

ME405 - Transportation Power Systems 405-3 Transportation Power Systems. Operation and performance characteristics of Otto, Diesel, Atkinson cycles. Methods of engine testing, types of fuels and their combustion, exhaust gas analysis. Types, selection, and analysis of jet engines. Analysis of fuel cell types, their performance and limitations. Operation of electric motors, capacitors, battery packs and their charging. Prerequisite: concurrent enrollment in or completion of ME 400, with a minimum grade of C or consent of instructor.

ME406 - Thermal Systems Design 406-3 Thermal Systems Design. Applications of the principles of engineering analysis to the design of thermal systems. Coordination of such systems as heat exchangers, air conditioners, cogeneration cooling towers, and furnaces. Emphasis is placed on application of basic principles of heat transfer and fluid mechanics. Prerequisite: ME 302.

ME408 - Energy Conversion Systems 408-3 Energy Conversion Systems. Principles of advanced energy conversion systems; nuclear power plants, combined cycles, magnetohydrodynamics, cogeneration (electricity and process steam), and heat pumps. Constraints on design and use of energy conversion systems; energy resources, environmental effects, and economics. Prerequisite: ME 400.

ME410 - Appl Chem Thermo & Kinetics 410-3 Applied Chemical Thermodynamics and Kinetics. Designed for students interested in chemical and environmental processes and materials science. Topics covered include application of the Second and Third Laws of Thermodynamics, solution theory, phase equilibria, sources and uses of thermodynamic data, classical reaction rate theory, kinetic mechanisms and the determination of rate-determining steps in chemical reactions. Prerequisite: CHEM 200, 201, ME 300 or consent of instructor.

ME415 - Engineering Acoustics 415-3 Engineering Acoustics. Principles of engineering acoustics and their applications to passive and active noise control techniques. Laboratory experience demonstrates techniques for control and reduction of noise. Prerequisite: ME 336.

ME416 - Air Pollution Control 416-3 Air Pollution Control. An overview of problems in air pollution likely to influence the Mechanical Engineer. Engineering control theory, procedure and equipment related to control of particulate, gaseous, and toxic air emissions. Restricted to senior standing and College of Engineering or consent of instructor.

ME421 - Pneumatic Hydraulic Engr 421-3 Pneumatic Hydraulic Engineering. Design principles of fluid power engineering. The behavior of fluids in a system. Analysis and design of hydraulic and pneumatics machinery and systems using fluid as a medium for transmission of power and control of motion. Analysis of steady state and dynamic behavior. Critical operations and analysis.

ME422 - Appl Fluid Mechanics for ME 422-3 Applied Fluid Mechanics for Mechanical Engineers. Applications of fluid mechanics in internal and external flows. The mathematical basis for inviscid and viscous flows calculations is developed with application to pipe and duct flows; external flow about bodies; drag determination; turbomachinery; and reaction propulsion systems. Semester design project of a fluid mechanical system. Prerequisite: ME 300 and MATH 305; ENGR 370A or 370B concurrently.

ME423 - Compressible Flows 423-3 Compressible Flows. Foundation of high speed fluid mechanics and thermodynamics. One-dimensional flow, isentropic flow, shock waves and nozzle and diffuser flows. Flow in ducts with friction and heat transfer. Prandtl-Meyer flow. Compressibility effects in reaction propulsion systems. Semester design project. Prerequisite: ME 300; ENGR 370A or 370B concurrently.

ME435 - Des:Mass Transfer Processes 435-3 Design of Mass Transfer Processes. Design principles of mass transfer processes. The rate mechanism of molecular, convective and interphase mass diffusion. The design of selected industrial mass transport process operations such as absorption, humidification, water-cooling, drying and distillation. Prerequisite: ME 302.

ME440 - Design HVAC & Build Energy Sys 440-3 Design of HVAC and Building Energy Systems. Building energy design and simulation; HVAC systems, heating and cooling load analysis; Air conditioning processes; Principles of human thermal comfort. Prerequisite: ME 302. Restricted to graduate standing or consent of the instructor.

ME446 - Energy Management 446-3 Energy Management. Fundamentals and various levels of analysis for energy management of commercial buildings and industrial processes and buildings. Use of energy management systems and economic evaluations are required in course projects. Prerequisite: ME 302.

ME449 - Mechanics of Adv Materials 449-3 Mechanics of Advanced Materials. Mechanical behavior of composite materials, cellular materials, functionally graded materials. Constitutive equations for the linear and nonlinear ranges, failure theories, fracture mechanics. Application to the design of composite and sandwich structures, pressure vessels, shafts, armor under static loading, impact and blast loading. Prerequisite: ENGR 261; ENGR 350A or 350B concurrently.

ME451 - Advanced Dynamics 451-3 Advanced Dynamics. Three-dimensional kinematics and dynamics of particles and rigid bodies; Coordinates and reference frames; Rotations of rigid bodies; Euler angles; Newtonian mechanics; Work and energy; Generalized coordinates and degrees of freedom; Analytical mechanics with a focus on Lagrange's equations; Hamilton's principle for continuous elastic systems. Prerequisites: MATH 305 and ME 309 with a grade of C or better or graduate standing.

ME463 - Introduction to Ceramics 463-3 Introduction to Ceramics. Structure and physical properties, mechanical properties, processing and design of ceramics. Prerequisite: ME 312 or equivalent.

ME465 - Intro to Nanotechnology 465-3 Introduction to Nanotechnology. Survey of the rapidly developing fields of nanometer science and engineering. Impact on society; principles of self-assembly; production and properties of nano-materials; cell mechanism as a model for assemblers; nano-tools; and nano-systems are explored. Prerequisite: CHEM 210.

ME468 - Friction Science & Apps 468-3 Friction Science and Applications. Study of systems and materials used for friction applications with a focus on aerospace and ground transportation vehicles. Course covers theories and experimental methods regarding friction and wear, contact mechanics, friction materials, vibration and noise, thermal transport and thermo-elastic phenomena. The course approach uses a materials emphasis. Prerequisite: ME 312. Restricted to senior standing or consent of instructor.

ME470 - Mech System Vibrations 470-3 Mechanical System Vibrations. Linear vibration of mechanical systems; System modeling; Free and forced response of single degree of freedom systems; Lagrange's equations; Multi-degree of freedom systems; Modal analysis for response calculations; Vibration of continuous systems. Prerequisite: ENGR 261, ENGR 351, MATH 305.

ME472 - Materials Selection for Design 472-3 Materials Selection for Design. Interaction of material design process with material selection criteria. Comparison of materials properties, processes and fabrication. Project work includes design models, materials selection rationale, oral presentation of projects, construction of mock-up models, and theoretical design problems in the area of the student's specialization, including materials selection considerations for biomaterials/biomedical applications. Prerequisites: ME 312, ENGR 261; ME 222 or ENGR 222 or ENGR 296.

ME475 - Machine Design I 475-3 Machine Design I. Design of machines using bearings, belts, clutches, chains and brakes. Develops application of the theory of fatigue, power transmission and lubrication to the analysis and design of machine elements. Prerequisite: ENGR 351; ENGR 350A or 350B concurrently.

ME477 - Fund Comp Aid Des & Manf 477-3 Fundamentals of Computer-Aided Design and Manufacturing. Introduction to the concepts of computer-aided design and manufacturing (CAD/CAM). Subjects include computer graphics, geometric modeling, engineering analysis with FEM, design optimization, computer numerical controls, project planning, and computer integrated manufacturing. (CIM). Students are required to use computer packages for projects. Prerequisite: ME 475 or consent of instructor.

ME478 - FEA in CAD 478-3 Finite Element Analysis in CAD. Course to cover a multitude of topics in CAD/CAE with emphasis on finite element modeling and analysis. Overview of CAD/CAM/CAE; FEA software; FEA problems including trusses, beams, frames, thermal analysis, and fluid mechanics; design optimization; rapid prototyping. Students are required to use FEA software for homework assignments and a design project. Prerequisite: ME 302. Co-requisite: ME 475.

ME480 - Computational Fluid Dynamics 480-3 Computational Fluid Dynamics. Application of computational fluid dynamics techniques to the solution of problems in engineering heat transfer and fluid flow. Discretization techniques; stability analysis. Introduction to grid generation. Prerequisite: ENGR 351, ENGR 370A (or 370B concurrently); ME 302 or consent of instructor.

ME481 - Design/Implement Vision System 481-3 Design and Implementation of Vision System. (Same as BME 481) This course provides an introduction to a vision system and instrumentation with engineering applications including optical microscopy. A vision system is an essential tool in most of the application, and optical microscopy is a powerful scientific tool to study microscale worlds. Topics covered in basic geometrical optics, Optoelectronic devices, basic electronics for illumination system, optical microscopy, actuators in the microscope, fundamentals of fluorescence microscopy, and advanced imaging techniques. Prerequisites: ENGR 296 or ME 222 or consent of instructor.

ME485 - Cell & Molecular Biomechanics 485-3 Cellular and Molecular Biomechanics. (Same as BME 485) Mechanics of living cells at the micron/nanoscale level. Molecular forces, bond dynamics, force-induced protein conformational changes. Structural basis of living cells, contractile forces, mechanics of biomembranes, nucleus, cytoskeletal filaments- actin, microtubule, intermediate filaments. Active and passive rheology, microrheological properties of cytoskeleton. Active cellular processes such as cell adhesion, cell spreading, control of cell shape, and cell migration. Discussion on experimental techniques including single-molecule approaches to understanding key cellular processes. Discussion of theoretical

models that predict cellular processes and limitations. Introduction to mechanobiology. Restricted to senior or graduate standing.

ME486 - Nondestructive Eval Engr Matls 486-3 Nondestructive Evaluation of Engineering Materials. (Same as CE 486) Overview of common nondestructive evaluation (NDE) techniques, such as visual inspection, eddy current, X-ray, and ultrasonics, to measure physical characteristics of and to detect defects in engineering materials. Laboratory experiments include contact ultrasonic, magnetic particle, liquid penetrant, and infrared thermography methods of testing. Prerequisite: ME 312 with a grade of C or better.

ME493 - Materials in Energy 493-3 Materials in Energy Applications. Materials are central to every energy technology. The course will provide information on high performance materials for alternative energy technologies and developing a fundamental understanding of their structure-property-performance relationships. It will include materials for fuel cells, lithium ion batteries, supercapacitors, photovoltaics, solar energy conversion, thermoelectrics, and hydrogen production and storage, catalysts for fuel conversion. Prerequisite: ME 312.

ME500 - Advanced Thermodynamics 500-3 Advanced Engineering Thermodynamics. This course creates computer programs to solve complex problems in thermodynamics relating to vapor power cycles, gas power cycles, refrigeration cycles, and psychrometric evaluations. The course also covers advanced thermodynamic relations involving equations of state and chemical equilibrium. Prerequisite: ME 400 or equivalent or consent of instructor.

ME501 - Transport Phenomena 501-3 Transport Phenomena. Mechanism of heat, mass and momentum transport on both molecular and continuum basis. Estimation of transport properties. Generalized transport equations in one- or three-dimensional systems. Analogy of mass, heat and momentum transfer. Macroscopic balances, simultaneous mass and heat transfer. Prerequisite: ME 302.

ME502 - Conduction Heat Transfer 502-3 Conduction Heat Transfer. Engineering considerations involving the construction of mathematical and numerical models of conduction heat transfer and the interpretation of results of analyses. Prerequisite: ME 302.

ME503 - Convective Heat Transfer 503-3 Convective Heat Transfer. Laminar and turbulent forced convection heat transfer over surfaces and inside tubes, including non-circular cross sections. Developing flows. Laminar free convection. Emphasis throughout is on the analytical approach. Prerequisite: ME 302.

ME504 - X-Ray Diff & Elect Micro 504-3 X-Ray Diffraction and Electron Microscopy. X-ray physics. Geometry of crystals. Scattering of X-ray by atoms, crystals and noncrystalline matter. Kinematical theory of diffraction. Powder method, Laue method. Electron optics. Formation and analysis of diffraction patterns. Imaging techniques. Image contrast theories. Analysis of crystal defects. Advanced analytical electron microscopes. Special approval needed from the instructor.

ME505 - Vehicle Dynamics 505-3 Vehicle Dynamics. To provide an introductory coverage of dynamics of vehicle systems. The topics include mainly automotive systems but others such as aircraft and train systems may be discussed. Students will become familiar with issues related to tire behavior, vehicle suspension design, steering, vehicle and load transfer. Prerequisite: ENGR 261.

ME507 - Combustion Phenomena 507-3 Combustion Phenomena. Basic combustion phenomena-chemical rate processes-flame temperature, burning velocity, ignition energy, quenching distance and inflamability limits-laminar and turbulent flame propagation-aerodynamics of flame-gaseous detonations-two phase combustion phenomena-fluidized bed combustion. Prerequisite: ME 300.

ME508 - Nanoscale Heat Transfer 508-3 Nano/Microscale Energy and Heat Transfer. Review of limitations of macroscopic energy transport models; Energy transport and conversion mechanisms at the micro/nano/molecular scale; Energy transfer in nanostructured energy devices; Related topics on the transport of electrons, phonons and molecules; Molecular Dynamics simulation. Restricted to graduate standing or consent of the instructor.

ME509 - Radiation Heat Transfer 509-3 Thermal Radiation Heat Transfer. Review of radiation fundamentals. Prediction of radiative properties using classical electromagnetic theory. Properties of real materials. Governing equations between blackbody and graybody surfaces. Exchange of radiation

between nondiffuse, nongray surfaces. Radiation in the presence of other energy transfer modes. Approximate and computer solution techniques. Prerequisite: ME 302.

ME525 - Small Particle Phenomena 525-3 Small Particle Phenomena. Small particle formation, behavior, properties, emission, collection, analysis and sampling. Includes atomization, combustion, transport of suspension and sols, filtration, light scattering and movement patterns of mono and polydisperse particles and use of a device to measure size, size distribution and one other physical property of an aerosol. Restricted to graduate standing.

ME531 - Reaction Engineering 531-3 Reaction Engineering and Rate Processes. Chemical kinetics of homogeneous and heterogeneous reactions, kinetic theories, mechanism and mathematical modeling. Reactor design. Design of multiple reactions; temperature and pressure effects. Nonisothermal and nonadiabatic processes. Non-ideal reactors. Prerequisite: ME 435.

ME535 - CAD of Mechanical Systems I 535-3 Computer Aided Analysis of Mechanical Systems I. Computer aided kinematic and dynamic analysis of planar mechanism: topics will include formulation of kinematic and dynamic equations of motion for planar systems. Automatic generations of kinematic constraint such as revolute joint, translation joint, etc. Numerical techniques for solution of nonlinear, differential, and algebraic equations, application of these techniques to planar mechanism and robotic systems. Prerequisite: ME 309.

ME537 - Nonlinear Vibrations 537-3 Nonlinear Vibrations. Dynamic response and stability of nonlinear systems. Examples and sources of nonlinearity. Various techniques for studying dynamic behavior or nonlinear systems. Prerequisite: ME 470 or consent of instructor.

ME538 - Applied Optml Des/Cont Dyn 538-3 Applied Optimal Design and Control of Dynamic Systems. Unconstrained and Constrained Mechanical-System Optimization Problems; Variational Calculus; Continuous Optimal Control; The Maximum Principle and Hamilton-Jacobi Theory; Dynamic-Systems Optimum-Control Examples; Design Sensitivity Analysis; Numerical Methods for Dynamic-System Design and Control Problems; Application of the above techniques to Large Scale Dynamic Systems. Prerequisite: ME 470 or equivalent.

ME539 - Catalysis 539-3 Catalysis in Energy Processes. This course spans the full range from fundamentals of kinetics and heterogeneous catalysis via modern experimental and theoretical results of model studies to their equivalent large-scale energy processes. Several processes are discussed including hydrogen production, fuel cells, liquid fuel synthesis. Prerequisite: ME 410 or consent of instructor.

ME540 - Intro to Continuum Mechanics 540-3 Introduction to Continuum Mechanics. Tensor analysis applied to continuum mechanics: stress and strain and their invariance, equations of compatibility, constitutive equations - including linear stress-strain relations. Prerequisite: ENGR 350A, MATH 305. Restricted to graduate standing in engineering.

ME545 - Intelligent Control 545-3 Intelligent Control. Techniques to design and develop intelligent controllers for complex engineering systems. Specific techniques covered are fuzzy logic, expert systems, genetic algorithms, simulated annealing and any combinations of these. Prerequisite: ME 336 or consent of instructor.

ME549 - Wave Prpgtn, Impct & Explsns 549-3 Wave Propagation, Impact and Explosions. This course will deal with the dynamic response of materials and structures to dynamic events with particular emphasis on crashes, impacts and explosions. Prerequisite: ENGR 261 or consent of instructor.

ME550 - Contact Mechanics 550-3 Contact Mechanics. Course covers fundamentals of mechanics of elastic and inelastic solids in contact. Although the primary focus is on elastic contact, topics involving plastic flow, thermo-elastic effects and contact of rough surfaces are included in the content. Restricted to graduate standing.

ME551 - Advanced Vibration 551-3 Advanced Vibration. Analytical techniques for the vibration of discrete, continuous, and hybrid discrete-continuous systems; Vibration of conservative and nonconservative systems with focus on their representation in terms of linear operators; Properties of vibrating systems; Discretization methods for the analysis of continuous and nonlinear systems;

Vibration and stability of gyroscopic systems. Prerequisite: ME 470 with a grade of C or better or graduate standing.

ME555 - Materials Processing 555-3 Materials Processing. Course to cover a multitude of topics in the processing of metals, ceramics and, to a lesser extent, polymers. Examples are: materials beneficiation, extraction, solidification, sintering and thin film deposition; topics for which the scientific basis for the processes is well established. Prerequisite: ME 312 and 410 or consent of instructor.

ME562 - Envir Degradation of Materials 562-3 Environmental Degradation of Materials. Course designed for majors in engineering and the physical sciences. Topics covered include general corrosion, oxidation, hydrogen embrittlement, stress corrosion cracking and fine particle erosion. Approach will draw on principles of chemistry and materials science. Prerequisite: CHEM 200 and CHEM 210, ME 312, or consent of instructor.

ME564 - Ceramic Materials Electronics 564-3 Ceramic Materials for Electronics. Ceramic materials contribute essential passive functions as components for a wide range of electronic applications related to sensors and energy converters. Ceramic material's electronic properties, electronic and ionic conduction in ceramic oxides; processing, properties and applications of ceramic materials for electronics, solid-oxide fuel cells, properties, fabrication and performance will be covered in this course. Prerequisite: ME 312, 463 or consent of instructor.

ME565 - Finite Element Analysis 565-3 Finite Element Analysis. (Same as CE 551) Finite element analysis as a stress analysis or structural analysis tool. Derivation of element stiffness matrices by various means. Application to trusses, plane stress/strain and 3-D problems. Dynamic and material nonlinearity problems. Restricted to graduate standing in engineering or consent of instructor.

ME566 - Advanced Mechanics-Materials 566-3 Advanced Mechanics of Materials. (Same as CE 557) Advanced topics in mechanics of materials including: elasticity equations; torsion of non-circular sections; generalized bending including curved beams and elastic foundations; shear centers; failure criteria including yielding, fracture and fatigue; axisymmetric problems including both thick and thin walled bodies; contact stresses; and stress concentrations. Restricted to graduate standing in engineering or consent of instructor.

ME567 - Tribology 567-3 Tribology. Analysis and design of tribological components particularly bearings. A number of modern developments in the field and advanced topics will be presented. Restricted to graduate standing or consent of instructor.

ME568 - Alt Energy & Fuel Resources 568-3 Alternative Energy and Fuel Resources. The course covers the alternatives for energy resources and the impact of the human growth on the energy usage and its environmental consequences. The course describes the fossil fuel era, renewable energy resources, and hydrogen fuel era. The fundamentals of each of these fuel types, their conversion to usable energy and the potential of each of these fuels for the future is discussed. Prerequisite: ME 300 and 400, or instructor's consent.

ME569 - Non-Destructive Evaluation 569-3 Non-Destructive Evaluation. Course to cover a multitude of topics in non-destructive evaluation (NDE) techniques with emphasis on recent advancements in the field. Introduction to the field of NDE. Overview of common NDE techniques, such as visual inspection, eddy current, X-ray and ultrasonics. Recent development and research areas in NDE.

ME577 - Bioprocess Engineering 577-3 Bioprocess Engineering. (Same as BME 577) This course introduces the Mechanical and/or the Biomedical Engineer to the applications of bioprocesses to biotechnology, bacterial cell cultivation, animal cell cultivation, plant cell cultivation and medical applications bioprocessing. Attention will be given to a short survey of the working cells and reactors for cell growth, but will be an overview in nature. Restricted to graduate student standing.

ME580 - Seminar 580-1 Seminar. Presentations of topics in the broad areas of mechanical engineering such as thermal, mechanics, materials and acoustics. Restricted to enrollment in program leading to Master of Science of Mechanical Engineering.

ME581 - Microrobotics 581-3 Microrobotics. This course provides an introduction to Microrobotics which is a newly emerging robotics field. Since the micro/nano-scale technologies have been improved

dramatically, the microrobot has been highlighted for applications in healthcare, biotechnology, etc. Topics covered: the forces and its effects on microrobots at the micron scale, the fabrication methods, control/sensing methods for microrobots, microrobots actuation methods, and locomotions in low Re number regime. In addition, the course will summarize and describe the near-future challenges in Microrobotics. Restricted to graduate standing.

ME582 - Experimental Research Tools 582-1 Experimental Research Tools. Topics important to engineering graduate students engaging in research. These topics include: laboratory safety, statistical data analysis, experimental design, library research and chemical hygiene. Restricted to graduate enrollment in Engineering.

ME583 - Technical Research Reporting 583-1 Technical Research Reporting. Analysis of technical and scientific writing: journal article, thesis, research paper. Guidelines and principles for writing engineering research literature and proposals. Term project involving thesis or research paper proposal to meet department requirements. Prerequisite: ME 582. Special approval needed from the instructor.

ME592 - Special Investigations in ENGR 592-1 to 4 Special Investigations in Engineering. Advanced topics in thermal and environmental engineering. Topics are selected by mutual agreement of the student and instructor. Four hours maximum course credit. Special approval needed from the instructor and department chair.

ME593 - Spec Topics in Mech Engr 593-3 Special Topics in Mechanical Engineering. Studies of special topics in various areas in mechanical engineering. Such topics as coal refining, energy conversion, thermal systems, mechanics, robotics, CAD/CAM, TOM and engineering materials. Special approval needed from the instructor.

ME595 - Research Paper 595-3 Research Paper. Research paper on a topic approved by a faculty advisor and committee in Mechanical Engineering. This course is restricted to graduate students in the non-thesis option. Restricted to graduate standing in Mechanical Engineering. Special approval needed from the instructor or department.

ME599 - Thesis 599-1 to 6 Thesis. Six hours maximum course credit.

ME601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Mining Engineering Faculty

Chugh, Yoginder P., Professor, Emeritus, Ph.D., Pennsylvania State University, 1971; 1977. Coal combustion byproduct utilization and management, rock mechanics, ground control, coal mining dust control and production engineering in coal mines.

Harpalani, Satya, Professor, Ph.D., University of California, Berkeley, 1985; 2002. Mine ventilation, coal bed methane reservoir engineering, in situ mining, and carbon dioxide sequestration.

Mohanty, Manoj, Professor, Emeritus, Ph.D., Southern Illinois University Carbondale, 1997; 2000. Coal and mineral processing, experimental design and statistical analysis.

Paul, Bradley, Associate Professor, Emeritus, Ph.D., University of Utah, 1989; 1990. Underground mining systems and solution mining, minerals processing, hard rock and industrial minerals, geostatistics, mine environmental studies.

Sinha, Atmesh K., Professor, Emeritus, Ph.D., University of Sheffield, England, 1963; 1975

Spearing, A.J.S. (Sam), Associate Professor, Emeritus, Ph.D., Technical University of Silesia, 1993; 2007. Mine design, rock mechanics, backfill, strata control and risk assessment.

Molecular Biology, Microbiology and Biochemistry

Graduate programs are offered that lead to the Doctor of Philosophy (Ph.D.) and Master of Science (M.S.) in Molecular Biology, Microbiology and Biochemistry. The M.S. degree has thesis and non-thesis options. The non-thesis option M.S. degree has an area of specialization in Public Health Laboratory Sciences. These interdisciplinary programs draw their faculty primarily from the Microbiology program (School of Biological Sciences) and the Department of Biochemistry and Molecular Biology (School of Medicine) on the Carbondale campus, and the Department of Medical Microbiology, Immunology, and Cell Biology (School of Medicine) on the Springfield campus. Adjunct faculty from the Illinois Department of Public Health (IDPH) Division of Laboratories provide training to students in the public health laboratory setting. The programs are designed to offer advanced training (via lecture, discussion and laboratory) in biochemistry, biophysics, bacteriology, genetics, immunology, microbial physiology, cancer biology, mycology, molecular biology, cell biology, developmental biology, structural biology and public health laboratory science. The Ph.D. and thesis option M.S. programs require laboratory research. The non-thesis option M.S. degree program is designed to prepare students for a career in public health laboratory science and requires substantial training in a public health laboratory setting that is directly relevant to career preparation in that area.

Admission

Prospective graduate students should have an undergraduate degree in any of the biological, chemical or physical sciences. The applicants are recommended to have completed courses in biology, organic chemistry, physics and mathematics. Strong candidates with deficiencies in any area may be admitted, but such deficiencies may restrict the research areas available to the student and may lead to requirements for additional courses during graduate study. An advisory system in the program (see below) will help students in planning their course of study. Prospective students for the thesis option M.S. and Ph.D. degrees are encouraged to contact program faculty in areas of their research interest. Prospective students seeking admission to the non-thesis option M.S. degree program with an area of concentration in public health laboratory science are encouraged to contact the Chair of the Public Health Science Program committee.

Students may be admitted to the doctoral program with a bachelor's or master's degree. Students in the thesis option M.S. program can be admitted to the doctoral program via accelerated entry or the master's equivalency option by the recommendation of the faculty and approval of the Graduate School.

All application materials should be submitted to the Program Director. This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Molecular Biology, Microbiology and Biochemistry. Applicants must pay this fee by credit card. Applications for admission to the thesis option M.S. and Ph.D. programs are evaluated by the M.S./Ph.D. Program Admissions Committee and applications for the non-thesis option M.S. degree program with an area of concentration in public health laboratory science are evaluated by the Public Health Science Program Committee. Upon recommendation of the appropriate committee, the application is transmitted to the Graduate School for approval.

The MBMB program requires a grade point average (GPA) of 2.7 (A = 4.0) for admission into the M.S. programs and a GPA of 3.00 in graduate level work for admission into the doctoral program. An excellent record in undergraduate coursework and a strong recommendation of the thesis option M.S./Ph.D. Program Admissions Committee is required for direct admission to the doctoral program after a bachelor's degree.

Applicants are required to submit Graduate Record Examination (GRE) general test scores. Submission of test scores of the GRE advanced (biochemistry, cell and molecular biology or biology or chemistry) examinations is also encouraged.

International students whose native language is not English will be required to obtain at least 550 (paper score), 60 (revised paper-delivered test) or IBT of 80 on the Test of English as a Foreign Language (TOEFL) or 6.5 on the International English Language Testing System (IELTS).

Financial Assistance

Fellowships and assistantships are available through the program and the participating departments for qualified applicants.

Advisement and General Requirements

For thesis option M.S. and Ph.D. students, the Program Director or the Departmental Graduate Advisors as designated will assist each incoming student with the initial planning of a program of study and will advise the student until a Research Director is chosen. For non-thesis option M.S. degree program students, the Public Health Science Program Graduate Advisor or its Director will assist students in the planning of a program of study.

Research Director and Graduate Committee Selection

Each student in the Ph.D. or thesis option M.S. program should select a Research Director as soon as possible during the first year. The graduate committee for thesis option M.S. students shall consist of the Research Director (chair), and two additional graduate faculty members. The graduate committee for Ph.D. students shall consist of at least five graduate faculty members to include the Research Director (committee chair), three members derived from participating departments and one member from outside the Program. The Program Director, if not otherwise appointed, is an ex-officio (non-voting) member of every graduate committee. Students in the non-thesis option M.S. degree program with an area of concentration in public health laboratory science program need not choose a Research Director or a Graduate Committee and the Public Health Science Program Committee will plan and monitor student progress through the non-thesis option M.S. program.

Graduate Committee Functions

For thesis option M.S. and Ph.D. students only, the graduate committee will:

1. plan and approve the student's program of study.
2. review the student's progress in courses and suggest and approve changes in the program of study.
3. evaluate the student's progress in research and make appropriate recommendations.
4. meet and determine, on a yearly basis, whether a student is making satisfactory progress and may continue toward a degree. If continuation is denied, the committee must notify the Program Director, in writing, of the reasons for this denial.
5. administer written and oral preliminary examinations to the doctoral student.
6. read and evaluate the student's thesis or dissertation.
7. conduct the required oral examinations.

Public Health Laboratory Science Program Committee

The Public Health Laboratory Science Program Committee is composed of a Program Director and a single member chosen from the MMICB Department for non-thesis M.S. students only. The Public Health Laboratory Science Program Committee will:

1. Provide programmatic oversight of the structure, curricular design, content and personnel involved in the non-thesis option M.S. program.
2. Review applications from students for admission to the non-thesis option M.S. program and make admissions recommendations to the MBMB Program Director.
3. Advise non-thesis option M.S. students in planning a course of study.
4. Monitor student progress toward the non-thesis option M.S. degree.

Formal Course Requirements

All course requirements of the MBMB degree programs and Graduate School are minimum requirements. Additional courses may be required by the student's graduate committee (thesis option M.S. and Ph.D. students) or the Public Health Laboratory Science Program Committee (non-thesis option M.S. students) to meet any deficiencies or to provide proficiency in a specialized area. Certain courses are required of all students, while others meet the requirements of an individual student's area of specialization, as determined by the student's graduate committee (thesis option M.S. and Ph.D. students). The Program Director, with the advice of the student's graduate committee or the Public Health Laboratory Science Program Committee may designate other courses within or outside of the Program to fulfill formal course requirements. Any course (or its equivalent) that meets the requirements of the Molecular Biology,

Microbiology and Biochemistry graduate program whether taken at SIU or at any other institution before admission to the Program need not be repeated. Course equivalency will be determined by the Program Director in consultation with the appropriate committee or member of the faculty.

The formal core course requirements for both the thesis option M.S. and Ph.D. degree can be met by taking either MBMB 451A, MBMB 451B, and MBMB 460; or their equivalent. All M.S. and Ph.D. students must take either MBMB 502, Introduction to Research, or MBMB 504, Research Methods, and must also take during each semester in residence one hour of MBMB 597, Seminar and Professional Training.

Thesis option M.S. students must take two courses and the doctoral students must take three courses from a list of approved courses for specialization. Only one 400-level course from this list can be used to meet this requirement. Currently this list consists of: MBMB 403, MBMB 405, MBMB 421, MBMB 423, MBMB 425, MBMB 441, MBMB 453, MBMB 455, MBMB 456, MBMB 470, MBMB 477, MBMB 520, MBMB 530, MBMB 531, MBMB 532, MBMB 533, MBMB 543, MBMB 551, MBMB 552, MBMB 553, MBMB 560, and MBMB 562. These courses are selected with the approval of the student's graduate committee, Research Director or the Departmental Graduate Advisor. In addition, M.S. students are also required to earn at least eight hours in research and thesis credit (MBMB 515, MBMB 598 and MBMB 599; a minimum of three and maximum of six hours for MBMB 599), prepare a thesis on the research project and pass a final oral examination, which serves as the comprehensive examination.

The formal course requirements for non-thesis option M.S. students with an area of specialization in public health laboratory sciences can be met by taking: MBMB 403 or MBMB 405, MBMB 453 or MBMB 455, MBMB 451A, MBMB 451B, CHEM 431, MBMB 460, MBMB 510, MBMB 540, MBMB 541A and MBMB 541B. Non-thesis option M.S. students must also take one hour of MBMB 597 (Seminar and Professional Training) during each semester in residence. The Public Health Laboratory Science Program Committee will make recommendations to the Program Director whether courses taken at SIU or other universities are equivalent to the program requirements.

Preliminary Examination and Dissertation for the Ph.D. Degree

Each student in the doctoral program must pass a preliminary examination and meet the Graduate School residency requirement before being advanced to candidacy. The students can take the preliminary examination after completing the formal course requirements.

The student's graduate committee will prepare and administer a written preliminary examination covering various areas of molecular biology, microbiology and biochemistry, with particular emphasis in the area of concentration declared. This declaration will be done by means of a prospectus of a dissertation composed of: (1) a proposal for the dissertation research, (2) biographical information on the candidate, and (3) a list of the courses taken during the candidate's graduate program. The proposal should address the proposed graduate research project, and be written in the NIH (National Institutes of Health) or NSF (National Science Foundation) approved format. The prospectus shall be available to the committee members at least 14 days prior to the date of the examination.

A written examination score of at least 80 percent is required before a student can proceed to the oral portion of the preliminary examination. Upon satisfactory completion of the written examination, the candidate will meet with the committee as a whole and discuss the prospectus in detail. The committee will then conduct an oral preliminary examination. At this time, the committee may ask in-depth questions about the research project and other areas of molecular biology, microbiology and biochemistry. At least four of the five committee members must judge the oral performance acceptable for a student to pass the preliminary examination overall. In the event that either the written or oral preliminary examination is failed, a student may request only one re-examination.

Successful completion of both written and oral examinations is required before a student can be advanced to candidacy for the Ph.D. After admission to candidacy, the student must earn at least 24 dissertation credit hours (MBMB 600), prepare and defend a dissertation, and present a public seminar based on the student's research.

Molecular Biology, Microbiology and Biochemistry Courses

MBMB403 - Medical Microbiology 403-3 Medical Microbiology Lecture. (Same as MICR 403) A survey of the more common bacterial, mycotic and viral infections of humans with particular emphasis on the distinctive properties, pathogenic mechanisms, epidemiology, immunology, diagnosis and control of disease-causing microorganisms. Three hours lecture. Spring semester. Prerequisite: MICR 301, or consent of instructor.

MBMB405 - Clinical Microbiology 405-3 Clinical Microbiology. (Same as MICR 405) This course will be offered in Springfield only. A comprehensive course for health science professionals covering the biology, virulence mechanisms, and identification of infectious agents important in human disease and host-defense mechanisms. Clinical applications emphasized. Three hours lecture. Prerequisite: MICR 301, or consent of instructor.

MBMB421 - Biotechnology 421-3 Biotechnology. (Same as MICR 421) Topics covered will include the genetic basis of the revolution in biotechnology, medical applications including genetic screening and therapeutic agents, industrial biotechnology and fermentation, and agricultural applications. Three hours lecture. Fall semester. Prerequisite: MICR 302, or consent of instructor.

MBMB423 - Geomicrobiology 423-3 Geomicrobiology. (Same as MICR 423 and GEOL 423) The course will focus on the role that microorganisms play in fundamental geological processes. Topics will include an outline of the present understanding of microbial involvement of weathering of rocks, formation and transformation of soils and sediments, and genesis and degradation of minerals. Elemental cycles will also be covered with emphasis on the interrelationships between the various geochemical cycles and the microbial trophic groups involved. Prerequisite: MICR 301 and CHEM 210 and 211. Recommended: GEOL 220, 221 or 222.

MBMB425 - Biochem Physiol Microorganisms 425-3 Biochemistry and Physiology of Microorganisms Lecture. (Same as MICR 425) Chemical composition, cellular structure, and metabolism of microorganisms. Fall semester. Prerequisite: CHEM 340 or CHEM 339.

MBMB441 - Viruses and Disease 441-3 Viruses and Disease. (Same as MICR 441) An intensive, lecture-based course in virology which will emphasize principles of molecular virology, the ubiquity of viruses in nature, evolutionary relationships between viruses, co-evolution between virus and host, and the pathogenic consequences of some viral infections (e.g., AIDS, hepatitis, cancer, etc.). Prerequisites: MICR 460 or MBMB 460 or consent of instructor.

MBMB451A - Biochemistry 451A-3 Biochemistry. (Same as CHEM 451A and BCHM 451A) First half of the 451 A,B two semester course. Must be taken in A,B sequence. Three lectures per week. Introduction to biomolecules, biochemical techniques, expression of genetic information, basic thermodynamics, ligand binding, aqueous solutions, protein structure, spectroscopy. Prerequisites: CHEM 340 and CHEM 342 or 442, or equivalents.

MBMB451B - Biochemistry 451B-3 Biochemistry. (Same as CHEM 451B and BCHM 451B) Second half of 451A,B two semester course. Must be taken in A,B sequence. Basic kinetics, enzyme kinetics, enzyme inhibitors, regulation of enzymes, oxidation-reduction, high energy bonds, transport across membranes, intermediary metabolism, hormonal control of metabolism. Prerequisites: MBMB 451A or BCHM 451A or CHEM 451A or equivalent.

MBMB453 - Immunology Lecture 453-3 Immunology Lecture. (Same as MICR 453) Principles of molecular and cellular immunology. Particular emphasis is given to molecular mechanisms involved in activation and maintenance of the immune response at the basic science level. The role of the immune system in medical diagnostic procedures and in human health is also discussed. Spring semester. Prerequisite: MICR 403, or consent of instructor.

MBMB455 - Medical Immunology 455-2 Medical Immunology. (Same as MICR 455) This course will be offered in Springfield only. A survey of the components of the immune system and how they interact with each other to produce responses that are important in the control or mediation of human disease. Two hours lecture. Prerequisite: MICR 301, or consent of instructor.

MBMB456 - Biophysical Chemistry 456-3 Biophysical Chemistry. (Same as CHEM 456 and BCHM 456) A one-semester course in Biophysical Chemistry intended for biochemists and molecular biologists. Emphasis will be on solution thermodynamics, kinetics and spectroscopy applied to biological systems. Prerequisite: CHEM 340 and CHEM 342 or 442, MATH 141 or 150, MBMB 451A or BCHM 451A or CHEM 451A, or equivalents.

MBMB460 - Bacterial & Viral Genetics 460-3 Bacterial and Viral Genetics. (Same as MICR 460) The genetic mechanisms and regulatory events that control gene transfer, lambda phage infection, recombination, and metabolic pathways including a brief introduction to bioinformatics, genome analysis and global regulatory functions. Three hours lecture. Fall semester. Prerequisite: MICR 301 and 302, or consent of instructor.

MBMB470 - Prokaryotic Diversity 470-3 Prokaryotic Diversity Lecture. (Same as MICR 470) A consideration of the major groups of prokaryotes with special emphasis on their comparative physiology and ecology. Three hours lecture. Spring semester. Prerequisite: MICR 301, or consent of instructor.

MBMB477 - Microbial Ecology 477-3 Microbial Ecology. (Same as MICR 477) Concepts of ecology applied to microorganisms; methods in microbial ecology; interactions of microbes with their living and non-living environment microbial habitats and functions. Roles and regulation of microbes in natural and man-made environments, from cellular to community level. Prerequisite: MICR 301 or instructor's consent (based on proven background in both microbiology and ecology).

MBMB480 - Molecular Biol Microorgns Lab 480-4 Molecular Biology of Microorganisms Laboratory. (Same as MICR 480) Genetic and biochemical analyses of microorganisms using a variety of techniques in molecular biology, molecular genetics and biotechnology. Six hours laboratory per week plus two hours of supervised unstructured laboratory work in most weeks. Fall semester. Prerequisite: MICR 301 and 302 with a C grade or better and two (or concurrent enrollment in two) of the following: 421, 423, 425 or 460. Lab fee: \$60.

MBMB481 - Diagnostic Applied Micro Lab 481-4 Diagnostic and Applied Microbiology Laboratory. (Same as MICR 481) Enrichment and isolation of prokaryotes from natural samples, diagnostic methods for the identification of pathogenic bacteria, and the nature of the immune response. Six hours laboratory per week plus two hours supervised unstructured laboratory work in most weeks. Spring semester. Prerequisite: MICR 301 and 302 with a C grade or better and two (or concurrent enrollment in two) of the following: 403, 453 or 470. Lab fee: \$60.

MBMB502 - Introduction To Research 502-3 Introduction to Research. An introductory research course. Students rotate through at least three research laboratories. Lecture and laboratory hours to be arranged. Students cannot get credit for both MBMB 502 and MBMB 504. Restricted to acceptance into the Molecular Biology, Microbiology and Biochemistry graduate program.

MBMB504 - Research Methods 504-3 Research Methods. Problem definition, experimental design and research methods in specific areas of molecular biology, biochemistry and microbiology. Lecture and laboratory hours to be arranged. Students cannot get credit for both MBMB 502 and MBMB 504. Restricted to acceptance into the Molecular Biology, Microbiology and Biochemistry graduate program.

MBMB505 - Special Topics 505-1 Special Topics. Discussion of current research in specific areas of molecular biology, microbiology and biochemistry. One hour of group discussion per week. Special approval needed from the instructor.

MBMB510 - Public Health Practice 510-3 Functions of Public Health System. This course is an introduction to the concepts and practices of public health at the community, state, and national levels. The course addresses the philosophy, purpose, history, organization, functions, activities and impact of public health practice. The course also addresses a number of important health issues and problems facing the public health system. Special emphasis will be placed on the role of public health laboratory in public health practice. Discussion questions and case studies are integrated into the course, serving to stimulate student participation in gaining in-depth knowledge about real world public health issues and practice. Prerequisite: Bachelor's degree in Microbiology or other Biology, Chemistry, Physical Science.

MBMB515 - Master's Degree Research 515-1 to 6 (1 to 6 per semester) Master's Degree Research. Individualized laboratory research and training. Graded credit for Master's Degree only. Maximum 6 credit

hours. Restricted to admission to master's program in Molecular Biology, Microbiology and Biochemistry. Special approval needed from the instructor.

MBMB520 - Adv Microbial Physl/Ctrl Mchsms 520-2 Advanced Microbial Physiology and Control Mechanisms. The physiology, biochemistry and genetics of microbial regulatory mechanisms. Topics include transport phenomena, catabolite and nitrogen repression, the stringent response, and autoregulatory phenomena. Two lectures per week. Prerequisite: MBMB 425; or CHEM 451A and B, or consent of instructor.

MBMB521 - Advanced Virology 521-3 Advanced Virology. An advanced, lecture-based course which will (1) emphasize principles of molecular virology, (2) discuss immune responses to viral infections, (3) learn how viral infections can be prevented or treated, and (4) explore how some viruses can be used as therapeutic agents. Each topic will include an in-depth discussion of current research literature. Prerequisites: 400 level course in genetics and in biochemistry, or consent of the instructor.

MBMB528 - Readings-Molec/Micr/Bchm 528-1 to 3 Special Readings in Molecular Biology, Microbiology and Biochemistry. Supervised readings for qualified graduate students. Special approval needed from the instructor.

MBMB530 - Adv Cellular Biology 530-3 Advanced Cellular Biology. (This course will be offered in Springfield only). An advanced course based on current literature concerning the cellular biology of eukaryotes. Both students and faculty will make presentations followed by discussion. Topics will include: the cellular and subcellular structure and function of the lower eukaryotes, the biochemistry and biophysics of eukaryotic membrane systems and the higher subcellular functions of mammalian cells. Prerequisite: 400 level course in genetics and in biochemistry or consent of instructor.

MBMB531 - Molecular & Cellular Biology 531-3 Molecular and Cellular Biology. Lecture course in molecular and cellular biological techniques used in the study of organisms; structures and processes involved in genome organization; packaging and replication of DNA; transcription and RNA processing; recombination and transposition of DNA; gene regulation with emphasis on developmental processes; signal transduction; structure and function of cellular components; cell-cell interaction; etc. Prerequisite: BCHM 451B or consent of instructor; MBMB or MICR 460 recommended.

MBMB532 - Methods Structural Biology 532-3 Methods of Structural Biology. Lecture course in molecular computer graphics, macromolecular structure prediction, molecular dynamics, applications of NMR and X-ray methods to structural determinations of biological macromolecules; spectroscopic methods including UV, IR, Raman, fluorescence and circular dichroism methods. Prerequisite: BCHM 456 or consent of instructor.

MBMB533 - Advanced Biochemistry 533-3 Advanced Biochemistry. Lecture course in control mechanisms of biochemical processes, enzyme kinetics, regulation and allostery, coupled systems and energy transduction, membranes, transport, etc. Prerequisite: BCHM 451A or consent of instructor.

MBMB540 - Public Health Laboratory Pract 540-3 Basis of Public Health Laboratory Practice. The scientific basis of current laboratory practice of public health science in the areas of microbiology, immunology, molecular biology, environmental chemistry, biochemistry and instrumentation (to accompany 541A,B). Prerequisite: MBMB 510, Bachelor's degree in Biology, Chemistry, Physical Science.

MBMB541A - PHL Training 541A-3 to 9 Public Health Laboratory Training. This course has a laboratory component of approximately 4-6 hours/week/credit hour of training in a functioning public health laboratory. The content of the course provides in-depth experience in the scientific basis and use of analytical methods in microbiology, immunology and molecular biology that are unique to public health laboratories at the state and national level. Prerequisite: MBMB 510, concurrent with MBMB 540, MICR 301 or equivalent.

MBMB541B - PHL Training 541B-3 to 9 Public Health Laboratory Training. This course has a laboratory component of approximately 4-6 hours/week/credit hour of training in a functioning public health laboratory. The content of the course provides in-depth experience in the scientific basis and use

of analytical methods in environmental chemistry and biochemistry that are unique to public health laboratories at the state and national level. Prerequisite: MBMB 510, MBMB 541A.

MBMB543 - Host Microbial Interactions 543-3 Host-Microbial Interactions. (This course will be offered in Springfield only). A lecture course that deals in depth with mechanisms of symbiosis and other interactions with respect to the biochemistry of microbe and host. Immunological aspects are discussed. Emphasis is placed on molecular mechanisms. Offered alternate years. Prerequisite: MBMB 403 or MBMB 405 or consent of instructor.

MBMB551 - Advanced Immunology 551-3 Advanced Immunology. A lecture course that intensively considers the most recent developments in antibody structure, antigenic analysis, and antigen-antibody reactions. A special focus will be on the use of immunology as a research tool. Prerequisite: MBMB 453 or equivalent, or consent of instructor.

MBMB552 - Cellular Immunology 552-3 Cellular Immunology. (This course will be offered in Springfield only). A lecture-discussion course covering contemporary aspects of cellular immunology. The cellular nature of immune responses as well as current information on the regulation of such responses will be considered. Topics will include cellular components of an immune response; receptors, recognition and signals; cellular cooperation; immuno regulation; and tolerance and autoreactivity. Prerequisite: MBMB 453 or MBMB 455 or consent of instructor.

MBMB553 - Adv Med Microbiol Immunology 553-3 Advanced Medical Microbiology and Immunology. (Offered in Springfield only). A lecture course providing an in-depth analysis of the mechanisms of pathogenesis of bacterial, viral and mycotic infections. Immune mechanisms involved in recovery, development of immunity and infection mediated immunopathology will be covered. Prerequisite: MBMB 403 and MBMB 453; or MBMB 405 and MBMB 455; or consent of instructor.

MBMB554 - Evolution Seminar 554-1 to 4 (1 per semester) Evolution Seminar. (Same as ANTH 554, PLB 554) Advanced topics in evolutionary biology including genetics & development, evolutionary ecology, phylogeny, paleontology, biogeography, population genetics, molecular ecology, speciation, molecular evolution, and macroevolution. Topics will vary each semester. Seminar format with group discussions and student presentations. Graded S/U. Special approval needed from the instructor.

MBMB556 - Phylogenetics 556-3 Phylogenetics. (Same as ANTH 556, PLB 556, ZOOL 556) An advanced introduction to modern methods of phylogenetic inference, emphasizing both theoretical background concepts and numerical approaches to data analysis. Topics include properties of morphological and molecular characters, models of character evolution, tree estimation procedures, and tree-based testing of evolutionary hypotheses. Special approval needed from the instructor.

MBMB560 - Molecular Oncology 560-3 Molecular Oncology. A lecture-discussion course in molecular and cellular biology of tumor pathogenesis. The lecture covers various aspect of current tumor biology. The in-depth discussion on recent articles will provide students with opportunity to become familiar with front-line research in molecular oncology. Prerequisite: MBMB 451A and B or consent of instructor.

MBMB562 - Molecular Genetics 562-3 Molecular Genetics. A lecture and discussion course emphasizing current research and new techniques in replication, transcription, translation, genome organization, gene flow from a general systems viewpoint and regulation. Prerequisite: MBMB 460 or consent of instructor.

MBMB568 - Topics in Oncology 568-1 Current Topics in Oncology. A seminar-discussion course covering the pace-setting topics in oncology research. The topics will be selected by the course director. Students will research and select articles to be presented for discussion. The in-depth discussion on recent articles will provide students with opportunity to become familiar with cutting edge line research in oncology. Prerequisite: MBMB 560 or consent of instructor.

MBMB570A - Adv Topics-Molecular Biology 570A-1 to 15 (1 to 6 per semester) Advanced Topics-Molecular Biology. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB570B - Adv Topics-Biochemistry 570B-1 to 15 (1 to 6 per semester) Advanced Topics-Biochemistry. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB570C - Adv Topics-Microbiology 570C-1 to 15 (1 to 6 per semester) Advanced Topics-Microbiology. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB570D - Adv Topics-Immunology 570D-1 to 15 (1 to 6 per semester) Advanced Topics-Immunology. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB570E - Adv Topics-Virology 570E-1 to 15 (1 to 6 per semester) Advanced Topics-Virology. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB570F - Adv Topics-Structural Biology 570F-1 to 15 (1 to 6 per semester) Advanced Topics-Structural Biology. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB570G - Adv Topics-Biophysics 570G-1 to 15 (1 to 6 per semester) Advanced Topics-Biophysics. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB570H - Adv Topic-General Cell Biology 570H-1 to 15 (1 to 6 per semester) Advanced Topics-General Cell Biology. Selected topics of current scientific interest to the faculty and students. Specific topic to be covered in any semester will be announced. Special approval needed from the instructor.

MBMB580 - Current Topics in Evolution 580-1 Current Topics in Evolution. (Same as ANTH 580, ZOOL 580) The Evolution Discussion Group meets weekly throughout the year to discuss current evolutionary literature and the research of participants. All students and faculty with an interest in evolutionary biology are welcomed to participate.

MBMB597 - Seminar/Professional Training 597-1 to 15 (1 per semester) Seminar and Professional Training. Departmental seminars, and other appropriate professional assignments. Graded S/U only. One hour required each semester in residence. Restricted to graduate standing.

MBMB598 - Research 598-1 to 66 (1 to 12 per semester) Research. Graded S/U only. Special approval needed from the instructor.

MBMB599 - Thesis 599-1 to 6 (1 to 6 per semester) Thesis. Research for Master's degree thesis. Special approval needed from the instructor.

MBMB600 - Dissertation 600-1 to 36 (1 to 12 per semester) Dissertation. Research for Ph.D. degree dissertation. Special approval needed from the instructor.

MBMB601 - Continuing Enrollment 601-1 (1 per semester) Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Molecular Biology, Microbiology and Biochemistry Faculty

Achenbach, Laurie, Professor and *Dean*, *College of Science*, Ph.D., University of Illinois, Urbana-Champaign 1988; 1990. Molecular genetics of metabolic pathways involved in the bioremediation of environmental contaminants; bacterial diversity and evolution; molecular anaerobic microbiology.

Bartholomew, Blaine, Professor, *Emeritus*, Ph.D., University of California, Davis; 1988; 1991. Regulation of gene expression, chromatin structure and function, molecular mechanisms of cancer.

Bartke, Andrzej, Professor, *Emeritus*, Ph.D., (Springfield), University of Kansas, 1965; 1984. Genetic control of aging in mammals and endocrine mechanisms responsible for the effects of longevity genes.

Bender, Kelly, Associate Professor and *Program Coordinator, Microbiology*, Ph.D., Southern Illinois University, 2003; 2006. Metabolic regulation of bacteria involved in bioremediation; small non-coding regulatory RNAs.

Bhaumik, Sukesh R., Associate Professor, Ph.D., Tata Institute of Fundamental Research (University of Bombay), 1997; 2003. Regulation of eukaryotic gene expression; transcription-coupled ubiquitination and DNA repair; NMR structural studies on proteins and nucleic acids.

Braundmeier-Fleming, Andrea, Assistant Professor, Ph.D., (Springfield), 2005; 2014, Immune cell function and influence on the GI and vaginal microbiome and their implication in reproductive disorders.

Cao, Deliang, Associate Professor, M.D., Ph.D., (Springfield), Institute of Molecular Biology (University of Hong Kong), 1996; 2005. Molecular oncology and experimental therapeutics, with focuses on 1) action mechanisms and modulations of anticancer therapeutic agents and 2) the role of aldo-ketoreductases in cancer development, progression and therapy.

Clark, David P., Professor, *Emeritus*, Ph.D., University of Bristol, 1977; 1980.

Cooper, Morris D., Professor, *Emeritus*, Ph.D., (Springfield), University of Georgia, 1971; 1973.

Davie, Judy, Associate Professor, Ph.D., University of California at Berkeley, 1998; 2006. Mechanisms of gene regulation, focusing on myogenin, a transcription factor that controls skeletal muscle development.

Elble, Randolph C., Associate Professor, Ph.D., (Springfield), Indiana University, 1986; 2005. Tumor suppression mechanisms in breast cancer. Biology of CLCA family proteins. Gene regulation in differentiation and stress.

Fisher, Derek, Assistant Professor, Ph.D., University of Pittsburgh School of Medicine, 2006; 2012. Developmental regulation in Chlamydia.

Gagnon, Keith T., Assistant Professor, Ph.D., North Carolina State University, 2007; 2014. Biochemistry of nucleic acids, RNA and RNA-protein interactions in human biology and disease.

Gershburg, Edward, Associate Professor, Ph.D., (Springfield), Tel-Aviv University, 1999; 2007. Epstein-Barr virus (EBV)- encoded protein kinase in viral infection. EBV-PK regulation and enzymology and identification of its viral and cellular targets.

Gupta, Ramesh, Professor and *Chair, Biochemistry and Molecular Biology*, Ph.D., University of Illinois, 1981; 1984. Molecular biology of Archaea, transcription and RNA processing in extreme halophilic and hyperthermophilic microorganisms.

Haddock, John D., Associate Professor, *Emeritus*, Ph.D., Virginia Polytechnic Institute and State University, 1990;1995.

Halford, William, Associate Professor, Ph.D., (Springfield), Louisiana State University Medical Center, 1996; 2007. Using herpes simplex virus as a tool to understand how viral and host immune factors interact to produce life-long viral infections; devising effective cures for persistent viral infections.

Hamilton-Brehm, Scott D., Assistant Professor, Ph.D., University of Georgia, 2008; 2016. Microbial characterization of unique extreme environments, characterization of novel metabolism pathways, and DNA investigations from ancient artifacts.

Hardwicke, Peter M. D., Professor, *Emeritus*, Ph.D., Kings College, London, 1969; 1985. Regulation of calcium transport across membranes by calcium pumps and the sodium-calcium exchanger. Proteolipids, lipids, conjugated trienes and nonmyelin sensory nerve antigens.

Huvos, Pirooska, Research Assistant Professor, Ph.D. Eotvos Lorand University, Budapest, 1969: 1987. Genome rearrangements.

Jayakody, Lahiru N, Assistant Professor, Ph.D., Kagoshima University, Japan, 2014; 2019. Metabolic Engineering of microbes for fuels, chemical, polymers, and pharmaceuticals production; engineering post-translational protein machineries.

Kadyrov, Farid, Associate Professor, Ph.D., Russian Academy of Sciences, 1997; 2008. DNA replication and repair, DNA damage in cancer.

Konjufca, Vjollca, Assistant Professor, Ph.D., University of Arkansas, Fayetteville, 2002; 2010. Immunology, host-pathogen interactions.

Madigan, Michael T., Professor and *Distinguished Scholar, Emeritus*, Ph.D., University of Wisconsin, 1976; 1979.

Martinko, John M., Associate Professor and *Distinguished Teacher, Emeritus*, Ph.D., SUNY (Buffalo), 1978; 1981.

Nie, Daotai, Professor, Ph.D., (Springfield), University of South Carolina, 1997; 2005. Molecular and cellular biology of cancer; tumor metastasis; development of tumor therapeutics.

Niederhoffer, Eric C., Associate Professor, Ph.D., Texas A&M University, 1983; 1990. Metallobiochemistry; electron transfer; metalloprotein structure-function, microbial stress responses virulence factors.

Olson, Michael, Assistant Professor, Ph.D., (Springfield), University of Nebraska Medical Center, 2009; 2014, Characterization of the biology of *Staphylococcus Aureus* at the host interface.

Parker, Jack, Professor, *Emeritus*, Ph.D., Purdue University, 1973; 1977.

Rader, Bethany, Assistant Professor, Ph.D., University of Oregon, 2006; 2014. Beneficial host-microbe interactions, innate immunology, microbial ecology and systems biology.

Ran, Sophia, Professor and *Director, MBMB Graduate Program*, Ph.D. (Springfield), Weizmann Institute of Science, 1989; 2003. Tumor physiology, angiogenesis and lymphangiogenesis; breast cancer metastasis.

Rao, Krishna, Associate Professor, M.D., Ph.D., (Springfield), University of Washington, 2002; University of Miami, 1991; 2007. Role of Rab25 as a tumor suppressor, treatment of head and neck cancer.

Schmit, Joseph C., Associate Professor, *Emeritus*, Ph.D., Purdue University, 1971; 1976.

Tischkau, Shelly A., Associate Professor and *Interim Chair of Medical Microbiology, Immunology and Cell Biology*, Ph.D., (Springfield), University of Illinois, Urbana-Champaign, 1995; 2007. Neuroendocrinology; environmental toxicology; regulation of molecular circadian rhythms in health and disease states, including cancer and diabetes.

Torry, Donald S., Professor and *Associate Dean for Research*, Ph.D., (Springfield), Southern Illinois University, 1989; 2000. Human reproductive biology; cellular biology of angiogenic growth factors and immune cytokines during pregnancy. Molecular biology of placental gene expression.

Weilbaecher, Rodney, Research Assistant Professor, Ph.D., University of California, Berkeley, 1997; 2007. Gene regulation, post-translational modifications, telomere biology.

Wilber, Andrew, Associate Professor, *Public Health Laboratory Sciences Program*, Ph.D., (Springfield) University of Minnesota, 2006; 2008. Gene therapy for hemoglobin disorders beta-thalassemia and sickle cell anemia, gene expression regulation, stable gene delivery using non-viral and viral integrating vector systems and cancer immunotherapy.

Yuan, Rong, Assistant Professor, M.D., Ph.D., (Springfield), Shanghai Second Medical University, P.R. China, 2000; 2012. Molecular Biology of aging and longevity.

Molecular, Cellular and Systemic Physiology

Graduate courses in physiology may be taken leading to the Master of Science or the Doctor of Philosophy degrees with a major in molecular, cellular and systemic physiology. Graduate courses in molecular, cellular and systemic physiology may also contribute to a program leading to a Master of Science degree major in biological sciences or to a teaching specialty for the Master of Science in Education degree major in secondary education or in higher education.

The Department of Physiology offers advanced training in mammalian physiology, aging, cancer biology, cell physiology, molecular biology, molecular endocrinology, neuro-endocrinology, neurophysiology, neuropharmacology, reproductive biology, and reproductive endocrinology, metabolism and human anatomy. Students entering the graduate training program are advised to plan the course work so as to acquire a broad knowledge of the field before emphasizing one of these sub-disciplines. The advisory system in the department is set up to help students in planning their work. All graduate training programs in the department are subject to approval of the graduate program committee (GPC) of the department.

Each term the student must be engaged in a training assignment which supplements formal course work and will consist of research or teaching or both. The student is required to have participated in both types

of activities, research and teaching, as a graduate student at SIU as a condition for receiving a graduate degree.

Prerequisites for graduate training in molecular, cellular and systemic physiology include an undergraduate degree in one of the biological, physical, or behavioral sciences, preferably with one year each of physics, mathematics, and chemistry.

Financial Assistance

The Department of Physiology offers financial assistance to qualified applicants accepted by the department. The funds which provide this assistance come from a variety of sources which include: teaching assistantships from the department; University fellowships which are applied for directly by the student; and research assistantships from grants obtained by the graduate program faculty. Students interested in financial assistance should fill out the Financial Support Form available online and in the Department of Physiology office. Additional financial aid information may be found at the SIU Financial Aid Office web page. Financial assistance depends on availability and the student's qualifications and academic status. Continued financial support is contingent upon the student's progress toward the degree and good academic standing.

The department may support master's students for up to 24 months and Ph.D. students for 48 months on department teaching assistantships. However, every effort will be made to encourage the student and his/her adviser to find alternative sources of funding. Continuation of support will be conditioned on satisfactory performance in areas of academics, research, and teaching. Academic performance will be based on good standing in the Graduate School (3.0 GPA) and passage of the preliminary exam by the end of the third year (Ph.D. students only). Satisfactory research performance will be based on the filing of an approved research proposal by the end of the (Ph.D. students only) calendar year and after that time by an annual memo from the student's advisory committee indicating progress in the area of research. It will be the student's responsibility to provide this documentation to the GPC. Evaluation of teaching effectiveness will be carried out by the GPC from sources possibly but not limited to the course coordinator, student evaluations and by direct observation of classes by the GPC.

A departmental stipend for graduate student research will be available to molecular, cellular and systemic physiology graduate students working in laboratories of regular physiology department faculty members provided that the student is making satisfactory progress in their research program and remains in good academic standing (as defined above).

Research Tools

Doctoral students must acquire competence in one research tool and are encouraged to attain competence with two tools. The requirements for a research tool may be satisfied by establishing proficiency in advanced statistics, computer science, electronics, advanced mathematics, electron microscopy, foreign language (with suitability of a particular language being determined by the student's committee), or some technique which is acceptable to the student's advisory committee. Courses which are normally part of a track requirement or are highly recommended for students in a particular track cannot serve as tools for students in that track. Approval of a given tool by the student's committee will be granted only if the student has demonstrated proficiency by taking a formal course and receiving a grade (preferably *B* or better) or by passing a formal examination given by an expert in that field (preferably a faculty member in the University department where the subject is normally taught).

Master's Degree

The application should be submitted online through the Graduate School. All applicants must submit a brief (300-600 words) statement of goals and ambitions indicating why they wish to do graduate work and three letters of recommendation submitted by individuals who can comment on their academic abilities, character, and potential for doing research. The Graduate Record Exam (GRE) is required, and the score on the general part must be submitted with the application.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Molecular, Cellular and Systemic Physiology. Applicants may pay this fee by credit card.

The Graduate School requires an earned grade point average (GPA) of 2.70 or better ($A = 4.0$) on all undergraduate work. A minimum GPA of 3.00 ($A = 4.0$) in all undergraduate and graduate work is needed for serious consideration.

The graduate program committee of the department will normally examine the credentials, which include the application form, transcript(s), letters of recommendation, goal statement, and GRE scores, only after all materials have been received.

International students must take the TOEFL exam and obtain a score greater than 550 (paper score) or 220 (computer score) to qualify for admission by the Graduate School, and must pass a Test of Spoken English prior to the awarding of teaching assistantships by the Department of Physiology.

Advisory Committee

The Director of Graduate Studies will act as an advisor to new graduate students until a research advisor is selected. The choice of a research advisor is a very important step and should be carefully considered. During the first semester, most students rotate through four research laboratories to get acquainted with faculty members and research programs before selecting an advisor who will direct the thesis research and help plan course work.

The functions of the research advisor are:

1. To provide guidance in the student's research and the use of facilities.
2. To provide mentorship in conducting, evaluating, and publishing scientific research.
3. To serve as chair of the Advisory Committee and consultant for the selection of the other members of the Advisory Committee (at least three additional members from the graduate faculty, including one from outside the department).

Members of the Advisory Committee should provide expertise in or complementary to the research area and provide guidance in the selection of course work. The student should meet with the committee yearly or as needed to discuss research and academic progress.

Following the selection of a research advisor and the Advisory Committee, the Graduate Faculty Committee Approval Form (available online and in the department office) must be filled out with the names and signatures of committee members and filed with the department secretary. The completed form will then be forwarded to the Graduate School for final approval.

Total Hours Required

A total of 30 semester hours at the 400- and 500-level is required for the master's degree. Of the total hours completed, at least 21 of these must be graded (A, B, C) hours. At least 15 of the total 30 must be 500-level courses taken at SIU. Of these 15, a *minimum* of 3 hours of PHSL 599 (thesis) is *required*. More than three hours of 599 may be taken, however only six may be counted toward the 500-level requirement.

Thesis

The thesis should represent a competent piece of original research carried out on a specific physiological problem or area under the research advisor's supervision. It should include an adequate review of the literature, a statement of the hypothesis, a set of experiments testing the hypothesis by whatever methods are appropriate, an analysis of the results, and an interpretation of the work and its significance. Upon completion of the thesis research, a final department seminar is presented followed by an oral examination. The examination will be conducted by the Advisory Committee and will cover the subject of the thesis and other matters related to the discipline.

Doctoral Program

The Graduate School requires a grade point average in previous graduate work of at least 3.0 and acceptance by the academic unit offering the Ph.D. program. See the following pages for accelerated and direct entry options.

The application should be submitted online through the Graduate School. All applicants must submit a brief (300-600 words) statement of goals and ambitions indicating why they wish to do graduate work and three letters of recommendation submitted by individuals who can comment on their academic abilities, character, and potential for doing research. The Graduate Record Exam (GRE) is required, and the score on the general part must be submitted with the application.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Molecular, Cellular and Systemic Physiology. Applicants may pay this fee by credit card.

The graduate program committee of the department will examine the credentials which include the application form, transcript(s), letters of recommendation, goal statement and GRE scores (if applicable) only after all materials have been received.

International students must take the TOEFL exam and obtain a score greater than 550 (paper score) or 220 (computer score) to qualify for admission by the Graduate School, and must pass a Test of Spoken English prior to the awarding of teaching assistantships by the Department of Physiology.

Ph.D. Direct Entry Option

This option is presently available for admission to the Graduate School. Contact the Department of Physiology for further information regarding this option. The Department of Physiology may accept a post-baccalaureate student directly into a Ph.D. program provided that the student has:

1. A cumulative undergraduate grade point average of 3.25 (A = 4.0).
2. Sufficient undergraduate course work in biology, chemistry, physics, and mathematics or an outstanding score on the Graduate Record Exam (GRE) on: (a) the general part or (b) the advanced part in biology, chemistry, physics, or mathematics.

A student admitted to the doctoral program under this option is subject to the admissions requirements stated above and all other requirements of the doctoral degree, including: course work, retention, residency, examinations, research proposal, dissertation, and all applicable time limits. The Advisory Committee may adjust the course work and requirements of the student based on the student's background and research area. Students who have taken one or more core courses at another accredited university may be given credit toward their core requirements if such courses are deemed equivalent to our core courses by the Graduate Program Committee and department grade requirements are met.

Ph.D. Accelerated Entry Option

The Department of Physiology offers the Ph.D. accelerated entry option to a graduate student in the Master's program who demonstrates the intellect, research aptitude, and commitment for pursuing a doctoral degree. At the end of at least one year of studies at the master's level, the student may request that their Advisory Committee review their qualifications and performance in order to establish eligibility for entry into the doctoral program under this option. The student must have a GPA of at least 3.25 (A = 4.0) in graduate course work and letters of reference attesting to the student's abilities and potential to perform doctoral level research. The Advisory Committee must establish that the student is prepared and able to conduct research at the doctoral level, which may be established by publications; presentations at meetings; depth of understanding; and quality of seminars, presentations, and research proposal. The Advisory Committee will make a recommendation that the student should either continue in the Master's program or advance into the doctoral program.

After the student's eligibility has been established, the research advisor and/or the Advisory Committee will prepare a written review of the student's qualifications and submit it to the Graduate Program Committee for approval. The Graduate Program Committee will then submit a recommendation to the Chair of the Department of Physiology, who will in turn submit a letter to the Graduate School requesting a waiver of a master's degree or master's equivalency and entry into the doctoral program.

The student will need to submit the following items to the Graduate School: a letter of acceptance into the doctoral program from Graduate Program Committee Chair, a Graduate School application form (indicating Ph.D.), and a completed Notification of Accelerated Entry Option Students Form.

A student admitted to the doctoral program under this option is subject to all requirements of the doctoral degree, including: course work, retention standards, residency, examinations, research proposal, dissertation, and all applicable time limits.

Please note that only courses taken after admission to the doctoral program will count toward residency.

Advisory Committee

The Director of Graduate Studies will act as an advisor to new graduate students until a research advisor is selected. The choice of a research advisor is a very important step and should be carefully considered. During the first semester, most students rotate through four research laboratories to get acquainted with faculty members and research programs before selecting an advisor who will direct the dissertation research and help plan course work.

The functions of the research advisor are:

1. To provide guidance in the student's research and the use of facilities.
2. To provide mentorship in conducting, evaluating, and publishing scientific research.
3. To serve as chair of the Advisory Committee and consultant for the selection of other members of the Advisory Committee (at least four additional members from the graduate faculty, including one from outside the department).

Members of the Advisory Committee should provide expertise in or complementary to the research area and provide guidance in the selection of course work. The student should meet with the committee yearly or as needed to discuss research and academic progress.

Following the selection of a research advisor and the Advisory Committee, the Graduate Faculty Committee Approval Form (available in the department office) must be filled out with the names and signatures of committee members and filed with the department secretary. The completed form will then be forwarded to the Graduate School for final approval.

Total Hours Required

The requirements for the Ph.D. degree are those established by the Graduate School, the Guide to Graduate Studies and the student's advisory committee. The Graduate School requires 24 semester hours prior to candidacy and 24 semester hours of dissertation credit. Of the total hours completed, at least 10 of these must be graded (A, B, C) hours.

Preliminary Examination

Preliminary examinations for doctoral students consist of a set of written exams covering the student's research area and course work, a research proposal in the area of the dissertation research project, and an oral defense of the proposal. In most cases, the written exams are taken in early August after completion of the second year of study. After passing the written exams, the student will have one month to write the research proposal. The student's Advisory Committee will evaluate the research proposal and if it is found acceptable, the oral defense of the proposal will be scheduled with the Advisory Committee. Details of the preliminary examinations are available from the Graduate Program Committee.

Dissertation

The dissertation should represent a competent piece of original research carried out on a specific physiological problem or area under the advisor's supervision. It should include an adequate review of the literature, a statement of the hypothesis, a set of experiments testing the hypothesis by whatever methods are appropriate, an analysis of the results, and an interpretation of the work and its significance. The research should be of sufficient quality and quantity to merit publications in peer-reviewed journals. Upon completion of the dissertation research, a final department seminar is presented followed by an oral examination. The examination will be conducted by the Advisory Committee and will cover the subject of the dissertation and topics related to the discipline.

Certificate in Anatomy

The purpose of the anatomy certificate is to allow graduate students to become proficient in anatomy teaching. This will allow them to compete more effectively for jobs in this field. Students are eligible for the anatomy certificate if they are in an existing anatomically-based master's or Ph.D. program (e.g.

Physiology, Anthropology, or Zoology). Additional prerequisites (e.g., embryology, basic vertebrate anatomy) are preferred. Students lacking such prerequisites will be encouraged to obtain them prior to admission into the anatomy certificate program. The Graduate Program Committee of the Department of Physiology will review all applications. In addition to graduate coursework in anatomy, students in the anatomy certificate program will obtain experience teaching gross anatomy to undergraduates and medical students. A minimum of 17-18 graduate credit hours are required for fulfillment of the certificate requirements. They are: Advanced Human Anatomy with lab, (PHSL 401A,B, 10 hours), Vertebrate Histology, (ZOO 409, 4 hours) and either Neuroanatomy, (PHSL 573, 3 hours) or Vertebrate Anatomy Lab, (ZOO 418, 3 hours). Where appropriate, these courses may also count for credit toward the master's or Ph.D. degree. The Graduate Program Committee in the Department and the student's advisory committee will make recommendations for other coursework and oversee the student's progress. In addition to graduate coursework in anatomy, students in the anatomy certificate program will obtain experience teaching gross anatomy to undergraduates and medical students. Students supported by assistantships will have the same teaching obligations as all other departmentally supported students. Students will be required to teach at least two semesters of gross anatomy assisting Physiology and Anatomy Department faculty in the Medical School.

Molecular, Cellular and Systemic Physiology Courses

PHSL401A - Adv Human Anatomy w/Lab 401A-5 Advanced Human Anatomy with Laboratory. A-B sequence. Laboratory dissection of the human body with lectures as needed. Primarily for students majoring in physiology, biological sciences, anthropology or pre-medical fields. Prerequisite: PHSL 301. Enrollment by consent of instructor. Lab fee: \$20.

PHSL401B - Adv Human Anatomy w/Lab 401B-5 Advanced Human Anatomy with Laboratory. A-B sequence. Laboratory dissection of the human body with lectures as needed. Primarily for students majoring in physiology, biological sciences, anthropology or pre-medical fields. Prerequisite: PHSL 301. Enrollment by consent of instructor. Lab fee: \$20.

PHSL420A - Principles of Pharmacology 420A-3 Principles of Pharmacology. Examines basic principles of pharmacology (pharmacokinetics) and the action of various classes of drugs on living organisms. Drug classes covered include those affecting most organ systems of the human body, such as the nervous, cardiovascular, gastrointestinal and renal systems as well as drugs used for antibiotic and cancer chemotherapy. Three lectures per week. Prerequisites: PHSL 310 or PHSL 410A,B, CHEM 340 and CHEM 341 (or equivalent) with grades of C or better.

PHSL420B - Principles of Pharmacology 420B-3 Principles of Pharmacology. Examines basic principles of pharmacology (pharmacokinetics) and the action of various classes of drugs on living organisms. Drug classes covered include those affecting most organ systems of the human body, such as the nervous, cardiovascular, gastrointestinal and renal systems as well as drugs used for antibiotic and cancer chemotherapy. Three lectures per week. Prerequisites: PHSL 310 or PHSL 410A,B, CHEM 340 and CHEM 341 (or equivalent) with grades of C or better.

PHSL426 - Comparative Endocrinology 426-3 Comparative Endocrinology. (Same as ANS 426, ZOO 426) Comparison of mechanisms influencing hormone release, hormone biosynthesis, and the effects of hormones on target tissues, including mechanisms of transport, receptor kinetics, and signal transduction. Prerequisites: PHSL 310 or ANS 331 or ZOO 220 with a grade of C. Laboratory/Field Trip fee: \$15.

PHSL430 - Cellular&Molecular Physiology 430-3 Cellular and Molecular Physiology. This course will examine the molecular and cellular aspects of physiology, with special emphasis on the experiments used to examine the regulation of gene expression, protein activities, and cellular functions in eukaryotes.

Topics include: mechanisms regulating gene expression, signaling pathways, cancer biology, and the use of experimental model organisms. Prerequisite: BIOL 211 & BIOL 213 or CHEM 350 & 351.

PHSL433 - Comparative Physiology 433-3 Comparative Animal Physiology. (Same as ZOO 433) Variations of the physiological processes in animal phyla, comparison with human physiology, and review of basic physiology principles and comparative aspects of mechanism and function. Prerequisite: BIOL 211, BIOL 212 & BIOL 213 or PHSL 310 with a grade of C or better.

PHSL440A - Biophysics 440A-3 Biophysics. Biomathematics, biomechanics and biotransport. Three lectures per week. Prerequisites: MATH 141 or 150; PHSL 310; PHYS 203 A&B and 253 A&B or PHYS 205 A&B and 255 A&B. May be taken in B,A sequence with consent of instructor.

PHSL440B - Biophysics 440B-3 Biophysics. Bioelectrics and bio-optics applied to physiological problems. Three lectures per week. Prerequisites: MATH 141 or 150; PHSL 310; PHYS 203 A&B and 253 A&B or PHYS 205 A&B and 255 A&B. May be taken in B,A sequence with consent of instructor.

PHSL450 - Advanced Human Sexuality 450-3 Advanced Human Sexuality. (Same as WGSS 449) Advanced, comprehensive course intended to supplement and expand the critical examination of topics covered in PHSL 320, Reproduction and Sexuality. The objectives of this class are to examine the physiological and behavioral basis of human reproduction and sexuality. Examining how humans reproduce from a physiological perspective including all aberrations and clinically relevant dysfunctions, as well as, the spectrum of human sexual behaviors including typical and atypical sexual behavior, paraphilias and diversity of human relationships. Prerequisite: PHSL 320.

PHSL460 - Electron Microscopy 460-2 Electron Microscopy. Lecture course designed to introduce the student to the theory and principles of electron microscopy. Two lecture hours per week. Restricted to senior standing or permission of instructor.

PHSL462 - Biomedical Instrumentation 462-3 Biomedical Instrumentation. Diagnostic and therapeutic modalities related to engineering. Cardiovascular, neural, sensory and respiratory instrumentation. Special approval needed from the instructor.

PHSL470 - Biological Clocks 470-3 Biological Clocks. Study of the temporal aspects of diverse physiological and behavioral functions which possess diurnal and seasonal periodicity. Species covered will include many eukaryotic organisms including plants, but will mainly stress mammals. Oscillations in sleep-wake cycle, locomotion, reproduction, hormonal secretion and numerous other processes will be explored. In addition, the effects of biological clocks in humans and the effect of jet lag and depression will be examined. Prerequisite: PHSL 310.

PHSL480 - Cancer Journal Club 480-1 to 3 Cancer Journal Club. Goal of the journal club is to discuss current primary journal articles about cancer, often with an emphasis on ovarian cancer. Each semester a theme is selected to guide selection of articles. Grade is based on: 1) presentation; 2) participation; 3) short essay on each journal article that is discussed. Each student presents at least one journal article per semester and is expected to participate in the discussion of each paper that is presented. Faculty and graduate students also present articles for discussion to provide examples of how to read and discuss primary scientific literature. Student will, with instructor approval, choose either 1 cr/hr for a research paper component for which they write a 10 page research paper reviewing current literature related to the journal club's theme for the semester or a different cancer theme as determined by the instructor, or select 2 cr/hrs for journal club participation as outlined above, or 3 cr/hrs for completing both course components. Prerequisite: PHSL 310 with a B or better or concurrent enrollment.

PHSL500 - Advanced Seminar in Phsl 500-1 to 6 (1 per semester) Advanced Seminar in Physiology. Presentation of research and current literature in physiology. Required of all graduate students in physiology. Graded S/U only.

PHSL501 - Presentation Physiolgcal Data 501-1 Presentation of Physiological Data. Research areas and special topics requisite for conducting scientific research will be presented. Students will learn how to organize a talk on experimental findings in physiology, prepare slides, and communicate effectively in an oral presentation format. Graded S/U only.

PHSL510 - Experimental Methods 510-3 Experimental Methods in Physiology. The main objectives of this course are to acquaint the student with the techniques and the equipment used in modern research laboratories and to provide instruction in the principles and practice of scientific experimentation. Restricted to Physiology (MCSP) graduate students only.

PHSL511A - Adv Mammalian Physiology 511A-1 to 5 Advanced Mammalian Physiology. Physical and chemical organization and function in mammals, with emphasis on the human. Physiology of blood and circulation, respiration, digestion, metabolism, excretion, endocrines, sensory organs, nervous system, muscle and reproduction. Four lectures and one seminar per week. Seminar will consist of primary literature discussion and student presentation on areas covered in lecture. Principal lecturer for each of the area topics will lead discussion and assign the primary literature. May be taken in any sequence. Restricted to consent of department. Special approval needed from the instructor.

PHSL511B - Adv Mammalian Physiology 511B-1 to 5 Advanced Mammalian Physiology. Physical and chemical organization and function in mammals, with emphasis on the human. Physiology of blood and circulation, respiration, digestion, metabolism, excretion, endocrines, sensory organs, nervous system, muscle and reproduction. Four lectures and one seminar per week. Seminar will consist of primary literature discussion and student presentation on areas covered in lecture. Principal lecturer for each of the area topics will lead discussion and assign the primary literature. May be taken in any sequence. Restricted to consent of department. Special approval needed from the instructor.

PHSL512 - Teaching Methods 512-2 Teaching Methods and Strategies. This online course is designed to introduce instructional theories and methods to students interested in teaching in the Life Sciences. It will provide coverage of methods of classroom instruction, management and assessment. The methodology of the course will include projects on lesson construction, online discussion boards of readings, and quizzes. Students should finish the course prepared to be competent in up-to-date methodology and strategies in critical teaching practices.

PHSL520 - Reproduct Function/Sex Behav 520-4 Reproductive Function and Sexual Behavior. Advanced, comprehensive course examining the physiological and behavioral basis of human reproduction and sexuality. Topics include physiology and pathophysiology of the human reproductive system and normal and atypical sexual behavior. Course topics will include didactic presentations and problem-based lab discussions selected by the students selected from lecture or related topics. The class will meet three times weekly for didactic presentations and once a week for a three hour extensive discussion and presentation utilizing self-directed learning strategies and knowledge in a problem-based format, similar to that used in the medical school curricula. Special approval needed from the instructor.

PHSL530 - Advanced Cell Physiology 530-3 Advanced Cellular and Molecular Physiology. This course will examine the molecular and cellular aspects of mammalian physiology using the primary literature as the source of topics for oral presentations and discussions. Special approval needed from the instructor.

PHSL531 - Adv Cellular Phsl Lab 531-2 Advanced Cellular Physiology Laboratory. One one-hour lecture and one three-hour laboratory per week, designed to be taken concurrently with PHSL 530. Basic experimental procedures used in studies in cellular physiology.

PHSL533 - Adv Comparative Physiology 533-4 Advanced Comparative Physiology. Advanced concepts and techniques used in current studies in comparative physiology. Three lectures and one discussion period per week.

PHSL540 - Advanced Biophysics 540-3 Advanced Biophysics. Survey of recent biophysical research with emphasis on historical development of current advances. Three lectures per week. Prerequisite: PHSL 440 or its equivalent.

PHSL570A - Biological Structure 570A-3 Advanced Physiological Topics-Biological Structure. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570B - Cardiovascular Physiology 570B-3 Advanced Physiological Topics-Cardiovascular Physiology. Studies of current research and literature in various topic areas of physiology. One or more

of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570C - Respiratory Physiology 570C-3 Advanced Physiological Topics-Respiratory Physiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570D - Nerve-Muscle Physiology 570D-3 Advanced Physiological Topics-Nerve-Muscle Physiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570E - Metabolism 570E-3 Advanced Physiological Topics-Metabolism. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570F - Gastrointestinal Physiology 570F-3 Advanced Physiological Topics-Gastrointestinal Physiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570G - Neurophysiology 570G-3 Advanced Physiological Topics-Neurophysiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570H - Radiation Biology Physiology 570H-3 Advanced Physiological Topics-Radiation Physiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570I - Environmental Physiology 570I-3 Advanced Physiological Topics-Environmental Physiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570J - Biomathematics 570J-3 Advanced Physiological Topics-Biomathematics. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570K - Biomedical Computing 570K-3 Advanced Physiological Topics-Biomedical Computing. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570L - Endocrinology 570L-3 Advanced Physiological Topics-Endocrinology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570M - Animal Care 570M-3 Advanced Physiological Topics-Animal Care. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570N - Biophysics 570N-3 Advanced Physiological Topics-Biophysics. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570O - Pharmacology 570O-3 Advanced Physiological Topics-Pharmacology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570P - Special Topics 570P-3 Advanced Physiological Topics-Special Topics. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570Q - Reproductive Physiology 570Q-3 Advanced Physiological Topics-Reproductive Physiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL570R - Renal Physiology 570R-3 Advanced Physiological Topics-Renal Physiology. Studies of current research and literature in various topic areas of physiology. One or more of the following list of topic sections will be offered each semester, so that each section will be available once every two or three years.

PHSL571 - Res/Probs:Electron Microscopy 571-3 Research and Problems in Biological Transmission Electron Microscopy (TEM). Laboratory course designed to provide experience in techniques for biological electron microscopy. Student, with the aid of the instructor, designs and carries out a project in transmission electron microscopy. Two three-hour laboratories per week. Prerequisite: PHSL 460 or special permission of instructor.

PHSL573 - Neuroanatomy 573-3 Neuroanatomy. A detailed survey of human neuroanatomy. The course will include radiographic, cross-sectional and developmental anatomy of the nervous system. Dissection of the human brain will occur in general laboratory sessions. Three lectures per week.

PHSL574 - Neuropharmacology PHSL 574-3 Neuropharmacology. (Same as PHRM 574) A detailed examination of the biochemical aspects of neuropharmacology with emphasis on neurotransmitters - their synthesis, storage, release and metabolism in the central and peripheral nervous system. Considerable emphasis is placed on major health research developments (both past and present) that influence how one studies the action of drugs on the nervous system. Prerequisites: PHSL 410A/B, and CHEM 350.

PHSL575 - Neuroendocrinology 575-3 Neuroendocrinology. Designed to investigate and discuss the current research and historical aspects of the field of neuroendocrinology. In addition, designed to have students examine and evaluate current literature in the field and through discussion have them present their analysis of the research. One hour of lecture, one hour of discussion of textual material, one hour of multiple reports on library research. Prerequisite: PHSL 410A, B or equivalent, or an undergraduate/graduate endocrinology course, or consent of instructor.

PHSL581A - Medical Educ Multimedia 581A-3 Multimedia in Medical Education. Students will participate in the daily discussions of a medical education multimedia corporation. Emphasis will be on process and instructional design. Students will be supervised by team members in the production of commercial educational packages. Skills to be acquired include the ability to digitize images and sound, and to create a Power Point presentation on a topic of the student's choice.

PHSL581B - Adv Medical Ed Multimedia 581B-6 Advanced Multimedia in Medical Education. Intended to be a "hands on" course which contributes significantly to the development of multimedia teaching materials for medical education. Students will be assigned to a project as part of a development team. Under supervision of the team leader, they will assist in software design, material preparation and assembly. Prerequisite: PHSL 581A.

PHSL582 - Clinical Appl/Radiology 582-3 Clinical Application/Radiology. The study of human anatomy through imaging techniques such as standard x-rays, computer assisted tomography (CT) and magnetic resonance imaging (MRI). The course will include individualized work with clinical specialists in a hospital setting for 1/2 day per week with times to be arranged. Restricted to graduate status, acceptance into anatomy certificate program. Graded S/U.

PHSL590 - Readings or Research Cur Topics 590-1 to 4 Readings or Research in Current Physiological Topics. By special arrangement with the instructor with whom the student wishes to work. Graded S/U only.

PHSL598 - Research 598-1 to 48 (1 to 12 per semester) Research. The credit hours selected for this course registration will be determined by the major professor of the student. In a typical semester no more than six hours will be taken by a student except under special circumstances. Graded S/U only. Special approval needed from the instructor.

PHSL599 - Thesis Research 599-1 to 6 Thesis Research. Research for thesis for Master's degree.

PHSL600 - Dissertation 600-1 to 32 (1 to 16 per semester) Dissertation Research. Research for dissertation for Ph.D. degree.

PHSL601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

PHSL699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Molecular, Cellular and Systemic Physiology Faculty

Yau, William M., Professor, *Emeritus*, Ph.D., Medical College of Virginia, 1971, 1973.

Zheng, Zhengui (Patrick), Assistant Professor, Ph.D., Shanghai University of Traditional Chinese Medicine, 1997; 2014. Developmental and molecular basis of sexual differentiation during vertebrate organogenesis.

Music

The Graduate Faculty in the School of Music is made up of accomplished performers, composers, and scholars with a deep concern for preparing their Master of Music students for future success. In addition to their many professional activities – both nationally and internationally, they present many recitals, lectures, and workshops for the University community on the SIU campus. Please visit the SIU [School of Music](#) website and the SIU [Graduate School](#) website for more information.

Master of Music - 7 concentrations

- Performance (for emphases see list below)
- Music Theory and Composition
- Music History and Literature
- Music Education
- Opera/Music Theater

- Piano Education Arts
- Collaborative Piano

Performance Emphases:

- Orchestral Instruments
- Piano
- Vocal
- Guitar
- Orchestral Conducting
- Wind Conducting
- Choral Conducting

Performing Ensembles

The strength of the SIU School of Music is the abundance of performing opportunities available to its students. There are vast performing opportunities for all Master of Music performers and composers, often working side by side with their mentors.

Ensembles include: Southern Illinois Symphony Orchestra, SIU Wind Ensemble and Symphonic Band, SIU Concert Choir, Chamber Choir, and Choral Union, SIU Jazz Ensemble, Marjorie Lawrence Opera Theater, SIU Guitar Ensemble, Southern Illinois Improvisation Unit, SIU Percussion Ensemble, SIU Flute Choir, SIU Clarinet Choir, and Marching Salukis. Other ensembles include: SIU Graduate String Quartet, Altgeld Chamber Players, Southern Illinois Jazztet, Southern Illinois Chamber Music Society, and New Chicago Chamber Orchestra. Throughout the year there are hundreds of concerts, recitals, operas, musicals, and emerging composer recitals.

Graduate students in residence must participate in an ensemble, as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist, every semester in residence. In addition, students may elect participation in other regularly scheduled ensembles.

School of Music Resources

The newly renovated Morris Library is a fully functional and impressively equipped research center.

The School of Music is a three building complex including Shryock Auditorium, the Old Baptist Foundation Recital Hall, and Altgeld Hall, a replica of King Ludwig's Bavarian castle! Facilities include:

- Rehearsal spaces for large ensembles, choral, jazz, music theater, and chamber music, which often serve as alternate performance spaces;
 - Practice rooms, including rooms for piano majors and three practice organs: a four-rank Ott tracker organ, a six-rank Moeller, and a four-rank Wicks;
 - Computer/Listening Lab – available for all music students;
 - Recording facilities for live concert recordings as well as professional studio recordings;
 - The Center for Experimental Music (CEM), a computer composition laboratory for all aspects of electro-acoustic music production, available for composition students.
- Also part of the School of Music complex of buildings are:
- Shryock Auditorium: the primary concert space for orchestra, opera, band, and choral concerts, located adjacent to the School of Music; it houses a fifty-eight rank Reuter pipe organ, the principal instrument for recitals and teaching, which is installed in Shryock Auditorium;
 - Old Baptist Foundation Recital Hall: a small chamber music space for more intimate recitals.

Application for Admission

Students interested in pursuing the Master of Music should apply for admission through the SIU [Graduate School application website](#).

The online application system includes a separate School of Music application. All applicants must complete both applications in order to be considered for graduate work at SIU. The music application is sent directly to the Director of Graduate Studies in Music:

Director of Graduate Studies in Music
School of Music

Altgeld Hall - Mail Code 4302
Southern Illinois University
1000 S Normal Ave
Carbondale, IL 62901

In addition to the application materials above, International students require additional documents including financial disclosure form, a photocopy of undergraduate diploma, and other materials for attaining a student VISA. Non-English speaking students must also submit a recent TOEFL score.

All forms are provided and explained on the Graduate School application website. Further clarification or additional questions regarding the entire application process may be answered by writing to: gradmus@siu.edu.

Auditioning Process

Each applicant must be assessed by members of the School of Music faculty in order to be accepted into his/her specific discipline. Performers must audition either in person or recording; composers should submit scores and recordings of their compositions; scholars should submit examples of their researched writing. More information can be found on the School of Music website: cola.siu.edu/music/.

In order to set up an audition, make contact with the specific faculty member in your area, as found on the School of Music website. You are also encouraged to contact that performer, composer, or scholar, as well as the Director of Graduate Studies in Music, at any time, before or during the application process, if you have area specific questions or concerns.

Assistantships, Fellowships, and Tuition Waivers

There are a number of opportunities for graduate students to receive financial assistance with their degree.

Students should apply for Master-level fellowships by sending the appropriate application (found on the SIU Graduate School website) and supporting documentation directly to the Director of Graduate Studies in Music. The annual deadline for receipt of this material is January 1st.

Graduate Assistantships offer students a complete tuition waiver plus a monthly stipend in turn for teaching and/or research assistance in the School of Music. The application is included as part of the specific School of Music application, completed with the SIU Graduate School application. However, the deadline for primary consideration for a GA is February 15th.

There are several additional types of financial assistance available including PROMPT Fellowships, tuition waivers, Excellence Through Commitment Graduate School Scholarships, etc. Information about cost and financial help can be found at: gradschool.siu.edu/cost-aid.

Additional aid for Master of Music students includes scholarships for string students, given annually by the Southern Illinois Chamber Music Society, and three annual competitions for composition students, the Carl Deis Prize, the Southern Illinois Symphony Orchestra Composition Competition, and the Mykytyn Distinguished Composition Award.

Screening Exams

All incoming students must take screening examinations in Aural Skills, Music Theory, Music History pre-1750, and Music History post-1750. These exams are available for online administration and should be taken as soon as possible after being notified of your acceptance into the program, but before arriving on campus to begin your degree. Students in collaborative piano-vocal accompanying emphasis, opera/musical theater, and performance- vocal emphasis are required to take additional screening examinations in French diction, Italian diction, German diction, and IPA diction. Students in collaborative piano-instrumental accompanying emphasis are strongly encouraged to take the additional screening examinations in diction. These examinations are administered on or before the first day of classes. Incoming students found deficient in certain areas will be assigned remedial coursework- MUS 399 A-K Graduate Music Review in aural skills, music theory, music history, diction, or other pertinent areas. All deficiencies must be corrected by taking the appropriate sections of MUS 399 BEFORE registering for graduate-level courses in those areas, and it is mandatory to take care of all deficiencies during their first year of the MM program. For each assigned section of Graduate Music Review, the minimum grade to

fulfill the deficiency is *B* or better, with the exception of Graduate Ear Training which requires a grade of *C* or better.

Master of Music Curriculum

The curriculum for each MM concentration is slightly different, appropriately focusing on specific aspects of training. Current MM students should follow the curricular guides found below for their specific MM concentration. These guides are also found on the School of Music Website. Any deviations from this should be discussed with your major professor, and then proposed to the School of Music Graduate Committee.

Graduate students self-register each semester, on the SIU website: gradschool.siu.edu/registration.

Each student should regularly meet with both their major professor and the Director of Graduate Studies in Music to ensure that they are fulfilling all the curricular responsibilities of their specific concentration.

Note: Only courses at the 400- and 500-level count toward the total hour count to complete the curriculum for the Master of Music degree. At least 18 of the total credit hours must be at the 500 or above level.

Performance:

Performance Emphasis - Orchestral Instruments

Course Number	Credit Hours
MUS 501	3
MUS 502A or MUS 502B	2
MUS 440 A-Y (as determined by audition, maximum of 3 hours allowed at 440 level)	0-3
MUS 540 A-Y	6-9

Creation of the Graduate Faculty Committee

In the Fall of the second year, each student should formally create their Graduate Faculty Committee. Although the three members of this committee are the student's choice, they must be SIU faculty with whom the student has had academic contact, and they must agree to serve on this important committee. The student must complete and submit the Graduate Faculty Committee Form, signed by the student's choice for Chair of this committee, to the Director of Graduate Studies.

Master of Music Thesis Requirements

Each of the various concentrations of the MM degree have slightly different thesis requirements, chosen from the following, separately or in combination:

- MUS 599: A major written thesis on a topic proposed to and approved by the School of Music Graduate Committee.
Composers write a major composition under direction of the student's Graduate Faculty committee.
- MUS 598: A graduate recital under approval and direction of the student's recital jury, this may be performing, conducting, or directing.
Collaborative Piano students perform three recitals as per the curriculum above.
- MUS 595: A written research paper under the direction of the student's Graduate Faculty Committee. Performers write extended program notes to accompany their graduate recital; Composers write extended notes to accompany their major composition thesis.

Research Papers and Theses (including compositions) must be submitted (UPLOADED) to the SIU Graduate School on or before their posted deadline. For more information, visit: gradschool.siu.edu/current-students/thesis-dissertation-researchpaper.

Final Comprehensive Examinations

Final examinations are created and administered individually by each student's Graduate Faculty Committee, during the student's final semester, prior to the SIU Graduate School's deadline. The exams are in two parts:

- (1) an extended written exam, essay style; and
- (2) a one hour oral exam with the student's Graduate Faculty Committee.

Chronology and Forms

In addition to meeting regularly with the Director of Graduate Studies in Music, students can learn about all expectations in regard to their degree program by reading the "Chronology of Master of Music Procedures" found on the School of Music website. This document contains links to all the necessary forms that are to be submitted during their degree. Links to these forms can be found at: gradschool.siu.edu/about-us/forms.

Music Courses

MUS400 - Performance Techniques 400-1 (1,1) Performance Techniques. Individual instruction in any secondary applied field. Designed to provide added depth of preparation for teaching instrumental and vocal music. Restricted to graduate music major or consent of instructor. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS401 - Opera Workshop 401-1 to 12 (1 to 2 per semester) Opera Workshop. Open to all appropriately experienced singers, actors, dancers, instrumentalists and theater technicians. Study of opera/opera repertoire and performance techniques. Special approval needed from the instructor.

MUS402 - Musical Theater Workshop 402-1 to 12 (1 to 2 per semester) Musical Theater Workshop. Open to all appropriately experienced actors, singers, dancers, instrumentalists and theater technicians. Study of musical theater/musical revue repertoire and performance techniques. Special approval needed from the instructor.

MUS403 - Lyric Theater Ensemble 403-1 to 16 (1 to 2 per semester) Lyric Theater Ensemble. A select group which performs operatic or musical theater literature, usually in the form of a fully mounted production each semester. May be repeated for credit. Prerequisite: audition or consent of instructor. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS406 - Electronic Composition 406-2 Electronic Composition and Sound Synthesis. Principles of acoustics, parameters of music/sound, basic sound synthesis, wave forms and manipulation of wave forms, digital audio and digital audio platforms, audio recording/engineering, microphone types/use, utilizing sample libraries, mixing, and basic mastering. Restricted to junior standing.

MUS407 - Modal Counterpoint 407-2 Modal Counterpoint. Study of Renaissance contrapuntal techniques. Extensive writing practice, and analysis of stylistic models. Prerequisite: MUS 308 with a C or better.

MUS410A - Piano Pedagogy Practicum 410A-2 Piano Pedagogy Practicum. Provides undergraduate and graduate piano pedagogy majors with the opportunity for supervised practice piano teaching. Course activities include lesson-planning, conducting and evaluating studio piano and class piano lessons, and a survey of important educational issues that impact on effective piano teaching. Special approval needed from the instructor.

MUS410B - Piano Pedagogy Practicum 410B-2 Piano Pedagogy Practicum. Provides undergraduate and graduate piano pedagogy majors with the opportunity for supervised practice piano teaching. Course activities include lesson-planning, conducting and evaluating studio piano and class piano lessons, and a

survey of important educational issues that impact on effective piano teaching. Special approval needed from the instructor.

MUS420 - Instrument Repair 420-1 to 2 (1,1) Instrument Repair. A shop-laboratory course dealing with the selection, tuning, adjustment, maintenance, and repair of musical instruments. Prerequisite: two semesters of instrumental techniques courses or consent of instructor.

MUS421 - Advanced Analysis 421-2 Advanced Analysis. Structure, form, and design in music as the coherent organization of all of its factors. Analysis of works chosen from a variety of styles and genres. Prerequisite: MUS 321 with a C or better.

MUS430A - Jazz Arranging I 430A-2 Jazz Arranging I. Step-by-step approach to jazz arranging and techniques from lead sheet construction through full big band arrangements. Students will write and arrange for combos, trombone section and rhythm, saxophone section and rhythm, and full big band with all projects to be played by student ensembles. Special approval needed from the instructor.

MUS430B - Jazz Arranging II 430B-2 Jazz Arranging II. Step-by-step approach to jazz arranging and techniques from lead sheet construction through full big band arrangements. Students will write and arrange for combos, trombone section and rhythm, saxophone section and rhythm, and full big band with all projects to be played by student ensembles. Prerequisite: MUS 430A with a C or higher.

MUS440A - Applied Music-Flute 440A-1 to 3 Applied Music-Flute. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440B - Applied Music-Oboe 440B-1 to 3 Applied Music-Oboe. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440C - Applied Music-Clarinet 440C-1 to 3 Applied Music-Clarinet. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440D - Applied Music-Bassoon 440D-1 to 3 Applied Music-Bassoon. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440E - Applied Music-Saxophone 440E-1 to 3 Applied Music-Saxophone. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be

concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440F - Applied Music-Horn 440F-1 to 3 Applied Music-Horn. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440G - Applied Music-Trumpet 440G-1 to 3 Applied Music-Trumpet. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440H - Applied Music-Trombone 440H-1 to 3 Applied Music-Trombone. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440I - Applied Music-Euphonium 440I-1 to 3 Applied Music-Euphonium. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440J - Applied Music-Tuba 440J-1 to 3 Applied Music-Tuba. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440K - Applied Music-Percussion 440K-1 to 3 Applied Music-Percussion. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440L - Applied Music-Violin 440L-1 to 3 Applied Music-Violin. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2

credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440M - Applied Music-Viola 440M-1 to 3 Applied Music-Viola. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440N - Applied Music-Cello 440N-1 to 3 Applied Music-Cello. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440O - Applied Music-Double Bass 440O-1 to 3 Applied Music-Double Bass. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440P - Applied Music-Voice 440P-1 to 3 Applied Music-Voice. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440Q - Applied Music-Piano 440Q-1 to 3 Applied Music-Piano. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440R - Applied Music-Organ 440R-1 to 3 Applied Music-Organ. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440S - Applied Mus-Harpsichord 440S-1 to 3 Applied Music-Harpsichord. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440T - Applied Music-Guitar 440T-1 to 3 Applied Music-Guitar. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440U - Applied Music-Recorder 440U-1 to 3 Applied Music-Recorder. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440V - Applied Music-Coaching 440V-1 to 3 Applied Music-Coaching. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440W - Applied Music-Conducting 440W-1 to 3 Applied Music-Conducting. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440X - Appl Music-Mus Theater Voice 440X-1 to 3 Applied Music-Musical Theater Voice. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Not available outside Music Theater degree. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS440Y - Appl Music-Collaborative Piano 440Y-1 to 3 Applied Music-Collaborative Piano. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Undergraduate students must be concurrently enrolled in one of the major ensembles. Graduate students must be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular

guide and appropriate degree requirement checklist. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS450 - Topics in Ethnomusicology 450-3 Topics in Ethnomusicology. Courses in this series are designed for advanced undergraduate and graduate students in music and related disciplines to the issues, theories, and interdisciplinary research methodologies of ethnomusicology. Restricted to junior/senior/graduate status.

MUS450A - Women in Music 450A-3 Women in Music. (Same as WGSS 450A) Explores the creative contributions of women in music, examining women's participation across a range of genres, cultural/geographic areas, and time periods. Restricted to junior/senior/graduate music major or consent of instructor.

MUS450B - Music and Social Change 450B-3 Music and Social Change. Examines music as a force in movements for social change as well as music outside of formally identified movements serving this purpose. Seeks out musical sources and cultural meanings, along with connections between music in movements across time, space, culture, and genre. Restricted to junior/senior/graduate music major or consent of instructor.

MUS450C - Ethnomusic Sound Healing 450C-3 Ethnomusicology: Sound Healing. Interdisciplinary exploration of the physical properties, physiological effects, and integrative possibilities of sound/music to empower, transform, and heal mind-body-spirit individually and in community. Restricted to junior/senior/graduate or consent of instructor.

MUS450D - Ethnomusic Healing & Creative 450D-3 Ethnomusicology: Healing and the Creative Process. Explores the healing potential embodied in the process of creating across a range of different contexts & media, drawing on research from interdisciplinary fields. Restricted to junior/senior/graduate or consent of instructor.

MUS452A - Traditions Uppity Women Blues 452A-3 Traditions of Uppity Women's Blues. (Same as AFR 452A and WGSS 452A) Examines the tradition of "uppity" women's blues from the so-called "classic" blues singers of the 19th century (Gertrude "Ma" Rainey, Bessie Smith, Ida Cox, etc.) to the contemporary blues of Saffire, Denise LaSalle and others. Explores ways blues women challenge conventions of gender and sexuality, racism, sexism, classism and homophobia. Restricted to upper level music major. Special approval needed from the department.

MUS452B - Blues/Boogie Woogie Piano Styl 452B-3 Blues and Boogie Woogie Piano Styles. (Same as AFR 452B) Traces the history, culture, and stylistic developments of blues and boogie woogie piano. Explores socio-cultural contexts and examines key players, pieces, and musical styles. Restricted to upper level music major. Special approval needed from the department.

MUS453 - Advanced Topics-Choral Music 453-2 to 4 (2 per semester) Advanced Topics in Choral Music. Practicum in the selection, rehearsal, and performance of appropriate literature. Study of techniques for achieving proficient performance and musical growth. For experienced teachers and advanced students.

MUS454 - Advanced Topics-Instrumental 454-2 to 4 (2 per semester) Advanced Topics in Instrumental Music. Practicum in the selection, rehearsal, and performance of appropriate literature. Study of techniques for achieving proficient performance and musical growth. Designed for experienced teachers and advanced students.

MUS455 - Adv Topics-Elem School Music 455-2 to 4 (2 per semester) Advanced Topics in Elementary School Music. Practicum in the selection and use of materials for the elementary school program. Study of techniques for achieving balanced musical growth. For experienced teachers and advanced students.

MUS456A - Music for Exceptional Child I 456A-2 Music for Exceptional Children. Theories and techniques for therapeutic and recreational use of music with physically and mentally handicapped children. Includes keyboard, autoharp, guitar, and tuned and untuned classroom instruments. Take in sequence.

MUS456B - Music for Exceptional Child II 456B-2 Music for Exceptional Children. Applications for the gifted, emotionally disturbed, and culturally disadvantaged child. Take in sequence. Prerequisite: MUS 456A.

MUS457 - Conducting MS/HS Band 457-2 Conducting the Middle/High School Band. This course is designed to further develop the skills learned in Introduction to Conducting and Advanced Conducting. Emphasis will be placed on advanced conducting techniques and score study. Topics will include middle/high school band literature, error detection, rehearsal planning, and teaching techniques. Prerequisites: MUS 316, MUS 317, and/or MUS 318.

MUS458 - Survey of Wind Literature 458-2 Survey of Wind Literature. The study of wind literature from its beginning in the music of Gabrieli through the classical wind serenades of Mozart to the composers of today. The course will include music written for wind chamber groups, as well as music for wind ensemble and the traditional concert band. Restricted to junior/senior/graduate music major or consent of instructor.

MUS461 - Applied Music Pedagogy 461-3 Applied Music Pedagogy. Specialized problems and techniques employed in studio teaching of any particular field of music performance. Study of music literature appropriate for the various levels of performance. Opportunity, as feasible, for supervised instruction of pupils. Meets with appropriate instructor, individually or in groups. Special approval needed from the instructor.

MUS470 - History of Opera 470-3 History of Opera. The development of the music, libretti and staging of opera from the late Renaissance to the present. Prerequisite: MUS 357B, or consent of instructor.

MUS471 - History of Musical Theater 471-3 History of Musical Theater. The development of the music, book, lyrics and staging practices of musical theater from its late 19th Century beginnings to present, with a detailed study of selected contributors and their works. Satisfies the College of Liberal Arts Writing-Across-the-Curriculum music major requirement. Restricted to BFA or MM Opera/Musical Theater majors only, or consent of instructor.

MUS472 - Chamber Music Literature 472-3 Chamber Music Literature. A study of literature for the principal types of chamber music groups. Special approval needed from the instructor.

MUS474 - Survey of Jazz History 474-3 Survey of Jazz History. In-depth study of the history of jazz through examination of historical lineage and perspective, recorded output and important stylistic characteristics of each major period. Biographical backgrounds of major composers and performers will be considered as they contribute to the evolution of musical styles. Prerequisite: none.

MUS475 - Baroque Music 475-3 Baroque Music. The development of vocal and instrumental music in the period 1600-1750, from Monteverdi to Bach and Handel. Oratorio and Cantata, the influence of opera, sonata, suite, and concerto. Prerequisite: MUS 357A with a grade of C or better, or graduate standing.

MUS476 - Classical Music 476-3 Classical Music. Development of the sonata, symphony, concerto, and chamber music in the 18th and early 19th centuries, with emphasis on the music of Haydn, Mozart, and Beethoven. Prerequisite: MUS 357B with a grade of C or better, or graduate standing.

MUS477 - Romantic Music 477-3 Romantic Music. Development of the symphony and sonata forms, chamber music, and vocal music in the 19th and early 20th centuries. Rise of nationalism and impressionism. Prerequisite: MUS 357B with a grade of C or better, or graduate standing.

MUS478A - Modern Music I 478A-3 Modern Music I. Examine important works and figures from Western Music in the first half of the 20th Century. Topics included will be Atonality, Serialism, Impressionism, Expressionism, Nationalism, Ballet and Theater Music, Neo-Classicism, Experimentalism, and Jazz. A strong emphasis will be placed on the social and political context in which the music was created. Prerequisite: MUS 357B with a grade of C or better, or graduate standing.

MUS478B - Modern Music II 478B-3 Modern Music II. Examine important works and figures from Western Music in the second half of the 20th Century. Included will be atonality, serialism, avant-garde, minimalism, electronic music, experimental instruments and indeterminacy. Emphasis placed on the social, economic and political context. Students will examine the compositional philosophies and techniques of the era. Prerequisite: MUS 357B with a grade of C or better, or graduate standing.

MUS479A - Solo Performance Lit-Piano 479A-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (A) Piano Literature I, including an introductory study of harpsichord music. Special approval needed from the instructor.

MUS479B - Solo Performance Lit-Organ 479B-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (B) Organ Literature, in relation to the history of the instrument. Special approval needed from the instructor.

MUS479C - Solo Performance Lit-Art Song 479C-2 to 6 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (C) Art Song-topics to rotate over a 3-year sequence; may be repeated for up to 6 credit hours. Special approval needed from the instructor.

MUS479D - Solo Perform Lit-Guitar/Lute 479D-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (D) Guitar and Lute Literature. Special approval needed from the instructor.

MUS479E - Solo Perform-Solo String Lit 479E-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (E) Solo String Literature. Special approval needed from the instructor.

MUS479F - Solo Performance Lit-Solo Wind 479F-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (F) Solo Wind Literature. Special approval needed from the instructor.

MUS479G - Solo Perform-Percussion Lit 479G-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (G) Percussion Literature. Special approval needed from the instructor.

MUS479I - Solo Perform Lit-Piano Lit II 479I-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (I) Piano Literature II. Special approval needed from the instructor.

MUS479J - Solo Perf Lit-Instr Lit Pianst 479J-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (J) Instrumental Sonata Literature for Pianists. Special approval needed from the instructor.

MUS479K - Solo Perf Lit-Piano Cham Music 479K-2 to 8 (2 per topic) Solo Performance Literature. Topics presented will depend upon the needs of students and instructors schedules. (K) Piano Chamber Music Literature. Special approval needed from the instructor.

MUS480 - Advanced Composition 480-2 to 4 (2,2) Advanced Composition. Original composition involving the larger media. Individual instruction. Prerequisite: two semesters of MUS 380 with a grade of C or better and approval of composition jury. Undergraduate students limited to 2 credit hours per semester. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS481 - Special Topics Music Theory 481-1 to 4 Special Topics in Music Theory and Composition. An advanced seminar exploring specialized areas in music theory and composition. An emphasis on current trends, composing, score study, and analysis. Prerequisite: MUS 321 and MUS 322 or prior consent of instructor.

MUS482 - Readings Music Hist & Lit 482-1 to 4 Readings in Music History and Literature. Assigned readings and reporting of materials pertaining to a particular phase of history or literature. Approximately three hours preparation per week per credit. Prerequisite: MUS 357A and B, or prior consent of instructor.

MUS483 - Readings in Music Education 483-1 to 4 Readings in Music Education. Assigned readings and reporting of materials pertaining to a particular phase of music education. Approximately three hours preparation per week per credit (adjusted for shorter sessions). Special approval needed from the instructor.

MUS484 - Trends in Music Education 484-3 Trends in Music Education. Evolving issues important to the music educator.

MUS498 - Recital 498-2 to 3 Recital. Preparation and presentation of a full solo recital in any applied field. Recital should contain approximately 50 minutes of music. Prerequisite: prior or concurrent registration in MUS 440 and approval of applied jury.

MUS499 - Independent Study 499-1 to 8 Independent Study. Original investigation of selected problems in music and music education with faculty guidance. Project planned to occupy approximately three hours preparation per week per credit (adjusted for shorter sessions). Not more than three hours toward 36 required for graduate degree. Special approval needed from the selected instructor.

MUS500 - Independent Investigation 500-1 to 6 Independent Investigation. An opportunity for the graduate student to investigate at an advanced level special interests outside the scope of normal course offerings. The student will select a member of the graduate faculty to guide and evaluate the work. Not more than three hours toward 36 required for graduate degree. Special approval needed from the selected instructor and student's graduate advisor.

MUS501 - Music Bibliography & Research 501-3 Music Bibliography and Research. Bibliographic materials for graduate study in music theory, history, education, and music performance. Practical experience in research techniques and scholarly writing style. Recommended to be taken during the first semester of graduate study. Required of all degree programs.

MUS502A - Analytic Techniques A 502A-2 Analytic Techniques A. Study of the analytic techniques of Heinrich Schenker through analysis of representative works from the common practice period. Prerequisite: MUS 321 and/or consent of instructor. Restricted to graduate standing in music.

MUS502B - Analytic Techniques B 502B-2 Analytic Techniques B. Study of post-tonal music theories-including Allen Forte's pitch-class set theory and twelve-tone theory-through analysis of representative 20th and 21st century works. Prerequisite: MUS 322 and/or consent of instructor. Restricted to graduate standing in music.

MUS503 - Sci Eval & Res in Music 503-3 Scientific Evaluation and Research in Music. Quantified research concepts and vocabulary; measurement theory and techniques for evaluating and testing musical aptitude and achievement; investigation of acoustical perception; survey of current scientific research in music. A research project is required.

MUS509 - Hist & Phil of Music Educ 509-3 History and Philosophy of Music Education. The evolution of school music and its changing relationship to the individual, to society, and to the school curriculum.

MUS510A - Sem-Piano Pedagogy Tech 510A-3 Piano Pedagogy Seminar-Piano Technique. Provides an in-depth study of the three classic texts on the subject of piano technique and prepares students to deal with important aspects of piano technique in piano teaching.

MUS510B - Sem-Piano Pedagogy Lit 510B-3 Piano Pedagogy Seminars-Piano Literature. An extensive survey of baroque, classical, romantic and contemporary piano literature designed specifically to meet the needs of those pursuing professional careers as piano teachers.

MUS510C - Sem-Piano Pedagogy Analysis 510C-3 Piano Pedagogy Seminars-Piano Music Analysis. Details the analytic and problem-solving techniques of piano performance study that are fundamental for teaching piano students of all ages and abilities.

MUS535 - Contemporary Idioms 535-2 Contemporary Idioms. An analysis of major compositional techniques since 1945. Prerequisite: MUS 502B or consent of instructor.

MUS540A - Applied Music-Flute 540A-1-3 Applied Music-Flute. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the

weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540B - Applied Music-Oboe 540B-1-3 Applied Music-Oboe. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540C - Applied Music-Clarinet 540C-1-3 Applied Music-Clarinet. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540D - Applied Music-Bassoon 540D-1-3 Applied Music-Bassoon. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540E - Applied Music-Saxophone 540E-1-3 Applied Music-Saxophone. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540F - Applied Music-Horn 540F-1-3 Applied Music-Horn. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540G - Applied Music-Trumpet 540G-1-3 Applied Music-Trumpet. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540H - Applied Music-Trombone 540H-1-3 Applied Music-Trombone. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540I - Applied Music-Euphonium 540I-1-3 Applied Music-Euphonium. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be

concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540J - Applied Music-Tuba 540J-1-3 Applied Music-Tuba. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540K - Applied Music-Percussion 540K-1-3 Applied Music-Percussion. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540L - Applied Music-Violin 540L-1-3 Applied Music-Violin. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540M - Applied Music-Viola 540M-1-3 Applied Music-Viola. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540N - Applied Music-Cello 540N-1-3 Applied Music-Cello. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540O - Applied Music-Double Bass 540O-1-3 Applied Music-Double Bass. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540P - Applied Music-Voice 540P-1-3 Applied Music-Voice. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the

weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540Q - Applied Music-Piano 540Q-1-3 Applied Music-Piano. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540R - Applied Music-Organ 540R-1-3 Applied Music-Organ. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540S - Applied Music-Harpsichord 540S-1-3 Applied Music-Harpsichord. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540T - Applied Music-Guitar 540T-1-3 Applied Music-Guitar. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540U - Applied Music-Recorder 540U-1-3 Applied Music-Recorder. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540V - Applied Music-Coaching 540V-1-3 Applied Music-Coaching. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540W - Applied Music-Conducting 540W-1-3 Applied Music-Conducting. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540X - Appl Music-Mus Theater Voice 540X-1 to 3 Applied Music-Musical Theater Voice. May be repeated for credit as long as passing grade is maintained. Students must perform an end of

semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Not available outside Music Theater degree. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS540Y - Appl Music-Collaborative Piano 540Y-1-3 Applied Music-Collaborative Piano. May be repeated for credit as long as passing grade is maintained. Students must perform an end of semester jury and be concurrently enrolled in an appropriate ensemble as determined by their declared concentration/emphasis curricular guide and appropriate degree requirement checklist. Students enrolled in 1 or 2 credits take one half-hour lesson per week; 3 credits take one hour lesson per week. Students enrolled in 2 or 3 credits must attend the weekly studio class. Prerequisite: Audition or recommendation of applied jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS545 - Pedagogy of Music Theory 545-2 Pedagogy of Music Theory. An orientation to the philosophy of theory with application to teaching techniques. Special approval needed from the instructor.

MUS550 - School Mus Admin & Supervsn 550-2 School Music Administration and Supervision. Study of the objectives and processes of music instruction. Administration roles in developing the means and ends of music instruction, and techniques employed for the improvement of instruction.

MUS556 - Advanced Conducting 556-2 to 4 (2,2) Advanced Conducting. Individual or group study with appropriate instructor of choral, orchestral, or band literature. Practice in score reading, baton technique and interpretation. Opportunity to rehearse and conduct ensembles when feasible. Prerequisite: completion of an undergraduate conducting course. Restricted to graduate standing in music, or consent of instructor.

MUS565A - Chamber Music-Vocal 565A-1 to 4 (1 per topic) Chamber Music-Vocal. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS565B - Chamber Music-String 565B-1 to 4 (1 per topic) Chamber Music-String. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS565C - Chamber Music-Woodwind 565C-1 to 4 (1 per topic) Chamber Music-Woodwind. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS565D - Chamber Music-Brass 565D-1 to 4 (1 per topic) Chamber Music-Brass. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS565E - Chamber Music-Percussion 565E-1 to 4 (1 per topic) Chamber Music-Percussion. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS565F - Chamber Music-Keyboards 565F-1 to 4 (1 per topic) Chamber Music-Keyboards. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and

public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS565G - Chamber Music-Guitar 565G-1 to 4 (1 per topic) Chamber Music-Guitar. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS565H - Chamber Music-Contemporary 565H-1 to 4 (1 per topic) Chamber Music-Contemporary. Groups of 2 to 16 performers as organized and sponsored by individual faculty members. Includes duo-piano teams and piano in combination with other performers. Regular weekly rehearsals of appropriate music and public performance as feasible. Each subject may be repeated up to 2 hours. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566A - Ensemble-Marching Salukis 566A-1 Ensemble-Marching Salukis. Fall semester only. Open to all students with experience in bands. Performs at all home football games, and one or two away games. Prerequisite: Experience in bands. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566B - Ensemble-Symphonic Band 566B-1 Ensemble-Symphonic Band. Open to all students with experience in bands. Performs standard literature. Two or three concerts per year. Prerequisites: experience in bands and audition prior to first registration. Fee: \$15/credit hour.

MUS566C - Ensemble-Concert Wind 566C-1 Ensemble-Concert Wind Ensemble. A select group which performs advanced contemporary literature. Three concerts and tour per year. Prerequisite: audition prior to first registration. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566D - Ensemble - Symphony 566D-1 Ensemble-Symphony. Open to all experienced string, woodwind, brass, and percussion players. Plays standard and advanced orchestral literature, performs three or four concerts per year. Prerequisite: audition prior to first registration. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566E - Ensemble-Choral Union 566E-1 Ensemble-Choral Union. Open to qualified students who desire to perform major choral-orchestral literature. Two concerts per year. Prerequisite: audition prior to first registration. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566F - Ensemble-Concert Choir 566F-1 Ensemble-Concert Choir. A select group which performs advanced choral literature of all eras. Three or four concerts per year and tours as feasible. Prerequisite: audition prior to first registration. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566G - Ensemble-Chamber Singers 566G-1 Ensemble-Chamber Singers. Open to all experienced singers. Emphasis on contemporary literature. Three or four concerts per year and tours as feasible. Prerequisite: audition required. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566H - Guitar Ensemble 566H-1 Ensemble-Guitar Ensemble. Emphasizes the study, rehearsal, and performance of works from the Renaissance to the present, including music composed for then classical/jazz guitar and transcriptions. Prerequisite: Audition prior to first enrollment. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566I - Opera Workshop 566I-1 Ensemble-Opera Workshop. Open to all appropriately experienced singers, actors, dancers, instrumentalists and theater technicians. Study of opera/opera repertoire and performance techniques. Special approval needed from the instructor. Technology and Repair/Replacement fee: \$15/credit hour.

MUS566J - Jazz Ensemble 566J-1 Ensemble-Jazz Ensemble. For students experienced with popular literature. Concerts and tours when feasible. Prerequisite: audition prior to first registration. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566K - Accompanying Lab 566K-1 to 12 (1 or 2 per semester) Ensemble-Accompanying Lab. Experience, under supervision, in accompanying soloists and groups. Prerequisite: Studying at the MUS

340 level or above or with permission of instructor. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS566L - Chamber Music-Piano 566L-1 to 12 Ensemble-Chamber Music-Piano. Groups of two to sixteen performers as organized and sponsored by individual faculty members. Includes duo-piano teams, piano in combination with other performers, and other instrumental/vocal combinations. Regular weekly rehearsals of appropriate music and public performance as feasible. Instrumentalists and singers experiment with new musical techniques and styles. Small ensembles will rehearse weekly. Special approval needed from the instructor. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS573 - Medieval Music 573-3 Medieval Music. Music of the medieval world; Gregorian chant; the Tropes; secular songs of the troubadours and trouveres; the rise of polyphony; Ars Antiqua; organum and conductus; Ars Nova; Dunstable and English descant up to about 1450; types of notation. Non-music majors: special approval needed from the instructor.

MUS574 - Renaissance Music 574-3 Renaissance Music. Burgundian and Netherlands music from 1450 and its spread; Isaac and Josquin; 16th Century polyphony in France, Germany, Spain, and England; the rise of music for instruments and for solo voices. Non-music majors: special approval needed from the instructor.

MUS580 - Graduate Composition 580-3 Graduate Composition. Composition in the larger forms for solo and ensemble performance. Prerequisite: Approval of composition jury. Technology and Instrument Repair/Replacement fee: \$15/credit hour.

MUS595 - Research Paper 595-1 Research Paper. A written report presenting the history and style of works performed in the graduate recital, MUS 598 or 498, or other topic relating to the student's principal performing area or independent study project. Prerequisite: MUS 501 and approval of topic by the student's Graduate Faculty Committee.

MUS598 - Graduate Recital 598-3 Graduate Recital. Preparation and presentation of a full solo recital in any applied field. The recital program should contain approximately 60 minutes of music. Prerequisite: completion of at least three credits in 540 in the appropriate field and approval of instructor. The Recital Jury certifies the acceptability of the recital program and the student's preparedness 2-3 weeks prior to the scheduled public recital. The Recital Jury submits the public recital grade to the Director of Graduate Studies.

MUS598A - Recital, CP Vocal 598A-1 to 3 (1 to 2 per semester) Graduate Recital, CP Vocal. Preparation and presentation of a full recital with a vocalist. Restricted to Collaborative Piano majors only. Approval of performance jury. The performance jury certifies the acceptability of the completed recital and the grade to the graduate committee.

MUS598B - Recital, CP Instrumental 598B-1 to 3 (1 to 2 per semester) Graduate Recital, CP Instrumental. Preparation and presentation of a full recital with an instrumentalist. Restricted to Collaborative Piano majors only. Approval of performance jury. The performance jury certifies the acceptability of the completed recital and the grade to the graduate committee.

MUS599 - Thesis 599-2 to 6 Thesis. An intensive written study in the history, theory, teaching or philosophy of music; or the manuscript and parts (with tape recording when feasible) of a substantial musical composition or series of compositions accompanied by an analytical or explanatory document. Graded S/U or DEF. Prerequisite: MUS 501 and prior approval of topic or proposal by thesis director and graduate committee in music.

MUS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Music Faculty

- Allison, Robert**, Visiting Associate Professor, D.M.A., University of Illinois, 1988; 1982. Trumpet, Jazz Improvisation.
- Barta, Michael**, Professor, M.M., Liszt Academy Conservatory, 1975; 1985. Violin, Chamber Music, Music Literature.
- Beattie, Donald**, Associate Professor, *Emeritus*, M.M., University of Colorado, 1977; 1979.
- Benyas, Edward**, Professor, J.D., Northwestern University, 1987; 1994. Oboe, Orchestra.
- Best, Richard**, Professor, *Emeritus*, Metropolitan Opera School, 1968; 1984.
- Bottje, Will Gay**, Professor, *Emeritus*, A.Mus.D., Eastman School of Music, 1955; 1957.
- Breznikar, Joseph**, Professor, *Emeritus*, M.M., University of Akron, 1977; 1980.
- Brown, Philip**, Professor, *Emeritus*, M.M.E., University of North Texas, 1983; 1991.
- Brozak, George**, Associate Professor of Practice, Ed.D., University of Illinois, 2004; 2009. Athletic Bands.
- Butler, Christopher**, Associate Professor of Practice, D.M.A., University of Kentucky, 2016; 2014. Percussion.
- Butler, Jessica**, Associate Professor of Practice, D.M.A., University of Iowa, 2013; 2014. Low Brass, Music History.
- Davenport, Susan**, Professor, D.M.A., Texas Tech University, 2001; 2005. Choral.
- Delphin, Wilfred**, Professor, *Emeritus*, D.M.A., University of Southern Mississippi, 1978; 1988.
- Dillard, David**, Associate Professor, D.M.A., University of Michigan, 2004; 2005. Voice.
- Fink, Timothy**, Professor, *Emeritus*, M.F.A., Southern Illinois University Carbondale, 1993; 1994. Opera, Music Theater.
- Fligel, Charles**, Associate Professor, *Emeritus*, M.M., University of Kentucky, 1966; 1976.
- Hanes, Michael D.**, Professor, *Emeritus*, M.M.Ed., Southern Illinois University Carbondale, 1965; 1970.
- Hussey, George**, Professor, *Emeritus*, M.A.Ed., Washington University, 1963; 1963.
- Johnson, Maria**, Associate Professor, Ph.D., University of California, Berkeley, 1992; 1997. Ethnomusicology.
- Kato, Yuko**, Associate Professor, D.M.A., Manhattan School of Music, 2007; 2008. Piano.
- Kelley, Richard**, Associate Professor, D.M.A., 2011; 2008. Saxophone, Jazz Studies.
- Lausell, Isaac**, Assistant Professor, D.M.A., Stony Brook University, 2009; 2012. Guitar Performance, Jazz.
- Lee, Junghwa**, Associate Professor, D.M.A., Eastman School of Music, 1999; 2005. Piano.
- Lenz, Eric**, Associate Professor, D.M.A., University of Alabama, 2002; 2003. Cello, Music Theory.
- Lord, Suzanne**, Associate Professor, *Emerita*, D.M.A., Florida State University, 1998; 1997.
- Mandat, Eric**, Visiting Professor, D.M.A., Eastman School of Music, 1986; 1981. Clarinet, Music Theory.
- Mellado, Daniel**, Associate Professor, *Emeritus*, Ph.D., Michigan State University, 1979; 1979.
- Melton, Paula**, Assistant Instructor, B.S., University of Illinois, 1979; 1999. Youth Music.
- Mochnick, John**, Professor, *Emeritus*, D.M.A., University of Cincinnati, 1978, 1984.
- Morehouse, Christopher**, Professor, D.M.A., University of Cincinnati College-Conservatory of Music, 2005; 2005. Bands, Conducting.
- Poulos, Helen**, Associate Professor, *Emerita*, D.M., Indiana University, 1971; 1969.
- Presar, Jennifer**, Associate Lecturer, M.M., West Virginia University, 2000; 2001. Horn.
- Reifinger, James L., Jr.**, Assistant Professor, D.M.E. Indiana University, 2007; 2013. Music Education.
- Simmons, Margaret**, Professor, *Emerita*, M.Mus., University of Illinois, 1976; 1977.
- Stemper, Frank**, Composer In Residence (Professor), *Emeritus*, Ph.D., University of California, Berkeley, 1981; 1983.
- Transue, Arlene**, Associate Lecturer, M.M., University of British Columbia, 1992; 2008. Vocal Performance.

Underwood, Jervis, Professor, *Emeritus*, Ph.D., North Texas State University, 1970; 1971.
Wagner, Jeanine, Professor, *Emerita*, D.M.A., University of Illinois, 1987; 1984.
Walczak, Christopher, Assistant Professor, D.M.A., Rice University, 2013; 2015. Composition.
Weiss, Robert, Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1984; 1978.
Werner, Kent, Associate Professor, *Emeritus*, Ph.D., University of Iowa, 1966; 1963.
Worthen, Douglas, Associate Professor, D.M.A., University of Hartford, 2007; 2008. Flute, Music History.

Pharmacology and Neuroscience

Graduate courses of study leading to the Master of Arts, Master of Science, and Doctor of Philosophy degrees in Pharmacology and Neuroscience are offered by Southern Illinois University School of Medicine, Department of Pharmacology. Course offerings in the graduate program have been designed so that graduate students may acquire a broad basic knowledge in different areas of Pharmacology and Neuroscience. Graduate students in the M.S. and Ph.D. programs may choose from a diversity of specializations when selecting a research advisor and a research topic. Graduate students in the M.A. program are not required to perform laboratory research and write a thesis. M.A. students can select a faculty advisor under whose direction they will complete their capstone project for completion of the degree.

The minimum requirements for admission to an advanced degree program in Pharmacology and Neuroscience are that all students must have an undergraduate degree in one of the biological sciences. Students may be admitted with a deficiency in this prerequisite, but it must be remedied at an accredited university that is approved by the Graduate School prior to completion of PHRM 550A and PHRM 550B. Students with undergraduate training in related areas, such as chemistry, physics, mathematics, computer science, psychology or engineering are strongly encouraged to consider graduate work in Pharmacology and Neuroscience.

Unrestricted admission into the master's program requires an undergraduate grade point average (GPA) of 3.0 (A = 4.0). For unrestricted admission into the doctoral program, a GPA of 3.25 (A = 4.0) on all course work is required.

Each applicant must submit directly to the *Department of Pharmacology*:

1. A completed application, including a nonrefundable \$65 application fee that must be submitted with their application for Admission to Graduate Study in Pharmacology and Neuroscience. Applicants must pay this fee by credit card.
2. Original official transcripts for all undergraduate and graduate coursework sent directly from each university or college attended by the applicant.
3. Copies of all diplomas.
4. A Career Statement (250 words or less) describing the career path that the applicant intends to pursue upon completion of the graduate study.
5. A Statement of Area of Research Interest (250 words). This statement should include the names of 2-3 Pharmacology Department faculty members whose research interests are most aligned with those of the applicant, as well as specific reasons for this selection. The faculty research interests can be found on the Department of Pharmacology Website. Applicants for the M.A. program are not required to submit this document.
6. Scores of the Graduate Record Examination (GRE) sent directly from Education Testing Service.
7. Three letters of recommendation from faculty familiar with the applicant's potential.
8. A copy of the TOEFL scores (international students only) sent directly to the Department of Pharmacology in Springfield, as well as the official scores sent directly from the ETS®.
9. A resume or curriculum vitae.
10. A copy of current passport.
11. A copy of current Visa.

Equivalent course work completed at other institutions or in other collegiate units may be substituted for certain course requirements for graduate course work in Pharmacology and Neuroscience if approved by the Pharmacology and Neuroscience Graduate Program Committee and the Graduate School.

Performance Requirements to Maintain Student Status

Master's Degree. An overall GPA of 3.0 ($A = 4.0$) in all graduate work in the program is required to remain in the program. Any grade below *B* in a Pharmacology and Neuroscience core course must be compensated for by retaking the course and earning at least a *B* grade.

Doctor of Philosophy Degree. An overall GPA of 3.0 ($A = 4.0$) in all graduate work in the program is required to remain in the program. Any grade below *B* in a Pharmacology and Neuroscience core course must be compensated for by retaking the course and earning at least a *B* grade.

Financial Assistance

The Pharmacology and Neuroscience Graduate Program offers financial assistance that includes tuition waivers. Research assistantships and departmental fellowships are available for M.S. and Ph.D. students; application for this support is made directly to the Department of Pharmacology. The department does not provide financial support to students in the Master of Arts program. The Graduate School governs limits on support.

M.S. and Ph.D. students should be aware that renewal of support in the form of a research assistantship or fellowship is contingent upon satisfactory performance evaluations. Performance is documented in an annual progress report and is evaluated by the student's advisor and the Graduate Program Committee. Failure to make satisfactory progress towards the degree, as documented in the annual progress report, may lead to termination of support. The performance evaluation considers both assigned duties relevant to graduate assistantships and progress in coursework and research.

Requirements Common to the Master of Science and Ph.D. Degrees in Pharmacology and Neuroscience

All M.S. and Ph.D. students are required to complete formal course work in two areas: (1) core courses and (2) electives.

The core courses are PHRM 501, PHRM 500 (Introduction to Seminar, Pharmacology Seminar; all graduate students must enroll in either PHRM 500 or PHRM 501 every Fall and Spring semester), PHRM 550A and PHRM 550B (Principles of Pharmacology), PHRM 577 (Neuroscience). In addition doctoral students are also required to successfully complete PHRM 530 (Advanced Pharmacology and Neuroscience). In accordance with the graduate school, maximum coursework for full-time graduate students is 6 hours per semester; 9 hours is the minimum. For a graduate student with a Graduate Fellowship, up to 6 hours per semester is the maximum; 9 hours is the minimum. After admission into candidacy, 6 hours is the minimum.

All graduate students must acquire training in the use of appropriate research tool(s) as required by the Graduate School and determined by the graduate student's thesis/dissertation committee. All students are required to attain competence in PHRM 540 (Responsible Conduct of Research).

Students may fulfill the requirements for a research tool by taking any of the following courses: PHRM 552 (Statistics), MBMB 504 (Research Methods), or PHRM 551 (Methods in Pharmacology). Students may also attain competence by formal training, or by demonstrating competence in another manner acceptable to the graduate student's thesis/dissertation committee.

An advisory system in Pharmacology and Neuroscience will help students in planning their program. Upon their admission to the Master's or Doctoral program, the Pharmacology and Neuroscience Graduate Program Director will advise students until the student chooses a research advisor. The programs outlined by students, their advisors and their thesis/dissertation committees are subject to approval by the Pharmacology and Neuroscience Graduate Program Committee. The choice of advisor and the formulation of the thesis/dissertation committee is an important step and should be carefully considered. Students are to choose a research advisor immediately after completion of core coursework (including required research tools and PHRM 551) and prelims.

As soon as a graduate student has selected a research advisor, a thesis/dissertation committee should be formed. The thesis committee for a student in the Master's program will consist of a minimum of four members: the student's research advisor (chair), two faculty members from the Department of Pharmacology and one faculty member from an outside department. The dissertation committee for a student in the Doctoral program will consist of a minimum of five members: the student's research advisor (chair), two or three faculty members from the Department of Pharmacology, and one or two

faculty members from outside the department. Members of this committee should be able to contribute significantly in the area of the student's research program. The student's research advisor, acting through the Graduate Program Director and Chair of the Department of Pharmacology, will request approval of this committee from the Dean of the Graduate School. The Chair of the Department of Pharmacology and the Graduate Program Director are ex-officio members for all thesis/dissertation committees of which they are not formal members.

Requirements for a Master of Arts Degree in Pharmacology and Neuroscience

The application should be submitted online through the Graduate School. All applicants must submit three letters of recommendation from individuals who can comment on their academic abilities and character. The Graduate Record Exam (GRE) is required. Prerequisites for admission include an undergraduate degree in physical or biological science with a GPA of 3.0 or better. One year of physics, mathematics and chemistry is recommended.

This program requires a nonrefundable \$65.00 application fee that must be submitted with the application for Admissions to Graduate Study in Pharmacology and Neuroscience. Applicants may pay this fee by credit card. The graduate program committee of the department will normally examine the credentials, which include the application form, transcript(s), letters of recommendation, and GRE scores, only after all materials have been received. Students in the Master of Arts program do not receive a stipend or tuition waiver.

The faculty advisor will help plan course work and supervise the capstone project. A total of 34 semester hours at the 400- and 500-level is required for the Master of Arts degree. Of the total hours completed, at least 20 of these must be graded (A, B, C) hours. At least 17 of the total 34 must be 500-level courses. Of these 17, a minimum of six hours of PHRM 590 (Readings or Research in Pharmacology) is required. More than 6 hours of 590 may be taken, however only six may be counted toward the 500-level requirement. Students are not required to write a thesis for the Master of Arts degree. Upon completion of their coursework students are required to pass a comprehensive exit examination and complete a capstone project in order to receive their degree.

Masters Courses

Course Number	Course Name	Credit Hours
Fall Semester		
PHRM 550A	Principles of Pharmacology	4
PHRM 577	Neuroscience	4
PHRM 501	Introduction to Seminar	1
PHRM 540	Responsible Conduct in Research	1
PHRM 590	Readings or Research in Pharmacology	4
TOTAL		14
Spring Semester		
PHRM 550B	Principles of Pharmacology	4
PHRM 512	Regulatory Issues in Drug Development	2
PHRM 501	Introduction to Seminar	1
PHRM 530	Advanced Pharm. and Neurosci.	3
PHRM 590	Readings or Research in Pharmacology	4
TOTAL		14
Summer Session		
PHRM 551	Methods in Pharmacology	4
PHRM 590	Readings or Research in Pharmacology	2
TOTAL		6

Requirements for a Master of Science Degree in Pharmacology and Neuroscience

1. A minimum of two-years of full-time study (one year in residence) is required for a Master of Science degree.
2. A total of 30 semester hours at the 400 and 500 level is required for a Master of Science degree. At least 15 of these hours must be in 500-level courses, of which a minimum of six hours should be PHRM 599 (Thesis Research).
3. A written comprehensive examination must be passed with at least a grade of *B*. It will be prepared, conducted and evaluated by the Pharmacology and Neuroscience Graduate Program Committee and will be taken upon completion of the major core course work. This examination will become a part of the student's permanent file.
4. Before significant research has begun, a thesis plan is required. The thesis plan will be presented and discussed in an informal meeting with thesis committee members. A cover sheet for the graduate student's thesis plan must be signed by all members of the student's thesis committee and filed with the graduate program director.
5. A thesis must be completed in the student's research area of interest and receive approval of the student's thesis committee. The thesis is expected to be a competent, original research project carried out in a selected area under the research advisor's supervision. It should include a statement of the problem, an adequate review of literature, a careful analysis of results by whatever appropriate methods and an interpretation of the findings. The student must submit a preliminary draft of the thesis to the research advisor at least 10 weeks prior to graduation. A corrected copy must be submitted to other members of the thesis committee no later than four weeks before the formal thesis defense seminar.
6. Results of the thesis research must be defended in a pharmacology seminar that must be announced at least two weeks in advance by sending out proper notices. Immediately following the seminar, an oral examination will be conducted by the student's thesis committee. Any member of the University community may attend the seminar and participate on questioning and discussion subject to reasonable time limitations imposed by the committee chair. Only committee members may vote or make recommendations concerning acceptance of the thesis and the oral examination.
7. The student will be recommended for the degree if members of the student's thesis committee judge both the thesis and the performance at the oral examination to be satisfactory. If approved, a thesis approval form will be completed, signed by the student's major research advisor and the chair of the Department of Pharmacology, and transmitted to the Graduate School. The oral examination may be repeated once, no sooner than three months after the first examination. A second failure will result in dismissal from the Pharmacology and Neuroscience Graduate Program.
8. Each student is required to have six semester hours of PHRM 599 (Thesis Research). Each student who has completed all course work and registered for the minimum of thesis research hours is required to register in PHRM 601 (Continuing Enrollment) until completion of the degree.
9. The student is responsible for electronically submitting the thesis to the Graduate School. The student is responsible for submitting one bound copy to the graduate program curriculum office and one bound copy to the student's research advisor at least three weeks prior to graduation.
10. Below is a representative schedule for completion of the requirements for the Master's of Science Degree in Pharmacology and Neuroscience. Students are strongly encouraged to begin research as soon as possible by taking PHRM 590 (Readings or Research in Pharmacology). In addition to the core courses, the following elective courses will be offered. Students should take at least one elective course.

Elective courses:

Credits:

- PHRM 590 Readings or Research in Pharmacology (entire year) **(1-24)**
- MBMB 530 Advanced Cellular Biology (Spring) **(3)**
- PHRM 560 Geriatric Pharmacology **(3)**
- PHRM 565 Principles of Toxicology **(3)**
- PHRM 577 Neuroscience **(4)**
- MBMB 560 Molecular Oncology **(3)**

- Or other 500 level courses

Research Tools:

- PHRM 552 Applied Statistics (3)
- MBMB 504 Research Methods (Fall) (3)
- PHRM 551 Methods in Pharmacology (4)
- PHRM 540 Responsible Conduct of Research (1)

Summary of Requirements for Master of Science Degree

1. Achievement of a grade point average of at least a 3.0 (*A* = 4.0)
2. Completion of a research tool as required by the Graduate Program and the thesis committee
3. Comprehensive written exam of course work
4. Informal thesis proposal presentation with thesis committee
5. Interim meeting with thesis committee to review progress
6. Submission of thesis to research advisor (10 weeks prior to graduation)
7. Corrected thesis to thesis committee (four weeks prior date of defense)
8. Announcement of thesis defense (four weeks prior notice)
9. Oral Defense of thesis
10. Submission of approved thesis to Graduate School (two copies), Graduate Program Director (one copy), and research advisor (one copy) three weeks prior to graduation
11. Submission of department clearance form
12. All theses will be electronically submitted

Requirements for a Doctor of Philosophy Degree in Pharmacology and Neuroscience

1. Students entering the Ph.D. program in Pharmacology and Neuroscience should meet the minimum requirements listed for the Master's of Science degree program. Students entering the doctoral program in Pharmacology and Neuroscience may be admitted directly from a master's program.
2. The Accelerated Entry (from a master's program) is designed for students who make an early commitment to pursuing a doctoral degree. The Pharmacology and Neuroscience Graduate Program recommends this option after the student's credentials, eligibility and performance have been reviewed. To be eligible for this option: (1) the student must have attained a 3.25 (*A* = 4.0) GPA in graduate course work, (2) the student must have successfully completed the core courses with a grade of *B* or better and (3) a research advisor with whom the student will work toward his/her degree should submit a letter of recommendation attesting to the student's ability and potential to perform doctoral research. Approval of the review must be given by the Department of Pharmacology faculty and chair. The Chair of the Department will then request from the Graduate School a waiver of the master's degree or master's equivalency before entry into the doctoral program. The student's research advisor and the Graduate Program Committee will establish specific course work requirements for the Ph.D. degree in accordance with the requirements of the program.
3. The Ph.D. degree may not be conferred fewer than six months nor more than five years after admission to candidacy, except upon approval of the Dean of the Graduate School. The student is admitted to Ph.D. candidacy after having completed the residency requirement, the research tools requirement and the comprehensive written preliminary examination.
4. A comprehensive written preliminary examination of course work must be passed with a grade of *B* or better. It will be prepared, conducted, and evaluated by the Pharmacology and Neuroscience Graduate Program Committee and will be given after completion of the core courses, typically during the summer session. This examination will become a part of the student's permanent file. The preliminary examination may be repeated only once, no sooner than three months after the initial examination. Most course work should be completed prior to this examination, but this examination should precede the greater part of the dissertation research.
5. A dissertation proposal is required before the student begins significant research. The dissertation proposal will be presented as a Pharmacology seminar. Immediately following this seminar, the proposal will be defended orally before the student's dissertation committee. A cover sheet for the graduate student's dissertation committee must be signed by all members of the student's dissertation committee and filed with the Graduate Program Director. The student is required to meet formally with the dissertation committee at least once between defense of the proposal and the dissertation defense. The purpose of this interim meeting is to review progress and to modify the planned experiments, if deemed necessary based on assessment of data collected as of that date. Results of the dissertation research should be published in peer-reviewed journals with the doctoral candidate as first author. The dissertation defense presentation will occur no earlier than one year after the dissertation proposal defense and after at least one paper has been submitted

for publication. The dissertation is expected to be a competent, original research project that will make significant contribution to the body of scientific knowledge. As such, it should be of sufficient quality to merit publication in a peer-reviewed journal. It should include a statement of the problem, an adequate review of literature, a careful analysis of results by whatever methods are appropriate, and an interpretation of the findings.

6. Students must have at least one paper submitted for publication and are encouraged to obtain two or more publications from the graduate research work. Students will not be allowed to defend their dissertation until this requirement has been met.
7. The residency requirement for the doctorate must be fulfilled after admission to the doctoral program and before formal admission to doctoral candidacy. The residency requirement is satisfied by completion of 24 semester hours of graduate credit on campus as a doctoral student within a period not to exceed 4 calendar years. A doctoral student will be permitted to count no more than 6 hours of Dissertation Research towards achieving the 24 semester hour residency requirement. To meet the residency requirement, students may enroll in any other course that they have not taken that meets with the approval of their advisor and dissertation committee, e.g. any formal departmental or non-departmental courses and PHRM 590 (Readings or Research in Pharmacology).
8. The Graduate School requires completion of the residency requirement before making application to candidacy. Admission to candidacy is granted by the Dean of the Graduate School upon recommendation of the student's dissertation committee or the Graduate Program Committee after the student has fulfilled the residency requirement for the doctoral degree, passed the comprehensive written preliminary examination and met the research tool requirement. The candidate must fulfill all degree requirements within a five-year period after admission to candidacy; otherwise the student may be required to take another preliminary examination and be admitted to candidacy a second time.
9. After admission to candidacy, the student must complete 24 hours of dissertation credit PHRM 600 (Dissertation Research) complete the dissertation research project and prepare the dissertation document to meet the requirements of the dissertation committee and the Graduate School. A student who has completed all formal course work, dissertation and candidacy credit requirements but has not completed and defended the dissertation must register for PHRM 601 (Continuing Enrollment) until completion of the degree.
10. A preliminary draft of the dissertation should be given to the research advisor at least 10 weeks prior to graduation; a corrected copy should be submitted to other committee members no later than four weeks before the dissertation defense seminar.
11. Results of the dissertation research must be defended in a Pharmacology seminar which must be announced at least two weeks in advance by sending out proper notices. Immediately following the Pharmacology Seminar, a final oral examination will be conducted covering the dissertation subject and other discipline related materials. Any member of the University community may attend the final oral examination and may participate in the questioning and discussion, subject to reasonable time limitations imposed by the committee chair. Only members of the committee may vote or make recommendations concerning acceptance of the dissertation and final examination. A student will be recommended for the degree if members of the dissertation committee judge both the dissertation and the performance at the final examination to be satisfactory. If approved, a dissertation approval form will be completed, signed by the student's major research advisor, the Chair of the Department of Pharmacology and submitted to the Graduate School. The examination may be repeated once, no sooner than three months after the first examination. Failure of the second examination will result in dismissal from the Pharmacology and Neuroscience Graduate Program.
12. The student is responsible for electronically submitting the dissertation to the Graduate School. The student is responsible for submitting one bound copy to the graduate program curriculum office and one bound copy to the student's research advisor prior to graduation.
13. Below is a representative schedule of the requirements for the Ph.D. degree in Pharmacology and Neuroscience (accelerated entry from master's course). Note that alternative scheduling is available for those students who already have a Master of Science degree in Pharmacology and Neuroscience. In addition to the core courses, the advanced and elective courses will be offered. Students should take two advanced pharmacology courses and one elective course. Students are also strongly encouraged to start research as soon as possible by taking PHRM 590 (Readings or Research in Pharmacology).

Elective courses

Credits:

- PHRM 590 Readings or Research in Pharmacology (Entire year) (1-24)
- MBMB 504 Research Methods (Fall) (3)
- MBMB 530 Advanced Cellular Biology (Spring) (3)
- PHRM 574 Neuropharmacology (3)
- PHRM 555 Cardiovascular Pharmacology (3)
- PHRM 560 Geriatric Pharmacology (3)
- PHRM 565 Principles of Toxicology (3)
- MBMB 560 Molecular Oncology (3)

Research Tools:

- PHRM 552 Applied Statistics (3)
- MBMB 504 Research Methods (Fall) (3)
- PHRM 551 Methods in Pharmacology (4)
- PHRM 540 Responsible Conduct of Research (Fall) (1)

PhD Courses

Course Number	Course Name	Credit Hours
First Year		
Fall Semester

Summary of Requirements for Doctor of Philosophy Degree

1. Achievement of a grade point average of at least 3.00 (A = 4.0)
2. 24 semester hours residency
3. Completion of research tools required by Graduate Program and Dissertation Committee
4. Comprehensive written preliminary exam of course work
5. Completion of four semester hours of PHRM 501 with a grade of *B* or better
6. Admission to candidacy
7. Oral defense of dissertation proposal
8. Interim meeting with dissertation committee to review progress
9. Submission of at least one manuscript, based on the student's dissertation research, for publication to a peer-reviewed journal
10. Submission of dissertation to research advisor with copies of publications or submitted manuscripts (10 weeks prior to graduation)
11. Corrected dissertation to dissertation committee (four weeks prior to defense)
12. Completion of an approved dissertation with 24 hours of dissertation credit
13. Announcement of dissertation defense (two weeks prior notice)
14. Oral defense of dissertation
15. Submission of approved dissertation to Graduate School (two copies), graduate program office (one copy), and research advisor (one copy) three weeks prior to graduation
16. Submission of departmental clearance form
17. All dissertations will be electronically submitted

Pharmacology and Neuroscience Courses

PHRM500 - Pharmacology Seminar 500-1 to 16 Pharmacology Seminar. Presentation of research and current literature in pharmacology. Required of all graduate students in pharmacology after completion of four credit hours of 501. Requires presentation at a Journal Club session each fall semester and a formal

seminar each spring semester for duration of registration. Graded S/U only. Prerequisite: PHRM 501. (Springfield Only.)

PHRM501 - Introduction to Seminar 501-1 to 4 (1 per semester) Introduction to Seminar. Training in interpretation of research and current literature in order to enhance quality of seminar presentation. Enrollment for the initial four semesters is required of all beginning pharmacology graduate students. All other pharmacology graduate students must enroll in PHRM 500. (Springfield Only.)

PHRM530 - Advanced Pharmacology 530-3 Advanced Pharmacology & Neuroscience. The goal of this course is to understand the process involved in scientific discovery and research by reading, analyzing, criticizing and discussing scientific articles covering the field of Pharmacology and Neuroscience and the related field of cellular and molecular biology. Prerequisites: PHRM 550A Principles of Pharmacology and PHRM 577 Neuroscience. (Springfield Only.)

PHRM540 - Responsible Research 540-1 Responsible Conduct of Research. This course will provide information on topics relevant to the ethical conduct of research, including conflict of interest, publication policies, animal and human subjects, peer review, and mentoring. No prerequisite.

PHRM542 - Regulatory Pharmacology 542-2 Regulatory Issues in Drug Development. This course will examine regulatory issues, including clinical trials, the FDA process for drug approval, technology transfer and intellectual property. No prerequisites.

PHRM550A - Principles of Pharmacology 550A-4 Principles of Pharmacology. A study of chemistry, pharmacodynamic actions, mechanisms of action, absorption, distribution, metabolism, elimination, adverse effects, interactions and toxic effects of drugs currently used in therapeutics. Three to five hours lecture, one to four hours discussion per week. Must be taken in sequence. No prerequisite required.

PHRM550B - Principles of Pharmacology 550B-4 Principles of Pharmacology. A study of chemistry, pharmacodynamic actions, mechanisms of action, absorption, distribution, metabolism, elimination, adverse effects, interactions and toxic effects of drugs currently used in therapeutics. Three to five hours lecture, one to four hours discussion per week. Must be taken in sequence. No prerequisite required.

PHRM551 - Methods in Pharmacology 551-4 Methods in Pharmacology. The main objective is to acquaint the student with various sophisticated laboratory equipment, basic techniques/principles of pharmacological experiments. One hour lecture and three hours laboratory twice weekly. This course is prerequisite to all advanced pharmacology courses. (Springfield Only.)

PHRM552 - Basic Science Statistics 552-3 Applied Statistics for the Basic Sciences. This course reviews introductory statistics and focuses on advanced statistics, linear and nonlinear modeling, applicable to basic biomedical sciences. The course will also provide students with experience in the use of statistical package computer programs for data analysis. No prerequisite required.

PHRM555 - Cardiovascular Pharmacology 555-3 Cardiovascular Pharmacology. A study of structure, biochemistry, electrophysiology, and neurogenic and humoral regulation of the cardiovascular system in normal and diseased states. Three hours of lecture per week. Prerequisite: PHRM 550A,B or equivalent, or consent of course coordinator. (Springfield Only.)

PHRM560 - Geriatric Pharmacology 560-3 Geriatric Pharmacology. A study covering age-related changes in the physiology of particular organ systems which lead to the prevalence of many diseases and to altered drug action in the elderly. Research issues in aging will be discussed emphasizing the biological substrates of altered pharmacodynamics and pharmacokinetics in the aged. Prerequisite: PHRM 550A,B. Special approval needed from the course coordinator. (Springfield Only.)

PHRM565 - Principles of Toxicology 565-3 Principles of Toxicology. This course deals with principles and understanding of phenomena of chemical-biologic interactions; a study of adverse chemical effects on living organisms and risk that chemical exposure poses to man/environment; deleterious, acute, chronic chemical effects on specific organs, tests to predict risks, facilitate search for safer chemicals and drugs and means of rational treatment of manifestations of toxicity; prominent discussion on drugs, medical devices, food additives, pesticides; regulation of toxic chemicals, hazardous wastes, toxic pollutants in water and air; and emphasis on diseases caused by and uniquely associated with drugs, diagnosis and treatments of such intoxicants. (Springfield Only.)

PHRM574 - Neuropharmacology 574-3 Neuropharmacology. (Same as PHSL 574) A detailed examination of the biochemical aspects of neuropharmacology with emphasis on neurotransmitters; their synthesis, storage, release and metabolism in the central and peripheral nervous system. Considerable emphasis is placed on major research developments (both past and present) that influence how one studies the action of drugs on the nervous system. Prerequisite: PHSL 410A/B and CHEM 451A/B.

PHRM577 - Neuroscience 577-4 Neuroscience. This course provides basic neuroscience knowledge covering the fundamental principles of neural cell biology, neurophysiology, neurochemistry, neuroanatomy and behavior. This knowledge is essential to understand the mode of action of the drugs acting on excitable cells including muscle, autonomic system and central nervous system. No prerequisite.

PHRM590 - Readings/Research Pharmacology 590-1 to 24 Readings or Research in Pharmacology. Special arrangements to be made with the instructor with whom the student wishes to work. Graded S/U only.

PHRM599 - Thesis 599-1 to 6 Thesis Research. Research for thesis for a Master's degree. Hours and credit to be arranged by chair and adviser.

PHRM600 - Dissertation Research 600-1 to 32 (1 to 12 per semester) Dissertation Research. Research for dissertation for the Ph.D. degree. Hours and credit to be arranged by chair and adviser.

PHRM601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

PHRM699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Pharmacology and Neuroscience Faculty

Arai, Amy C., Professor, Ph.D., (Springfield), Chiba University, 1987; 1999. Molecular and pharmacological modulation of AMPA-type glutamate receptors and its impact on synaptic physiology.

Caspary, Donald M., *Distinguished Research Professor*, Ph.D., (Springfield), New York University, 1971; 1973. Sensory physiology, neurophysiology, neuroanatomy, comparative physiology.

Copello, Julio A., Associate Professor, Ph.D., (Springfield), National University of La Plata, 1989; 2005. Physiological and pharmacological modulation of ryanodine receptors/calcium release channels and its impact on excitation-contraction coupling of skeletal muscle and heart.

Cox, Brandon, Assistant Professor, Ph.D., (Springfield), Georgetown University, 2008; 2013. Mechanism of auditory hair cell regeneration in the neonatal mouse cochlea and the postnatal maturation of the cochlea.

Elble, Randolph C., Associate Professor, Ph.D., (Springfield), Indiana University, 1986; 2005. Tumor suppression in breast cancer by CLCA family of chloride current regulators.

Faingold, Carl L., *Distinguished Professor and Chair*, Ph.D., (Springfield), Northwestern University, 1970; 1972. Convulsive seizure mechanisms and effects of anticonvulsants; pharmacological alterations of cerebral evoked potentials.

Premkumar, Louis S., Professor, Ph.D., (Springfield), Australian National University, 1992; 1999. Molecular neurobiology, molecular mechanism(s) underlying pain perception; structure and function of ion channels.

Ramkumar, Vickram, Professor, Ph.D., (Springfield), University of Maryland, 1986; 1992. Molecular pharmacology of adenosine receptors in cardiovascular system and central nervous systems.

Rybak, Leonard P., Professor, M.D., Ph.D., (Springfield), University of Minnesota, 1973; 1981. Investigation of mechanisms controlling ionic composition and resting potentials in the peripheral auditory apparatus using chinchilla model.

Tischkau, Shelley A., Associate Professor and *Director*, Ph.D., (Springfield), University of Illinois at Urbana-Champaign, 1995; 2007. Exploring molecular and neurological bases that underlie whole animal physiological processes, neurotoxicity, circadian rhythms and environmental toxicology.

Philosophy

The Department of Philosophy offers a wide range of advanced courses in the major areas within the field leading to the M.A. and Ph.D. degrees. Students are offered a diversified curriculum not dominated by one school of thought or method of approach. The broad range of specializations represented by the faculty exposes students to a variety of aspects of philosophy and at the same time permits them to concentrate on their own particular area of interest. Graduate-level courses in such allied fields as the natural and social sciences, the arts, linguistics, law, and women's studies offer supplements to the philosophy curriculum.

Graduate courses in philosophy may be used as a minor in programs leading to the Master of Arts or Master of Science in Education degrees. Students who do not plan to continue work in philosophy beyond the master's degree level are encouraged to elect a graduate minor or to combine philosophy with another subject in a 40-hour double major.

All graduate students in philosophy are expected to have some supervised experience in teaching basic work in the field, either through regular teaching assistantships or through special assignments. Opportunities for intern experience at area junior or community colleges are made available.

Admission

Admission to the philosophy graduate program requires the following:

1. An online application form needs to be completed. A non-refundable application fee of \$65 must be submitted with the application. This fee must be paid with a credit card.
2. Official transcripts of each school attended to be sent to the department.
3. A sample of written work, e.g., a term paper written for an undergraduate or graduate philosophy class, to be sent to the department's director of graduate studies.
4. Three letters of recommendation from individuals familiar with the student's work should be requested by the applicant to be sent to the department's director of graduate studies.
5. Graduate Record Examination verbal and quantitative scores are requested but not required to be submitted to the department. They are required for those applying for fellowships. TOEFL scores of at least 550 (paper score) or 220 (computer score) are required for all foreign students. These scores should be sent directly to the department. Scores for the Test of Spoken English are strongly recommended for foreign students applying for teaching assistantships.

The department expects an applicant for admission to its graduate program to have had at least 15 semester hours in philosophy or closely related theoretical subjects, including at least one semester in ethics, one in logic, and a year in the history of philosophy. The department may waive a portion of this requirement in favor of maturity and of quality of breadth of academic experience. Applicants will be required to make up serious background deficiencies by taking appropriate undergraduate philosophy courses without credit.

Application for financial assistance is made by filling out a financial assistance form. Applicants for Graduate School and Morris Fellowships should send these applications to the department by February 1 of the academic year preceding that for which application is made. Applications for departmental graduate assistantships should be sent to the department by April 1 of that year.

Entry into the Ph.D. Program. There are two routes by which a student may enter the doctoral program. The standard one is by completion of an M.A. degree in philosophy at an accredited institution. There is also one alternative available in special circumstances.

Accelerated Entry. After at least one semester in residence, a student enrolled in the M.A. program may petition the department's faculty for accelerated entry into the Ph.D. program. Such entry is permitted only in special circumstances where a student has completed the equivalent of an M.A. degree at

another institution or has exhibited some other special qualifications (e.g. papers and publications) for the research or creative activities of doctoral-level study.

Master of Arts Degree

The department's M.A. degree program is designed both for students wishing to continue on for a Ph.D. degree and those who plan to receive a terminal master's degree. For the latter students a minor concentration of up to nine semester hours outside philosophy is permitted, subject to approval by the director of graduate studies. In order to receive the M.A. degree the student must fulfill the following requirements:

1. Complete 30 semester hours of course work in philosophy or allied fields, six of which may be credited toward preparation of a thesis. Fifty percent of the course work must be at the 500 level or above.
2. Fulfillment of a formal logic requirement demonstrated in one of the four following ways:
 - a. by having earned a grade of *B* or better in an undergraduate course covering sentential calculus and first order predicate logic
 - b. by having earned a grade of *B* or better in PHIL 105 as an undergraduate at SIU
 - c. by passing, with a grade of *B* or better during one's first year of residence, an examination covering sentential calculus and first order predicate logic
 - d. by passing with a grade of *B* or better PHIL 420 during one's first year of residence
3. Fulfillment of a language or research tool requirement. This may be accomplished by passing, with a grade of *B* or better, one of the following:
 - a. A 488 language course. (Note: these courses are offered through the Department of Foreign and Classical Languages at various times)
 - b. An examination offered through the Department of Philosophy.
 - c. A Directed Readings course offered either by the Department of Philosophy (PHIL 591) or (subject to approval by the Graduate Director) another academic unit, in which a philosophic text is translated and a final piece of research is produced.
 - d. The student may appeal to the Director of Graduate Studies:
 - i. To produce a translation of a previously untranslated text or article under professional guidance, whether within or outside the Philosophy Department.
 - ii. For special dispensation, having already demonstrated sufficient competence in a language or research tool.

None of these options for fulfilling the language/research tool requirement count toward satisfying the 30 hour requirement, except the Directed Readings (PHIL 591).

4. A written comprehensive examination of up to five hours in length, dealing with the formulations and solutions of the persistent problems of philosophy as treated by major thinkers, from Thales to the end of the 19th Century. Normally, this examination should be taken no later than at the beginning of one's third semester of residence. Students who have incompletes older than one month may not sit for this exam. (Students are expected to make up incomplete grades within one month of completion of the course in which the incomplete was awarded.) The Graduate Committee may address special considerations. Students preparing for the exam should consult the Department's Study Guide, available in the Graduate Secretary's Office. The History Comprehensive exam will be offered once each year in the Fall Semester. The Comprehensive examination papers will be read by members of the Department's faculty. These readers will submit to the Department's Director of Graduate Studies a 'high pass,' 'pass,' 'low pass,' or 'fail' recommendation. Students may petition the Graduate Director to retake the exam in the spring. A student may also petition the Graduate Director to complete a terminal M.A. The Graduate Committee will make the final decision on petitions.
5. Fulfillment of a research writing requirement by either of the following. In general, this requirement should be met no later than the end of one's second year of residence.
 - a. Presentation of an acceptable thesis, 50-75 pages in text length, to be written under the direction of a member of the Department. Six thesis hours is the maximum number of hours that can count for credit for the Master's degree (paragraph A, above). A preliminary draft stating the thesis title, describing the problem to be investigated, the method to be used, the outline of the study, and a preliminary bibliography must be prepared in advance for the thesis advisor. An instruction booklet should be secured from the Graduate School or the Department Graduate Secretary, which specifies the proper form for these documents.

- b. For a terminal M.A., the student may present three edited research papers, written in connection with graduate courses or seminars under three different individuals (whose prior approval must be obtained), to a special committee of three members, only one of whom may be an individual under whom the papers were originally written.

Doctor of Philosophy Degree

The Ph.D. degree in philosophy is designed to prepare students for college teaching and for research in their field of study. In order to receive the Ph.D. degree the student must fulfill the following requirements:

1. Completion of 30 semester hours of work beyond the M.A. level including:
Students, as part of their required coursework in the Ph.D. program, must take one course in each of the following areas as Course Distribution Requirements: Ancient/Medieval Philosophy, Modern Philosophy, 19th Century Philosophy, 20th Century Philosophy. The 19th and 20th Century Philosophy requirements must include one course taken in the American tradition and one course in the Continental Tradition.
2. Demonstration of competence in formal logic in one of the following ways:
 - a. By having met the logic requirement for the Master's degree.
 - b. By having earned a grade of *B* or better in an undergraduate course covering sentential calculus and first order predicate logic.
 - c. By having earned a grade of *B* or better in PHIL 105 as an undergraduate at SIU.
 - d. By passing with a grade of *B* or better, during one's first year of residence, an examination covering sentential calculus and first order predicate logic.
 - e. By passing with a grade of *B* or better, PHIL 420 during one's first year of residence.
3. Incoming doctoral students from other universities will be required to take the history comprehensive examination on the history of philosophy. This must be completed by the end of the first year of residence. Candidates who have already passed a comprehensive examination on the history of philosophy, or who have taken a range of courses in the history of philosophy may appeal to the Graduate Director to be waived from taking this examination.
4. Each doctoral candidate must take a general preliminary examination after (s)he has accumulated between 24 to 30 hours of credit beyond the Masters degree level and before (s)he begins work on the dissertation. (Students who have current incompletes may not sit for this examinations: Students are expected to make up incomplete grades within one month of completion of the course in which the incomplete was awarded. The Graduate Committee may address special considerations.) Candidates should see the Graduate Secretary for a copy of the Department's Study Guide, which lists recommended readings and study questions. The examination will cover the following areas:
 - a. Ancient Philosophy
 - b. Medieval Philosophy.
 - c. Modern Philosophy
 - d. Nineteenth Century Philosophy
 - e. Early Twentieth Century Philosophy

This examination will consist of five sections, and students will write responses to five questions. The preliminary examination papers will be read by members of the Department's faculty who will submit to the Department's Director of Graduate Studies a 'high pass,' 'pass,' 'low pass,' or 'fail' recommendation. Any student whose exam receives a simple majority of failing recommendations will have failed the exam, and any students whose exam receives simple majority of high passes or passes or of a combination will be deemed to have passed the exam. Students may petition the Graduate Director to retake the exam in the spring. The Graduate Committee will make the final decision.

5. Fulfillment of a language/research tool requirement in one of the following ways:
 - a. As indicated in the M.A. level requirements (paragraph I,C), for a second language in addition to that studied for the Master's degree. The level of proficiency required is the same as the M.A. level and fulfilling the M.A. requirement counts as one of the two required.
 - b. By showing greater proficiency in the same language that was used to meet the same requirements for the Master's degree.
 - c. By demonstrating a reading knowledge of one language as indicated in the M.A. level requirements and by completing, satisfactorily, at least two courses in a research related area, such as mathematics, history, archival work, editing, and so on, pursued outside the

Department at the graduate level. This option must be approved by the Graduate Director prior to being undertaken.

Fulfilling these requirements does not count toward the completion of 30 semester hours of work beyond the M.A. level, unless the work is done as Directed Readings (PHIL 591).

6. Admission to Candidacy – After 30 hours of course work have been completed, the logic and the language requirements have been fulfilled and the preliminary examinations passed, the Director of Graduate Studies (in the person of the Graduate Secretary) must file an Admit to Candidacy form with the Graduate School. This form is to be filed at least six months before the expected date of graduation. The student is responsible for seeing whether this form has, in fact, been filed. The student must have obtained the agreement of a faculty member to serve as dissertation director.
7. Dissertation
 - a. The dissertation director is responsible for selecting a dissertation committee for the student. The committee shall consist of five graduate faculty members, at least one of whom shall be from an SIU graduate program outside the student's academic unit. The Department allows for the possibility of faculty from other institutions to serve on the student's committee in addition to the requisite number of SIU faculty. Once the dissertation director has been chosen and the committee formed, any subsequent changes to the dissertation directorship position must be approved by the Director of Graduate Studies. The appropriate change form must be sent to the Dean of the Graduate School for approval.
 - b. In preparation for the writing of the dissertation, the candidate must have a prospectus review. The Director of the dissertation is responsible, in consultation with the candidate, for determining what appropriate background reading is necessary for beginning the dissertation and for the initial formulation of the project. The candidate will proceed to generate the prospectus. A prospectus should be approximately 10 - 20 pages in length; it should also include a proposed outline for the dissertation and a working bibliography. The Director of the dissertation will appoint a committee (four professors, including one from outside the Department) that will convene for the review of the prospectus. The review will help the candidate in the final formulation of the project before proceeding with the writing of the dissertation. The committee members will fill out a comment sheet for the candidate.
 - c. While working on the dissertation, the student must register for the course numbered 600. The student is to devote at least one academic year of full-time work to complete the dissertation and will register for 24 semester hours of dissertation credit (Students may sign up for from 1 to 16 hours of PHIL 600 per semester). For example, the student wishing to complete the dissertation in one year may register for 12 hours of dissertation credit for each of two terms. Students who have registered for 24 semester hours of dissertation credit and have not completed the doctoral dissertation are subject to the continuing enrollment requirement course number 601. Students are required to complete 24 hours of PHIL 600. The student may take only six of these 600-level hours prior to formal admission to candidacy, and only six of these hours will count towards the residency requirement.
 - d. Students who have completed all but the dissertation requirements, but who have previously enrolled for the minimum number of research, thesis, or dissertation credit hours required of the degree, must enroll every semester for at least one hour until all degree requirements have been completed (Summer sessions exempt). Whether in residence or not, students are required to enroll in Continuing Enrollment (PHIL 601 - 1 hour per semester) if not otherwise enrolled. Concurrent registration in any other course is not acceptable. See the Graduate Catalog for more specific details, under heading GENERAL REGULATIONS AND PROCEDURES.
 - e. The candidate will do the required research and write the dissertation. There is no given length for a dissertation, but 150 to 250 pages is the average length of a philosophy dissertation.
 - f. The candidate and the dissertation director should work together until the document is ready to receive critical input from the committee. When the dissertation director indicates that the dissertation is ready for defense, it shall be required of the dissertation director to submit to each committee member a copy of the dissertation for the members' examination. This must be delivered at least one month in advance of the scheduled defense. The committee must then decide whether or not the dissertation is acceptable for defense.
 - g. The candidate shall conduct an oral defense of the dissertation and related topics in the field before the dissertation committee. The oral defense is open to the public. Only the committee members vote or make recommendations concerning the acceptance of the dissertation and final examination. At the discretion of the dissertation director, guests may be permitted to ask questions of the candidate after the committee members have conducted the examination. A

student will be recommended for the degree of Doctor of Philosophy only if the members of the committee judge both the dissertation and the performance at the final oral examination to be satisfactory. One dissenting vote is permitted.

Philosophy Courses

PHIL405 - Democratic Theory 405-3 Democratic Theory. (Same as POLS 405) An examination of various aspects of democratic thought, including the liberal tradition and its impact upon the United States. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement. Prerequisite: POLS 114 or consent of instructor.

PHIL415 - Logic of Social Sciences 415-3 Logic of Social Sciences. (Same as SOC 415) An examination of the theoretical structure and nature of the social sciences and their epistemological foundations. The relationship of social theory to social criticism; theory and praxis. Historical experience and social objectivity. Social theory as practical knowledge.

PHIL433 - Post-Colonialism 433-3 Post-Colonialism Philosophy. This course focuses on African, Caribbean, and Latin American philosophers who have and continue to contribute to the development of post-colonial philosophy. In this class we will examine how post-colonial thinkers challenge and rework some of the main areas of philosophy, such as epistemology, political philosophy, ethics, philosophy of language, etc., by decentering the colonial assumptions that underpin these areas and their development. This class explores what this decentering means, not only for postcolonial theory, but also for how we think of race, class, gender and other forms of oppression and liberation, globally. Restricted to junior standing.

PHIL434 - Media Ethics 434-3 Media Ethics. (Same as JRNL 434) Explores the moral environment of the mass media and the ethical problems that confront media practitioners. Models of ethical decision-making and moral philosophy are introduced to encourage students to think critically about the mass media and their roles in modern society.

PHIL441 - Philosophy of Politics 441-3 Philosophy of Politics. (Same as POLS 403) The theory of political and social foundations; the theory of the state, justice, and revolution. Classical and contemporary readings such as: Plato, Aristotle, Hobbes, Locke, Rousseau, Marx, Dewey, Adorno and others. Prerequisite: PHIL 340 or PHIL 102 or consent of instructor.

PHIL445 - Philosophy of Law 445-3 Philosophy of Law. Study of contemporary philosophical essays on topics at the intersection of law and philosophy, such as abortion on demand, capital punishment, plea bargaining, campus speech codes, legalization of addictive drugs, and animal rights, and of what systematic philosophers, such as Thomas Hobbes, John Locke, John Stuart Mill, Karl Marx, and H.L.A. Hart, have written about the nature of a legal system and the appropriate realm of legal regulation.

PHIL446A - Feminist Philosophy 446A-Feminist Philosophy. (Same as WGSS 456A) A general survey of feminist theory and philosophical perspectives.

PHIL446B - Special Topics Fem Philosophy 446B-Special Topics in Feminist Philosophy. (Same as WGSS 456B) A special area in feminist philosophy explored in depth, such as Feminist Ethics, French Feminism, Feminist Philosophy of Science, etc.

PHIL446C - Women Philosophers 446C-3 Women Philosophers. (Same as WGSS 456C) Explores the work of one or more specific women philosophers, for example Hannah Arendt, Simone DeBeauvoir, etc.

PHIL450 - Transcendentalism 450-3 American Transcendentalism. This course will study the rise of Transcendentalism as a philosophical movement in early Nineteenth Century New England. Focus will be on Ralph Waldo Emerson and Henry David Thoreau with possible attention to Margaret Fuller and other figures like Hedge, Parker and Brownson.

PHIL451 - Hist African Amer Philosophy 451-3 History of African American Philosophy. (Same as AFR 499A) A survey of major thinkers and themes in the history of African American Philosophy from colonial

times to the 20th century. Prerequisite: at least one previous course in either Philosophy or Africana Studies with a grade of C or better.

PHIL455 - Philosophy of Race 455-3 Philosophy of Race. (Same as AFR 499B) A survey and critical examination of a range of theories on the nature and meaning of "race," the intersection of race with class and gender, and the promotion of racial progress. Such theories include racial realism and idealism, racial biologism, cultural race theory, social constructivist theory, integrationism, separatism, racial eliminativism, cosmopolitanism, and especially critical race theory. Prerequisite: at least one previous course in Philosophy or Africana Studies with a minimum grade of C.

PHIL459 - Topics Africana Philosophy 459-1 to 6 Topics in Africana Philosophy. (Same as AFR 499C) A seminar on varying topics, themes, and figures in African, African American, and/or Caribbean Philosophy, e.g., "W.E.B. Du Bois and His Contemporaries," "Pan-Africanism," "Philosophies of Liberation," "Black Feminism," "Contemporary African Philosophy," "Philosophies of the Caribbean." Prerequisite: At least one previous course in Philosophy or Africana Studies with a minimum grade of C.

PHIL460 - Philosophy of Art 460-3 Philosophy of Art. We will examine several important theories that define art by focusing in on only one aspect, for example, imitation, expression, form, institutional setting, or even indefinability. What role does imagination play in each of these accounts, and does this tell us something important about how people experience their world?

PHIL468A - Kant: Theoretical Philosophy 468A-3 Kant-Theoretical Philosophy.

PHIL468B - Kant: Practical Philosophy 468B-3 Kant-Practical Philosophy.

PHIL468C - Kant: Aesthetics/Teleology/Rel 468C-3 Kant-Aesthetics, Teleology and Religion.

PHIL471A - Medieval Philosophy 471A-3 History of Medieval Philosophy. An examination of some of the most important figures and themes in medieval philosophical thought. Medieval debates in the area of metaphysics, natural philosophy, epistemology, ethics and politics will be explored in reading the works of such figures as Augustine, Boethius, Abelard Avicenna, Averroes, Maimonides, Bonaventure, Thomas Aquinas, Duns Scotus, Ockham and Nicholas of Cusa. Prerequisite: PHIL 304 or consent of instructor.

PHIL471B - The Medieval Thinker 471B-3 The Medieval Thinker. An examination of the thought of one of the central and most influential figures of the medieval world. Possible subjects of the course are Augustine of Hippo, Al-Ghazali, Moses Maimonides, Bonaventure, Thomas Aquinas, Duns Scotus, Dante Alighieri or William Ockham. Prerequisite: PHIL 304 or consent of instructor.

PHIL472 - The Rationalists 472-3 The Rationalists. Study of the philosophy of one or more of Descartes, Spinoza, Leibniz, Malebranche, Wolff. Prerequisite: PHIL 305A or B or consent of instructor.

PHIL473A - The Empiricists-Locke 473A-3 The Empiricists-Locke. Study of the principles of British empiricism as represented by Locke. May also include study of Berkeley. Prerequisite: PHIL 305 or consent of instructor.

PHIL473B - The Empiricists-Hume 473B-3 The Empiricists-Hume. Study of the principles of British empiricism as represented by Hume. May also include study of Berkeley. Prerequisite: PHIL 305 or consent of instructor.

PHIL474 - Aristotle's Ethics 474-3 Aristotle's Ethics. This course will focus on reading Aristotle's Nicomachean Ethics. Topics will include: the idea of a well-lived life (happiness), the relation of reason and desire, character formation, deliberative and moral reasoning, the types of human excellence, friendship and the role of philosophy in a well-lived life. Readings may include: Greek drama (e.g., Aetigone, Medea), Aristotle's Politics, and contemporary writers in "virtue ethics." Prerequisite: PHIL 304 with a grade of B or better.

PHIL482 - Recent European Philosophy 482-3 Recent European Philosophy. Philosophical trends in Europe from the end of the 19th Century to the present. Phenomenology, existentialism, the new Marxism, structuralism, and other developments. Language, history, culture and politics.

PHIL485 - The Presocratics 485-3 The Presocratics. The course will survey the Presocratic movement from the Milesians, Heraclitus and the Pythagoreans to the Eleatics, Empedocles, Anaxagoras and

Democritus. Topics will include: the idea of nature, origin/source/principle (arche), the mathematical and nature, Being, pluralism and monism, the atomic theory. Some attention may be paid to the Sophists and the Epicureans. Prerequisite: PHIL 304 with a minimum grade of B.

PHIL486 - Early American Philosophy 486-3 Early American Philosophy. From the Colonial Era to the Eve of World War I. This course will trace the transplantation of European philosophy to the New World and watch its unique process of development. Movements such as Puritanism, the theory of the American Revolution, the philosophical basis of the Constitution, transcendentalism, idealism, Darwinism and pragmatism and such figures as: Jonathan Edwards, Thomas Jefferson, James Madison, Ralph Waldo Emerson, Josiah Royce, Charles Sanders Peirce, and William James.

PHIL487 - Recent American Philosophy 487-3 Recent American Philosophy. From World War I to the Present. The major American philosophers of the 20th Century, covering such issues as naturalism, emergentism, process philosophy, and neopragmatism. Figures include: John Dewey, George Herbert Mead, George Santayana, Alfred N. Whitehead, C. I. Lewis, W. V. Quine, and Richard Rorty.

PHIL490 - Special Problems 490-1 to 8 Special Problems. Hours and credits to be arranged. Courses for qualified students who need to pursue certain topics further than regularly titled courses permit. Special topics announced from time to time. Students are invited to suggest topics. Special approval needed from the department.

PHIL500 - Metaphysics 500-3 Metaphysics. Seminar focusing on readings taken from major classical to contemporary writings in the subject of metaphysics (e.g., Aristotle's *Metaphysics*, Descartes' *Principles*, Whitehead's *Process and Reality*, etc.) or on special movements or on problems in the subject (e.g., substance, causation, reductionism, etc.).

PHIL501 - Philosophy of Religion 501-3 Philosophy of Religion. Analysis of a problem in philosophical theology or the phenomenology of religion or of the work of a particular thinker.

PHIL502 - Formal Semantics 502-3 Formal Semantics. (Same as LING 500) This course will introduce and develop formal mechanisms to encode meaning in natural language. We will deeply explore the topics of predication, definiteness, quantification, and semantic modeling. Mastery of these topics can be applied to many other semantic phenomena. By the end students will be able to: understand and evaluate scholarly literature in semantics; approach problems in natural language from the standpoint of a formal semanticist; understand and describe the role of semantics in generative approaches to language; and produce novel work in semantics.

PHIL530 - Theory of Knowledge 530-3 Theory of Knowledge. Seminar focusing on readings taken from major classical to contemporary writings in the theory of knowledge (e.g., Plato, *Theaetetus*; Aristotle, *De Anima*; Locke, *Essay Concerning Human Understanding*; Quine, *Ontological Relativity*; Rorty, *The Mirror of Nature*, etc.) or on movements or on problems in the subject (the object of knowledge, justification, method, etc.).

PHIL542 - Political & Legal Philosophy 542-3 Political and Legal Philosophy. Relations of law, morality, and politics, and consideration of problems and issues in philosophy of law.

PHIL545 - Ethics 545-3 Ethics. An examination of the fundamental assumptions underlying twentieth century British and American moral theory. Special attention is given to recent attempts to develop a psychologically realistic moral philosophy that avoids both moral absolutism and extreme forms of relativism.

PHIL551 - Introduction to Teaching 551-1 Introduction to Teaching and the Profession. Introduction to the methodology and ethics of teaching philosophy; supervision of teaching assistants. Restricted to philosophy graduate students on assistantship contract.

PHIL552 - Teaching Practicum 552-1 Teaching Practicum. Ongoing supervision of teaching assistants and discussion of pedagogical, ethical and professional issues. Prerequisite: PHIL 551.

PHIL553 - Supervision of Teaching 553-1 Supervision of Teaching for Graduate Assistants. Instruction in the methods of teaching philosophy and direct supervision of course teaching. Prerequisite: PHIL 551.

PHIL560 - Aesthetics 560-3 Aesthetics. Selected topics or writings.

PHIL562 - Phil of Human Communication 562-3 Philosophy of Human Communication. (See CMST 562)

PHIL563 - Philosophy of Nietzsche 563-3 Philosophy of Nietzsche. A reading of Nietzsche's works and critical discussion of his major themes in light of their historical and contemporary reception.

PHIL564 - Frankfurt Schl Critical Theory 564-3 Frankfurt School Critical Theory. An examination of the conceptual foundations and historico-philosophical theories of the Institute for Social Research School, known as critical theory, covering one or more of the major first- and second-generation thinkers: Horkheimer, Adorno, Marcuse, Habermas.

PHIL565 - Continentl Feminist Philosophy 565-3 Continental Feminist Philosophy. (Same as WGSS 565) An examination of major figures and problems in continental feminism, focusing on metaphysical, ethical, political, and aesthetic theories in the works of Beauvoir, Kristeva, Irigaray, Butler, and Kofman.

PHIL566 - Psychoanalysis 566-3 Psychoanalysis. An examination of psychoanalytic theory in the context of continental philosophy, studying the foundation of psychoanalysis and major developments since Freud, including French psychoanalytic theory, the British School, and developments in American psychoanalysis.

PHIL570 - American Idealism 570-3 American Idealism. One or more American idealists. Recent seminars have been devoted to the thought of Brand Blanshard and Peter A. Bertocci.

PHIL577A - Classcl American Philos-Peirce 577A-3 Classical American Philosophy-Peirce. A focused study of various aspects of Peirce's philosophy such as his pragmatism and semiotics.

PHIL577B - Classcl Amer Philos-James 577B-3 Classical American Philosophy-James. A critical examination of James' pragmatism, radical empiricism and pluralism.

PHIL577C - Classcl Amer Philos-Dewey 577C-3 Classical American Philosophy-Dewey. An examination of such themes in Dewey's philosophy as the influence of Darwin, nature and experience, aesthetics, technology and democracy.

PHIL577D - Classical Amer Philosophy-Mead 577D-3 Classical American Philosophy-Mead. A critical examination of Mead's theories regarding the social self and social life.

PHIL578 - Husserl 578-3 Husserl. A careful and systematic reading of Husserl's major works or treatment of important themes throughout his writings, such as, the problem of evidence, perception and rationality, time-consciousness, phenomenology of association, or the lifeworld.

PHIL579 - Heidegger 579-3 Heidegger. This course features a close reading of Heidegger's masterwork, BEING AND TIME, supplemented by selected later essay and secondary literature as suggested by the instructor.

PHIL580 - The Pre-Socratics 580-3 The Pre-Socratics. The emergence of Greek philosophy in the sixth century B.C., the Milesians, Heraclitus and the Pythagoreans; the Eleatic movement and Parmenides, and the critical systems of Empedocles, Anaxagoras, and atomism; concluding with a discussion of the Sophistic movement and Socrates. Epic, lyric and dramatic literature of the period may be examined as well as philosophical writings.

PHIL581 - Plato 581-3 Plato. Intensive reading of selected texts focusing on some aspect of Plato's thought or on Platonism as a movement.

PHIL582 - Aristotle 582-3 Aristotle. Intensive reading on several texts, analyzing selected portions of Aristotle's thought.

PHIL583 - Merleau-Ponty 583-3 Merleau-Ponty. This course will focus on a major work by Merleau-Ponty (such as the Phenomenology of Perception), or will develop a major theme (perception, aesthetics, politics) in his thought by consulting several of his works.

PHIL584 - Levinas 584-3 Levinas. This course will be devoted to a detailed and systematic study of one of Levinas's major works, such as *Totality and Infinity* or *Otherwise than Being*, or to a survey of key elements of his thought contained in his many important essays.

PHIL587 - Kant 587-3 Kant.

PHIL588 - Hegel 588-3 Hegel.

PHIL589 - Scheler 589-3 Scheler. This course is devoted to a systematic reading of Scheler's works that concern any one of the many dimensions of his thought, for example, the nature of "person", ethics and value theory, the philosophy of religion, the sociology of knowledge, or politics.

PHIL590 - Graduate Seminar 590-1 to 12 General Graduate Seminar. Selected topics or problems in philosophy. Repeatable for 12 hours per term, 30 hours toward degree.

PHIL591 - Readings in Philosophy 591-1 to 16 Readings in Philosophy. Supervised readings for qualified students. Prerequisite: Students must have written permission from the Graduate Director to register for more than six hours at each level.

PHIL599 - Thesis 599-2 to 6 Thesis. Minimum of four hours to be counted towards a Master's degree.

PHIL600 - Dissertation 600-3 to 32 (1 to 16 per semester) Dissertation. Repeatable for 16 hours per term, 30 hours toward degree.

PHIL601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

PHIL699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Philosophy Faculty

Alexander, Thomas, Professor, *Emeritus*, Ph.D., Emory University, 1984; 1985.

Beardsworth, Sara, Associate Professor, Ph.D., University of Warwick, 1994; 2004. Nineteenth and twentieth century European philosophy, Kristeva.

Clarke, David S., Jr., Professor, *Emeritus*, Ph.D., Emory University, 1964; 1966.

Frankowski, Alfred, Assistant Professor, Ph.D., University of Oregon, 2012.

Gatens-Robinson, Eugenie, Associate Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1983; 1974.

Gillan, Garth J., Professor, *Emeritus*, Ph.D., Duquesne University, 1966; 1969.

Hahn, Robert, Professor, Ph.D., Yale University, 1976; 1982. Greek philosophy, philosophy and history of science, Kant.

Hickman, Larry A., Professor, *Emeritus*, Ph.D., University of Texas at Austin, 1971; 1993.

Kelly, Matthew J., Associate Professor, *Emeritus*, Ph.D., University of Notre Dame, 1963; 1966.

Manfredi, Pat A., Associate Professor, *Emeritus*, Ph.D., University of Notre Dame, 1983; 1994.

Schedler, George, Professor, *Emeritus*, Ph.D., University of California, San Diego, 1973, J.D., Southern Illinois University, Carbondale, 1987; 1973.

Steinbock, Anthony J., Professor, Ph.D., State University of New York, Stony Brook, 1993; 1995. Contemporary French and German philosophy, recent European philosophy, 19th century philosophy.

Stickers, Kenneth W., Professor, Ph.D., DePaul University, 1982; 1997. American philosophy, continental philosophy, ethics, Scheler, James.

Tyman, Stephen, Associate Professor, *Emeritus*, Ph.D., University of Toronto, 1980; 1980.

Physical Therapy

The Doctor of Physical Therapy (DPT) program is currently being developed by the School of Health Sciences within the College of Applied Sciences and Arts. Pending approval by the Commission on Accreditation in Physical Therapy Education (CAPTE), the first cohort will begin fall 2023.

The DPT is an entry-level clinical doctoral program designed using a hybrid model combining online and face-to-face courses in a weekend format to allow allied health professionals the flexibility to maintain their current occupation while advancing in the profession. Students applying to the DPT program must possess a bachelor degree. Preference will be given to applicants employed in an allied health profession. The doctorate curriculum is designed as a 3-year degree allowing students to attend on a weekend basis that meets nine times per semester.

Physical therapists are movement experts who optimize quality of life through prescribed exercise, hands-on care, and patient education. Physical therapists teach patients how to prevent or manage their condition to achieve long-term health benefits. Through patient examination and development of a plan of care, they will implement treatment techniques to promote improved mobility, reduced pain, restoration of function, and prevention of disability. PTs also work to prevent mobility loss through the development and implementation of fitness- and wellness-oriented programs.

Admission

The Doctor of Physical Therapy program will accept students to begin the course sequence each fall semester. In order to be considered for admission into the Doctor of Physical Therapy program, students must have obtained a bachelor degree prior to applying to the program. Preference is given to students with degrees in an allied health program and current employment in an allied health profession. A selective admissions process will be used to help ensure the most qualified applicants enter the DPT program.

The minimum admission guidelines of the DPT program are the criteria provided below: Candidates will be granted admittance into SIUC as a graduate student.

- Candidates will possess a bachelor degree
- Candidates must have obtained a C or better in the prerequisite classes including 1 semester of statistics, 2 semesters of basic college physics, 2 semesters of college general chemistry, 1 semester of medical terminology
- Minimum overall grade point average of 3.25 (4.0 scale)
- Three satisfactory professional recommendations.
- Demonstration of college-level writing ability. (written essay)
- Completed Physical Therapy program application
- Resume

Enrollment in the Doctor of Physical Therapy program is limited and based on a competitive process. Applicants will be evaluated on the overall submitted application package. Students will be selected by the Admissions Committee.

Degree Requirements

Students must have obtained a bachelor degree prior to application. The Doctor of Physical Therapy program is an entry-level hybrid weekend program designed for working professionals. The curriculum is designed as a 3-year, full-time program requiring a total of 108 credit hours that combines lecture, laboratory and assigned clinical experiences.

Successful completion of the program provides graduates with the educational requirements necessary to take the National Licensure Examination for the Physical Therapist (NPTE). Licensure is required for practice in each state.

Physician Assistant Studies

The Physician Assistant (PA) Program is offered by the School of Medicine Department of Family and Community Medicine. The Program utilizes a problem-based learning curriculum and clinical rotations to prepare primary care physician assistants to practice medicine with physician supervision.

The physician assistant is often the first health care provider to see a patient and perform a variety of tasks including collecting historical and physical examination data from the patient and ordering appropriate laboratory and diagnostic tests. The physician assistant synthesizes patient information and participates in formulating and executing a treatment plan to meet the patient's needs. A physician assistant can evaluate psychological aspects of a patient's health, counsel when appropriate, and teach patients about primary health problems. The physician assistant makes referrals when indicated and can perform procedures, such as EKGs, venipuncture, casting, suturing, and injections. The physician assistant prescribes medications. Graduates of the PA Program are trained as primary care providers and awarded the Master of Science in Physician Assistant Studies (MSPA) degree.

Admission

To be considered for enrollment in the Physician Assistant Program, prospective students must have at least overall, prerequisite, and science GPAs of 3.2 on a 4.0 scale, be admitted to the Graduate School, complete the program prerequisites and other requirements. This program requires a nonrefundable \$65 application fee (subject to change without notice by the SIU Board of Trustees) that must be submitted with the application for admissions to graduate study in the Physician Assistant Program. Accepted applicants will be required to submit a nonrefundable enrollment deposit to reserve a position in the class. The deposit is due within 10 days of the program's invitation to the applicant. The deposit will be applied to the student's Bursar account two weeks after matriculation. If an applicant, who has accepted an offer for admission, decides to drop, the enrollment deposit will not be refunded. MSPA students will not receive the border state decrease adjustment to their tuition and fees. Therefore, all out-of-state students will pay a higher tuition rate. No advanced placement is awarded towards completion of PA Program courses, even if the applicant is licensed as a medical doctor.

Degree Requirements

Prospective students must have completed all of the following prerequisite courses before matriculation: Medical Terminology - one semester or proficiency, Chemistry with labs - two semesters (select from General, Inorganic, Organic, or Biochemistry); Psychology - one semester; Human Physiology - one semester (higher level preferred); Human Anatomy – one semester (higher level with cadaver lab preferred); Microbiology with lab-one semester; General Biology for science majors, - one semester (may also select from Genetics or Cell and Molecular Biology); Statistics-one semester; English Composition - one semester; and CPR for Healthcare Providers. Graduate Record Examination (GRE), or MCAT scores must be submitted with application materials. Applicants must have successfully completed all the required prerequisites by the fall term prior to matriculation, with the exception of medical terminology and CPR for Healthcare Providers. Those must be completed by the end of the Spring term prior to matriculation.

Students who have completed or will soon complete a Bachelor's degree and prerequisite course requirements should contact the program advisor or consult the program website for the most current application information.

Enrollment in the Physician Assistant Program is limited and based on a competitive process. Applicants will be evaluated on the overall submitted application package, including overall, science, and prerequisite

GPA's that must each be a 3.2 on a 4.0 scale, academic potential, motivation, familiarity with the PA role, oral and written communication skills, interpersonal skills, and potential for success in the SIU Carbondale PA Program and the PA profession. Students will be selected by the Admissions Committee for an interview with a maximum of 40 being admitted to the professional sequence. The MSPA Program is extremely rigorous and outside employment while in the Program is discouraged.

Students selected for the professional sequence will begin study in the summer session. Those accepted into the Program will be notified of acceptance by the spring semester prior to the summer of entry. The curriculum is a 26-month sequence with the first 12 months (Phase I) consisting of problem-based learning activities, basic science and clinical medicine courses, and clinical experiences. The next 14 months consist of clinical rotations with seminars (Phase II) and a summer preceptorship (Phase III). All students complete a Master's Project before graduation. During the clinical rotation phase, students may be required to relocate to other locations, called Hubsites, throughout Illinois. More information on deadlines or other requirements can be obtained from the PA Program Advisor at: paadvisement-L@listserv.siu.edu. All courses are restricted to Physician Assistant Majors.

Requirements for Major in Physician Assistant Studies Program

First Year Sequence (Phase I) - 54 hours

PA 500, PA 501, PA 502, PA 503, PA 504, PA 505, PA 506, PA 507, PA 511, PA 512, PA 513, PA 514, PA 515, PA 521, PA 522, PA 523, PA 524, PA 525, PA 531, PA 532, PA 533, PA 534, PA 535, PA 536, PA 547, PA 550, PA 599

Second Year (Phase II & Phase III) - 36 hours

PA 545, PA 551, PA 580, PA 581, PA 582, PA 583, PA 596, PA 599

Total - 90 hours

Curricular Guide

Phase I

- **Semester 1 – Summer (Unit 1) – 10 Credit Hours**
 - # PA 500-1 Introduction to the Profession
 - # PA 501-3 PBL, Unit 1
 - # PA 511-1 Pharmacology I
 - # PA 521-2 Clinical Anatomy and Integrated Sciences I
 - # PA 531-2 Patient Evaluation I
 - # PA 547-1 Research Methods
- **Semester 2 – Fall (Units 2 & 3) – 22 Credit Hours**
 - # PA 502-3; PA 503-3 PBL, Units 2 and 3
 - # PA 506-1 Patient Education/Behavioral Science
 - # PA 507-1 Diversity in Medical Practice
 - # PA 512-1; PA 513-1 Pharmacology II, III
 - # PA 522-2; PA 523-2 Clinical Anatomy and Integrated Sciences II, III
 - # PA 532-2; PA 533-2 Patient Evaluation II, III
 - # PA 550-2 Clinical Mentoring - Phase I
 - # PA 599-2 Master's Seminar
- **Semester 3 – Spring (Units 4 & 5) – 22 Credit Hours**
 - # PA 504-3; PA 505-3 PBL, Units 4 and 5
 - # PA 506-1 Patient Education/Behavioral Science
 - # PA 514-1; PA 515-1 Pharmacology IV, V
 - # PA 524-2; PA 525-2 Clinical Anatomy and Integrated Sciences IV, V
 - # PA 534-2 Clinical/Procedural Skills
 - # PA 535-2 ACLS/EKG
 - # PA 536-1 Introduction to the Surgical Setting
 - # PA 550-2 Clinical Mentoring – Phase I
 - # PA 599-2 Master's Seminar

Phase II

- **Semester 4 – Summer – 6 Credit Hours**

- # PA 551-1 Clinical Mentoring – Phase II
- # PA 580-1 PBL Tutor Group – Phase II
- # PA 581-3 Clinical Rotations I
- # PA 599-1 Master’s Seminar
- **Semester 5 – Fall – 12 Credit Hours**
 - # PA 551-2 Clinical Mentoring – Phase II
 - # PA 580-2 PBL Tutor Group – Phase II
 - # PA 582-6 Clinical Rotations II
 - # PA 599-2 Master’s Seminar
- **Semester 6 – Spring – 12 Credit Hours**
 - # PA 551-2 Clinical Mentoring – Phase II
 - # PA 580-2 PBL Tutor Group – Phase II
 - # PA 583-6 Clinical Rotations III
 - # PA 599-2 Master’s Seminar

Phase III

- **Semester 7 – Summer – 6 Credit Hours**
 - # PA 545-3 Health Care Systems
 - # PA 596-3 Preceptorship

A limited number of electives are also available to MSPA students:

PA Elective Courses:

- PA 508 1-3 Holistic Medicine
- PA 585 1-6 Independent Study

PA Continuing Enrollment:

- PA 601-1

Used to complete the Master’s Project if all other Program requirements are met.

For more information on the MSPA degree offered by the Physician Assistant Program, visit our web site at: siumed.edu/paprogram or email the Program Advisor.

Physician Assistant Studies Courses

PA500 - Intro to PA Profession 500-1 Introduction to the PA Profession. This course is designed to provide students with an understanding of professional issues of the Physician Assistant. Students are introduced to physician assistant history, standards of quality assurance, credentialing and licensure, regulations governing practice, business issues, and contract negotiation. Students explore opportunities in professional organizations and ways to strengthen their professional development.

PA501 - PBL Group, Unit 1 501-3 Problem Based Learning Group, Unit 1. This course is designed to focus on medical topics in cardiology and gastroenterology. Problem-based learning is utilized with emphasis on expanding the student's knowledge base, enhancing the student's clinical reasoning skills and self-directed learning, and improving interpersonal communication skills among students and patients. Limited to six to nine students per section.

PA502 - PBL Group, Unit 2 502-3 Problem Based Learning Group, Unit 2. This course is designed to focus on internal medicine topics in respiratory medicine, dermatology, urology, and infectious disease. Problem based learning is used with emphasis on expanding the student's knowledge base, enhancing clinical reasoning skills and self-directed learning, and improving interpersonal communication skills among students and patients.

PA503 - PBL Group, Unit 3 503-3 Problem Based Learning Group, Unit 3. This course is designed to focus on internal medicine topics in neurological and psychiatric diseases. Problem-based learned

is utilized with emphasis on expanding the student's knowledge base, enhancing the student's clinical reasoning skills and self-directed learning, and improving interpersonal communication skills among students and patients.

PA504 - PBL Group, Unit 4 504-3 Problem Based Learning Group, Unit 4. This course is designed to focus on health concerns, physiological and psychosocial issues of obstetrics, gynecology, urology, and pediatric gastroenterology. Problem based learning is utilized in expanding the student's knowledge base, clinical reasoning skills, self-directed learning, and improving interpersonal communication skills.

PA505 - PBL Group, Unit 5 505-3 Problem Based Learning Group, Unit 5. This course is designed to focus on medical topics related to endocrinology, renal disease, and metabolism. Problem-based learning is utilized with emphasis on expanding the student's knowledge base, enhancing the student's clinical reasoning skills and self-directed learning, and improving interpersonal communication skills among students and patients.

PA506 - Beh Sci/Patient Ed 506-1 to 3 Behavioral Science/Patient Education. This course explores behavioral science and patient education as it applies to the practice of medicine, as well as maintenance of health and prevention of illness.

PA507 - Diversity - Med Practice 507-1 Diversity in Medical Practice. Students examine issues that arise when delivering medical services to persons of diverse cultures, ethnicity, race, sexual orientation, gender, and socioeconomic status. Implications for providing medical services to persons who have experienced discrimination and disadvantage will be discussed.

PA508 - Holistic Medicine 508-1 to 3 Holistic Medicine. This course is designed to explore the current research, practice and applications of Mind-Body-Spirit Medicine (MBSM). Students will explore the use of various techniques for use in clinical and therapeutic settings as well as for maintaining their own personal health.

PA511 - Pharmacology I 511-1 Pharmacology I. This course introduces students to the therapeutic agents most commonly used for treatment of disorders of the cardiovascular and gastrointestinal systems. The practical aspects of dosage, schedules, therapeutic effect, adverse reactions, metabolism, mechanism of action and excretion are investigated.

PA512 - Pharmacology II 512-1 Pharmacology II. This course introduces students to the therapeutic agents most commonly used involving the pulmonary and integumentary systems, as well as those medications used in infectious disease. The practical aspects of dosage, schedules, therapeutic effect, adverse reactions, metabolism, method of action and excretion are investigated.

PA513 - Pharmacology III 513-1 Pharmacology III. This course introduces students to the therapeutic agents most commonly used in neurology and psychiatry. The practical aspects of dosage, schedules, therapeutic effect, adverse reactions, metabolism, method of action and excretion are investigated.

PA514 - Pharmacology IV 514-1 Pharmacology IV. This course introduces students to the therapeutic agents most commonly used in practice involving pregnancy, neonates, infants, sexually transmitted diseases, menopause, and prostate disorders. The practical aspects of dosage, schedules, therapeutic effect, adverse reactions, metabolism, method of action and excretion are investigated.

PA515 - Pharmacology V 515-1 Pharmacology V. This course introduces students to the therapeutic agents most commonly used in treating diabetes, thyroid disorders, renal disease, and fluid disorders. The practical aspects of dosage, schedules, therapeutic effect, adverse reactions, metabolism, method of action and excretion are investigated.

PA521 - Clin Anat & Int Sci I 521-2 Clinical Anatomy and Integrated Sciences I. This course involves the study of anatomical structures with cadaveric materials, clinical applications, physiology and pathophysiology of selected systems. Radiology, microscopy, and embryology issues will be included.

PA522 - Clin Anat & Int Sci II 522-2 Clinical Anatomy and Integrated Sciences II. This course involves the study of anatomical structures with cadaveric materials, clinical applications, physiology and pathophysiology of selected systems. Radiology, microscopy, and embryology issues will be included.

PA523 - Clin Anat & Int Sci III 523-2 Clinical Anatomy and Integrated Sciences III. This course involves the study of anatomical structures with cadaveric materials, clinical applications, physiology and pathophysiology of selected systems. Radiology, microscopy, and embryology issues will be included.

PA524 - Clin Anat & Int Sci IV 524-2 Clinical Anatomy and Integrated Sciences IV. This course involves the study of anatomical structures with cadaveric materials, clinical applications, physiology and pathophysiology of selected systems. Radiology, microscopy, and embryology issues will be included.

PA525 - Clin Anat & Int Sci V 525-2 Clinical Anatomy and Integrated Sciences V. This course involves the study of anatomical structures with cadaveric materials, clinical applications, physiology and pathophysiology of selected systems. Radiology, microscopy, and embryology issues will be included.

PA531 - Patient Evaluation I 531-2 Patient Evaluation I. This course is designed to prepare the Physician Assistant student in taking a patient history and performing portions of the physical exam. Interview and communication skills, medical terminology, and recording patient information are also explored.

PA532 - Patient Evaluation II 532-2 Patient Evaluation II. This course is designed to build on student's knowledge of pertinent physical exam skills, and increase knowledge regarding the medical history and clinical procedures. Students continue to improve skills in areas of the patient interview, medical terminology, and recording patient information.

PA533 - Patient Evaluation III 533-2 Patient Evaluation III. This course is designed to build on students' knowledge of physical exam skills, introduce new systems, and improve skills in areas of the patient interview, medical terminology, and recording patient information.

PA534 - Clinic Procedure Skills 534-2 Clinical Procedural Skills. Students develop and expand their skills in performance of clinical procedural skills needed for competency in office and hospital-based practice. Topics will include central line placement, IV therapy, EKG, lumbar puncture, venipuncture, casting, suturing, and thoracentesis.

PA535 - EKG & ACLS 535-2 EKG and Advanced Cardiac Life Support (ACLS). EKG/ACLS is designed to provide the knowledge and skills needed to read EKGs and to evaluate and manage the first ten minutes of an adult ventricular fibrillation/tachycardia arrest. Students learn to manage ten core ACLS cases, a respiratory emergency, four types of cardiac arrest, four types of pre-arrest emergencies, and stroke.

PA536 - Intro Surgical Setting 536-1 Introduction to the Surgical Setting. During this course, the student will be exposed to the various aspects of the general surgical setting. Fundamentals to be introduced include pre- and post-operative care, sterile technique, gowning and gloving, and the identification of surgical instruments.

PA545 - Health Care Systems 545-3 Health Care Systems. This course is designed to cover the following topics: delivery of health care, standards of care and guidelines as they affect practice issues, cost and effectiveness, economics of health care, insurance and health care, indigent medical care, the health workforce, access to care, health policy, and technology (electronic medical records, email, telemedicine).

PA547 - Research Methods & EBM 547-1 Research Methods and Evidence Based Medicine (EBM). This course focuses on scientific inquiry within the Physician Assistant practice, covering the application of basic research methodology including problem formation, research designs, sampling, measurement, data analysis technical writing and dissemination of research results, and research ethics. Students will also focus on developing evidence-based medicine (EBM) skills.

PA550 - Clinical Mentoring-Phase I 550-1 to 4 Clinical Mentoring - Phase I. Students gain clinical experience in the community setting by participating in a one-half day per week continuity clinic in Family Medicine with a designated mentor. Students register for this course during the first fall semester of the program. They register again for this course in the spring semester, until Phase II.

PA551 - Clinical Mentoring-Phase II 551-1 to 5 Clinical Mentoring - Phase II. Students continue to gain clinical experience in the community setting by participating in a one-half day per week continuity clinic in Family Medicine with a designated mentor. Students register for this course during the second

summer semester of the program. They register again for this course in subsequent semesters, until the Preceptorship. Maximum hours per term are 2.

PA580 - PBL Tutor Group Phase II 580-1 to 6 Problem Based Learning (PBL) Group Phase II. Phase II students participate in a one-half day per week problem based learning tutor group, in which they engage in the Barrowsian method of problem-based learning at respective Hubsites. This course is designated to foster independence in clinical reasoning and knowledge synthesis by working through patient problems, as well as improving the application of knowledge to clinical practice.

PA581 - Clinical Rotations I 581-3 Clinical Rotations I. This is the first (summer semester) in a three course sequence of supervised clinical experience in a variety of settings and nine specialty areas.

PA582 - Clinical Rotations II 582-6 Clinical Rotations II. This is the second course (fall semester) in a three course sequence of supervised clinical experience in a variety of settings and nine specialty areas.

PA583 - Clinical Rotations III 583-6 Clinical Rotations III. This is the third course (spring semester) in a three course sequence of supervised clinical experience in a variety of settings and nine specialty areas.

PA585 - Independent Study 585-1 to 6 Independent Study. Directed independent study in selected areas of Physician Assistant studies.

PA596 - Preceptorship 596-3 Preceptorship. The eight week preceptorship simulates the role of the Master's prepared graduate Physician Assistant, with supervision by the clinical preceptor. This is generally completed in a primary care area of medicine.

PA599 - Master's Seminar 599-1 to 15 Master's Seminar. This is a longitudinal course taken over several semesters in which students work on proposal design, development, construction, research, writing, and project presentation. The Master's Seminar culminates in defense of a Grand Rounds Presentation, Community Project Presentation, or a published Problem-Based Learning Module and Tutor Guide. Restricted to Physician Assistant majors.

PA601 - Continuing Enrollment 601-1 Continuing Enrollment. For graduate students who have not completed the program and are in the process of their Master's Project. The student must have completed all other program requirements to be eligible to register for this course. Concurrent enrollment in any other courses is not permitted. S/U or DEF grades only. Prerequisite: Completion of all Program coursework except PA 599.

Physics

The Department of Physics offers graduate programs leading to the Master of Science degree with a major in physics and to the Doctor of Philosophy degree in Applied Physics.

This program requires a \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Physics. Applicants must pay this fee by credit card.

Master of Science

In order to be considered for admission into the Master of Science program, students must have a baccalaureate degree in Physics, or equivalent. Applicants for admission to the Master's degree program are strongly encouraged to submit GRE scores together with other application materials.

In addition to the general requirements of the Graduate School for the Master of Science degree, the student must complete PHYS 500A (or mathematics equivalent), PHYS 510, PHYS 520A, PHYS 520B, and PHYS 530A, PHYS 530B.

Other specific requirements for the Master's degree are as follows:

A thesis is required, based upon not more than six nor less than three semester hours of 599-level credit. The 599 credit requirement is in addition to the minimum 15-hour requirement at the 500 level as stated in this catalog and should be distributed preferably over several terms of enrollment.

Each candidate for an M. S. degree is required to pass an examination, written or oral or both, covering graduate work including the thesis; the examination is administered by the student's thesis committee.

Each candidate for an M.S. degree is required to earn one credit in PHYS 581 by lecturing in the graduate seminar. An oral thesis defense satisfies this requirement.

Master of Science (Non-Thesis/Research Paper Option)

In order to be considered for admission into the Master of Science Non-Thesis Option (MSNT) program, students must have a baccalaureate degree in Physics, or equivalent.

In addition to the general requirements of the Graduate School for the Master of Science degree, the student must complete PHYS 425, PHYS 450, PHYS 500A (or mathematics equivalent), PHYS 510, PHYS 520A, PHYS 520B and PHYS 530A. Those students enrolled in the MS non-thesis option who have taken PHYS 425 and/or PHYS 450 as part of their undergraduate curriculum may replace those courses with any other 500-level course and/or 400-level course (after consulting with their respective advisory committee).

An advanced experimental or computational, or theoretical project resulting in a research paper is required, based upon not less than four semester hours of PHYS 598. The research paper has to be completed by the end of the second year in the program. It should be written as a standard scientific text (i.e., with appropriate referencing), and it should be between 15 and 20 pages in length. The research paper should explain in detail the project undertaken by the student enrolled in the MS non-thesis option and must contain background and motivation (with proper literature review), and problem statement and goals of the project, results, a discussion related to the work undertaken in accomplishing the goals and objectives, conclusions and plans for future work. The style that should be used is that appropriate for a manuscript submitted to Phys. Rev.

Further, it is also noted that the outcome of the project (in the form of the research paper) has to be approved by the student's advisory committee. Once the research paper is approved, an electronic version of the research paper must be filed in the Graduate School by submission at Open SIU.

Other specific requirements for the MSNT are as follows: Each candidate for an MSNT degree is required to have a CGPA of 3.0 (in 4.0 scale) throughout the program.

Doctor of Philosophy in Applied Physics

Program Description and Objectives

The Department of Physics offers a graduate program at the doctoral level leading to the Ph.D. degree in Applied Physics. The Applied Physics doctoral program is designed to provide advanced studies both in the application of the concepts and methods of physics to various research areas, including: materials, nanoscience and nanotechnology, quantum computing, computational physics, condensed matter physics, magnetism, thin films, and in the application of the methods and techniques of physics to the study of industrial processes and products. The Applied Physics Ph.D. provides students with broad, in-depth knowledge of the fundamentals of those areas of physics relevant to applications, as well as with advanced specialized knowledge in applied areas. The ultimate goal of this program is to produce graduates that are competent scientific researchers in Applied Physics, i.e., researchers that are capable of initiating and completing an independent investigation in a specific sub-field of Applied Physics. The graduates of this program will be able to fill the needs of academia, industry and government in the area of Applied Physics.

Admissions

Applicants will be admitted into the Applied Physics Ph.D. following one of three routes:

1. **Direct admission:** this option requires the applicant to have completed a Bachelor's degree in Physics (or its equivalent) with a grade point average of at least 3.25 (in exceptional cases the Department may solicit the Graduate School to waive this requirement).
2. **Accelerated admission:** students are admitted into the Master's degree program and after one semester they can be considered for admission into the doctoral program if they show exceptional research potential and have accumulated a GPA of 3.25.
3. **Regular admission:** for students who have completed a Master's degree in Physics or equivalent and have accumulated a GPA of 3.25 in graduate level courses (in exceptional cases the Department may solicit the Graduate School to waive this requirement). The students obtaining their Master's degree at SIU will have satisfied most of the core course requirements for the Applied Physics Ph.D.

All applicants for admission to the doctoral program in Applied Physics must submit Graduate Record Examination (GRE) scores together with other required application materials.

Course Requirements

In addition to the general requirements of the Graduate School, the student must complete a sequence of Required Basic Core Courses, and Elective Courses that includes:

Required Basic Core Courses

- PHYS 500A Mathematical Methods in Physics (3 credits)
- PHYS 510 Classical Mechanics (3 credits)
- PHYS 520A, PHYS 520B Electromagnetic Theory (6 credits)
- PHYS 530A, PHYS 530B Quantum Mechanics II (6 credits)

In addition, students are required to complete one additional course (3 credits only) from those in the following list:

Elective Courses

- PHYS 550 Computational Physics
- PHYS 545A Statistical Mechanics II (3 credits only)
- PHYS 565A Solid State Physics II (3 credits only)
- SCI 501A, SCI 501B Research Transmission Electron Microscopy
- SCI 502A, SCI 502B Research Scanning Electron Microscopy
- PHYS 575 Special Topics in Physics: Magnetism and Magnetic Materials
- PHYS 575 Special Topics in Physics
- PHYS 575 Special Topics in Physics: Spectroscopy of Materials
- PHYS 575 Special Topics in Physics: Surface Science
- PHYS 575 Special Topics in Physics: Quantum Computing
- PHYS 575 Special Topics in Physics: Hybrid Materials
- PHYS 575 Special Topics in Physics: Advanced Optics

The following courses are not allowed to count as electives: PHYS 599 (Thesis), PHYS 600 (Dissertation), and PHYS 601 (Continuing Enrollment).

Starting no later than the beginning of the third semester in the program, students will be required to enroll for two consecutive semesters in PHYS 570, a 3-credit hour per semester Special Project course.

In addition to the above-described coursework, while working on their dissertation, the students must complete 24 credit hours of PHYS 600 (Dissertation) in no less than two academic years of full-time work.

Admission to Candidacy

To be admitted to candidacy, the prospective doctoral candidate must satisfactorily complete the Qualifying Procedure. The Qualifying Procedure includes:

1. Three written examinations
2. A research proposal
3. The student's performance in Required Basic Core courses
4. The recommendation of the research advisor (if the student has a research advisor).

1. Three written examinations:

The students will take three written exams. The exams are chosen by the student from the following five possible topics: Quantum Mechanics, Classical Mechanics, Statistical Mechanics, Electromagnetic Theory and Solid State Physics.

The students will have to select three out of the five exams to take (i.e., they will not be allowed to pick the best three out of four or five).

The students will have to pass the three exams, as evaluated and determined by the Graduate Committee.

These written exams will be prepared at the undergraduate level. That is, at a level that is consistent with the corresponding courses at the 200-, 300-, 400- level at SIU.

The level will be specified by the corresponding textbooks used in these courses at SIU.

For Classical Mechanics Halliday and Resnick (or equivalent) specifies the 200- level and Symon or Thornton and Marion specifies the 300- and 400- level;

For E+M Theory, Halliday and Resnick (or equivalent) specifies the 200- level and Lorrain and Corson, or Griffiths or equivalent specifies the 300- and 400- level;

For Statistical Mechanics, at the 400-level only, "Thermal Physics" by Kittel and Kroemer specifies the level;

For Quantum Mechanics at the 300-level "Modern Physics" by Serway, Moser, and Moyer or equivalent, specifies the level, and "Introduction to Quantum Mechanics" (Second Edition), by David J. Griffiths specifies the 400 level.

For Solid State Physics, at the 400-level only "Introduction to Solid State Physics" by Kittel specifies the level.

The written exams will consist of a set of questions from which the students will get to choose a subset that they will answer. Where it is applicable (i.e. for Classical Mechanics, E+M and Quantum), some of the questions will be at the 200- level and others at the 300- and 400- level.

The written exams will be held one per day over the course of a week.

2. A written research proposal:

The research proposal has to be completed by the end of the second year in the program.

It should be written as standard scientific text (i.e., with appropriate referencing), and it should be between 10 and 15 pages in length.

The style that should be used is that appropriate for a manuscript submitted to Phys. Rev.

3. The course performance of the student in the required classes for the program. (Must have a grade point average of 3.25 (out of 4) in the basic core curriculum in Applied Physics).

4. If the student is engaged in research by the end of the first year in the program, the recommendation of the research advisor.

General Considerations

Students are expected to have completed the Qualifying Procedure by the end of the fourth semester in the doctoral program.

Students are required to take the exam at the end of their first Spring semester in the program.

The written exam portion of the Qualifying Procedure will be prepared and administered by an examination committee appointed by the Chair.

The written exam portion of the Qualifying Procedure will be held on a yearly basis, generally in early August.

Students will be allowed to participate in the exam portion of the qualifying procedure twice. The one exception to the above rule is that students who so desire can have a “free try” at the Qualifying Examination by taking it at the beginning of their first semester in the program without this instance counting as one of the two allowed opportunities to take the exam. Students are encouraged to attempt the written exam portion of the Qualifying Procedure as early as the beginning of their first semester in the program in order to make use of the free option.

Students will be allowed to change one exam area (of the three) per each time they take the exams. This adds up to a maximum total of two changes, if the student takes the exams in the free try. Note that what is limited to two times (or to three times, if the student takes advantage of the free try) is the number of times the student can participate in the qualifying exam procedure; i.e. it is not that the student can repeat two times each individual exam. The students can participate in the exam process twice (or three times with the free try) and must pass three exams at the end of their tries.

Those students who start at SIU in the Spring semester will have their free try at the beginning of the following Fall; they will be required to take this free try.

Students who complete the Master’s degree at SIU and then proceed to the Ph.D. will be considered as incoming doctoral students for the purpose of the free try exam. They will, however, be required to take this free try.

Those students who begin at SIU in the Fall can have their free try only in the Fall in which they start.

The Graduate Committee will evaluate all four points of the Qualifying Procedure for each student applicant and will decide on admission to candidacy for each applicant. The Graduate Committee will decide on what weight will be given to the different portions of the Qualifying Procedure.

Upon successful completion of the Qualifying Procedure, the Department will request the Graduate School to admit the student to candidacy for the doctoral degree, once the applicant has completed the required 24 hour residency period.

Dissertation Committee and Dissertation Examination

No later than six months after admission to candidacy, the student will request the appointment of a dissertation committee to supervise the student’s dissertation. This committee will include five faculty members, with at least one from outside the Department of Physics, at least one doing research in theoretical physics, and at least one doing research in experimental physics. The majority of the committee shall consist of faculty members from the Department of Physics. The committee will be chaired, in most cases, by the student’s dissertation supervisor. The committee will meet within two months after its formation to determine if any specific coursework, beyond the core curriculum, is

to be required of the student, and to determine if any special requirements might be appropriate for the student's particular research area. At this time (i.e., no later than eight months after admission to candidacy), the committee will be given a formal, written dissertation proposal and an oral presentation on the proposed research by the student.

Dissertation Defense

Upon completion of a dissertation demonstrating the student's ability to conduct independent research, the dissertation committee will administer a final oral examination. This oral examination shall consist of a defense of the dissertation. Upon the satisfactory completion of both the dissertation and the final examination, the committee will recommend the student for the doctoral degree.

Physics Courses

PHYS420 - Electricity and Magnetism II 420-3 Electricity and Magnetism II. Induced electromotive force, quasisteady currents and fields, Maxwell's equations, electromagnetic waves and radiation, with applications. Prerequisite: PHYS 320 with grade of C or better.

PHYS424 - Electronics 424-4 Electronics for Scientists. Coordinated two-hour lecture and four-hour laboratory study of electronics. Emphasis is on overall modern electronics and its applications in the experimental research laboratory setting. Topics include DC and AC circuit theory, measurement techniques, semiconductor active devices, operational amplifiers and feedback, digital circuits, Boolean algebra, microprocessors and large scale integration, digital to analog/analog to digital conversion, and data acquisition. Prerequisite: PHYS 203B or 205B and MATH 111 with a grade of C or better.

PHYS425 - Solid State Physics 425-3 Solid State Physics I. Structure of a crystalline solid; lattice vibrations and thermal properties; electrons in metals; band theory; electrons and holes in semiconductors; opto-electronic phenomena in solids; dielectric and magnetic properties; superconductivity. Prerequisite: PHYS 310, 320, and 430 with grade of C or better.

PHYS428 - Modern Optics and Lasers 428-3 Modern Optics and Lasers. Properties of electromagnetic waves in space and media, polarization and interference phenomena and devices, electro- and magneto-optic effects, optical gain, and lasers. Prerequisite: PHYS 420 with grade of C or better.

PHYS430 - Quantum Mechanics I 430-3 Quantum Mechanics I. An introduction to quantum phenomena, wells, barriers, Hydrogenic atoms, angular momentum and identical particles. Prerequisite: PHYS 305, 310, and 320 with a grade of C or better. Prior or concurrent enrollment in PHYS 420 is desirable.

PHYS431 - Atomic Physics 431-3 Atomic and Molecular Physics I. Atomic spectra and structure; molecular spectra and structure. Prerequisite: PHYS 430 with a grade of C or better.

PHYS432 - Nuclear Physics 432-3 Nuclear Physics I. Basic nuclear properties and structure; radioactivity, nuclear excitation, and reactions, nuclear forces; fission and fusion. Prerequisite: PHYS 430 with grade of C or better.

PHYS440 - Quantum Mechanics II 440-3 Applications of Quantum Mechanics. Applications of quantum mechanics to include time-independent and time-dependent perturbation theory, variational methods, introduction to solid-state physics and materials. Prerequisite: PHYS 430 with grade of C or better.

PHYS445 - Thermodynamics/Stat Mech 445-3 Thermodynamics and Statistical Mechanics. Laws of thermodynamics; Principles and Applications of Classical and Quantum Statistical Mechanics; Introduction to Phase Transitions. Prerequisites: PHYS 305 and PHYS 301 both with a grade of C or better; MATH 251 with a grade of C or better.

PHYS450 - Advanced Lab 450-3 Advanced Laboratory Techniques. Introduces students to experimental research and encourages them to develop and carry out experiments. Prerequisite: PHYS 305 and PHYS 355 with a grade of C or better. Lab fee: \$50.

PHYS458 - Laser and Optics Lab 458-2 Laser and Optical Physics Laboratory. Properties of laser beams and resonators, fluorescence and two photon spectroscopy, diffraction, Fourier transformation and frequency filtering, electro- and magneto-optic modulation, fiber propagation and related experiments. Prerequisite: PHYS 428 with grade of C or better.

PHYS470 - Special Projects 470-1 to 3 Special Projects. Each student chooses or is assigned a definite investigative project or topic. Prerequisite: PHYS 310, 320 or consent of instructor.

PHYS475 - Special Topics 475-3 Special Topics in Physics. These courses are advanced special topics in physics designed to enable undergraduate and graduate students to become well-versed in a particular and current research area of physics with the intention of preparing them for future research and/or industrial applications. They are offered as the need arises and interest and time permit. Students are required to give presentations. Special approval needed from the instructor.

PHYS476B - Biological Physics 476B-3 Introduction to Biological Physics. This course provides an introduction to how physics principles and techniques are applied to study and describe complex and emergent processes found at the biological and biomolecular level. This course combines several topics not usually covered in standard undergraduate science courses to qualify and quantify cell structure, mechanics, dynamics, self-assembly, and biological functionality. Prerequisites: Two semesters of an introductory physics sequence (PHYS 203A,B or PHYS 205A,B) with minimum grades of C, MATH 150 or concurrent enrollment.

PHYS476C - Computational Physics 476C-3 Introduction to Computational Physics. This course provides foundational knowledge in the usage of computers for solving natural problems in different types of physical systems. The class will give a thorough understanding of various numerical techniques such as interpolating/extrapolating data, integrating ordinary and partial differential equations, and solving linear algebra problems. Students will be guided to write programs for solving several applied physics problems in classical and modern physics. A brief survey of High Performance Computing will also be presented giving students a working knowledge of scientific computing. Prerequisites: Two semesters of an introductory physics sequence (PHYS 203A,B or PHYS 205A,B), with minimum grades of C and concurrent enrollment in PHYS 305. PHYS 301, PHYS 310 and PHYS 320 are not required but recommended.

PHYS476M - Materials Physics 476M-3 Introduction to Materials Science and NanoPhysics. This course will serve as an introductory course in Materials Science and Nanoscale Physics. Topics to be covered include: The need for studying Materials Science, classification of materials, advanced concepts in materials manufacturing, modern materials, nanoscale materials, electrical, thermal, magnetic and optical properties of materials, tailoring materials for application development, Techniques of Materials characterization, Nanomaterials and Nanotechnology, and Societal Impact. Prerequisites: Two semesters of an introductory physics sequence (PHYS 203A,B or PHYS 205A,B), with minimum grades of C, MATH 150 or concurrent enrollment.

PHYS476Q - Quantum Entanglement 476Q-3 Quantum Entanglement. This course provides an introduction to the theory of quantum entanglement and its use in quantum information science, especially for the task of communication. Topics include quantum teleportation, entanglement measures, and nonlocality. Prerequisite: MATH 221 with a grade of C or better.

PHYS500A - Mathematical Methods 500A-3 Mathematical Methods in Physics. Vector spaces and operators in physics. Hilbert spaces and complete orthonormal sets of functions. Elements and applications of the theory of analytic functions. Methods for the solution of partial differential equations of physics.

PHYS500B - Mathematical Methods 500B-3 Mathematical Methods in Physics. Vector spaces and operators in physics. Hilbert spaces and complete orthonormal sets of functions. Elements and applications of the theory of analytic functions. Methods for the solution of partial differential equations of physics.

PHYS510 - Classical Mechanics 510-3 Classical Mechanics. Generalized coordinates and forces. Lagrangian, Hamiltonian, and variational formulations of mechanics. Noether's Theorem. Central forces, oscillations.

PHYS520A - Electromagnetic Theory 520A-3 Electromagnetic Theory. Determination of static, electrostatic, and magnetostatic fields. Microscopic and macroscopic theory of insulators and conductors. Maxwell's equations; radiation, propagation and scattering of electromagnetic waves. Electrodynamics and special theory of relativity. Selected topics.

PHYS520B - Electromagnetic Theory 520B-3 Electromagnetic Theory. Determination of static, electrostatic, and magnetostatic fields. Microscopic and macroscopic theory of insulators and conductors. Maxwell's equations; radiation, propagation and scattering of electromagnetic waves. Electrodynamics and special theory of relativity. Selected topics.

PHYS530A - Quantum Mechanics II 530A-3 Quantum Mechanics II. Basic principles; the harmonic oscillator and the hydrogen atom; scattering; approximation and perturbation methods; spin, statistics.

PHYS530B - Quantum Mechanics II 530B-3 Quantum Mechanics II. Basic principles; the harmonic oscillator and the hydrogen atom; scattering; approximation and perturbation methods; spin, statistics.

PHYS531A - Advanced Quantum Mechanics 531A-3 Advanced Quantum Mechanics. Quantum theory of radiation; applications of field theory to elementary particles; covariant quantum electrodynamics; renormalization; special topics. Content varies somewhat with instructor. Prerequisite: PHYS 530. Special approval needed.

PHYS535A - Atomic/Molecular Physics II 535A-3 Atomic and Molecular Physics II. Recent experimental methods in atomic and molecular spectroscopy with applications. Detailed quantum mechanical and group theoretical treatment of atomic and molecular systems. Reactions between atomic systems. Special approval needed from the instructor.

PHYS545A - Statistical Mechanics II 545A-3 Statistical Mechanics II. Principles of classical and quantum equilibrium statistics; fluctuation phenomena; special topics in equilibrium and non-equilibrium phenomena.

PHYS545B - Statistical Mechanics II 545B-3 Statistical Mechanics II. Principles of classical and quantum equilibrium statistics; fluctuation phenomena; special topics in equilibrium and non-equilibrium phenomena.

PHYS550 - Computational Physics 550-3 Computational Physics. Using modern computers to solve physics problems. Integration of ordinary and partial differential equations, interpolation and extrapolation, finite element analysis, linear and nonlinear equations, eigensystems, optimization, root finding, Monte Carlo simulations, etc.

PHYS560A - Nuclear Physics II 560A-3 Nuclear Physics II. Fundamental properties and systematics of nuclei, scattering theory, nuclear two-body problem, nuclear models, nuclear many-body problem, electromagnetic properties of nuclei, radioactivity, nuclear reactions. Prerequisite: PHYS 530. Special approval needed from the instructor.

PHYS565A - Solid State Physics II 565A-3 Solid State Physics II. Fundamental concepts in solid state physics. Lattice vibrations, band theory of solids, the Fermi surface, dynamics of electrons. Transport, cohesive, optical, magnetic and other properties of solids. Special approval needed from the instructor.

PHYS565B - Solid State Physics II 565B-3 Solid State Physics II. Fundamental concepts in solid state physics. Lattice vibrations, band theory of solids, the Fermi surface, dynamics of electrons. Transport, cohesive, optical, magnetic and other properties of solids. Special approval needed from the instructor.

PHYS570 - Special Projects in Physics 570-1 to 36 Special Projects in Physics. Each student works on a definite investigative topic under the supervision of a faculty sponsor. The projects are taken from the current research in the department. Resourcefulness and initiative are required. Graded S/U only. Special approval needed from the instructor.

PHYS575 - Selected Topics in Physics 575-1 to 12 (1 to 4 per topic for a maximum of three topics) Special Topics in Physics. The courses reflect special research interests of the faculty and current developments in physics. They are offered as the need arises and interest and time permit. Students are required to give presentations. Special approval needed from the instructor.

PHYS581 - Graduate Seminar 581-1 to 3 (1,1,1) Graduate Seminar. Lectures on special topics by students, faculty, or invited scholars; participation is required of all graduate students. For credit each student may present a seminar in the form of a lecture on a theoretical or experimental topic, a demonstration experiment or apparatus critique. Graded S/U only.

PHYS598 - Research 598-1 to 50 (1 to 12 per semester) Research. Maximum credit 50 hours. Graded S/U only. Special approval needed from the instructor.

PHYS599 - Thesis 599-1 to 6 Thesis.

PHYS600 - Dissertation 600-1 to 30 Dissertation. Minimum 24 credit hours required for Ph.D. degree. Special approval needed from the instructor.

PHYS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

PHYS699 - Postdoctoral Research 699-1 Postdoctoral Research. One credit hour per semester. Concurrent enrollment in any other course is not permitted. Must be a Postdoctoral Fellow.

Plant Biology

The School of Biological Sciences offers graduate programs leading to a Master of Science in Plant Biology, Master of Science in Biological Sciences, Master of Science in Education in the Biological Sciences, and the Doctor of Philosophy in Plant Biology. The first master's degree was granted in 1948, and the first Ph.D. degree in 1965.

An advisory committee of faculty members from plant biology as well as other programs helps design individualized programs to meet the specific educational goals and career aspirations of each student. The broadly diversified faculty of the department provide research emphases in ecology and

environmental science, systematics and biodiversity, and molecular biology and physiology. Graduate degrees in plant biology will be awarded to students in recognition of their ability to do independent research as evidenced by the acceptance of a thesis or dissertation and the demonstration of competent scholastic ability.

The Plant Biology program is housed in various major teaching and research facilities on the campus of Southern Illinois University (SIU) including Life Science II and Life Science III. Faculty members provide research and laboratory facilities for students. The department supplies centralized facilities including laboratories for basic specialized computing, a core Facility for nutrient analyses, and molecular biology, as well as herbaria, growth chambers, field sites and greenhouses. Excellent cooperative research arrangements are available for activities including electron microscopy, chemical analyses and research photography. Southern Illinois University is strategically located in the transition zones of several North American biomes and is within a one hour drive to spectacular natural areas including Pine Hills Research Natural Area, Cypress Creek Bioreserve, Garden of the Gods, and Little Grand Canyon.

Admission

Applications should be completed online, addressed to the Director of Graduate Studies of the program, and must include a completed application form, three letters of recommendation, official transcripts of all institutions of higher learning attended, official GRE scores including the verbal, quantitative and analytical portions of the examination and grade point average. Students must meet both Graduate School and program admission requirements. Financial assistance is available on a competitive basis. To be considered for financial support a financial assistance form must also be submitted. Acceptance to the department is contingent on availability of faculty to advise the student, research space and facilities, and satisfactory evidence of funding to complete the degree program (e.g., teaching assistantship, research assistantship, or fellowship). International students whose native language is not English must have a minimum of 550 or the equivalent electronic score on the TOEFL test.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Plant Biology. Applicants must pay this fee by credit card.

Applicants must have a Bachelor's Degree (or equivalent) in a life science. A student who does not meet these requirements may petition for admission to the department, or register as a regular nondeclared graduate student. Either prior to admission or during their programs, students must complete a course in each of the following categories: 1) plant systematics or plant diversity; 2) plant physiology, cell biology or molecular biology; and 3) plant ecology or environmental science. A course in plant morphology or plant anatomy is strongly recommended. A student who does not meet these requirements may petition for admission to the department. All deficiencies, as determined by the student's advisory committee, must be removed during the first year by taking appropriate courses (graduate or undergraduate) with grades of *B* or better in each course. Criteria for admission include GPA (3.25 or higher), GRE scores, letters of recommendation, transcripts and availability of faculty, space and facilities. To be admitted into the program, at least one faculty member must be willing to serve as major advisor or co-advisor if the student desires to work in the Forestry or Plant, Soil and Agricultural Systems departments. Students desiring financial assistance for Fall semester admission should consult the Plant Biology website for the deadline. Application forms are available from the Director of Graduate Studies in the Department of Plant Biology or the Departmental website.

Accelerated Entry into the Doctoral Program

A student who enters a master's program in plant biology may, if deemed capable, be permitted to apply to be accelerated into a program leading directly to a Ph.D. degree, subject to the following conditions and specifications. In order to qualify for consideration, each endorsed student must: (a) have been in the SIU plant biology graduate program no less than one or more than two academic terms when proposed; (b) have a graduate grade point average of 3.75 or better; (c) have no grade in any course (conditional or otherwise) in his/her graduate record of less than *B*; and (d) be deemed by the Evaluation and Awards Committee as having superior capabilities.

Once advanced into the doctoral program by the Graduate School, the student shall be eligible to qualify for graduate assistance totaling no more than 60 months. Once in the doctoral program, the student is subject to all of the academic, retention, and exit requirements for a regular doctoral program.

If for any reason, a student who has been admitted into the accelerated entry program fails to complete the doctoral program successfully that student shall not automatically be re-admitted into the master's

program. Instead, the student may (if so desired) make formal application for admission into the master's program in plant biology.

Advisement

Following admission to the program and before registration for course work, the student must consult a staff member representing the field of major interest or, if this is unknown, the Director of Graduate Studies of the department, for assistance in planning the first registration. At registration, deficiencies and specific departmental requirements must be considered first.

Within the first semester of the program, the student must select a faculty member who is willing to serve as the major adviser. The major adviser in consultation with the student will then select appropriate faculty members to comprise the advisory committee. For the master's degree program, a minimum of three people shall make up the advisory committee, two of whom must be voting members of the Plant Biology program. The advisory committee for the Ph.D. degree program will be composed of at least five people, three of whom must be voting members of the plant biology faculty and one who must be from outside the department. The Director of Graduate Studies is an ex-officio member of each graduate advisory committee. The duties of the advisory committee are to:

1. plan, approve and file with the Director of Graduate Studies the program of study, and advise the student on his/her research program especially during the first semester of the student's program;
2. read, evaluate and file with the Director of Graduate Studies the student's research prospectus by the end of the second semester of the student's program;
3. monitor the student's progress and make any necessary changes in the program, while providing advice and direction on the student's research problem;
4. annually assess the student's progress and file recommendations as to retention or dismissal from the program with the Evaluation and Awards Committee;
5. participate in and grade the written and oral preliminary examinations for the Ph.D. degree;
6. read and evaluate the student's thesis or dissertation and make suggestions for improvement; and
7. administer the defense and final examination of the thesis or dissertation.

In either degree program, following establishment of the advisory committee and before advance registration for the second term, the student must meet with the advisory committee to discuss the program of courses for the degree and plans for research. In this regard, the committee is empowered to require work in areas with which the student's interests are allied. The advisory committee will advise the student on the selection of readings on general and historical topics of importance that may not be encountered in formal courses. Copies of the approved program of courses and the plans for research must be placed in the departmental files by the beginning of the second semester of study. An approved research prospectus must be completed and filed with the Director of Graduate Studies by the end of the second semester.

Research and Training Assignments

Research is required of each student in the program. In addition, each term the student must be engaged in a training assignment which supplements formal course work through professional activities such as research or teaching. The assignment varies according to the needs, professional goals, and competencies of the student, and increases in responsibility as the student progresses. The assignments require from 10 to twenty hours of service per week.

Academic Retention

The general regulations of the Graduate School with respect to academic retention shall be followed. In addition, no course in which the grade is below C shall count toward the degree or fulfillment of any requirement, but the grade will be included in the grade point average. No more than five hours of C work in graduate courses will count toward the degree.

All students are subject to regular review by the department's Evaluation and Awards committee. Those not attaining the minimum acceptable academic standards or who in any way fail to meet any other scheduled requirements or standards may be dropped from the program.

Program and Course Requirements

Appeals

Appeals for variations from the departmental graduate program must be presented in writing to the plant biology graduate faculty meeting as a committee of the whole. Appeals must receive approval from a majority of the total plant biology graduate faculty.

Appeals for changes in the student's graduate advisory committee or changes in the original program must be approved in the following order: (1) approval from adviser; (2) approval from the remaining members of the student's advisory committee. Student appeals for change of major advisor must be presented in writing to the plant biology graduate faculty meeting as a committee of the whole. Appeals must receive approval from the Evaluation and Awards Committee.

The Master's Degree

A minimum of 30 hours of graduate credit is required beyond the bachelor's degree. Fifty percent of courses counted towards the degree must be at the 500-level. Those 30 hours should include 1) a minimum of 22 hours of graded credit hours in Plant Biology or related disciplines (nine of these 22 may be graded individualized instruction courses); 2) seminars as specified below (generally four credit hours); and 3) at least four (maximum six) hours of thesis (PLB 599). All master's degree students must earn a minimum of two credit hours in graduate seminars during each year of residence. Students may take any seminar course approved by their committee, with the following constraints: 1) student must take PLB 590 their first fall term; and 2) student must take PLB 580 each spring semester of residency. A graduate minor of at least 10 graduate hours may or may not be required; this is to be determined by the student and the advisory committee.

As noted in the admission requirements, students will take, either prior to or during their program, at least one course in each of the following categories: 1) plant systematics; 2) plant physiology, cell biology, or plant molecular biology; and 3) ecology or environmental science. Courses in plant anatomy and genetics are strongly recommended also if they have not been taken prior to the program.

A program of study must be approved by the student's advisory committee and be submitted to the Director of Graduate Studies by the end of the first semester of the student's program. Changes made after the first semester of the student's program must be approved by the student's advisory committee.

At the time of completion of the thesis, the student must schedule a public seminar presentation of the thesis material and a comprehensive examination over the thesis and related subject matter.

The Ph.D. Degree

Course work for the degree shall include: 1) a minimum of 20 graded credit hours in plant biology or related disciplines; 2) minimum of two tools courses (generally 6 to 12 graded credit hours); 3) seminar credits as specified below (generally 8 to 10); and 4) minimum of 30 credit hours of dissertation research (PLB 600). All Ph.D. students must earn a minimum of two credit hours in graduate seminars each year until they advance to candidacy. Students may take any seminar course approved by their committee, with the following constraints: 1) student must take PLB 590 their first fall term; and 2) student must take PLB 580 each spring semester until they advance to candidacy.

As noted in the admission requirements, students will take, either prior to or during their program, courses in all of the following categories: 1) plant systematics; 2) plant physiology; cell biology or plant molecular biology; and 3) ecology or environmental science. Courses in plant anatomy and genetics are strongly recommended if they have not been taken prior to starting the program.

A program of study must be approved by the student's advisory committee and be submitted to the Director of Graduate Studies by the end of the first semester of the student's program. Changes made after the first semester of the student's program must be approved by the student's advisory committee.

Tools

The student shall demonstrate knowledge in two research tools approved by the student's advisory committee. A tool is defined as training in laboratory (or field) methods, instrumentation, technology, or communication skills including languages that are integral to the pursuance of research. Specific tool requirements will be determined by the student's advisory committee. Courses used to satisfy tool requirements shall not be applied toward the total number of hours required for the degree. A foreign language tool can be met by earning a grade of *B* or better in appropriate 400-level course (Latin, French, German, Spanish or Russian). The tool can also be met by passing an Educational Testing Service (ETS) examination in French, German, Spanish or Russian. The ETS passing level for French and German is 465 and for Russian and Spanish it is 440. A statistical tool requirement can be satisfied by earning a *B* or better in one or more graduate level statistics courses. Course recommendations for statistical tools include Ecological Analysis of Communities (PLB 444), Biostatistics (PLB 557), Advanced Biostatistics (PLB 558). Other courses can be used to satisfy a statistical tool requirement if deemed acceptable by the student's advisory committee. Tool requirements other than language or statistics may be completed by earning a *B* or better in courses approved by the student's advisory committee, including courses from outside the program.

Concentration in Ecology

Students opting to declare ecology as a concentration shall follow the same program as students in the Plant Biology Ph.D. degree program that do not declare a concentration subject to the following courses: Course work for the concentration in ecology shall consist of a minimum of 20 semester hours at the seminar, readings, research, dissertation, and research tool requirements. The Seminar in Plant Biology Ecology (PLB 589A) or equivalent must be taken every Fall and Spring semester until student achieves candidacy. The student's advisory committee shall consist of at least five members with a majority from the Department of Plant Biology and at least two members from outside the Department of Plant Biology. For the preliminary examination, the field of expertise shall be ecology. One of the two research tools will be statistics, and the other should demonstrate knowledge defined as training in laboratory (or field) methods, instrumentation, technology, or communication skills including language that is integral to the pursuance of ecological research.

Preliminary Examination

The preliminary examination will consist of two parts: a written examination and an oral examination. The written and oral examinations shall emphasize competence in:

1. One of the fields of expertise within the Program: plant systematics and plant diversity; plant physiology, cell biology and molecular biology; or ecology.
2. The student's designated area of specialization (as determined by the advisory committee), and
3. The student's research tools (see above) and a basic, general knowledge of Plant Biology (as defined by the PLB Faculty).

These three components of the written examination will be administered as separate entities. Subject matter covered in the two specialization examinations may be excluded from the general component at the discretion of the advisory committee.

The student, with the approval of his/her graduate advisory committee, will register with the Director of Graduate Studies to take the examination. The Director of Graduate Studies will then appoint a faculty member who is not on the student's advisory committee to chair the examination committee (EC) and administer both the written and oral examinations. The Chair of the examination committee will solicit questions from the student's advisory committee and from the faculty at large. Upon receipt of these questions, the Chair of the examination committee will call the committee together to construct and plan the written part of the examination. The student will be allocated one eight-hour block of time to complete each of the three components of the examination. The student may request additional time.

The student must pass all parts of the written examination to proceed to the oral examination. Pass means that the student has demonstrated through clear written statements a clear understanding of the topics presented in the written examination. A vote of the EC to pass or fail must be taken immediately following the grading of the written examination. Passing of the written examination will be determined by simple majority vote of the EC. If the student fails one or more of the three components of the

examination, he/she must be reexamined on the failed components. If the student fails any part(s) of the general examination, he or she must be reexamined on the failed part(s). In consultation with the advisory committee, the EC chair will schedule and administer the reexamination. The reexamination may not be taken during the same academic term. The student must pass the written examination by the second attempt to continue in the program.

Following passage of the written portion of the examination, the EC chair will schedule and administer the oral portion of the examination. The oral examination must be scheduled not sooner than 10 working days nor more than 30 working days from the completion date of the written examination. The EC chair will not participate in the questioning of the student and does not have a vote regarding the proceedings. The oral preliminary examination must be announced at least 10 working days before the examination is to be given. The examination may only be scheduled when classes are in session, including finals week. The examination shall last at least two hours and not more than four hours and should be scheduled to allow attendance of a maximum number of faculty members from the student's department and all of the preliminary examination committee members. The student's answers to the written examination will be made available to the graduate faculty (upon request) before the oral part of the preliminary examination. All attending graduate faculty members will be given the opportunity to express their opinion on the examination. A vote on performance in the oral examination must be taken immediately following completion of the examination. A pass requires a vote with no more than one dissenting member of the preliminary examination committee, and may have conditions. If the vote is pass, then two levels may be recognized: Pass and Pass with Distinction. A student will be allowed two attempts to pass the oral preliminary examination. Should a student fail a second attempt to pass the preliminary examination, he/she will be dropped from the program. Doctoral students entering the program with a master's degree must take the preliminary exam by the end of 30 months and must pass the preliminary examination and be admitted to candidacy by the end of 36 calendar months after first registering in the doctoral program.

Final Examination (Dissertation Defense)

The final examination will be oral. It must be preceded during that semester by a public seminar on the student's research findings. The student's advisory committee will notify the Director of Graduate Studies of its recommendation for the date of the final examination at least two weeks prior to the seminar. The seminar and examination must be announced at least 10 working days before the seminar and examination. The seminar and examination must be held when classes are in session, including finals week. The final examination shall last for no more than three hours. It is to cover the dissertation and related subject matter. Passage of the final oral examination should be construed to mean there shall be no more than one dissenting vote of the advisory committee. Should a student fail a second attempt to pass the final examination, they will be dropped from the program.

Plant Biology Courses

PLB400 - Plant Anatomy 400-4 Plant Anatomy. This course is an introduction to the differentiation, diversification and structure of plant tissues and organs, with emphasis on the organization of seed plants. Laboratory will include instruction in the techniques of microscopy used in the study of plant structure. Two lectures and two laboratories per week. Prerequisite: BIOL 213 or PLB 200 with grades of C or better. Lab fee: \$50.

PLB401 - Curation of Collections 401-2 Curation of Collections. This course will be an introduction to the curation of biological collections and strongly involve experiential learning through participatory activities with collections. This will involve an overview of museums, collection procedures, and the long-term features of high quality curation of specimens and will examine how a broad range of organisms is curated. Lab/Field trip fee: \$50.

PLB402 - Collections Management 402-2 Collections Management and Research Design. This course will build on the knowledge of collection curation. Research design as it specifically relates to the fields of natural history will be developed. Students will learn to utilize existing organismal collections and build their own research collections through directed research design. Students will be expected to write their own research proposal and to review other students' proposals. Prerequisite: PLB 401.

PLB408 - Plant Systematics 408-4 Elements of Plant Systematics. This course covers the principles of plant classification including history, nomenclature, specimen collection and preservation, current systematic methodologies, and a survey of major plant families. Two lectures and four hours of lab per week. Prerequisites: BIOL 213 or PLB 200 with grades of C or better. Lab fee: \$50.

PLB415 - Plant Morphology 415-5 Morphology of Vascular Plants. This course examines the external form, internal structure, and relationships of vascular plants. Three lectures and two laboratories per week. Prerequisite: BIOL 213 or PLB 200 with a grade of C or better (PLB 300 and PLB 400 recommended). Lab fee: \$40.

PLB416 - Limnology 416-3 Limnology. (Same as ZOO 415) Lakes and inland waters; the organisms living in them, and the factors affecting these organisms. Two lectures and one 4-hour laboratory alternate weeks. Prerequisite: BIOL 307 with a grade of C or better. Laboratory/Field Trip fee: \$15.

PLB419 - Plant Molecular Biology 419-3 Plant Molecular Biology. (Same as PSAS 419, CSEM 419) A survey of molecular phenomena unique to plant systems. Topics will include: genome organization and synteny between plant genomes, transcriptional and post-transcriptional control of gene expression, signal transduction, epigenetics, plant-pathogen interactions and responses to biotic- and abiotic-stresses. Prerequisite: BIOL 305 or CSEM 305. Restricted to junior standing.

PLB425 - Environmental Plant Phys 425-4 Environmental Physiology of Plants. (Same as CSEM 425; Same as PSAS 425) The environmental physiology of plants focuses on the 1) influence of abiotic factors (e.g., light, water, temperature, nutrients, pollutants) on growth, development, and yield; 2) mechanisms by which plants respond to these abiotic factors; 3) use of biotechnology to increase abiotic stress tolerance in model and crop plants. Prerequisite: PLB 320 or CSEM 409. A \$35 laboratory fee will be assessed.

PLB427 - Plant Biochemistry 427-5 Plant Biochemistry. (Same as CSEM 427 and PSAS 427) Exploration of fundamental biochemical pathways in plants with an emphasis upon carbon and nitrogen metabolism. Prerequisite: PLB 320 or consent of instructor. Lab fee: \$35.

PLB433 - Intro to Ag Biotechnology 433-3 to 7 Introduction to Agricultural Biotechnology. (Same as AGSE 433, ANS 433, CSEM 433, HORT 433, PSAS 433) This course will cover the basic principles of plant and animal biotechnology using current examples; gene mapping in breeding, transgenic approaches to improve crop plants and transgenic approaches to improve animals will be considered. Technology transfer from laboratory to marketplace will be considered. An understanding of gene mapping, cloning, transfer, and expression will be derived.

PLB435 - Pollination Ecology 435-3 Pollination Ecology. (Same as ZOO 435) This course will be an evolutionary and ecological examination of the interactions between plants and pollinators. Topics include pollination syndromes, plant breeding systems, pollinator foraging, learning, and behavior, specialized vs. generalized relationships, coevolution/cospeciation, chemical ecology, honey beekeeping & agricultural pollination, and conservation implications of pollinator relationships. Labs will provide hands-on experience in methods of investigating plant breeding systems, plant reproductive ecology, pollinator behavior and efficacy, pollen analysis, floral scent chemistry, and floral phenology. Prerequisite: BIOL 307 (General Ecology) with a grade of C or better or equivalent. For graduate students and senior undergraduates. Lab fee: \$75.

PLB438 - Molecular Genetics Lab 438-3 Plant and Animal Molecular Genetics Laboratory. (Same as AGSE 438, CSEM 438, PSAS 438, ZOO 438) Arabidopsis and Drosophila model organisms, lab-based training in laboratory safety, reagent preparation, phenotype analysis, genetics, DNA and RNA analysis, PCR, cDNA construction, cloning and sequencing of genes. Includes plant and bacterial transformation, and a population level analysis of genetic variation using RAPD markers in grasses and Alu insertion in humans. Two 2-hr labs and one 1-hr lecture per week. Prerequisite: BIOL 305 or equivalent or consent of instructor. Lab fee: \$30.

PLB440 - Grassland Ecology 440-3 Grassland Ecology. This course examines grassland structure and function in relation to various biotic and abiotic factors. Field trips will visit local grasslands. Two lectures and one 4-hour lab per week. Prerequisite: BIOL 307 or consent of instructor. Lab fee: \$50.

PLB443 - Restoration Ecology 443-3 Restoration Ecology. (Same as ZOO 443) Ecological restoration tests current understanding of ecosystem assembly and function. This course applies ecological theory to restoration, with an emphasis on factors influencing plant community assembly and evaluating restoration success. Two lectures a week and one four-hour lab alternate weeks. Prerequisite: BIOL 307.

PLB444 - Ecological Analysis Communities 444-4 Ecological Analysis of Communities. (Same as ZOO 444) Includes concepts and methods pertaining to the analysis of ecological data. Approaches will include a variety of methods for analyzing multivariate ecology, diversity, pattern, and spatial data. Laboratory will include the computer application of these concepts and methods to field situations. Two lectures and one 4 hour lab per week. Prerequisite: PLB/ZOO 360, BIOL 307. Lab fee: \$15.

PLB445 - Wetland Ecology & Mgmt 445-4 Wetland Ecology and Management. (Same as ZOO 445) This course provides students with experience in wetland ecology and management with an emphasis on wetland functioning, field sampling, and identification of common wetland plants. Prerequisite: BIOL 307 with a grade of C or better. Two lectures and one 4-hour lab per week. Lab fee: \$25.

PLB451 - Flora of Southern Illinois 451-3 Flora of Southern Illinois. Exposure to the major upland and lowland communities of southern Illinois with an emphasis on the identification, distribution and ecology of the natural and introduced floristic components. This is a field-based course wherein the students travel to local areas for plant identification. Each week, 4-8 hours per weekly session is spent in field work and travel to specific field sites is required via a university vehicle. Prerequisite: PLB 408 with a grade of C or better or consent of instructor. Field Trip fee not to exceed \$160.

PLB452 - Plant Population Ecology 452-4 Plant Population Ecology. This course covers principles and research techniques of plant population ecology including the spatial, age, size and genetic structures of plant populations. The origin of these different aspects of population structure, their influences upon each other and their temporal dynamics are also examined. Two lectures and one 4-hour lab per week. Prerequisite: BIOL 307 or consent of instructor. Lab fee: \$35.

PLB471 - Intro to Systems Biology 471-3 Introduction to Systems Biology. (Same as ZOO 472) The bioinformatic analysis of large genomic and post-genomic data sets. Integration of gene regulation, protein interaction, metabolite and hormonal signaling provides an understanding of basic cellular circuitry networks. Examine redundancy, robustness and decision making in biological systems. Lab includes databases, tools, and manipulation of large data sets. Prerequisite: BIOL 305 or CS 330. Lab fee: \$15.

PLB475 - Advanced Cell Biology 475-3 Advanced Cell Biology. Cell structure at molecular and cytological levels. Includes discussions of research methods, plasma membrane, cell exterior and recognition, the endomembrane system and related organelles, self-replicating organelles, the cytoskeleton, nuclear structure and function in cell replication, cell differentiation and response, and eukaryotic cell evolution. Prerequisite: BIOL 306 or equivalent.

PLB476 - Advanced Cell Biology Lab 476-2 Advanced Cell Biology Laboratory. Laboratory course to accompany Plant Biology 475. Light and electron microscopy, cell culturing, biochemical methods, and experimental protocols are used to study the structure of cell membranes, intracellular organelles, including the Golgi apparatus, ER, mitochondria, plastids, lysosomes, the cytoskeleton, and nucleus. Prerequisite: PLB 475 or concurrent enrollment.

PLB490 - Food Webs and Ecosystems 490-3 Energetics, Food Webs, and Ecosystems. (Same as ZOO 490) This course places conservation of particular species into the context of community and ecosystem management. Approaches to quantifying energy needs of individual species will be extended to models of trophic networks among multiple species. Food web structure and function, species interactions, and resilience to species loss species invasions, and environmental changes will be examined in light of landscape processes. Prerequisite: BIOL 307 or consent of instructor.

PLB492 - Honors in Plant Biology 492-2 to 6 Honors in Plant Biology. Individual research problems available to qualified juniors and seniors. Special approval needed from the department chair.

PLB493A - Reseach Topics PI Biol-Ecology 493A-1 to 4 Research Topics in Plant Biology-Ecology. Individual laboratory or field research under supervised direction. Does not count for thesis (PLB 599) or dissertation (PLB 600) credit. Special approval needed from the departmental chair.

PLB493B - Res Topics PI Biol-Systematics 493B-1 to 4 Research Topics in Plant Biology-Systematics. Individual laboratory or field research under supervised direction. Does not count for thesis (PLB 599) or dissertation (PLB 600) credit. Special approval needed from the departmental chair.

PLB493C - Res Top PI Biol-Physlgy/Mol Bi 493C-1 to 4 Research Topics in Plant Biology-Physiology/Molecular Biology. Individual laboratory or field research under supervised direction. Does not count for thesis (PLB 599) or dissertation (PLB 600) credit. Special approval needed from the departmental chair.

PLB501A - Trans Electron Microscope 501A-2 Research Transmission Electron Microscopy. (See SCI 501A)

PLB501B - Trans Electron Micro-Lab 501B-2 Research Transmission Electron Microscopy. (See SCI 501B)

PLB502A - Scanning Electron Microscopy 502A-2 Research Scanning Electron Microscopy. (See SCI 502A)

PLB502B - Scanning Electron Microscop Lab 502B-2 Research Scanning Electron Microscopy Lab. (See SCI 502B)

PLB520 - Plant Growth & Development 520-3 Plant Growth and Development. (Same as PSAS 520) Physiological control of developmental processes. Emphasis on exogenous growth-regulating compounds and their behavior in plants. Prerequisite: PLB 320 or consent of instructor.

PLB524 - Gene Regulatory Networks 524-3 Gene Regulatory Networks. (Same as PSAS 524) An examination of the integration of genes into networks including developmental, abiotic stress response, metabolic and photoreceptor gene regulatory networks. Includes motif discovery, cis-regulatory elements, discussion of transcription factor families, RNA interference, network theory, feedback loops, cytoplasmic inheritance, maternal effect, post-transcriptional and post-translational regulation. Includes 2 lectures and a 2 hr computational bioinformatics lab per week. Prerequisite: PLB 471 or permission of instructor.

PLB525 - Cell Biology Research Techniqs 525-2 to 16 (2 to 4, 2 to 4, 2 to 4, 2 to 4) Cell Biology Research Techniques. A special techniques course designed for graduate students specializing in cell studies. Provides instrumentation training, with emphasis on application of the method to a research project. (a) Quantitative Cytology. (b) Immuno-Labeling and Qualitative Histochemistry. (c) Deep Etching Techniques in Electron Microscopy. (d) Cell Fractionation and Biochemical Techniques. Course fee: \$50.

PLB525A - Cell Biology Research Tech 525A-2 to 16 (2 to 4, 2 to 4, 2 to 4, 2 to 4) Cell Biology Research Techniques-Quantitative Cytology. A special techniques course designed for graduate students specializing in cell studies. Provides instrumentation training, with emphasis on application of the method to a research project.

PLB525B - Immuno-Label & Histochem 525B-2 to 16 (2 to 4, 2 to 4, 2 to 4, 2 to 4) Cell Biology Research Techniques-Immuno-Labeling and Qualitative Histochemistry. A special techniques course designed for graduate students specializing in cell studies. Provides instrumentation training, with emphasis on application of the method to a research project.

PLB525C - Etching Tech Elect Micro 525C-2 to 16 (2 to 4, 2 to 4, 2 to 4, 2 to 4) Cell Biology Research Techniques-Deep Etching Techniques in Electron Microscopy. A special techniques course designed for graduate students specializing in cell studies. Provides instrumentation training, with emphasis on application of the method to a research project.

PLB525D - Cell Fraction & Biochem Tech 525D-2 to 16 (2 to 4, 2 to 4, 2 to 4, 2 to 4) Cell Biology Research Techniques-Cell Fractionation and Biochemical Techniques. A special techniques course designed for graduate students specializing in cell studies. Provides instrumentation training, with emphasis on application of the method to a research project.

PLB530 - Plant Ecophysiology 530-3 Plant Ecophysiology (Same as PSAS 530) A study of the physiological processes that influence the growth, reproduction, adaptation, and geographic distribution of plants. The ecophysiology of plant stress and plant interactions. Prerequisite: PLB 320 or CSEM 409; BIOL 307.

PLB535 - Energetic Aquatic Ecosystems 535-2 Energetic Aquatic Ecosystems. Special approval needed from the instructor.

PLB545 - Ecosystem Ecology 545-3 Ecosystem Ecology. (Same as ZOOL 545) Fundamentals of and human modification to atmospheric chemistry and cycling of major nutrients in terrestrial ecosystems are covered in the context of global change. Laboratory exercises provide methodology and analytical approaches to studying ecosystem structure and function. Two lectures a week and one four-hour lab alternate weeks.

PLB546 - Nutrient Cycling Methods 546-2 Nutrient Cycling Methods. Research in ecosystem ecology requires a basic understanding of biochemistry. Analytical methodology used to study pools and transformations of major nutrients in terrestrial ecosystems, applicable to freshwater systems, will be the focus of this laboratory course. Three hour laboratory every other week. Prerequisite: PLB 545 or concurrent enrollment. Course fee: \$30.

PLB547 - Tropical Studies Costa Rica 547-3 to 8 Tropical Studies in Costa Rica. Credit for field courses taken under the jurisdiction of the Organization for Tropical Studies in Costa Rica. Courses and credits will vary. Prerequisite: approval of OTS Advisory Committee at Southern Illinois University Carbondale.

PLB554 - Evolution Seminar 554-1 to 4 (1,1,1,1) Evolution Seminar. (Same as ANTH 554, MBMB 554) Advanced topics in evolutionary biology including genetics & development, evolutionary ecology, phylogeny, paleontology, biogeography, population genetics, molecular ecology, speciation, molecular evolution, and macroevolution. Topics will vary each semester. Seminar format group discussions and student presentations. Graded S/U. Special approval needed from the instructor.

PLB556 - Phylogenetics 556-3 Phylogenetics. (Same as ANTH 556, MBMB 556, ZOOL 556) An advanced introduction to modern methods of phylogenetic inference, emphasizing both theoretical background concepts and numerical approaches to data analysis. Topics include properties of morphological and molecular characters, models of character evolution, tree estimation procedures, and tree-based testing of evolutionary hypothesis. Special approval needed from the instructor.

PLB557 - Biostatistics 557-4 Biostatistics. (Same as ZOOL 557) Basic biostatistical procedures used by researchers in life sciences and related fields. Topics include descriptive statistics, probability and distributions, statistical models, likelihood methods, experimental design, analysis of variance, regression, correlation, and the use of statistical software.

PLB558 - Advanced Biostatistics 558-4 Advanced Biostatistics. (Same as ZOOL 558) Advanced biostatistical procedures used by researchers in life sciences and related fields. Topics include multiple and logistic regression, randomization tests, jackknife and bootstrap. Mantel tests, BACI designs, MANOVA, repeated measures analysis, and the use of statistical software. Prerequisite: PLB 557 or equivalent, ZOOL 557.

PLB570 - Grad Readings Plant Biology 570-2 to 3 Graduate Readings in Plant Biology. A course of individually assigned readings in botanical literature. Every semester. Special approval needed from the instructor. Graded S/U only.

PLB571 - Genomics Euk: Bioinformatics 571-4 Genomics of Eukaryotes: Bioinformatics. (Same as PSAS 571) Genomics, Proteomics and Bioinformatics are rapidly making important contributions to the Life Science through biotechnology. An appreciation of the genomic tools is important to all in agriculture and biology. The relationships between molecular biology bioinformatics and the biotechnology industry will be explored. Short independent practical projects in genomics, proteomics or bioinformatics will be pursued.

PLB578 - Population Genetics 578-3 Population Genetics. (Same as ZOOL 578) Genetic structure of populations, factors causing changes and principles governing rate and direction of change. Three lectures per week. Prerequisite: BIOL 304 and BIOL 305.

PLB580 - Departmental Seminar 580-1 to 6 Departmental Seminar. Student presentations and critiques of original research, including presentations by occasional invited speakers. Graded S/U only. Required of all graduate students in residence, when offered.

PLB589A - Sem in Plant Biology-Ecology 589A-1 to 12 (1 per topic per semester) Seminars in Plant Biology-Ecology. (Same as ZOOL 576) Discussions of current and historical research and literature in various subject areas of plant biology. Graded S/U only.

PLB589B - Seminar Plb-Molec/Bioch Physl 589B-1 to 12 (1 per topic per semester) Seminars in Plant Biology-Molecular and Biochemical Physiology. Discussions of current and historical research and literature in various subject areas of plant biology. Graded S/U only.

PLB589C - Sem Plb-Systemcs & Biodvrsity 589C-1 to 12 (1 per topic per semester) Seminars in Plant Biology-Systematics and Biodiversity. Discussions of current and historical research and literature in various subject areas of plant biology. Graded S/U only.

PLB590 - Introduction to Research 590-1 Introduction to Research. General introduction to research and graduate program policies. Guest presentations by department faculty. Fall only. Graded S/U only. Required of all graduate students during their first year in residence, when offered.

PLB591A - Research - Anatomy 591A-2 to 9 Research-Anatomy. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591B - Research - Bryology 591B-2 to 9 Research-Bryology. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591C - Research - Ecology 591C-2 to 9 Research-Ecology. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591D - Research - Morphology 591D-2 to 9 Research-Morphology. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591E - Research - Mycology 591E-2 to 9 Research-Mycology. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591F - Research - Paleobotany 591F-2 to 9 Research-Paleobotany. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591G - Research - Pathology 591G-2 to 9 Research-Pathology. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591H - Research - Photography 591H-2 to 9 Research-Photography. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591I - Research - Phycology 591I-2 to 9 Research-Phycology. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591J - Research - Physiology 591J-2 to 9 Research-Physiology. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB591K - Research - Systematics 591K-2 to 9 Research-Systematics. Assignments involving research and individual problems. Master's students may use this for their research for their thesis. Summer only. Graded S/U. Special approval needed from the instructor and the department.

PLB599 - Thesis 599-2 to 9 Thesis. Course to be taken in the preparation of the Master's thesis. Every semester. Special approval needed from the instructor. Graded S/U only.

PLB600 - Dissertation 600-1 to 36 (1 to 12 per semester) Dissertation. Course to be taken in the research for and in writing of the doctoral dissertation. Every semester. Graded S/U only. Special approval needed from the instructor.

PLB601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

PLB699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Plant Biology Faculty

Anterola, Aldwin M., Associate Professor, Ph.D., Washington State University, 2001; 2005. Metabolic pathways, Medicinal compounds, Nutraceuticals, biosynthesis of natural products.

Ashby, William C., Professor, *Emeritus*, Ph.D., University of Chicago, 1950, 1960.

Baer, Sara, Professor, Ph.D., Kansas State University, 2001; 2004. Ecosystem ecology, nutrient cycling, restoration ecology, and social ecology.

Battaglia, Loretta, Associate Professor, Ph.D., University of Georgia, 1998; 2003. Community ecology, wetland ecology, invasive species, climate change, multivariate methods.

Bozzola, John J., Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1975; 1983.

Crandall-Stotler, Barbara, Professor, *Emerita*, Ph.D., University of Cincinnati, 1968; 1970.

Gage, Karla L., Assistant Professor, Ph.D., Southern Illinois University Carbondale, 2013; 2015. Weed science, weed ecology, agroecology, Integrated Pest Management, herbicide resistance, invasive species.

Garwood, Nancy, Adjunct Professor, Ph.D., University of Chicago, 1979; 2005. Tropical botany, including community ecology, seed germination, seedling morphology, and systematics.

Geisler, J.B. Matthew, Associate Professor, Ph.D., The Ohio State University, 1999; 2006. Gene expression and protein interaction patterns, mathematical gene modeling, Arabidopsis, yeast and Drosophila interactomes.

Geisler-Lee, Jane, Adjunct Assistant Professor, Ph.D., The Ohio State University, 2002; 2007. Systems biology, cell wall, suberin, *Onoclea sensibilis*, genomics, transcriptomics, metabolic pathways, sporogenesis, rhizome development.

Gibson, David J., *Distinguished Professor*, Ph.D., University of Wales, 1985; 1992. Botany, plant ecology, population ecology, community ecology, grasslands, forests, Illinois prairie, agroecology, invasive species.

Lightfoot, David A., Professor, Ph.D., University of Leeds, 1985; 1991. Biotechnology (molecular); nitrogen assimilation; genetics and development.

Matten, Lawrence C., Professor, *Emeritus*, Ph.D., Cornell University, 1965; 1965.

Mohlenbrock, Robert H., Distinguished Professor, *Emeritus*, Ph.D., Washington University, 1957; 1957.

Neubig, Kurt M., Assistant Professor, Ph.D., University of Florida, 2012; 2015. Plant systematics, phylogenetics, floristics, DNA barcoding and pollination biology.

Nickrent, Daniel L., Professor, *Emeritus*, Ph.D., Miami University (Ohio), 1984; 1990. Distinguished research.

Renzaglia, Karen, Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1981; 2005. Distinguished research.

Richardson, John A., Associate Professor, *Emeritus*, M.F.A., Ohio University, 1969; 1969.

Robertson, Philip A., Professor, *Emeritus*, Ph.D., Colorado State University, 1968; 1970.

Sipes, Sedonia D., Associate Professor, Ph.D., Utah State University, 2001; 2001. Plant-insect interactions, pollination ecology, evolutionary ecology, chemical ecology, and systematics.

Tindall, Donald R., Professor, *Emeritus*, Ph.D., University of Louisville, 1966; 1966.

Vitt, Dale H., *Distinguished Research Professor, Emeritus*, Ph.D., University of Michigan, 1970; 2000.

Weber, Jennifer., Adjunct Assistant Professor, Ph.D., University of CA, Irvine, 2012; 2016. Evolutionary ecology, including breeding system evolution, pollination biology, population genetics and climate change biology.

Wood, Andrew J., Professor, Ph.D., Purdue University, 1994; 1996. Biotechnology, biochemistry, desiccation, drought, genetics, horticulture, plant physiology, stress.

Yopp, John H., Professor, *Emeritus*, Ph.D., University of Louisville, 1969; 1970.

Plant, Soil, and Agricultural Systems

The School of Agricultural Sciences offers the Master of Science degree in Plant, Soil and Agricultural systems with concentrations in the areas of crop, soil, and horticultural sciences with an emphasis in environmental studies in agriculture available in each of these three concentrations. The concentrations in crop, soil, and horticultural sciences can be pursued with either a thesis-option or a research paper (non-thesis) option. We offer graduate work in agricultural education and information and agricultural technologies.

Supporting courses in education, communication, engineering, plant biology, microbiology, chemistry, statistics, and other areas essential to research in the student's chosen field may be selected. Supporting courses are selected on an individual basis by the student and the advisory committee. Once the general field has been selected, the research and thesis may be completed in any one of the many divisions of that field. In field crops, the research may be directed toward crop production, management and precision farming, weeds and pest control, or plant breeding, genetics and biotechnology; in horticulture, the research and thesis may be in landscape design, vegetables, tree-fruits, small-fruits, floricultural and ornamental plants, plant tissue culture, or turf management; in soils, the research may relate to soil fertility, soil physics, soil microbiology, soil chemistry, or soil and water conservation; in environmental studies, the research may be directed toward water pollution, reclamation of strip-mined soil, or agricultural chemical pollution problems. Often two of these more restricted areas can be combined in one thesis/research problem.

Agricultural education coursework is designed for instructors in secondary schools, for students preparing for employment at junior colleges, and for those desiring to continue their education by obtaining a Ph.D. degree. Agricultural information coursework is designed to provide graduate training for extension agents, agricultural communication professionals, product-education specialists, and others who are interested in agricultural information processing and transfer to a variety of non-student clientele. Agricultural technologies coursework is designed to offer students interested in technology based systems the opportunity to study one or more of the following areas: (a) power and machinery; (b) product handling; processing, and storage, (c) farm equipment evaluation; and (d) precision farming. Each of these areas offers application in agricultural environmental studies.

Students interested in plant, soil and agricultural sciences at the doctoral level can be admitted to a program of study leading to the Ph.D. degree in Agricultural Sciences, Plant Biology, or through the Environmental Resources and Policy Ph.D. program.

Admission

Application for admission must include an online application available at gradschool.siu.edu, a statement of interest, college transcripts, and four letters of recommendation. Letters should be requested from four persons who can evaluate the student's academic ability. Final admission to the program and a particular concentration administered by the Plant, Soil and Agricultural Systems program is made by the department. Minimal admission requirements to the program are: a) completion of the plant, soil and agricultural systems or agricultural systems undergraduate requirements and b) a minimal grade

point average of 2.7 (A = 4.0). The students who do not meet the requirement of completing the required courses in the undergraduate program in plant, soil and agricultural systems or agricultural systems may apply to enroll as nondeclared students to make up these deficiencies. Undergraduate coursework taken to correct these deficiencies will not apply to the minimum requirements for the master's degree. Students entering the Plant, Soil and Agricultural Systems graduate program with a GPA below 2.70 are accepted on a conditional basis and must enroll in 12 hours of structured courses at the 400–500 level and make a GPA of 3.0 or be suspended from the program.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Plant, Soil and Agricultural Systems. Applicants must pay this fee by credit card.

Program Requirements

The crop, soil, and horticultural sciences concentrations can be pursued as a 30-credit hour with thesis program or a 40-credit hour with research paper (non-thesis) option. The ecological urban landscapes concentration is 30 credit hours, 27 online credit hours, and three credit hours of an applied practicum. These are described below:

Thesis option

If the student submits a thesis, minimum coursework requirements for the master's degree may be fulfilled by satisfactory completion of 30 semester hours of graduate credit. At least 20 hours of that credit must be from structured courses. 50% of course credit hours are required at the 500 level, of which no more than 10 hours may be from unstructured courses. Graduate seminar is required but is not a structured course. Overall, at least 15 semester hours must be from departmental courses.

Research paper (non-thesis option)

If the student submits a research paper (non-thesis option) minimum coursework requirements for the master's degree may be fulfilled by satisfactory completion of 40 semester hours of graduate credit. At least 30 hours of that credit must be from structured courses. At the 500 level, 18 hours of course credit are required, of which no more than 10 hours may be from unstructured courses. Graduate seminar is required but is not a structured course. Overall, at least 25 semester hours must be from departmental courses.

Students who wish to teach in agriculture education must complete a minimum of 15 hours in agriculture (including agricultural education), six hours of research methods or statistics, and six hours in education or community development. M.S. students usually take four to six hours of research or thesis, and complete the additional hours by taking courses in education or agriculture.

Each student, whether in the thesis or non-thesis option, will be assigned a mutually agreed upon major professor to direct the program. The major professor will serve as chair of the student's advisory committee which will consist of at least two members from within the department and may include one member from another department or program. Each master's degree candidate must pass a comprehensive oral examination covering graduate work including the thesis or research paper.

PSAS 590 Readings and PSAS 592 Special Problems - available for students who have completed a course for another degree and need additional coursework to fulfill 30 credit hours.

Plant, Soil, and Agricultural Systems Courses

PSAS400 - Trends-Soil Sci & Agronomy 400-3 Trends in Soil Science and Agronomy. A discussion session format will be employed as a means of acquainting students with recent literature and allowing them to remain current with latest developments in their area of specialty. Special approval needed from the department.

PSAS401 - Agricultural Plant Pathology 401-2 Agricultural Plant Pathology. A study of macro and micro-organisms and environmental factors that cause disease in plants of agricultural importance; of the

mechanisms by which these factors induce disease in plants; and of the methods for managing diseases and reduce the damage they cause. Special approval needed from the department.

PSAS402A - Problems Ag Education 402A-3 Problems in Agricultural Education. Designed to improve the techniques related to award programs and application processes of agricultural education specialists through discussion, application, organization, and assignment to problems in the field of agricultural education. Emphasis will be placed on conceptual understanding of FFA and Agricultural Education award programs, applications, Supervised Agricultural Experience Program, and National Chapter Award Program, affiliated professional partnerships, and external sources for developing the entire Agricultural Education program.

PSAS402B - Problems Agri Tech 402B-1 to 6 Problems in Agricultural Technologies. Designed to improve the techniques of agricultural mechanization workers through discussion, assignment, and special workshops on problems related to their field. Emphasis will be placed on new innovative and currently developed techniques for the field. A limit of six hours will be counted toward graduation in Master's degree program. Special approval needed from the department.

PSAS403A - Field Crop Diseases 403A-2 Field Crop Diseases. A survey of major diseases of important field crops in the United States. Disease identification, cycles, and management strategies will be addressed. Special approval needed from the department.

PSAS403B - Hort Crop Diseases 403B-2 Horticultural Crop Diseases. A survey of major diseases of important horticultural crops in the United States. Disease identification, cycles, and management strategies will be addressed. Special approval needed from the department.

PSAS403C - Turfgrass Diseases 403C-1 Turfgrass Diseases. A survey of major diseases of important turfgrasses in the United States. Disease identification, cycles, and management strategies will be addressed. Special approval needed from the department.

PSAS403D - Tree Diseases 403D-1 Tree Diseases. A survey of major diseases of important tree species in the United States. Disease identification, cycles, and management strategies will be addressed. Special approval needed from the department.

PSAS405 - Plant Breeding 405-3 Plant Breeding. Principles of plant breeding emphasized together with their application to the practical breeding of agronomic, horticultural and forest plants. Special approval needed from the department. Field trip costs approximately \$10.

PSAS408 - World Crop Prod Problems 408-3 World Crop Production Problems. Ecological and physiological factors influencing production in various areas of the world. Natural limitations on world crop production. Non-agricultural factors influence world crop output. Prerequisite: CSEM 200.

PSAS409 - Crop Physiology 409-3 Crop Physiology. Principles of basic plant physiology. Topics include cell structure, photosynthesis, respiration, water and mineral relations, vascular transport and plant growth regulators. Prerequisites: PLB 200, CHEM 140B. Course fee: \$50.

PSAS411 - Human Res Dev Program AG 411-3 Human Resource Development Programs in Agriculture. Principles and procedures of human resource development (HRD) programs in agriculture with emphasis on program determination and methods. Special approval needed from the department.

PSAS412 - Methods:Ag Mechanization 412-3 Methods of Agriculture Mechanization. Theory and use of educational materials and devices adaptable to the needs and interests of educators involved in agricultural mechanization laboratories. There is a \$15 laboratory fee for this course.

PSAS414 - Adult Ed Methods 414-3 Adult Education Procedures, Methods and Techniques. Determining adult education needs and interests of the community. Securing and organizing the information needed for adult education programs and planning teaching activities.

PSAS415 - Beg Teaching Seminar 415-3 Beginning Teacher Seminar. The application in the professional field setting, of principles and philosophies of the education system. Includes application of principles of curricula construction, programming student and community needs. Special approval needed from the department.

PSAS419 - Plant Molecular Biology 419-3 Plant Molecular Biology. (Same as PLB 419) A survey of molecular phenomena unique to plant systems. Topics will include: genome organization and synteny between plant genomes, transcriptional and post-transcriptional control of gene expression, signal transduction, epigenetics, plant-pathogen interactions and responses to biotic-and abiotic-stresses. Special approval needed from the department.

PSAS420 - Crop Pest Control 420-4 Crop Pest Control. Study of field pests of forest, orchard, field and garden crops; pest control principles and methods; control strategy; and consequences of pest control operations. Special approval needed from the department. Lab fee: \$35.

PSAS421 - Turf Mgt Issues/Strategies 421-3 Turf Management Issues and Strategies. Issues in environment, technology, management, society, politics, business, and sports that interact with turf management. Students will utilize periodicals and other references for preparing papers addressing these issues. Prerequisite: HORT 322 or permission of instructor. Lab fee: \$25.

PSAS422 - Turf Science & Pro Mgmt 422-3 Turfgrass Science and Professional Management. Basic concepts of physiology, growth, and nutrition of turfgrasses and their culture. Application of turfgrass science to management of special areas, such as golf courses, athletic fields, sod farms, and to the turfgrass industry. Prerequisite: CSEM 240 and HORT 322 or equivalent or consent of instructor. Lab fee: \$50.

PSAS423 - Greenhouse Mgt 423-3 Greenhouse Management. Principles of greenhouse management controlling environmental factors influencing plant growth; greenhouses and related structures; and greenhouse heating and cooling systems. Prerequisite: HORT 220 or consent of instructor. Laboratory fee: \$40.

PSAS424 - Floriculture 424-4 Floriculture. Production, timing and marketing of the major floricultural crops grown in the commercial greenhouse. Each student will have an assigned project. Special approval needed from the department. Laboratory fee: \$40.

PSAS425 - Environmental Plant Phys 425-4 Environmental Physiology of Plants. (Same as PLB 425) The environmental physiology of plants focuses on the 1) influence of abiotic factors (e.g., light, water, temperature, nutrients, pollutants) on growth, development, and yield; 2) mechanisms by which plants respond to these abiotic factors; 3) use of biotechnology to increase abiotic stress tolerance in model and crop plants. Prerequisite: PLB 320 or CSEM 409. A \$35 laboratory fee will be assessed.

PSAS426 - Genomics & Bioinformatics 426-4 Genomic and Bioinformatics. The course is designed to introduce students from a variety of backgrounds and departments to the scope and methodology of genomic and bioinformatic sciences. Real problems and solutions from genome data analysis are studied in this course to see how high throughput genomics is driving bioinformatics, and changing the biological sciences in revolutionary ways. Special approval needed from the department.

PSAS427 - Plant Biochemistry 427-5 Plant Biochemistry. (Same as PLB 427) Exploration of fundamental biochemical pathways in plants with an emphasis upon carbon and nitrogen metabolism. Special approval needed from the department. Lab fee: \$35.

PSAS428 - Ad Landscape Design I 428-3 Advanced Landscape Design I. Development of the design process, graphics and verbal communication of landscape projects. Emphasis on large-scale projects and residential design. Special approval needed from the department. Laboratory fee: \$25.

PSAS429 - Adv Landscape Design II 429-3 Advanced Landscape Design II. Development of the design process, graphics and verbal communication of landscape projects. Emphasis on construction details, color rendering and portfolio development. Special approval needed from the department. Laboratory fee: \$25.

PSAS430 - Plant Propagation 430-4 Plant Propagation. Fundamental principles of asexual and sexual propagation of horticultural plants. Actual work with seeds, cuttings, grafts and other methods of propagation. Prerequisite: HORT 220. Field trip costs approximately \$5. Lab fee: \$40.

PSAS431 - Landscape Construction 431-4 Landscape Construction. An introduction course in the basic elements of landscape construction dealing with wood, concrete, masonry and stone. Emphasis will be placed on safety, construction interpretation of construction drawings, specifications for

specific structures, materials selection, cost estimation, site preparation, and construction techniques. Prerequisite: HORT 220. Laboratory fee: \$170.

PSAS432 - Garden Ctr & Nursery Mgt 432-4 Garden Center and Nursery Management. Principles and practices in both field and container production of ornamental landscape materials and the marketing of landscape plant materials at the nursery and retail garden center. Business management of both nurseries and garden centers will be included. Special approval needed from the department. Laboratory fee: \$50.

PSAS433 - Intro to Ag Biotechnology 433-3 to 7 Introduction to Agricultural Biotechnology. (Same as ANS 433, PLB 433) This course will cover the basic principles of plant and animal biotechnology using current examples; gene mapping in breeding, transgenic approaches to improve crop plants and transgenic approaches to improve animals will be considered. Technology transfer from laboratory to marketplace will be considered. An understanding of gene mapping, cloning, transfer, and expression will be derived.

PSAS434 - Woody Plant Maint 434-3 Woody Plant Maintenance. Care and management of ornamental shrubs and trees commonly used in the landscape. Topics to include trimming, pruning, fertilization, transplanting and diagnosis of woody plant problems. Special approval needed from the department.

PSAS435 - Ag Mol Biotech Seminar 435-1 to 4 Agricultural Molecular Biotechnology Seminar. Molecular Biology is rapidly making important contributions to agricultural science through biotechnology. An appreciation of the techniques of molecular biology and their application to plant improvement is important to all in agriculture and biology. The relationships between plant molecular biology and the biotechnology industry will be discussed. Presentations on particular research problems will be made. Graded S/U only.

PSAS436 - Successful Fruit Growing 436-4 Successful Fruit Growing. Learn how to grow and use temperate fruit trees for your pleasure and/or economic benefit. Learn to use the basic principles of plant-environment interaction to understand and solve common problems found in the culture of tree fruit crops in the landscape, garden or orchard. Master the secrets of fruit growing through emphasis on hands-on experiential laboratories. Focus on Midwest culture of tree fruit and nut crops. One-day field trip. Required textbooks mandatory. Special approval needed from the department. Laboratory fee: \$135.

PSAS437 - Vegetable Production 437-4 Vegetable Production. Culture, harvesting, and marketing of vegetables; with morphological and physiological factors as they influence the crops. Special approval needed from the department. Laboratory fee: \$25.

PSAS438 - Molecular Genetics Lab 438-3 Plant and Animal Molecular Genetics Laboratory. (Same as PLB 438, ZOO 438) Arabidopsis and Drosophila model organisms, lab-based training in laboratory safety, reagent preparation, phenotype analysis, genetics, DNA and RNA analysis, PCR, cDNA construction, cloning and sequencing of genes. Includes plant and bacterial transformation, and a population level analysis of genetic variation using RAPD markers in grasses and Alu insertion in humans. Two 2-hr labs and one 1-hr lecture per week. Prerequisite: BIOL 305 or equivalent or consent of instructor. Lab fee: \$30.

PSAS439 - Landscape Design Software 439-3 Introduction to Landscape Design Software. Introduces students to a popular software program used to create landscape designs. Emphasis is on learning the software program rather than learning the design process. Prerequisite: HORT 328A and HORT 328B.

PSAS441 - Soil Morph & Classif 441-3 Soil Morphology and Classification. Development, characteristics, and identification of soils, study of profiles; and interpretation and utilization of soil survey information in land use planning. Special approval needed from the department. Field trip costing approximately \$5.

PSAS442 - Soil Physics 442-3 Soil Physics. A study of the physical properties of soils with special emphasis on soil and water relationships, soil productivity and methods of physical analysis. Prerequisite: CSEM 240.

PSAS443 - Soil Management 443-3 Soil Management. The soil as a substrate for plant growth. Properties of the soil important in supplying the necessary mineral nutrients, water and oxygen and for

providing an environment conducive to plant root system elaboration. Soil management techniques that are important in optimizing plant growth. Prerequisite: CSEM 240.

PSAS445 - Irrigation Princ & Pract 445-3 Irrigation Principles and Practices. This course will cover basic principles of irrigation sciences; water requirements of crops; soil water relationship; water application methods including flooding, sprinkler and drip (or trickle) systems; water conveyance, distribution and measurement; evaluation of irrigation efficiency; and irrigation scheduling. Considerations will also include crop production effects and economic aspects of irrigation. Special approval needed from the department.

PSAS446 - Soil & Water Conservation 446-3 Soil and Water Conservation. Covers the principles of hydrologic processes and soil erosion. Consideration will be given to the occurrence of soil erosion as it affects humans, food production and the environment. The methods and technologies for protecting against and controlling of erosion will also be discussed. Special approval needed from the department.

PSAS447 - Soil Fertility 447-3 Fertilizers and Soil Fertility. Recent trends in fertilizer use and the implications of soil fertility build up to sufficiency and/or toxicity levels; the behavior of fertilizer material in soils and factors important in ultimate plant uptake of the nutrients; the plant-essential elements in soils and ways of assessing their needs and additions; tailoring fertilizer for different uses and management systems; implication of excessive fertilization in our environment. Concurrent enrollment in PSAS 448 required. Special approval needed from the department.

PSAS448 - Soil Fertility Evaluation 448-2 Soil Fertility Evaluation. A laboratory course designed to acquaint one with practical soil testing and plant analysis methods useful in evaluating soil fertility and plant needs. One hour lecture, two hours laboratory. Concurrent enrollment in PSAS 447 required. Special approval needed from the department. Laboratory fee: \$15.

PSAS454 - Soil Microbiology 454-4 Soil Microbiology. (Same as MICR 454) A study of microbial numbers, characteristics and biochemical activities of soil microorganisms with emphasis on the transformation of organic compounds, nitrogen phosphorus, sulfur, iron and other plant essential nutrients. Prerequisite: CSEM 240 or MICR 301. Lab fee: \$15.

PSAS455 - Plant-Microbe Interactions 455-3 Biology of Plant-Microbe Interactions. The molecular basis of post-pathogen interactions and disease development in plants is examined with a critical review of original and current literature focusing on the mechanisms of pathogenesis, virulence, disease development and resistance, and response mechanisms in plants. Special approval needed from the department.

PSAS463 - Ag Electrical Systems 463-3 Agricultural Electrical Systems. Electrical knowledge and basics skills are developed and implemented with practical exercises and projects. Electrical circuits will be planned and constructed, with emphasis on convenience, codes and safety. Laboratory fee: \$40.

PSAS466 - Vine & Small Fruit Culture 466-4 Vine and Small Fruit Culture. Study of the developmental patterns and environmental responses of important vine and small fruit crops; strawberries, brambles, blueberries, grapes and exotic crops. Learn to adapt these crops to profitable culture for the amateur or professional with a Midwest focus. Practical hands-on experience in the classroom and the field. Two one-day field trips required. Required textbooks mandatory. Special approval needed from the department. Lab fee: \$150.

PSAS467 - Wines of the World 467-3 Wines of the World. Varieties, terroir, culture and connoisseurship. Study the impact of varietes, terroir and culture on important wines from regions around the world. Learn wine geography and its effect on wine character with practical hands-on experience and expand connoisseurship skills. A team approach to wine appellation presentations and a term project involved in the wine trade will teach industry production, marketing and networking skills. Meet once a week for 4 hours; 2 hr lecture, 2 hr lab. Meeting time arranged for convenience of majority interested in taking the class, with instructor approval. Prerequisite is successful completion of HORT 333, From the Vine to its Wine, with a grade of C or better. Must be 21 years of age prior to the beginning of class to enroll. Proof of age and signature on informed consent form required at first class meeting. Purchase and use of required textbook mandatory. Laboratory fee of \$192.

PSAS468 - Weeds-Their Control 468-3 Weeds - Their Control. Losses due to weeds, weed identification and distribution, methods of weed dissemination and reproduction, mechanical, biological and chemical control of weeds. State and Federal legislation pertaining to weed control herbicides. Herbicide commercialization. Special approval needed from the department. Field Trips costing approximately \$5.

PSAS469 - Organic Gardening 469-3 Organic Gardening. This class will focus on the philosophical background of organic farming, as well as the biological, environmental and social factors involved in organic food production. The student will learn the basic principles of successful organic gardening without the need to use man-made synthetic chemical sprays and fertilizers. Topics covered will include soils and organic fertilizers, composting and mulches, companion planting and crop rotation, organic cultivation of fruit, vegetable and ornamental flowers/shrubs, organic pest and disease control, permaculture, and organic garden planning design and maintenance.

PSAS470 - Post Harvest Handling 470-2 Post Harvest Handling of Horticultural Commodities. Fundamental principles of post harvest physiology, handling, and evaluation of horticultural commodities will be covered. Specific details will be given on vegetable, fruit, ornamental and floricultural commodities. Prerequisite: HORT 220 and PLB 320. Field trip costing approximately \$30.

PSAS472 - Precision Agriculture 472-3 Precision Agriculture. A study of the core components of Precision Agriculture including the Global Positioning System (GPS), multispectral and hyperspectral remote sensing technology, Geographic Information Systems (GIS), soil sampling, yield monitoring, and analysis & decision making systems applied for site specific management of production agriculture resources. Laboratory fee: \$5.

PSAS473 - Agricultural Automation 473-3 Agricultural Automation. This course introduces students to topics such as power distribution, programmable controllers, sensors and components, ladder control circuits and diagrams, and motor controls. The lab will address automation issues for different industrial processes such as pasteurization. Lab fee: \$20.

PSAS475 - Golf Course Green Instal 475-4 Golf Course Green Installation and Maintenance. This course will mainly focus on the requirements, installation, care and maintenance of the rooting media of golf course putting green and turfgrass on disturbed soils. Prerequisite: CSEM 240.

PSAS476 - Ag Safety & Health 476-3 Agricultural Safety and Health. Analysis of safety and health issues important to managers and supervisors in agricultural operations. Topics include agricultural accident data, causes and effects of accidents, hazard identification, strategies for accident prevention, response to accidents and health risks and safeguards. Development and documentation of accident and illness prevention activities in the workplace. Special approval needed from the department.

PSAS480 - Designing Outdoor Spaces 480-3 Designing Outdoor Spaces. This course will instruct and challenge the student to design outdoor spaces that cultivate a sense of place as related to the site and the user. The course will review fundamental landscape planning process including principles and elements of design with an emphasis on "green" decision making. Special approval needed from the department.

PSAS483 - Ag Processing Systems 483-3 Agricultural Processing Systems. This course provides students with an understanding of the design principles, equipment, procedures and processes utilized in handling, processing and storing agricultural products. Prerequisite: AGSE 371.

PSAS486 - Invasive Plant Ecology & Mgmt 486-3 Invasive Plant Ecology and Management. (Same as FOR 486) Ecology and evolution of invasive plant species, with a focus on land management, including characteristics and biology, introduction and spread, population dynamics, community impacts and ecological interactions, and invasive plant evolution and adaptation, as well as management techniques and considerations, including biological, chemical, and mechanical control. Prerequisite: BIOL 307 or consent of instructor. Restricted to junior standing.

PSAS488 - Food Engineering Technology 488-3 Food Engineering Technology. This course introduces the basic principles of facilities planning for larger operations and complexes of the food processing industry, and to gain management/technology insight in food engineering technology. Special approval needed from the instructor.

PSAS495 - Food & Pharma Packaging 495-3 Food and Pharmaceutical Packaging. Applied packaging and food engineering principles used in packaging, storing, preserving, and transporting food and drug products. Topics include packaging functions, graphic design, printing, sterilization, and food safety. Utilization of paper, glass, plastics, laminates, and metals. Applications of machinery and equipment. Prerequisite: AGSE 371.

PSAS497 - Ag Operations Management 497-3 Agricultural Operations Management. A capstone course in product support, interpretation of financial reports, preparing and monitoring budgets, time and process management, critical thinking, advanced problem solving. Prerequisites: AGSE 318, 371, 375.

PSAS499 - Ag Info for Teachers 499-3 Agriculture Information for K-12th Grade Teachers. A general inquiry into the agriculture literacy appropriate for K-12th grade students. A framework for evaluating content appropriate for K-12th grade students in the pursuit of agriculture literacy will be developed. Special approval needed from the instructor.

PSAS500 - Ag Systems Research Methodlogy 500-3 Agricultural Systems Research Methodology. Research methodology for agricultural education and agricultural systems technology including defining research problems, preparing project proposals and sources of data. Special approval needed from the department.

PSAS501 - Recent Research: Ag Educ 501-3 Recent Research in Agricultural Education. A study of recent research and development in agricultural education. The course includes an analysis of regional and national scholarly publications, procedures and products. Special approval needed from the department.

PSAS518 - Principles of Herbicide Action 518-3 Principles of Herbicide Action. Chemistry and mode of action of herbicides. Nature of herbicidal action. Illustrates the various types of chemical weed control procedures in current use. The physiology of herbicidal action examined using the different mechanisms established for various chemical groups of herbicides. Prerequisite: PSAS 468, PLB 320.

PSAS520 - Growth & Development-Plants 520-3 Growth and Development of Plants. (Same as PLB 520) Physiological control of developmental processes. Emphasis on exogenous growth-regulating compounds and their behavior in plants. Special approval needed from the department.

PSAS524 - Gene Regulatory Networks 524-3 Gene Regulatory Networks. (Same as PLB 524) An examination of the integration of genes into networks including developmental, abiotic stress response, metabolic and photoreceptor gene regulatory networks. Includes motif discovery, cis-regulatory elements, discussion of transcription factor families, RNA interference, network theory, feedback loops, cytoplasmic inheritance, maternal effect, post-transcriptional and post-translational regulation. Includes 2 lectures and a 2 hr computational bioinformatics lab per week. Prerequisite: PLB 471 or permission of instructor.

PSAS525 - Program Development:Ag Educ 525-3 Program Development in Agricultural Education. Analysis and appraisal of current trends in agricultural education program development. Attention is given to implications for educators at the high school, post-secondary and in extension education positions. Offered each year, alternating spring and summer semesters.

PSAS526 - Cytogenics 526-4 Cytogenetics. Special approval needed from the department.

PSAS527 - Professional Development Ag Ed 527-3 Professional Development in Agricultural Education. Recent developments and trends in agricultural education are presented for review and discussion. The role of the agricultural instructor in determining educational priorities is emphasized. Offered each year, alternating fall and summer semesters.

PSAS530 - Plant Ecophysiology 530-3 Plant Ecophysiology. (Same as PLB 530) A study of the physiological processes that influence the growth, reproduction, adaptation, and geographic distribution of plants. The ecophysiology of plant stress and plant interactions. Special approval needed from the department.

PSAS531 - International Ag Systems 531-3 International Agricultural Systems. Introduction to world agriculture, farming systems, world crops, agricultural trade, and food production and processing. Influence of population and climate. Ethical issues surrounding rain forests, global agriculture, finance,

world trade, crops and livestock, and the environment. Appropriate technologies and their social and economic impact on developing countries. Special approval needed from the department.

PSAS547 - Soils and Environ Quality 547-2 Soil and Environmental Quality. A study of the interaction between plants and soil-water, and their effects on soil and water pollution. Reactions and processes governing the solubility and mobility of metals, organic compounds and nutrients in soil, sustainable management practices, and soil/water resource remediation improving environmental quality will be discussed. Prerequisite: CSEM 240 or consent of instructor.

PSAS548 - Fundamentals Urban Soils 548-2 Fundamentals in Urban Soils. Study of the function, structure, and management of soils and engineered soils in the urban environment. Emphasis is on urban horticulture, turf, urban forests, landscape plants and urban settings. Course will focus on understanding and implementation of basic soil concepts, with an emphasis on sustainability and management of urban soils to minimize maintenance and maximize utility.

PSAS550 - Plant Dis Mgmt & Epidem 550-3 Plant Disease Management and Epidemiology. This course will provide understanding of approaches to managing plant diseases, strategies for developing and implementing integrated disease management programs, and methods for monitoring and analyzing epidemics.

PSAS551 - Plant Nematology 551-4 Plant Nematology. This course will provide an understanding of plant parasitic nematode anatomy and morphology, identification, life cycles, and management strategies. Emphasis will be placed on practical or applied aspects of information presented. Special approval needed from the department.

PSAS555 - Nanotechnology AgriFood 555-4 Nanotechnology for Agricultural and Food Industries. This course will cover fundamentals and application of nanotechnology applied to the agri-food sector. Novel techniques such as encapsulation and delivery of agricultural and food molecules, diagnostics and sensing for plant and animal health will be covered. Application in production, processing and packaging of food and feed, to improving safety, quality and security will also be covered by student participation and guest lecturers. Prerequisite: basic undergraduate physics and chemistry or consent of instructor.

PSAS560A - Field Plot Technique 560A-3 Field Plot Technique. Design of field plot and greenhouse experiments including appropriate statistical analyses for each of the designs. Data interpretation. Prerequisite: ZOOL 557 or PLB 360.

PSAS560B - Field Plot Technique 560B-2 Field Plot Technique. Each of the designs discussed in (A) will be illustrated with a type problem and solved by computer processes using primarily MINITAB and SAS software programs. Prerequisite: PSAS 560A or concurrent enrollment or consent of instructor.

PSAS561 - Control Programming 561-3 Control Programming. Course in the logic and procedures of computer programming for automating, controlling, and monitoring of agricultural processes. Students will analyze problems, design solutions, develop software and test solutions. Students will be expected to develop a control, monitoring, and automated data collection project related to their research interests. Special approval needed from the department. Laboratory fee: \$10.

PSAS562 - Sustainable Landscape Prctcs 562-3 Sustainable Landscape Practices. Landscape practices designed and maintained with respect to natural systems offer ecological benefits, functional solutions and aesthetic value to outdoor spaces. This course will introduce best practices and construction methods of sustainable landscape features as green roofs, green walls, and permeable pavers with an emphasis on construction details, material selection and case studies. Students will expand critical thinking skills as applied to landscape planning.

PSAS563 - Plants Ecological Landscape 563-3 Plants for the Ecological Landscape. Introduction to alternative plant selections for the urban landscape associated with the use of native plants and creating edible landscapes. Emphasis is placed on site location, whether on the ground, in containers or on a green roof, to determine best practices and appropriate choices in urban environments.

PSAS564 - Fruit in Urban Environment 564-3 Growing Fruit in the Urban Environment. Learn why and how to grow perennial fruit crops in limited and special spaces in the urban environment. The potential uses of temperate perennial fruit plants in the urban landscape are examined. Theoretical obstacles to

successful fruit growing are explored. The unique advantages and disadvantages of growing long-lived perennial plants in urban landscape are examined. Methods of developing practical crop scheduling for intended outcomes (low vs. high inputs) are talked about. Efficient utilization of urban meso-climate niches are covered.

PSAS565 - Bee Mgmt in Urban Spaces 565-1 Bee Management in Urban Spaces. Study of the role of bees in the urban landscape. Behavior, biology and pests of bees will be examined. Practical management of bees will be explained in connection with maintaining healthy bee ecosystems. The demonstrator species will be the honey bee *Apis mellifera*.

PSAS571 - Genomics Euk: Bioinformatics 571-4 Genomics of Eukaryotes: Bioinformatics. (Same as PLB 571) Genomics, Proteomics and Bioinformatics are rapidly making important contributions to the Life Science through biotechnology. An appreciation of the genomic tools is important to all in agriculture and biology. The relationships between molecular biology bioinformatics and the biotechnology industry will be explored. Short independent practical projects in genomics, proteomics or bioinformatics will be pursued.

PSAS572 - Current Research Ag Systems 572-3 Current Research in Agricultural Systems. A study and analysis of current problems, research findings and innovations in agricultural systems. Technical reports and journal articles will be discussed and analyzed. Students will select articles related to their own research interests and begin writing a thesis or research proposal. Special approval needed from the department.

PSAS575 - Agricultural Systems 575-3 Introduction to Agricultural Systems. Operational functions and processes that are integrated to accomplish a designated, well-defined purpose in production and processing. Topics include planning and evaluating reliability, manpower, scheduling, economy, packaging, human and animal factors. Prerequisites: AGSE 318, 371, or instructor approval. Lab fee: \$10.

PSAS580A - Coll In Bioinf Comp Eng 580A-3 Colloquium in Bioinformatics for Computer Engineers. Bioinformatics makes important contributions to the Life Sciences through biotechnology. The use of Bioinformatics is important to all in agriculture, biology, computer engineering and computer science involved in the analysis of genes; proteins; and genomes by computers and networks. Short independent practical projects in bioinformatics or computer networking may be pursued. Graduate Student status required. Sections A, B, and C. May be taken online.

PSAS580B - Coll In Bioinf Comp Eng 580B-3 Colloquium in Bioinformatics for Computer Engineers. Bioinformatics makes important contributions to the Life Sciences through biotechnology. The use of Bioinformatics is important to all in agriculture, biology, computer engineering and computer science involved in the analysis of genes; proteins; and genomes by computers and networks. Short independent practical projects in bioinformatics or computer networking may be pursued. Graduate Student status required. Sections A, B, and C. May be taken online.

PSAS580C - Coll In Bioinf Comp Eng 580C-3 Colloquium in Bioinformatics for Computer Engineers. Bioinformatics makes important contributions to the Life Sciences through biotechnology. The use of Bioinformatics is important to all in agriculture, biology, computer engineering and computer science involved in the analysis of genes; proteins; and genomes by computers and networks. Short independent practical projects in bioinformatics or computer networking may be pursued. Graduate Student status required. Sections A, B, and C. May be taken online.

PSAS581 - Seminar 581-1 to 4 (1,1,1,1) Seminar. Individual presentations on subjects and problems relating to soils, field and horticultural crops, education, information, and technologies and other phases of plant, soil and general agriculture. Graded S/U only.

PSAS581A - Seminar: Ag Education 581A-1 to 4 (1,1,1,1) Seminar. Individual presentations on subjects and problems relating to soils, field and horticultural crops, education, information, and technologies and other phases of plant, soil and general agriculture. Graded S/U only.

PSAS581B - Seminar: Ag Mechanization 581B-1 to 4 (1,1,1,1) Seminar. Individual presentations on subjects and problems relating to soils, field and horticultural crops, education, information, and technologies and other phases of plant, soil and general agriculture. Graded S/U only.

PSAS582A - Colloq-Genetics/Plant Breed 582A-2 Colloquium in Plant and Soil Science-Genetics and Plant Breeding. Recent developments and trends in specialized areas of plant and soil science will be discussed in genetics and plant breeding.

PSAS582B - Colloq-Research Methods 582B-2 Colloquium in Plant and Soil Science-Research Methods. Recent developments and trends in specialized areas of plant and soil science will be discussed in research methods.

PSAS582C - Colloq-Physiology & Ecology 582C-2 Colloquium in Plant and Soil Science-Physiology and Ecology. Recent developments and trends in specialized areas of plant and soil science will be discussed in physiology and ecology.

PSAS583 - Urban Eco Landscape Practicum 583-3 Urban Ecological Landscape Practicum. Critical analysis and innovative design/solutions of urban landscape practices and urban agriculture from an ecological perspective. This practicum culminates the objective of integrating natural systems in the design and practice of sustainable landscape systems including urban food production. Learning opportunities will be presented through site visits and case studies. Students will demonstrate practical application of theories and systems through discussions and presentations.

PSAS588 - Internatl Grad Studies 588-1 to 8 International Graduate Studies. Residential graduate study programs abroad. Approval of department required both for the nature of program and number of hours of credit. Special approval needed from the department. Graded S/U only.

PSAS590 - Readings 590-1 to 4 Readings. Contemporary books and periodicals on selected subjects within the fields of plant, soil and agricultural systems. Special approval needed from the department.

PSAS592 - Special Problems 592-1 to 3 Special Problems. Directed study of specialized areas of crop production, horticulture, soils or agricultural systems depending on the program of the student. Discussion, seminars, readings and instruction in research techniques. Special approval needed from the department.

PSAS593 - Individual Research 593-1 to 6 Individual Research. Directed research on approved projects investigating selected fields of plant, soil and agricultural systems. Special approval needed from the department.

PSAS595 - Agricultural Occupation Intern 595-1 to 4 Agricultural Occupation Internship. Prepares coordinators to fulfill their responsibilities in selected areas in agricultural related occupations through an internship in the area of specialization and through orientation to related technical information. Special approval needed from the department.

PSAS599 - Thesis 599-1 to 6 Thesis. At least three hours of thesis credit is required for the Master's degree under the thesis option. Special approval needed from the department.

PSAS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Plant, Soil, and Agricultural Systems Faculty

Bond, Jason P., Professor, Ph.D., Louisiana State University, 1999; 2000. Nematology and plant pathology.

Chong, She-Kong, Professor, *Emeritus*, Ph.D., University of Hawaii, 1979; 1979.

Walters, S. Alan, Professor, Ph.D., North Carolina State University, 1997, 1998. Vegetable production.

Watson, Dennis G., Associate Professor, Ph.D., Michigan State University, 1987; 2002. Agricultural Systems Technology.

Wolff, Robert L., Professor, *Emeritus*, Ph.D., Louisiana State University, 1971; 1972.

Political Science

The Department of Political Science offers graduate work leading to M.A. and Ph.D. degrees. The department endeavors to accommodate the special and general interests of students through a broad curriculum, individualized programs, and varied teaching and research assistantships. The department takes a personal interest in its students throughout their period of enrollment and assists them in finding satisfying professional employment upon graduation. Graduates now hold academic appointments in 60 American universities and colleges and more than a dozen foreign institutions of higher education. The professional interests of the faculty range across most fields of political science, and have resulted in significant scholarly publications and presentations at professional meetings.

Provisions of this publication are supplemented by policies made explicit in the regulations and procedures of the graduate studies program of the Department of Political Science and made available to all graduate students.

Application Procedures

The Department of Political Science and Graduate School applications form one combined application that should be submitted electronically. The link is available at the Graduate School website. There is a supplemental application (Part Two), specific to the Department of Political Science that must be submitted along with the main online application. Separate forms are not required for application for financial assistance, except for Graduate School fellowships. Students will be accepted for graduate work in political science only upon approval by the department as well as the Graduate School. This program requires a nonrefundable \$65 application fee; applicants must pay this fee by credit card.

All applicants must submit all post-secondary education transcripts, three letters of recommendation from persons who can evaluate the applicant's academic ability and a statement of purpose. Applicants for the M.A. and Ph.D. programs must also submit scores on the Graduate Record Examination (GRE), verbal and quantitative tests, and an example of written work that demonstrates the applicant's analytical and writing skills. Foreign students must have taken the Test of English as a Foreign Language (TOEFL) and are expected to have a score of at least 600 (paper score) or 250 (computer score).

Applications and supporting materials for the M.A. and Ph.D. programs that are submitted by January will be given full consideration for admission and funding.

Master of Arts Degree Requirements

Admission

Applicants for the Master of Arts degree program are admitted only with the approval of the graduate studies committee of the department. The department imposes requirements for admission in addition to those of the Graduate School. The department will ordinarily accept as candidates for the Master of Arts degree only those applicants who (1) have graduated from an accredited four year college or university; (2) have completed four or more courses in social science, humanities, or related disciplines; (3) have a 2.7 (4-point scale) overall grade point average or, alternatively, have a 2.9 overall grade point average for the last two years of undergraduate work; and (4) have a 3.0 average in government or political science.

Retention

Retention is governed by the rules of the Graduate School. Students should avoid the accumulation of incomplete grades. No student with more than two incomplete grades can be awarded a graduate assistant appointment, and a student holding a graduate assistant appointment is subject to having the appointment terminated upon acquiring two or more incomplete grades.

Course Work

The Director of Graduate Studies serves as advisor to each M.A. student until an advisory committee has been selected by the student with the approval of the director, normally no later than the middle of the student's first semester in residence. The advisory committee must approve the student's program. Each candidate for the Master of Arts degree must complete six hours for research tools and methods requirements (POLS 500A and POLS 500B), a one hour pre-professional requirement (POLS 593), and six hours of two pro-seminars. No more than nine credit hours of elective coursework may be taken at the 400 level. A maximum of nine credit hours from courses offered by other departments will count toward the MA degree.

Program of Study:

- Pre-Professional Preparation - 1
- Research Tools and Methods - 6
- Pro-Seminars (2) - 6
- Elective Coursework - 14

- Research Paper - 3

Research Paper

A Master of Arts degree will be awarded upon completion of a research paper and the course and hour requirements. The research paper is developed from a paper produced in a seminar or through independent readings/research with a faculty member. Students will select an advisor for the Master's Research Paper (e.g., the person who taught the course or supervised the readings/research project). Students will enroll with this faculty member for three semester hours in POLS 591, Individual Research, for the completion of the research paper. This course can be taken concurrently with or after the research seminar. The selection of the advisor requires paperwork that must be filed with the Director of Graduate Studies. The research paper will then be submitted for evaluation to another faculty member selected in concurrence with the faculty advisor for the paper. In case of disagreement over the evaluation (pass/fail) of the paper, the graduate studies committee will appoint a third reader. The master's research paper normally is 30 to 80 pages in length. All research papers must have an original approval form signed by the student's committee and the department chair which must be submitted to the Graduate School. Guidelines for submission of the final research paper are found on the website.

Exceptions

An exception from these rules must be justified in a petition approved and signed by the student's committee members, submitted to the Director of Graduate Studies and approved by the members of the graduate studies committee at a scheduled meeting.

Ph.D./J.D. in Political Science and Law

Students who have been admitted separately to the Southern Illinois University School of Law and doctoral program in political science may study concurrently for the Juris Doctor and Doctor of Philosophy degrees. Students interested in concurrent study should inform both programs before entering the fourth semester of law school. Each program will maintain records and evaluate final degree requirements as if the student were enrolled in only one program.

Concurrent study students must complete a minimum of 81 semester hours of School of Law credits which meet all law area requirements, as well as all Ph.D. area requirements, to receive the J.D. degree. Students will not be permitted to take course work outside the prescribed law curriculum during the first year of law class work. Students may enroll for both law and graduate course work during subsequent years provided a minimum of 10 semester hours of law and 12 semester hours total are taken in any term which has law course enrollment.

Concurrent study students must complete the entire firstyear law curriculum with a law grade point average of 2.5 before being eligible to register for any political science graduate courses; and must complete a minimum of 60 semester hours which meet the distribution requirements of the Ph.D. program, as well as all law area requirements, to receive the Ph.D. degree. A maximum of 9 semester hours of School of Law credits of a political science nature (for example: administrative law, environmental law, labor law, natural resources law) may be applied to both J.D. and Ph.D. requirements if approved by the director of the Ph.D. program. All concurrent study students will complete a doctoral dissertation.

Doctor of Philosophy Degree Requirements

Admission

Applicants for the doctoral degree must meet all applicable department and graduate school rules and admission requirements. Department regulations and procedures governing the Ph.D. degree program are stated in the Political Science Department's "Regulations and Procedures of the Graduate Studies Program." Applicants are admitted only fall semester with the approval of the graduate studies committee. Successful completion of the Ph.D. Degree Program requires that students remain in good standing with the Graduate School and make reasonable progress toward completion of the degree; form and

execute the program of study established with their advisory committee; complete a total of 52 required course, elective course, and dissertation credit hours; successfully pass preliminary examinations; and successfully defend the dissertation.

Retention

Retention is governed by Graduate School rules and department standards of reasonable progress toward degree. Students failing to make reasonable progress toward completion of the degree are removed from the program.

Coursework

Each candidate for the doctoral degree must complete 37 credit hours of graduate level coursework and 24 dissertation credit hours. Of the 37 credit hours of graduate coursework, students must complete one hour of pre-professional coursework (POLS 593), nine hours of research tools and methods (POLS 500A, POLS 500B, and 500C, or the equivalent of each), 24 hours of 5xx graduate seminars in the department, a classics readings course (POLS 592A-E) and 24 hours of dissertation credit.

- **Pre-professional Requirement - 1 credit hour**
 - # POLS 593-1
- **Research Methods and Tool Requirement - 6 credit hours**
 - # POLS 500A-3
 - # POLS 500B-3
 - # POLS 500C-3
- **Seminar Requirement - 21 credit hours**
- **Reading Requirement - 3 credit hours**
 - # POLS 592A-E
- **Dissertation Requirement - 24 credit hours**
 - # POLS 600-1 (1 to 12 per semester)

Preliminary Examinations

Ph.D. students must take written preliminary examinations in one of the following concentrations: 1) ethnicity and nationalism, 2) political communication, 3) judicial behavior, or 4) public management. Before preliminary examinations can be scheduled, a student must have completed all coursework, have been in residence for at least one year, and have a grade point average of at least 3.5. A student may not take preliminary examinations if there are any incomplete grades on his or her record. The Director of Graduate Studies assigns two readers to write and grade each written subfield examination. When possible, at least one reader for each exam will be a member of the student's advisory committee. The Director of Graduate Studies will appoint a third reader if the first and second readers are unable to agree on a result.

Students must notify the Director of Graduate Studies and all members of the Advisory Committee in writing the semester before they wish to sit for the comprehensive examination. The Director of Graduate Studies schedules written exams to begin no later than the first week of October in fall semester and March in spring semester. The oral examination shall take place not more than two weeks after the student has passed their last written examination. All scheduling exemptions must be approved by the Director of Graduate Studies. Passing written and oral examinations advances the student to candidacy for the Ph.D. degree. Students who do not pass exams may be allowed to retake them or withdraw from the program at the discretion of the Director of Graduate Studies upon advice from the student's Advisory Committee.

Dissertation

Students must complete a dissertation within five years following their admission to candidacy for the Ph.D., or the students must retake preliminary examinations. Students select five faculty members to serve on their dissertation committee. One faculty member may be from another department. The candidate's dissertation prospectus must be approved by the dissertation committee and filed with the Director of Graduate Studies.

The student works closely with the Chairperson of the dissertation committee throughout the process. The final draft of the dissertation is presented to committee members after the Chairperson of the dissertation committee determines that it is complete and acceptable form at least two-weeks prior to the oral dissertation defense. The success of a final oral defense of the dissertation will complete the requirements for the doctoral degree. The defense must be open to the public.

All dissertations must have an original approval form signed by the student's committee and the department chair. Guidelines for submission to the Graduate School are found on the website.

Application of Rules and Exceptions

The department's rules in force at the time of the student's admission to the Ph.D. program will apply while the student is in the program unless 1) the student voluntarily selects a newer set of rules before graduation or 2) the time between admission to the Ph.D. program and passing preliminary examinations exceeds five years. In the latter case, the student will automatically come under the rules in force at the beginning of the sixth year and every fifth year thereafter until they pass preliminary examinations. Students requesting any exemptions to these rules must submit a petition signed by the members of their Advisory Committee to the Director of Graduate Studies for approval by the Graduate Studies Committee.

Cooperative Program with University of Illinois at Springfield

The Department of Political Science at SIU has an agreement with the political studies program at University of Illinois at Springfield (UIS) to facilitate the entry of UIS political studies students into the SIU political science Ph.D. degree program. SIU will accept appropriate UIS graduate credits to fulfill course work, methodology, and research tool requirements. UIS students can qualify for accelerated entry into the SIU doctoral program after two semesters of study at UIS with 24 semester hours completed, a 3.5 GPA, two proseminars, and written evaluations from course instructors. A number of UIS faculty are eligible to serve on graduate student examination and dissertation committees. SIU will accept up to 12 hours credit for course work, research projects, and internships completed under UIS faculty direction towards the SIU political science Ph.D. degree. Other course work, residency, and dissertation requirements of the SIU program must be met as described in other sections of this catalog. For more detailed information, ask the Director of Graduate Studies, Department of Political Science, SIU.

Political Science Courses

POLS403 - Philosophy of Politics 403-3 Philosophy of Politics. (See PHIL 441)

POLS405 - Democratic Theory 405-3 Democratic Theory. (Same as PHIL 405) An examination of various aspects of democratic thought, including the liberal tradition and its impact upon the United States. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement. Prerequisite: POLS 114 or consent of instructor.

POLS406 - American Political Thought 406-3 American Political Thought. This course is an advanced seminar in American political thought. The course focuses on the founding ideals and practices of the American republic and how these ideals functioned in subsequent social movements, political struggles, and ideological conflicts in American political history. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS435 - Judicial Process & Behavior 435-3 Judicial Process and Behavior. An examination of the process by which judges in both trial and appellate courts at federal and state levels are selected and of the ways in which they make decisions. Attention to the structure of the courts. Study of the communication and impact of judicial decisions. The course provides some insight into the methods used to study judicial behavior. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement. POLS 114 and 230 recommended prerequisites.

POLS436 - Administrative Law 436-3 Administrative Law. The procedural law of public agencies, particularly the regulatory commissions but also executive branch agencies exercising regulatory

functions. The exercise of discretion and its control through internal mechanisms and judicial review. POLS 114 and 230 recommended. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS437 - Jurisprudence (Law Theories) 437-3 Jurisprudence (Theories of Law). This course provides an examination of the major schools in legal thinking. We will investigate classic jurisprudential questions, including: theories of how judges decide cases, the role of morality and natural rights in determinations of law, and the role of legislative and judicial actors in the creation of law. POLS 114 and POLS 230 are recommended prerequisites. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS438 - Women and the Law 438-3 Women and the Law. (Same as WGSS 438) This course is an advanced seminar in public law with a focus on gender, law and society. The course will engage with issues in feminist legal practice and the development of legal theories regarding gender. We will interrogate the relationship between theory and practice and the ways in which feminist jurisprudence has taken shape in the dynamics of this relationship. POLS 114 and 230 recommended prerequisites.

POLS439 - Comparative Law & Courts 439-3 Comparative Law and Courts. In the United States, topics ranging from abortion to gay rights and government surveillance are inevitably "solved" by the Supreme Court. Yet for many years the Supreme Court stood alone in the world in being able to overturn government policy. Increasingly, courts all over the world—often prodded by social actors—have begun developing their own unique solutions to these constitutional questions, in many cases challenging accepted social values and mores along the way. In this course we will investigate the development of courts and constitutional rights around the world, including both national rights and international human rights.

POLS444 - Policy Analysis 444-3 Policy Analysis. An examination of basic concepts in the policy sciences, approaches to policy analysis, applications to selected areas of policy, and instruments of policy development. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS455 - Democratization 455-3 Democratization. An examination of transitions to democracy from authoritarian rule in countries around the world. Emphasis is on understanding from a comparative perspective on the social, economic, institutional, political, cultural and international circumstances that promote, inhibit and even reverse the spread of democratic forms of government. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS456 - Gender & Global Politics 456-3 Gender and Global Politics. (Same as WGSS 446) An advanced course examining gender systems and women's situations across cultures and countries. This course also studies the impact globalization has had on gender issues by looking at women's activism at international and transnational levels. Topics covered include women's political representation, gender and culture, women's social movements, gender and development, and gendered policy issues. POLS 250 recommended.

POLS459 - Russia & Post-Soviet States 459-3 Russia and the Post-Soviet States. This course examines political developments in Russia and the other fourteen Soviet successor states that gained (or regained) independence following the demise of the Soviet Union in 1991. Particular attention is paid to the degree to which Soviet legacies of communist political institutions, state socialist economic policies and ethno-federalism continue to shape the politics and economics of these countries in the post-independence period. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS460 - European Politics 460-3 European Politics. This course provides students an overview of European integration and a better understanding of the functioning of the European Union. The course opens with a survey of historical developments in both Eastern and Western Europe from 1914 to 1989. After this historical overview, the institutions and policies of the European Union are studied in detail. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS466 - Latin American Politics 466-3 Latin American Politics. An in-depth analysis of specific problem areas in Latin American political processes as well as comparative study of selected Latin American nation-states. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS467 - Middle East Politics 467-3 Middle East Politics. This course is designed to examine the regional politics and security of the Middle East and North Africa in a historical and comparative context. This course discusses the historical evolution of the modern states in the region, the dynamics of inter-

Arab and Arab-Israeli politics and security, the role of ethnicity and religion in domestic and regional politics, and great powers' penetration of the region.

POLS475 - International Law 475-3 International Law. Rules and practices governing states in their relations in peace and war. Prerequisite: POLS 270 recommended. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS477 - American Foreign Policy 477-3 American Foreign Policy. This course surveys the conduct, goals and evolution of American foreign policy since World War II. It analyzes such issues as the role of institutions, culture and individuals in the formulation of American foreign policy, the interaction between domestic and foreign politics, and the debate over American grand strategy. Prerequisite: POLS 270 recommended.

POLS480 - Seminar in Int'l Relations 480-3 Seminar in International Relations. Discussion-based course analyzing empirical and normative (ethical) issues in the study of international relations. Particular emphasis is placed on developing students' critical thinking skills. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement. Prerequisite: POLS 270 recommended.

POLS500A - Political Methodology-Research 500A-3 Political Methodology. Seminars in empirical research methods (A) Research Design. Course covers quantitative and qualitative empirical studies of politics.

POLS500B - Political Methodology-Stats 500B-3 Political Methodology. Seminars in empirical research methods (B) Statistical Data Analysis in Political Science I. Provides a foundation in univariate and bivariate descriptive statistics; inferential statistics including hypothesis testing about population parameters, bivariate and multivariate relationships, measures of association, and correlation; and an introduction to linear regression. Lab fee: \$50.

POLS500C - Political Methodology-Stats 500C-3 Political Methodology. Seminars in empirical research methods. (C) Statistical Data Analysis in Political Science II. Provides in-depth instruction in multiple regression including assumptions of linear model, diagnostics and corrections for violation; estimating models using categorical dependent variables, nonlinear relationships, interactions, and extensions to advanced techniques as time allows. Prerequisite: POLS 500B (or permission of instructor). Lab fee: \$50.

POLS502 - Research Methods Topics 502-3 to 6 Topical Seminar in Research Methods. Advanced seminar in empirical research methods. Topics will vary by instructor. Lab fee: \$50.

POLS503 - Research Methods for PA 503-3 Research Methods for Public Administrators. The course aims to familiarize students with analytical techniques and research methods used currently by public administrators. Provides an introduction to applied statistics and data analysis for problems of interest to public administrators. Restricted to enrollment in MPA graduate program or consent of the department. Lab fee: \$50.

POLS513 - Topical Political Behavior 513-3 to 6 Topical Seminar in Political Behavior. Topic will vary with instructor. Student should see director of graduate studies for advanced syllabus.

POLS514 - Sem in Intergovernmental Rels 514-3 Seminar in Contemporary Intergovernmental Relations. An examination of relationships among national, state, and local governments in the American federal system, with emphasis on recent literature and contemporary issues. Prerequisite: POLS 340. Restricted to enrollment in MPA graduate program or consent of department.

POLS516 - Pro-Seminar Political Behavior 516-3 Pro-Seminar in Political Behavior. An overview of the study of political behavior in American and comparative politics.

POLS517 - Political Communication 517-3 Political Communication. Provides an introduction to the academic study of media and politics. The primary objective is to introduce graduate students to seminal theory and research and contemporary contributions in the study of media, politics, and political communication.

POLS519 - Survey Methodology 519-3 Survey Methodology for Political Science. Provides an overview of survey methodology. Students will learn how to administer surveys for use in political science and public administration. Topics include psychology of asking and answering questions; constructing

questions and questionnaires; evaluating surveys; criteria for survey modes; sampling frames and sampling designs; and ethics for survey research methods.

POLS522 - NPOs and NGOs 522-3 Rethinking NPOs and NGOs: Doing Good Better. This course examines the question, can NPOs and NGOs do their good works better? In looking for the answer, students consider how perspective shapes reality, the need for a new framework for action, the conflict between limited resources and seemingly unlimited need, importance of local focus, conflicts between donors' demand for short term results with a situation's requirement for a long term program, issues caused by public policy, roles of gender and ethnicity in solving problems and the role of simplicity. Students will do this in anticipation of becoming leaders/managers of NPOs or NGOs.

POLS530 - Pro-Seminar in Public Law 530-3 Pro-Seminar in Public Law. A survey of the major literature in the field of public law at the graduate level.

POLS532 - Nonprofit/Public Grant Writing 532-3 Nonprofit and Public Grant Writing. Examines the theories, skills and practices for writing grants for nonprofit and public organizations. Students practice these skills by actually preparing grants for a nonprofit or a public organization. Prerequisite: POLS 537 with a grade of B or better.

POLS534 - Governance Networks 534-3 Governance Networks in Public Administration. Explores the shifting locus of public service delivery over time, and examines alternative organizational arrangements through which public services are provided to citizens. Emphasis is placed on the environment, structure and management of service delivery networks including combinations of public, private, and not-for-profit actors. Explores joint agreements, public-private partnerships, and contracting regimes as elements that bind network actors in the process of delivering high quality public services. Additional focus is invested in evaluating the leadership and management strategies that can ensure accountable and ethical public policy implementation by non-governmental organizations that act with the authority of government. The factors that facilitate network performance are also explored. Prerequisite: POLS 537.

POLS535 - Administrative Ethics 535-3 Ethical Foundations of Public Service. Examines the ethical dimensions of public service, particularly as it relates to the cultural context of the United States, while emphasizing the responsibility of the public manager to act with integrity. Assesses the virtues necessary for moral leadership in the public sector, as well as managerial strategies that reinforce ethical climates in public organizations and ethical behavior among public employees. Focuses on contemporary cases to explore the practical relevance of theories of morality and ethics. Special attention will be invested in examining the ethical implications of contemporary modes of governance and tensions between managerial and democratic values. Prerequisite: POLS 537.

POLS536 - Comparative Public Law 536-3 Seminar in Comparative Public Law. An examination of legal systems around the world.

POLS537 - Foundations of PA 537-3 Foundations of Public Administration. Introduction to the study and practice of administrative process and public management. Theoretical, political, and practical issues of organizing, staffing, financing and implementing government decisions and other issues are surveyed.

POLS538 - Public Law Topics 538-3 Topical Seminar in Public Law. Advanced seminar in public law. Topics will vary by instructor.

POLS539 - Program Evaluation 539-3 Program Analysis and Evaluation. The analysis and evaluation of governmental programs. Emphasis is placed upon use of analytical techniques to determine program impact and the use of evaluation in governmental decision making. Prerequisite: POLS 503. Restricted to enrollment in MPA graduate program or consent of department. Lab fee: \$50.

POLS540 - Seminar Public Management 540-3 Seminar in Public Management. Course is designed for advanced MPA students and examines social, political, legal and managerial constraints on the behavior of public administrators. Issues in ethics and the public's expectations of professional administrators are also examined. Restricted to students who are in the MPA program who have completed at least three required MPA courses, or the consent of the department.

POLS541 - Sem Applied Probs Public Admin 541-3 Seminar in Applied Problems of Public Administration. Study of selected problems in public administration and policy. Emphasis placed on

the practitioner's perspective. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department.

POLS542 - Public Budget & Fiscal Mgt 542-3 Public Budgeting and Fiscal Management. An examination of the theory and practice of budgeting in the public sector and of selected elements of fiscal management. The course focuses on administrative aspects of budgeting and is oriented toward preparation of students for careers in the public service. Students utilize primary materials in conducting individual or class projects aimed at development of budgetary skills. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department. Lab fee: \$50.

POLS543 - Human Resource Management 543-3 Human Resource Management. A study of the processes and procedures used in contemporary public personnel systems. Emphasis is placed on examination of competing models of personnel administration, application of personnel management strategies to specific case problems and public sector labor relations. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department.

POLS544 - Policy Analysis 544-3 Policy Analysis. This course focuses on the development and analysis of public policy alternatives and how they are used in governmental decision making.

POLS545 - Organization Theory & Behavior 545-3 Organization Theory and Behavior. An examination of various approaches to describing and understanding public organizations and the individuals within them. Emphasis is placed on study of the important theoretical literature in the field and on the applications of the theory of practical management problems in governmental units and agencies. Prerequisite: POLS 340. Restricted to enrollment in MPA graduate program or consent of department.

POLS546 - Leadership Public Admin 546-3 Leadership in Public Administration. An examination of contemporary theories of leadership and their applicability on the public and non-profit sectors. The course emphasizes the range of behaviors and actions relevant to leadership in contemporary governmental organizations and the analysis of factors resulting in leadership success or failure. Restricted to enrollment in MPA graduate program or consent of the department.

POLS547 - Nonprofit Fundraising 547-3 Nonprofit Marketing and Fundraising. This course examines the unique resource development needs of nonprofit organizations and public organizations and looks at the principles and practical sides of meeting those through relationship management, marketing and fundraising. Time will be taken to look at all the aspects of a successful relationship, fundraising and marketing management plan. Students will be expected to participate in at least one fundraiser for a local nonprofit during the semester.

POLS549 - Admin Nonprofit Organizations 549-3 Administration of Nonprofit Organizations. Examines the characteristics of nonprofit organizations that distinguish them from the public and for-profit sectors. Explores social and economic functions of nonprofits and such administrative issues as fundraising, working with volunteers and governing boards, satisfying tax codes and service distribution. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department.

POLS550 - Pro-Seminar in Public Admin 550-3 Pro-Seminar in Public Administration. A survey of the major literature in the field of public administration. The course will synthesize and integrate the literature and provide an overview of topics to be covered in greater detail in other seminars. Required of M.A. and Ph.D. students offering public administration as a graduate area before enrolling in more advanced subject-matter seminars.

POLS551 - Aviation Policy Law Reg 551-3 Aviation Policy, Law and Regulation. (Same as AVM 551) Examination of the history of American aviation policy, law and regulation. The course focuses primarily on the development, implementation and enforcement of aviation policies and regulations at the federal level. Special attention is paid to the interaction of various government agencies and constituency groups, such as the aircraft industry, airport authorities, airlines, private pilots and passengers. In addition to the historical survey, students will analyze current policy and regulatory trends and identify future problems and opportunities for American aviation policy. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS552 - Adv Airport Administration 552-3 Advanced Airport Administration. (Same as AVM 552) This course will address the role and function of the airport administrator, especially related to the tasks

of developing, operating and maintaining various airport services to meet the needs of key airport users. This course will study key airport administration cases at primary, commercial service, reliever and general aviation airports. Meeting key airport regulations concerning operations and security will be a focus of the course. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS553 - Adv Airport Safety Admin 553-3 Advanced Airport Safety Administration. (Same as AVM 553) The Aviation Safety Administrator's job function and responsibility for safety and accident prevention within an aviation organization is examined using the case study method. The relevant theory, concepts, procedures and techniques of resource allocation, organizational design, decision modeling, task assignment, delegation of authority and responsibility, establishment of organizational goals and priorities and risk management as they relate to Aviation Safety are included. The job functions of an Aircraft Accident Investigation Team and of an Aviation Safety Inspector will be studied. Aviation safety administration literature will be reviewed. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS554 - Aviation Planning 554-3 Aviation Planning. (Same as AVM 554) This course fulfills a need for a semester length course on aviation planning for students concentrating in aviation administration. Airports and the aviation industry are rapidly expanding, and aviation is growing in importance on the nation's transportation agenda. Broader issues of law and regulation will be covered in an existing course, POLS 551. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS557 - Public Financial Admin 557-3 Public Financial Administration. The seminar provides a basic understanding of the public budgeting decision-making processes and financial management practices. It provides students with knowledge and hands-on experience of collecting and analyzing governmental data, generating financial reports, and presenting findings. It also provides students with an understanding of revenue sources and different factors that could potentially influence collections. Moreover, it gives students the opportunity to acquire experience in revenue forecasting and budget decision-making through homework assignments and in-class exercises. Prerequisites: POLS 542 and POLS 503 with grades of B or better. Lab fee: \$50.

POLS560 - Pro-Sem in Comparative Politics 560-3 Pro-Seminar in Comparative Politics. Survey of the major literature in comparative politics at the graduate level.

POLS569 - Top Sem in Comparative Politics 569-3 to 9 (3,3,3) Topical Seminar in Comparative Politics. Advanced seminar in comparative politics. Topics will vary by instructor.

POLS570 - Pro Seminar Intl Relations 570-3 Pro-Seminar in International Relations. Survey of the major literature in international relations at the graduate level.

POLS576 - Religion and Politics 576-3 Religion and Politics. Examines empirical studies of religion and politics, including research on behavior, institutions, and movements. Topics include theories of religion, case studies of religious traditions, church and state relations, measurement of religion, and other topics on the intersection of religion and politics.

POLS580 - IR Topics 580-3 to 9 (3,3,3) Topical Seminar in International Relations. Advanced seminar in empirical international relations. Topics will vary by instructor.

POLS590 - Readings 590-1 to 6 Readings. Supervised readings in selected subjects. Prerequisites: POLS 592A-D for specific field, or POLS 545 or POLS 500A.

POLS591 - Individual Research 591-1 to 9 Individual Research. Selection, investigation and writing of a research paper under the personal supervision of a member of the department graduate staff. Prerequisite: completion of the appropriate pro-seminar for the field in which readings or individual research is to be done.

POLS592A - Found Pol Sci-Pol Behavior 592A-3 Foundations of Political Science-Political Behavior. Supervised readings in "classics" of the discipline.

POLS592B - Found Poli Sci-Comp Politics 592B-3 Foundations of Political Science-Comparative Politics. Supervised readings in "classics" of the discipline.

POLS592C - Founds Poli Sci-Intl Relations 592C-3 Foundations of Political Science-International Relations. Supervised readings in "classics" of the discipline.

POLS592D - Founds Poli Sci-Public Law 592D-3 Foundations of Political Science-Public Law. Supervised readings in "classics" of the discipline.

POLS593 - Preprofessional Sem Pol Sci 593-1 Preprofessional Seminar in Political Science. Designed to give the student an introduction to the major professional roles in the discipline. The requirements of teaching, research, publication and service are covered with discussion of where each fits into the professional role requirements and examples of how each is accomplished. Required of all Ph.D. and M.A. students in political science and other teaching assistants in political science. Graded S/U only.

POLS594 - Preprofessional Sem Public Admin 594-1 Preprofessional Seminar in Public Administration. Guides new students in preparing for the Comprehensive Exam and Professional Portfolio displaying competencies developed through their course work. Assists students writing a Research Paper through the proposal and committee process. Preparation of resume, conducting job searches and other professional development topics are also addressed. Required of all MPA students. Graded S/U only. Restricted to enrollment in MPA graduate program or consent of department.

POLS595 - Internship in Public Affairs 595-1 to 6 Internship in Public Affairs. Fieldwork in the office of a governmental or quasi-governmental agency. The internship is arranged by the field representative of the M.P.A. degree program. A paper in which the student correlates academic knowledge with practical internship experience is required. Mid-career M.P.A. students may receive credit upon completion of a paper relating previous work experience to public administration literature and theory. Restricted to enrollment in M.P.A. graduate program or consent of department. Graded S/U only.

POLS596 - Research Paper-Public Affairs 596-3 Research Paper in Public Affairs. Upon successful completion of core courses, the student expands and develops a previously written MPA graduate program paper. The project involves an issue or problem in public administration and is written with the approval and under the supervision of the student's committee chair. Restricted to enrollment in MPA graduate program or consent of department.

POLS598 - Dissertation Prospectus 598-1 Dissertation Prospectus. Workshop in dissertation topic selection and prospectus writing; enrollment required prior to completing preliminary examinations.

POLS599 - Thesis 599-1 to 6 Thesis. Maximum of six hours to be counted toward a degree. Special approval needed from the instructor.

POLS600 - Dissertation 600-1 to 40 (1 to 12 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree.

POLS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

POLS699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Political Science Faculty

Bloom, Stephen, Associate Professor, Ph.D., University of California, LA, 2004.

Bricker, Benjamin, Assistant Professor, Ph.D., Washington University, 2013.

Burnside, Randolph, Associate Professor, Ph.D., University of New Orleans, 2004; 2005.

Comparato, Scott A., Associate Professor, Ph.D., Washington University, 2000; 2000.

Davis, Randall S., Associate Professor, Ph.D., University of Kansas, 2011; 2013.

Foster, John L., Associate Professor, *Emeritus*, Ph.D., University of Minnesota, 1971; 1975.

Tilley, Virginia Q., Professor, Ph.D., University of Wisconsin, 1997; 2014.

Psychology

The School of Psychological and Behavioral Sciences offers graduate work leading to the Master of Arts, Master of Science, and Doctor of Philosophy degrees in Psychology with concentrations in the following areas: Applied Psychology, Brain and Cognitive Sciences, Clinical Psychology, and Counseling Psychology. The primary emphasis is on doctoral training, for which the master's degree is a prerequisite usually earned en route to the doctorate. We do not admit students who seek a terminal master's degree.

The goal of graduate study in Psychology at SIU is to develop psychologists who will have a broad perspective and scientific sophistication as well as the requisite skills to advance the field of psychology and meet changing needs. The program emphasizes formal course work in the core curriculum and in the concentrations, preprofessional activities in training assignments, research, teaching, and practicum opportunities.

Admission and Advisement

The Psychology program and Graduate School applications form one combined application that should be submitted electronically through the Radius system. The link to Radius is available at the Graduate School website. There is a supplemental application (Part Two), specific to the Psychology program that must be submitted along with the main online application. Separate forms are not required for application for financial assistance, except for Graduate School fellowships. Students will be accepted for graduate work in psychology only upon approval by the departmental admissions committee as well as the Graduate School. Evaluations of applicants by the departmental admissions committee are based on information from the application form, GRE scores, transcripts, and letters of recommendation. This program requires a nonrefundable \$65 application fee; applicants must pay this fee by credit card through Radius.

Upon admission to the program, each student is assigned to a faculty adviser, who assists in academic matters, including the planning of the student's program of study: required courses, planned electives, anticipated dates for fulfillment of specified requirements, and so forth.

A new adviser may be assigned to a student for two reasons: (a) the student or adviser may request a change of adviser; (b) the student may change to a different area of concentration. Requests for a change of adviser should be made in writing to the student's area committee. To change area of concentration, the student should petition the sub-committee of the new area.

Core Curriculum

All students must complete the following minimum requirements which may be supplemented by requirements specific to concentration areas:

1. Two of three courses from PSYC 522, PSYC 524, and QUAN 507.
2. PSYC 509 for students who have not completed a course in the history and systems of psychology.
3. Thesis (PSYC 599) registration; students enrolled in the master's degree program should complete the thesis requirement (PSYC 599, four to six hours) by the end of the second year.

- (Students in the Clinical and Counseling areas only) one course from each of the four core coverage areas specified by the American Psychological Association. A list of courses which meet core coverage requirements is maintained by the department.

Areas of Concentration

Applied Psychology Concentration

The Applied Psychology (AP) concentration program is designed for students interested in research careers dealing with applied problems in non-academic and academic settings. The program provides students with training in research and data analysis methods that can be applied to a variety of problems in the public and private sectors.

Students in the AP concentration take the following courses in addition to departmental requirements described above. (a) Statistics and measurement: PSYC 522, PSYC 524, PSYC 525, and either PSYC 529 or PSYC 575; (b) Program evaluation and research methods: PSYC 465, PSYC 523, and PSYC 564; (c) At least three of the following Psychology content courses: PSYC 411, PSYC 461, PSYC 511, PSYC 515, PSYC 553, PSYC 565, PSYC 566, PSYC 567, PSYC 568, or other courses approved by the faculty. In addition AP students take PSYC 571 (Proseminar in Applied Experimental Psychology) during their first semester in the program, and PSYC 569 (Applied Research Consultants) from their second year until admission to the doctoral program or for two summers and four semesters, whichever is longer. AP students develop a specialization consisting of at least three graduate courses, additional readings, and/or independent study. A specialization plan and paper is developed with and approved by a specialization committee.

Accelerated M.S. with Applied / Quantitative Psychology Concentration and Non-Thesis Option

The accelerated five-year B.A.-M.S. non-thesis degree program is designed to provide practical experience in consulting and program evaluation as well as an educational background in research methods, statistics and program evaluation. This program leads to an undergraduate Bachelor of Arts and a Master of Science degree with a Major in Psychology with an additional year of master's study. During the Spring semester, undergraduate students who have junior status will be able to apply to enter the Master's program. To complete this five-year plan, 120 credits are required for the bachelor's degree and an additional 31-32 credits for the master's degree. Nine credit hours are double counted toward an undergraduate and a Master's degree. Twenty-two to twenty-three hours are taken after undergraduate graduation.

The option requires satisfactory completion of nine hours in 400-level Psychology courses. This will be followed by 13 required statistics and methods credit hours of coursework [10 credit hours from PSYC 522, PSYC 523 and POLS 519 or POLS 539 and 3 elective credit hours from PSYC 505, PSYC 507, PSYC 574, PSYC 421, BA 540, POLS 519, or POLS 539 (POLS 519 or POLS 539 can only be applied to this requirement if not taken as required credit hours for statistics and methods above)]. Students will also complete 10 credit hours of coursework in Applied Research Consultants (the Applied Psychology in-house consulting firm). Students will complete 1 credit hour in Spring semester of their senior year which will not count towards the completion of the master's degree. This will be followed by 9 credit hours in the Fall and 3 credit hours in Spring of their fifth year. Students will complete a written report describing their accomplishments and completed projects in ARC at the end of the master's program.

This accelerated BA-MS non-thesis degree program is designed for students who desire an advanced degree including consulting experience and training in research methods, statistics and program evaluation that may lead to higher entry positions in their chosen career path. An associated benefit of the accelerated BA-MS degree program to students that have advanced degree aspirations is the ability to save time and money by completing their studies more quickly at the same institution and double-counting 9 credit hours. This accelerated BA-MS non-thesis degree program is NOT designed for students who may wish to transition to a Ph.D. program in Psychology.

Brain and Cognitive Sciences Concentration

The Brain and Cognitive Sciences program (BCS) emphasizes cognitive behavior approached from a combination of developmental (infancy and childhood, adolescence and aging), neurobiological

(neurophysiology, neuropsychology, genetics), behavioral (human and animal experimentation) and computational (neural networks, statistical analyses, intelligent software agents) perspectives. Students specializing in Brain and Cognitive Sciences typically pursue careers in academic settings such as departments of psychology, neuroscience, cognitive science or medical schools, or in non-academic settings such as pharmaceutical companies, hospitals, or in government research facilities.

In addition to department requirements, BCS students will take four courses from the following three pairs: PSYC 511 and PSYC 515 (Cognitive), PSYC 554 and PSYC 555 (Developmental), and PSYC 514 and PSYC 516 (Biopsychology). They must choose at least one course from each pair. Students will get experience with at least two different research methodologies (behavioral/cognitive experimentation, computational modeling, neurobiological experimentation, psychological assessment) either through individual research or appropriate course work, and must enroll for PSYC 572 (BCS Proseminar) throughout their tenure in the department. An additional four to six courses are required for the specialization.

Clinical Psychology Concentration

The Clinical Psychology program, accredited since 1961 by the American Psychological Association and the current Commission on Accreditation, is designed to train clinical psychologists for careers in clinical service, teaching and research. In addition to completing a required departmental core (designed in accordance with APA accreditation and state licensing board requirements), students take required courses in clinical skills, psychopathology, assessment, therapy, advanced/integrative discipline-specific knowledge, and ethical/professional issues (PSYC 594C, PSYC 535 or PSYC 581, PSYC 540, PSYC 580, and PSYC 598).

Students in the Adult Clinical Psychology specialization take required courses in psychotherapy and assessment (PSYC 530 and PSYC 544), in addition to two clinically relevant electives. Students in the Child Clinical Psychology specialization take two required developmental psychology courses (one of which usually fulfills a core requirement), and several courses in child assessment plus child treatment (PSYC 543, PSYC 556, and PSYC 559).

Counseling Psychology Concentration

The Counseling Psychology program, accredited since 1961 by the Accreditation Committee, Education Directorate of the American Psychological Association, is designed to teach students a wide range of skills which will prepare them to function as scientist-practitioners. Graduates are qualified for employment in a university setting (either in an academic department or a counseling center), in hospitals, community agencies, and educational and correctional institutions. The student is expected to develop competence in counseling, psychological assessment, research, and teaching. The required courses are as follows: PSYC 523, PSYC 525, PSYC 526, PSYC 530, PSYC 536, PSYC 537, PSYC 538, PSYC 540, PSYC 548, PSYC 553, PSYC 558, PSYC 561, PSYC 594F, and PSYC 598.

Research, Practicum, and Training Assignments

Research or practica are required in each area of concentration. In addition, each term the student must be engaged in a training assignment which supplements formal course work by professional activities such as research, teaching, or clinical service. The assignment varies according to the needs, professional goals, and competencies of the student, and increases in responsibility as the student progresses. The assignments require from 10 to 20 hours of service per week. This is a degree requirement of all students each term and is independent of any financial support. Therefore, each term the student signs up for one hour of PSYC 597.

Thesis and Dissertation Committee

Because the thesis or dissertation project and the proposed committee composition must be formally approved by the department chair, the student should submit the proposed committee in writing for approval by the chair well in advance of the prospectus meeting.

A master's thesis committee consists of three or more faculty members and a dissertation committee of five or more faculty members (counting the committee chair). Committee chairs and a majority of committee members must be tenure-track faculty of the Department of Psychology. Thesis and dissertation committees must have one Psychology faculty member outside the student's program area

—to better reflect the diversity of departmental perspectives. Dissertation committees also must have a faculty member from a department other than Psychology.

Prospectus

Prior to starting the empirical research on a thesis or dissertation, a student must submit a written prospectus to each member of the committee at least one week prior to the prospectus meeting. A carefully written prospectus ordinarily serves as the opening chapters of the thesis or dissertation.

The approval of the prospectus indicates that the committee members accept the research design. Faculty members not on the committee may attend the prospectus meeting, or may forward suggestions and comments to the committee chair prior to the meeting. Prospectus meetings are not scheduled during the recess period between semesters.

If the prospectus is approved with no major modifications, a letter of approval, noting any minor modifications is sent by the committee chair to the department chair for filing in the student's permanent records. If major modifications are needed, the student may be asked to rewrite the prospectus, circulate the revised prospectus and arrange another committee meeting. A prospectus must be approved at least one semester before graduation.

Style

The student has the option of writing the thesis or dissertation in the traditional fashion or in journal style. In the latter case, ancillary material (full survey of literature, subsidiary analyses, etc.) are placed in the appendices, although figures and tables appear in the text. The Psychology department prefers that citations, table headings, etc. follow the APA style (Publication Manual of the American Psychological Association, latest edition, Washington, D.C.).

General Procedures

Students should not register for PSYC 599 or PSYC 600 hours until they have supervisors and will actually be using University facilities, or faculty time for assistance and direction.

Prior to graduation (a minimum of five weeks for master's students and eight weeks for doctoral students), and at least one week prior to the oral defense meeting, the candidate must submit a final draft of the thesis or dissertation to the full committee so that appropriate suggestions can be made.

Number of Copies

Two bound copies of the complete thesis or dissertation are required: one for the committee chair, and one for the departmental thesis and dissertation library.

Oral Examination

The Department of Psychology requires an oral examination, conducted by the student's thesis or dissertation committee, for each M.A. and Ph.D. candidate. The examination covers the thesis or dissertation and also includes questions designed to ascertain the student's general competence in psychology.

Oral examinations are open to all interested observers. Notices of the time and place of the examination, and abstracts of the thesis or dissertation, are circulated throughout the department and, in the case of Ph.D. examinations, throughout the University. Two copies of the abstract should be given to the Graduate Program Coordinator at least one week prior to the oral defense meeting.

The Graduate Program Coordinator delivers the oral examination form and the thesis or dissertation evaluation form to the committee chair the day before the orals are scheduled. Orals meetings are not scheduled during the recess period between semesters.

General Information

Waiving of Course Requirements

Students who wish to have a course waived should consult with their advisers, the course instructor, and the head of their major area. One of the following recommendations will be made: (a) the course will be waived; (b) a proficiency examination (theoretical, practical, or both) will be given prior to deciding on the student's request; (c) the request will be refused and the student will take the course. A student may appeal the decision by writing a letter to the department chair requesting that the case be reviewed.

Grading Policies

Any student who receives a grade of *Inc.* is responsible for contacting the instructor to determine the time allowed for the completion of the course (normally not more than one year).

For internal records to be used within the department only, pluses and minuses are added to the standard A, B, C grades reported to the Office of Admissions and Records.

Student Evaluation

All students are evaluated by the faculty at least once a year, normally during fall semester. New students are evaluated in the beginning of spring semester (first year) and students on departmental probation at times specified in their probation. The evaluation is based on the following criteria: (1) academic performance on a 10 point rating scale (*A+* = 10); (2) ratings on the training assignment; and (3) progress toward the degree. The student's evaluation may also be based upon evidence relating to professional attitudes or ethical behavior.

Each student's adviser informs the student of the evaluation and of any faculty recommendations as soon as possible after the meeting. In addition, the department chair writes a formal letter notifying the student of the evaluation and recommendations.

Master's Degree Requirements

The master's degree requires a minimum of 48 semester hours of acceptable graduate credit, distributed according to the requirements of the student's major area, and the completion of an approved thesis. The master's thesis may be either original research or the replication of an important study. The master's degree is a prerequisite for the doctorate.

Doctoral Requirements

Admission

Admission to the Ph.D. program requires a master's degree, a grade point average of 3.25 or above in graduate studies, and acceptance by the department. A student who receives the master's degree from SIU must apply formally to the Graduate School for admission to doctoral-level study, and must be approved by the faculty.

Records of students entering the program with a master's degree from another institution are evaluated by the departmental admissions committee which notes deficiencies, recommends methods for removing them, and specifies a time limit to do so. Such deficiencies must be removed before the student can be classified as a Ph.D. candidate. The student is recommended to the graduate dean for admission to Ph.D. candidacy only when core curriculum requirements and the preliminary examination(s) have been satisfactorily completed.

Accelerated Entry into Ph.D. Degree Program

Students enrolled in the M.A. degree program may be admitted directly to the Ph.D. degree program following departmental certification of graduate work comparable to a master's degree in psychology

at SIU. Accelerated entry is acceptable only for students who have completed substantial work in other programs in psychology which grant the Ph.D. degree but not a master's degree. Students seeking accelerated entry may apply after enrollment at the master's level for one semester. Applications for accelerated entry are reviewed and decided by a faculty committee appointed by the department chair.

Internship

Doctoral students who are concentrating in counseling or clinical psychology must complete an approved internship. The internship is viewed as an integral part of training and the Ph.D. degree is not awarded until the completion of all academic work and the internship. Students are responsible for scheduling and obtaining internships. Internships in counseling and clinical psychology require a full-time experience either for one calendar year, or for two years of half-time experience. Counseling and clinical students are approved for internship after completion of their master's degree, major and minor preliminary examinations, and all courses required for the Ph.D. Clinical students must have an approved dissertation prospectus before applying for internship.

Students in applied psychology are encouraged to complete an internship in an applied setting away from campus that is selected with the help of their faculty advisers in their major area of concentration.

Preliminary Examinations

Ph.D. candidacy is contingent upon successful completion of a written preliminary examination in the student's major area of concentration. The examination is composed primarily of essay questions requiring substantive knowledge of empirical and theoretical topics. Questions are not limited to course content.

Every student is expected to pass each examination on first taking. In any event a second failure on a preliminary examination will result in a thorough faculty review of the student's entire academic record in order to determine whether the student will be allowed to continue in the program and, if continued, under what conditions.

Major/Comprehensive

Fields of concentration for the major/comprehensive preliminary examination are listed below:

1. **Experimental.** Either applied psychology or brain and cognitive science may be selected for the comprehensive examination.
2. **Clinical.** The major examination includes the following: psychological assessment, psychotherapy, psychopathology, research methods, and professional/ethical issues. In addition, the examination reflects the student's specialization emphasis, i.e., adult or child.
3. **Counseling.** The major examination includes the following areas: (a) adult personal, social, and career development; (b) assessment; (c) group and individual counseling theories and techniques; (d) research methodology and measurement; and (e) professional issues.

Major/comprehensive examinations are scheduled by the department once a term. Notices are posted well in advance and students are expected to notify the Graduate Program Coordinator of their intention to take the examination. Examination committees are appointed by the chair.

Minor / Specialization

In addition to the major/comprehensive preliminary examination, a specialization paper is required in the experimental area.

Dissertation

Each candidate for the Ph.D. degree must write a dissertation showing high attainment in independent, original scholarship and creative effort. A total of 24 semester hours is required. A maximum of six hours of dissertation credit taken prior to passing the major preliminary examination will count. A student may not hold a prospectus meeting before successful completion of the preliminary examination.

Psychology Courses

PSYC402 - Psychology and Medicine 402-3 Psychology and Medicine. This course is an extensive review of psychology concepts as they relate to medicine and medical training. The overall goal of this course is to provide review of psychology concepts as they appear in the new form of the MCAT.

PSYC405 - Psychology and Law 405-3 Psychology and Law. (Same as CCJ 405, PSYC 505) This course surveys psychological theory and research as applied to the cognitions, emotions, and behavior of individuals in the legal system. The implications of social psychology for legal settings, such as police departments, courtrooms, and jury rooms are explored.

PSYC407 - Theoretical Issues in Learning 407-3 Theoretical Issues in Learning. An introduction to the major theoretical issues in learning and their importance. A brief review of the history of such problems will be followed by a summary of the current research concerning these issues. Traditional figures in learning theory will be considered within the context of their positions on specific questions. Prerequisite: PSYC 211 and PSYC 309 or equivalent or graduate status.

PSYC409 - History/Systems of Psychology 409-3 History and Systems of Psychology. A review of the conceptual and empirical antecedents of modern psychology. Prerequisite: PSYC 211. Restricted to senior status, or graduate status.

PSYC411 - Applied Learning 411-3 Applied Learning. An in-depth coverage of practical problems concerned with training to which the principles of learning derived from pure laboratory investigations can be applied. Prerequisite: PSYC 211 and PSYC 309 or graduate status.

PSYC415 - Psychopharmacology 415-4 Psychopharmacology. A survey of the effects of drugs on the normal and abnormal behavior of humans and animals. A primary focus is upon understanding drug influences on behavior in relation to actions on the nervous and endocrine systems. Prerequisite: PSYC 302 or graduate status.

PSYC416 - Recovery of Function 416-3 Recovery of Function Following Brain Damage. A survey of experimental animal and human clinical research as they relate to behavioral recovery following damage in the central nervous system. Recent theories and literature are stressed. Prerequisite: PSYC 302 or consent of instructor, or graduate status.

PSYC417 - Neuroscience Learn & Memory 417-3 Neuroscience of Learning and Memory. This course will serve as an advanced discussion on the research related to the neuroscience of how learning and memory operate. Topics will discuss how the principles surrounding learning and memory are explained in terms of cellular, neural systems, and behavioral levels. Prerequisite: PSYC 302 or consent of instructor or graduate status.

PSYC419 - Behavioral Genetics 419-3 Behavioral Genetics. Provides an overview of the experimental and quantitative methods used in studying behavioral differences associated with genetic variables. Elementary aspects of genetics will be included in the course, which will examine several aspects of both human and nonhuman behavior. Prerequisite: PSYC 211 or consent of instructor, or graduate status.

PSYC420 - Industrial/Organizational Psych 420-3 Industrial/Organizational Psychology. Topics in industrial and organizational psychology; applications of psychology to human resource management, such as job analysis, performance appraisal systems, personnel selection and training. Prerequisite: PSYC 211.

PSYC421 - Tests & Measurements 421-3 Psychological Tests and Measurements. Introduction to measurement theory and test development. Detailed coverage of selected tests from such areas as intelligence, aptitude and personality, and the use of psychological tests in various settings. Prerequisite: PSYC 211 or graduate status.

PSYC425 - Psychology of Parenting 425-3 Psychology of Positive Parenting. This course will provide a comprehensive overview of key concepts in parenting, the nature of parenting across the lifespan and specific challenges for parents with children in each of the developmental stages. We will discuss effective strategies for addressing these challenges in addition to programs and approaches that demonstrate a strong evidence base. Special focus will additionally be given to diversity issues, parenting

in high risk families and in families with exceptional children. Prerequisites: PSYC 102, PSYC 301 with grades of C or better.

PSYC431 - Advanced Psychopathology 431-3 Advanced Psychopathology. An advanced presentation of theoretical and empirical issues in contemporary psychopathology research. Explores the role empirical research plays in understanding the features of major psychological disorders and their treatment. Provides a broad understanding of the many factors that contribute to the development and maintenance of abnormal behaviors. Prerequisite: PSYC 211, PSYC 331 or consent of instructor or graduate status.

PSYC432 - Childhood Psychopathology 432-3 Psychopathology of Childhood. An extensive review and systematic evaluation of theories and research pertaining to the behavior disorders of childhood. Emphasis will be upon empirical data and the implications of these data for the classification and treatment of these disorders. Prerequisite: PSYC 211, PSYC 301, PSYC 311 or graduate status.

PSYC440 - Advanced Personality 440-3 Advanced Personality. Advanced presentation of theoretical and research issues related to current issues in personality psychology. The overarching focus of the course is presentation and discussion of a scientific approach to understanding what personality is, how it can be measured, how it develops and how it relates to various aspects of individual functioning. Prerequisite: PSYC 211 or consent of instructor.

PSYC441 - Helping Skills Clin/Couns Psyc 441-3 Helping Skills in Clinical and Counseling Psychology. (Same as COUN 493) Provides systematic training in helping skills for students considering clinical or counseling psychology as a career. Students learn to identify and demonstrate such skills as paraphrasing, reflection of feeling, interpretation, and confrontation, and will use them in practice situations. Prerequisite: PSYC 211 and PSYC 340. Restricted to senior standing in psychology.

PSYC443 - Bilingualism 443-3 Bilingualism. (Same as LING 443) Examines the linguistic, psycholinguistic, sociolinguistic and educational aspects of bilingualism, particularly as pertaining to the care and education of bilingual children. Useful for teachers, speech therapists, doctors, psychologists, counselors, and others working with bilinguals. Practical applications and data-based research. Prerequisite: PSYC 211.

PSYC445 - Psycholinguistics 445-3 Psycholinguistics. (Same as LING 445) A broad spectrum introduction to psycholinguistics. Topics to be covered include general methodology for the study of psycholinguistics, the nature of language, theories of human communication, language comprehension and production, first and second language acquisition, meaning and thought, natural animal communication systems and language of the brain. Prerequisite: PSYC 211.

PSYC451 - Advanced Child Psychology 451-3 Advanced Child Psychology. An assessment of concepts, methods, and research techniques within selected topic areas of developmental psychology. Prerequisite: PSYC 211 and PSYC 301, or graduate status.

PSYC453 - Adv Topics Developmental Psyc 453-3 Advanced Topics in Developmental Psychology. This course explores a variety of areas in developmental psychology that involve some controversy, from infancy through adolescence. Issues central to understanding developmental psychology as a discipline or specific areas of research within developmental psychology will also be considered.

PSYC461 - Advanced Social Psychology 461-3 Advanced Social Psychology. Critical examination of contemporary theories and research in social psychology. Practice in application of scientific findings to real-life problems of individuals and groups. Issues treated in depth are chosen for relevance to student's personal needs and career interests. Prerequisite: PSYC 211 and PSYC 307 or graduate status.

PSYC470 - Psych of Race & Racism 470-3 Psychology of Race and Racism. (Same as AFR 472) This course reviews the history and evolution of the construct of race as a psychological phenomenon. While the course will be largely psychological in nature, the pervasiveness of race in practically every sphere of life necessitates a multidisciplinary approach. The course will emphasize a theoretical and conceptual approach toward understanding the psychology of racialized thinking. Prerequisite: PSYC 211.

PSYC471 - Judgment & Decision Making 471-3 Judgment and Decision Making. A survey of the academic field of judgment and decision making, its major methods, theories, results, and controversies. We will examine the generality of experimental results across various domains including gambling, clinical

prediction, perception of randomness, and medical decision making. Prerequisite: PSYC 211 or graduate status.

PSYC480 - Effective Correctional Practices 480-3 Effective Correctional Practices. (Same as CCJ 480) Exploration and evaluation of correctional intervention strategies developed for the sentencing of adjudicated persons. Particular emphasis on examining empirical research literature on effective correctional practices, including programs currently implemented in institutional settings, alternatives to institutional corrections, and community based programs. Prerequisite: PSYC 211.

PSYC489 - Seminar: Selected Topics 489-1 to 12 Seminar: Selected Topics. Varied content. Offered as need exists and as faculty interests and time permit. Prerequisite: PSYC 211. Special approval needed from the instructor.

PSYC503 - Individual Differences 503-3 Individual Differences. Reviews the reliable and theoretically significant individual and group difference that have been revealed by research in the behavioral sciences. Examines differences in general intelligence, specific verbal and spatial abilities, stylistic and personality characteristics, as well as such group differences as sex, race and socioeconomic status. Restricted to graduate status in Psychology.

PSYC505 - Psychology and Law 505-3 Psychology and Law. (Same as CCJ 405, PSYC 405) This course surveys psychological theory and research as applied to the cognitions, emotions, and behavior of individuals in the legal system. The implications of social psychology for legal settings, such as police departments, courtrooms, and jury rooms are explored.

PSYC507 - Advanced Social Psychology 507-3 Advanced Social Psychology. Review of new and traditional theories and research findings within social psychology. Provides an overview of major areas of study and consideration of more recent topics of study. Topics include (but are not limited to) cultural and evolutionary perspectives in social psychology, motivation, social cognition, self-knowledge, person-perception, cognitive consistency, attitudes, intergroup relationships, stereotyping, and group behavior. Restricted to graduate standing.

PSYC509 - History & Systems of Psych 509-3 History and Systems of Psychology. A review of conceptual and empirical antecedents of modern psychology. Students research and summarize topics on 20th Century systematic developments. Restricted to graduate status in Psychology.

PSYC511 - Human Learning & Memory 511-3 Human Learning and Memory. Reviews principles of learning and memory. Covers both human and animal research literature from experimental and theoretical perspectives.

PSYC512 - Sensory Processing 512-3 Sensory Processing. A study of the structure and functions of the sense organs. Emphasizes the psychological data, which describe the function of these organs.

PSYC513 - Human Psychophysiology 513-3 Human Psychophysiology. Physiology, instrumentation, and methodology of psychophysiological measurements including both autonomic and central nervous systems. Attention will be given to basic and applied research. Restricted to graduate standing.

PSYC514 - Neurobiological Bases Behavior 514-4 Neurobiological Bases of Behavior. An advanced study of neuroanatomical and neurophysiological principles underlying behavior. Topics covered include structure and function of neurons, synaptic transmission, sensory processing, motor control, development and plasticity of the nervous system and other current topics in neurobiology. Prerequisite: PSYC 302 or equivalent. Special approval needed from the instructor.

PSYC515 - Theory & Res Cognitive Psych 515-3 Theory and Research in Cognitive Psychology. A detailed survey of current studies of attention, short-term memory and thought processes. Special approval needed from the instructor.

PSYC516 - Human Clinical Neuroanatomy 516-4 Human Clinical Neuroanatomy. Basic functioning of the nervous system, detailed gross anatomy and dissection of the human brain, functional disorders following brain damage, noninvasive cranial nerve examination. The course includes a lab component. Restricted to graduate standing.

PSYC517 - Aging, Memory & Cognition 517-3 Aging, Memory and Cognition. (Same as GRON 517) A detailed survey of current methodology, research and theory dealing with cognitive and memory processes in later adulthood. Topics covered include attention, memory, reasoning and problem solving, language processing and inference and age-associated pathologies affecting cognition and memory. Special approval needed from the instructor.

PSYC518 - Psychopharmacology & Behavior 518-4 Psychopharmacology and Behavior. A detailed survey of the effects of drugs on the normal and abnormal behaviors of humans and animals. A primary focus is upon understanding drug influences on behavior in relation to actions on the nervous system, endocrine system and behavior pathology. Students review and summarize original research in the area. Restricted to graduate status in psychology or permission of instructor.

PSYC519 - Research on Indiv Differences 519-3 Research on Individual Differences. Reviews the reliable and theoretically significant individual and group differences that have been revealed by research in the behavioral sciences. Examines difference in general intelligence, specific verbal and spatial abilities, stylistic and personality characteristics, as well as such group differences as gender, race and socioeconomic status. Students review and summarize original research in the area and lecture on that topic. Restricted to graduate status in psychology or permission of instructor.

PSYC520 - Apps Psyc Learning & Memory 520-3 Applications of the Psychology of Learning and Memory. A survey of the theories and methods of training that have resulted from research in the areas of learning and memory. Students will review some of the very recent methods as well as those that are better developed. Practice will be provided. Prerequisite: PSYC 309 or consent of instructor.

PSYC522 - Experimental Design & Analysis 522-4 Experimental Design and Analysis. (Same as QUAN 508) In-depth coverage of the rationale underlying the design and analysis of complex experimental designs used in psychological research. Restricted to Psychology graduate students.

PSYC523 - Res Methods: Appl & Prof Psyc 523-3 Research Methods in Applied & Professional Psychology. Discussion of problems in experimental and quasi-experimental design, control and analysis that are encountered by researchers and professional psychologists. The course covers critical evaluation of internal, construct, and external validity and the application of randomized and non-randomized designs for causal inference. Passive-observational and qualitative designs are covered at the instructor's discretion. Examples of current research practice from applied, counseling and clinical psychology are reviewed. Restricted to graduate status in psychology or consent of instructor.

PSYC524 - Multivariate Methods Psych 524-4 Multivariate Methods of Psychology. Detailed treatment of multiple-factor analysis and multiple regression analysis. Also includes introduction to other multivariate methods such as discriminant analysis and cluster analysis. Prerequisite: PSYC 522. Restricted to Psychology graduate students.

PSYC525 - Psychological Measurement 525-3 Psychological Measurement. (Same as QUAN 531) Intensive coverage of such topics in test theory as item analysis, reliability, validity, problems of weighting in differential prediction, and problems in selection and classification. Prerequisite: PSYC 421 or consent of instructor.

PSYC526 - Research in Counseling Psyc 526-3 Research in Counseling Psychology. This course provides a basic foundation of research skills. The course includes extensive reading in counseling psychology research and coverage of research design, specific research techniques, technical writing and research ethics.

PSYC527 - Theory & Methods Scaling 527-3 Theory and Methods of Scaling. The theory of measurement, by which observed behavioral events can be translated into quantitative scales of psychological constructs. The course will cover several axiom systems that form the foundation for psychological measurement, including representation in more than one dimension. Prerequisite: PSYC 522. Restricted to graduate standing.

PSYC528 - Decision Analysis Techniques 528-3 Decision Analysis: Techniques for Aiding Decisions. A survey of formal methods for making decisions, based on subjective probability and multiattribute utility

assessments. Students will be given practice in using methods of decision analysis for solving decision problems. Special approval needed from the instructor.

PSYC529 - Advanced Multivariate Stats 529-3 Advanced Applied Multivariate Statistics. This course will introduce multivariate analyses such as structural equation modeling, hierarchical linear modeling and latent curve analysis, with additional topics addressed dependent upon student interest (e.g., missing data, categorical and/or dyadic data analysis). After presenting conceptual information on latent variable analysis, the course will focus on the application of advanced analytic techniques. Understanding of correlation and regression is essential for this course. Prerequisite: graduate level multivariate statistics course.

PSYC530 - Theories of Couns/Psytherapy 530-3 Theories of Counseling and Psychotherapy. A survey of the major theories of personality and systems of counseling and psychotherapy. Stresses relationship between theory and application. Special approval needed from the instructor.

PSYC531 - Field Placement 531-1 to 3 Community and Institutional Field Placement. Introduction to a variety of area agencies with each student affiliating with two agencies at least two days per week. Individual and group supervision with special attention to the variety of clinically related problems and approaches to treatment encountered in the course of their activities. Required for clinical students. Restricted to psychology graduate students in clinical or counseling.

PSYC532 - Devel Pers & Psychopathology 532-3 Development, Personality & Psychopathology. An extensive review and systematic evaluation of theories and research pertaining to developmental processes as they influence temperament, personality and psychopathology with emphasis on normal and disordered pathways. Restricted to graduate status or consent of instructor.

PSYC533 - Exper Apprs: Psychopathology 533-2 Experimental Approaches to Psychopathology. An examination of the research literature on several issues in clinical psychopathology. Restricted to psychology graduate or consent of instructor.

PSYC534 - Cogn & Behavior Therapy 534-3 Cognitive and Behavior Therapy. An extensive review and systematic evaluation of clinical methods including desensitization, assertion training, cognitive restructuring, and conditioning strategies. Restricted to graduate status (clinical/counseling) or consent of instructor.

PSYC535 - Psychopathology 535-3 Psychopathology. Surveys the following issues and content areas in psychopathology: categorical and dimensional models and definitions of psychopathology, anxiety and related disorders, depressive disorders, schizophrenia spectrum and psychotic disorders, substance-related disorders, and personality disorders. Also reviews diagnostic procedures, including differential diagnosis. This course is required for all clinical students within their first two years. Restricted to psychology graduate students or consent of instructor.

PSYC536 - Fundamentals of Counseling 536-4 Fundamentals of Counseling. An introduction to counseling psychology as a professional specialty. Professional and ethical issues in the training and work of counseling psychologists are examined. Basic counseling skills are acquired through practice interviewing. Restricted to psychology graduate students or consent of instructor.

PSYC537 - Adv Treatment Planning 537-3 Advanced Treatment Planning and Implementation. An advanced level course designed to help students grapple with the more complex issues of psychological practice in today's health care system. Students will practice comprehensive treatment planning and outcome management that is theoretically driven and evidence-based. Students will also gain specific knowledge and skills related to delivering therapy in a culturally relevant and time-limited manner. Restricted to psychology graduate status.

PSYC538 - Theory/Practce Group Facilitatn 538-3 Theory and Practice of Group Facilitation. Didactic presentation of group dynamics and group counseling/therapy. Restricted to Psychology graduate status.

PSYC539 - Experimental Psychotherapy 539-3 Experimental Approaches to Psychotherapy. A review and evaluation of empirical research related to the amelioration of maladjustment. Emphasis is on measurement and methodological problems. Prerequisite: PSYC 530 or consent of instructor.

PSYC540 - Psychological Assessment 540-4 Psychological Assessment. Basic theory, practice and research on psychological assessment with emphasis on objective, validated measures of intelligence and personality. Includes one hour laboratory section. Restricted to psychology graduate status. Course fee: \$100.

PSYC542 - Prin & Prob-Personality Assmt 542-3 Principles and Problems in Personality Assessment. Critical review of research related to such topics as scale construction strategies, response styles, trait attribution, judgmental accuracy, and judgmental processes. Special approval needed from the instructor.

PSYC543 - Adv Child Assessment 543-3 Advanced Child Assessment. Basic theory, research, and practice in the psychological assessment of children's learning and emotional problems. Prerequisite: PSYC 540. Restricted to psychology graduate standing. Special approval needed from the instructor.

PSYC544 - Adv Adult Assessment 544-3 Advanced Adult Assessment. Practical experience at conceptualizing psychopathology from a standard clinical test battery and in writing clinically meaningful test reports. Prerequisite: PSYC 540. Restricted to Psychology graduate standing. Special approval needed from the instructor.

PSYC545 - Intro Neuropsych Assessment 545-3 Introduction to Neuropsychological Assessment. Overview of the development of neuropsychology from signs to test batteries and methodology. Prerequisite: PSYC 540. Restricted to psychology graduate status. Special approval needed from the instructor.

PSYC546 - Human Clinical Neuropsychology 546-3 Human Clinical Neuropsychology. This course will familiarize students with the basic concepts, empirical foundations, and clinical applications of human clinical neuropsychology. The neurobehavioral manifestations of both acute and chronic conditions will be covered. Prerequisite: PSYC 540. Restricted to psychology graduate status. Special approval needed from the instructor.

PSYC548 - Vocational Psyc & Career Dev 548-3 Vocational Psychology and Career Development. Introduces students to vocational psychology as an area of academic inquiry. Topics include theories of career development, occupational information, career assessment, research issues, and career counseling techniques. Restricted to graduate standing.

PSYC549 - Behavioral Assessment 549-3 Behavioral Assessment. A didactic and practicum course concerned with principles and methods of behavioral assessment including behavioral interviewing, questionnaires, self-monitoring, naturalistic and structured observation and psychophysiological assessment.

PSYC550 - Psych Construction of Gender 550-3 The Psychological Construction of Gender. (See WGSS 550)

PSYC552 - Social Development 552-3 Social Development. Advanced consideration of current methods, research, and theory in development psychology with emphasis on infancy through adolescence. Includes integration of social, developmental, and biological aspects of child development, with particular attention paid to social and personality development and parent-child relations. Special approval needed from the instructor.

PSYC553 - Cross-Cultural Psychology 553-3 Cross-Cultural Psychology. This course helps students increase their awareness of the importance of cross-cultural differences in psychology. The course also integrates theory and research from different fields of psychology (e.g., biological, social, developmental, cognitive, psychopathology) from the cross-cultural perspective. Special approval needed from the instructor.

PSYC554 - Life-Span Developmental Psych 554-3 Life-Span Developmental Psychology. Theories of human development, as well as current research trends and methodologies, will be examined from a life-span perspective.

PSYC555 - Language and Cognition 555-3 Language and Cognition. Current theoretical problems in language and cognitive developments are investigated from the perspective of psychology, physiology, linguistics and computer simulations. Special approval needed from the instructor.

PSYC556 - Child Psychotherapy 556-3 Child Psychotherapy. Survey and analysis of traditional and contemporary approaches to individual child psychotherapy. Includes psychodynamic, humanistic-nondirective, hypnotherapy-imagery and other perspectives as well as therapy outcome research. Restricted to psychology graduate status. Special approval needed from the instructor.

PSYC557 - Family Psychotherapy 557-3 Family Psychotherapy. Investigation of the psychosocial interior of the family. Evolution and dynamics of interaction in families. Study of the methods of therapeutic intervention with families. Restricted to psychology graduate status. Special approval needed from the instructor.

PSYC558 - Personality & Soci Dev Adults 558-3 Personality and Social Development of Adults. A lecture-discussion course which presents the major theoretical and empirical literature in the area of adult personality and social development. Students are encouraged to apply normal developmental constructs to understand individual adults, as well as to gain competence in research methods in this area. Restricted to psychology graduate students or consent of instructor.

PSYC559 - Behavioral Child Therapy 559-3 Behavioral Child Therapy. Survey and analysis of behavioral and cognitive-behavioral approaches to the treatment of child psychopathology. Restricted to psychology graduate status. Special approval needed from the instructor.

PSYC560 - Couples/Marital Therapy 560-3 Couples and Marital Therapy. This course is designed to provide doctoral level psychology students the basic theoretical and technical background necessary before beginning to work in supervised marital/couples therapy clinical practice. Restricted to psychology graduate status or consent of instructor.

PSYC561 - Supervision of Psychotherapy 561-3 Supervision of Psychotherapy. Presentation of the theories and techniques of psychotherapy supervision, as well as cultural, ethical and legal issues in supervision. Students will also provide individual supervision to beginning counselors and receive supervision of their supervision. Restricted to psychology graduate status.

PSYC562 - Adolescent Clinical Psychology 562-3 Adolescent Clinical Psychology. Discusses specific characteristics of adolescent psychopathology, techniques for psychological assessment, common and empirically supported treatment approaches. Restricted to psychology graduate students or consent of instructor.

PSYC563 - Resrch Attitudes & Persuasion 563-3 Research in Attitudes and Persuasion. Detailed review of current theory and research in social psychology of attitude formation and change and of persuasion techniques. Students will develop literature reviews and conduct original research. Restricted to graduate status in psychology or consent of instructor.

PSYC564 - Prog Eval:Exper & Quasi Apprch 564-3 Program Evaluation: Experimental and Quasi-Experimental Approaches. Review of experimental and quasi-experimental designs for assessment of program impact. Discussion of design, logistic, and political implementation problems. Detailed examination of a number of attempts at program evaluation. Prerequisite: 500-level statistics course.

PSYC565 - Research Organizational Psych 565-3 Research in Organizational Psychology. In-depth examination of theoretical and research literature in organizational psychology. Topics include, but are not limited to, theory and research literature on work motivation, job attitudes, leadership, group processes, organizational stress and women and minorities in the work place. Restricted to graduate status in psychology or permission of instructor.

PSYC566 - Health Psychology 566-3 Health Psychology. This course will explore the interface between psychological theory and research and health issues including health behavior, prevention and intervention, stress and coping, management of chronic and terminal illness, health care service utilization, and patient/provider interaction. Graduate standing required.

PSYC569 - Applied Research Consultants 569-1 to 3 Applied Research Consultants. Consulting firm which provides applied research experiences for advanced graduate students on planning, data gathering, evaluation, and decision making projects for units of university and area agencies and businesses. Students exercise decision making power in all aspects of the firm: project solicitation, fee setting, expenditures. Graded S/U only. Prerequisite: PSYC 571 or consent of instructor.

PSYC570 - Early Cognitive Development 570-3 Early Cognitive Development. Surveys the major theories, methods, and data in the field of human cognitive development, with a particular emphasis on the qualitative changes that occur during infancy and early childhood. Special approval needed from the instructor.

PSYC571 - Prosem in Applied Exper Psych 571-6 (2,2,2) Proseminar in Applied Experimental Psychology. A survey of the problem areas to which applied experimental psychology is applicable and of the principal methods employed by applied experimental psychologists. Integration of these approaches within a comprehensive metatheory. Case studies apply the information to actual and simulated application problems. Graded S/U.

PSYC572 - Prosem Brain & Cognitive Sci 572-1 Proseminar in Brain and Cognitive Sciences. Discussions of various research topics within the brain and cognitive sciences. Presentations of current research by faculty and graduate students.

PSYC573 - Personnel Psychology 573-3 Personnel Psychology. This course will give an in-depth treatment of modern theories and practice of personnel selection. Students will learn about the psychological variables used in personnel selection as well as how to apply these findings in modern organizations. Course content will include individual difference traits related to subsequent job performance, methods used to select employees, personnel selection practices, adverse impact, and other related topics. Restricted to graduate students in Psychology or instructor's permission.

PSYC574 - Groups and Teams 574-3 The Psychology of Groups and Teams. This course examines the good, the bad and the ugly with groups and teams, with an emphasis on group dynamics and performance. Topics include: leadership, group composition and performance, group decision-making, ostracism, minority influence, groups and technology, and creativity. Restricted to graduate students in psychology or permission of instructor.

PSYC575 - Computational Modeling 575-3 Computational Modeling. Introduction to computational modeling of cognitive processes. Covers theoretical and methodological issues in computational simulations of psychological behavior. Lectures and practical simulation assignments. Special approval needed from the instructor.

PSYC577 - Second Language Acquisition 577-3 Second Language Acquisition. (Same as LING 541) Introduction to key concepts and major theoretical and methodological issues in second language acquisition. Major developments in SLA in the areas of phonology, morphology, lexis, syntax, semantics and discourse and provides students with hands-on experience in describing and accounting for second language data. Prerequisite: Introduction to linguistics or consent of instructor.

PSYC578 - Bilingualism 578-3 Bilingualism. (Same as LING 543) A comprehensive introduction to the study of bilingualism. Course will examine the linguistics, psycholinguistic, sociolinguistic and educational aspects of bilingualism, particularly as pertaining to the care and education of bilingual children. Prerequisite: one previous course in linguistics or consent of instructor.

PSYC580 - Cognition Affect & Behavior 580-3 Cognition, Affect and Behavior. Provides an integrative exploration of the relations among cognition, affect and behavior (CAB). Foundations of this integration are provided, including examination of basic principles, experimental evidence, and biological bases. Emphases will be placed on learning, stability, self-regulation, and change of CAB, and relationships to individual differences, personality, psychopathology, and genetically influenced temperaments. Restricted to psychology graduate student status or instructor permission.

PSYC581 - Developmental Psychopathology 581-3 Developmental Psychopathology. An extensive review and systematic evaluation of theories and research pertaining to developmental psychopathology. Emphasis will be on empirical data and the implications of these data for the classification and treatment of disorders. Restricted to graduate status. Special approval needed from the instructor.

PSYC584 - Pediatric Psychology 584-3 Pediatric Psychology. This course is an introduction to pediatric psychology. Clinical and research applications to working with youth and their families in medical settings will be covered. Topics include clinical roles and settings in pediatric psychology, pediatric medical and developmental conditions and role of the pediatric psychologist, consultation-liaison in the pediatric medical setting, assessment and intervention approaches for children with medical conditions, and ethical

issues in pediatric psychology. Prerequisite: PSYC 556 or PSYC 559. Restricted to psychology graduate student status or instructor permission.

PSYC585 - Advanced Seminar 585-1 to 18 Advanced Seminar. Seminars of varied content for advanced students. Special approval needed from the instructor.

PSYC586 - Proseminar Clinical Psychology 586-1 Proseminar in Clinical Psychology. Required seminar for first-year graduate students enrolled in the Clinical Psychology program. Graded S/U. Restricted to psychology graduate status.

PSYC587 - Systems, Admin, & Advocacy 587-1 Advanced Professional Seminar in Psychology: Systems, Administration, and Advocacy. The purpose of this professional seminar is to provide students with an opportunity to consider and consolidate their various training, experiences related to interdisciplinary systems, management and administration, and advocacy. These core competencies are relevant to all professional psychology work settings. Students will bring in case examples from their applied work, professional meetings, and personal reading. Learning will be facilitated via readings, case examples, and discussion. Restricted to Doctoral Student in Counseling or Clinical Psychology.

PSYC590 - Readings in Psychology 590-1 to 12 Readings in Psychology. Readings in selected topics in psychology under staff supervision. Graded S/U only. Special approval needed from the instructor.

PSYC591 - Readings on Culture/Diversity 591-3 Readings on Culture and Diversity. Readings on multicultural and diversity issues in Clinical Psychology, which may include, but not necessarily be limited to issues of racial and ethnic differences, gender, sexual orientation, socioeconomic status, religious affiliation, and disability, as they impact the assessment and treatment of psychopathology. Special approval needed from the instructor.

PSYC593 - Research in Psychology 593-1 to 24 Research in Psychology. Research under staff supervision in selected areas of psychology. Graded S/U only. Special approval needed from the instructor.

PSYC594A - Pract-Applied Exper Psyc 594A-1 to 16 Practicum in Psychology-Applied Experimental Psychology. Practicum experience in a professional setting is offered under staff supervision. Graded S/U only. Special approval needed from the instructor.

PSYC594C - Practicum-Clinical Skills 594C-3 Practicum in Psychology-Clinical Skills. Practicum experience in a professional setting is offered under staff supervision. Introduction to the professional skills and issues of clinical psychology, including ethics, interviewing, change processes, diversity issues. Special approval needed from the instructor.

PSYC594E - Practicum-Clinical Psychology 594E-1 to 16 Practicum in Psychology-Clinical Psychology. Practicum experience in a professional setting is offered under staff supervision. Graded S/U only. Special approval needed from the instructor.

PSYC594F - Practicum-Counseling Psychology 594F-1 to 16 Practicum in Psychology-Counseling Psychology. Practicum experience in a professional setting is offered under staff supervision. Graded S/U only. Special approval needed from the instructor.

PSYC594L - Practicum-Teaching of Psyc 594L-1 to 16 Practicum in Psychology-Teaching of Psychology. Practicum experience in a professional setting is offered under staff supervision. Graded S/U only. Special approval needed from the instructor.

PSYC595 - Internship 595-1 to 12 Internship. Placement in an approved setting required of all students in clinical and counseling psychology. Graded S/U only. Restricted to psychology graduate students.

PSYC597 - Preprofessional Training 597-1 to 15 Preprofessional Training. Experience given in research, teaching, or clinical or counseling activities. One hour required each semester of residence. Graded S/U only. Restricted to psychology graduate students.

PSYC598 - Ethical & Professional Probs 598-3 Ethical and Professional Problems in Psychology. The code of ethics in professional practice, in teaching and research; problems and issues of the field are

discussed; and relations to other professions and the public are considered. Special approval needed from the instructor.

PSYC599 - Thesis 599-1 to 6 Thesis.

PSYC600 - Dissertation 600-1 to 16 Dissertation.

PSYC601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

PSYC699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Psychology Faculty

Cashel, Mary Louise, Associate Professor, Ph.D., University of North Texas, 1997; 1997. Child and adolescent assessment; juvenile delinquency and preventative interventions; PTSD.

Chwalisz Rigney, Kathleen, Professor, Ph.D., University of Iowa, 1992; 1992. Health psychology; neuropsychology; group process and intervention; personality.

Clancy Dollinger, Stephanie, Associate Professor, Ph.D., Syracuse University, 1989; 1989. Successful aging; lifespan identity development; caregiving.

DiLalla, David, Associate Professor, *Associate Provost*, Ph.D., University of Virginia, 1989; 1990. Personality and psychopathology; personality assessment; computer-assisted assessment; behavioral genetics; sexual violence; social development.

DiLalla, Lisabeth, Professor, Ph.D., University of Virginia, 1987; 1992. Behavioral genetics, social cognitive development.

Dillon, Ronna, Professor, *Emerita*, Ph.D., University of California, Riverside, 1978; 1978.

Dollinger, Stephen J., Professor, *Emeritus*, Ph.D., University of Missouri, 1977; 1977.

Drake, Chad, Associate Professor, Ph.D., University of Mississippi, 2008. Acceptance and Commitment Therapy and Training; Relational Frame Theory; contextual behavioral science; behavioral measures of cognition; therapeutic change.

Fehr, Karla, Assistant Professor, Ph.D., Case Western Reserve University, 2013. Psychosocial outcomes for children with medical conditions, including risk and resiliency factors, coping, and intervention development and dissemination; the importance of pretend play for children's socioemotional development; the development of play intervention protocols to improve pretend play skills.

Gannon, Linda, Professor, *Emerita*, Ph.D., University of Wisconsin, 1975; 1975.

Gilbert, Brenda O., Associate Professor, *Emerita*, Ph.D., University of Florida, 1985; 1986.

Gilbert, David G., Professor, *Emeritus*, Ph.D., Florida State University, 1978; 1985. Brain, genetic, personality, and stimulus/environmental factors promoting substance use, smoking, and marijuana; emotions; EEG; brain imaging; eyetracking and attention.

Greer-Medley, Tawanda M., Associate Professor, Ph.D., Southern Illinois University at Carbondale, 2003. Perceived racism in health care; the contribution of racism and chronic oppression to existing health disparities; the impact of minority stressors on African American college students; racial and ethnic concerns in mental health counseling, and neural correlates of stress and cardiovascular responses for African Americans diagnosed with hypertension.

Habib, Reza, Associate Professor and *Director of University Core Curriculum*, Ph.D., University of Toronto, 2000; 2003. Cognitive neuroscience; brain imaging; cognition and memory.

Hylin, Michael, Assistant Professor, Ph.D., Northern Illinois University, 2010. Biochemical systems that underlie neurocognitive dysfunction following traumatic brain injury (specifically mild and repetitive injury); pathways associated with the extracellular matrix, inflammation and axonal injury; development of novel strategies for neurocognitive rehabilitation following traumatic brain injury.

Jacobs, Eric A., Associate Professor, Ph.D., University of Florida, 1997; 1999. Experimental analysis of behavior; human operant behavior; verbal behavior; choice and selfcontrol; behavioral ecology; behavioral economics; behavioral pharmacology; contingency management; radical behaviorism; cultural materialism.

Jensen, Robert, Professor, *Emeritus*, Ph.D., Northern Illinois University, 1976; 1981.

Kertz, Sarah, Associate Professor, Ph.D., University of Louisville, 2011. Development and treatment of anxiety disorders; developmental psychopathology of worry in children; conceptual models of generalized anxiety and worry; treatment outcomes for anxiety disorders.

Kibby, Michelle Y., Associate Professor, Ph.D., The University of Memphis, 1998; 2004. Neuropsychology; brain-behavior relations; reading disorders; ADHD; child assessment.

Knutson, Douglas, Assistant Professor, Ph.D., Oklahoma State University, 2008, 2012, 2017. Research interests include investigating health and resiliency among transgender, lesbian, bisexual, and gay identified populations.

Komarraju, Meera, Professor and *Interim Provost and Vice Chancellor for Academic Affairs*, Ph.D., Osmania University Hyderabad, India, 1983; Ph.D., University of Cincinnati, 1987; 2006. Personality and cross-cultural differences in academic motivation and achievement; gender, ethnicity, and leadership in the workplace.

Lakshmanan, Usha, Professor, Ph.D., University of Michigan, 1989; 1990. Psycholinguistics; bilingualism; child first language acquisition (monolingual & bilingual); child and adult second language acquisition; language and cognition.

Lee, Yueh-Ting, Professor and *Dean*, Ph.D. State University of New York at Stony Brook, 1991. Categorical thinking and evolutionary psychology, stereotype accuracy/inaccuracy, and judgment/decision-making, intergroup and cultural relations and identity, human beliefs (religion and spirituality), and applied psychology (e.g., health, leadership).

McHose, James H., Professor, *Emeritus*, Ph.D., University of Iowa, 1961; 1961.

McKillip, John A., Professor, *Emeritus*, Ph.D., Loyola University of Chicago, 1974; 1975.

O'Donnell, James P., Associate Professor, *Emeritus*, Ph.D., University of Pittsburgh, 1965; 1965.

Peter-Hagene, Liana, Assistant Professor, Ph.D., University of Illinois Chicago, 2011; 2016. Research interests include applications of social psychological theories and methods to legal contexts. She studies extra-legal psychological factors (such as emotions, attitudes, and regulatory processes) that affect jurors' decision making in criminal cases.

Pitz, Gordon F., Professor, *Emeritus*, Ph.D., Carnegie Mellon University, 1963; 1963.

Ramanaiah, Nerella, Professor, *Emeritus*, Ph.D., University of Oregon, 1971; 1971.

Schill, Thomas R., Professor, *Emeritus*, Ph.D., Oklahoma State University, 1963; 1963.

Schmidt, Kathleen, Assistant Professor, Ph.D., University of Virginia, 2011; 2014. Research interests include implicit social cognition, race attitudes, self-knowledge, social perception, reproducibility.

Snyder, John F., Associate Professor, *Emeritus*, Ph.D., Loyola University, 1965; 1968.

Swanson, Jane L., Professor, *Emerita*, Ph.D., University of Minnesota, 1986; 1986. Career choice and development; career assessment; adolescent career exploration.

Tinsley, Howard E.A., Professor, *Emeritus*, Ph.D., University of Minnesota, 1971; 1973.

Vaux, Alan, Professor and *Dean, College of Liberal Arts, Emeritus*, Ph.D., Trinity College Dublin, 1979; Ph.D., University of California/Irvine, 1981; 1980.

Yanico, Barbara, Associate Professor, *Emerita*, Ph.D., The Ohio State University, 1977; 1978.

Public Administration

Application Procedures

There is a supplemental application (Part Two), specific to the Department of Political Science that must be submitted along with the main online application. Separate forms are not required for application for financial assistance, except for Graduate School fellowships. Students will be accepted for graduate work in political science only upon approval by the department as well as the Graduate School. This program requires a nonrefundable \$65 application fee; applicants must pay this fee by credit card.

All applicants must submit all post-secondary education transcripts, three letters of recommendation from persons who can evaluate the applicant's academic ability and a statement of purpose. Applicants for the M.A. and Ph.D. programs must also submit scores on the Graduate Record Examination (GRE), verbal and quantitative tests, and an example of written work that demonstrates the applicant's analytical and writing skills. Foreign students must have taken the Test of English as a Foreign Language (TOEFL) and are expected to have a score of at least 600 (paper score) or 250 (computer score).

Applications and supporting materials for the M.A. and Ph.D. programs that are submitted by January will be given full consideration for admission and funding. Applicants should contact the M.P.A. program office for the deadlines pertaining to the application term.

Master of Public Administration Degree

mpaprog@siu.edu

Admission

Students applying to the M.P.A. Program are admitted as either pre-service or in-service. To be admitted as in-service, the student must have significant professional experience in a public or quasi-public agency. This can generally be defined as at least one year of full-time administrative work experience. Students having less than one year of professional experience are admitted as pre-service.

To be considered for admission, applicants must have: (1) graduated from an accredited four-year college or university and (2) received an overall grade point average of 3.0 on a 4.0 scale, or a 3.0 overall grade point average for the last two years of undergraduate work. In instances where a candidate's promise is indicated by professional experience rather than undergraduate record, consideration for admission will be given on an individual basis. Admission exceptions may be granted by the director upon careful review of the student's entire application including: letters of recommendation, a personal statement, and a writing sample. All international MPA applicants, except those from English-only speaking countries, must submit either an Internet-based TOEFL or IELTS official score report. If you obtained (or are obtaining) an undergraduate or a graduate degree in an English-only speaking country, your TOEFL/IELTS score requirement will not be waived. The MPA program requires a minimum TOEFL score of 80 (internet based) overall or minimum IELTS score of 6.5. The program requires a nonrefundable \$65 application fee that must be submitted with the Application for Admission to Graduate Study in Public Administration. A GRE score is required of all applicants wishing to be considered for a graduate assistantship or fellowship.

Degree Requirements

M.P.A. students complete a 40 semester hour program of study as follows: (1) nine required courses totaling 25 semester hours; (2) 12 semester hours of elective course work; (3) an internship for three semester hours; and (4) successfully passing a comprehensive final examination. Of the 40 hours of graduate level coursework, at least 19 semester hours must be taken in the Department of Political Science. Each of these requirements is described below. In-service students are not required to complete an internship, reducing the total number of semester hours needed to graduate to 37.

Retention

All M.P.A. students are required to maintain a minimum level of academic performance. Any student earning a C grade or below in two or more M.P.A. required courses will be dismissed from the program. Students must otherwise conform to the standards set out in the M.P.A. Student Handbook. Issues not addressed by the Handbook fall under retention policy provisions in the Graduate School Catalog.

Prerequisites

Students lacking undergraduate preparation in public administration must complete POLS 537 (Foundations of Public Administration) during their first semester of study. Exceptions to this may be granted to in-service students, on a case-by-case basis. Additionally, POLS 503 is a prerequisite to

enrollment in POLS 539 and is recommended prior to enrollment in POLS 542. POLS 540 can only be taken after at least three other core courses have been successfully completed.

Core Requirements - 25 credit hours

- POLS 503-3 Research Methods for Public Administrators
- POLS 535-3 Ethical Foundations of Public Service
- POLS 539-3 Program Analysis and Evaluation
- POLS 540-3 Seminar in Public Management
- POLS 542-3 Public Budgeting and Fiscal Management
- POLS 543-3 Human Resource Management
- POLS 545-3 Organization Theory and Behavior
- POLS 546-3 Leadership in Public Administration
- POLS 594-1 Preprofessional Seminar in Public Administration

Internship Requirement - 3 credit hours

- POLS 595-3 Internship in Public Affairs

Elective Requirements - 12 credit hours

- Elective courses are selected by the student and the Field Representative.

To facilitate the work of employed students, each of the required courses is offered in the evening at least once every three years. A substitution for one core course may be allowed if the substituted course is similar in content to the particular core course, or if competence in the subject matter of the course is clearly evident. All substitutions must be approved by the director of the program. M.P.A. students concentrating in aviation administration will substitute POLS 557 (Public Financial Administration) for POLS 539 (Program Analysis and Evaluation).

Electives

Elective courses may be selected from the offerings of various departments across the University, as well as those in the Department of Political Science. The student and the MPA Director consult in selecting courses best suited to the student's individual career goals. 400-level courses, of an introductory technical nature and other specialized courses especially relevant to the public administration profession, may be taken with the consent of the director of the program. Students may count no more than six hours of 400-level credits toward fulfillment of the degree.

MPA Comprehensive Exam Policy

All Masters of Public Administration (MPA) students must successfully complete a comprehensive examination as a part of their degree requirements. The examination will be taken in the semester in which the student completes all coursework (with the possible exception of one substantive course) for the program. The examination will consist of questions from the core courses in the program. A follow-up oral examination may be required at the discretion of the MPA faculty. In order to pass the exam, students must score at least an 80 out of 100 possible points. If a student fails the examination, they may retake the comprehensive examination one time during the next regularly scheduled examination period.

Internship

Pre-service students must register for POLS 595 and serve an internship in a governmental agency, nonprofit organization or quasi-governmental agency. The internship requires a minimum of 300 hours of work and must be approved by the director of the program. In extraordinary circumstances, a pre-service student may substitute three semester hours of coursework for the internship if a request is approved by the director.

MPA Aviation Administration Concentration

To be considered for admission into the aviation concentration, pre-service applicants will have graduated from an accredited four year college or university with a major in some aspect of aviation, with a minimum grade point average of 3.0. Inservice applicants with strong professional experience may be admitted with undergraduate grade point averages below 3.0, and with undergraduate majors outside of the aviation

field. Prerequisite coursework including POLS 537 and additional aviation administration courses may be required in these situations.

Core Requirements - 25 credit hours

- POLS 503-3 Research Methods for Public Administrators
- POLS 535-3 Ethical Foundations of Public Service
- POLS 540-3 Seminar in Public Management
- POLS 542-3 Public Budgeting and Fiscal Management
- POLS 543-3 Human Resource Management
- POLS 545-3 Organization Theory and Behavior
- POLS 546-3 Leadership in Public Administration
- POLS 557-3 Public Financial Administration
- POLS 594-1 Preprofessional Seminar in Public Administration

Aviation Requirements - 12 credit hours

(Select four of the five aviation courses, register for crosslisted AVM courses.)

- AVM/POLS 551-3 Aviation Policy, Law and Regulation
- AVM/POLS 552-3 Advanced Airport Administration
- AVM/POLS 553-3 Advanced Airport Safety Administration
- AVM/POLS 554-3 Aviation Planning
- AVM/POLS 555-3 I International Aviation

Internship Requirement - 3 credit hours

- POLS 595-3 Internship in Public Affairs

Concurrent Degrees in Law and Public Administration

Students who have been admitted separately to the Southern Illinois University School of Law and the Master of Public Administration program may study concurrently for the Juris Doctorate and M.P.A. degrees. Students interested in concurrent study should inform both programs before entering the second academic year as law students. Students will not be permitted to take course work outside the prescribed law curriculum during the first year of law school. The required courses for joint degree students are as follows:

Core Requirements - 22 credit hours

- POLS 503-3 Research Methods for Public Administrators
- POLS 539-3 Program Analysis and Evaluation
- POLS 540-3 Seminar in Public Management
- POLS 542-3 Public Budgeting and Fiscal Management
- POLS 543-3 Human Resource Management
- POLS 545-3 Organization Theory and Behavior
- POLS 546-3 Leadership in Public Administration
- POLS 594-1 Preprofessional Seminar in Public Administration

Law Requirements - 15 credit hours

(Select five law courses from the list below)

- LAW 533, LAW 539, LAW 548, LAW 552, LAW 553, LAW 558, LAW 568, LAW 579, LAW 585, LAW 589, LAW 593, LAW 596, LAW 600, LAW 619, LAW 620, LAW 622, LAW 642, LAW 650, LAW 651, LAW 662, and LAW 668

Internship Requirement - 3 credit hours

- POLS 595-3 Internship in Public Affairs

Additionally, students without any background in public administration may be required to enroll in POLS 537 as a prerequisite to the program. Students with prior public sector administrative experience may petition to waive the internship requirement in their first semester in the program.

Public Administration Courses

POLS403 - Philosophy of Politics 403-3 Philosophy of Politics. (See PHIL 441)

POLS405 - Democratic Theory 405-3 Democratic Theory. (Same as PHIL 405) An examination of various aspects of democratic thought, including the liberal tradition and its impact upon the United States. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement. Prerequisite: POLS 114 or consent of instructor.

POLS406 - American Political Thought 406-3 American Political Thought. This course is an advanced seminar in American political thought. The course focuses on the founding ideals and practices of the American republic and how these ideals functioned in subsequent social movements, political struggles, and ideological conflicts in American political history. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS435 - Judicial Process & Behavior 435-3 Judicial Process and Behavior. An examination of the process by which judges in both trial and appellate courts at federal and state levels are selected and of the ways in which they make decisions. Attention to the structure of the courts. Study of the communication and impact of judicial decisions. The course provides some insight into the methods used to study judicial behavior. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement. POLS 114 and 230 recommended prerequisites.

POLS436 - Administrative Law 436-3 Administrative Law. The procedural law of public agencies, particularly the regulatory commissions but also executive branch agencies exercising regulatory functions. The exercise of discretion and its control through internal mechanisms and judicial review. POLS 114 and 230 recommended. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS437 - Jurisprudence (Law Theories) 437-3 Jurisprudence (Theories of Law). This course provides an examination of the major schools in legal thinking. We will investigate classic jurisprudential questions, including: theories of how judges decide cases, the role of morality and natural rights in determinations of law, and the role of legislative and judicial actors in the creation of law. POLS 114 and POLS 230 are recommended prerequisites. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS438 - Women and the Law 438-3 Women and the Law. (Same as WGSS 438) This course is an advanced seminar in public law with a focus on gender, law and society. The course will engage with issues in feminist legal practice and the development of legal theories regarding gender. We will interrogate the relationship between theory and practice and the ways in which feminist jurisprudence has taken shape in the dynamics of this relationship. POLS 114 and 230 recommended prerequisites.

POLS439 - Comparative Law & Courts 439-3 Comparative Law and Courts. In the United States, topics ranging from abortion to gay rights and government surveillance are inevitably "solved" by the Supreme Court. Yet for many years the Supreme Court stood alone in the world in being able to overturn government policy. Increasingly, courts all over the world-often prodded by social actors-have begun developing their own unique solutions to these constitutional questions, in many cases challenging accepted social values and mores along the way. In this course we will investigate the development of courts and constitutional rights around the world, including both national rights and international human rights.

POLS444 - Policy Analysis 444-3 Policy Analysis. An examination of basic concepts in the policy sciences, approaches to policy analysis, applications to selected areas of policy, and instruments of policy development. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS455 - Democratization 455-3 Democratization. An examination of transitions to democracy from authoritarian rule in countries around the world. Emphasis is on understanding from a comparative perspective on the social, economic, institutional, political, cultural and international circumstances that

promote, inhibit and even reverse the spread of democratic forms of government. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS456 - Gender & Global Politics 456-3 Gender and Global Politics. (Same as WGSS 446) An advanced course examining gender systems and women's situations across cultures and countries. This course also studies the impact globalization has had on gender issues by looking at women's activism at international and transnational levels. Topics covered include women's political representation, gender and culture, women's social movements, gender and development, and gendered policy issues. POLS 250 recommended.

POLS459 - Russia & Post-Soviet States 459-3 Russia and the Post-Soviet States. This course examines political developments in Russia and the other fourteen Soviet successor states that gained (or regained) independence following the demise of the Soviet Union in 1991. Particular attention is paid to the degree to which Soviet legacies of communist political institutions, state socialist economic policies and ethno-federalism continue to shape the politics and economics of these countries in the post-independence period. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS460 - European Politics 460-3 European Politics. This course provides students an overview of European integration and a better understanding of the functioning of the European Union. The course opens with a survey of historical developments in both Eastern and Western Europe from 1914 to 1989. After this historical overview, the institutions and policies of the European Union are studied in detail. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS466 - Latin American Politics 466-3 Latin American Politics. An in-depth analysis of specific problem areas in Latin American political processes as well as comparative study of selected Latin American nation-states. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS467 - Middle East Politics 467-3 Middle East Politics. This course is designed to examine the regional politics and security of the Middle East and North Africa in a historical and comparative context. This course discusses the historical evolution of the modern states in the region, the dynamics of inter-Arab and Arab-Israeli politics and security, the role of ethnicity and religion in domestic and regional politics, and great powers' penetration of the region.

POLS475 - International Law 475-3 International Law. Rules and practices governing states in their relations in peace and war. Prerequisite: POLS 270 recommended. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

POLS477 - American Foreign Policy 477-3 American Foreign Policy. This course surveys the conduct, goals and evolution of American foreign policy since World War II. It analyzes such issues as the role of institutions, culture and individuals in the formulation of American foreign policy, the interaction between domestic and foreign politics, and the debate over American grand strategy. Prerequisite: POLS 270 recommended.

POLS480 - Seminar in Int'l Relations 480-3 Seminar in International Relations. Discussion-based course analyzing empirical and normative (ethical) issues in the study of international relations. Particular emphasis is placed on developing students' critical thinking skills. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement. Prerequisite: POLS 270 recommended.

POLS500A - Political Methodology-Research 500A-3 Political Methodology. Seminars in empirical research methods (A) Research Design. Course covers quantitative and qualitative empirical studies of politics.

POLS500B - Political Methodology-Stats 500B-3 Political Methodology. Seminars in empirical research methods (B) Statistical Data Analysis in Political Science I. Provides a foundation in univariate and bivariate descriptive statistics; inferential statistics including hypothesis testing about population parameters, bivariate and multivariate relationships, measures of association, and correlation; and an introduction to linear regression. Lab fee: \$50.

POLS500C - Political Methodology-Stats 500C-3 Political Methodology. Seminars in empirical research methods. (C) Statistical Data Analysis in Political Science II. Provides in-depth instruction in multiple regression including assumptions of linear model, diagnostics and corrections for violation; estimating

models using categorical dependent variables, nonlinear relationships, interactions, and extensions to advanced techniques as time allows. Prerequisite: POLS 500B (or permission of instructor). Lab fee: \$50.

POLS502 - Research Methods Topics 502-3 to 6 Topical Seminar in Research Methods. Advanced seminar in empirical research methods. Topics will vary by instructor. Lab fee: \$50.

POLS503 - Research Methods for PA 503-3 Research Methods for Public Administrators. The course aims to familiarize students with analytical techniques and research methods used currently by public administrators. Provides an introduction to applied statistics and data analysis for problems of interest to public administrators. Restricted to enrollment in MPA graduate program or consent of the department. Lab fee: \$50.

POLS513 - Topical Political Behavior 513-3 to 6 Topical Seminar in Political Behavior. Topic will vary with instructor. Student should see director of graduate studies for advanced syllabus.

POLS514 - Sem in Intergovernmental Rels 514-3 Seminar in Contemporary Intergovernmental Relations. An examination of relationships among national, state, and local governments in the American federal system, with emphasis on recent literature and contemporary issues. Prerequisite: POLS 340. Restricted to enrollment in MPA graduate program or consent of department.

POLS516 - Pro-Seminar Political Behavior 516-3 Pro-Seminar in Political Behavior. An overview of the study of political behavior in American and comparative politics.

POLS517 - Political Communication 517-3 Political Communication. Provides an introduction to the academic study of media and politics. The primary objective is to introduce graduate students to seminal theory and research and contemporary contributions in the study of media, politics, and political communication.

POLS519 - Survey Methodology 519-3 Survey Methodology for Political Science. Provides an overview of survey methodology. Students will learn how to administer surveys for use in political science and public administration. Topics include psychology of asking and answering questions; constructing questions and questionnaires; evaluating surveys; criteria for survey modes; sampling frames and sampling designs; and ethics for survey research methods.

POLS522 - NPOs and NGOs 522-3 Rethinking NPOs and NGOs: Doing Good Better. This course examines the question, can NPOs and NGOs do their good works better? In looking for the answer, students consider how perspective shapes reality, the need for a new framework for action, the conflict between limited resources and seemingly unlimited need, importance of local focus, conflicts between donors' demand for short term results with a situation's requirement for a long term program, issues caused by public policy, roles of gender and ethnicity in solving problems and the role of simplicity. Students will do this in anticipation of becoming leaders/managers of NPOs or NGOs.

POLS530 - Pro-Seminar in Public Law 530-3 Pro-Seminar in Public Law. A survey of the major literature in the field of public law at the graduate level.

POLS532 - Nonprofit/Public Grant Writing 532-3 Nonprofit and Public Grant Writing. Examines the theories, skills and practices for writing grants for nonprofit and public organizations. Students practice these skills by actually preparing grants for a nonprofit or a public organization. Prerequisite: POLS 537 with a grade of B or better.

POLS534 - Governance Networks 534-3 Governance Networks in Public Administration. Explores the shifting locus of public service delivery over time, and examines alternative organizational arrangements through which public services are provided to citizens. Emphasis is placed on the environment, structure and management of service delivery networks including combinations of public, private, and not-for-profit actors. Explores joint agreements, public-private partnerships, and contracting regimes as elements that bind network actors in the process of delivering high quality public services. Additional focus is invested in evaluating the leadership and management strategies that can ensure accountable and ethical public policy implementation by non-governmental organizations that act with the authority of government. The factors that facilitate network performance are also explored. Prerequisite: POLS 537.

POLS535 - Administrative Ethics 535-3 Ethical Foundations of Public Service. Examines the ethical dimensions of public service, particularly as it relates to the cultural context of the United States, while

emphasizing the responsibility of the public manager to act with integrity. Assesses the virtues necessary for moral leadership in the public sector, as well as managerial strategies that reinforce ethical climates in public organizations and ethical behavior among public employees. Focuses on contemporary cases to explore the practical relevance of theories of morality and ethics. Special attention will be invested in examining the ethical implications of contemporary modes of governance and tensions between managerial and democratic values. Prerequisite: POLS 537.

POLS536 - Comparative Public Law 536-3 Seminar in Comparative Public Law. An examination of legal systems around the world.

POLS537 - Foundations of PA 537-3 Foundations of Public Administration. Introduction to the study and practice of administrative process and public management. Theoretical, political, and practical issues of organizing, staffing, financing and implementing government decisions and other issues are surveyed.

POLS538 - Public Law Topics 538-3 Topical Seminar in Public Law. Advanced seminar in public law. Topics will vary by instructor.

POLS539 - Program Evaluation 539-3 Program Analysis and Evaluation. The analysis and evaluation of governmental programs. Emphasis is placed upon use of analytical techniques to determine program impact and the use of evaluation in governmental decision making. Prerequisite: POLS 503. Restricted to enrollment in MPA graduate program or consent of department. Lab fee: \$50.

POLS540 - Seminar Public Management 540-3 Seminar in Public Management. Course is designed for advanced MPA students and examines social, political, legal and managerial constraints on the behavior of public administrators. Issues in ethics and the public's expectations of professional administrators are also examined. Restricted to students who are in the MPA program who have completed at least three required MPA courses, or the consent of the department.

POLS541 - Sem Applied Probs Public Admin 541-3 Seminar in Applied Problems of Public Administration. Study of selected problems in public administration and policy. Emphasis placed on the practitioner's perspective. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department.

POLS542 - Public Budget & Fiscal Mgt 542-3 Public Budgeting and Fiscal Management. An examination of the theory and practice of budgeting in the public sector and of selected elements of fiscal management. The course focuses on administrative aspects of budgeting and is oriented toward preparation of students for careers in the public service. Students utilize primary materials in conducting individual or class projects aimed at development of budgetary skills. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department. Lab fee: \$50.

POLS543 - Human Resource Management 543-3 Human Resource Management. A study of the processes and procedures used in contemporary public personnel systems. Emphasis is placed on examination of competing models of personnel administration, application of personnel management strategies to specific case problems and public sector labor relations. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department.

POLS544 - Policy Analysis 544-3 Policy Analysis. This course focuses on the development and analysis of public policy alternatives and how they are used in governmental decision making.

POLS545 - Organization Theory & Behavior 545-3 Organization Theory and Behavior. An examination of various approaches to describing and understanding public organizations and the individuals within them. Emphasis is placed on study of the important theoretical literature in the field and on the applications of the theory of practical management problems in governmental units and agencies. Prerequisite: POLS 340. Restricted to enrollment in MPA graduate program or consent of department.

POLS546 - Leadership Public Admin 546-3 Leadership in Public Administration. An examination of contemporary theories of leadership and their applicability on the public and non-profit sectors. The course emphasizes the range of behaviors and actions relevant to leadership in contemporary governmental organizations and the analysis of factors resulting in leadership success or failure. Restricted to enrollment in MPA graduate program or consent of the department.

POLS547 - Nonprofit Fundraising 547-3 Nonprofit Marketing and Fundraising. This course examines the unique resource development needs of nonprofit organizations and public organizations and looks at the principles and practical sides of meeting those through relationship management, marketing and fundraising. Time will be taken to look at all the aspects of a successful relationship, fundraising and marketing management plan. Students will be expected to participate in at least one fundraiser for a local nonprofit during the semester.

POLS549 - Admin Nonprofit Organizations 549-3 Administration of Nonprofit Organizations. Examines the characteristics of nonprofit organizations that distinguish them from the public and for-profit sectors. Explores social and economic functions of nonprofits and such administrative issues as fundraising, working with volunteers and governing boards, satisfying tax codes and service distribution. Prerequisite: POLS 340 or equivalent. Restricted to enrollment in MPA graduate program or consent of department.

POLS550 - Pro-Seminar in Public Admin 550-3 Pro-Seminar in Public Administration. A survey of the major literature in the field of public administration. The course will synthesize and integrate the literature and provide an overview of topics to be covered in greater detail in other seminars. Required of M.A. and Ph.D. students offering public administration as a graduate area before enrolling in more advanced subject-matter seminars.

POLS551 - Aviation Policy Law Reg 551-3 Aviation Policy, Law and Regulation. (Same as AVM 551) Examination of the history of American aviation policy, law and regulation. The course focuses primarily on the development, implementation and enforcement of aviation policies and regulations at the federal level. Special attention is paid to the interaction of various government agencies and constituency groups, such as the aircraft industry, airport authorities, airlines, private pilots and passengers. In addition to the historical survey, students will analyze current policy and regulatory trends and identify future problems and opportunities for American aviation policy. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS552 - Adv Airport Administration 552-3 Advanced Airport Administration. (Same as AVM 552) This course will address the role and function of the airport administrator, especially related to the tasks of developing, operating and maintaining various airport services to meet the needs of key airport users. This course will study key airport administration cases at primary, commercial service, reliever and general aviation airports. Meeting key airport regulations concerning operations and security will be a focus of the course. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS553 - Adv Airport Safety Admin 553-3 Advanced Airport Safety Administration. (Same as AVM 553) The Aviation Safety Administrator's job function and responsibility for safety and accident prevention within an aviation organization is examined using the case study method. The relevant theory, concepts, procedures and techniques of resource allocation, organizational design, decision modeling, task assignment, delegation of authority and responsibility, establishment of organizational goals and priorities and risk management as they relate to Aviation Safety are included. The job functions of an Aircraft Accident Investigation Team and of an Aviation Safety Inspector will be studied. Aviation safety administration literature will be reviewed. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS554 - Aviation Planning 554-3 Aviation Planning. (Same as AVM 554) This course fulfills a need for a semester length course on aviation planning for students concentrating in aviation administration. Airports and the aviation industry are rapidly expanding, and aviation is growing in importance on the nation's transportation agenda. Broader issues of law and regulation will be covered in an existing course, POLS 551. Restricted to enrollment in MPAA graduate program or consent of instructor.

POLS557 - Public Financial Admin 557-3 Public Financial Administration. The seminar provides a basic understanding of the public budgeting decision-making processes and financial management practices. It provides students with knowledge and hands-on experience of collecting and analyzing governmental data, generating financial reports, and presenting findings. It also provides students with an understanding of revenue sources and different factors that could potentially influence collections. Moreover, it gives students the opportunity to acquire experience in revenue forecasting and budget decision-making through homework assignments and in-class exercises. Prerequisites: POLS 542 and POLS 503 with grades of B or better. Lab fee: \$50.

POLS560 - Pro-Sem in Comparative Politics 560-3 Pro-Seminar in Comparative Politics. Survey of the major literature in comparative politics at the graduate level.

POLS569 - Top Sem in Comparative Politics 569-3 to 9 (3,3,3) Topical Seminar in Comparative Politics. Advanced seminar in comparative politics. Topics will vary by instructor.

POLS570 - Pro Seminar Intl Relations 570-3 Pro-Seminar in International Relations. Survey of the major literature in international relations at the graduate level.

POLS576 - Religion and Politics 576-3 Religion and Politics. Examines empirical studies of religion and politics, including research on behavior, institutions, and movements. Topics include theories of religion, case studies of religious traditions, church and state relations, measurement of religion, and other topics on the intersection of religion and politics.

POLS580 - IR Topics 580-3 to 9 (3,3,3) Topical Seminar in International Relations. Advanced seminar in empirical international relations. Topics will vary by instructor.

POLS590 - Readings 590-1 to 6 Readings. Supervised readings in selected subjects. Prerequisites: POLS 592A-D for specific field, or POLS 545 or POLS 500A.

POLS591 - Individual Research 591-1 to 9 Individual Research. Selection, investigation and writing of a research paper under the personal supervision of a member of the department graduate staff. Prerequisite: completion of the appropriate pro-seminar for the field in which readings or individual research is to be done.

POLS592A - Found Pol Sci-Pol Behavior 592A-3 Foundations of Political Science-Political Behavior. Supervised readings in "classics" of the discipline.

POLS592B - Founds Poli Sci-Comp Politics 592B-3 Foundations of Political Science-Comparative Politics. Supervised readings in "classics" of the discipline.

POLS592C - Founds Poli Sci-Intl Relations 592C-3 Foundations of Political Science-International Relations. Supervised readings in "classics" of the discipline.

POLS592D - Founds Poli Sci-Public Law 592D-3 Foundations of Political Science-Public Law. Supervised readings in "classics" of the discipline.

POLS593 - Preprofessional Sem Pol Sci 593-1 Preprofessional Seminar in Political Science. Designed to give the student an introduction to the major professional roles in the discipline. The requirements of teaching, research, publication and service are covered with discussion of where each fits into the professional role requirements and examples of how each is accomplished. Required of all Ph.D. and M.A. students in political science and other teaching assistants in political science. Graded S/U only.

POLS594 - Preprofessional Sem Public Admin 594-1 Preprofessional Seminar in Public Administration. Guides new students in preparing for the Comprehensive Exam and Professional Portfolio displaying competencies developed through their course work. Assists students writing a Research Paper through the proposal and committee process. Preparation of resume, conducting job searches and other professional development topics are also addressed. Required of all MPA students. Graded S/U only. Restricted to enrollment in MPA graduate program or consent of department.

POLS595 - Internship in Public Affairs 595-1 to 6 Internship in Public Affairs. Fieldwork in the office of a governmental or quasi-governmental agency. The internship is arranged by the field representative of the M.P.A. degree program. A paper in which the student correlates academic knowledge with practical internship experience is required. Mid-career M.P.A. students may receive credit upon completion of a paper relating previous work experience to public administration literature and theory. Restricted to enrollment in M.P.A. graduate program or consent of department. Graded S/U only.

POLS596 - Research Paper-Public Affairs 596-3 Research Paper in Public Affairs. Upon successful completion of core courses, the student expands and develops a previously written MPA graduate program paper. The project involves an issue or problem in public administration and is written with the

approval and under the supervision of the student's committee chair. Restricted to enrollment in MPA graduate program or consent of department.

POLS598 - Dissertation Prospectus 598-1 Dissertation Prospectus. Workshop in dissertation topic selection and prospectus writing; enrollment required prior to completing preliminary examinations.

POLS599 - Thesis 599-1 to 6 Thesis. Maximum of six hours to be counted toward a degree. Special approval needed from the instructor.

POLS600 - Dissertation 600-1 to 40 (1 to 12 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree.

POLS601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

POLS699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Public Health

The School of Human Sciences program offers graduate programs leading to a PhD in Education with an emphasis in Health Education, a Master of Public Health (MPH), a concurrent MPH/PhD in Health Education open to persons with a previous master's degree in a field other than public health, and an MPH/MD (must first be admitted to the SIU School of Medicine). Persons interested in pursuing any of these degrees should initially consult the Director of Graduate Studies regarding appropriate courses and assignment to an advisor.

Application/Admission

Requirements for admission to the PhD program in health education or the MPH program are:

1. Completion and submission of Graduate School admission application; a nonrefundable \$65 application fee must be submitted with the application for those applying for the Doctoral of Philosophy in Education degree, the Master of Public Health degree, or the concurrent MPH/PhD program. Applicants must pay this fee by credit card.
2. Submission of three letters of recommendation to the School of Human Sciences Director at Human.Sciences@siu.edu.
3. Submission of all official transcripts for previous undergraduate and graduate work.
4. Submission of supplemental essays.

Whereas applications are reviewed continuously throughout the year, actual admissions for the MPH program, PhD program, MPH/PhD program, and MPH/MD occur only for the fall semester. Some exceptions to this timeframe can occur under special circumstances. Contact the School of Human Sciences Director for more information at Human.Sciences@siu.edu.

Doctor of Philosophy Degree in Education

The Health Education program participates in the School of Education doctoral program with a concentration in health education. In addition to general requirements of the Graduate School and of the School of Education for all PhD degrees in education, the program requires satisfactory completion of PH 512, PH 513, PH 515, PH 525, PH 533B, PH 597, PH 598, and QUAN 506. Each student in conjunction with their committee chair selects elective courses required for the degree. The successful completion of EDUC 505, EAHE 587, and one additional course in quantitative or qualitative methods is required for fulfillment of the research tool for students in the Health Education program. A minimum of a B average is required in all PhD courses.

See the description of the [PhD degree in Education](#) for further details.

Inquiries regarding application should be directed to the director of doctoral studies for Public Health/Health Education.

Master of Public Health Degree

Applicants for the Master of Public Health degree must have a 3.00 undergraduate grade point average (A = 4.0) to be admitted in good standing.

Only graduate level courses taken after a student's admission to the program will be included automatically in the student's degree program. "Nondeclared" hours or hours from other degree programs must be petitioned into the program. Courses eligible for inclusion in a degree program must be graduate level and cannot have been applied toward another degree. The MPH program offers fall semester admissions only.

Master of Public Health Degree Requirements

A student must complete a minimum of 42 semester hours consisting of at least the following courses:

- PH 505-3 Foundations of Public Health Knowledge
- PH 506-3 Communicating Public Health
- PH 507-1 MPH Experiential Learning Seminar
- PH 508-2 Leadership in Public Health
- PH 512-3 Public Health Program Planning
- PH 513-3 Public Health Analytics I
- PH 514-3 Public Health Analytics II
- PH 525-3 Applied Theoretical Foundations of Public Health
- PH 526-3 Evidence-based Research and Evaluation in Public Health
- PH 532-3 Public Health Administration: Principles and Practices
- PH 583-3 U.S. Health Systems: Organization, Delivery, and Policy
- PH 593-3 Principles of Epidemiology in Public Health
- PH 598-3 Grant Writing in Public Health
- PH 599A-1 MPH Applied Practical Experience (APE) Seminar

- PH 599B-2 MPH Applied Practical Experience (APE)
- PH 599C-3 MPH Integrative Learning Experience (ILE)

Each student will work with an advisor to select an additional three hours from courses within Health Education or related courses.

Requirements for Admission

Besides the current admission criteria, students who are interested in applying to the Concurrent M.P.H./Ph.D. program must have the following:

- GPA overall 3.5 as undergraduate or 3.6 masters
- Undergraduate degree in public health (or closely-related field) and five years health-related work experience OR a graduate degree in health education (or closely-related field) and three years health-related work experience

Concurrent MPH/PhD

Persons with a previous master's degree (in a non-public health field) may apply for the concurrent MPH (Public Health)/PhD (Health Education) program. Students will earn the MPH degree as well as a PhD in Education, with a concentration in Health Education. The selection and sequencing of coursework enables students to complete both degrees in a timely manner.

Concurrent MPH/MD

Applicants may apply for a concurrent degree in Medicine and Public Health (must first be admitted to the SIU School of Medicine). Applicants for the Master of Public Health degree must have a 3.00 undergraduate grade point average ($A = 4.0$) to be admitted in good standing. Only graduate level courses taken after a student's admission to the program will be included automatically in the student's degree program. "Nondeclared" hours or hours from other degree programs must be petitioned into the program. Courses eligible for inclusion in a degree program must be graduate level and cannot have been applied toward another degree.

Concurrent Degree Requirements

For the medical degree, all students must complete all requirements outlined by the SIU School of Medicine. For the MPH degree, a student must complete a minimum of 42 semester hours with the following courses being required during the first year:

- PH 505-3 Foundations of Public Health Knowledge
- PH 506-3 Communicating Public Health
- PH 507-1 MPH Experiential Learning Seminar
- PH 508-2 Leadership in Public Health
- PH 512-3 Public Health Program Planning
- PH 513-3 Public Health Analytics I
- PH 514-3 Public Health Analytics II
- PH 525-3 Applied Theoretical Foundations of Public Health
- PH 526-3 Evidence-based Research and Evaluation in Public Health
- PH 532-3 Public Health Administration: Principles and Practices
- PH 583-3 U.S. Health Systems: Organization, Delivery, and Policy
- PH 593-3 Principles of Epidemiology in Public Health
- PH 598-3 Grant Writing in Public Health

In addition, the student must complete the following courses during the fifth year:

- PH 599A-1 MPH Applied Practical Experience (APE) Seminar
- PH 599B-2 MPH Applied Practical Experience (APE)

- PH 599C-3 MPH Integrative Learning Experience (ILE)
- 10 hours selected from the following electives:
 - # Public Health Leadership elective, 3 weeks/hours, SIU-SOM
 - # Clinical Epidemiology elective, 3 weeks/hours, SIU-SOM
 - # Health Policy and Law elective, 3 weeks/hours, SIU-COM
 - # Advanced Biostatistics, 2 weeks/hours, SIU-SOM
 - # State Agency Management and Engagement, 1 week/hour, SIU-SOM
 - # Emerging Trends in Public Health, 2 weeks/hours, SIU-COM
 - # Ethical Issues in Public Health Practice and Research, 1 week/hour, SIU-SOM
 - # Crisis and Disaster Response and Management, 1 week/hour, SIU-SOM
 - # Roles and Integration of National, State and Local Health Agencies, 1 week/hour

Certificate in Gerontology

The School of Human Sciences offers a Certificate in Gerontology interdisciplinary program. PH 440, Health Issues in Aging, is a Certificate requirement for the certificate program. For more information on this Certificate program, please see the [Post-Baccalaureate Certificate Programs](#) tab.

Public Health Courses

PH402 - Death Education 402-3 Death Education. (Same as GRON 402) Designed to prepare educators to conduct learning experiences about death and dying in a variety of school, college, medical care, and community settings. Stress will be placed on developing brief, functional curricula and usable, imaginative, teaching-learning materials and on evaluating resource materials for use in educating at various levels of maturity.

PH403 - Health Advocate Training 403-3 Health Advocate Training. Provides students with knowledge and skills in the areas of peer health education, health advocacy, and referral. Instruction includes health care information from a wellness point of view. Prepares students for practicum in health advocate program. Credit will not count toward a master's degree in health education. Special approval needed from the instructor.

PH407 - Substance Use Prevention 407-3 Substance Use Prevention. Designed to prepare educators to plan, implement and evaluate substance use prevention programs. Emphasizes incidence/prevalence, etiology, risk factors, short- and long-term effects of substance use. Key elements of effective prevention programs are reviewed. Meets requirements of Illinois state law concerning drug education.

PH410 - Human Sexuality 410-3 Human Sexuality. (Same as WGSS 411) Provides detailed information on dimensions of sexuality; characteristics of healthy sexuality; anatomy and physiology; gender roles; relationships; sexually transmitted infections/diseases; contraceptive issues and concerns; sexual victimizations; and sexuality through the life cycle.

PH411 - EMT in the Wilderness 411-6 Emergency Medical Technician in the Wilderness. Placement of trained emergency medical technicians into a wilderness situation and having them adopt previously learned skills and newly developed skills. Prerequisite: PH 334 or PH 434.

PH412S - Driving Task Analysis 412S-3 Driving Task Analysis: An Introduction. An introductory course that deals with the highway transportation system, traffic problems, the driving task, perception and implementation of the driver education classroom program. Observation of a teaching environment is included. A valid driver's license is required.

PH413S - Injury Prevention & Safety 413S-3 Injury Prevention and Safety. Introduces the concepts and topics of injury prevention and safety. Course areas include: school, farm, consumer, fire, home, traffic, occupational, recreational, and disaster.

PH414 - Sexuality Education 414-3 Sexuality Education. Focuses on knowledge/skills needed to address complex issues of sexuality education. Discussion will include challenges/resources for all

health education settings and related disciplines. Purposes/goals, the nature of sexuality education teachers/learners, and "best practice" will be covered. Emphasis on developing competencies essential for professional practice.

PH415 - Health Counseling 415-3 Health Counseling. This course teaches basic communication skills and intervention strategies for helping people make positive health related lifestyle changes. It is not a course in therapeutic counseling; it focuses on helping average people to function in the healthiest way possible.

PH430 - Hlth/Injry Cntrl: Work Setting 430-3 Health and Injury Control in a Work Setting. (Same as IMAE 430) Assesses the health and injury control programs present in a work setting. Emphasis given to employee programs in health, wellness, and injury control that are effective. Field trips to work sites are included.

PH434 - Adv First Aid & Emerg Care 434-4 Advanced First Aid and Emergency Care. Meets the needs of those in positions where advanced first aid and emergency care is required. A nationally recognized First Aid and CPR "First Responder" certification may be obtained with successful completion of the course. Purchase of first aid kits and protective equipment are necessary. Prerequisite: PH 334 or consent of instructor. Students will be required to pay a laboratory fee of \$20.

PH435 - Worksite Safe/Hlth Eval 435-2 Work Site Safety and Health Evaluation. This course covers methods of inspecting and evaluating health and safety hazards at a work site including analysis of specific job assignments. It also introduces the student to injury and incident investigation techniques. The course will include hands-on work site evaluation.

PH440 - Health Issues in Aging 440-3 Health Issues in Aging. (Same as GRON 440) Course content includes demographic trends; physiological changes associated with aging; health care and consumer challenges; cultural differences; psychological effects of aging; housing; long-term care; retirement; care giving; and formal, informal, and community-based support systems.

PH441 - Women's Health 441-3 Women's Health. The course deals with a wide variety of health concerns of American women as consumers in the current health marketplace. Major categories of topics include health products, health services, and sources of health information of particular interest to women. Emphasis is also placed on current health related issues of women. The major purpose of the course is to provide a basis for informed decision-making by the female consumer.

PH442S - Dev Vehicle Oper Skills 442S-3 Developing Vehicle Operational Skills: Driver Education Laboratory Experiences. Learning activities will focus on preparing the prospective driver educator to conduct activities that develop operational skills for a novice driver. Emphasis is placed on laboratory organization and administration, maintaining a learning environment, developing laboratory instructional modules, and conducting learning experiences. Prerequisite: PH 412S.

PH443S - Driver Ed Classroom 443S-3 Developing Classroom Skills: Driver Education Classroom Experience. Learning activities will focus on preparing the prospective driver educator with the skills to teach in the driver education classroom with application to classroom organization, maintaining a safe learning environment, developing instructional modules, and conducting learning experiences. Prerequisite: PH 412S with a grade of C.

PH445 - Adv Driver Ed Instructor Trn 445-3 Advanced Driver Education Instructor Training. Prepares prospective instructors of advanced driving techniques. Emphasis is placed upon safe driving practices, vehicle dynamics, emergency vehicle operation, in-car response to simulated driving emergencies, and instructional techniques. Special approval needed from the instructor.

PH461 - Health Education Workshop 461-1 to 12 Health Education Workshop. A different focal theme each year; e.g., mood modifying substances, ecology, human sexuality, emotional and social health dimensions. Information, ideas, and concepts are translated into teaching-learning materials and approaches; continuing opportunity for interaction between prospective and experienced teachers.

PH470S - Highway Safety:Alcohol/Drugs 470S-3 Highway Safety as Related to Alcohol and Other Drugs. Relationship between alcohol and other drugs and traffic accident causes. A review of education

programs designed to minimize drug related accidents. Restricted to advanced standing or consent of instructor.

PH471 - PH Instructional Strategies 471-2 Public Health Instructional Strategies. This course is designed for graduate students who are teaching assistants in Public Health. The purpose of the course is to enhance professional skills of those who are responsible for teaching health education, general education, and first aid.

PH476 - Stress Management 476-3 Stress Management. A study of the physiological, emotional and sociological stressors and their underlying mechanisms in states of disease and health. Particular emphasis is placed upon prevention and control of stress via self assessment techniques and proficiency in self control techniques such as biofeedback, autogenic training, meditation and progressive muscle relaxation.

PH480S - Traffic & Driver Ed Prog Dev 480S-3 Traffic and Driver Education Program Development. Acquaints students with curriculum innovation, current philosophy, learning and teaching theories, and instructional designs. Students will develop learning packages and modules. Prerequisite: PH 443S or consent of instructor.

PH484 - Preventing Violence Ed Setting 484-3 Preventing Violence in Educational Settings. Designed to prepare educators, administrators, and other professionals to plan, implement, and evaluate violence prevention, conflict resolution, and crisis intervention programs in educational settings. Incidence/prevalence, etiology, and risk/protective factors related to youth violence will be examined. Current theories and models related to program planning and implementation will be applied to design coordinated, integrated school/community programs. Based on current research, key elements of effective curricula and other program components will be reviewed.

PH490A - Field Experience 490A-2 to 12 Field Experiences in Schools, Community Health. Field observation, participation, and evaluation of current school or community health education or safety programs in agencies relevant to student interests. Prerequisite: all required health education courses. Special approval needed from the instructor.

PH490B - Adv Fieldwork Sch Com IP 490B-2 to 6 Advanced Field Experience in School, Community Health or Injury Prevention Education. Advanced field observation, participation and evaluation of current school or community health education or injury prevention programs in agencies relevant to student interests. Prerequisite: grade of B or better in PH 490A. Special approval needed from the instructor.

PH491 - Health Teaching/Learning 491-3 Health Teaching/Learning: School and Community. Teaching and learning strategies at secondary school levels and in other community group settings. Opportunities to examine and observe a variety of educational strategies applicable to health education.

PH496 - Industrial Hygiene 496-4 Industrial Hygiene. Provides a background in the recognition, evaluation, and control of toxic materials and hazardous physical agents in the work environment. Special approval needed from the instructor.

PH499 - Rx: Ed in Health Care Settings 499-3 Rx: Education in Health Care Settings. Designed for members and potential members of the health care team to explore educational concepts and strategies applicable to a variety of health care settings. Includes rights and responsibilities of consumer and professional, determinants of health behavior, contrasting models of health care, communication skills, media and materials and planning, implementing and evaluating educational programs. Open to medical and dental personnel, nurses, health educators, dietitians, therapists, pharmacists, social workers, and related professionals.

PH505 - Foundations PH Knowledge 505-3 Foundations of Public Health Knowledge. This course provides an overview of the interdisciplinary field of public health. History and ongoing evolution of public health services and delivery systems in the U.S., essentials of public health practice, and federal, state, and local public health functions are considered. Emerging health problems, changing population dynamics, and global health context will be examined.

PH506 - Communicating PH 506-3 Communicating Public Health. This course assists students in developing skills and identifying opportunities for communicating public health messages through the

preparation of technical papers for public health, other health science-related, area-specific, and cross-disciplinary journals, as well as communicating other professional and lay publications. Additional skills relate to the development of press releases, letters to the editor, preparation of posters, development of oral presentations for diverse audiences, estimating readability of written materials, assessing health literacy, preparing pamphlets and other written materials, designing messages for distribution by mass media, including but not limited to social media and social marketing.

PH507 - Experiential Learning Seminar 507-1 MPH Experiential Learning Seminar. This course will introduce Master of Public Health (MPH) students to public health resource identification and utilization to understand and engage in public health fieldwork and service. MPH students will develop a professional portfolio to build upon through the tenure of the program.

PH508 - Leadership in Public Health 508-2 Leadership in Public Health. This course provides an overview of the core principles in Public Health Leadership. Major theories and concepts in leadership and methods for applying these to public health will be discussed.

PH512 - Public Health Program Planning 512-3 Public Health Program Planning. This course will present theories/models for health promotion program planning and implementation in community/public health settings. Steps to program planning, including: logic models, needs assessment, community organizing, evaluation/assessment, and social marketing will be addressed.

PH513 - Public Health Analytics I 513-3 Public Health Analytics I. An introduction to biostatistics; examination of theories of population projections; collection, organization, interpretation, summarization, and evaluation of data relative to public health happenings with emphasis on graphic presentation.

PH514 - Public Health Analytics II 514-3 Public Health Analytics II. The application of technology to engage communities and individuals in behavioral and environmental change processes. The course will focus on the use of technology to describe the magnitude of health problems and their sources; analyze risk factors; identify community strengths from which strategies may be defined and tools created to intervene, prevent problems, and promote health and well-being; and continuously evaluate, refine, and implement what works. Prerequisite: PH 513 with a grade of B or better or consent of instructor.

PH515 - Contemp Issues in Health 515-3 Contemporary Issues in Health-Related Fields. This course is designed to expand the conceptual framework for health education research, practice, and professional development by examining contemporary issues in health and related fields. It includes reading, analyzing, interacting, and reflecting about selected critical issues and future concerns as they relate to the health education profession as well as individual, community, and societal health-related needs.

PH520 - Special Topics 520-6 Special Topics/Independent Study. An area of study to be determined by students in consultation with the health education faculty that goes beyond the current health education course offerings. 1-3 credits; may be repeated twice for maximum of 6 hours. Special approval needed from the instructor.

PH525 - Appl Theoretical Found PH 525-3 Applied Theoretical Foundations of Public Health. Examines health-related motivation and behavior through the study of relevant psychological, sociological, and educational theory and research. Emphasis is on application of behavioral and behavior-change theories and constructs in designing effective health education and promotion programs.

PH526 - Evidence-based Res Eval PH 526-3 Evidence-based Research and Evaluation in Public Health. Introduction to research and evaluation. Includes survey and analyses of health testing and research/evaluation procedures, uses and limitations of knowledge and attitude tests, behavioral inventories, checklists, questionnaires, interviews, and other techniques.

PH530S - Research: Traffic Safety 530S-3 Research in Traffic Safety. A study of unique problems related to traffic safety and a review and evaluation of contemporary studies. Restricted to graduate standing or consent of instructor.

PH532 - Public Health Admin 532-3 Public Health Administration: Principles and Practices. This course is designed to provide a broad overview of key administrative issues in public health, including building and sustaining a public health workforce, disease control and prevention, emergency preparedness, legal

issues, and financial considerations. Attention will be given to the application of management concepts and principles related to public health organizations at the national, state, and local levels.

PH533B - Foundations of PH II 533B-4 Foundations of Public Health II. This course will provide a broad overview of quantitative research in public health, including research designs, research questions, assumptions, limitations, data collection methods, sampling, instrument development, and data analysis and interpretation. Discussion of health-related theories/models and ethical considerations will be integrated throughout the course.

PH536 - Professional Preparation in PH 536-3 Professional Preparation in Public Health. Considers national, state and local factors influencing professional preparation, accreditation and certification processes. Emphasis upon influences of official and non-official agencies. Historical perspective, the present status, and future directions of the profession.

PH541 - Issues in Health Care 541-3 Issues in Health Care. Examination of current and continuing issues in the provision, administration, financing, and regulation of health care services. Prerequisite: PH 583 with grade of C or better or consent of instructor.

PH550S - Current Dev:Traffic/Safety Ed 550S-3 Current Developments in Traffic and Safety Education. Current problems, trends and research studies in traffic and safety education are reviewed, critiqued and evaluated. Restricted to graduate standing or consent of instructor.

PH555S - Traffic Safety Management 555S-3 Traffic Safety Management. Course deals with highway safety legislation and other acts related to traffic safety. Application of safety management techniques, procedures and structure of federal and state agencies are emphasized. Special approval needed from the instructor.

PH561 - Adv Public Health Workshop 561-1 to 12 Advanced Public Health Workshop. A different focal theme each year; e.g., technology and health education; coordinated school health programs; social marketing; mental health. Information, ideas and concepts are translated into teaching/learning materials and approaches; continuing opportunity for interaction between prospective and experienced health educators.

PH571 - Prof Dev for Teaching Assts 571-3 Professional Development for Teaching Assistants. This course is designed to assist graduate teaching assistants to develop and improve skills necessary for performing their responsibilities. Emphasis will be placed on teaching/learning processes; classroom strategies and skill development; responding to diverse student populations; communication across the curriculum; teaching outside the classroom; identifying campus and community resources, support services, media, and technologies; evaluation and assessment. Restricted to graduate teaching assistants. Special approval needed from the instructor.

PH583 - U.S. Health System 583-3 U.S. Health System: Organization, Delivery, and Policy. This course examines dynamics and trends in organization, financing, and delivery of health care in the United States. Specific current health policy issues and the political, social, and economic forces that affect them are analyzed. Practical implications for public health professionals will be considered.

PH585 - Global Health Issues 585-3 Global Health Issues. This course is designed to introduce students to current health concerns in economically developing nations by examining socioeconomic, cultural, and political issues impacting health. Basic epidemiologic principles will be used to study disease and adverse health conditions in developing countries as well as understand and critique possible intervention strategies. Implications for health educators working in international settings will be discussed.

PH588 - Issues in Environmental Health 588-3 Current Issues in Environmental Health. This course will address core principles and concepts of environmental health disciplines, analyze environmental factors impacting human and ecological health, and explore environmental health tools through their application to current issues of concern to government agencies.

PH592 - Practicum:Safety/Industrl Hlth 592-8 Practicum in Safety and Industrial Health. Students are assigned full-time to a safety agency or industry for experience in either safety or industrial health. Restricted to those specializing in safety industrial health. Special approval needed from the instructor.

PH593 - Principles Epidemiology in PH 593-3 Principles of Epidemiology in Public Health. This course will present principles and practices related to the study, prevention and control of health-related conditions in the human population. Emphasis will be placed on understanding the principal concepts of epidemiology, including aspects of disease distribution, epidemiologic methods, risk assessment of disease and injury, descriptive and analytic epidemiologic methods and study designs, and application of epidemiologic data to the prevention and control of disease and injury. Format for the class will include lecture and small group seminars.

PH597 - Seminar in PH 597-2 Seminar in Public Health. Advanced graduate students discuss individual health projects and present research problems. Each will present a dissertation prospectus. The course will cross two semesters. The first semester will require class attendance. The second will require attending dissertation prospectus and defense meetings and writing individual reports. Prerequisite: PH 533B.

PH598 - Grant Writing 598-3 Grant Writing in Public Health. Consideration is given to funding sources, proposal guidelines, procedures for support, budgetary requirements and evaluation procedures. Students examine different types of funded projects, develop a research proposal and analyze the art of grantsmanship and political action.

PH599 - Thesis 599-1 to 6 Thesis.

PH599A - Appl Practical Exp Seminar PH 599A-1 MPH Applied Practical Experience (APE) Seminar. The purpose of the MPH Applied Practice Experience Seminar is to prepare students for their applied practice experience and for a future as a public health professional. This seminar serves as one of the prerequisites for enrolling in the MPH Applied Practical Experience (PH 599B). Through this semester, students will prepare the components of the applied practice experience learning agreement. This seminar provides students with useful skills needed to complete an applied practice experience and to work in a public health or community setting. Students will have a specific topic, project(s) and/or site in mind prior to taking this course, which is typically taken in the second semester of Year 1. Prerequisite: PH 507 with a grade of B or better.

PH599B - Applied Practical Exp PH 599B-2 MPH Applied Practical Experience (APE). Master of Public Health (MPH) students will demonstrate competency attainment through applied practice experiences. All MPH students are required to complete a 240-hour experience with a community-based component. The Applied Practice Experience (APE) provides a practical experience in a public health setting where students apply skills and knowledge they gained during didactic courses to attain at least five competencies. Dual degree students have opportunities to integrate and apply their learning from both degree programs through applied practice experiences. Students meet the APE requirements by supporting the Program's mission and students' career goals, to the extent possible. Prerequisite: PH 599A with a grade of B or better.

PH599C - Integrative Learning Exp PH 599C-3 MPH Integrative Learning Experience. During the final semester(s) of study, students are required to complete an integrative learning experience (ILE) that demonstrates synthesis of foundational and program competencies. ILEs require two products: 1) a high-quality written product and 2) a presentation on the ILE. Prerequisite: PH 599B with a grade of B or better.

PH600 - Dissertation 600-1 to 32 (1 to 16 per semester) Dissertation.

PH601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

PH699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Public Health Faculty

Gary, Mallory, Assistant Professor, PhD, Southern Illinois University Carbondale, 2012; 2019.

McDermott, Robert J., Professor, PhD, University of Wisconsin-Madison, 1981; 2017.

McDaniel, Justin T., Associate Professor, PhD, Southern Illinois University Carbondale, 2016; 2017.

Patrick, Sarah L., Assistant Professor, PhD, University of Pittsburgh, 1992; 2019.

Public Safety and Homeland Security Administration

Graduate work leading to a Master of Science in Public Safety and Homeland Security Administration (PSHSA) is offered by the School of Justice and Public Safety. The program prepares its graduates with the analytic capabilities and problem solving skills that will enable them to succeed and progress in their professional career. The 30-hour curriculum develops advanced administrative, managerial, and leadership skills critical to career advancement and promotion within these industries. The academic setting of this program will foster creative thinking and communication skills in our pursuit of excellence. The program culminates in an applied practicum as opposed to a thesis.

Criteria for Unconditional Admission

In order to be admitted to a degree program, an applicant must meet Graduate School and program admission requirements.

General requirements for domestic student admission to SIU Graduate School include: a 2.7 grade point average (on a 4.0 grading scale) on the last two years of Bachelor's degree coursework or a 3.0 grade point average on all previous graduate work. Specific requirements or equivalences for foreign student admissions and early admission consideration may be found on the SIU Graduate School website at gradschool.siu.edu/apply/.

Applicants to master's degree level study may begin the admissions process when they need no more than 32 semester hours beyond the credit shown on their transcript at the time of application to complete all requirements for the bachelor's degree.

Any applicant who has completed 12 or more semester hours of graded graduate work at an accredited U.S. educational institution, and who has a GPA of 3.00 or better on all graduate work, may be exempted from the 2.7 undergraduate grade point average requirement. Any student with fewer than 12 hours of graduate work may be admitted to the Graduate School on the basis of undergraduate GPA only.

To meet program requirements, candidates must have a baccalaureate degree from an accredited institution or have completed all undergraduate degree requirements prior to the beginning of the classes for the term for which admission is sought. Preferred consideration is given to applicants with a bachelor's degree in Fire Science, Fire Service, Emergency Management, Emergency Medical Services (EMS) and Homeland Security, or individuals with other baccalaureate degrees with direct experience in fire fighting, public safety, EMS or related experience. All applicants will submit an essay outlining the individual's background in the field and future career goals as part of the application process.

Degree Requirements

Required Core Courses

All candidates for the Master of Science in Public Safety and Homeland Security Administration degree are required to complete five core courses (15 credits).

- PSM 501 Legal/Administrative Law
- PSM 503 Public Policy/Ethics
- PSM 504 Fiscal/Financial Management
- PSM 509 Strategic Planning
- PSM 512 Practicum Exercise

Elective Courses

Students must complete an additional 15 credit hours of graduate (500-level or above) Public Safety Management courses. With the consent of the program coordinator, students may be permitted to satisfy the elective course requirements with graduate courses outside of Public Safety Management and/or with up to six credits of 400-level Public Safety Management credits taken for graduate credit in accordance with graduate school regulations.

Practicum

All students must complete a practicum capstone during their final semester in the program where they undertake a major simulation or drill to demonstrate their leadership, planning, and evaluation.

Public Safety and Homeland Security Administration Courses

PSM401 - Apps of Fire Research 401-3 Applications of Fire Research in Fire and Emergency Services. This course examines the rationale for conducting fire research, various fire protection research activities, and research applications, including the test standards and codes, structural fire safety, automatic detection and suppression, life safety, and firefighter health and safety. May be independent study. Prerequisite: PSM 350.

PSM402 - Current Issues 402-3 Current Issues in Public Safety Management. A review of the current problems affecting public safety with particular emphasis on resource allocation, planning, and constraints.

PSM403 - EMS Education 403-3 Emergency Medical Services Education. This course is for students interested in Emergency Medical Services (EMS) education. This course introduces the EMS professional to the education system as it relates to EMS education. Students explore issues in curriculum development, teaching, program direction, and development. Restricted to PSM major or consent of program coordinator.

PSM406 - Mgmt of Emergency Services 406-3 Management of Emergency Services. This course is for students interested in the practice and principles of Emergency Services management and the processes that contribute to the effectiveness of day-to-day operations within an emergency service organization. This course introduces the public safety professional to topics that include government structure, strategic planning, injury prevention, risk management and safety, customer service, human resources management, financial management, fleet management, career development, quality management, data collection and research, labor relations, and special operations. Restricted to PSM major or consent of program coordinator.

PSM407 - Public Information 407-3 Emergency Services Public Information. This course is for students interested in public information and community relations in Emergency Services. This course introduces the public safety professional to benefits of community information and community relations. Students explore issues in marketing, crafting the message, identifying the audience, developing programs, and creating press releases. Restricted to PSM major or consent of program coordinator.

PSM410 - Response to Natural/Tech Event 410-3 Organizational Response to Natural and Technological Events. This course examines responses to natural and man-made disasters. It also looks at the unique role of the local first responder with other governmental agencies. Students will identify the common elements of a disaster response and the roles of each emergency responder and agency. Course emphasis is on the actions and procedures "at the scene" where decisions are made rather than concepts and policies applied by officials physically removed from the scene. Restricted to PSM major or consent of program coordinator.

PSM412 - Exercise and Evaluation 412-3 Fire Service Exercise and Evaluation. Students will be trained in determining public need during an emergency event through exercise. Students will learn the impact

that effective project and operational planning and management can have on the overall effectiveness of public safety organizational performance. Restricted to PSM major or consent of program coordinator.

PSM416 - Domestic Terrorism 416-3 Domestic Terrorism and Extremist Groups. This course traces the history, emergence, and growth of domestic terrorist and extremist groups within the United States. Students will assess various groups' intentions, capabilities, and activities within contexts of and ramifications on political, national security, and legal paradigms. "Domestic Terrorism and Extremist Groups" traces the roots of domestic political violence and terrorism in the United States, and will expose the student to academic works concerning contemporary domestic extremists and the terrorist threat they may pose. The course will explore how a radical nature has continued to persist in isolated pockets throughout our nation's history. Restricted to PSM major or consent of program coordinator.

PSM421 - Professional Development 421-3 Professional Development. Introduces students to the various elements involved in obtaining a position in their chosen fields. Topics included are: personal inventories, placement services, employment agencies, interviewing techniques, resumes, letters of application, references and employment tests. Each student will develop a portfolio, including personal and professional information related to career goals.

PSM450 - Analytical Approchs Fire Protct 450-3 Analytical Approaches to Public Fire Protection. This course examines tools and techniques of rational decision making in fire departments, including databases, statistics, probability, decision analysis, utility modeling, resource allocation, cost benefit analysis, and linear programming. May be independent study. Prerequisite: PSM 350 with a grade of C or better.

PSM500 - Terrorism 500-3 Terrorism, WMD, and Contemporary Issues. This course will begin by looking at the historical evolution of terrorism and weapons of mass destruction. We will analyze theories and mitigation, preparedness, and response tactics.

PSM501 - Administrative Law 501-3 Administrative Law. Administrative law is the law governing the powers, limits and operations of government administrative agencies, and the rights of individuals in dealing with those agencies. Much of this course is about two statutes and related court cases; The Administrative Procedure Act of 1946, governing federal agencies; and the Model State Administrative Procedures Act, governing Oklahoma and many other states.

PSM502 - Emergency Management 502-3 Emergency Management. This course examines historical and contemporary theories, principles, and practices of Emergency Management, particularly the all-hazards approach and the related processes of mitigation, preparedness, response and recovery. Using a case study approach, the course considers the evolution of Emergency Management and its practical application with government and private-sector institutions.

PSM503 - Public Policy/Ethics 503-3 Public Policy/Ethics. The focus of this course is on how public action takes place; what courses of action are available; and the implications, costs, and consequences of those actions. The Fire Service Executive of the future will require a more disciplined understanding of public policy. This course will encourage a familiarity with public issues that will be useful for the Fire Service Executives in making administrative or policy decisions.

PSM504 - Fiscal Management 504-3 Fiscal Financial Management. This advanced introduction to fundamentals of financial management emphasizes analysis of financial statements, organizational-departmental-divisional cash flows, taxes, the financial environment, bonds and their valuation, stocks and their valuation, and cost of capital.

PSM505 - Executive Leadership 505-3 Executive Leadership. This course includes leadership, multiple roles, decision making skills, influencing leaders, teaching leaders, storytelling, persuasion, succession planning, and evaluating.

PSM506 - Disaster Preparedness 506-3 Disaster Preparedness and Crisis Management. Students will receive the preparation necessary to uniquely manage and make critical decisions regarding a major incident or disaster. The course focuses on specialized decision-making processes involving analytical methods and information management. Interaction with other agencies and effective coordination of roles

and efforts within a structured command system enables the crisis manager to make decisions in an unstructured environment.

PSM507 - Public Management 507-3 Public Management. The purpose of the course is to provide a survey of the theory and practice of management in public sector organizations. Emphasis will be given to a comparison of management in the public and private sector, management functions, and the context in which the public manager must perform the functions. Students must complete pre-class, in-class, and post-class assignments.

PSM508 - Homeland Security 508-3 Critical Issues in Homeland Security. This course examines the evolving nature of the Homeland Security enterprise by examining a number of contemporary topical issues and their immediate and long-term impact on Homeland Security policies and practices. Particular attention is paid to the role of the media, law, governmental and non-governmental organizations, and political entities at the federal, state, and local levels in determining and shaping Homeland Security policy/practice.

PSM509 - Strategic Planning 509-3 Strategic Planning. This course examines and defines the steps, concepts, theory, and value of comprehensive strategic planning. Students will participate in the formulation, financial development, operational management, and evaluation of currently utilized strategic plans and take part in the outline and design of a mock strategic plan.

PSM510 - Dispute Resolution 510-3 Dispute Resolution/Mediation/Negotiation. This course is about labor relations and employment disputes in the public sector and the various methods for resolving labor and personnel conflicts. Collective bargaining, arbitration, mediation, and other alternative dispute resolution methods will be applied to cases and simulation exercises relevant to government employees.

PSM511 - Critical Thinking 511-3 Critical Thinking and Decision Making. This course is an examination of knowledge and research as they pertain to public safety. Exploration of the relationship between creative and critical thinking, analysis of scientific methodology and logic, language and interpretation and their influence on public safety organizations.

PSM512 - Practicum 512-3 Practicum. Under the supervision and direction of a member of the faculty, students will undertake a project involving substantive participation in managing a major simulation, exercise, or drill involving multiple agencies and institutions. Student involvement will include planning, designing, developing, conducting, and evaluating the simulation or drill. Requires the approval of the Director of Graduate Studies for PSM.

PSM513 - Organizational Leadership 513-3 Organizational Leadership. This is the third course in the series of Leadership and Management. This course will provide the participant with a deeper understanding of knowledge, skills, and abilities for effective organizational leadership.

PSM514 - Challenge of Leadership 514-3 Ethics and the Challenge of Leadership. This is the final course in the series of Leadership and Management. This course will provide the participant with a deeper understanding of personal and organizational ethics and the challenge of leadership. Prerequisite: PSM 513.

PSM515 - Special Topics 515-3 Special Topics in Public Safety Management. Specialized study for the investigation of management problems relating to the student's career objective. Studies of the management techniques as practiced in the profession. Topics may be suggested by both faculty and student. Restricted to approval of the Director of Graduate Studies for PSM.

PSM601 - Continuing Enrollment 601-1 Continuing Enrollment. For graduate students who have not finished their degree program and who are in the process of working on their thesis, research paper, or capstone project course (PSM 512). Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Public Safety and Homeland Security Administration Faculty

Ruffner, Charles, Professor, Ph.D., Pennsylvania State University, 1999.

Quality Engineering and Management

Graduate work leading to a Master of Science degree in quality engineering and management is offered by the College of Engineering. The objective of the program is to develop quality and management professionals who can plan, coordinate, design, implement, and control the quality function in manufacturing and service companies in order to increase productivity, optimize resources, decrease waste, and improve product quality. Course offerings and research are available in the areas of quality assurance, six sigma, lean manufacturing, project management, and reliability. The program provides advanced education for students with baccalaureate degrees in engineering, engineering technology, technology, and also an excellent continuing education opportunity for individuals with technical degrees who wish to expand their education in the area of quality and management systems.

Accelerated Masters

Industrial Management and Applied Engineering (IMAE) students with senior standing and a GPA of 3.5 will be permitted to take up to nine hours of graduate credit in Fall and Spring semesters. By doing so, students then pursuing their Master's degree in Quality Engineering and Management (QEM) after completing their Bachelor's degree in IMAE will have these graduate credits transferred to the QEM degree. This will allow the student to complete the degree requirements in about a year. Students must complete a Graduate School application and work with the graduate advisor on a program of study. Nine credit hours will be allowed to double count toward the undergraduate degree and the Master's degree. The accelerated master's program allows students who have advanced degree aspirations the ability to save money by completing their studies quicker and to enter the job market sooner.

The Quality Engineering and Management accelerated program with the non-thesis option requires satisfactory completion of twelve hours in core courses: QEM 510, QEM 525, QEM 530 and QEM 540 and eighteen hours of elective graduate credit, which may include up to nine IMAE credit hours at the 400-level taken as an undergraduate.

The Quality Engineering and Management accelerated program with the thesis option requires satisfactory completion of twelve hours in core courses: QEM 510, QEM 525, QEM 530, and QEM 540, six hours of thesis and twelve hours of elective graduate credit, which may include up to nine IMAE credit hours at the 400-level taken as an undergraduate.

Admission

Candidates for this program must be accepted by the Graduate School and the School of Applied Engineering and Technology. Candidates should possess a bachelor's degree with a major in a technical area and have a GPA of no less than 3.0/4.0. A student whose undergraduate training is deficient may be required to take additional courses to compensate for deficiencies identified by the technology graduate program committee.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for admission to graduate study in quality engineering and management. Applicants must pay this fee by credit card.

Program Requirements

Graduate students who have been admitted into the Quality Engineering and Management master's program must complete a total of 30 semester hours of graduate-level credit of which 15 hours must be at the 500 level.

Within the 30 semester hour requirement, students must complete the following four core courses:

- QEM 510-3 Quality Assurance
- QEM 525-3 Six Sigma Black Belt II
- QEM 530-3 Lean Manufacturing II
- QEM 540-3 Reliability Analysis

The remainder of the 30 semester-hours must consist of at least 18 credit hours of QEM and/or IMAE graduate elective courses as specified in the student's program of study. Elective courses in QEM are:

- QEM 535-3 Service Quality
- QEM 545-3 Project Management II
- QEM 550-3 Project Leadership
- QEM 555-3 Human Safety and Risk Management
- QEM 565-3 Management of Information Technology Resources
- QEM 570-3 Energy Management and Conservation

Students not meeting specific requirements for the above core courses will be required to complete the following list of courses. These specific 400-level courses will count toward meeting the 30 semester hour acceptable graduate credit requirement:

- IMAE 450-3 Project Management
- IMAE 465-3 Lean Manufacturing
- IMAE 470A-3 Six Sigma Green Belt
- IMAE 470B-3 Six Sigma Green Belt II
- QEM 515-3 Six Sigma Black Belt

***Note:** IMAE courses taken for undergraduate credit cannot be applied towards graduate credit hours, unless the student has been accepted into the accelerated program.

In the thesis option a program of study including the above required courses (12 semester hours), the master's thesis (six semester hours), and the remaining 12 semester hours will be selected by the graduate adviser and the student.

Additional Information

Teaching or research assistantships and fellowships are available for qualified applicants. Additional information about programs, courses, assistantships, and fellowships may be obtained from the College of Engineering or from the chair of the department.

Quality Engineering and Management Courses

QEM505 - Research Methods 505-3 Research Methods. The objective of this course is to familiarize the students with the methods needed in research. Emphasis is placed on how these methods can be applied in the quality engineering & management area. Topics include development of research proposals, use of statistics in the analysis and communication of the results. Restricted to enrollment in quality engineering and management program or consent of instructor.

QEM510 - Quality Assurance 510-3 Quality Assurance. Study of recent advances in quality planning, quality measurement, design assurance, process control, participatory management, supplier quality, customer relations and improvement concepts. Prerequisite: IMAE 470A and IMAE 470B.

QEM515 - Six Sigma Black Belt 515-3 Six Sigma Black Belt. (Same as IMAE 480) The purpose of this course is to provide the student with a comprehensive coverage of the knowledge areas and tools of Six Sigma beyond green-belt training, focusing on descriptive and analytical methods to deal with variability including point and interval estimation, hypothesis testing, and design of experiments. Topics include: confidence intervals, hypothesis testing, regression analysis, analysis of variance, single factor experiments, block design of experiments. Prerequisite: IMAE 307 or equivalent and IMAE 470B with grades of C or better. Restricted to College of Engineering students or department approval required. Special approval needed from the department.

QEM525 - Six Sigma Black Belt II 525-3 Six Sigma Black Belt II. The purpose of this course is to provide the student with knowledge of the most advance areas of the Six Sigma black-belt training. Advanced fractional factorial experiments, response surface methodology, robust design and process, design for Six Sigma and other advance six sigma principles and techniques are covered in this course. Prerequisite: IMAE 470A, 470B, and 480.

QEM530 - Lean Manufacturing II 530-3 Lean Manufacturing II. This course will cover the principles and techniques of lean manufacturing. Major topics covered include value stream mapping, pull system/Kanbans, continuous improvement/Kaizen, lean six sigma, lean simulation, and other modern lean manufacturing techniques and issues. Prerequisite: IMAE 465.

QEM535 - Service Quality 535-3 Service Quality. This course examines how organizational leadership, strategic development and deployment of service management systems are used to achieve service quality. Key service quality management concepts of customer and market focus, employee focus, communication, and service delivery will be taught through the use of case studies, article reviews and team projects. Prerequisite: none.

QEM540 - Reliability Analysis 540-3 Reliability Analysis. The objective of this course is to provide the student with an overview of the basic techniques applied in the field of reliability and failure data analysis in a manufacturing environment. Prerequisite: IMAE 470B.

QEM545 - Project Management II 545-3 Project Management II. This course is an advanced study of the concepts in project management, building on the fundamentals established in prerequisite courses. Using MS Project, students will work individually and in teams to develop appropriate tools and documentation typically utilized to implement, control, and closeout projects. Computerized scheduling and cost control, quality systems, risks management, procurement, and project termination. Prerequisite: IMAE 450.

QEM546 - Project Mgmt Supply Chain Engr 546-3 Project Management for Supply Chain Engineering. The course is designed to provide students with an introduction to the project management process and an in-depth examination of the activities needed to successfully initiate, plan, schedule, and control the time and cost factors of the project as it relates to developing a supply chain system. Executing successful supply chain projects requires the management of technology, people, culture, stakeholders, and other diverse elements. This course takes an integrated approach to managing projects, merging both technical and managerial challenges. It emphasizes not only individual project execution, but also provides a strategic perspective, demonstrating means to manage supply chain projects at the program and portfolio levels.

QEM550 - Project Leadership 550-3 Project Leadership. This course is designed to develop a graduate student's human relationship skills for leading project teams. Through the use of case studies and practical applications, students will learn effective leadership, team development, motivational, organizational planning, and conflict resolution practices.

QEM555 - Human Safety & Risk Mgmt 555-3 Human Safety and Risk Management. Understanding risk and safety issues inevitably involves many disciplines, as does their effective management. Through the combination of scientific evidence, practical examples, and case studies presented in this course, students will be equipped to identify, assess and develop strategies to mitigate occupational and environmental risk. Methods used to effectively communicate and understand risk factors as presented by various agencies.

QEM560 - Supply Chain Engineering 560-3 Supply Chain Engineering. The objective of this course is to introduce the basic principles and techniques of the Lean methodologies and its application targeting specific needs of the Supply Chain professionals in executive sales and operations planning, forecasting,

customer relationships, leveling production, dependent demand materials management, capacity management, shop floor control, inventory management, lot sizing, warehousing, logistics, quality control, and purchasing.

QEM562 - Transportation/Logistics Syst 562-3 Transportation and Logistics Systems. The course covers different components of logistics and distribution; in particular, those dealing with material movement, associated moveable and immovable facilities/resources, procurement and material refurbishing, warehousing and distribution network systems, and transportation. The major thrust of the course is to explore the optimal planning, design and coordination of large scale warehousing operations and distribution logistics, supply transportation systems (shipping and materials tracking), multi-modal transportation systems and convoy movements.

QEM564 - Facilities & Location Planning 564-3 Facilities and Location Planning. The course encompasses the planning, design, development, management and control of production and distribution systems to effectively distribute goods and services from the producer to end user, whether in manufacturing or service systems. Topics include analytical approaches in site location, facility layout, material handling, and storage systems. Aspects of facilities for manufacturing, material handling, packing and distribution, concepts of group technology, and computer aided facility design are covered.

QEM565 - Mgmt Info Technology Resources 565-3 Management of Information Technology Resources. The use of information and communication technologies (ICT) dominates the world of business. There are ongoing fundamental changes in the way organizations execute their business processes and interact with each other. This course helps students understand the relationship between information systems and business performance. This will enable students to appreciate the importance of strategic implementation and proper manage of ICT resources.

QEM570 - Energy Mgmt & Conservation 570-3 Energy Management and Conservation. This course covers the principles and policies of energy management and auditing. It covers development, implementation and economic analysis, using simple pay back and life-cycle cost models, of these programs and audits. It focuses on efficient operation of electric motors, lighting, boilers, furnaces, and facilities climate control. It surveys current energy policy with emphasis on LEED design and certification. Prerequisites: MATH 150 or IMAE 307, PHYS 203A,B or equivalents.

QEM580 - Seminar 580-1 to 4 Seminar. Collective and individual study of issues and problems related to quality engineering and management. Graded S/U. Restricted to enrollment in the M.S. degree in quality engineering and management.

QEM583 - Analysis Stat Quality Data 583-3 Analysis of Statistical Quality Data. Controlling and improving quality has become an important business strategy for many organizations: manufacturers, distributors, transportation companies, financial services organizations, health care providers, and government agencies. Maintaining a high level of product or service quality provides a competitive advantage. A business that can delight customers by improving and controlling quality can dominate its competitors. This course covers the technical methods for achieving success in quality control and improvement, and offers guidance on how to successfully implement these methods.

QEM585 - Adv Data Analysis/Des Exprmnts 585-3 Advanced Data Analysis & Design of Experiments. Experimentation plays an important role in product development and process realization and commercialization activities, which consist of new product design and formulation, manufacturing process development, and process improvement. The objective in many cases may be to develop a robust process, a process affected minimally by external sources of variability. The purpose of this course is to provide the student with a comprehensive coverage of the knowledge areas involved in these studies, focusing on Planning, Designing and Analyzing Experiments (DoE).

QEM592 - Special Investigations in QEM 592-1 to 4 Special Investigations in Quality Engineering and Management. Advanced topics in quality engineering and management. Topics are selected by mutual agreement of the student and the instructor. Special approval needed from the adviser.

QEM599 - Thesis 599-1 to 6 Thesis.

QEM601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their

dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Quality Engineering and Management Faculty

Chang, Feng-Chang (Roger), Associate Professor, *Emeritus*, Ph.D., Ohio State University, 1985; 1991.

DeRuntz, Bruce, Professor, Ph.D., Southern Illinois University Carbondale, 2005; 1998.

Dunston, Julie K., Associate Professor and *Chair*, Ph.D., Florida State University, 1995; 1995.

Maruszak, Ronald K., Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1999.

Spezia, Carl J., Associate Professor, Ph.D., Southern Illinois University Carbondale, 2002; 2005.

Velasco, Tomas, Associate Professor, Ph.D., University of Arkansas, 1991; 1993.

Quantitative Methods

***Enrollments in Education with a concentration in Quantitative Methods (Ph.D.) have been suspended indefinitely.**

The School of Education offers graduate studies leading to the Ph.D. degree in Education with a concentration in Quantitative Methods. The purpose of this graduate program is to prepare professional quantitative methodologists to pursue careers or research in their areas of interest.

Individualized courses of study are linked to the teaching and research capabilities of the faculty.

Sufficient latitude is provided so that students in concert with their advisor and committee plan programs that capitalize on student interests and faculty capabilities.

Application

Students must apply to the program of Counseling, Quantitative Methods, and Special Education, Southern Illinois University, Mail Code 4618, Carbondale, IL 62901. Phone: 618-536-7763. Specific questions about the major in Education or the concentration in Quantitative Methods and how to apply should be directed to the address identified above or by phone.

A non-refundable application fee of \$65 must be submitted with the application. Applicants must pay this fee with a credit card.

Admission and Retention

Applications are reviewed by the Quantitative Methods faculty and recommendations forwarded to the School of Education and the Graduate School. Test scores from the Graduate Record Examination are required. A personal interview with a candidate is required. Admission to the program is dependent on (1) the applicant's grades in their graduate program, (2) GRE scores, (3) prior course work, and (4) availability of qualified faculty to supervise the applicant's doctoral work. Applicants must also meet other admission requirements of the program. The performance of each doctoral candidate is reviewed each semester. Maintenance of a grade point average of 3.0 and compliance with policies of the department, college, and Graduate School are also required.

Core Requirements

Specific courses or other degree requirements are determined by the program upon recommendation from the student's doctoral committee.

Research and Teaching

Each student is required to demonstrate professional competence through supervised experiences. These experiences include research, teaching, and personal interactions in consulting or assessment situations.

Preliminary Examinations

All Ph.D. candidates must pass a preliminary examination over their doctoral course work before formal admission to candidacy. The doctoral committee with the concurrence of the program is responsible for the development and evaluation of the preliminary examination.

Doctoral Committees

Students are assigned a doctoral advisor upon admission to the program. Before the end of the first year of doctoral committee chairpersons based on the student's research interests. Each doctoral student works with his/her doctoral committee to develop and approve a rigorous program of study. The committee is also responsible for an oral examination over the completed dissertation and student's general knowledge of the professional field.

Certificate in Quantitative Methods (QM)

The Graduate Certificate in QM is designed to provide advanced training in quantitative methods for graduate students majoring in other programs. This certificate requires a minimum of 24 graduate credit hours. A total of 9 credits of QM courses may also count for credit toward a graduate degree program, as appropriately and jointly determined (as needed) by the QM Graduate Certificate Program faculty, the office of the School of Education, the Graduate School, the office of the Provost, and any particular graduate program advisory committee associated for a student. Further, the student must be currently enrolled in a graduate degree program at SIU or an individual holding a bachelor's degree and admitted to the Graduate School. Doctoral students enrolled in the Quantitative Methods concentration, however, are not eligible to earn this certificate. This certificate requires 18 credits in core courses:

- QUAN 506 Inferential Statistics (4 hours)
- QUAN 507 Multiple Regression (4 hours)
- QUAN 508 Experimental Design (4 hours)
- QUAN 531 Principles of Measurement (3 hours)
- QUAN 533 Survey Research Methods (3 hours)
- and a minimum of 6 credit hours in QUAN 580A-I "Selected Topics" (variable 2-4 hours per course)

Students admitted to the QM Graduate Certificate course must complete each with a letter grade of at least a *B*, and maintain an overall grade point average of at least 3.5 in courses taken under the auspices of the graduate certificate program. If a lower grade is obtained in any given course, then the same course must be repeated until this overall grade point average requirement is achieved. Otherwise, credit will not be given for the course(s) associated with this certificate and other course(s) would subsequently be required to be selected in lieu of course(s) where credit has not been earned.

Quantitative Methods Courses

QUAN402 - Basic Statistics 402-3 Basic Statistics. A master's level terminal statistics course. Emphasis on descriptive statistics, graphical representation of data, correlation, and simple regression. Includes an introduction to hypothesis testing procedures and analysis of variance.

QUAN506 - Inferential Statistics 506-4 Inferential Statistics. Covers basic descriptive techniques such as central tendency, measures of variability and graphical presentation of data. In addition, hypothesis testing, analysis of variance, nonparametrics and simple linear prediction will be covered.

QUAN507 - Multiple Regression 507-4 Multiple Regression. The general linear model is presented which allows for hypothesis testing including correlational analysis, analysis of variance and analysis of covariance. Non-linear relationships are presented. Emphasis is placed on testing the stated research hypotheses. Prerequisite: QUAN 506 or PSYC 522.

QUAN508 - Experimental Design 508-4 Experimental Design. (Same as PSYC 522) Strategies of designing research studies and the analysis of data from studies using linear models are examined. Emphasis will be placed on internal and external validity and factors that affect power in variance designs including completely randomized designs, Latin square, repeated measures and analysis of covariance with each of the above designs. Prerequisite: QUAN 506 or equivalent.

QUAN531 - Principles of Measurement 531-3 Principles of Measurement. (Same as PSYC 525) Intended to provide theoretical principles of measurement which are applicable to both teaching and research. Part of the course will be devoted to current issues in measurement and to practical applications to these theoretical principles. Prerequisite: QUAN 506 or PSYC 522.

QUAN533 - Survey Research Methods 533-3 Survey Research Methods. Overview of survey methods covering topics such as the purpose of survey research methods, the process of survey research, ethical considerations in survey research, questionnaire design and administration, sampling designs, data processing, and reporting of survey research. Prerequisite: QUAN 506 or PSYC 522 & QUAN 531 or PSYC 525, or equivalent.

QUAN580A - Doctoral Seminar-SEM 580A-3 to 4 Doctoral Seminar in Quantitative Methods-Structural Equation Modeling. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 507.

QUAN580B - Doctoral Seminar-Factor Analysis 580B-3 to 4 Doctoral Seminar in Quantitative Methods-Factor Analysis. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 507.

QUAN580C - Doctoral Seminar-Quant Methods 580C-3 Doctoral Seminar in Quantitative Methods-Multivariate Methods. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 507.

QUAN580D - Bayesian Inference 580D-3 to 4 Doctoral Seminar in Quantitative Methods-Bayesian Inference. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 507.

QUAN580E - Program Evaluation 580E-3 Doctoral Seminar in Quantitative Methods-Program Evaluation. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 531 or PSYC 525.

QUAN580F - Adv Experimental Design 580F-3 to 4 Doctoral Seminar in Quantitative Methods-Advanced Experimental Design. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 508 or PSYC 522.

QUAN580G - Item Response Theory 580G-3 Doctoral Seminar in Quantitative Methods-Item Response Theory. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 531 or PSYC 525.

QUAN580H - Simulation Techniques 580H-3 to 4 Doctoral Seminar in Quantitative Methods-Monte Carlo and Simulation Techniques. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 507.

QUAN580I - Doctoral Seminar-Quant Methods 580I-2 to 6 Doctoral Seminar in Quantitative Methods-Selected Topics. A series of advanced seminars on statistics and measurement. Sections A through H may be taken only once each. Section I may be repeated as topics vary. Prerequisite: QUAN 507.

QUAN592 - Independent Study & Investigation 592-1 to 8 (1 to 6 per semester) Independent Study and Investigation. For advanced graduate students. Topics of interest to the individual student are studied under supervision of a department staff member. Special approval needed from the department.

QUAN593 - Individual Research 593-1 to 4 Individual Research. For advanced graduate students in Quantitative Methods. Formulating, investigating and reporting of research problems in the area of Quantitative Methods. Special approval needed from the department.

QUAN600 - Dissertation 600-1 to 32 (1 to 16 per semester) Dissertation.

QUAN601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Radiologic Sciences

The Radiologic Science professional is a member of the health care team who has knowledge of the characteristics and clinical relevance of radiographic imaging, is cognizant of patient care procedures and has the education and expertise necessary to generate diagnostic medical images including sonograms, computer and, MRI images, and x-rays. The mission of the Master of Science in Radiologic Sciences program through Southern Illinois University (SIU) is to provide a quality program integrating education, research, and service in order to meet the needs of the profession and improve health care of the people and communities we serve.

Several specific objectives and goals of the program would be to:

- Prepare the student to practice as a radiologic sciences educator or manager by offering a balanced curriculum and quality didactic/experiential instruction.
- Provide didactic and experiential opportunities that lead to research in educational, professional, or health care issues relating to radiologic sciences education and/or management.
- Provide avenues to students for development and growth within the profession.
- Provide avenues for students to develop and apply skills in effective communication, analytical and critical thinking, and problem solving necessary for successful allied health practice.
- Provide an experiential and didactic environment which leads to the refinement of skills and competence appropriate for an advanced educator/manager in the radiologic sciences.
- Provide an accessible opportunity for regional radiologic science professionals to acquire a terminal degree.
- Provide an accessible opportunity for regional radiologic sciences professionals to acquire the necessary means to succeed in a global and diverse workforce/workplace.

The minimum admission guidelines of the MSRS program mirror those of the Graduate School at SIU; however, to elaborate on those requirements, the following is provided:

- Candidates will be granted admittance to the SIU Graduate School.
- Candidates will possess a baccalaureate degree and have completed a program of study in an associated field to Allied Health, Radiology, Sonography, Medical Imaging, Health Care Management, or an equivalent field.
- Candidates will be nationally licensed by the ARRT, the ARDMS, the NMDCB, or an equivalent National or International Licensing Body in diagnostic imaging.
- Candidates will have a minimum cumulative grade point average (GPA) of at least 2.7 (where 4.0 = A).
- Student background checks will only be completed if required in the legal agreement to perform the internship.
- The GRE is not required for admission to this program.
- TOEFL score requirements will follow the requirements set forth by the SIU Graduate School.
- Transfer students will follow the same criteria as all other students.
- Students will complete and submit an application for enrollment in the MSRS program and submit a \$65 application fee to the program.

The MSRS program is a comprehensive program that will prepare students to enter the professional workforce with a graduate degree in radiology, specializing in either management or education. The academic objectives of the program include:

1. Successful completion of 30 didactic credit hours (MHA 511, RAD 516, RAD 521, RAD 526, MHA 531, MHA 536, RAD 541, RAD 546, RAD 551, and RAD 556) plus objective 2
2. Successful completion of RAD 593 which consists of six credit hours of research/thesis project, culminating in a final scholarly work as outlined by the SIU Graduate School.

To facilitate completion of the objectives of the program, the course of instruction will consist of 36 semester hours. As part of these 36 semester hours, students will complete a research/thesis project.

The curriculum will consist of didactic courses. Course material will cover educational theory (including the foundations of education) and/or management theory. Additionally, advanced study of radiologic sciences coursework including radiation physics, radiation biology, anatomy, pharmacology, human disease/pathology, advanced imaging methods, advanced imaging modalities, and patient care will be undertaken for individuals choosing education as their area of specialization. Upon program completion, the student is expected to be fully capable of teaching these topics at an introductory level for basic radiologic science professionals. Special project assignments, conference attendance and presentations, and journal article reviews are an integral part of the curriculum.

All students graduating from the MSRS program will be required to meet the qualifications of the graduate school at SIU. Students will be required to complete a culminating scholarly work which may include a research/thesis paper, or graduate project.

Sample Schedule of Course Offerings

Master of Science in Radiologic Sciences (MSRS)

36 semesters hours are required for successful completion of this program.

Fall Semester

- MHA 511-3 Fundamentals of Health Care Systems
- RAD 516-3 Cultural Foundations and Theories of Education
- RAD 521-3 Advance Practice of Radiologic/Imaging Sciences I
- RAD 526-3 Seminar in Radiologic/Imaging Sciences I

Spring Semester

- MHA 531-3 Human Resources in Health Care
- MHA 536-3 Strategic Leadership in Healthcare
- RAD 541-3 Advance Practice of Radiologic/Imaging Sciences II
- RAD 546-3 Seminar in Radiologic/Imaging Sciences II

Summer Semester

- MHA 551-3 Legal and Ethical Fundamentals of Health Care

- RAD 556-3 Individual Research in Healthcare
- RAD 601-1 per semester Continuing Enrollment

Final Portion of Program

- RAD 593-6 Individual Research

The delivery method will be through distance education via Desire2Learn or the current classroom management system in use at SIU.

Radiologic Sciences Courses

RAD444 - CNS Imaging in MRI 444-3 Central Nervous System Imaging in Magnetic Resonance Imaging. Lecture includes discussion of imaging applications of the central nervous system. Review of related anatomy and common pathologies. Special approval needed from the instructor.

RAD454 - Body Imaging in MRI 454-3 Body Imaging in Magnetic Resonance Imaging. Lecture includes discussion of the imaging applications of the gastrointestinal, genitourinary, hepatobiliary and musculoskeletal systems. Review of related anatomy and common pathologies. Special approval needed from the instructor.

RAD464 - Cardiac Imaging in MRI 464-3 Cardiovascular Imaging in Magnetic Resonance Imaging. Lecture includes discussion of the imaging applications of the heart and coronary arteries. Review of related anatomy and common pathologies. Special approval needed from the instructor.

RAD474 - Advanced MRI Internship 474-6 Advanced MRI Internship. During this clinical internship, the student will be assigned to a selected clinical education center for the entire semester. During this semester, while performing routine MRI procedures, the student will perform MRI procedures of the heart, body, and extremities. Special approval needed from the instructor.

RAD484 - Special Topics in MRI/MRA 484-3 Special Topics in MRI/MRA. Supervised readings of selected topics in MRI. Special approval needed from the instructor.

RAD494 - Independent Study in MRI 494-1 to 6 Independent Study in Magnetic Resonance Imaging. The selection and investigation of a topic related to MRI. Special approval needed from the instructor.

RAD510 - Sim/Cross Sectnl Anat/MD 510-2 Simulation and Cross Sectional Anatomy in Medical Dosimetry. This course covers the conventional and CT simulation techniques used in initiating radiation therapy for cancer patients. Identification of cross-sectional anatomy at different anatomical locations within the human body is also reviewed. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD515 - Medical Dosimetry Clinical I 515-4 Medical Dosimetry Clinical I. This is the first course of a three course sequence. During the three course sequence, students will complete eight clinical rotations including Brachytherapy, Simulation, Gamma Knife, Treatment Aids, IMRT, External Beam, Physics, Special Measurements and QA. The length of these rotations varies from one to eleven weeks. During this course students will perform two to four of these rotations depending on the rotation schedule. While in the clinical setting students will observe and work directly with a medical dosimetrist. Emphasis is given on learning and understanding the role and responsibilities of a medical dosimetrist in the clinical setting. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD516 - Cult Found/Theories of Educ 516-3 Cultural Foundations and Theories of Education. Seminar provides an examination of the historical, social, economic and psychological foundations of allied health education with emphasis given to the nature and role of education and training in preparing for the field of medical education. The objectives of this seminar will allow the student to explore the nature and theories of education, the behavioral aspects of education including the assumptions and practices which underlie education. Special approval needed from the instructor.

RAD520 - Physics/Medical Dosimetry I 520-3 The Physics of Medical Dosimetry I. This course covers the following topics: Radiologic Physics, production of x-rays, radiation treatment and simulation machines, interactions of ionizing radiation, radiation measurements, dose calculations, computerized treatment planning, dose calculation algorithms, electron beam characteristics, and brachytherapy physics and procedures. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD521 - Rad/Imaging Sciences I 521-3 Advance Practice of Radiologic/Imaging Sciences I. This course will include a review of the following topics: Radiation physics, radiation biology, anatomy, pharmacology, human diseases/pathology, advanced imaging methods, advanced imaging modalities, and patient care.

RAD525 - Seminars in MD I 525-3 Seminars in Medical Dosimetry I. (Same as RAD 526) This course consists of various seminars/literature reviews associated with radiation oncology. Topics include treatment techniques for various cancers, technological advances in cancer treatment, cancer treatment trends, and the role of a medical dosimetrist. This course is twenty weeks in length. Restricted to admission to the Medical Dosimetry Program.

RAD526 - Seminar Rad/Imaging I 526-3 Seminar in Radiologic/Imaging Sciences I. (Same as RAD 525) This course consists of various seminar/literature reviews associated with the radiologic/imaging sciences. Topics include imaging techniques, technological advances in the radiologic/imaging sciences, patient care trends, and the role of an imaging professional. This course is twenty weeks in length.

RAD530 - Essentials of Medical Dosimetry 530-2 The Essentials of Medical Dosimetry. This course covers the various quality assurance procedures performed in a radiation oncology department. Also included are various statistics topics to educate the student in becoming a good consumer of medical dosimetry research literature. Professional development, billing/coding, HIPAA, and professional service are also addressed. This course is twenty weeks in length. Prerequisite: A grade of C or better in RAD 510, RAD 515, RAD 520, and RAD 525.

RAD535 - Medical Dosimetry Clinical II 535-4 Medical Dosimetry Clinical II. This is the second of a three course sequence. During the three course sequence, students will complete eight clinical rotations including Brachytherapy, Simulation, Gamma Knife, Treatment Aids, IMRT, External Beam, Physics, Special Measurements and QA. The length of these rotations varies from one to eleven weeks. During this course students will perform two to four of these rotations depending on the rotation schedule. While in the clinical setting students will observe and work directly with a medical dosimetrist. Emphasis is given on learning and understanding the role and responsibilities of a medical dosimetrist in the clinical setting. This course is twenty weeks in length. Prerequisite: A grade of C or better in RAD 515.

RAD540 - Physics Medical Dosimetry II 540-3 The Physics of Medical Dosimetry II. This course covers the following topics: Imaging for radiation oncology, IMRT, stereotactic radiosurgery, special procedures, particle therapy, hyperthermia, and radiation safety. This course is twenty weeks in length.

RAD541 - Rad/Imaging Sciences II 541-3 Advance Practice of Radiologic/Imaging Sciences II. This course will continue to cover the same topics that were reviewed in RAD 521 but to a greater level of understanding. Topics include: Radiation physics, radiation biology, anatomy, pharmacology, human disease/pathology, advanced imaging methods, advanced imaging modalities, and patient care.

RAD545 - Seminars in MD II 545-3 Seminar in Medical Dosimetry II. (Same as RAD 546) This course consists of various seminars associated with radiation oncology. Topics include treatment techniques for various cancers, technological advances in cancer treatment, cancer treatment trends, and the role of a medical dosimetrist. This course is twenty weeks in length.

RAD546 - Seminar Rad/Imaging II 546-3 Seminar in Radiologic/Imaging Sciences II. (Same as RAD 545) This course consists of various seminar/literature reviews associated with the radiologic/imaging sciences. Topics include imaging techniques, technological advances in the radiologic/imaging sciences, patient care trends, and the role of an imaging professional. This course is twenty weeks in length.

RAD550 - Medical Dosimetry Clinical III 550-2 Medical Dosimetry Clinical III. This is the third course of a three course sequence. During the three course sequence, students will complete eight clinical rotations including Brachytherapy, Simulation, Gamma Knife, Treatment Aids, IMRT, External Beam, Physics,

Special Measurements and QA. The length of these rotations varies from one to ten weeks. During this course students will perform one to two of these rotations depending on the rotation schedule. While in the clinical setting students will observe and work directly with a medical dosimetrist. Emphasis is given on learning and understanding the role and responsibilities of a medical dosimetrist in the clinical setting. This course is ten weeks in length. Prerequisite: A grade of "C" or better in RAD 535.

RAD555 - Physics Med Dosimetry III 555-2 The Physics of Medical Dosimetry III. This course covers the following topics: MU calculations, point dose calculations and radiation biology. This course is ten weeks in length. Prerequisite: A grade of C or better in RAD 540.

RAD556 - HC Research 556-3 Individual Research in Healthcare. This course requires students to complete a research project in the field of healthcare based upon student interest and instructor approval. Each project will have a written paper as a final product and this paper will be submitted for publication, as approved by the instructor, in one of the professional journals within the field of healthcare. Restricted to School graduate majors.

RAD560 - Sem in Medical Dosimetry III 560-2 Seminar in Medical Dosimetry III. This course consists of various seminars/literature reviews associated with radiation oncology. Topics include treatment techniques for various cancers, technological advances in cancer treatment, cancer treatment trends, and the role of a medical dosimetrist. This course is ten weeks in length. Prerequisite: A grade of C or better in RAD 545.

RAD565 - Independent Study 565-1 to 6 Independent Study. Directed independent study in selected areas of medical dosimetry studies. Special approval needed from the Program Director.

RAD593 - Advanced Research 593-6 Advanced Research. Students complete a research project including a special project related to administration in the student's chosen field which meets Graduate School guidelines. Restricted to School graduate majors and School advisor.

RAD601 - Continuing Enrollment 601-1 Continuing Enrollment. This course is required to satisfy the Graduate School's requirement of continuous enrollment and is intended for those students who are enrolled in the program but cannot take a core academic course during a given semester. Prerequisite: Consent of Program Director.

Radiologic Sciences Faculty

Collins, Kevin Scott, Professor, Ph.D., Southern Illinois University Carbondale, 2011. Radiation therapy.

Collins, Sandra K., Professor, Ph.D., Southern Illinois University Carbondale, 2003; 2000. Health care management.

Hirsch, Brandon, Clinical Instructor, M.S., Southern Illinois University Carbondale, 2013.

McKinnies, Richard, Associate Professor, Ph.D., Southern Illinois University Carbondale, 2000, 2003.

Mobile, Katherine, Lecturer, M.S., University of Wisconsin-LaCrosse, 2011.

Recreation Professions

The Recreation Professions program in the Department of Public Health and Recreation Professions offers a broad interdisciplinary program of studies preparing students for administrative careers in recreation management, therapeutic recreation or outdoor recreation leadership and management. The program leads to the Master of Science in Education degree with a major in recreation. This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Recreation Professions. Applicants can pay this fee by credit card when applying electronically.

Master of Science in Education Degree

Graduate work in recreation professions stresses administration and research and is open to highly-qualified students with a minimum 3.0 grade point average. All students must be admitted to the Graduate School in good standing.

Graduate students in recreation professions must complete a minimum of 36 semester hours including a theory core and a research core. The research core is completed by fulfilling requirements for the thesis, the non-paper, or the internship options.

The **thesis option** requires three semester hours of research methods and three semester hours of thesis. After completing the required research methods course, each student should select a chairperson for the thesis committee. A minimum of two additional graduate faculty members, one holding rank outside the faculty of recreation, is needed to form the full committee. After approval of a thesis topic, the students will conduct a research effort under the committee's guidance, followed by an oral examination.

The **non-paper option** requires three semester hours of research methods and three semester hours of project in recreation. The research project or paper may be field-based or applied and will be supervised by an academic adviser who is a graduate faculty member in recreation. The research project or paper must be approved by one additional graduate faculty member.

The **internship option** requires three semester hours of research methods and three semester hours of supervised field work. The field work must be completed under the supervision of a professional working in the student's area of professional interest and must be overseen by an academic adviser who is a graduate faculty member in recreation.

In addition to the completion of the theory and research core in either the thesis or non-paper option, the student will select an additional 21 emphasis hours. By utilizing electives, the student can focus on a specific option or emphasis. This emphasis may include recreation administration, focusing on skills necessary for management in the commercial and public sector including local, state, and federal recreation programs; outdoor leadership and management which focuses on skills necessary to manage or administer programs, facilities, and lands for a variety of outdoor recreation providers and organizations (this emphasis could lead to certifications); or therapeutic recreation which focuses on skills necessary in the management of therapeutic recreation (recreational therapy) programs in a variety of health care and human service organizations (this emphasis could lead to certification). Variations of these include campus recreation management, expedition leadership and facility management.

All students must maintain a minimum 3.0 (4.0 point scale) grade point average and earn a C or better in Theory and Research Core classes to be eligible to graduate.

Recreation Graduate Degree (36 hours total)

Required Core Courses for all Tracks (18 hours)

- REC 500-3 Modern Concepts of Leisure (Fall)
- REC 503-3 Management & Marketing (Spring)
- REC 508-3 Trends and Global Issues in Leisure Services (Fall)
- REC 550-3 Research in Recreation (Spring)

One of:

- REC 501, REC 502, REC 526, REC 560A, REC 560B, REC 560C, REC 565

One of:

- REC 599-3 Thesis
- REC 575-3 Project in Recreation
- REC 596-3 Internship in Recreation
- REC 597-3 Internship in Recreational Therapy

Track Requirements (18 hours)

Recreation Administration

- REC 425-3 Planning & Design of Recreation Facilities (Fall)
- REC 465-3 Human Resources for Recreation Professions (Spring)
- REC 466-3 Community Recreation (Fall)
- REC 467-3 Commercial Recreation (Spring)
- REC 468-3 Campus Recreation (Summer)

Elective

Outdoor Recreation

- REC 430-3 Outdoor Living Skills (Fall)
- REC 432-3 Environmental Issues and Ethics in Outdoor Recreation (Spring)
- REC 445-3 Outdoor Recreation Management (Spring)

Elective x 3

Therapeutic Recreation

- REC 404-3 Foundations of Recreational Therapy (Fall)
- REC 460-3 Administration of RT Services (Summer)
- REC 461-3 RT Assessment & Documentation (Spring)

3 courses from:

- REC 405 (Fall)
- REC 406 (Fall)
- REC 407 (Spring)
- REC 524
- REC 525

NCTRC Requirements:

- Allied Health 241*
 - Public Health 311*
 - Psychology 331*
- *not for graduate credit

Recreation Professions Courses

REC401 - Environmental Education 401-3 Fundamentals of Environmental Education. (Same as AGRI 401 and FOR 401) An experiential course designed to help students interested in conservation education understand and apply teaching principles for both inside and outside the classroom. The class includes certification in a nationally recognized environmental education program, and is suitable for students in natural resource, agriculture, recreation and education fields. Requires field trip transportation fee and supplemental expenditures not to exceed \$25 per course registration. Offered alternate (odd) years.

REC404 - RT Foundations 404-3 Foundations of Recreational Therapy. An introductory course in the practice of recreational therapy. Concepts, history, and growth of RT as a healthcare profession, theories, treatment approaches in RT, an overview of the APIE process, and other professional issues will be introduced. This course covers the NCTRC exam content area of Foundation Knowledge. This course is ONLINE.

REC405 - RT: Cognitive, ID, DD 405-3 RT Implementation: Cognitive, Intellectual, and Developmental Disabilities. This course is designed to provide students with the skills to implement recreational therapy interventions for individuals with cognitive, intellectual, and developmental disorders. Students will learn how to complete activity assessments, select evidence-based interventions, and facilitate

interventions. Travel to local agencies may be required. This course covers the NCTRC exam content area of implementation.

REC406 - RT: Physical Disorders 406-3 RT Implementation: Physical Disorders & Chronic Illness. This course is designed to provide students with the skills to implement recreational therapy interventions for individuals with physical disorders or chronic illness. Students will learn how to complete activity assessments, select evidence-based interventions, and facilitate interventions. Travel to local agencies may be required. This course covers the NCTRC exam content area of implementation.

REC407 - RT: Psych & Behavioral 407-3 RT Implementation: Psychiatric & Behavioral Disorders. This course is designed to provide students with the skills to implement recreational therapy interventions for individuals with psychiatric or behavioral disorders. Students will learn how to complete activity assessments, select evidence-based interventions, and facilitate interventions. Travel to local agencies may be required. This course covers the NCTRC exam content area of implementation.

REC423 - Environmental Interpretation 423-3 Environmental Interpretation. (Same as AGRI 423 and FOR 423) Principles and technique of natural and cultural interpretation. Two hours lecture, three hours laboratory. Prerequisite: ten hours biological science or ten hours of recreation. Requires field trip transportation fee not to exceed \$40 per course registration.

REC425 - Plan & Design Rec Facilities 425-3 Planning and Design of Recreational Facilities. An examination of major design considerations for a variety of recreation facilities such as recreation centers, recreation sport complexes, parks, visitors centers, and natatoriums. Special attention will be given to long range facility planning. Prerequisite: REC 300, REC 301, REC 303. Restricted to senior or graduate standing.

REC426 - Land Based Recreation 426-3 Outdoor Adventure Land Based Pursuits. This course provides a combination of theoretical background and technical aspects of outdoor adventure based pursuits in a vertical environment and will emphasize hands-on skill development such as movement on rock, rope systems, anchors, rappelling and belaying, protection placement, and lead climbing philosophy. Taught biennially. Course fee and field trips required. Fee: \$100.

REC427 - Water Based Recreation 427-3 Outdoor Adventure Water Based Pursuits. This course provides a combination of theoretical background and technical aspects of outdoor adventure based pursuits in a water environment and will emphasize hands-on skill development such as equipment nomenclature, strokes, rescues, and reading/recognizing water features. Taught biennially. Course fee and field trips required. Fee: \$100.

REC428 - Challenge Based Recreation 428-3 Outdoor Adventure Challenge Based Pursuits. This course provides a combination of theoretical background and technical aspects of outdoor adventure based pursuits in a challenge environment and will emphasize hands-on skill development-spotting/belaying, equipment management, program design/sequencing, facilitation strategies, and course design and maintenance. Taught biennially. Course fee and field trips required. Fee: \$100.

REC429 - Planning & Risk in Outdoor Rec 429-3 Planning, Logistics, & Risk Management in Outdoor Recreation. This course provides an experiential approach in addressing the planning, logistics, and safety and risk management needed to design, implement, and prepare outdoor adventure based expeditions. Fulfills portions of the Wilderness Education Association's Planning and Logistics/Safety and Risk Management core competencies. Taught Biennially.

REC430 - Outdoor Living Skills 430-3 Outdoor Living Skills. This course provides a foundation to basic outdoor living skills in backcountry environments. Topics include basic camping skills, equipment and clothing selection and use, weather, health and sanitation, travel techniques, navigation, and decision making/problem solving. Fulfills the Wilderness Education Association's Outdoor Living core competency. Taught Biennially. Course fees and field trips required. REC 429 recommended before taking REC 430. Trip fee not to exceed \$350.

REC431 - Expedition Leadership 431-3 Expedition Leadership. This course focuses on professional leadership of highly adventurous wilderness trips. Emphasis is on development of leadership through sound judgment, decision-making, and teaching in a backcountry/wilderness environment on an extended expedition. Fulfills the Wilderness Education Association's Education and Leadership core competency.

Taught biennially. REC 429 & REC 430 recommended before taking REC 431. Course fee and field trips required. Trip fees not to exceed \$750.

REC432 - OR Env Issues & Ethics 432-3 Environmental Issues and Ethics in Outdoor Recreation. This course will address the management and issues related to outdoor recreation and the importance of developing a land ethic that will ensure future use of outdoor resources. The history, background, and development of the recreation ecology movement will be addressed. Fulfills the WEA's Environmental Integration core competency and LNT's Master Educator curriculum. Taught Biennially. Course fee and field trip required. Fee: \$35.

REC433 - Adventure Education 433-3 Adventure Education. This course provides a practical and theoretical background of adventure education. Topics that will be addressed and applied include the use of challenge and adventure in various situations, experiential education, activity sequencing, utilizing peak experiences, leadership styles and development, debriefing, and framing. Taught Biennially. Field trips required.

REC434 - Wilderness First Responder 434-3 Wilderness First Responder. This course addresses the practice of advanced medical techniques in a wilderness environment. The Wilderness First Responder is recognized as the industry standard for those who work in the backcountry or remote environments. Wilderness First Responder certification offered with successful completion. Course fee and field trips required. Fee: \$30.

REC435 - Advanced Outdoor Leadership 435-3 Advanced Outdoor Leadership. This course focuses on advanced leadership techniques for outdoor leaders. Emphasis is on evaluation and assessment of leaders in backcountry/wilderness environments. Utilizes the Wilderness Education Association's assessment and evaluation curriculum. Field trip required. Special approval needed from the instructor.

REC445 - Outdoor Rec Management 445-3 Outdoor Recreation Management. This course addresses the philosophies and principles underlying the growth and development of outdoor recreation management. Outdoor recreation is examined in terms of historical values, long range planning, site design, visitor needs, and environment impact. Course fee and field trip required. A fee of up to \$14 may be required.

REC446 - Trail Stewardship 446-3 Backcountry and Wilderness Trail Stewardship. This course provides a hands-on approach to aspects of volunteer trail stewardship in planning, implementing, and evaluating basic and advanced trail features and building projects. Rules, regulations, and potential hazards associated with working, traveling, and camping in the backcountry will be addressed. Students will be exposed to trail building tools and their proper usage and care. Field trips required. Special approval needed from the instructor.

REC460 - RT Administration 460-3 Administration of Recreational Therapy Services. Administration of recreation therapy programs in a variety of services areas. Topics will include: the TRAM model, US Healthcare system, organizational planning, personnel management, and advocacy for the profession. This course includes the NCTRC exam content areas of Administration of TR/RT Service and Advancement of the Profession. Prerequisite: REC 461 with a grade of C or better. This course is ONLINE.

REC461 - RT Assessment & Documentation 461-3 Assessment and Documentation for Recreational Therapy. This course is designed to provide students with the skills to assess client needs, design treatment plans, and complete documentation as an entry level recreational therapist (RT). Students will learn how to complete assessments of clients in a variety of treatment settings, write client goals and objectives, develop treatment plans, and write discharge plans. This course covers the NCTRC exam content areas of Assessment Process, and Documentation. Prerequisite: REC 404 with a grade of C or better. This course is ONLINE.

REC465 - HR in Recreation 465-3 Human Resources for Recreation Professions. An examination of current human resources topics in the recreation industry. Topics will include: planning and analysis, staffing, compensation, employee motivation, employee training, employee development, employee relations and compliance.

REC466 - Community Recreation 466-3 Community Recreation. Designed to examine current administrative topics in public and nonprofit recreation. Topics include: history and philosophical foundations of public parks, administrative practices, planning, budgeting, working with boards and commissions, community engagement, land acquisition, programming, and current trends in community recreation. This course is ONLINE.

REC467 - Commercial Recreation 467-3 Commercial Recreation. Trends in commercial recreation will be addressed in this class. Topics include: challenges and constraints in commercial recreation, starting a commercial recreation enterprise, financial management, marketing, operations, programming, and future trends in commercial recreation. This course is ONLINE.

REC468 - Campus Recreation 468-3 Campus Recreation. This course focuses on the administration, organization, planning, implementation, and evaluation of programs and facilities in the campus recreation field. Specific topics addressed include historical and philosophical aspects, administrative practices, competitive and non-competitive programming, future trends and issues, budgeting, public relations, professional associations, and examination of individual characteristics of campus recreation. This course is ONLINE.

REC475A - Workshop: Budget & Finance 475A-3 Recreation Workshop-Budget and Finance. Critical examination and analysis of innovative programs and practices.

REC475B - Workshop: Campus Rec 475B-3 Recreation Workshop-Campus Recreation. Critical examination and analysis of innovative programs and practices.

REC475C - Workshop: Commercial 475C-3 Recreation Workshop-Commercial Recreation. Critical examination and analysis of innovative programs and practices.

REC475D - Workshop: Facilities 475D-3 Recreation Workshop-Maintenance of Areas and Facilities. Critical examination and analysis of innovative programs and practices.

REC475E - Workshop: Outdoor Recreation 475E-3 Recreation Workshop-Outdoor Recreation. Critical examination and analysis of innovative programs and practices. Field Trip fee: \$100.

REC475F - Workshop: Personnel 475F-3 Recreation Workshop-Personnel. Critical examination and analysis of innovative programs and practices.

REC475G - Workshop: RT in VA System 475G-3 Recreation Workshop-RT in the Veterans Administration System. Critical examination and analysis of innovative programs and practices.

REC475H - Workshop: RT Aging Populations 475H-3 Recreation Workshop-RT for Aging Populations. Critical examination and analysis of innovative programs and practices.

REC475I - Workshop: RT Special Rec 475I-3 Recreation Workshop-RT in Special Recreation Associations. Critical examination and analysis of innovative programs and practices.

REC475J - Workshop: RT Mental Health Ctr 475J-3 Recreation Workshop-RT in Psychiatric & Behavioral Health Centers. Critical examination and analysis of innovative programs and practices.

REC475K - Workshop: RT in PMR Facilities 475K-3 Recreation Workshop-RT in Physical Medicine and Rehabilitation Centers. Critical examination and analysis of innovative programs and practices.

REC475L - Workshop: RT Correction Ctrs 475L-3 Recreation Workshop-RT in Prisons and Correctional Facilities. Critical examination and analysis of innovative programs and practices.

REC475M - Workshop: RT in School System 475M-3 Recreation Workshop-RT in Schools and Special Education. Critical examination and analysis of innovative programs and practices.

REC485 - Practicum: Outdoor Education 485-2 to 12 Practicum in Outdoor Education. A supervised experience in a professional setting. Emphasis on administrative, supervisory, teaching, and program leadership in outdoor, conservation, or environmental education setting. Costs for travel are the responsibility of the student. Special approval needed from the instructor.

REC500 - Modern Concepts of Leisure 500-3 Modern Concepts of Leisure. This course explores the meaning of leisure, recreation, and play from a philosophical and psychological perspective. The historical and contemporary relationships among work, time, lifestyles and leisure are analyzed. In addition, the course attempts to develop students' viewpoints toward these topics in order that they formulate a philosophy of leisure. Required of all majors.

REC501 - Personnel in Leisure Services 501-3 Personnel in Leisure Services. This course will examine administrative issues regarding personnel in leisure delivery systems. Topics include: leadership theory, selection and training, legislation, collective bargaining, motivation, performance appraisal, power and gender.

REC502 - Revenue in Leisure Svc 502-3 Revenue Production for Leisure Service Organizations. An integrative view of revenue production for leisure service organizations. Numerous practices of generating income, such as fees and charges, facility rental, bonds, investments and public/private cooperative development will be examined in relationship to their ability to aid an organization in achieving its stated objectives.

REC503 - Manag/Mktg Leisure Services 503-3 Managing and Marketing Leisure Services. An examination of the critical functions of a manager in public and private leisure service organizations. Particular topics include goal and policy development, ethics, risk management, fiscal management and facility operations. Special attention is given to the leisure service managers role in marketing recreation.

REC508 - Trends in Recreation 508-3 Trends & Global Issues in Leisure Services. This course provides an examination of current issues, trends and professional concerns in the recreation industry. Topics include: professional issues, programming trends, legislative issues, and other topics.

REC524 - RT Professional Skills 524-3 Professional Skills in Recreational Therapy. This course focuses on professional skills necessary at the administrative and supervisory level. The NCTRC exam content area of advocacy for the profession will also be addressed. Specific focus areas will include recreational therapy education, practice, and research.

REC525 - RT Program Design 525-3 Program Design in Recreational Therapy Practice. Planning, organizing, selecting, evaluating, and adapting activities to a variety of treatment settings. Topics include the TRAM model, comprehensive program design, specific program design, and WPO for the recreational therapy department.

REC526 - RT Practice Settings 526-3 Recreational Therapy Practice Settings. This course focuses on current trends and issues in recreational therapy practice settings. Special attention will be on RT protocol development. This course includes the NCTRC content area of implementation.

REC550 - Research in Recreation 550-3 Research in Recreation. This course focuses on research concepts and methods (quantitative and qualitative). Students will complete a critical analysis of significant research in recreation or therapeutic recreation, and will develop a tentative research proposal. Prerequisite: REC 500.

REC560A - Park & Community Rec 560A-3 Seminar in Recreation-Park & Community. Major issues and trends in recreation.

REC560B - Campus Recreation 560B-3 Seminar in Recreation-Campus Recreation. Major issues and trends in recreation.

REC560C - Seminar: Commercial Rec 560C-9 (3 per topic) Seminar in Recreation-Commercial Recreation. Major issues, trends, and cultural, economic and social significance. Prerequisite: REC 500 or consent of department.

REC565 - Envir Issues Outdoor Rec 565-3 Environmental Issues in Outdoor Recreation. Seminar in environmental issues and problems that affect outdoor recreation. Content includes history of the environmental movement in relation to outdoor recreation and specific problems affecting recreation on national parks, forest and wildlife refuges. Special approval needed from the instructor.

REC575 - Project in Recreation 575-3 Project in Recreation. A project is a culmination of the Master's degree. It can be either a practice-based service product or an applied research study that does not

require a thesis format. Examples of projects may include grant proposals, program development, curriculum development, landscape design, manuals, visual productions, web page development, organizing special events or fund raising. Special approval needed from the instructor.

REC580 - Readings in Recreation 580-1 to 3 Readings in Leisure and Recreation. Readings in selected topics in leisure and recreation under staff supervision. Not more than three hours may count toward Master's degree. Special approval needed from the instructor.

REC596 - Internship in Recreation 596-3 Internship in Recreation. A course on professional development in the recreation industry. This course is a combination of academic assignments and experiential learning. Students will be under the joint supervision of the academic course instructor, and a recreation professional. For graduate credit only. Special approval needed from the instructor.

REC597 - Internship in RT 597-3 Internship in Recreational Therapy. An introduction to professional development in recreational therapy. This course is required for eligibility to sit for the NCTRC exam. This course is a combination of academic assignments and experiential learning. It is supervised by a CTRS at the site AND at the academic institution. For graduate credit only. Prerequisite: majority of RT coursework completed; Special approval needed from the instructor.

REC599 - Thesis 599-3 Thesis. Selecting, investigating, and writing on a research topic under the personal supervision of a member of the department. Designed to help the student to develop ability to design, conduct, analyze and interpret research related to recreation and therapeutic recreation. Special approval needed from the department.

REC601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Rehabilitation

In response to pressing human and social needs, the applied field of rehabilitation has solidly entrenched itself as a professional discipline. Multidisciplinary courses of study have been drawn together from the behavioral, social, and medical sciences appropriate to the development of competent practitioners, supervisors, and programmers in rehabilitation and welfare agencies. The overall program is left purposely broad and flexible to permit the inclusion of training innovations and emerging career patterns.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study.

The Master's Degree Program

The master's degree program rehabilitation counseling is 51 semester hours. Candidates have the option of a research paper or a thesis. Candidates concentrating primarily on preparation for entry into the helping profession ordinarily opt to complete a research paper in their area of concentration. The thesis option typically requires a thesis of an experimental nature, a survey, or other form of research in which empirical data are collected and analyzed. Candidates must demonstrate their skills in formulating researchable questions or hypotheses, in identifying and/or manipulating relevant variables, and in the analysis and reporting of the results.

Rehabilitation Counseling

Rehabilitation counseling is a process which assists individuals with disabilities to cope constructively with their disability, to maximize their abilities, and to enhance their quality of life physically, psychologically, socially, and vocationally. Through training, professional rehabilitation counselors obtain skills in counseling, evaluation, career exploration, job development and placement, and case management.

The focus of the rehabilitation counselor training program is to prepare professional rehabilitation counselors with the knowledge, skills, and attitudes needed to enter the field. During the training program, students acquire counseling skills, knowledge and understanding of medical and psychological impact of chronic illness and disability on all areas of the individual's life including vocational and independent living issues, as well as skills related to assessment and evaluation, and an understanding of the legislative, historical, and philosophical background of rehabilitation. Student's professional development is encouraged through participation in professional rehabilitation counseling organizations.

General Requirements

The course of study within the rehabilitation counselor training program consists of a minimum of 51 semester hours and involves a blend of academic and clinical experiences. Students in the Rehabilitation Counseling Program must complete 42 hours after admission to the Rehabilitation Counseling Program. Students may transfer a maximum of six credit hours of credit taken prior to admission to the program to their 51-hour requirement if the course work is appropriate to Rehabilitation Counseling. Under no circumstances may previous work experience serve as equivalency for any credit hours or clinical practicum or internship experience. In addition to course work, students must complete one semester of practicum, one semester of internship, and a thesis, research paper, or research class in Rehabilitation. Before graduation students must also pass a comprehensive examination.

The required program of study is:

- REHB 400 Introduction to Rehabilitation
- REHB 521 Vocational Development and Placement
- REHB 501 Introduction to Interpersonal Skills Development in Rehabilitation Counseling
- REHB 513 Medical and Psychosocial Aspects of Disability
- REHB 519 Multicultural Counseling in Rehabilitation
- REHB 530 Assessment Procedures in Rehabilitation Counseling
- REHB 551 Rehabilitation Counseling: Theory and Practice
- REHB 575 Case Management in Rehabilitation Counseling
- REHB 589 Professional Seminar in Rehabilitation
- REHB 593 Research in Rehabilitation or
- REHB 593-A Research in Rehabilitation Counseling or
- REHB 599 Thesis
- REHB 594C Practicum in Rehabilitation Counseling
- REHB 595A, REHB 595B Internship in Rehabilitation

Practicum and Internship Requirements

Students in the Rehabilitation Counseling program are required to complete a total of four semester credit hours of practicum in Rehabilitation Counseling. All practicum and internship sites must be pre-approved by Rehabilitation Counseling faculty. Practicum involves the student's participation eight hours per week

for the 16 weeks at the practicum site. The majority of the student's time in practicum must be spent in direct client counseling. Counseling sessions must be audio or video taped or have provision for direct supervision by the student's supervisor, such as through a two-way mirror. Students in practicum are required to meet with their faculty supervisor once per week during the 16 weeks of practicum in order to review tapes of counseling sessions. Rehabilitation Counseling students are also required to complete a total of eight semester credit hours of internship in Rehabilitation Counseling. Prerequisite to internship is successful completion of the Rehabilitation Counseling practicum. General Rehabilitation Counseling internship requirements include an internship of 40 hours per week for 16 weeks or 20 hours per week for 32 weeks at a site approved by the Rehabilitation Counseling faculty, and one hour per week of supervision, preferably by a Certified Rehabilitation Counselor. During internship at least 50 percent of the student's responsibilities must include direct experience in individual and/or group counseling of persons with emotional, social, behavioral or physical disability.

Students are also given the opportunity within their program of study to take electives. In addition to the required course of study for rehabilitation counseling, students may choose to specialize in a particular area by taking additional elective courses. Examples of possibilities of specialization are listed below.

Studies in Substance Use Disorders and Behavioral Addictions

A sequence of courses is offered within the rehabilitation counselor training program for students interested in specialized counseling skills for work in treatment and other settings as a substance use disorders and behavioral addictions counselor. Students are required to complete a specific sequence of courses in addition to an internship in an approved rehabilitation and treatment setting. These courses would be taken in addition to completion of the courses required for the master's degree in rehabilitation counseling. Successful completion of this course sequence and field work enables students to sit for the State of Illinois CADC (Certification for Alcohol and Other Drug Counselors).

Graduate students from other disciplines in the University are eligible to enroll in these courses to complete these certification requirements. The required courses are:

- REHB 461 Introduction to Substance Use Disorders and Behavioral Addictions
- REHB 471 Treatment, Recovery and Relapse Prevention
- REHB 558 Interventions for Substance Use Disorders and Behavioral Addictions in Special Populations
- REHB 566 Substance Use, Behavioral Addictions and the Family

Studies in the Substance Use Disorders and Behavioral Addictions program, within the Rehabilitation Counselor Training Program are accredited by the Illinois Alcohol and Other Drug Abuse Certification Association, Inc. (IAODAPCA), and qualify as Advanced Training for the purpose of certification in Illinois.

Certificate in Substance Use Disorders and Behavioral Addictions

The Certificate in Substance Use Disorders and Behavioral Addictions, housed in the Rehabilitation Counselor Training Program in the School of Health Sciences, is open to graduate students interested in developing specialized counseling skills for work in treatment and other settings as a substance use disorders and behavioral addictions counselor. Participation in these courses will allow the student to sit for the State of Illinois CADC (Certification for Alcohol and Other Drug Counselors). Students must complete 15 total credits of required coursework, and an academic discipline-based 500-hour internship (eight credits). Courses include REHB 461, REHB 471, REHB 558, REHB 566, and one approved elective.

Studies in the Substance Use Disorders and Behavioral Addictions Training Program are accredited by the Illinois Alcohol and Other Drug Abuse Certification Association, Inc. (IAODAPCA), and qualify as Advanced Training for the purpose of certification in Illinois.

Studies in Aging

This area of special study offered within the School of Health Sciences includes a sequence of three elective courses in aging in addition to those courses required for the general rehabilitation counseling curriculum, and an internship in an agency or facility which serves older adults. Students in other disciplines within the University are eligible to enroll in any of the three courses in aging; however, only rehabilitation students will be eligible for the internship.

Doctor of Philosophy Degree Program

The doctoral program in rehabilitation prepares students to function effectively as rehabilitation educators, researchers, or administrators. It does this by fostering the student's development and acquisition of relevant conceptual and experiential skills in evaluation and research methodologies, in rehabilitation service, in rehabilitation education practices, or in the management of service units.

Admission and Retention Standards

All applicable policies and procedures of the Graduate School with regard to the admission of doctoral students will be followed. Requirements for admission to the doctoral program in rehabilitation exceed those of the Graduate School. The admissions committee of the doctoral program will review all candidates carefully for their special strengths. The following will be considered for all candidates:

1. High academic achievement (normally indicated by a grade point average of 3.5 on a 4-point scale) in a master's program in rehabilitation or a closely related field at an accredited university.
2. Interest in conducting rehabilitation research.
3. Two years of successful performance equivalent to full-time paid employment (post-baccalaureate) in a rehabilitation or related professional position. This may include an approved internship experience at the master's level.
4. At least three letters of recommendation by professional persons familiar with the applicant's performance in academic, research, or service work settings.
5. GRE scores dating back no farther than five years.

Applicants will be considered for acceptance into the doctoral program at the beginning of either the fall or spring semester. Courses in which a grade below *B* is obtained will not be counted toward satisfying the hour requirements for the degree.

Doctoral Committee

The students shall select a chair who will serve as his/her major adviser. In consultation with the chair the student shall select a doctoral committee which is approved by the coordinator of doctoral studies and then shall be made a matter of record. Further, the doctoral committee shall serve as the student's dissertation committee.

Admission to Candidacy

Admission to candidacy is granted by the dean of the Graduate School upon the recommendation of the faculty responsible for the student's program after the student has fulfilled the Graduate School residency requirement for the doctoral degree and passed the preliminary examinations.

The written preliminary examinations are designed to assess the breadth and depth of the student's knowledge. They are prepared, administered, and evaluated by Rehabilitation Institute faculty committees appointed by the coordinator of doctoral studies. The preliminary examinations will ordinarily be taken in the fall of the second year of doctoral study.

Dissertation

After admission to candidacy, the student will prepare a dissertation based on original research conducted under the direct supervision of the dissertation chair and committee. The requirements of the Graduate School will govern the formation of the dissertation committee and the preparation and defense

of the dissertation. While the dissertation is in preparation, the student will register for no fewer than 24 semester hours in REHB 600, Dissertation. The dissertation should conform to the current edition of the Publication Manual of the American Psychological Association and the standards required by the Graduate School.

Degree Requirements

The doctoral program emphasizes mastery of skills in research methodology, knowledge of medical and psychosocial aspects of disability, and knowledge of public policy on disability, as well as competency in the area of rehabilitation counseling, behavior analysis and therapy, or communication disorders and sciences. The course of study requires a minimum of 96-post-baccalaureate semester hours, 24 of which are dissertation hours and 39 of which are fulfilled by required courses. All remaining coursework taken by the student will be electives, selected with the approval of the student's doctoral committee.

Required Courses

The student must have successfully completed the following courses no later than 24 months after entering the doctoral program:

- QUAN 506-4 Inferential Statistics
- QUAN 507-4 Multiple Regression

Program of Study

Each area of concentration (BAT, CDS, and RCT) has a specific program of study. While each area of concentration requires the same number of credits of: a) Research Development & Utilization (20 credits) and b) Professional Issues & Methods in Rehabilitation (12 credits), the specific required and elective courses available within these areas may vary.

Nine semester hours in REHB 592: Professional Supervision in Rehabilitation (teaching or research) must also be successfully completed during the student's tenure in the doctoral program.

The student's preparation at the master's level will be evaluated and up to 30 hours of didactic course work may be accepted toward the completion of the 96-hour minimum requirement for the doctorate. Graduate level didactic courses in rehabilitation counseling, behavior analysis and therapy, and communication disorders and sciences will usually be acceptable. Course work in related areas such as counseling, psychology, and social work may qualify.

The goal of the program is to develop high-quality professionals. Thus, the student must demonstrate competence in the areas of rehabilitation services. This is accomplished through the student's master's degree program, previous work experience, the required courses, supervised professional experiences, and electives. Ph.D. degree graduates should be well-prepared for leadership roles in the areas of rehabilitation administration, service, education, or research.

Certificate in Gerontology

The Rehabilitation program participates in the Certificate in Gerontology interdisciplinary program and offers a class, REHB 405 Introduction to Aging and Rehabilitation, which is a Certificate requirement. For more information on the Certificate program, please see the Post-Baccalaureate Certificate Programs tab on the Graduate Catalog homepage.

Rehabilitation Administration and Services

***Enrollment in Rehabilitation Administration and Services (MS) has been suspended.**

Students receive their degrees in Rehabilitation Administration and Services. Preference in admissions to the Administration concentration will be given to applicants having no fewer than two years of approved, acceptable rehabilitation or related work experience. All students must complete a minimum of 36 semester hours of graduate course work, which includes a research paper or thesis. Students applying for RA&S admission, but not meeting the professional experience criterion, may be considered for admission.

If admitted students will be required to complete a full-time internship (six semester hours). During the first semester of full-time study, or a comparable time for part time students, the student must have a plan of study approved by the advisor and program coordinator. This plan of study normally includes rehabilitation administration core and professional course work, although specific plans may differ for students with varying backgrounds and career goals.

The Rehabilitation Administration requirements are as follows:

Rehabilitation Core (24 hours)

- REHB 513-3 to 4 Medical and Psychosocial Aspects of Disability
- REHB 519-3 Multicultural Counseling in Rehabilitation
- REHB 593-6 Research in Rehabilitation, **or**
- REHB 593-3 Research in Rehabilitation
- REHB 599-3 Thesis and Rehabilitation

Administration Concentration (24 hours)

- REHB 570-3 Rehabilitation Administration
- REHB 573-3 Programming, Budgeting, and Community Resources
- REHB 576-3 Development and Supervision of Rehabilitation Employees
- REHB 578-3 Program Evaluation in Rehabilitation
- REHB 579-3 Advanced Fiscal Management in Rehabilitation
- REHB 580-3 Professional and Community Relations in Rehabilitation
- REHB 581-3 Professional Issues in Rehabilitation
- REHB 582-3 Seminar in Rehabilitation Services

Rehabilitation Services Concentration

Students may opt for the Services program sequence (10 semester hours) as part of their Plan of Study. The Rehabilitation Services sequence includes:

- REHB 521-3 Vocational Development and Placement
- REHB 530-3 Assessment Procedures
- REHB 575-4 Case Management, **and**
- REHB 595A, REHB 595B-6 Internship in Rehabilitation

These may be taken in lieu of REHB 573, REHB 578, and REHB 579.

Practicum and Internship Requirements

Practicum and internships are not required for students admitted to the program with two years of approved, acceptable rehabilitation or related work experience. Students with minimal or no rehabilitation related work experiences will be expected to complete the required six semester hours of field experience.

Requirements for Research Paper or Thesis and Comprehensive Examination

All students are required to complete a scholarly research paper or thesis in a rehabilitation-related area and an oral comprehensive examination. The student completing a graduate thesis must orally defend it before a thesis committee.

Rehabilitation Courses

REHB400 - Intro to Rehabilitation 400-3 Introduction to Rehabilitation. An introduction to the broad field of rehabilitation, to include the processes (services), facilities and personnel involved.

REHB401 - Disability Diversity Society 401-3 Disability, Diversity and Society. This course will address the relationship between prevailing societal attitudes and environmental designs and the opportunity of persons with disabilities to participate fully in society. It will examine the physical, mental, gender and

cultural characteristics of persons with disabilities as determinants of their needs, values, aspiration and opportunities. How public policies can promote or limit inclusion and equal opportunities for persons with disabilities will also be addressed.

REHB405 - Intro: Aging & Rehab 405-3 Introduction to Aging and Rehabilitation. (Same as GRON 405) Introduction to the field of aging, including social, political, economic and legal issues pertinent to an aging society and rehabilitation.

REHB445B - Psychiatric Rehab 445B-3 Psychiatric Rehabilitation. This course will explore the history, philosophy, practice, current trends, and issues of psychiatric rehabilitation. Rehabilitation services that (A) develop an individual's skills and (B) provide environmental support for people with chronic mental illness will be examined. Emphasis will be placed on reaching vocational goals and optimal independent functioning for people with psychiatric disabilities. Special approval needed from the instructor.

REHB453 - Personal/Family Life Styling 453-1 to 4 Personal and Family Life Styling. The academic and personal competencies that are characteristic of fully functioning, integrated persons within the context of our twentieth century environment will be systematically reviewed for adoption in everyday living as well as in professional functions. Participants will focus on and experience life styling theories, models, and skills for their own growth and development and learn to assess basic risk-factors in their rehabilitation clients and families prior to helping them program a more balanced, synergistic, and holistic approach to living. Special approval needed from the instructor.

REHB461 - Intro to SUD 461-3 Introduction to Substance Use Disorders and Behavioral Addictions. Introduction to the field of substance use and behavioral addictions counseling with an overview of foundation topics underlying professional practice. This course will focus primarily on substance use and behavioral addiction models, medical and psychological consequences, drug classification systems, legislation, and other clinical and public policy issues that may be relevant to the field.

REHB466 - Addictions in Families 466-3 Substance Use, Behavioral Addictions, and the Family. (Same as REHB 566) Explores the foundations of interdisciplinary treatment and prevention services for families experiencing challenges related to substance use disorders and behavioral addictions. Students will acquire skills in the use of strength based, systemic approaches in working with families in group and individual counseling. The course will include an exploration of the changing concepts associated with the definition of family and challenges associated with non-traditional families. Ethical issues will be examined in addition to interagency collaborative practices. Prerequisite: REHB 461 with a grade of B or better.

REHB471 - SUD Treatment 471-3 Treatment, Recovery and Relapse Prevention. A comprehensive examination of assessment, diagnosis, referral, and treatment processes for substance use disorders and behavioral addictions. The course will cover treatment provided in a variety of settings. Students will acquire skills to provide person-centered treatment, recovery and relapse prevention services, using evidence based practices. The ASAM and the DSM V will be featured as treatment tools. Students will utilize case formulations to gain experience in the treatment plan development and implementation process. Ethical practices will be emphasized. Prerequisite: REHB 461 with a minimum grade of B.

REHB493 - Applied Research 493-3 Applied Research in Professional Rehabilitation Practice. This course will provide students with the skills necessary to act as critical consumers of rehabilitation-related research. It will also provide students with the analytical skills necessary to apply the logic of research methodology to their work in implementing evidence based practices with consumers. Emphasis will be on developing student capacity to complete focused, topical reviews of the rehabilitation literature, effectively evaluate research methodology and practices and determine appropriateness of new approaches for application in the field. Prerequisites: REHB 205, REHB 407 with grades of C or better.

REHB498 - Special Topics 498-3 Special Topics in Rehabilitation Research and Practice. The topics in this course will be variable and will focus on current challenges in the rehabilitation field. Students will explore current research, evidence based practice and public policy as they pertain to the topic. Specific attention will be directed to how these topics may pose potential ethics/professional challenges and/or challenges for consumer advocacy or how the topic may represent new, innovative opportunities for the field.

REHB501 - Interviewing and Skills 501-3 Introduction to Interpersonal Skills Development in Rehabilitation Counseling. (Same as COUN 500) Focuses upon facilitative interpersonal communication

skills necessary in Rehabilitation Counseling Practices. The course provides theory and practice in facilitative interpersonal communication in counseling, behavior therapy, and administrative services. Included is pre-practicum orientation. Special approval needed from the instructor.

REHB513 - Med/Psycho-Social:Disability 513-1 to 4 Medical and Psycho-Social Aspects of Disability. A review of the impact of disease and trauma on the human system with special attention on the effects physical limitations and socio-emotional correlates have on human functioning and the rehabilitation process. Special approval needed from the department.

REHB519 - Multicultural Counseling 519-3 Multicultural Counseling in Rehabilitation. (Same as COUN 545, REHB 419) The major focus is on building multicultural competencies in working with the basic cultural, economic and psychosocial processes relative to the rehabilitation of people from diverse and underrepresented populations and societies.

REHB520 - Clinical Supervision 520-3 Clinical Supervision in Rehabilitation Seminar. This course is designed to prepare doctoral and advanced graduate students with an overview of theory, research, and methods of clinical supervision in Rehabilitation. Special approval needed from the instructor.

REHB521 - Vocational Dev & Placement 521-3 Vocational Development and Placement. (Same as COUN 542) Relates the psychosocial meaning of work, process of vocational development, theories of occupational choice and labor market trends to current and innovative methods of job development, selective placement and follow-up with individuals with disability. Special approval needed from the instructor.

REHB530 - Assessment 530-3 Assessment Procedures in Rehabilitation Counseling. (Same as COUN 544) Review of fundamental bases of measurement, criteria for evaluating tests, exposure to representative instruments in major categories, and use of test and work samples in assessing the functioning abilities and work potential of individuals with disabilities to seek and hold gainful employment. Special approval needed from the instructor.

REHB533 - Vocational Appraisal 533-3 Vocational Appraisal. An extensive exposure to instruments designed for use with vocational rehabilitation clients. Administration and interpretation of a wide variety of instruments used to gain information to be used in planning for vocational development. Both didactic and experiential to include consideration of information obtained from interviews, tests, and other diagnostic techniques. Special approval needed from the instructor.

REHB551 - Counseling Theory & Practice 551-3 Rehabilitation Counseling: Theory and Practice. (Same as COUN 541) A didactic and experiential analysis of the underlying theory and techniques of individual and group counseling of individuals with disabilities. Special approval needed from the instructor.

REHB558 - SUD Special Populations 558-3 Interventions for Substance Use Disorders and Behavioral Addictions in Special Populations. (Same as REHB 458) This course provides a broad understanding of issues and trends in substance use disorder and behavioral addiction treatment, in a multicultural and diverse society, with a specific focus on treatment methods that reflect the culture-specific values and treatment needs of clients. The course will include an analysis of current literature related to the cultural nuances of diverse client populations with substance use or addictive behavior disorders. Formal case presentations including diagnoses and issues of multiculturalism related to clinical work will be used to facilitate student learning. Prerequisite: REHB 461 with a grade of B or better.

REHB560 - Private Sector Rehab 560-3 Private Sector Rehabilitation. A comprehensive introduction to many of the unique characteristics of rehabilitation services offered within the private-for-profit sector which can be applied by practitioners on a national basis.

REHB566 - SUD and the Family 566-3 Substance Use, Behavioral Addictions, and the Family. (Same as REHB 466) Explores the foundations of interdisciplinary treatment and prevention services for families experiencing challenges related to substance use disorders and behavioral addictions. Students will acquire skills in the use of strength based, systemic approaches in working with families in group and individual counseling. The course will include an exploration of the changing concepts associated with the

definition of family and challenges associated with non-traditional families. Ethical issues will be examined in addition to interagency collaborative practices. Prerequisite: REHB 461 with a grade of B or better.

REHB570 - Rehab Administration 570-3 Rehabilitation Administration. Problem solving approach to current issues in organizational structure and management functions in public and voluntary rehabilitation agencies, decision making, leadership, program development and evaluation.

REHB571 - Adv Disability Seminar 571-3 Advanced Disability Seminar. Specifically, this seminar reviews the historical and philosophical bases of rehabilitation; the evolution of rehabilitation counselor roles and functions; disability models; rehabilitation service delivery models; vocational rehabilitation and career theorists; serving underserved persons, and facilitating acceptance of varying disabilities of those we serve. Restricted to doctoral students or consent of instructor.

REHB574 - Staff Training & Development 574-3 Staff Training and Development. This course prepares the student to design, implement, and supervise an institutional program to train staff in methods of direct service to the institution's clients. Each student will actually design and submit a program through simulation. Lecture/workshop format.

REHB575 - Case Management in Rehab Couns 575-4 Case Management in Rehabilitation Counseling. Basic procedures in providing and coordinating available human services based on individual need in the context of a professional-client relationship, and the basics of recording and reporting such services. Special approval needed from the instructor.

REHB578 - Program Eval in Rehab 578-3 Program Evaluation in Rehabilitation. An analysis of the development and utilization of a program evaluation system in rehabilitation settings with focus given to system design, monitoring techniques and service program development. Students will be trained in the advanced practice of program evaluation techniques and their application to rehabilitation settings. Special approval needed from the instructor.

REHB585A - Sem:Counsel/Coord Services 585A-1 to 4 Seminar in Counseling/Coordination Services-Guided Imagery. Consideration of special issues in counseling and delivery of services. Special approval needed from the instructor.

REHB585B - Group Counseling 585B-1 to 4 Seminar in Counseling/Coordination Services-Group Counseling in Rehabilitation. (Same as COUN 543) Consideration of special issues in counseling and delivery of services. Special approval needed from the instructor.

REHB586 - Sem:Job Develop/Placement 586-3 Seminar in Job Development and Placement. Consideration of special issues in job development and placement philosophy, techniques and research concerning individuals with disabilities. Special approval needed from the instructor.

REHB587 - Sem:Correlates Disability 587-3 Seminar in Correlates of Disability. A systematic analysis of the behavioral socio-cultural implication of disabling conditions. Emphasizes the rehabilitation process in remediation of debilitating conditions. Prerequisite: REHB 513 or consent of instructor.

REHB588 - Sem: Research in Rehab 588-3 Seminar in Research in Rehabilitation. Advanced seminar focusing upon specialized and advanced topics in research in rehabilitation. This course is designed to prepare doctoral students in rehabilitation with the special tools needed to carry out doctoral dissertation and other advanced research projects. Special approval needed from the instructor.

REHB589 - Profsnl Seminar in Rehab 589-1 to 18 (1 per semester) Professional Seminar in Rehabilitation. The course involves advanced level presentations focusing on current research, applied practices, and innovations in rehabilitation. Presentations are made by faculty, graduate students and guest experts. A minimum of four semester hours required for Doctor of Rehabilitation degree.

REHB590 - Coexisting Disability 590-3 Coexisting Disabilities: Alcohol, Drugs, and Disability. An intensive analysis of the impact of alcohol and other drug abuse (AODA) on the lives of persons with disabilities. Additional focus of the impact of AODA on case management and the rehabilitation service delivery system. Restricted to doctoral students in rehabilitation or consent of instructor.

REHB591 - Indpndt Projects in Rehab 591-1 to 18 Independent Projects in Rehabilitation. Systematic readings and development of individual projects in pertinent rehabilitation areas. No more than six hours may be counted toward the Master's degree. Special approval needed from the instructor.

REHB592 - Profsnl Supervision: Rehab 592-1 to 16 Professional Supervision in Rehabilitation. Experience provided in the supervision of research, teaching, and rehabilitation services. No more than four hours may be taken in any semester. Restricted to doctoral student in rehabilitation. Special approval needed from the instructor.

REHB593 - Research in Rehabilitation 593-1 to 18 Research in Rehabilitation. Systematic investigation of factors and procedures relevant to rehabilitation. No more than six hours may be counted toward the Master's degree. Special approval needed from the instructor.

REHB593A - Rehabilitation Research 593A-1 to 18 Research in Rehabilitation Counseling. (Same as COUN 547) Systematic investigation of factors and procedures relevant to rehabilitation. No more than six hours may be counted toward the Master's degree. To facilitate knowledge/skill acquisition for the rehabilitation professional in becoming a knowledgeable consumer of rehabilitation research. To facilitate the completion of the Master's project. Special approval needed from the instructor.

REHB594A - Practicum: Rehab Admin 594A-1 to 12 Practicum in Rehabilitation-Administration. Supervised experiences in agencies in rehabilitation. Rehabilitation facilities management/supervision, in planning, programming and evaluation. Restricted to admission to the specific degree program.

REHB594B - Prac:Behav Analysis&Ther 594B-1 to 12 Practicum in Rehabilitation-Behavior Analysis and Therapy. Supervised experiences in agencies in rehabilitation. Behavior analysis and therapy. Application of behavioral analysis/methods in human treatment and in management. Restricted to admission to the specific degree program.

REHB594C - Practicum: Rehab Counseling 594C-1 to 12 Practicum in Rehabilitation-Counseling. Supervised experiences in agencies in rehabilitation. Development of counseling skills with individuals and groups to include work related functions. Prerequisite: REHB 501, REHB 551, and REHB 589. Restricted to admission to the specific degree program.

REHB595A - Internship in Rehab 595A-1 to 12 Internship in Rehabilitation. Extended practice in rehabilitation settings cooperatively guided and supervised by agency staff and university faculty. Graded S/U only. Prerequisite: appropriate degree specific practicum. Special approval needed from the department.

REHB595B - Intern Rehab Counseling 595B-1 to 12 Internship in Rehabilitation-Counseling. Development of advanced counseling skills with individuals with disability and other work-related functions. Graded S/U only. Prerequisite: REHB 594C.

REHB599 - Thesis 599-1 to 6 Thesis. Special approval needed from the instructor.

REHB600 - Dissertation 600-1 to 30 (1 to 12 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Rehabilitation degree. Restricted to doctoral candidate in rehabilitation.

REHB601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

REHB699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Rehabilitation Faculty

Austin, Gary F., Professor, *Emeritus*, Ph.D., Northwestern University, 1973; 1984.

Benshoff, John J., Professor, *Emeritus*, Ph.D., University of Northern Colorado, 1987; 1988. Rehabilitation Counseling.

Blache, Stephen E., Professor, *Emeritus*, Ph.D., The Ohio University - Athens, 1970; 1971.

Bordieri, James E., Professor, *Emeritus*, Ph.D., Illinois Institute of Technology, 1980; 1986. Vocational evaluation, rehabilitation administration, job placement, rehabilitation management.

Boyer, Valerie, Associate Professor, Ph.D., SIUC, 2006; 2009. Child Language, animal-assisted therapy.

Crimando, William, Professor, Ph.D., Michigan State University, 1980; 1980. Job development and placement, computers in rehabilitation, adjustment services, staff training and development.

Social Work

The School of Social Work offers graduate work leading to the Master of Social Work degree. The M.S.W. program is fully accredited by the Council on Social Work Education.

Master of Social Work

The Master of Social Work degree program offers preparation for professional social work practice. The organizing principle of the M.S.W. program is the improvement of the quality of individual life through the enhancement of social and economic justice and opportunity. Upon completion of the M.S.W. program, the student will have acquired knowledge, values, and skills consistent with the social work profession and be capable ultimately of engaging in autonomous social work practice. Graduates will be able to effectively deliver the social services needed to meet human needs in both urban and rural areas.

Admission Requirements

To be considered for admission to the regular two-year M.S.W. program applicants must:

1. Meet all admission requirements set forth by the Graduate School.
2. Have a GPA of at least 3.0 (on a 4.0 scale) in the last two years of undergraduate course work.
3. Show evidence of a broad liberal arts base with substantial preparation in the social and behavioral sciences and humanities.

4. Demonstrate content in human biology and introductory statistics.
5. International students must have a TOEFL score of 550 (paper); 213 (computer); 80 (internet) or above. The IELTS exam is also acceptable (a minimum score of 6.5).

Note: A standardized test score, such as the GRE, is not required for admission; however, students applying for a graduate assistantship will be required to have an official GRE score on file in the School of Social Work.

Entry is in the fall semester for the regular two-year program. To be considered for admission to the advanced standing M.S.W. program applicants must:

1. Have a B.S.W. degree from an accredited social work program.
2. Meet all requirements listed for the regular two-year program.

Entry is in the summer semester for the advanced-standing program.

Applications may be made at gradschool.siu.edu/apply.

Applications will be accepted up to April 1. Admissions Committee meets monthly from January to the April deadline, therefore, early applications have a better chance to receive their first choice in specialization. Applicants who complete their undergraduate degree requirements by December and have all application material submitted to the School of Social Work by October 1 may be considered for early admission and may take electives prior to entry into the summer or fall cohort

Applicants admitted for either the regular two-year program or for advanced standing may be required to take additional courses as a condition of admission. Documented potential for the profession of social work is considered a part of the admission criteria, which may also include an interview prior to acceptance.

Each application will be individually reviewed; however, meeting all stated criteria will not automatically guarantee admission to the school.

Applicants must apply online, both to the Graduate School and the School of Social Work. However, official transcripts should be sent directly to the School of Social Work. Students accepted into the M.S.W. Program must register for the semester they are admitted.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for admission to graduate study in Social Work.

Degree Requirements

Students admitted to the regular two-year program are required to complete the first year foundation curriculum and the second year advanced curriculum. They are required to complete a minimum of 60 semester hours of graduate course work taken in the approved sequence. The foundation curriculum consists of 30 semester hours and includes the following courses:

- **Fall (15 semester hours)**
 - # SOCW 500 Human Behavior and the Social Environment (3 hours)
 - # SOCW 501 Generalist Practice (3 hours)
 - # SOCW 510 Families, Groups and Organizations in Social Work (3 hours)
 - # SOCW 541A Foundation Seminar I (2 hours)
 - # SOCW 541B Foundation Practicum I (2 hours)
 - # Elective (2 hours)
- **Spring (15 semester hours)**
 - # SOCW 504 Ethnic Diversity in Social Work (2 hours)
 - # SOCW 511 Social Work Research (3 hours)
 - # SOCW 521 Social Work Policy Practice (3 hours)
 - # SOCW 542A Foundation Seminar II (2 hours)
 - # SOCW 542B Foundation Practicum II (2 hours)
 - # Elective (2 hours)

Reduced Load

Students who are unable to attend full time can choose to attend part time under our Reduced Load Scheduling Agreement. The Reduced Load schedule includes:

- **Semester 1 – Fall (8 semester hours)**
 - # SOCW 500-3 Human Behavior and the Social Environment in Social Work
 - # SOCW 501-3 Generalist Practice
 - # XXXX – 2 Elective
- **Semester II – Spring (8 semester hours)**
 - # SOCW 504-2 Ethnic Diversity in Social Work
 - # SOCW 521-3 Social Work Policy Practice
 - # XXXX-3 Elective
- **Semester III – Fall (7 semester hours)**
 - # SOCW 510-3 Families, Groups & Organizations in Social Work
 - # SOCW 541A-2 Foundation Practicum Seminar I
 - # SOCW 541B-2 Foundation Practicum I
- **Semester IV – Spring (7 semester hours)**
 - # SOCW 511-3 Social Work Research
 - # SOCW 542A-2 Foundation Practicum Seminar II
 - # SOCW 542B-2 Foundation Practicum I

Students admitted to the advanced-standing program are required to complete nine semester hours of transition courses, with a grade of *B* or better in each course, and a minimum of 30 semester hours in the second-year graduate course curriculum in the approved sequence. The transition courses include the following:

Summer Advanced Standing (9 semester hours)

- SOCW 502 Perspectives on Human Behavior for Social Work Practice (3 hours)
- SOCW 512 Advanced Social Work Research (3 hours)
- SOCW 522 Advanced Social Work Policy Practice (3 hours)

The second-year curriculum is organized around the following areas of emphasis: health/mental health; and children, youth and families. The school also offers course work in preparation for a Professional Educator License in School Social Work by the Illinois State Board of Education. Applicants must indicate their preference of area of emphasis. Although we attempt to accommodate each applicant's first preference, we do not guarantee students will receive their first choice. The second-year curriculum includes the following courses in each area of emphasis:

Health/Mental Health

- **Fall (15 semester hours)**
 - # SOCW 531 Psychosocial Disorders (3 hours)
 - # SOCW 543-A Advanced Practicum Seminar I (3 hours)
 - # SOCW 543-B Advanced Practicum I (3 hours)
 - # SOCW 551 Advanced Social Work Practice I: H/MH (3 hours)
 - # SOCW 555 Advanced Policy Analysis and Practice: H/MH (3 hours)
- **Spring (15 semester hours)**
 - # SOCW 532 Program Evaluation for Social Work (3 hours)
 - # SOCW 544A Advanced Practicum Seminar II (3 hours)
 - # SOCW 544B Advanced Practicum II (3 hours)
 - # SOCW 552 Advanced Social Work Practice II: H/MH(3 hours)
 - # Elective (3 hours)

Reduced Load Health/Mental Health Scheduling Agreement is as follows:

- **Semester 1 – Fall (6 semester hours)**
 - # SOCW 531-3 Psychosocial Disorders in Social Work Practice
 - # SOCW 555-3 Advanced Policy analysis & Practice: H/MH
- **Semester 2 – Spring (6 semester hours)**
 - # SOCW 532-3 Program Evaluation for Social Work
 - # XXXX-3 Elective
- **Semester III – Fall (9 semester hours)**
 - # SOCW 543A-3 Advanced Practicum Seminar I
 - SOCW 543B-3 Advanced Practicum I

- SOCW 551-3 Advanced Social Work Practice i: Health & Mental Health
- **Semester IV – Spring (9 semester hours)**
 - # SOCW 544A-3 Advanced Practicum Seminar II
 - # SOCW 544B-3 Advanced Practicum II
 - # SOCW 552-3 Advanced Social Work Practice II: Health & Mental Health

Children, Youth and Families

- **Fall (15 semester hours)**
 - # SOCW 531 Psychosocial Disorders (3 hours)
 - # SOCW 543-A Advanced Practicum Seminar I (3 hours)
 - # SOCW 543-B Advanced Practicum I (3 hours)
 - # SOCW 561 Advanced Social Work Practice I: CY&F (3 hours)
 - # SOCW 565 Advanced Policy Analysis and Practice: CY&F (3 hours)
- **Spring (15 semester hours)**
 - # SOCW 532 Program Evaluation for Social Work (3 hours)
 - # SOCW 544A Advanced Practicum Seminar II (3 hours)
 - # SOCW 544B Advanced Practicum II (3 hours)
 - # SOCW 562 Advanced Social Work Practice II: CY&F (3 hours)
 - # ELECTIVE (3 hours)

Reduced Load Children, Youth & Families Scheduling Agreement is as follows:

- **Semester I – Fall (6 semester hours)**
 - # SOCW 531-3 Psychosocial Disorders in Social Work Practice
 - # SOCW 565-3 Advanced Policy analysis and Practice: CYF
- **Semester II – Spring (6 semester hours)**
 - # SOCW 532-3 Program Evaluation for Social Work
 - # XXXX-3 Elective
- **Semester III – Fall (9 semester hours)**
 - # SOCW 543A-3 Advanced Practicum Seminar I
 - # SOCW 543B-3 Advanced Practicum I
 - # SOCW 561-3 Social Work Practice I: CYF
- **Semester IV – Spring (9 semester hours)**
 - # SOCW 544A-3 Advanced Practicum Seminar II
 - # SOCW 544B-3 Advanced Practicum II
 - # SOCW 562-3 Social Work Practice II: CYF

Licensure in School Social Work*

* *Endorsement in Professional Educator License (PEL) in School Social Work (Please refer to the Teacher Education Program (TEP) for the most current information on licensure requirements for School Social Work)*

Those students who wish to qualify for endorsement in school social work need to:

1. Complete the **core courses** listed above under the children, youth and families emphasis.
2. Take the following courses (which will satisfy the elective requirements):
 - a. SOCW 533-2, Social Work Practice in the Schools & SOCW 567-2, Advanced School Social Work Issues
 - b. SPED 408-3 **OR** SPED 420-3
 - c. EDUC 319 **AND** EAHE 501-3 or EAHE 503-3 (A waiver may be available with permission of the School of Social Work).
3. The field placement (SOC 543B-3 and SOCW 544B-3) will be in a school setting for two consecutive semesters.
4. SPED 408-3 or SPED 420-3 is a prerequisite to field placement for students in the School Social Work Endorsement Program and must be completed before fall semester field placements (SOCW 543A, SOCW 543B).
5. Pass the ACT with a score of 22 or higher plus the writing section with a score of 6 or higher (9/10/16 or later) and the School Social Work Licensure Exam.

In each year of study, in addition to classroom work, students are required to complete field practicum. Applied learning through field practice is an integral component of social work education. Field instruction provides the student with the opportunity for applying social work theory and conceptual learning to realistic and practical situations. Students may not substitute current or past, paid or volunteer, social work experience for the field practicum requirements of the M.S.W. program. While the school takes into account the student's career goals in the selection of the field practicum assignment, we do not guarantee that students will receive their first preference of field assignment.

M.S.W. students must maintain an overall G.P.A. of 3.0 (on a 4.0 scale).

Within limits imposed by the policies of the Graduate School of the University, transfer credits will be permitted for up to 30 semester hours for applicants who wish to transfer from another accredited graduate program in social work.

Student Advisement

Upon admission to the Master of Social Work degree program, the student will be assigned a faculty adviser. The adviser is responsible for supervision of the student's progress and is available for career counseling as well as assisting in other matters which might arise in connect with the student's work.

Financial Aid

The program offers limited financial assistance through graduate assistantships. Other scholarships, grants-in-aid, etc., may be applied for throughout the Graduate School, Southern Illinois University Carbondale, Carbondale IL 62901-4716.

M.S.W./J.D. in Social Work and Law

A concurrent degree in social work and law is designed to educate practitioners in law and social work to effectively utilize the problem-solving strategies and techniques of both professions. Students prepared in this program will develop an understanding of the ethics, language, research, history, and processes of both professions. Individuals so trained will be uniquely prepared for careers which combine both legal and human service needs such as administration, supervision of the provision of services, legal aspects of services, public policy leadership roles, family practice and community planning and development. Accepted students could complete a concurrent program in as few as three years with full-time summer attendance. Students must meet the requirements of admission and be admitted separately to the School of Social Work and the School of Law. Students currently enrolled in social work or law programs must have a minimum GPA before they may enroll in the concurrent program. The minimum GPA for social work is 3.0 and for law is 2.5. Social work students interested in this program should consult with the School of Social Work Graduate Program Director.

Certificate in Gerontology

The School of Social Work participates in the Certificate in Gerontology interdisciplinary program and offers a class, SOCW 575, Policy and Program Issues of Aging, which is a Certificate requirement. For more information on the Certificate program, please see the Post-Baccalaureate Certificate Programs tab on the Graduate Catalog homepage.

Social Work Courses

SOCW478A - Intl Social Work - Germany 478A-1 to 6 International Social Work: Generalist Policy and Practice-Germany. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478B - Intl Social Work Mexico 478B-1 to 6 International Social Work: Generalist Policy and Practice-Mexico. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478C - Intl Social Work India 478C-1 to 6 International Social Work: Generalist Policy and Practice-India. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478D - Intl Social Work Bangladesh 478D-1 to 6 International Social Work: Generalist Policy and Practice-Bangladesh. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478E - Intl Social Work Canada 478E-1 to 6 International Social Work: Generalist Policy and Practice-Canada. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478F - Intl Social Work South America 478F-1 to 6 International Social Work: Generalist Policy and Practice-South America. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478G - Intl Social Work Asia 478G-1 to 6 International Social Work: Generalist Policy and Practice-Asia. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478H - Intl Social Work Africa 478H-1 to 6 International Social Work: Generalist Policy and Practice-Africa. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478I - Intl Social Work Classroom Based 478I-1 to 6 International Social Work: Generalist Policy and Practice-Classroom Based. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW478J - Intl Social Work Other 478J-1 to 6 International Social Work: Generalist Policy and Practice-Other. Provides an international perspective for the study of social work groups, organizations and communities. Focuses on the examination of assessment and problem solving interventions and cross-cultural comparisons of policy and practice.

SOCW496 - Independent Research in SW 496-1 to 3 Independent Research in Social Work. Provides opportunity for students to conduct independent research with the guidance of a faculty member. Topics of research are identified by the student and faculty member. Special approval needed from the instructor.

SOCW500 - HBSE in Social Work 500-3 Human Behavior and the Social Environment in Social Work. Life span development. Students acquire a foundation knowledge in human development in the social environment over the life span. Normal development stages and impacts of social systems on the growth of individuals in diverse populations of rural areas is emphasized. Restricted to admission to the MSW Program.

SOCW501 - Generalist Practice 501-3 Generalist Practice. This course emphasizes the development of advanced intervention skills related to generalist practice with individuals, families, groups, organizations and communities in multiple-service, community-based agencies characteristic of rural areas. Restricted to admission to the MSW Program.

SOCW502 - Advanced Human Behavior 502-3 Advanced Human Behavior for Social Work Practice. Selective examination of the theoretical basis of development and inter-relational aspects of individuals

and families throughout the life span. Normal development stages and impacts of social systems on the growth of individuals in diverse populations of rural areas is emphasized. Prerequisite: Must be taken concurrently with SOCW 512 and SOCW 522. Grade of B or better is required. Restricted to admission to the MSW Program with eligibility for Advanced Standing.

SOCW504 - Human Diversity in SW 504-2 Human Diversity in Social Work. Examination of issues involved in delivering social services to various ethnic, diverse and cultural groups. Sensitizes students to personal, familial, or community problems of ethnic or cultural origin. Implications for understanding social services to populations who have experienced discrimination are discussed. Restricted to admission to the MSW Program.

SOCW510 - Families, Groups & Orgs 510-3 Families, Groups and Organizations in Social Work. Examination of systems and advanced generalist practice theories within the context of rural, integrated and multiple-service social services delivery systems. Specific practice examples will be used to facilitate understanding of how theory guides practice with families, groups, organizations and communities. Restricted to admission to the MSW program.

SOCW511 - Social Work Research 511-3 Social Work Research. This course emphasizes the importance of scientific inquiry within social work practice and covers the application of basic concepts of research methodology to social work including problem formulation, research design, sampling, measurement, and data analysis. Includes single-system methodology as it applies to social work practice in rural areas. Prepares students to conduct an individualized single-system project based on practice intervention with clients or systems in their practicum setting in the final semester of their studies. Prerequisite: an introduction to statistics course or concurrent enrollment allowed. Restricted to admission to the MSW Program.

SOCW512 - Advanced SW Research 512-3 Advanced Social Work Research. Selective examination of inductive and deductive methods in social work knowledge building. Includes research methodologies and group designs as applied to social work practices in rural areas. Prepares students to conduct an individualized single-system project based on practice intervention with clients or systems in their practicum setting in the final semester of their studies. Prerequisite: Must be taken concurrently with SOCW 502 and 522; Grade of B or better is required. Restricted to admission to the MSW Program with eligibility for Advanced Standing.

SOCW521 - Social Work Policy Practice 521-3 Social Work Policy Practice. Examines the historical development of social welfare and professional social work in Europe and the United States. The course introduces a systematic framework for policy analysis with particular attention paid to policies affecting diverse rural populations, women and minorities. Restricted to admission to the MSW Program.

SOCW522 - Advanced SW Policy Practice 522-3 Advanced Social Work Policy Practice. Selective examination of the historical development of social welfare and professional social work in Europe and the United States. Uses a systematic framework for policy analysis with particular attention paid to policies affecting women, low income, oppressed, and diverse rural populations. Prerequisite: Must be taken concurrently with SOCW 502 and 512; Grade of B or better is required. Restricted to admission to the MSW Program with eligibility for Advanced Standing.

SOCW531 - Psychosocial Disorders 531-3 Psychosocial Disorders in Social Work Practice. This course provides a basic knowledge of psychopathology and how it impacts individual functioning and family dynamics. Students become familiar with the theoretical basis and the basic structure of DSM-5 and models of interdisciplinary clinical practice in mental health. Prerequisite: Completion of transition courses (SOCW 502, 512, & 522) or foundation courses (SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Restricted to admission to the MSW Program.

SOCW532 - Program Evaluation for SW 532-3 Program Evaluation for Social Work. This course focuses on the application of research methods especially in evaluating programs or program components in the area of concentration and to the practicum experience. Includes content on self-evaluation in practice. Prerequisite: Grade of B or better in SOCW 511 or SOCW 512 and an introduction to statistics course. Restricted to admission to the MSW Program.

SOCW533 - SW Practice in Schools 533-2 Social Work Practice in the Schools. In-depth examination of the history and practice of social work in primary and secondary schools. Roles of school social workers

and practice approaches are emphasized. Prerequisite: SPED 408 or SPED 420; Completion of transition courses (SOCW 502, 512, & 522) or foundation courses (SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Restricted to admission to the MSW Program and School Social Work Endorsement Program.

SOCW535 - Legal Aspects of SW Practice 535-3 Legal Aspects of Social Work Practice. Examination of law and legal procedures that relate directly to social work practice in general. Legal perspectives of a specific concentration field of practice are discussed in depth.

SOCW541A - Foundation Practicum Seminar I 541A-2 Foundation Practicum Seminar I. Seminar which is taken concurrently with Foundation Practicum I (SOCW 541B). The seminar emphasizes the relationship between the practicum experience, social work practice, policy, human behavior and the social environment (HBSE) and research curricula. Prerequisite: Concurrent enrollment with SOCW 541B. Restricted to admission to the MSW Program.

SOCW541B - Foundation Practicum I 541B-2 Foundation Practicum I. Field practicum which is taken concurrently with Foundation Practicum Seminar I (SOCW 541A) and is a structured and supervised on-site field practice in a selected agency. Practicum is equivalent to 12 hours per week for 15 weeks (a total of 360 hours) over two semesters. Graded S/U. Prerequisite: Concurrent enrollment with SOCW 541A. Restricted to admission to the MSW Program.

SOCW542A - Found Practicum Seminar II 542A-2 Foundation Practicum Seminar II. Seminar which is taken concurrently with Foundation Practicum II (SOCW 542B) and serves as a continuation of SOCW 541A. The seminar emphasizes that relationship between the practicum experience, social work practice, policy, human behavior and the social environment (HBSE) and research curricula. Prerequisite: SOCW 541A&B; Concurrent enrollment with SOCW 542B. Restricted to admission to the MSW Program.

SOCW542B - Foundation Practicum II 542B-2 Foundation Practicum II. Field practicum which is taken concurrently with Foundation Practicum Seminar II (SOCW 542A) and serves as a continuation of SOCW 541B, which is the second structured and supervised on-site field practice in a selected agency. Graded S/U. Prerequisite: SOCW 541A&B; Concurrent enrollment with SOCW 542A. Restricted to admission to the MSW Program.

SOCW543A - Adv Practicum Seminar I 543A-3 Advanced Practicum Seminar I. Concentration specific practicum seminar with concurrent field practicum (SOCW 543B). Practicum seminar focuses on the application of advanced generalist theory, knowledge and skills covered in the curriculum within the specific concentration area (Children, Youth and Families/School Social Work; Health/Mental Health). Prerequisite: Completion of transition courses (SOCW 502, 512, & 522) or foundation courses (SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Concurrent enrollment with SOCW 543B. Restricted to admission to the MSW Program.

SOCW543B - Advanced Practicum I 543B-3 Advanced Practicum I. On-site concentration specific field practice in an approved agency with appropriate supervision equivalent to 20 hours per week for 15 weeks (a total of 607 hours is required to be completed in two semesters) with a concurrent seminar. The practicum focuses on the application of advanced concentration theory, knowledge and skills covered in the curriculum. Graded S/U. Concurrent enrollment with SOCW 543A. Prerequisite: Completion of the transition courses (SOCW 502, 512, & 522) or foundation courses (SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Restricted to admission to the MSW Program.

SOCW544A - Adv Practicum Seminar II 544A-3 Advanced Practicum Seminar II. A continuation of the concentration specific practicum seminar concurrent field practicum SOCW 544B. Continuation of SOCW 543A. Prerequisite: Completion of SOCW 543A&B. Concurrent enrollment with SOCW 544B. Restricted to admission to the MSW Program.

SOCW544B - Advanced Practicum II 544B-3 Advanced Practicum II. A continuation of the concentration specific practicum of 20 hours per week in the field for 15 weeks with a concurrent seminar, SOCW 544A. Graded S/U. Continuation of SOCW 543B. Prerequisite: SOCW 543A&B; Concurrent enrollment with SOCW 544A. Restricted to admission to the MSW Program.

SOCW546A - Sel Topics:Counsel Individuals 546A-3 Selected Topics: Social Work Counseling with Individuals. (Same as SOCW 446A) (May be repeated with different sections).

SOCW546B - Sel Topics: Practice w/Groups 546B-3 Selected Topics: Social Work Practice with Groups. (Same as SOCW 446B) (May be repeated with different sections).

SOCW546C - Sel Topics: Intervention 546C-3 Selected Topics: Social Work Intervention with Traumatic Stress Events. (Same as SOCW 446C) (May be repeated with different sections).

SOCW546D - Sel Topics:Medical Social Work 546D-3 Selected Topics: Medical Social Work. (Same as SOCW 446D) (May be repeated with different sections).

SOCW546E - Sel Topics: Substnc Abuse & MH 546E-3 Selected Topics: Substance Abuse and Mental Health. (Same as SOCW 446E) (May be repeated with different sections).

SOCW546F - Selected Topics:Family Therapy 546F-3 Selected Topics: Social Work Family Therapy. (Same as SOCW 446F) (May be repeated with different sections).

SOCW546G - Sel Topics:Admin/Grant Writing 546G-3 Selected Topics: Administration and Grant Writing. (Same as SOCW 446G) (May be repeated with different sections).

SOCW546H - Selected Topics: Child Welfare 546H-3 Selected Topics: Child Welfare. (Same as SOCW 446H) (May be repeated with different sections).

SOCW546I - Selected Topics: Spirituality 546I-3 Selected Topics: Spirituality. (Same as SOCW 446I) (May be repeated with different sections).

SOCW546J - Selected Topics: Adoption 546J-3 Selected Topics: Adoption. (Same as SOCW 446J) (May be repeated with different sections). Restricted to junior standing or higher.

SOCW546K - Military Social Work 546K-3 Selected Topics: Military Social Work. (Same as SOCW 446K) (May be repeated with different sections). Restricted to junior standing or higher.

SOCW546L - Selected Topics: Other 546L-3 Selected Topics: Other. (Same as SOCW 446L) (May be repeated with different sections).

SOCW551 - Adv SW Practice I: H/MH 551-3 Advanced Social Work Practice I: Health and Mental Health. This is the first of a two-part course that emphasizes health and mental health delivery within systems theory and an advanced generalist practice skills framework. Includes case studies and exercise aimed at practice with diverse populations in rural areas. Prerequisite: Completion of transition courses (SOCW 502, 512, & 522) or foundation courses (SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Restricted to admission to the MSW Program.

SOCW552 - Adv SW Practice II: H/MH 552-3 Advanced Social Work Practice II: Health and Mental Health. The second part of the practice course on advanced skills in health and mental health. Continuation of SOCW 551. Application of treatment modalities. Prerequisite: Completion of SOCW 543A&B and SOCW 551. Restricted to admission to the MSW Program.

SOCW555 - Adv Policy & Practice: H/MH 555-3 Advanced Policy Analysis and Practice: Health and Mental Health. This course applies a systematic analytical framework for a critical and in-depth analysis of federal, state and local policies that shape programs affecting health and mental health in rural settings. Examines how policy impacts practice with diverse populations. Prerequisite: Completion of transition courses (SOCW 502, 512, & 522) or foundation courses (SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Restricted to Admission to the MSW Program.

SOCW557 - Cmnty Mntl Hlth & the Afri Amr 557-3 Community Mental Health and the African-American. Introduction to clinical techniques useful for facilitating community functions and changes within the context of the African-American experience. An exploration of the culture of the African-American community builds the basis for community mental health service strategies.

SOCW558 - Women & Cmnty Mntl Hlth 558-3 Women and Community Mental Health. Examination of mental health problems of American women and exploration of effective interventive strategies. Emphasis on rural mental health services for low-income women.

SOCW559 - Aging & Mental Health 559-3 Aging and Mental Health. (Same as GRON 559) Examination of the nature and etiology of mental health problems facing older Americans. Review of research reports to build a theoretical basis for mental disorders.

SOCW561 - SW Practice I: C, Y & F 561-3 Social Work Practice I: Children, Youth and Family. This is the first part of a two-part course that emphasizes family-centered practice (family preservation, integrated services) within systems theory and an advanced generalist practice skills framework. Includes case studies and exercises aimed at practice with diverse populations in rural areas. Prerequisite: completion of foundation or transition courses (SOCW 502, 512, & 522 or SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Restricted to Master of Social Work students only.

SOCW562 - SW Practice II: C, Y, & F 562-3 Social Work Practice II: Children, Youth and Family. The second part of the practice course on advanced skills. Continuation of SOCW 561. Application of treatment modalities. Prerequisite: SOCW 543A&B & SOCW 561. Restricted to Master of Social Work students only.

SOCW565 - Adv Policy & Practice: CYF 565-3 Advanced Policy Analysis and Practice: Children, Youth and Families. This course applies a systematic analytical framework for a critical and in-depth analysis of federal, state and local policies that shape programs affecting children, youth, and families in rural settings. Examines how policy impacts practice with diverse populations. Prerequisite: completion of foundation or transition courses (SOCW 502, 512, & 522 or SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B). Restricted to Master of Social Work students only.

SOCW565B - School SW Policy & Prog 565B-3 Advanced Policy Analysis: Children, Youth and Families. This course applies a systematic analytical framework for a critical and in-depth analysis of federal, state and local policies that shape programs affecting children, youth and families in rural settings. Examines how policy impacts practice with diverse populations. Prerequisite: completion of foundation transition courses.

SOCW567 - Adv School SW Issues 567-2 Advanced School Social Work Issues. Exploration of policies, programs, practice and legislative trends affecting public service in school social work. Prerequisite: SOCW 533. Restricted to Master of Social Work students only.

SOCW570 - Gerontology & Social Work 570-3 Gerontology and Social Work. Examines the major psycho-social and ecological theories of human aging within the framework of social work practice. Extrapolations of those theories and application of them to social work practice and research are emphasized.

SOCW575 - Policy & Program Issues Aging 575-3 Policy and Program Issues of Aging. (Same as GRON 575) Examination of public policies that impact on the quality of life of the elderly. Major programs are identified and analyzed. Future policy issues are discussed.

SOCW576 - Selected Topics in Aging 576-1 to 6 Selected Topics in Aging Practice Issues. Examination of selected knowledge and skills useful for gerontological social work practice. In-depth study on specific topics will be conducted. Prerequisite: SOCW 570.

SOCW577 - Selected Topics: Research 577-1 to 4 Selected Topics in Research. Individualized advanced research projects related to student interest. Graded S/U. Prerequisite: completion of foundation or transition courses (SOCW 502, 512, & 522 or SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B).

SOCW578 - Intl Social Work - Germany 578-1 to 6 International Social Work - Germany. Critical examination of the nature and scope of social welfare programs in other nations including: personal social services, income maintenance, health care and social development programs.

SOCW598 - SW Research Paper 598-1 to 4 Social Work Research Paper. Preparation of a final research paper as partial requirement for the M.S.W. degree. Graded S/U only. Prerequisite: completion

of foundation or transition courses (SOCW 502, 512, & 522 or SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B).

SOCW599 - Thesis in Social Work 599-3 Thesis in Social Work. A partial and optional requirement for the M.S.W. degree. A written report of the student's research project in the chosen area of concentration. Graded S/U only. Prerequisite: completion of foundation or transition courses (SOCW 502, 512, & 522 or SOCW 500, 501, 504, 510, 511, 521, 541A&B, & 542A&B).

SOCW601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs or who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Social Work Faculty

Buila, Sarah, Associate Professor, *Graduate Program Director*, M.S.W. SIUC 2005; 1998. Ph.D., University of Illinois. Generalist practice, substance abuse, psycho-social disorders, health/mental health practice, social support and the management of chronic mental illness, cultural competency, food security, and social justice.

Dreuth-Zeman, Laura, Professor, *Emeritus*, LCSW, Ph.D., Vanderbilt University, 1996, 1998. Certificate in Analytical Psychology from C.G. Jung Institute of Chicago (2012). Treatment for persons and families with medical and psychiatric disorders including neurodevelopmental disorders; clinical practice with families, women, children and adolescents recovering from stress, trauma, addiction, and psychiatric conditions.

Jurkowski, Elaine T., Professor, Ph.D., University of Illinois at Chicago, 1997; 1998. Social work theory, program evaluation and community social services and systems changes, research methods, health, public health, population health, community planning/counseling, gerontology, and media as an intervention.

Kawewe, Saliwe, Professor and *Director*, Ph.D., Saint Louis University, 1985; 1996. Advanced generalist practice, child welfare, policy, research, international social welfare policy, social development strategies in Third World communities, HIV/AIDS prevention and treatment, women and children, cultural diversity, and indigenous populations.

Reese, Dona J., Professor, M.S.W 1979 and Ph.D. in Social Work 1994, University of Maryland, LCSW; 2008. Hospice social work, focusing on social work outcomes measurement, spirituality, and cultural competence. Active learning approach to social work education, with a focus on service learning and participatory action research.

Reichert, Elisabeth, Professor, M.S.W., Ph.D., University of Tennessee at Knoxville, 1989; 1994. Practice, policy, human behavior and the social environment, clinical social work with sexual abuse/incest survivors, battered women, crisis intervention, human rights policy and practice, and international social work.

Saleeby, Patrica, Associate Professor, Ph.D., Washington University St. Louis, 2005, 2012. Health, mental health, disability policy and practice, capability approach to disability and social work, community and organizational management, and service learning.

Soliman, Hussein, Professor, Ph.D., University of Tennessee, 1993; 2004. Research methodology, generalist practice, practice evaluation, school social work, social policy, disasters and traumatic stress, international social work.

Sociology

The Department of Sociology offers graduate work leading to the M.A. and Ph.D. degrees. The M.A. degree program gives students an opportunity to acquire a general knowledge of sociology through lecture courses, seminars, and exposure to a variety of theoretical and methodological approaches.

The Ph.D. degree program centers around advanced offerings in the areas of theory, methods, social movements, gender, sexualities, religion, communities, and inequalities. A special concentration in criminology, deviance, and criminal justice allows interested students to pursue a substantial part of the doctoral studies in Criminology and Criminal Justice. Students may pursue a Women, Gender and Sexuality Studies graduate certificate at the same time as well.

The faculty of the department is research-oriented and encourages a similar orientation on the part of its students. The department maintains a small library and state-of-the-art computer facilities for qualitative and quantitative analyses.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Sociology. This must be paid by credit card at the time you submit the online application.

Admission to Graduate Study in Sociology

Applicants have a few options. Undergraduates who majored in sociology or a closely-related field (some sociology required, evaluated on a case-by-case basis) with a GPA of 3.0 may apply for the two-year M.A. degree program, or they may apply for direct entry into the Ph.D. program. Students with M.A. degrees in sociology or closely-related fields (evaluated on a case-by-case basis) with a graduate GPA of 3.25 may apply to the Ph.D. program. To apply to either program, the student must submit personal and research statements, three reference letters, a writing sample, a CV, and official transcripts of all undergraduate and graduate academic grades to the department for review by the graduate admissions committee. Scores from the Graduate Record Examination (GRE) are required for consideration for admission and University-wide fellowships.

Complete applications must be received by January 1. Admitted students begin the subsequent fall semester. Admission for the spring semester will be given only in exceptional circumstances. International students must achieve 550 or better on the paper-based TOEFL, 213 on the computer-based TOEFL, 80 on the internet-based TOEFL, and 6.5 on the IELTS.

Persons seeking more information should email the current Director of Graduate Studies as listed on our website. Students can access our department website (sociology.siu.edu). Here you can find more information about the department, faculty, students, and the link for applications. For more information about graduate fellowships, which have January/February deadlines, and about financial assistance programs, see the Graduate School Website (gradschool.siu.edu/cost-aid).

Admission from SIU M.A. to Ph.D. Program

M.A. students who wish to continue work towards a doctoral degree must submit a formal application including the departmental application form, a statement of purpose, two letters of recommendation, a writing sample, and transcripts (these can be pulled from student's file). Applications will be reviewed using the policies, procedures, and guidelines applicable to external Ph.D. applicants and will involve an assessment of performance in the M.A. program. Applications must be received by January 1 to receive full consideration for fellowships.

Graduate Assistantships and Fellowships

A limited number of assistantships for qualified students are available through the department on a competitive basis. Eligible applicants may be nominated for various fellowships awarded by the Graduate School in University-wide competition that have deadlines in January and February. Once funded, a student's continued funding is contingent on the student's satisfactory performance in the program, annual evaluations by faculty (on students' performance in classes & readings, work assignments, timely progress in the program, and professional service and activities), passing comprehensive exams in a timely manner, and on the availability of funds.

Graduate Student Evaluation Criteria

Acceptance into either degree program, continuation/retention in either degree program, and funding in the graduate program are at the discretion of the department. Students need to maintain a GPA of at least 3.0. If a GPA goes below 3.0, the student is placed on academic probation by the Graduate School. Any graduate student on academic probation whose grade point average remains below 3.0 for two consecutive semesters in which she or he is enrolled, excluding summer sessions, will be permanently

suspended from the Graduate School, and thus from our program. In other words, the student has one semester to bring the GPA back up to an average of 3.0. Decisions about admission, retention, and funding will be based on five criteria:

- 1. Timely progress in the program.** Students are expected to make normal progress toward the degree, and failure to progress according to the Graduate Catalog for Sociology will diminish priority for funding (dependent on availability), admission, and continuation. M.A. Students are expected to complete all coursework and the master's paper within two years. Residency in the Ph.D. program requires 24 credit hours of coursework (only 6 hours of SOC 600 count toward this 24) and must occur prior to advancing to candidacy. The doctoral examination is taken in January of the second year for students with an SIU Sociology M.A. The substantive comprehensive review paper must be completed within one year of the doctoral comprehensive examination, but it is highly recommended that it be completed within a few months. Students advance to candidacy after achieving residency, successfully completing all required courses, completing both examinations, and defending the dissertation prospectus. Students need 24 hours in SOC 600 to complete the Ph.D. (only six of which may occur prior to candidacy). Failure to make timely progress in the program will decrease the likelihood of departmental funding and may impact continuation in the program. Retention and funding in the Ph.D. program are also contingent on faculty evaluations that occur annually (see the Annual Review section for details and situations that likely lead to lowered priority for funding and/or dismissal from the program). For an SIU Sociology M.A. student, the Ph.D. program should be about four years and for those with an external M.A. about five years.
- 2. Grades.** M.A. students need to maintain a GPA of 3.0. Student must earn an *A* or *B* for course credit. Courses cannot be re-taken due to the two-year rotation of scheduling courses. If an M.A. student earns a *C* in a course, the Graduate Studies Committee will review the case to determine if the student may remain in the program or if the student will be dismissed by the department. If a student is allowed to remain in the program with one grade of *C*, the Graduate Studies Committee may require the student to take an alternative course (earning an *A* or *B*) to assure that the relevant skills/knowledge are achieved. A grade lower than a *C* (or two *C*'s or one *C* and a lower grade) will result in dismissal from the program. The Department of Sociology allows two years for the completion of the M.A. degree program; decisions regarding exceptions are made on a case-by-case basis. Failure to make timely progress lowers a student's priority for departmental funding or may result in dismissal from the program.
Ph.D. students need to maintain a GPA of 3.0. Students must earn an *A* or *B* for course credit. Courses cannot be re-taken due to the two-year rotation of scheduling courses. A grade of *C* or lower in a required/research tool course is grounds for immediate dismissal from the program. However, in the case of a *C* grade in a required course, exceptions and possible remedies will be considered by the Graduate Studies Committee on a case-by-case basis. If a student earns a grade of *C* in a non-research tool course (i.e., an elective), the course will not count toward the required credit hours and must be replaced with a grade of *A* or *B* in an additional course and the student must meet the terms of academic probation set by the Graduate School. A grade of *D* or *F* in an elective is grounds for immediate dismissal.
 - Incompletes in coursework will diminish priority for funding.
 - Students with incompletes in theory (SOC 501 & SOC 502) and methods/stats (SOC 526A & SOC 526B, SOC 512, SOC 514) will be ineligible to take the comprehensive examinations.
 - Students with incompletes will have lower priority for acceptance into the Ph.D. program.
 - Plagiarism is grounds for de-funding and dismissal from the program.
- 3. Exams.** Successful completion of the doctoral and substantive exams increases priority for funding while failing decreases priority. Failing the doctoral comprehensive exam may preclude departmental funding; failing the substantive review paper is grounds for immediate dismissal (see exam section for information on grading and revisions).
- 4. Prospectus and research.** Priority for funding and retention will decrease if a student has not made progress towards a prospectus committee by the end of the second year of Ph.D. work for those with an SIU Sociology M.A. and third year of Ph.D. work for others. The dissertation prospectus should be defended by the middle of the relevant subsequent year. Students will lose funding and may be dropped from the program if they do not defend a proposal by the end of their third year in the Ph.D. program (for students with an external M.A.); exceptions will be considered by the Graduate Studies Committee on a case-by-case basis. Additionally, students who present professional papers or published papers and who submit/publish papers will be given increased priority for departmental funding. Once the student advances to candidacy, he/she has five years

to complete the dissertation as evidenced by completed data collection, analyses, and chapters as relevant.

5. **Teaching evaluations.** Priority for teaching-related funding will also be tied to successful teaching as indicated by teaching evaluations and faculty oversight. Students with strong research skills (indicated by coursework and exam performance) will be given priority for research-related funding contingent on resources.

Master of Arts Degree

The Master of Arts degree in sociology requires a minimum of 30 semester hours of coursework and a research paper. Students are required to take the following three courses: SOC 501, Classical Sociological Theory (3 hours); SOC 526A, Statistical Data Analysis in Sociology I (4 hours); and SOC 512, Sociological Research Methods and Design (4 hours). Students must receive an *A* or *B* in all three classes. Students are required to enroll in four additional graduate seminars (12 hours) in sociology (one of which may be at the 400 level) or related discipline if granted permission by the Director of Graduate Studies, and in four credits of Individual Research for completion of the master's degree research paper (SOC 591). Students may take Independent Readings (SOC 596) as long as the above requirements are also fulfilled.

Credit Hours per semester

We require full-time students with full assistantships (i.e., ½ time assistantships) to enroll in a minimum of eight credit hours per semester. Students with graduate fellowships, Veteran's benefits, or SIU scholarships also must take at least nine credit hours as required by the Graduate School. GAs in their final semester of the M.A. program who have or will meet all requirements may seek departmental approval to take six hours in that final semester.

Master's Research Paper

The research paper is developed from a paper produced in a sociology course or through independent readings/research with a faculty member. Students will select an advisor for the Master's Research Paper (e.g., the person who taught the course or supervised the readings/research project). Students will enroll with this faculty member for four semester hours in SOC 591, Individual Research, for the completion of the research paper. These hours should be taken when the student will be doing the most work on the research paper and can be divided across two terms. The student alerts the Director of Graduate Studies when a chair and second reader are selected. In case of disagreement over the evaluation (pass/revision/fail) of the paper, the Graduate Studies Committee will appoint a third reader. The Master's Research Paper normally is 30 to 40 pages in length and uses the standard American Sociological Review reference style. In addition to submitting the paper per the Graduate School requirements, one suitably bound copy must be deposited in the department library.

Doctor of Philosophy Degree

Advisement

The responsibility for initial advisement rests with the Director of Graduate Studies. As soon as possible, the student, in consultation with the Director of Graduate Studies, will request an appropriate member of the department's graduate faculty to serve as the student's academic advisor. This advisor will help prepare a general plan of study and will be responsible for making sure that her/his student is enrolled in the correct hours each semester and fulfilling the tool, substantive seminar, and readings requirements. It is the student's responsibility to develop, in consultation with his/her advisor, a plan of study leading to timely completion of the comprehensive examinations and dissertation (a form is available on our website). This plan of study will be filed in the student's permanent file. Change of advisor should be filed with the Director of Graduate Studies.

Research Tool Requirement

Doctoral students must complete the following courses with grades of *A* or *B*: SOC 501, SOC 502, SOC 512, SOC 514, and SOC 526A, SOC 526B, and Teaching Sociology seminar SOC 518 (equaling 25 credit hours).

In addition to these courses, students must develop research skills that are appropriate and necessary for their dissertation research (see the next section and the time-lines for additional requirements and clarifications). It is the responsibility of the student's program advisor to supervise the student's development of these research skills.

Course work and Readings

While in the Ph.D. program, students must take at least four substantive, 500-level, seminars in sociology (15 credit hours; on a case-by-case basis, permission may be granted for courses in a related discipline) beyond the tool and M.A. seminar requirements. Ideally the seminars should be taken prior to the substantive examination. In addition to the regularly offered courses and seminars, the department provides supervised readings and research courses, depending upon the availability of faculty members. Supervised readings and research courses are not to be taken as substitutes for regularly-scheduled courses and seminars, and registration in them requires prior written approval by the readings faculty on the form granting permission for the course and general approval by the student's advisor. This form must be filed with the Administrative Assistant to the graduate program.

Credit Hours per Semester

We require full-time students with full assistantships (i.e., ½ time assistantships) to enroll in a minimum of eight credit hours per semester. Students with graduate fellowships, Veteran's benefits, or SIU scholarships also must take at least nine credit hours as required by the Graduate School.

Comprehensive Examinations

Ph.D. students must pass one written comprehensive exam and one written comprehensive review paper: the Doctoral Comprehensive Exam which is taken during the second weekend in January of the first year for students with an SIU M.A. and the second year for others, and the Substantive Comprehensive Review Paper on the student's research field which should be finished within one year (i.e., by the beginning of the spring semester in the student's second or third year as appropriate). Students should form the substantive review paper committee within three months after completion of the Doctoral Comprehensive Exam. Students are advised to complete this paper within a few months if possible.

Doctoral Comprehensive Exam

This examination will be geared towards the demonstration of sociological insights, and its results will be graded by any two faculty members who taught a graduate course or supervised graduate students in the preceding three semesters. Ph.D. students with an SIU M.A. take the exam after their first semester in the Ph.D. program and others after their third semester.

Using an article selected by the examination committee, students will discuss and provide written commentary and critique on key substantive concepts, theories, method analysis, and sociological insights or contributions in 15 double-spaced typed pages, 12 pt font. Students will be assessed on their ability to clearly and concisely summarize, discuss, and critique the article and provide alternative theoretical and/or methodological arguments. The examination committee will consist of two faculty members who have taught graduate courses and/or supervised graduate students in the previous three semesters. The examiners will be chosen by lottery conducted by the Director of Graduate Studies. The examiners will rotate every exam period. The two faculty members will select a sociological article for the exam at least two to three days before the exam. Faculty graders will have up to four full regular semester weeks to grade the comprehensive exams and will report their individual written results to the Director of Graduate Studies. Results will be Pass or Fail and the grade will be used as one aspect of evaluation for continuation in the program.

Annual Faculty Review

All Ph.D. students will compile dossiers that will be used in a full faculty review of on-campus Ph.D. graduate students (including ABDs), with special focus on graduate students in their second and third years of study. The review will occur in late spring. Materials are due February 1. Students must submit a CV, along with a statement of purpose for completing Ph.D. studies.

- Up-to-date curriculum vita: name, address, address, education, current position, assistantship and work history in department, courses taught, research-paper presentations and publications, professional memberships, and other scholarly activities.
- One-page statement of plans for remainder of the doctoral program with detailed timeline including information pertaining to research direction(s) with topics, doctoral and substantive comp exams' actual or proposed dates and grades, prospectus topic and date, proposed chair and committee members; if ABD, dissertation topic, date prospectus defended, and proposed date of dissertation completion; chair, committee members.
- For each student, at least one faculty member must agree to supervise the student through the completion of the Ph.D., and at least three other faculty members must agree to serve on the student's dissertation committee. This will be done in two separate blind ballots of the full faculty for each non-ABD student. The first ballot will assess willingness of faculty to serve as the student's dissertation chair, and the second will assess willingness of faculty to serve on the student's dissertation committee. If a student fails to achieve at least one vote on the first ballot, and at least four votes on the second ballot, they will be terminated from the program. For ABD students, the faculty will review your timely progress towards completion of your dissertation. Failure to make progress may preclude funding.

Substantive Comprehensive Review Paper

The substantive review paper will assess students' ability to think and write critically about a subfield within sociology. Students should select the area on which they will write based on their expected dissertation topic. In so doing, the review paper functions to prepare the student for the dissertation and the review paper committee may function as the basis of the dissertation committee, to which additional members will be added later. Typically the chair of the review paper committee becomes the chair of the dissertation committee. In selecting an area and organizing the relevant literature, students should first identify the area they are interested in studying, clarifying their dissertation research topic, and investigate historical/developmental issues in that area, key theoretical perspectives, early and contemporary debates, and trends indicating the state of the field. Faculty may provide broad orienting questions to help the student engage the literature.

In consultation with the chair, a second faculty member will be identified and invited to join the committee. The student will develop a reading list under the guidance of the committee. Each committee member will have the opportunity to suggest changes to the reading list; however, this must be done in time to allow the student to complete the review paper as planned. A final approved reading list must be completed and given to each member of the committee at least one month prior to writing the review paper (the date of which should be agreed upon and deposited with the Director of Graduate Studies). An ideal time to begin constituting the committee and compiling the reading list is in the spring of the first or second year (after the Doctoral Comprehensive Exam). This process may take as long as the semester, but need not. Students should familiarize themselves with all relevant readings prior to the start of the review paper time period—once the student has read, he/she gives the start date for the writing period to the Director of Graduate Studies. The writing period is 30 days.

Students should write the review paper early enough in a semester to allow faculty four regular semester weeks to grade it before the end of term. Alternatively, students may write it over one month in the summer or winter break and the faculty committee will evaluate the review paper in the first month of the subsequent semester. The review paper should be approximately 40 written pages (exclusive of references). At the end of the month, the review paper should be turned in to the Director of Graduate Studies who will attach a cover sheet and distribute it to the committee. Completing the paper in the spring or by start of fall in the year after the doctoral exam is recommended. This timeline is designed to give the student ample time to write and defend a dissertation proposal so that they may be eligible for faculty nomination for the DRA (Dissertation Research Assistantship) in early spring.

The faculty committee will have up to four regular semester weeks to read, assess, and grade the review paper (faculty are not expected to grade review papers over breaks). The committee members will turn in comments to the Director of Graduate Studies, who will then give copies to the student. At the discretion of the grading faculty, the student may be asked to defend the review paper orally before a passing grade is awarded. Outcomes include: High Pass, Pass, Revisions, or Fail. A final copy of the approved review paper should be deposited with the Graduate Secretary before the end of the semester.

In the event that revisions are required, the student has one month to complete said revisions. If revisions are necessary, committee members will likely meet with the student to offer guidance. If committee members disagree on whether the student has completed a satisfactory paper, a third faculty will grade the review paper. An oral defense of the revised paper may also be required at the faculty's discretion. Students who fail the review paper will be dismissed from the program.

IMPORTANT: Students are also required to demonstrate their mastery of a second area through two or more of the following: taking seminars (e.g., earning a certificate and/or emphasis), teaching undergraduate courses, writing for a scholarly audience (presenting and especially publishing) and appropriate demonstration in the dissertation. The chair of the student's dissertation as well as at least one other faculty with expertise in that area may discuss student's competence in this area in a letter of reference.

Dissertation

The dissertation is the single most important requirement for the Ph.D. degree, and the student should start thinking about potential dissertation topics soon after admission. Information concerning Graduate School requirements regarding the dissertation is contained in the Graduate Catalog.

After completing both comprehensive examinations, in consultation with the Director of Graduate Studies, the student selects a dissertation chair. In consultation with the dissertation chair, the student selects a committee consisting of four additional graduate faculty members, including one from outside of the Department of Sociology. Students selecting the Criminology/Deviance/Criminal Justice option may have committee members from the Department of Criminology and Criminal Justice who serve as either inside or outside members. Exceptions to this committee membership will be granted in only limited circumstances. Normally, students are encouraged to use the two members of their substantive comprehensive examination committee as the initial members of the dissertation committee. The Director of Graduate Studies must submit the committee roster to the Graduate School for approval prior to the scheduling of the prospectus defense.

Students may change the composition of the committee if necessary. First, the student must find a dissertation chair, who must first agree to serve and who must also be a member of the Graduate Faculty. Second, the student must identify the remaining members of the committee. Five committee members are needed, and at least one must be from outside of the Department of Sociology. After discussion with current chair/members and new/potential members, students may reconstitute a dissertation committee prior to the dissertation defense. Notification of the new members and chair is needed in writing to the Director of Graduate Studies who must submit the new roster.

The student then prepares a detailed dissertation prospectus, showing clearly the purpose and scope of the research, its relation to the previous work in the field, its theoretical relevance and significance, and the research methods and techniques. The prospectus must contain a section documenting the student's training and abilities in using the proposed research methods and techniques. The dissertation committee will have at least two weeks to read the prospectus before the formal session. During summer months, students should consult with all committee members prior to arranging for any hearings. The prospectus must be approved by the dissertation committee in a formal session and filed in the graduate program office. A prospectus must be approved no later than the end of the full-time student's sixth semester in the Ph.D. program for students with an SIU Sociology M.A. and 8th semester for those with an external M.A. Failure to do so may preclude funding.

Dissertation Defense

The completed dissertation must be acceptable to the chair of the dissertation committee before being circulated among committee members for evaluation. After acceptance of the dissertation by the candidate's dissertation committee, an oral examination will be conducted by the committee in an open meeting, as specified by Graduate School regulations. This examination will be based upon the contents and implications of the dissertation. The examination should not be scheduled sooner than

four weeks after the completed dissertation has been distributed to the dissertation committee. A public announcement and a copy of the dissertation shall be made available to other faculty of the department at least one week before the examination. Upon satisfactory completion of the oral examination, the student must follow the Graduate School rules for submission and subsequently submit a suitably bound copy to the department library.

Expectations

1. Students will complete their Substantive Comprehensive Exam in the area of concentration.
2. Students' dissertations will be on a topic related to the area of concentration.

Committees

Students' substantive comprehensive exam committees will have at least one sociology faculty member. Students' dissertation committees will have at least two sociology faculty members who are members of the Graduate Faculty.

Advising

Prior to the appointment of the dissertation chair, faculty advisors for Ph.D. students should be sociology faculty members.

Crime/Deviance/Criminal Justice Emphasis

A student who has been admitted to the Ph.D. program in sociology, and whose major interest is in the area of crime, criminology, or criminal justice may want to incorporate the following courses, expectations, and committee guidelines into her/his program of study to form an emphasis in the field:

Required Courses:

- CCJ 500 Foundations of Criminal Justice
- CCJ 504 (Criminological Theory) or SOC 572 (Seminar in Criminology)

Two additional 500-level courses, from the following:

- SOC 562 Seminar in the Sociology of Deviance and Social Control
- SOC 530 Topical Seminar in Sociology (when topic is relevant)
- CCJ 540 Seminar in Theory and Practice of Crime Prevention
- CCJ 550 Seminar in Juvenile Justice and Delinquency
- CCJ 562 Law and Social Control
- CCJ 571 Seminar in Punishment and Corrections
- CCJ 576 Policy Analysis in CCJ
- CCJ 584 Administration and Management in Criminal Justice
- CCJ 587 Seminar in Policing
- CCJ 592 Advanced Seminar in Criminology and Criminal Justice

Note: ONE of the four courses required for the concentration must be a sociology course.

Sociology as a Secondary Emphasis in Another Ph.D. Degree Program

A student who is enrolled in another Ph.D. degree program and who wishes to declare sociology as a secondary area must submit to the Director of Graduate Studies a written request which includes the following: a plan of course work, a personal reading list, and an overall program statement indicating the relationship of the area in sociology to the student's total program.

Interdisciplinary Ph.D. Degree Program in Sociology

Students who have been admitted to the Ph.D. degree program in sociology, and who wish to develop an interdisciplinary program, should review the guidelines set forth by the Graduate School. The Dean of the Graduate School approves interdisciplinary Ph.D. degree programs only when they bear the endorsement

of a department that offers a Ph.D. degree program. A student who wishes to apply for an interdisciplinary program, in which sociology will be the sponsoring department, should understand that the program of study must include substantial involvement in sociology courses and seminars, and that the department may require the student to meet other requirements similar to those established for the Ph.D. degree program in sociology.

Certificate in Women, Gender and Sexuality Studies

A student interested in a certificate in Women, Gender and Sexuality Studies (WGSS) should contact the WGSS coordinator and/or cross-listed Sociology faculty for the required courses and guidelines. The Department encourages sociology of gender/sexuality students to pursue the certificate and doing so works well within the doctoral program, especially if one course is taken during the M.A. program.

See also:

https://cola.siu.edu/wgss/_common/documents/graduate-certificate-worksheet.pdf

M.A. and Ph.D. students who wish to incorporate the certificate requirements into their program of study may do so.

Note: ONE of the courses required for the certificate must be a sociology course.

Sociology Courses

SOC406 - Social Change 406-3 Social Change. Theories and problems of social change; their application, with emphasis on the modern industrial period.

SOC407 - Sociology of Sexuality 407-3 Sociology of Sexuality. (Same as WGSS 407) Examines a range of social issues related to human sexuality and the interaction between sexuality and other social processes. Emphasis is on the relevant concepts, theories, and methods in the field of sexual studies, the social and historical construction of sexuality and the ways in which social characteristics shape sexual behaviors and desires, sexual variation, including its causes and consequences, how basic social institutions affect the rules governing sexuality, the major moral and political controversies that surround sexuality, and the "dark side" of sexual life.

SOC415 - Logic of the Social Sciences 415-3 Logic of the Social Sciences. (Same as PHIL 415) An examination of the theoretical structure and nature of the social sciences and their epistemological foundations. The relationship of social theory to social criticism; theory and praxis. Historical experience and social objectivity. Social theory as practical knowledge.

SOC423 - Sociology of Gender 423-3 Sociology of Gender. (Same as WGSS 442) Examines social science theory and research on gender issues and contemporary roles of men and women. The impact of gender on social life is examined on the micro level, in work and family roles, in social institutions, and at the global, cross-cultural level.

SOC424 - Social Movements 424-3 Social Movements and Collective Behavior. An analysis of social behavior in non-institutional settings such as crowds, disasters, riots, mass panics, crazes, cults, and social movements. Emphasis is on the cultural and structural factors leading to collective action and its impact on social change.

SOC435 - Social Inequality 435-3 Social Inequality. Discussion of theories and evidence pertaining to the socio-structural causes and consequences of inequality based on social class, prestige, power, gender, wealth and income.

SOC437 - Socio Globalztn & Developmnt 437-3 Sociology of Globalization and Development. Survey of sociological theories and research on globalization and development: modernization, dependency, world-system, and global economy. Problem areas include population growth and control, economic growth and underdevelopment, role of state, transnational corporations, financial institutions, and organizations, non-

governmental organizations, work, population, migration, social movements and resistance, gender, race-ethnic, class, and sexuality issues.

SOC438 - Soc of Ethnic Relations 438-3 Sociology of Ethnic Relations in World Perspective. Examines theories, concepts and research on the structure of ethnic relations and ethnic problems in contemporary societies in major world regions. Assimilationist, pluralist, secessionist, and militant types of ethnic and racial group relations are covered in selected societies. Designed for students with advanced interest in comparative ethnic relations. Prerequisite: SOC 215 is recommended.

SOC455 - Racial Inequality 455-3 Racial Inequality. This course is an introductory survey on the sociology of Racial Inequality. As such, the basic objective of this course is to give students a broad understanding of race and inequality issues in society. This course will require students to become familiar with the critical frameworks and concepts through which social scientists make sense of racial inequality; to come to terms with the ideological, political, and economic mechanisms that perpetuate racist structures; to study the past and present historical contexts within which racial inequality is given shape; and to explore potential venues for change.

SOC460 - Sociology of Medicine 460-3 Sociology of Medicine. Analyzes the social structures and issues involved in health, illness, and health-care delivery systems in the United States. Explores the economic and political influences on the role of medicine in society, as well as the organization of medical care and health institutions. Critically examines the social processes and factors that influence health and illness behavior.

SOC461 - Women, Crime and Justice 461-3 Women, Crime and Justice. (Same as CCJ 460 and WGSS 476) A study of women as offenders, as victims, and as workers in the criminal justice system.

SOC462 - Victims of Crime 462-3 Victims of Crime. (Same as CCJ 462) An examination of the extent and nature of victimization, theories about the causes of victimization, the effects of crime on victims and services available to deal with those effects, victims' experiences in the criminal justice system, the victims' rights movement, and alternative ways of defining and responding to victimization.

SOC465 - Sociology of Aging 465-3 Sociology of Aging. The adult life cycle from a sociological perspective, with emphasis on the later stages of adulthood. Special topics on aging include demographic aspects, family interaction, ethnicity, and cross-cultural trends.

SOC471 - Intro to Social Demography 471-3 Introduction to Social Demography. Survey of concepts, theories, and techniques of population analysis; contemporary trends and patterns in composition, growth, fertility, mortality, and migration. Emphasis is on relationship between population and social, economic, and political factors.

SOC473 - Juvenile Delinquency 473-3 Juvenile Delinquency. (Same as CCJ 473) An in-depth study of theories of delinquency, analytical skills useful in studying delinquent offenders, systematic assessment of efforts at prevention, and control and rehabilitation in light of theoretical perspectives. Six hours of social/behavioral science recommended.

SOC475 - Political Sociology 475-3 Political Sociology. (Same as POLS 419) An examination of the social bases of power and politics, including attention to global and societal political relations, as well as individual-level political beliefs and commitments; primary focus on American politics.

SOC476 - Religion and Politics 476-3 Religion and Politics. (Same as POLS 476) Examines the connection between religious beliefs and institutions and political beliefs and institutions. Comparative studies will focus on religious political movements in the United States and throughout the world.

SOC490 - Special Topics in Sociology 490-3 Special Topics in Sociology. Varying advanced sociological topics selected by the instructor for study in depth. May be repeated for a maximum of twelve semester hours provided registrations cover different topics. Topics announced in advance.

SOC501 - Classic Sociology Theory 501-3 Classical Sociological Theory. A systematic survey of sociological theory with the focus on 19th and early 20th-century sociological thought. An in-depth examination of a selected number of thinkers whose work laid the foundation for major schools of

contemporary sociology. Students are expected to be familiar with the fundamentals of sociological analysis.

SOC502 - Contemporary Sociology Theory 502-3 Contemporary Sociological Theory. A survey of major 20th-century theoretical orientations in sociology with emphasis on their differing modes of conceptualization and alternative research programs. Students are expected to be familiar with the classics of sociological thought.

SOC506 - Sem-Contemp Soc Theory 506-3 Seminar on Contemporary Sociological Theory. Recent trends in sociological theory; current approaches to the construction and application of theoretical models and their relations to empirical research. Prerequisite: SOC 501 or consent of instructor.

SOC507 - Sociology of Sexuality 507-3 Seminar in the Sociology of Sexuality. (Same as WGSS 507) Examines the emerging body of work in the fast-growing field of sexuality studies. While the course focuses on sociological research, it takes a few side trips into other disciplines. We begin by discussing the evolution of theory and methodology in the sexual sciences. After briefly considering the contributions of early sexologists and the work of Sigmund Freud, we will survey the sociology of sexuality from its beginnings in quantitative research, through classical sociological theory, social constructionism, and feminism. We'll then examine Foucault's radical rethinking of sexuality and grapple with the challenges of queer theory. The second part of the course will take up several substantive areas in the sociology of sexuality, drawing on cutting edge quantitative and qualitative research.

SOC512 - Research Methods 512-4 Sociological Research Methods and Design. Focus on research process: identification of the role of theory, formulation of research questions, research design and quantitative, qualitative, and mixed method data collection techniques. Connections between theory, research design and measurement decisions, and interpretation (answering research questions) are emphasized throughout. Includes practical and ethical issues, e.g. informed consent.

SOC514 - Qualitative Methodology 514-4 Qualitative Methodology. Focus on research strategies involving the systematic exploration, documentation and analytic description of social settings, interactions, meanings, lifeworlds and texts. Includes discussion of field observation, depth interviewing, oral histories/narratives, case studies, biographies and life histories, focus group interviewing, content analysis of written and visual data, historical/archival investigations, among other approaches.

SOC518 - Teaching Sociology 518-3 Teaching Sociology. Emphasis is on the development of teaching skills and pedagogical knowledge for instructors in sociology.

SOC521 - Seminar: Social Psychology 521-3 Seminar in Social Psychology. In depth examination of specific theoretical systems or substantive problems in social psychology. Students wishing specific information on the topic of the seminar should consult with the instructor for more detail.

SOC526A - Statistical Data Analysis I 526A-4 Statistical Data Analysis in Sociology I. Provides a foundation in univariate and bivariate descriptive statistics, inferential statistics including hypothesis testing about population parameters and bivariate and multivariate relationships, and measures of association for nominal, ordinal, and interval-ratio variables, and an introduction to bivariate and multivariate correlation and linear regression (including concepts of causal modeling and control variables). Restricted to graduate standing.

SOC526B - Statistical Data Analysis II 526B-4 Statistical Data Analysis in Sociology II. Provides in-depth instruction in multiple regression including assumptions of linear model, diagnostics and corrections for violation, exploratory factor analysis, using categorical dependent variables (logistic and multi-nominal regression), nonlinear relationships, interactions, and extensions to advanced techniques as time allows. Prerequisite: SOC 526A (or successful pass of proficiency test).

SOC530 - Topical Seminar in Soc 530-2 to 12 (2 to 4 per topic) Topical Seminar in Sociology. Content varies with interests of instructor and students. Special approval needed from the instructor.

SOC533 - Sem-Soc Stratification 533-3 Seminar in Social Stratification. Comparative study of power, social class, and status; conceptions of social structure and measurement techniques; explanations of social and occupational mobility; institutions and differential life changes.

SOC534 - Sem Global & Soc Change 534-3 Seminar in Globalization and Social Change. Overview of prevailing theories, research, methods, and analysis in globalization and social change. These include socio-economic changes in capitalism and development, emergence of global social change agents: transnational corporations, financial institutions, and organizations, nongovernmental organizations; informalization of work, population, migration, social and revolutionary movements, gender, race-ethnic, class, and sexuality.

SOC539 - Sem-Complex Organizations 539-3 Seminar in Complex Organizations. Overview of theories, research, and prevailing issues of complex organizations. These will include the power structure of the business community, emergence and structure of the bureaucratic organization, bases of authority, systems of formal and informal relations, unanticipated consequences of organizational structure, labor relations, total institutions and social movements as organizations.

SOC542 - Seminar on the Family 542-3 Seminar on the Family. Overview of the theoretical approaches, substantive issues, and techniques of research and measurement in the study of American family life. Approaches include structural functionalism, conflict theory, and the feminist critique. Among the substantive topics are family roles and relationships, kinship, relationships of the family to other institutions and family change.

SOC543 - Sem-Comparative Family Systems 543-3 Seminar on Comparative Family Systems. Analysis of cross cultural and historical variation in family structure. Methods and sources of information for research on family structure.

SOC544 - Sociology of Gender 544-3 Sociology of Gender. (Same as WGSS 544) Examines major theories, themes, and research methods on the intersection of gender, race, class, and sexuality. Topics may include: construction of gender, race, class and sexual identities; work; social movements; intersection of family and work; parenting and reproduction; historical and cross-national dimensions.

SOC545 - Gender and Work 545-3 Gender and Work. (Same as WGSS 545) This course is designed to investigate how gender structures the workplace, as well as how men and women both reproduce and negotiate gender at work. Focusing on select topics, we will develop an understanding of workplaces as gendered organizations and discuss sex segregation, wage inequality, the glass ceiling, the glass escalator, sex work, men and women in nontraditional occupations, the body at work, emotional labor, aesthetic labor, immigration and work, globalization, and unemployment and welfare. Also, this class will take an intersectional approach to analyzing and discussing issues of gender inequality at work; meaning, we will take seriously how gender intersects with race, ethnicity, class, and sexuality to shape both inequality and resistance at work.

SOC547 - Gender and Social Change 547-3 Gender and Social Change. (Same as WGSS 547) This graduate seminar is a sociology of gender course that focuses on changes in the subfield itself and in peoples' lived experiences in terms of gender, gender relations, and gender stratification. Readings and discussions will trace the development of the sociology of gender over the last several decades. We will discuss how ideas and theories have changed over the years including changes in concepts and in how sociologists define, problematize, and theorize about sex and gender as traits, identities, relations, structures, and systems. We will also explore 'objective' or actual change (or lack of change) related to gender in individuals, groups, and societies.

SOC550 - Sem in Social Problems 550-3 Seminar in Social Problems. Theoretical perspectives and empirical findings on the emergence and evolution of social problems. Examination of institutional responses and formation of social policy.

SOC551 - Sociology of Religion 551-3 Sociology of Religion. Theoretical and empirical study of the origin, location and function of religious ideas and institutions in society.

SOC552 - Seminar: Race & Ethnic Rels 552-3 Seminar in Race and Ethnic Relations. Overview of theories, research and prevailing issues of race and ethnic relations in contemporary societies. Discussions will include world expansion during colonialism, political economy of minority groups, class and gender issues in the global development.

SOC555 - Social Movements/Coll Actn 555-3 Social Movements and Collective Action. A seminar designed to survey the major sociological approaches to social movements and collective action.

Emphasis will be on movement culture, social movement organizations and the social environment in which collective action occurs.

SOC557 - Revolutions 557-3 Revolutions and Radical Social Change. This course is designed to explore the ways in which revolutions have been theorized. It sets out to study Classical (Chinese, French, and Russian) and Modern (Cuban, Mexican, Iranian, and other Third World) historical cases, as well as contemporary popular uprisings. This course will require students to become familiar with the structural causes of revolution; the cultural and ideological roots of revolutionary mobilization; the emotional, gendered, and story-telling dimensions of revolution-making; and the relationship between globalization and more contemporary attempts at Radical Social Change.

SOC572 - Seminar in Criminology 572-3 Seminar in Criminology. A survey of classical and contemporary theoretical perspectives related to crime and justice.

SOC591 - Individual Research 591-1 to 4 Individual Research Supervised Research Projects. Open to graduate students with a major in sociology. Graded S/U only. Special approval needed from the instructor and departmental director of graduate studies.

SOC596 - Readings in Sociology 596-1 to 8 Readings in Sociology. Supervised readings in selected subjects. Graded S/U only. Special approval needed from the instructor and departmental director of graduate studies.

SOC600 - Dissertation 600-1 to 32 (1 to 16 per semester) Dissertation. Special approval needed from the chair.

SOC601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

SOC699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Sociology Faculty

Alix, Ernest K., Associate Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1966; 1967.

Barber, Kristen M., Assistant Professor, Ph.D., University of Southern California, LA, 2011; 2011. Qualitative methodology, sex and gender, occupations/professions.

Burger, Thomas, Associate Professor, *Emeritus*, Ph.D., Duke University, 1972; 1973. Theory, history of social thought, social stratification.

Calhoun, Thomas C., Professor, *Emeritus*, Ph.D., University of Kentucky, 1988; 2001.

Crowe, Jessica A., Associate Professor, Ph.D., Washington State University, 2008; 2013. Community development, environment, food security, social networks.

Danaher, William., Professor, Ph.D., Washington State University, 1994. Work, inequality, culture.

Hawkes, Roland K., Associate Professor, *Emeritus*, Ph.D., Johns Hopkins University, 1967; 1970.

Hendrix, Lewellyn, Professor, *Emeritus*, Ph.D., Princeton University, 1974; 1971.

Hope, Keith, Professor, *Emeritus*, Ph.D., London University, 1963; 1986.

Nall, Frank C., II, Associate Professor, *Emeritus*, Ph.D., Michigan State University, 1959; 1964.

Reed, Jean-Pierre, Associate Professor, Ph.D., University of California-Santa Barbara, 2000; 2009. Cultural sociology, race relations, social movements, revolutions and change, theory.

Shelby, Lon R., Professor, *Emeritus*, Ph.D., University of North Carolina, 1962; 1969.

Sherkat, Darren E., Professor, Ph.D., Duke University, 1991; 2001. Religion, social movements, quantitative methods.

Ward, Kathryn B., Professor, *Emeritus*, Ph.D., University of Iowa, 1982; 1982.

Whaley, Rachel B., Associate Professor, Ph.D., University of Albany, SUNY, 1999; 2006. Gender, Criminology, and quantitative methods.

Wienke, Chris., Associate Professor, Ph.D., University of Pittsburg, 2003; 2008. Family, sexuality, gender, mental health, and social inequality.

Special Education

The School of Education offers programs leading to a Graduate Certificate in Special Education, Master's Degree in Education in Special Education, and a Doctor of Philosophy in Education with a Concentration in Special Education.

Graduate Certificate in Special Education

The faculty, staff and students in the special education program are committed to making a positive difference in the lives of their students with disabilities and their families by increasing their success in school, work, community, and living environments. The graduate certificate plan of study in special education is designed to enhance the applicant's experience and expertise through academic study, research, and clinical opportunities. Program completers with a current Professional Education License (PEL) in Illinois will be eligible for the Illinois State Board of Education endorsement for the Learning Behavior Specialist I (LBS I) in:

- K–Grade 3 (for educators who already hold an early childhood self-contained general education endorsement)
- Grade 1–6 (for educators who already hold an elementary education endorsement)
- Grade 6–12 (for educators who already hold a secondary education endorsement)

The LBS I endorsement also requires a passing score on the LBS I (155) test.

Applicants for the Graduate Certificate in Special Education must meet the criteria for admission to the Graduate School. In addition, candidates must submit a department application form, a letter of application, all undergraduate and graduate transcripts, and two letters of reference to the department.

The Special Education Graduate committee will evaluate the application materials and make appropriate recommendations for acceptance or rejection of admission to the program. It is the responsibility of the committee to exercise professional judgement related to the criteria that applicants must meet in order to be considered for admission to the program. Students will be informed in writing of the Special Education Graduate Committee's decision.

Graduate Certificate Program Admission Criteria

Admission to the Graduate Certificate Program in Special Education will be based upon the following criteria:

1. A baccalaureate degree in elementary education, secondary education or a related field such as social work or psychology.
2. Current Professional Education License (PEL) with endorsement in a teaching area in the state of Illinois.
3. Undergraduate grade point of 2.75 or higher on a 4.0 scale.
4. A minimum of two letters of recommendation, which on the whole, clearly attest to the professional dispositions of a special education professional as articulated in the CEC Code of Ethics and Standards for Professional Practice, and predict academic success at the graduate level.

5. A letter of application (approximately 400 words) in which the applicant summarizes his/her professional goals, career objectives, research interests, motivation for graduate work and other pertinent information.
6. Departmental application form.

All application requirements must be completed before consideration of an applicant for admission. The Graduate Committee evaluates the credentials of each applicant. When an application file is complete, it will be referred to the Graduate Committee to review at their next scheduled meeting.

Students may be required to complete an interview with the Special Education faculty.

Program Requirements

Coursework*

- SPED 411 Assessment in Special Education (3 credits)
- SPED 417 Behavior Management for Children and Youth with Disabilities (3 credits)
- SPED 418 Methods and Materials for Teaching a Functional Curriculum (3 credits)
- SPED 419 Academic Methods and Materials for Student with Disabilities (3 credits)
- SPED 420 Advanced Theories and Practices in Special Education (3 credits)
- SPED 423 General Procedures in Special Education (3 credits)
- ELECTIVE (Based on the applicant's current PEL restrictions) (3 credits)

Total credits: 21 hours

*Up to 15 hours of coursework for the Graduate Certificate program may count toward the 30-credit-hour requirement for completing the Master's of Education in Special Education degree described below.

Retention Criteria

For a student to be retained in the Graduate Certificate program, students must complete all coursework with a minimum grade of *B* and demonstrate acceptable professional behaviors which the faculty deem essential for competent and effective educators, and which are articulated in the Council for Exceptional Children (CEC) Code of Ethics and Standards for Professional Practice for Special Educators.

Application Procedures

Applicants must submit all of the following items to be considered for admission to the Graduate Certificate program in Special Education:

1. **Graduate School Application.**
2. **Official Transcripts.** Official transcripts of all previous undergraduate and graduate college work at institutions other than SIU should be sent directly to the Graduate Secretary, Department of Counseling, Quantitative Methods, and Special Education, Southern Illinois University at Carbondale, IL 62901-4618.
3. **Department Application Form.** This form includes pertinent biographical information and professional experience.
4. **Letter of Application** (approximately 400 words) in which the applicant summarizes professional goals, including career objectives, research interests, motivation for graduate work, and other pertinent information.
5. **Copy of All Professional licensures or certificates.**
6. **Letters of Recommendation.** Applicants must submit at least two letters of reference which attest to your professional competence, academic preparation, and potential for graduate work. Ideally one letter should be from a college or university professor who can discuss your academic abilities, and one should be from an administrator or colleague who can authoritatively describe your professional experience and potential.

Master of Science in Education in Special Education degree (with LBS-I Endorsement)

***Enrollments in Education in Special Education (M.S., Ph.D.) have been suspended indefinitely.**

Applicants for the Master of Science in Education in special education degree must meet the criteria for admission to the Graduate School. In addition, candidates must submit a department application form, a letter of application, all undergraduate and graduate transcripts, and two letters of reference to the department. The Special Education Graduate Committee will evaluate the application materials and make appropriate recommendations for acceptance or rejection of admission to the program. It is the responsibility of the committee to exercise professional judgment related to the criteria that applicants must meet in order to be considered for admission to the program. Students will be informed in writing of the Special Education Graduate Committee's decision. Upon admission to the program, the student will be assigned an adviser with whom he/she will design a Graduate Degree Plan.

Master's Program Admission Criteria

Admission to the Masters Program in Special Education will be based upon the following criteria:

1. A baccalaureate degree in elementary education, secondary education or a related field such as social work or psychology.
2. Current Professional Education License (PEL) with endorsement in a teaching area in the state of Illinois.
3. Undergraduate grade point of 2.75 or higher on a 4.0 scale.
4. A minimum of two letters of recommendation, which on the whole, clearly attest to the professional dispositions of a special education professional as articulated in the CEC Code of Ethics and Standards for Professional Practice, and predict academic success at the graduate level.
5. A letter of application (approximately 400 words) in which the applicant summarizes his/her professional goals, career objectives, research interests, motivation for graduate work and other pertinent information.
6. Departmental application form.

All applications requirements must be completed before consideration of an applicant for admission. The Graduate Committee evaluates the credentials of each applicant. When an application file is complete, it will be referred to the Graduate Committee to review at their next scheduled meeting. Students may be required to complete an interview with the Special Education faculty.

Program Requirements

The Master of Science in Education degree in Special Education requires a minimum of 30 semester hours. Program requirements include the following courses:

Coursework

- SPED 411 Assessment in Special Education (3 credits)
- SPED 417 Behavior Management for Children and Youth with Disabilities (3 credits)
- SPED 418 Methods and Materials for Teaching a Functional Curriculum (3 credits)
- SPED 419 Academic Methods and Materials for Student with Disabilities (3 credits)
- SPED 420 Advanced Theories and Practices in Special Education (3 credits)
- SPED 423 General Procedures in Special Education (3 credits)
- ELECTIVE (Based on the applicant's current PEL restrictions) (3 credits)
- SPED 500 Research Issues in Special Education (3 credits)
- SPED 578 Legal Framework for Special Education (3 credits)
- SPED 591 Independent Investigation (3 credits)

Total credits: 30 hours

Master of Science in Education in Special Education degree (No LBS-I Endorsement)

***Enrollments in Education in Special Education (M.S., Ph.D.) have been suspended indefinitely.**

Applicants for the Master of Science in Education in special education degree who are not seeking the LBS-I endorsement must meet the criteria for admission to the Graduate School. In addition, candidates must submit a department application form, a letter of application, all undergraduate and graduate transcripts, and two letters of reference to the department. The Special Education Graduate Committee will evaluate the application materials and make appropriate recommendations for acceptance or rejection of admission to the program. It is the responsibility of the committee to exercise professional judgement related to the criteria that applicants must meet in order to be considered for admission to the program. Students will be informed in writing of the Special Education Graduate Committee's decision. Upon admission to the program, the student will be assigned an advisor with whom he/she will design a Graduate Degree Plan.

Master's Program Admission Criteria

Admission to the Masters Program in Special Education will be based upon the following criteria:

1. A baccalaureate degree in special education, elementary education, secondary education or a related field such as social work or psychology.
2. Undergraduate grade point of 2.75 or higher on a 4.0 scale.
3. A minimum of two letters of recommendation, which on the whole, clearly attest to the professional dispositions of a special education professional as articulated in the CEC Code of Ethics and Standards for Professional Practice, and predict academic success at the graduate level.
4. A letter of application (approximately 400 words) in which the applicant summarizes his/her professional goals, career objectives, research interests, motivation for graduate work and other pertinent information.
5. Departmental application form.

All application requirements must be complete before consideration of an applicant for admission. The Graduate Committee evaluates the credentials of each applicant. When an application file is complete, it will be referred to the Graduate Committee to review at their next scheduled meeting. Students may be required to complete an interview with the Special Education faculty.

Program Requirements

The Master of Science in Education degree in Special Education requires a minimum of 30 semester hours. Program requirements include the following courses:

Core Coursework

- SPED 500 Research Issues in Special Education (3 credits)
- SPED 515 Collaboration-Based Delivery Systems in Special Education (3 credits)
- SPED 550 Behavior Management of Exceptional Children and Youth (3 credits)
- SPED 578 Legal Framework for Special Education (3 credits)
- ELECTIVE (3 credits)
- ELECTIVE (3 credits)
- ELECTIVE (3 credits)
- SPED 591 Independent Investigation (3 credits)

Total credits: 30 hours

Doctor of Philosophy in Education

***Enrollments in Education in Special Education (M.S., Ph.D.) have been suspended indefinitely.**

The Department of Counseling, Quantitative Methods, and Special Education offers a program leading to a Doctor of Philosophy degree with a Major in Education and Concentration in Special Education. See the description of the Ph.D. degree major in education.

Special Education Courses

SPED405 - Early Childhood Sped Methods 405-3 Introduction to Early Childhood Special Education Methods: Infants, Toddlers, and Preschoolers with Special Needs. This course focuses on effective methods, materials and programs for infants, toddlers, and preschoolers with special needs, including IEPs, IFSPs, working with families, service delivery, case-management, transition planning, and curriculum methods and procedures. Prerequisite: SPED 412 or consent of instructor.

SPED408 - C&M Teach Exceptional Child 408-3 Characteristics and Methods for Teaching Exceptional Children. (Same as EDUC 308) For pre-service teachers who serve children and youth with disabilities. The course focuses on essential disability characteristics, data-based decision-making, scientifically-based academic and behavioral interventions and strategies to differentiate instruction and accommodate learners with disabilities in general education classrooms.

SPED409 - Cross-Cultural Studies 409-1 to 6 Cross-Cultural Studies. Seminar and/or directed independent study concerned with socio-cultural variables affecting the educational needs of children and youth with a disability. Prerequisite: SPED 300 or consent of instructor and department chair.

SPED410 - Inst Plan Student-Disabilities 410-3 Instructional Planning for Students with Disabilities. This course presents the learning characteristics of children and youth with learning disabilities, emotional/behavior disorders, intellectual disabilities and autism spectrum disorders. Instructional planning, classroom management and integration of related services will be examined. Prerequisite: SPED 300 or 420 or concurrent enrollment.

SPED411 - Assessment in Special Ed 411-3 Assessment in Special Education. Course covers general assessment information, norm reference testing, curriculum based assessment, adaptive behavior scales and issues relating to cultural diversity. Prerequisite: SPED 300 or 420, 410, or concurrent enrollment. Laboratory fee: \$15.

SPED412 - Intro Assessment: E.C.S.E 412-3 Introduction to Assessment and Curriculum Methods in Early Childhood Special Education. This course presents an introduction to child and family assessment and the development of child and family goals in Early Childhood Special Education. Topics will include types of assessment commonly used, rationale for assessment, methods of assessment, reporting assessment results, writing child and family goals. A fee for testing materials is required. Prerequisite: SPED 300/420 or concurrent enrollment or consent of instructor. Fee: \$15.

SPED417 - Behvr Mgmt: Child/Youth Disabs 417-3 Behavior Management for Children and Youth with Disabilities. This course focuses on the implementation of behavior management strategies and tactics to be used with students with disabilities in a variety of educational environments. Prerequisite: SPED 300 or 420, 410, 411, 423, and must be admitted to the TEP as a special education major, or consent of instructor.

SPED418 - Methods Teach Functnl Curr 418-3 Methods and Materials for Teaching a Functional Curriculum. This course covers the principles of curriculum construction, program development and evaluation, classroom organization, instructional approaches, strategies and materials for teaching a functional curriculum. Prerequisite: SPED 300 or 420, 410, and 423, and must be admitted to the TEP as a special education major, or consent of instructor.

SPED419 - Academic Methods 419-3 Academic Methods and Materials for Student with Disabilities. This course covers the academic methods, materials and strategies used with students with disabilities receiving special education services in school and community settings. Prerequisite: SPED 300 or 420, 410, 411, 423 and must be admitted to the Teacher Education Program as a special education major.

SPED420 - Advanced Theories & Practices 420-3 Advanced Theories and Practices in Special Education. The course is an advanced survey of exceptional populations and addresses educational,

social, legal, cultural and community practices associated with individuals with disabilities, ages 0 - 21 years old.

SPED423 - General Procedures Special Ed 423-3 General Procedures in Special Education. Presents key provisions of Public Law 94-142 and subsequent amendments, including Individualized Education Programs (IEPs). Course content also includes principles of applied behavior analysis and effective instruction of students with disabilities. Prerequisite: SPED 300 or 420, 410, 411 or concurrent enrollment.

SPED425 - Home-School Coordination SPED 425-3 Home-School Coordination in Special Education. The course covers techniques used in parent interviews, conferences and referrals by school personnel; due process and procedural safeguards for parents and youth with disabilities. Prerequisite: SPED 300 or 420, 410, 411, 423 with grades of C or better or concurrent enrollment.

SPED430 - Secondary Programming 430-3 Secondary Programming for Students with Disabilities. Deals with modifications of and additions to school programs to ensure that they are appropriate to the needs of adolescents with disabilities. Content includes coverage of remedial and compensatory program models, transition programming, career and vocational education. Prerequisite: SPED 300 or 420, 410, 411, 423 with grades of C or better or concurrent enrollment.

SPED431 - Work Study Adol Severely Disbld 431-3 Work-Study Programs for Adolescents Labeled Severely Disabled. This course is designed to prepare educators and other human service professionals to assist adolescents and young adults with severe disabilities for community integrated employment options. Content will include community-referenced curriculum objectives, community-based instruction for employment and functional skill development.

SPED494A - Practicum in SPED-Assessment 494A-1 Practicum in Special Education-Assessment. This course includes clinical experiences in public school and community settings in the selection, administration and interpretation of norm-referenced and curriculum-based assessments, adaptive behavior scales, behavior rating scales and checklists and issues relating to cultural diversity. Prerequisite: SPED 300 or 420 and 410 with grades of C or better.

SPED494B - Practicum-Functional Curriculum 494B-1 Practicum in Special Education-Functional Curriculum. This course includes clinical experiences in public school and community settings in planning, implementing and instructing a functional curriculum. Prerequisite: SPED 300 or 420, 410, 411, 423 and must be admitted to Teacher Education Program.

SPED495 - Internship-Special Education 495-1 to 6 Internship in Special Education. An applied experience for students seeking certification in special education through alternative or subsequent certificate routes. Students will be required to complete a set of activities and prepare a number of products appropriate for the special education program and/or students with disabilities being served in the internship placement. Students will be expected to complete a portfolio of products to demonstrate professional competence. Special approval needed from the Program Coordinator.

SPED500 - Res Issues in Special Educ 500-3 Research Issues in Special Education. Students will study issues and research practices in special education and will learn how they both conduct research, translate research findings and develop practices in special education based on research outcomes. Special approval needed from the instructor.

SPED501 - Methods: Severe Behv 501-3 Methods and Materials for Persons with Severe Behavior Challenges. Deals with methods, materials and instructional management practices common to the instruction and management of student experiencing severe behavioral challenges in the schools and in residential settings.

SPED505 - Organize Implement EC SPED 505-3 Organizing and Implementing Early Childhood Special Education Programs. This course presents theoretical frameworks and current best practices involved in the development, implementation and evaluation of Early Childhood Special Education programs. Content will include discussion of models of teaming, ethical issues, interagency coordination, transition, mentoring and supervision. Prerequisite: SPED 300 or SPED 420, SPED 412 and SPED 405.

SPED511A - Adv Inst Design & Mthds 511A-3 Advanced Instructional Design and Methodology for Students with Disabilities. Advanced study of evidence-based practices related to the development

and delivery of effective educational programs for students with mild disabilities. Emphases will include instructional design, instructional strategies and techniques, include the use of technology to meet educational needs of students with mild disabilities.

SPED511B - Curr Inst Remed Lrn Disblties 511B-3 Curriculum for Instructional Remediation of Learners with Disabilities. Advanced study of curriculum and curricular approaches to meeting the educational needs of students with mild disabilities in special education and general education classrooms. Emphasis include academic and functional curriculum for basic skills and content areas, direct instruction and curriculum modifications and adaptations.

SPED512 - Advanced ECSE 512-3 Advanced Child and Family Assessment, Curriculum Methods and Evaluation in Early Childhood Special Education. This course presents advanced coursework and practical experiences in child and family assessment, selection of curricula, and evaluation in Early Childhood Special Education. Students will review current assessment and curriculum packages, conduct evaluations and write assessment reports. Practical experience will be an integral part of this course. Prerequisites: SPED 300 or 420, 405 and 412.

SPED513 - Organz, Admintrn & Superv 513-3 Organization, Administration, and Supervision in Special Education. Emphasis upon the functions, underlying principles and cautions to be observed in the organization and administration of special education. The selecting and training of teachers, problems of supervision, special equipment, transportation, cooperating agencies and legal aspects of the problem. Prerequisite: SPED 300 or SPED 420. Special approval needed from program coordinator.

SPED514 - Sim Admin Tasks in SPED 514-3 Simulation of Administrative Tasks in Special Education. Development of skills required of special education administrators and supervisors through the use of simulation materials focusing on developing administrative skills. Prerequisite: SPED 300 or 420. Special approval needed from program coordinator.

SPED515 - Collab-Based Delivery Systems 515-3 Collaboration-Based Delivery Systems in Special Education. Designed to provide students with a thorough knowledge and skill base in the collaboration process including problem-solving processes, communication skills and conflict resolution skills. Collaboration-based approaches will be examined as alternative systems and methods of meeting the educational needs of students with disabilities within a continuum of special education services.

SPED516 - Adv Assess Diverse Learners 516-3 Advanced Assessment for Diverse Learners. Develop practitioner's knowledge and skills to develop and implement standardized and informal assessment systems to guide program planning and instructional decision-making for students with disabilities in regular and special education programs. Furthermore, practitioners will identify, utilize, and implement modifications and accommodations to facilitate students' performance on informal and standardized assessment tools. Prerequisite: SPED 411 or consent of instructor.

SPED517 - System Care Exc Chld Yth 517-3 Systems of Care for Exceptional Children and Youth. Survey and examination of social agencies and models of service delivery contributing to the welfare and care of exceptional children and youth. Emphasis will be given to models, services, and organization of system of care serving youth with disabilities.

SPED550 - Behave Mgt Except Child Youth 550-3 Behavior Management of Exceptional Children and Youth. This course deals with assessment, implementation, and monitoring procedures involved with the use of behavior change techniques in special education programming. Emphasis will be placed on the actual implementation of behavior change techniques with school aged students with disabilities. Special approval needed from the instructor.

SPED578 - Legal Framework Services 578-3 Legal Framework for Special Education Services. Covers state and federal statutes and regulations including IDEA, Section 504: The Rehabilitation Act of 1973, and No Child Left Behind Act, as well as current legislation and litigation with respect to provision of educational services for children and youth/young adults with disabilities. Prerequisite: SPED 300 or SPED 420, or consent of instructor.

SPED580 - Master Sem-Issues & Trends 580-3 Master's Seminar: Issues and Trends in Special Education. Analysis of research, trends, and programs in the education of children with disabilities. Open to graduate students in special education or related field. Prerequisite: SPED 300 or 420.

SPED582 - P M Sem-Theory & Models 582-3 Post-Master's Seminar: Theories and Models in Special Education. Critical discussion of eight major intervention models used historically and currently with handicapped children in educational settings. Special approval needed from the instructor.

SPED583 - P M Sem-Prog Coordination 583-3 Post-Master's Seminar: Program Coordination in Special Education. Analysis of organizational principles and practices required for the creation and maintenance of programs to meet the needs of persons who are handicapped and require specialized educational programs within the school setting. Special approval needed from the instructor.

SPED584 - Issues in Int'l Special Educ 584-3 Issues in International Special Education. This course is designed to examine major aspects of disability theory and issues in international special and inclusive education. It provides current knowledge on disability models, as well as on special education systems world-wide; it examines historical patterns, the international human rights law and country legislation, cultural issues and intervention practices related to special education; it reviews major concepts, issues and debates in the international field of special education.

SPED585 - Doctoral Sem-Evaluation 585-3 Doctoral Seminar: Evaluation in Special Education. An analysis of the purposes, approaches, design, methodology and applications of evaluative studies in special education. Prerequisite: SPED 582, SPED 583.

SPED586 - Proseminar in Special Educ 586-1 to 4 (1,1,1,1) Proseminar in Special Education. A topical seminar providing for the systematic discussion of current research in the field of special education. Specific content is determined by participating faculty and students, relative to current faculty research and dissertations in progress within the department. Doctoral students will register for a total of four credit hours, one per semester, after which they will audit the course during the pursuit of their dissertation. Master's students admitted with special approval from the adviser and department chair.

SPED590 - Readings in SPED 590-1 to 6 Readings in Special Education. Study of a highly specific problem area in the education of exceptional children. Open only to graduate students. Graded S/U only. Prerequisite: SPED 300 or 420. Special approval needed from the instructor.

SPED591 - Independent Investigation 591-1 to 6 Independent Investigation. A field study for graduate students. Conducted in a school system where full cooperation is extended. The study will involve selection of a problem, surveying pertinent literature, development of experimental design and procedures, recording results and appropriate interpretations and summaries. Special approval needed from the instructor.

SPED594A - Practicum SPED Behav Intervntn 594A-1 to 6 Practicum in Special Education-Behavior Interventions. A capstone field-based experience for special educators seeking advanced preparation in the field of special education. Student will select the appropriate practicum experience as appropriate for his/her program of study or Learning Behavior Specialist II certification.

SPED594B - Practicum SPED Curr Adaptation 594B-1 to 6 Practicum in Special Education-Curriculum Adaptation. A capstone field-based experience for special educators seeking advanced preparation in the field of special education. Student will select the appropriate practicum experience as appropriate for his/her program of study or Learning Behavior Specialist II certification.

SPED594D - Practicum SPED-Early Child 594D-1 to 6 Practicum in Special Education-Early Childhood Special Education. A capstone field-based experience for special educators seeking advanced preparation in the field of special education. Student will select the appropriate practicum experience as appropriate for his/her program of study or Learning Behavior Specialist II certification.

SPED594E - Practicum SPED-Supervision 594E-1 to 6 Practicum in Special Education-Supervision. A capstone field-based experience for special educators seeking advanced preparation in the field of special education. Student will select the appropriate practicum experience as appropriate for his/her program of study or Learning Behavior Specialist II certification.

SPED595A - Intern-Res & Applied Studies 595A-1 to 12 (1 to 6) Internship-Research and Applied Studies. The doctoral internship is a required experience. Internship hours do not apply to minimum needed for graduation. Each student shall engage in specialized service areas within a school system, university, state office, federal office, or private agency. Interns will participate in regularly scheduled on-campus or on-site seminars with the university and field internship supervisors.

SPED595B - Internship-Evaluation 595B-1 to 12 (1 to 6) Internship-Evaluation. The doctoral internship is a required experience. Internship hours do not apply to minimum needed for graduation. Each student shall engage in specialized service areas within a school system, university, state office, federal office, or private agency. Interns will participate in regularly scheduled on-campus or on-site seminars with the university and field internship supervisors.

SPED595C - Internship-Administration 595C-1 to 12 (1 to 6) Internship-Administration. The doctoral internship is a required experience. Internship hours do not apply to minimum needed for graduation. Each student shall engage in specialized service areas within a school system, university, state office, federal office, or private agency. Interns will participate in regularly scheduled on-campus or on-site seminars with the university and field internship supervisors.

SPED595D - Internship-Univ Teaching 595D-1 to 12 (1 to 6) Internship-University Teaching. The doctoral internship is a required experience. Internship hours do not apply to minimum needed for graduation. Each student shall engage in specialized service areas within a school system, university, state office, federal office, or private agency. Interns will participate in regularly scheduled on-campus or on-site seminars with the university and field internship supervisors.

SPED595E - Intern-Prog Plan & Mgt 595E-1 to 12 (1 to 6) Internship-Program Planning and Management. The doctoral internship is a required experience. Internship hours do not apply to minimum needed for graduation. Each student shall engage in specialized service areas within a school system, university, state office, federal office, or private agency. Interns will participate in regularly scheduled on-campus or on-site seminars with the university and field internship supervisors.

SPED595F - Internship-Supervision 595F-1 to 12 (1 to 6) Internship-Supervision. The doctoral internship is a required experience. Internship hours do not apply to minimum needed for graduation. Each student shall engage in specialized service areas within a school system, university, state office, federal office, or private agency. Interns will participate in regularly scheduled on-campus or on-site seminars with the university and field internship supervisors.

SPED595G - Intern-Spec Delivery Systems 595G-1 to 12 (1 to 6) Internship-Specialized Delivery Systems. The doctoral internship is a required experience. Internship hours do not apply to minimum needed for graduation. Each student shall engage in specialized service areas within a school system, university, state office, federal office, or private agency. Interns will participate in regularly scheduled on-campus or on-site seminars with the university and field internship supervisors.

SPED599A - Thesis 599A-1 to 6 Thesis. Independent hours to be taken under the supervision of the student's Master's degree chair for the purpose of conducting and writing the Master's thesis. Graded S/U only. Special approval needed from the instructor.

SPED599B - Research Paper 599B-1 to 6 Research Paper. Independent hours to be taken under the supervision of the student's Master degree chair for the purpose of conducting and writing the Master's research paper. Graded S/U only. Special approval needed from the instructor.

SPED600 - Dissertation 600-1 to 32 (1 to 12 per semester) Dissertation. Special approval needed from the chair.

SPED601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

SPED699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Special Education Faculty

Anastasiou, Dimitris, Associate Professor, Ph.D., National and Kapodistrian University of Athens, 2004.

Bates, Paul, Professor, Ph.D., *Emeritus*, University of Wisconsin, 1978; 1978.

Bruns, Deborah A., Professor, Ph.D., University of Illinois Urbana Champaign, 2000; 2003.

Crowner, James, Professor, *Emeritus*, Ph.D., Michigan State University, 1960; 1966.

Juul, Kristen, Professor, *Emeritus*, Ph.D., Wayne State University, 1953; 1970.

Miller, Sidney, Professor, *Emeritus*, Ph.D., Pennsylvania State University, 1974; 1978.

Mundschenk, Nancy A., Associate Professor, Ph.D., University of Iowa, 1992; 1992.

Strategic Analytics

The Master of Science in Strategic Analytics is a comprehensive program that prepares students for management and executive careers that use data-based decision making. This program applies leading-edge analytics techniques and artificial intelligence to solve business problems.

Students must complete 15 hours of coursework in core business courses including Managerial Accounting and Control Concepts, Financial Management, Managerial and Organizational Behavior, Marketing Management, and Database Design and Applications, 18 hours in core analytics courses including Strategic Data Mining, Foundations of Analytics for Managers, Data Science and Analytics for Managers, Advanced Analytics and Artificial Intelligence for Managers, Advanced Analytics and Visualization for Managers, Analytics Capstone, and three hours of a discipline-specific course in analytics.

Supply Chain Management and Engineering

Master of Science in Supply Chain Management and Engineering

The Master of Science in Supply Chain Management and Engineering Program is an online program oriented toward developing the technical and managerial knowledge of current and future supply chain professionals. The program emphasizes a holistic approach to designing and managing supply chains. The Program takes advantage of the resources and technology of the College of Business and the College of Engineering in a joint venture that produces graduates with technical skills that prepare them for supply chain leadership positions in industry and government.

Program Description

Collaborative supply networks are critical for purchasing, transferring, and distributing material in an increasingly global economy where outsourcing is an important strategic practice in today's firm. In addition, supply chain and logistics costs are a significant portion of operating expenses for today's production and service organizations. Consequently, organizations can seize a large opportunity to impact supply chains that take advantage of leading-edge technical developments in supply chain design, analytics and quality. The Master of Science in Supply Chain Management and Engineering's technical focus will allow uniquely qualified graduates to have immediate value in analyst, purchasing, operations, and consulting positions.

The College of Business and the College of Engineering offer state-of-the-art online programming. The faculty and staff in both colleges are uniquely positioned to deliver this curriculum, which will help today's engineers and managers gain a competitive advantage in today's employment market for supply chain and logistics managers. This online program has a focus on Supply Chain Management (Management) and Quality (Engineering) that is consistent with challenges and opportunities that managers will experience in organizations today.

Proposed Curriculum

The Master of Science in Supply Chain Management and Engineering Program requires 36 credit hours over four semesters, including a summer term. Semesters are divided into eight-week blocks. Students will take two three-credit courses the first eight-week block of each semester, and then take one three-credit course in the second eight-week block. The Program is delivered in an asynchronous online format.

Course Requirements

36 total semester hours (three hours/course) after satisfying the M.B.A. and Industrial Management and Applied Engineering foundation requirements with prerequisites.

Required Courses:

- BA 512 Supply Chain Cost Accounting
- BA 523 Innovation and Supply Chains
- BA 541 Analytic Methods for Supply Chain Management
- BA 544 Advanced Production Planning and Inventory Management
- BA 553 Supply Markets and Negotiation
- BA 565 Managing Supply Chain Information
- QEM 546 Project Management for Supply Chain Engineering
- QEM 560 Supply Chain Engineering
- QEM 562 Transportation and Logistics Systems
- QEM 564 Facilities and Location Planning
- QEM 583 Analysis of Statistical Quality Data
- QEM 585 Advanced Data Analysis & Design of Experiments

Admissions Requirements

Prospective degree candidates are expected to demonstrate a readiness for graduate study and an aptitude for successful performance in graduate level work. Admission to the program is based on the

applicant's undergraduate record, a satisfactory score on the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE), and other evidence pertaining to ability to perform well in graduate work. Special circumstances and work experience may be considered if presented.

More specifically, the applicant must:

1. Meet all admission requirements set forth by the Graduate School. These requirements are outlined elsewhere in the catalog.
2. Complete the Graduate Management Admission Test (GMAT) or Graduate Record Examination (GRE) and have the results of the test mailed directly to the Graduate Programs Office, College of Business. Information for the Graduate Management Admission Test (GMAT) can be found at: www.mba.com/. Information for the Graduate Record Examination (GRE) can be found at: ets.org/gre.

Academic Retention

In addition to the retention policies of the Graduate School, a student may earn no more than five hours of C or lower in graduate courses taken beyond the foundation requirements, or he/she will be suspended from the Master of Science in Supply Chain Management and Engineering program. A student who has three outstanding recorded grades of INC or DEF at the end of any semester or session, for any reason, will be deemed to be not making normal progress and will be placed on probationary status. If the student has three outstanding grades of INC or DEF remaining on record at the end of the next semester or session, the student will be suspended from the program. The definitions of INC and DEF may be found in the Graduate Catalog. A student who is to receive a grade of INC in a course is to meet with the instructor to work out a time and conditions for completion of the course within policy guidelines. Typically, a Notification of Incomplete Grade Agreement form is completed and the student is provided with a copy.

Supply Chain Management and Engineering Courses

Supply Chain Management and Engineering Faculty

College of Business Graduate Faculty Members:

DeYong, Gregory D., Assistant Professor of Management, Ph.D., Indiana University, 2010; 2013. Inventory Management, Production Scheduling, and Supply Chain Management.

Goodale, John C., Associate Professor of Management. Ph.D., University of Utah, 1996; 2009. Workforce Scheduling and Service Supply Chains.

Hendricks, Scott P., Clinical Assistant Professor, C.P.A., M. Acc., J.D. Southern Illinois University, 1983. Accounting.

Lee, Jaehoon, Assistant Professor, Ph.D., University of Texas at San Antonio, 2011; 2014. Consumer behavior.

Mykytyn, Peter P., Jr., Professor and *Chair*, Ph.D. Arizona State University, 1985; 2001. Management information systems.

College of Engineering Graduate Faculty Members:

Chang, Feng-Chang (Roger), Associate Professor, *Emeritus*, of Industrial Management and Applied Engineering, Ph.D., Ohio State University 1985; 1991. Manufacturing Systems, Quality Management, and Supply Chain Management.

DeRuntz, Bruce D., Professor of Industrial Management and Applied Engineering, Ph.D., Southern Illinois University, 2005; 2005. Project Management and Quality Management.

Dunston, Julie K., Associate Professor of Industrial Management and Applied Engineering, Ph.D., Florida State University, 1995; 1995. Manufacturing Processes Quality Management, and Control Systems.

Velasco, Thomas, Associate Professor of Industrial Management and Applied Engineering, Ph.D., University of Arkansas, 1991; 1993. Industrial Engineering, Quality Management and Supply Chain Management.

Theater

The Department of Theater is an accredited institutional member of the National Association of Schools of Theatre, 11250 Roger Bacon Drive, Suite 21, Reston, Virginia 20190.

The Department of Theater blends scholarship and practice in an academically based theater experience that provides students with broad based exposure to human experience and a sound foundation in the skills of theater craft. Class work in all areas of theater is complemented by a production program that reinforces both scholarship and practice, creating work that is as imaginative and highly polished as possible. Graduates will be able to apply their knowledge of performance, production, theater history, contemporary practice, literature and theory in a wide variety of theater venues. Graduates will also be able to demonstrate intrapersonal and interpersonal skills in the form of leadership qualities, self-discipline, creative expression, critical thinking, and the ability to work effectively as a part of a collaborative team. The development and guidance of talent and discipline, both characteristic of the artist/scholar, are the goals of the Department of Theater.

The Department of Theater maintains two theaters for public productions: the McLeod Theater, a proscenium stage seating approximately 500, and the Christian H. Moe Laboratory Theater, a flexible stage seating up to 110. The playbill typically encompasses a balance of contemporary, classic, and original works, and offers seven productions including a musical and an opera during the academic year (the latter co-produced with the School of Music). The summer season, McLeod Summer Playhouse, consists of three productions operating as a professional summer stock company, offering stipends and/or graduate credit.

The Department of Theater offers a graduate program of study leading to a Master of Fine Arts degree in theater. An interdisciplinary doctoral study in theater is sponsored by the Department of Communication Studies.

Admissions

To apply, students must fill out the online application for Admission to Graduate Study in Theater (gradschool.siu.edu). Applicants for graduate studies in theater must satisfy the minimum requirements of the Graduate School before being admitted to the department. The application includes a statement of purpose, transcripts from all undergraduate and graduate coursework together with three (3) letters of recommendation from former teachers or supervisors. There is a \$65 nonrefundable application fee payable online.

There are additional requirements established by each of the areas of study in the M.F.A. Program. Applicants in the directing area are required to submit materials that are representative of their previous theater work and/or indicate an aptitude for stage direction (including promptbooks, programs, reviews, photos, video tapes or casebooks from previous directing efforts). Prospective directing students are also required to attend an on-campus interview and audition. At this time, each applicant will work with actors on a directing scene to demonstrate their ability to analyze the scene and work with actors. Applicants in the costume, lighting, scene design and technical direction areas are required to submit portfolio samples of their work. Applicants in the playwriting area must submit approximately two to two-and-a-half hours of written material consisting of one full-length play and/or several significant short pieces. These materials should be sent directly to the Director of Graduate Studies at the address below.

Although an undergraduate major in theater is not essential for admission to a graduate degree program in theater, the director of graduate studies may require that certain course deficiencies in undergraduate subject areas be remedied. These requirements are stated in writing on the admissions approval form.

More detailed information about these requirements is obtainable from: Director of Graduate Studies, Department of Theater, Mail Code 6608, Southern Illinois University Carbondale, Carbondale, IL 62901, 618-453-5741.

Financial Assistance

There are several kinds of financial assistance available to graduate students in the Department of Theater. First, there are graduate fellowships awarded on the basis of superior scholarship. Second, special fellowships are offered annually to students who show promise of success in graduate studies although their academic records have been only average due to economic disadvantages. The fellowships have no service requirements. Third, graduate assistantships with competitive stipends are available to students are employed in various academic support positions, such as teaching, research, and production, such as teaching, research, and production. All fellowships and assistantships include a waiver of tuition (both in-state and out-of-state). Applications for financial assistance may be obtained by contacting the director of graduate studies.

The Master of Fine Arts Degree Program

The Master of Fine Arts degree program in theater emphasizes practical expertise in one of the following areas: directing, playwriting, costume design, lighting design, scene design and technical direction. The department encourages interdisciplinary study in related fields including performance studies, dramatic literature, dramaturgy, musical theater and opera. In most instances, a three-year residency is required of all M.F.A students.

By March of their first year of study, each student will undergo a review of his/her progress in the program. The criteria by which each area will make its evaluations are to be found described in detail in the Theater MFA handbook, in the appropriate section dealing with the area's specific requirements. The faculty can elect from the following actions: 1. Suggest areas the student needs to work on before he/she is allowed to proceed to the Qualifier/Thesis project. 2. Move the student along to the Qualifier/Thesis project. 3. Require the student to attend a 2nd Year Review. 4. Dismiss the student from the M.F.A. program.

*All M.F.A. students must complete a minimum of 60 semester hours of course work, including the **M.F.A. degree core requirements**, and with a minimum of 30 hours at the 500 level:*

- THEA 500 Theater Research Methods, 3 hours
- THEA 501 Contemporary Developments, 3 hours
- THEA 599 Thesis, 6 hours

Total M.F.A. Core: 12 hours

In addition, each area of study has specific area and elective requirements, which are as follows.

Directing

- M.F.A. core, 12 hours
- THEA 401A Stage Management, 2 hours
- THEA 401B Stage Management Lab, 1 hour
- THEA 402 Directing Studio, 3 hours
- THEA 417 Advanced Acting, 3 hours
- THEA 502 Advanced Directing Studio, 9 hours
- THEA 504A Drama, Theories & Conventions, 3 hours
- THEA 504B Drama, Theories & Conventions, 3 hours
- THEA 511A Playwriting I, 3 hours
- THEA 520A Period Style for Theater I, 3 hours
- THEA 520B Period Style for Theater II, 3 hours
- Design Classes (select 2 of 3), 6 hours
 - # THEA 407 Scene Design
 - # THEA 414 Costume Design
 - # THEA 418 Lighting Design
- Electives (by advisement), 9 hours

Total: 60 hours

Costume Design

- M.F.A. core, 12 hours
- THEA 414 Costume Design, 3 hours
- Design & Production Classes (select 2 of 3), 6 hours
 - # THEA 407 Scene Design
 - # THEA 418 Lighting Design
 - # THEA 419 Technical Direction
- THEA 510 Production Design Seminar, 6 hours (to be taken every semester in residence)
- THEA 516 Advanced Theater Design & Production, 2-8 hours
- THEA 412 Patterning & Draping for the Theater, 2 hours
- THEA 413 Drafting for the Theater, 3 hours
- THEA 415A/THEA 415B Costume Crafts I & II, 2-4 hours (each section may be taken twice)
- THEA 512 Advanced Costume Construction, 2-8 hours (may be taken 4 times)
- THEA 520A Period Style for Theater I, 3 hours
- THEA 520B Period Style for Theater II, 3 hours
- Electives (by advisement), 8 hours

Total: 60 hours

Lighting Design

- M.F.A. core, 12 hours
- THEA 418 Lighting Design, 3 hours
- Design & Production Classes (select 2 of 3), 6 hours
 - # THEA 407 Scene Design
 - # THEA 414 Costume Design
 - # THEA 419 Technical Direction
- THEA 510 Production Design Seminar, 6 hours (to be taken every semester in residence)

Playwriting

- M.F.A. core, 12 hours
- 400- or 500-level Theater History courses by advisement, 6 hours
- THEA 500 Theater Research Methods, 3 hours
- THEA 501 Contemporary Developments, 3 hours
- THEA 503 The New Play Workshop, 18 hours
- THEA 504A Drama Theories and Conventions, 3 hours
- THEA 504B Drama Theories and Conventions, 3 hours
- THEA 511A Playwriting I, 3 hours
- THEA 511B Playwriting II, 3 hours
- THEA 599 Thesis, 6 hours
- Electives (by advisements), 12 hours

Total: 60 hours

Projects: Collaborative Short Play Evenings/Workshop Production of full length in Festival/Thesis

*Any two of these Theater History courses must be taken in year 1 or 2 by advisement:

- THEA 450 Topical Seminar
- THEA 454 American Theater
- THEA 460 Black Theater
- THEA 525 Contemporary Experiments in Drama
- THEA 550 Topical Seminar may apply depending on the topic (may be repeated)

Certain other Theater, English or Communication Studies courses may apply with permission.

**THEA 402 (Directing Studio) must be taken in the first two years unless playwrights already have directing experience.

Suggested Electives:

- THEA 455 Dramaturgy
- THEA 502 Advanced Directing Studio
- ENGL 492A Creative Writing Fiction
- ENGL 492B Creative Writing Poetry
- ENGL 492C Creative Writing Literary Non-Fiction
- ENGL 592 Creative Writing Seminar
- Dramatic writing not already taken to satisfy requirements (film, TV, performance studies)
- Theater History courses not already taken to satisfy requirements

Besides the core requirements, the students will propose and successfully complete a project to qualify for further study in their chosen area. This project will include a research component in conjunction with a realized practical project.

Thesis requirements vary for each area of study; however, they include a research component as well as a description and evaluation of the student's creative project. In concert with the student's committee, the candidate may choose to separate the two, submitting an approved research paper during the first academic year and a creative thesis after completion of the M.F.A. final project.

The Department of Theater requires an oral examination, conducted by the student's thesis committee, for each M.F.A. candidate. The examination covers the thesis or dissertation, and may include questions designed to ascertain the student's general competence in theater.

Doctor of Philosophy Degree

The Department of Theater offers a program of study in Theater History and Playwriting under the administration of the Department of Communication Studies leading to a Doctor of Philosophy Degree in Communication Studies.

Admission

To apply student must fill out the online application for Admission to Graduate Study in Communication Studies (gradschool.siu.edu). Applicants for graduate studies in theater must satisfy the minimum requirements of the Graduate School before being admitted to the department. The application includes a statement of purpose, transcripts from all undergraduate and graduate coursework together with three (3) letters of recommendation from former teachers or supervisors.

There is a \$65 nonrefundable application fee payable on-line or by check made out to SIU.

Additionally, prospective students must submit materials that are representative of their previous theater work and/or indicate an aptitude for work in their chosen field of study. Applicants to Theater History must include several critical research essays. Applicants to the playwriting area must submit approximately two- to two-and-a-half hours of written material consisting of one full-length play and/or several significant short pieces. All prospective students should include a sample of their research writing. Video tapes/ DVDs or websites are acceptable digital materials.

More information for prospective and current students is available at the Department of Theater website (theater.siu.edu) and the Department of Communication Studies (communicationstudies.siu.edu).

A student must take 51 semester credit hours of course work beyond the master's degree, 24 hours of which must be in Theater, 18 hours in Communication Studies, and nine hours methodology (tool) courses. In addition 24 semester credit hours of dissertation work are required for the Ph.D. degree. Course work outside the department must be germane to one of the departmental curriculum areas for the purposes of examination and dissertation research. Throughout the program of study, the student must maintain a 3.00 grade point average in all work taken. If the grade point average drops below the minimum, the student is placed on academic warning for the following two semesters. During the last half of the second semester of course work, the student's progress shall be reviewed by the advisory committee to determine continuation, change, or termination of the program. The advisory committee for each student shall be responsible for assembling the necessary information (grades, recommendations, progress in curriculum areas, etc.) for consideration in reaching the above decision.

Advisory Committee

A three (3) person advisory committee shall be established no later than the beginning of the second semester of graduate study to plan the program of study with each student. The chair of the committee shall act as the primary adviser and sign the graduate course request form. This advisory committee is responsible for certifying to the graduate director that the student has met all departmental requirements for admission to candidacy and has passed the Ph.D. preliminary examination.

Students selecting Theater as a curriculum concentration must take the following:

- **Communication Studies Theater Concentration, 18 hours (must include):**
 - # CMST 501 Introduction to Communication Research, 3 hours
 - # CMST 510 Rhetoric Theory Seminar, 3 hours
- **Theater 24 hours (must include):**
 - # THEA 501 Contemporary Developments, 3 hours
 - # THEA 504A Drama Theories and Conventions, 3 hours
 - # THEA 504B Drama Theories and Conventions, 3 hours
- **Dissertation, 24 hours**

Total 75 hours

Preliminary Examination

The student must pass a preliminary examination on his/her program of study. The preparation and administration of the examination are determined by the advisory committee in consultation with the student. The examination is taken at the end of the course work.

Dissertation

Each student must register for at least 24 semester hours of dissertation credit in THEA 600. The dissertation director shall, upon consultation with the student, be responsible for setting up a dissertation committee, supervising the dissertation, and administering the final oral examination. The dissertation committee shall approve the dissertation prospectus and pass upon the completed dissertation and oral examination.

The Graduate School requires students who have not completed their dissertation to enroll in THEA 601 Continuing Enrollment until they complete the dissertation or withdraw from the program. Students who do not register for this class will be charged for all semesters before they may graduate.

Students are required to submit an electronic copy of the dissertation to the Graduate School and one bound copy to the Department of Theater.

Theater Courses

THEA400 - Production 400-1 to 6 (1 to 2 per semester) Production. Practicum for support of major department productions in all areas. Roles in department productions may fulfill requirement.

THEA401A - Stage Management 401A-2 Stage Management. Study of the theories and skills required to successfully stage manage a theater production. Prerequisite: THEA 217, THEA 218A, concurrent enrollment in THEA 401B.

THEA401B - Stage Management Lab 401B-1 Stage Management Lab. Practical application of the theories and skills learned in the 401A course and applied on a department of theater production. Prerequisite: THEA 217, THEA 218A, concurrent enrollment in THEA 401A.

THEA402 - Directing Studio 402-3 to 6 Directing Studio. Introduction to the art of directing through examination of various genres. An exploration of the fundamentals of directing culminating in scene work and studio presentation. Advanced students will approach the directing process from play selection through dramaturgy to production and through the context of contemporary directing styles. Prerequisites: THEA 217 and THEA 311A with grades of C or better.

THEA403A - Advanced Movement for the Actor 403A-3 Advanced Movement for the Actor. Advanced studies in stage movement with special attention to period styles. Prerequisite: THEA 303A, THEA 317A, THEA 317B.

THEA403B - Advanced Voice for the Actor 403B-3 Advanced Voice for the Actor. Advanced studies in voice with special attention to stage dialects and advanced vocal techniques. Prerequisite: THEA 303B, THEA 317A.

THEA404 - Theater Management 404-3 Theater Management. Discussion of legal and financial aspects concerning the professional and community theaters of the United States. Consideration of and practice in managerial activities of an educational theater including administration, purchasing, and accounting practices, direct sales, publicity, promotion and public relations.

THEA406 - Properties Studio 406-9 (3,3,3,) Properties Studio. Beginning and advanced studio work in traditional and non-traditional crafts for theatrical events, including mask work, puppetry, stage furniture construction, upholstery, weaponry, armor, and special effects. Repeatable. Prerequisite: THEA 218A with a grade of C or better. Studio Fee: \$60.

THEA407 - Scene Design 407-3 Scene Design. Technical and artistic aspects of scene design. Theory and practice. Prerequisite: THEA 218A, THEA 413 with a grade of C or better.

THEA409 - Scene Painting Studio 409-6 (2,2,2) Scene Painting Studio. Studio work in basic and advanced scene painting techniques and materials. Projects include wood, drapery, foliage, marble, transparencies, scrim painting, dye painting, faux finishes, metal reflections, and murals. Repeatable. Prerequisite: THEA 218A. Studio fee: \$65.

THEA410 - Children's Theater 410-9 Children's Theater. Theory and practice in performing theater for children. Class activities include lectures on various aspects of production as well as producing a touring children's play for local area schools. Special approval needed from the instructor.

THEA412 - Patterning & Draping 412-2 Patterning and Draping for the Theater. This course introduces the theatrical costume design and technical student to the basics of pattern development and construction techniques used to develop a 3-dimensional theatrical costume, with focus on giving the student a working knowledge of costume production, flat patterning, and draping techniques. Prerequisite: THEA 218C with a minimum grade of C. Studio fee: \$25.

THEA413 - Drafting for the Theater 413-6 (3,3) Drafting for the Theater. Development of the student's skill in scenographic techniques including ground plans, sections, elevations, and detail construction drawings. Prerequisite: THEA 218A with a minimum grade of C.

THEA414 - Costume Design 414-3 Costume Design. Technical and artistic aspects of costume design. Development of the design process, understanding and use of color theory and fabric, and practice of costume drawing techniques. Prerequisite: THEA 218C with a minimum grade of C.

THEA415A - Costume Crafts I 415A-2 to 4 Costume Crafts I. This course focuses on advanced skills in costume technology, including but not limited to, dyeing, fabric modification, millinery, wig styling, armor, jewelry making, armor, corsetry and period accessories. Topics covered vary by semester. Prerequisite: THEA 218C with a grade of B or better. Craft fee: \$35.

THEA415B - Costume Crafts II 415B-2 to 4 Costume Crafts II. This course focuses on advanced skills in costume technology, including but not limited to, dyeing, fabric modification, millinery, wig styling, armor, jewelry making, armor, corsetry and period accessories. Topics covered vary by semester. Prerequisite: THEA 218C with a grade of B or better. Craft fee: \$35.

THEA416A - Structural Design Stage I 416A-3 Structural Design for the Stage Part I. An in-depth study of the art and practice of structural design for the stage including forces, stresses, strains, load analysis, geometric properties of materials and simple beam design. Prerequisite: THEA 218A with a minimum grade of C.

THEA416B - Structural Design Stage II 416B-3 Structural Design for the Stage Part II. Continued study of the art and practice of structural design for the stage including beam design, column and tension member design and combined loading design for sawn lumber and steel materials. Prerequisite: THEA 218A and 416A with minimum grades of C or special approval needed from the instructor.

THEA417 - Advanced Acting 417-3 to 6 (3,3) Advanced Acting. Utilization of the actor's process in the performance of various theories and styles of acting. May be repeated once for credit. Prerequisite: THEA 317B.

THEA418 - Lighting Design 418-3 Lighting Design. Investigation of stage lighting design, theory and professional practice. Special attention to color theory and its application to stage lighting. Lecture/Laboratory. Prerequisite: THEA 218B and THEA 413 with grades of C or better.

THEA419 - Technical Direction 419-3 Technical Direction. Advanced study of principles and procedures of scenic construction and stage rigging. Includes scene shop organization, materials, and specialized stage equipment; preparation for professional technical direction. Lecture and laboratory to be arranged. Prerequisite: THEA 218A and THEA 413 with grades of C or better.

THEA425 - Metal Fabrication 425-3 Metal Fabrication for Theater. A study of the knowledge and practice of various welding processes and fabrication techniques for the stage as well as an

understanding of the theater practitioner's responsibility to the quality and safety of their products. Prerequisite: THEA 218A with a grade of C or better. Studio fee: \$40.

THEA450 - Topical Seminar 450-1 to 9 Topical Seminar. An intensive examination and application of selected areas of interest. Topics will vary and may include such areas as stage management, audition and interview, current political theater.

THEA454 - American Theater 454-3 American Theater. The development of American theater from colonial times to the present. Includes a study of the American musical theater from preminstrels through contemporary music-drama.

THEA455 - Dramaturgy 455-3 Dramaturgy. An introduction to the theory and practice of dramaturgy, including a survey of contemporary critical theories as they apply to the pre-production work of the dramaturg. The student will apply methodologies studies to plays from the classical repertory and to the works of new playwrights. Prerequisite: THEA 311A with a minimum grade of C.

THEA460 - Black Theater 460-3 Black Theater: Intersections of Culture and Performance. (Same as AFR 420) This course will freely examine the intersections between African and African American Theater. It will study the origins, form and agenda of Black Theater by tracing the commonalities of culture and Performance between African and African American Theaters. Students will be exposed to seminal essays, topical plays and performances while they hone their own critical and creative skills.

THEA500 - Research Methods 500-1 Theater Research Methods. An introduction to the principles and methods of research and writing in theater with a focus on selected areas of specialization within the various degree programs. Required of all Masters Theater students. Restricted to Theater Majors. Special approval needed from the instructor.

THEA501 - Avant Garde & Performance 501-3 The Historical Avant Garde & Performance. A survey of the historical avant garde throughout the 19th and 20th centuries through the study of documentary material, critical works, and plays. Individual reports, in class exercises, performance opportunities, and lectures provide focus on selected areas. Required reading encompasses a broad spectrum of subjects in order to demonstrate the political and aesthetic importance of a variety of the theatrical avant garde.

THEA502 - Advanced Directing Studio 502-3-12 (3,3,3,3) Advanced Directing Studio. Emphasis on practical directing problems and concerns of individual students through research, rehearsal and performance. Includes survey of directing theories and practices with laboratory application of directing techniques. Special approval needed from the instructor.

THEA503 - New Play Development 503-1 to 3 New Play Development. This is an interdisciplinary course-meant for designers, directors, dramaturgs, and playwrights-that prepares students for a prominent feature of the U.S. theatre landscape: the new play workshop. This ensconced entity, somewhere between a production and a casual reading, is an economic and artistic powerhouse, not just for playwrights, but for all theatre artists. This class imitates the methods and environments of the most prominent new play workshops in order to demystify a process that can be both artistically satisfying and lucrative for all theatre artists. Prerequisite: THEA 511A with a grade of C or better or concurrent enrollment allowed.

THEA504A - Performing Justice/Theory 504A-3 Performing Justice/Theory. Performance is more prevalent in society than ever before. Performance, in this class means: theatre, mass media, social media, entertainment, digital humanities, and everyday life. This course considers questions such as: How can performance help gender equality? How does literary, media, and performance theory relate to struggles for social justice? What does it mean to live in a "dramatized society"? Students will gain an understanding of the economic, psychological, and political strategies behind performance and theory that seeks to intervene in unjust social structures. Restricted to graduate standing or special approval from the instructor.

THEA504B - Performing Resistance 504B-3 Performing and Producing Resistance. Beginning with Aristotle and the earliest foundations of Western performance, this course considers questions such as: How have artists resisted earlier performance theory? How have artists redefined performance in order to promote social justice? How have artists moved beyond performance onstage with actors in order to empower spectators? Students will gain an understanding of classical performance theory and

subsequent resistant performance theories. Restricted to graduate standing or special approval from the instructor.

THEA506 - The Collaborative Process 506-2 to 4 The Collaborative Process. The theory and practice of the collaborative processes involved in play production; how designers, technicians, directors and playwrights interact with and communicate to each other to work as a creative team. Activities involve both hypothetical and fully realized productions when appropriate. May be taken for up to 4 hours.

THEA510 - Production Design Seminar 510-6 (1,1,1,1,1,1) Production Design Seminar. Exploratory workshop experience in rendering techniques, creative problem solving, design aesthetics, and production philosophies. To be taken by graduate production design students in residence, each semester, with exceptions by consent of instructor.

THEA511A - Playwriting I 511A-3 Playwriting I. This course assumes basic writing knowledge. It advances techniques of structure and dialogue in playwriting. Written exercises are submitted and discussed to identify dramatic events. Students will self-produce several short plays in collaborative performances. Students will initiate development of a full-length play. Special approval needed from the instructor.

THEA511B - Playwriting II 511B-3 Playwriting II. This course continues to develop advanced techniques of structure and dialogue in playwriting. Students will examine canonical plays to understand the tools used by the playwrights. Students will write short plays and self-produce several short plays in collaborative performances. Students will write a full-length play. Prerequisite: THEA 511A. Special approval needed from the instructor.

THEA512 - Adv Costume Construction 512-2 to 8 Advanced Costume Construction. This course focuses on advanced skills in the areas of cutting and draping for the theater. A variety of techniques will be taught, including but not limited to, flat patterning, bias draping, tailoring, and historical construction techniques. Prerequisite: THEA 218C, THEA 412 or special approval needed from the instructor.

THEA516 - Advanced Theater Design & Prod 516-2-12 Advanced Theater Design and Production. An advanced studio-based study of the theories and practices of modern production and design with particular emphasis on the interaction of the sub-disciplines of scenic, costume, light, sound design, and technical production as well as the collaborative nature of theatrical production. Special approval needed from the instructor.

THEA520A - Period Style Theater I 520A-3 Period Style for Theater I. A survey of the costumes, architecture, furniture, decorative styles and motifs of major periods and countries relating to western culture and theater. Egyptian to the Renaissance.

THEA520B - Period Style II 520B-3 Period Style for Theater II. A survey of the costumes, architecture, furniture, decorative styles and motifs of major periods and countries relating to western culture and theater. Late Renaissance to 20th Century. Prerequisite: THEA 520A or special approval needed from the instructor.

THEA522 - SIU Summer Theater 522-1 to 12 SIU Summer Theater. Practical experience in summer stock play production. Performance or technical work in SIU Summer Theater only. Maximum of six hours per summer. Special approval needed from the instructor.

THEA525 - Contemp Experiment Drama 525-3 Contemporary Experiments in Drama. By studying contemporary literary theory and applying these critical tenets to new American plays, students develop tools to use in reading, understanding and writing plays in unconventional, non-traditional styles. Course work includes extensive reading of both essays and plays, discussing these matters, preparing reports and writing a play. Special approval needed from the instructor.

THEA530 - Independent Study 530-1 to 12 Independent Study. Independent research on selected problems. A maximum of three credit hours may be taken for a single project. Special approval needed from the instructor.

THEA550 - Topical Seminar 550-2 to 6 (2 per topic) Topical Seminar. In-depth studies of topics of special interest to advanced students concerning individual or groups of playwrights, directors, designers,

and their techniques and theories. Topic is determined in advance. Special approval needed from the instructor.

THEA560 - Professional Work Experience 560-1 to 21 Professional Work Experience. Credit may be granted for professional work experience prior to acceptance into the program. Special approval needed from the instructor. Graded S/U only.

THEA561 - Theater Internship 561-1 to 12 Theater Internship. After completion of the M.F.A. core curriculum and basic courses in student's specialization, credit may be granted for internship at professional theaters, training programs, or studios. Special approval needed from the instructor. Graded S/U only.

THEA599 - Thesis 599-1 to 6 Thesis. Minimum of three hours to be counted toward a Master's degree.

THEA600 - Dissertation 600-1 to 36 (1 to 16 per semester) Dissertation. Minimum of 24 hours to be earned for the Doctor of Philosophy degree.

THEA601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

Theater Faculty

Ojewuyi, Olusegun, Professor and Chair, M.F.A., Yale University, 1998; 2004. Acting, Directing.

Juntunen, Jacob, Associate Professor and Director of Graduate Studies, Ph.D., Northwestern University, 2007.

Bogumil, Mary L., Associate Professor, Ph.D., University of South Florida, 1988; Dramatic Literature.

Clark, Darryl, Assistant Professor, M.F.A. in Dance, State University of New York College at Brockport, 2005.

Fagerholm, Thomas, Assistant Professor, M.F.A., Minnesota State University, Mankato, 2012; Technical Direction.

Fletcher, Anne, Professor, Ph.D., Tufts University, 1992; 2001. Theater history, 20th century American political theater.

Kidd, Thomas J., Associate Professor, M.F.A., Southern Illinois University, Carbondale, 1999; 2004. Acting, directing.

Moe, Christian H., Professor, *Emeritus*, Ph.D., Cornell University, 1958; 1958.

Naversen, Ronald, Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1989; 1989. Scenic design.

Patrick-Benson, Susan, Associate Professor and Director of Undergraduate Studies, M.F.A., Rutgers University, 1995; 2006. Voice specialist.

Rush, David, Professor, *Emeritus*, Ph.D., University of Illinois, 1973; 1996.

Varns, Mark, Professor, M.F.A., University of Missouri, Kansas City, 1990; 1996. Technical direction, lighting design.

Zea, Wendi, Associate Professor, M.F.A., Kent State University, 2006; 2009. Costume Design.

Women, Gender, and Sexuality Studies

There is no graduate program in Women, Gender, and Sexuality Studies. Four-hundred-level courses may be taken for graduate credit unless otherwise indicated in the course description.

Certificate in Women, Gender, and Sexuality Studies

The purpose of the graduate certificate in Women, Gender, and Sexuality Studies is to meet the demand for formal recognition of graduate level credentials in WGSS, and to enhance and broaden the perspectives of graduate students from various related fields. The program requires 18 hours of coursework. 12 hours must be at the 500-level, which includes WGSS 596 and WGSS 597. Six hours must be taken outside the student's major discipline. The student must be currently enrolled in a graduate degree program at SIU or an individual holding a bachelor's degree and admitted to the Graduate School (non-declared).

The following graduate programs work closely as partners with WGSS Graduate Certificates:

School of Education:

- Education Administration and Higher Education
- Workforce Education and Development

College of Liberal Arts:

- Communication Studies
- History
- Political Science
- School of Management and Marketing
- School of Psychological and Behavioral Sciences
- Sociology

School of Law:

Women, Gender, and Sexuality Studies Courses

WGSS401 - Contemporary Feminisms 401-3 Contemporary Feminisms in Global Contexts. This course discusses theories and practices of third wave feminism from a national and global perspective. We will discuss ways third wave feminism is being talked about and understood by others and ourselves. The selected readings offer a range of voices and articulation of third wave feminism including United States, post-colonial, transnational, queer, multicultural, theoretical, and practical. The course is heavy on reading. By the end of this course students should be able to express their understanding of third wave feminism.

WGSS406A - Gender/Family/Sex Pre-Mod Eur 406A-3 Gender, Family and Sexuality in Pre-Modern Europe. (Same as HIST 406A) A discussion of the history of the family, creation of gender roles and importance of sexuality from medieval times to the French Revolution.

WGSS406B - Gender/Family/Sex Mod Eur 406B-3 Gender, Family and Sexuality in Modern Europe. (Same as HIST 406B) From the French Revolution. A discussion of the history of family, creation of gender roles, and importance of sexuality from the French Revolution to the present. Fulfills the CoLA Writing-Across-the-Curriculum (WAC) requirement.

WGSS407 - Sociology of Sexuality 407-3 Sociology of Sexuality. (Same as SOC 407) Examines a range of social issues related to human sexuality and the interaction between sexuality and other social processes. Emphasis is on the relevant concepts, theories and methods in the field of sexual studies, the social and historical construction of sexuality and the ways in which social characteristics shape sexual behaviors and desires, sexual variation, including its causes and consequences, how basic social

institutions affect the rules governing sexuality, the major moral and political controversies that surround sexuality, and the "dark side" of sexual life.

WGSS410 - Transcending Gender 410-3 Transcending Gender. (Same as ANTH 410L) How do humans become male and female in different societies? Can men become women and women become men? What other gender possibilities exist? Is male dominance universal? What are the sources of male and female power and resistance? Do women have a separate culture? What are the relationships between gender, militarism and war? These and other questions will be examined in cross-cultural perspective.

WGSS411 - Human Sexuality 411-3 Human Sexuality. (Same as PH 410) Provides detailed information on dimensions of sexuality; characteristics of healthy sexuality; anatomy and physiology; gender roles; relationships; sexually transmitted infections/diseases; contraceptive issues and concerns; sexual victimizations; and sexuality through the life cycle.

WGSS415 - Gender, Sexuality & Comm 415-6 (3,3) Topics in Gender, Sexuality, and Communication. (Same as CMST 415) An exploration of advanced theories and research in gender and sexuality from communication perspectives. Course may be repeated when topics vary.

WGSS416 - Black Feminist Thought 416-3 Black Feminist Thought as Theory and Praxis. (Same as AFR 416, CMST 416) Explore the roots, contemporary manifestations, and current embodiments of black feminist thought. Explore the works of black women to engage in critical thinking and thoughtful dialogue that positions the valuable knowledge, experiences and perspectives of women of color at the center of inquiry while simultaneously discovering spaces for multicultural alliances. Prerequisite: CMST 3011 or CMST 341 or consent of instructor.

WGSS426 - Gender, Culture, Language 426-3 Gender, Culture and Language. (Same as ANTH 426 and LING 426) This course is designed for students who have had some exposure to gender studies. It will focus on readings in language and gender in the fields of anthropological and socio-linguistics. Issues to be addressed are the differences between language use by men/boys and women/girls, how these differences are embedded in other cultural practices, and the various methodologies and theories that have been used to study gendered communication.

WGSS437 - Lesbian and Gay History 437-3 Lesbian and Gay History in the Modern United States. (Same as HIST 437) This course explores the social, political, and cultural history of lesbians, gay men, and other sexual and gender minorities in the United States from the turn of the twentieth century to the present. Themes to be taken up in the class include: the emergence of heterosexuality and homosexuality as distinct categories of identity; the intersection between sexual identity and identities of race, class, gender, and ethnicity; the relationship between homosexuality and transgenderism; the movement for gay liberation; the creation of lesbian and gay urban and rural subcultures; representations of homosexuality in popular culture; anti-gay backlash; and AIDS.

WGSS438 - Women and the Law 438-3 Women and the Law. (Same as POLS 438) The course is an advanced seminar in public law with a focus on gender, law and society. The course will engage with issues in feminist legal practice and the development of legal theories regarding gender. We will interrogate the relationship between theory and practice and the ways in which feminist jurisprudence has taken shape in the dynamics of this relationship. POLS 114 and 230 recommended prerequisites.

WGSS440 - Queer Visual Culture 440-3 Queer Visual Culture. (Same as CP 469) Course discusses aspects of the aesthetics, history, theory and politics of media representations of gender and sexuality. Cultural texts from one or a combination of media forms, genres, historical periods, and platforms will inform the historical and theoretical consideration of media representations of gender and sexual variation with a special interest on their bearings upon the present moment. May be repeated if topics vary.

WGSS442 - Sociology of Gender 442-3 Sociology of Gender. (Same as SOC 423) Examines social science theory and research on gender issues and contemporary roles of men and women. The impact of gender on social life is examined on the micro level, in work and family roles, in social institutions, and at the global, cross-cultural level.

WGSS446 - Gender & Global Politics 446-3 Gender and Global Politics. (Same as POLS 456) An advance course examining gender systems and women's situations across cultures and countries. This

course also studies the impact globalization has had on gender issues by looking at women's activism at international and transnational levels. Topics covered include women's political representation, gender and culture, women's social movements, gender and development, and gendered policy issues.

WGSS448 - Gender/Family Modern US Hist 448-3 Gender and Family in Modern US History. (Same as HIST 448) This course explores the history of gender and the family in the United States from the late 19th century to the present. Themes to be explored include: the family and the state, motherhood, race and family life, and the role of the "family" in national politics.

WGSS449 - Advanced Human Sexuality 449-3 Advanced Human Sexuality. (Same as PHSL 450) Advanced, comprehensive course intended to supplement and expand the critical examination of topics covered in PHSL 320, Reproduction and Sexuality. The objectives of this class are to examine the physiological and behavioral basis of human reproduction and sexuality. Examining how humans reproduce from a physiological perspective including all aberrations and clinically relevant dysfunctions, as well as, the spectrum of human sexual behaviors including typical and atypical sexual behavior, paraphilias and diversity of human relationships. Prerequisite: PHSL 320.

WGSS450A - Women in Music 450A-3 Women in Music. (Same as MUS 450A) Explores the creative contributions of women in music, examining women's participation across a range of genres, cultural/geographic areas, and time periods. Restricted to junior/senior/graduate music major or consent of instructor.

WGSS452A - Traditions Uppity Wmn's Blues 452A-3 Traditions of Uppity Women's Blues. (Same as AFR 452A and MUS 452A) Examines the tradition of "uppity" women's blues from the so-called "classic" blues singers of the 19th century (Gertrude "Ma" Rainey, Bessie Smith, Ida Cox, etc.) to the contemporary blues of Saffire, Denise LaSalle and others. Explores ways blues women challenge conventions of gender and sexuality, racism, sexism, classism and homophobia. Restricted to junior/senior/graduate music major or consent of instructor.

WGSS456A - Feminist Philosophy 456A-3 Feminist Philosophy. (Same as PHIL 446A) A general survey of feminist theory and philosophical perspectives.

WGSS456B - Special Topics Fem Philosophy 456B-3 Special Topics in Feminist Philosophy. (Same as PHIL 446B) A special area in feminist philosophy explored in depth, such as Feminist Ethics, French Feminism, Feminist Philosophy of Science, etc.

WGSS456C - Women Philosophers 456C-3 Women Philosophers. (Same as PHIL 446C) Explores the work of one or more specific women philosophers, for example Hannah Arendt, Simone DeBeauvoir, etc.

WGSS464 - Audio Documentary & Diversity 464-3 Audio Documentary & Diversity. (Same as RTD 464) The purpose of this course is the creation of short and long form audio documentaries by students, regardless of production background. It will introduce students to basic production techniques and diversity considerations during the making of a documentary. This course uses qualitative methods to investigate an issue or document an event, with an emphasis on observation and interview techniques. Topics will explore the role of gender, race, ethnicity and class during the planning, gathering and production stages of the documentary. Course open to non-majors. Lab fee: \$55.

WGSS465 - History of Sexuality 465-3 History of Sexuality. (Same as HIST 465) Comprehensive survey of sexuality from the early modern period to the present. Examines social trends, politics, and cultural debates over various forms of sexuality. Students will engage in discussion, research, and writing. Emphasis varies by instructor.

WGSS470 - College Student Sexuality 470-3 College Student Sexuality. (Same as EAHE 470) Seminar designed to provide students with a strong grounding in the field of college student sexuality and sexual identity, covering the lived experiences of U.S. college students, the construction of sexualized collegiate identities through U.S. history, and how institutions of higher education have attempted to regulate, control, and (intentionally as well as inadvertently) effect college student sexuality.

WGSS476 - Women, Crime, and Justice 476-3 Women, Crime, and Justice. (Same as CCJ 460 and SOC 461) A study of women as offenders, as victims, and as workers in the criminal justice system.

WGSS489 - Women State Religion-Mid East 489-3 Women, State and Religion in the Middle East. (Same as HIST 489) Following an introduction to the question of women in Islamic law and Islamic History, this course will examine the changing status and experiences of women in a number of Middle Eastern countries in the 20th century, focusing on Egypt, Iran, and Turkey. Major themes will include legal, social and political rights, participation in social and economic life, cultural and literary production, and recent secular and Islamist women's movements.

WGSS493 - Individual Research 493-2 to 6 Individual Research. Exploration of a research project under the supervision of a faculty member having graduate faculty status. The project must result in a written research report, which is filed with the Director of Women, Gender and Sexuality Studies. Restricted to senior standing. Special approval needed from the instructor and Director of Women, Gender and Sexuality Studies.

WGSS494 - Practicum 494-1 to 6 Practicum. Supervised practical experience in situations centering on women's issues, organizations, services, etc. The setting may be in one's own field of study or in general content areas recognized in the Women, Gender and Sexuality Studies program. Special approval needed from the instructor and Director of Women, Gender and Sexuality Studies.

WGSS496 - Adv Special Topics in SDS 496-3 Advanced Special Topics in Sexual Diversity Studies. Advanced consideration of a topic of interest in Sexual Diversity Studies not offered through regular course listings.

WGSS497 - Independent Study in SDS 497-3 Independent Study in Sexual Diversity. Supervised readings in selected content areas in Sexual Diversity Studies. This is a capstone, synthesizing experience for students in sexual diversity studies. Prerequisites: WGSS 201, 203. Special approval needed from the instructor.

WGSS507 - Sociology of Sexuality 507-3 Seminar in the Sociology of Sexuality. (Same as SOC 507) Examines the emerging body of work in the fast-growing field of sexuality studies. While the course focuses on sociological research, it takes a few side trips into other disciplines. We begin by discussing the evolution of theory and methodology in the sexual sciences. After briefly considering the contributions of early sexologists and the work of Sigmund Freud, we will survey the sociology of sexuality from its beginnings in quantitative research, through classical sociological theory, social constructionism, and feminism. We'll then examine Foucault's radical rethinking of sexuality and grapple with the challenges of queer theory. The second part of the course will take up several substantive areas in the sociology of sexuality, drawing on cutting edge quantitative and qualitative research.

WGSS515 - Studies Gender Sexuality Comm 515-3 to 9 (3,3,3) Studies in Gender, Sexuality, and Communication. (Same as CMST 515) How communicative activity creates and sustains human beings as gendered. Emphasis on gaining familiarity with contemporary research on gendering from a particular perspective (e.g., ethnography, performance, phenomenology, quantitative methods, rhetorical criticism). May be repeated when perspective varies. Perspective announced prior to each offering.

WGSS525 - Theorizing the Body 525-3 Theorizing the Body. (Same as ANTH 525) This seminar explores a broad range of theoretical readings centering on the human body. Once the province of medical science and certain schools of philosophy, recent research in the social sciences and the humanities position "the body" as a primary site of socialization, gendering, social control.

WGSS535 - Seminar: Gender in Higher Ed 535-3 Seminar: Gender in Higher Education. (Same as EAHE 535I) A seminar for specialized study of administrative practice and policy in gender in higher education.

WGSS544 - Sociology of Gender 544-3 Sociology of Gender. (Same as SOC 544) Examines major theories, themes, and research methods on the intersection of gender, race, class and sexuality. Topics may include: construction of gender, race, class and sexual identities; work; social movement; intersection of family and work; parenting and reproduction; historical and cross-national dimensions.

WGSS545 - Gender and Work 545-3 Gender and Work. (Same as SOC 545) This course is designed to investigate how gender structures the workplace, as well as how men and women both reproduce and negotiate gender at work. Focusing on select topics, we will develop an understanding of workplaces as gendered organizations and discuss sex segregation, wage inequality, the glass ceiling, the glass

escalator, sex work, men and women in nontraditional occupations, the body at work, emotional labor, aesthetic labor, immigration and work, globalization, and unemployment and welfare. Also, this class will take an intersectional approach to analyzing and discussing issues of gender inequality at work; meaning, we will take seriously how gender intersects with race, ethnicity, class, and sexuality to shape both inequality and resistance at work.

WGSS546 - Language, Gender, Sexuality 546-3 Language, Gender and Sexuality: Anthropological Approaches. (Same as ANTH 546, LING 545) This course examines the study of language in society with a particular focus on how linguistic practices are part of the construction of gender and sexuality identities, ideologies, social categories and discourses. Anthropological theories applied to the study of language, gender and sexuality will be covered along with a variety of methodological approaches.

WGSS547 - Gender and Social Change 547-3 Gender and Social Change. (Same as SOC 547) This graduate seminar is a sociology of gender course that focuses on changes in the subfield itself and in peoples' lived experiences in terms of gender, gender relations, and gender stratification. Readings and discussions will trace the development of the sociology of gender over the last several decades. We will discuss how ideas and theories have changed over the years including changes in concepts and in how sociologists define, problematize, and theorize about sex and gender as traits, identities, relations, structures, and systems. We will also explore 'objective' or actual change (or lack of change) related to gender in individuals, groups, and societies.

WGSS550 - Psych Construction Gender 550-3 The Psychological Construction of Gender. (Same as PSYC 550) This course will focus on the psychology of gender within a feminist perspective and using a feminist approach. The term feminism, as used here, primarily implies that we will consider information and ideas for more diverse than simple empirical data. In our reading and discussion, we will consider politics, discrimination, the history of science, the history of patriarchy, the development of theory and ideas in general and the development of feminism in particular, and objective versus subjective views of science, and within these contexts, we will consider and study the psychology of gender.

WGSS560 - Gender and Sport 560-3 Gender and Sport: Sociological and Psychological Perspectives. (Same as KIN 560) This course explores psychological and sociological dimensions underlying the concept of gender and critically examines how gender relates to sport and physical activity. Students will be introduced to non-traditional as well as traditional research that addresses the issue of gender in various physical activity contexts.

WGSS565 - Continental Feminist Philosophy 565-3 Continental Feminist Philosophy. (Same as PHIL 565) An examination of major figures and problems in continental feminism, focusing on metaphysical, ethical, political, and aesthetic theories in the works of Beauvoir, Kristeva, Irigaray, Butler, and Kofman.

WGSS575 - Women in Higher Education 575-3 Women in Higher Education. (Same as EAHE 575) The goal of this course is to provide an overview of women in higher education. Topics that will be considered are: feminism's impact of women in higher education; the division of labor for women (including faculty and professional staff positions); historical and sociological perspectives of access to higher education including curriculum and pedagogy.

WGSS576 - College Men/Masculinities 576-3 College Men and Masculinities. (Same as EAHE 576) This course is a readings-based seminar covering concepts of masculinity as demonstrated by collegiate men in the United States. The readings in this course cover cultural as well as identity elements of what being a "college man" means (and how that definition has changed over time and contexts). The readings consist of historical, contemporary and theoretical scholarship concerning collegiate masculinity.

WGSS590 - Readings 590-1 to 3 Readings. Supervised readings in selected advanced subjects. Special approval needed from the instructor and the Director of Women, Gender and Sexuality Studies.

WGSS591 - Special Topics 591-1 to 3 Special Topics. Concentration on a topic of interest not offered through the regular course listings. Special approval needed from the instructor and the Director of Women, Gender and Sexuality Studies.

WGSS592 - Women and Religion 592-3 Women and Religion. This course will heighten and strengthen student's awareness of the roles and responsibilities of women as outlined in the sacred writings and scriptures of various world religions and as carried out in various cultures around the world.

WGSS593 - Masculinity in the U.S. 593-3 Masculinity in the United States. This course is a readings-based seminar covering concepts of masculinity in the United States. The readings cover cultural as well as identity elements of what being a "man" means (and how that definition has changed over time and contexts), historical as well as contemporary understandings of masculinity.

WGSS595 - Practicum in WGSS 595-1 to 3 Practicum in Educational Women, Gender and Sexuality Studies. This course provides students with supervision in their work toward course development in Women, Gender and Sexuality Studies. The instructor of record will meet with practicum members on a regular basis, and, together, they will work towards the research and syllabus construction necessary for a WGSS course. Pedagogical strategies will also be covered. Must have consent of the Director of Women, Gender and Sexuality Studies. Graded by S/U only.

WGSS596 - Feminist Theories 596-3 Advanced Feminist Theories. This course introduces students to the past, present, and potential future of feminism and its various permutations. Readings are designed to stress historical, intellectual, and contemporary issues in order to inspire in-class discussion and to provide foundations for written assignments. Emphasis varies by instructor.

WGSS597 - Pro-Seminar 597-3 Graduate Pro-Seminar in Women's Gender and Sexuality Studies. This proseminar introduces graduate students to the field of Women, Gender, and Sexuality Studies (WGSS). The approach is both interdisciplinary as well as multidisciplinary. The course guides students through a process by which they build a detailed map of the intersection between their course of study and the field of WGSS. Emphasis varies by instructor.

Workforce Education and Development

The School of Education offers programs of study leading to the Master of Science in Education and Doctor of Philosophy degrees. Information about either program may be obtained by contacting the Office of Graduate Programs in Workforce Education and Development at 618-453-3321.

This program requires a nonrefundable \$65 application fee that must be submitted with the application for Admissions to Graduate Study in Workforce Education and Development. Applicants may pay this fee by credit card, by personal check, cashier's check, or money order made out to SIU, and payable to a U.S. Bank.

Master of Science in Education Degree

The master's degree with a major in Workforce Education and Development is designed to accommodate a broad range of individuals preparing for training, instructional, and administrative roles in career and technical education, human resources, business, industry, government, and other fields. Admission requirements are as follows:

- A 2.7 GPA of a completed Bachelor's degree.

- A career goal consistent with the mission of the Department.
- Relevant professional or technical experience (at least two years is recommended).

For students with a background in training or education, the major consists of a minimum of 32 semester hours of course work for the thesis option and 36 semester hours for the non-thesis option. For students with backgrounds in fields other than education, two foundation courses (WED 486 and WED 466) are required. These two courses are not counted as part of the required hours for the thesis or non-thesis program. A grade of *B* or higher is required for each course. Program requirements are organized into professional core requirements and specialty area courses. A grade of *B* or higher is required for each professional core course, and a 3.0 GPA is required for the specialty area courses. At least 50% of the courses taken to complete the Master of Science in Education Program must be 500-level.

Professional Core Requirements

For the thesis option, the core consists of four courses (14 hours): WED 560, WED 561, WED 566, and WED 593.

Specialty Area Courses

The component consists of 18 hours (thesis option) or 24 hours (non-thesis option) of course work relevant to a student's career goals. Technical courses, professional courses, and internships may be included. Courses may be taken within the department or in other units of the college or University.

Thesis

In accordance with Graduate School requirements, students in the thesis option must complete a thesis (WED 599) showing evidence of the student's knowledge of research techniques. Upon completion of the thesis, a final oral examination of the research is conducted by the student's advisory committee.

The program of study is individually tailored based upon the student's background, interests, and career goals. Program graduates are employed in career and technical education at the secondary and postsecondary levels and in training positions in such fields as aviation management, business, automotive technology, family and consumer science, industrial management and applied engineering, agricultural education, and career development. In business environments, graduates work in employee/industrial/management training, health care administration, and human resource environments. Graduates also work in various levels of government in such fields as education, military service, and personnel training.

Doctor of Philosophy Degree in Education

Advanced studies leading to the Doctor of Philosophy degree in education with a concentration in workforce education and development is offered through the Department of Workforce Education and Development. The concentration is a broad, general leadership and professional development degree that serves professionals having knowledge, experience, and interests in the fields of: (a) career and technical education; (b) career education; and (c) employment and training, or related fields.

Persons seeking admission to the program must meet all requirements for admission established by: (a) the Graduate School of the University; (b) the College of Education and Human Services; and (c) the Department of Workforce Education and Development. It is required that applicants possess a background of academic and professional experience which will provide a basis for advanced study and research. More specifically, the program is designed for individuals with a background in teaching, program administration, or training and development. Admission to the concentration is determined by a vote of the graduate faculty of the Department of Workforce Education and Development. The Department of Workforce Education and Development will only accept fall admissions applications for the doctoral program.

The program of study consists of 64 hours beyond the master's degree and includes a 6-hour professional seminar sequence in the College of Education and Human Services, at least 9 hours of approved research tools, a 15-hour departmental core, 10 hours of supportive studies, and 24 hours of dissertation credit.

Workforce Education and Development Courses

WED403 - Managing Tech for WED 403-3 Integrating and Managing Technology Applications for Workforce Education & Training. Design of workforce training applications integrating professional advanced features of computer software, communication technologies and multimedia features, including management of educational LAN systems. Restricted to WED majors or consent of department.

WED404 - Apps Technology for WED 404-3 Technology Applications in Workforce Education and Training. Analyses of technology used and demonstration of skill level needed to train others in secondary/postsecondary education and business training environments on technological administrative processes, data management, and curriculum integration. Students will learn advanced computing concepts and applications using integrated software. Prerequisite: WED 403 or equivalent. Restricted to WED majors or consent of department.

WED405 - Multimedia-based Instruction 405-3 Multimedia-based Instruction for Workforce Education. Acquisition of skills to produce multimedia "assets" (web page, audio/sound bytes) and application of instructional design techniques to computer-based instruction in workforce education. Impact of multimedia on workplaces and workforce training and utilization of course management systems to deliver instruction will be analyzed. Prerequisite: WED 404. Restricted to WED majors or consent of department.

WED407 - Admin Commun & Technology 407-3 Administrative Communications and Technology. Application of communication theory, human relations concepts, and information technology to workplace situations. The process of organizational information for productivity will be stressed. Students will acquire skills to make sound decisions of how to best communicate in work-based situations. Students will learn computerized procedures for communication. Prerequisite: WED 404 or equivalent. Restricted to WED majors or consent of department.

WED410 - Issues Business Training Educ 410-3 Issues in Business Training/Education. Study of current issues in business training and education related to history, current status and trends. Organization of instruction, instructional settings, relation to general education, integration and impact of technology, curriculum development/review and evaluation of business training/education impact in the workplace. Restricted to WED majors or consent of department.

WED413 - Org & Dir Instr-CTE 413-3 Organizing and Directing Instruction in Secondary Career and Technical Programs. Techniques and procedures applicable to effective teaching including planning for instruction, instructional design technology and general teaching strategies for the secondary career and technical classroom. This course will study pedagogy and utilize various techniques and technology to help students master the skills needed in their respective careers. Students will learn about and practice various teaching methods including demonstrations, cooperative learning, service learning, integration of academics and technology into the workplace-oriented class, project-based learning, and contextual learning. A laboratory section will be required. Limited to Workforce Education and Development students admitted to the teacher education program or one of the career and technical education alternative certification programs in workforce education. Restricted to WED majors or consent of department.

WED416A - Inst Methods-Business 416A-3 Instructional Methods in Career and Technical Education. Specific methods, techniques and materials to deliver instruction in (a) Business-accounting, basic business, economics, personal finance, marketing, entrepreneurship. This course requires an additional laboratory meeting time. Prerequisite: WED 413 or WED 462. Restricted to WED majors or consent of department.

WED416B - Inst Mthds-Busi Comp Sys, Etc. 416B-3 Instructional Methods in Career and Technical Education. Specific methods, techniques and materials to deliver instruction in (b)-Business-business computer systems, information processing, keyboarding. This course requires an additional laboratory meeting time. Prerequisite: WED 413 or WED 462. Restricted to WED majors or consent of department.

WED416C - Inst Mthds-Family/Consumer Sci 416C-3 Instructional Methods in Career and Technical Education. Specific methods, techniques and materials to deliver instruction in (c) Family & Consumer

Sciences-nutrition, wellness, and hospitality. This course requires an additional laboratory meeting time. Prerequisite: WED 413 or WED 462. Restricted to WED majors or consent of department.

WED416D - Inst Mthds-F/C Sci-Liv Env/App 416D-3 Instructional Methods in Career and Technical Education. Specific methods, techniques and materials to deliver instruction in (d) Family & Consumer Sciences-living environments, apparel, and textiles. This course requires an additional laboratory meeting time. Prerequisite: WED 413 or WED 462. Restricted to WED majors or consent of department.

WED416E - Inst Mthds-Health Careers 416E-3 Instructional Methods in Career and Technical Education. Specific methods, techniques and materials to deliver instruction in (e) Health Careers. This course requires an additional laboratory meeting time. Prerequisite: WED 413 or WED 462. Restricted to WED majors or consent of department.

WED416F - Inst Mthds-Technology Educ 416F-3 Instructional Methods in Career and Technical Education. Specific methods, techniques and materials to deliver instruction in (f) Technology Education. This course requires an additional laboratory meeting time. Prerequisite: WED 413 or WED 462. Restricted to WED majors or consent of department.

WED420 - FCS Profession 420-3 Family and Consumer Sciences Profession. A social, psychological, and philosophical interpretation of family and consumer sciences in today's world. Examination of the profession's history, theory and foundation. Overview of career areas and identification of goals and competencies which serve as a basis for decisions to prepare for a wide variety of business, education, and human services-related careers.

WED426 - Living Environ/Facility Plan 426-3 Living Environment and Facility Planning. This course is designed to provide students with resources, activities, and experiences to learn and prepare to teach principles and elements of design as applied to interior design of residential, commercial, and public space environments including textiles, furnishings, and color. Emphasis is on creating a more knowledgeable consumer with focus on project-based implementation and recognition of design principles.

WED427 - Resource Mgmt/Consumer Econ 427-3 Resource Management and Consumer Economics for Work and Life. Focus on utilizing resources and consumer information to address the diverse needs and goals of individuals in areas such as resource management, home ownership, and financial literacy.

WED460 - Occ Analysis & Curr Dev 460-3 Occupational Analysis and Curriculum Development. System approach to curriculum development. Includes analyzing occupations, specifying objectives and developing curriculum. Restricted to WED majors or consent of department.

WED461 - Workforce Educ Needs Assess 461-3 Workforce Education Needs Assessment Overview of needs assessment and analysis procedures used in workforce education environments. Learners will design and develop needs assessment instruments, collect and diagnose data to identify those workplace performance issues requiring training solutions, and develop a formal report detailing needs assessment findings and training solution recommendations. Restricted to WED majors or consent of department.

WED462 - Instruct Methods & Materials 462-3 Instructional Methods and Materials. Instructional methods in occupational training program. Restricted to WED majors or consent of department.

WED463 - Assess Learner Performance 463-3 Assessment of Learner Performance. Development and use of evaluation instruments to assess student performance in training classrooms and laboratories. Criterion- and norm-referenced objectives, applications of taxonomies in development of written tests, performance tests and attitude measure. Restricted to WED majors or consent of department.

WED465 - The Human Resource Specialist 465-3 The Human Resource Specialist. This course provides an overview of the theoretical frameworks and practices related to human resource management and development. Examines the strategic alignment of human resource functions with organizational goals. Restricted to WED majors or consent of department.

WED466 - Foundations of Workforce Educ 466-3 Foundations of Workforce Education. Examination of the historical, social, economic and psychological foundations of workforce education. Nature and role of

education and training in preparing people for the world of work. Restricted to WED majors or consent of department.

WED467 - Theory and Practice of HRD 467-3 Theory and Practice of HRD. Students will examine different factors that influence, direct and shape the functions of human resource development (HRD) in organizations. Topics include models, theoretical foundations, and philosophical perspectives with HRD, an overview of the HRD functions within organizations, and the various roles HRD can play within organizations. Restricted to WED majors or consent of department.

WED468 - Educ/Labor Force Linkages 468-3 Education/Labor Force Linkages. Attention given to the following areas: overcoming barriers to the linkage process; developing effective lines of communication; resource sharing; conducting joint problem solving with other agencies and individuals within the community; and jointly developing and providing programs and services. Restricted to WED majors or consent of department.

WED469 - Training Systems Management 469-3 Training Systems Management. Insight and understanding of administration and management of organizational training. Principles and techniques of managing training organizations. Process of planning, organizing, marketing, programming, staffing, budgeting and evaluating a training organization. Restricted to WED majors or consent of department.

WED470 - Quality Systems Mgmt in Educ 470-3 Trends and Issues in Quality Systems Management in Education. This course provides an overview of the economic basis of and trends and issues relevant to Quality Systems Management in Education. The course examines compliance models and criteria models for quality systems. Concentration will be on ISO 9000:2000 series model requirements with specific emphasis on internal audits, documentation, implementation and registration. Restricted to WED majors or consent of department.

WED472 - Organizing Cooperative Educ 472-3 Organizing Cooperative Education. Introduction to cooperative education including history, rationale, legislation, goals and objectives. Programming, public relations and evaluation of cooperative education. Introduction of student selection and management of cooperative education programs. Fulfills three semester hours of six required for State of Illinois certification. Restricted to WED majors or consent of department.

WED473 - Coordinating Cooperative Educ 473-3 Coordinating Cooperative Education. Competencies required for coordination of cooperative education programs. Selection and maintenance of training stations, student placement, related instruction and program management. Fulfills the remaining three semester hours required for State of Illinois Certification. Restricted to WED majors or consent of department.

WED474 - Prepare Instructional Mtrls 474-3 Preparing Instructional Materials. Preparation of instructional materials needed by a student to attain a learning objective. Includes writing and developing various types of instruction sheets, presentation guides, knowledge tests and demonstration, practice and performance evaluation materials. Prerequisite: WED 460 completed with a grade of C or better or consent of the instructor.

WED486 - Adult Learning 486-3 Adult Learning. Course focus is on adult development and learning principles. Adult learning styles and motivation to learn are discussed in the context of designing effective instructional strategies appropriate in various workforce education venues. Restricted to WED majors or consent of department.

WED490 - Readings 490-1 to 4 Readings. Supervised reading for qualified students in Workforce Education and Development. Restricted to WED majors or consent of department. Special approval needed from the instructor.

WED491 - Advanced Occupational Skills 491-1 to 5 Advanced Occupational Skills. Modern occupational practice in selected fields for experienced professionals seeking advanced techniques. Restricted to WED majors or consent of department. Special approval needed from the instructor.

WED494 - Workshop 494-1 to 4 Workshop. Current workforce education issues for teachers, supervisors, and administrators. Emphasis of each workshop will be identified in workshop announcements. Restricted to WED majors or consent of department.

WED497 - Practicum 497-1 to 6 Practicum. Applications of work education skills and knowledge. Cooperative arrangements with corporations and professional agencies to study under specialist. Prerequisite: twenty hours in specialty. Restricted to WED majors or consent of department.

WED498 - Special Problems 498-1 to 6 Special Problems. Investigation of problems in workforce education and development. Restricted to WED majors and consent of department. Special approval needed from the instructor.

WED504 - Multimedia Prod for WED 504-3 Multimedia Production Technologies in Workforce Education. Application of multimedia technologies-graphics, text, video, audio, on-screen buttons and other event triggers--into workforce education delivery systems. Students will work as a team in designing, developing, editing, and delivering interactive multimedia instructional training products. Prerequisite: WED 405. Restricted to WED majors or consent of department.

WED505 - Multimedia Delivery by Dist Ed 505-3 Multimedia Delivery of Workforce Education by Distance Learning. Focuses on the use of distance learning and multimedia technologies in the delivery of instruction of workforce education and development settings. Course participants will design and deliver instruction for the distance education environment-individually and in groups. Advanced video conference technologies are emphasized. Prerequisite: WED 404 or equivalent. Restricted to WED majors or consent of department.

WED511 - Inst Trends in WED Programs 511-3 Instructional Trends in Workforce Education Programs. Examination of research relating to instructional emphases and strategies unique to career and technical training programs, corporate training programs, and adult education. Restricted to WED majors or consent of department.

WED551 - Employment Law in HRD 551-3 Employment Law in Human Resource Development. Examines current and practical information in the area of employment law as it relates to human resource development in organizations. Focus is on helping organizations avoid liability through HRD interventions. Restricted to Workforce Education and Development majors or consent of department.

WED552 - Talent Acqstn & Total Reward 552-3 Talent Acquisition and Total Reward System. Overview of the theoretical frameworks and practice related to recruitment, selection and compensation. Examines impact of these HR theories and practice on human resource development in organizations. Prerequisite: WED 465, The Human Resource Specialist. Restricted to WED majors.

WED553 - Emerging Trends in HRD 553-3 Emerging Trends in HRD. Examination of current topics and research issues in the field of Human Resource Development not covered in other regularly scheduled courses. Emphasis will be on recent and present issues in the field, with topics and discussions focused on links between research and practice. Prerequisite: WED 465, The Human Resource Specialist. Restricted to WED majors or consent of department.

WED560 - Intro to WED Research 560-3 Introduction to Workforce Development Research. This course provides an exploration of the scope, values, and purposes of research in workforce development. Focus is on (a) identifying how theory and research are practical tools to solve workforce development challenges that practitioners face on a daily basis; (b) analyzing research articles, and (c) developing academic writing skills. Restricted to WED majors or consent of department.

WED561 - Research Methods 561-3 Research Methods. Basic research methods and techniques in the design, investigation and reporting of research studies relating to education for work. Prerequisite WED 560. Restricted to WED majors or consent of department.

WED563 - Training Measurmnt/Evaluation 563-3 Training Measurement and Evaluation. Evaluation systems and activities for evaluating training programs. Application of research methods and data analysis in the human resource development process, with concentration on assessing trainee reaction and planned action, learning, skill, business impact and return on training investment. Prerequisite: WED 463. Restricted to WED majors or consent of department.

WED564 - Program Eval for WED 564-3 Program Evaluation for Work Education. Evaluation systems and activities for evaluating national, state, and local work education programs. Systems include programmatic accreditation and state agency evaluations. Activities include personnel, facilities, access

and equity, community resources and community needs evaluations. Restricted to WED majors or consent of department.

WED566 - Administration & Supervision 566-3 Administration and Supervision. Nature, function, and techniques of administration and supervision of education for work programs at all levels. Restricted to WED majors or consent of department.

WED574 - Occupational Information 574-3 Occupational Information. The role of instructional and supervisory personnel in the total occupational information system. Kindergarten to adult. Restricted to WED majors or consent of department.

WED576A - Policy Implement & Supervise 576A-3 Policy Implementation and Supervision-Objective Program Planning, Leadership, Communications. Planning, implementing, and controlling local education agency components of state and federal occupational programs. Restricted to WED majors or consent of department.

WED576B - Policy Implement & Supervise 576B-3 Policy Implementation and Supervision-Management Information Systems, Financial Decisions, Staffing Patterns. Planning, implementing, and controlling local education agency components of state and federal occupational programs. Restricted to WED majors or consent of department.

WED581 - Workforce Diversity 581-3 Workforce Diversity. Foundational information concerning a diverse/multicultural society. Importance of understanding cultural and demographic similarities/differences and how this information relates to the workplace and to education/training environments. Social diversity issues of current importance to workforce preparation and development of diversity training are included. Restricted to WED majors or consent of department.

WED584 - Curriculum Found for Work Educ 584-3 Curriculum Foundations for Work Education. Acquaints students with different factors that influence, direct, and shape curriculum as it pertains to the work-oriented aspects of school and society. Topics include law and the curriculum, philosophies and organizational models, differing approaches by grade level and setting, and the development of work-related curriculum. Restricted to WED majors or consent of department.

WED585A - Seminar in WED-Fac Div Initvs 585A-3 Seminar in Workforce Education and Development-Facilitating Diversity Initiatives. A series of seminars for scholarly inquiry into significant aspects of Workforce Education and Development. Students will have opportunity to discuss issues in facilitating diversity initiatives. Restricted to WED majors or consent of department.

WED585B - Seminar in WED-Resrch-Practice 585B-3 Seminar in Workforce Education and Development-Workforce Education Research to Practice. A series of seminars for scholarly inquiry into significant aspects of Workforce Education and Development. Students will have opportunity to discuss issues in Workforce Education research to practice. Restricted to WED majors or consent of department.

WED585C - Seminar-WED-Discuss Tch/Train 585C-3 Seminar in Workforce Education and Development-Discussion as a Method of Teaching and Training Adults. A series of seminars for scholarly inquiry into significant aspects of Workforce Education and Development. Students will have opportunity to discuss issues in discussion as a method of teaching and training adults. Restricted to WED majors or consent of department.

WED585D - Seminar in WED-Job Stress 585D-3 Seminar in Workforce Education and Development-Job Stress. A series of seminars for scholarly inquiry into significant aspects of Workforce Education and Development. Students will have opportunity to discuss issues in job stress. Restricted to WED majors or consent of department.

WED585E - Seminar in WED-Work Motivation 585E-3 Seminar in Workforce Education and Development-Work Motivation. A series of seminars for scholarly inquiry into significant aspects of Workforce Education and Development. Students will have opportunity to discuss issues in work motivation. Restricted to WED majors or consent of department.

WED586 - Dev Prgm for Adult Learners 586-3 Developing Program for Adult Learners. Overview of current organizational patterns of adult programs and analysis of program delivery systems. Students

will develop advanced skills in planning and designing programs for adults in workforce education environments. Prerequisite: WED 486. Restricted to WED majors or consent of department.

WED590 - Readings 590-1 to 9 Readings. Supervised readings in selected advanced subjects. Restricted to WED majors or consent of department. Special approval needed from the instructor.

WED591 - New Developments 591-1 to 9 New Developments. Recent developments and trends in various aspects of education for work. Instruction provided by recognized authorities. Restricted to WED majors or consent of department.

WED592 - Current Issues & Research 592-3 Current Issues and Research. Examination of broad topics, issues, and research not covered in other regularly scheduled courses. Emphasis will be on recent and present issues, which are in the process of evolving. Content will be selected from three primary professional fields: (a) Vocational/technical education, (b) Employment and training, and (c) Career education. Required of all Ph.D. students. Restricted to WED majors or consent of department.

WED593 - Individual Research 593-3 Individual Research. The selection and investigation of a research topic culminating in a paper satisfying the research requirement for a Master of Science in Education degree. Prerequisite: WED 561. Restricted to Workforce Education and Development majors or consent of department.

WED594 - Advanced Research Methods 594-3 Advanced Research Methods. Development of research competencies and preparation of proposal for thesis or dissertation research. Familiarity with research in various foundation areas of education for work. Prerequisite: WED 592. Restricted to WED majors or consent of department.

WED595 - Professional Internship 595-1 to 16 Professional Internship. Supervised professional experience in appropriate educational settings. May be done on- or off-campus. Restricted to WED majors or consent of department.

WED597A - Doctoral Seminar 597A-1 Doctoral Seminar in Workforce Education-Orientation to Doctoral Study. Designed to provide doctoral students the opportunity to discuss and practice major professional roles in workforce education and development. Requirements of teaching, research, publication, and service are defined. Students will accomplish identified professional expectations in orientation to doctoral study. Restricted to admission to the Ph.D. in education program. Restricted to WED majors or consent of department.

WED597B - Doctoral Seminar 597B-1 Doctoral Seminar in Workforce Education-Research Publications and Presentations. Designed to provide doctoral students the opportunity to discuss and practice major professional roles in workforce education and development. Requirements of teaching, research, publication, and service are defined. Students will accomplish identified professional expectations in Research Publications and Presentations. Restricted to admission to the Ph.D. in education program. Restricted to WED majors or consent of department.

WED597C - Doctoral Seminar 597C-1 Doctoral Seminar in Workforce Education-Grantmanship. Designed to provide doctoral students the opportunity to discuss and practice major professional roles in workforce education and development. Requirements of teaching, research, publication, and service are defined. Students will accomplish identified professional expectations in grantmanship. Restricted to admission to the Ph.D. in education program. Restricted to WED majors or consent of department.

WED598 - Special Investigations 598-1 to 6 Special Investigations. Selection and investigation of a problem: use of relevant sources and techniques; collection and analysis, evaluation, interpretation of data, and the writing of a report of the investigation for students whose particular needs are not met by existing classes. Restricted to WED majors or consent of department. Special approval needed from the instructor.

WED599 - Thesis 599-1 to 6 Thesis. Prerequisite: WED 561. Restricted to WED majors or consent of department.

WED600 - Dissertation 600-1 to 36 (1 to 12 per semester) Dissertation. Restricted to WED majors or consent of department.

WED601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only. Restricted to WED majors or consent of department.

WED699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Workforce Education and Development Faculty

Anderson, Marcia, Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1975; 1970.

Bailey, Larry J., Professor, *Emeritus*, Ed.D., University of Illinois, 1968; 1969.

Bortz, Richard F., Professor, *Emeritus*, Ph.D., University of Minnesota, 1967; 1977.

Buila, Theodore, Associate Professor, *Emeritus*, Ph.D., Cornell University, Ithaca, NY, 1968; 1968.

Hagler, Barbara, Professor, *Emerita*, Ph.D., Arizona State University, 1991; 1987.

Putnam, Alvin R., Associate Professor, *Emeritus*, Ed.D., Oklahoma State University, 1978; 1997.

Reneau, Fred W., Professor, *Emeritus*, Ed.D., Virginia Polytechnic Institute and State University, 1979; 1979.

Ridley, Samantha Sue, Assistant Professor, *Emerita*, M.S., Southern Illinois University Carbondale, 1959; 1964.

Rosenbarger, Maxine, Associate Professor, *Emerita*, Ph.D., Southern Illinois University Carbondale, 1970; 1973.

Shields, Bill, Assistant Professor, *Emeritus*, M.S., Southern Illinois University, 1962. 1962.

Stadt, Ronald W., Professor, *Emeritus*, Ed.D., University of Illinois, 1962; 1967.

Stitt, Thomas R., Professor, *Emeritus*, Ph.D., Ohio State University, 1967; 1967.

Sullivan, James A., Professor, *Emeritus*, Ed.D., West Virginia University, 1967; 1968.

Washburn, John S., Professor, *Emeritus*, Ed.D., University of Illinois, 1977; 1986.

Zhong, Lin, Assistant Professor, Ph.D., University of Southern Mississippi, 2015; 2016. Instructional technology; instructional design; multimedia platforms; digital leadership; digital technology.

Zoology

The School of Biological Sciences offers graduate programs in Zoology leading to the Professional Science Masters, Master of Science, and Doctor of Philosophy degrees. The Professional Science Masters is awarded on the basis of demonstrated scholarship, with emphasis on basic ecological knowledge, managing habitat for wildlife, and constituent consensus building. The Master of Science and Doctor of Philosophy degrees are awarded on the basis of demonstrated scholarship, with an emphasis on the ability to organize, conduct, and report original research. The department's graduate program is organized around five disciplinary areas: ecology & ecosystem studies; environmental toxicology; evolution, genetics, and population biology; fisheries biology & aquaculture; and wildlife ecology & management. These research groups draw heavily upon the expertise of faculty members affiliated with SIU's Center for Fisheries, Aquaculture, and Aquatic Sciences, Cooperative Wildlife Research Laboratory, and Center for Ecology. Graduate research in Zoology is facilitated by SIU's geographic location, notably its proximity to extensive national forests, wildlife refuges, state parks, and other natural areas of diverse physiography.

Admission

Application forms can be obtained via the departmental webpage (zoology.siu.edu/graduate/apply/). A completed departmental application includes: the form, transcripts of all previous college credits, an official score report for the Graduate Record Examination (GRE) General Test, and three letters of evaluation that address the applicant's academic abilities. A nonrefundable application fee must be submitted with the departmental application form. Applicants pay this fee when applying electronically to the Graduate School. Students who wish to be considered for a University fellowship must have a complete application on file by December 1. There are no other application deadlines, but early contact with the department is encouraged.

Applicants for P.S.M., M.S. and Ph.D. programs must fulfill all admissions requirements of the Graduate School. Inquiries about Zoology graduate programs should be made to the Director of Graduate Studies in Zoology. More information is available on the department's website (zoology.siu.edu/graduate/index.php). Prospective applicants are strongly encouraged to make contact with faculty members in their area of research interest prior to submitting an application.

Applicants to the P.S.M. program must possess the following academic background: 24 semester hours (or equivalent) in courses covering the basic principles of zoology (including animal diversity, ecology, and evolution); 9 credit hours of physical sciences (physics, chemistry, soil science, geology — at least 2 disciplines must be represented); one year of college mathematics including college algebra and trigonometry (calculus and statistics are also desirable); be within 6 credit hours of meeting class requirements for a Certified Wildlife Biologist (details can be found on The Wildlife Society web page (wildlife.org/) after completion of program course requirements; an undergraduate grade point average of at least 3.0 (A=4.0). Applicants that do not meet these requirements will be considered on individual merit.

Applicants to the master's program must possess the following academic background: 24 semester hours (or equivalent) in courses covering the basic principles of zoology (including animal diversity, genetics, ecology, and evolution); one year of college chemistry (organic and biochemistry are also desirable); one year of college mathematics including college algebra and trigonometry (calculus and statistics are also desirable); an undergraduate grade point average of at least 2.70 (A=4.0). Applicants with a GPA less than 2.70 will be considered on individual merit.

Applicants for the doctoral degree must have a solid background in biological science, hold a master's degree, and have a grade point average in graduate work of 3.25 or above. Applicants with a graduate GPA less than 3.25 will be considered on individual merit. Direct entry to the doctoral program for students with only a bachelor's degree, or accelerated entry from the master's program, is possible for students demonstrating exceptional potential.

Advisement and Progress Toward Degree

During the admission process and prior to registration, a student should consult with faculty members representing his or her area of interest to identify an advisor. Advisors will be assigned formally by the Director of Graduate Studies upon admission. A change in advisor later in the program must be coordinated and approved by the Director of Graduate Studies.

Each M.S. student, in consultation with the advisor, must assemble an advisory committee to be approved by the Director of Graduate Studies before the end of the first semester of enrollment. For the M.S. degree, the committee shall consist of at least three graduate faculty members, one of whom may be from outside the department, with the advisor serving as chair. For the doctoral degree, the advisory committee shall consist of five graduate faculty members, one of whom must be from outside the department, with the advisor serving as chair. A program of study must be approved by the advisory committee and submitted to the Director of Graduate Studies no later than second semester of enrollment. A research proposal must be approved by the advisory committee and submitted to the Director of Graduate Studies no later than the third semester. Students may not register for ZOOL 599 or ZOOL 600 before their proposal is approved.

Professional Science Masters

All requirements of the Graduate School must be satisfied. At least 30 hours of graduate credit (13 hours at the 500 level) is required beyond the bachelor's degree, including 24 hours of graded courses required by the program. A grade point average of 3.2 in graduate coursework must be maintained. Failure to meet this requirement will result in academic probation.

A capstone project consisting of a grant proposal presented to the agency providing the summer internship and approved by the Program Director must be completed prior to graduation.

Master of Science Degree

All requirements of the Graduate School must be satisfied. At least 30 hours of graduate credit (15 hours at the 500-level) is required beyond the bachelor's degree, including 21 hours of graded coursework, two hours of ZOOL 589, six hours of ZOOL 599, and two or more courses in a specific area representing the research tool. A grade point average of 3.00 in graduate coursework must be maintained. Failure to meet this requirement will result in academic probation and loss of financial support from the department.

Thesis

Students must prepare and defend a thesis based on the results of original research. The nature of the research is developed by the student in consultation with the advisor and advisory committee. The thesis is evaluated by the advisory committee and must be successfully defended before graduation. The defense consists of a presentation of thesis results in public seminar, followed by a closed session of oral evaluation by the advisory committee. A final version of the thesis must be approved by the advisory committee, the Director of Graduate Studies, the Department Chair, and the Graduate School. M.S. candidates must follow all Graduate School procedures in applying for graduation and deposit one bound copy of their thesis with the department.

Doctor of Philosophy Degree

All requirements of the Graduate School must be satisfied. Students entering the doctoral program are expected to have taken courses in the broad areas of animal diversity & evolution, ecology, and cell biology & genetics. Admission to the Ph.D. program requires two courses in two of these areas and three courses in the third. Students may be admitted with deficiencies, but must acquire the necessary coursework as part of their doctoral studies.

There is no minimum credit-hour requirement beyond the Graduate School's residency and dissertation requirements. A student, in consultation with his or her advisory committee, prepares a program of study that includes courses (including two semesters of ZOOL 589), seminars, and research. A research tool, consisting of at least two courses in a specific subject area, is required. A 3.25 grade point average in graduate coursework must be maintained. Failure to meet this requirement will result in loss of financial support from the department.

Preliminary Examinations

Written and oral examinations are taken after the tool requirement and major portion of any other formal coursework are completed, usually at the end of the second year of graduate study. The examinations focus on the student's area of research expertise as defined by the student, the advisor, and the advisory committee, and approved by the Director of Graduate Studies and the Department Chair. Administration and evaluation of these examinations is governed by the department's Preliminary Examination Policy. Students must pass both preliminary examinations to advance to candidacy.

Dissertation

Students must prepare and defend a dissertation based on the results of original research. The nature of the research is developed by the student in consultation with the advisor and advisory committee.

Students must register for at least 24 hours of ZOO 600 Research and Dissertation (only six hours are permitted prior to candidacy). The dissertation is evaluated by the advisory committee.

Final Examination

With the approval of the advisory committee, the candidate requests the Director of Graduate Studies to schedule a dissertation defense. The defense consists of a presentation of dissertation results in a public seminar, followed by a closed session of oral evaluation of the student's dissertation research by the advisory committee. A final version of the dissertation must be approved by the advisory committee, the Director of Graduate Studies, the Department Chair, and the Graduate School.

Graduation

Ph.D. candidates must follow all Graduate School procedures in applying for graduation and deposit one bound copy of their dissertation with the department.

Concentration in Ecology

Students opting to declare Ecology as a concentration shall follow the same program as students in the Zoology Ph.D. degree program that do not declare a concentration subject to the following: The Seminar in Ecology (PLB 589A) or equivalent (equivalent agreed upon by the student's committee) must be taken once each year until a student achieves candidacy. The research tool shall be statistics. The student's advisory committee shall consist of at least two members from outside the Department of Zoology.

Zoology Courses

ZOOL405 - Systematic Biology 405-3 Systematic Biology. Estimation, analysis, and interpretation of phylogenetic trees; concepts, delimitation, and description of species; biological taxonomy and systems of classification; application of phylogenetics to the study of evolution. Prerequisites: BIOL 304; MATH 106 or 108 with grades of C or better.

ZOOL407 - Parasitology 407-4 Parasitology. Principles, collection, identification, morphology, life histories, and control measures. Two lectures and two 2-hour laboratories per week. Prerequisite: ZOO 220 with a grade of C or better. Laboratory/Field Trip fee: \$15.

ZOOL408 - Herpetology 408-3 Herpetology. Taxonomic groups, identification, morphology, and natural history of amphibians and reptiles. Two lectures and one 2-hour laboratory per week. Prerequisite: ZOO 220 with a grade of C or better. Laboratory/Field Trip fee: \$15.

ZOOL409 - Vertebrate Histology 409-4 Vertebrate Histology. Microscopic structure of organs and tissues with emphasis on mammalian material. Two lectures and two 2-hour labs per week. Prerequisite: ZOO 220A,B or ZOO 220. Laboratory/Field Trip fee: \$15.

ZOOL410 - Conservation Biology 410-3 Conservation Biology. An introduction to patterns of global biodiversity and threats to that diversity. Course emphasizes how principles from numerous biological disciplines are involved in conserving and managing biodiversity, and how social, economic, and political factors affect conservation strategies. Prerequisites: BIOL 307 and MATH 106 or 108 with grades of C or better.

ZOOL411 - Environmental Risk Assessment 411-3 Environmental Risk Assessment. Risk assessment can be defined as the process of assigning magnitudes and probabilities to the adverse effects of human activities or natural catastrophes. Prerequisites: BIOL 307 and CHEM 340 with grades of C or better.

ZOOL413 - The Invertebrates 413-4 The Invertebrates. Structure, phylogeny, distinguishing features and habitats of the invertebrates. Two lectures and two 2-hour laboratories per week. Prerequisite: ZOO 220A or ZOO 220. Laboratory/Field Trip fee: \$15.

ZOOL414 - Freshwater Invertebrates 414-4 Freshwater Invertebrates. Taxonomic groups, identification, distribution, and habitats of the North American freshwater invertebrate fauna. Two lectures, two 2-hour laboratories per week. Prerequisite: ZOOL 220A or ZOOL 220. Laboratory/Field Trip fee: \$15.

ZOOL415 - Limnology 415-3 Limnology. (Same as PLB 416) Lakes and inland waters; the organisms living in them, and the factors affecting these organisms. Two lectures and one 4-hour laboratory alternate weeks. Prerequisite: BIOL 307 with a grade of C or better. Laboratory/Field Trip fee: \$15.

ZOOL418 - Vertebrate Anatomy Lab 418-3 Vertebrate Anatomy Laboratory. Comparative anatomy and dissection of representative vertebrate specimens. Three 2-hour laboratories per week. Prerequisite: ZOOL 220 with a grade of C or better. Prior or concurrent registration in ZOOL 320 recommended. Laboratory fee: \$50.

ZOOL425 - Invertebrate Paleo & Paleoecol 425-3 Invertebrate Paleontology and Paleoecology. (Same as GEOL 425) Concepts of paleontology and paleoecology. Emphasis on functional morphology, lifestyles and habitats of fossil invertebrates and algae. The nature and evolution of marine and coastal paleocommunities. The effects of extinction events on paleocommunities and biodiversity. Laboratory. Field trips required. Prerequisite: GEOL 325 or ZOOL 220 with grade of C or better. Expense will vary in proportion to distance traveled and locations visited and will be determined before each semester. Field trip fee not to exceed \$199.

ZOOL426 - Comparative Endocrinology 426-3 Comparative Endocrinology. (Same as ANS 426, PHSL 426) Comparison of mechanisms influencing hormone release, hormone biosynthesis, and the effects of hormones on target tissues, including mechanisms of transport, receptor kinetics, and signal transduction. Prerequisites: ANS 331 or ZOOL 220 or PHSL 310 with a grade of C. Laboratory/Field Trip fee: \$15.

ZOOL432 - Principles of Toxicology 432-3 Principles of Toxicology. This course will introduce students to the main topics in the field of toxicology. The emphasis will be on understanding physiological, biochemical, and molecular mechanisms of toxicity. Prerequisites: BIOL 200A and BIOL 200B; or BIOL 211, BIOL 212, and BIOL 213; with grades of C or better.

ZOOL433 - Comparative Animal Physiology 433-3 Comparative Animal Physiology. (Same as PHSL 433) Variations of physiological processes in animal phyla, comparison with human physiology, and physiological adaptation to environmental variation. Review of basic physiological principles and comparative aspects of mechanism and function. Prerequisites: BIOL 200A or BIOL 211; BIOL 200B or BIOL 213, or PHSL 310; with grades of C or better.

ZOOL434 - Environmental Physiology 434-3 Environmental Physiology. Physiological adaptations to environmental conditions in animals and humans. Lab/lecture course explores molecular, hormonal, immunological, developmental, and phenotypic processes mediating responses to factors such as stress, disease, contaminants, nutrition, and life history trade-offs. Prerequisite: BIOL 307 or PHSL 310 or ZOOL 433 with a grade of C or better. Laboratory/field trip fee: \$20.

ZOOL435 - Pollination Ecology 435-3 Pollination Ecology. (Same as PLB 435) This course will be an evolutionary and ecological examination of the interactions between plants and pollinators. Topics include pollination syndromes, plant breeding systems, pollinator foraging, learning, and behavior, specialized vs. generalized relationships, coevolution/cospeciation, chemical ecology, honey beekeeping & agricultural pollination, and conservation implications of pollinator relationships. Labs will provide hands-on experience in methods of investigating plant breeding systems, plant reproductive ecology, pollinator behavior and efficacy, pollen analysis, floral scent chemistry, and floral phenology. Prerequisite: BIOL 307 (General Ecology) or equivalent with a grade of C or better. For graduate students and senior undergraduates. Lab fee: \$75.

ZOOL438 - Molecular Genetics Lab 438-3 Plant and Animal Molecular Genetics Laboratory. (Same as PLB 438, PSAS 438, AGSE 438, CSEM 438) Arabidopsis and Drosophila model organisms, training in laboratory safety, reagent preparation, phenotype analysis, genetics, DNA and RNA analysis, PCR, cDNA construction, cloning and sequencing. Includes plant and bacterial transformation, and population level analysis of genetic variation using RAPD markers in grasses and Alu insertion in humans. Two 2-hr labs and one 1-hr lecture per week. Prerequisite: BIOL 305 or equivalent or consent of instructor. Lab fee: \$30.

ZOOL440 - Wildlife Nutritional Ecology 440-3 Wildlife Nutritional Ecology. This course will provide an understanding of basic nutritional principles (including foraging, digestion, absorption, metabolism, and requirements), demonstrate their application to ecological relationships of wild terrestrial vertebrates with their environment, and stimulate students to critically evaluate published literature in this field of study. Prerequisite: BIOL 307.

ZOOL443 - Restoration Ecology 443-3 Restoration Ecology. (Same as PLB 443) Ecological restoration tests current understanding of ecosystem assembly and function. This course applies ecological theory to restoration, with an emphasis on factors influencing plant community assembly and evaluating restoration success. Two lectures a week and one four-hour lab alternate weeks. Prerequisite: BIOL 307 or equivalent.

ZOOL444 - Ecological Analysis Communities 444-4 Ecological Analysis of Communities. (Same as PLB 444) Includes concepts and methods pertaining to the analysis of ecological data. Approaches will include a variety of methods for analyzing multivariate ecology, diversity, pattern, and spatial data. Laboratory will include the computer application of these concepts and methods to field situations. Two lectures and one 4 hour lab per week. Prerequisite: PLB/ZOOL 360, BIOL 307. Lab fee: \$15.

ZOOL445 - Wetland Ecology & Mgmt 445-3 Wetland Ecology and Management. (Same as PLB 445) This course provides students with experience in wetland ecology and management with an emphasis on wetland functioning, field sampling, and identification of common wetland plants. Prerequisite: either BIOL 200B or BIOL 213 or PLB 200; and BIOL 307; or consent of instructor. Two lectures and one 4-hour lab per week. Lab fee: \$25.

ZOOL450 - Molecular Evolution 450-3 Molecular Evolution. This course introduces the diversity of genomes and the evolutionary forces shaping them. Molecular evolution from the level of single nucleotides to whole genomes will be covered. Prerequisites: BIOL 304 and BIOL 305 with grades of C or better.

ZOOL458 - Multiple Stressors in Ecology 458-3 Multiple Stressors in Ecology. In this class, students will use a step-by-step approach to evaluate an environmental issue or human concern compounded by climate change. The evaluation will begin with a conceptual model of the problem, followed by planned management strategies based on collaborative decision making. The class is designed to foster quantitative reasoning, include that reasoning in research, and articulate findings in terms that foster collaborative management and outreach. Examples of potential projects include climate change impacts in concert with disease propagation, habitat quality and quantity, pollutant uptake in ectotherms, coral bleaching, changing human coastal communities, or fire incidence.

ZOOL461 - Mammalogy 461-3 Mammalogy. Taxonomic characteristics, identification, and natural history of mammals. Two 1-hour lectures and one 2-hour laboratory per week. Prerequisite: ZOOL 220B or ZOOL 220. Laboratory/Field Trip fee: \$10.

ZOOL462A - Waterfowl Ecology 462A-2 Waterfowl Ecology and Management (Lecture). This class will explore the pertinence of basic life history theory and ecological principles to waterfowl management. Lecture topics include but are not limited to waterfowl life histories (i.e., productivity and mortality), foraging ecology, nutrition, habitat use, habitat management, migration, and the influence of harvest. Prerequisites: ZOOL 220, BIOL 307 with minimum grades of C. Co-requisite: ZOOL 462B.

ZOOL462B - Waterfowl Laboratory 462B-1 Waterfowl Ecology and Management (Laboratory). This laboratory will meet 1 day/week for 2 hours. The primary objective will be waterfowl identification with a secondary emphasis on wetland plant identification and field techniques in waterfowl research and management. There will be 2-3 Saturday field trips. Prerequisites: none. Laboratory/field trip fee: \$20.

ZOOL464 - Wildlife Admin & Policy 464-3 Wildlife Administration and Policy. Responsibilities of private, state, and federal natural resources management agencies. Legal and political processes in areas of wildlife and natural resources. Three lectures per week. Special approval needed from the instructor.

ZOOL465 - Ichthyology 465-3 Ichthyology. Anatomy, physiology, sensory biology, behavior, taxonomy, evolution, zoogeography, and ecology of fishes. Two lectures and one 2-hour laboratory per week. Prerequisite: ZOOL 220 with a grade of C or better. Laboratory/Field Trip fee: \$10.

ZOOL466 - Fish Management 466-3 Fish Management. Sampling, age and growth, dynamics, habitat improvement, manipulation of fish populations, and management of freshwater and marine fish stocks. Two lectures per week and one 4-hour laboratory alternate weeks. Offered Fall term. Prerequisite: 10 hours of biological science or consent of instructor.

ZOOL467 - Ornithology 467-3 Ornithology. Classification and recognition of birds and the study of their songs, nests, migratory habits, and other behavior. One lecture and one four-hour laboratory per week. Prerequisite: ZOOL 220B or ZOOL 220. Laboratory/Field Trip fee: \$10.

ZOOL468 - Wildlife Biology Principles 468-3 Wildlife Biology Principles. Basic concepts of wildlife ecology and management. Includes lectures on ecological physiology, population dynamics, and wildlife management strategies. Prerequisite: ZOOL 220, BIOL 307.

ZOOL469 - Wildlife Techniques 469-3 Wildlife Techniques. Field-oriented course with instruction in techniques for management of wild species and their habitat. One 1 1/2-hour lecture and one 3-hour laboratory per week, two of which may be field trips on Saturdays. Prerequisite: ZOOL 220A,B or ZOOL 220. Laboratory/Field Trip fee: \$30.

ZOOL471 - Entomology 471-4 Entomology. Structure, classification, and life histories of insects. Two lectures and two 2-hour laboratories per week. Prerequisite: ZOOL 220A or ZOOL 220. Laboratory/Field Trip fee: \$10.

ZOOL472 - Intro Systems Biology 472-3 Introduction to Systems Biology. (Same as PLB 471) The experimental and bioinformatics analysis of large genomic and post-genomic data sets. The goal is integration of gene regulation, protein interaction, metabolite and hormonal signaling molecules into an understanding of basic cellular circuitry networks. Examine redundancy, robustness and decision making in biological systems. Prerequisite: BIOL 305 or CS 330. Lab fee: \$15.

ZOOL477 - Aquaculture 477-3 Aquaculture. (Same as ANS 477) Production of food, game, and bait fishes. Design of facilities, chemical and biological variables, spawning techniques, diseases and nutrition. Two lectures per week and one four-hour laboratory on alternate weeks. Prerequisites: BIOL 200A or BIOL 211 or ZOOL 118 or ANS 121 with grade of C or better.

ZOOL478 - Animal Behavior 478-3 Animal Behavior. Biological basis of the behavior of animals. Two lectures and one 2-hour laboratory per week. Prerequisite: One year of biological science or permission of instructor.

ZOOL485 - Special Topics in Zoology 485-2 to 4 Special Topics in Zoology. Examination of topics of special interest not available in other departmental courses. Offered in response to student need and faculty availability. Special approval needed.

ZOOL490 - Food Webs and Ecosystems 490-3 Energetics, Food Webs, and Ecosystems. (Same as PLB 490) This course places conservation of particular species into the context of community and ecosystem management. Approaches to quantifying energy needs of individual species will be extended to models of trophic networks among multiple species. Food web structure and function, species interactions, and resilience to species loss species invasions, and environmental changes will be examined in light of landscape processes. Prerequisite: BIOL 307 or consent of instructor.

ZOOL505 - Wildlife Admin & Mgmt 505-2 Wildlife Administration and Management Constituencies. This class will explore what motivates individuals to pursue outdoor activities, why individual user groups are often extremely passionate about their individual outdoor activity, how outdoor activities impact wildlife populations and habitat, outdoor ethics, how to safely interact with individuals who are often in possession of firearms or other potentially dangerous tools that are used for hunting, and how to resolve conflicts between user groups.

ZOOL510 - Evolutionary Biology 510-3 Evolutionary Biology. An introductory survey of evolutionary biology at the graduate level, emphasizing conceptual issues in evolutionary genetics, adaptation, systematics, and macroevolution. Prerequisite: BIOL 305 or equivalent.

ZOOL521 - Stream Ecology 521-3 Stream Ecology. The physical, chemical, and biological factors affecting organisms in streams. Two lectures per week and one four-hour laboratory alternate weeks. Prerequisite: ZOOL 415. Special approval needed from the instructor.

ZOOL530 - Wildlife Diseases 530-3 Wildlife Diseases. Introduction to the causes and nature of diseases of wildlife with emphasis on wild mammals and birds. The relationship of disease to the population ecology of species will be emphasized further. Two lectures and one two-hour laboratory per week. Offered Spring term. Special approval needed from the instructor.

ZOOL532 - Wildlife Toxicology 532-3 Wildlife Toxicology. Fate and effects of environmental toxicants in wildlife. Review of descriptive and mechanistic toxicology for environmental contaminants. Investigation of the relationship between individual and community responses to toxicant exposure. Examination of current hazard assessment protocols and associated regulatory agencies. Prerequisite: ZOOL 468 or consent of instructor.

ZOOL533 - Aquatic Toxicology 533-4 Aquatic Toxicology. This course will provide an overview of concepts and methodology for conducting tests in the field of aquatic toxicology. Specific topics to be covered include: acute and chronic bioassays, bioaccumulation tests including biotransformation processes and toxicokinetics, and modeling techniques using Quantitative Structure Activity Relationships and fugacity modeling. This class is recommended for students interested in learning about the applied methodology used in the rapidly evolving field of aquatic toxicology. Prerequisite: BIOL 307 and CHEM 340 or equivalent, or instructor's permission.

ZOOL534 - Wildlife Habitat Analysis 534-3 Wildlife Habitat Analysis. Physical, biological and behavioral factors that influence habitat use and selection by wild vertebrate populations. Landscape level analysis of wildlife habitats. Modeling habitat suitability, environmental impact and wildlife population dynamics with habitat data. Application and use of remote sensing and geographic information systems in natural resource management and habitat evaluation. One two-hour lecture and one two-hour laboratory per week. Special approval needed from the instructor.

ZOOL535 - Quantitative Zoogeography 535-3 Quantitative Zoogeography. This course focuses on spatial analyses from the perspective of the organism (or a group of organisms) and the role of the environment in shaping its distribution. The course will cover topics associated with species distribution modeling, biodiversity quantification, landscape genetics, animal movement analyses, home range quantification, and landscape conservation prioritization from the perspective of conserving a single species. Prerequisite: familiarity with GIS and consent of instructor.

ZOOL536 - Spatial Analysis in Ecology 536-3 Spatial Analysis in Ecology. This course provides the ecological, GIS and statistical foundations needed to perform spatial analyses of ecological data at the landscape level. The course will cover the conceptual basis and practical application of GIS-based techniques for accounting for spatial autocorrelation, data reduction, batch processing of analyses (in Python, ArcGIS and R), spatial interpolation of spatial data, and building mixed predictive models aimed at assessing landscape level processes. Prerequisite: familiarity with GIS and consent of instructor.

ZOOL540 - Stable Isotope Ecology 540-3 Stable Isotopes in Ecology. This course will introduce students to fundamentals of stable isotope biogeochemistry, analytical techniques, and interpretation and analysis of stable isotope data. Students will become acquainted with a diverse array of applications of stable isotopes in ecological research in terrestrial and aquatic systems. Two lectures or discussions per week. Prerequisite: 6 hours of chemistry, 10 hours of biological science. Special approval needed from the instructor.

ZOOL545 - Ecosystem Ecology 545-3 Ecosystem Ecology. (Same as PLB 545) Fundamentals of and human modification to atmospheric chemistry and cycling of major nutrients in terrestrial ecosystems are covered in the context of global change. Laboratory exercises provide methodology and analytical approaches to studying ecosystem structure and function. Two lectures a week and one four-hour lab alternate weeks.

ZOOL550 - Vertebrate Populations 550-3 Analysis of Vertebrate Populations. This course provides instruction in the estimation of demographic parameters including but not limited to occurrence, abundance, mortality, birth, growth, philopatry, emigration, and immigration. Students will be introduced

to and provided detailed instruction in the use of Program MARK to analyze data from individually marked organisms. Prerequisite: a course in statistics.

ZOOL556 - Phylogenetics 556-3 Phylogenetics. (Same as ANTH 556, MBMB 556, and PLB 556) An advanced introduction to modern methods of phylogenetic inference, emphasizing both theoretical background concepts and numerical approaches to data analysis. Topics include properties of morphological and molecular characters, models of character evolution, tree estimation procedures, and tree-based testing of evolutionary hypotheses. Special approval needed from the instructor.

ZOOL557 - Biostatistics 557-4 Biostatistics. (Same as PLB 557) Basic biostatistics procedures used by researchers in life sciences and related fields. Topics include descriptive statistics, probability and distributions, statistical models, likelihood methods, experimental design, analysis of variance, regression, correlation, and the use of statistical software.

ZOOL558 - Advanced Biostatistics 558-4 Advanced Biostatistics. (Same as PLB 558) Advanced biostatistical procedures used by researchers in life sciences and related fields. Topics include multiple and logistic regression, randomization tests, jackknife and bootstrap, Mantel tests, BACI designs, MANOVA, repeated measures analysis and the use of statistical software. Prerequisite: ZOOL 557, PLB 557 or equivalent.

ZOOL559 - Analytical Toxicology 559-4 Analytical Techniques in Toxicology. This is an advanced class for graduate students interested in the analytical tools used in the field of Environmental Toxicology. Prerequisite: CHEM 340 with C or better.

ZOOL564 - Aquaculture Techniques 564-1 to 2 Aquaculture Techniques. (Same as ANS 564) Practical experience in aquaculture techniques. Course consists of modules which require student participation in hands-on experience, (e.g., spawning, induction of spawning, production of fry, operation and grading, diagnosis and treatment of parasites and diseases, and transporting of fish). One credit for completion of two modules. Register any semester, one year to complete elected number of modules. Written report and examination required for each module. Cost incurred by student varies with modules selected. Prerequisite: ZOOL 477 or ANS 477 or consent of instructor.

ZOOL565 - Environment Physiology of Fish 565-3 Environmental Physiology of Fish. Synthesis of effects of pollutants on physiological processes of fish. Course begins with an overview of fish physiology. Topics include: concepts, methods, and measurements in aquatic toxicology; histopathological, physiological, and behavioral responses to pollutants; and toxicity of heavy metals, organics, particulates and other pollutants. Three lectures per week. Prerequisite: ZOOL 465 or consent of instructor.

ZOOL568 - Fish Stock Assessment 568-2 Fish Stock Assessment. Methods of characterizing fish populations including mortality rates, age growth analysis, population sampling, yield models, habitat evaluation procedures and creel survey techniques. Two one-hour meetings per week. Prerequisite: ZOOL 466 or consent of instructor.

ZOOL569 - Advanced Fisheries Mgmt 569-3 Advanced Fisheries Management. Advanced topics related to the management of fisheries including urban fisheries, native American fisheries, freshwater commercial fisheries, Great Lakes fisheries, impact of power generating plants on fishes, and in-depth consideration of indices of community structure and current topics in fish management. Three lectures per week. Prerequisite: ZOOL 466 or consent of instructor.

ZOOL570 - Advanced Aquaculture 570-3 Advanced Aquaculture. (Same as ANS 570) Special topics in aquaculture and practical methods for the production of coldwater, coolwater, warmwater, and tropical aquatic species. Prerequisite: ZOOL 477 or ANS 477 or equivalent with a grade of C or better.

ZOOL571 - Fish Reproduction & Breeding 571-3 Fish Reproduction and Breeding. (Same as ANS 571) Principles of finfish reproductive strategies, reproductive physiology and captive breeding. The role of genetics and the use of biotechnology and various breeding techniques in breeding programs will also be emphasized. The purpose of this course is to develop an understanding of fish reproduction and breeding techniques and to gain an appreciation of the complexity involved in managing a hatchery breeding program. Two lectures a week and one four-hour lab alternate weeks. Prerequisite: ZOOL 477 or ANS 477 or equivalent with a grade of C or better.

ZOOL573 - Physiological Ecology 573-3 Physiological Ecology. The role of physiological, morphological, and behavioral adaptations and adjustments in the ecology of vertebrate organisms with special emphasis on examining the energy balance and environment as it influences vertebrate ecology. Two hours of lecture and one two-hour laboratory. Prerequisite: BIOL 307 or equivalent. Special approval needed from the instructor.

ZOOL574 - Internship in Wildlife 574-1 to 6 Internship in Wildlife Administration and Management. A minimum 2-month full-time internship will be conducted at a Fish and Wildlife Refuge, National Forest, State Wildlife Area, or other private or publicly held land trust. During the time of the internship, daily activities of the students will be supervised by agency personnel. In collaboration with agency personnel, students will be required to write and submit a land improvement proposal to an appropriate funding agency. Internships must be approved by the Director of the Professional Science Master's program in Zoology. Grading will be based on a rubric outlining student performance during the day to day activities of the internship and the final land improvement proposal.

ZOOL575 - Topics Amphibian Biology 575-3 Topics in Amphibian Biology. Readings, discussions, and student presentations on current research in the biology of amphibians.

ZOOL576 - Seminar in Ecology 576-1-12 hours; 1 per semester Seminar in Ecology. (Same as PLB 589A) Discussions of current and historical research and literature in various subject areas of ecology.

ZOOL577 - Population Ecology 577-3 Population Ecology. Principles of population dynamics as related to animals, with application to management and conservation of animal populations. Areas of emphasis include (A) an introduction to mathematical models and graphical theory of population dynamics, (B) application of theory to population management & conservation, and (C) empirical approaches to studying population persistence and regulation. Prerequisite: BIOL 307 or consent of instructor.

ZOOL578 - Population Genetics 578-3 Population Genetics. (Same as PLB 578) Genetic structure of populations, factors causing changes and principles governing rate and direction of change. Three lectures per week. Prerequisite: BIOL 304 or equivalent, and BIOL 305 or equivalent.

ZOOL579 - Molecular Genetics Techniques 579-3 Molecular Genetics Techniques. Practical experience in molecular genetics techniques currently used in zoology for population genetic analysis and for molecular systematics. Emphasis will be on methods for allozyme, mtDNA and nuclear DNA analysis. Class projects will focus on experimental design, data collection and analysis. Special approval needed from the instructor.

ZOOL580 - Topics in Evolution 580-1 Current Topics in Evolution. (Same as ANTH 580, MBMB 580) The Evolution Discussion Group meets weekly throughout the year to discuss current evolutionary literature and the research of participants. All students and faculty with an interest in evolutionary biology are welcomed to participate.

ZOOL581 - Zoological Literature 581-2 Zoological Literature. Diversity and functions of zoological literatures, scientific writing and the publication process. Two lectures per week. Restricted to graduate status in a biological science.

ZOOL582 - Graduate Zoology Seminar 582-1 to 4 (1,1,1,1) Graduate Zoology Seminar. Special topics in zoology. Consult department for each semester's topic. One meeting per week. Special approval needed from the instructor and department.

ZOOL584 - Conservation Genetics 584-3 Conservation Genetics. Application of principles from evolutionary and ecological genetics to conservation biology, fishery management, wildlife management, and aquaculture. Includes an overview of classical, molecular, population and quantitative genetics leading to an understanding of how managers can conserve genetic diversity and evolutionary potential of natural and captive populations. Prerequisite: BIOL 305 or consent of instructor.

ZOOL585E - Seminar: Reasoning in Ecology 585E-3 per topic Seminar: Reasoning in Ecology. Conceptual issues in ecology and ecological research.

ZOOL585G - Seminar in Parasitology 585G-3 per topic Seminar in Parasitology. Advanced study of special topics in zoology.

ZOOL585Z - Seminar in Selected Topics 585Z-3 per topic Seminar in Selected Topics. Advanced study of special topics in zoology. Special approval needed from the instructor or department.

ZOOL586 - Fisheries Seminar 586-1 Fisheries Seminar. Contemporary topics, literature, and oral and written communication in fisheries science. Enrollment required for zoology graduate students specializing in fisheries science for all fall and spring semesters until degree requirements are completed, unless exempted by the student's academic advisor. Only one 586 credit hour, however, may be used to satisfy degree requirements. One meeting per week.

ZOOL588 - Wildlife Seminar 588-1 to 4 (1,1,1,1) Wildlife Seminar. Contemporary topics, literature, and oral and written communication in wildlife ecology. Enrollment required for zoology graduate students specializing in wildlife ecology for all Fall and Spring semesters until degree requirements are completed. Only four 588 credit hours, however, may be used to satisfy degree requirements. One meeting per week.

ZOOL589 - Zoology Colloquium 589-1 to 2 (1,1) Zoology Colloquium. Regularly scheduled presentations by invited seminar speakers on topics of current research interest in Zoology. Graded S/U. Only two credits of 589 may be used to satisfy degree requirements. Restricted to graduate status in Zoology.

ZOOL593 - Individual Research 593-1 to 12 Individual Research. Investigation in zoology other than those for theses. Only three hours may be credited toward a degree. Some costs may be borne by the student.

ZOOL596 - Research 596-1 to 66 (1 to 12 per semester) Research. Graded S/U only. Credit may not be used toward a degree in Zoology. Special approval needed from the instructor.

ZOOL597 - Advanced Zoological Techniques 597-1 to 12 Advanced Zoological Techniques. Individualized techniques or experimental procedures to prepare for dissertation research. May be taken at another university. Number of credits determined by committee. Graded on S/U basis following final report submitted to major adviser. Restricted to admission to Ph.D. degree program in Zoology. Special approval needed from the major adviser.

ZOOL598 - Research Paper 598-1 to 6 Research Paper. Research paper for Master of Science degree for Biological Sciences major. Some cost may be borne by the student. Graded S/U only. Special approval needed from the instructor.

ZOOL599 - Research & Thesis 599-1 to 36 (1 to 12 per semester) Research and Thesis. Thesis for Master of Science degree. Only six hours may count toward the degree. Some cost may be borne by student. Graded S/U only. Special approval needed from the instructor.

ZOOL600 - Research & Dissertation 600-1 to 32 (1 to 16 per semester) Research and Dissertation. Research and dissertation for Doctor of Philosophy degree. Some cost may be borne by student. Graded S/U only. Special approval needed from the instructor.

ZOOL601 - Continuing Enrollment 601-1 per semester Continuing Enrollment. For those graduate students who have not finished their degree programs and who are in the process of working on their dissertation, thesis, or research paper. The student must have completed a minimum of 24 hours of dissertation research, or the minimum thesis, or research hours before being eligible to register for this course. Concurrent enrollment in any other course is not permitted. Graded S/U or DEF only.

ZOOL699 - Postdoctoral Research 699-1 Postdoctoral Research. Must be a Postdoctoral Fellow. Concurrent enrollment in any other course is not permitted.

Zoology Faculty

Anderson, Frank E., Associate Professor, Ph.D., University of California, Santa Cruz, 1998; 1999. Invertebrates; molecular systematics, molecular evolution.

Anthony, Terence R., Associate Professor, *Emeritus*, M.D., University of Chicago, 1968; and Ph.D., University of Chicago, 1975; 1971.

Boyles, Justin G., Assistant Professor, Ph.D., Indiana State University, 2009; 2011. Conservation physiology.

Brandon, Ronald A., Professor, *Emeritus*, Ph.D., University of Illinois, 1962; 1963.

Brooks, Marjorie, Associate Professor, Ph.D., University of Wyoming, 2003; 2009. Limnology; biogeochemistry; toxicology.

Brown, Jason L., Assistant Professor, Ph.D., East Carolina University, 2009; 2016. Integrated ecological, evolutionary, genetic, and geospatial analysis.

Burr, Brooks M., Professor, *Emeritus*, Ph.D., University of Illinois, 1977; 1977.

Catenazzi, Alessandro, Assistant Professor, Ph.D., Florida International University, 2006; 2012. Amphibian conservation.

Chen, Da., Assistant Professor, Ph.D., College of William and Mary, 2009; 2011. Wildlife toxicology.

Eichholz, Michael W., Associate Professor, Ph.D., University of Alaska, 1998; 2002. Waterfowl, wetland ecology.

Englert, DuWayne C., Professor, *Emeritus*, Ph.D., Purdue University, 1964; 1963.

Feldhamer, George A., Professor, *Emeritus*, Ph.D., Oregon State University, 1977; 1984.

Garvey, James E., Professor, Ph.D., Ohio State University, 1997; 2000. Fisheries biology.

Halbrook, Richard S., Associate Professor, *Emeritus*, Ph.D., Virginia Polytechnic Institute and State University, 1990; 1993.

Heidinger, Roy C., Professor, *Emeritus*, Ph.D., Southern Illinois University Carbondale, 1970; 1970.

Heist, Edward J., Professor, Ph.D., College of William and Mary, 1994; 1998. Population genetics; conservation genetics; fishery management.

Ibrahim, Kamal, Associate Professor and *Director of Graduate Studies*, Ph.D., Cambridge University, 1989; 2001. Population genetics.

Jimenez-Ruiz, F. Agustin, Associate Professor, Ph.D., University of Nebraska-Lincoln, 2004; 2009. Parasitology.

King, David G., Associate Professor, *Emeritus*, Ph.D., University of California, San Diego, 1975; 1977.

Kohler, Christopher C., Professor, *Emeritus*, Ph.D., Virginia Polytechnic Institute, 1980; 1981.

Krajewski, Carey, Professor and *Chair*, Ph.D., University of Wisconsin-Madison, 1988; 1990. Vertebrate molecular systematics.

LeFebvre, Eugene A., Associate Professor, *Emeritus*, Ph.D., University of Minnesota, 1962; 1966.

Lovvorn, James R., Professor, Ph.D., University of Wisconsin-Madison, 1987; 2009. Waterbird ecology; food webs.

Lydy, Michael J., Professor, Ph.D., Ohio State University, 2001. Aquatic toxicology.

McPherson, John E., Jr., Professor, *Emeritus*, Ph.D., Michigan State University, 1968; 1969.

Muhlach, William L., Associate Professor, *Emeritus*, Ph.D., University of Illinois at Chicago, 1986; 1987.

Nielsen, Clay, Adjunct Professor, Ph.D., Southern Illinois University Carbondale, 2001; 2003. Wildlife ecology and management.

Reeve, John, Associate Professor, Ph.D., University of California Santa Barbara, 1985; 2000. Quantitative ecology.

Schauber, Eric M., Associate Professor, Ph.D., University of Connecticut, 2000; 2002. Wildlife ecology.

Shepherd, Benjamin A., Professor, *Emeritus*, Ph.D., Kansas State University, 1970; 1969.

Sparling, Donald W., Associate Professor, *Emeritus*, Ph.D., University of North Dakota, 1979; 2004.

Stahl, John B., Associate Professor, *Emeritus*, Ph.D., Indiana University, 1958; 1966.

Thomas, Richard H., Associate Professor, Ph.D., University of Arizona, 1985; 2004. Molecular evolution.

Waring, George H., Professor, *Emeritus*, Ph.D., Colorado State University, 1966; 1966.

Warne, Robin W., Assistant Professor, Ph.D., University of New Mexico, 2008; 2011. Physiological ecology.

Whiles, Matt R., Professor, Ph.D., University of Georgia, 1995; 1999. Stream ecology; freshwater invertebrates; entomology.

Other Graduate Courses

The 400- and 500-level courses listed below are offered by Southern Illinois University for graduate credit.

Africana Studies Courses

410H - African Expressive Culture 410H-3 African Expressive Culture. (Same as ANTH 410H) This course examines aspects of African expressive culture including the visual arts, music, dance, orature, cinema, drama, and ceremony from an anthropological perspective. Particular attention is given to analysis of African expressive culture in social context and the role of the arts in the practice of politics, religion, medicine, and other aspects of African life. Many of the expressive genres examined deal with historical representation and political resistance. Therefore, this course provides insights into African history and politics through the creation of African artists.

416 - Black Feminist Thought 416-3 Black Feminist Thought as Theory and Praxis. (Same as CMST 416 and WGSS 416) Explore the roots, contemporary manifestations, and current embodiments of Black feminist thought. Explore the works of Black women to engage in critical thinking and thoughtful dialogue that positions the valuable knowledge, experiences and perspectives of women of color at the center of inquiry while simultaneously discovering spaces for multicultural alliances.

420 - Themes in Africana Drama 420-3 Themes in Africana Drama. (Same as THEA 460) Explores significant themes in African and African American drama, with special attention to performance styles and cultural issues.

447 - Comm Race and Ethnicity 447-3 Communicating Race and Ethnicity. (Same as CMST 447) Via intercultural theories and methods, this course explores histories, relationships, interactions and recent events by positioning racial and ethnic perspectives at the center of inquiry. The course critically examines the complexities of race, racism and ethnicity by focusing on how people communicate across racial and ethnic differences in different contexts.

452A - Uppity Women's Blues 452A-3 Traditions of Uppity Women's Blues. (Same as MUS 452A, WGSS 452A) Examines the tradition of "uppity" women's blues from the so-called "classic" blues singers of the 19th century (Gertrude "Ma" Rainey, Bessie Smith, Ida Cox, etc.) to the contemporary blues of Saffire, Denise LaSalle and others. Explores ways blues women challenge conventions of gender and sexuality, racism, sexism, classism, and homophobia. Restricted to junior/senior/graduate music major or consent of instructor.

452B - Blues-BW Piano Styles 452B-3 Blues and Boogie Woogie Piano Styles. (Same as MUS 452B) Traces the history, culture, and stylistic developments of blues and boogie woogie piano. Explores socio-cultural contexts and examines key players, pieces, and musical styles. Restricted to junior/senior/graduate music major or consent of instructor.

458 - Bantu Diasporas 458-3 Bantu Diasporas in Africa & the Atlantic World. (Same as HIST 458) This course examines the origins and development of Bantu language and culture groups in Africa and the Atlantic World from the first dispersal of Bantu-speaking people thousands of years ago through the end of slavery in the Americas. Additionally, the course explores the multiple methods and disciplines used to construct histories of Bantu language and culture groups.

460 - Slavery & The Old South 460-3 Slavery and The Old South. (Same as HIST 460) This course examines slavery and southern distinctiveness from the colonial period to 1861. Discussion topics include the plantation system, race relations, women and slavery, and southern nationalism.

461 - Black Ams on Western Frontier 461-3 Black Americans on the Western Frontier. (Same as HIST 461) This course examines the history of African Americans in the American West. Taking both a chronological and thematic approach, it begins with a discussion of early black explores in the age of encounter, and ends with a focus on black western towns established in the United States by the 1880's.

465 - Govt & Politics Sub-Sahara Afr 465-3 Governments and Politics of Sub-Saharan Africa. An examination of the impact of western colonial rule on the societies and politics of Africa, the method by which these colonial areas became sovereign states in the post-World War II era, the role of domestic political institutions, African political thought and behavior, and the development of foreign policies regarding relations with other African states, continental and international organizations, and international organizations, and non-African states.

472 - Psychology of Race and Racism 472-3 Psychology of Race and Racism. (Same as PSYC 470) A review of the history and evolution of the construct of race as a psychological phenomenon. The persuasiveness of race in every sphere of life will be studied, from a multidisciplinary perspective.

473 - Comparative Slavery 473-3 Comparative Slavery. (Same as HIST 473) A comparative study of slavery from antiquity to its abolition in the 19th century with the differing socio-cultural, political and economic contexts; organized chronologically, regionally, and thematically.

475 - Education & Black America 475-3 Education and Black America. This course uses the best scholarship of cultural anthropology and social studies to look at the history of education in the African American community; how public education affects African American families; how school shape cultural change and how racial, ethnic peer group, and gender issues help determine curriculum issues. For graduate credit.

478 - Southern Africa, 1650-1994 478-3 Southern Africa, 1650-1994. (Same as HIST 478) An examination of Southern African history with emphasis on South Africa from 1652 to 1994. Topics to be covered include conflicts and wars, migrations and state formations, the economics of minerals, industrialization and the Anglo-Boer War, intertwined histories of race relations, the politics of exclusion and apartheid, and the making of modern South Africa.

491 - Indep Reads Africana Studies 491-3 to 6 Independent Readings in Africana Studies. Special topics, focused on research needs of students who are regularly enrolled in upper-division courses, especially graduate students doing research in Africana related topics in other departments and programs. May be repeated for up to six credit hours. Special approval needed from the director of the AFR program.

494 - Methodology Seminar 494-3 Methodology Seminar in Africana Studies. This course provides the theoretical framework for research in the field of Africana Studies. Students will investigate the foundations of the field of Black Studies, from the arguments of Maulana Karenga and Molefi Asante, to the challenges of scholars such as Manning Marable, James Turner and other recent scholars. Students will pursue individual research projects appropriate to various academic disciplines which constitute the field of Africana Studies. May be taken for graduate credit.

495 - African Cultural Continuities 495-3 to 9 African Cultural Continuities: Study Abroad. Study abroad 4-6 week program is designed to introduce similarities in culture (food, dance, music, family traditions, religion) of people in Ghana and in the cultures of people in the African diaspora. Class begins on the SIUC campus and will relocate to Elmina and Cape Coast, Ghana, during the first year of a three-year sequence. Other years will locate in areas of the West Indies, Caribbean & Central America. May be taken for graduate credit. Special approval needed from the instructor.

496 - Slave Narratives 496-3 Slave Narratives. Using compilations of the 19th and early 20th century body of work known as "Slave Narratives", students will organize research projects that discover selected major themes of Africana Studies. The course will be useful to students from various academic disciplines (such as Psychology; Music; Sociology; History; Philosophy; Education; Literature; and Theology, among others) as they place Slave Narratives in the center of Africana and American Studies scholarship. May be taken for graduate credit.

497 - Civil Rights Movement 497-3 The U.S. Civil Rights Movement. (Same as HIST 487) This course provides an overview of the history of the Civil Rights Movement while engaging major debates in the field

of Black Freedom Studies. Central themes will include the impact of the Cold War, the roles of women, and the relationship of civil rights to black power. We will also discuss the difference between popular memory and historical scholarship as well as the meaning of such discussions for contemporary issues of racial and economic justice.

499 - Special Tpcs Africana Studies 499-3 to 9 (3 per topic) Special Topics in Africana Studies. Topics vary and are announced in advance. May be repeated as the topic varies. No prerequisites.

499A - Hist African Amer Philosophy 499A-3 History of African American Philosophy. (Same as PHIL 451) A survey of major thinkers and themes in the history of African American Philosophy from colonial times to the 20th century.

499B - Philosophy of Race 499B-3 Philosophy of Race. (Same as PHIL 455) A survey of critical examination of a range of theories on the nature and meaning of "race", the intersection of race with class and gender, and the promotion of racial progress. Such theories include racial realism and idealism, racial biologism, cultural race theory, social constructivist theory, integrationism, separatism, racial eliminativism, cosmopolotianism, and especially critical race theory.

499C - Topics Africana Philosophy 499C-1 to 6 Topics in Africana Philosophy. (Same as PHIL 459) A seminar on varying topics, themes, and figures in African, African American, and/or Caribbean Philosophy, e.g., "W.E.B. Du Bois and His Contemporaries," "Pan Africanism," "Philosophies of Liberation," "Black Feminism," " Contemporary African Philosophy," "Philosophies of the Caribbean."

Agriculture Courses

550 - Research Teaching Comm 550-3 Research and Teaching Communications. This course is designed to teach graduate students how to communicate successfully their proposed and completed research and to teach college-level courses in the Agricultural Sciences.

581 - Seminar 581-1-4 (1,1,1) Seminar. Oral presentations by individual graduate students. Each Ph.D. student in Agricultural Sciences is required to present their proposed dissertation research project as a seminar and the findings of their dissertation as a seminar. All Agricultural Science Ph.D. students must register for at least two credits of seminar.

582A - Colloquium-Biological Sciences 582A-1-3 Colloquium in Agricultural Science-Biological Sciences. Recent developments in Agricultural Sciences will be discussed in a classroom setting.

582B - Colloquium-Social Sciences 582B-1-3 Colloquium in Agricultural Science-Social Sciences. Recent developments in Agricultural Sciences will be discussed in a classroom setting.

582C - Colloquium-Physical Sciences 582C-1-3 Colloquium in Agricultural Science-Physical Sciences. Recent developments in Agricultural Sciences will be discussed in a classroom setting.

590 - Readings 590-1-4 Graduate Readings in Agricultural Science. Journal articles, chapters and books relevant to a Ph.D. student's research will be read and discussed with their major professor.

591 - Individual Research 591-1-4 Individual Research in Agricultural Science. Directed research in approved specialized topic areas in Agricultural Sciences.

592 - Special Problems 592-1-4 Special Problems in Agricultural Science. Directed study of specialized areas of Agricultural Science, depending on the program of the student.

595 - Instruction in Ag Sciences 595-1 to 6 Instruction in Agricultural Sciences. Acquaints the student with different teaching environments and styles. Students will be expected to participate in instruction of agricultural sciences courses. Special approved needed by the instructor.

600 - Dissertation 600-1-36 (1 to 12 per semester) Dissertation. This course is to be taken during the research and writing of the dissertation. A minimum of 24 hours must be earned for the Doctor of Philosophy degree.

601 - Continuing Enrollment 601-1 Continuing Enrollment. For those Doctoral students who have not finished their degree programs and who are in the process of working on their dissertation. The student

must have completed a minimum of 24 hours of dissertation research before being eligible to register for this course. Concurrent enrollment in any course is not permitted.

Army Military Science

404 - U.S. Military History 404-3 U.S. Military History. This course provides a historical perspective to decisions made by American military leaders; emphasizing solutions to challenges future Army officers might face: battlefield complexity, resource limitations, teamwork deficiencies, etc. The student will learn how former military leaders confronted and coped with similar issues, using their experiences and approaches to arm students with the ability to create their own solutions. Commissioning requirement for Army ROTC cadets. Course not restricted to ROTC cadets.

Aviation

551 - Aviation Policy Law & Reg 551-3 Aviation Policy, Law, and Regulation. (Same as POLS 551) Examination of the history of American aviation policy, law and regulation. The course focuses primarily on the development, implementation and enforcement of aviation policies and regulations at the federal level. Special attention is paid to the interaction of various government agencies and constituency groups, such as the aircraft industry, airport authorities, airlines, private pilots and passengers. In addition to the historical survey, students will analyze current policy and regulatory trends and identify future problems and opportunities for American aviation policy. Restricted to enrollment in MPAA graduate program or consent of instructor.

552 - Adv Airport Administration 552-3 Advanced Airport Administration. (Same as POLS 552) This course will address the role and function of the airport administrator, especially related to the tasks of developing, operating and maintaining various airport services to meet the needs of key airport users. This course will study key airport administration cases at primary, commercial service, reliever and general aviation airports. Meeting key airport regulations concerning operations and security will be a focus of the course. Restricted to enrollment in MPAA graduate program or consent of instructor.

553 - Adv Airport Safety Admin 553-3 Advanced Airport Safety Administration. (Same as POLS 553) The Aviation Safety Administrator's job function and responsibility for safety and accident prevention within an aviation organization is examined using the case study method. The relevant theory, concepts, procedures and techniques of resource allocation, organizational design, decision modeling, task assignment, delegation of authority and responsibility, establishment of organizational goals and priorities and risk management as they relate to Aviation Safety are included. The job functions of an Aircraft Accident Investigation Team and of an Aviation Safety Inspector will be studied. Aviation safety administration literature will be reviewed. Restricted to enrollment in MPAA graduate program or consent of instructor.

554 - Aviation Planning 554-3 Aviation Planning. (Same as POLS 554) Examination of aviation planning at the international, federal, state and local levels. The course focuses primarily on federal aviation planning, but considerable attention is paid to the interdependent relationship between the various levels of planning. Special attention is paid to the planning process and the role of various agencies and client groups within the aviation community. Restricted to enrollment in MPAA graduate program or consent of instructor.

Biochemistry

451A - Biochemistry 451A-3 Biochemistry. (Same as CHEM 451A and MBMB 451A) First half of the 451A,B two semester course. Must be taken in A,B sequence. Three lectures per week. Introduction to biomolecules, biochemical techniques, expression of genetic information, basic thermodynamics, ligand binding, aqueous solutions, protein structure, hemoglobin, spectroscopy. Prerequisites: CHEM 340 and CHEM 342 or 442, or equivalents.

451B - Biochemistry 451B-3 Biochemistry. (Same as CHEM 451B and MBMB 451B) Second half of 451A,B two semester course. Must be taken in A,B sequence. Basic kinetics, enzyme kinetics, enzyme inhibitors, regulation of enzymes, oxidation-reduction, high energy bonds, transport across membranes,

intermediary metabolism, hormonal control of metabolism. Prerequisites: MBMB 451A or BCHM 451A or CHEM 451A or equivalent.

456 - Biophysical Chemistry 456-3 Biophysical Chemistry. (Same as CHEM 456 and MBMB 456)
A one-semester course in Biophysical Chemistry intended for biochemists and molecular biologists. Emphasis will be on solution thermodynamics, kinetics and spectroscopy applied to biological systems. Prerequisites: CHEM 340 and CHEM 342 or 442, MATH 141 or 150, MBMB 451A or BCHM 451A or CHEM 451A, or equivalents.

Electrical Engineering Technology

403A - Electronic Circuit Analysis 403A-4 Electronic Circuit Analysis. This course studies fundamental solid-state electronic concepts, the application and design of transistor amplifiers, and operational amplifier circuits. Course topics include the ideal operational amplifier, diodes, rectifiers, analysis and design of bipolar transistor (BJT) amplifiers, and the analysis and design of field effect transistor (FET) amplifiers. A laboratory emphasizes electronics circuit design and analysis. Prerequisite: EET 304B. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

403B - Electronic App & Design 403B-4 Electronics Application and Design. This course focuses on system-level design and application of electronics circuits. Circuits include linear integrated circuits, quasi-linear circuits, integrated digital circuits, and pulse waveform generating and timing circuits. Topics include power amplifiers, Schmitt triggers, comparators, timers, and active filters. A design laboratory allows students to implement several design projects with increasing complexity. Prerequisite: EET 403A. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

437A - Telecomm Systems Fundamentals 437A-4 Telecommunication Systems Fundamentals. This course is a study of the fundamental concepts of analog and digital communication systems in addition to a survey of the state of the art of current and emerging communication technologies. Topics include modulation, signal encoding, transmission media, multiplexing, cellular, bluetooth, Wi-Fi, WiMAX and LTE-Advanced. Associated labs reinforce the concepts introduced and allow students to simulate and build real systems. (Lecture + Lab). Prerequisite: EET 304B with a minimum grade of C. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

437B - Data & Computer Communication 437B-4 Data and Computer Communication. This course is a study of data and computer networks. Students are introduced to communication protocols, networking technologies and the various computer networks topologies. The OSI (Open Systems Interconnection) model is used as a guide in introducing the purpose and underlying principles of the existing communication protocol standards. The course concludes with an overview of emerging communication standards and technologies. Topics include LAN, WAN, TCP/IP, Routing, and Data Link layer. Associated labs reinforce the concepts introduced and allow students to simulate and build real systems. Lecture + Lab. Prerequisite: EET 437A with a minimum grade of C. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

438A - Automatic Cntrl Systems Tech 438A-4 Automatic Control Systems Technology. The mathematical concepts and tools used to model and design automatic control systems. The mathematical models for electric, hydraulic, mechanical and thermal processes found in industry. The course uses Laplace transforms, transfer functions, block diagrams and signal flow graphs to represent systems, determine system response and design control systems. A laboratory demonstrates applications. Prerequisites: EET 304B with a C or better, or consent of instructor; and EET 332A.

438B - Seq Digital Control & DAQ 438B-4 Sequential Digital Control and Data Acquisition. Concepts and components used in data acquisition and sequential control systems. The course covers sensors, signal conditioning, analog-to-digital/digital-to-analog conversion devices, relay logic design and programmable logic controllers. A laboratory demonstrates lecture topics and gives students experience with data acquisition and control languages and ladder logic programming within a design team. Prerequisites: CS 202 or ENGR 222 or ECE 222 with a C or better; EET 438A with a C or better, or consent of instructor.

439 - MCU Application & Design 439-4 Microcontroller Application and Design. This course introduces embedded systems design and microcontroller programming. Students study microcontroller architectures and design applications. The course emphasizes interfacing microcontrollers with sensors and actuators. Software tools like Matlab and Simulink aid in visualization and Model-Based Design. Prerequisites: EET 238 with a C or better; CS 202 or ENGR 222 or ECE 222 with a C or better; or consent of instructor.

445 - Computer Integrated Mfg 445-3 Computer-Integrated Manufacturing. (Same as IMAE 445) Introduction to the use of computers in the manufacturing of products. Includes the study of direct and computer numerical control of machine tools as well as interaction with process planning, inventory control and quality control. Prerequisite: IMAE 208. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

455 - Industrial Robotics 455-3 Industrial Robotics. (Same as IMAE 455) Study of robotics within a wide variety of application areas. Topics covered include classification of robots, sensor technology, machine vision; control systems, including programmable logic controllers (PLCs); robot safety and maintenance; and economic justification of robotic systems. Prerequisite: None. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

Fashion Design and Merchandising

431 - Ethnic Dress 431-3 Ethnic Dress. The study of ethnic dress in non-western cultures, with attention to aesthetics, symbolism and uses of ethnic dress. Cultures studied may vary with each offering. May be repeated for credit.

432 - Historic Clothing: Western 432-3 Historic Clothing: Western Cultures. Development of clothing in Western civilization to 1850. Consideration of social, economic, aesthetic factors and technical innovations influencing clothing.

433 - Hist West Costume 1860-Present 433-3 History of Western Costume, 1860 to Present. Evolution of Western costume from 1860 through the present time. Emphasis on the interrelationship between costume, social, political, economic, and technical changes.

441 - Fashion Product Analysis 441-3 Fashion Product Analysis. Examines how quality and value of apparel products are visually evaluated by industry and consumers. Prerequisite: FDM 101, 241.

Fermentation Sciences

460 - Sensory Analysis 460-4 Sensory Analysis. The course covers the science of the human senses as applied to alcoholic beverages. The physiological and neurological basis of human sensing are covered from the perspective of detecting and identifying both desirable traits and perceived flaws in products. The concepts of experimental design and statistical analysis are covered, as well as practical aspects of designing and maintaining sensory panels. Two hours lecture and three hours laboratory per week. Prerequisite: CHEM 181 or HORT 333 with a grade of C or better or consent of instructor. Age Restricted: Students must be 21 years of age prior to first lab meeting. Lab fee: \$45.

462 - Yeast Science & Technology 462-4 Yeast Science and Technology. An in-depth look at yeast from the perspective of fermentation science, with an emphasis on brewing science and enology. The effects of genetics will be examined with respect to how various strains and genetic mutations affect the fermentation process and the quality of the final product. The course will emphasize yeast metabolism and the various parameters and conditions that affect fermentation processes. The techniques dealing with yeast collection, storage and culturing will be covered from both theoretical and practical perspectives. Lectures will be supplemented with hands-on laboratory experiments. Two hours lecture and four hours laboratory per week. Prerequisite: MICR 301 with a grade of C or better or consent of instructor. Lab fee: \$60.

480 - Advanced Brewing Science 480-4 Advanced Brewing Science and Analysis. An advanced coverage of concepts in brewing, providing in-depth coverage of beer, brewing and quality control processes. Students will gain an understanding of the raw materials used in the production of beer. Specific coverage will be given to the processing and effects of raw materials, technical and scientific

aspects of the brewing process, and the various processes that occur during fermentation, conditioning and packaging. In addition, the concept of beer quality and methods of ensuring quality control will be covered in detail, including the various methods of analysis that are used in the brewing industry. Two hours lecture and four hours laboratory per week. Age Restricted: Students must be 21 years of age prior to the first class meeting. Prerequisite: CHEM 180, CHEM 181, FERM 100 and CHEM 330 all with grades of C or better or consent of instructor. Lab fee: \$60.

489 - Brewing and Distilling 489-3 Brewing and Distilling Technology. The primary focus of this course is to introduce basic facilities planning for operations of the brewing and distilling industry, and to gain management and technology insight in brewing/distilling production. Prerequisite: FERM 480 with a grade of C or better. Restricted to Junior/Senior standing in Ag Systems Technology or Fermentation Science and instructor approval.

Industrial Management and Applied Engineering

405 - Applied Robotics & Control 405-4 Applied Robotics and Control Lab. Laboratory experiments to familiarize the student with writing robotic programs for performing specific tasks, developing and debugging PLC code, integrating robotic programming and PLC programming in the control of a robotics cell, developing basic programming skills using computer simulation packages; milling and lathing applications of CNC machining. Prerequisite: IMAE 445 or ET 445 and IMAE 455 or concurrent enrollment in both. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

430 - Health/Injury:Work Setting 430-3 Health and Injury Control in a Work Setting. (Same as PH 430) Assesses the health and injury control programs present in a work setting. Emphasis given to employee programs in health, wellness, and injury control that are effective. Field trips to work sites are included. Restricted to College of Engineering students or departmental approval required.

440 - Manufacturing Policy 440-3 Manufacturing Policy. Review of all areas covered by the industrial technology program. Includes problems which simulate existing conditions in industry. Students present their solutions to the class and to the instructor in a formal manner. Restricted to College of Engineering students or departmental approval required.

445 - Computer Integrated Mfg 445-3 Computer Integrated Manufacturing. (Same as EET 445) Introduction to the use of computers in the manufacturing of products. Includes the study of direct and computer numerical control of machine tools as well as interaction with process planning, inventory control and quality control. Prerequisite: IMAE 208. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

450 - Project Management 450-3 Project Management. This course is designed to provide students with an overview of the project management process followed by an in-depth examination of the activities needed to successfully initiate, plan, schedule, and control the time and cost factors of the project. Prerequisite: none. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

455 - Industrial Robotics 455-3 Industrial Robotics. (Same as EET 455) Study of robotics within a wide variety of application areas. Topics covered include classification of robots, sensor technology, machine vision; control systems, including programmable logic controllers (PLCs); robot safety and maintenance; and economic justification of robotic systems. Prerequisite: None. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

465 - Lean Manufacturing 465-3 Lean Manufacturing. This course will cover the principles and techniques of lean manufacturing. Major topics covered include lean principles, 5S, value stream mapping, total productive maintenance, manufacturing/office cells, setup reduction/quick changeover, pull system/Kanbans, continuous improvement/Kaizen, lean six sigma, lean simulation, and other modern lean manufacturing techniques and issues. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

470A - Six Sigma Green Belt 470A-3 Six Sigma Green Belt. Study the knowledge areas of Six Sigma Green Belt. Topics include six sigma goals, lean principles, theory of constraints, design for six sigma, quality function deployment, failure mode and effects analysis, process management, team dynamics,

project management basics, data and process analysis, probability and statistics, measurement system analysis, and process capability. Restricted to Junior/Senior standing. Restricted to College of Engineering students or departmental approval required.

470B - Six Sigma Green Belt II 470B-3 Six Sigma Green Belt II. The objective of this course is to provide the student with a complete coverage of the statistical and analytical tools used and applied in the "Six Sigma" methodology at the green-belt level. Topics include: discrete probability distributions, continuous probability distributions, statistical process control tools, quality control charts, process capability analysis, gauge and measurement capability studies, cumulative sum control charts and exponentially-weighted moving average control charts. Prerequisite: IMAE 307 or MATH 140 or MATH 150, IMAE 470A or consent of instructor. Restricted to Junior/Senior standing. Restricted to students with junior, senior or graduate standing in the College of Engineering except when approved by department.

475 - Quality Control 475-3 Quality Control. Study the principles and techniques of modern quality control practices. Topics include total quality management, fundamentals of statistics, control charts for variables and other quality related issues and techniques. Restricted to senior standing. Restricted to College of Engineering students or departmental approval required.

485 - Quality Control II 485-3 Quality Control II. Study the principles and techniques of modern quality control practices. Topics include fundamentals of probability, control charts for attributes, acceptance sampling systems, reliability and other quality related issues and techniques. Restricted to senior standing. Restricted to College of Engineering students or departmental approval required.

490 - Six Sigma 490-3 Six Sigma. Six Sigma is a data-driven management system with near-perfect-performance objectives that has been employed by leading corporations. Its name is derived from the statistical target of operating with no more than 3.4 defects per one million chances, but its principles can be applied in business of all types to routinely reduce costs and improve productivity. This overview describes what Six Sigma is, and what is techniques and tools are. Prerequisite: IMAE 475. Restricted to College of Engineering students or departmental approval required.

Medical Education Preparation

503B - Medical Pharmacology 503B-1 to 3 Medical Pharmacology. Content may be supplemental (to concurrent biological science courses), additional (permitting acceleration), or preparational for the MCAT/DAT. Restricted to MEDPREP students enrolled in Master's level program.

503E - Medical Immunology 503E-1 to 3 MEDPREP Medical Immunology. Content may be supplemental (to concurrent biological science courses), additional (permitting acceleration), or preparational for the MCAT/DAT. Restricted to MEDPREP students enrolled in Master's level program.

504E - Biochemistry 504E-1 to 3 Biochemistry. Content may be supplemental (to concurrent biological science courses), additional (permitting acceleration), or preparational for the MCAT/DAT. Restricted to MEDPREP students enrolled in Master's level program.

Microbiology

403 - Medical Microbiology 403-3 Medical Microbiology Lecture. (Same as MBMB 403) A survey of the more common bacterial, mycotic and viral infections of humans with particular emphasis on the distinctive properties, pathogenic mechanisms, epidemiology, immunology, diagnosis and control of disease-causing microorganisms. Three hours lecture. Spring semester. Prerequisite: MICR 301, or consent of instructor.

405 - Clinical Microbiology 405-3 Clinical Microbiology. (Same as MBMB 405) This course will be offered in Springfield only. A comprehensive course for health science professionals covering the biology, virulence mechanisms, and identification of infectious agents important in human disease and host-defense mechanisms. Clinical applications emphasized. Three hours lecture. Prerequisite: MICR 301, or consent of instructor.

421 - Biotechnology 421-3 Biotechnology. (Same as MBMB 421) Topics covered will include the genetic basis of the revolution in biotechnology, medical applications including genetic screening and therapeutic

agents, industrial biotechnology and fermentation, and agricultural applications. Three hours lecture. Fall semester. Prerequisite: MICR 302, or consent of instructor.

423 - Geomicrobiology 423-3 Geomicrobiology. (Same as MBMB 423 and GEOL 423) The course will focus on the role that microorganisms play in fundamental geological processes. Topics will include an outline of the present understanding of microbial involvement of weathering of rocks, formation and transformation of soils and sediments, and genesis and degradation of minerals. Elemental cycles will also be covered with emphasis on the interrelationships between the various geochemical cycles and the microbial trophic groups involved. Prerequisite: MICR 301 and CHEM 210 and 211. Recommended: GEOL 220, 221 or 222.

441 - Viruses and Disease 441-3 Viruses and Disease. (Same as MBMB 441) An intensive, lecture-based course in virology which will emphasize principles of molecular virology, the ubiquity of viruses in nature, evolutionary relationships between viruses, co-evolution between virus and host, and the pathogenic consequences of some viral infections (e.g., AIDS, hepatitis, cancer, etc.). Prerequisites: MICR 460 or MBMB 460 or consent of instructor.

453 - Immunology Lecture 453-3 Immunology Lecture. (Same as MBMB 453) Principles of molecular and cellular immunology. Particular emphasis is given to molecular mechanisms involved in activation and maintenance of the immune response at the basic science level. The role of the immune system in medical diagnostic procedures and in human health is also discussed. Spring semester. Prerequisite: MICR 403, or consent of instructor.

454 - Soil Microbiology 454-4 Soil Microbiology. (Same as CSEM 454, PSAS 454) A study of microbial numbers, characteristics, and biochemical activities of soil microorganisms with emphasis on transformation of organic matter, minerals, and nitrogen in soil. Prerequisite: MICR 301 or CSEM 240. Lab fee: \$15.

455 - Medical Immunology 455-2 Medical Immunology. (Same as MBMB 455) This course will be offered in Springfield only. A survey of the components of the immune system and how they interact with each other to produce responses that are important in the control or mediation of human disease. Two hours lecture. Prerequisite: MICR 301 or consent of instructor.

460 - Bacterial & Viral Genetics 460-3 Bacterial and Viral Genetics. (Same as MBMB 460) The genetic mechanisms and regulatory events that control gene transfer, lambda phage infection, recombination, and metabolic pathways including a brief introduction to bioinformatics, genome analysis and global regulatory functions. Three hours lecture. Fall semester. Prerequisite: MICR 301 and 302, or consent of instructor.

470 - Prokaryotic Diversity 470-3 Prokaryotic Diversity Lecture. (Same as MBMB 470) A consideration of the major groups of prokaryotes with special emphasis on their comparative physiology and ecology. Three hours lecture. Spring semester. Prerequisite: MICR 301 or consent of instructor.

477 - Microbial Ecology 477-3 Microbial Ecology. (Same as MBMB 477) Concepts of ecology applied to microorganisms; methods in microbial ecology; interactions of microbes with their living and non-living environment; microbial habitats and functions. Roles and regulation of microbes in natural and man-made environments, from cellular to community level. Prerequisite: MICR 301 or instructor's consent (based on proven background in both microbiology and ecology).

480 - Molecular Biology of Micro Lab 480-4 Molecular Biology of Microorganisms Laboratory. (Same as MBMB 480) Genetic and biochemical analyses of microorganisms using a variety of techniques in molecular biology, molecular genetics and biotechnology. Six hours laboratory per week plus two hours of supervised unstructured laboratory work in most weeks. Fall semester. Prerequisite: MICR 301 and 302 with a C grade or better and two (or concurrent enrollment in two) of the following: MICR 421, 423, 425 or 460. Lab fee: \$60.

481 - Diagnostic & Applied Micr Lab 481-4 Diagnostic and Applied Microbiology Laboratory. (Same as MBMB 481) Enrichment and isolation of prokaryotes from natural samples, diagnostic methods for the identification of pathogenic bacteria, and the nature of the immune response. Six hours laboratory per week plus two hours supervised unstructured laboratory work in most weeks. Spring semester.

Prerequisite: MICR 301 and 302 with a C grade or better and two (or concurrent enrollment in two) of the following: MICR 403, 453 or 470. Lab fee: \$60.

Science

500 - Sci Information Sources 500-2 Science Information Sources. Methods and procedures to efficiently exploit the scientific literature are discussed. The two-hour class discussion will be supplemented by practical exercises in library usage. Special approval needed from the instructor.

501A - Transmsion Electron Micr 501A-2 Research Transmission Electron Microscopy. Theory of design of electron microscope, lenses, vacuum systems, alignment, specimen preparation and darkroom.

501B - Trans Electr Micro Lab 501B-2 Research Transmission Electron Microscopy. Practical experience in use of transmission electron microscope and specimen preparation.

502A - Scanning Electron Microscop 502A-2 Research Scanning Electron Microscopy. Theory of design for scanning electron microscope, lenses, vacuum systems, alignment, specimen preparation for biologists and materials scientists, darkroom. Laboratory fee: \$100.

502B - Scan Electron Microscope Lab 502B-2 Research Scanning Electron Microscopy. Laboratory practical experience in use of scanning electron microscope and specimen preparation. Laboratory fee: \$100.

503A - Science for Elem Ed Teacher 503A-1 to 3 Science for Elementary School Teachers. In-depth studies of selected basic concepts in general science for teachers of upper-level elementary grades. Topics include cells and simple organisms, characteristics of vertebrates, plate tectonics, solar system, nature of matter and magnetism. Prerequisite: currently teaching in an elementary school.

503B - Science for Elem Ed Teach 503B-1 to 3 Science for Elementary School Teachers. In-depth studies of selected basic concepts in general science for teachers of upper-level elementary grades. Topics include human biology, characteristics of high plants, Earth's building blocks, the atmosphere, forces and simple machines. Prerequisite: currently teaching in an elementary school.

504A - Selected Topics 504A-9 (1 to 3 per topic) Selected Topics in Science for Teachers-Basic Stream Ecology. The course consists of selected basic concepts in general science for practicing teachers. Within a given semester a broad area is selected within either the biological sciences or the physical/earth sciences. Other topics may be added as deemed necessary. This course may not be used for graduate credit by College of Science majors. Prerequisite: currently teaching in an elementary school.

504B - Selected Topics 504B-9 (1 to 3 per topic) Selected Topics in Science for Teachers-Biological Assessment of Polluted Streams. The course consists of selected basic concepts in general science for practicing teachers. Within a given semester a broad area is selected within either the biological sciences or the physical/earth sciences. Other topics may be added as deemed necessary. This course may not be used for graduate credit by College of Science majors. Prerequisite: currently teaching in an elementary school.

504C - Selected Topics 504C-9 (1 to 3 per topic) Selected Topics in Science for Teachers-Wetland Ecosystems. The course consists of selected basic concepts in general science for practicing teachers. Within a given semester a broad area is selected within either the biological sciences or the physical/earth sciences. Other topics may be added as deemed necessary. This course may not be used for graduate credit by College of Science majors. Prerequisite: currently teaching in an elementary school.

Catalog Year Statement:

Students starting their collegiate training during the period of time covered by this catalog (see bottom of this page) are subject to the curricular requirements as specified herein. The requirements herein will extend for a seven calendar-year period from the date of entry for baccalaureate programs and three years for associate programs. Should the University change the course requirements contained herein subsequently, students are assured that necessary adjustments will be made so that no additional time is required of them.
